Pier No. 3 E.-side =2 cranes about 3 tons.
Pier No. 3 W.-side =4 cranes about 2 tons.
6 cranes about 10 tons.
Pier No. 4 E.-side =6 cranes about 6 tons.
Pier No. 4 W.-side =3 cranes about 6 tons.

One floating crane with 100 tons capacity.

About 8 tugs, 600–1,000 h.p. tugs are also used as Pilot boat and to bring information and boarding party out to vessels at the anchorage.

One fresh water barge.

Three oil-barges, about 150; 500 and 800 tons.

Medium size shipyard, building vessels up to about 25,000 tons.

SHIPMASTER'S REPORT: September 1979.

Dairen (Ta-Lien) Dry Cargo Harbour:

1. Maximum size and d.w.t.: No restriction.

Draft (Charter Party) 34 ft., but verbally assured to be 35 ft. Probably 35 ft. berthing on rising tide, and discharging to remain, "always afloat" before the next LW.

No port handbook available.

2. (1) ETA's as per Charter Party and Owner's instructions.
(2) Radio Pratique not available.
(3) Pilotage. *(a)* Contact through Dairen Port Radio on Channel 16 VHF who will pass message. The Pilots are not in direct VHF communication with the ships, but do have walkie/talkie communication with the tugs.
(b) Pilots board from a tug at the anchorage.
(c) Pilotage is compulsory from the anchorage, and for shifting in the port.
(d) Pilots are on a three shift system and available at any time. Berthing, shifting, and/or sailing may be carried out at any hour of the day or night. Estimated berthing/shifting times were not updated, and were considerably earlier than initially estimated.

(4) On arrival, anchor without Pilot in the quarantine anchorage as shown on BA Chart No. 3694. Straightforward approach, without hazards into spacious anchorage with good holding ground. If quarantine anchorage is busy, anchor as close as may be practical to the North-Eastwards.

(5) Lighthouses operating normally, and no special hazards noted.

(6) Do not approach within one mile radius of Huang-Pai Tsui Light in position: Lat. 38° 51.9′ N., Long. 121° 42.8′ E., or within 2.5 miles from Nan-San-Shan Tao Island South Light in position: Lat. 38° 51.9′ N., Long. 121° 49.37′ E., or within the area to the North-Westwards of Encounter Rock in position: Lat. 38° 34.5′ N., Long. 121° 38.5′ E. which remain as designated prohibited areas.

(7) *(a)* Advise Dairen Harbour Radio on VHF Channel 16, your approach time and time and position of anchoring. Such advice is passed to Dairen Harbour Office.

(b) Telephone communication with the Agents office can be arranged through Dairen Harbour Radio. Calling on Channel 16, working on Channel 9.

(c) At anchor, whilst waiting a berth, monitor Dairen Harbour Radio on Channel 16, especially at 1100 and 1600 hrs. when Agents pass berthing instructions and other information on a schedule basis. The ship may contact the Agents by day or night at any time through Dairen Harbour Radio on Channel 16, whether anchored or alongside. The Agents office is open 24 hours a day.

(d) On no account is the main radio transmitter to be used after entering the harbour limits, and until well clear of the port after sailing. This rule is one of the few remaining from previous times, but must be strictly observed.

3. There are two modern tugs of 3,000 h.p., three tugs of 2,000 h.p., and three tugs of 1,600 h.p., in addition to the numerous smaller tugs. The two modern tugs use their own lines which are very heavy and difficult to handle. Other tugs use lighter lines, or ship's lines, without difficulty. Tugs are generally well handled and controlled. Two tugs used at each operation.

4. *Berths:* There are three main piers, each about 600 m. long, (Grain Silo on No. 1 Pier) with wharfage each side, and at the ends. All are well supplied with 5 tons SWL cranes, and have shed storage centrally. Also other berths available. There was no reliable information regarding the depth of water alongside at the other berths, but it would appear that about three ships of around 34 ft. draft could be accommodated simultaneously. There are regular ferry services between Dairen/Japan and Dairen/Shanghai, in addition to numerous other ferries which appear to be Chinese coastal traffic.

5. *Repairs:* Agents advice verbally was that hull, engine, and electrical repairs could be carried out, including winding of electric motors. Underwater cleaning of the hull can also be arranged.

6. *(a)* Provisions are mainly good, and reasonably priced. Worth purchasing most items when found available.

(b) Fresh water was available and good. Said to be available from most wharves, but we were supplied from a waterboat, as we were not allowed to take the supply from the wharf during discharge of grain.

(c) Fuel oils available. Diesel oil shipped was of good quality.

(d) Lubricating oil doubtful, but perhaps available in an emergency as this is a very busy and important shipping port.

(e) De-ratting exemption certificate renewed.

(f) Good and efficient medical facilities.

(g) Agent advised that there were no consular services.

(h) Mail service to Japan said to take up to one week, and to Europe or U.S.A. about 10–14 days. We received mail posted in Japan 6 days previously, but this mail might have arrived earlier as it was only delivered on ship's arrival.

7. Cargo consisted of 30,000 metric tons of American soft red Winter wheat. Discharging was effected by grabs into railway wagons, although we were berthed at the grain silo. Appeared to be no facilities for any other type of discharge.

Four gangs were employed round the clock, on shift system. Highest discharging rate 8,000, and lowest 500 m/tons per day. The reason for the fluctuations was the erratic availability of railway wagons. Grab drivers were not very skilled at clearing the hold bottoms, and time was lost there. No bulldozers were used, and the only mechanical aid was a grain trimmer which was used to transfer the grain from the wings into the centre of the hatches, but this was not very effective, and eventually the bottoms were all cleared using savealls on nets, and shovelling up the grain.

8. Rescue and Distress organisation not located.

9. As at this time, written rules and regulations are not available for either National or local conditions, but the "Old Regulations" have definitely been dropped, and a relaxed, friendly atmosphere now exists.

Documentation for Arrival:

Chinese forms only, are acceptable, except for the Crew Lists which were made on standard IMCO forms, and articles restricted for use in port. (Bonded and Stewards store lists).

(1) Report of entry for foreign-going ship. (Original and one copy).
(2) Crew Lists. (Four copies).
(3) Report of articles restricted for use in port. (One copy).
(4) Import Manifest.
(5) List of Specified Articles, Foreign Currency, Gold, Silver, as belonging to the ship and/or members of the crew (1 copy).
(6) Maritime Declaration of Health. (One copy).

Papers submitted for examination:

Ship's Register.
Tonnage Certificate. (Not examined).
Loadline Certificate. (Not examined).
De-Ratting or De-Ratting Exemption Certificate.
Tonnage Tax Certificates. (Not available in our case).

The boarding party consisted of two each Port Health, Frontier Guards, Customs, Agents, and Harbour Office officials. Chinese forms "Report of Entry" and "Maritime Health Declaration" completed during initial boarding, but the List of Specified articles was completed and handed to the Customs official on berthing alongside. Money and shore passes were received on berthing alongside, but mail was delivered to the ship at the anchorage.

Frontier guard stationed at the foot of the gangway. Shore passes, Passports or Seaman's Books examined on every occasion of going ashore or coming aboard. A further checkpoint existed at the dock gate where Passports only were sighted on leaving and returning to the dock area.

Foreign currency could be freely exchanged at the Seaman's Club or the Friendship Store. Mandatory to return all Chinese currency prior to leaving the port.

Documents required before departure:

Report of Clearance. (One copy).
Crew Lists, (4 copies, but only required in the case of crew replacements, stating the reason therefore. If no changes, no crew lists required.)
Export Manifest. (One copy, but 2 if carrying dangerous cargo).
List of Cash returned. (5 copies. Two to the ship. Two to the Agent, and one to the Customs).
All shore passes to be returned without fail. (Counted and Examined).
All Seaman's Books/Passports (scanned and counted).

10. Very much relaxed regulations now in force. There was no thorough search and inspection of the ship and crew on arrival and departure, as previously. Regulations appear to have been revised about June 1979.

The bonded stores were not sealed up, and there was no restriction on usage other than that all items had to remain on board.

The old rules regarding the use of radar and other electronic navigational aids, have been lifted, and there is now no restriction whatsoever on their use. The prohibition on fishing by crew whilst at anchor, has also been lifted, as has the prohibition of chipping overside.

The only restriction imposed was regarding the use of the main Radio Transmitter, which was not to be operated whilst the ship was in the Harbour Area.

Oil and dirty ballast pollution regulations, are of course to be strictly observed at all times.

The grain cargo was thoroughly inspected for damage from sea water or other, and for insect infestation, prior to berthing. The inspection was carried out by 4 Chinese Government Agricultural Officials.

The Agent advised verbally that if the ship arrived at 34.5 ft. draft, it could be accommodated, and even up to 35 ft. draft maximum. However, in such case, it would probably mean that vessel would berth on a half flood tide, so that with a quick initial discharge into waiting rail transport, it would thus be possible to remain "always afloat" at the next LW.

The Agents are both willing and helpful.

Inspection was carried out for renewal of the De-Ratting Exemption Certificate, and the officials (three) advised that the inspection was completed and satisfactory, and that the new Certificate would be delivered to the ship through the Agents.

It is prudent to call the Agents by telephone in good time prior to completion of discharge and update the estimated completion time, so that they may advise the officials, Pilots and tugs as necessary.

SHIPMASTER'S REPORT: September, 1980.

This is a brief report on port information obtained when vessel (42,764 g.r.t. 75,877 d.w.t.) called at Dairen, China in September, 1980 for loading Daqing Crude Oil.

Oil Terminal: Position 38° 59′ N., 121° 54′ E.

Documents:

To be submitted to the port officials:

a)	Crew Lists (Chinese Form)	6 copies
	* Japanese crew members are required to fill in their names and address in Chinese characters	
b)	Report of entry for foreign-going ship (Chinese Form)	2 copies
c)	Maritime Declaration of Health	1 copy
d)	Import Manifest (Free Form)	1 copy
e)	List of specified articles, foreign currencies, gold, silver belonging to ship and/or member of crew (Chinese Form)	1 copy
	* Specified articles mean watch, camera, recorder and transistor radio, etc.	
f)	Vaccination List (Free Form)	1 copy
g)	Application for discharge of dirty ballast water to shore facility (Chinese Form)	1 copy
h)	Application for discharge of segregated ballast water into sea (Free Form)	1 copy
	* Store List is not required	
	* Chinese Forms are obtainable by the Agent	

To be shown to the Port Officials:

a) Ship's Register
b) Last Port Clearance
c) Deratting Certificate
d) Load Line Certificate
e) Safety Equipment Certificate
f) Safety Construction Certificate
g) Safety Radiotelegraphy Certificate
h) Oil Record Book
i) Certificate of Financial Security in respect of Civil Liability for Oil Pollution Damage
j) Discharge Books, Passports and Yellow Cards

Pilotage: Compulsory for berthing and unberthing at the oil jetty. Pilot boards about 5 miles E.S.E. of the jetty.

No pilot boat, tug used.

Anchorage: Quarantine anchorage surrounded by the following four points is established:

a) 38° 56′ 48″ N., 121° 59′ 00″ E.
b) 38° 56′ 48″ N., 122° 02′ 00″ E.
c) 38° 55′ 42″ N., 122° 02′ 00″ E.
d) 38° 55′ 42″ N., 121° 59′ 00″ E.

Nature of bottom is mud, depth of water 27 m. to 35 m.

Restrictions: Entering formalities, so-called "General Examination" made, as a general rule, during day time only by the Port Officials of Quarantine, Immigration, Customs and Harbour Superintendency Administration.

Berthing and sailing operations take place 24 hours a day with the exception that the vessel does not berth on Berth No. 2 during night time.

Berths: There are 2 tanker berths on the oil jetty with a length of about 400 m. and depth of 17 m. at Berth No. 1, 14 m. at Berth No. 2.

Max. Size:

Berth No. 1: 100,000 d.w.t., LOA approx. 260 m., max. draft 15 m.
Berth No. 2: 50,000 d.w.t., LOA about 230 m., max. draft 12 m.

Berth No. 1 is located on the offshore side of the jetty and Berth No. 2 on the inshore side.

Vessels generally berth portside alongside.

Health: Radio pratique is not available. The Master has to show the yellow cards together with a vaccination list and submit a Declaration of Health.

Radio: The Master or owner of a vessel, shall 7 days prior to vessel's arrival, submit the required forms to the Harbour Superintendency Administration through the Agent (Penavico, Dairen) for completion of entry formalities. They require:

a) Vessel's name
b) Nationality
c) ETA
d) Arrival draft
e) Quantity of cargo to be loaded at Dairen
f) Nationality and the number of the ship's personnel
g) Last port
h) Destination

The Master has also to radio to the Agent her ETA and arrival draft, 24 hours in advance of her arrival, through Dairen Radio, who is to advise the Harbour Superintendency Administration.

Furthermore, the Master is also required to advise her Agent 2 or 3 days prior to her arrival, of the quantities of the segregated water ballast and other water ballast retained on board at the time of arrival.

VHF: Dairen VHF station keeps a 24 hour listening watch on Channel 16 and is available to communicate with Agent (Penavico).

Tugs: Available. Normally 3 tugs join the vessel for berthing and 2 for unberthing.

Fresh water: Available either from the shore or barge.

Fuel: Fuel oil and marine diesel oil are both available from barge.

Ballast: No ballast water is allowed to be discharged into the sea, except segregated ballast water.

Shore reception facilities with a capacity of 30,000 tons can receive 3,000 tons of oily ballast water per hour at a cost of 0.8 Yuan per ton.

According to the Regulations, the Authorities will allow discharge of ballast water into the sea subject to the oil content of the ballast water being less than 10 p.p.m. However, as a matter of fact, any ballast water loaded in cargo tanks is not allowed to be discharged into sea for the reason that the Master cannot give them any evidence of the oil content of the ballast water.

Therefore, there is no necessity for cleaning cargo tanks for ballasting purpose.

Customs Allowance: Ship's bonded stores are not sealed. No limitation to cigarettes or wine/spirit for use on board.

Identification Cards: Shore leave is granted from sunrise to midnight.

Shore passes are issued by the Immigration Officer.

Crew members going ashore must carry the shore passes together with their passports or discharge books.

There is a seamen's club with a Chinese restaurant and some souvenir shops. Bus service is also available between the terminal and the seamen's club.

Cargo: The crude oil shipped at this terminal is the Daqing Crude. The properties of Daqing Crude which the vessel loaded in September 1980 at this terminal were as follows:

a) API	32.84
b) Temperature of cargo loaded	41.0°C. (106.0° F.)
c) Pour point	24.0°–25.0° C. (77.0° F.)

Cargo heating may be required.

Loading:

Berth	Size of arm flange	Number of arm
No. 1	12 in.	5
No. 2	12 in.	3

Max. loading rate is reported to be about 7,000 t.p.h. using 3 arms.

Notice of Readiness will be accepted at the time of completion of the general examination.

Agent: China Ocean Shipping Agency, Dairen Branch (Penavico Dairen).

Provisions: Available at a low price. Ship chandler will be arranged by the Agent.

Currency: (Rate October 1st, 1980.) US$1.00 equal to 1.4377 yuan; 1,000 yen equal to 6.7064 yuan.

Some foreign currency is allowed to be exchanged for Chinese currency at seamen's club.

HSINGKANG: 39.02 N. 117.41 E.

Also see "General" before first port

SHIPMASTER'S REPORT. (1974.)

B.A. Chart 2653. China Sea Pilot No. 32, Vol. 111.

NAVIGATION: The lighthouse in position 38° 55′ N., 117° 59.5′ E. was visible at a distance of 10 miles, flashing every 10 secs., and is surrounded by 4 units buoys at a distance of about 180 m. from the tower. The Fairway to berth installations is being dredged, but presently appears to permit a draft of only 25 ft. LW with a draft of 27 ft. it was necessary to await HW before sailing.

PILOTAGE: Pilot and Port Authority Agent board at the anchorage. Pilot boat is large tug which may also be used as an ice-breaker, and has black hull with white superstructure. Pilots are careful and efficient, and speak some English. No VHF or HF radio facilities are available to the Pilot.

MAX. SIZE: See "Navigation". All berths are suitable for vessels of up to 9 m. draft.

TUGS: Six large tugs, and three smaller tugs.

BERTHING: The harbour is under considerable development, and at present has availability for about 15 or more vessels. All berths have rail connections and are approachable by trucks. There are no sheds at the berths and refrigerated stores are only available at Tientsin to where they are transported by train, lighters or trucks. Berths are equipped with rubber fendering, suitable for all requirements.

CARGO GEAR: There are some cranes available and in operation with a lifting capacity of about 10 tons. There are also about three floating cranes with capacities of up to about 80 tons. Where no cranes are available, vessels are required to load and discharge with ship's gear.

FRESH WATER: Connections at some points have still to be made, but otherwise fresh water is available at all berths. Due to the very long waiting time for berthing and the lack of some of the connecting points, it is advisable to arrive with full F.W. tanks.

PROVISIONS: It is essential to check all provisions when delivered since they may be of poor quality. Rejected goods are accepted back without problems.

SHANGHAI: 31.04 N. 121.28 E.

Also see "General" before first port.

SHIPMASTER'S REPORT: 1974.

B.A. Chart 1602. China Sea Pilot No. 32, Vol. 111.

Navigation: Marine flashing light Yangtse North – the position quoted in the Nautical Light Service 11 agrees with Pilot's information. Marine flashing light North Saddle – very weak, signals KK. Marine flashing light Gutzlaff island – out of service.

The wreck shown on the chart between the entrance of the Wangpoo into the Yangtse Kiang and buoy 51 (new numbering) has been removed.

On the Yangtse Kiang there has been considerable dredging, particularly between buoys 54 and 51–3 (new numbering) in order to clear the Bar. According to the Pilot, until the present time, only vessels with less than 25 ft. draft could pass at slack water.

Following the Pilot's disembarkation, vessels proceeding North-bound should make an Easterly course to 31° 05′ N., 122° 31′ E. and then alter course Northerly, Chi-ku Chiao Lt. (Amherst Rocks) should be passed at a distance of about 6-8 miles.

Buoy No. 51-0 (Entrance) is in position at 31° 04.9′ N., 122° 10′ E. Same signal. Buoy No. 51 (Fairway) is in position at 31° 03.8′ N., 122° 14′ E. Same signal. Buoy at 31° 12.8′ N., 122° 19.1′ E. Non-existent. Buoy at 31° 07′ N., 122° 22.5′ E. Flashing green every 3 seconds. Buoy Nos. 54 (now 51-2), 57 (now 51-3), 58 (now 53), and 61 (now 54) are in process of positional alterations. Characteristics are not as on chart. Shaweishan Lt. Gp.Fl. (2 and 1) 12 seconds was observed. Numbering of the buoys on the Yangtse is now changed, and the numbers given on the chart no longer apply. The buoys are spread-out in accordance with the depth of the river. Lt. Vls. No. 60 (old number) now carries the words Jui Dan, and is in approximately the same position. Lt. Vls. Ch'ang Chiang K'ou was replaced end-1974 for repairs, by a buoy with Radar reflector.

Documents: Clearance takes place quickly. On arrival the following documents are required:

6 Crew Lists.
Health Clearance Certificate.
List of Effects.
Declaration of Navigational Equipment. Make, type and quantity of Sextants, Binoculars, Radio Station Equipment and Emergency Signal, must be quoted.

If no pre-printed Chinese Forms are on board, the Authorities will accept the vessel's own forms, and will themselves carry out the transfer of information to their own documents.

When proceeding to another port within the People's Republic of China, only the Seamen's Books, Landing Permit and Seamen's Club Purchasing Cards are required. The Authorities will still require a list of Chinese currency remaining on board but only wish to know the total sum and not the amounts held by individual Crew members.

Pilotage: Pilots are requested via Shanghai Coastal Radio. Installation of a VHF service is planned within the next three years, but at present the pilot boat is not fitted with VHF, and no radio service is available for pilotage. Installation of Port Radar Service is planned within the next five years, but is presently not available.

Shanghai Harbour Control is equipped with VHF, and Pilots communicate with Harbour Control on Channel 10 concerning ship's movements. Traffic is passed in the Chinese language only and may be operated by the Pilot. A total of up to five Pilots board the vessel together with the Agent of the Harbour Authority. The Pilot boarding position is approximately 31° 05′ N., 122° 01′ E. The main pilot craft is usually at anchor in that position, and the Pilots board from small launches. The main pilot craft corresponds closely to those used in Germany and the Netherlands, and has white superstructure and a white hull. Pilots are available day and night. Pilots are efficient, speak some English, and control the vessel most carefully. After the Pilot's boarding, no further use may be made of the vessel's own charts, and the Pilot brings his own charts with him.

Anchorage: The main quarantine and inward clearance zone is now on the Yangtse in the area of 31° 04′ N., 121° 06′ E. (See 1978 Report below) and is of sufficient area to accommodate about 15 deep-sea vessels. The anchorage is good with sufficient depth for loaded vessels. The two quarantine areas shown on B.A. Chart 1602 (October 1974) have been abolished, and a new zone has been established due East of the Lt. Vls. Ch'ang Chiang K'ou, with middle point 10 miles due East of the Lt. Vls. extending about 5 miles by 5 miles.

A Notice to Mariners issued by the Shanghai branch of the China Ocean Shipping Agency, and dated December, 1974, reads as follows: "As Woosung Quarantine Anchorage is effected by the current of Changkiang, vessels anchored there are apt to drag anchor if no proper safety measures have been taken or there is negligence in keeping watch, thus resulting in grounding or collision with other vessels. To ensure safety of vessels at anchor, we hereby draw your attention to the following:

1. Vessels waiting for berth or for other reasons drop anchor at Quarantine Anchorage, someone must be appointed to keep watch of the anchor.
2. To have no less than 6 (six) shackles of anchor chain in the water.
3. On the following occasions, watch should be re-inforced and, at the same time, have the engine ready against accidents:
   - (a) Bad weather.
   - (b) Wind force 6 and upwards.
   - (c) Foggy and misty weather.
   - (d) Stormy weather.
   - (e) Spring tide.
4. If a vessel is dragging anchor or any accident has happened to a vessel anchored at anchorage, the Captain of the vessel should report to this Agency *immediately,* enabling this Agency to make arrangement for sending Pilot on board or take other effective measures".

Restrictions: Permission to swing-out lifeboats must be obtained in writing from the Port Authority, through the Agent. If the request is made 24 hours in advance stating that the vessel's own country's laws require it to be done, then permission is given the same day, for the operation to be carried out the following day. Lifeboat engine trials are not permitted in view of the very intensive traffic on the Wangpoo, and the very strong current. No filming is permitted in the port area, but is permitted in the town with the exception of military installations. Electronic navigational equipment, navigational aids, echo-sounding equipment and radio may not be used except with the Pilot's permission during the approach to port.

Mooring: Mooring to buoys takes place with assistance of tug and mooring craft. Pilots manoeuvre vessel to forward buoy with use of the anchor which remains paid-out after tying up, and is only raised prior to sailing. Approximately one to one-and-a-half shackles used. Vessel is moored to buoys with four lines fore and aft, and slip-wires. Lines are paid-out in equal lengths either side through the mooring leads and not through the Panama hawse.

Tugs: When proceeding from buoys to alongside berth, tugs provide assistance in un-mooring, but not in berthing which is conducted by Pilot without tug assistance. When leaving the berth, tugs are used to assist, and use their own lines.

Berthing: Pier installations are partly damaged and have no fendering. If possible, vessels should have their own cork or wooden fenders.

Cargo Gear: Loading and discharging is by means of ship's gear. There are three heavy-lift floating cranes with lifting capacities of about 130 tons, and of modern construction. A number of mobile cranes are available with lifting capacities of about up to 5 tons.

Currency: For vessels tied to buoys there is an hourly boat-service to the Seaman's Club where foreign currencies may be changed into Chinese Yen, and where purchases may be made.

Provisions: Stores, alcohol and cigarettes are not sealed. Fresh provisions are available depending upon time of year. Sufficient quantities are available including beer, poultry, meat and fish. Ample advance notice is required.

Telephones: Telephone calls to foreign countries are possible either from the Agency or from the main Post Office in Nanking Road.

SHIPMASTER'S REPORT: 1978.

Anchorage: The anchorage, prescribed by the Agents to await the tide is the Chang Kiang Kou Anchorage, as shown on B.A. Charts 1602 and 1199, between the following positions:

A – 31° 00′ N. 122° 25′ E.
B – 31° 00′ N. 122° 32′ E.
C – 30° 56′ N. 122° 32′ E.
D – 30° 56′ N. 122° 25′ E.

Pilotage: The Pilot station is as charted on B.A. Chart 1602 in position 31° 03.5′ N., 122° 12′ E.

The Pilot boat is equipped with VHF (Channel 16). They do reply to calls in the English language, but they have no authority to give any information concerning dates and times of proceeding up-river. (Those orders come by radio from PENAVICO). The pilot station however gives instructions by VHF to ships approaching the pilot station to pick up the Pilot, concerning speed, which side the pilot ladder, etc.

VHF in Port: For the VHF communication in port please see "Circulars".

Shipmaster's Report above dated 1974: The information concerning Navigation, Pilotage, Documents, etc., dated 1974 is still correct and up to date, except for the anchorage area 31° 04′ N., 121° 06′ E., which we cannot place.

Quarantine Anchorage and Waiting Area: Ships are boarded and cleared at Woosung Quarantine Anchorage. It is also there that ships await berthing orders. About 15 deep-sea vessels can be accommodated at Woosung.

CIRCULARS:

China Ocean Shipping Agency Shanghai Branch
CIRCULAR

June 1, 1977

The VHF radiotelephone of China Ocean Shipping Agency Shanghai Branch is, from this day, open to foreign vessels calling at the port of Shanghai:

Channel: 11. (If Channel 11 is not available on board, the vessel may make contact with the Shanghai Harbour Radiotelephone Station (Channel 16) and then communicate with Penavico on the Channel appointed by that Station).

Call Sign: PENAVICO.

Working Hours: 0000–2400 hrs., continuous service day and night. (All ships anchored at Woosung Quarantine Anchorage and in its vicinity or moored at buoys – those berthed alongside wharves excluded – are requested to have their VHF radiotelephone station opened every day at the undermentioned times:

1115–1130, 1515–1530, 1915–1930 hrs.

in order to keep watch and receive any message such as berthing information, which Penavico may transmit to them. The ships which are not called in the above period of time may then close down their station. Ships which intend to communicate with us may call Penavico at any other time).

When using VHF radiotelephone, foreign vessels should observe "Provisional Regulations Governing the Use of VHF Radiotelephone by Foreign Vessels" issued by the Ministry of Communications of the People's Republic of China.

CHINA OCEAN SHIPPING AGENCY
SHANGHAI BRANCH

GUIDE TO FOREIGN VESSELS CALLING AT SHANGHAI

October, 1978

1. Regular Channel in Chusan Area:

Foreign vessels may navigate in the regular channel between the Chusan and Raffles Islands which is open to navigation, but are not allowed to navigate in other channels between these islands. (By the regular channel is meant the channel from Tongting Island, Steep Island, Elgar Island, Bonham Island, Button Island, Gutzlaff Island to Chang Kiang Kou).

2. Dangerous Area:

All vessels are to note and keep away from the dangerous area bounded by lines joining the following four points:

30° 47′ 05″ N. 123° 03′ 00″ E.
30° 47′ 15″ N. 123° 05′ 54″ E.
30° 44′ 45″ N. 123° 03′ 00″ E.
30° 44′ 45″ N. 123° 05′ 54″ E.
see Chart No. 1199

3. *(a) The Chang Kiang Kou Light Vessel:*

Location: 31° 03′ 32″ N. 122° 23′ 26″ E.
Characteristic – flashing every 6 secs.

(b) Pilot Boat:

Location: 31° 03′ 30″ N. 122° 12′ 00″ E.

(c) The names, positions and light characteristics of the light buoys between Chang Kiang Kou light vessel and the Pilot boat:

(i) Light buoy "M-1" 31° 03′ 00″ N. 122° 18′ 42″ E., flash every 6 secs.
(0.3+1+0.3+1+0.3+3.1)

(ii) The red and white chequers canshaped light buoys have been set up at the following positions:

H12. 31° 03′ 45″ N. 122° 14′ 28″ E. flash red 2 every 3 secs.
(0.3+0.3+0.3+2.1)
H14. 31° 04′ 11″ N. 122° 12′ 11″ E. flash red 2 every 1.5 secs.
(0.15+0.3+0.15+0.9)
H16. 31° 04′ 37″ N. 122° 09′ 54″ E. flash red 2 every 3 secs.
(0.3+0.3+0.3+2.1)
H18. 31° 05′ 03″ N. 122° 07′ 39″ E. flash red 2 every 3 secs.
(0.3+0.3+0.9+1.5)

(iii) The black and white chequered canshaped light buoys have been set up at the following positions:

H11. 31° 03′ 49″ N. 122° 15′ 03″ E. flash 2 every 3 secs.
(0.3+0.3+0.3+2.1)
H13. 31° 04′ 15″ N. 122° 12′ 47″ E. flash 2 every 1.5 secs.
(0.15+0.3+0.15+0.9)
H15. 31° 04′ 41″ N. 122° 10′ 30″ E. flash 2 every 3 secs.
(0.3+0.3+0.3+2.1)
H17. 31° 05′ 07″ N. 122° 08′ 14″ E. flash 2 every 3 secs.
(0.3+0.3+0.9+1.5)

4. (a) With the line joining Chang Kiang Kou light vessel and light buoy M-1 as a demarcation line.

(i) Entrance Channel: The water area within 1,100 m. and on the Northern side of the line is the Entrance Channel.

(ii) Departure Channel: The water area within 1,100 m. and on the Southern side of the line is the Departure Channel.

(b) With the line joining light buoys H12, H14, H16 and H18 as a demarcation line, the water area within 1,100 m. and on the Southern side of the line is open to navigation. The water area on the Northern side of the line is prohibited to navigation.

Shipmaster's Note:

Extensive dredging is taking place between the Pilot vessel and Woosung anchorage.

A buoyed channel has been established under the same project and several buoys have been re-positioned and laid above those charted in B.A. Chart 1602. All the buoys have new numbers.

SHIPMASTER'S REPORT: 1979

General: The vessel followed the recommendations of the latest "Guide to Port Entry" and Admiralty Sailing Directions for approaches to pilot station and entrance buoys.

However, the latest information was cabled to vessel by PENAVICO SHANGHAI, as Agents (China Ocean Shipping Co.), as appended below, and confirmed by the Pilot and Harbour official that boarded vessel.

The notable changes are: shift of position of Chang Kiang Kou Light Vessel, and in its 'old position' is new "M-1" buoy; the channel buoys are only 'fractionally different' from those given in latest amendment of Sailing Directions.

Anchorages seem to be variable, and vessels were anchored at both positions indicated by Admiralty Sailing Directions and "Guide to Port Entry"; vessels were also anchored to the North and East of the new position of light vessel.

Pilots are recommending that vessels buy the latest Chinese Charts for up to date information on approaches to Chang Kiang Kou and all the way to the Port of Shanghai, including Woo Sung anchorage; as most charts do not have the latest buoys and Light Floats for the river passage.

*Message From Penavico: (*NB: Bracketed notations are Master's remarks).

Pilot Station is in 31° 03′ 30″ N, 122° 12′ 00″ E. *(These positions*
Dangerous Area: 30° 47′ 05″ N, 123° 03′ 00″ E. *are the same*
30° 47′ 15″ N, 123° 05′ 54″ E. *as indicated*
30° 44′ 45″ N, 123° 03′ 00″ E. *on charts)*
30° 44′ 45″ N. 123° 05′ 54″ E.

Regular channel: between Chusan and Raffles Islands: routing, Tengting Is, Steep Is, Elgar Is, Bonham Is, Butten Is to Gutzlaff to Chang Kiang Kou, other channels between Chusan – Raffles Islands NOT ALLOWED. *(Again same as publicised . . . but be very wary of concentrations of fishing craft in this area and nets extending some distance).*

Chang Kiang Kou Light Vessel: 31° 03′ 32″ N, 122° 23′ 26′ E. Fl. 6 secs. *(high intensity light).* Light buoys between Chang Kiang Kou light vessel and pilot boat:

"M-1"	31° 03′ 00″ N,	122° 18′ 42″ E.	3 Fl./6 secs.

Red and White Chequered Can Shaped:

"H 12"	31° 03′ 45″ N,	122° 14′ 28″ E.	2 Fl./3 secs. Red.
"H 14"	31° 04′ 11″ N,	122° 12′ 11″ E.	2 Fl./1.5 secs. Red.
"H 16"	31° 04′ 37″ N,	122° 09′ 54″ E.	2 Fl./3 secs. Red.
"H 18"	31° 05′ 03″ N,	122° 07′ 59″ E.	2 Fl./3 secs. Red.

White Chequered Can Shaped:

"H 11"	31° 03′ 49″ N,	122° 15′ 03″ E.	2 Fl./3 secs.
"H 13"	31° 04′ 15″ N,	122° 12′ 47″ E.	2 Fl./1.5 secs.
"H 15"	31° 04′ 41″ N,	122° 10′ 30″ E.	2 Fl./3 secs.
"H 17"	31° 05′ 07″ N,	122° 08′ 14″ E.	2 Fl./3 secs.

Approach to pilot boat at 31° 03′ 30″ N, 122° 12′ 00″ E with a line joining Chang Kiang light vessel and light buoy M-1, as demarcation line for entrance channel/departure channel is at water area within 1,100 m. North or South of demarcation line. With line joining light buoys "H 12"/"H 14"/"H 16"/"H 18" as demarcation line, water area within 1,100 m. South of line open to navigation. ATTENTION: North of line not allowed to navigation . . . end of message.

Vessel's Own Observations:

With regards the latter demarcation line: this means leaving BOTH buoys i.e. "H 12/13", "H 14/15", "H 16/17" and "H 18", on the mariners starboard hand on entering and on the port hand when departing.

Caution: These buoys are very hard to observe in (a) rough sea at night and (b) daylight in similar conditions, however they can be distinguished on the radar screen. The 'run-in' from "M-1" buoy to pilot station is not a straight course as would appear from the demarcation line of the buoys, but would entail 2/3 courses if vessel keeps close to the buoys.

The Pilot on this occasion met the vessel abeam of "H 16" buoy.

There is a VHF service now operating from the pilot station, and information will be passed on Channel 16; Pilots once on board vary their channels but most commonly used is Channel 6.

Penavico have Channel 11, used from the Woosung anchorage; they also say it can be used in port, but Pilots instructions are that it cannot be used in port. There is a set time given to vessels to listen in whilst at the anchorage, again if vessel does not have Channel 11 for direct communication then Penavico will call through Channel 16 and ask which Channel vessel has available (if nothing suitable then message will be passed on Channel 16).

Echo sounder has to be switched off when the Pilot boards.

Radar can and will be used by Pilots for river navigation and docking purposes, however they will advise vessel on this point.

Pilot boards with "Harbour official" who appears to do the 'initial clearance' whilst proceeding up river; if vessel does not have Chinese entry forms, these will be given to vessel to fill in on way up river. (They would not accept our IMCO forms or vessels forms). The "Harbour official" will also require the Master to present the following: (1) Deadweight of vessel; (2) Summer loaded draft; (3) Light ship draft; (4) Drafts for all conditions, i.e. Winter, tropical; (5) FWA; (6) If vessel has "delta" marks then only the highest gross and nett tonnage is acceptable; (7) BHP/NHP/IHP of main engine; (8) Type of engine; (9) Capacity of fuel oil and fresh water tanks; (10) He will inspect and take down the issue date and expiry date of: Safety Equipment Certificate, Safety Radio Certificate, Safety Construction Certificate, Load Line Certificate, Tonnage Certificate, De-rat, Registry. (Much of this information is again required at main clearance procedure also if vessel's first call at Shanghai, then Penavico will require all the above and more on an official printed form).

Inward bound vessels will generally anchor at Woosung Anchorage for main quarantine clearance, customs clearance and immigration clearance, I found that this was quite straightforward and was done in less than one hour.

On departure the vessel has an 'inspection'; this entails all members of the vessel mustering in an area designated by the officials, whilst they then go through the discharge books/passports and their own issue of 'shore pass'. During this period three men are detailed (one from each department) to go right round the vessel, into every cabin, locker, store rooms, etc., with the port officials.

Movement of vessels takes place 24 hours a day for berthing and unberthing.

Steaming time from Pilot to Woosung Anchorage depends largely on tides and speed of vessel but averages 3 – 6 hours, for berthing from Woosung Anchorage into Shanghai port about 2 – 3 hours. However, there are wharves right throughout the river on both sides, this time only indicates the centre of Shanghai Docks.

SHIP'S OFFICER'S REPORT: June 1979.

Vessel discharged 21,000 tons of phosphate in 30 days using 2 gangs only.

Dredging is underway in the river and the max. draft at present is 9.5 m.

The buoyage system is being changed.

SHIPMASTER'S REPORT: July 1979

Vessel on time charter to Chinese National Chartering Corporation of Peking.

Approaches: Hua Niao Shaw Light very good, solar-powered. I was advised to anchor within the Changkiangkow anchorage, this is clearly defined on Chart BA. 1602. The anchorage area is 24 square miles; depths of water vary between 6 and 9 fathoms, our draft was 29 ft. fresh water.

Pilot: Location between buoys H17/18 which is some three miles further than charted location. Pilot boards from a small motor launch, usually only one Pilot to take vessel to Woosung Quarantine area. Pilot cutter equipped with VHF Channel 16 *only*.

Woosung Quarantine/Inspection Area: This anchorage is located some 35 miles from the pilot station. After anchoring vessel awaits the arrival of one additional Pilot to assist for the journey up the river to Shanghai. In addition to the extra Pilot, the following personnel board: Harbour Master, Port Health Doctor, Immigration, Customs and Agent. On this vessel the procedure of inspection of papers, etc., was undertaken in the Owner's suite in the presence of the Master and Purser. An adequate supply of soft drinks is recommended.

The following documents were required:

7 Crew Lists, one copy to remain on board
1 Copy EAL 127-private effects, radios, cameras etc
1 List of foreign currency on board
1 List of bonded stores
1 List of provisions
1 List of all previous ports of call for current voyage
1 Health list
1 Vaccination list of valid certificates
All ship's certificates/Register
All discharge books & CDC examined

After Inspection: Light dues certificate is issued (optional 30 days/3 months) Shore passes issued by Immigration. Friendship store passes issued to record purchases.

Alongside Kai Ping Wharf: Visit by Customs, security man placed at foot of gangway, all ships personnel checked by him before proceeding ashore.

Agents: Only one agency, the China Ocean and Shipping, could be contacted throughout the 24 hour period, by calling "Penavico" on VHF Channel 11, this proved to be a very satisfactory method of communication provided one speaks very slowly. The boarding Clerk visited the vessel every morning to attend to any ship requirements eg. Telex messages and mail.

Stevedores: Work around the clock but do stop for meal breaks, number of men per gang varied depending upon the nature of the cargo.

Density: At all stages of the tide 1000.

Fresh Water Supply: Available alongside the wharf at a rate of 50 t.ph, also available at buoys/stream – cost three times more than alongside.

Marine Bunkering: Suppliers are China Marine Bunkering & Supply Co. – Grades of fuel, Marine Fuel oil 1000 Redwood. Light diesel K/centistroke, 3-8 at 20°C and heavy diesel 20 K/centistrokes at 50°C. Very efficient service.

Consuls: Japan only.

Classification Society: Chinese only.

Cargo Surveyors: Arranged through the Harbour Authority.

Customs/Bond: Normally British ships are not sealed, this also applies to European Maritime vessels except Greece, much depends upon the discretion of the Customs, however Philippino, Japanese and some Hong Kong operated vessels are sealed

Airport: Located about 25 kms N.W. from the city, the only foreign airline operators are JAL (Japan Airlines).

Important Regulations: Whilst within port limits radar *not* to be switched on without permission of Harbour Authority, this even applies once vessel entered; passed inspection, etc., and wish to do any repairs to Radar. Dock trials are not permitted

Hospitals: There is one special hospital for seafarers.

Dental Treatment: Arranged in the normal way through the Agents.

Laundry Service: Good and inexpensive compared with Europe. No dry cleaning

Sailing Inspection: Carried out one hour before sailing, passes collected, money returned to Agents, ships' papers checked, etc.

General: I found the Chinese most friendly and only eager to help and accommodate us. The Seamen's Club organises various outings to ballet, the world famous Yu Gardens, acrobatics, football matches, etc.

SHIPMASTER'S REPORT: March 1980.

Tanker's Particulars:

Ship's Length: 170.75 m. Breadth: 26.09 m. Depth: 14.9 m.

Summer Deadweight: 31,600 M/T. Draft: 11.33 m.
Loaded Shanghai: 19,897.184 M/T Chinese motor gasoline.
Sailing Draft: Forward 8.54 m. Aft 9.02 m.

Navigation: British Admiralty Charts 1601 and 1602 (T) proved most reliable with all buoys in their correct position exhibiting the correct lights. Where the channel is constantly dredged, there are a few extra buoys but they follow the normal numbering of odd on the starboard hand and even to port when proceeding up river.

Anchorage: Anchorage is obtained in the area shown S.E. of Chang Kiang Kou light vessel. There is a constant strong tide running here and at least six shackles in the water are recommended.

Pilotage: The pilot vessel is anchored at 31° 03.4′ N., 122° 12′ E. The Pilots listen on Channel 16 but berthing information usually comes from the Agents "Penavico", through Shanghai Radio. When picking up the Pilot, vessels are told to approach as close to the pilot vessel as possible and the Pilot boards from a small boat. An approach to the pilot station may be made either by keeping well South of the Yangtze channel or going up the channel until bouy 14, then cutting down South.

Radio: Pilots listen to VHF Channel 16. The national agency "Penavico" listen on Channel 11 for all ships. Foreign ships are especially asked to listen at the following times when they will normally be contacted. 0715 hrs., 1115 hrs., 1515 hrs. and 1915 hrs.

The Agents "Penavico" also have Channel 27 if Channel 11 is busy.

Papers: The following papers are required, and must be on the Chinese printed forms:

2 Report of entry for foreign-going ship
1 Maritime declaration of health
1 Report on articles restricted for use in port
7 Crew lists
1 List of specified articles, foreign currencies, gold, silver belonging to the ship and/or members of the crew.
1 Import manifest showing goods to be imported into Shanghai

A boarding official came aboard with the Pilot and all the Chinese forms were completed en route to the quarantine anchorage. At the outer anchorage, no persons boarded.

Clearance and pratique at the quarantine anchorage took about an hour. After this all the officials and the Pilot left.

All non-Chinese are given Identity cards. Each man receives a currency card and all cash drawn on the ship is noted and stamped by the Agent. All unused cash must be returned.

Shore leave is allowed from the quarantine anchorage. There are two boats daily, one at 0900 hrs and the other 1600 hrs. Vessels requiring this boat must hoist the flag signal "DI".

Berthing: All berthing information comes from the Agent via VHF. Berthing is carried out day or night at Kao Chiao Sha which is on the North bank of the river between buoys 107 and 108. Berth is in position 31° 20.75′ N., 121° 32.1′ E. Vessels loading berth starboard side alongside so they can turn around in the narrow river whilst still light draft. Vessels turn in the river off buoy 110. The turn is made to starboard using the engines and a tug which pushes on the port bow. Sometimes the starboard anchor is used. At the berth one tug only is used, this not being made fast at all. It simply pushes where required.

Moorings are 4 headlines plus 2 springs forward with 4 sternlines and 2 springs aft. Whilst approaching the berth, the port anchor is run out although its usefulness is doubtful.

The actual berth is a "T" shaped concrete pier on wooden piles. It is about 400 ft. long with a maximum depth of 9.5 m. 560 ft. is about the maximum length for the berth. Springs go to the jetty whilst other lines go to the shore. Despite the heavy traffic on the river, very little surging was experienced on the berth.

No fuel, water, diesel available ex-berth. All available from a barge but not during cargo operations. No slop facilities ashore, again a barge is available if required.

No ballast to be discharged into the river without the permission of the Harbour Authorities. A written application must be made through the Agents for the authorities to inspect the ballast. After inspection, permission may then be given to start de-ballasting, This ballast check is most stringent and samples of every tank are taken plus a really good visual check carried out. The oil record book is also checked by the authorities.

Whilst at the berth, no visitors are allowed on board. Four armed border guards are on the vessel at all times. Two maintain a continuous gangway watch recording the arrivals and departures. Customs officials also stay on board throughout. Whilst at the berth, an Agents representative also stays aboard.

Facilities: Medical facilities are good and they are arranged by the ship chandler. Provisions and stores are readily available and found to be of good quality and inexpensive. The bond was not sealed.

There is a free transport to and from the seaman's club in Shanghai which was about 1 hour's drive. Photography is allowed in all areas except the docks and military areas.

Notice of readiness is only accepted during office working hours. Anything required such as cargo surveyors, tank inspectors, bills of lading or certificates of quality and quantity must be applied for in writing well in advance.

Repatriation is possible, the ship chandler provides all the necessary alien application forms.

If tankers wish to take a shore line sample at the start of loading, written permission must be applied for.

Tankers should be well advised to ballast well out to sea as the water twenty miles from shore tends to contain a lot of mud and sand.

Sailing: All unused cash, plus currency cards and passes are collected prior to sailing. Papers take about 4 hours. The maximum river draft is 9.0 m. fresh water.

Two tugs are used for unmooring, one each end and use either tug's or ship's gear. Before singling up, the anchor is pulled home if possible. Ships with deep draft have two Pilots who speak good English. Once the vessel is off the berth, the tugs depart. There seemed to be no radar assistance or traffic control on the river. Each Pilot depended greatly on the whistle and smaller craft seemed to keep the main channel clear. Pilots sometimes talked ship to ship on VHF, Channel 6.

In the main Yangtze River there are three shallow areas and if drawing 9.0 m., they cannot all be transitted in one passage. First after un-mooring day or night, the vessel clears the shallow area off buoy 58 at high water. Anchor is then dropped with 6 shackles on deck in the anchorage just off buoy 57. Just prior to the next high tide, vessels weigh anchor to pass shallow areas off buoy 55 and 23, the latter being passed at high water. The minimum under keel clearance recorded was 1.0 m.

Pilots depart as close to the pilot vessel as possible, taking ships South of the channel to do this. It is up to the Master whether he remains outside the channel or goes back in it after the Pilot has left.

Conclusion: There were no musters of officers or crew. No problems were encountered and all shore personnel seemed pleasant and polite.

The berth itself was rather old with no gear at all. Ships gangway was used and ship's derrick was required to handle 2 × 6 in. hoses. Loading rate was 450 t.p.h. and the jetty was manned at all times.

Agency Notice: To the Master,
m.v. ".."

Dear Captain,

Please find attached herewith the following forms required by the Port Authorities at the Joint Inspection which is to be conducted on your vessel's arrival at the Quarantine Anchorage:

2 Report of Entry for foreign-going ship
1 Marine Declaration of Health
1 Report on articles restricted for use in port.
1 set of specified articles, foreign currencies, gold, silver belonging to ship and/or members of crew
7 sets Crew List

Please have the above forms filled in now and be ready to submit them to the port officials on their boarding for Joint Inspection.

Yours faithfully,
China Ocean Shipping Agency
Shanghai Branch

SHIPMASTER'S REPORT: October 1980.

Shanghai pilot vessel will now give orders about proceeding inwards to pilot vessel or remaining outside at designated anchorage. Pilot checked to make sure we had anchored in the correct anchorage. Channel buoys as per "Guide to Port Entry". See "Circulars – Guide to foreign vessels calling at Shanghai – Para 3(c)". These buoy positions and descriptions were transmitted to vessel but only 4 hours before arrival at channel entrance. Pilot vessel tends to be between buoys 14 and 18. All other information in the Shipmaster's reports appears to be still valid.

Since about July 1980 foreigners changing money ashore are issued with Bank of China foreign exchange certificates, likewise if drawing cash from Agent. Denominations of 50, 10, 5, 1, 0.50, 0.10 yuans. The certificates (like banknotes) are printed with the following:

"The yaun expressed in this certificate is equivalent in value to the Renminbi yuan. This certificate can only be used within China at designated places. No request to register its loss will be accepted by the Bank".

The Renminbi Yuan is the official currency unit. Designated places are Seaman's Club, Seaman's Store and Friendship Store. The two former have cheaper prices for seamen. Other designated places are the tourist hotels.

For tankers, authorities require a cargo manifest of nil cargo, no special form required.

For entry papers the official Chinese forms must now be used for 'Report of Entry for Foreign-Going Ship, Crew List and List of Specified Articles, Foreign Currencies, Gold, Silver belonging to Ship and/or Members of Crew'. If not available on board before arrival then vessel must now transfer the information to the Chinese forms.

If vessel coming from what they describe as a cholera infected port then the following are required. A statement of ballast quantities and disposition (required from clean port also) and where the ballast came from, i.e. open sea or which river. They are most concerned that no ballast is imported from a cholera infected port. Ballast is inspected by quarantine officials and the slightest "rainbow". on top means the top one third of that tank will have to be pumped into a barge. They will not give statement to say they consider any tank is not suitable to pump overboard into river. A statement of where you last took fresh water, amounts taken and amounts remaining on board. They analysed our water from Bangkok and declared it was not very good and chlorinated the drinking water tank and also the wash water tanks but again they would not give a statement to say what was wrong with it, although they do not give a certificate to say the tanks have been chlorinated. A list of stores taken at any 'cholera infected port'. If any fresh stores were taken then samples are taken ashore for analysis. Obviously, it is best to endeavor to ascertain beforehand whether they consider your last port cholera infected.

Other papers required are crew declaration (to include makers names for items like watches, radios, etc.). Ten copies of Notice of Readiness. They do not consider a vessel ready until all ballast has been discharged. They did not require lists of bridge navigational equipment or lists of pyrotechnics or lists of radio equipment.

Light dues are payable for 3 months or 30 days. For 30 days, dues are calculated at Yuan 0.90 per nett registered ton. For 3 months it is more expensive.

At quarantine anchorage, accommodation required for 2 guards. At berth same required plus accommodation for 2 custom officials, 1 Agent and possibly 1 cargo surveyor.

Inspection is carried out on arrival at the quarantine anchorage and prior to departure berth. This was just the entry and departure formalities. No search was made and there was no crew assembly. Passes issued to everyone and collected prior to sailing.

Apparently fresh water and bunkers are available. There appeared to be no restrictions on use of radar, echo sounder, binoculars, etc.

Gasoline cargo loaded was about average S.G. with a loading temperature of 23.5°C. Cargo papers on sailing are manifests and Bills of Lading only.

TAKU BAR: 38.56 N. 117.53 E.

Also see "General" before first port.
ALL INFORMATION IS A SHIPMASTER'S REPORT.

GENERAL: Guide to foreign vessels calling at Taku Bar (Hsinkang, Tangku and Tientsin) issued by the Harbour Master at Tientsin.

1. Foreign vessels entering Pohai Gulf are only allowed to pass through Changshan Channel and/or Laotiehshan Channel. If the latter way is taken, the vessel must send a wireless message to "Harbour Master, Dairen" for directory 8 hours prior to passage. It should be noted that no other Channels are permitted for navigation. (Also see "Dairen").

2. Vessels passing Laotiehshan Channel for Dairen must make a detour along the East of "Encounter Rock".

3. Position of sunken dredger "Se Ho" is at 38° 31′ N., 119° 10.5′ E. Vessels should keep far away from the above-mentioned area during navigation.

4. Position of Taku light vessel is at 38° 56′ 51″ N., 117° 55′ 33″ E. Vessel may anchor N.E. of the light vessel according to different condition of vessels arrival draft, to wait for Pilot.

5. Vessel may send radiogram to "Penavico Hsinkang" (via Hsinkang Coastal Radio Station XSV, calling frequency 500 kc/s., working frequency 445 kc/s., reserve frequency calling 8630 kc/s. Listening 8364 kc/s., working hours 0000/2400), giving exact ETA also fore and aft draft, before entering Pohai Gulf.

6. The pilot station is at Tangku. Any foreign vessels, according to Harbour Regulations are required to have a Chinese Pilot, when entering or leaving the Port of Taku Bar, Hsinkang, Tangku and Tientsin. The Pilot will board the vessel at Taku Bar anchorage after receipt of exact ETA given by the Master.

The Salation light beacon in position 38° 56′ 16″ N., 118° 30′ 38″ E. shows a white flash every 3 seconds and visible at a distance of 13 miles.

Regulations issued by the Harbour Superintendent's Office.

1. All foreign vessels (hereafter referred to as vessels) entering or leaving the port of Tientsin (hereafter referred to as this port) are required to observe strictly the provisions of the Regulations Governing the Entry and Departure of Foreign Vessels into and from Ports of the People's Republic of China (hereafter referred to as Regulations Governing Foreign Vessels) and of the Port Regulations of Tientsin.

2. On arrival at this port, vessels are prohibited to use the articles enumerated in Article VII of the Regulations Governing Foreign Vessels. Should it be necessary to repair any of the articles enumerated in Item 2 of the same article, permission to do so must be obtained beforehand from the Harbour Superintendent's Office.

3. Articles placed under seal shall not be used and the seals shall not be removed without permission. Should any of the paper seals be found falling off, the fact shall be reported to the Harbour Superintendent's Office immediately.

4. Whilst in port, vessels are not allowed to dress ship or hoist flag at half mast without the permission from the Harbour Superintendent's Office.

5. Vessels in port desiring to undertake any of the following work must first apply in writing to the Harbour Superintendent's Office. After permission is obtained the work can then be carried out at the appointed place.
(a) Lifeboat practice;
(b) Overhauling boiler, main engine, steering engine or windlass;
(c) Engaging in welding work or burning anything on board;
(d) Pumping out ballast water regardless of whether the water is contaminated with oil or not.

6. After a vessel's arrival at this port, sounding, survey sketching, photo-taking, fishing and swimming are strictly prohibited.

7. After arrival at this port, vessels are strictly prohibited to dump ballast materials, coal ashes, garbage, rubbish and mud, or to discharge dirty oil or oily bilge water into the harbour. It is also prohibited to wash double bottom oil tanks or oil deep tanks inside the harbour.

8. Vessels in port must provide secure gang ladders or gang planks with rail or manropes for passengers, crew and all workers to embark or disembark. All gangways or gang planks are to be provided with lights at night.

9. Vessels lying alongside the pier should properly cover up all their exhaust valves and discharge openings on the ship's side facing the pier.

10. Garbage bins or drums with tight covers must be provided on board. The bins or drums should not be filled to overflow. When the garbage-collecting cart comes daily to the ship to collect the garbage and rings the bell on its arrival, the ship should arrange to deliver the ship's garbage into the cart.

11. If, owing to some special reasons, a vessel desires to return to this port after departure, the Master should first telegraph to the Harbour Superintendent for permission and must act according to the instructions given.

Frontier Inspection Station

1. All the officers and crew of a foreign vessel and the passengers on board should produce their passports or other certificates to the Frontier Inspection Station and submit to the inspection of the Station.

2. When the ship's crew or passengers in transit desire to go ashore, the Master is to apply to the Frontier Inspection Station and the passport endorsing authorities, respectively, for landing permits.

3. A landing permit is valid only at the port where it is issued. On the ship's departure, all landing permits for the crew should be returned to the Frontier Inspection Station for cancellation.

4. The time limit for going ashore is from sunrise to midnight. When any Crew member wishes to stay overnight on shore, the Master should apply for permission on his behalf. Staying overnight ashore without permission is not allowed.

5. All laws and regulations of the People's Republic of China must be observed.

Customs

1. It is forbidden to carry the national currency of the People's Republic of China into or out of the country. Violation of this rule will render the money in question liable to confiscation.

2. The Master or crew desiring to exchange foreign currencies, gold or silver for Chinese currency should so declare to the Customs and, after the exchange, produce the bank's Exchange Slip for inspection.

3. The Master or crew desiring to carry articles ashore or aboard should report to the Customs for permission and the articles concerned are subject to Customs inspection. Sale of articles taken ashore is prohibited.

4. Exposed films or plates should be developed and submitted to the Customs for inspection before they are allowed to be carried into or out of the country.

5. Places sealed up by the Customs are not to be opened without Customs permission.

Quarantine Office

1. During a vessel's stay in port, if any person on board is found to be in high fever or to be feverish continuously for several days (or with the swelling of the lymphatic gland), or to suffer from acute rash on the skin with or without fever, or to suffer from acute diarrhoea and in a state of collapse, or to suffer from jaundice with fever, the matter should first be reported to the Quarantine Office. The patient can go ashore for medical treatment only when he has been examined and allowed to do so by the quarantine officer.

2. Effective rat-guards or other rat-preventing devices should be fixed on all mooring ropes.

3. Gangways and gangplanks are not allowed to be put on to the wharf when not required. Should they be used at night, strong electric lights should be provided.

4. Should any dead rats or mice be found or any rats or mice caught on board a vessel, the fact should be reported to the Quarantine Office for the necessary inspection to be made.

The above regulations are in force at most Chinese ports.

In the fairway and on the West side of the first pier vessels may pass on 34 ft. draft. Length of pier about 1,500 ft.

Another pier is under construction, and when ready will have berths for five vessels of about 600 ft. length. The depth alongside will be 34 ft.

On the first pier 7 cranes with a capacity of about 10 tons. It was not possible to obtain information on the older berths. Four tugs with up to 1,000 h.p.

All bunkers to be brought in from Dairen.

TSINGTAO: 36.03 N. 120.20 E.

Also see "General" before first port.

SHIPMASTER'S REPORT:

Approaches: 1. Approaching from the S.W. on the authorised route in clear water, the following observations were made.
(a) Cape Yatall Lt. Range 20 n.m., not sighted at 10 n.m.
(b) Tai Kungtan Lt. Range 15 n.m., not sighted at 15 n.m.
(c) Ynui Shan Lt. Range 14 n.m., sighted at 15 n.m.
(d) Outer Harbour Fairway Buoy, sighted at 4 n.m.

2. When abeam of Tai Kungtan orders were received to proceed to inner quarantine anchorage.

3. All Inner Harbour buoy lights characteristics did not agree with the recent chart.

Documents: Port Officials board by tug using the gangway. The following papers are required.
4 copies of the Ship's particulars.
4 copies of the Crew List.
2 copies of the Crew Manifest with all foreign currency duly noted.
1 copy of the Health Declaration.
All Identity Cards and Smallpox Certificate.
2 copies of the letter requesting a hold survey.
9 copies of the Notice of Readiness.
Usual ship's papers, including Deck and Engineroom Logs.
Delays caused by:
(a) Crew members not holding I.D. Cards.
(b) Alterations/illegible Smallpox Certificate.
(c) Insufficient copies of the necessary papers supplied at Hong Kong.

Muster: After the above had been inspected, all officers and ratings were required to muster in the saloon. A search of all spaces was then carried out. Each person was required to be compared with his I.D. card, those not possessing one were eventually cleared on discharge books. The Authorities will not recognise passports held by Spanish Nationals.

Detailed Information: Required with regard to the ports at which stores and water have been obtained and a list of the ports visited in the previous six months.

Currency: Available in the form of Chinese Yen.

Cargo: (a) Delivery alongside is very poor. *(b)* Condition of cargo received on board is good. Temperatures of hard frozen cargo are well down. *(c)* Damaged cartons are replaced. *(d)* Stowage, good.

Outwards Clearance: (a) After all B/Ls have been signed and five copies of the vacant space/space used handed over. *(b)* Muster of all persons takes place in the saloon. *(c)* I.D. cards produced and shore passes handed in. *(d)* Vessels searched. *(e)* All foreign currency spent ashore has to be accounted for. Totals of money drawn and returned to Agent produced to the Customs.

Departure: Vessel leaves the berth and anchors at the Inner Quarantine Anchorage. Guards and Port Officials leave after "Clearance" papers have been handed over. Pilot leaves, vessel proceeds without the aid of a Pilot along the authorised route.

SHIPMASTER'S REPORT: 1977.
Pilot: A total of four Pilots board together with Inspection Team from a tug (black hull, white superstructure) at the pilot station. Pilots usually handle vessels very carefully and speak little English.
Piers: The bulk handling piers are equipped with shore cranes (their capacity unknown) but are poorly fendered.
Tugs: A large number of modern (and likely powerful) tugs were noted, ships lines always used.
VHF: The Port is equipped with VHF (most likely at Harbour Master's Office) and the ship's set is handled by the Pilots. After berthing it is prohibited to use it.
Tide: The rise of the tide is considerable (no figures available) and all piers seem to be well protected by any wind.
Ice: Melting ice was noted on approaching the piers (mid January 1977).
Traffic: Heavy traffic was noted there both in ocean-going and medium-sized tonnage.

SHIPMASTER'S REPORT: 1978.
The governing regulations for vessels sailing into or out of Tsingtao.

1. Vessel sailing in or out must take definite route stipulated as follows:
From 35° 56′ 24″ N., 121° 05′ 00″ E. to 35° 56′ 24″ N., 120° 46′ 42″ E. course 270° (090°) or
from 35° 43′ 15″ N., 120° 53′ 09″ E. to 35° 56′ 24″ N., 120° 46′ 42″ E. course 338° (158°)
Thence from 35° 56′ 24″ N., 120° 46′ 42″ E. course 283° (103°) to 36° 02′ 00″ N., 120° 15′ 56″ E. then alter course 000° (180°) proceed to quarantine anchorage within following four points:
36° 05′ 18″ N., 120° 15′ 34″ E. 36° 05′ 18″ N., 120° 16′ 50″ E.
36° 04′ 00″ N., 120° 16′ 22″ E. 36° 04′ 00″ N., 120° 15′ 20″ E.

2. Pilot station is within the area: with the point 36° 02′ 00″ N., 120° 18′ 16″ E. as its centre and 3 cables length as its radius.

3. Dropping and dragging anchor is strictly prohibited within the following areas:
1. The 1st prohibited area is within the following four points:
36° 04′ 00″ N., 120° 14′ 00″ E. 36° 03′ 12″ N., 120° 17′ 00″ E.
36° 03′ 27″ N., 120° 14′ 00″ E. 36° 02′ 40″ N., 120° 16′ 56″ E.
2. The 2nd prohibited area is within the following four points:
36° 02′ 42″ N., 120° 20′ 00″ E. 36° 00′ 48″ N., 120° 18′ 00″ E.
36° 03′ 36″ N., 120° 23′ 16″ E. 35° 59′ 48″ N., 120° 18′ 30″ E.

4. Vessel must advise ETA Chalientao 24 hours before ship's arrival.

5. When abeam Chalientao on ship's entry. Master should cable again immediately time abeam Chalientao and accurate time arriving Pilot station, awaiting authorities instructions attentively.

6. Proceeding on abovementioned route following stipulations should be complied with:
1. Ship's national flag and code flags should be flown in daytime.
2. Dumping rubbish and pumping out oil and oily substance are prohibited.
3. If by some reasons, vessel needs to anchor, Master should report to Harbour authorities first for permission.

7. Within the Harbour limit, the prohibited articles should not be used. In case radar required for navigation, Master should report to Harbour Authorities before using it.

8. Abovementioned regulations should be strictly complied with. Otherwise, the vessel is held responsible for all the consequences arising from the violation of the above.

Master's Observations: Approaching from South:

1. From a point W.N.W. about 5 miles from Chalientao L/H until Tsingtao a very strong set was experienced, on ebb tide, position must be checked very frequently and strong counteracting set should be applied. Deep draft vessels should take care particularly near Swallow Bank.

2. Speed was reduced when crossing 9 fm. patch (extending about 1.7 miles long across) in approximate position 35° 59.5′ N., 120° 27′ E. (vessel's draft 9.95 m.).

3. It is not possible to take a course of 283° as per direction as this leads almost on the edge of Swallow Bank and edge of Pile Point. Therefore a slight change was made, from position Chalientao L/H W.N.W. × 5 miles, 284° was steered till 35° 59.7′ N., 120° 26′ E., thence course was altered to 287°. This course keeps vessel well clear of Swallow Bank and Pile Point.

4. The vessel can expect a cable (after cabling ETA pilot station when abeam Chalientao) giving directions, and usually the Port advises the vessel to anchor within 3 cables of pilot station, where Pilot boards later and takes the vessel to inner anchorage.

5. All the necessary lights and buoys were found working at satisfactory range and in position.

6. A slight delay can be experienced if vessel does not have inward clearance forms in Chinese prints. In this regard it is advisable to put 2/3 people on the job to facilitate quick completion of formalities (if Chinese forms are supplied by the Immigration Authorities).

7. Vessel berthed at No. 2 Mole Centre pier at high tide on a draft of 9.95 m. It was found that vessel had difficulty in getting alongside and finally secured some 3 ft. off wharf fenders. This was probably due to there being less depth. By Master's reckoning and observations, perhaps 27/28 ft. would be maximum safe depth at low tide at this pier. Vessel was shifted to after pier during the fall of tide, and on this berth by observations about 30.5 ft. would be safety draft at low tide.

8. Fresh water can be supplied without problem. Provisions are in short supply. Laundry can be done, about 3 days notice required. Medical facilities are good. Seamen's club caters to seamen's shopping and tastes. Repatriation is possible arranged by train to Peking and thence by air. Cable facilities exist but there is no telex system.

SHIPMASTER'S REPORT: September, 1979.
Documents: On arrival: 1 Report on Entry, 4 Crew Lists, 1 Import Cargo Manifest, 1 List of specified Articles, Currency, gold, etc. and all ship's certificates.
Navigation: BA Chart 876. On passing Cha Lien Tao Island, call "Tsingtao Radio" for entry instructions. The outer quarantine anchorage for which Pilot is not compulsory is in position 36° 02′ N., 120° 18.3′ E. The approach is straightforward and the lighthouses are in good working order. The authorities board at the outer anchorage via pilot ladder from a tug. The use of radar in the harbour area must be sanctioned by Pilot or Harbour Authorities. All other navigational gear may be used as required.
Communications: Both Agents and Harbour Authorities have VHF with most Channels. When vessel is at Inner anchorage, Agency contact vessel twice daily for berthing times, etc.
Currency: Local Yuan available. Foreign currency can be exchanged but a receipt must be kept and produced to the Authorities prior to departure.
Draft: Up to 35 ft. alongside at discharging berth – in approach entrance off Horseshoe Reef up to 34 ft. depending on tide.
Agents: China Ocean Shipping Agency are sole Agents. They visit vessels twice daily and are also in VHF contact from their office. Communications with other countries from Tsingtao is by cable only, telex is due to be installed next year.
Medical: Hospital and doctors available.
Laundry: Excellent and not expensive.
Provisions: Not expensive but very limited in both content and availability. Not to be relied on, especially if in port for short stay.
Fresh Water: Alongside from quay – 35 t.p.h. Also available at anchorage from water barge.
Time: GMT plus 8 hours.
Immobilisation: Permitted by arrangement with Harbour Authorities.
Opening/Closing Hatches: Either ship's crew or stevedores. In the case of the latter, a charge is payable.
Garbage: Removed when requested by small barge.
Repatriation: Difficult at present as no regular air passenger flights from Tsingtao. Only way would be overnight train journey to Peking then flight to Europe.
Repairs: Possible, large repair shops and naval yards in port area.
Bunkers: Available to Chinese vessels. Gas oil also available if adequate notice given.
Cargo Working: Discharged 24,000 m/tons sulphur in 6.75 working days, using shore cranes and grabs. Discharged into railway wagons on twin rail tracks also into large "silo" adjacent to the berth. Good standard of crane operation. Cargo tonnage discharged determined by draft surveys performed by Government surveyors and ship's staff. Statement of facts drawn up by Agents.
Watchmen: One gangway guard for inspecting Crew members' passes.
Tugs: Four large tugs – one of 3,000 h.p.
Pilots: Usually three on each vessel – reasonable English.
Density: Varies between 1020 and 1025.
Tours, etc.: Tours are arrangeable via the Seaman's Club and are good value. There are no shore leave restrictions and cameras may be used. Inter ship visiting is allowed also film and book exchanges between ships.
Shore leave is possible from the Inner anchorage by tug.
Mail: From Europe by air freight via Tokyo and Peking takes 7 days.
Bond, etc.: Not sealed or inspected by Authorities. Stores Lists NOT required.
Floating Crane: Available, lifts estimated 150 tons.
General: Stevedore labour appeared plentiful – delays are occurring due to large increase in foreign trade. New berths are being planned and dredging is taking place continuously. Officials, Agents, etc. most pleasant and helpful and very eager to learn English. It is advisable to make a 'sea protest' to the Harbour Authorities if any bad weather experienced on voyage.

NOTES

Please also advise Shipping Guides Ltd.

Christmas Island

CHRISTMAS ISLAND, Indian Ocean:
10.25 S. 105.43 E. **(See Plan Book)**

PORT LIMITS: The area of sea in and adjacent to Flying Fish Cove in the Territory of Christmas Island enclosed by a line commencing at a point where a line bearing 270° True from the flagstaff at Government House intersects the coastline of Christmas Island at MHW thence bearing 270° True for a distance of 2 km. thence bearing 360° True for a distance of 2 km. thence S.E. by a straight line to Rocky Point thence generally S.W. along the coastline of Christmas Island at MHW to the point of commencement.

DOCUMENTS:
Port Clearance.
2 Crew Lists.
2 Passenger Lists.
2 Manifests.
Health Certificate.

PILOTAGE: Pilot boards 1 mile West of Smith Point.

ANCHORAGES: Nil.

RESTRICTIONS: Daylight entry only.

MAX. SIZE: Length 630 ft., breadth 90 ft., draft 35 ft.

HEALTH: Radio Pratique granted whenever possible. Information required: date of departure, last port of call, number of persons aboard, number of passengers disembarking, state of health. Contact port health before arrival in event of suspected disease. No automatic pratique.

RADIO: All cables to Christmas Island Radio, VIY.

VHF: Channel 16, 156.8 m/cs., range 15 to 20 miles.

TUGS: None.

BERTHING: Berthing daylight hours only. In most cases port anchor to be disconnected from cable prior to arrival; mooring gangs provided.

BULK CARGO HANDLING: The bulk loading berth is served by two cantilevers each capable of delivering rock phosphate at an average rate of 1,500 t.p.h. Bottom of telescopic chutes when fully raised are 50 ft. above sea level at high water springs.

STEVEDORES: Supplied by Agents.

MEDICAL: No notice required for medical attention. Hospital facilities available throughout 24 hours. Inoculations required: yellow fever (from endemic areas), cholera (from S.E. Asian ports). International Vaccination Certificates required.

TANKERS: Furnace and diesel oils pumped ashore simultaneously through floating pipe-lines, 8 in. and 6 in. diameter respectively.

DENSITY: 1023 constant.

FRESH WATER: Very limited quantities supplied, only in emergency.

FUEL: Very limited quantities supplied, only in extreme emergency.

GANGWAY/DECK WATCHMEN: Not required.

OPENING/CLOSING HATCHES: All beams and hatches to be handled by ship's crew.

CERTIFICATES: Register of Cargo Gear and associated Test Certificates.

CARGO GEAR: To comply with requirements of the Australian Navigation Act, 1912–58.

IDENTIFICATION CARDS: Not required.

CONSULS: Administrator's Office performs some consular functions.

REPAIRS: No facilities exist.

REPATRIATION: Only for medical emergencies.

AIRPORT: One flight every two weeks to Australia, one flight per month to Singapore and one flight per month to Kuala Lumpur.

TIME: Local time GMT plus 7 hours – constant.

HOLIDAYS: New Year's Day; Australia Day (26th January); Hari Raya Haji; Chinese New Year – two days; Good Friday; Easter Monday; Queen's Birthday; Territory Day (1st October); Hari Raya Puasa; Christmas Day; Boxing Day.

No work performed on New Year's Day, Hari Raya Puasa, Good Friday, 1st day of Chinese New Year and Christmas Day.

POLICE/AMBULANCE/FIRE: Police 444; Ambulance 333; Fire 222.

TELEPHONES: Placed aboard when required by port authorities. No charge.

GENERAL: Ships may be ordered to leave berth at short notice if weather deteriorates.

AUTHORITY: Harbour Master.

NOTES

Please also advise Shipping Guides Ltd.

Colombia

GENERAL:

FREE PRATIQUE: There is no radio pratique. The standard W.H.O. Health Certificate must be used.

PILOTAGE: Pilotage is compulsory for all vessels over 250 n.r.t. The Pilot must be requested by the Agent at least 24 hours in advance.

Berthing preference will be given as follows:

1. Warships.
2. Passenger vessels and Mail Boats on a fixed itinerary.
3. Vessels with livestock and perishable cargoes.
4. Passenger vessels not on a fixed itinerary.
5. Vessels loading cargo for export.
6. Vessels discharging cargo for import.
7. Tankers.
8. Coasters.
9. Vessels carrying explosives.

On sailing all vessels must fly the "P" flag.

Vessels at anchor can be authorised to work to lighters.

All Colombian ports are open 24 hours a day.

STEVEDORES: Are supplied by the Port Authorities although it is often necessary to employ extra labour through the Agent, due to the fact that gangs are seldom complete. At week-ends, gangs required for Monday must be ordered by 1000 hrs. on Saturday. Masters should bear this in mind when sending their ETA.

Cargo in a damaged condition or showing signs of pilferage will not be handled until inspected by a Port official and ships officer, leaving on record the actual condition of the cargo.

Containers are discharged or loaded as all other cargo, though if they are stuffed or unstuffed immediately this must be done with the Port Labour provided.

Opening and closing of hatches, and the rigging of gear, is done by a gang of riggers. The ships crew can do this work, but it is advisable to use Union Labour.

Rain tents are not supplied by the port.

All gear, slings, spreaders, etc., must be supplied by the ship.

Rat guards must be fitted on all mooring lines whilst in port.

PORT SECURITY MEASURES: All ports are rigorously patrolled by Port Police, and Crew members are advised to carry Identification Cards at all times when ashore.

FUMIGATION: This can only be carried out alongside with the permission of the Port Authority.

GARBAGE: No garbage may be thrown overboard. This includes flakes of paint from vessels chipping or scraping the hull. No paint must be allowed to drop into the water or onto the quayside. Overboard discharges must be kept off the quay.

POLLUTION: The standard requirements for the prevention of oil pollution must be adhered to within the continental shelf off the Colombian coast.

All vessels must ensure that the Oil Record Book is up to date prior to arrival, as it is likely to be inspected.

Fines can range from 50,000 to 500,000 Pesos, not including the cost of any clean up operation.

No vessel contaminating the waters of any port may sail until the corresponding fine has been paid.

Oil Tankers are not permitted to clean tanks within 60 miles of the Colombian shores. If a vessel arrives in port with dirty ballast, she will be ordered to proceed to sea beyond the 60 mile limit, and take on clean ballast.

CREW: The authorities will not allow crew to be of unkept appearance or improperly dressed at any time while the vessel is in port.

FUEL: Bunkers are only supplied to vessels which were supplied in 1972, and are actually trading to Colombia. Vessels may not take more bunkers than the amount they received in that year. Requests for bunkers must be made to Agents at least 1 week in advance.

TIME: Colombia GMT minus 5 hours. Summertime is not observed.

BARRANQUILLA: 10.58 N. 74.47 W. (See Plan Book)

DOCUMENTS:

Clearance from last port.
Ship's Register.
Load line.
Safety radio.
Safety equipment.
Cargo gear.
Oil Pollution Certificate – Policy of Insurance.
6 Crew List.
5 Crew Personal Effects List.
5 Provision List.
5 Store List.
6 Passenger List (in transit).
6 Passenger List (disembarking).
4 Declarations of Passenger baggages.
4 List Port Mail.
1 Sanitation Declaration.
Sets of manifests covering port cargo.

PILOTAGE: Cable Agent 24 hours prior arrival advising ETA. Pilot boarding position Lat. 11° 06′ 50″ N., Long. 74° 52′ W. Radio telephone frequency of pilot station 2738 alternative 2638 or 2182 kc/s. and VHF Channel 16. 2 pilot boats speed 7–9 knots. Sufficient depth to allow vessels wait for Pilot in boarding position, including trade wind season end November to beginning April.

ANCHORAGE: If awaiting Pilot, anchor 1 or 2 miles West of West breakwater during non-windy season. After Pilot boards and when no berthing space at the quay, anchorage is made in the river, about 1,500 ft. off the dock in approximately 40 ft. of water. Three shackles of chain required in good holding ground.

RESTRICTIONS: Depth at the river bar is being maintained at a min. of 34 ft., however, the actual permissible draft has been curtailed to 30 ft. or less (28 ft. in November 1980 – check with Agent) on account of silting conditions of the river and low river levels, particularly around the area known as Siape, approximately 4 miles from the dock area.

MAX. SIZE: Recommended max. LOA 600 ft. due necessity for turning vessel before sailing. Also see "Restrictions". Rate of current 2.5 knots during dry season, 4 knots in rainy season.

HEALTH: On arrival port doctor boards vessel to inspect crew Smallpox Vaccination Certificates and Uro Fever Certificates, also Deratisation Certificate. If any crew members suspected suffering contagious disease Master to radio prior arrival advising Agents accordingly. Port doctor visits vessel even if previous port was in Colombia.

RADIO: Messages to and from Agents routed through station HKB. Ship's messages should include call letters.

TUGS: Generally no tugs required for river entrance. Tugs assist berthing and turning vessels before sailing. Two tugs available of 1,200 and 800 h.p. respectively.

BERTHING: Pier length 2,375 ft. Vessels berth starboard side alongside.

CRANES: 50-ton floating crane available.

STEVEDORES: Agents should receive advance copies of stowage plan and adequate notice ETA order arrange gangs.

MEDICAL: All facilities available.

TANKERS: No facilities.

FRESH WATER: Available. Rate about 20 t.p.h.

FUEL: All grades available for delivery by barge.

FIRE PRECAUTIONS: No vessel requirements. Terminal has own fire-extinguishing equipment.

DEVELOPMENTS: Two more berths under construction.

GANGWAY/DECK WATCHMEN: Request watchmen through Agents.

CUSTOMS ALLOWANCES: No limitations for individual consumption.

IDENTIFICATION CARDS: Supplied by Agents.

CONSULS:

Austria
Belgium
Bolivia
Brazil
Chile
China
Costa Rica

U.S.A.
Venezuela

REPAIRS: Good facilities for mechanical or electrical and radio repairs.

DRYDOCKS: Only one dry dock for very small vessels.

REPATRIATION: Good facilities available.

AIRPORT: 6 kms. from city. Airport served by major airlines.

TIME: GMT minus 5 hours.

HOLIDAYS: 1st January, 6th January, 8th April, 9th April, 1st May, 23rd May, 2nd June, 29th June, 20th July, 7th August, 15th August, 12th October, 1st November, 11th November, 8th December, 25th December. Working hours 0800–1200, second shift 1800–0200. No work on Sunday.

POLICE/FIRE/AMBULANCE: Fire 411828, ext 38. Ambulance 410736 or 319594. Police 411937.

TELEPHONES: Arrangements available for placing telephones on board.

SPECIAL RECOMMENDATION: Masters to warn crew to close and lock cabins.

REGULATIONS: No special facilities for discharging explosives. If explosives on board vessel not allowed berth.

AUTHORITY: Direccion General Maritime Y Portuaria – Capitania De Puerto de Barranquilla.

BUENAVENTURA: 03.53 N. 77.05 W. (See Plan Book)

DOCUMENTS: On vessel's arrival, Master must present following documents to Port Captain's Office:

Travel Memorandum.
Sole document or Consular despatch from the last port or ports where vessel disembarked or embarked passengers.
3 Crew Lists.
3 Provision Lists.
3 Lists Crew's Personal Effects.
3 Lists Passengers in transit (or negative).
3 Lists disembarking Passengers (or negative).
3 Lists port mail (or negative).
1 Sobordo or Manifest of cargo for the port.
2 Declarations of Passenger baggage, if any.

Destined to Maritime Terminal:

3 Sets Sobordos or Manifests covering port cargo (or negative).
1 Set of Bills of Lading, covering discharge cargo.
20 Tally Books for discharge cargo.

Destined to the Custom House:

3 Sets of Sobordos or Manifests for cargo destined to the port.
1 Set of Bill of Lading for port of destination.
1 Tally Book for cargo to be discharged in port.
2 Declaration Lists for Passenger baggage, if disembarking.

Destined to the Health Doctor:
Vessel's Travel Memorandum.
International Health Certificate.
1 Crew List.
List of Passengers in transit (or negative).
1 Vessel's Fumigation Certificate (for presentation only).
1 Port Passengers List (or negative).
Certificate of Exemption of Deratisation (for presentation only).

Destined to Immigration Authorities:
1 Crew List.
1 List of Transit Passengers (or negative).
1 List of Port Passengers (or negative).

Destined to Agents:
1 Travel Memorandum as above mentioned.
9 Crew Lists for Consular despatch and handling of sailing permit.
6 Lists of Passengers in transit (or negative), for Consular despatch.
6 Lists of personal effects for Consular despatch.
2 Mail Lists for the port (or negative).
3 Sets of Sobordos or Manifests covering port discharge cargo (or negative).
4 Sets of Bills of Lading covering port discharge cargo.
10 Tally Books covering discharge cargo.
2 Lists of Passenger baggage declaration for the port, if any baggage.

PILOTAGE:

(a) Entry marked by Channel having minimum depth of 3.25 fathoms low tide. Advisable enter Channel or leave wharf 1 hour after low tide and 2 hours after high tide, restricting departure during any other periods, particularly when draft exceeding 20 ft. Entry to Channel marked by Buoy No. 1 located at Lat. 3° 47′ 10″ N., Long. 77° 19′ 10″ W.

(b) 24 or 20 hours before reaching port, Master must cable separately to Agents, to Port Captain and to port doctor confirming hour of arrival Punta Bazan (Pilot station). Message to Agency must indicate, in addition to ETA, quantity of cargo destined for the port, number of disembarking or in-transit passengers, number of gangs required for operations, draft, mail for the port, if fresh or running water is required; fuel-oil, cash to Master or any other special requirement; whether special side of wharf is required for berthing, and whether dangerous cargo (explosive) or inflammable cargo, and what quantity. Message to port Captain must also indicate arrival time, quantity of cargo destined to the port, number of disembarking or in transit passengers, mail, whether dangerous or inflammable cargo is brought and in what quantity, and any other data that may be considered useful in accordance with International regulations. Message to doctor must indicate arrival time, number of disembarking or in-transit passengers, and whether there are sick persons on board.

(c) Radio beacon at Punta Soldado, characteristics: Frequency, 317 kc/s. Letters, B.T. Time 0000 – 2400 hrs. every day and every 10 minutes with 20 minutes of rest during 30 minutes work. Flashes 12 seconds duration.

(d) Radio-telephone in pilot station of Punta Basan (opposite to Punta Soldado), characteristics: VHF Channels 11 and 16 every day from 0600 – 2400 hrs.

(e) Since Master's advice to Agency serves as notification to pilot station, Pilot will be at Punta Bazan ready for vessel. In case of delay due to any circumstance, vessel may anchor and request Pilot by 4 short blasts.

(f) Port has 9 Pilots.

(g) Pilot ladder must be lowered a few feet from the surface. Vessel must proceed slowly in order facilitate boarding.

(h) Pilotage compulsory.

ANCHORAGE: Marked by Buoy No. 7, located Lat. 03° 53′ 59″ N., Long. 77° 04′ 04″ W.; depth from 33 to 70 ft. and distance from wharves approximately 1,000 yards.

RESTRICTIONS: Max. draft for crossing bar is 28 ft. one hour before/after high water. Bar is located in position 03° 48′ N., 77° 19′ W.

MAX. SIZE: No restrictions on the length of vessel, depth alongside wharf approximately 12-31 ft. low tide. Also see "Shipmaster's Report No. 3" and "No. 4".

HEALTH:

(a) As soon as vessel anchored by Pilot within bay, port authorities including doctor, will board by means of ladder which must be lowered when port area entered.

(b) In case of sickness on board, Master must advise in order doctor may determine whether vessel will be under quarantine or not. This will apply even if vessel arriving from a port of the same country.

(c) Time-table for meeting vessel: Ordinary or regular time – ordinary time: 0800/1200-1400/1800 hrs.; overtime – 0700/0800-1200/1400-1800/2200 hrs. Sundays and holidays, overtime.

(d) After 2200 hrs. and up to 0700 hrs. of following day it is not possible to make arrangements for meeting vessels, unless in emergency.

RADIO: (Also see "Pilotage"). Port has receiving-transmitting radio station Buenaventura/Colradio HKC. For listening and transmitting there are following frequencies:

Listening	*Transmitting*
8354 to 8374 kc/s.	8574 kc/s.
12531 to 12561 kc/s.	13087.5 kc/s.
6265 to 6280 kc/s.	6386.5 kc/s.

In emergency: Listening: 500 kc/s. Transmitting: 441 kc/s. Station operates 24 hours a day.

TUGS: Normally only required for berthing. Tug operation handled by Pilot. Generally tug service consists of pushing from stern or bow as required. When necessary to use ropes, they must be supplied by vessel. 4 tugs of 1,200 h.p. each, 1 of 350 h.p. and 1 of 60 h.p.

BERTHING: Main wharf 2,126 m. long, divided into two sections, one for import cargo and one for export cargo. Facilities exist for handling container traffic.

Berthing arranged by turn according to time of anchoring in bay for each vessel. Tidal currents exist alongside berths.

Berth	*Length*	*Depth at LW*
Shed No. 1	202 m.	12 ft.
Sheds No. 2–No. 9	—	23–25 ft.
New Pier	80 m.	31 ft.
	597 m.	17–20 ft.

STEVEDORES: (See "Pilotage"). Port has at present time 80 gangs of 16 men each. The working hours during ordinary or regular time are from 0800/1130 and from 1400/1730. Overtime from 1800/2400 and from 0000/0800, and 1200/1400 (24 hours are worked).
No work from 2300 hrs. Saturday until 0700 hrs. Monday.

MEDICAL: Agent must be given advance notice of urgent medical attention. Properly equipped hospital. All members of crew and passengers must have International Certificates of vaccination against smallpox.

TANKERS: Independent oil pier with capacity to accommodate vessels of medium size. Four 8 in. hoses for discharge of petroleum products, and two 6 in. hoses for unloading chemicals. Average rate of discharge of gasoline is 5,000 b.p.h. (approx.) Fuel oil and chemicals 1,500 b.p.h.

DENSITY: 1012 (approx.) average.

FRESH WATER: Drinking water unlimited quantity. Delivered through hose from end of wharf. Rate of delivery: 6 t.p.h.

FUEL:

(a) Two kinds of fuel, marine gas oil and bunker "C" fuel. Characteristics of gas oil: API gravity 33.0 at 60° F. Specific gravity: 8602. Characteristics of bunker "C" fuel: API gravity, 13.2 at 60° F. Specific gravity, 9779.

(b) To take bunkers vessel must berth between warehouse 2 to 9, and for delivery of gas oil between warehouse 1 to 5.

(c) Rate of delivery (approx.), 250 b.p.h. for bunkers and 700 b.p.h. for gas oil.

(d) Deliveries depend on quantity available when order placed, consequently Agent must know well in advance vessel's requirements.

(e) Cash payment according to prevailing prices at time of delivery; otherwise, according to contracts between Shipowner and supplier.

FIRE PRECAUTIONS: Fire station within port installations with proper equipment. In city also another fire station, co-operating if necessary.

DEVELOPMENTS: Improvement in wharf installations, warehouses and equipment and dredging is scheduled to deepen the depth alongside wharf.

WATCHMEN: Service necessary both by Crew members' and Agents' personnel. There is no established body of watchmen; the steamship agencies carry out this work with their own personnel with previous request by Master. The port has a port police body and Custom house guards which co-operate in vessels' watch.

OPENING/CLOSING HATCHES: All Agents have special gangs to handle this operation and to fix the vessel's rig for discharge and/or loading. These personnel permanently stand by on board on account of climatic conditions of port with frequent and sudden rains. No prohibition against crew carrying out such operations when charter parties are involved and which stipulate that such operation must be done by crew. It is known from experience, however, that vessel's personnel are not, on occasions, sufficient to do this work.

CUSTOMS ALLOWANCES: No regulations establishing quantities which each crew member may have outside bond, but must not be excessive order avoid problems with authorities.

CARGO GEAR: Ship's gear used. Also see "General".

IDENTIFICATION CARDS: Agent will supply special cards to crew and passengers in transit so that they may go ashore. Cards valid for entering and leaving port installations and for identification with the Immigration authorities. Must be returned before vessel departure.

CONSULS:

United States	Tel. 2501	Holland	Tel. 2631
Panama	,, 2250	Bolivia	,, 2589
Ecuador	,, 2690	Mexico	,, 3589
Sweden	,, 3270	Spain	,, 2562

REPAIRS: According to port regulations vessels must at all times be ready with engines to sail, consequently repairs of engines not allowed when ship berthed at wharf. No prohibition against minor repairs on deck. When engine or deck repairs taking a long time are necessary, vessels not being loaded and/or discharged simultaneously with repairs must go to anchoring ground, since crowding of vessels at port does not permit vessel being inactive occupying space while other vessels are anchored waiting for berth.

REPATRIATION: Authorities render co-operation for change of crew and arrangements of repatriation in co-ordination with ship's Agent.

AIRPORT: Located 18 km. from Buenaventura. Serviced by a regular airline, Aerotaxi, which has several daily flights from Buenaventura to Cali and a daily flight from Buenaventura to Bogota. Small planes which take 40 minutes from Buenaventura to Cali and 1.5 hrs. from Buenaventura to Bogota. Airport is small and has no facilities for international flights. Agent in charge of the repatriation of a crew member must handle necessary connection in Cali or Bogota, where there are international airports.

TIME: GMT minus 5 hrs. Permanent.

POLICE/AMBULANCE/FIRE: A voluntary firemen corps in the city. Alarm, tel. 2222; Guard, tel. 2223; Firemen of the Maritime Terminal, tel. 2830; Ambulance, tel. 2830; Police, tel. 2738.

GENERAL: Provisions available. Cable service to all parts of the world. Telephone and telex service inside country and to foreign countries through Bogota. Weather conditions: generally rainy. Explosives: if the vessel is transporting dynamite and detonating caps they are placed in separate lighters, and armed guards are required on board any vessel transporting explosives. In such cases, the vessel must anchor in front of Buoy No. 9 and discharge to lighters during daylight. No vessel can berth at the wharf if transporting explosives, and only permitted with dynamite in closed hatches, which will not be opened at the wharf according to government regulations. Port is equipped with following shore cranes: 2×80,000 lb. capacity (mobile), 1×60,000 lb. capacity (mobile), 3×20,000 lb. capacity (mobile), 2×14,000 lb. capacity (mobile), and 4×10,000 capacity (3 mobile and 1 fixed). Floating cranes: 1×45 tons capacity.

Lighters available: 3 with following characteristics:

Size Length/width	Capacity	Type
24.40× 9.45 m.	200 tons	Flat surface
34.40× 7.60 m.	150 tons	Flat surface
38.80×10.60 m.	150 tons	Flat surface

No refrigeration space available.

SHORE LEAVE: Permitted (with ID cards).

DELAYS: At anchorage in Bay average delay of one day while waiting for berth. On account of the rainy condition of the port, discharge or loading is at times stopped up to 12 hrs.

SHIPMASTER'S REPORT No. 1: 1978.

Pilotage: Normally the Pilot boards at Punta Bazen but can be arranged at No. 1 buoy at request of Master as most shallow water is from No. 1 buoy to No. 5 buoy.

Anchorage: Vessels are warned not to anchor near No. 1 buoy or at Punta Bazen because of piracy. Pirates steal ships' cargoes at these anchorages.

Buoys: All buoys marked on chart are not dependable (for example the No. 1 buoy has been shifted 070° about one mile).

Berthing: Depth 9 m. at low water, capacity for 12 ocean going vessels.

Stevedores: For general cargo, each gang 6–8 persons. Working hours 0800–1130, 1400–1730, 1800–2300, 0000–0300 hrs.

Watchmen: Policemen engaged on board on arrival as gangway watchmen and hatch watchmen. Vessel to victual those persons.

Caution: Strong tidal current up to 3 knots in this port, vessel must keep strict watch when anchored and when berthed.

Shallower depth may exist due to silting at fairway and at inner side of the pier.

SHIPMASTER'S REPORT No. 2: 1978.

Whilst at the port we were boarded by two well organised gangs of thieves. The first incident took place in the Roads, when thieves managed to steal cases of whisky and a Xerox machine from No. 1 L/H before being seen and chased off by the ship's crew. The second incident, which could have had serious consequences, occurred whilst at anchor in the estuary awaiting sufficient water to cross the river bar. Here, an aggressive, well disciplined gang, armed with parangs and staves boarded, and only after a running skirmish with the ship's officers did they retreat having stolen one box of cargo from No. 2 L/H. A constant two-man deck patrol has been in operation since arriving at Buenaventura, but the only method of deterring these experienced thieves is effective hold security.

SHIPMASTER'S REPORT No. 3: August 1979.

Silting of berths: Whilst berthed at No. 2 considerable problems have been experienced due to lack of water alongside the berth (See Plan).

The berth is charted as having 9.1 m. alongside, maximum draft of vessel being 7.64 m. However, 2 hours before first Low Water alongside, the vessel had clearly taken the mud and began to come off the wharf. Considerable slacking was necessary in order to prevent parting of moorings. At LW the vessel had come to rest 30 ft. off the quay fore and aft whilst still maintaining reasonable weight on moorings. After draft was indicating 7.00 m. and vessel listed 3° to port. This tide was particularly low, being −0.5 m. below chart datum. It had been previously observed from anchorage that the previous vessel alongside, a large Colombian vessel, had been having similar problems but it was noted that she had been 2 ft. deeper draft.

As the tide flooded the vessel was gradually heaved alongside, but it was 2 hours after LW before she was fully alongside. Similar tending of moorings was necessary during the following 4 days alongside. However, it was found beneficial to give her a list to port which had the effect of lessening the movement of the berth. During this period, 4 hours cargo work was lost at each LW (2 hours before and after) as the derricks could not plumb the wharf. However, I am assured that we were not paying for this lost period. In addition, the Chief Engineer experienced considerable cooling problems due to the intake of mud, leaves and organic matter.

On the Sunday during the period alongside when there is normally no cargo work, all 10 vessels alongside were shifted out to anchor so that soundings could be taken by the Port Authority. The vessel was returned to Berth No. 3, but there proved to be a similar lack of water. (See Plan).

The silt alongside these berths is very soft mud and therefore does not pose any danger to the hull, however the situation is entirely unsatisfactory and as can be seen from the Plan, soundings alongside the jetty show depths of 3 to 4 m. less than charted. I am told by the Agent and Port Authority that a large contract dredger is due to begin work within one month.

SHIPMASTER'S REPORT No. 4: November 1979.

Vessel called at Buenaventura recently, drawing 27 ft. The vessel was berthed one hour before HW and experienced no difficulty getting alongside the berth. The draft was then reduced to 25 ft.

However, on the falling tide, the vessel could not be kept alongside and also listed 2.5°. On sounding the berth I found only 20 ft. of water at low tide.

On taking up the matter with the Agents I was informed that it is quite normal to sit on the bottom, which is soft mud. Furthermore, the berths have not been dredged in the last 10 years and the depth of 24 ft. cannot be relied upon.

I am also advised that plans are afoot for a massive dredging operation, due to commence sometime in November this year.

CARTAGENA (Incl. Mamonal and Ecopetrol): 10.26 N. 75.33 W. (See Plan Book)

DOCUMENTS:

Clearance from last Port.
7 Crew lists.
Ships papers and Certificates.
Oil Pollution Certificates.
7 Personal effects lists.
3 Sets of cargo manifests of each port with respective bills of lading.
Tally books of cargo for each port.
Health declaration, Certificate of Vaccination, Deratization Certificate.
7 Lists of passenger to disembark (or negative).
7 Lists of passengers in transit (or negative).

PILOTAGE: Compulsory. Boarding position, around Lat. 10° 19′ 05″ N., Long. 75° 36′ 10″ W. 2 Pilot boats, black hull, white superstructure. Speed 6 knots. Sound signals, 4 long blasts for all type of vessels. Radio: VHF – standing by on Channels 11 and 16. Also Channels 6 and 26 to shift. Service 24 hours every day. At Central Radio Terminal there is A.M. radio on frequency 2738 and 2638 khz. and VHF.

ANCHORAGE: Anchorage in foul weather or other reasons 0.5 mile S.W. from buoy No. 1. For vessels awaiting berth in Cartagena, South from Punta Castillo Grande. For tankers in Mamonal, West of the pier of Refineria Ecopetrol.

RESTRICTIONS: Entry day or night.

MAX. SIZE: Cartagena: length 600 ft., beam 79 ft., draft 30 ft. (for berthing).

Tankers: length 850 ft., beam 110 ft., draft 38 ft. Tankers anchor and berth in port of Mamonal, within bay, using same approach.

HEALTH: Doctor requires the Crew Lists with data of vaccination against smallpox. International regulations in cases of contagious sickness or epidemic are carried out.

RADIO: Radio Barranquilla – HKB

VHF: Pilot station, pilot boat, Terminal Superintendent and Agents on Channel 16.

TUGS: Compulsory for all vessels over 2,000 g.r.t. at Cartagena and in Mamonal.

BERTHING: Port has two piers: Berth No. 1, outside length 202.60 m., depth 28 ft.; inside length 184.76 m., depth 30 ft.; Berth No. 2, outside length 184.76 m., depth 28 ft. A new marginal dock is in service with length 258 m. and depth 26 ft., located West of piers. Between the two piers there is a 134 m. dock with 26 ft. depth. Docking and un-docking around the clock. Berthing shifts or turns: 1st, Passenger vessels (Tourist). 2nd, Cargo vessels with live animals. 3rd, Vessels with mail. 4th, Cargo vessels according to arrival in port.

Cranes and Cargo Handling Equipment:

Truck cranes: 2 of 30 tons capacity; 2 of 12 tons capacity; 3 of 10 tons capacity.

Fork lift trucks: 2 of 62,000 lbs.; 2 of 45,000 lbs.; 7 of 15,000 lbs.; 58 of 7,000 lbs.; 38 of 6,000 lbs.

Tractors: 26.

Trailers: 42.

STEVEDORES: Can be requested with 24 hours notice. Work starts at 0700, 1000, 1400 and 1800 hrs. Services for Mondays must be requested on Saturdays before 1000 hrs. Ship starting work after a Holy Day, must request personnel the day before the Holy Day, before 1500 hrs. Stevedores finish working at 0200 hrs. Saturdays at 1800 hrs. No work on Sundays, January 1st; Good Friday; November 11th; December 25th; May 1st. When ship is delayed there is a conventional waiting time of 4 hours, after that time stevedores retire charging the vessel with 4 hours work (union arrangement). Port authority charges commence when Pilot boards on arrival and cease when the Pilot disembarks on sailing.

BULK HANDLING FACILITIES: Grain unloading undertaken with clamshell or vacuum equipment for bagging on the Quay. Rate in excess of 1,200 tons for a 16 hour shift.

MEDICAL: Requests for medical service through Telecom Radio Station. 6 hospitals. Medicine faculty and medical personnel first class. Also dental services. Vaccinations can be given.

TANKERS:

(a) Ecopetrol: Empresa Colombiana de Petroleos. Muelle Nestor Pineda. Position: within bay of Cartagena, 5 miles N.E. of bay entry (Boca Chica). Port formed by two ocean platforms, with two protections at each side, 0.5 mile distance from Mamonal Bay. Depth 54 ft. with 6 interconnecting lines. Pilotage: through "Mooring Master" of port. Entry restrictions, none; 24 hours service. Tankers dimensions: length 850 ft., beam 110 ft., draft 38 ft., tonnage 40,000 d.w.t. Tugs: compulsory. Tide: 1 ft. 6 in. fluctuation. Fresh water: can be obtained when berthed, 4 in. diameter pipe-line. Precautions against fire: fuel cannot be delivered by barges when vessel is berthed. Pipe-line delivery of bunker fuel oil available. General: requested that vessel arrive with minimum ballast (clean if possible). No dirty ballast to be pumped into the bay. Violation subject to fine. If impossible to arrive with clean ballast, dirty ballast will be discharged through cargo line. Rate of pumping: fuel oil 10,000 B/H; diesel oil 11,000 B/H.

(b) Mamonal: Muelle Refineria Ecopetrol. 7 miles (approx.) South of Cartagena Town and 5 miles East of Boca Chica entrance Channel. Approaches and Pilotage: same as for Cartagena (see above). Mooring Master boards about 0.5 mile off dock and remains aboard whilst vessel at Mamonal. Mooring Master has to be provided with own cabin and victualling. Max. Size: length 850 ft., beam 110 ft., draft 38 ft. Berth: "T" shaped platform with dolphins. Lines to buoys off both bows and from stern, 2 mooring lines should be joined together for starboard quarter line. Ballast: no dirty ballast to be pumped into bay. If possible arrive with clean ballast; dirty ballast can be discharged ashore. The shore deballasting facilities consist of 1 tank with 75,000 bbls. capacity; the pipeline is 2,835 ft. long and of 16 in. diameter. Three hoses of 8 in. diameter are connected for deballasting. Fresh water: not available

except at Cartagena. Fuel: available, Bunker "C" and diesel oil. Also see "Shipmaster's Report" – 1979.

FRESH WATER: Available at all berths.

DENSITY: 1015 (At Mamonal)

DEVELOPMENTS: Draft increase; periodical cleaning of bay and basin. Enlargement of Marginal No. 1. Paving of yards and construction of new warehouses and workshops.

WATCHMEN: Watching service at the gangway and deck. Officially this service is done by port's guards. It is recommended that members of crew assist in this service.

CLOSING/OPENING HATCHES: Undertaken by port stevedores.

IDENTIFICATION CARDS: Agents supply cards signed by port Captain and Master.

CONSULATES:

Costa Rica	40583	Italy	41583
Chile	44942	Mexico	44601
Denmark	43669	Netherlands	41750
Ecuador	42645	Nicaragua	41362
Finland	43669	Norway	45752
France	41290	Spain	42685
Germany	20162	Sweden*	47503

*Consular representative.

DRY DOCK: Commercial Shipyard "Conastil" with slipway facilities for ships up to 1,300 d.w.t. 9 ft. max. draft. Floating dock capacity for vessels of up to 400 ft. length, 55 ft. beam, 19 ft. draft and 3,000 d.w.t.

There is a new syncro-lift in Conastil with capacity for ships of 3,700 ton displacement.

REPATRIATION: Facilities available for crew changes.

AIRPORT: Runways for large jets. Flights to Miami on Saturdays and Sundays, (5 flights) served by Avianca, Sam, Aerocondor. Lacsa serves 2 flights weekly to Maracaibo and Caracas. (Sunday and Friday). Connections through Barranquilla and Bogota airports for Europe and USA.

TIME: Colombian official time: 5 hours behind GMT. Permanent.

HOLIDAYS: Eighteen days of holidays during year, but at terminal there is no service on following dates only: New Year Day (January 1st); Good Friday (Viernes Santo); Labour Day (May 1st); Cartagena Independence Day (November 11th); Christmas Day (December 25th). During the days December 24th and other holidays there is 24 hour service with 50% surcharges.

POLICE/AMBULANCE/FIRE:

Police Radio patrol	04
Red Cross	20360
Hospital Universitario	22380
Hospital Bocagrande	40270
Hospital Naval	40248
Clinica de Manga	40762
Clinica Cartagena	20910
Ambulance of Terminal	Channel 16 VHF
Firemen of Terminal	Channel 16 VHF
Firemen of Cartagena	42222, 20903

TELEPHONES: May be placed aboard.

SHORE LEAVE: Crew allowed disembark. Every member of crew is given card signed by Port Captain and Master of the vessel.

REGULATIONS: To clear the wharf if required for tourist vessels or export cargo vessels.

GENERAL: Cartagena can be entered or left at any time day or night. Vessels can also berth or unberth in dry season or rain seasons, and services are rendered during 24 hours.

There is a very tight security system with a detachment of 145 port police, watch towers, dogs, sodium vapour lighting, access control, full identification, cargo control unit. This new unit, and the administrative controls that complement it, has reduced losses to near vanishing point.

The port has international communications with telex, phone and cable. Complete marine service with VHF and can communicate with Bogota and the other Colombian ports with S.S.B. radio.

SHIPMASTERS REPORT: 1976.

Advice of ETA should be telexed from Cristobal and confirmed by radio upon departure from that port. Agents also request that they are advised prior to vessels arrival, of commodity and tonnage for discharge in each hatch. This should be included in the telex from Cristobal to enable them to arrange the labour and equipment for unloading.

Pilot boards from a black hulled motor launch, about a half mile outside Boca Chica. The launch flies "H" flag by day and white over red lights at night. The Pilot has a portable VHF radio and works on Channel 16. If the pilot boat is not waiting on arrival he can be summoned by sounding 3 blasts on the whistle, at which signal he appears from the pilot station at Fuerte San Jose, on the Northern side of the entrance. The prevailing wind would normally make the starboard side the lee side for the pilot ladder on arrival.

There are 2 piers, each capable of taking 1 large vessel on each side. Depths vary from 28 to 31 ft. The piers are in good condition and are well fendered. A tug is available and assists in berthing by pushing vessel alongside. The tug also stood by on departure but was not used. Cartagena has now become a popular cruise port and on occasions when 2 cruise liners are in port at the same time, delays could be incurred to cargo vessels.

Cargo for discharge consisted of palletised milk powder. The stevedores worked well and achieved an average rate of discharge of 16 pallets (24 tons) per hour. Ship's gear is used, there being no cranes on the piers. There is a 30 ton floating crane available for heavy lifts. Fork lift trucks etc., are hired by the Agents from various sources in the town. Precautions should be taken against theft by locking up everything possible. It is customary to employ 3 shore watchmen who are fed on board.

No difficulties were experienced with the arrival papers and in this respect much assistance was received from the Agents at Cristobal in preparing Manifests, etc. It is essential that in future, Bills of Lading and Manifests covering cargo for discharge at Colombian ports, are placed on board before departure from vessels final loading port.

Fresh water and provisions are available but Agents should be notified of any requirements whatsoever prior to arrival. Landing Cards, supplied by Agents and signed by Master are required for shore leave.

The following papers are required on arrival:

Clearance from previous port.
Register.
Health Declaration.
*4 Lists Crew personnel effects.
*7 Passenger lists (or negative).
7 Lists dry/bonded stores.
*4 Lists Deck and Engine Stores.
*7 Crew lists (1 with vaccination dates to be attached to health declaration)
*3 Lists commodity/tonnage for discharge in each hatch and tonnage of transit cargo.
2 Lists ship's information (Tonnages, owners, length, fuel and water on board, etc.)
4 Lists mail for discharge (or negative).
*8 sets Sobordos (manifests) with Bills of Lading (2 to be freighted in US dollars)
15 Tally books in alphabetical order of cargo marks.
(for use of tally clerks in discharge)

*Require to be Consular stamped before arrival.

SHIPMASTER'S REPORT: August, 1979.

Approaches: Cape Santa Domingo shows up at 35 miles on radar. During Summer months May to September strong N.E. winds with heavy swell are prevalent in the approaches.

Thunderstorms and squalls are usual in Summer near the coast with a marked shift in wind.

Boca Chica light and Fairway Buoy light are conspicuous. Bancas Salmedina light on wreck merges with shore lights from the West.

Generally even with strong N.E. winds in Summer it is fairly calm off Fairway buoy, even if blowing strongly a few miles further seaward.

Pilotage: Pilot boards off Fairway buoy, usually starboard side, using gangway/pilot ladder arrangement.

The pilot station is on Isla Draga on the South side of Boca Chica Channel, 24 hour service maintained.

The proper launch is a large black hulled craft but at present (August '79) it is being re-engined. A small pleasure type craft is being used at present of very low speed and light construction. In the bay the Pilots have a turbo craft, small but very fast. The Boca Chica Pilots are a Government service and dock vessels at public piers only, otherwise take vessels to area off private piers and hand over to private Pilot, same when leaving. Pilots speak some English.

The private Pilot at Mamonal Pier is good and speaks good English.

VHF: Appear to use Channel 16 only.

Boca Chica: The narrow entrance to Cartagena Bay Channel well lighted by buoys as per British Admiralty Chart. Max. draft 38 ft. accepted. Sometimes cross currents are Southerly across the entrance with strong Northerly winds. Course steered 086°.

Anchorages: For Mamonal Oil Pier, 1 mile S.W. of pier, with 3 shackles, whole of bay affords good shelter and all the bay is compulsory pilotage.

Berths: Mamonal Pier virtually due East of Boca Chica Channel. It is owned by Ecopetrol and leased to Amocar Refinery behind the berth. Both state owned. Max. size 75,000 d.w.t. (approx.).

Draft: Limited by Boca Chica Channel. This vessel's draft: 41 ft. 03 in. forward and 50 ft. 00 in. aft.

Jetty: Vessel berthed heading North. A short jetty, length 50 m. with pipe gantry and dolphin each end connected by catwalk. Total length 100 m.

The pier ashore is for the pipes and has a narrow catwalk. No stores could be loaded along jetty. No fresh water on the berth. Gangway is a problem and is nearly impossible to land. Ships wih long "B.O.T. type" can be landed on the jetty. We lowered ours to the water and used mooring boat which is on constant stand-by at jetty.

Fenders in a bad state of repair. The aft dolphin has no fender and vessel is kept off by port quarter buoy line. Fender is under repair.

Tugs: Generally two small tugs used for pushing, however, we used only one. A larger tug of 2,500 h.p. should be back in service after repairs.

Mooring: (See plan). The first two lines fast each end are the springs, then the port quarter line aft to keep vessel off the damaged dolphin.

A line boat is used which goes backwards and forwards each end. The berth is approached from the South and port anchor is let go off the berth. Vessel eventually had 5 shackles in water. It takes about three hours from picking up Boca Chica Pilot to all fast.

Cargo: The pier handles Gasoline, Ammonia, Propane and Butane outward and crude oil inward. About 6,000 tonnes a month of Ammonia is shipped for export.

About three 40,000 ton shipments of crude per month are brought in mostly from the Colombian Pacific coast but an occasional Nigerian shipment is also received.

Hoses: All flexible hoses, no Chicksan arms. Ammonia 8 in. 150 ASA with gate valve at ship's manifold, flexible wire braided with rubber covering. Joints liable to leak. Generally two connected ready, but we had to use three and P&O 'Galara' class have to use four due to high freeboard.

No vapour line. No Nitrogen purging. Shore labour connect. Can take up to 1.5 hours to connect/disconnect.

Rate: Maximum Ammonia rate 450 t.p.h. Four pumps at refinery, using

two only seems to make 50 t.p.h. difference. Emergency stop – recirculates on jetty.
Survey: Bill of Lading on ship's tanks.
Loading Master: Speaks good English and very helpful. He requires a cabin as does a Pollution Inspector, Agent's runner and Surveyor.
Pratique: No radio pratique available.
N.O.R.: Signed by Pier Master on behalf of 'AMOCAR' refinery on arrival alongside or at anchor if waiting for berth.
Holidays: Public holidays with banks closed. 1st January, 1st May, 20th July, 7th August, 25th December.
Documents:

5 Crew Lists.
2 Personnel Effects.
2 Store Lists.
Vaccination List.
Maritime Declaration of Health.
Ship's Papers.

Generally very good co-operation with four persons boarding, none on departure, Agent brings clearance. Require to sight register, load line certificate, radio certificate, safety certificate and DTI/P&I Pollution certificate.

In some publications a document called 'SOLE' form is mentioned. The Agent said this was a form from Colombian Consul at last port to say all papers in order but no longer required. Shore passes valid for three days are issued, no photographs required. Passes are not returned. Smallpox vaccinations must be in order and up to date.
Customs: Will only board between 0700 hrs. and 1900 hrs. If the vessel has not cleared before 1900 hrs. she cannot start cargo. This is a new law by the Port Captain since the end of July 1979, previously he used to issue a waiver and allow loading but some Agencies didn't apply to him and started before Customs came with waiver. A meeting is due to be held before the end of August 1979 on this subject between Agencies, Customs and Port Captain. This means, at present, that it is not advisable to pick up the Boca Chica Pilot between 1730 hrs. and 0530 hrs. as vessel will not be able to work cargo and will probably have to pay an extra day's port costs as they are on 24 hour arrival Pilot basis.
Communications: Barranquilla "HKB". Frequencies: 476; 6463.5; 8666; 13087.5. HF: Channels 5/6; 6, 8, 12 mHz.

Telex: Good.

Telephones: To Europe from Cartagena, 2 to 3 hours delay.
Bunkers/Fresh Water: At Bay piers, can easily be obtained by barge.
Agent: Did not seem aware of new Port Captain decree on not starting cargo at night which cost extra days port charges, which could have been avoided, until he boarded with Customs.

Apart from the above, very good and attentive. Can be contacted on VHF Channels 16 and 6. A "runner" is on board all the time with a walkie-talkie.

I was told that crew changes are easily done as long as 24 hours notice is given for Immigration clearance. It is quite normal for ships to sail with Crew members adrift and as long as Master gives Agent letter of authority for hotel costs and air ticket there are no problems with the Authorities. The nearest British Consul is in Bogota.
Airport: A few miles North of city, of international standard, served by the local airline 'Avianca' and others, plus Pan Am, Southern, American, Braniff with daily flights to United States direct. It takes about 2 hours by plane to Bogata the capital, planes operate on a shuttle principle with connections at Bogata to Europe daily by KLM, British Airways, Lufthansa, Air France, etc.
Shore Leave: It takes about 20 minutes from Amocar Refinery (At foot of Mamonal jetty) to Cartagena by bus. Rate of exchange: Pesos to Dollar = 40.
Thieving/Stabbing: All officials and Pilot advised us to make sure we had a very good deck patrol with no ladders overside, thieving at Bay berths is rife. Also make sure you have some strong weapon with you and you lock yourselves in at night as people have been stabbed in bed when woken by thieves. Lock everything up.
Developments: Considerable developments have taken place in the area in recent years. Cartagena is a big tourist centre from Venezuela and the U.S.

Exports include coffee, fruit, lumber, tobacco, precious metals and petroleum products.

Good road and rail communications exist with Bogata the capital taking about 18 hours.

The Eastern shore of the bay is being developed as an industrial area. The following piers and sea island are in evidence.

ECOPETROL sea island (Nestor Pinead Terminal) takes up to 100,000 d.w.t. tankers, 54 ft. at the berth but limited by Boca Chica Channel. Chicksan connections. FW piped to berth, mooring to buoys. Used for export of fuel oil and other petroleum products. Situated just North of Brujas Island.

Cement Jetty	in position:	10° 20.4′ N., 75° 30.9′ W.
Soda Pier	in position:	10° 19.9′ N., 75° 30.85′ W.
Syncrolift	in position:	10° 19.7′ N., 75° 30.8′ W. 15,000 d.w.t. to be commissioned early 1980.
LPG Barge Pier	in position:	10° 19.4′ N., 75° 30.8′ W.
Mamonal Pier	in position:	As charted
Industrial Berth	in position:	10° 17.3′ N., 75° 30.4′ W.
Products Pier	in position:	10° 18.2′ N., 75° 30.55′ W.
Products Pier	in position:	10° 18.2′ N., 75° 30.7′ W.

Considerable barge traffic with big pusher tugs use the River Dique, which comes out in the Southern part of the bay, this joins up with the River Rio Magdalena in the interior and to Barranquilla, etc.
AUTHORITY: Empresa Puertos de Colombia, Gerente, Terminal Maritimo y Fluvial de Cartagena.

COVENAS (Gulf of Morresquillo): 09.25 N. 75.42 W.

See "General" before first port.
DOCUMENTS:

3 Crew Lists.
Passenger List.
Customs Documents.
Manifests.
Bill of Lading.
Ships Papers.
Clearance Ballast Manifest.
Crew's Personal Effects Declaration.
Vaccination Certificates.
Stores List.

PILOTAGE: Advise ETA 72, 48, 24 hours in advance. Pilot leaves dock on sighting vessel. Ship boarded approx. 1 mile N.W. of sea buoy or at anchorage. Pilot boat is 25-ton tug, 60 ft. length, 500 h.p., steel hull.
ANCHORAGE: Vessels arriving at night anchor 1 mile N.E. of lighted marker buoy. Bottom – mud.
RESTRICTIONS: Docking only during daylight 0500-1730 hrs. Undocking – any time.
MAX. SIZE: Length 800 ft., draft 42 ft. 6 in. Depth in approach Channels 42 ft. Mean tidal range 18 in. Current 3 knots (max.).
HEALTH: Quarantine officials board ship at berth or at anchor. Accommodation ladder should be rigged for Quarantine and Customs Officials. From December to March ladder should be rigged on port side due to prevailing North wind.
RADIO: Radio traffic addressed "Sagoc Tibu" via Barranquilla or Cartagena Radios.
TUG: Tug-pilot-boat leaves dock on sighting vessel.
BERTHING: Vessels use starboard anchor with approx. 5 lengths of chain, and 2 starboard mooring buoys aft; 2 port mooring buoys aft and 2 port mooring buoys forward. All mooring lines should be 120 fathoms. Prevailing wind 310°. Terminal is a sea-berth approx. 1 mile from illuminated marker buoy. The berth has now been taken over by Ecopetrol and may be used in future for the discharge of imported crude.
MEDICAL: Doctor on call at any time. Twelve-bed hospital.
LOADING: Hoses connected on port side 2×10 in., each 2.5 tons, to be lifted by ship's boom and winch. Pipe-line 20 in. 7,300 ft. from pump station to berth. Average pumping rate: 2,000 t.p.h. Max. pressure ashore: 120 psi. 3 grades of oil handled by same pipe-line. Approx. API gravity of crudes: heavy Barco 32.5, Cicuco 45.5, Valasquez/Barco mix 24.0°.
DENSITY: 1021.
FUEL: See "General" before first port.
IDENTIFICATION CARDS: If required by Customs, issued by Sagoc.
CONSULS/REPAIRS/DRYDOCKS/FUEL/FRESH WATER: None.
REPATRIATION: Only if sick crew member left ashore after vessel sails.
AIRPORT: Barranquilla. Flights to U.S.A., Europe and other South American countries.
TIME: Eastern standard time. GMT minus 5 hours.
HOLIDAYS: Loading carried on during holidays and week-ends.
SHORE LEAVE: At discretion of Captain. Crew uses private motor vessel at own risk.
REGULATIONS: Vessels should arrive with clean ballast. No dirty ballast to be pumped into bay, violation subject to penalties. If impossible to arrive with clean ballast, dirty ballast will be discharged through cargo lines and 3,000 barrels of dirty water displaced into vessel. Capacity of slop receiving facility unlimited.
DELAYS: Only when other vessels occupying mooring.
AUTHORITY: Ecopetrol.

POZOS COLORADOS TERMINAL: 11.09 N. 74.15 W.

OPERATORS: Chevron Petroleum Co.
DOCUMENTS: See "Santa Marta".
LOCATION: North Coast of Colombia, approx. 6 miles S.W. of Santa Marta.
MAX. SIZE: Berth in approx. 55 ft. of water and can accommodate vessels of up to 69,000 d.w.t. with max. draft 45 ft.
PILOTAGE: Mooring Master will meet vessels approx. 1 mile seaward of terminal location. He will remain on board throughout the vessel's stay and should be provided with accommodation.
CLEARANCE: Port Authorities board with Mooring Master to enter ship and attend all formalities.
BERTHING: Vessels lie in berth in approx. due North heading; vessel's lines run by means of mooring launch to stern, quarter, and breast buoys. Vessels up to 20,000 d.w.t. require at least 5 good manilla lines; vessels in excess of 20,000 d.w.t. require at least 7 good manilla lines. These lines must be of not less than 120 fathoms length. Synthetic lines of equivalent strength may be used. Vessels equipped with wire mooring winches may use wires in lieu of fibre lines. When mooring, required use both bower anchors, each having at least 150 fathoms of chain and be prepared handle 5-ton lift on starboard side at ship's manifold. Because of rigidity of submarine hose, a small movement of vessel out of correct position could damage submarine equipment. Extreme caution must be exercised to assure that vessel is correctly moored. During loading operation slack must be kept out of submarine hose by adjustment of vessel's anchor and lines.
HOSES: Submarine hose 16 in. with 16 to 12 in. reducer for connection to vessel's 12 in. deck hose. For vessels not equipped with 12 in. deck hose, a 12 to 10 in. reducer is available. A 25 ft. length of 10 in. deck hose is also available for vessels not having a deck hose on board. Ship's crew performs all hose connecting, disconnecting, etc.

CARGO HANDLING: Rio Zulia Crude Oil has following specifications: Gravity, approx. 41.2° API. Flash, below atmospheric temperature. Reid vapour pressure, 5 to 8 psi. Pour point, +85°F. Sulphur, wt. %, 0.3 Wax, wt. %, 16.

Rio Zulia Crude has high wax content (about 16% by weight). Above 90°F. Rio Zulia Crude will flow easily and is about same viscosity as heavy No. 2 oil. Below 90°F. it rapidly becomes more viscous until it is similar to petroleum jelly or heavy lubricating grease.

Temperatures: Loading temperature of this cargo at Pozos Colorados between 85° and 90°F. Vessel should maintain loading temperature in wing tanks or if necessary gradually raise temperature to approximately 85° to 90°F. Approx. 2 to 3 days prior arrival discharge port, vessel should start to heat cargo in centre tanks so that upon arrival discharge terminal, average cargo temperature is between 100° and 105°F. for both wing and centre tanks. This temperature should be maintained throughout discharge. When discharge is through a submarine line in cold waters or over docks, when ambient temperatures are extremely cold, it is recommended that above temperature be increased 5° to 110°F.

Tank preparation: Cargo tanks which on previous voyage contained sour crudes (similar to those loaded in The Gulf) should be machine washed with hot water at max. pressure order remove from tank bottoms all free oil remaining from previous voyage. Machines should be spotted low in tanks so as obtain max. washing over tank bottoms. Upon completion of deballasting, cargo tanks should be stripped dry and cargo pumps and lines drained so that tanks, pumps and lines free of pumpable water when cargo loaded into them.

BALLAST: The utmost care must be exercised by all tankers to avoid any contamination of the terminal bay waters, since the entire area is a developing tourist resort. This means that absolutely no deballasting or disposal of bilge water must take place in the bay. Shore deballasting facilities can handle up to 84,000 bbls. if ship provides advance warning.

FUEL: No bunkers available at terminal. See "General" before first port.

REPAIRS: Limited repair facilities available in Santa Marta, approximately 6 miles from terminal.

MEDICAL: Doctor and hospital located at Santa Marta.

CONSULS: No consular office in vicinity of terminal. Nearest Consuls, located in Barranquilla, approx. 35 miles distant.

SHORE LEAVE: Through the ship's Agent, shore leave can be arranged, but sufficient crew must remain on board to handle emergencies.

GENERAL: No petroleum inspection services. No ship's stores.

SANTA MARTA: 11.15 N. 74.14 W. (See Plan Book)

DOCUMENTS:

For the Port Captain:
1 Clearance from Last Port.
1 Voyage Report.
1 Crew List.
1 List of Passengers for Santa Marta.
1 List of Passengers in transit.
1 List of Provisions.

Vessel Certificates: (these only need to be shown)
Registration Certificate.
Load Line Certificate.
Classification Certificate.
Safety Equipment Certificate.
Radiotelegraphy Safety Certificate.
Construction Certificate.
Cargo Handling Equipment Safety Certificate.
Oil Pollution Certificate.

For Port Health Authority:
Deratting Certificate.
Maritime Health Declaration.
Crew List with dates of vaccination.
List of Passengers for Santa Marta.
List of Passengers in Transit.

For Customs:
3 Cargo Manifests.
3 Crew Lists.
3 Lists of Passengers for Santa Marta.
3 Lists of Passengers in Transit.
3 Lists of Crew Personal Effects.
3 Lists of Provisions.
3 Mail Lists.
1 Single Document.

For Agencies:
1 Voyage Report.
6 Crew Lists.
6 Lists of Passengers for Santa Marta.
6 Lists of Passengers in Transit.
6 Crew Personal Effects Lists.
2 Lists of Mail for the port.
4 Cargo Manifests.
4 Bills of Lading.
2 Cargo Stowage Plans.

PILOTAGE: Locate Morro Grande Islet and lighthouse, proceed then to location 0.7 miles South of Westernmost point this islet where Pilot will join ship. Information regarding ETA should be relayed to Agent, who will advise port authority.

ANCHORAGES: When it is not possible for the vessel to come alongside a berth immediately, the Captain may anchor within the area included within the following coordinates.

Lat. 11° 14′ 45″ N.	Long. 74° 13′ 15″ W.
Lat. 11° 14′ 45″ N.	Long. 74° 14′ 00″ W.
Lat. 11° 14′ 15″ N.	Long. 74° 13′ 25″ W.
Lat. 11° 14′ 15″ N.	Long. 74° 14′ 00″ W.

Seabed is rocky and sandy, with depths about 120 ft.

Vessels should anchor in the lee of the Morro Grande and Morro Paqueno (Large and small headlands), particularly during the months of December to March, when there is a strong N.E. wind.

RESTRICTIONS: None. Good visibility throughout year. Difference in tides negligible.

MAX. SIZE: 730 ft. length, 40 ft. draft. No limit to beam. Oil carriers: refer to Pozos Colorados.

PRATIQUE: Pratique granted by Port Captain who visits vessel immediately on arrival. Doctor also attends on this visit.

RADIO: Barranquilla Radio or Cartagena Radio; radio stations messages relayed by telex to Sta. Marta. Ship's Agents use same system. Terminal Office may be contacted on radiotelephone, 2738 kHz.

TUGS: Join vessels just before entrance to inner harbour; they may use own lines or vessels lines.

BERTHING:

Quays	*Length*	*Minimum Depth*
No. 1	540 ft.	42 ft.
No. 2	540 ft.	47 ft.
No. 3	760 ft.	37 ft.
No. 4	465 ft.	28 ft.
No. 5	465 ft.	35 ft.

Facilities exist for container traffic. 30,000 tons silo for grain storage and discharge facilities for up to 5,000 tons per day.

STEVEDORES: ETA to be given 72 and 24 hours before arrival, indicating number of gangs required. Unloading rate of general merchandise 10 t.p.h., and homogeneous cargoes around 15/20 tons.

No work from 2300 hrs. Saturday until 0700 hrs. Monday.

MEDICAL: Advance notice required whenever special medical attention needed on arrival; hospital available.

TANKERS: See "Pozos Colorados".

DENSITY: Tropical sea salt water density.

FRESH WATER: Available alongside docks: delivery (approx.) 10 t.p.h.

FUEL: Not available. Nearest supplies at Barranquilla.

GANGWAY/DECK WATCHMEN: Deck watchmen supplied by Agent.

OPENING/CLOSING HATCHES: By special gang ordered by Agent.

SHIP CERTIFICATES: Load Line, Cargo Gear, Classification, Lifeboat, Main Engines, Radio Equipment, Fire Fighting Equipment, Ship's Register, Officers' Certificates (licences).

CUSTOMS ALLOWANCES: (Tobacco), 2 cartons of cigarettes per man. All other tobacco will be sealed by Customs. (Wine and/or Spirits), 1 open bottle of liquor permitted per crew member. All other spirits will be sealed by Customs.

IDENTIFICATION CARDS: Given by Port Captain once quarantine is cleared.

CONSULS: The following countries have consulates in Santa Marta.

		Phone
Belgium	Cra. 1a. No. 22-80	2404
Spain	Calle 19 No. 3-26	3559
Guatemala	Calle 11 No. 1C-23 P.8	4048
Italy	Iroka el Rodadero Building.	
Norway	Calle 11 No. 1-C-23 Dpto. 306	3501
Ecuador	Calle 12 No. 16-E-93	2643
Costa Rica	Avda. Libertador No. 33-47	2199

Peru	Calle 16 No. 1-92	3420
Dominican Republic	Cra. 21 No. 15-99	
Finland	Edificio de los Bancos Oficina No. 605	5317

REPAIRS: Only minor welding.

REPATRIATION: Facilities available.

AIRPORT: 19 miles from town.

TIME: 75th Meridian time, Eastern standard time. GMT minus 5 hours.

HOLIDAYS: New Year (January 1st); Church Holiday (April 12th); Labour Day (May 1st); Local Holiday (July 29th); Church Holiday (December 24th); Christmas Day (December 25th); Church Holiday (December 31st). No work on New Year's Day, Labour Day, Local Holidays, Christmas Day. Work until 1600 on other holidays.

POLICE/AMBULANCE/FIRE: Police, tel. 6079; Ambulance, tel. 3116 – 5555; Fire, tel. 6091 – 4545 – 6055.

SHORE LEAVE: Granted after quarantine cleared.

DELAYS: Up to 12/14 hours because of shortage of docking space.

AUTHORITY: Port Captain.

TUMACO: 01.49 N. 78.45 W.

DOCUMENTS:
5 Crew Lists.
5 Stores Lists.
5 Passenger Lists (local, in transit, or negative).
1 Sanitation Declaration.
12 Complete sets Manifests.
3 Mail Certificates (when not included in Manifest).

PILOTAGE: Compulsory. Entrance to the port can only be made during the day by vessels with a max. draft of 19–20 ft., due to the bar between buoys 2 & 3.

For the Tumaco Terminal vessels are boarded by the Pilot at No. 1 Sea buoy.

ANCHORAGE: Sufficient area available in depths of 25 to 35 ft.
RESTRICTIONS: Entrance channel depth 20 ft. Height of tide varies from 8 to 12 ft.
HEALTH: On arrival, port doctor boards vessel to inspect crew Smallpox Vaccination Certificates and Yellow Fever Certificates, also Deratisation Certificate. If any crew members suspected suffering contagious disease Master to radio prior arrival advising Agents accordingly. Port Doctor visits vessel even if previous port was in Colombia.
RADIO: Ships must communicate with the Texaco Head Office in Bogota, who will then inform the Terminal. The Terminal can be reached using VHF Channel 16 at a range of up to 30 miles.
BERTHING: Wharf is 310 m. long. Depth alongside averages 30 ft. Berthing for two vessels of 4,000–5,000 tons.
TANKERS: Vessels moor to 7 buoys, using both anchors. Ships Head 255°T. Max. size 55,000 d.w.t.

Manifold connections are 12 in., although 10 in. and 8 in. reducers are available. Hoses are connected on the starboard side.

The Mooring Master will remain on board throughout, and accommodation must be provided. Fresh water not available.
FRESH WATER: Available from wharf.
FUEL: Supplied by Esso Colombia, by barge.
CARGO GEAR: Terminal owns 3 cranes of 5 to 15 tons capacity.
AIRPORT: Suitable for DC.4 type aircraft, situated 4 km. from port.
DEVELOPMENTS: Programme for deepening the port to 33 ft. at high water.
AUTHORITY: Empresa Puertos de Colombia.

TURBO: 08.06 N. 76.43 W.

ANCHORAGES: Anchorage 2.5 to 3 miles off mouth of Leon River, used for loading bananas from barges.
CLEARANCE: Vessel must first proceed to Punta las Vacas for official visit of Port Authorities to obtain clearance.
MOORING: With sea and wind from the North, loading operations are not possible unless vessel employs the "Baltic Moor".

On arrival at the Leon River Anchorage, vessels should let go a couple of shackles. After that, a 3 to 3.5 in. wire (or mooring line) is passed from the after leads on the poop, along the ship's side, outside and clear of everything. This wire is to be shackled to a number three chain shackle.

By heaving in the wire and slacking the chain as required (about a 60° angle) vessel will give the necessary shelter to banana barges, for normal cargo operations.
SHIPMASTER'S REPORT: 1976. *Chart used No. 24515 (American).*

Vessels ordered to Turbo first proceed for clearance off Turbo town and anchor in position about one mile West of Pta. Las Vacas Lighthouse (08° 04′ N. 76° 45′ W.). The lighthouse, which is situated on the Southern end of Pta. Las Vacas is not readily identifiable from the N.W. until within about 2 miles and the light is reported to be poor. The chart in the area of Pta. Turbo, about 4 miles Northward of Pta. Las Vacas, does not correspond to the radar picture presented, and therefore a berth of at least 2 miles is recommended.

After clearance by Port Authorities at Turbo vessels should proceed to Pinchindi, about 7 miles W.S.W. of Pta. Las Vacas, for loading during the period December to May. It is reported that during the season May to December vessels load off the mouth of the Rio Leon, about 7.5 miles S.S.E. of Pta. Las Vacas. Approaches to this berth apparently pose no problems and the loading position is reported to be close to a buoy off the river mouth, the position of which could not be confirmed.

There is no Pilot available at Turbo.

Vessels loading at Pinchindi should steer to pass about 1.5 to 2 miles S.E. of Boca Pinchindi. When the black buoy, Fl. 3 sec. (marked on chart No. 24515) bears about 335° true, but not less than 315° true course should be altered to bring the buoy right ahead and anchorage should be taken up as convenient on this bearing. The black buoy referred to above is very difficult to pick up against the land, and in February 1976 was extinguished. There are two mooring buoys to the Eastward of the black flashing buoy. These are unlighted and not marked on the chart. Positions of these mooring buoys are as follows, bearings and distances from the black Fl. 3 sec. buoy: BWVS 83.5° true×380 m. R 99.5° true×760 m. These mooring buoys are more readily identifiable from the offing than the Fl. 3 sec. buoy, particularly the red one, which is painted in "International Orange". However it should be borne in mind that this buoy may have just received a new coat of paint at the time this report was written. The red buoy may be seen over the land which lies on the Eastern side of the anchorage before course is altered for the final approach. Vessels of draft up to 25 ft. may anchor up to within about 300 m. of the Fl. 3 sec. buoy in about 22 m. of water.

As the wind strengthens during the afternoon to about force 5/6 from between N. and N.E., and due to the proximity of other vessels in the anchorage, it was considered advisable to use two anchors; the vessel in fact used port anchor with 4 shackles on deck and starboard anchor underfoot. This prevented the vessel from yawing more than a maximum of about 15°, while other vessels moored with only one anchor were observed to be yawing considerably more during the afternoon breeze.

Winds, during the period while the vessel was at Turbo (February 2-4) were predominately from North to N.E. and no significant currents were observed in the anchorage described above.

Caution is advised while navigating in this anchorage at night, as vessels loading logs often have large unlighted timber rafts alongside. It should also be borne in mind that tugs, lighters and launches are often unlighted, and radar echoes from these might easily be mistaken for those of the buoys. While the radar echoes of the land in this anchorage are quite clear, they do not in any way correspond with the chart.

No opportunity presented itself for checking soundings, however, on the vessel's track arriving and sailing soundings on the whole agreed with charted depths.

Loading of bananas is carried out in the anchorage using mechanical conveyors from lighters through vessels sideports, and on the whole was found to be quick and efficient.

No freshwater or provisions are available at Turbo. Indeed no facilities whatever are available from ashore. There is no radio station, although banana shippers "Uniban" have VHF 16 in their office during office hours, Spanish language only. Agents for United Brands Company have VHF Channel 16, call sign is "Casanova".

Caution should be exercised when taking any navigational advice from Officials in Turbo as this may at times be misleading and it is questionable whether persons proffering advice regarding best anchorage position etc. are in possession of all facts necessary for safe navigation in the area.

Documents Required for Inward Clearance at Turbo:
1 Clearance from last port.
6 Crew Lists.
5 Passenger Lists (Nil passengers to be declared).
5 Disembarking Passengers.
5 Mail Lists (No mail to be declared).
1 Maritime Declaration of Health.
1 Vaccination List.
6 Manifests.

Ships Certificates for Inspection:
Register.
Safety Equipment Certificate.
Safety Radio Certificate.
Radio Station Certificate.
Cargo Gear Certificate.
Derat Certificate.
Ships Capacity Plan.

In addition to above list of documents required, the following are also to be presented to Authorities on arrival:
2 Store Lists.
2 Crews Personal Effects.

SHIPMASTER'S REPORT: February 1979.
Pilotage: It is necessary to take a Pilot at Punta Las Vacas for entrance to the bay. Thereafter, any movement inside the bay will also require a Pilot.

SHIPMASTER'S REPORT: July 1979.

Vessel arrived Pta. Las Vacas anchorage at 0207 hrs. 30th July. Cleared Port Officials and proceeded to R. Leon anchorage where vessel anchored at 1010 hrs. to port anchor, 4 shackles in water. Rigging gangs boarded at 1330 hrs. 31st July and completed rigging hatches at 1900 hrs. Loading commenced at 2230 hrs. and completed at 1210 hrs. 2nd August. All gear and labour off vessel at 1220 hrs. At the start there was no cooperation from the stevedores and repeated requests for information regarding which side doors and how hatches and derricks were required to be rigged met with no response until such time as the riggers boarded. It was then expected that the vessel could do everything at one and the same time. To commence only starboard side doors were used but on completion of No. 5 hatch it was decided to work No. 2 hatch both sides, once again no mention of doubling No. 2 hatch was made although the question had been asked repeatedly, the stevedore assured the Chief Officer that the port side doors would not be required. No information regarding quantity of bananas to be loaded or number of Bills of Lading was forthcoming and there was a very definite language barrier until it was made clear that any Bills would be claused "mixed". From this point cooperation improved and the language problem became less difficult. During loading there were numerous delays for weather, machinery breakdowns on the barges and waiting for cargo to arrive alongside. Before cargo operations commenced vessel was requested to "point" the ship using a rope from the port quarter to the port anchor cable and this was attempted with varying amounts of cable paid out, before operation could be completed the wind died down and wind and tide were acting against one another with result that operation was ineffective.

Turbo must now be regarded as being on a par with "ports" regarding theft and all precautions taken, many horrific reports on theft were heard from other vessels; however, if vessel was obviously taking all precautions then generally after being looked over, vessel is left alone. One case concerning a Crew member and radio took place but his property was recovered by Cargo Supervisor and Customs Official, although culprit was not apprehended.

Congo, Peoples' Republic of

DJENO TERMINAL: 04.56 S. 11.54 E. (See Plan Book)

LOCATION: The loading point is located 3,800 m. from the coast in position 4° 56′ 35″ S., 11° 54′ 15″ E., that is to say 9.5 miles S.S.E. of the main Pointe Noire lighthouse.

NAVIGATION:

Djeno Lighthouse: Position 04° 55′ 01″ S., 11° 55′ 45″ E.

The Terminal has a prohibited area which is covered by the red sector of light. No vessel may enter this area between depths of 50 m. and 70 m. as there are offshore production installations, underwater pipe-lines and the loading point within the red sector from approximately S. 3° W. to S. 73° W. Also vessels may not proceed inside 25 m. depth of the red sector without a Pilot on board.

The lighthouse has the following characteristics:

17 m. metallic tower, aluminium colour;

Light is regular occulting light at four second intervals, light 29 m. above MHWS.

Range of white light 18 miles and red light 15 miles.

SBM: Equipped with radar reflector and white light with 60 flashes per minute, range six miles. The floating pipe extending over a radius of 245 m. round the buoy is lit by small white intermittent lights.

PILOTAGE: Compulsory. Pilotage is carried out by Pilots from Pointe Noire (See "Shipmaster's Report"). Call signals for the Pilot are those provided for by the International Code. The Pilot station keeps a permanent watch on VHF Channel 16.

Limits of Pilotage Zone: South, parallel 5° 07′ S.; West, meridian 11° 46′ E.; North, parallel 4° 42′ S.

During the day, when leaving the mooring, request for Pilot is to be made to the Port Commander's Office 3 working hours before the hour of departure. If vessel is ready to leave and the Pilot has not boarded, he may be called by means of the following signal, International flag "G" and at the same time 3 long blasts on the ship's whistle.

If departure should be during the night, request for Pilot should be made to the Port Commander's Office before 1700 hrs., indicating as near as possible the probable time of departure.

Should any changes take place in the time of departure the Port Commander's Office is to be advised at least one hour in advance in order that the vessel should not incur any surcharge. During these hours call for the Pilot shall be made at the Port Commander's Office by the ship's Master or his representative.

Sound Signals: The use of ship's whistle is forbidden between 1700 and 0600 hrs.

Should Pilot be required at any time on a Sunday, order should be placed before 1200 hrs. on Saturday. Should a Pilot be required on a public holiday, order should be placed by 1700 hrs. on the day prior to holiday.

ANCHORAGE: Vessels loading at Djeno may anchor in Pointe Noire Roadstead, 1 mile North of the outer dyke light.

MAX. SIZE: Maximum permissible draft 16 m. (52 ft. 06 in.). However, Elf Congo may reduce this draft if weather conditions are unfavourable. Also see "Berthing".

HEALTH: The Pilot may act for the Hygiene Department, Pointe Noire if instructed to do so by Pointe Noire.

RADIO: Call signal "T.N.A."

Permanent watch on 500 and 2182 kc/s from 0600 to 1800 hrs.

Transmits on 8,722 kc/s from 0930 to 0945 hrs. (G.M.T.)
from 1030 to 1045 hrs. „
from 1330 to 1445 hrs. „
from 1530 to 1545 hrs. „
from 1730 to 1800 hrs. „
on 13,101 kc/s from 0630 to 0645 hrs. „
from 0730 to 0745 hrs. „
from 0830 to 0900 hrs. „
from 1700 to 1715 hrs. „

Elf Congo Terminal: Watch VHF Channel 12 – 156.1 mc/s. whilst tanker at the loading point.

Pointe Noire Office: Call signal: "ECHO LIMA". Watch radiotelephony – 2182 kc/s.

Management of Port of Pointe Noire: Watch VHF Channel 16 – 156.8 mc/s permanent.

Advice of Arrival: Tankers shall have their arrival at Djeno notified by their consignees 72 and 24 hours in advance.

Thereafter, they shall notify any appreciable change in their ETA.

TUGS: Three tugs available from Pointe Noire. 1,000 h.p., 600 h.p. and 1,800 h.p. Request for tugs should be made at least 3 hours in advance and before 1700 hrs. if required during the night. For berthing, mooring boats will be supplied by Elf Congo.

BERTHING: The loading point of Elf Congo at Djeno is of an SBM type, with single mooring at the bow.

The vessel is moored by the bow to a buoy consisting of a cylindrical frame of diameter 10 m. and 4.35 m. high.

This buoy is moored by chains to 6 drilled piles. Anchor moorings extend over a radius of 300 m. around the buoy.

A 40 in. sea-line connects the tank farm with the loading point; the buoy is connected to the sea-line by 2 lines of flexible hoses 20 in.

The loading point is provided for the mooring and loading of full-loaded tankers of approximately 40,000 d.w.t. – 140,000 d.w.t. and half-loaded tankers of 240,000 d.w.t.

Depth of water at the buoy is 22 m.

Notice of Readiness: Shall be sent to Elf Congo.

MOORING: Mooring ropes supplied by Elf Congo. The vessel shall be ready to take aboard two mooring ropes, one on the starboard bow and the other on the port bow. Each rope consists of 42 m. of nylon of 13 in. circumference and 5 m. of 47 mm. diameter chain. Each rope is equipped with a polypropylene lead of 10 in. circumference, 105 m. long for one and 45 m. for the other.

Leads are passed to the vessel by a motor boat. The vessel shall have two ropes ready at the bow to take them aboard.

Mooring can be carried out by day as well as by night, weather and sea permitting.

The derrick shall be rigged before arrival on the port side with a minimum hook SWL of 5 tons.

The ship's manifold shall be made ready on the port side for connection of the two 12 in. flexible hoses.

Flexible Hoses: Loading of vessels carried out through 1 line of 220 m. of 20 in. flexible floating hose, terminating in 2×20 m. sections of 12 in. flexible hose. Manifold connections on board shall be 12 in. ASA flanges. Elf Congo can supply 10 in. to 16 in. reducers.

During connection and disconnection of the flexible hoses, assistance by the crew is essential, in particular for the handling of the winches and derricks. During the whole stay of the vessel at the loading point, the Pilot shall maintain safety watch on board and also assume the duties of head of loading in the absence of a representative of Elf Congo.

The Elf Congo service vessel shall remain at the disposal of the Pilot and shall remain alongside the tanker or nearby. A ladder must be kept permanently alongside the vessel so as to permit access by the team in charge of the flexible hoses.

LOADING: Loading may be carried out with a maximum flow of 8,000 cu.m./h. with two 20 in. lines or 5,500 cu.m./h. with a single 20 in. line, finished with 2×12 in.

Inspection of tanks after deballasting and after loading shall be undertaken in the presence of the Elf Congo loading representative.

The Terminal shall place on board the vessel sealed samples of the cargo.

Twenty minutes before the end of loading, the vessel shall warn the Terminal by VHF so that pumping may be stopped accordingly.

The ship's Master shall be fully responsible for the manoeuvring of the valves and safety of the cargo on board.

DEBALLASTING: The Djeno storage installation is not equipped to receive dirty ballast. The vessel shall, therefore, arrive with a clean ballast.

Any vessel arriving with dirty ballast may be forced to leave the loading point and delay arising therefrom shall be fully incumbent on it. Acceptance of notice of readiness will be rectified accordingly.

It is forbidden to throw into the sea any cinders, burning materials, objects and waste of any kind.

The ship's Master shall be responsible for any leaks on board. Such leakage shall be stopped immediately.

Scuppers shall be plugged during the whole loading time.

SAFETY: The ship's Master shall be responsible for safety aboard the vessel at all times. Sufficient crew members must be aboard the vessel at all times for handling moorings and fire appliances. The vessels main engines must be kept ready at all times. A watch should be maintained to ensure that no undue stress is placed on the moorings and that the floating pipe-lines do not rub against the vessel. Also the vessel should not be allowed to come into contact with the single buoy mooring which may be caused by changes in current, wind direction or other reasons.

Smoking outside of authorised area, use of naked lights, or tools liable to cause sparks not allowed.

Vessel's anchors should be secured in the hawse pipe. No repairs allowed whilst at the mooring also no stores or equipment may be handled on the deck whilst at the mooring.

Whilst Loading: All hull valves shall be kept closed except those required for water circulation. The scuppers on the main deck shall be blocked. Two fire hoses shall be connected and placed one at each end of the vessel. The fire lines should be under pressure at all times.

If there is a fire aboard a vessel moored at the SBM, the following sound signal shall be given on the vessel's whistle: continuous short blasts. The Master of the vessel shall immediately take charge of fire fighting operations.

MEDICAL: There is one hospital, 2 clinics and several doctors.

FRESH WATER: Drinkable water at quays inside the port of Pointe Noire or by tanker of 200 tons in roadstead under shelter (minimum delivery 100 tons).

FUEL: Not available at Djeno. Vessels proceed to tanker berth at Pointe Noire.

REPAIRS: Workshops at Pointe Noire. Facilities for repairing radar and radios.

TIME: GMT plus 1 hour.

AIRPORT: 6 kms. from the port of Pointe Noire. 1 or 2 flights daily to Brazzaville. 1 or 2 flights daily from Brazzaville to Europe.

CONSULS: At Pointe Noire: French consulate, Tel. 94.00.02. Federal German consulate, Tel. 94.00.10.

GENERAL: *Charts:* French chart No. 3357 and B.A. chart No. 3206.

Stores: A ship chandler at Pointe Noire can supply vessels with any foodstuffs required.

Territorial Waters: The sovereignty of the Republic of the People of Congo extends to thirty (30) nautical miles as from the lowest sea watermark along the coast.

Boat Service: A motor boat can be rented through the consignee. Elf Congo motor boats must not be used by the tanker crew except for an urgent medical evacuation.

Meteorology: The rainy season extends from November to May with a maximum in February and March.

Visibility: visibility can be reduced to less than one mile in June, July and August.

Sea: mean density of the sea at the loading point is 1.025. Sea temperature varies between 27°C in February (austral Summer) and 22°C in August (austral Winter).

Tide: tide is of a semi-diurnal type. Mean amplitude of spring tides is 1.60 m.

Wind: S.S.W. generally less than 15 knots.

Swell: generally S.S.W. less than 2.50 m. with periods of 10 to 12 seconds.

Current: sector S. to S.S.E. generally less than 1.5 knots on surface.

The current can change to the North without any apparent reason for a period rarely greater than two days.

SHIPMASTER'S REPORT: (1976): Received prior to above report.

Documents: Papers required on arrival;
Last port clearance.
2 copies Crew lists.
2 copies Vaccination Certificates dates.
2 copies Stores list and bond.
1 copy Crew Personal effects lists.
Pilot and Agent do all paper work.

Approaches: Pointe Noire shows up well on radar at 25/30 miles, but Djeno and the S.P.M. are poor. The phosphate wharf shows up well and projects out from the land about 2 miles S.E. of Pointe Noire breakwater.

Also see "Shipmaster's Report" of approaches to Pointe Noire.

Pilotage: Pointe Noire has 4 working Pilots, one of whom, on the rota system serves Djeno when a tanker arrives.

Both Pilot and Loading Master board from a fast Pilot launch off Pointe Noire and an assortment of mooring ropes and chains and messengers are taken aboard from a work boat which is also met 3 miles West of the breakwater. After that is completed, vessel proceeds the 9.05 miles to the S.P.M. at Djeno.

Max. Size: Depth of water at S.P.M. is 22 m. and the max. draft is 53 ft. (16.5 m.).

Berthing: Mooring to the buoy consists of:
Port and starboard mooring ropes, 42 m. of 13 in. circumference nylon and 5 m. of chain, polyprop messengers 10 in. circumference are attached to each rope for the initial haul-in. Port line first. Derrick to be rigged on the port side and manifolds to be ready port side to receive two 12 in. hose connections.

No dirty ballast reception facilities ashore, vessel must arrive with clean ballast. Crew moor vessel with assistance of 3 shore crew and advice of Loading Master who is on foc'sle head and liaises with Pilot on bridge.

Crew bring on board cargo hoses and connect same. Pilot and Loading Master remain on board throughout with Pilot changing every 24 hours.

OPERATOR: Elf Congo.

POINTE NOIRE: 04.47 S. 11.49 E. (See Plan Book)

PORT LIMITS: *Pointe Noire Pilotage area limits:*
South: 5° 07′ S.
West: 11° 46′ E.
North: 4° 42′ S.

DOCUMENTS: On arrival, the Captain must hand over to:

The Agents:
4 Crew Lists.
4 Lists of Crew Boys.
4 Passenger Lists or negative.
4 Lists of Ports of Call.
2 Lists of Crew Personal Effects.
2 Stores Lists.
5 copies of Cargo Manifest.
1 List Narcotics.
1 List Arms.
1 List Ammunition.
1 List Animals.
Captain's copy of B/L.

Harbour Authorities:
1 Arrival Form issued by Port of Pointe Noire.
1 Departure Form issued by Port of Pointe Noire.

Health Authorities:
1 Vaccination List for crew members.
1 Declaration of Health (form issued by the port of Pointe Noire).
Vaccination cards for the whole crew.

PILOTAGE: Compulsory. Telegraphic address: Harbour Master's Office of the Port of Pointe Noire. Pilot station can be contacted by VHF Channel 16; 24 hour service.

Boarding position: Pilot boards 1 mile North of the green channel light buoy.

Tankers awaiting a Pilot for the SBM at Djeno should wait 2 miles West of the main light at Pointe Noire.

APPROACHES: *Shipmaster's Report:*
The approach to Pointe Noire from the West using Chart 4105 Freetown to Luanda is clear of dangers as far as our experience goes. After crossing the 200 m. (100 fathom) line, the soundings are consistent with a gently shelving coast until there is 30/40 m., 3 miles West of Pointe Noire breakwater.

Approaching Pointe Noire from the West the radar picture of the coast about 20 miles North of Pointe Noire is very similar to Pointe Noire itself. This could confuse and lead one to think that the ship is further South than she really is, but the cluster of oil rigs should be a good guide.

There is a cluster of oil rigs with flares S.S.W. by 13 miles from Pointe Noire main lighthouse, with another cluster about due South by 17 miles, both good radar targets. Do not go in between these clusters. Watch out for numerous small dugouts, etc. fishing.

New oil rigs with 1 flare were constructed in 1977 in position 4° 28.8′ S., 11° 15.4′ E.

RESTRICTIONS: Minimum draft allowed for ore-carrying vessels of more than 130 m. drawing alongside at Quay G: 20 ft. aft and 15 ft. forward. Max. draft allowed for all vessels: 31 ft. at any hour. Max. draft allowed for ore carriers leaving Quay G will be 39 ft. 8 ins. after dredging of the channel in 1980 (1 hour before high tide). Tying to mooring buoy can be done only between sunrise and sunset.

Max. draft tankers 34 ft. 4 in. Tankers to enter in same period as departing ore carriers (1 hour before high tide).

HEALTH: Port Health Officer boards immediately on berthing. Compulsory vaccinations: smallpox, yellow fever and cholera.

RADIO: Pointe Noire Radio, call sign TNA. Continuous service on 500 and 2182 kc/s from 0600 to 1800 hrs. GMT. Transmission on 8722 kc/s TNA from 0930 to 0945, 1030 to 1045, 1330 to 1445, 1530 to 1545, 1730 to 1800 hrs. GMT; on 13101 kc/s TNA from 0630 to 0645, 0730 to 0745, 0830 to 0900, 1700 to 1715 hrs.

Shipmaster's Report: If vessel is coming from the South it is advisable to pass messages through Luanda.

RADAR/VHF: The Harbour Master's office has a VHF set (call Channel 16) but no radar.

TUGS: 1 tug (1,800 h.p.) normally join the vessel as soon as it crosses the passage. The vessel's own lines are usually used.

BERTHING:

	Length	Draft Permitted
Quay D: Berth 1	720 m.	24 ft.
,, 2		26 ft.
,, 3		28 ft.
,, 4		29 ft.
,, 5		29 ft.
Quay G: Ore Berth	530 m.	34 ft. 04 in. (See "Restrictions")
Tanker Berth	—	35 ft.
Mole 1: Timber Berths	350 m.	31 ft.
Lighter Berth	—	12 ft.

Potash Berth: 4 miles Southward of Pointe Noire. Max. draft 44 ft.

STEVEDORES: The Agent requires the following information 48 hours in advance, in order to arrange gangs: precise ETA; number of gangs required for unloading/loading; distribution per hold unloading/loading; draft, fore and aft – before 0600 hrs. in the morning on weekdays counting as overtime; before 0600 hrs. Saturday mornings for the weekend or day before holiday also counted as overtime.

MEDICAL: Notice for medical attention not needed. There are 2 private clinics.

TANKERS: Diameter of loading/unloading lines: 6 in.=aircraft fuel. 10 in.="white product". 12 in.=1500 fuel. Hoses=8 in.

Also see "Djeno Terminal".

DENSITY: 1025 on average. Only slight variations according to tides.

FRESH WATER: 2 hoses can be connected at each berth.
Rate: 20 t.p.h. per hose.

FUEL: Ordered from suppliers: Hydrocongo. Pipe-line supply to tanker berth and berths Nos. 1 and 8.

FIRE PRECAUTIONS: The port must be informed of ETA of tanker 24 hours in advance.

GANGWAY/DECK WATCHMEN: There are none at Pointe Noire, as it is unnecessary.

OPENING/CLOSING HATCHES: Usually the crew's responsibility. Can be carried out by the stevedore for payment.

CUSTOMS ALLOWANCE: No limit – must be stated on crew declaration, and quantities must be accurately stated.

CARGO GEAR: Derricks to be in good condition. There are 2 cranes at the new jetty.

IDENTIFICATION CARDS: Seaman's cards or passport needed.

CONSULS: France, Tel. 94.00.02–94.00.03. Germany (Federal) 94.00.10.

REPAIRS: Most repairs for the deck and engines are possible. Also facilities for electronic repairs.

DRY DOCKS: One slipway for vessels up to 800 tons.

REPATRIATION: Every facility for crews equipped with a crew card and passport.

AIRPORT: 6 km. from the port. 1 to 2 flights per day to Brazzaville. 1 to 2 flights per day from Brazzaville to Europe.

TIME: Local time is GMT plus 1 hour.

HOLIDAYS: 1st January (1 day's holiday); 1st May (2 days' holiday); 31st July (1 to 2 days' holiday); 15th August (2 to 3 days' holiday); 1st November; 25th December (1 day's holiday).

POLICE/AMBULANCE/FIRE: Police 17; Fire 94.00.49; Ambulance 94.00.49, 94.21.98.

TELEPHONE: Cannot be connected on board ship but there is one in the middle of Quay D for the use of vessels.

GENERAL: As the Congolese Customs are very strict, the drawing up of the store list and crew declaration should be carried out very carefully, as the slightest error is penalised and a fine imposed.

Stores are expensive and not easily obtainable. Fish available also fruit and vegetables but not in the Rainy Season.

SHORE LEAVE: No restrictions.

PORT REGULATIONS: In the event of congestion, vessels are obliged to work at night and on Sundays, and if they refuse to do this, they may be relegated to the roadsteads and thereby lose their turn to draw alongside.

DELAYS: *Shipmaster's Report:* Occasionally tankers are delayed for long periods as the shore tanks may be full.

SHIPMASTER'S REPORT: Mail takes between 3 and 7 days from Pointe Noire to Paris, and Pilot assures that it is reliable.

SHIPMASTER'S REPORT: March 1980.

Documents: See "Guide to Port Entry".

Pilotage: Compulsory. Pilot boards in position 4° 45.5′ S., 11° 45.9′ E. 24 and 12 hours notice required.

Anchorage: Position 4° 47.2′ S., 11° 49.4′ E.

Restrictions: Vessels able to enter and leave at any stage of the tide day or night.

Max. Size: Max. draft 31 ft.

Health: Quarantine Authority require 12 hours notice of arrival.

Tugs: 1 tug available.

Radio: Luanda or Portishead. No replies locally.

VHF: Pilot and Port Authority on Channel 16.

Berthing: Position 4° 46′ S., 11° 50′ E. Distance from entrance to berth less than 1 mile. Nature of bottom sand and mud. Vessel able to dock and undock at any stage of the tide day or night. There are facilities for loading coal in bulk. No quay cranes available, ships gear used. There is no link span for ro/ro vessels. Usual precautions taken with regard to security, no losses suffered. There is sufficient equipment for handling palletised cargo. Ship's gear is used for handling containers and the necessary shore equipment is available.

Density: 1025.

Fresh Water: Available.

Fuel: Bunker fuel oil, diesel oil and lubricating oils available.

Medical: Doctor and hospital available.

Provisions: Fresh provisions available but expensive as they are flown in from South Africa. Meats and groceries also available.

Repairs: Small repair facilities and small machine shop available.

Airport: Local airport with flights to Brazzaville.

AGENT: Ponteco-Socopao, BP 714, Pointe Noire, Peoples Republic of Congo. Cable address "Freight Pointe Noire". Telex: 8201 and 8252. Tel. 94.08.78.

NOTES

Cook Islands

AVARUA, (Including Avatiu) Rarotonga:
21.12 S. 159.47 W.

DOCUMENTS:

Health:	International Maritime Declaration of Health.
Customs:	(Immigration) 2 Manifests of Cargo showing weight or measurement (basis on which freight calculated). 2 Crew Lists. 2 Passenger Lists (landing and transit). Each disembarking passenger to complete a landing card and baggage declaration. Clearance from Last Port.
Agent:	5 Manifests of Cargo. 1 Crew List. 1 Passenger List.

PILOTAGE: Not compulsory at present. However, Pilot available. Arrange through vessel's Agent 24 hours notice of ETA. Pilot boards from one or two craft. (1) 35 ft. steel tug *Avatiu* (2) 35 ft. wooden launch *Takuvaine*. Both craft painted blue hull, white superstructure. Tug equipped with VHF Channels 6, 12, 16. Pilot normally boards ¾ mile off entrance Avatiu on line of leads.
ANCHORAGES: *Avarua:* As shown on Admiralty Chart No. 1264. Prevailing wind is S.E. and the anchorage is safe except in some instances when wind and/or sea are fresh from N.W. through N.E. 4 to 5 shackles of cable in the water has been found the most satisfactory in normal circumstances in 25 fathoms.
RESTRICTIONS: None. Anchorage, in 25 fathoms, is well defined with cross leads.
MAX. SIZE: No restriction.
HEALTH: Vessel should radio Porthealth Rarotonga not less than 24 hours before arrival giving ports of call for preceding three weeks, number of crew, number of passengers, state of health and requesting free radio pratique.
RADIO: Call sign ZKR continuous listening watch on 2182, 4125 and 8198 kc/s., also Channel 16 on the VHF. Weather forecasts are broadcast daily by R/T on 2207 kHz., and 8291.1 kHz. at 0615 hrs. GMT and 1815 GMT after a preliminary call on 2182 kHz.
VHF: Harbour Master has VHF for communication between vessel and office on Channels 6, 8, 12, 16. Speaker watch on Channel 16 between the hours 0800–1200 and 1300–1600 (local time) from Monday to Friday. Harbour Master can be contacted after hours by arrangement through vessel's Agent.
TUG: Small tug available (1¼ ton bollard pull) to assist with mooring.
BERTHING: *Avatiu:* Vessels berth port or starboard side to as may be necessary, berth 320 ft. in length having a depth alongside of 20 ft. MLWS. Swing basin for vessels not over 270 ft. in length. Draft 18 ft. aft, 16 ft. forward.
STEVEDORES: Arranged by ship's Agent.
MEDICAL: Medical and hospital facilities available. International vaccinations/inoculations required depending on prior ports of call.
TANKERS: Small tanker from Fiji, using ship's hose for discharge.
DENSITY: 1025.
FRESH WATER: Available in limited quantities (alongside berth).
FUEL: Not available.
DEVELOPMENTS: Harbour development at Avatiu although not completed, is currently in use and accommodating vessels of about 1,200 tons and 260 ft. in length.
GANGWAY/DECK WATCHMEN: Not necessary.
OPENING/CLOSING HATCHES: By crew or stevedores to vessel's convenience.
TOBACCO ALLOWANCE: 200 cigarettes, or half pound tobacco or 50 cigars.
WINE AND/OR SPIRIT ALLOWANCE: Allowance is 1 broached bottle of either wine or spirits, or a reasonable quantity of beer per person, for consumption on board. Under no circumstances may any wines, spirits or beer be brought ashore.
CARGO GEAR: Ship's gear for discharging and loading, 12 ton heavy lift crane available.
IDENTIFICATION CARDS: Not required.
CONSULS: New Zealand only is represented by a High Commissioner.
REPAIRS: Not available.
REPATRIATION: Confined to repatriation of crew landed for hospitalisation.
AIRPORT: Rarotonga International Airport is 2 miles away.
TIME: GMT plus 10.5 hours.
HOLIDAYS: Cargo cannot be worked on any Sunday or on Good Friday and Christmas Day. Other Holidays: Boxing Day (26th December); New Year's Day; Easter Monday; ANZAC Day (25th April); Queen's Birthday (1st Monday in June); Constitution Celebrations (4th Monday in August).
POLICE/AMBULANCE/FIRE: Ring exchange operator.
TELEPHONES: No connection available at present. Telephone available at Wharf Gate for emergency services.
GENERAL: Bananas available at times. Green vegetables are always difficult to obtain. Oranges, lemons, mandarines available March–August, pineapples November–February.
AUTHORITY: The Secretary, Ministry of Trade, Industries, Labour and Commerce; The Harbour Master.

Costa Rica

CALDERA: 09.55 N. 84.43 W.

LOCATION: The Port of Caldera is located in the Gulf of Nicoya in position Lat. 09° 54′ 44″ N. and Long. 84° 43′ 14″ W. The Port is expected to be operational in July 1980.

DOCUMENTS:

2 Copies of the Stowage Plan.
3 Copies of the Cargo Manifest.
18 Check Books.
1 Copy of the Crew List.
1 Copy of the Passenger List.
General Ship's Declaration.
Stores List.
Cargo Equipment Certificates.
Maritime Declaration of Health.

PILOTAGE: Compulsory.

ANCHORAGE: Anchorages are defined on a chart supplied by the Port Authority.

HEALTH: The Doctor and Health Service inspect the vessel prior to discharge of cargo.

RADIO: Radio service available throughout 24 hours.

Arrival advice: ETA should be sent 2-5 days before arrival and confirmed not later than 12 hours before arrival.

TUGS: Compulsory for berthing and unberthing.

BERTHING:

No. of Berths	*Length (m.)*	*Depth (m.)*	*Max. d.w.t.*
1	210	11.0	25,000
1	150	10.0	15,000
1	130	7.0	5,000

CARGO HANDLING FACILITIES: The port is equipped to handle general cargo, containers, roll-on/roll-off and solid bulk cargoes.

Cranes: One gantry crane with capacity of 40 tons for containers. Mobile cranes and stacker trucks of varying capacities, also other modern port equipment.

Bulk Cargoes: The Port Authority owns and operates a discharge system wih pneumatic suction units and silos for storage.

STEVEDORES: The Port Authority provides stevedores throughout 24 hours.

TANKERS: *Caldera Bay:* Buoy mooring for tankers about 1,000 ft. offshore. Vessels moor using starboard anchor and lines to 3 buoys astern. Hoses connected on port side by ship's crew.

MEDICAL: Medical services can be provided at a clinic in the port or at a hospital 15 km. from the port.

FRESH WATER: Provided by the Port Authority.

FIRE PRECAUTIONS: Vessels must comply with all the port requirements regarding fire prevention, contamination and safety to navigation within the port.

GANGWAY/DECK WATCHMEN: At the discretion of the Port Authority. All vessels anchored in the port must be adequately covered by watchmen service.

AIRPORT: International airport 90 km. from the port. There are plans to build an international and local airport adjacent to the port.

TIME: Local time is GMT minus 6 hours.

HOLIDAYS: The port works throughout 24 hours, except Good Friday.

TELEPHONE: Telephones may be placed onboard on request. International and local telephone and telex services available on shore.

IDENTIFICATION CARDS: On landing, crew members and passengers in transit must carry identity documents which are to be submitted to the Port Authority.

REGULATIONS: The vessel, the Owner and his Agent must comply with all the arrangements set out in the Port Services Regulations and the General Tariff. The Port Authority will supply these regulations on request.

DEVELOPMENTS: In the medium term, the second stage of the port complex of Caldera will be constructed, with which the current capacity will be doubled to 1,200,000 tons per annum.

AUTHORITY: Instituto Costarricense de Puertos del Pacifico.

GOLFITO: 08.37 N. 83.10 W.

DOCUMENTS:

2 certified copies of Clearance from Last Port.
6 certified copies of Crew List and 6 copies for distribution.
6 certified copies of Passenger List and 6 copies for distribution.
2 certified copies of Cargo Manifest and 25 copies for distribution.
4 certified copies of Stores Provisions List and 6 copies for distribution.
3 sets of Bills of Lading.

NOTICE OF ARRIVAL: Radio Agent at least 24 hours before arrival advising date and time of arrival, number passengers disembarking, if any, amount of cargo to discharge in metric tons, number of gangs required to work on board. This information is required by Port and Customs Authorities.

PILOTAGE: No Pilot in port. Bananera Company sends a launch to pilot vessel to quay if requested. Arrival has to be notified at least 24 hours in advance.

ANCHORAGES: Anchorage area to S.E., diagonal towards end of quay. Depth: 35 ft. – 50 ft. Area 1,000 m. by 300 m. approx. Quay distance: approx. 500 m. Sufficient space for 4 vessels.

RESTRICTIONS: Vessel allowed to enter at any time, day or night.

MAX. SIZE: Length of quay is 1,040 ft., enough for two steamers to berth, one in banana berth and the other in cargo berth, each one of 450 ft. Depth 35 ft. alongside.

HEALTH: Any vessel that enters this port has to be in possession of a Sanitary Manifest (Sanitary Maritime Declaration) signed by Captain of vessel. In case of any suspected disease or fever aboard, Captain to notify by radio to Port Authorities and vessel to wait outside the limit of territorial waters until clearance is given.

RADIO: Station call sign TIM, frequencies 8478 and 500 kc/s. Working hours 0400–1300 GMT.

TUGS: No tugs. A launch from the Cia. Bananera takes lines from vessel to quay.

BERTHING: Vessels berth starboard side to. Vessels of Compania Bananera have preference.

STEVEDORES: Bananera Company controls gangs. Advance notice required. Work possible 24 hours a day.

MEDICAL: Bananera Company has a hospital for its employees. They can give assistance if a request through the Agency has been made 24 hours in advance. On arrival of vessel a valid vaccination certificate of each member of crew has to be shown.

TANKERS: Can berth in cargo area if length is less than 450 ft., depth is 35 ft. Diameter of pipe-lines 8 in. and 6 in.

FRESH WATER: Bananera Company supplies any quantity at a rate of 50 t.p.h. through shore hoses.

FUEL: Diesel and fuel oil available from time to time.

GANGWAY/DECK WATCHMEN: Available but not compulsory. Customs guard on gangway.

OPENING/CLOSING HATCHES: Normally carried out by stevedores.

CUSTOMS ALLOWANCES: No limit on board but only one packet cigarettes when going ashore. No alcohol may be taken ashore.

IDENTIFICATION CARDS: Required.

CONSULS: Nicaragua, Honduras and Panama represented locally.

REPAIRS: Company Bananera of Costa Rica has a workshop that can do small repairs such as soldering or small winch repairs.

REPATRIATION: Can be arranged.

AIRPORT: One airport one mile from port. Serviced by two airlines "Lacsa Airlines" with two daily flights, one at 0700 hrs. and the other at 1030 hrs. "Ave Airlines" offer only one daily flight, Sundays included, at 0700 hrs. "Lacsa" has no Sunday flights.

TIME: GMT minus 6 hours.

HOLIDAYS: 1st January, no work can be arranged; 19th March, work at double time; Easter Thursday, no work can be arranged; Easter Friday, no work can be arranged; 11th April, work at double time; 1st May, no work can be arranged; Corpus Christi, work at double time; 29th June, work at double time; 2nd August, work at double time; 15th August, work at double time; 15th September, no work can be arranged; 12th October, work at double time; 8th December, work at double time; 25th December, no work can be arranged. Stevedores are not obliged to work Sundays and holidays if not voluntary.

POLICE/AMBULANCE/FIRE: It is sufficient to ask operator for connection with the desired department.

TELEPHONES: No facilities on board vessels.

SHORE LEAVE: Crew are allowed on shore.

DELAYS: Only when quay is occupied by vessels of Compania Bananera de Costa Rica, which have preference.

SHIPMASTER'S REPORT: January 1980.

Documents: As per "Guide to Port Entry". Documents to be certified by Costa Rican Consul at last port.

Pilotage: No Pilot available.

Restrictions: It is advisable to berth and unberth during daylight hours. Vessel can enter and leave at any stage of the tide.

Max. Size: Safe draft in channel (United Brands) 30 ft. Mean tide range 10.5 ft.

Tugs: None available.

VHF: Agent on Channels 16 and 14.

Berthing: Vessel berthed at the Banana Wharf which is 2 miles from the entrance and is 1,000 ft. in length. There is a banana elevator at the N.W. end.

Docking: Starboard side alongside: Approached Golfito as per Pilot Book, steering North until leading marks bear 047° then steer on leading marks at dead slow speed to pass 2 cables South-East of Beacon 'A'. With ebb tide running vessel sets to the S.E. when approaching Beacon 'B'.

Vessel stopped and way taken off when about 3 cables from wharf, then proceeded to a position between Beacon 'F' and shore to attempt to turn round to port with port anchor on the bottom, however anchor did not hold against engine, so hove up anchor and turned short to starboard. Final approach to wharf made at an angle of about 30°, let go port anchor when approaching close to wharf and canted stern well in to wharf to pass heaving line. No noticeable current when close to wharf. When in position, port anchor had 3 shackles in water.

Unberthing: Left on ebb tide with another vessel moored close astern. Singled up to headline and spring forward, tightened up on anchor cable and hove on headline to cant stern off. Very short ahead movements and full starboard rudder necessary to achieve this, as current had little effect. Anchor did not hold sufficiently to pull head off the wharf, so came astern on engine until sufficiently clear of wharf to make port turn to leave harbour.

Very little wind on docking or undocking.

Facilities: The following are available: Fresh water, fresh provisions, minor repairs, airport, telex, bunker "C", diesel oil, doctor and hospital.

No dry docking facilities, no laundry service and no lubricating oils available.

Consuls: Nicaragua, Honduras and Panama.

General: Cautions: Beacon 'G' destroyed (January 1980). Rear range lights/marks 047° have very little horizontal separation. There is a small buoy in the approximate position of Beacon 'G' but exact position not established.

If vessel is loading on the Banana Berth, the secondary leading marks will probably be obscured by that vessel's superstructure.

Poor holding experienced when anchoring off the berth.

AUTHORITY: Comandante de Puerto.

PUERTO LIMON: 10.00 N. 83.01 W. (See Plan Book)

DOCUMENTS: Required by Port Authorities at Port Limon:

2 certified copies of Clearance from last port. (Zarpe) (original and dup.)

Crew List, 1 original legalised copy. 5 copies not legalised.

Passenger List, 1 original, 1 copy. 5 additional copies not legalised (if no passengers carried, this must be stated on the same document).

Maritime Health Certificate, 1 original, 1 copy.

Provisions List, not legalised : 7 copies.

Stowage Plan, not legalised : Total cargo on board, 4 copies.

Hatch List, not legalised: Total cargo on board, 4 copies.

Cargo Manifest, legalised (Manifiestos de carga): From each calling port. 1 original, 1 copy. 30 additional copies, not legalised.

Bills of Lading – 4 sets.

Local Agents or General Agents require the following documents urgently, by Air Mail (Special Delivery), from each calling port directly to address in San Jose, Costa Rica.

2 sets Cargo Manifest – copies

2 sets Ship's Declaration

2 sets Bills of Lading.

If there are Ocean Freight rates to be collected at destinations, please send Agent by Air Mail (registered), the 3 originals and 2 copies, in order to get the payment of the freight rates in time.

Data in every document must be in Spanish or with proper translation.

NOTICE OF ARRIVAL: Radio Agent at least 24 hours before arrival, advising date and time of arrival, number passengers disembarking (if any), amount of cargo to discharge in metric tons, number of gangs required to work on board. This information is required by Port and Customs Authorities.

PILOTAGE: Pilot boards ship with Port Authorities about 1 mile from pier.

ANCHORAGES: One mile off piers.

MAX. SIZE: Tankers up to 35 ft. draft. Also see "Berthing".

HEALTH: In the event of contagious disease or fever being suspect on board, agency should be advised immediately.

RADIO: Call letters TIM, frequency 500 kc/s. and 8478 kc/s. – working hours 0400 to 1300 GMT.

VHF: Port Authority on VHF Channel 16. All vessels anchoring in the port must communicate with the Pilot office on Channel 16.

TUGS: Are available and are required.

BERTHING:

Maximum depths at berths, (March 1980)

Berth No.	*Usage*	*Depth (ft.)* *Fore*	*Aft*	*LOA (ft.)*
1	Bananas	32	29	600
2	Conventional	25	26	400
*3	Conventional	29	30	450
4	For small craft			
5	Conventional	12	16	300
6	Ro/Ro	28	30	300
7	Conventional	29	35	500
8	Conventional	30	30	500
9	Conventional	18	28	200
11	Ro/Ro (Moin)	36	36	575

*Newly in service since November 1979.

Note: Measurements are given in feet. Berth Nos. 1–2 have a length of 1,020 ft. In order to use No. 2 berth Agents need to know or check LOA of the banana vessel at No. 1 berth, if it is less than 520 ft. it is possible to berth a vessel.

STEVEDORES: ETA should be sent to Agent in due time. There are 2 stevedoring companies who work throughout 24 hours.

MEDICAL: Medical attention and hospital facilities available.

TANKERS: There is a berth in Moin Bay for vessels up to 35 ft. draft.

FRESH WATER: Available and obtained alongside pier delivered by hose, 1.5 to 2 t.p.h.

FUEL: Any quantity can be obtained as there is a refinery at Limon.

DEVELOPMENTS: *New quays under construction:*

1 Berth for container vessels.

1 Berth for general, bulk or ro-ro.

1 Berth for tankers or ro-ro.

3 Berths for banana exports.

GANGWAY/DECK WATCHMEN: Recommended.

OPENING/CLOSING HATCHES: Carried out by stevedores.

CUSTOMS ALLOWANCE: One package cigarettes to take ashore. Not allowed to take alcohol ashore.

IDENTIFICATION CARDS: They are needed and supplied by the Agent.

CONSULS:

Colombia	tel. 58.02.21	Nicaragua	tel. 58.04.47
Ecuador		Norway	58.01.83
France	58.02.21	Panama	58.09.65
Honduras	58.03.13		

SURVEYORS: Lloyds, ABS and Norske Veritas.

REPAIRS: Minor repairs only.

REPATRIATION: Facilities available.

AIRPORT: Five miles from city. 2 daily flights (except Sundays) to San Jose International Airport. Also air taxi service to the whole country.

TIME: Local time minus 6 hours.

HOLIDAYS: Holidays and days on which the port will remain closed:

1st January from 1200 hrs. to 0600 hrs. following day; Holy Thursday and Good Friday from 0001 hrs. on Thursday to 2400 hrs. on Friday; 1st May from 0001 hrs. to 2400 hrs.; 12th October from 0001 hrs. to 2400 hrs.; 24th December 1800 hrs. – 26th December 0001 hrs.

POLICE/AMBULANCE/FIRE: Police tel. 117; Red Cross Ambulance tel. 580125; Fire tel. 118.

SHORE LEAVE: Crew members are allowed to go ashore.

AUTHORITY: Junta de Administracion Portuaria y de Desarrollo Economico de la Vertiente Atlantica (JAPDEVA).

PUNTARENAS: 09.58 N. 84.49 W. (See Plan Book)

DOCUMENTS:

2 certified copies of Clearance from Last Port.

6 certified copies of Crew List and 6 copies for distribution.

6 certified copies of Passenger List and 6 copies for distribution.

2 copies of Cargo Manifest and 25 copies for distribution.

4 certified copies of Stores/Provisions List and 6 copies for distribution.

3 sets of Bills of Lading.

NOTICE OF ARRIVAL: Radio Agent at least 24 hours before arrival advising date and time of arrival, number passengers disembarking, if any, amount of cargo to discharge in metric tons, number of gangs to work on board. This information is required by Port and Customs Authorities.

PILOTAGE: Pilots are available and compulsory, arranged by Agent. Signal for Port Captain and other officials is two long blasts.

MAX. SIZE: Length 500 ft., max. draft 26 ft.

RESTRICTIONS: Recommended that vessels not equipped with radar enter in daylight only.

ANCHORAGE: Vessels should keep Eastward of four submarine cables originating at Puntarenas where suitable anchorage may be found in 6-7 fathoms depth. Vessels should anchor as near the pier as safety permits to facilitate boarding by port officials.

HEALTH: Any vessel that enters this port has to be in possession of a Sanitary Manifest (Sanitary Maritime Declaration) signed by Captain of vessel. In case of any suspected disease or fever aboard, Captain to notify by radio to Port Authorities and vessel to wait outside the limit of territorial waters until clearance is given.

RADIO: Station call sign TIM, frequencies 8478 and 500 kc/s. Working hours 0400-1300 GMT.

TUGS: None available.

BERTHING: Vessels usually moor in daylight only. Unmooring night and day.

Muelle Nuevo: Pierhead runs East/West, connected to shore by 350 ft. gangway. One special heavy mooring line supplied from pier in addition to ship's ropes. Heavy surge experienced at the berth. Inner berth, length 107 m., max. depth 24 ft. Outside berth, length 147 m., max. depth 28 ft.

There are lighters available for hire for vessel working cargo at the anchorage.

STEVEDORES: Available for work 24 hours a day.

MEDICAL: Facilities available at Puntarenas.

FRESH WATER: Available only from pier at Puntarenas.

FUEL: Not available.

IDENTIFICATION CARDS: Required.

TIME: GMT minus 6 hours.

TELEPHONES: No connection to vessels.

SHORE LEAVE: Allowed at Puntarenas.

SHIPMASTER'S REPORT: 1978.

Anchorage: Vessel originally anchored in the area marked (Pilots) on Chart B.A. 1931, but subsequently moved in to a position with the Light on the Pier bearing 332°(T) – 9 cables and lay to the starboard anchor, 3 shackles, in 6 fathoms of water. Other ships and draft permitting, it is safe to anchor 5 cables off the pier.

This is a quiet, safe anchorage. A Pilot is not used arriving and sailing from the anchorage, but is compulsory if berthing.

Berthing: There are two berths on the pier. As the port was very congested, we remained at anchor.

Communications: With the Charterer's Agents when at anchor, were by VHF, Channel 16. Long-range communication was by radio.

Documents: As per "Guide to Port Entry".

Cargo Work: Due to congestion, we waited 3.5 days to start work, although we only had a small quantity of cargo for discharge. When work did start, discharge was continuous and at a good rate.

I understand that ship's loading export cargo receive preference for labour.

Pratique: Granted on arrival.

Provisions: Available, but great care is necessary with regard to price and quality.

Fresh Water: Normally available only when alongside the pier. As we were very short of water by the time we had been in port for a few days, we managed to obtain a minimum supply from a tug. This can only be obtained as an emergency measure.

General: It was noted that the Light on the Pier was flashing letter "P" in the Morse Code and was not Gp. Occ. (4) as shown on the Chart.

Shore Leave: A launch service was arranged through the Agents for this purpose.

AUTHORITY: Instituto Costarricense de Puertos del Pacifico.

Cuba

GENERAL:

ALSO SEE "LATE REPORTS" AND "LATE PLANS" FOR ADDITIONAL INFORMATION ON ALL PORTS

DOCUMENTS: Required on arrival at *every* port:
12 copies Crew List
3 copies Personal Effects of Crew
3 copies Provisions and Stores List
3 copies Narcotics
3 copies Foreign Money List (to be sealed in safe)
Safety Construction Certificate
Safety Equipment Certificate
International Load Line Certificate
Radiotelegraphy Certificate
Tonnage Certificate
Derat Certificate
Ships Register.

Instructions for Master of Vessel: As to how to process Custom's Model Dirad-7, in connection with crew's money control and personal effects.

Custom's inspector when boarding the vessel besides carrying out their usual duties, should deliver to the Master duly legalized, as many of these forms as members of the crew are reported on Crew List.

Legalization of these forms consists of Customs Inspector's signature, Customs stamps and consecutive numbering which indicates quantity of forms delivered to Master.

2. Ship's Master or Officer in charge should fill in only those spaces of the form as: crew member's name, number of passport, as well as ship's name and date of arrival in port, on the first page of the card.

Besides amount of money delivered to the crew member, date of delivery and signature must be shown as evidence that the crew member has been provided with the money, with signature of the Master alongside, all of this information appears on page 2 of the form (card).

In case crew member requires additional amount during vessel's stay in port, notation should be entered following the first, in same way.

3. No crew members, except the Master, are allowed to come in or leave the Custom House premises without presenting this form to the Custom's Inspector at the gate, who will enter therein the pertinent notations.

All these forms legalized by Customs must be carefully kept for subsequent delivery to Customs upon vessel's departure, even those that might become useless.

Should a crew member require more than 1 form because of that previously delivered having been filled up, or become useless, Master will give a new one which the crew member will present, together with the previous one, to Custom's Inspector at the gate. Thereafter, notations should be entered in the new form, the previous one must be returned to Master for subsequent delivery to Customs.

If at any time more forms are required because those previously delivered have become exhausted, they should be requested from Ship Clearance Department of the Custom House, phone 61-8572. After 1800 hrs. these should be requested from Guard Room, phone 6-9698.

4. Upon ship's sailing, Master will gather all the forms from the crew, delivering same to Custom's Inspector who boards the vessel and will perform the following verifications:

(a) To see that none of the legalization forms are missing.
(b) To verify that such forms have no alterations, erasures, etc.
(c) To add up total spent by all crew members and to verify it with amount settled with ship's Agents Consignatarias Mambisas.

5. Non-compliance with above instructions will subject the violator to corresponding penalty.

Director of Customs.

Shipmaster's Comment: One Crew List returned to vessel stamped by Customs /Immigration for next port.

HEALTH: Below is copy of warning sent to us by a ship's Master. The words in italics are the Master's comments.

National Veterinary Medicine Institute
Warning
Master:

You are kindly requested to comply with and acknowledge this warning regarding veterinary sanitary regulations and also to inform your crew members of same.

One Green Vet. Form given to ship to take to next Cuban port, one copy for ship also.

1. Refrigerators of vessels which contain in their victuals meat and meat products originated in countries declared as being affected with foot-and-mouth disease, Rinderpest, Vesicular stomatitis, African swine fever and other diseases non existent in the Republic of Cuba, shall be sealed while remaining in our territorial waters.

Sealed.

2. Milk, butter, cheese, fish and poultry products, as well as canned meat, and meat and meat products from Australia, New Zealand and Canada, are not subject to this procedure for the time being.

All victuals of animal origin must be declared to the Frontier Veterinary Services Officer.

3. Prohibitions:

(a) Arriving in port with live food animals (cattle, swine, poultry, etc.) on board, unless duly authorised by the Animal Health Authorities of the Republic of Cuba;

If pets on board – not allowed ashore.

(b) Unloading or releasing of any species of pet animals. These animals (birds included) are subject to quarantine control on board;

(c) Unloading of victuals of whatsoever origin, including those not subject to sealing procedures;

(d) Arriving in port with compartments or receptacles containing garbage;

Dump rubbish at sea 6 miles out from Cuba.

(e) Scattering of garbage containing food scraps, portions or other wastes of animal origin, or throwing them overboard into the sea or onto shore.

Cover garbage drums.

4. Ratguards must be placed once the vessel has docked.
Fines if not done or if they fall off!

5. Footwear and clothing of the crew members of ship coming from countries known to be affected with diseases dangerous to the fauna of the Republic of Cuba shall be subject to fumigation with formaldehyde gas.

6. Non-compliance of the sanitary regulations, or any action aimed to prejudice or evade them, shall be regarded as an offence liable to a fine of not less than $500.00 (Cuban Official Currency), or to the implementation, at the expense of the transgressor, of appropriate quarantine measures intended to minimise the consequences resulting therefrom.

The following is reproduced from a booklet given to Masters of arriving vessels. The booklet is produced by the Ships' Agent and dated 1973.

Comments are made throughout the text by the Master who supplied us with the booklet – such comments are reproduced in italics.

PORT REGULATIONS: In order that you may be properly informed, on not only Port and Cuban Government Regulations, but also on various matters related to the loading and/or discharging operations of your vessel, we wish to bring to your attention the following:

1. Crew Regulations (Important Notice to Masters)

(a) The Customs Authorities have put into effect new Regulations which the Masters of all vessels arriving at Cuban ports are under obligation to observe. The regulations in question are as follows:

First: The Master of the vessel is obliged to deliver to the Customs Authorities at the port of arrival the complementary documents to the Manifest, which comprise:

(a) List of crew belongings including objects, property of each crew member which he maintains on board for his use, such as, for instance, electric shaving machines, watches, radios, soaps, etc. *(4 copies required at every port – Declare everything in personal possession).* See "Shipmaster's Report".

(b) Detailed list of all articles transported by crew members free of charge, including those which are for his use on board, or that may be destined to other persons, such as for instance perfume, umbrellas, dresses, ladies stockings and lingerie, cloth to make dresses, etc. *(4 copies every port – declare everything and place in bond.)*

(c) Foreign currency whether convertible or not, must be declared in the list of the crew members' belongings and kept in the ship's safe as long as the vessel remains in port *(4 copies required every port – placed in ship's safe).*

Narcotics List – 4 copies morphine only. Provisions List – not listed but requested.

(d) Each crew member must declare the articles referred to in paragraphs (a) (b) and (c) immediately upon vessel's arrival, since Harbour Officers may search the vessel at any time they should deem convenient.

Second: Each crew member may keep in his cabin up to 200 cigarettes for a single time each day.

Third: The importation into, and the exportation from the Republic of Cuba of Cuban currency is forbidden, and no crew member may have in his possession any amount in excess of that delivered to him by Master.
(Collected and sealed in safe).

Fourth: Each crew member is allowed to have in his possession, only 1 of each of those above mentioned articles which are for his use on board. Any article in excess should be kept in the bond store.

Fifth: Any article not declared, or possessed by the crew member in excess of the amount allowed, also Cuban currency not properly accounted for, and any foreign currency which he may have in his possession will be confiscated and should circumstances warrant, the courts of law will be informed, the latter having the right to impose penalties involving imprisonment of up to 6 years, or fines, depending on the value of the objects found in the crew member's possession.

Immediately following the arrival of the vessel, the Master is under obligation to make these regulations known to each and every crew member, as the Customs Authorities will consider that the Master and the crew have been put on notice as to what is herein provided at the moment the vessel has been cleared through Customs, insofar as concerns any violation of the above referred to regulations.

Masters are likewise required to provide a place or space sufficiently ample to deposit the articles transported by the crew free of charge or, in other words, those articles referred to in paragraph (b) above.

(a) Crew are not allowed to buy personal effects on shore.

(b) No crew member or passenger of vessels arriving at Cuban ports from abroad is allowed to disembark until the vessel has been cleared by the Immigration Authorities.

(c) Crew members including Officers and Masters must be provided with immigration passes to go ashore. Upon vessel's arrival the gangway-inspector will deliver to each crew member a pass and will at the same time pick-up his passport or seamen's book. At the time when the crew member returns to the ship he will give the pass to the inspector who, in turn, will deliver the passport to the crew member.

Loss of the pass will result in a fine of $25.00.

(d) Owing to the repeated infringements on the part of crew members of existing regulation covering shore passes, and the difficulties which such infringements bring about, the Provincial Chief of the Cuban Ministry of the Interior has issued Order No. 12, dated August 11th, 1971, establishing the following:

1. Shore passes for crew members, including Masters, are only valid from 1800 to 2200 hrs. Infringements of this timetable will result in the impositions of fines as follows:

   Suggest check about shore leave on arrival.

1st infringement	US $25.00
2nd infringement	$50.00
For each subsequent infringement	$100.00

   Note: Above fines are accumulative. For instance, if a crew member infringes shore pass regulations for the first time, during a call of his vessel at a Cuban port and commits another infringement on a subsequent call, the latter is considered as a second infringement and fined accordingly, etc.
2. Shore passes are confined to the city limits of the port where the ship is lying, and each territorial infringement is subject to a fine of US $100.00.

2. Sanitary Regulations

(a) Following docking, crew members are not allowed to go down to the pier to fix the rat guards or the gangway until the Sanitary Inspection (Free Pratique) has been completed.

(b) Thereafter, rat guards are to be kept in proper place in order to avoid fines (Authorities very strict with regard to this rule).

(c) Hereunder we copy Resolution No. 24 of the Direction of Customs dated June 30th, 1972.

Circular No. 16

For general knowledge and most strict fulfilment, Resolution No. 24 of the Direction of Customs is copied hereunder:

Whereas – Customs are obliged to fulfil and enforce local laws as well as International Conventions which Cuba has signed, among which are those related to International Sanitary Control, being of great concern to this Direction the dangerous carelessness of some National and foreign Masters who, when ships are docked, do not place rat guards on their mooring lines with docks or barges.

Whereas – The above represents a dangerous situation for the public health of our country and for our economy, which might result in the introduction into our country of epidemics such as bubonic pest or others transmissible by rats, which must be avoided by all means.

Therefore – Exercising the powers vested in me,

I Resolve:

First – Customs will take care that the ships have properly placed each and all of the rat guards on their mooring lines with dock and barges.

When it is detected that said rat guards have not been placed on some of the mooring lines with dock, the Chief of Customs of the Terminal should notify the Master that he shall be liable to as many fines as there are rat guards missing, according to law.

Second – Upon being served with the notice referred to in the preceding paragraph, the Master shall also be notified that if on subsequent days the rat guards are not placed, the Customs may impose a fine higher than the previous one.

Third – All dispositions contained in Resolution No. 73 of October 11th, 1965, made known by Circular No. 2 of June 2nd, 1970, and all of this Direction which oppose fulfilment of this Resolution are hereby cancelled.

Given at Havana on June 30th, 1972.
Director of Customs

(d) Vessels proceeding from countries affected by aphthous fever or bovine plague *(foot-and-mouth or swine fever)* are subject to fumigation including crew members' clothes/shoes.

Veterinary Sanitary Control – Complete sealing of ships' refrigerators which contain dangerous victuals.

1. It is hereby instructed that the refrigerators of Cuban and foreign flag vessels which contain in their victuals meats and cattle products originating in countries affected by bovine pest, vesicular stomatitis, African pork pest and other animal diseases not existent in Cuba, must be completely sealed.

Exempt from the above are cattle products industrially canned, salted butter and cured cheese destined to be consumed only aboard ship.

2. To the end of this Circular, the following countries shall be considered clean or disease free: Canada, Japan, Australia, New Zealand, Ireland and Northern Ireland.

3. Only ships' refrigerators which contain victuals of animal origin shall be sealed. Compartments where vegetables and other victuals are kept, will not be sealed.

4. Ships' refrigerators will be opened once a day, under sanitary or Customs supervision to permit withdrawal of meat and cattle products. (*US $5.00 each time).*

5. Meats and other animal products purchased in Cuba must be so placed in the refrigerator that they will not enter into contact with similar products purchased abroad.

6. Sealing of ships' refrigerators will apply to vessels on berth as well as to vessels at anchorage.

7. Sealing must be performed in an effective manner. To this end, it is necessary to verify that it was done correctly; a sufficient enough depression of the seal which makes it impossible to withdraw the wire.

The breaking of the seal will result in a fine. Fines in the interior of the Republic will be processed by the Customs through Consignatarias Mambisas, copies of the resolutions to be forwarded to the Provincial Direction of Veterinary Sanitary Control.

8. From the date of this Circular, sealing procedures will be put into effect simultaneously in the port of Mariel, Havana, Matanzas, Cardenas, Nuevitas, Santiago de Cuba, Guayabal, Jucaro and Cienfuegos.

In the other ports of the Republic, it will be put into effect gradually, but in the least possible time.

VETERINARY SANITARY CONTROL
Border Service,
Havana, July 1st, 1971

3. Labour Regulations

In accordance with Resolution No. 298 of December 2nd, 1958, issued by the Cuban Labour Ministry, it is forbidden for vessels' crews, during their stay in port, to do work that should be performed by port labourers, such as loading or discharging, rigging booms, driving winches, (opening and closing hatches), cleaning holds, laying wood or paper dunnage, construction of stalls, etc. Therefore you should apply to us in writing, so that arrangements can be made for the necessary port labour to perform such work.

Please note that if any of the work described were to be done by ship's crew, port labourers must be paid as if they had actually performed the services.

(Ship's crew opened and closed Macgregor hatches).

4. Bunkers

Should your vessel be bunkering at this port, it is necessary that we be notified in advance, so that appropriate arrangements can be made not only with the local suppliers, but also to comply with government regulations, which provide that funds to cover the cost of bunkers be received from the Owners *or Charterers* prior to delivery. Since this procedure takes a few days, it is suggested that any request for bunkers be made with due anticipation.

When delivery of bunkers is to be made in the port of Havana, the order or requisition must be sent to the suppliers at least 2 days in advance of the desired date of delivery, and 3 days in advance when delivery is to be made at a port other than Havana.

5. Galley Oil or Coal

The above requirements for bunkers do not, of course, apply to galley oil or coal as this item, if needed, is to be purchased directly by the ship from a shipchandler.

6. Cleaning

In accordance with Port Regulations, this work must be performed by local shore labour. The cleaning work done by shore labour is limited to only the sweeping of cargo compartments. Port Regulations forbid the washing of the ship within the premises of the harbour. *(See Charter Party).*

7. Garbage: *(Vessel needed 10 drums).*

Port Regulations forbid the throwing of garbage on to the pier or into the sea while the vessel is within the harbour limits. Infringements of regulations which prohibit throwing garbage and refuse in the bay will be a fine of US $100.00 for the first infringement, and US $200.00 for each subsequent one.

All other infringements to be fined as already established.

The provisions of Order No. 12 to become effective from August 26th, 1971.

According to Sanitary Regulations vessels must arrive at each Cuban port of call with the garbage deposits or tanks empty. Any garbage must be thrown into the high seas at no less than 6 miles from the coast. Non-compliance of this regulation will be subject to a fine against the ship.

8. Cash to Master *(Owners must remit cash in advance).*

Cash advances authorised by Owners or Charterers will be supplied to the Master upon request. Such request is to be made during office hours and the money will be delivered at the Agent's place of business.

Upon completion of loading and/or discharging operations, any unused funds must be handed over to the Local Agent; in other words, money left over from a cash advance drawn at one port cannot be returned or used at any other port.

However, further cash advances may be requested at the next Cuban port of call.

9. Damage to Cargo

As you undoubtedly realise, it is necessary to establish with the utmost degree of accuracy possible with whom the responsibility for damage to cargo lies, whether for vessel's or stevedores' account. To ascertain this, the Terminals in Cuba employ Damage Inspectors to take note of all cargo that is found on board in damaged condition prior to its discharge from the ship, and the Master or Chief Officer is asked to sign in acknowledgement. Therefore, we suggest that in order to avoid unnecessary discrepancies between the vessel and the Terminal, and to properly protect the Owners' interests, you please instruct your cargo officer to coordinate his work in this connection with that of the Terminal Damage Inspector. Upon completion of discharge operations, the Terminal will submit to the Master for signature the relevant Survey Report and Outturn Report.

Should you note protest owing to bad weather whilst on voyage, 1 copy of the Note of Protest should be delivered to us for our records.

10. Stevedore Damage to the Ship *(Stevedores usually repair damage).*

Any damage caused to the vessel during the loading and/or discharging operation, should be reported immediately to the Head Discharging Foreman on the Terminal, followed by a written notice to us in duplicate. Such notice should be made out within 24 hours following the incident to allow sufficient time to make arrangements for the necessary repairs.

11. Repairs for Vessel's Account

Any repair work to be done for vessel's account must be requested in writing, sufficiently in advance of vessel's estimated departure in order to obtain from the repair shop the budget for the work, in the event of course, that the job can be done locally.

12. Engine Repairs or Engine Overhaul while in port

In the event vessel requires engine repairs or an engine overhaul (usually performed by the ship's crew) while berthed at a pier or dock in port, it is necessary that the Master so informs his Agents before undertaking such work in order that his Agents may, in turn, notify all parties concerned.

Read Charter Party/"Baltime" usually 24 hours notice for engine cleaning.

The reason for this is that it may be necessary to shift the vessel from one berth to another to facilitate or continue loading/discharging operations, and it is necessary to know in advance if the vessel can move with her own engines or whether tugboats will be required for the movement. In the latter case it is of course understood that the cost of tugboats will be for vessel's account.

13. Redelivery

If your vessel is to be re-delivered at this port, this should be made known to us as soon as possible after arrival here, for although we may be aware of this fact, there is a possibility we might be lacking the necessary details concerning the terms of re-delivery.

14. Lowering Boats *(Apply in writing)*

Port regulations prohibit the lowering of boats except for fire drill or to do maintenance work of the ship (painting, etc.). For either of those purposes, a permit is required from the Harbour Master, and the crews of such boats are not allowed to land on any pier or board any vessel in the harbour. Please be informed that our Ministry of the Interior has issued the following instructions to be strictly observed by the Masters of all foreign vessels during their stay at Cuban ports:

(a) When a vessel is carrying out paint work or similar tasks while in port, at the end of the day's work the craft or boat used to perform the work should under no circumstances remain in the water, but must be hoisted aboard to be again lowered the following day or whenever the work is resumed.

15. Radio Communications

Vessels within harbour limits are not allowed to transmit messages by radio.

16. Port Expenses

The bills covering port expenses will be submitted for your approval and signature, prior to vessel's departure from this port, regardless of the fact that such expenses might be for Owner's or Charterer's account, as this can subsequently be easily determined by examination of the Charter Party. However, if we are to obtain reimbursement for the amounts expended to cover port expenses, it is necessary that your approval and signature be secured.

Mark Owner's account or Charterers' account.

17. Stowaways

(a) Kindly request all ship's officers that every possible precaution should be taken to prevent stowaways.

(b) Whenever the Master of a vessel finds a stowaway on board, either in port or outside the port's limits but within Cuban territorial waters, he is under obligation to deliver same to the Immigration Authorities. If the stowaway is found outside the port, the Master must report this by radio so that the stowaway may be picked up by a port authority boat, to be subsequently delivered to the Immigration Authorities.

(c) At no time are the Masters of vessels allowed to lower rope ladders or ropes on the vessel opposite the dock where the ship is berthed.

18. Paper and Dunnage – Very Important

In the event that your vessel is scheduled to load sugar in bags in Cuba, and should you require paper and/or wood dunnage, you must make known to us your needs in writing as soon as possible, bearing in mind that the suppliers require at least (5) days notice for delivery.

19. Loading Sugar

Whenever your vessel is assigned to load sugar the following precautions are to be taken:

(a) Cleaning and Dunnaging of Hatches; You must be extremely careful to have the vessel's hatches thoroughly dry, clean and without odour, as well as properly dunnaged to the satisfaction of the shippers, before starting loading.

(b) Cleaning Holds: In order to avoid damage to the sugar cargo during the voyage, please make proper arrangements for the closing of holds before starting loading in 'tweendecks.

(c) Tally: With respect to the dispute that occasionally arises between the vessel and the shippers during the course of loading sugar shipments regarding the number of bags delivered on board, which results in the issuance of a letter of guarantee by the latter, in many instances without real justification, we wish to inform you that the only document with official validity is the tally sheet prepared by the shore tallyman assigned to each loading hatch, and that if you wish to verify the accuracy of said tallying it is necessary that you appoint an officer or a member of your crew to count the cargo jointly with the shore tallyman, as this is the only possible way of avoiding discrepancies in the checking of the bags actually delivered on board.

Consequently, we request that you please keep the above in mind, as this will tend to reduce if not completely eliminate, the problems which are now being confronted.

20. Agency Office hours

We list hereunder our office hours:
From Monday to Friday: 0800 to 1200, 1300 to 1700.
Saturday: 0800 to 1200.

Our representatives will call on the ship as regularly as possible to discuss with the Master any matter or problem he may have in connection with the operations of his vessel; however, such calls are contingent upon the volume of work, for which reason we suggest that the Master calls at our office when any matter arises which requires immediate attention.

VHF Communication System

The VHF (150 mc.) communication system is officially established between our Havana Agency and ships in port or close to port. For the time being, service will be provided during the Agency's regular office hours only, but this work schedule will be expanded in the near future. It is hoped the establishment of this service will be instrumental in speeding up those operations in which we intervene.

Havana Pilot Channel 16. Agent's Channel 12.

21. Crew Mail

An Officer or crew member should call at the office regularly to pick up crew mail; however, the mail will be sent aboard whenever possible.

22. Medical and Dental Services

Any man requiring medical or dental attention should be sent to our office whenever possible, with a letter from Master containing full name and rank, at 0800 or 1300 hrs. from Monday to Friday, and we will see to it that he is promptly sent in a car to the hospital and back to the ship afterwards.

In the event of an accident or serious illness, please contact Mambisas Agency on the phone, and an ambulance will be sent immediately to transport the man to the hospital.

Failure on the part of the ship to comply with the instructions herein contained, automatically relieves the Agent of any responsibility which non-compliance might bring about.

SHIPMASTER'S COMMENTS:

Fresh Water: Always take full fresh water. Water barges available at Havana and Santiago. No fresh water at Jucaro or Boca Grande.

Documents: Sample crew manifest to avoid confiscation: 2 Radios, packet of paints, tape recorder (Akai), gloves, speakers, star plotter, cassette tapes, set of ship plans, earphones, plastic mac, 3 prs. sunglasses, dress uniform, calculator, battle dress uniform, matchstick model ship, brown suit, plastic battleship model, blue coat, bridge coat, 10 packs glue, grey trousers, 1 pk. razor blades, 3 khaki shirts, 1 Fernox medicine, 1 Savlon cream, 3 khaki shorts, 3 balsa cement, 5 uniform shirts, 1 stop watch, 1 briefcase, 2 coloured shirts, 1 tee shirt, 1 knapsack, 6 uniform white shirts, 1 photographic bag, 3 white shorts, assorted films, 4 ties, 2 cravats, 1 brown cardigan, 1 pullover, 1 dressing gown, 1 pair longjohns, 1 pr. sandals, 2 alarm clocks, 1 sextant, 4 watches, 1 boiler suit, 3 plastic trays, 2 beakers, 1 belt, 2 toy engines, cellotape, 14 wagons, gold braid, 8 points, keys, 8 curved rails, tape recorder cords, 4 vests, swimming trunks, 5 pants, 1 blue socks, 5 brown socks, 6 white socks, 1 cap cover, 1 pr. pyjamas, 1 silk scarf, 1 pr. black shoes, 1 pr. brown shoes, toilet articles, 1 copy stand, 1 enlarger, assorted chemicals, powersaw, typewriter, calculator, adding machine, 4 packs tea, 4 cameras, 1 lens, 1 light meter, 3M duplicator, binoculars, Sanyo tape cassette, assorted perfumes and curios. 1 kitbag, 1 flip-flops.

200 cigarettes, 1 spirits, number cans of beer, number of bottles of wine.

If in doubt – put it in a suitcase and lock it in the bonded store!

ANTILLA: 20.50 N. 75.44 W.
(and sub-ports of Felton, Nicaro and Preston)

ALSO SEE "LATE REPORTS" AND "LATE PLANS".

Port situated on North side of Nipe Bay, on North Coast of Cuba.

APPROACHES: Safe approach without sharp turns. Width of approach about 0.75 miles with mud bottom. Depth of water between entrance and Saetia anchorage about 150 ft.

PILOTAGE: Pilots board vessels proceeding to Antilla Port or to sub-ports of Preston, Nicaro and Felton, 1 mile N.E. of Punta Mayari Lighthouse.

All vessels proceeding to Antilla or to sub-ports must proceed to a position no more than 1 mile North of the Line East-West with Punta Mayari.

Lighthouse position: 20° 47′ 45″ N., 75° 32′ 00″ W.

Pilot station is at Saetia. There is a telephonic communication between Antilla and Saetia, though rather deficient. On many occasions it is impossible to communicate with Pilots when there is any sudden change in vessel's ETA. Therefore advise Antilla Agency soonest of any change in ETA.

Distance from position where Pilots board vessels to Antilla Piers is about 15 miles.

ANCHORAGES: Corojal, 14 miles. Can accommodate vessels drawing up to 20 ft. with a length up to 557 ft. Sufficient swinging area.

Punta Salinas, 10 miles. Can accommodate vessels drawing up to 31 ft. without length limitation.

Preston, 7 miles. Can accommodate vessels drawing up to 30 ft. without length limitation. Swinging area unlimited.

Saetia, 3 miles. Can accommodate vessels of any length and draft.

Cajimaya, 6 miles. Can accommodate vessels drawing up to 32 ft. with length up to 600/700 ft.

La Chiva, 5 miles. Can accommodate vessels of any length and draft.

RESTRICTIONS: Vessels can enter/sail only during daylight hours.

MAX. SIZE: Vessel of any length and draft can enter Antilla but only up to Saetia anchorage, where the mouth is about 0.75 miles wide with a depth of 150 ft.

Vessels must not enter or sail from this port with a draft more than 20 ft. forward, 23 ft. aft, as depth at piers limit draft either entering or sailing.

Length is limited by length of piers to 450 ft., otherwise one hatch would remain outside pier, which would result in delay loading or discharging.

There is an average of 3 ft. between high and low tides.

CLEARANCE: All Port Authorities, Port Doctor, Customs, Immigration and Captain of the Port have their offices at Antilla. Vessels may proceed directly to sub-ports without entering Antilla for clearance. Port Authorities clear ships at sub-port when necessary.

Launch service is the preferable means of transportation used by the Port Authorities to the various sub-ports under Antilla jurisdiction.

There are Custom House Delegations at sub-ports of Preston, Nicaro, but no Immigration. The Custom House Delegate at the sub-port of Nicaro also acts as Delegate for the Captain of the Port.

Although there is no Port Doctor Delegate at the sub-ports, the General Hospital Doctors may act as such, if requested, in order to give a quick entry to the ship.

Notwithstanding the above, in those cases when a ship is coming from a Cuban or foreign port, destined to Nicaro, and happens to lose the slack water tide, it will be necessary for the ship to anchor at Saetia (Antilla) and to wait the next tide. In these particular cases the Port Authorities give entry to the ship at Saetia anchorage, and it is not necessary for another Port Authority visit at the sub-port of Nicaro.

RADIO: When vessels proceed to Antilla, or to any sub-ports, Preston, Nicaro or Felton, or to the port of Banes, ETA messages should be sent to "Mambisas Antilla", simultaneously advising the main office, "Mambisas", Havana.

Ships can communicate with Mambisas Antilla's Agency by wireless via CLA.

TUGS: No tug is required for entry to Antilla. There is a tug available 24 hours of the day, but service must be requested at least 24 hours in advance. Name, *Macabi;* length, 81 ft. 1 in.; width, 24 ft. 0 in.; gross tonnage, 183.53; net tonnage, 86.00; motor, one diesel; h.p., 750; speed, 8.5 knots.

BERTHING: Pier No. 4 (North side). Length 458 ft. Can accommodate vessels drawing up to 17 ft. forward, 23 ft. aft, with a length up to 557 ft.

Pier No. 4 (South side). Length 458 ft. Can accommodate vessels drawing up to 20 ft. forward, 23 ft. aft, with a length up to 557 ft.

Coast Pier: Can accommodate vessels drawing up to 20 ft. even keel.

At these piers, operations of loading sugar and discharge of jute bags. Shipment of molasses can only be performed at No. 4 pier (North and South side) where there is a pipe-line of 16 in. diameter.

The three piers have railroad tracks of standard gauge. Each pier is connected with one railway which is independent of the others, but has no separate outlet at the end of the piers; consequently to perform any movement it is necessary to take out the remaining cars.

Operations at anchor in the bay cannot be performed, as there are no lighters or tugboats available.

STEVEDORES: Working periods – loading sugar; Monday to Friday – 0700/1100–1300/1700 hrs. Saturday – 0700/1100–1300/1700 hrs. Sunday – no work performed.

Labour legislation presently in force provides that the number of hours to be worked is 8 hours daily, from Monday to Friday, and 4 hours on Saturday, for a total of 44 hours weekly.

Capacity: Three ships can be performing sugar loading operations simultaneously, although the labour force available is for a total of 12 gangs.

1. Raw Sugar: *(a)* Loading rate: 1,330 bags of raw sugar (of the 220-pound type) per 4 hours per gang. *(b)* Bags per sling: 6 bags of raw sugar (of the 220-pound type).

2. Refined Sugar: *(a)* Loading rate: 2,100 bags of refined sugar (of the 100-pound type) per 4 hours per gang. *(b)* Bags per sling: 12 bags of refined sugar (of the 100-pound type).

No shore crane available at this port, but there are 6 machine throwers for bulk sugar operations, grates and canvas funnel, etc. These machines function with diesel motors.

Sugar bags are opened in the square of the hatch.

TANKERS: Molasses pumping rate is at an average of 35,000 gallons per hour.

Coast dock has been equipped by ECP for vessels to discharge gasoline and gas oil and where vessels can berth with draft 20 ft. even keel. Fidelity tanks, presently operated by ECP, one for storing gasoline and the other for gas oil.

Capacity of each tank about 53,000 barrels. Average discharging rate, each product about 300 t.p.h.

Due to the fact that there is only one pipe-line, when vessels carry both products gasoline is discharged first, after which the pipe-line is cleaned by pumping water. The gas oil is then discharged.

MEDICAL: There is a hospital where crew members may be hospitalised.

FRESH WATER: Can be obtained. The water is brought from outside in railroad tank cars and pumped to the ship by means of a portable turbine. Any amount of water can be delivered but only in partial quantities of not more than two tank cars daily. Average delivery: 30 t.p.h.

FUEL: Not available.

REPAIRS: Minor repairs only.

AGENTS: Attending the port of Antilla, and the sub-ports of Preston, Nicaro and Felton, also the port of Banes.

Agency Address: Empresa Consignatarias Mambisas, 55 Avenue de Cuba, PO Box 62, Antilla, Oriente, Cuba. Cables: "Mambisas" – Antilla. Tel. 39. Night No. 247.

Crew mail should be sent to Antilla Agency address, even when ships are operating in sub-ports, and sent by "Registered Mail" for quick delivery. Letters of instructions or cables from owners should be sent to the main office: "Mambisas", Havana.

SUB-PORTS:

Distance from Antilla to:

Preston (Guatemala), 7 miles.
Felton, 11 miles.
Nicaro, 14 miles.

To the port of Banes, which is attended by Antilla Agency, 50 km. From Antilla to Banes highway transportation is used.

Time from Antilla to:

Sub-port	*Launch*	*Highway*
Preston	1 Hour	1 hour 45 minutes
Felton	1 hour 30 minutes	2 hours 15 minutes
Nicaro	2 hours	3 hours

There is only a regular launch service from Antilla to Nicaro, leaving daily from Coastwise pier Antilla at 0930 hrs., arriving Nicaro at 1130 hrs.

(a) SUB-PORT OF PRESTON (GUATEMALA):

LOCATION: On North coast of Cuba, 20° 46′ N. 75° 40′ W.

This sub-port situated Eastern side of Nipe Bay on a peninsula called Punta de Tabaco, S.E. of Antilla. Sugar and molasses produced by the sugar mill Preston (Guatemala) are shipped through this sub-port.

APPROACHES: Same as for Antilla – (Nipe Bay) where Preston is located. The depth from the entrance to anchorage at Preston of about 150 ft., gradually decreases to 60 ft.

PILOTAGE: See "Antilla". Distance from the point where Pilots board the vessels and Preston Pier: 8 miles; to Preston anchorage: 7 miles.

ANCHORAGE/RESTRICTIONS: See "Antilla".

MAX. SIZE: It is not necessary for ships to wait for slack or favourable tide. At sub-port of Preston, ships cannot enter or sail with a draft exceeding 11 ft. forward, 20 ft. aft, as pier is continuously losing depth due to the quantity of mud that Mayari river deposits.

CLEARANCE: See "Antilla". Port Doctor, Immigration and Port Captain travel from Antilla to Preston to give ships entry. Custom Delegation at this sub-port, only occasionally, and in order to avoid delay Preston Hospital Doctor clears the ship.

Vessel can proceed directly to this sub-port, since Port Authorities come from Antilla to give ship's entry.

RADIO: See "Antilla".

TUGS: See "Antilla". No tug required for ships to enter this sub-port. No tug available, but can be obtained from Antilla.

BERTHING: Wooden Pier (West side only) where vessels can be accommodated drawing up to 11 ft. forward and 20 ft. aft. This dock has about 1,100 ft. length, but the first 600 ft. (starting from shore to the head) is only about 12 ft. depth; from there on, draft for loading is 11 ft. forward and 20 ft. aft.

Only one vessel can be berthed at this pier on West side. It is usually used only in loading sugar and molasses, and occasionally for discharging coastwise fuel oil for sugar mill consumption.

The pier has double railroad track of standard gauge which reaches to its end, but for performing any movement it is necessary to take out the remaining cars as there is no outlet at the pier's end.

No dry cargo discharging is carried out, and no cargo operations are conducted in the bay.

STEVEDORES: Loading sugar – working period (max. 4 gangs). Monday to Friday: 0700/1100–1300/1700 hrs. Saturday: 0700/1100–1300/1700 hrs. Sunday: No work is performed.

General cargo: No discharging operation is performed at this port.

Labour legislation presently in force provides that the number of hours to be worked is 8 hours daily, from Monday to Friday, and 4 hours on Saturday, for a total of 44 hours weekly.

Raw sugar-loading rate. About 1,330 bags of raw sugar (of the 220-pound type) per 4 hours per gang.

Bags per sling: 6 bags of raw sugar (of the 220-pound type).

Operational capacity. At this sub-port only one vessel at a time can be operated.

Refined sugar. No refined sugar has been shipped by this sub-port.

Equipment. There is one movable shore crane available with lifting capacity of about 60 tons with 75° boom inclination. Boom length 50 ft. Crane is mounted on a railroad flat car which is acted by means of steam supplied by an adapted boiler. As the greater part of the year this crane remains idle, it is possible that its lifting capacity might have decreased. Five grates, but no thrower machines.

TANKERS: Molasses pumping rate average of 75,000 gallons per hour.

MEDICAL: There is a hospital at Preston which offers very good service to ship's crew. In cases requiring special attention, patients can be taken to Holguin, where there are reliable specialists.

FRESH WATER: Can be supplied to vessels. Pier has a 2 in. diameter pipe-line, through which water is delivered directly to ship, at an average of about 30 t.p.h. Any quantity of water can be supplied.

FUEL: Not available.

REPAIRS: A good repair shop operated by the sugar mill "Central Guatemala".

AGENTS: See "Antilla".

(b) SUB-PORT OF NICARO (LENGUA DE PAJARO) LEVISA BAY:

LOCATION: North Coast of Cuba in province of Oriente, 19° 43′ N. 75° 33′ W.

APPROACHES: Entrance Channel for sub-port of Nicaro is risky for vessels over 350 ft. length, due to its narrowness and because of having sharp turns, some of them forming angles of almost 90°. Bottom and banks are rock and coral.

Depths – 170 and 78 ft. max./min. respectively. Vessels exceeding 350 ft. length require tug for entering and sailing; all vessels over 450 ft. must be extremely careful. Entering or sailing must be effected during slack water, high or low. Simultaneous entry or sailing of two or more vessels is not permitted.

PILOTAGE: See "Antilla". Distance from the point where Pilot boards vessel and Nicaro anchorage, about 10.50 miles; to Nicaro Pier, about 11 miles.

ANCHORAGE: Can accommodate vessels with length up to 475 ft. and max. draft up to 30 ft. The swinging area is limited to 800 ft. to permit access through the Channel.

RESTRICTIONS: At sub-port of Nicaro, vessels not permitted enter or sail during night time. From beginning May until end August vessels can enter Nicaro from 0515 hrs. to 1800 hrs. and sail from 0550 hrs. to 1840 hrs. From end August to beginning May, vessels can enter from 0615 hrs. to 1720 hrs. For sailing from 0620 hrs. to 1810 hrs.

In the above information, the time taken (1 hour, 20 minutes) to undock from pier and manoeuvre to entrance of Channel, and vice versa, has been included.

MAX. SIZE: Permissible draft at North side of Nicaro Pier at low tide must not exceed 27 ft. 6 in. forward and 29 ft. aft, with max. length not over 476 ft.

South side of Nicaro Pier, at low tide, has depth of 25 ft. towards shore and 28 ft. at its end, showing the marks for 26 ft. at a distance of 450 ft. from head of pier up to its end.

Both sides have muddy bottom about 3 ft. deep. Nicaro was dredged up to 32 ft., not having been dredged since that time. As a consequence of unloading of mineral (anthracite) which is carried out in this sub-port, anthracite can be discharged only at South side of pier, where crane is situated; a great quantity of mineral is deposited on the bottom, mainly close to piling which supports the pier plate. Owing to this, it is believed that there is an elevation of mud and coal which extends alongside of pier from the 50 ft. mark to 380 ft.

Because of this elevation, which forms an incline from stack pile of the pier, up to approximately 1.5 m. out, vessels which submerge more than 26 ft. forward and 27 ft. aft tend to list to port.

Between months of August and December, variation of tide is from 3 ft. to 3.5 ft. During remaining months it is from 2.5 ft. up to 3 ft.

Also see "Approaches" and "Anchorage".

CLEARANCE: Vessels are cleared by a doctor of the Nicaro General Hospital. Immigration officials come from Antilla together with the Agent and Customs Inspectors.

Vessels proceeding to Nicaro can do so directly without having to call Antilla for Port Authorities' Clearance.

Vessels unable to proceed direct owing to unfavourable tide or night arrival are required to anchor at Saetia or Salinas. In such cases, and when ordered by the Chief Inspector, clearance on entry is carried out at these anchorages.

RADIO: Nicaro has following means of communication: telephone, post office, telegraph and radiograms via R.C.A. Ships can communicate with Nicaro using C.L.A., but it is suggested that ETA messages be sent simultaneously to Mambisas, Antilla, and Mambisas, Havana.

Also see "Antilla".

TUGS: Obtained from port of Antilla. Therefore it is recommended that when vessels are assigned to this sub-port, advice of their ETA be given with sufficient time prior to vessels' arrival. Particulars of tugboats are shown under "Antilla" information.

BERTHING: Nicaro Pier operated by Empresa Consolidada Nickel Industria Minera "Commandante Rene Ramos Latour", where following operations carried out: Sugar loading from mills Guatemala and Nicaragua; shipment of nickel; and also discharging general cargo, fuel, oil, ammonia and coal.

At North side of pier are two intakes for fuel, oil, one for ammonia and one for gas oil.

Liquid fuel can be discharged at South side of pier, but this operation prohibits any other operation being carried out at opposite side of pier, as hoses have to cross over pier from the vessel to connections situated at North side.

Pier has a railroad track of standard gauge. Truck transportation can also be used. Interruptions are experienced (mainly sugar loading) since there is only one railroad track. Operation of change and movement of flat cars takes approximately 10 minutes.

In discharging mineral coal, no interruptions occur and time is not lost.

Electric shore crane is installed at South side of pier and mounted on rails which run from one end to the other. The top end of this crane consists of a rotary structure from which is projected a boom about 50 ft. long. This boom can be suspended up to an angle of about 60°. In a horizontal position, it can lift weights of about 10 tons each and the loading capacity is gradually increased to 20 tons while raising the boom up to an angle of 45°.

Crane can also perform discharging operations on vessels which are docked on the North side, but operations are slower than when vessels are docked at South side.

Crane's accessories consist of two grabs for mineral coal of 1.5 and 3 tons capacity each, steel slings, special slings for loading nickel,etc. This equipment (excluding ship's tackle) is the only gear available for loading or discharging at this sub-port.

Only two vessels can be loaded simultaneously, and operations of working two vessels simultaneously delays both operations owing to characteristics of this pier, which was constructed specifically for receiving mineral coal, general cargo, fuel, oil, ammonia, and to ship nickel or other type of heavy material. Pier lacks necessary railroad tracks to ship sugar as are found in other ports which have been assigned to this purpose.

No cargo operations are carried out in the bay.

STEVEDORES: Loading or unloading of general cargo, nickel, mineral coal, etc., is performed by port workmen of sub-port of Nicaro.

Raw sugar-loading rate. At present, average loading rate in a period of 4 hours per gang, is about 1,330 bags.

Bags per sling (Guatemala sugar): 6 bags of raw sugar (of 220 pound type) per sling. Nicaragua sugar: 6 bags of raw sugar (of 220 pound type) per sling. Sugar bags from sugar mills Guatemala and Nicaragua are transported from respective mills to Nicaro in railroad flat cars, already slinged.

Refined sugar. No refined sugar is exported.

General cargo discharging rate. General cargo of a fragile nature and careful handling: about 5 tons per gang hour. General cargo of sturdy nature and easy handling about 20 tons per gang hour.

Bagged cargo: about 30 tons per gang hour.

Mineral coal: at present the shore crane is averaging 110 t.p.h.

Nickel: at an average of 800 bags (26 tons) per gang hour.

Bulk sugar: no bulk sugar equipment available. In those cases when bulk sugar operations are performed, the necessary equipment is obtained from sub-port of Preston.

Working periods in loading sugar: Monday to Friday, 0700 to 1100 and 1300 to 1700 hrs.; Saturday 0700 to 1100 hrs. only; Sunday, no work is performed.

Labour legislation presently in force provides that the numbers of hours to be worked is 8 hours daily, from Monday to Friday, and 4 hours on Saturday, for a total of 44 hours weekly.

TANKERS: No molasses or alcohol re-loaded. Only fuel oil, liquid ammonia and gas oil are discharged. Average discharging of fuel oil at present is about 400 t.p.h. Liquid ammonia discharge averages about 27 metric t.p.h.

MEDICAL: Hospital at Nicaro offers good service to ships' crew members. In case of special attention, the patient can be taken to Holguin, where there are reliable specialists.

FRESH WATER: Delivered at North side of pier through pipe-line at average 30 t.p.h. Delivered only during night time.

FUEL: Not available.

REPAIRS: Very minor repairs only.

DISTANCES: The nautical distance between Nicaro and Antilla for vessels drawing over 6 ft. draft is 24 miles. For small craft drawing less than 6 ft. the distance is 14 miles. By highway, 130 kms. from Nicaro to Antilla.

Sea transportation takes 1 hour 45 minutes, and highway 2 hours 30 minutes. There is a daily launch service between Nicaro and Antilla. Launch leaves Antilla 0930 hrs. arriving at Nicaro at 1130 hrs. and a launch leaves Nicaro at 0930 hrs. arriving at Antilla at 1130 hrs.

AUTHORITY: Sub-port of Nicaro is under Antilla Custom House jurisdiction. There is a Custom House Delegate at this sub-port, who acts as a Delegate of the Captain of the Port.

Vessels at Nicaro are handled by personnel of Antilla offices who visit Nicaro, and are located at Oficina de la Marina, Tel. 216. In case this office is closed, these personnel could also be contacted through Customs House telephone of Nicaro.

AGENT: See "Antilla".

(c) SUB-PORT OF FELTON:

LOCATION: This sub-port lies about 3 miles to East of Preston, and about 1 mile to East of mouth of Mayari River.

APPROACHES: See "Antilla".

PILOTAGE: See "Antilla". Distance from point where Pilot boards to Felton Pier, 6 miles; to Cagimaya anchorage, 5 miles.

CLEARANCE: Vessels can proceed directly to Felton, as Port Authorities from Antilla are taken by launch to visit vessel at Felton pier, or at sea in Cagimaya Anchorage.

RESTRICTIONS: No entry or sailing at night.

MAX. SIZE: Vessels of any length and draft can enter, but due to depth at pier they are limited to max. 25 ft. forward and 26 ft. aft. It is recommended that ships not exceed 480 ft.

It is not necessary for ships entering Felton to wait for slack water.

There is a variation of 3 ft. between high and low tides.

RADIO: Ships can communicate with Felton by wireless via CLA, but it is recommended that ETA messages be given to Mambisas Antilla and simultaneously Mambisas Havana.

The means of communication between Felton and Antilla are telephone and telegraph.

BERTHING: No wharf. Vessel is secured to 3 dolphins about 40 ft. from shore. Distance between end dolphins, about 350 ft. Loading of manganese is by crane grab, and loading rate about 200 metric t.p.h.

There is one electric shore crane mounted on rails with a loading capacity of about 10 tons. This crane is movable and has wide field of operation. The booms have a length of 60 ft. If the grab is removed, the crane can lift up to a max. of 15 tons.

Loading manganese continues throughout 24 hours and 7 days a week.

Discharging operations consist of bulk fertilisers and fuel oil.

No cargo operations conducted in bay.

MEDICAL: No hospital available at Felton. Sick crew members are sent to Nicaro Hospital or to Hoguin.

FRESH WATER: Can be supplied, but it is recommended that requisition be made sufficiently in advance in order to store required amount in aqueduct tank. Any quantity can be supplied depending on time vessel remains in port. Average pumping rate about 20 t.p.h.

Delivered by pipe-line.

FUEL: Not available.

REPAIRS: Mechanic shop operated by mining industries, in which light work can be performed.

DISTANCES: Distance between Felton and Antilla is about 11 miles. Usual transportation is launch service. It takes about 1 hour 30 minutes from Felton to Antilla. No daily transportation between Felton and Antilla.

AUTHORITY: The Port Authorities are located at Antilla and visit Felton as necessary.

AGENTS: See "Antilla". Mail should be sent through Antilla's main office by registered mail. Spares by railway express to Antilla.

BANES: 20.54 N. 75.41 W.

ALSO SEE "LATE REPORTS" AND "LATE PLANS".

PILOTAGE: Vessels should pick up Pilot at 20° 53′ N., 75° 29′ W., 1 mile N.E. of Banes Canyon Lighthouse. Pilot station located at Embarcadero (Banes). Agent informs Pilot of ship's arrival by means of local telephone. Distance from point where Pilot boards vessel to pier is about 6 miles.

RESTRICTIONS: Entrance is through narrow channel with sharp turns where there is a strong current. For this reason vessels can only enter on slack water tide and during daylight. Assistance of tug necessary for entering and sailing. Bottom and banks are rock and coral. Depth about 60 ft.

MAX. SIZE: Max. length due to characteristic of channel is of 360 ft. Due to insufficient water at pier, and in bay, ships are limited to draft 19 ft. forward and 23 ft. aft.

Average of about 2 ft. 4 in. between high and low tides.

TUGS: At present no tug available, but when needed same is requested from Antilla. Particulars of tug shown under Antilla information.

RADIO: Ships can communicate with port by wireless via CLA, but recommended that ETA message be sent to Antilla Agency, simultaneously advising Mambisas Havana.

MEDICAL: There is a hospital where sick crew members may be hospitalised.
BERTHING: Nicaragua Pier is only one for shipping sugar. Through same pier molasses are exported by 16-in. pipe-line with 2 connections. Fuel oil also discharged at this pier through 22-in. pipe-line. Vessels always dock portside to pier.

Pier has 7 railroad tracks which reach end of pier, but no outlets at other end and when performing any movement, remaining flat cars must be taken out. 5 tracks used for loading sugar in forward hatches; remaining 2 supply sugar to after hatches. This work performed by means of overhead electrical crane which can move along pier with max. 5 slings. Slings are laid on pier and hoisted by ship's tackles.

No cargo operations performed at anchorage.
STEVEDORES: General cargo: No discharging operations performed at this port.

Raw sugar — Loading rate: 980 bags of sugar (of the 250-pound type) per 4 hours, per gang.

Bags per sling: 6 bags of raw sugar (of the 250-pound type) per sling.

Operation capacity: Only one ship can operate at one time.

Refined sugar: No refined sugar shipped by this port.

Bulk loading equipment: No thrower machines for bulk sugar, only 4 grates which are placed on square of hatch.

Working periods — loading sugar: Monday to Friday, 0700 to 1100 – 1300 to 1700 hrs., Saturday, 0700 to 1100 – 1300 to 1700 hrs.: No work performed on Sunday.

Labour legislation presently in force provides that the number of hours to be worked is 8 hours daily, from Monday to Friday; and 4 hours on Saturday, for a total of 44 hours weekly.
FUEL: Not available.
FRESH WATER: Fresh water supplied, delivered by 3-in. diameter pipe-line, with average delivery 4 t.p.h.
REPAIRS: Sugar mill Nicaragua has machine shop which can carry out light repairs.
AUTHORITY: All port authorities located at this port.

AGENT: See "Antilla".

For information regarding ship's operations, Antilla Agency should be contacted. Antilla office personnel travel to Banes to attend vessels operating there. Any mail should be addressed to Antilla Agency. Spare parts by railway express.

BARACOA: 20.21 N. 74.30 W.

(Sub-ports: Moa and Punta Gorda)

ALSO SEE "LATE REPORTS" AND "LATE PLANS".

LOCATION: Situated on North coast and extreme East of Cuba in Oriente province.
PILOTAGE: Pilots board vessels 2 miles off port. Pilot station located in Baracoa City. Distance from point where Pilots board vessels to operation place (anchorage) is about 2 miles.
RESTRICTIONS: Vessels can enter port only during daylight.
MAX. SIZE: Entrance channel straight – without turns. Vessels up to 400 ft. length and 28 ft. draft can enter through Channel Two to 3 ft. rise of tide.
TUGS: Not available.
RADIO: Vessels can communicate with Baracoa by radio through Havana and Santiago de Cuba.
STEVEDORES: No pier at this port. Vessels anchor in bay for operations. Several barges, capacity 100 tons.

Working periods: Monday to Friday 0700/1100–1300/1700 hrs.; Saturday 0700/1100–1300/1700 hrs.

Labour legislation presently in force provides that the number of hours to be worked is 8 hours daily, from Monday to Friday, and 4 hours on Saturday, for a total of 44 hours weekly.

Discharge rate: about 80 tons daily per gang.
MEDICAL: There is a general hospital for sick crew.
FUEL/FRESH WATER/REPAIRS: Not available.
AUTHORITY: Port Authorities located at Baracoa. They have Delegation at Sub-port of Moa.

AGENTS (Sub-agency): Empresa Nacional de Cabotaje, Calle 1ro. de Abril No. 14, PO Box No. 27, Baracoa, Oriente, Cuba. Cable: "Simon Baracoa".

When needed to obtain information regarding ships operating at Moa or Punta Gordo, sub-agency at Baracoa should be contacted. When office closed, telephone number 81 should be called.

SUB-PORT OF MOA (Moa Bay): 20.41.15 N. 74.52.30 W.
Vessels can proceed directly to sub-ports of Moa and Punta Gorda where they are visited by Customs Authorities.
APPROACHES: Entrance Channel is straight and bottom is sandy. At both sides of entrance there are reefs and shoals.
PILOTAGE: Pilots board vessels at Moa Port mouth which is distant about 2 miles from entrance. Pilot station located at Punta Gorda at distance of about 5 miles from port entrance. Distance from point where Pilot boards vessel to Darsena de Moa (pier) is about 4 miles; to Moa Anchorage about 2 miles.
RESTRICTIONS: Vessels can enter and sail from this sub-port only during daylight.
MAX. SIZE: Vessels can enter through Channel up to Moa anchorage drawing up to 40 ft. and with length of 600 ft., but for docking at Moa pier, cannot enter with a draft over 28 ft. 6 in., and length of over 500 ft. At high tide vessels can enter drawing up to 30 ft.

Tidal variation: about 3 ft.
TUGS: Tug used at Moa for docking. Tug operated by Mining Enterprises.
RADIO: Government Radio Station at Moa with communication to Baracoa. At Baracoa there are long-distance telephone communications as well as Inalambrica service.
BERTHING: Only one pier (La Darsena) where vessels drawing up to 28 ft. 6 in. and with a length of about 500 ft. can be accommodated. This pier is used for discharge of raw material for the nickel plant and fuel oil, also for loading nickel.

No cargo operations in the bay.
STEVEDORES: Generally work is performed from 0700 to 2300 hrs.

Cranes: Several types of cranes: Bucyrious, Eric and Manitowk which have lifting capacity of about 75 tons.

Loading/discharging operations: Raw material for the nickel plant is imported as well as fuel oil. Nickel concentrate is exported.

Loading/discharging rate – Nickel (in containers): loaded at a rate of approximately 30 tons per hour-gang.

Sulphur: Discharging about 1,200 tons in the period from 0700 to 2300 hrs.

Fuel oil: Discharged at an average of about 3,200 b.p.h.
MEDICAL: Industrial Hospital where crew members can be hospitalised. General Hospital at Baracoa.
FUEL: Not available.
FRESH WATER: Delivery at rate of about 15 t.p.h.
REPAIRS: There are machine shops at nickel plant where small emergency repairs can be performed.
AUTHORITY: Port Doctor, Customs and Port Captain Delegations at this sub-port. Immigration Delegate is the same one who attends vessels at Baracoa and other sub-ports. Vessels can proceed directly to Moa where they are cleared, by Port Authorities. Means of transportation from Baracoa to Moa or other sub-ports are: air, launch and overland (jeep). Customs House inspectors travel from Moa to Baracoa.

Baracoa to Moa about 32 miles distant. Following services used: by plane, 20 minutes; by launch, 6 hours; by jeep, 5 hours. No regular services.

AGENT: See "Baracoa".

When vessel at sub-port of Moa, instructions should be given through Baracoa Sub-agency (cable address: "Simon" Baracoa).

SUB-PORT OF PUNTA GORDA: 20.38.30 N. 74.51.15 W.
APPROACHES: Entrance Channel for Punta Gorda same as for Moa Channel, continuing to Punta Gorda, but following a winding course.
RESTRICTIONS: Vessels can enter only during daylight.
PILOTAGE: Pilots board vessels at Moa port mouth. Pilot station located at Punta Gorda at a distance of about 5 miles from port mouth.

Distance from point where Pilot boards vessels to the anchorage (loading place) is about 4.5 miles.
MAX. SIZE: Max. draft permitted, 28 ft. and length not exceeding 440 ft. Tidal variation, 3 ft. max.
TUGS: One tug which tows 1 or 2 barges as necessary. Work performed day and night.
RADIO: Through Simon – Baracoa by Inalambrica (cable).
LOADING: Anchorage where vessels can load up to a max. length of 440 ft.
STEVEDORES: Chrome, at average loading rate of 1,000 tons (approx.) per day of 24 hours. Loading operations carried out at anchorage. There are 4 barges which have total capacity 600 tons.
MEDICAL: No hospital at Punta Gorda. Crew members can be attended to at Moa or Baracoa Hospital.
FUEL/REPAIRS: Not available.
FRESH WATER: No water available but can be supplied at Moa pier (Darsena).
AUTHORITY: Customs Delegation at this sub-port. Vessels can proceed directly to Punta Gorda. Port Authorities from Baracoa travel to Punta Gorda for clearance. Moa Port Doctor clears vessels at Punta Gorda. From Baracoa to Punta Gorda, following ways of transportation used: air, launch and overland, which takes 20 minutes, 5 hours and 4.5 hours respectively. No regular transportation.

AGENT: Baracoa Sub-agency personnel attend vessels operating at Punta Gorda.

Instructions from Havana should be given through Baracoa Sub-agency (cable address: "Simon" Baracoa).

CAIBARIEN: 22.32 N. 79.28 W.

SEE ALSO "LATE REPORTS" AND "LATE PLANS".

Operations carried out at Cay Frances anchorage by lighters, at distance of 16 miles from City of Caibarien.
PILOTAGE: Pilots board vessels 0.5 mile from Catalina buoy (entrance) of Cay Frances anchorage. Pilot station located at Cay Frances at place known as Punta del Asta. Usual means of communication is radio-telephone, which is available at Port Captain's Office in Cay Frances, close to pilot station. Advice also given by motor-launch.

Distance from point where Pilots board vessels to:

Inner anchorage (La Caldera)	–	2 miles
Outer anchorage (La Poza)	–	0.5 mile
Outer anchorage (Port Buoy)	–	at same place where Pilots board vessels.

ANCHORAGES: Cay Frances anchorage easily accessible, free of shoals and reefs. Bottoms at anchorage "Caldera" and "Poza" are mud and sand. Bottom at third anchorage (port buoy anchorage) is stone, but free of reefs.

Vessels can enter or sail Cay Frances anchorage with any length and with max. draft up to 35 ft. When vessels draw less than 20 ft. they proceed to inner anchorage (La Caldera): over 20 ft. and up to 26 ft. to the outer anchorage (La Poza); and those over 26 ft. proceed to third anchorage (port buoy).

Following regulations must be observed during vessels stay at Cay Frances Road:

(1) Vessels arriving with draft of 19 ft. 6 in. or less:
(a) All ships arriving with draft of 19 ft. 6in. or less must proceed to inner anchorage and remain in this anchorage until reaching draft of 20 ft. even keel.
(b) Any Master refusing proceed to inner anchorage with draft of 19 ft. 6 in. or less, incurs penalty of extra charge of about 7 cents on each bag of sugar delivered in port (payable to crew of sugar barges employed in transportation of cargo from shore warehouse to anchorage at Cay Frances).

(2) Shifting or changes of anchorages:
(a) Vessels must remain at place where official Pilot orders anchoring.
(b) Not permitted to shift or change from place indicated by official Pilot of the port without authorisation from Custom House Officer-in-charge on board the vessel. All shifts and changes to be done only under supervision and command of local Pilot.
(c) Master will notify Custom House Officer on board when shiftings or changes of anchorages places required.

In event aforementioned orders not followed or observed by Ship's Master and/or ship's officers, a penalty or fine min. $500 (five hundred dollars) will be charged to the vessel, and will have to be paid by Master prior to departure from this port. Besides penalty, no cargo will be delivered to ship anchored in any other place, other than indicated by local Pilot.

Vessels can enter during day and night-time.

RADIO: Vessels can communicate with Caibarien through government Wireless Telegraphy Station but it is safer and quicker for any communication from vessel to be given through radio-telephone.

For use of wireless telegraphy, service of Inalambrica is preferable.

Means of communication between Caibarien and Cay Frances: radio telephone.

Following tugs equipped with radio telephone: Comandante Gonzalez Lines, Comandante Fajardo and the motor launch *Yolanda.* Also radio telephone at Pontoon (Hulk) *San Pascual* and at Port Captain's Office. All tugs and motor-boats equipped with radio-telephone and communicate with Port Captain's Office are Caibarien and Empresa Consolidada de Terminales Mambisas. Official hours of communications are 0800, 0900, 1100, 1400, 1530 and 1600 hrs. After these hours, other communications can be made when needed, upon request.

At Caibarien are following means of communication: National Wireless Telegraphy, Inalambrica, long-distance telephone and Post Office. Services are from 0800 to 2000 hrs. Telephone service is permanent.

TUGS/BARGES: It is not necessary to use tug for entering/sailing, but following tugboats which used for towing barges.

Tug Name	*Length*	*Speed*	*H.P.*
Gonzalez Lines	75 ft.	8/9 kn.	250
Cmdte. Fajordo	55 ft.	8/9 kn.	300
Jose Marti	60 ft.	8/9 kn.	180

BARGES: Following barges available:

Name	*Capacity Bags*	*Capacity Approx. Long Tons*
Transporte No. 1	2,860	328
Transporte No. 4	2,860	328
Transporte No. 3	2,860	328

Lanchon Dolores	1,040	120
Lanchon Juanita	1,040	120
Lanchon Laura	845	97
Lanchon Marianela	845	97
Lanchon Gloria	715	82
Lanchon Elvira	680	78
	45,945	5,163

STEVEDORES: Sugar working periods: Monday to Friday 0700 to 1100 hrs. (presently labourers continue working from 1200 to 1600 hrs. but the official periods are from 0700 to 1100 hrs.). Sunday, no work is performed unless urgent.

Loading rate: About 1,000 bags of raw sugar per gang-period. For each gang, not less than 1,950 bags are placed alongside vessel for each 8 hours working period.

For vessel able to make faster reception, it is possible some days for about 3,000 bags to be loaded.

Bags per sling: 5 bags per sling loaded.

Work capacity: 2 vessels can be operated simultaneously.

General cargo: Only empty jute bags imported and discharging rate approx. 20 tons per gang hour.

TANKERS: Only blackstrap molasses exported by this port. When tankers arrive drawing less than 20 ft. or in ballast, they dock at Pontoon or Hulk *San Pascual,* proceeding generally to complete at another port.

On other occasions they are shifted from Pontoon (Hulk) *San Pascual,* to outer anchorage "La Poza" where they complete cargo which is delivered by barges.

Average pumping rate 55,000 gallons per hour.

MEDICAL: There is a hospital at Caibarien for sick crew members.

FRESH WATER: Any amount of fresh water can be supplied by means of barges which are towed from Caibarien docks to Cay Frances anchorage. Barges are equipped for this purpose. Average rate of delivery is about 5 t.p.h.

REPAIRS: Minor repairs only. Repair shops at Caibarien, but due to distance from Caibarien to Cay Frances, it is difficult and expensive to perform repairs.

AUTHORITY: All port authorities located at Caibarien 16 miles from Cay Frances anchorage, where they travel by launch or motor-boat to clear vessels.

AGENT: Empresa Consignatarias Mambisas, Street 4 No. 305 (2nd floor), PO Box 72, Caibarien, L.V. Tel.: 3-1805 from 0700 to 1900 hrs. (night: 3-4785).

CARDENAS: 23.03 N. 81.12 W.

ALSO SEE "LATE REPORTS" AND "LATE PLANS".

PILOTAGE: Pilots board vessels in vicinity of Cayo Piedras.

Pilot station at Cardenas. Distance from where Pilot boards to the pier is 16 miles, and to Cayo Diana 6 miles.

APPROACHES: Cardenas Channel in bay has muddy bottom. Exterior Channel has rocky and sandy bottom, is artificial Channel, no dangerous narrows.

MAX. SIZE: Official draft for port 20 ft. 6 in., but due to quantity of mud deposited in Channel, Pilots have advised that vessels are only permitted enter and sail with draft not over 19 ft. and length approximately 560 ft. Variation of approximately 2 ft. between high and low tides.

RESTRICTIONS: Vessels only permitted enter or sail from port during daylight. Channel entrance to berth, 3 hours steaming, therefore vessels must enter or sail at least 3 hours before sunset.

ANCHORAGES: *Cayo Piedra de Afuera Anchorage:* Outer anchorage. Max. draft 38 ft. Swinging area over 500 ft. Open to winds of 1st and 4th quadrants.

Cayo Piedra de Adentro Anchorage: Inner anchorage. Min. depth 29 ft. Swinging area 500 m. Max. draft 26 ft. Open to Northern winds.

Los Meritos Anchorage: Inner anchorage. Min. depth 30 ft. Swinging area 400 m. Draft limited to 20 ft. at low tide.

At "La Poza de Cayo Diana" there are 3 official anchorages:

Explosives Anchorage: 23° 10′ 22″ and 81° 08′ 56″ W. Min. depth 27 ft. Swinging area 300 m.

Cuarentena Anchorage: For vessels drawing over 15 ft. 23° 11′ 5″ N. 81° 08′ 17″ W. Min. depth 23 ft. Swinging area 350 m.

La Poza Anchorage: Min. depth 29 ft. Swinging area 750 m. Max. draft limited to the Port Official draft. Well sheltered.

Anchorages in Bay:

Cuarentena Anchorage: For vessels drawing 15 ft. or less. 23° 06′ 58″ N. 81° 10′ 48″ W. close to Port inner anchorage. Min. depth 16 ft. Swinging area 33 m.

Official de Bahia Anchorage: Min. depth 15 ft. Max. draft at high tide 15 ft. Swinging area 900 m.

RADIO: Ships can communicate with port by R.C.A. radio.

TUGS: Normally tug not required to assist berthing, but when vessels have to berth head to shore, assistance of tug is necessary.

BERTHING: Loading/Discharging Place – Pier: Max. drafts: N.W. side (fore): 19 ft., (aft) 17 ft. 6 in. S.W. side (fore): 18 ft. Aft end not used for large vessels. Pier has double railroad tracks of standard gauge.

Operations in Bay: At present, no cargo operations in the bay are performed, although there is a fleet of nine lighters numbered from one to nine, with a loading capacity of 150 tons each (1,300 bags of the 250-pound type).

STEVEDORES: Export of refined sugar and alcohol. No general cargo operation performed at present. No shore crane available.

Working periods: loading sugar from Monday to Friday 0700/1100–1300/1700 hrs.; Saturday 0700/1100 hrs.; Sunday: no work performed.

When vessel does not achieve daily rate during regular hours, work is carried out from 1900 to 2300 hrs.

Raw sugar loading rate: about 1,138 bags (of the 220-pound type) loaded per 4 hours per gang. This is not a fixed rate but when exceeded stevedores to be paid extra. Bags per sling: 4 bags of raw sugar (of the 220-pound type) loaded per sling.

Capacity: Normally three vessels can be operated simultaneously.

Refined sugar: about 2,500 bags (of the 100-pound type) or 2,272 bags of 50 kilos, loaded per 4 hours per gang period. This is not a fixed rate, but when it is exceeded an additional payment must be made. Bags per sling: 8 bags (of the 50-kilo type and 100–pound type) loaded per sling. For those weighing 100 kilos, 4 bags loaded per sling.

Bulk: Only grates are available for loading bulk sugar.

TANKERS: Average pumping rate of alcohol about 50,000 gallons per hour.

MEDICAL: Cardenas General Hospital and a clinic.

FRESH WATER: Pier has tank which receives water direct from aqueduct, but not sufficient to supply large quantity to ships. When necessary to deliver more than 80 tons, tank cars must be used to deliver additional quantities at the pier. Any quantity of water can be delivered using tank cars, but order must be placed 48 hours in advance.
Average delivery rate about 20 to 30 t.p.h.
FUEL: Not available.
REPAIRS: Repair shop named "Jose Valdes Reyes" where light repairs can be perfomed.
AUTHORITY: All port authorities located at Custom House building.

AGENT: Empresa Consignatarias Mambisas, Agencia Cardenas, 1ra. Avenida y Calle 4, Cardenas, Matanzas. Tel. 2847 (night: 4830).

CIENFUEGOS: 22.09 N. 80.27 W.

Including sub-port of Casilda (Port Trinidad), and sub-port of Tunas de Zaza:

ALSO SEE "LATE REPORTS" AND "LATE PLANS".

PILOTAGE: Pilots board vessels 1 mile to South of Faro de los Colorados. Pilot station situated at Castillo de Jagua, at entrance of port. Distance from point where Pilots board vessels to the piers about 7 to 8 miles.

At entrance channel there are two sharp turns at Pasa Caballos and West part of Cayo Carenas.

Vessels permitted enter and sail from port day or night.

ANCHORAGES: General Anchorage and North Anchorage: min. depth at both anchorages 40 ft.

At N.E. part of General Anchorage (narrowest portion), vessels with a length of 560 ft. normally anchor with 3 shackles of chain in water, swinging easily with over 30 ft. draft aft.

Larger vessels can be accommodated at S.W. part of General Anchorage, where swinging area larger, and depth deeper. Min. depth 48 ft.

When piers are occupied, loading or discharging operations can be performed at anchorage. There are 9 barges available, capacity 150 tons each, 3 tugs, *Julia, Ramona* and *Granie*. Each tug can tow 2 barges.

MAX. SIZE: Max. length with which vessels can enter port is 700 ft. with draft up to 37 ft., making use of the best conditions, such as slack water, and daylight. Tidal variation about 1 ft. 6 in.

RADIO: Vessels communicate with Cienfuegos by radio through Havana-Santiago, and when close to port, through local Custom House communication.

Suggested that ETA messages be given sufficient time in advance to Mambisas – Cienfuegos and to Mambisas – Havana – simultaneously.

To communicate with Casilda only, long distance telephone and telegraph can be used. With Tunas de Zaza, by telegraph only. Cienfuegos has airport, railroad, sea radio, telephone and telegraph.

R.C.A., Western Union and Inalambrica operate at Cienfuegos.

BERTHING: *Cacicedo Pier:* Drafts: 24 ft. fore, 25 ft. aft. Pier length: 385 ft.

Mooring Berth Standard: Min. depth in all area of 45 ft.

Naticorp: For vessels up to 613 ft. length, drafts up to 29 ft. fore and 30 ft. aft. For vessels up to 550 ft. length, drafts up to 29 ft. 6 in. fore, and 30 ft. aft. Vessels secure to 4 mooring dolphins.

Ferrocarril Pier (West Side): For tankers (discharge) length up to 620 ft., drafts: 27 ft. fore, 29 ft. aft. Pier length: 300 ft. For vessels (dry cargo) loading, up to 560 ft. length, draft: 27 ft. fore and 29 ft. aft.

(East Side) – Max. length for vessels loading/discharging 560 ft. with a draft up to 27 ft. fore and 29 ft. aft. Pier length: 240 ft.

Terminal Maritima Pier (installation of mechanical equipment for bulk sugar shipments): Length 558 ft. Draft fore 32 ft., aft 33 ft.

Wharves have railroad tracks. Transportation by trucks can also be effected. No double tracks.

Operation capacity: 4 vessels can operate simultaneously, 2 at Ferrocarril Pier, 1 at Terminal Maritima, and 1 at Cacicedo Pier.

TANKERS: Molasses pumping rate:
Plant N.A. 60/100,000 gallons per hour.
O.T. 25/35,000 gallons per hour.
C.D. 25,000 gallons per hour.

STEVEDORES: Working Periods – Sugar:

From Monday to Friday: 0700/1100 – 1300/1700 hrs.; Saturday: 0700/1100 – 1300/1700 hrs.; Sunday: Subject to Agreement.

General Cargo: 0700/1100 – 1300/1700 hrs. at night time subject to agreement.

Sugar Loading Rate: About 1,350 raw sugar bags (of the 250 lb. type) per 4 hours gang period. Presently no bagged sugar is being shipped, but only sugar in bulk through mechanical equipment.

Bulk Sugar Shipments: Through new mechanical installation located at Terminal Maritima.

Sugar Bags per sling: 6 sugar bags (of the 250 lb. type) loaded per sling.

Cargo discharging Rate: General cargo about 110 tons per gang/per day. Fertilisers, about 110 tons per gang per day.

Shore Crane: Not available.

MEDICAL: Two hospitals, General Hospital and Mutualist Clinic (formerly Sanatorio de la Colonia Espanola), where sick crew members can be hospitalised.

FUEL: Barge capacity for delivering fuel oil is 250 tons. Fuel can also be delivered at former Standard Dock. For delivering regular diesel oil, Ferrocarril dock is to be used, as the barge is out of service.

FRESH WATER: Vessels can be supplied with fresh water delivered by barges. Water barge capacity 250 tons. When delivered during overtime hours or on Sundays, 50% increase.

REPAIRS: Repair shop available, but can only carry out winch repairs and other light work.

SHIPMASTERS REPORT: May 1979.

Documents:
1 Copy Maritime Declaration of Health.
1 Copy Clearance from Previous Port.
De-Rat Certificate or Exemption.
1 Copy Cargo or Ballast Manifest.
10 Copies Crew Lists.
5 Copies Personal Effects (including new clothing). All individual Crew Lists must have Christian names as well as Surnames – initials not sufficient.
3 Copies Provisions Lists. Meats and weights to be separated by countries i.e. Beef (Argentina) 200 lbs., Beef (U.K.) 400 lbs., etc.
4 Copies Stores Lists.
1 Copy Vaccination List. Apparently no vaccination necessary for Cuba.
4 Copies Currency Lists. All currency placed in Master's safe together with jewellery, valuables etc., and sealed.

N.B. Crew only allowed: 1 watch, 1 radio, 1 tape-recorder and 6 cassettes, remainder to be bonded.

Officials: On arrival ship is boarded by Doctor who gives pratique, after which ship is boarded and sealed by Customs and Immigration. After this the Customs Control Board, and the ship is searched from stem to stern.

There is also a search when the ship sails although the search is not so thorough and they only seem to be looking for stowaways.

Meat and fish room are sealed throughout stay but sanitary inspectors board every day (and charge 5 pesos per visit) to take out sufficient selected stores for the day.

Pilotage: Compulsory.

Anchorage: Safe anchorage inside the bay only. Outside the entrance the water is too deep. There is sufficient room for anchorage of 15 vessels. Depth 8 fathoms. The bottom is soft mud which gives very good holding ground.

Restrictions: There is a whirlpool in the entrance at "Pasa Caballos Turn" at various states of the tide when navigation is not possible during a rising tide. Sailing is only possible between HW and LW when the tide is ebbing.

Max. Size: Max. permissible draft 38 ft., tidal range about 1.5 ft., max. LOA 207 m.

Radio: The radio room is sealed throughout the stay.

VHF: VHF Radio in Pilots and Agents office. The Pilots all seem to speak English. There is no VHF on pilot launches, they were expecting new sets.

Tugs: One tug available, 1,200 h.p.

Berthing: Tricontinental East Pier: Max. draft 31 ft. forward, 33 ft. aft. However the berth is being dredged to 38 ft. Max. LOA 200 m. Length of pier 555 ft. Tidal range approximately 1.5 ft. Density 1022.

Vessel loaded bulk sugar and with full ballast (except No. 3 deep tank) vessel had 5 ft. clearance at the ship's side rail.

Bulk sugar loaded from conveyor belt on the shore which is said to have a very accurate weightometer incorporated.

Loading rate with one loader 400 tonnes p.h. and with two loaders 1,000 tonnes p.h.

The warehouse on the quay is said to hold 30,000 tonnes.

Work carried out throughout 24 hours.

The stowage factor of the bulk raw sugar was 43.8 cu. ft./metric tonne.

The berth is very well fendered, however the after mooring points were poor.

Fuel: Available. Grade not known.

Fresh Water: Available. Rate 10 t.p.h. Also available by water barge.

Medical: Two hospitals and doctor available. Vaccinations by the port doctor were said to be free but ship was charged by the Agents.

Repatriation: Possible.

Repairs: Engine work can be done with permission for immobilisation.

Shore Leave: Shore pass not to be in any way defaced or shore leave for that person will be stopped. Shore leave is only allowed between 1800 hrs. and 2400 hrs., and any person late back will be fined. Ship's pass and Seaman's Discharge Book is handed to guard at bottom of gangway who issues another pass. This has to be exchanged for another pass further up the dock where all money is counted, all valuables are written on pass, time ashore is entered on pass and then one is free to proceed to the town by bus. There is no seaman's mission or any places of recreation, etc.

The same procedure has to be gone through on the return to the vessel.

General: The spare propeller must be sighted before loading can commence.

Flags: Courtesy flag must be higher than house flag.

Lifeboat: Lifeboats can be swung out.

Painting: Punt can be used for shipside painting.

Stores: Fruit and eggs very cheap and plentiful and of good quality.

Refuse: Garbage must be in covered containers which are sprayed together with the ship's fridges, storerooms, galley and pantries on vessel's arrival.

Ratguards: Ratguards must be on all ropes throughout vessel's stay and must not be allowed to fall or blow off or vessel is fined. Many rats were seen in the dock area.

AUTHORITIES: All port authorities are located at port of Cienfuegos.

From Cienfuegos to Casilda and Tunas de Zaza, following transportation can be used: railroad, trucks, barges.

It takes from 2 to 5 hours, according to transport conditions, to travel from Cienfuegos to Casilda or Tuna de Zaza.

Distance, by sea, from Cienfuegos to Casilda 45 miles; to Tunas de Zaza 80 miles. Suggested that railroad or highway be used to travel from

Cienfuegos to Casilda or Tunas de Zaza. There is daily omnibus and auto service from Cienfuegos to Casilda and Tunas de Zaza.

AGENTS: Empresa Consignatarias Mambisas, Agencia Cienfuegos, Avenida 50 2712, POB 420. Tel. 5718 – 6422 (Night: 6715).

Recommended that all correspondence or instructions be sent through Havana main office. Cienfuegos Agency attends ships that operate at Casilda and Tunas de Zaza. For any information concerning vessels operating at these sub-ports, Cienfuegos Agency should be contacted.

SUB-PORT OF CASILDA: 21.45 N. 79.59 W.

(This is loading port for Trinidad, three miles from Casilda).

PILOTAGE: Vessels should pick up Pilots at Cayo Blanco. Distance from point where Pilot boards vessels to pier is 9 miles.

Entrance channel to Casilda has muddy bottom, with dangerous "S" shaped turn.

ANCHORAGE: Draft 25 ft., swinging area 2.5 miles.

RESTRICTIONS: Vessels can enter and sail during day-time only.

MAX. SIZE: Vessels can enter and sail with max. draft of 25 ft. and length of 512 ft. (Pilot advises it is possible to operate vessels with length up to 565 ft.) Tidal variation about 2 ft.

RADIO: Vessels can communicate with port through Havana Radio.

TUGS: None.

BERTHING: (Dry cargo) Pier length 520 ft., depth 25 ft. (Tankers) Berth length 390 ft.

STEVEDORES: Working periods:

Monday to Friday 0600/1000 – 1200/1600 hrs.; Saturday 0600/1000 – 1200/1600 hrs.; Sunday when necessary, same periods.

Raw sugar loading rate: 1,200 sugar bags, loaded per gang per day. Bags per sling: 6 sugar bags per sling. Operation capacity: only one vessel can operate.

Refined sugar loading rate: 1,500 bags per gang per day. Bags per sling: 12 bags loaded per sling.

General cargo: No regular general cargo operations performed at this port.

Shore crane: No shore crane available.

Bulk sugar equipment: no bulk sugar equipment available.

Warehouses: 2 warehouses with capacity for storage of 70,000 bags of sugar. No. 1 (at the pier) 40,000 bags (250 lb.). No. 2 (at the Real Street) 30,000 bags.

TANKERS: Discharging pumping rate of fuel oil about 20,000 barrels. Alcohol and molasses not shipped.

MEDICAL: Sick crew members can be sent to General Hospital.

FUEL/REPAIRS: Not available.

FRESH WATER: Vessels can be supplied with fresh water, delivered by means of electric turbine at the pier. Delivered at average of 30 t.p.h.

AUTHORITIES: Port Captain, Custom Authorities and Port Doctor travel from Trinidad to Casilda.

AGENT: If any information required regarding ships operating at Casilda, Cienfuegos Agency should be contacted.

Crew mail or any other mail should be sent to Havana main office, from where it is sent to Cienfuegos.

SUB-PORT OF TUNAS DE ZAZA: 21.37 N. 79.32 W.

Seaport of Sancti Spiritus. Port lies about 1.25 miles North of Point Ladrillo.

PILOTAGE: Pilot may board vessels either at Breton Channel or Tunas Channel.

Distance from point where Pilot boards vessel entering through Breton Channel to Tunas de Zaza anchorage is 8 miles. From place where Pilot boards vessel entering through Tunas Channel is 1.5 miles. Pilot station for Tunas Channel, located at Cayo Zaza de Fuera. For Breton Channel, entrance of Breton, that is, 8 miles from anchorage.

MAX. SIZE: Two channel entrances for this port; one through Breton Channel, which is with turns, but not dangerous. Vessels can enter or sail through this channel drawing up to 29 ft. The other one through Tunas Channel, has no turns. Vessels can enter and sail through this channel, drawing up to 22 ft. No length restrictions.

Tidal variation 1 ft. 6 in. Vessels can enter day and night.

RADIO: Via Radio Havana, for relay through Cienfuegos Agency.

TUGS: 3 tugs: *Arturo, Don Juan,* and *Tuinicu,* which tow up to 6 barges.

BERTHING: At this port there are no piers. All operations are performed at anchorage with barges. Depth at (In) anchorage 24 ft. and 27 ft. (Out) 30 ft. For sailing with 22 ft. 6 in./24 ft. 8 in. and 29 ft. respectively.

There are 9 barges available for loading sugar with total loading capacity of 7,500 bags. Sugar loading rate: 1,500 bags per gang daily. Bags per sling: 6 sugar bags loaded per sling.

General cargo: No general cargo operations are performed.

Shore crane: No shore crane available.

Bulk sugar equipment: None.

STEVEDORES: Working periods – loading sugar: Monday to Friday 0600/1000 – 1200/1600 hrs.; Saturday 0600/1100 – 1200/1600 hrs.; Sunday: when necessary.

MEDICAL: For sick crew members, there is a general hospital at Sancti Spiritus.

FUEL/REPAIRS: None.

FRESH WATER: Vessels can be supplied by tugboat which carries 30 tons. Delivery average 30 tons per day.

AUTHORITIES: There are Custom House and Captain of the Port Delegations at this sub-port. Customs also acts for Immigration. Port Doctor located at Zaza del Medio.

Vessels can proceed directly to this sub-port where they are visited by port authorities. Means of transportation used by port authorities to give entry is by launch service.

At this sub-port Custom House and Captain of the Port have delegations, but not port Doctor.

AGENT: Vessels operating at this sub-port are attended by personnel from Cienfuegos Agency.

GUANTANAMO: 19.59 N. 75.10 W.

ALSO SEE "LATE REPORTS" AND "LATE PLANS".

PILOTAGE: Pilots board vessels at distance of 1 mile from Buoy No. 1 at port entrance.

Distance from where Pilots board vessels to: General anchorage: 7.5 miles. "Boqueron" Pier: 7 miles.

APPROACHES: Wide entrance channel with mud bottom and free from navigational hazards.

ANCHORAGE: Max. draft 25 to 27 ft. Swinging area 400 m.

MAX. SIZE: Vessels can enter with max. draft up to 19 ft. and length 500 ft. Tidal variation about 11 in.

TUGS: Not available.

BERTHING: Boqueron Pier: length 550 ft., depth at both sides 23 ft. Pier has 4 railroad tracks of standard gauge. Work not interrupted when shifting sugar railroad cars.

Distance from Caimanera to Boqueron Pier: 1.25 miles. From Caimanera to Boqueron there is daily transportation.

STEVEDORES: Sugar and molasses loading operations are carried out at this port.

Working periods loading raw sugar: From Monday to Friday 0700/1100 – 1300/1700 hrs.; at night time whenever necessary. Saturday 0700/1100 – 1300/1700 hrs.; at night time whenever necessary. Sunday: above-mentioned periods, whenever necessary.

Bagged sugar loading: 780 bags loaded per gang-period. Sugar bags per sling: 4 sugar bags per sling.

Capacity: Two vessels can load simultaneously at Boqueron Pier.

Raw sugar in bulk: Four complete sets of machines and 10 grates.

TANKERS: Molasses pumping rate average of about 35,000 gallons per hour.

MEDICAL: Clinic where sick crew members may receive attention.

FRESH WATER: Can only be supplied by Boqueron Pier but delivery is difficult as brought in railroad tankers from Guantanamo, which is distant about 30 kms. Tank cars capacity up to 20 metric tons. Max. 150 tons can be delivered, but recommended that vessels be supplied with water at another port, delivery about 10 t.p.h. During harvesting of sugar, no water can be supplied.

FUEL/REPAIRS: Not available.

AUTHORITY: Port Doctor located at Guantanamo. Other port authorities Custom House, Port Captain, Immigration, located at Caimanera.

AGENT: Consignatarias Mambisas, Carril entre Marine y Correo, POB 5, Caimanera, Oriente. Tel. 23 (night: 36).

HAVANA: 23.09 N. 82.21 W.

ALSO SEE " LATE REPORTS" AND "LATE PLANS".

PILOTAGE: For requesting Pilot, in daytime or at night, ships shall use signals established in International Signal Code, also they can direct light signal to Morro semaphore and make sound signals at intervals.

Pilot service is compulsory for all foreign ships more than 40 gross tons.

Master must inform Pilot: port of origin, illness of any person on board, or if ship is carrying explosive or easily inflammable materials, in which case the ship shall be anchored in special berths and shall be under control of port authorities.

Any ship in port requiring immediate Pilot services should either call telephone numbers: 62–3602 or 62–2896; or hoist "G" Flag, sound 2 prolonged blasts.

Pilots board vessels approximately 1 mile from port mouth, although in some cases, especially at night-time, they will go out about 3 miles to meet incoming vessels.

Pilot station located at San Pedro St. No. 2. Telephones: 62–3602 and 62–2896.

Distance from where Pilots board vessels up to port anchorage or wharves is about 1 mile.

APPROACHES: Vessels can enter during day and night. At entrance there is a strong current.

MAX. SIZE: Max. draft in channel at low tide is 42 ft. Max. draft in main anchorage is 33 ft., although on many occasions vessels cannot dock with this draft. Tankers can enter drawing up to 37 ft., as they take special course once they are inside bay. Tidal variation about 18 in.

RADIO: Vessels can communicate through CLA radio.

TUGS: Following tugs available:

Name	*Length*	*Speed*	*H.P.*
Pinzon	20.00 m.	5 knots	540
Raquel	14.95 m.	6 knots	145
Chucho	12.40 m.	6 knots	145
Antonio Briones	28.46 m.	12 knots	860
Bick-C	—	—	179
Manuela	17.18 m.	—	325
Mariel	12.40 m.	—	165
Mayari	12.00 m.	—	165
Sara	14.80 m.	—	150
Triunfo	12.40 m.	—	147

BERTHING: *(a)* Andres Gonalez Lines Dock (former name: Havana Coal): Dock used in discharge of bulk fertiliser and coal. Length 1,090 ft., depths (from South to North): 22, 26, 26, 29, 30, 24, 23, 19, 17, 19 ft. Max. draft: 28/30 ft. dependent berth. Railroad tracks and overhead bulk discharge crane.

(b) Sierra Maestra Terminal (former name: Havana Dock Corp.): Terminal used in discharge and loading of general cargo, consists of 3 piers.

Pier No. 1 – North side (former name San Francisco): length 662 ft., width 210 ft., depths (from West to East): 19, 29, 30 ft. Max. draft, 30 ft. Vessels can berth without danger on 33 ft., but with part of vessel away from pier.

Pier No. 1 – South side: length 662 ft., width 210 ft., depths (from West to East): 21, 30, 38 ft. Max. draft 30 ft. Vessels can berth without danger on 33 ft., but with part of vessel away from pier.

Pier No. 2 – North side (former name: La Machina): length 661.5 ft., width 210 ft., depths (from West to East): 24, 30, 39 ft. Max. draft 32 ft. Vessels can berth without danger on 33 ft., but with part of vessel away from pier.

Pier No. 2 – South side: length 602 ft., width 210 ft., depths (from West to East): 21, 30, 36 ft. Max. draft 32 ft. Vessels can berth without danger on 33 ft., but with part of vessel away from pier.

Pier No. 3 – North side (former name: Santa Clara): length 625 ft., width: 210 ft., depths (from West to East): 20, 30, 39 ft. Max. draft 30 ft. Vessels can berth without danger on 33 ft., but with part of vessel away from pier.

Pier No. 3 – South side: length 562 ft., width 210 ft., depths (from West to East): 21, 30, 34 ft. Max. draft 30 ft. Vessels can berth without danger on 33 ft., but with part of vessel away from pier. (Also see "Shipmasters Report").

All 3 piers have railroad sidings connecting with main tracks; are also suitable for truck operations.

(c) Margatiro Iglesias Terminal (former name: Paula Piers): Terminal is used in discharge and loading of general cargo, consists of 3 piers:

Pier No. 1 – North side: length 443 ft., width 118 ft., depth (from East to West): 27 ft. at bay end or East side of pier; 17 ft. at centre and 12 ft. at West or shore end. For some years no operations have been performed at this pier. Max draft 20 ft. Vessels can dock without danger on 23 ft., but with part of vessel away from pier.

Pier No. 1 – South side: length 443 ft., width 118 ft., depths (from East to West): 26 ft. at bay end or East side of pier; 24 ft. at the centre and 8 ft. at West or shore end. Max. draft 20 ft. Vessels can dock without danger on 23 ft., but with part of vessel away from pier.

Pier No. 2 – North side: length 443 ft., width 118 ft., depth (from East to West): 27 ft. at bay end or East side of pier; 20 ft. at centre and 10 ft. at West or shore end. Max. draft 20 ft. Vessels can dock without danger on 23 ft., but with part of vessel away from pier.

Pier No. 2 – South side: length 443 ft., width 118 ft., depth (from East to West): 27 ft. at bay end or East side of pier; 22 ft. at centre and 13 ft. at West shore end. Max. draft 20 ft. Vessels can dock without danger on 23 ft., but with part of vessel away from pier.

Pier No. 3 – North side: length 443 ft., width 118 ft., depth (from East to West): 26 ft. at bay end or East side of Pier; 24 ft. at centre and 11 ft. at West or shore end. Max. draft 18 ft. Vessels can dock without danger on 20 ft., but with part of vessel away from the pier.

Pier No. 3 – South side: length 443 ft., width 118 ft. depth (from East to West): 25 ft. at bay end or East side of pier; 17 ft. at centre and 10 ft. at West or shore end. Max. draft 18 ft. Vessels can dock without danger on 20 ft., but with part of vessel away from the pier.

All 3 piers have railroad sidings connecting with the main tracks; are also suitable for trucking operations.

Breadth between piers: 123 ft.

(d) Havana Central Pier: Pier used in discharge and loading of general cargo. North side: length 434 ft., width 200 ft., depth (from East to West): First 400 ft. of pier has draft of 31 ft. at bay end or East side; 29 ft. at centre and 26 ft. at West shore end. Remaining length must be disregarded due to shallowness of water. Max. draft 28 ft. Vessels can dock without danger on 30 ft., but with part of vessel away from the pier.

South side: length 480 ft., width 200 ft., depth (from East to West): 28 ft. at bay end or East side: 26 ft. at centre and 19 ft. at West or shore end. Max. draft 27 ft. Vessels can dock without danger on 28 ft., but with part of vessel away from pier.

(e) Aracelio Iglesias Terminal (former name: Norguly Terminal): Terminal used in discharge and loading general cargo, consists of a dock and a pier. Dock (Warehouse): length 573 ft., width 44 ft., depth (from N.E. to S.W.): 26 ft. at N.E. end, 23 ft. at centre and 20 ft. at S.W. end. Max. draft 27 ft. if vessels berth starboard side to dock.

Pier – North side: length 518 ft., width 104 ft., depth (from East to West): first 500 ft. of dock 37 ft. at East or bay end, 30 ft. at centre and 24 ft. at shore or West end. Max. draft 30 ft.

Pier – South side: length 449 ft., width 104 ft., depth (from East to West): 34 ft. at East or bay end, 34 ft. at centre and 27 ft. at West or shore end. Max. draft 32 ft.

Dock and pier have railroad sidings connecting with main track; also suitable for trucking operations.

(f) Juan Manuel Diaz Terminal (former name: Ward Line Terminal): Terminal used in discharge and loading general cargo, consists of 2 docks and 1 pier. Dock (Warehouse) No. 3: length 521 ft., width 56 ft., depth (from N.E. to S.W.): 21 ft. at N.E. end, 22 ft. at centre and 20 ft. at S.W. end. Max. draft 24 ft. if vessels berth starboard side to dock.

Pier – North side: length 500 ft., width 125 ft., depth (from East to West): first 450 ft. of pier: 35 ft. at bay end or East side, 30 ft. at centre and 20 ft. at West or shore end. Max. draft 28 ft.

Pier – South side: length 530 ft., width 125 ft., depth (from East to West): first 480 ft. of pier: 33 ft. at bay end or East side, 30 ft. at centre and 24 ft. at shore or West end. Max. draft 33 ft.

Dock (Warehouse) No. 2: length 481 ft., width 31 ft., depth (from N.E. to S.W.): 21 ft. at N.E. end, 22 ft. at centre and 26 ft. at S.W. end max draft 24 ft. if vessel berths port side to dock.

Both dock and pier have railroad sidings connecting with main track; also suitable for trucking operations.

(g) La Coubre Dock (former name: Pan American Dock): Dock used in discharge and loading general cargo, consists of dock and pier. La Coubre Pier: length 390 ft., width 49 ft. North side of pier was customary berth of ferries, depth of narrowest part (emboque) being 22 ft., and depth along pier, from shore to bay, being 19, 25, and 28 ft. Depth at South side of pier; 20 27, 22 ft., but at present no operations performed on this side.

La Coubre Dock: In front of warehouse No. 1, depth from North to South, of 20/23 ft. In front of warehouse No. 2, depth of 22/27 ft. from North to South. Max. draft 25 ft. In front of warehouse No. 1, and in the centre, 23 ft. in front of warehouse No. 2.

No railroad sidings, but suitable for trucking operatons.

(h) Tallapiedra Dock (former name: Tallapiedra): Dock used in discharge of lighters. Dock Tallapiedra (Corrido): length 453 ft., depth (from N.E. to S.W.): 14 ft. at N.E. end, 19 ft. at centre and 15 ft. at S.W. end.

No warehouses nor railroad sidings and only suitable for trucking operations.

(i) Antonio Guiteras Dock (former name: Havana Electric Dock): Dock used in discharge of heavy lifts from lighters discharged by vessels performing operations in the bay. Length 847 ft., depth (starting from Tallapiedra Pier No. 2): 26, 21, 21, 18, 11 ft. Dock was formerly used by tankers discharging fuel for Electric Plant. A lighter, 40 ft. wide, was used to breast off the ship which was berthed starboard side to dock, drawing up to 28 ft. bow laying in the mud. If no lighter used, vessels drawing up to 23 ft. only can berth.

(j) Osvaldo Sanchez Dock (former name: Atares-Vaccaro Docks): Docks used mainly in discharge of lumber.

Dock No. 1 (formerly Atares): length 428 ft., width 30 ft., depth (from N.E. to S.W.): 22 ft. at N.E. end, 23 ft. at centre and 24 ft. at S.W. end. Max. draft 24 ft. (berthing port side to dock).

Dock No. 2 (formerly Vaccaro): length 511 ft., width 30 ft., depths (from N.E. to S.W.): 26, 21, 21, 17 ft. Max. draft 25 ft. Berthing starboard side to dock, bow touching bottom. No railroad sidings but suitable for trucking operations.

(k) Melones Dock: Dock has installation for discharge of fuel oil, as well as overhead crane for discharge of fertilisers and coal. Length 718 ft., width 35 ft., depth (from N.E. to S.W.): 18 ft. at N.E. end, 13 ft. at centre, and 10 ft. at S.W. end.

Dock does not have railroad siding or warehouses, although is suitable for trucking operations. Not at present in operation, due to shallow draft.

(l) Puerto Pesquero de la Habana (Havana Fishery Port): Pote Dock, Hacendados Pier and Hacendados Dock have been completely rebuilt forming as a whole "El Puerto Pesquero de la Habana" (Havana Fishery Port). Present depths 23 ft. When completed, drafts should be 26 ft., with exception of that portion which was Hacendados Dock where draft will be 24 ft. Presently vessels are operating at this terminal, but no definite data can be given regarding forms of operation until work officially completed.

Dock No. 1 – Length 738 ft.
Dock No. 1 – Length 853 ft.
Dock No. 2 – Length 505 ft.
Dock No. 3 – Length 738 ft.
Dock No. 4 – Length 450 ft. (Not yet completed).

(m) Terminal Maritima Pesquera Dock: North side: length 714 ft., depth 32.5 ft., S.E. side: length 685 ft., depth 28/26 ft.

Terminal Maritima: Dock in N.E./S.W. direction, is of very recent construction and used in discharge and loading of general cargo. Length 1,747 ft., width 72 ft. Depths from 33/35 ft. Max. draft 31 ft. 5 in., but vessels can dock without danger on 33 ft.

(n) Manuel Porto Pena Terminal (formerly Burrus Docks, Beguristain Dock, Auxiliar Maritima Dock and Regla Coal Dock): Terminal consists of following docks:

Manuel Porto Pena (Burrus): Dock used in discharge of bulk grains. Equipped with elevator and silos, having storage capacity of approximately 20,000 tons which permits discharging rate, under normal circumstance, of about 1,200 tons per day. Length 500 ft., width 26 ft., depths (from S.E. to N.W.) 26, 30, 29, 27 ft. Max. draft 30 ft. 6 in. vessels remaining 2 m. off the dock, but vessels dock without danger on 31 ft. remaining 3 m. off the dock.

(o) Manuel Porto Pena No. 1 (formerly Begueristain): Dock used in discharge and loading of general cargo and sugar. Length 315 ft., width 35 ft., depths (from S.E. to N.W.): 23, 23, 25, 27 ft., max. draft 26 ft., ship remaining separated from the pier. Dock has railroad sidings and is also suitable for trucking operations.

(p) Manuel Porto Pena No. 2 (formerly Auxiliar Maritima): Dock used in loading of sugar and discharge of general cargo. Length 447 ft., width 35.7 ft., depths (from S.E. to N.W.): 26 ft. at S.E. end, 25 ft. at centre and 27 ft. at N.W. end. Max. draft 28 ft., ship remaining separated from pier, but vessels can dock without danger on 29 ft., by loosening moorings and slipping away from dock during loading.

Dock has no warehouse, although equipped with railroad sidings, is suitable for trucking operations, and has installations for discharge of fuel oil.

(q) Manuel Porto Pena No. 3 (formerly Regla Coal): Dock used in discharge and loading of general cargo: length 779 ft., width 30 ft. depths (from S.E. to N.W.): 25 ft. at S.E., 26 ft. at centre and 23 ft. at N.W. end. Max. draft 26 ft. but vessels can perform operations without danger on 29 ft., vessel remaining separated from dock, and bow touching bottom.

Dock has railroad sidings and also suitable for trucking operations. It has installations for discharge of fuel oil and gasoline.

(r) Quinto de Regla Pier: Pier used mainly in sugar loading. Pier – South side: length 622 ft., width 54 ft., depths (from S.W. to S.E.): 27 ft. at S.W. or bay end, 25 ft. at centre and 17 ft. at S.E. end. Max. draft 30 ft.

Pier – North side: length 343 ft., width 54 ft., depth (from N.W. to N.E.): 28 ft. at N.W. or bay end, 26 ft. at centre and 22 ft. at N.E. end. Max. draft 28 ft. (moving vessels along pier as they are being loaded).

Pier has railroad sidings and also suitable for trucking operations.

(s) Fesser Pier: Pier has installations for loading molasses: Pier – South side: length 465 ft., width 30 ft., depth (from S.W. to S.E.): 27 ft. at S.W. or bay end, 25 ft. at centre, and 23 ft. at S.E. end. Max. draft 25 ft.

Pier – North side: length 407 ft., width 30 ft., depth (from N.W. to N.E.): 22 ft. at N.W. or bay end, 26 ft. at centre, and 25 ft. at N.E. end.

(t) Edificios Nos. 1 and 2 docks (former name: American Agricultural

and Chemical). Docks used in discharge of fertilisers, also installations for loading and discharging molasses.

Edificio No. 1 Dock (formerly American Agricultural and Chemical): length 516 ft., width 25 ft., depths (from N.E. to N.W.): 21/22 ft. of water throughout whole extension of dock. In loading molasses vessels are breasted off dock by means of a lighter, and can then load up to 29 ft. draft.

Edificio No. 2 Dock (formerly American Agricultural and Chemical): length 380 ft., width 108 ft., depths (from N.E. to S.W.): 19 ft., at N.E. end, 14 ft. at centre and 14 ft. at S.W. end. No operations performed at this dock due to shallow draft.

Docks do not have railroad sidings but are suitable for trucking operations.

(u) Facilidades Maritimas Dock (formerly: Cuban Distilling Dock): Dock used mainly in loading of molasses, and discharging tallow and chemical products. Length 814 ft., width 26 ft., depths (from N.W. to S.E.): 25 ft. at N.W. or bay end, 26 ft. at centre and 23 ft. at S.E. end.

Dock has railroad sidings and also suitable for trucking operations. Max. draft 26 ft.

(v) Nico Lopez Piers Nos. 1 and 2 (formerly Standard Oil Pier and Shell Oil Pier): Piers are used exclusively in discharge of fuel oil, gasoline, etc., and are operated by the Oil Refinery: Pier No. 1 – North side (formerly Standard Oil): length 1,027 ft., depth (from East to West): 36 ft. at Eastern or shore end, 35 ft. at centre and 34 ft. at West or bay end. Max. draft 36 ft. 6 in.

Pier No. 1 – South side: length 1,027 ft., depths (from East to West): 36 ft. at Eastern or shore end, 35 ft. at centre and 34 ft. at West or bay end. Max. draft 36 ft. 6 in.

Pier No. 2 – North side (formerly Shell Oil): length 990 ft., depths (from East to West): 35 ft. at East or shore end, 35 ft. at centre and 38 ft. at West or bay end. Max. draft 38 ft.

Pier No. 2 – South side: length 990 ft., depths (from East to West): 34 ft. at East or shore end, 36 ft. at centre and 38 ft. at bay or West end. Max. draft 36 ft., but vessels can dock without danger on 37 ft. A deeper draft than 37 ft. is not acceptable without running the risk of touching bottom.

Discharging or loading operations are also performed at anchorage. There are 20 barges available.

STEVEDORES: Monday to Friday: working periods 0700 – 1300 and 1300 – 1900 hrs., although if necessary, 2 additional periods of 6 hours each may be worked. Saturday: Same as above. Sundays: No work performed.

Raw Sugar: Approximately 1,400 bags of raw sugar loaded per gang period. Six raw sugar bags loaded per sling. Loading raw sugar on 3 vessels simultaneously.

Refined Sugar: Approximately 3,800 bags of refined sugar (of 50 kg.) loaded per gang period. 12–15 bags loaded per sling.

General cargo: Approximate average discharging rate per gang hour:

General cargo about		10.0 tons
Bagged merchandise	up to 51 kg.	16.0 tons
Bagged merchandise	up to 92 kg.	17.0 tons
Bagged merchandise	more than 92 kg.	19.0 tons
Wood		8.4 tons
Fertilizers:		
Superphosphate		9.9 tons
Simple Superphosphate		8.1 tons
Ammonium		9.0 tons
Potash		9.9 tons
Muraite		10.5 tons
Sulphur		10.3 tons
Phosphoric Rock		11.9 tons
Triple Phosphate		8.0 tons
Sodium Silicate		9.0 tons
Ferromanganese		9.0 tons

Floating Cranes:

Pablo Sandoval	100 tons – boom 51 m.
Frank Pais	25 tons – boom 10 m.
Matilde	6 tons– boom 9 m.

TANKERS: Average pumping rate of molasses is about 60,000 gallons per hour. Average pumping rate of fuel variable, from 3,000 up to 15,000 b.p.h.

TELEPHONES: May be installed on board at Master's request.

DRY DOCK: Operated by Talleres Mambisas an operating unit of Empresa Navegacion Mambisas. Berthing capacity of dry dock: 440 ft. length, 91 ft. breadth, and can handle vessels up to 23 ft. draft. Door has 2 laterals, 1 East and 1 West.

East lateral: length 638 ft., width 38 ft., depth 33 ft. at bay end, 29 ft. at centre and 18 ft. at shore end.

West lateral: length 740 ft., width 38 ft., depth 23 ft. at bay end, 25 ft. at centre and 20 ft. at shore end.

MEDICAL: Hospitals where crew members can receive attention: Antonetti (Dental Services). Clinica "El Sagrado Corazon" (Medical Services). Hospital Naval de la Havana del Este.

FUEL: Vessels can be supplied with fuel oil or diesel oil/gas oil. Supplied by barges in the bay. There are 3 barges: 1 has capacity about 5,000 barrels and the other two 3,200 barrels. Average delivery rate about 1,000 b.p.h.

FRESH WATER: Vessels can be supplied with fresh water by barge in the bay. Six barges available with capacities of 350, 200, 320, 350,00 and 60 tons. Average rate of delivery about 100 t.p.h.

REPAIRS: Reliable repair shop.

FIRE PRECAUTIONS: Port of Havana has a fire extinguishing ship, kept on permanent watch duty by Safety Corp. who can be reached through telephone number 6–0777.

GENERAL: (1) The port of Havana is approachable 24 hours a day, and dock Pilots keep permanent watch duty on their stations located in surroundings of harbour channel, very close to beacon marker of Pila de Neptuno.

(2) Any ship approaching port in daytime shall hoist national flag, merchant flag, and quarantine flag, not lowering the latter until granted "pratique" by doctors in charge of sanitary inspection. At night she shall show only quarantine lights as prescribed by International Sanitary Regulation.

(3) In case of emergency, ships at anchor shall immediately contact land through Official Radiophone Station CLT, available 24 hours a day, through 2260 kc/s. In very urgent cases, CLT can be contacted through 2182 kc/s CLT services are free of charge.

(4) Ships moored to piers standing off pier heads at night must keep visible red light at the ship's extremity facing the sea.

(5) Every moored ship must strengthen its lines on first warning from Port Authorities when deemed necessary due to bad weather.

(6) Small boats belonging to ships are not authorised to be used for crew or passengers' service within port limits unless otherwise duly authorised by Harbour Master.

(7) When berthing, ratguards must be placed on all mooring ropes.

(8) Port provides boats to dispose of ship's wastes. Services provided free of charge and can be requested through ship's Agent.

SHIPMASTER'S REPORT: November 1978

Pilotage: Compulsory. Advise Agent of vessel's ETA. Pilot boards 1 to 0.5 miles N.W. of Pta. Barloventa.

Restrictions: Vessel is able to enter and leave during hours of darkness and at any stage of the tide.

Max. Size: Max. draft for cargo vessel 33 ft. and for tankers 37 ft.

Tugs: There are 3 large tugs and 7 small tugs available (145–860 h.p.). Vessel is able to dock and undock without the assistance of tugs.

Radio: Havana Radio "CLA".

VHF: Port Authority and Pilot operate on Channel 13. Agent on Channel 12.

Fresh Water: Available.

Repairs: Facilities available.

Fuel: Bunker fuel oil and diesel oil available.

Medical: Doctor and hospital available.

Facilities: Laundry services available, telex available but unreliable. Groceries and meat available but in limited quantity.

Berthing: Terminal Sierra Naestra berth No. 3 South:

Position of berth: 23° 08′ 25″ N., 82° 20′ 42″ W. Distance from entrance 1 mile. Max. size of vessel that can berth LOA 520 ft., beam no restriction. Max. draft 29 ft. Least depth of water in channel from sea to berth 40 ft. Range of tide 1.5 ft. Vessel is able to dock and undock at any stage of the tide day or night.

Bulk Handling Facilities: Two grain silos available.

Cranes: 1 quay equipped with 12 cranes, capacity unknown. 4 floating cranes available, 1×100 tons, 3×75 tons capacity.

Special Cargo Handling Facilities: Ro/Ro facilities available. There are facilities for handling palletised cargo and containers, also there is a reasonable amount of storage space for containers.

Stevedores: Stevedores are allocated by Port Authority and the vessel has no say in the number of gangs supplied. There are a limited amount of steel barges.

Density: 1014.

General: On arrival, vessel waited 2 hours outside for a Pilot then entered harbour where we waited another two and a half hours for a ship to sail, no ship sailed and no other reason given for delay.

Docked starboard side to Sierra Maestra No. 3 South depth 24 ft. forward, 37 ft. aft, 1 tug pushing. Pilots good.

Officials boarded shortly after arrival, following documents required:

Port Health:	1 Health declaration. 3 Crew lists. 1 Vaccination list. All vaccination books.
Immigration:	All discharge books (To be inspected.) 5 Crew lists.
Customs:	3 Personal declarations (In detail) Cargo plan. 5 Crew lists. Cargo Manifests. Pornography in bond.
Agriculture:	2 Crew lists. 1 Provisions list (Comprehensive) Cargo plan.

Personal declaration must include watches, cameras, radios, tape recorders, presents, new clothes and money all of which must be placed under seal. One watch and 1 radio allowed to be retained by each Crew member and 1 camera by Master. Advisable to have all above collected prior to arrival.

Vessels normally searched by police and anything found, i.e., watch, radio, money, new clothes and cameras, etc., confiscated whether declared or not.

To the surprise of officials this vessel was not searched.

All crew are issued with a shore pass with the exception of the Master. Shore leave extends from 0800 to 2400 hrs., extension may be obtained but only on special request to the Agent. Shore passes must show the money issued and must be signed by the Master.

On going ashore money and other articles are checked together with watches, jewellery and lighters, etc., and entered on the pass. Should any shortage or excess be found on return a fine will be imposed. On return money remaining is entered on the pass and anyone taking ashore more than the amount shown on the pass will have it confiscated (this actually happened in Isobela).

Communications outside Cuba are difficult, telexes are accepted by Agents but certainly not always sent the day handed in.

Incoming telexes can be delayed up to 6 days. Telephone calls may be made but usually take 3 to 5 hours by which time offices in Europe are closed. In an emergency British Embassy will transmit urgent messages via direct radio link. Embassy most pleasant and helpful. As will be seen by foregoing, it is essential that schedule made with Portishead and Charterers informed to send all messages via this station.

Stevedores very co-operative but due to uncertainty of transport and information on number of gangs, time of completion was uncertain until last day. All discharge was direct to trucks.

Agriculture Department demand that all garbage be placed in plastic bags with neck tied (they supply bags if none on board and charge vessel). Bags collected twice weekly and shore labour do all handling. All meats except New Zealand and Australian sealed. Daily issue of New Zealand and Australian meats given and fridges resealed, any other meats required must be purchased ashore.

Fuel oil, diesel oil and fresh water available by barge but time of delivery uncertain therefore water must be ordered well in advance of requirement. Agents advised fuel would arrive Thursday morning, eventually arrived Monday night. Diesel oil had arrived prior to the fuel with no advice given to the vessel that vessel was bunkering at all.

Fresh vegetables in very limited supply, though Chandler seemed keen to sell meats.

Repair firm and dock exist but after being promised labour for 3 days and none arriving repairs cancelled.

SHIPMASTER'S REPORT: April 1979.

Documents:

12 Crew Lists
3 Store Lists
3 Declarations
3 Currency Declarations
3 Vaccination Lists.

Points of note:

a) Anchorage is very close to coast and in cable area, recommend drifting about 5 miles from coast.
b) Contact made via Morro Signal Station, VHF Channel 16.
c) Pilot boards about 1 mile from entrance and they do not appear to work at night.
d) The port is heavily polluted.
e) When we sailed we had to wait for 5 hours till a tug was available.
f) The vessel may lower its gangway for the Pilot to leave but it then must be raised until Port Officials arrive.
g) All crew must be sighted by Immigration and are handed their discharge books.
h) All cameras, gifts, items purchased during voyage and not in use, extra radios, watches, etc., and "magazines" must be placed in bond. All except the "magazines" should be declared.
i) All currency must be declared and placed in safe and sealed. If cash purchases made from Chandler, e.g. Cigars, they must be paid for with Canadian or U.S. dollars. The Customs attend with Chandler and open safe for correct amount to be removed.
j) Cuban pesos issued by Agent and any not used must be returned. Each person is issued with a card and the amount drawn is entered, then each time they return from shore the Immigration guard enters the amount remaining.
k) Immigration guard issues passes. He is always on duty, crew member hands his discharge book to him and he gives him a pass. This pass has the time that he must be back onboard by, normally 2400 hrs., extensions may be obtained by advising Agent 24 hours in advance. Fines may be imposed for returning late. On return the guard takes the pass and discharge book is returned.
l) Port Health insist that all rubbish be put in polythene bags and these bags put in bins with lids. The port maintains a garbage disposal service which attends on request.
m) All meat, if not of New Zealand, Australian, Canadian or American origin must be placed under seal.
n) The Agent can be contacted by VHF. Call "Mambisa" on Channel 12, office hours only.
o) Postal service not recommended as very slow.
p) Berthed at Turcios Lima. 33 ft. alongside. The discharger has two heads and moves the length of the berth. Wheat was discharged at an average of 60 tonnes per hour. Work was on a 24 hour basis.
q) All hatches were inspected even though only one was to be discharged.
r) The vessel was not searched but we were told that it could happen at anytime during our stay.
s) The Officials who attended this vessel were all very friendly and helpful.

AUTHORITIES: All port authorities located at Custom House building. Means of transportation used by authorities to clear vessel is launch. Each authority has its own launch for these services.

AGENT: Empresa Consignatarias Mambisas, Oficios y Lamparilla, Lonja del Comercio POB 1785, Habana. Tel. 6–8311 (switchboard) 61–1159 (direct) 79–2682 (night).

ISABELA DE SAGUA: 22.52 N. 80.00 W.

ALSO SEE "LATE REPORTS" AND "LATE PLANS".

PILOTAGE: Pilots board vessels about 1 or 2 miles out from Nos. 1 and 2 buoys. Pilot station located at Custom House building, Isabela de Sagua. Distance from place where Pilots board vessels to anchorage is 7 miles.

From seaward by stages, the bottom is sandy, coral reef and hard rock, mud and rock under mud, mud and clay.

Turns in channel are not dangerous but there are narrows with dangerous currents.

ANCHORAGES: Inner Anchorage: Can accommodate vessels not exceeding 15 ft. draft. Swinging area unlimited. Several vessels can be accommodated. Operations can be performed at this anchorage.

Outer Anchorage (Buoy Anchorage): Can accommodate vessels drawing over 25 ft. Swinging area unlimited. Operations can be performed at this anchorage when there are good weather conditions.

RESTRICTIONS: Entry and sailing only during daylight due to lack of lights in channel.

MAX. SIZE: Max. draft 23 ft. Max. length 500 ft. Tidal variation about 2.5 ft.

TUGS: Available and necessary.

Name	*Length*	*Speed*	*H.P.*
Silvia	17.85 m.	9 knots	120
Moraima	18.30 m.	9 knots	140
Magdalena	19.78 m.	7 knots	140

BERTHING: Max. drafts with which vessels can always load afloat:

Beguirstain Dock (No. 10) – length 540 ft., draft 15 ft. Dock has pipe-line 8 in. diameter for loading alcohol. Also pipe-line 3 in. diameter for discharge of sulphuric acid and 3 in. diameter pipe-line for fresh water supply.

Garcia Dock (No. 9) – length 560 ft., draft 21 ft. Dock has pipe-line 12 in. diameter with 2 hose connectors for loading alcohol. Also pipe-line 1.5 in. diameter for fresh water.

Amezaga Dock – length 324 ft., draft 20 ft. 6 in. For discharge into trucks.

Alfer Dock – length 450 ft., draft 18 ft. 6 in. East side of dock has pipe-line for 16 in. diameter for loading molasses with 2 hose connectors for vessels, and a branch 8 in. diameter for discharge from lighters.

All docks have railroad trucks of standard gauge.

STEVEDORES: Raw Sugar loading rate: 1,300 bags of raw sugar (of 250-lb. type) loaded per 4 hour-gang period, or 1,490 (of 220-lb. type). From 4 to 5 bags loaded per sling. From lighters, 5 bags.

Refined Sugar: 2,360 bags of refined sugar (50 kg.) are loaded per 4 hour-gang period. 12 bags loaded per sling.

Operational capacity: Three vessels can be operated simultaneously.

Shore Crane: No shore crane available.

Equipment for bulk sugar: Twelve grates available but trimming performed with shovellers.

Loading Raw Sugar – Working periods: From Monday to Friday 0700–1100, 1300–1700 hrs. Saturday 0700–1100 hrs.

General cargo operations occasionally performed at this port, for which above periods apply.

TANKERS: Molasses average pumping rate 40,000 g.p.h.; alcohol average pumping rate 70/77,000 g.p.h. No fuel oil or ammonium discharging operations performed.

FUEL: Not available.

FRESH WATER: Fresh water supplied by barge water-tug up to max. 40–60 tons daily depending on efficiency of aqueduct. Capacity of barge 30 tons. Delivery rate 60 tons per day. Water can be supplied at any pier or inner anchorage.

REPAIRS: Minor repairs can be effected at Isabela de Sagua, larger repairs to be effected at Sagua la Grande, where two repair shops available: Fundicion Marfarlane Nacionalizada and Talleres Esponda Nacionalizado.

MEDICAL: No hospital at Isabela de Sagua. Sick crew members attended at Sagua la Grande Hospital.

SHIPMASTER'S REPORT: November, 1978.

Pilotage: Pilot boards 1.5 miles N.E. Cayo Cristo lighthouse in position 23° 02′ N., 79° 59.4′ W. Pilotage is compulsory. ETA should be sent to vessel's Agent.

Max. Size: Max. LOA 606 ft. Max. beam 75 ft. Max. draft 23 ft. I would suggest the max. size as being 520 ft. LOA, 70 ft. beam and 22 ft. max. draft. Tidal range 2 ft.

Tugs: 3 tugs available each approx. 140 h.p.

Radio: Havana Radio "CLA".

VHF: Not available.

Documents: 8 crew lists. 1 vaccination list, health declaration, 4 currency lists (crew and ships). (Also see "General").

Consuls: Nearest are in Havana.

Medical: Doctor and hospital available in Sagua La Grande at a distance of 10 miles from the port.

Berthing: Espg. De Amezuga Berth: Position 22° 56′ 54″ N., 80° 00′ 40″ W. Distance from berth to entrance 7 miles. Max. size of vessel that can be safely berthed, LOA 520 ft., beam 70 ft. and deepest draft 22 ft. Least depth of water in channel from sea to berth 25 ft. Vessel able to dock and undock at any stage of the tide also vessel able to dock and undock during hours of darkness at times. Special bulk facilities handled at the port include Molasses. There are no quay cranes, Ro/Ro facilities or floating cranes.

Stevedores: Believe there are a total of 8 gangs available for working of general cargo. There are steel and wooden dumb barges available (length 75 ft., beam 30 ft.).

Density: 1004.

General: Documents required: 3 Manifests (Crew Declarations); 8 Crew Lists; 4 Bonded Stores Lists; 4 Provision and Meats Lists; 4 Currency Lists (Crew and Ship's); Certificate of Sanitary/Veterinary Inspection (from last Cuban port); 1 Stowage Plan; Cargo Manifest.

Seals may be opened coastwise but advise not to, with exception of meats.

All conditions as Havana except shore leave only 1800 hrs. to 2200 hrs., except Master, extension granted for officers to 2400 if requested via Agent.

Only chandler 70 miles away.

Fresh water available at 8 t.p.h. (amount may be limited) but must be ordered immediately on arrival if required. We did not order until the last day as we believed we were bound for a U.S.A. Gulf Port, it took 8 hours to hook up and a lot of pressure on Agent.

Berth unsuitable for this size of vessel though using mooring buoys vessel lay securely moored. Concrete pier with wooden fendering slightly dilapidated in places but quite adequate. Pier 320 ft. long and 4 ft. high. Stern secured to 2 mooring buoys, one each quarter, distance approx. 200 ft., but buoy moorings are believed to be suspect. No cargo can be worked at No. 5 except by lighters. Harbour Master states largest vessel suitable for this berth 120 m. LOA. Depth alongside by soundings 22 ft. Forward, 26 ft. aft. Pilots good.

Gangway must be used, as companion ladder will not reach quay. Channel requires local knowledge but it is well buoyed.

Cargo discharge depends on supply of trucks. Can only work one truck at each hatch therefore to speed up discharge last day two gangs No. 4 discharged into lighter offshore.

AUTHORITY: All port authorities located at port of Isabela de Sagua.

When vessels at anchorage awaiting berthing, authorities transported by tug-boat for cleaning purposes.

AGENT: Empresa Consignatarias Mambisas, Independencia s/n, P.O.B. 18, Isabela de Sagua. Tel. 32–27.

Cables, messages should be addressed "Mambisas Sagua la Grande", but recommended be sent through main office "Mambisas Habana". ETAs should be sent simultaneously to both.

JUCARO: 21.37 N. 78.51 W.
(Including the sub-ports of: Boca Grande and Palo Alto)

ALSO SEE "LATE REPORTS" AND "LATE PLANS".

APPROACHES: Vessels proceeding to Jucaro sub-ports must call first at Jucaro for Port Authority's clearance.

Tidal variation 1 ft. 6 in. It is not necessary to await slack-water before entering. Recommended that *(a)* vessels arriving from Cuban ports situated to the East of Jucaro, such as Caibarien, Puerto Padre, Manati, Vita, Banes, Antilla, Sagua de Tanamo, Moa, Baracoa, etc., or from foreign ports, should enter Jucaro Port through Breton Channel, and *(b)* all vessels not exceeding 22 ft. draft proceeding from those Cuban ports situated to the West of Jucaro, such as Havana, Mariel, Matanzas, Cardenas, Isabela de Sagua and Cienfuegos, should enter Jucaro port through Tunas Channel.

DOCUMENTS:

10 Crew Lists.
10 Passenger Lists (if passengers on board only).
10 Manifests of cargo (or ballast).
4 Customs crew declaration (including currency).
4 Ship's provision stores, including bonded and narcotics.
1 Health Declaration,
1 Vaccination List.
Clearance from last port.
Deratisation certificate.

PILOTAGE: Pilots board vessels which enter through Breton Channel at Buoy No. 2, which is situated to East of channel entrance, 21° 08′ 18″ N. 79° 30′ 24″ W. with water depth 33 ft. Through this channel vessels can enter drawing up to 29 ft. with max. length 800 ft. Bottom is coral reef. There are dangerous turns at "pasa" of Baandra until Ana Maria Cays have been passed.

For vessels which enter through Tunas Channel, Pilots board at No. 2 Buoy which is situated to East of Channel entrance, 21° 31′ N. 79° 41′ 21″ W. Through this channel vessels can enter drawing up to 22 ft.

No pilot station. Pilots are to be notified of vessel's arrival 24 hrs. in advance. Distance from place where Pilots board vessels to Jucaro anchorage is 50 miles.

From Jucaro Anchorage to:
Boca Grande Sub-port – 14 miles
Palo Alto Sub-port – 5 miles
Santa Maria Sub-port – 24 miles

RESTRICTIONS: Vessels can enter and sail through both channels day and night.

ANCHORAGES: Loading places, ex-lighters. Three anchorages (very good holding ground), namely, No. 1 Anchorage – 6 miles from the port at South of Obispo Cay, depth 24 ft. No. 2 Anchorage – 7 miles from the port at S.E. of Obsipo Cay, depth 27 ft. No. 3 Anchorage: Anchorage 8 miles from the port and 1 mile to Eastward of No. 2 anchorage, depth 30 ft. Is used mainly by tankers loading molasses.

RADIO: Call "Jucaro Radio" on 2182 kHz, will answer on 2760 kHz.

VHF: Pilot boat, Port Captain and Agency equipped with VHF and work on Channel 16.

LOADING (Understood to have been closed for sugar shipments since 1964): Raw sugar.

Working periods: Monday to Friday 0600/1000–1200/1600 hrs.; Saturday 0600/1000–1200/1600 hrs. It is possible to work overtime, also possible to work Sundays and Holidays, if required.

Work carried out on a piece-work basis, and at an average of 2,000 bags per gang-period. 6 sugar bags loaded per sling.

Refined sugar: Work is carried out on a piece-work basis and loading rate averaged about 4,000 bags of the 50 kilo type and 2,000 of the 100 kilo type per gang-period.

Sugar in bulk: Venezuela and Ecuador sugar mills have 5 thrower machines each for distributing sugar in vessels' hatches. Loading carried out by cutting sugar bags through grates placed on vessels' hatches.

Shore cranes: None.

TANKERS: Average pumping rate of molasses 20,000 g.p.h.

FUEL/REPAIRS: Not available.

FRESH WATER: Available by barge, capacity about 35 tons.

OPENING/CLOSING HATCHES: By crew.

PROVISIONS: Available, but expensive.

TRANSPORTATION: Distance between Jucaro Port and its sub-ports:
To Santa Maria – 31 miles
To Boca Grande – 15 miles
To Palo Alto – 9 miles

Motor launches are used between port and sub-ports, and take 4.5 hrs, 2.5 hrs. and 1.25 hrs. between Jucaro and Santa Maria, Boca Grande, and Palo Alto respectively.

By automobile, 3.5 hrs. to Santa Maria and 2 hrs. to Boca Grande. No highway from Jucaro to Palo Alto.

MEDICAL: There are two hospitals at Diego de Avila where sick crew members can receive attention. Distance between Jucaro and Diego de Avila is 27 km.

SHIPMASTER'S REPORT: 1977

Lines to the barges to be provided with rat-guards.

Very strict regulations concerning crew declaration of effects, currency and pornography.

All personal effects of crew members will be sealed by Customs, even their used clothes, allowing them out only a couple of clothes changes, one carton of cigarettes and one bottle of spirits.

Advisable to instruct crew members to declare all currency and not to try to take any money ashore. They could not use or change it and could run into a great deal of trouble.

Vessel's deck, engine and accommodation will be searched by Port Authority party.

Shore leave allowed only from 1800 to 2200 hrs.

Smallpox and cholera vaccination available on request. Crew members without a valid smallpox vaccination certificate will not be granted shore leave.

No kind of restrictions for the Master, whose shore leave is unlimited. Strict Customs regulations do not affect him.

No amenities available ashore.

Loading of oranges fast if available. About 200 tons per gang shift.

Precooling of cargo chambers is not required. Oranges stowed in two tiers of four cartons with battens in between. Maximum height of eight cartons. Stowage factor about 95.

AUTHORITY: Custom House, Captain of the Port and Immigration, located at Jucaro. No port authority delegations at the sub-ports.

AGENT: Empresa Consignatarias Mambisas, POB 350, Nuevitas, Camaguey. Cable: "Mambisas–Nuevitas". Tel. 31435; night: 36025.

SUB-PORT OF BOCA GRANDE:

LOCATION: About 15 miles East of Jucaro.

APPROACHES: See "Jucaro".

PILOTAGE: See "Jucaro". Distance from place where Pilots board vessels to Boca Grande is 64 miles. Entrance channel: same as for Jucaro. Tidal variation 1 ft. 6 in.

ANCHORAGES: There are two anchorages for loading operations: No. 1 Anchorage with 24 ft. draft. No. 2 Anchorage with 29 ft. draft. Both anchorages are located at a distance of about 5–7 miles from the dock.

LOADING: At present only refined sugar is exported. All sugar-loading operations are carried out at anchorage by means of lighters. Following lighters available:

Barges	*Capacity* (50 kg bags)	*Capacity* 100 kg bags)
Ana	4,900	2,500
Loretto	4,400	2,100
Mascot	4,400	2,100
F 55	4,400	2,100
Trusco 89	5,100	2,980
Angel	3,440	1,700

Working Periods: Monday to Friday 0600/1000 – 1200/1600 hrs.; Saturday 0600/1000 – 1200/1600 hrs. When working is performed on Sundays, same periods apply.

Work is performed on a piece-work basis, and average loading rate is about 2,000 bags, basis 6 bags per sling, and 100 kilo bags. Only one vessel can be worked at a time.

TUGS: Three tugs available.

TANKERS: Discharging operations at No. 1 or No. 2 anchorages. Discharging rate approximately 20,000 g.p.h.

There are also steel barges for transportation of molasses and/or sugar:

Guanales:	100 ft.×30 ft.×7 ft. Sugar capacity: 1,600 bags Molasses capacity: 65,000 gal.
Loreto:	100 ft.×30 ft.×7 ft. Sugar capacity: 1,600 bags Molasses capacity: 65,000 gal.

Each of these barges has 4 tanks measuring 15 ft.×36 ft.×7 ft. Capacity: 3,780 cubic feet or 28,274 gallons each tank. Total capacity: 113,100 gallons. Each barge can load a max. of 400 tons of molasses and each is equipped with steam pump.

COMMUNICATIONS: Launch transportation. It takes 2.5 hrs. for travelling from Boca Grande to Jucaro or Santa Maria. Captain of the Port's radio-telephone is used as means of communication.

All communication and instructions for vessels operating at this sub-port must be given to Nuevitas Agency.

SHIPMASTER'S REPORT: Port will not be operational after 1977.

MANZANILLO: 20.20 N. 77.12 W.
(and sub-ports of Ceiba Hueca, Media Luna, Niquero and Ensenada de Mora.)

ALSO SEE "LATE REPORTS" AND "LATE PLANS".

PILOTAGE: Pilots board vessels at Cabo Cruz. Pilot station located at Cabo Cruz and Pilots communicate with Manzanillo by means of radio-telephone. Distance from place where Pilots board vessels up to Manzanillo through Madrona Channel is 68 miles. Through Palomino Channel (Coloradas de Fuera) is 55 miles.

APPROACHES: *(a)* Madrona Channel: this channel has sharp and narrow turns. Bottom is of soft mud. Max. draft with which vessels can enter through this channel is 33 ft. 3 in. Channel has depth not less than 35 ft. Vessels must wait for slack or favourable tide to proceed through this channel. No tug is necessary.

(b) Palomino Channel: this channel has turns, but they are less sharp and less narrow than those of Madrona Channel. Bottom is of soft mud. Max. draft with which vessels can enter through this channel is 20 ft. No tug is necessary.

RESTRICTIONS: Due to present conditions of channel lights and distance, it is suggested that vessels enter and sail only during daylight.

ANCHORAGES: Inside harbour: No. 1, draft 24 ft. Distance from shore 1 mile. Use: sugar/general cargo.

Outside harbour: No. 2, draft 29–30 ft. No. 3, draft 33 ft. Distance from shore 1.5 miles to 2 miles. Use: sugar/general cargo. Although about 40 ft. depth at this anchorage, it is limited to 33 ft. which is official draft of the entrance channel. Vessels have been loaded at this anchorage up to 33 ft. 6 in. draft.

TUGS: Following tugs available: *Aracelio Iglesias* – tows 3 barges; *Donatilo Lopez* – tows 3 barges; *Raimundo Arias* – tows 3 barges; *Edesio Perez* – tows 3 barges.

LOADING: Sugar-loading operations performed at anchorage by lighters.

Following 12 barges available, each with capacity of 2,000/2,200 bags (250 tons): *Juan Manuel Marquez, Sergio Gonzalez, Jimmy Mirtsel, Pedro Soto Alva, Clodomira, Antonio Lopez, Santiago Lopez, Andres Lijan, Josue Pais Garcia, Adalberto Pesant, Mario Munoz, Elias Zaldivar.*

Also available is barge named *Abel Santamaria,* with capacity of 1,000 bags (250 tons), and provided with derrick and winch for handling lifts up to 2 tons.

At Manzanillo there are three docks: Beattie, Arcos and Terraplen with drafts 8, 7 and 8 ft. respectively. Terraplen Dock is the only one which presently carries out operations, through which sugar is loaded by means of lighters and taken alongside vessels at anchorages.

Docks are suitable for reception and handling of import and export cargo (bulk cargo excepted). They have railroad tracks of non-standard gauge, which connect with warehouses. No shore crane available.

Sugar and general cargo: Working periods: Monday to Friday 0700/1100 – 1300/1700 hrs.; Saturday 0700/1100 hrs.

2,000 raw-sugar bags loaded per gang per day of 8 hours. Only one vessel can operate at this port, order comply with this loading rate.

DISCHARGING: Rates:

Bagged cargo (of 100 lb.)	app. 25 t.p.h.
Bagged cargo (of 200 lb.)	app. 35 t.p.h.
Iron	app. 7 t.p.h.
Wood	app. 8 t.p.h.
Jute bags	app. 15 t.p.h.

TANKERS: No facilities.

FUEL/FRESH WATER: Not available.

REPAIRS: Mechanic and foundry shop under control of Industry Ministry, where light repairs of machine parts can be performed.

COMMUNICATIONS: Distance from Manzanillo to:

Ceiva Hueca:	15 miles by sea, 72 km. by highway
Media Luna:	23 miles by sea, 45 km. by highway
Niquero:	45 miles by sea, 79 km. by highway
Pilon:	90 miles by sea, 130 km. by paved highway, which reaches up to 15 km. from Niquero whereafter a dirt road must be used to reach Pilon. Dirt road distance of 40 km. During rain season a jeep is used to travel by this road.

Automobile is used to travel from Manzanillo to above sub-ports, and takes: to Ceiba Hueca 1 hour; to Media Luna 1 hour; to Niquero 2 hours and to Pilon 3 hours (in rainy season about 5 hours).

Daily automobile services from Manzanillo to Niquero; to Pilon there are trucks specially prepared for this service.

No direct communication between Manzanillo and sub-ports, except Niquero, where there is a long-distance telephone at the telephone centre.

At Pilon and Niquero there are Inalambrica Radio Stations, but radiograms have to be sent to Havana first, from where they are relayed to Manzanillo.

At Manzanillo proper there are long-distance telephones, Inalambrica Radiogram Services and telegraphic and post services. Vessels can communicate with Manzanillo by radio. Vessels messages are received by Government Telegraph (CLT Havana Station).

MEDICAL: There is a hospital at Manzanillo where sick crew members can receive attention.

AUTHORITIES: All Port Authorities, Custom House, Immigration Port Doctor, Port Captain are located at Manzanillo.

Vessels can proceed directly to any of the sub-ports, where Manzanillo Port Authorities travel to give clearance, but advance information must be given to these Authorities for the corresponding permit, as Manzanillo regulations provide that vessels must enter Manzanillo as Custom Official Port.

AGENT: Empresa Consignatarias Mambisas, POB 22, Manzanillo, Oriente. Cable: "Mambisas Manzanillo". Tel. 2533; night: 2369.

(a) SUB-PORT OF CEIBA HUECA:

Vessels may proceed direct to sub-ports (see Manzanillo under "Authorities").

PILOTAGE: Pilots board vessels at Cabo Cruz. Distance from place where Pilots board vessels up to Ceiba Hueca pier is about 42 miles.

APPROACHES: See Manzanillo information. For operations at Ceiba Hueca it should be noted that the pier has a depth of only 19 ft. towards the sea end, for loading. Tidal variation about 1 ft. 6 in.

BERTHING: A motor-boat is required to assist in handling lines to pier and buoys. Boat is brought from Manzanillo.

LOADING: Ceiba Hueca Dock (Enidio Diaz Machado): At this pier, sugar from Ceiba Hueca mill is shipped as well as molasses. Vessels should be in ballast, drawing 8 ft. fore and up to a maximum of 16 ft. aft. Work can only be performed by two gangs on account of length of platform, which is about 130 ft. Depths along pier at shore end 8 ft.; at platform, shore end 16 ft. – sea end 19 ft. Vessels permitted load up to 19 ft.

There is railroad of non-standard gauge from the sugar mill warehouse to the dock platforms.

Working periods: Monday to Friday 0700/1100 – 1300/1700 hrs.; Saturday 0700/1100 hrs.

2,000 bags are loaded per gang-period. 6 bags per sling.

TANKERS: Vessels are loaded with molasses at Ceiba Hueca pier and average pumping rate is 25,000/30,000 g.p.h. Tankers with fuel oil are also operated.

FUEL/REPAIRS: Not available.

FRESH WATER: Vessels can be supplied. Delivery made through pipe-line alongside vessel. Average delivery rate is about 1 t.p.h. (due to low pressure).

COMMUNICATIONS: Government telegraph communication between Manzanillo and Ceiba Hueca up to 1800 hrs. however, there is a telephone line which communicates by means of relay with "La Demajagua" sugar mill, which has direct telephone communication with Manzanillo. This communication is only during sugar-mill office hours, and it is very poor due to above relay.

AGENT: Vessels operating at this sub-port attended by Manzanillo Agency Personnel.

(b) SUB-PORT OF MEDIA LUNA:

Vessels may proceed direct. (See Manzanillo under "Authorities").

PILOTAGE: Pilots board vessels at Cabo Cruz. Distance from place where Pilots board vessels to Media Luna is about 38 miles.

APPROACHES: See "Manzanillo".

MAX. SIZE: Max. draft for vessels to enter and carry out loading operations at this sub-port is 33 ft. Tidal variation 1 ft. 6 in.

LOADING: Loading operations are carried out at anchorage where vessels can load up to 33 ft. Barges and tug-boats are used from Manzanillo.

Working periods: Monday to Friday 0700/1100 – 1300/1700 hrs.; Saturday 0700/1100 hrs.

2,000 bags are loaded per gang-period. Vessels can only work with 3 or 4 gangs. Only one vessel can work at a time.

TANKERS: No facilities.

FUEL/FRESH WATER/REPAIRS: Not available.

COMMUNICATIONS: Between Manzanillo and Media Luna, the only means of communication is Government telegraph, which is available up to 1800 hrs. Manzanillo personnel attend vessels operating at this sub-port.

AUTHORITIES: See "Manzanillo".

(c) SUB-PORT OF NIQUERO:

Vessels may proceed direct. (See under "Authorities").

PILOTAGE: Pilots board vessels at Cabo Cruz. distance from place where Pilots board vessels to Niquero Pier is 15 miles. Tidal variation 1 ft. 6 in.

LOADING: Pier length 400–450 ft., depth up to 23 ft. (North and South sides). There are railroad tracks of different gauges and sidings for shifting of flat cars.

Working periods: Monday to Friday 0700/1100 – 1300/1799 hrs.; Saturday 0700/1100 hrs.

2,000 bags loaded per gang-period. 6 bags loaded per sling.

Although Niquero pier has two sides for docking, sugar mill can only supply sugar for working 1 vessel at a time unless overtime be worked at both sugar mill warehouse, and pier.

FRESH WATER: Can be delivered at pier by means of tank cars, capacity 8 tons. About 10 tank cars can be delivered daily but operation has to be performed outside loading hours.

FUEL/REPAIRS: Not available.

TANKERS: No facilities.

COMMUNICATIONS: Long-distance telephone communication between Manzanillo and Niquero sugar-mill office. Distance from sugar-mill office to pier is about 5 km.

AGENT/AUTHORITIES: See "Manzanillo".

(d) SUB-PORT OF PILON (ENSENADA DE MORA):

Vessels may proceed direct to sub-ports (see Manzanillo under "Authorities").

PILOTAGE: Pilot boards vessel at Cabo Cruz.

APPROACHES: From Cabo Cruz to Pilon mouth entrance is open sea. From Pilon mouth to the pier is through channel, with rocky bottom and turns.

ANCHORAGE: Permitted draft up to 23 ft.

MAX. SIZE: Max. draft permitted for vessels entering and sailing harbour is 20 ft. Tidal variation 1 ft. 6 in.

LOADING: Berth length 150 m., depth 20 ft. (presently in bad condition). sugar loading and molasses are performed at this berth. There is a railroad track of non-standard gauge between the sugar mill and the berth.

Working periods: Monday to Friday 0700/1100 – 1300/1700 hrs.; Saturday 0700/1100 hrs.

2,000 bags of sugar loaded per gang per day of 8 hours. 6 bags loaded per sling. In cases when winches are slow, the number of bags per sling is increased. Only one vessel can operate at this berth at a time.

TANKERS: Molasses average pumping rate is 25,000–30,000 g.p.h.

FUEL: Not available.

FRESH WATER: Can be delivered at berth by pipe-line. Average delivery rate about 1 t.p.h.

COMMUNICATIONS: Government telegraph at Pilon. Also local telephone between sugar-mill office and Niquero, where there is Inalambrica system.

AGENT/AUTHORITY: See "Manzanillo".

MARIEL: 23.01 N. 82.46 W. (and sub-ports of Cabanas, Bahia Honda and Santa Lucia)

ALSO SEE "LATE REPORTS" AND "LATE PLANS".

PILOTAGE: Pilots board vessels about 1 mile from entrance of port. Vessels proceeding to sub-ports of Cabanas and Bahia Honda must pick up Pilot at same place. Pilot station located at 84 street, 5/a and 7/a, Barrio Boca. No telephone communication.

Distance from position where Pilots board vessels to:

Pier of Unit No. 1	– 1.25 miles
Anchorage	– 2.50 miles
Pier of Unit No. 2	– 2.75 miles

APPROACHES: Entrance channel where buoy No. 1 is situated is over a sand bank with 50–55–60 ft. depth. No. 3 buoy situated in 32 ft. of water on rocky bottom, but having close by a depth of 95 ft. No. 5 buoy situated in 30 ft. of water on sand having close by a depth of 33 ft. max. This channel is 328 ft. wide (approx.).

ANCHORAGES: General anchorage – swing area 450 m., depth 29 ft.

Punta Gorda anchorage – swing area 340 m., depth 36 ft.

Cargo operations do not take place at anchorages.

RESTRICTIONS: Vessels can enter and sail during day and night hours, but this should be checked in each case prior to vessel's arrival as on occasions the buoys are missing.

MAX. SIZE: Max. draft with which vessels can enter and sail through channel is 30 ft. and max. length of 574 ft. Tidal variation 1 ft. 4 in. Also see "Berthing".

BERTHING: Unit No. 1 (formerly Marante Pier):

Berth No. 1 (N.W.)	length 509 ft., depth 25 ft. (this berth is out of operation).
Berth No. 2 (N.W.)	length 250 ft., depth 16–24–30 ft. (max. draft permitted 16 ft.). Presently this berth is occupied by Terminal Electric and is not available for use.
Unit No. 2 (formerly Maritima Mariel Pier):	length 607 ft., width 267 ft.
Berth No. 5 (N.E.)	Depth 20 ft., length 607 ft.
Berth No. 6 (N.W.)	Depth 26 ft., length 267 ft.
Berth No. 7 (N.E.)	Depth 29 ft., length 607 ft.
Cement Pier Plant:	
Berth No. 3	Depth 29 ft., length 544 ft. Used for tanker vessels (fuel oil discharge). Vessels with length less than 492 ft. can dock with draft of 29 ft. Over 492 ft. and up to 580 ft. can enter with draft up to 27 ft. fore, and 29 ft. aft. with assistance of one tug (850 h.p.).
Berth No. 4	Depth 15 ft.

The Unit No. 2 piers are used for discharging general cargo and fertiliser. Up to 1962 sugar was shipped through this pier; at present this type of operation is not performed.

For each pier the main transportation used in reception and delivery of cargo is by trucks.

Unit No. 2 pier has railroad tracks of non-standard gauge, for communication with sugar mill Orlando Nodarse.

STEVEDORES: Working periods: Monday to Friday 0700/1300 – 1300/1900 – 1900/0100 hrs.; Saturday 0700/1300 – 1300/1900 – 1900/0100 hrs.

Raw sugar: 845 bags loaded per gang-period. 6 bags per sling. Only one sugar vessel can operate at a time.

General cargo: discharging rate: from 6 to 9 tons per gang hour (approx.).

Bagged merchandise: about 13 tons (100 lb. bag type).

Iron: about 18 tons (fluctuates according to type of iron).

Wood: 12 tons (approx.).

Fertilisers: Muriate of potash: 10 to 13 tons.
Sulphate of ammonia: 8 to 10 tons.
Superphosphate simple: 15 to 18 tons.

Shore cranes: There is one caterpillar (PH movable crane with boom of 80 ft. length, and which can lift 12 tons).

FUEL/REPAIRS: Not available.

FRESH WATER: Can be supplied at both piers by means of tank–truck with capacity of 5 tons. In dry season supplied only during night time.

MEDICAL: No hospital. Crew members requiring medical attention are sent to Havana.

AUTHORITIES: Located at Mariel as follows:

Customs House and Immigration: Ave. 65. 126 Street and 128 Street.
Captain of the Port: Playa "La Boca" at the entrance of the port.
Port Doctor: 128 Street. Ave. 67. and Litoral.

Distance from Mariel to:

Cabanas (anchorage):	25 km. 45 minutes by car.
Cabanas (pier):	57 km. 1 hour 47 minutes by car.
Bahia Honda:	73 km. 2 hours by car.
Santa Lucia:	250 km. 4 hours by car.

Car is hired for transportation to above sub-ports. There is daily transportation only between Mariel and Cabanas anchorage.

AGENT: Empresa Consignatarias Mambisas, Apartado 65 12411, Avenida 5, Mariel, Pina del Rio. Tel. 63; night: 54. Cables: "Mambisas Mariel".

(a) SUB-PORT OF CABANAS:

Vessels assigned to Cabanas do not have to enter Mariel for clearance, but must pick up Pilot at Mariel port entrance.

PILOTAGE: See "Mariel".

Distance from position where Pilots board vessels to Anchorage 4 miles; Pier 3.5 miles.

APPROACHES: Entrance channel has sandy bottom on Eastern side, and rocky bottom on Western. It is about 70 m. wide.

ANCHORAGE: Has depth of 19 ft. and is used for shipment of raw sugar from sugar mill "Augusto Cesar Sandino".

Following barges available for performing above operations:

Barge name	*Capacity for raw Sugar in bags*
Mercedico	995
Oscar	10,000
America	900
Julia	850
Malula	1,200
B–R–16	1,100
V del Carmen	1,400
Cubamaco	1,150
Varadero	1,000
Astillero	1,150

Loading of barges depends on weather conditions at time of shipment.

There is 1 tugboat named *La Nina* which can tow 3 barges.

MAX. SIZE: Max. draft permitted for entry and sailing is 19 ft., and max. length 574 ft. Tidal variation 1 ft. 4 in.

RESTRICTIONS: Vessels should enter and sail only during daylight.

BERTHING: Present name: ECA "Pablo de la Torriente Brau". Former name: "Almacenes de Cabanas". Length 360 ft. (max. length permitted 450 ft.), depth 20 ft.

This dock is commonly known as "Orozo Dock", which is used in shipments of raw sugar. There are railroad tracks of standard gauge.

LOADING: Working periods: raw sugar: Monday to Friday 0700/1100 – 1300/1700 hrs.; Saturday 0700/1100 hrs.

845 bags are loaded per gang-period. 6 bags loaded per sling. 2 vessels can load simultaneously, one at the dock and the other at the anchorage. There are 4 grates for loading sugar in bulk.

FUEL/FRESH WATER/REPAIRS: Not available.

AGENT/AUTHORITIES: See "Mariel". There is a Port Captain at Cabanas.

(b) SUB-PORT OF BAHIA HONDA:

Vessels assigned to load at Bahia Honda do not have to enter Mariel for clearance, but must pick up Pilot at Mariel port entrance.

PILOTAGE: See "Mariel". Distance from position where Pilots board vessels to: dock 4 miles; anchorage 2.75 miles.

APPROACHES: The entrance channel has sandy bottom on Eastern side, and rocky bottom on Western and is approximately 150 m. wide up to Corojal anchorage.

RESTRICTIONS: Entry and sailing only during daylight and necessary to await favourable tide.

ANCHORAGE: Depth 28 ft. Swing area 300 m. Max. length permitted 623 ft. Anchorage used for completion of sugar loading by means of barges that are brought from Havana.

MAX. SIZE: Length 623 ft. and max. ship draft for proceeding up to Corojal anchorage is 28 ft. Tidal variation 1 ft. 4 in.

BERTHING: Dock: "Central Harlem" (formerly "Bahia Honda"):

Length 260 ft., depth 19 ft. Dock is commonly known as Sugar dock of Harlem Sugar Mill. It has railroad track of standard gauge.

LOADING: Sugar working periods: Monday to Friday 0700/1100 – 1300/1700 hrs.; Saturday 0700/1100 hrs.

845 bags of raw sugar are loaded per gang-period as min. (more than the above stipulated amount is always loaded). Only one vessel can load at a time.

AGENT/AUTHORITY: See "Mariel". There are Custom House and Port Captain delegations at Bahia Honda.

(c) SUB-PORT OF SANTA LUCIA: 22° 44′ 13″ N. 83° 59′ 15″ W.

Vessels assigned to Santa Lucia do not have to enter Mariel for clearance, nor to pick up Pilot.

PILOTAGE: Pilots board vessels at Pasa Honda, 2 miles off the phosphorescent buoy. No pilot station. Advice of ships' arrival is given to Custom House Delegation by cable. Distance from place where Pilots board vessels up to first anchorage is 4 miles.

APPROACHES: Channel approximately 200 m. width rocky bottom. It has two turns with dangerous narrows.

LOADING: There are the following anchorages:

1st Anchorage: Has depth of 30 ft., but vessels are limited for sailing to max. draft of 15 ft., and length 500 ft.

2nd Anchorage: Has depth of 20 ft., but vessels are limited for sailing to max. draft of 18 ft.

3rd Anchorage: Open sea without draft limitation.

Working periods: Work is performed all day (during daylight) including Saturday and Sunday.

Average loading rate is about 900 tons daily, but rate might be improved in the following cases:

1. Vessels with more than 3 hatches available.
2. Vessels with booms (not of the crane type) since loading is

performed by grabs which are to be rigged in order to perform quick loading.

3. Provided only one vessel performs operations (2 vessels may be loaded simultaneously but above rate cannot be complied with).

Loading at this sub-port is by means of grabs rigged to vessel's boom. In cases where vessel has no booms, but cranes, the loading is carried out very slowly as buckets are used in such cases, and having to shovel mineral into buckets delays loading operations.

There are 6 barges for loading mineral with a capacity of 150 tons each.

TUGS: 2 tugs, *Adis* and *Julita* which can tow 2 barges each.

FUEL/FRESH WATER/REPAIRS: Not available.

AGENT/AUTHORITIES: See "Mariel".

Port Authorities use launches for clearing vessels. Agents use automobile to travel from Mariel to Santa Lucia which takes 4 hours.

There are Custom House and Port Captain Delegations at the sub-port of Santa Lucia.

MATANZAS: 23.03 N. 81.34 W.

ALSO SEE "LATE REPORTS" AND "LATE PLANS".

PILOTAGE: Pilots board vessels about 3 miles after passing the port entrance, in front of Electrical Plant and close to Empresa Consolidada del Petroleo Pier (Texas). Pilot station located at Reynold Garcia Pier (Terminal Maritima). Tel. number 2688.

Distance from place where Pilots board vessels to:

I.C.P. (Texas) Pier	
Reynold Garcia Pier (Terminal Maritima)	– 200 m.
Juan A. Morales Bayona (Cubadist)	– 300 m.
Jose Luis Dubrocq (formerly Fomento)	– 500 m.
Frank Pais (Armour)	

APPROACHES: There are three entrance channels:

North Channel: 50 ft. depth

Central Channel: at North side 27 ft. depth; South side 50 ft. depth.

Entry and sailing channels are straight and without turns or obstacles. North Channel mud bottom, but others with rocky bottom. Tidal variation 1 ft. 6 in.

RESTRICTIONS: Vessels can enter or sail at night but Port Authorities should be advised in advance.

ANCHORAGES:

Indio Anchorage: depth 17 ft.; swing area 120 m.
South Anchorage: depth 30 ft.; swing area 230 m.
Del Medio Anchorage: depth 27 ft.; swing area 20 m.
West Anchorage: depth 21 ft.; swing area 150 m.
North Anchorage: depth 25 ft.; swing area 150 m.
Casacajales Anchorage: depth over 30 ft.

BERTHING: Jesus Menensez (I.C.P.) Pier (formerly Texas) with a depth of 28 ft., length 749 ft., used for discharge of fuel oil. At present no operations are performed at this pier, due to its bad condition.

Frank Pais Dock E.C.D. 41 (formerly Armour) is used in discharge of fuel oil. Depth 21 ft. and length of 365 ft. Vessels drawing over 21 ft. dock under Master's responsibility.

Reynold Garcia Pier (Terminal Maritima): North side: length 450 ft. draft 30 ft. Used for loading bagged sugar and for liquid ammonia.

South side: length 529 ft. Used for loading bulk sugar by mechanical means; also for bagged sugar. A ship's Master states that a vessel loaded bulk sugar to a draft of 39 ft.

Jose Luis Dubrocq (Fomento Maritima): fore part: length 600 ft., draft 24 ft. Used for fertilizer discharge.

Rear part: length 500 ft. draft 28 ft. (out of service).

Morales Bayona Pier; Draft 39 ft. This pier is used for loading blacktrap molasses and alcohol. Also used for discharging sulphuric acid to nearby factory.

Reynold Garcia and Jose Luis Dubrocq piers have railroad tracks standard gauges with sidings for shifting cars. Trucks can also operate at these piers.

Cascajales Anchorage: oil tanker discharge.

STEVEDORES: Working periods: Monday to Friday 0700/1300 – 1300/1900, 1900/0100 hrs.; Saturday same; Sunday no work performed except in special cases.

Raw sugar: 855 raw-sugar bags loaded per gang-period. 5 bags loaded per sling.

Refined sugar: 2,004 refined-sugar bags (50 kg. type) are loaded per gang-period (797 of 100 kg. type).

12 bags of 50 kg. type per sling; 5 bags of 100 kg. type.

General cargo: average rate of discharge of other kinds of cargo varies depending on the type.

Average rate of fertiliser discharge about 11 tons per gang-hour.

Crane: one steam crane with a boom of 60 ft. which can lift about 40 tons. Crane is mounted on railroad tracks and is used only at Jose Luis Dubrocq pier.

Bulk sugar: The installation of bulk sugar throwers operated by Empresa Consolidada del Azucar, at Reynold Garcia Pier, is by system of conveyor and distribution crane which runs from Parabolicos warehouses up to the end of the pier. A special structure protects the conveyor.

The crane runs on special rail throughout the pier (fore and aft) stopping at each vessel's hold. In cases where the vessel has projecting superstructure, she has to be separated from the pier.

Average loading rate is about 350 t.p.h., depending on the type of vessel. On vessels without tweendecks, an average of 43 t.p.h. has been attained.

Weights of shipment estimated on draft and information provided by Master. Notations are entered in Bill of Lading declaring quantity as subject to amount discharged at destination, which is supervised by Cuban Producers' Representative.

TANKERS: Pumping rate:

Fuel oil	– discharge:	about	500	t.p.h.
Alcohol	– loading:	,,	208	,,
Molasses	– loading:	,,	263	,,

FRESH WATER: Supplied only at Reynold Garcia Pier. Delivery slow.

REPAIRS: Can be performed by Cearra y Trabazo.

COMMUNICATIONS: Long-distance telephone, Corporacion Inalambrica Cubana, Press wireless, Government telegraph, postal communication, railroad and buses.

Vessels can communicate through CLA via Cardenas and/or Havana.

MEDICAL: Following hospitals where sick crew members can receive attention: Civil Hospital, Army Hospital, Clinica Moderna, Clinica Villar, Clinica Matanzas.

AUTHORITIES: Located as follows:

Port Doctor:	Milanes St. No. 2. Tel. 2672 (home tel. 2338).
Immigration:	Santa Teresa St. No. 19. Tel. 2695.
Port Captain:	Muelle del Real. Tel. 2469.
Custom House:	Versalles St. e/Navia and Riech St. Tel. 2269 (home tel. 2339). (Chief of Custom House watching services.)

AGENT: Empresa Consignatarias Mambisas, POB 245, Tello Lamar Street No. 88, Matanzas. Tel. 2519 and 3079 (night: 3819).

Due to short distance between Havana and Matanzas, a close co-ordination inter-agencies must exist regarding advices of ETA and ETS of vessels transitting between these two ports.

NUEVA GERONA (Isla de Pinos): 21.58 N. 82.56 W.

ALSO SEE "LATE REPORTS" AND "LATE PLANS".

PILOTAGE: Pilots board vessels at Punta Frances. Distance from place where Pilots board vessels to loading berth is about 34 miles. No pilot station. Chief Pilot is located at No. 3 St. Mo. 612 e/ 6 and 8 Streets, Nueva Gerona, Isla de Pinos.

APPROACHES: Entrance channel or passage from the Gulf to the bank is about 2 miles wide. Bottom throughout the 34 miles is mud (from entrance to anchorage in front of Las Casa River). No dangerous turns or narrows.

RESTRICTIONS: Entry and sailing only during daylight.

ANCHORAGE: Fruit-loading operations performed at anchorage when vessels' draft does not permit them to enter the river.

Vessels are permitted to load at anchorage up to a max. of 19 ft. Swinging area: 600 ft.

Following barges are available:

Evangelina	– capacity 80 tons (schooner)
Bongo	– capacity 80 tons (barge)
Natalia	– capacity 100 tons (schooner)

Working periods: Monday to Friday 0700/1100 – 1300/1700 hrs.; Saturday 0700/1100 hrs.

Whenever sufficient cargo is supplied by the packing plant, the loading rates should be about 120 tons per gang in 8 hours.

MAX. SIZE: Max. draft up to which vessels can load out of the river is 19 ft. Tidal variation 1 ft.

BERTHING: Ferry Dock: Length 200 ft., draft 8 ft. Dock situated about 2 miles up river. Depth of river is 13 ft., and 250 ft. wide. At present dock used for coastwise services by Flota de Navegacion Mambisas (cargo and passengers).

FUEL/FRESH WATER/REPAIRS: Not available.

MEDICAL: General hospital "Heroes de Baire", where sick crew members can receive attention.

COMMUNICATIONS: There are telephone, telegraph and cable (Inalambrica) communications, also air postal service.

AUTHORITIES: Port Authorities are located at Nueva Gerona.

It is strongly recommended that when vessels are assigned to this port, all measures be taken for perfect co-ordination between Agents, Pilots and Port Authorities, and Masters should give ETAs in advance.

SUB-AGENT: Empresas Nacional de Cabotaje, Calle 14 entre 1ra. y 3ra, Nueva Gerona, Isla de Pinos. Cable: "Vapor Nueva Gerona". Tel. 33 and 163 (night: 277).

NUEVITAS: including Pastelillo, Puerto Tarafa, and Bufadero: 21.33 N. 77.16 W.

ALSO SEE "LATE REPORTS" AND "LATE PLANS".

Nuevitas has following load/discharge berths and terminal facilities at Pastelillo and Puerto Tarafa, also loading berths at Bufadero, through which molasses are exported.

(a) PASTELILLO:

PILOTAGE: Pilots board vessels at Punta Practicos, 1 mile from buoy No. 1.

Distance from place where Pilots board to: Pastelillo, 8 miles; Bufadero, 12 miles; Puerto Tarafa, 14 miles.

Pilot station located at Punta de Practicos, East of entrance channel. Usual means of communications are radio, telephone and launches.

APPROACHES: Entrance is narrow and winding. Channel is between Point Sotavento and Practicos and is 7 miles long. Vessels may use it safely although care to be taken because of narrow and sharp turns, and velocity of tidal currents.

RESTRICTIONS: Recommended that vessels enter or sail during daylight.

ANCHORAGE: Botijuela Anchorage: Can accommodate vessels up to 33 ft. draft.

MAX. SIZE: Up to 575 ft. length – 33 ft. draft. Up to 610 ft. length – 31 ft. draft. Tidal variation 1 ft. 6 in.

BERTHING: Pier No. 4: Length 458 ft., draft 32 ft. both sides. Vessels must be operated at high tide. Trucking operations cannot be performed at this pier. Pier has 2 railroad tracks of standard gauge with only 1 inlet.

North side of pier is used for sugar, general cargo and fuel oil. South side of pier used for sugar, general cargo and molasses.

Vessels drawing over 30 ft. 3 in. have to wait high tide for shifting to anchorage.

STEVEDORES: Working periods: Monday to Friday, 0700/1300 – 1300/1900 hrs.; Saturday, 0700/1300 – 1300/1900 hrs.; Sunday, no work is performed.

Raw Sugar: loading rate: max. 1,800 bags per gang in 6 hours. Minimum fixed rate 975 bags in 4 hours or equivalent in 6 hours. 6 bags loaded per sling.

Loading Capacity: 2 sugar vessels can perform sugar loading operations simultaneously.

Refined Sugar: this type of shipment is not regularly performed at this port.

Loading rate: 3,300 bags of 100 lb. each are loaded per gang in a 6-hour period.

General Cargo: discharging rate is about 11 to 12 t.p.h.

Raw Sugar in Bulk: there are 7 sugar thrower machines.

No shore crane available.

TANKERS: Molasses pumping rate about 85,000 g.p.h.

FUEL: Bunkers can be supplied at No. 4 pier. Grades available: fuel oil, diesel oil, and gasoline, but only supplied in small quantities. Delivery rate average – fuel oil 200 t.p.h., diesel oil and gasoline 40 t.p.h. Delivery is by pipe-line or tank cars.

FRESH WATER: Can be supplied at No. 4 pier. Delivered by means of railroad tank cars, each with capacity of approximately 34 tons. Delivery rate about 20 t.p.h.

REPAIRS: Repair Shop "Boga" incorporated in the Industry Ministry.

MEDICAL: There is a municipal hospital where sick crew members can receive attention.

COMMUNICATIONS: There are long-distance telephone communications, cables RCA, Government telegraph and postal service. There is a long-distance telephone between Nuevitas/Pastelillo/Tarafa and Bufadero.

Vessels can communicate with Nuevitas by radiogram (CLA).

SHIPMASTER'S REPORT: March 1980.

General Cargo: There are 3 piers for handling general cargo, all in the same place at Tarafa. All about the same length, and ships can moor both sides.

Fresh Water: Fresh water can be supplied at anchorage and at all piers by barges (about 200 tons).

Agent: The Agent "Mambisas" has an office just outside the gate (large green house) and listens on VHF Channel 12 from 0900–1100 hrs. and 1500–1700 hrs.

AUTHORITIES: Located at Nuevitas.

Authorities travel from Nuevitas to clear the vessels for whichever of the 3 berths they may have been assigned, i.e. Pastelillo, Tarafa or Bufadero.

Means of transportation for port authorities from Nuevitas to the loading/discharging berths is automobile or launches.

AGENTS: Empresa Consignatarias Mambisas, Apartado 250, Puerto Tarafa, Nuevitas. Cable: Mambisas Nuevitas. Tel.: 3–1435 (night: 3–5805 and 3–6025).

(b) SUB-PORT OF TARAFA:

PILOTAGE: See "Pastelillo". Distance from place where Pilots board vessels to Tarafa is about 14 miles.

APPROACHES: See "Pastelillo".

RESTRICTIONS: Vessels can enter or sail only during daylight and should wait for slack water.

MAX. SIZE: Max. draft with which vessels can enter Tarafa is 25 ft. 8 in. In exceptional cases up to 26 ft. 6 in.

Max. length up to 600 ft. Vessels drawing over 25 ft. 3 in. should wait for high tide before shifting anchorage. Tidal variation 1 ft. 6 in.

BERTHING: For sugar and general cargo.

Pier "B" – North side: length 480 ft., depth 19 ft. (high water). South side: depth 19 ft. (high water).

Pier "C" – North side: length 767 ft., depth 25 ft. 6 in. (high water). South side: depth 25 ft. (high water).

Pier "D" – North side: length 767 ft., depth 25 ft. 6 in. (high water). South side: length 477 ft., depth 25 ft. (high water).

Vessels drawing 25 ft. 6 in. and over when shifting to Pastelillo must do so at high tide.

These 3 piers each have 4 railroad tracks of standard gauge but sugar cars cannot enter loaded at one side and exit at the other side. Usually loaded sugar cars are unloaded first and, whilst shifting takes place, the last ones are discharged in order not to lose time in this movement.

STEVEDORES: Working periods – raw sugar, loading rate, refined sugar, general cargo, etc., same as for Pastelillo. 6 sugar vessels can operate simultaneously. No crane available.

FUELS: No bunkers usually supplied at this terminal, but in special cases bunkers have been supplied at Pier "B".

FRESH WATER: Can be supplied at Pier "B", "C", and "D".

AUTHORITIES: See "Pastelillo".

(c) SUB-PORT OF BUFADERO:

PILOTAGE: See "Pastelillo". Distance from place where Pilots board vessels to Bufadero is 12 miles.

APPROACHES: See "Pastelillo".

RESTRICTIONS: Vessels drawing over 25 ft. 3 in. should await high tide for shifting to anchorage.

For entering-sailing, vessels should wait for slack water and only during daylight.

MAX. SIZE: Max. draft with which vessels can enter/sail to/from Bufadero is officially up to 25 ft. 3 in. but actually up to 25 ft. 6 in. Length 600 ft. Tidal variation 1 ft. 6 in.

BERTHING: Pier, length 557 ft.; draft, North side, 25 ft.; draft South side, 25 ft.

This pier is only used for molasses and fuel oil. Average pumping rate of molasses is 70,000 g.p.h. Only South side is in operation.

FUEL/FRESH WATER/REPAIRS: Not available.

AUTHORITIES: See "Pastelillo".

PUERTO PADRE–Cayo Juan Claro: 21.17 N. 76.32 W. (and sub-port of Manati)

ALSO SEE "LATE REPORTS" AND "LATE PLANS".

Vessels can proceed direct to Cayo Juan Claro and Port Authorities travel to Cayo Juan Claro for clearance.

PILOTAGE: Pilots board vessels at entrance, not less than 1 mile from mouth of port. Distance from place where Pilots board vessels to pier is about 2.5 miles.

APPROACHES: Funnel-shaped at entry. 2 turns, but the one to take into consideration when manoeuvring vessels over 525 ft. is "Careneoro" turn. Vessels with a length of 565 ft. have entered this port. Bottom is rocky in entrance channel and muddy in bay.

RESTRICTIONS: Vessels can enter only during daylight and must wait for slack water for entering/sailing due to current in the channel.

MAX. SIZE: Vessels can sail with max. draft of 25 ft. up to length of 500 ft. Over 500 ft. length with draft up to 24 ft. Max. length permitted 557 ft. Tidal variation 2 ft. 3 in.

BERTHING: Loading and/or discharging operations are carried out at Cayo Juan Claro which is about 3 miles distant from Puerto Padre.

Dock No. 1 For loading sugar: length 509 ft., width 30 ft., depth 25 ft.

Dock No. 2 For loading molasses and discharge of fuel oil and gas oil: length 272 ft., width 12 ft., depth 25 ft. This dock has railroad tracks of non-standard gauge. A launch is used for handling lines in berthing.

STEVEDORES: Working periods: Monday to Friday 0700/1100 – 1300/1700 hrs.; Saturday 0700/1100 hrs.

Raw sugar: loading rate max. 1,430 raw sugar bags loaded per gang period. Minimum is 650 bags. 5 bags loaded per sling. Only one vessel can operate at a time. Empty jute bags have been discharged and average discharge rate is about 45 metric tons per gang period. No crane available.

Sugar in bulk: 5 thrower machines for loading sugar in bulk.

TANKERS: Molasses average pumping rate 50,000 g.p.h. Fuel oil, discharging rate 45,000 g.p.h. Gas oil discharging rate 35,000 g.p.h.

FUEL: Not available.

FRESH WATER: Can be supplied at No. 1 pier by pipe-line. Delivery rate 17 t.p.h.

REPAIRS: Port has no repair shop, but in event winch damage or any other light repairs, this work can be carried out at the Sugar Mill "Central Antonio Guiteras" Repair Shop.

MEDICAL: General Hospital at Puerto Padre where sick crew members can receive attention.

AUTHORITIES: Port Doctor and Custom House are located at Puerto Padre. Immigration at Chaparra. Port Captain at Cayo Juan Claro.

Distance from Cayo Juan Claro where all cargo operations are performed to Puerto Padre is 3 miles. Means of transportation between Puerto Padre and Cayo Juan Claro: motor-boat, railroad, and automobile.

From Puerto Padre to Cayo Juan Claro it takes: by motor boat 30 minutes; by automobile 5 minutes; railroad 20 minutes.

Means of communications available at Puerto Padre: telephone, cable (Inalambrica), telegraph and postal service. Vessels can communicate with Puerto Padre via CLA Habana.

AGENT: Empresa Consignatarias Mambisas, Cayo Juan Claro, Puerto Padre. Tel. 208–7 (Cayo Juan Claro); (Night 165). Cable: "Mambisas Puerto Padre".

SUB-PORT OF MANATI: 21.24 N. 26.49 W.

Vessels can proceed directly to this sub-port without calling first at Puerto Padre for clearance.

PILOTAGE: Pilots board vessels about 1 mile from entrance. No pilot station. Pilots located at Manati and ETA notice to be given to them well in advance. Distance from place where Pilots board vessels to pier is about 3 miles.

APPROACHES: Narrow channel, very deep (min. depth 40 ft.) Bottom is irregular, parts where it is sandy and others rocky.

RESTRICTIONS: Not necessary to await slack water for entry/sailing; but considering large tonnage of vessels presently entering port for topping-off, if there is a strong current Pilots wait until current loses strength order to avoid accidents. Vessels can enter and sail only during daylight.

ANCHORAGE: Swing area 600 ft. (approx.). Owing to reduced space, this anchorage is not safe for anchoring vessels drawing over 26 ft.

MAX. SIZE: Vessels drawing up to 30 ft. and a length of 500 ft. have entered. Max. draft with which vessels can enter and sail:

(a) Presently vessels can enter with length (Liberty type) up to 440/460 ft. drawing up to 28 ft. Up to 29 ft. as max. limit.

(b) With a length up to 500 ft. drawing not over 26 ft. Vessels with above specifications can enter port and berth whenever tide favourable and weather good.

Both sizes of vessels can load up to a max. draft of 30 ft. Also vessels with length up to 560 ft. and drawing up to 17 ft. can enter port, although it is not advisable to do so on account of the present dock conditions. Tidal variation, 2 ft. 6 in.

BERTHING: Dock length 465 ft. At South end of dock there is a small shallow which renders worthless about 70 ft. of dock space. Present max. depth at dock is 30 ft. 02 in. at high tide.

STEVEDORES: Loading sugar: working periods: Monday to Friday 0700/1100 – 1300/1700 hrs.; Saturday 0700/1100 – 1300/1700 hrs. When necessary, work is performed at night. Sunday is also worked when required. 1,040 sugar bags loaded per gang period; 4 sugar bags loaded per sling. Only one vessel can operate at a time. No refined sugar operations performed. No shore crane available. Sugar mill has 5 grates and 3 machines for spreading sugar in hatches.

TANKERS: Molasses pumping rate 25/30,000 g.p.h. Fuel oil pumping rate at average of 1,700 b.p.h.

FUEL: Not available.

FRESH WATER: Supplied by pipe-line at pier. Pipe-line 2 in. in diameter and delivery at an average rate of 15 – 16 t.p.h. Amount that can be delivered depends on supply at sugar mill.

REPAIRS: Sugar mill repair shop for minor repairs. Welder available.

COMMUNICATIONS: Long-distance telephone communication between Manati and Puerto Padre, although difficult owing to fact that there are only two lines from Manati and they are almost always congested. There are some occasions when an entire day is spent trying to obtain communication without result. Victoria de las Tunas telephone operator serves on occasions as "relay".

Vessels cannot communicate by radio with this port.

AUTHORITIES: Port Doctor and Port Captain located at this port. Custom House delegation located here, also Immigration Inspector who attends Gibara, Vita and Puerto Padre. When vessels enter and anchor awaiting for favourable tide to dock, they are cleared by Customs at the anchorage. If vessel arrives on flood tide (which is best tide for berthing) Port Authorities visit vessel when berthed.

When vessels enter at Manati, the Manifest order number is given by Puerto Padre Custom House. Custom House clearance is given by Manati Custom House Delegation of Puerto Padre. Distance from Manati subport to Puerto Padre port is 17 miles by sea. By highway, as journey is made through Victoria de las Tunas, distance about 140 kilometres. From Manati to Victoria de las Tunas, takes 1.5 hours. From Victoria de las Tunas to Puerto Padre, about 1 hour. There is railroad transportation between Manati to Puerto Padre and it takes about the same time. There are 3 daily services between Manati and Victoria de las Tunas by train, and 2 by highway.

AGENT: Empresa Consignatarias Mambisas, Central Manati. Cable: "Mambisas Puerto Padre". Tel. 144–3.

SANTA CRUZ DEL SUR (and sub-ports of Manopla and Guayabal): 20.42 N. 77.59 W. **(See Plan Book)**

PILOTAGE: Pilots board vessels close to buoy indicating entrance channel (Cuatro Reales) between "La Ceiba" bank and Carapacho Cay Lighthouse. Distance from place where Pilots board vessels (Cuatro Reales Channel) to Santa Cruz anchorage is 11 miles.

APPROACHES: Entrance channel has depth of 45 ft. Bottom is mud, gravel and loose sand. In the narrowest part of channel is a turn of about 20 degrees.

RESTRICTIONS: Vessels cannot enter/sail at night. Not necessary to wait for slack water for entering/sailing.

ANCHORAGES: No. 1, 24 ft.; No. 2, 26 ft.; No. 3, 36 ft.; No. 4, 40 ft. Sugar-loading operations were performed at anchorages. There were 10 barges available which are presently operating at the sub-port of Santa Maria (Jucaro). Similarly, the tugs which were used at this port are at present operating at Jucaro.

MAX. SIZE: Vessels can enter/sail through channel with any draft and length subject official draft of the port which is 35 ft. Tidal variation 1 ft. 5 in.

LOADING: Raw sugar: working periods: Monday to Friday 0600/0800 – 0830/1100 – 1200/1530 hrs.; Saturday 0600/0800 – 0830/1030 hrs.; Sunday: when it has been necessary, work has been performed.

Loading rate: 1,950 bags loaded per gang period. 6 bags loaded per sling. Only 1 vessel can operate at a time. No crane available.

Refined sugar – no operations performed.

Raw sugar in bulk – no sugar in bulk is shipped by this port. Bulk sugar is shipped by the sub-port of Guayabal.

TANKERS: No tankers operate at Santa Cruz del Sur proper.

COMMUNICATIONS: Long-distance telephone communication with Guayabal can be established through San Francisco Sugar Mill. Telegraph can also be used. There is no telephone or telegraph communication beteen Santa Cruz and Manopla.

At Santa Cruz del Sur there are long-distance telephone, Government telegraph and postal service. Vessels can communicate with Santa Cruz by telegraph via Radio Habana.

MEDICAL: No hospital. The nearest hospital where sick crew members can be attended is located at Camaguey, 80 km. from Santa Cruz.

FUEL/WATER/REPAIRS: Not available.

AUTHORITIES: Port Authorities are located at this port. Launch services are used by Port Authorities to clear vessels.

Distance from Santa Cruz del Sur to Manopla: 14 miles; Guayabal: 14 miles. From Santa Cruz to Manopla by sea 1.5 hours; by road 1 hour. To Guayabal by sea 3 hours; by road 2.5 hours.

No daily transportation between Santa Cruz and its sub-ports. Launch or automobile are to be hired for this purpose.

AGENT: Empresa Consignatarias Mambisas, Calle Carretera s/n, PO Box 49, Santa Cruz del Sur, Camaguey. Tel. 11 (night 65 and 26–8). Cables: "Mambisas Santa Cruz del Sur".

(a) SUB-PORT OF MANOPLA:

PILOTAGE: After Pilot boards vessel at Cuatro Reales Channel, vessel proceeds to Santa Cruz for clearance, thence takes another Pilot and proceeds to sub-port of Manopla, 14 miles distant from Santa Cruz.

APPROACHES: See Santa Cruz. Entrance channel to sub-port of Manopla – Canal de Media Luna, Canal de los Bayameses, where vessels anchor, is a mile wide, bottom soft mud. No dangerous turns. Vessels of any length can enter and the anchorage depth is 24–40 ft. Official permitted draft 35 ft. Vessels can enter/sail only during daylight. Not necessary to wait for slack water for entering/sailing. Tidal variation 1 ft. 6 in.

LOADING: Anchorage No. 1: 26 ft.; No. 2: 40 ft. Loading sugar operations were performed at above anchorages by means of barges. The following barges and tugboats were available:

Macareno No. 1	– capacity: 329 metric tons, 2870 bags of raw sugar or 75,000 gallons of molasses.
Macareno No. 2	– capacity: 329 metric tons, 2,870 bags of raw sugar or 75,000 gallons of molasses.
Eulalia	– capacity: 269 metric tons, 2,350 bags of raw sugar. Has no tanks.
Miguelito	– capacity: 269 metric tons, 2,340 bags of raw sugar. Has no tanks.
Josefa	– capacity: 269 metric tons, 2,340 bags of raw sugar or 48,000 gallons of molasses.

Tug: *Fox* – length 66 ft., breadth 14 ft., 165 h.p. Tows the fleet of barges utilised at Manopla.

TANKERS: Average pumping rate of molasses 20,000 g.p.h.

COMMUNICATIONS: No long-distance telephone communication. There is telegraph service which works up to 1800 hrs.

FUEL/WATER/REPAIRS: Not available.

AUTHORITIES: See "Santa Cruz".

(b) SUB-PORT OF GUAYABAL: **(See Plan Book)**

ALSO SEE "LATE REPORTS" AND "LATE PLANS".

PILOTAGE: After Pilots board vessels at Cuatro Reales Channel, they proceed directly to sub-port of Guayabal, where Customs clearance takes place. Also see "Shipmaster's Report".

APPROACHES: Dredged channel 2,474 m. in length, 60 m. in width with average depth of 30 ft.

ANCHORAGE: Suitable for vessels with draft up to 40 ft.

MAX. SIZE: Official draft for the port is 35 ft., but Pilots advise max. draft with which vessels may sail from the berth is 32 ft. 9 in. at HW, with max. length 510 ft.

BERTHING: Pier: length 508 ft., depth 32 ft. 9 in. at high water.

STEVEDORES: Sugar loading in bulk. Loading of molasses and alcohol takes place frequently. Fuel oil and general cargo discharge.

Sugar in bulk – at pier there is an installation operated by electric motor control which moves a convex-shaped conveyor and transports the bulk sugar from warehouse to the vessel. 2 thrower machines, 600 and 400 t.p.h. respectively. Average loading rate about 250 t.p.h. although occasionally average of 400 tons has been obtained. There is some time lost on account of shifting the crane. Occasionally shovellers are required, and work continues 24 hours a day.

General cargo – it is not customary to receive general cargo at this sub-port, although on occasion bales of empty jute bags have been received, destined to neighbouring sugar mills. At present there are no facilities for discharge of general cargo, and no shore cranes available.

TANKERS: Shipment of molasses and alcohol is quite frequent. Vessels discharging fuel oil may berth with max. draft of 27 ft. without touching bottom, which is of soft mud.

COMMUNICATIONS: Communications between Guayabal and Santa Cruz are good. It is necessary to travel to Sugar Mill San Francisco (about 20 km. from the pier) in order to communicate by telephone with Santa Cruz.

Masters must send messages giving ETA addressed to Mambisas Santa Cruz del Sur.

FUEL/REPAIRS: Not available.

FRESH WATER: Supplied at pier by pipe-line at average rate of delivery 10 t.p.h.

SHIPMASTER'S REPORT: 1978.

Pilotage: Pilots are arranged by the Agent at Santa Cruz del Sur, (Mambisas). The boarding station shown on charts and mentioned in Pilot Books is now non-existent. Instead the Pilot comes direct from Santa Cruz when a ship is expected and boards the vessel between No. 2 Buoy and No. 4 Buoy South of the entrance to Cuatro Reales Channel. Vessel then proceeds to Guayabal, where it is necessary to anchor off the port for clearance.

Approaches: The navigable width of the approach channel, is at present 50 m., the buoys being moved accordingly, with an average depth of 32 ft. The centre alignment of the approach channel is 011.5° T. This is indicated by two fixed leading marks. The forward one, a metal pole with a yellow triangle mark, apex up, at night a fixed red light. The rear mark is a yellow triangle apex up, attached to the top of a water tank (on a framework tower) at night a fixed green light. This leading line leads "down" the Eastern side of the one and only jetty, along the top of the elevated (roofed-over) conveyor belt.

Documents/Customs:

Crew Declaration (Manifest)	6 copies
Steward's store list	6 copies
Deck/Engine store list	6 copies
Maritime Declaration of Health	3 copies
Dangerous drugs list	6 copies
Slop chest/Bonded stores	6 copies
Explosives list (Distress Rockets, etc.)	6 copies
List of foreign currency	5 copies
List of ship's equipment, i.e. films, binoculars, T.V.'s, sextant, etc.	4 copies.

All foreign currency, cameras, dangerous drugs, and crew presents to take home were all sealed up in the bond locker along with its contents. Meat room sealed up. Although all our meat is of Australian or New Zealand origin, some of the lamb had a USA wrapper on it which made it American meat and this is not acceptable in Cuba. As far as I can understand the meat from Australia, New Zealand, Japan, USSR, only is acceptable in Cuba. Valid smallpox vaccinations are required.

AUTHORITIES: Port Captain and Immigration's Delegations at Guayabal. Custom's delegate travels from Santa Cruz to Guayabal to conduct clearance. Distance 24 miles (by sea) from Guayabal to Santa Cruz. By road 60 km. Time 3 hours by sea and 2 hours by road.

AGENT: Vessels operating at Guayabal are attended by Santa Cruz del Sur agency personnel.

SANTIAGO DE CUBA: 19.50 N. 75.52 W.

ALSO SEE " LATE REPORTS" AND "LATE PLANS".

PILOTAGE: Pilots board vessels 1 mile from mouth of port. Pilot station located in small Cay at entrance of bay known as Gramma Cay (formerly Smith Cay). Launch service is only means of communication available between Santiago de Cuba and Gramma Cay. Pilots also have office located at Custom House building with telephone communication. Distance from place where Pilots board vessels to: Piers 4 miles; Anchorage 3.5 miles; Refinery Pier 1.5 miles.

APPROACHES: The entrance, up to a distance of 0.5 mile, has a rock bottom. Thereafter, for a distance of 1 mile muddy bottom, and remaining 2.5 miles is soft mud. There are some turns, and the channel and entrance to the port are narrow.

RESTRICTIONS: Vessels can enter and sail only during daylight from 0600 to 1800 hrs.

ANCHORAGES: Inner anchorages located in the area from North of "Ratones Cay" up to West of buoy No. 20. Can accommodate vessels drawing up to 30 ft. and a length up to 680 ft.

MAX. SIZE: Vessels with a length of 680 ft. and a draft of 35 ft. can enter up to the refinery, provided they arrive during early morning hours. Tidal variation 1 ft. 6 in.

TUGS: Tugs are used for deep-drafted vessels and otherwise as situation demands. Following tugs are available:

Toledo	length 5.18 m.;	h.p. 165;	speed 9 knots
Santa Barbara	length 60 ft.;	h.p. 165;	speed 8 knots
Caridad	length 45 ft.;	h.p. 110;	speed 7 knots

BERTHING: Dock No. 1 "Luis Felipe Mena Gil" (formerly Malecon). Length 400 ft., depth 25 ft. at centre, 22 ft. at West end, and 22 ft. fore and 24 ft. aft at East end. Dock used for sugar loading and discharge of mineral, heavy lifts and volume cargo. It has 2 railroad tracks of standard gauge. (Notwithstanding above depth, vessels drawing up to 28 ft./28 ft. 6 in. sail from this dock.)

Ferrocarril Pier – length 240 ft., depth 23 ft. Vessels moor to dolphins. Distance between end dolphins is 400 ft. Used only for molasses loading. There is a pipe-line installation.

Pier No. 2 – "Miguel Santiesteban Reyes" (formerly Muelle de Luz) Wooden pier, length 500 ft., depth (North side) 22 ft. 06 in. shore end; 23 ft. 06 in. sea end. (South side) 20 ft. 06 in. shore end; 22 ft. 6 in. sea end. Used for general cargo discharge. Trucks and trailers operate at this pier.

Pier No. 3 – "Rolando Roca Pacheco" (formerly La Maritima). Concrete pier, length 650 ft., depth (North side) 22 ft. shore end; 4 ft. sea end. (South side) 24 ft. shore end; 25 ft. sea end. Used for discharge of general cargo. Trucks and trailers operate at this dock.

La Molinera Oriental Pier (present name: "Frank Pais"). Depth 21 ft. fore; 22 ft. 06 in. aft.

Vessels do not berth directly on to this pier, but are secured to dolphins at narrow side of the pier. Used for bulk wheat discharge. Capacity of silos 8,200 tons. Conveyor and pipe-line are available.

Cement Factory Pier – length 290 ft., depth 17 ft. Used for cement loading. Trucks can be used.

Refineria Hnos. Diaz Pier – length 789 ft., depth 40 ft. both sides. depth 45 ft. at head of pier. Used for discharge and loading fuel. Also used for bunkering. Pipe-line installation.

Muelle Romero Dock – length 492 ft., depth (East side) 14 ft. fwd., 19 ft. aft (West side) 19 ft. 06 in. fwd., 22 ft. aft.

Above depths taken at low water.

STEVEDORES: Working periods: Monday to Friday 0700/1300 – 1300/1900 hrs.; Saturday the same; Sunday worked only if vessel completing cargo.

Raw Sugar: Loading rate about 1,200 bags loaded per gang period; 6 bags loaded per sling. 2 vessels can load sugar simultaneously.

General Cargo – approximate discharging rates:

General cargo	7–8 tons per gang hour
Bagged cargo	15 tons per gang hour
Iron	7 tons per gang hour
Wood	3 standards
Fertilisers	15 tons per gang hour

Shore Crane – there is movable crane with boom of 75 ft. length and lifting capacity about 19 tons.

Bulk sugar – 5 thrower machines available.

TANKERS: Average pumping rate: Molasses 30,000 g.p.h. Fuel oil 13,000 b.p.h.

COMMUNICATIONS: Radio telegrams, radiotelephony, telegraph and telephones. R.C.A., Inalambrica. All-American, Prewi, radio and Government telegraph. Also air, railroad and bus services.

Vessels can communicate with Santiago de Cuba through CLM and RCA.

MEDICAL: Sick crew members can be attended at Army Hospital or Los Angeles Hospital.

FUEL: Fuel oil and diesel oil available. Delivery rate about 7,000 b.p.h.

FRESH WATER: Can be supplied docked/anchored.

REPAIRS: Following repair shops: Joaquin Lamas, Giron.

SHIPMASTERS REPORT: April 1979.

Also see "Shipmasters Report" from Havana dated April 1979.

Documents:

12 Crew Lists.
5 Store Lists.
5 Declarations.
5 Currency Declarations.
5 Vaccination Lists.

These were all required even though the vessel had only come from Havana. Also a large number of transit documents were issued in Havana for entry here. Bond and safe seals may be opened whilst vessel at sea.

Points of Note:

a. No anchorage, recommend drifting about 5 miles from coast.
b. See Havana Report.
c. See Havana Report.
d. Port reasonably free of pollution, but large amount of construction in progress in harbour area.
e. No tugs appeared when we berthed.
f. At grain elevator shore gangway used.
g. No crew inspection.
h. See Havana Report.
i. See Havana Report.
j. See Havana Report.
k. Same system as Havana but shore leave from 1800 to 2200 hrs., and travel to town by launch. Also only allowed in area shown on pass. In this port fines are imposed for being late back or going outside area of pass. First time 25 peso, second time 50 peso and third time pass revoked. Only ten persons allowed ashore at any one time and a list of those going ashore must be presented to the Immigration guard before 1000 hrs. that day.

On Saturday and Sunday 16 persons are allowed ashore till 2400 hrs. and 2300 hrs. respectively.

l. See Havana Report.
m. See Havana Report.
n. As Havana, except Channel 16.
o. See Havana Report.
p. Berthed at grain elevator. 30 ft. alongside. The discharger has 2 heads and is fixed, the ship has to be warped up and down the quay. Wheat discharged at average 50 tonnes p.h. Work on a 24 hour basis.
q. All hatches again inspected.
r. As Havana, vessel was searched here 4 days after arrival. The search was carried out by the police and was very thorough. It included checks on money and goods declared and under seal. The radio room was sealed at the time.
s. See Havana Report.
t. Customs issue may be obtained every 3 days if required. I believe this applies in Havana as well.
u. In light of this vessels experience I would advise any vessel proceeding to Cuba to carry at least one month's reserve provisions.

AUTHORITIES: Located at Custom House building.

AGENT: Empresa Consignatarias Mambisas, PO Box 522, Jose Antonio Saco 10, Santiago de Cuba. Tel. 2891/7489 (night: 6874). Cables: "Mambisas Santiago de Cuba."

TANAMO: 20.44 N. 75.20 W.

ALSO SEE "LATE REPORTS" AND "LATE PLANS".

PILOT: Pilot boards about 1 mile from entrance. Pilot station located at entrance of port mouth. Usual means of communication is by launch. Distance from place where Pilots board vessels to: Punta Gorda Dock: 5 miles; Cayo Mambi Dock: 7 miles.

APPROACHES: Entrance channel has rocky and muddy bottom. There are 90° turns, and narrow passes.

RESTRICTIONS: Entry and sailing at slack water and daylight only. Tug assistance required for vessels between 450 and 600 ft. length.

MAX. SIZE: If berthing, draft 22 ft., length 450 ft. If anchoring, draft 28 ft.

BERTHING: Punta Gorda Dock: length 345 ft., depth East side 22 ft., West side 19 ft. Dock used for loading sugar and molasses; also for fuel oil discharge or heavy cargo.

Cayo Mambi Dock: length 200 ft., depth 14 ft. Dock used in discharge of coastwise merchandise.

Docks have railroad tracks of non-standard gauge. Punta Gorda Dock has 4 inlet tracks only. Cayo Mambi has 2 tracks.
STEVEDORES: Working periods: Monday to Friday 0700/1100 – 1300/1700 hrs.; Saturday 0700/1100 hrs.; Sunday no work performed.

Raw sugar: 975 sugar bags loaded per gang period. 6 sugar bags loaded per sling.

Refined sugar: 1,875 bags of 100 lb., loaded per gang period. 12 bags of 100-lb. type loaded per sling.

General Cargo: Working periods same as for sugar.
TANKERS: Molasses average pumping rate: 20,000 g.p.h. Fuel oil average pumping rate: 11,750 b.p.h.
COMMUNICATIONS: Long-distance telephone communication at sugar mill. Radio service Inalambrica and Government telegraph. Interior telephone communication between sugar mill yard and port.

Air service at Cayo Mambi. Vessels can communicate with Cayo Mambi by Government telegraph.
FRESH WATER: Can be supplied at Punta Gorda, delivery by pipe-line at rate of 5 t.p.h.
FUEL/REPAIRS: Not available.
MEDICAL: There is a hospital where sick crew members can receive attention in urgent cases. For serious cases, sick men are sent to Nicaro Hospital or to Santiago de Cuba.
AUTHORITIES: Port Doctor and Immigration Inspectors located at Sagua de Tanamo. Captain of Port and Custom House located at Cayo Mambi. Custom House and Captain of Port are Delegations of Antilla.

Entry and sailing clearances attended by Cayo Mambi Delegation Office. Port Authorities travel from Cayo Mambi to Punta Gorda by railroad, thereafter by launch to the anchorage.

SUB-AGENT: Empresa de la Industria Azucarera de Oriente, Central Frank Pais (Tanamo), Cayo Mambi, Oriente, Cables: "Franpa Cayo Mambi". Tel. 2 (night: Zona 2). Central Switchboard.

VITA (sub-port of Gibara – Oriente Province): 21.05 N. 75.57 W.

ALSO SEE "LATE REPORTS" AND "LATE PLANS".

PILOTAGE: Pilots board vessels 3 miles from entrance channel. Pilot station located at Vita. Interior telephone communication. Distance from place where Pilots board vessels to dock: 5 miles.
APPROACHES: Owing to narrowness of channel, turns may be considered as dangerous for vessels over 450 ft. length.
RESTRICTIONS: Entry and sailing only during daylight.
MAX. SIZE: Max. draft with which vessels can enter/sail is 27 ft. at high tide and 26 ft. at low tide. Max. length 500 ft. (although vessels with length of 550 ft. have entered this port).
BERTHING: Dock: length 300 ft., depth 26 ft. Vessels drawing 26 ft. 6 in. or 27 ft., touch bottom. Loading of sugar and molasses and discharge of fuel. Only one railroad track of non-standard gauge.
STEVEDORES: Working periods: Monday to Friday 0700/1100 – 1300/1700 hrs.; Saturday 0700/1100 hrs.

800–1,100 sugar bags loaded per gang period. Four sugar bags are loaded per sling.
TANKERS: Average pumping rate (molasses) 25,000 g.p.h.
COMMUNICATIONS: Long-distance telephone, post and telegraph services.
MEDICAL: No hospital at Vita. Sick crew members can receive attention at Gibara Hospital. Port Doctor at Santa Lucia, Oriente.
FUEL/REPAIRS: Not available.
FRESH WATER: Can only be supplied in exceptional cases. Delivery by 2-in. diameter pipe, by gravity. Delivery average 3 t.p.h. Recommended that Masters always check availability in advance.
AUTHORITIES: Immigration at Chaparra, who travels to Vita on ship's arrival advice. Captain of Port at sub-port of Vita. Gibara is the Customs Official Port having Custom Delegation at sub-port of Vita. Vessels can proceed directly to Vita where they are cleared by Authorities.
SUB-AGENT: Empresa de la Industria Azucarera de Oriente, Central Rafael Freyre (antes Santa Lucia), Oriente. Cables: "Rafy Santa Lucia Oriente." Tel. Dock 43–3. Centre 37–1. Home 28.

PILOTAGE: Ships are not allowed to enter the port or berth at the mooring buoys outside the breakwater port without Pilot, unless permission is granted by the Port Authority. Port Authority Pilot boards vessel at roadstead. Master must give 24 hour's notice of ETA to vessel's Agents to enable them inform the Port Manager in time. Pilot boat is of light grey colour flying Pilot flag. Pilot may be contacted on VHF Channel 16 during working hours. Pilot's Telegraphic Address is: Port Manager, Larnaca, Cyprus. Tel.: 041–53563.
ANCHORAGE: Open roadstead.
RESTRICTIONS: See "Max. Size" and "Berthing". Rise of tide up to 1.5 ft.
MAX. SIZE: For berthing in the port, vessels must not exceed 500 ft. LOA.However vessels of few feet in excess may receive berthing permission if vessel's manoeuvrability and prevailing weather conditions permit.

The port is dredged to 31 ft. (9.5 m.) Max. draft allowed 9 m. The height of the quay above sea level is 2.30 m.

Tankers discharge outside port at mooring buoys. Draft up to 32 ft. Max. LOA 600 ft.

HEALTH: Pratique is required at Cyprus first port of call only. Pratique is granted either before or after berthing as appropriate.
RADIO: Cables sent through "Cyprus Radio", call sign: 5BA.
RADAR/VHF: Port Manager Larnaca and Pilot service on VHF Channel 16.
TUGS: Port Authority tugs join vessels outside breakwater using ship's lines.
BERTHING: Vessels may berth inside port between 0600 hrs. and sunset, but may unberth and sail until midnight. Cargo vessels are allowed to berth during night-time provided berth space is available and vessel will immediately operate with at least 1 gang.
Quay length; (a) Main quay 1,060 ft. (326 m.) and (b) Floating pontoon quay 656 ft. (200 m.).
CRANES: 9 mobile cranes 2 to 15 ton, 1 – 35 ton level luffing crane.
BULK CARGO FACILITIES: Not available.
SPECIALISED CARGO-HANDLING FACILITIES: Ro-Ro and containers facilities available.
BRIDGES: None.
STEVEDORES: 24 hours notice of ETA to Agent is required to enable him arrange gangs.
MEDICAL: It is necessary for Agent to receive advance notice of at least 2–3 hours before vessel's arrival. Hospital facilities constantly available. Smallpox vaccination is necessary; other inoculations or vaccinations are required according to prevailing circumstances.
TANKERS: Diameter of discharge lines up to 12 in. Max. draft 32 ft. Discharging takes place at mooring buoys outside port. Position of buoys 34° 54′ 75″ N., 33° 39′ E. No slop discharge facilities.

Buoy berths outside port:

Synergas Co-Operative Society Ltd: Depth of water 11.0 m. Pipe-lines 2. Fresh water not available. Pilot available through Port Manager at Larnaca. Position of buoys, 34° 55.5′ N., 33° 40′ E.

Petrolina Ltd: Depth of water at end of pipe-line 11.0 m. Pipelines 3. Pilot available through Port Manager at Larnaca. Position of buoys 34° 55′ N., 33° 39′ E.

Shell Company of Cyprus Ltd: Depth of water 11.0 m. Pipe-lines one 8 in. white oil line jointly owned by Shell, Mobil and Esso. Fresh water available by pipe-line. Pilot available through Port Manager at Larnaca. Position of buoys, 34° 54.75′ N., 33° 39′ E.

Agip: Depth of water 6 m. (approx.). Pipe-lines two. Fresh water not available. Pilot available through Port Manager at Larnaca. Position of buoys, 34° 55.5′ N., 33° 39.5′ E.

Cyprus Petroleum Refinery Larnaca: Depth of water 11.0 m. Pipe-lines 1×12 in. for crude oil and 1×8 in. for ballast. Fresh water available by pipe-line. Pilots available through Port Manager at Larnaca. Position of buoys 34° 54.75′ N., 33° 39′ E.

Mobil Oil Cyprus Ltd: Depth of water, 11.0 m.
Pipe-lines: 1×8 in., Jointly owned by Mobil, Shell and Esso.
1×4 in., LPG Line owned by Esso.
1×4 in., Vapour Line owned by Esso.
1×3 in., LPG Line owned by Mobil.
1×3 in., Vapour Line owned by Mobil.
1×2 in., Fresh water underwater pipe-line.

DENSITY: 1025.
FRESH WATER: Facilities available on quay. Delivery by hoses at about 50 t.p.h.
FUEL: 12 hour's advance notice is required. Available in unlimited quantities.
FIRE PRECAUTIONS: No tankers are allowed in the port. Vessels and operators must comply with internationally applicable regulations concerning explosives and dangerous goods.
CONSULS: Italy, Sweden, Denmark, Portugal, Finland.
REPAIRS: Minor repairs and overhauls may be carried out.
DRY DOCKS: Not available.
SURVEYORS: Lloyds, Bureau Veritas, Registro Italiano Navale, Germanischer Lloyd.
GANGWAY/ DECK WATCHMEN: Not necessary but available.
HATCHES: Opened and closed by crew.
CUSTOMS ALLOWANCES: 50 grams tobacco or 40 cigarettes, and 0.25 litres spirits, 0.25 litres wines, per man per day.

For reasons of administrative convenience, issues of high duty goods for use by Crew on board will be made every 3 days, beginning with the first day of the ship's arrival in Cyprus waters. For each member of the Crew (other than the Master, the Chief Officer and the Chief Steward) each issue will consist of, 120 cigarettes or an equivalent quantity of other tobacco goods. 1 bottle of spirits, and 3 bottles of wine.

Each issue for the Master, the Chief Officer and the Chief Steward of ocean-going vessels will consist of: 200 cigarettes, 2 bottles of spirits and reasonable quantity of wine they may request.

Concessions to Crew landing from ship. On coming ashore, for a short period, 50 grams of tobacco, or 40 cigarettes per day or part thereof.

The above allowances are in force for all Cyprus ports.

CARGO GEAR: Load or discharge may be effected either by ship's or shore gear. 35 ton heavy lift crane available.
REPATRIATION: Facilities are available.
AIRPORT: Larnaca International Airport 3 miles from Larnaca Port. Daily flights to Europe and Middle East.
TIME: GMT plus 2 hours.
HOLIDAYS: Every Sunday; 1st January; 6th January; 25th March; 1st May; 28th October; 29th October; Good Friday; Saturday following Good Friday; Easter Monday; First Day of Kurban Bairam; Birthday of Prophet; First Day of Ramazan Bairam; Christmas Day; Boxing Day.

Work can be arranged on any holiday other than New Year's Day, Christmas Day, and Easter Sunday.

POLICE/AMBULANCE/FIRE: Police 52001, Hospital (ambulance) 52007, Fire 52683.
TELEPHONES: Line available for placing telephone on board.
SERVICES: Compass adjusting; Radar; Radio telephones; Gyro compass repairs; hull scraping and engine repairs.
SHORE LEAVE: Crew members are allowed ashore.
IDENTIFICATION CARDS: Shore leave passes are issued. Seaman's Book or Passport required whilst ashore.
REGULATIONS: Port Manager's permission is required for: immobilising engine, cleaning or repairs whilst vessel alongside quay, lowering lifeboats and use of ship's radio. Port and customs clearance required before departure. Cyprus flag to be hoisted on mast from 0800 hrs. to sunset. Landing of dogs or other animals not allowed; also

discharging of fruits, vegetables and eggs unless authorised by Produce Inspection Office. Disposal of garbage and waste strictly prohibited both in port and Cyprus waters.
DELAYS: According to prevailing circumstances but normally no delays.
DEVELOPMENTS: Extension of quay length by 340 m. Specialised ro-ro and container berths. Additional warehouse space and extension of open storage space for general cargo and containers. New specialised equipment. New luggage hall. New administration building. The development programme is expected to be completed in 1981.
GENERAL: Weather conditions permit entrance and working of ships all the year round.
AUTHORITY: Port Manager, Cyprus Port Authority, Larnaca.

LATCHI (Limni Mines): 35.03 N. 32.27 E.

DOCUMENTS: See "Limassol".
PILOTAGE: No Pilot available. Vessels chartered for Company advise ETA via Cyprus Radio to "Limni Poliscyprus". Anchorage 0.5 mile North of Mavroli Pier. During daylight hours Company launch leads vessels to anchorage.
ANCHORAGE: As above, depth 0.5 mile from pier is 10 fathoms.
MAX. SIZE: No restrictions on size.
HEALTH: All necessary action to obtain pratique made by Agent in the event of any suspected disease on board, necessary action and precautions taken by Health Authorities.
RADIO: Cyprus Radio – call sign BA on 500 or radio telephone 2182.
TUGS: None available.
BERTHING: Mavroli Pier in Khrysokhou Bay, in position 35° 03′ 15″ N. 32° 27′ 10″ E. bearing 072° approximately 3.2 miles from Latchi. Necessary to have Cyprus flag, and to have gangway and not a rope ladder for Authorities and stevedores to board.
STEVEDORES: ETA advice required order arrange gangs at least 24 hours. Loading rate 2,000 tons per day. Loading from 6 barges, average capacity 45 tons each.
MEDICAL: Agent to receive 24 hours notice. Hospital facilities available at Ktima, 24 miles from Terminal at Limni. Each member of crew to possess valid vaccination certificate.
DENSITY: 1025.
FRESH WATER: None available.
FUEL: Not available.
GANGWAY/DECK WATCHMEN: Unnecessary.
OPENING/CLOSING HATCHES: Done by the crew.
CUSTOMS ALLOWANCES: See "Limassol".
IDENTIFICATION CARDS: Required.
CONSULS: No consuls at Terminal.
REPAIRS: No repairs can be carried out.
REPATRIATION: Can be arranged through Nicosia Airport.
AIRPORT: Nicosia Airport 68 miles away, served by regular airlines.
TIME: GMT plus 2 hours. Permanent.
HOLIDAYS: See "Limassol".
POLICE/AMBULANCE/FIRE: Such services arranged through Agent.
TELEPHONES: No arrangements exist for placing on board.
SHORE LEAVE: Landing permits obtainable from local Police Authorities by lodging passports or seamen's books.

LIMASSOL: 34.40 N. 33.03 E.

DOCUMENTS:
- 1 Arrival Declaration.
- 4 Crew Lists.
- 4 Passenger Lists and 1 Transit Passenger List (the latter in case of passenger vessels).
- 3 Transit Passenger Lists.
- 1 Fire Arms Declaration.
- 1 Stores Declaration.
- 1 Declaration signed by each member of Crew stating dutiable goods in their possession.
- 1 Form of appointment of Agent.
- 1 Maritime Declaration of Health.

PILOTAGE: Ships are not allowed to enter the port or to berth at the mooring buoys outside the breakwater port without Pilot, unless permission is granted by the Port Authority. Port Authority Pilot boards vessel at roadstead. Master must give 24 hour's notice of ETA to vessel's Agents to enable them inform the Port Manager in time. Pilot's Telegraphic Address is Port Manager, Limassol, Cyprus. Tel.: 051-65246.
ANCHORAGE: No specific boundary but ships usually anchor about 0.5 mile S.E. of lighter basin entrance where depth is 8 fathoms.
RESTRICTIONS: See "Max. Size" and "Berthing". Rise of tide up to 1.5 ft.
MAX. SIZE: *Old Port:* Vessels berthing must not exceed 265 ft. LOA and 14 ft. draft.

New Breakwater Port: Depth alongside 11 m. Max. draft 10.5 m. No LOA limit on ships entering and berthing. The height of quay above sea level is 2.30 m.
HEALTH: Pratique is required at first Cyprus port of call only. Pratique is granted either before or after berthing as appropriate.
RADIO: Cables sent through "Cyprus Radio", call sign: 5BA.
RADAR/VHF: No port radar service. Port Manager and Pilots equipped with VHF radiotelephone operating on Channels 16 and 14 during office hours only.
TUGS: Port Authority tugs join vessels outside breakwater using ships' lines.
BERTHING: Vessels may berth inside port between 0600 hrs. and sunset, but may unberth and sail until midnight. Cargo vessels are allowed to berth during night-time provided berth space is available and vessels will immediately operate with at least 1 gang. Quay length available 800 m.
CRANES: Floating crane with capacity of 60 tons at 22 m. and 15 tons at 30 m. Luffing Crane on rails with maximum capacity of 35/5 tons at 26/30 m. 16 mobile cranes 3 to 16 ton. 6 straddle van 4 carriers.
STEVEDORES: 24 hours notice of ETA to Agent is required to enable him arrange gangs.
MEDICAL: It is necessary for Agent to receive advance notice of at least 2–3 hours before vessel's arrival. Hospital facilities constantly available. Smallpox vaccination is necessary; other inoculations or vaccinations are required according to prevailing circumstances.
TANKERS: Not allowed to berth in the port. No slop discharge facilities.
FRESH WATER: Facilities available on quay.
FUEL: 12 hours' advance notice is required. Available in unlimited quantities.
FIRE PRECAUTIONS: No tankers are allowed in the port. Vessels and operations must comply with internationally applicable regulations concerning explosives and dangerous goods.
CONSULS: Belgium, Holland, Italy and France.
REPAIRS: A floating dock 66 m. long and 18 m. wide capable of lifting a 1,200 tons light ship is in operation.
SURVEYORS: Lloyds, Bureau Veritas, Registro Italiano Navale, Germanischer Lloyd.
GANGWAY/DECK WATCHMEN: Not necessary.
OPENING/CLOSING HATCHES: By crew or stevedores.
CUSTOMS ALLOWANCES: 50 grams tobacco or 40 cigarettes, and 0.25 litres spirits, 0.25 litres wines, per man per day.

For reasons of administrative convenience, issues of high duty goods for use by crew on board will be made every 3 days, beginning with the first day of the ship's arrival in Cyprus waters. For each member of the crew (other than the Master, the Chief Officer and the Chief Steward) each issue will consist of, 120 cigarettes or an equivalent quantity of other tobacco goods, 1 bottle of spirits and 3 bottles of wine. Each issue for the Master, the Chief Officer and the Chief Steward of ocean-going vessels will consist of: 200 cigarettes, 2 bottles of spirits and reasonable quantity of wine they may request. Concessions to crew landing from ship. On coming ashore, for a short period, 50 grams of tobacco, or 40 cigarettes per day or part thereof.
CARGO GEAR: Load or discharge may be effected either by ship or shore gear. 35 tons heavy lift crane and 60 tons floating crane available.
REPATRIATION: Facilities suitable for effecting crew changes and arranging any necessary repatriations. Usually arranged with Agent.
AIRPORT: Larnaca International Airport served by regular lines, situated 43 miles from Limassol.
TIME: GMT plus 2 hours. Permanent.
HOLIDAYS: Every Sunday; 1st January; 6th January; 25th March; 1st May; 28th October; 29th October; Good Friday; Easter Monday; First Day of Kurban Bairam; Birthday of Prophet; First Day of Ramazan Bairam; Christmas Day; Boxing Day. Work can be arranged on any holiday other than New Year's Day, Christmas Day, and Easter Sunday.
POLICE/AMBULANCE/FIRE: Tel: Police 63171; Ambulance 63111, Fire Brigade 71939 or 999.
TELEPHONES: Available on request, for placing on board.
SERVICES: Compass adjusting, servicing of radar, R/T, echo sounders.
SHORE LEAVE: Allowed.
IDENTIFICATION CARDS: Shore leave passes are issued. Seaman's Book or Passport required whilst ashore.
REGULATIONS: Port Manager's permission is required for: immobilising engine, cleaning or repairs whilst vessel alongside quay, lowering lifeboats and use of ship's radio. Port and Customs clearance required before departure. Cyprus flag to be hoisted on mast from 0800 hrs. to sunset. Landing of dogs or other animals not allowed; also discharging of fruits, vegetables and eggs unless authorised by Produce Inspection Office. Disposal of garbage and waste strictly prohibited both in port and Cyprus waters.
DELAYS: According to prevailing circumstances but normally no delays.
DEVELOPMENT: Extension of quay length by 480 m. Specialised ro-ro and container berths. Additional warehouse space and extension of open storage space for general cargo and containers. Specialised equipment for the handling of general cargo and containers including one portainer. One container consolidation shed. New passenger terminal. New administration building. The development programme is expected to be completed in 1981.
GENERAL: Weather conditions permit entrance and working of ships all the year round.
AUTHORITY: Port Manager, Cyprus Ports Authority, Limassol.

MONI: 34.42 N. 33.11 E.

PILOTAGE: Pilots available from Limassol.
RADIO: Communication between ship and shore by Walkie-Talkie after berthing.
BERTHING: *Electricity Authority of Cyprus:* Buoy berth for oil. Min. depth of water 18.29 m. One pipe-line. Position of buoys 34° 41′ 50″ N., 33° 10′ 36″ E.
Cyprus Cement Factory: Depth of water 9.75 m. One pipe-line. Position of buoys, 34° 41′ 50″ N., 33° 10′ 36″ E.
FRESH WATER: By barge from Limassol, rate 10 t.p.h.

VASSILIKO BAY: 34.43 N. 33.19 E.

LOCATION: 13.5 miles due East of Limassol on South coast of Cyprus, and 1.5 miles West of Zyghi.
PILOTAGE: Company's Pilot available for berthing and shifting operations.
PYLON: The pylon, diameter of 34 ft. fitted with mechanism which enables buckets conveying ore along ropeway, to be emptied automatically through a chute into holds of ships.
MAX. SIZE: Ore carriers of 12,000 d.w.t. and over can be accommodated. Max. permissible height of ship between sea level and top of hatches (vessel in full ballast) 25 ft. Max. length 450 ft. Max. beam 60 ft.
BERTHING: Depth of water at pylon 30 ft., but if necessary ships may berth further out where depth 31–32 ft. In such cases, double chute used. Height of articulation of chute 49 ft. above sea level; height of unloading tip varies according type chute used. Bottom of sea near pylon, sandy.
LOADING: Loading of ores (pyrites and gypsum-rock) effected through an aerial maritime ropeway line, which starts at a point close to the shore and extends over a distance of 1,750 ft. in the sea to a reinforced concrete pylon. Ropeway cables supported at 3 intermediate points by steel trestles.
CAPACITY: Installation has loading capacity of 3,500/4,000 tons pyrites and 2,500/3,000 tons gypsum rock per 24 consecutive hours; electrically operated and all ores automatically weighed at loading point by means of electric Avery machine.
TANKERS: One pipe-line to buoy berth, depth of water, 12.19 m. Position of buoys, 34° 42′ 42″ N., 33° 18′ 42″ E.
FRESH WATER: By barge from Limassol.
HOLIDAYS: All weekends and 18 days throughout the year.

NOTES

Please also advise Shipping Guides Ltd.

Denmark

GENERAL

A routeing system has been established, so ships with a draft up to 17 m. (55.77 ft.) can pass the Great Belt. Ships bound for the Baltic are restricted to a draft of 15 m. (49.21 ft.) owing to shallow waters N.E. of Gedser.

For the passage through Danish waters by ships with a d.w.t. of more than 40,000 tons or with a draft of 13 m. or more, we would like to draw your attention to the "IMCO–recommendation of Nov. '75 on navigation through the entrances to the Baltic Sea", and to the radio reporting system established by the Danish Ministry of Commerce.

PILOTAGE: *Grenå Sea Pilot Station:* Grenå Sea Pilots are serving ships through The Great Belt, Southbound, in transit to Baltic; to Danish ports and Kiel.

Pilot position:

56° 24′ N. 11° 06′ E.
Buoy No. 4. Way A.
6 nautical miles E. of Grenå Harbour.

Pilot requirements:

a. ETA buoy No. 5 (12–24 hours ETA if possible)
b. Destination.
c. Deepest draft.
d. Speed.
e. To where Pilot is required.

Particulars:

Cable Address: Grenå Pilot Grenå.
Telex: 63456 lodsgr. DK.
Phone: 06 320550.
VHF 24 hours: Channels 16, 13 and 12.
Address: Grenå Pilot Station,
Færgehavnen,
8500 Grenå,
Denmark.

Airport:
Tirstrup domestic airport is situated about 25 km. from Grenå town. Several daily connections with Copenhagen international airport. Direct flights from Tirstrup to U.K.

AABENRAA: 55.02 N. 09.26 E. (See Plan Book)

LOCATION: Aabenraa is situated on the East Coast of Jylland (Jutland) in the Aabenraa Fjord.
DOCUMENTS: Crew list, passenger list, tobacco list, stores list, loadline certificate (all vessels above 150 g.r.t.), safety equipment (all cargo vessels of 500 g.r.t. and over), derating, tonnage and nationality, clearance from last port of call, cargo documents.
PILOTAGE: Not compulsory, but recommended for vessels over 2,000 g.r.t. Telegraphic address: "Pilot – Aabenraa". Short notice about 2/4 hours – VHF Channel 16. Small red motor-boat flying International pilot flag. Normally located middle of Aabenraa Fjord. On request Pilot comes aboard vessel between buoys 3–4, way 25.

Larger ships usually take Pilot by Skaw L/V. Pilots to be ordered by ETA-telegrams to "Skawpilot Skagen", at least 12 hours in advance. Skawpilot listening on VHF Channel 16.

ANCHORAGES: Aabenraa Fjord or road. Depths: about 75/80 ft.
RESTRICTIONS: See "General" before first port.
MAX. SIZE: Length and breadth no restrictions. Draft limit: max. 36 ft. at Aabenraa, max. 32 ft. at Ensted Harbour (Power Station). Also see "Ensted". No tide – occasionally low water of 3–5 ft. in heavy gales from West. Entry day or night.
HEALTH: In event of disease or fever on board, vessel's Agent to be informed before arrival.
RADIO: Blavand Radio or Lyngby Radio.
VHF: The port is equipped with Channels 12 and 16.
TUGS: There are no tugs stationed in the port, however, tugs of 1,400 h.p. – 3,600 h.p. available at 12 hrs. notice.
BERTHING: There are 3 basins and a tanker berth.

Sydhavn: 250 m. quay, depth 5.5 m.
Gammelhavn: 500 m. quay, depth 7.5 m.
Nyhavn: 400 m. quay, depth: first 160 m., 8.5 m., next 130 m., 7.5 m., remaining 210 m., 6.5 m.
Oil jetty: "T"-head with breasting dolphins, depth 11 m.

For the port the mean water-level is 0.0. The average tidal range is 0.4 m. Extreme high water level is plus 1.5 m. and extreme low water is minus 1.4 m. due to strong North/Easterly gales and strong South/Westerly gales. There are no currents except in connection with the tide. The port can be entered day and night, and is generally open for navigation throughout the year and in case of ice-difficulties during Wintertime, state-owned icebreakers will keep the port open for navigation.

DENSITY: Average water density in port area 1015.
CRANES: 2 electrical coal/coke/grain/gravel cranes – 200 t.p.h.

3 mobile cranes – lifting capacity 20 tons at 21.3 m.
1 mobile crane – lifting capacity 11 tons at 10.6 m.
1 auto crane – lifting capacity 30 tons
1 front loader (shovel and fork)
1 fork lift – 4 tons capacity
Tractors and similar modern machinery also available.

STEVEDORES: Stevedores arranged by Agent.
MEDICAL: 12 hours notice required to arrange for doctor to come on board. Hospital in Aabenraa.
TANKERS: Load/discharge connection 6 in. or 8 in. Also see "Berthing". Facilities for dirty ballast available.
FRESH WATER: Day and night from shore line, 10/15 t.p.h.
FUEL: All grades available by barge or truck. Minimum 24 hours notice.
GANGWAY/DECK WATCHMAN: Can be arranged.
OPENING/CLOSING HATCHES: By crew.
CUSTOMS ALLOWANCES: Tobacco, 100 cigarettes per man for 3 days. Wine and/or Spirits, 1 bottle spirit or wine per man.
IDENTIFICATION CARDS: Not needed.
CONSULS: German; Finnish; Norwegian; Swedish; British.
REPAIRS: All types of deck and engine repair are possible.
DRY DOCK: Shipyard with floating dock of 7,000 tons lifting capacity.
SURVEYORS: Lloyds and N.V. available.
REPATRIATION: Facilities exist for effecting crew changes.
AIRPORT: Skrydstrup. Distance from airport is 25 km. Airport is served by regular airlines.
TIME: Local time is GMT plus 1 hour.
POLICE/AMBULANCE/FIRE: Dial "000".
TELEPHONES: None available for placing on board.
SHORE LEAVE: Crew members allowed ashore.
DEVELOPMENTS: New pier (250 m. with 11 m. depth) construction started beginning of 1980 and expected completed in 1982.
DELAYS: Normally no delay except during severe Winters due to ice between mid December and end March.
AUTHORITY: Harbour Master.

AGENT: Aabenraa Skibsagentur ApS, Kilen 29, DK. 6200 Aabenraa. Telephone: 4-627700 (day and night). Telex: 52160. Cable: Shipagency Aabenraa.

AALBORG: 57.03 N. 09.55 E. (See Plan Book)

DOCUMENTS:

Ship's Register.
Load-line Certificate. (All vessels over 150 g.r.t.)
Road Safety Certificate.
Safety Equipment Certificate.
Derat Certificate or Exemption.
1 Crew List.
Stores List.
Crew Personal Effects List.
Cargo Manifest or Bills of Lading.

PILOTAGE: Compulsory at Hals Bar for ships drawing more than 5 m. Pilot boards at Hals Bar Light. Pilot boat equipped with VHF Channel 16. The Western entrance at Logstor is only navigable in daylight for vessels under 4 m. draft.

Bigger ships usually take Pilot by Skaw L/V. Pilots to be ordered by ETA-telegrams to "Skawpilot Skagen", at least 12 hours in advance. Skawpilot listening on VHF Channel 16.

Also see "Bridges".

ANCHORAGE: Vessels may anchor in Limfjord or Aalborg Roads, depths 9 – 15 m.
RESTRICTIONS: The port is situated in Limfjord, 16 miles from entrance at Hals. Controlling factor is depth at Hals Bar. 9.5 m. MLW. Night entry permitted. Also see "General" before first port and "Bridges".
MAX. SIZE: Max. draft for crossing Hals Bar 8.5 m.
HEALTH: Pratique granted by Customs Officers who bring Health Declaration for Masters to complete. In event of suspected disease or fever on board radio details to Agent before arrival. When vessel arrives from port outside of Europe and U.S.A. and has been less than 14 days at sea, all crew members require valid smallpox vaccination certificates.
RADIO: Radio stations to be used: Skagen and Lyngby, Port Authority, Pilot station. Tugs and Bridges can be contacted on VHF Channel 16.
TUGS: Eight tugs available from 250 to 2,000 h.p. Not compulsory except through bridges for vessels over 1,500 d.w.t.
BERTHING: Aalborg on North and South sides of Limfjord. Total quayage 11.5 km., whereof public quays 10.1 km. All main quays suitable for vessels able to cross Hals Bar. Depths alongside 7.5 to 10.0 m.

Vendsysselvaerket Power Station wharf, depth 10.0 m.
Lindholm Pier Cement factory wharf, depth 7.8 m.
Rordal Cement factory wharf, depth 7.5 – 9.3 m.

BRIDGES: Two lift bridges cross Western end of Aalborg harbour. Horizontal opening 30 m. Only vessels bound for Lindholm Pier are affected.

Close South East of the power station is an overhead power cable (vertical clearance 50 m.) which spans the fjord. Pilotage is compulsory for vessels over 800 g.r.t.

MEDICAL: Doctors, hospital facilities available.
FRESH WATER: Supplied by pipe-line at all berths.
FUEL: All grades available.
DEVELOPMENTS: Aalborg has considerable areas under development for industry. In connection with this, preparations are being made for the building of new public harbour facilities. On the South bank of the fjord the Port Authority has available a 3.2 km stretch of coast with an area of approx. 206 hectares. This area is in connection with a new industrial and residential district of approx. 400 hectares. According to present plans approx. 7,000 m. of new quayage can be built here. Investments are estimated at 350 mill. Kr. Factories within the electronic and textile sectors are already established here and a continuous expansion goes on. On the site a special harbour with a quayage of 660 m. and with facilities for unit load ships as well as conventional cargo ships, with warehouses and administration blocks etc. was constructed during 1972 as base port for the Royal Greenland Trade Department's routes calling at all ports in Greenland. Enterprises undertaking construction, repairs and maintenance of oil rigs etc., for offshore activities have also settled on this site.
DECK WATCHMEN: Available but not compulsory.

OPENING/CLOSING HATCHES: Normally by crew with assistance of stevedores.
IDENTIFICATION CARDS: Not required.

POLICE/AMBULANCE/FIRE: Tel. 000
TELEPHONES: Installed by request at certain quays.
SHORE LEAVE: No restrictions.
AIRPORT: Situated 3 miles from town centre.
AUTHORITY: Aalborg Havnevaesen.

AGENT: Chr. Jensen, Soeborg & Benthin's EFTF. Limfjordsterminalen, Strandvejen 2, PO Box 160, 9100 Aalborg. Telex 69735. Cables "Soeborg". Tel. (08) 122566.

ARHUS: 56.09 N. 10.13 E. **(See Plan Book)**

DOCUMENTS:
- Ship's Register.
- Derating Certificate.
- Load Line Certificate (all vessels above 150 g.r.t.).
- Radio and Equipment Security Certificate (all cargo vessels on 500 g.r.t. and above).
- Customs Passport from last port of call.
- Spirits and Tobacco List specifying stock in hand for ship and crew.

PILOTAGE: Not compulsory. Harbour Pilot normally boards 1-2 miles outside port.

Bigger ships usually take Pilot by Skaw L/V. Pilots to be ordered by ETA-telegrams to "Skawpilot Skagen", at least 12 hours in advance. Skawpilot listening on VHF Channel 16.
ANCHORAGE: Anchorage in roads – good holding ground. Nature of bottom: clay.
RESTRICTIONS: No restrictions. Night entry permitted. Also see "General" before first port.
MAX. SIZE: Oil port 36 ft. General cargo port up to 33 ft. Container terminal up to 36 ft. Eastern Division 39 ft. No tide.
HEALTH: Necessary formalities carried out by customs on arrival.
RADIO: Radio stations to be used: Skagen and Lyngby. Pilot station and tugs can be contacted on VHF Channel 12 and 13 – emergency 16.
TUGS: Call by VHF.
CARGO HANDLING FACILITIES: 7 cranes for coal, fertilisers, sulphur, ore, etc.; max. capacity per crane, 120 t.p.h. 10 cargo handling cranes up to 2.5 tons and 9 cranes up to 5 tons. One floating crane up to 20 tons and 3 mobile cranes up to 4 tons.

Container Terminal: Min. depth of water 10 m. (33 ft.). Total quay length 816 m. (2,677 ft.). 1 cargo handling and container crane up to 50 tons. 2 gantry container cranes up to 40 tons. Fork lifts up to 32 tons.

Roll-on/roll-off: 2 moveable and 3 solid roll-on/roll-off berths. Fork lifts up to 32 tons. Several berths for liquid chemicals and LPG carriers.

Private Cranes: 4 travelling cranes on carriage bridges for handling of coal, coke, fertilizer, and broken stone, etc., capacities 5–7.5 tons. 1 travelling crane on fixed bridge for handling of sand, stone and gravel, etc., capacity 90 t.p.h. 2 travelling cranes on carriage bridges for handling of general cargo, capacity 1.5 tons.

Private Suction Plants, etc.: 4 grain suction plants, capacities of 60–100 t.p.h. 1 grain elevator, capacity of 35 t.p.h. 4 grain loading pipes. 6 cup elevators for copra and soya beans (80 t.p.h. each). 4 suction elevators for copra and soya beans (125 t.p.h. each). 1 loading pipe for copra and soya beans.

Arhus Stevedore Company: 2×40 ton, 2×30 ton, fork trucks with telescopic yoke for top lifting of containers. 1×32.5 ton, 1×23.5 ton, fork trucks with top lifting yoke for containers. 1×12.5 ton, 26×3–7 ton fork trucks. 5×3 ton electric pallet lifters. 5 shovel trucks for stowing. 7 terminal tractors with Appurtenant swan's necks. 18 terminal carriages.
STEVEDORES: Available. Ordered by Agents.

Normal working hours: Mondays/Fridays 07.00–16.30 hrs. Work on Saturdays, Sundays and Holidays is on full overtime terms only.

Meal hours: 08.30–09.00 and 12.00–13.00 hrs.

Shifts: Labour can be employed Mondays/Fridays at 07.00 hrs. and at 10.00 hrs., although the 07.00 hr. shift is by far the best supported.

On Fridays and on a day preceding a holiday labour can also be employed at 13.00 hrs. (for overtime work generally).

Furthermore labour can be transferred from a completing vessel to another job within normal working hours provided certain union regulations are observed. Crew is not allowed to load, discharge or run the winches under normal circumstances.

Overtime: Can be worked round the clock against overtime pay. The rates for the first 3 hours are plus approximately 50% and all following hours plus 100%.

First shift is from 07.00–21.00 hrs. and next from 21.00–07.00 hrs. the following morning.

Week-end work: Can be ordered as late as Friday 13.00 hrs. (deadline) but ordering during Thursday gives a far better position for making a good arrangement.
MEDICAL: All medical services possible. Call Pilots if medical attendance required aboard.
TANKERS: Discharge lines: 4 in., 6 in., 8 in. and 10 in. Quay 201–203, max. oil discharging 1,200 cu.m./hr. Quay 202 and 124, 1,000 cu.m./hr., and quay 120, 800 cu.m./hr.
FRESH WATER: Most berths supply by shore installations, otherwise barge.
FUEL: All grades available.
FIRE PRECAUTIONS: Tankers discharging: Fire watch. Special harbour fire fighting on tugs.
DEVELOPMENTS: The new Eastern Division comprises of a land area of 45 hectares, 2,000 m. of quays and up to 39 ft. depth of water.
DECK WATCHMEN: Available, but not compulsory.
OPENING/CLOSING HATCHES: Normally by crew with assistance of stevedores.
IDENTIFICATION CARDS: Not required.
CONSULS: Belgium, Tel. (06) 13.18.55; Brazil, Tel. (06) 12.88.88; Finland (06) 29.21.00; France (06) 11.22.22; Germany (06) 12.32.11; Great Britain (06) 17.66.33; Greece (06) 27.12.66; Iceland (06) 13.40.00; Japan (06) 14.48.00; Netherlands (06) 12.81.88; Norway (06) 14.41.11; Spain (06) 12.46.44; Sweden (06) 27.32.33.
REPAIRS: Most repairs and overhauls possible. See "Dry Docks".
DRY DOCKS: Dannebrog Vaerft A.S. The shipyard possesses a large repair section and specializes, among other things, in extending ships and in undertaking comprehensive re-building. But all kinds of ships' repairs and overhauls of machinery are performed in its modern workshops. It employs a staff of 500–600, and it has recently invested in new cranes, floating docks, and workshops.

The yard's Dock No. 1 measures 141 m. and is 24 m. wide. Its capacity is ships up to 167.6 m. long, 22.8 m. wide, and with drafts of 5.8 m. and a maximum net weight of about 8,000 tons corresponding to a d.w.t. of about 16,000 tons. Dock No. 2 is 83 m. long and also 24 m. wide. Its maximum capacity is ships of 110 m., a width of 22.8 m., a draft of 5.8 m., and a maximum net weight of 4,000 tons corresponding to about 7,000 d.w.t.

There are also two minor slipways in the Port of Arhus, and the city possesses all sorts of service workshops which are available to ships needing installations or repairs of electronic or mechanical equipment in either the engine room, the catering department, or on deck.
REPATRIATION: Arhus Sofarts Service. Tel. (06) 19.13.33.
AIRPORT: 32 km. – 20 miles from port.
TIME: GMT plus 1 hour in Winter. GMT plus 2 hours in Summertime (April to October).
HOLIDAYS: 5 day week, but loading and discharging can be effected on Saturdays and Sundays on payment of overtime. See "Copenhagen".
POLICE/AMBULANCE/FIRE: Tel. "000".
TELEPHONES: At several piers.
SHORE LEAVE: No restrictions.
AUTHORITY: Port of Arhus Authority.

ASNAES: 55.40 N. 11.05 E.

PORT LIMITS: When boarded by Harbour Pilot at the Forth of Kalundborg; or when at anchorage at the Forth waiting for berth.
DOCUMENTS:
- Ship's Register.
- Load Line Certificate.
- Safety Radio Certificate.
- Safety Equipment Certificate.
- Deratting or Exemption Certificate.
- Construction Certificate.
- Certificate of Insurance or other financial security in respect of civil liability for oil pollution damage.
- 2 Crew Lists.
- Tobacco and Spirit List covering all goods on board belonging to crew, officers, Master, ship's bar or passengers.
- Cargo Manifest or Bill of Lading.

Smallpox: When a ship arrives from places outside Europe and USA, and it has been at sea less than 14 days, each member of the crew has to present a valid smallpox certificate to the authorities on arrival.
PILOTAGE: Pilotage not compulsory. Harbour Pilot boards at entrance of Kalundborg Forth; bigger ships usually take Pilot by Skaw lightvessel about 130 miles from Kalundborg. Skaw as well as Harbour Pilots listening on VHF Channel 16.

Pilots to be ordered by ETA–telegram to Agents at least 24 hours in advance.
ANCHORAGE: Large vessels anchor in 16 m. of water outside between Roesnaes and Asnaes; S.W. to N.W. winds cause swell, but holding ground is good.
RESTRICTIONS: No entry restrictions; arrival day and night and no tide with normal winds. Also see "General" before first port.

MAX. SIZE: Oil berth: depth alongside: 13 m. Old Coal berth: depth alongside: 11 m. Length of quay: 285 m.

New Coal berth: depth alongside: 13 m. Length of quay: 216 m. However, vessels with length of 316 m. acceptable as there are dolphins between the Oil berth and the New Coal berth.

HEALTH: No special restrictions as to free pratique, which will be granted by authorities on arrival, however, see "Documents", "Smallpox" – suspected disease or fever must be telegraphed to agents before arrival.

RADIO: Lyngby radio.

VHF: Channel 16 to pilot station (also Skaw Pilot).

RADAR: No radar installations.

TUGS: At Forth of Kalundborg – 2/3 miles from port – ships' lines to be used.

BERTHING: One oil berth: length 200 m. (a further length of ships at abt. 100 m. acceptable for berthing alongside the dolphins). Max. safe arrival draft: 41 ft. (12.5 m.), however, ships of more than 70,000 d.w.t. 40 ft. (12.19 m.) have berthed.

Old Coal berth: length 285 m. Max. safe arrival draft: 35 ft. (10.67 m.). 4 cranes available.

New Coal berth: length of quay: 216 m. (See "Max. Size"). Max. safe arrival draft: 12.67 m. 2 cranes available.

DENSITY: Brackish – about 1011.

STEVEDORES: Private stevedores to be ordered through receivers – coal discharge rate: about 700 t.p.h.

New Coal berth: Discharge rate about 1,000 t.p.h.

MEDICAL: All medical and hospital facilities available. No advance notice necessary.

TANKERS: 2 discharge hoses (a possibility of 3) of 8 in. each. Average discharge rate 3,000 t.p.h., max. back pressure 14 kg. Also see "Berthing".

FRESH WATER: Available by pipe-line at the berth. Rate 10 t.p.h.

FUEL: Available by barge or truck.

CONSULS: Swedish and Norwegian at Kalundborg. Others at Copenhagen.

REPAIRS: All types of smaller repairs can be carried out.

DRY DOCKS: No dry dock available.

SURVEYORS: Major Classification Societies represented in Copenhagen. 100 km. from Kalundborg.

GANGWAY/DECK WATCHMEN: Not recommended.

HATCHES: Opening closing hatches to be carried out by crew.

AIRPORT: Nearest at Copenhagen (100 Km.).

CUSTOMS ALLOWANCES: 200 cigarettes and 1 bottle spirits.

REPATRIATION: All repatriation can be arranged normally via Copenhagen 100 km. from Kalundborg.

TIME: GMT plus 1 hour (from 28th September– 6th April). GMT plus 2 hours (from 6th April–28th September).

HOLIDAYS: Saturday/Sunday normally no work, also no work on holidays declared as official Danish holidays.

POLICE/AMBULANCE/FIRE: 0–0–0 all alarms.

TELEPHONES: No telephone connection on board.

SERVICES: No tank-cleaning facilities; all other services to ships can be arranged through specialists from Copenhagen.

SHORE LEAVE: No restrictions for shore leave.

IDENTIFICATION CARDS: Shore passes necessary.

AUTHORITY: Private port owned by: IFV Power Co., Hellerup. Local Office: Asnaes Power Station, Kalundborg.

BANDHOLM: 54.50 N. 11.30 E. (See Plan Book)

DOCUMENTS:

1 Crew List.
1 Passenger List.
1 Stores List.
1 Manifest or Bill of Lading.

PILOTAGE: Not compulsory. Pilot boards vessel at Sea Buoy off Vejroe from pilot vessel, hull painted green and "LODS" on each side of the hull. Pilot ordered through Agent, telephone 03–88 80 11 four hours prior arrival at Sea Buoy. VHF Channel 16. Telephone number of Pilot Station 03–89 49 75/03–89 41 52 day/night.

ANCHORAGE: Near Sea Buoy off Vejroe.

RESTRICTIONS: See "General" before first port.

MAX. SIZE: Max. length 330 ft. draft 17 ft. 6 ins.

HEALTH: Normal quarantine rules.

RADIO: Lyngby Radio or Kiel Radio.

TUGS: None.

BERTHING: Sheltered harbour with 366 m. of stone quays available and easily accessible. Depth of water at entrance 19 ft. Depth at old quays, 4.4 m. At new quay 244 m. there is 5.8 m. average depth. Electric coal crane to discharge 60 t.p.h with grab. Average daily rates: Coal and coke 500–1,000 tons. Grain elevator, loading or discharging capacity 110 t.p.h. storage capacity 25,000 tons.

STEVEDORES: Ordered by Agent. Working hours Monday to Friday 0700 – 1600 hrs. Saturday no work.

MEDICAL: Doctors, hospital facilities available.

GENERAL: Tide normally 1 ft.

FRESH WATER: Supplied from quay installations.

FUEL: Available.

OPENING/CLOSING HATCHES: Carried out by crew.

GANGWAY/DECK WATCHMEN: Not necessary.

CUSTOMS ALLOWANCES: 200 cigarettes, 1 bottle of wine and 1 bottle of spirit permitted out of bond for each man.

IDENTIFICATION CARDS: Not required.

REPAIRS: Small deck and engine repairs possible.

AIRPORT: Maribo Airport, about 15 Km. away.

TIME: GMT plus 1 hour.

HOLIDAYS: See "Copenhagen".

POLICE/AMBULANCE/FIRE: Dial 0–0–0 and ask for Police, Ambulance or Fire Brigade.

TELEPHONE: Not available on board vessels.

SHORE LEAVE: Allowed.

AUTHORITY: Harbour Master.

AGENT: Alfr. Hovmand, Shipbroker, Havnepladsen 10, Bandholm, DK–4930 Maribo. Phone: 03–88 80 11. Telex: 40256 hoban dk. Cable: "Hovmand Bandholm".

COPENHAGEN: 55.42 N. 12.37 E. (See Plan Book)

DOCUMENTS:

1 Crew List.
2 Passenger Lists.
1 List giving stock of stores and provisions.

Customs officers bring form to be signed by Captain indicating that no epidemic diseases are on board. Formal Bill of Health signed by Danish Consul in port of departure is not necessary.

PILOTAGE: Telegr. address: Coppilot-Copenhagen. Tel. 01 38 67 00. Pilotage not compulsory. ETA minimum 1 hour. VHF Channel 16. Pilot boats blue with yellow superstructure. "Pilot" painted in red on side. Pilot flag "G" (white light) – VHF. Pilot comes on board at Middelgrund Fort (Pilot for Drogden at the same place). Pilot boards by ship's ladder.

Bigger ships usually take Pilot by Skaw L/V. Pilots to be ordered by ETA–telegrams to Skawpilot Skagen, at least 12 hours in advance. Skawpilot listening on VHF Channel 16.

ANCHORAGE: Depth 11 m., 1 mile North of Middelgrund Fort.

RESTRICTIONS: See "General" before first port.

MAX. SIZE: Limited by draft only. Depths in the port, 10 m.; in the Oil Harbour, 10.5 m.; at the Oil Pier, 11.5 m.

HEALTH: See "Documents". If fear of suspected disease or fever: yellow flag – VHF.

RADIO: Lyngby Radio: OXZ. VHF Channel 16 to all installations. ETA cables to Agents and receivers, preferably by Lyngby Radio.

RADAR/VHF: No port radar. VHF Channel 16.

TUGS: Towage not compulsory. Tugs join ships at entrance to port. Ship's hawsers only.

BRIDGES: Larger ships must take Pilot and tugs to pass the bridges down to the South Harbour.

The Knippelsbro and Langebro and Sjaellandsbroen will be closed experimentally for passage as follows:

	Knippelsbro/Langebro	*Sjaellandsbroen*
Monday – Friday	0000 – 0550 hrs.	0000 – 0600 hrs.

Christmas Eve 24th December and New Year's Eve 31st December	1800 – 2400 hrs.	1800 – 2400 hrs.

STEVEDORES: ETA earliest possible by VHF and not later than noon on the day before loading or discharging is intended to be commenced.

MEDICAL: No advance notice necessary. Hospitals available.

TANKERS: 10/12 berths according to size.

Provestens Oil Harbour: depth at

Quay 1:	9.0 m.
Quay 2:	10.5 m.
Quay 3:	10.5 m.
Quay 4:	10.5 m.
Quay 5:	10.5 m.
Oil Pier North:	6.0 m.
Oil Pier East:	11.5 m.
Bunker Pier:	10.0 m.

Length and beam unimportant. Slop barge available.

CONTAINER TERMINAL: At the Levant quay in the free port. Quay length 665 m., depth alongside 10 m. 2 Container cranes capacity 32 tons, also two luffing cranes of 50 tons and 5 tons capacity for general cargo. Horizontal handling by two straddle carriers and a number of front loaders.

FRESH WATER: From quay or water boat.

FUEL: All grades available. At bunker station, no notice required, delivery 24 hours a day. By lighter in port or in roads; 10 hours notice preferred.

FIRE PRECAUTIONS: Ready hawsers fore and aft. No engine repairs.

GANGWAY/DECK WATCHMEN: Deemed unnecessary.

OPENING/CLOSING HATCHES: To be opened by ship's crew.

CERTIFICATES: To be on board:

Ship's Register.
Radio Safety Certificate.
Safety Equipment Certificate.
International Load Line Certificate.
Deratisation Certificate.

CUSTOMS ALLOWANCE: Tobacco, 200 cigarettes. Wine and Spirits, 1 bottle wine and 1 bottle spirits.

IDENTIFICATION CARDS: Not necessary except in Oil Harbour, where the Port Authority deliver the cards.

REPAIRS: All types of repairs possible.

DRY DOCKS: Respective lengths, 787 ft. 5 in., 712 ft. 11 in. and 478 ft.

REPATRIATION: Facilities exist for changing crew and arranging any necessary repatriation.

AIRPORT: 6 miles from centre. Direct lines for all parts of the world.

TIME: GMT plus 1 hour. From 6th April – 27th September, GMT plus 2 hours.

HOLIDAYS: New Year's Day (January 1); Maundy Thursday; Good Friday; Easter Monday; Prayer Day; Ascension Day; Whit Monday; Christmas Day (December 25); Boxing Day (December 26).

Half holidays: Labour Day (May 1); Constitution Day (June 5); Christmas Eve (December 24).

Working hours: 0700-1630 with 2 half-hour meal breaks.

Overtime work on Saturday and Sunday should be ordered by 1130 hrs. on Friday.

The working hours vary slightly from port to port as some start at 0730 hrs. and others at 0800 hrs., but a 42.5 hour week is common to all.

POLICE/AMBULANCE/FIRE: Call "000".

TELEPHONES: In many berths telephones can be placed on board ships.

GENERAL: Customs Authorities supervision of ship's provisions and bonded stores is carried out in the Free Port in the same way as in Customs Port. In this connection the Free Port is no Free Port.

SERVICES: All services available (tank cleaning, discharge of tank washings, compass adjusting etc.).

SHORE LEAVE: No restrictions.

AUTHORITY: Port of Copenhagen Authority.

ENSTED: 55.05 N. 09.25 E. (See Plan Book)

Also Refer to "Aabenraa"

DOCUMENTS: See "Aabenraa".

PILOTAGE: See "Aabenraa".

ANCHORAGES: See "Aabenraa".

HEALTH: In event of disease or fever on board, vessels Agent to be informed before arrival.

RADIO: Blaavand or Lyngby radio.

TUGS: Large vessels may require towage assistance on entering and leaving Ensted Harbour. A few days notice is required to call a Svitzer tug.

VHF: Pilot on Channel 12 and 16.

BERTHING:

Oil Terminal: Largest vessels which can be accommodated at the oil pier: (Berth No. 1).

Length overall	350 m.
Beam	no limits
Water depth	18 m.
Bow/centre	165 m.
Max. height water-level/manifold	26.5 m.

Coal Terminal: Largest vessels which can be accommodated at the deep sea coal berth:

Length overall	if over 265 m. situation to be discussed
Beam	no limits
Water depth	16 m.
Discharging facilities for coal:	2×20 ton unloading cranes.
Height from normal water level to lower edge grabs	22 m.
Outlay of cranes from the quay side to centre grab	30 m.

STEVEDORES: To be informed by Agent.

DENSITY: 1015.

MEDICAL: A few hours notice required to arrange for doctor to come on board. Hospital in Aabenraa.

TIDE: No tide – arriving and sailing day and night.

FRESH WATER: Fresh water from shore line 5 t.p.h.

FUEL: Available by barge or truck.

OPENING/CLOSING HATCHES: By crew.

CONSULS: Norway, Germany, Finland, Sweden and Great Britain.

REPAIRS: All types of deck and engine repairs are possible.

REPATRIATION: Facilities exist for effecting crew changes.

AIRPORT: Skrydstrup. The distance from airport is 25 km. Airport is served by regular airlines.

POLICE/AMBULANCE/FIRE: Telephone number 000.

SHORE LEAVE: Crew members are allowed ashore.

TELEPHONES: Available for placing on board.

AGENT: Aabenraa Skibsagentur ApS., Kilen 29, DK 6200 Aabenraa – Telephone: 4-627700 (day and night). Telex: 52160. Cable: Shipagency Aabenraa

ESBJERG: 55.28 N. 08.26 E. (See Plan Book)

DOCUMENTS:

Tonnage Certificate.
Deratting or Exemption Certificate.
1 Crew List.
1 Crew Personal Effects List.
1 Stores List.
Cargo Manifest or Bill of Lading.

PILOTAGE: Advance notice of 12 hours prior to ETA pilot station at "Graadyb Barre" is required. This ETA to be confirmed/altered 3 hours prior to actual time of arrival.

Message can be given via coast radio station "Blaavand Radio" (OXB) or via Port Authority's VHF – watch is kept on Channel 16.

Cable address: "Pilotstation Esbjerg".

Telephone: 05-121065.

Two pilot vessels, painted orange, with "PILOT" painted in white on sides stationed in the port of Esbjerg. One is a 71 g.r.t. cutter and one is a fast launch.

Both vessels equipped with VHF Channel 16 and carrying signals as prescribed. Pilot boards outside Graadyb Barre, at buoy "O". Vessels awaiting Pilot or high tide should anchor approximately 1 mile East of buoy No. 4.

Pilot is not compulsory except for tankers over 500 d.w.t. and when tugs are assisting in berthing.

ANCHORAGES: There are anchorage areas North West of buoy "Graadyb" (depth 35 ft. at MLWST).

RESTRICTIONS: Normally not sufficient ice to impede navigation. No ice dues charged. Also see "General" before first port.

MAX. SIZE: Max. length accepted: 220 m. (approx.). Breadth: No restrictions. Max. draft accepted: 31 ft. 02 ins.

Entry to port is through a dredged channel over Graadyb Barre, width 200 m., depth 9.3 m. at MLWS.

Tide: Difference between normal high water and normal low water is 5 ft. (approx.).

RADIO: Blaavand Radio, call sign OXB. In position 55° 33′ N., 08° 06′ E.

TUGS: Tugs join vessel at Esbjerg Roads. Ship's own hawsers must always be used. 4 tugs available of 700, 1,500, 1,900 and 2,100 h.p.

BERTHING:

	Approach at MLWST	*Berth at MLWST*
Trafikhavn	31 ft.	22 ft.–35 ft.
Foergehavn	28 ft.	15 ft.
Outer Foergehavn for Roll-on/Roll-off vessels	28 ft.	28 ft.
Dokhavn	22 ft.	22 ft.
Englandskaj	31 ft.	22 ft.
Osterhavn	31 ft.	22 ft.
Osterhavn – New Berth (when entering max. draft 30 ft.–31 ft. LOA 705 ft.)	31 ft.	35 ft.
Sonderhavn	31 ft.	22 ft.–31 ft.
Fishery Harbour – Consumption	15 ft.	15 ft.–17 ft.
Fishery Harbour – Industrial Fish	17 ft.	17 ft.–18 ft.

For berthing in Trafikhavn with vessels of (approx.) 5,000 d.w.t. or more the Pilots require "Slack Water" – i.e. high or low water.

Max. draft for berthing on high water: 31 ft. 02 ins.

Max. draft for berthing on low water: 26 ft. 00 ins.

CARGO HANDLING: The port of Esbjerg has no specially equipped berths besides the tanker berths and container terminals for lift-on/lift-off, but private companies own suction plants for discharge/loading of feeding stuffs. Furthermore, mobile cranes also with grabs and stationary coal cranes are available. Container terminal for roll-on/roll-off. Vessels with own gear can however be handled successfully, at different berths. 12 mobile cranes, capacity between 8 and 110 tons, 78 forklift trucks, capacity between 4 and 34 tons. There is also 1 stationary crane, capacity 35 tons.

STEVEDORES: Gangs are mustered daily at 0700, and 1000 hrs. ETA should be given to above hours to ensure that gang(s) are available on arrival. Working hours are from 0700 to 1630 and meal hours are 0830–0900 and 1200–1300. No work on Saturdays. Overtime can be arranged.

MEDICAL: Medical attention can be arranged at any time. Modern hospital facilities available.

TANKERS:

Trafikhavn: Depth in approaches to oilberths in Trafikhavn MLWST 31 ft. (MHWST 36 ft.)

Old Oilberth No. 101: Depth alongside old oilberth No. 101 MLWST 22 ft. (MHWST 27 ft.)

New Oilberth No. 102: Depth alongside new oilberth No. 102 MLWST 25 ft. (MHWST 30 ft.)

During time alongside these berths, vessels can touch bottom, which is soft and muddy. Largest vessel berthed had a LOA of 621 ft. A tanker with a LOA of 560 ft. has berthed at No. 101, and simultaneously another tanker with a LOA of 600 ft. has berthed at No. 102. The length between the outer point of No. 101 and the opposite outer point of No. 102 is 1,200 ft.

Osterhavn: Depth in approaches to oilberth in Osterhavn MLWST 31 ft. (MHWST 36 ft.). Max. length 564 ft., max. draft 30 ft. 6 in.

Powerstation Vestkraft No. 506: Depth alongside Powerstation Vestkraft No. 506 MLWST 35 ft. (MHWST 40 ft.).

Under normal weather conditions Pilot states to be able to berth tankers with a LOA of maximum 705 ft.

FRESH WATER: Can be delivered at all berths. Capacity 20 t.p.h.

FUEL: All viscosities available by road tanker. Marine Gas Oil also by tanker vessel. 4 hours should be given, always during office hours.

FIRE PRECAUTIONS: A fire watch is necessary when loading/discharging oil and petrol, if flash point is under 50.

GANGWAY/DECK WATCHMEN: Watchman is not essential, but advisable.

OPENING/CLOSING HATCHES: This can be done by members of ship's crew, or by stevedores at an additional charge of 8%.

IDENTIFICATION CARDS: Advisable.

CONSULS:

CUSTOMS ALLOWANCES: 100 cigarettes and 1 bottle spirits allowed out of bond for each man. After 3 days in port additional cigarettes and spirits can be released by Customs upon request.

REPAIRS: All types of deck and engine repairs can be effected.

DRY DOCKS: No dry docks, but slipways: Slipway No. 1 for trawlers, own weight max. 125 tons; Slipway No. 2 for vessels, own weight max. 160 tons; No. 3 – 500 tons; No. 4 – 750 tons.

REPATRIATION: Ample facilities for effecting crew changes and arranging repatriations.

AIRPORT: 8 km. from centre of town. Daily flights to Copenhagen.

TIME: GMT plus 1 hour in Winter. GMT plus 2 hours in Summer (6th April – 28th September).

HOLIDAYS: New Year's Day (Jan. 1); Maundy Thursday; Good Friday; Easter Day; Day after Easter Day; the 4th Friday after Easter; Ascension Day; Whit Sunday and Whit Monday; Christmas Day and Boxing Day. Permission to load/discharge on these days obtainable.

POLICE/AMBULANCE/FIRE: In case of emergency, dial "000" and ask for: Brand (fire), Politi (police), or Ambulance. Regular Tel. numbers are: Police 12 46 66; Ambulance and Fire Dept. (Falck/Zonen) 12 82 99.

TELEPHONES: Possible to have telephones installed on board.

SERVICES: No tank-cleaning equipment available. For discharge of tank washings apply to Port Master's Office, Tel. 12 92 00. Compass adjusting can be effected.

SHORE LEAVE: Normally granted.

DEVELOPMENTS: Extension of the Harbour towards the East, and modernization of Trafikhavn and Sonderhavn.

Quays No. 101, 106 and 107 to be dredged to 10.5 m. in 1980.

AUTHORITY: Port of Esbjerg Authority.

AGENT: J. Lauritzen EFTF., Amerikavej 1, P.O. Box 100, DK-6700 Esbjerg. Tel. (45–5) 123133. Telex 54133 and 54155. Cables "Lauritzen".

FREDERICIA: 55.35 N. 09.46 E. **(See Plan Book)**

DOCUMENTS:

1 copy Bill of Lading for all cargo (manifests are not required).
1 copy Manifests for Dangerous Cargo.
2 copies Crew List.
2 copies List of Dutiable Goods.
2 copies Stores Lists.

PILOTAGE: Three Pilots available for docking purposes and for through traffic to any place in Denmark or the Baltic. Pilots have a 24-hour watch and are located on the top floor of the KFK grain silo in the West Harbour. Can be contacted day or night over VHF radio Channel 16, working 12 and 13, or Tel. 05-920959. Pilotage is compulsory for tankers carrying chemicals or LPG and for all other tankers above 2,500 d.w.t.

Bigger ships usually take Pilot by Skaw L/V. Pilots to be ordered by ETA-telegrams to "Skawpilot Skagen", at least 12 hours in advance. Skawpilot listening on VHF Channel 16.

ANCHORAGE: To avoid hindrances to docking or undocking ships, ships of over or about 4,000 d.w.t. are requested to anchor off Trellenes. Smaller ships will find good anchoring conditions in Mollebugten.

RESTRICTIONS: Day and night entry possible, least depth in the approach channel is 15.0 m. Also see "General" before first port.

MAX. SIZE:

	Max. draft acceptable
Kastels Harbour	11.70 m.
Old Harbour	7.20 m. to 5.3 m.
Shipyard Harbour	2.80 m.
Dock Entrance	4.60 m.
West Harbour	8.70 m. to 6.70 m.
Moellebugt Harbour	11.70 m. to 8.70 m.

Also see "Tankers".

HEALTH: See "Copenhagen".

RADIO: VHF Channel 16.

TUGS: Tugboats from Svitzer's Salvage Enterprise is stationed in Fredericia, but any amount of tugs are available, when ordered previously.

BERTHING:

Mollebugt Harbour: Quays Nos. 24 & 27 Length 600 m., depth 9–12 m.

Facilities for container traffic and Ro/Ro traffic. 40-ton gantry crane. 25-ton gantry crane with hook and grab, max. capacity 300 t.p.h. 3 mobile cranes, capacity 6 to 36 tons. Railtracks. Facilities for temporary storage of goods. Modern quayside warehouses.

Gas, Oil & Chemicals Harbour: Quays Nos. 18, 19, 20, 22 & 23 for tankers. Quays Nos. 18 & 19, length 90 m., depth 7 m. in berth. Equipped for loading and discharging gas tankers.

Quay No. 20 – Jetty I. 15 m. depth in berth. Hydraulically operated hose handling gear for discharging petrol and oil products. 10 in. and 12 in. ASA. Connection range between + 0.4 and 18.5 m. above MWL.

Quay No. 22 – Jetty II. 11 m. depth in berth. Equipped for discharging petrol and gas products and bitumen. 6 in. and 8 in. hoses and 6 in. marine hose handling gear.

Quay No. 23 – Jetty III. 7.5 m. depth in berth. Equipped for discharging liquid chemical products. 4 in. DIN hoses.

West Harbour: Quays Nos. 13 to 17. Length 670 m., depth 7–9 m. in berth.

Facilities for Ro/Ro traffic. 25-ton gantry crane with hook and grab, max. capacity: 300 t.p.h. 6-ton gantry crane with hook and grab, max. capacity: 150 t.p.h. 3 mobile cranes, capacity 6 to 36 tons. 2 gantry cranes* 5-tons. Suction plant* available for discharging feedstuffs – max. capacity: 80 t.p.h. Railtracks. Facilities for temporary storage of goods.

Modern quayside freezing and storage facilities.

Shipyard Harbour: Quays Nos. 8 to 12. Length 500 m., depth 5.0–6.5 m. in berth. Modern repair and equipment piers with workshops. Slipways available for 75-ton and 1,000-ton light displacement. Floating dock 80 m. × 14.5 m. max. capacity: 1,200-ton light displacement. Floating dock 64 m. × 12.5 m. max. capacity: 700-ton light displacement. Dry dock facilities 108 m. × 22 m., 5.1 m. access depth. Average docking/sailing time: 45 mins.

Old Harbour: Quays Nos. 6 & 7. Length 200 m., depth 5.6–7.5 m. in berth. Mobile cranes, capacity: 6 to 36 tons. Suction plant* available for discharging grain – max. capacity 60 t.p.h. Facilities for discharging liquid chemical products. Railtracks. Facilities for temporary storage of goods.

Kastels Harbour: Quays Nos. 1 & 2. Length 450 m., depth 12 m. in berth. Mobile cranes, capacity: 6 to 36 tons. Loading facilities for bulk fertiliser* – max. capacity: 250 t.p.h. Grab crane* – max. capacity: 300 t.p.h. Siwertell worm conveyor – max. capacity: 600 t.p.h. Facilities for loading and discharging liquid chemical products and ammonia. Railtracks. Facilities for temporary storage of goods. Preference for vessels destined for the Superfos Company.

* Private.

CARGO HANDLING FACILITIES: The Port possesses all types of modern facilities for loading and discharging. Crane facilities include a 40-ton gantry crane, 3 grab cranes with a max. capacity of 300 t.p.h. and a number of grab and hook cranes and mobile cranes with capacities ranging from 6 to 36 tons. There are ample facilities for container and Ro/Ro traffic. The suction plant* is capable of handling up to 80 t.p.h. and the Siwertell worm conveyor equipment* has a max. capacity of 400 t.p.h. In addition, there are modern facilities for handling liquid chemicals, gas, petrol and oil products and bitumen. There are also facilities for handling fertiliser* – max. 250 t.p.h. The Port has a rail network freeze/cold stores*, approximately 6,000 sq.m. modern warehouse space and ample facilities for temporary quayside storage.

* Private.

STEVEDORES: Ordinary working hours Monday to Friday: 0700-0830, 0900-1200, 1230–1600 hrs. Night gangs on week days must be ordered no later than 1230 hrs. the same day. Working overtime weekends is possible, but gangs must be ordered no later than Friday 1230 hrs. Average output per 8-hour day, loading or unloading general cargo, is 200 tons per gang.

MEDICAL: Hospitals available.

TANKERS:

	Berth 18 (liquid gas)	*Berth 20*	*Berth 22*	*Berth 23 (Chemicals)*

Jetty I – Chicksan arms – for vessels discharging bitumen and other special products, and for loading fuel-oil, gas-oil, gasoline, diesel fuel, and LPG.

Jetty II – Curacao hosehandling gear – for vessels discharging crude, fuel-oil-handling subject to size of vessel.

Pilotage: Pilotage is compulsory for tankers carrying chemicals or LPG, and for all other tankers above 2,500 d.w.t.

Dirty Ballast Reception: Oily ballast reception facilities available – maximum quantity 5,500 cu.m.

Restrictions: Height from normal water level to hose connections must not exceed 15.90 m. during discharging and ballasting.

Communication: The port is equipped with VHF station – Channels 16, 12 and 14.

FUEL: Available.

FRESH WATER: Available ex wharf. Rate 10–50 t.p.h.

GANGWAY/DECK WATCHMEN: Available upon request.

OPENING/CLOSING HATCHES: Stevedores or crew.

CERTIFICATES:
Ship's Register.
Load Line Certificate.
Radio Safety Certificate.
International Safety Certificate.
Derat Certificate.

CUSTOMS ALLOWANCES: See "Copenhagen".

IDENTIFICATION CARDS: Required.

CONSULS: Finland, France, Holland, Iceland, Norway, and Sweden.

REPAIRS: All repairs undertaken with modern equipment.

DRY DOCKS: Length 354 ft., breadth 72 ft. Max. depth at Dock gate 16 ft. 06 in. Slipway available for ships up to 1,000 tons, light displacement (divers available).

AIRPORT: At Billund and Beldringe 35 miles from Fredericia.

REPATRIATION: All facilities exist.

TIME: GMT plus 1 hour.

HOLIDAYS: See "Copenhagen".

POLICE/FIRE/AMBULANCE: Police 921577; Ambulance 924000; Fire 921573; Emergency 000.

TELEPHONES: Both oil piers have telephones in the watchmen's room but for local calls only.

SHORE LEAVE: Allowed.

AUTHORITY: Harbour Master.

FREDERIKSHAVN: 57.28 N. 10.33 E. (See Plan Book)

DOCUMENTS: Ship's papers, 2 Crew Lists, 1 Passenger List, 2 Bills of Lading, 1 Manifest, 1 Customs declaration of tobacco and spirits for Officers and crew, 1 Customs declaration (TOLDPAS) if arrived from port in EEC or Scandinavia.

PILOTAGE: Call the Pilot either over the coast radio station "Skagen Radio", call sign "OXP", telephone 426532 or direct by VHF Channel 16. Pilot outside the harbour boards at the buoy 1.7 miles S.E. of the harbour entrance. The pilot boat is a small red painted motorboat. ETA required as soon as possible, minimum 3 hours.

ANCHORAGE: In the roads South of the red leading lights in 10 m. water depth. Good holding ground. At the entrance to the fishing harbour between the pierheads for a width of 50 m. on each side of the heads, anchoring is prohibited (submarine cable).

RESTRICTIONS: Vessels coming from or entering the naval base and the fishing harbour must wait for ships entering or leaving the commercial harbour. Maximum speed Frederikshavn L/B – to harbour 12 knots, in outer basin – 7 knots, Harbour – 3 knots. Entering the Naval Base without special permission prohibited. Ships entering the harbour must if necessary wait outside for ships leaving the harbour. Also see "General" before first port.

MAX. SIZE: Max. length about 200 m., draft 8 m. At oil quay max. draft 8 m. Tide about 0.3 m.

HEALTH: Use international quarantine signals. If suspected disease or fever on board wire the Agent to arrange everything to obtain pratique as soon as possible.

RADIO: Nearest coast radio station "Skagen Radio", call sign "OXP". The harbour office is fitted with VHF Channels 16, 12 and 13. Watch kept day and night.

TUGS: Tugs join vessel outside the harbour between the buoy and the harbour entrance. Only the ship's line to be used.

BERTHING: No special requirement for berthing in the harbour, but several big ferries are running in and out during day and night and sailing after a time schedule. It is therefore recommended to call the harbour office, VHF Channel 16, for permission to enter.

BULK HANDLING FACILITIES: One grain berth, with 8 m. depth alongside, equipped with suction pipe capacity 60 t.p.h. approx.

Ferry berths in Harbour, depth 6.4 m. to 8 m., equipped for handling containers and roll-on/roll-off traffic.

TANKERS: Oil quay max. depth 8 m., Hoses 8 in. diameter. Reducing pieces may be necessary. Slop water discharging and cleaning can be done by oil-separator. Tankers max. draft 8 m.

DENSITY: 1,020 (approx.).

STEVEDORES: ETA advices are required before 0900 hrs. in order to arrange gangs for discharge/loading the same day.

MEDICAL: No special requirement is necessary for medical attention. The town has all ordinary medical and hospital facilities.

FRESH WATER: Supplied by water hydrants on all quays.

FUEL: All kinds of fuel are available and no advance notice is necessary.

FIRE PRECAUTIONS: No smoking and no open fire if discharging oil. Fire watchman from the Harbour Authority required if discharging gas, dangerous chemicals and ammunitions, etc., beside the watchman, the Harbour Authority will require restricted access to vessel.

GANGWAY/DECK WATCHMEN: Not compulsory but available if required.

OPENING/CLOSING HATCHES: Ship's crew open and close the hatches. If necessary the longshoremen can do it for extra pay.

CUSTOMS ALLOWANCES: Only for ships coming from abroad – 0.25 litre wine and 0.25 litre spirits, 40 grams tobacco or 40 cigarettes per man per day and only 3 days ration in one time. On requirement after that, the Master can obtain a new allowance in proportion to the stay in harbour.

CONSULS:

Sweden	Tel. 422922	Germany	Tel. 420011
Norway	,, 422299	France	,, 422155
Finland	,, 421466		

REPAIRS: Three steel shipyards and one wood shipyard doing all kinds of repairs.

DRY DOCKS: Four dry docks, two floating dock and two small slips. Dimensions of largest dry dock: length 195 m., breadth 32.2 m. and depth 7 m. Largest floating dock: length 129 m., breadth 28 m., depth 3.7 m., capacity 7,500 tons.

REPATRIATION: Agent will arrange repatriation. All facilities for changing crew.

AIRPORT: Aalborg Airport, 60 km. from port, several daily flights to Copenhagen.

TIME: Local time GMT plus 1 hour.

HOLIDAYS: Weekends, Easter, Whitsun, Christmas, New Year and two Danish holidays in the Spring.

POLICE/AMBULANCE/FIRE: Police, Tel. 08-421444; Ambulance, Tel. 08-422222; Fire, Tel. 08-421444. in emergency dial 000.

SERVICES: Separating of slop water, compass adjusting, oil bunkering, repairing all kinds of navigation instruments and provisions.

SHORE LEAVE: After clearing inwards, crew members are allowed ashore without special permission.

AUTHORITY: Havnekontoret.

GULFHAVN: 55.12 N. 11.16 E. (See Plan Book)

Tanker discharge terminal operated by Gulf Oil Refining A/S.

DOCUMENTS:
Ship's Register.
Load Line Certificate.
Safety Radio-telephone Certificate.
Derating Certificate or Exemption Certificate.
Exact list of tobacco, cigarettes and spirits showing the vessel's and the crew's supply on arrival.
Bill of Lading (if vessel is carrying cargo).
Copy of the crew list is required by Gulf Oil Refining A/S.

PILOTAGE: 2 Pilots and pilot vessel available. Pilot acts as Berthing Master; may be requested to board arriving vessels at either: Halsskov Lightship position 55° 20.1′ N. 11° 02.5′ E. or 2 nautical miles South of Halskov Lightvessel or any place in proximity of Gulfhavn.

Pilot vessel equipped with VHF following Channels: 6, 10, 12, 16 of which Channel No. 6 used for ship-to-ship communication. Pilot station at Agerso also equipped with VHF radio with following Channels: 12, 13 and 16. Pilot can be contacted at the station on Channel 16.

A vessel's ETA should be communicated by Master to Agent, 72, 48 and 24 hours prior to arrival. Agent will keep Refinery advised and make necessary arrangement with Pilot.

Bigger ships usually take Pilot by Skaw L/V. Pilots to be ordered by ETA-telegrams to "Skawpilot Skagen", at least 12 hours in advance. Skawpilot listening on VHF Channel 16.

ANCHORAGES:
Korsor: Roads: depth 20 m. (65.6 ft.). Bottom sand, good holding ground. Width of area about 2 square nautical miles.
Gulfhavn Roads: depth 30 m. (98.4 ft.). Bottom clay. Good holding ground. Width 0.5 nautical mile. Length 1.5 nautical miles.

Power cables running between Zealand and Agerso Island (marked on charts) must be avoided.

RESTRICTIONS: See "General" before first port.

MAX. SIZE: Max. draft at normal tide is 15 m.; safe draft is considered to be 14.3 m.

VHF: Call sign "Gulfhavn" Channels 12, 14 and 16, on 16, 24 hours a day.

TUGS: None available locally. If required 24 hours notice must be given. Pilot will advise if weather conditions demand use of tugs (in good time).

BERTHING: Oil pier is a T-shaped structure on which 4 berths provide – 1 berth for 100,000 d.w.t. tankers, 1 for 20,000 d.w.t. tankers, 1 for 5,000 d.w.t. tankers and 1 for smaller vessels up to 500 d.w.t.

Depths alongside:	Berth 1	15.0 m. (49.2 ft.)
	Berth 2	12.0 m. (39.4 ft.)
	Berth 3	7.5 m. (24.6 ft.)
	Berth 4	4.5 m. (14.8 ft.)

Adequate lifting facilities to assist in hose connecting and handling of necessary hose equipment should be ready on arrival. Refinery representative will board on arrival and discuss discharging/loading operation.

Berth No. 1

Berth 1 is equipped with mechanically operated Woodfield hose-handling structure. The booms are 12.2 m. (40 ft.) long. Berth No. 1 is primarily equipped for handling incoming crude, but can be used for other purposes (gasoils, intermediate and heavy fuels) when not being occupied by crude vessels.

The booms are arranged in the following sequence of product handling:

Boom No.	*Size of booms and contents*
1	10 in. Ballast water
2	12 in. Crude oil
3	12 in. Crude oil
4	12 in. Crude oil
5	8 in. Intermediate and heavy fuel (all grades)

The sequence is from South to North or from right to left as you face the shore.

The distance from Danish Mean Sea Level to the highest position of centre line of manifold is 17.0 m. (55.8 ft.).

In addition to the oil products handled on Berth No. 1 there are the following other connections on the pier:

Size of connection	*Contents*
6 in.	Ballast water
6 in.	Gas oil
6 in.	Intermediate and heavy fuel (all grades)
4 in.	Tetra methyl lead

A hydraulic gangway is installed at No. 1 Berth.

Berth No. 2

Berth No. 2 is equipped with mechanically operated hose-handling structure (Woodfield). The booms are 9.1 m. (30 ft.) long.

The booms are arranged in the following sequence of product handling:

Boom No.	*Size of booms and contents*
1	10 in. Ballast water and crude oil
2	10 in. Intermediate and heavy fuel (all grades)
3	12 in. Intermediate and heavy fuel (all grades)
4	10 in. Diesel fuel
5	10 in. Diesel fuel
6	10 in. Gasoline
7	10 in. Gasoline

The sequence is similar to pier No. 1, i.e., South to North.

The distance from Danish Mean Sea Level to the highest position of centre line of manifold is 15 m. (49.2 ft.).

In addition to the oil products handled on Berth No. 2, there are the following other connections on the pier:

Size of connection	*Contents*
6 in.	Intermediate and heavy fuel (all grades)
6 in.	Gas oil
6 in.	Ballast water
6 in.	Stoddard solvent
6 in.	Naphtha
6 in.	Kerosene
6 in.	Gasoline

In addition to the oil products handled on Berth No. 2, Berth No. 3 and 4 can also handle L.P.G. (liquid petroleum gas) and Berth No. 4 solid sulphur product. All connections on Berth No. 3 and 4 are 6 in. Berth No. 3 also handles Bitumen (Asphalt).

Mooring: If wires are used for mooring, polypropylene tails are required.

MEDICAL: Hospital at Skelskor; Tel. Skelskor (03) 59 44 50.

DENSITY: Ranges between 1023 and 1007, dependent on season and weather conditions.

FRESH WATER: Available at all 4 berths. Limited to 160 tons. Supplied with a pumping rate of 45 t.p.h.

FUEL: Bunker fuel available at all 4 berths. 24 hours notice required.

FIRE PRECAUTIONS: The harbour is not equipped with fire-fighting vessel. Fire-fighting equipment is stationed on quay.

GANGWAY/DECK WATCHMEN: Available if required.

IDENTIFICATION CARDS: Required by crew.

CONSULS:

Finnish Consulate: (Mr. Sv. Mogensen) 10 Oernumvej, Dk-4220 Korsoer, Tel. (03) 57 00 13.

Norwegian Consulate: (Mr. G. Sjelle) Jens Baggesensgade 35, Korsor, Tel. (03) 57 00 06.

Swedish Consulate: (Mr. Bjarne Fischer) Brogade 2, Korsor, Tel. (03) 57 00 02.

German Consulate: (Mrs. K. Poulsen) Batterivej 7, Korsor, Tel. (03) 57 05 86.

All other consulates are situated in the Copenhagen area.

REPAIRS: Small deck and engine repairs can be carried out on request with permission.

REPATRIATION: Facilities exist via Agent.

AIRPORT: Copenhagen 120 km. away.

TIME: GMT plus 1 hour.

POLICE/AMBULANCE/FIRE: Police Skelskor (03) 59 61 00; Ambulance Skelskor (03) 59 47 07; Fire Refinery 222.

TELEPHONES: A public telephone box situated at Pier No. 4.

SHORE-LEAVE: Allowed, but personnel not allowed to walk in refinery area. Transport will be arranged from ship to refinery entrance upon request.

AUTHORITY: Stigsnaes Toldkontrol.

HADERSLEV: 55.15 N. 09.29 E.

DOCUMENTS: See "Copenhagen".

PILOTAGE: Aarosund Pilot station.

ANCHORAGES: Aarosund.

RESTRICTIONS: Impossible to enter Haderslev by night since there are no lights in the fjord. Also see "General" before first port.

MAX. SIZE: Length 110 m.; width 17 m.; depth 4.9 m.

HEALTH: See "Copenhagen".

RADIO: Lyngby Radio.

TUGS: None available.

MEDICAL: Advance notice required if hospital facilities are required.

FRESH WATER: Fresh water from quay.

FUEL: Available by lorry.

GANGWAY/DECK WATCHMEN: Not required.

OPENING/CLOSING HATCHES: Carried out by the crew.

CUSTOMS ALLOWANCES: Tobacco (100 cigarettes per man per 3 days); wine/spirits (1 bottle per man per 3 days).

IDENTIFICATION CARDS: Not needed.

CONSULS: Swedish, French, Belgian.

REPAIRS: Small repairs available.

REPATRIATION: No facilities.

AIRPORT: 15 km. from Haderslev.

TIME: GMT plus 1 hour.

HOLIDAYS: Discharging can be arranged on holidays.

POLICE/AMBULANCE/FIRE: Police, 045 2 2525; Ambulance, 000; Fire, 000.

TELEPHONES: No facilities.

SHORE LEAVE: Allowed.

AUTHORITY: Harbour Master.

HELSINGOR (Elsinore): 56.02 N. 12.37 E.

(See Plan Book)

DOCUMENTS:

1 Cargo Manifest.
2 Crew and Passenger Lists.
2 Tobacco Lists.
2 Stores Lists.
Measurement Certificate or Registry Certificate.

PILOTAGE: Call Pilot by hoisting Pilot Flag "G", or Morse signal "PT". Cable Address: "Helsingorpilot". Alternatively contact by VHF.

VHF Channel 16, Frequency 156.80 mHz (receiving frequency)
VHF Channel 13, Frequency 156.65
VHF Channel 12, Frequency 156.60

One hour's notice required before arrival at port. Pilot cutter, green hull, yellow superstructure, "Pilot" painted on superstructure. Boarding North of, South of and East of the port of Helsingor. Waiting area 0.5 mile South of the port of Helsingor. Helsingor Pilots are also sea Pilots for Kattegat, the Belts, The Orestraights and the Baltic.

ANCHORAGE: South of the port, in the roads of Helsingor, depths from 19 to 25 m. with sand or loose clay bottom.

RESTRICTIONS: Following signals are given from the lighthouse situated on the head of the Southern pier: prohibition to sail is signalled by red rapid flashes in the harbour direction and green flashes out towards the approaches. Entering and sailing prohibition is signalled by red rapid flashes both sides. "Vessels moving in the harbour" is signalled by yellow flashes out towards the approaches, yellow in towards the harbour. Ship departing waits for ship entering. When a vessel gives signal to enter (1 long whistle or blast) it is regarded as an entering vessel.

MAX. SIZE: Up to 21 ft. 06 in. draft. Also see "General" before first port.

RADIO: Harbour Office of Helsingor call VHF Channel 16, shift to Channels 12 or 13 for working.

TUGS: Tugs come from Copenhagen at 2–3 hours notice.

BERTHING: Vessels berthed in order of arrival.

MEDICAL: Hospital and medical facilities available.

FUEL: Not available.

FRESH WATER: Approx. 30 tons of fresh water per hour delivered through 15 in. hoses at the berths.

WATCHMEN: Not required.

CUSTOMS ALLOWANCES: For use on board during call reasonable stores and other requirements will be approved by the customs. Following quantities allowed per man per 24 hours, not exceeding 3 days: 40 cigarettes or 10 cigars or 20 cigarillos or 40 grams other tobacco products, 0.25 litre wine and 0.25 litre spirits.

IDENTIFICATION CARDS: Crew need passports.

REPAIRS: Helsingor Skibsvaerft og Maskinbyggeri A/S are qualified to undertake all forms of repair work.

DRY DOCKS: Dock No. 1: 155 m. long, 21.5 m. wide, 6.4 m. depth. Dock No. 2: 116 m. long, 16.5 m. wide, 5.5 m. depth.

AIRPORT: 1 hour by car from Copenhagen International Airport.

TIME: GMT plus 1 hour.

HOLIDAYS: Work can be performed all the year round.

POLICE/FIRE/AMBULANCE: Police Tel. 03.21.14.48; Ambulance/Fire Tel. 03.22.31.31.

TELEPHONES: Telephones are only available on board in particular circumstances.

SHORE LEAVE: Crew are free to go ashore.

AUTHORITY: Harbour Master.

HORSENS: 55.52 N. 09.52 E. (See Plan Book)

DOCUMENTS:
Crew List (East European countries only).
List of Tobacco.
Manifest (for Agents and Stevedores).
Bills of Lading (for Agent's use).
Ship's papers:
International Load Line Certificate.
Certificate of Register (international letter of measurement).
Derating Certificate.
Radio Safety Certificate.

PILOTAGE: Pilot station is situated at Juelsminde. Normally pilot boat will be located South of Lillegrund.

VHF: Channels 6, 12 and 16. Advance notice of 2 hours required.

ANCHORAGE: No special anchorages at the firth; vessels may anchor where safe navigation permits – attention is called to cable area at Hjarno Sound.

RESTRICTIONS: See "General" before first port.

MAX. SIZE: Max. length, approx. 500 ft.; max. breadth, approx. 70 ft.; max. draft, approx. 22 ft. A dredged channel 32 m. wide and 6.9 m. deep leads to the harbour.

HEALTH: Inform Agent or Port Authorities in advance in event of any suspected disease or fever on board. Normally no necessary procedure to obtain pratique. Pratique is automatic after calling at another Danish port.

RADIO: VHF at Harbour office, Channels 9, 12, 13 and 16.

TUGS: Tug "Vitus" stationed in the harbour.

STEVEDORES: For working Monday morning ETA must be given Friday during office hours. Otherwise ETA must be given the day before work to commence. One suction apparatus for discharging grain. Normally the cargo is handled by shore cranes. There are 2 coal cranes and 5 piece-goods cranes available.

MEDICAL: No advance notice required. Hospital facilities available.

TANKERS: Discharge lines diameter: 6 in. and 8 in. Four berths for tankers, 1 at Esso with 5.6 m. of water alongside, 1 at DAK with 6.9 m. of water, 1 at KH with 6.9 m. of water and 1 at Nynas Johnson.

FRESH WATER: Delivered alongside from shore connections.

FUEL: All types of light fuel available.

GANGWAY/DECK WATCHMEN: No service of watchmen necessary.

OPENING/CLOSING HATCHES: Normally carried out by crew, but can be done by stevedores.

CUSTOMS ALLOWANCE: Tobacco: 30 cigarettes per man per day – or 100 cigarettes permitted to be held out of bond. Wine and or Spirit: One bottle of each to be held out of bond.

IDENTIFICATION CARDS: Not needed.

CONSULS: Finland, 05-623433; Norway, 05-624666; Sweden, 05-624411; France, 05-623288.

REPAIRS: No shipyard – only small repairs can be carried out.

REPATRIATION: No special facilities for effecting crew changes exist.

AIRPORT: Distance from airport about 50 km., with regular airlines.

TIME: GMT plus 1 hour.

POLICE/AMBULANCE/FIRE: Dial 0-0-0. Fire alarms placed around the port.

TELEPHONES: Not available on board vessels.

SHORE LEAVE: Allowed.

DELAYS: No delays can normally be expected. Larger ships with big draft may expect delay during nights with poor visibility. They have to wait for daylight in order to enter port through dredged channel.

AUTHORITY: Harbour Master.

AGENT: Wilh. Chr. Bech Rederi- & Skibsmaeglerforretning. Jens Hjernoesvej 22, dk–8700 Horsens. Phone: 5–62 65 66. After office hours: 5–61 19 65 – 61 08 10 – 62 29 56. Telegrams: "Brokerbech". Telex: 61616.

KALUNDBORG: 55.41 N. 11.06 E. (See Plan Book)

OPERATORS: Dansk Esso A/S.

DOCUMENTS: Ship's Register
Load Line Certificate.
Safety Radio Certificate.
Safety Equipment Certificate.
Safety Construction Certificate.
Derating Certificate or exemption.
Bill of Lading (if cargo).
Crew List.

Customs need a Tobacco and Spirit List, showing the vessel's and the crew's supply by arrival.

PILOTAGE: Not compulsory. Pilot station situated at Kalundborg, telegram: Kalundborg Pilot, tel. Kalundborg 03.51.08.89. Green plastic vessel carrying int. signal flag or lights for Pilot. Contact by VHF Channels 16, 12 and 6. Pilot is taken on board at the entrance of Kalundborg Fjord.

Bigger ships usually take Pilot by Skaw L/V. Pilots to be ordered by ETA-telegrams to "Skawpilot Skagen", at least 12 hours in advance, Skawpilot listening on VHF Channel 16.

ANCHORAGE: Large vessels anchor in 42 ft. of water outside between Rosnaes and Asnaes; S.W. to N.W. winds cause swell but holding ground is good. Small vessels anchor between Gisselore Point and Harbour. From where channel leads to harbour.

Tankers: The anchorage is approximately 4–5 miles W.N.W. of the oil pier. Particulars regarding the anchorage will be given by the Pilot.

RESTRICTIONS: Depth in channel and at entrance 39 ft. 4 in., entrance width 131 ft. Also see "General" before first port and "Tankers".

MAX. SIZE: 900 ft. length. 38 ft. draft.

RADIO: *Arrival Message:* The Masters of crude or deep-sea vessels are requested to advise the refinery through their Agents of their ETA 72 hours in advance, and again 24 hours before ETA. For other vessels operating in Scandinavian waters, a 24 hours ETA notice will be required. For coastal traffic in Danish waters, ETA is required when departing for Kalundborg. If there should be any significant change in the ETA over 2 hours, additional advice is required.

HEALTH: Pratique granted by Customs Officers who bring Health Declaration for Masters to complete. In event of suspected disease or fever on board radio details to Agent before arrival. When vessel arrives from port outside of Europe and U.S.A. and has been less than 14 days at sea, all crew members require valid smallpox vaccination certificates.

TUGS: Available, normally join vessel off harbour, often using vessel's lines. If tug's lines are used, an extra charge will be made.

Tankers: The required number of tugs will be ordered through the Agent in accordance with the agreement between the Pilot and the Pier Captain.

For vessels between 16,500 d.w.t. and 70,000 d.w.t. the following tug assistance will normally be required: One 1,700 h.p. tug forward on starboard side and 2 tugs of 1,800 h.p. and 400 h.p. aft.

For vessels over 70,000 d.w.t. an additional tug of minimum 1,000 h.p. will normally be required.

For all traffic to and from Pier C, tug assistance must be used in all cases where a vessel of 10,000 d.w.t. and over is already moored at Pier B.

Also see "Tankers" Pier Traffic Restrictions.

BERTHING:

East Harbour: Depth is 23 ft. Equipment: 1 crane for coal-discharge and 1 crane for grain-discharge.

Fertiliser-quay: Depth is 26 ft. 6 in. Equipment: 1 crane for phosphate-discharge.

West Harbour: Depth is 22 ft. 6 in. Equipment: 1 suction-apparatus.

South Harbour: Length 240 m., depth 10 m. (32.6 ft.). One crane capacity 12–25 tons. Roll-on/Roll-off facilities. Max. draft 30 ft.

2 mobile cranes available in all harbours.

TANKERS:

Pier A: For deep-sea vessels. Max. draft 41 ft. up to 70,000 d.w.t. For larger vessels between 70,000 and 100,000 d.w.t. the max. draft is 40 ft.

Crude discharge is via 2×12 in. hoses to the 30 in. crude pipe-line to the refinery, approximately 2 km. in length.

Bunker/Heavy Fuel deliveries through 14 in. line and 12 in. hose to the vessel. There are 10 other products, all in 10 in. lines and 10 in. hoses connected to the vessel.

The products are:
Naphtha/LVN.
Regular/Premium Gasoline.
Kerosene.
Auto Diesel.
Heating Oil.
Marine Diesel.
Fuel Oils: LFO, LSHFO, LPHFO.

Ballast is discharged through 1 by 10 in. and 1 by 12 in. hose into a 14 in. pipe-line.

Pier B: For vessels up to 16,000 d.w.t. (under special circumstances vessels up to 25,000 d.w.t. can be accepted). Max. draft 33 ft. Bunker/Heavy Fuel deliveries through 14 in. and 12 in. hose to the vessel. There are 10 other products all in 10 in. lines and hoses connected to the vessel. The products are:
Naphtha/LVN.
Regular/Premium Gasoline.
Kerosene.
Auto Diesel.
Heating Oil.
Marine Diesel.
Fuel Oils: LFO, LSHFO, LPHFO.
LPG is available through a 4 in. line.

Ballast is discharged through 1×10 in. and 1×12 in. hose into 14 in. pipe-line.

Pier C: For vessels up to 3,000 d.w.t. Max. draft 15 ft. 4 in. Products are:
Regular/Premium Gasoline.
Naphtha (discharging).
Kerosene.
Auto Diesel/Heating Oil.
Marine Diesel.
Fuel: HFO, LFO, LSHFO.

Loading is through 6 in. hose over the vessel's rail, although LPG is loaded via 4 in. line and 3×2 in. hoses, and asphalt over 6 in. steel arm.

Ballast can be discharged into a 6 in. line.

Pier D: For vessels up to 1,300 d.w.t. Max. draft 15 ft. 4 in. Loading through 6 in. hose over vessel's rail.

Products are:
Varnolene.
Solvents.
Regular/Premium Gasoline.
Naphtha/LVN (loading and discharging).
Kerosene.
Marine Diesel.
Auto Diesel/Heating Oil.
Fuel: HFO-LSHFO.

Ballast can be discharged into a 6 in. line.

The above maximum drafts for Pier A, B, C and D are based on normal water level in the Fjord.

Pier Traffic Restrictions: Restrictions for movements of vessels under varying weather conditions:

All Piers will be closed for in and outgoing traffic if the wind force is over 23 m/sec. (9 Bs).

Pier A & B, if the wind direction is between S.W. and N.N.W. and the wind force is between 15 m/sec. (7 Bs) and 23 m/sec. (9 Bs) tug must be used.

Pier C, If the wind direction is between S.W. and N.E. and the wind force is between 15 m/sec. (7 Bs), and 23 m/sec. (9 Bs) tug must be used.

Pier D, If the wind direction is between S.W. and N. and the wind force is over 15 m/sec. (7 Bs), the pier will be closed for all traffic.

Woodfield Loading Arms: If the wind force is over 23 m/sec. (9 Bs), all discharging/loading via loading arms will be stopped. Valves on shore line and vessel closed, and the system drained free of oil. It is the pier foreman's duty to enforce the above wind restrictions. His decisions will be based on actual measurements of the meteorological conditions.

Discharging and Loading Rates: Crude discharge rate is 38,000 Bbls. or about 5,000 t.p.h. Maximum inline pressure is 105 p.s.i.g. except for LPG where the maximum pressure is 250 p.s.i.g.

Approach Speed and Engine Check: Vessels approaching the Pier for berthing without tug assistance must slow down to an absolute minimum speed before passing the outer dolphin. Before reaching this point, a test of a true and realistic reverse manoeuvre must have been carried out to make sure that the system is functioning correctly.

Traffic Passing the Pier: There is a brisk ferry boat traffic in the outer harbour. Approximately 40 times a day a ferry passes the outer pier head in a distance of 100–300 m.

Dry cargo vessels up to about 10,000 d.w.t. call at the Kalundborg harbour and will be passing the outer Pier at a distance of approximately 500 m. from the pier head. The vessels pass at slow speed.

Tank/dry cargo vessels call at the nearby Power Plant which is equipped to handle vessels of 70,000 and 20,000 d.w.t., respectively.

Wind Conditions: The prevailing wind is from West, but most of the heavy winds and storms come from N.W.

Wind velocities exceeding 15 m/sec. (7 Bs) occur on the average about 20 days a year from S.W., about 15 days from West, 40 days from N.W. and 25 days from North.

Tide and Current: The difference between the average high-tide and average low-tide is approximately 0.3 m.

A storm from N.W. can give a high-tide of approximately 1.3 m. over normal daily average, whereas a storm from S.E. can result in a tide 0.9 m. below daily normal average.

There is practically no current at the Pier.

Wave Height at the Pier: The highest waves at the Pier will occur when the wind is from W.N.W.

The theoretical average wave height exceeds 0.7 m. for approximately 35 days a year, and an average wave height of 1 m. will be exceeded about 6 days a year.

Signal Flag: Vessels must, when loading/discharging, carry signal flag "B" during the day from sunrise to sunset, and a red light during the night.

Sanitary Regulations: The Standard regulations for Danish Harbours governing sanitation also apply to Kalundborg Oil Pier.

Trash and galley refuse must not be thrown overboard. Special containers for refuse are placed on the Pier.

Precautions must be taken to prevent discharge from toilet, bath room, etc. onto the Pier.

Gangway: Vessel to provide a safe gangway.

Laundry: Requirements should be given to the Agent's representative immediately on arrival. Laundry to be ready for delivery on arrival. A complete list is required.

Visitors: Only persons on business are allowed on the Pier. Visitors, as guests of the Master, are allowed to board vessels provided there is a request from the Master to the pier office. Further details for obtaining permits for visitors can be obtained from the pier office.

Telephone: For short distance calls a coin telephone is provided in the Pier Office building; for long distance calls arrangement must be made through the vessel's Agent.

STEVEDORES: Available, ordered by Agent, no ETA to stevedores necessary.

BALLAST: All ballast is to be discharged into the shore ballast tank. This tank is a 30,000 Bbls. tank, and usually there is approximately 20,000 Bbls. room available.

Disposal of ballast overboard is prohibited. Engine room or pump room bilges must not be pumped overboard when in Danish waters.

Sea valves will be sealed on vessel's arrival and must not be broken without approval by the Pier Captain or his substitute. Ballast for entering the harbour should be carried in a minimum number of tanks, and all other tanks stripped so as to minimize the time required for ballast discharge when alongside the Pier.

MEDICAL: Hospital and doctors available.

DENSITY: 1011.

FRESH WATER: Available, supplied from shore by hose, about 15 t.p.h. 25 t.p.h. in Oil Harbour.

FUEL: All grades available, 24 hours ETA required by truck or barge.

FIRE PRECAUTIONS: No smoking allowed.

GANGWAY/DECK WATCHMEN: Not necessary.

OPENING/CLOSING HATCHES: Carried out by crew.

CUSTOMS ALLOWANCE: Each Crew member allowed 100 cigarettes or 20 cigars or 100 grams tobacco and 1 bottle spirits.

IDENTIFICATION CARDS: Not required.

CONSULS: Swedish, Norwegian; others at Copenhagen.

REPAIRS: All types of repairs available.

REPATRIATION: All facilities exist.

AIRPORT: Nearest at Copenhagen about 80 miles from Kalundborg. Served by regular airlines.

TIME: GMT plus 1 hour.

HOLIDAYS: New Year's Day; Easter Thursday; Good Friday; Easter Monday; Ascension Day; 1st May; Whit Monday; Prayer Day; 5th June; Christmas Day; 2nd Christmas Day. No work can be carried out.

SHORE LEAVE: Allowed.

DELAYS: Due to ice between 15th December and 31st March.

KOGE: 55.27 N. 12.12 E. (See Plan Book)

DOCUMENTS: For Customs vessels require:

Vessels of 150 ton and upwards, Load Line Cert.
Vessels of 300 ton and upwards, Load Line Cert. Radio Safety Cert.
Vessels of 500 ton and upwards, Load Line Cert. Radio Safety Cert. Equipment Safety Cert.
For all passenger vessels also Safety Cert.
For stevedores vessel shall have Bills of Lading, Manifests and Loading plans.

PILOTAGE: Pilotage compulsory for all tankers and vessels over 300 g.r.t. or 750 d.w.t. Vessel to call Pilot 2 hours before arrival. VHF on pilot station and pilot boat. Watch on Channel 16. Normal international light and sound signals used. Pilot boat located about 2 nautical miles East of port. No difference in bad weather.

ANCHORAGES: 1–2 nautical miles East of port with good bottom conditions.

RESTRICTIONS: See "General" before first port.

MAX. SIZE: Max. permissible length, 150 m.; max. permissible draft, 7 m.

HEALTH: Normal quarantine rules.

RADIO: Lyngby Radio or any other radio station in Denmark.

TUGS: 1 tug of 300 h.p. available. Additional tugs can be obtained from Copenhagen.

STEVEDORES: Normal ETA and description of vessel required.

MEDICAL: Doctor and hospital assistance available; other facilities to be obtained from Copenhagen.

TANKERS: Only 1 tanker berth, no specific requirements. LPG also handled.

FRESH WATER: Water from wharf.

FUEL: Products are delivered in Koge, others from Copenhagen.

FIRE PRECAUTIONS: Normal fire precautions. Tankers cannot request to go to berth before loading/discharging. 2 fire watchmen from the fire department.

GANGWAY/DECK WATCHMEN: Not necesssary.

OPENING/CLOSING HATCHES: Normally carried out by crew.

CUSTOMS ALLOWANCE: Tobacco: about 40 grams per day per man or 40 cigarettes per day per man. Wine and/or Spirits: about 0.25 litre spirits and 1 litre wine per man per day.

IDENTIFICATION CARDS: Not needed.

CONSULS: Nearest in Copenhagen.

REPAIRS: Small repairs.

DRY DOCKS: 2 small slipways for vessels up to 200 tons.

REPATRIATION: No facilities exist.

AIRPORT: Nearest is Kastrup Lufthavn; Copenhagen about 40 km. away.

TIME: GMT plus 1 hour.

HOLIDAYS: Normal Danish holidays, change from year to year. Normally work can be arranged.

POLICE/AMBULANCE/FIRE: Ambulance and Fire (03) 653300; Police 651448 or use alarm 000.

TELEPHONE: No arrangements exist for placing on board.

GENERAL: The North Port of Koge, "Nordhavn", 55° 27′ 4″ N. 12° 11′ 7″ E. Length of quayage 300 m. Depth 5.5 m.

WIND: Wind between N.E. and S.E. can give up to 1.6 m. HW and West wind up to 0.9 m. LW.

SERVICES: Pilot makes compass adjustments.

SHORE LEAVE: Allowed.

AUTHORITY: The Harbour Master.

KOLDING: 55.29 N. 09.29 E.

DOCUMENTS: See "Copenhagen".

PILOTAGE: Pilot station in Skaerbaek at mouth of Kolding Fjord. Tel. (05) 564118. VHF Channel 16.

ANCHORAGES: At Skaerbaek.

RESTRICTIONS: See "General" before first port.

MAX. SIZE: Maximum permissible length 180 m. Max. draft: 7.0 m.

RADIO: Lyngby Radio.

TUGS: Available.

STEVEDORES: Obtained through Agents.

MEDICAL: Hospital facilities available.

FRESH WATER: Available from quay. (5kr. per ton).

FUEL: Available.

GANGWAY/DECK WATCHMEN: Not necessary.

OPENING/CLOSING HATCHES: Normally carried out by crew.

CUSTOMS ALLOWANCE: Tobacco: 200 cigarettes. Wine and/or Spirits: 1 bottle wine, 1 bottle spirits.

IDENTIFICATION CARDS: Not needed.

CONSULS:

Finland: J. Borum, Haderslevvej 25, Kolding. Tel. (05) 521233.
Malta: Chr. Hindkjoer, Fabriksvej 27, Kolding. Tel. (05) 525533.
Norway: Eduard Christensen, Dyrehavegardsvy 38, Kolding, Tel. (05) 527711.
Austria: H. C. Overbeck, Havnepladsen, Kolding. Tel. (05) 523555.
Sweden: Ove Gronborg, Osterbrogade 14, Kolding. Tel. (05) 522711.

REPAIRS: Only small repairs can be carried out.

AIRPORT: Distance from Billund Airport 40 km. Billund Airport is served by regular airlines.

TIME: GMT plus 1 hour.

HOLIDAYS: See "Copenhagen".

POLICE/AMBULANCE/FIRE: Police, tel. (05) 522800; Ambulance, tel (05) 522222; Fire, tel. (05) 522222, Help, tel. 000.

TELEPHONES: Telephones obtainable on board.

SHORE LEAVE: Allowed.

AUTHORITY: Harbour Master.

KYNDBY: 55.49 N. 11.53 E.

PORT LIMITS: Vessel is considered to be an "arrived ship" when alongside the quay or at anchorage waiting for berth.

DOCUMENTS:

Ship's Register.
Load Line Certificate.
Radio Safety Certificate.
Safety Equipment Certificate.
Derat Certificate or exemption.
2 Crew Lists.
Cargo Manifest or Bills of Lading.
Construction Certificate.

Certificate of Insurance or other financial security in respect of civil liabilities for oil pollution damage.

Tobacco and Spirit List, covering all goods on board belonging to crew, officers, Master, ship's bar or passengers.

Smallpox: When a ship arrives from places outside Europe and USA and has been at sea less than 14 days, each member of the crew has to present a valid smallpox certificate to the authorities on arrival.

PILOTAGE: Pilotage not compulsory. Pilot boards at the entrance of Isefjord and takes the vessel to the port and berths her. Pilots listening on VHF Channel 16.

Pilots to be ordered by ETA telegram to Agent at least 24 hours in advance.

ANCHORAGE: Larger vessels anchor in 15–20 m. of water either in the Isefjord or outside the entrance to the Isefjord. Holding ground good.

RESTRICTIONS: Arrival only by daylight. No tide by normal winds. Vessel's draft entering Isefjord not to exceed 22 ft. Also see "General" before first port.

MAX. SIZE: *Oilberth:* depth alongside: 21 ft. 6 in., one berth length 570 ft.

Coalberth: depth alongside 23 ft.

HEALTH: No special restrictions as to free pratique, which will be granted by authorities on arrival, however, see "Documents – Smallpox". Suspected disease or fever must be telegraphed to Agents before arrival.

RADIO: Lyngby Radio.

VHF: Channel 16 to pilot station (also Scaw Pilot).

RADAR: No installation.

TUGS: Available. Join at Isefjord, outside the entrance to the port of Kyndby, ship's lines to be used.

BERTHING: One Oilberth: length 570 ft., draft 21 ft. 6 in. One Coalberth: 530 ft. long, draft 22 ft. Water brackish.

CRANES: As berth private, only handling own coal cargoes – 3 cranes available.

STEVEDORES: Private stevedores to be ordered through receivers – coal discharge – rate per crane per hour: about 200 tons.

MEDICAL: All medical and hospital facilities available, no advance notice necessary.

TANKERS: 2 discharge hoses, one of 12 in. and one of 16 in.

No slop facilities.

One tanker berth, safe arrival draft: 21 ft. 6 in. Average discharge rate: 1,000 t.p.h.

DENSITY: Brackish.

FRESH WATER: By hose from quay – 10 t.p.h., D. Kr. 2.50 per ton.

FUEL: Available from all bigger companies by trucks or barge from Copenhagen – about 40 miles from Kyndby.

FIRE PRECAUTIONS: No specific precautions.

CONSULS: Nearest Copenhagen about 40 miles from Kyndby.

REPAIRS: All types of smaller repairs can be carried out.

DRY DOCKS: No dry dock available.

SURVEYORS: All bigger Classification Societies represented in Copenhagen about 40 miles from Kyndby.

GANGWAY/DECK WATCHMEN: Watchmen not to be recommended.

OPENING/CLOSING HATCHES: To be carried out by crew.

CUSTOMS ALLOWANCES: 200 cigarettes and 1 bottle of spirit.

CARGO GEAR: Shore coal cranes.

REPATRIATION: Can be arranged normally via Copenhagen about 40 miles from Kyndby.

AIRPORT: About 40 miles to Airport in Copenhagen.

TIME: GMT plus 1 hour (from 28th September – 6th April). GMT plus 2 hours (from 6th April – 28th September).

HOLIDAYS: Saturday/Sunday normally no work, and further no work on holidays declared as official Danish holidays.

POLICE/AMBULANCE/FIRE: 0–0–0 all alarms.

TELEPHONES: No telephone connection on board.

SERVICES: No tank-cleaning facilities; all other services to ships can be arranged through specialists from Copenhagen.

SHORE LEAVE: No restrictions.

IDENTIFICATION: No shore passes necessary.

REGULATIONS: None.

DELAYS: None.

DEVELOPMENTS: None at the present time.

AUTHORITY: Private port owned by: Elektricitetsselskabet "Isefjordvaerket" I/S., Hellerup. Local office: Kyndbyvaerket.

NAESTVED: 55.14 N. 11.45 E. (See Plan Book)

DOCUMENTS: See "Kalundborg".

PILOTAGE: Compulsory between the entrance to Karrebaeksminde and Naestved for all ships over 150 g.r.t. VHF Channel 16. Tel. 03–727366 and 03–742397.

ANCHORAGES: 1 – 2 miles S.W. of head light in Karrebaeksminde in 10 – 12 m. depth.

RESTRICTIONS: Only navigable from half hour before sunrise to half hour after sunset, and according to tides. Also see "General" before first port.

MAX. SIZE: Max. length 100 m. Max. draft 5.60 m. with breadth 12.20 m. Max. breadth 14.40 m. with draft 4.80 m.

HEALTH: See "Kalundborg".

RADIO: Lyngby radio. VHF Channel 16.

TUGS: m/s "Eno" 360 h.p. VHF Ship's lines.

BERTHING: No berthing in Karrebaeksminde. Naestved 3 quays: 365, 270, 170 m., all with depth 6 m.

BRIDGES: One in Karrebaeksminde, total width 23.3 m.

MEDICAL: Hospital available.

FRESH WATER: Available from quay, 10 t.p.h.

FUEL: All grades. Deliveries by lorry only.

AIRPORT: Kastrup Airport, Copenhagen 90 km. away.

TIME: GMT plus 1 hour.

SHORE LEAVE: No restrictions.

AUTHORITY: Harbour Master.

NAKSKOV: 54.50 N. 11.08 E. (See Plan Book)

PILOTAGE: At Albuen at the entrance of the firth. The pilot station named "Belt Pilot". VHF Channel 16. Notice of ETA to be given as early as possible and not later than 3 hours before arrival.

RESTRICTIONS: Sailing to and in the harbour at night-time with help of projector and with good visibility only. Also see "General" before first port.

MAX. SIZE: Draft: 19 ft., Length: 660 ft., Breadth: 70 ft., Height: None – no bridges to pass.

TUGS: Tug available with 24 hours notice.

BERTHING: Protected from all winds. Depth up to 20 ft. 6 ins. (6.3 m.) 7,500 ft. of quay. In the fairway leading up to the harbour there is a depth of 20 ft. 6 ins. (6.3 m.), distance about 6 miles.

CARGO HANDLING FACILITIES: Tracks along the quays in connection with the railway station and all Danish Railways. Also good road connections.

3 grain silos: 4,000, 12,000 and 15,000 tons. 3 grain elevators loading rate 120, 80 and 50 t.p.h. respectively. 1 grain elevator discharging rate 40 t.p.h.

4 mobile belt conveyors loading up to 110 t.p.h.

2 mobile cranes (20 tons capacity) – also grab and polygrab.

3 forklifts 2.0–3.5 tons available. Up to 4.5 tons on request.

3 miniloaders (Bobcats) for discharging of bulk cargoes.

MEDICAL: Treatment all kinds possible, including hospital.

DENSITY: Fresh water.

FRESH WATER: Available from quay or by truck.

FUEL: Available.

CONSULS: Dutch, Finnish, French, Norwegian and Swedish.

REPAIRS: Blacksmith and electrical workshops available to carry out some repairs on deck and engine.

DRY DOCKS: Shipyard provided with 2 dry docks up to 32,000 d.w.t., building slips up to 35,000 d.w.t. Cranes to lift up to 100 tons.

OPENING/CLOSING HATCHES: Always carried out by crew.

CARGO GEAR: Loading/discharging always effected by shore gear, unless otherwise agreed in C/P.

AIRPORT: Small airport for taxi flights close to the port. About 160 km. to the nearest airport served by regular airlines.

TIME: GMT plus 1 hour (Summertime to be introduced in 1980).

GENERAL: Shipchandler with bonded stores serving port.

AGENT: Casper Andrea's Succrs., Havnegade 33, DK-4900 Nakskov, Denmark. Tel: 03-923333. Telex: 47545 andrea dk., Telegrams: Andrea Nakskov.

NYBORG: 55.19 N. 10.49 E.

DOCUMENTS:

Health Declaration.
Customs Declaration.

PILOTAGE: Required notice ETA 6 hours. Pilot boat VHF Channel 16. Belt Pilot, station Spodsbjerg Tel: 09–50 15 35, Office Nyborg 09–310089.

ANCHORAGE: South of Knudshoved Lighthouse. Depth 6 m. (52 ft.). Small vessels anchor S.W. of Avernakke Pynt.

RESTRICTIONS: See "General" before first port.

MAX. SIZE: Avernakke Pynt Bro (Oilpier) draft 32 ft. length about 600 ft. Vesterhavn draft 24 ft. length about 400 ft.

RADIO: Lyngby Radio.

TUGS: One tugboat normally stationed in the port. Tugs required notice 8-10 hours.

STEVEDORES: Ordered by Agent.

MEDICAL: Hospital facilities available.

TANKERS: Discharge at Avernakke. Discharge lines 8 in. and 10 in.

DENSITY: About 1005.

FRESH WATER: Supply by pipe-line to berths.

FUEL: All grades available.

GANGWAY/DECK WATCHMEN: Not compulsory.

OPENING/CLOSING HATCHES: Crew allowed open and close, otherwise according Charter Party.

CUSTOMS ALLOWANCE: Tobacco, 100 cigarettes for 3 days. Wine and/or Spirits; 1 bottle spirit for 3 days.

IDENTIFICATION CARDS: Not required.

CONSULS: Finland 311198, Norway 310737, Sweden 312106.
In Odense (near Nyborg);

Great Britain	115456	France	118700
Holland	115456	Iceland	120076
Portugal	120012	Spain	127781
W. Germany	972323		

REPAIRS: Most repairs possible.
DRY DOCKS: 500 d.w.t.; slipway 70 d.w.t.
AIRPORT: Nearest airport, Beldringe, Odense.
TIME: GMT plus 1 hour.
HOLIDAYS: New Year's Day; Maundy Thursday; Good Friday; Easter Monday; Prayer Day, Ascension Day; Whit Monday; Christmas Day; Boxing Day.
POLICE/AMBULANCE/FIRE: Police 311448; Ambulance 000; Fire 000.
SHORE LEAVE: No restrictions.
AUTHORITY: Havnefoged, Havnekontoret.

NYKOBING: 55.55 N. 11.41 E. (See Plan Book)

DOCUMENTS:
- Ship's Register.
- Loadline Certificate.
- Derating Certificate.
- Crew List stating quantity of cigarettes, cigars, tobacco, cigarette paper, spirits, wine and guns.
- Cargo List.

PILOTAGE: Pilot ordered through Agents or VHF Channel 16 (Guldborg Pilot) and will board at Skellerev or Argus Ground (both outside Guldborg bridge).
ANCHORAGE: By Skellerev, safe ground.
RESTRICTIONS: Port only accessible by daylight, max. draft 19 ft. 6 in., max. breadth for passing Guldborg bridge 25 m. Entrance from South (Gedser) not recommended, as depth of water in the Southern part of Guldborgsund only amounts to 8 ft. Also see "General" before first port.
RADIO: For vessels coming through the Kiel Canal, Kiel Radio could be used, otherwise nearest station Lyngby Radio.
TUGS: Available on request.
BRIDGES: Vessels calling Nykobing Falster have to pass Guldborg bridge about 8 miles North of harbour. Bridge, breadth 25 m., opens by request after sunrise and half an hour after sunset (from 1st Nov. to 1st March from half an hour before sunrise). When requesting passage use international flag "N" on half foremast and give one long and one short blast.
STEVEDORES: Ordered by Agents on receiving vessel's ETA.
MEDICAL: No advance notice required for medical attention.
FRESH WATER: Supplied from quay installations.
FUEL: All grades obtainable – delivered by tank lorry.
GANGWAY/DECK WATCHMEN: Not necessary.
OPENING/CLOSING HATCHES: Carried out by crew.
TOBACCO/WINE ALLOWANCES: Each crew member 100 cigarettes (or corresponding quantity of tobacco) and 1 bottle spirits.
IDENTIFICATION CARDS: Not necessary.
CONSULS:
- Norway
- Sweden
- West Germany
- Netherlands
- Finland

REPAIRS: Small deck and engine repairs possible.
AIRPORT: Nearest at Copenhagen (2 hours by train.)
TIME: GMT plus 1 hour.
HOLIDAYS: New Year; Maundy Thursday; Good Friday; Easter Monday; Prayer Day; 1st May (Labour Day, half only); Ascension Day; Whit Monday; Constitution Day (5th June, half only); Christmas and Second Christmas Day.
POLICE/AMBULANCE/FIRE: Dial 0–0–0 and ask for police, ambulance or fire service.
SHORE LEAVE: Crew members may go ashore without any restrictions.

ODENSE: 55.25 N. 10.23 E. (See Plan Book)

DOCUMENTS:
- Ship's Register.
- Load Line Certificate.
- Radio Safety Certificate.
- Safety Equipment Certificate.
- Derat Certificate or exemption.
- 1 Crew List.
- 1 Stores List.
- 1 Crew Personal Effects List.
- 1 Cargo Manifest or Bills of Lading.

PILOTAGE: Compulsory between Gabet and Stige for all tankers of 1,500 d.w.t. and over. Pilotage compulsory between Stige and Odense for all vessels of 150 g.r.t. and over. Contact Odense Fjord Pilot (Gabet-Stige) on VHF Channel 16. Odense Fjord Pilot boards just North of light-buoy 2A outside of Gabet. In bad weather the Pilot will board inside of Gabet between light-buoys 2 and 4. Stige Pilot (Stige-Odense) boards at Stige and operates on VHF Channel 12.
ANCHORAGE: Inside of Gabet in depths of 7.5 m. Larger vessels anchor outside of Gabet.
RESTRICTIONS: Port is entered through dredged canal, min. 25 m. wide, 7.5 m. deep. Navigation usually throughout the year. Ice-breaker assistance available if necessary. Vessels over 3,000 d.w.t. enter in daylight only. Speed limit of 6 knots in entrance canal. Arriving ships must wait for vessels leaving port. Also see "General" before first port.
MAX. SIZE: Draft, max. 6.7 m. fresh water, length, max. 160 m. controlled by swinging basin and draft. Permissible draft for vessels over 100 m. in length to be obtained from Agent.
HEALTH: Pratique granted by Customs Officers who bring Health Declaration for Masters to complete. In event of suspected disease or fever on board radio details to Agent before arrival. When vessel arrives from port outside of Europe and U.S.A. and has been less than 14 days at sea, all crew members require valid smallpox vaccination certificates.
RADIO: Lyngby Radio.
VHF: Port Authority, tug and Stige Pilot communicate on Channel 12, Odense Fjord Pilot on Channel 16.
TUGS: Tug is available (660 h.p.). Not compulsory but necessary for large vessels. Tug normally joins vessels in port. Large vessels at Gabet. Ship's line.
BERTHING: Three harbour basins including 4,200 m. of quays with depth of 7.5 m. alongside. Coal quays at Fynsvaerket, depth 7.5 m. alongside.
CRANES: At Basin I: one 6-ton crane with polyp-grab if needed, and one 3.5-ton crane.
At Basin II: two 3.5-ton cranes both with grab if needed.
At Basin III: two 6-ton cranes, one 15-ton crane and one 50-ton crane.
Quay along the canal: eight private cranes with grab.
At Fynsvaerket: three cranes with grab.
Also available in the port: two 6-ton mobile cranes. No floating cranes.
BULK CARGO FACILITIES: Five private suction-installations for grain, etc. Coal and chemicals are handled by crane.
SPECIAL CARGO FACILITIES: Berths available for handling of containers and Ro-Ro traffic. Installation for liquefied ammonia.
BRIDGES: No bridges but powerlines max. height 45 m.
STEVEDORES: To be arranged through Agent.
MEDICAL: Doctors and hospital facilities anytime. Arrange through Agent.
TANKERS: Two berths length 160 m. each, depth 7.5 m. also one jetty, depth 6 m.
DENSITY: 1003.
FIRE PRECAUTIONS: In addition to the usual precautions a firefighter is posted at the vessel while in the port when the cargo is petrol, kerosene, etc.
AIRPORT: Situated 15 km. from the harbour. 3–5 flights a day to and from Copenhagen.
POLICE/FIRE/AMBULANCE: Dial 000 and ask for service required.
CONSULS: All European countries represented.
FRESH WATER: Available by pipe-line at all berths. Rate: 10–15 t.p.h.
FUEL: All grades available by road transport.
CUSTOMS ALLOWANCES: 200 cigarettes, 1 bottle wine and 1 bottle of spirits permitted out of bond for each man.
TIME: GMT plus 1 hour. Summertime may be introduced.
HOLIDAYS: New Year's Day; Maundy Thursday; Good Friday; Easter Monday; Prayer Day; Ascension Day; Whit Monday; Christmas Day; Boxing Day.
Half-holidays: May 1st, June 5th and December 24th. Work can be arranged.
REPAIRS: All engine and boiler repairs can be effected.
DRY DOCKS: One 500,000 d.w.t. and two 100,000 d.w.t. dry docks in Lindoe Shipyard and one 500 d.w.t. slipway in port.
SURVEYORS: N.V. and Lloyd's.
HATCHES: Normally opened by ship's crew.
REPATRIATION: Can be arranged.
TELEPHONES: No telephones on board.
SERVICES: Compass adjustment can be arranged.
SHORE LEAVE: No restrictions.
IDENTIFICATION CARDS: Not necessary.
REGULATIONS: Nothing unusual.
DELAYS: None.
DEVELOPMENTS: Leading lights through Odense Fjord expected to be in operation at the end of 1981.
AUTHORITY: The Harbour Office, Odense.

RANDERS: 56.29 N. 10.04 E. (See Plan Book)

DOCUMENTS:
- 2 Crew Lists
- 2 Lists with statement of each Crew member's cigarettes, tobacco and spirits.

PILOTAGE: Apply for Pilot 6 hours before arrival. VHF Channel 16, one hour before. Pilot station, Tel: 06-485024.
ANCHORAGE: Outside Entrance buoy in 8 m.
RESTRICTIONS: Only vessels less than 1,000 d.w.t. may enter at night. Also see "General" before first port.
MAX. SIZE: Max. length, 475 ft.; breadth, 57 ft.; draft, 19 ft.
HEALTH: No special requirements.
RADIO: Lyngby Radio and Skaw Radio.
VHF: VHF service from Harbour Office, Channel 16, icebreaking 16.
TUGS: 900 h.p. tugs available – use ship's lines.
STEVEDORES: Ordered by Agents. Working periods: Monday to Friday 0730-1130 hrs., 1200-1615 hrs.; Saturday no work.
MEDICAL: Hospital facilities available.
TANKERS: 6 in. and 8 in. discharge lines; no slop facilities.
DENSITY: Brackish in port area. No tide.
FRESH WATER: Shore installations.
FUEL: All grades. Deliveries by lorry only.

GANGWAY/DECK WATCHMEN: Available but not compulsory.
OPENING/CLOSING HATCHES: By crew.
CERTIFICATES: Tonnage Certificate, Derating Certificate, Load Line Certificate.
CUSTOMS ALLOWANCES: Each crew member 100 cigarettes or 25 cigars or 100 grams tobacco, and 1 bottle spirits and 1 bottle wine meant for 3 days.
IDENTIFICATION CARDS: Not required.
CONSULS: Norway (06) 42 61 00, Finland (06) 42 51 11, Sweden (06) 420022, Iceland (06) 42 55 55.
REPATRIATION: Several hotels and Seamans' Home.
REPAIRS: Engine repairs and minor repairs.
SURVEYORS: Arranged by Agent.
AIRPORT: Tirstrup Airport 40 km. from Randers, 5–7 daily connections with Copenhagen.
TIME: GMT plus 1 hour in Winter. Summertime from April-October.
HOLIDAYS: 1st January (New Year); Maundy Thursday, Good Friday, Easter Monday; 1st May from 1200 hrs. (Labour Day); Whit Monday from 1200 hrs.; 24th December from 1200 hrs.; 25-26th December (Christmas).
POLICE/AMBULANCE/FIRE: Tel. 000.
AUTHORITY: Harbour Master, Randers Havnevaesen.

RODBY: 54.39 N. 11.20 E. (See Plan Book)

DOCUMENTS:
1 Crew List.
1 Passenger List.
1 Stores List.
1 Manifest or Bill of Lading.
PILOTAGE: As the harbour is so easily accessible there is no Pilot. A person with local knowledge may be engaged by calling ferry "Danmark" VHF 16.
ANCHORAGES: At a distance of 1.5–2 miles, bearing S.E. – S.S.E. of approaching buoy, depth of water 10 m.
RESTRICTIONS: See "General" before first port.
REGULATIONS: Ferries owned by D.S.B. or D.B. (Trainferries) have priority using the entrance.
MAX. SIZE: Largest vessel Length 80 m. Draft 4.5 m. Depth of water in North and West Basin: 5 m. N.E. Storm can give rise of up to 1.5 m. S.W. – Storm can give fall of 1.2 m. on daily depth.
HEALTH: No Certificates required.
RADIO: All messages via "Lyngby Radio".
TUGS: None.
BERTHING: Quay length 518 m. equipped with 3 mobile cranes 8, 15 and 25 tons capacity. Two grain silos, loading capacity 60–90 t.p.h.
STEVEDORES: Provided by "Rodby Shipping" Telephone 03. 905522. Telex 40022 or Shipbroker A. Hovmand, Telephone 03. 888011, Telex 40256.
MEDICAL: 2 hospitals available.
FRESH WATER: Can be supplied alongside the quay.
FUEL: Obtainable alongside the quay.
OPENING/CLOSING HATCHES: By crews or stevedores, ship's option.
CERTIFICATES: On arrival, ships register only.
CUSTOMS ALLOWANCE: 200 cigarettes, 1 litre spirits and 3 litres wine.
IDENTIFICATION CARDS: Not required.
AIRPORT: Maribo Airport, 14 km.
SHORE LEAVE: After clearing inwards, Crew members are allowed to go ashore without special permission.
AUTHORITY: Harbour Master.

RONNE: 55.06 N. 14.42 E. (See Plan Book)

DOCUMENTS:
1 Crew list.
1 Passenger List.
1 Customs Declaration.
1 Declaration for crew's tobacco, spirits, etc.
1 Declaration of Health.
1 Declaration to Police, number of crew, passengers, etc.
1 Bill of Lading (or Manifest).
PILOTAGE: Apply for Pilot via Ronne or Lyngby Radio, advance notice not less than 1 hour. Pilot listens continuously on VHF. Call Ronne Pilot or Ronne Harbour. Area where Pilot to be taken on board is by Ronne light-buoy, 2 miles S.W. of the harbour; if weather bad pilot boat guides the ship inside the breakwater and then Pilot boards.
ANCHORAGE: No safe anchorages outside the harbour.
RESTRICTIONS: See "General" before first port.
MAX. SIZE: Max. length 400–450 ft., draft 22 ft. There is no tide.
HEALTH: No special procedure necessary, but if there is suspected disease or fever on board or ship comes from area with fever, etc., call for quarantine doctor. If ship's last call was Danish port pratique automatic.
RADIO: Ronne Radio, call-sign OYE; or Lyngby Radio, call-sign OXZ.
VHF: Listens on Channel 16. Working Channels 12 and 13. Same in tug and Pilot boat. Mainly traffic concerning pilotage and harbour operations.
RADAR: Located at Pilot station, mostly look-out aid, but advice on entering can be given.
TUGS: Normally join the vessel inside breakwater; ship's lines to be used.
BERTHING: 3 berths equipped with hydraulic ramps for roll-on/roll-off traffic via stern or head only, one of which is suitable for ships up to 450 ft. length, 65 ft. beam, draft 21 ft.
3 berths for sand loading 400–600 t.p.h., for vessels up to 350 ft. length, 21 ft. draft.
2 berths for macadam loading 400 t.p.h., for vessels up to 300 ft. length, 21 ft. draft.
1 grab-crane, capacity 100 t.p.h. is situated on pier 13.
3 mobile cranes with capacities up to 30 tons are available for both hook and grab operations.
Also berths for handling coal and grain.
STEVEDORES: To arrange gangs Monday morning, advices have to be given Friday before 1100 hrs. To arrange work other days, notice must be given before 1600 hrs. the day before.
MEDICAL: Hospital facilities are available. It is not necessary to give advance notice.
TANKERS: Two berths for coastal tankers draft up to 22 ft., length up to 300 ft. for tankers of 1,500 d.w.t. and upwards, Pilot is compulsory when entering and leaving the port.
FRESH WATER: Available 10 – 12 t.p.h.
FUEL: Light fuel, Redwood 200 sec. Heavy fuel 3500 sec., also 1000 and 1500 sec. Notice 6 hours ETA.
GANGWAY/DECK WATCHMEN: Not necessary.
OPENING/CLOSING HATCHES: Carried out by crew.
CERTIFICATES: Nationality Cert., Derat. Cert., Load Line Cert. Radio Cert. (Safety Cert. for passenger ships only).
CUSTOMS ALLOWANCE: Tobacco: 40 cigarettes or other tobacco per day. Wine/Spirit: half a bottle per day.
IDENTIFICATION CARDS: Not needed.
CONSULS: The following countries are represented in Ronne: Sweden, Finland, France, Netherlands, Norway and West Germany.
REPAIRS: All kinds of repairs can be carried out.
DRY DOCKS: Only small ships up to 350 tons.
REPATRIATION: Possible.
AIRPORT: 3 miles, served 3–5 times per day by SAS to Copenhagen.
TIME: GMT plus 1 hour in Winter. GMT plus 2 hours from April 6th to September 28th.
HOLIDAYS: New Year's Day; Easter, 3 days Thursday, Friday, Easter Day (Monday); May 1; Whit Monday; June 5; Christmas Eve; Christmas Day; 2nd Christmas Day. Cargo work only possible for foodstuff, etc.
SERVICES: Compass adjustment at Duc d'Albe in Southern part of Forhavn.
SHORE LEAVE: Allowed.
DEVELOPMENTS: Reconstruction of Piers Nos. 2 and 3 completed.
2 dolphins are placed approx. 40 m. South of Pier No. 11.
The dredged area has been extended as shown on the plan.
The Dolphin West of Pier 22 is used for compass adjustment.
The reconstruction of the North Harbour and the extension of the dredged area will enable the Port to handle bigger ferries, which are planned to serve the domestic routes.
Reconstruction completed in 1979.
AUTHORITY: Harbour Master.

SKAERBAEK: 55.31 N. 09.37 E. (See Plan Book)

DOCUMENTS:
Ship's Register.
Load Line Certificate.
Radio Safety Certificate.
Safety Equipment Certificate.
Derat Certificate or exemption.
1 Crew List.
Stores List.
Crew Personal Effects List.
Cargo Manifest or Bills of Lading.
PILOTAGE: Not compulsory. Pilot joins at mouth of Kolding Fjord. Can be contacted by VHF Channel 16.
Bigger ships usually take Pilot by Skaw L/V. Pilots to be ordered by ETA-telegrams to SKAWPILOT Skagen, at least 12 hours in advance. Skawpilot listening on VHF Channel 16.
ANCHORAGE: Off Skaerbaek in depths of 39 ft.
RESTRICTIONS: See "Tankers" and "General" before first port.
MAX. SIZE: LOA 250 m. Max. draft 38 ft.
RADIO: Lyngby Radio.
TUGS: Available, at short notice.
BERTHING: Power station wharf: 253 m. length; depth alongside 23 ft. Oil Jetty: depth 39 ft.
CRANES: 1×85 ton stationary crane, 2×7.5 ton coal cranes and 1×12 ton coal crane.
STEVEDORES: Working hours: Monday to Friday 0700–1530 hrs.
TANKERS: One berth, depth 39 ft. (11.9 m.). Max. length between bow/stern and manifold 127 m. (417 ft.). 3×12 in. discharge arms, rate 4,000 t.p.h.
MEDICAL: Medical attention available, nearest hospitals at Kolding and Fredericia.
DENSITY: 1017 (approx.).
REPAIRS: Local machine shops can manage small repair jobs.
DRYDOCKS: None.
FRESH WATER: Obtainable from quay.
FUEL: Available by barge from Fredericia.
CONSULS: Nearest at Kolding. Distance 15 km.
REPATRIATION: Possible.
AIRPORT: Billund or Odense, both approximately 50 km. distant, and with daily flights to Copenhagen.

CUSTOMS ALLOWANCES: 200 cigarettes, 1 bottle wine and 1 bottle spirits permitted out of bond for each man.
TIME: GMT plus 1 hour.
HOLIDAYS: New Year's Day; Maundy Thursday; Good Friday; Easter Monday; Prayer Day; Ascension Day; Whit Monday; Christmas Day; Boxing Day. Half holidays: May 1st, June 5th and December 24th.
AIRPORT: Billund Airport, 40 km. distant.
AUTHORITY: Sydostjydske Faellescentral Skaerbaekvaerket.

SONDERBORG: 54.55 N. 09.47 E.

DOCUMENTS:
Ship's Register.
Crew List.
Crew Manifest.
Radio Safety Certificate.

PILOTAGE: Vessels exceeding 20 ft. in draft or 3,000 gross tonnage use Northern entrance where Pilot boards vessels at buoy 4 or 7, route 25.

Ships coming from South (passing harbour bridge) contact Pilot boat at buoy 6 or 7 route 8. Pilot not compulsory. VHF on Pilot station. Harbour Master and Pilot tel. 044 22765.

RESTRICTIONS: No restrictions night entry. No tide. N.E. to E. winds raise water level up to 3 in. S.W. to N.W. winds lower it by same amount. Also see "General" before first port.
TUGS: Available; 6 hours notice required.
BERTHING: *South Harbour:* Mainly used by small passenger and fishing boats.

North Harbour: Concrete quay about 2,000 ft. long, depth alongside 24 ft. At plywood factory, dolphin moorings up to 29 ft. draft. Harbour is divided into above mentioned two parts by a rail bridge. Lifting sections 98 ft. wide. Submarine cables in area from 50 yd. South of bridge to 100 yd. North.

FRESH WATER: Supplied by pipe-line to berths.
FUEL: Available.
REPAIRS: Two slipways. 100 and 500 tons capacity.
AIRPORT: In Sonderborg, Regular airline inland.
TIME: GMT plus 1 hour.
AUTHORITY: Harbour Master.

SVENDBORG: 55.03 N. 10.38 E. (See Plan Book)

DOCUMENTS:
Certificate of Registry.
Freeboard Certificate.
Derat Certificate.
Crew List.

PILOTAGE: Telegraphic address, "Pilotstation, Svendborg". For contacting pilot boat on VHF, use Channel 16. International signals for Pilot. In Eastern entrance Pilot boards at Thuro Rev. In Western entrance Pilot boards at Lehnskov, or if ordered at Skrams Flak.
ANCHORAGE: At Lunkebugt (Eastern entrance) and by Lehnskov (Western entrance).
RESTRICTIONS: See "General" before first port.
MAX. SIZE: Longest ship ever docked was 541 ft. long, 67 ft. breadth, draft 22 ft. 06 in. Shorter ships may enter with deeper draft.
HEALTH: Pratique automatic.
RADIO: All Danish coast stations can be used. (See "Horsens".)
TUGS: Normally tugs stationed in Svendborg, ships wanting tugs order through Agent before arrival.
BRIDGES: 1 mile West of harbour a bridge crosses the sound. Free height 33 m.
STEVEDORES: Ordered by Agent.
MEDICAL: Doctors and hospital service always available.
DENSITY: Approx. 1024.
FRESH WATER: Available at all piers. 20 t.p.h.
FUEL: No bunker lines. Diesel can be delivered by tank cars.
GANGWAY/DECK WATCHMEN: Available, but not compulsory.
OPENING/CLOSING HATCHES: Normally carried out by crew.
CUSTOMS ALLOWANCE: Tobacco: 40 cigarettes or 40 gr. tobacco. Wine/Spirit: 0.25 litre.
IDENTIFICATION CARDS: Not needed.
CONSULS: Vice-Consulates: Norway, Tel. 09 21 31 17; Sweden, 09 21 14 10; Finland, 09 21 22 21; W. Germany, 09 21 15 39; Iceland, Tel. 09 21 18 83.
REPAIRS: All repairs to deck and machinery carried out by shipyard.
DRY DOCKS: Floating docks for ships up to 10,000 d.w.t.
REPATRIATION: Facilities exist.
TIME: GMT plus 1 hour.
HOLIDAYS: New Year's Day; the day before Good Friday; Good Friday; Easter Monday; May 1st; Ascension Day; May 5th; Prayer Day; Whit Monday; June 5th; 25th and 26th of December.
FIRE/AMBULANCE/POLICE: Call 000.
TELEPHONE: No telephone for ships.
SERVICES: Compass adjusting.
SHORE LEAVE: No restrictions concerning shore leave for crew. Dogs not allowed to go ashore.
AUTHORITY: Harbour Master.

VEJLE: 55.42 N. 09.33 E. (See Plan Book)

DOCUMENTS: Required on arrival:
2 Crew Lists.
2 Passenger Lists.
1 Tobacco List.
1 National Reg. Certificate.
1 Load Line Certificate.
1 Tonnage Certificate.
1 Manifest.
1 Bill of Lading.
1 Derating Certificate.
1 Radio Safety Certificate.
1 Clearance inward and outward.
1 Safety Certificate.

PILOTAGE: Pilot station now at Juelsminde, radio Pilot Vejle VHF Channel 16 – 3 hours notice of ETA. The Pilot will embark and disembark at Rosenvold Hage on the N-side of the fjord.
ANCHORAGE: (1) At Rosenvold Hage, (2) at Traeskohage.
RESTRICTIONS: See "General" before first port and "Developments".
MAX. SIZE: Length max. 550 ft., max. draft 23 ft.
HEALTH: Pratique procedure is carried out by customs dept.
RADIO: Lyngby Radio, OXZ, Blaavand Radio OXB.
TUGS: Available inside port, ship's lines.
STEVEDORES: Available. 0700 hrs. start must be informed 24 hours in advance.
MEDICAL: Hospital facilities available day and night with doctors available 24 hours per day.
TANKERS: 2 tanker berths, max. draft 23 ft. No slop tank available. Diameter of discharge lines 8 in. and 6 in.
DENSITY: Average density 1020.
FRESH WATER: Delivered from lines on piers. 14 t.p.h.
FUEL: All grades available. No advance notice required.
GANGWAY/DECK WATCHMEN: Not required.
OPENING/CLOSING HATCHES: Carried out by crew.
CUSTOMS ALLOWANCE: Tobacco: 200 cigarettes, Wine and/or Spirits: 1 bottle of each.
IDENTIFICATION CARDS: Not needed.
CONSULS: Vice-Consuls: Greece, 821929; Norway, 829122; Spain, 820233; Germany, 820011.
REPAIRS: Deck and engine repairs can be undertaken.
DRY DOCKS: None.
REPATRIATION: No facilities.
AIRPORT: Billund 32 km., 3 flights per day.
TIME: GMT plus 1 hour.
HOLIDAYS: New Year's Day; Easter; 1st May, Whit Sunday, Christmas holidays. Cargo work can be done on overtime except 1st May (Labour Day).
POLICE/AMBULANCE/FIRE: Police, tel. 821744; Ambulance, 822244; Fire, 822244.
TELEPHONES: No arrangements exist for placing on board.
DEVELOPMENTS: A highway-bridge is being built over the fjord over the entrance-channel about 1 mile outside the harbour entrance. Max. height over the channel, 40 m.
SHORE LEAVE: Allowed.
AUTHORITY: Harbour Master.

VORDINGBORG (South Harbour – formerly Masnedsund): 54.59 N. 11.54 E. (See Plan Book)

DOCUMENTS: See "Copenhagen".
PILOTAGE: Available from Masnedoe Pilot Station tel. 03-772170.
ANCHORAGE: Vordingborg Roads.
RESTRICTIONS: See "General" before first port.
MAX. SIZE: Draft 21 ft. max., breadth 25 m. (depending on vessel's height) owing to passage of bridge before entering harbour. Width of bridge opening 25 m. At a height of 25 m., width of opening 22 m. due to angle of raised bridge.
RADIO: Lyngby Radio.
TUGS: Available from Nakskov, Korsoer, Copenhagen. Notice for towage about 6/8 hours.
BERTHING: Berths equipped for handling grain, ore, coal, liquid chemicals and LPG carriers.
Masnedoe Power Station: Private harbour. Draft 21 ft. Fresh water available. Pilotage, towage, as for Vordingborg.
BRIDGES: Passage of bridge 25 m. wide, opening day and night. Bridge normally in radio contact with pilot station. Fully lighted. Approach to power station from the West – pier situated just to the West of opening bridge, and therefore no passage.

In the approach to Vordingborg and power station passage of overhead power cables, max. air-draft 36 m.

STEVEDORES: Local stevedores ordered by Agent.
MEDICAL: Hospital available.
FRESH WATER: Supplied by pipe-line to berths.
FUEL: All common fuels available.
GANGWAY/DECK WATCHMEN: Available but not compulsory.
OPENING/CLOSING HATCHES: Crew allowed to open and close, otherwise as per C/P.
CERTIFICATES:
Registered Certificate of tonnage.
Derating Certificate.
Construction Certificate.
Load Line, and Equipment Certificate on first call.

CUSTOMS ALLOWANCE: About 200 cigarettes and a limited amount of spirits each man.
CARGO GEAR: 2 mobile cranes, one grain-sucker and elevator.
IDENTIFICATION CARDS: Not required.
CONSULS: At Copenhagen.
REPAIRS: Most repairs, engine and equipment available. Electronic service only available from Copenhagen.
DRY DOCK: No local dry dock. Nakskov/Copenhagen nearest.
HOLIDAYS: See "Copenhagen".
POLICE/AMBULANCE/FIRE: Police 03-771448; Ambulance, Fire Brigade 0–0–0.
AUTHORITY: Vordingborg Kommune.

NOTES

Please also advise Shipping Guides Ltd.

Djibouti, Republic of

DJIBOUTI: 11.36 N. 43.08 E. (See Plan Book)

DOCUMENTS: Crew List for ship's Agent. Crew Manifests and Manifests of Passengers in transit or for disembarkation, for whom disembarkation cards are to be completed. Presentation of Health Declaration and verification of compulsory immunisations by the health representative. Cargo Manifest, required in 5 copies prior to any discharging operations, also deposit of 1 copy at port operation office.

PILOTAGE: Compulsory. Pilot boards in vicinity of buoy No. 2 of the Heron Bank, where all vessels must wait. Call signals are regulated by International Code. Vessels at the quay wishing to put to sea must call Pilot half an hour beforehand by 3 long blasts (in addition to the "G" flag). VHF radiotelephony station to liaise with ships. Ships must ensure a permanent watch on Channel 12, at the latest after clearing parallel of Muskali beacon.

MAX. SIZE: Entrance to inner roads dredged to 11 m. depth.

ANCHORAGE: Anchorage zone is within following limits:

1. Eastern limit: a line parallel to and 0.25 miles West of the North passage.
2. Southern limit: Latitude 11° 37′ N.
3 Western limit: a bearing with the Western extremities of Penguin and Ambouli Banks in alignment.

It is forbidden to anchor 1.5 cables on each side of the alignment of Ambouli and d'Ayabele lights.

Average depth is of 15 to 20 m. Anchor hold is excellent, even with a strong S.W. monsoon when there is often a heavy swell.

RESTRICTIONS: Entry during the day or night. Highest tide 2.90 m. Mean tide is approximately 1.60 m., and lowest are 0.20 m. Tidal currents are very weak in bay and rarely exceed 1 knot.

HEALTH: Generally free pratique by radio can be granted to all ships applying through Coastwise Station Djibouti Radio. Ships must radio in plain or international code, a maximum of 12 hours and a minimum of 4 hours prior to arrival in port. In all cases, when Pilot boards vessel he gives Captain a copy of Maritime Health Declaration which must be filled in by Captain and countersigned by ship's doctor, if the crew includes one. An examining official comes on board when vessel arrives to receive the Maritime Health Declaration. Smallpox certificate required from all travellers coming from all countries. Cholera certificate required from all travellers coming from an infected area, excepting children of under 6 months of age.

RADIO: For short distance communications, ships contact shore by radio telephone VHF through Harbour Master's office. Port office is equipped with a VHF station transmission and reception: Channel 12 (156.6 mHz) and 16 (158.8 mHz). For medium or long distance communications, ships contact shore by radiotelegraphy and radiotelephony through Djibouti coastwise station, call sign: TXZ; call frequency: 8.682 and 500 kc/s; working frequency 8.682 and 464 kc/s.

TUGS: In Winter (slight Easterly monsoon), a single tug is generally sufficient for manoeuvring. In Summer during the Khamsin period, berthing or sailing often requires 2 tugs. There is a 1,500 h.p. diesel tug *Aboubaker Pacha*, a 1,800 h.p. tug, *A. Rimbaud*, a 1,320 h.p. diesel tug *Henri Lambert*, a 1,000 h.p. tug *Administrateur Bernard* and 1 auxiliary 600 h.p. tug.

BERTHING: exterior docks comprise:

Dock 11 depth of 11 m.
Dock 12 depth of 12 m.
Dock 10 depth of 11 m.
Dock 13 depth of 10.80 m.
Dock 9 depth of 9 m.

Average depth of remaining roadstead is between 15 and 20 m.

CRANES: There are no cranes on quays, but the port has 2 mobile cranes of 15 tons and 25 tons capacity plus a floating crane for the handling of heavy-lifts of 70 tons capacity.

BULK CARGO FACILITIES: Molasses can be handled.

SPECIALISED CARGO HANDLING FACILITIES: Open ground and shedded areas for containers, Roll-on/Roll-off traffic and Quay for the traffic of lighters.

STEVEDORES: Four companies available, office hours from 0700 to 1730 hrs. Stevedoring 24 hours.

MEDICAL: Port Medical Service directed by medical practitioner specialised in industrial medicine is situated in a building neighbouring the port offices. It operates a dispensary. Passengers and sailors in transit are treated by private doctors from town who may visit the ships. Serious cases can be hospitalised in Djibouti's civil or military hospitals.

TANKERS: Reception lines: Berths 12 to 13 specially equipped for reception of bunkering products are linked with installations of the petroleum companies by a 16-in. dock-line and 12-in. (FO) and another of 12-in. (DO). Pier No. 10 is connected to the installation with a dock-line of 12-in. Rate of discharging can reach between 2,000 and 2,500 t.p.h. Reception of white products is assured from quay No. 13 by an 8-in. line; for gas there is a 4-in. line.

FRESH WATER: Each quay provided with 3–5 (200 mm.) water-hydrants. Delivery of 40 cu.m. of water per hour. Regardless of the season, there is never any shortage of fresh water.

FUEL: A complete range of different viscosities and products is available. Meets all the usual requirement of bunkering vessels. Ample supplies of fuel and diesel oil are always available.

GANGWAY/DECK WATCHMEN: Available.

OPENING/CLOSING HATCHES: Normally carried out by stevedores.

IDENTIFICATION CARDS: Required.

CONSULS:

Belgium
Egypt
Ethiopia
France
Great Britain
Iraq
Italy
Libya
Oman
Saudi Arabia
Somalia
Sudan
Yemen (N)
Yemen (S)
U.S.A.

REPAIRS: Small repairs available.

REPATRIATION: Good facilities exist.

AIRPORT: International airport with regular and local flights.

HOLIDAYS: New Year's Day (1 January); Aid Seghir (El Fithir) and the following day; Labour Day (1 May); Aid El Kebir and the following day; Muslim New Year (1st Mouharam); National Holiday (27 June); Mouloud El Nabi; Al yarah wal Mirage.

Dates referring to religious holidays vary every year, particularly where Muslim holidays are concerned. Loading and discharging operations as well as bunkering can be carried out during all of above holidays when other services are also available.

TELEPHONES: Available on every berth.

SHORE LEAVE: Allowed.

DEVELOPMENTS: A 4,400 sq.m. shed and two 1,600 sq.m. sheds (South Mole extension) are finished.

Building of 10,000 sq.m. sheds completed for trailers, tractors and elevators of strong capacity for the handling of containers.

Berth 9 under reconstruction.

SHIPMASTER'S REPORT: September, 1979.

Approaches: After passing Muskali Beacon on approaching, the leading lights, during daytime (183½° True) are often not visible due to the sun's glare. At night these make an excellent approach.

Pilotage: Do not proceed beyond No. 2 Heron Bank Buoy. Pilot boat 12 m., blue hull, white top and displaying Pilot signals.

Radar/VHF: Channel 12 for calling and operations. No Port radar.

Hatches: Opening/Closing normally carried out by ship's crew.

General: Provisions both fresh and dry available, but expensive.

AUTHORITY: Directeur, Port de Commerce de Djibouti.

AGENT: Socopao – Djibouti, P.O. Box 57. Tel. 35.11.50. Telex 827 Djibouti. Cables "Marill".

NOTES

Dominican Republic

GENERAL

DOCUMENTS:

Vessels calling at Dominican ports require a complete Dominican consular despatch from every loading port as well as from the last foreign port of call. Should there be no Dominican Consulate at the respective loading port, the Agents should prepare 3 copies of the manifest to be delivered to Customs. If no Dominican Consulate at the last foreign port of call, the Agent will attend to all the formalities required by the local port authorities.

Smallpox vaccination certificates, not over 2 years old, will be required by the Port Doctor as well as the Deratization, resp. Exemption Certificate.

Additional papers, besides consular despatch, required by authorities are as follows:

Port Doctor:
- 1 copy crew list,
- 1 copy landing/transit passenger list,

Harbour Master:
- Port clearance from last port of call,
- 3 copies crew list,
- 3 copies landing/transit passenger list,
- 3 copies negative passenger list (if none landing),
- 3 copies arms list.

Customs:
- 2 copies crew list,
- 2 copies arms list,
- 2 copies landing/transit passenger list,
- 2 copies negative passenger list (if none landing),
- 2 copies stores list,
- 1 copy tallybook.

Immigration:
- 2 copies crew list,
- 2 copies landing/transit passenger list.

Police:
- 1 copy crew list,
- 1 copy landing/transit passenger list.

Department of Agriculture:
- 1 copy stores list,
- 1 copy tallybook.

Agency:
- 1 copy crew list
- 1 copy landing/transit passenger list,
- 4 copies manifest (if not airmailed previously),
- 2 copies each B/L (if not airmailed previously),
- 7 copies tallybook.

Additional lists, etc., required are:
- 10 crew lists,
- 10 landing/transit passenger lists,
- 5 negative passenger lists (if none landing),
- 5 arms lists,
- 3 stores lists,
- 9 tallybooks,
- 4 copies cargo manifest (if not previously airmailed),
- 2 copies B/L (if not previously airmailed).

HOLIDAYS: New Year's Day (January 1st); Our Lady of High Grace (January 21st); Duarte's Day (January 26th); Independence Day (February 27th); Good Friday (Variable); Labour Day (May 1st); Corpus Christi (Variable); Restoration of Independence (August 16th); Our Lady of Mercy (September 25th); Christmas Day (December 25th).

Regular working hours: 0800 — 1200 hrs., 1400 — 1800 hrs., Mondays to Fridays and 0800 — 1200 hrs. Saturdays.

Saturday: Overtime is payable to labour for work performed after 1200 hrs. Pilots and government officials are paid overtime rates all day, but Customs personnel are only paid overtime rates after 1200 hrs.

The above holidays are legal in the Dominican Republic and for the diplomatic and consular representations abroad.

Work can be performed on all Sundays and holidays against payment of overtime to labour, Pilots, Customs and government officials.

TIME: GMT minus 4 hours all year round.

SPARES: Same can be withdrawn same day of arrival via air express. No Customs duties assessed as brought under Customs custody on board vessel. Airwaybill should be addressed to Agent, with clear indication that it covers spares for such and such a vessel.

SECURITY: Stevedores board vessel with special passes issued for vessel in question. Any other visitors must obtain pass from Harbour Master's Office. Nevertheless it is definitely recommended that all cabins be kept locked. This also applies to hatches that are not being worked.

POLLUTION: No garbage, refuse, etc., can be thrown overboard. Vessels liable to heavy fines for oil pollution, etc.

PLAGUE CONTROL: All lines leading to shore must be protected by ratguards. Non-compliance subject to Customs fines.

AZUA (Puerto Viejo): 18.30 N. 70.40 W.

See "General" before first port.

PILOTAGE: Ordered by Agent; vessel should wait for Pilot at a distance of 0.5 mile from the port.

ANCHORAGE: In the approaches, depth is 28 ft.

RESTRICTIONS: Berthing during daylight only.

HEALTH: Pratique is obtained by Agent. In case of infectious illness the whole crew is put in quarantine.

TUGS: Not available.

BERTHING: Finger pier, length 650 ft., width 120 ft. Dredged to 35 ft.

MEDICAL: Necessary for Agent to receive advance notice of required medical attention. Doctor available.

FRESH WATER: Delivered by barge.

FUEL: None available.

GANGWAY/DECK WATCHMEN: Required.

OPENING/CLOSING HATCHES: Carried out by crew.

CUSTOMS ALLOWANCES: No restrictions.

IDENTIFICATION CARDS: Not required.

CONSULS: None.

REPAIRS: No repairs possible.

REPATRIATION: Facilities available.

AIRPORT: Situated 170 miles from port.

POLICE/AMBULANCE/FIRE: Tel. 175.

TELEPHONES: None available on board.

SHORE LEAVE: Allowed.

AUTHORITY: Comandancia de Puerto de Azua RD.

AGENT: See "Santo Domingo".

BARAHONA: 18.10 N. 71.10 W.

See "General" before first port.

PILOTAGE: Pilot arranged by Agent on basis of Master's advance notice of ETA. Pilot and Agents can be contacted by radio telephone frequency 2738. Pilot boards approximately 1.5 miles outside the port. Pilot also on VHF Channel 16.

ANCHORAGE: Deep water anchorage available outside port. Pilot will advise best location.

RESTRICTIONS: No entry or departure at night.

MAX. SIZE: 575 ft. length; 29 ft. draft.

HEALTH: Pratique granted after Health Authorities have boarded and cleared vessel. In case of disease aboard notify Agents before arrival. Pratique is automatic when proceeding from another port in the same country.

RADIO: When within range, Santo Domingo Radio.

TUGS: One small tug available, ship's lines used.

BERTHING: Sugar molasses wharf, depth 28 ft. General gypsum wharf, depth 30 ft.

STEVEDORES: ETA's required 24 and 12 hours before arrival to arrange gangs.

MEDICAL: Medical attention can be arranged after vessel is cleared, preferably ashore. Minor cases are dealt with locally, more serious cases are transported to Santo Domingo.

TANKERS: Discharge at molasses wharf.

DENSITY: Salt water inside harbour.

FRESH WATER: Pipe-line at wharves, ship's hoses used.

FUEL: Small quantities of diesel available by truck from Santo Domingo.

GANGWAY/DECK WATCHMEN: Compulsory gangway watch kept by Customs guards.

OPENING/CLOSING HATCHES: Can be performed by crew or stevedores.

CUSTOMS ALLOWANCES: Bond is sealed, but can be opened at Master's request.

IDENTIFICATION CARDS: Shore passes are provided by Immigration Authorities.

CONSULS: All Consuls at Santo Domingo.

REPAIRS: Minor repairs only.

REPATRIATION: Can be arranged.

AIRPORT: Distance to airport 230 km.

POLICE/FIRE/AMBULANCE: Police, tel. 417; Ambulance, tel. 441; Fire, tel. 348 or 398.

TELEPHONES: Shore telephone alongside ship connected to Sugar Mill.

SHORE LEAVE: Allowed.

GENERAL: No boats to be lowered without official permission. Berthing/unberthing during daylight only.

AUTHORITY: Comandante de Puerto.

AGENT: See "Santo Domingo".

BOCA CHICA: 18.27 N. 69.35 W.

See "General" before first port.

PILOTAGE: Pilot arranged by Agent on basis of Master's advance notice of ETA. Pilot and Agents can be contacted by radio telephone frequency 2738, and 2638 kHz. Pilot also on VHF Channel 16. Pilot boards 1 mile outside the harbour.

ANCHORAGE: Deep water anchorage available outside port. Pilot will advise best location.

RESTRICTIONS: No entry or departure at night.

MAX. SIZE: 400 ft. length; 25 ft. draft.

HEALTH: Pratique granted after Health Authorities have boarded and cleared vessel. In case of disease aboard notify Agents before arrival. Pratique is automatic when proceeding from another port in the same country.

RADIO: When within range, Santo Domingo Radio.

TUGS: If required, tug is brought from Santo Domingo.

STEVEDORES: ETA's required 24 and 12 hours before arrival to arrange gangs.

MEDICAL: Medical attention can be arranged after vessel is cleared, preferably ashore. Minor cases are dealt with locally, more serious cases are transported to Santo Domingo.

TANKERS: Only small propane gas tankers can be accommodated.
DENSITY: Salt water inside harbour.
FRESH WATER: Pipe-line connection at dock, low pressure, Ship's hoses used.
FUEL: Only available by truck from Santo Domingo.
GANGWAY/DECK WATCHMEN: Compulsory gangway watch kept by Customs guards.
OPENING/CLOSING HATCHES: Can be performed by crew or stevedores.
CUSTOMS ALLOWANCES: Bond is sealed, but can be opened at Master's request.
IDENTIFICATION CARDS: Shore passes are provided by Immigration Authorities.
CONSULS: All Consuls at Santo Domingo.
REPAIRS: Minor repairs only.
REPATRIATION: Can be arranged.
AIRPORT: 6 km. to airport, served by regular airlines with numerous flights daily.
POLICE/FIRE/AMBULANCE: At Santo Domingo.
TELEPHONES: No connection to vessels.
SHORE LEAVE: Allowed.
AUTHORITY: Comandante de Puerto.

AGENT: See "Santo Domingo".

CABO ROJO: 17.55 N. 71.39 W.

See "General" before first port.
PILOTAGE: Pilot arranged by Agent on basis of Master's advance notice of ETA. Pilot and Agents can be contacted by radio telephone, frequency 2738.
ANCHORAGE: Deep water anchorage available outside port. Pilot will advise best location.
RESTRICTIONS: Entry and departure permitted daylight only.
MAX. SIZE: 600 ft. length; 40 ft. draft.
HEALTH: Pratique granted after Health Authorities have boarded and cleared vessel. In case of disease aboard notify Agents before arrival. Pratique is automatic when proceeding from another port in the same country.
RADIO: When within range, Santo Domingo Radio.
TUGS: No tugs available.
BERTHING: Alcoa Private Wharf, bauxite only. Mechanical loading, no stevedores.
MEDICAL: Medical attention can be arranged by Alcoa after vessel is cleared, preferably ashore. Minor cases are dealt with locally, more serious cases are transported to Santo Domingo.
TANKERS: One tanker at a time could be accommodated.
DENSITY: Salt water inside harbour.
FRESH WATER: Sometimes available.
FUEL: Not available.
GANGWAY/DECK WATCHMEN: Compulsory gangway watch kept by Customs guards.
OPENING/CLOSING HATCHES: Performed by crew.
CUSTOMS ALLOWANCES: Bond is sealed, but can be opened at Master's request.
IDENTIFICATION CARDS: Shore passes are provided by Immigration Authorities.
CONSULS: All Consuls at Santo Domingo.
REPAIRS: Not possible.
REPATRIATION: Can be arranged.
AIRPORT: Distance to airport 360 km.
POLICE/FIRE/AMBULANCE: Contact Port Authority.
TELEPHONES: Telephone on dock connected to Alcoa office.
SHORE LEAVE: Allowed.
GENERAL: No boats to be lowered without official permission.
AUTHORITY: Comandante de Puerto.

AGENT: See "Santo Domingo".

LA ROMANA: 18.27 N. 69.01 W.

See "General" before first port.
PILOTAGE: Compulsory. Ordered by Agents on receipt of vessel's ETA, 72, 48 and 24 hours before arrival. Pilot launch painted white with grey cabin and with letters "LP-24" painted on sides. Pilot boards 1.5 miles from port entrance. Contact Pilot on 2738 and 2638. Pilot also on VHF Channel 16.
ANCHORAGE: West of Isla Catalina in depths of 15 to 18 fathoms.
RESTRICTIONS: No entry or sailing in hours of darkness.
MAX. SIZE: Length: 580 ft. Draft: arrival 25 ft., sailing 28 ft.
HEALTH: Pratique granted after Health Authorities have boarded and cleared vessel. In case of disease aboard notify Agents before arrival. Pratique is automatic when proceeding from another port in the same country.
RADIO: Santo Domingo Radio, HIX2, frequency 2738 kc/s. Near the port, use Centromana Radio on same frequency.
TUGS: One tug of 620 h.p. available. Extra charge for use of tugs line.
BERTHING: One concrete pier 720 ft. long.
STEVEDORES: To be ordered 4 hours before commencing work.
MEDICAL: Doctors and hospital facilities available. Medical attention can be arranged after vessel is cleared, preferably ashore. Minor cases are dealt with locally, more serious cases are transported to Santo Domingo.
TANKERS: Berth for 1 tanker at the pier. Discharge lines 10 in., 8 in., and 4 in.
DENSITY: 1025.
FRESH WATER: Available from 2 in. pipe-line on pier. Very low rate of supply.
FUEL: Not available.
WATCHMEN: To be provided by vessel. Compulsory gangway watch kept by Customs Guards.
OPENING/CLOSING HATCHES: Generally by ship's crew.
CUSTOMS ALLOWANCES: Seamen may take ashore only 2 packets of cigarettes and no alcohol.
IDENTIFICATION CARDS: Shore passes issued by Immigration Officer.
REPAIRS: Only minor repairs can be effected.
REPATRIATION: Arranged via Santo Domingo.
AIRPORT: Distance 70 km.
POLICE/FIRE/AMBULANCE: Police, 235; Ambulance, 455; Fire, 455.
TELEPHONES: In dock office, ask Sugar Mill for number required.
SHORE LEAVE: Allowed.
AUTHORITY: Comandante de Puerto.

MANZANILLO: 19.43 N. 71.45 W.

See "General" before first port.
PILOTAGE: Compulsory. Pilot comes from Puerto Plata. Boards incoming vessels about 1 mile from the dock. (The Pilot's working hours from 0800 to 1200 hrs., 1400 to 1700 hrs.; a fee charged after working hours. A fee is also charged for movements in harbour.) Ships will be received Saturdays and Sundays and at night for the same rate for the Pilot. Contact Pilot on 2738 and 2638, also on Channel 16 VHF.
ANCHORAGE: Vessels that cannot be docked on arrival will find safe anchorage to the East of the dock where there is plenty of swinging room, in about 20 fathoms of water, with good holding ground of mud and sand.
APPROACHES: Coast Guard Service recommend that a ship, entering Manzanillo Bay from the East, should stay well out until it has rounded shoals surrounding Seven Brothers Islands. At approximately 19° 58′ W. Long. a course of 127° will bring it into the bay near the wharf. A ship arriving from the West should stay about 6 miles off Cape Haitian Light. When abreast the light a course of 111° will lead into the Bay a short distance North of the pier.
RESTRICTIONS: Entry and departure day and night.
RADIO: Radio Station HIL31. This station is private and for the use of Grenada Co. only. Messages of ETA, etc. from vessels should be sent via Miami WAX or New Orleans Radio WNU.

Vessels bound for Manzanillo, should radio their ETA to Santo Domingo Pilot Station daily, from 0600 to 1800 hrs. on frequency 2738 and 2182.

Vessels having single sideband equipment may also contact Radio Instituto Agriario Dominicano at Manzanillo, at wavelength 2670 and 2638 kHz from 0700 to 1200 hrs. and 1400 to 1700 hrs. EST.
TUGS: No heavy duty tugs available but there is a launch for the handling of ship lines. Tug available from Puerto Plata if required due to size of vessel.
BERTHING: Prevailing winds are Easterly and sometimes interfere with docking or undocking. On the East side vessels should dock bow in, since there is not enough room to swing vessels safely around for a port docking. On the West side vessels can dock either side to the pier, depending on the direction and force of the wind. In general banana vessels will be docked on West side of the pier and cargo vessels on the East side. Pier has a concrete deck 744 ft. iong, 72 ft. wide. Both sides of the pier are protected with a pine fender system. The water depth at land end of pier is 10 ft. and at the seaward end 40 ft.
MEDICAL: Small dispensary in Manzanillo. Hospital facilities in Monte Cristi, 30 km. away.
STEVEDORES: Available.
FRESH WATER: Available for ships calling at this port only.
FUEL: None available.
GANGWAY/DECK WATCHMEN: Carried out by crew.
OPENING/CLOSING HATCHES: Crew or stevedores.
CUSTOMS ALLOWANCES: Each crew member will be allowed to take ashore one only opened package of cigarettes.
CREW IDENTIFICATION CARDS: Required.
REPAIRS: Small repairs carried out only.
REPATRIATION: Facilities available.
SHORE LEAVE: Members of crew are allowed to go ashore at this port, but Masters should caution them not to take on their persons any dutiable articles, as the Customs will search such men upon landing and should any such articles be found on their persons, this will be treated as an attempt to smuggle; severely punishable offence.
AUTHORITY: Comandante de Puerto.

PALENQUE: 18.12 N. 70.11 W.

SHIPMASTER'S REPORT (1976)

The vessel called at Punta Palenque to discharge a cargo of feedstock from Venezuela. The SBM is located in position 18° 12.2′ N. 70° 11.3′ W. and operated by Refineria Dominicana.
ARRIVAL ADVICE: Agent at last port should telex ETA to Punta Palenque. Unable to establish Radio contact with local coast station.

DOCUMENTS:
7 Crew Lists.
2 Store Lists.
1 Crew Effects List.
2 Passenger Lists.
2 Lists of Arms & Ammunition.
2 Lists of Narcotics.
1 Health Declaration.
Clearance last Port.

PILOTAGE: Pilotage is compulsory. Mooring and unmooring 24 hours a day. Pilot boards about 1 mile Southwest of SBM.

Pilot boat, a small tug with black hull and white superstructure, is equipped with VHF Channels 16 & 14, call sign Punta Palenque Pilot. Pilot moors the vessel with the assistance of the Loading Master who gives directions on the focs'le. The tug delivers the mooring gear consisting of 2 nylon tails put on vessel's bits and shackles. The nylon tail will be shackled to SBM mooring lines. These mooring lines consist of about 100 ft. nylon rope and 10 ft. chain. The chain is heaved inboards by means of 1 wire and 1 nylon or polyprop messenger and connected to nylon tails on vessel's bits.

MAX. SIZE: Vessels up to 260 m. in length with max. draft of 14.6 m. A circle of 2000 ft. around the buoy with a min. depth of 50 ft.

HEALTH: Radio Pratique not available.

TUGS: Not available for mooring itself. Messengers to and from SBM are handled by a small work boat.

BERTHING: SBM of standard type with 2 moorings. Two floating hoses attached with 12 in. manifold connection. Hoses are handled by ship's crew under the supervision of the Loading Master. Maximum discharge pressure 125 lbs/sq. in.

REPAIRS: None available.

GENERAL: No navigational hazards approaching Punta Palenque from the South. SBM shows on radar at a distance of about 11 miles.

Reference: B.A. charts 3689, 471; West Indies Pilot Volume 1, Supplement No. 3 1975.

Weather: Wind: N.E. Trades

Current: Predominating from East to West but sometimes shifting to opposite direction for short periods. Velocity about 1.5 knots.

Services: Fresh water, provisions, fuel oil and diesel oil not available. No medical assistance. Shore leave not permitted, repatriation not possible.

Master's Remarks: When approaching from the South, the coast of Dominican Republic gives a good radar target. SBM could be picked up at about 11 miles distance, however, the red flashing light of SBM is very poor. Punta Palenque Pilot could be contacted at a distance of 30 miles.

Authorities: After vessel is moored Pilot acts as Agent together with a senior Custom Officer who came on board with the Pilot. Two junior Custom Officers will stay on board during the stay in port, also Loading Master and/or his assistant. Pilot delivers outward clearance.

SHIPMASTERS REPORT: (1977)

Documents: Last port clearance.
8 Crew lists.
6 Passenger Lists (nil).
3 Stores lists.
5 Firearms declarations.
1 Vaccination list.

To be legitimised by Dominican Consulate if possible, otherwise notarised by the Chamber of Commerce at sailing port or pay local requirements fee.

Pilotage: Pilotage compulsory. Pilot boards 1 mile S.W. of S.B.M. which is the waiting area. ETA required by Pilot at least 6 hours before arrival. The vessel cannot under any circumstances dock without the Pilot as the Loading Master is stationed on the forecastle head and advises Pilot of helm and engine requirements when approaching S.B.M.

Anchorage: Temporary anchorage on the coastal bank to the West of S.B.M. to suit vessels draft.

Restrictions: A vessel may enter and leave the port during hours of darkness and at any stage of the tide.

Max. Size: Max. length 854 ft. Max. draft 48 ft.

Tugs: 1 tug available, tug attends on arrival and departure bringing to and removing from the vessel all the gear required for mooring (Snotters, Strops,etc.). At night the tug also illuminates the hose string as the buoy light is poor.

Radar: The radar reflector on the S.B.M. is excellent and gives out a good echo at 10 miles.

Berthing: Position of S.B.M. 18° 12′ N., 70° 11.4′ W.

Terminal Operator: Refineria Dominicana De Petroleo S.A. (Refidom SA).

At the time of berthing depth of water under the keel by echo sounder was 45 ft., the nature of the bottom at the berth was sand and coral.

As stated above the vessel is able to dock and un-dock at any stage of the tide day or night.

When 1 mile from the S.B.M. (waiting area) vessel approaches the buoy on a N.E. heading parallel to the hose strings and then turns the vessel to stem the current flow.

Moorings: Plaited ropes with cable chafing lengths shackled between the two plaited ropes. Snotters to the bitts from the central panama lead.

The port derrick to be rigged in advance to accept mooring gear from the tug and lift hoses (2×12 in. string).

Hoses: S.B.M. hoses connected to the ships manifold (2×12 in.). Distance from the S.B.M. to the shore tanks is 1.5 miles. Shore booster pump not available, steam jacket or similar facilities not available, Max. pressure on line 125 p.s.i., max. weight to be lifted 5 tons. Product Handled: Crude Oil. Ships accommodation ladder not required.

Density: 1025.

Services: Fresh water, provision, repairs, airport, surveyors, fuel oil, doctor, hospital, laundry, slop facilities, none of these services are available.

Time: Pilot advises time is GMT minus 4 hours (throughout the year).

General: Vessel's ETA by telex to be given to Santo Domingo from the last port of call, any changes should be passed to the Agent through 'Curacao Radio' as at no time whilst on passage from Punta Cardon could traffic be passed through 'Santo Domingo Radio'. The Pilot acts for Agent, Customs and Immigration (with Port Captain in attendance) leaving with papers, cables and telex, consignees documents etc., after the vessel is all fast. The ship's official documents were not examined. 2 custom guards and the Loading Master remain on board and should be provided with cabins and meals.

The Loading Master accepts the Notice of Readiness and ullages, specific gravity and temperatures of the cargoes given by ship's staff, he also maintains VHF contact with the Agent in Santo Domingo through the refinery.

The Loading Master, Berthing Master and Sailing Pilot all speak English. VHF contact made with the refinery when 45 miles from the S.B.M. who then passed our amended ETA to the Pilot.

Shore Leave: Not possible.

PUERTO PLATA: 19.49 N. 70.41 W.

See "General" before first port.

PILOTAGE: Pilot arranged by Agent on basis of Master's advance notice of ETA. Pilot and Agents can be contacted by radio telephone, frequency 2738 and 2638. Pilot boards 0.5 miles from port entrance. Pilot also on VHF Channel 16.

ANCHORAGE: Deep water anchorage available outside port. Pilot will advise best location.

RESTRICTIONS: Night entry not recommended.

Depth at entrance 42 ft., depth on bar 37 ft. HW and 34 ft. LW., depth in harbour 30 ft. to 35 ft.

HEALTH: Pratique granted after Health Authorities have boarded and cleared vessel. In case of disease aboard notify Agents before arrival. Pratique is automatic when proceeding from another port in the same country.

RADIO: When within range, Santo Domingo Radio.

TUGS: Tugs available.

BERTHING: One wharf 30 ft. alongside. Pier 496 ft. long, 135 ft. wide. Facilities include water, electricity, cranes, warehouses. New pier recently constructed is 934 ft. long, with depth alongside 35 ft., also 144 ft. wide.

STEVEDORES: ETA's required 24 and 12 hours before arrival to arrange gangs.

MEDICAL: Medical attention can be arranged after vessel is cleared preferably ashore. Minor cases are dealt with locally, more serious cases are transported to Santo Domingo.

TANKERS: Berth at molasses/petroleum berth.

DENSITY: Salt water inside harbour.

FRESH WATER: Pipe-line at wharves. Ship's hoses used.

FUEL: Diesel and fuel oil available by truck from Santo Domingo.

GANGWAY/DECK WATCHMEN: Compulsory gangway watch kept by Customs guards.

OPENING/CLOSING HATCHES: Can be performed by crew or stevedores.

CUSTOMS ALLOWANCES: Bond is sealed, but can be opened at Master's request.

IDENTIFICATION CARDS: Shore passes are provided by Immigration Authorities.

CONSULS: All Consuls at Santo Domingo.

REPAIRS: Minor repairs only.

REPATRIATION: Can be arranged.

AIRPORT: Distance 250 km.

POLICE/FIRE/AMBULANCE: At Santo Domingo.

TELEPHONES: Nearest in Customs House alongside wharves.

SHORE LEAVE: Allowed.

GENERAL: No boats to be lowered without official permission.

AUTHORITY: Comandante de Puerto.

AGENT: See "Santo Domingo".

RIO HAINA: 18.25 N. 70.01 W. (See Plan Book)

See "General" before first port.

PILOTAGE: Pilot boards from small boat flying a flag with a white "P" on a black background, about 1.0 mile from harbour entrance. Contact Pilot on 2738 or 2638 and Channel 16 VHF.

RESTRICTIONS: It is recommended to sail during daylight only.

TUGS: 2 tugs, 1,200 h.p. and 850 h.p.

MAX. SIZE: Max. draft 30 ft. 6 in.

BERTHING: 9–12 berths available. Vessels going to load sugar swing inside the harbour with the aid of a tug, and berth starboard side to the quay. Ship's gangway is recommended. There is sometimes quite a swell running inside the harbour. The port anchor is used for berthing and unberthing.

LOADING: Sugar is loaded by 3 mechanical loaders which are fixed so that large vessels are required to shift along the quay to load in end hatches. Loading rate is quoted as being 350 t.p.h. Cargo quantities are given in short tons.

At least one beam has to be removed from each hatchway to allow loader to enter.

Possible to load 8,500 ton vessel within 24 hours.

SPECIALISED CARGO HANDLING FACILITIES: Roll-on/Roll-off facilities on East bank of river. Container gantry crane available.

FUEL: Fuel oil, diesel and intermediate fuels available from bunker barge.

REPAIRS: Minor repairs in Santo Domingo.

DEVELOPMENTS: 1,000 ft. container berth under construction.

AUTHORITY: Commander of the Port and Collector of Customs.

SAN PEDRO DE MACORIS: 18.30 N. 69.12 W.

See "General" before first port.
PILOTAGE: ETA required 24 hours before arrival. Pilot meets vessels 0.5 mile from buoy. Pilot Radio Station frequency is 2738 and 2638 also VHF Channel 16. In the event of bad weather vessel should remain 3 miles South of the buoy. Pilot boards from small unmarked motor boat.
ANCHORAGE: One mile South of the lighthouse; depth 60 ft.
RESTRICTIONS: Channel depth 30 ft. Up to 350 ft. length, no restrictions. Larger vessels enter in daylight only.
MAX. SIZE: Vessels of 600 ft. length have berthed alongside. Draft up to 27 ft. maximum.

Larger vessels leaving port after loading may require to use port anchor to manoeuvre around sharp bend in buoyed channels just inside harbour entrance.

HEALTH: In case of illness or death on board, send a cable before arrival; doctors available.
RADIO: Radio Station, frequency 2738, call Radio Pilot de San Pedro de Macoris.
TUGS: Compulsory. Tug joins vessels inside the port – 150 ft. from the quay. One tug 500 hp.
BERTHING: Quay No. 1, – 900 ft. long, 25 ft. depth; Quay No. 2, 600 ft. long, 25 ft. depth; Quay No. 3, 600 ft. long 24 ft. depth.

Large vessels arriving to load swing inside the harbour using starboard anchor and berth port side to quay. At a later date barges are placed between the ship and quay, to permit greater draft, and Pilot receives extra payment for doing so. Use of gangway is recommended.

LOADING: Vessels loading sugar use ship's gear and ship has to supply rope slings. The chains on the centre sections of MacGregor hatches are broken, and a gap of about 2 ft. made, through which the bags of sugar are bled into the holds at the rate of about 220 tons per gang per day. Only 6 bags per sling are lifted at a time. Stevedores cover hatch openings with tarpaulins when loading is completed for the day. They will make up any extra slings that are required if ship supplies rope.
TANKERS: Oil line diameter 8 in. Max. pressure 60 p.s.i.
FRESH WATER: Available.
FUEL: Supplied by truck.
GANGWAY/DECK WATCHMEN: Available.
OPENING/CLOSING HATCHES: Crew.
CUSTOMS ALLOWANCES: Only sufficient for port consumption. Allowed take only 2 open packets cigarettes ashore.
IDENTIFICATION CARDS: Required.
CONSULS: Great Britain Vice-Consul only. Others at Santo Domingo.
REPAIRS: Minor repairs only.
AIRPORT: Airport is located at 40 km. distance.
TELEPHONES: No telephones on board.
REGULATIONS: Rat guards to be fitted on all ropes. No boats to be lowered without official permission.
REPATRIATION: Can be arranged.
SHORE LEAVE: Allowed.
DEVELOPMENTS: Harbour being dredged to 30 ft. alongside the wharves.
AUTHORITY: Comandante de Puerto.

AGENT: See "Santo Domingo".

SANTO DOMINGO: 18.28 N. 69.53 W.

(See Plan Book)

See "General" before first port.
PILOTAGE: Pilot arranged by Agent on basis of Master's advance notice of ETA. Pilot and Agents can be contacted by radio telephone, frequency 2738, 2182, and 2638 kHz. Pilot boards 1.5 miles off breakwaters. Pilot also on VHF Channels 12 and 16.
ANCHORAGE: Deep water anchorage available outside port. Pilot will advise best location.
RESTRICTIONS: If draft over 24 ft., Master should advise Agent before arrival. Berthing after dark not advisable for petroleum and grain berths.
MAX. SIZE: Length over 650 ft. inadvisable. Max. draft 29 ft.
HEALTH: Pratique granted after Health Authorities have boarded and cleared vessel. In case of disease aboard notify Agents before arrival. Pratique is automatic when proceeding from another port in the same country.
RADIO: When within range, Santo Domingo Radio.
TUGS: Join vessel inside port. Ship's lines used. 2 tugs available, 1,200 h.p. and 800 h.p.
BERTHING: Daylight berthing only for vessels proceeding to private Tallow/Soda terminal and Cement Wharf. Shore cranes up to 80 tons capacity available.
BRIDGES: Vessels proceeding up river, height limited to 95 ft. above waterline.
STEVEDORES: ETA's required 24 and 12 hours before arrival to arrange gangs.
MEDICAL: Medical attention can be arranged after vessel is cleared, preferably ashore.
TANKERS: One berth, draft 29 ft., at Sans Souci.
DENSITY: Brackish inside harbour. Effect of tide negligible.
FRESH WATER: Pipe-line alongside berths. Ship's hoses used.
FUEL: Fuel and diesel available ex-tanker berth. At other berths by bunker barge.
GANGWAY/DECK WATCHMEN: Compulsory gangway watch kept by Customs guards.
OPENING/CLOSING HATCHES: Performed by crew or stevedores.
CUSTOMS ALLOWANCES: Bond not sealed.
IDENTIFICATION CARDS: Shore passes are provided by Immigration Authorities.
CONSULS: All Consuls at Santo Domingo.
REPAIRS: Minor repairs only.
DRY DOCK: Can accept vessels up to 320 ft. long, 50 ft. beam, 17 ft. draft.
REPATRIATION: Can be arranged.
AIRPORT: Distance, 26 km.; served by regular airlines with numerous flights daily.
POLICE/FIRE/AMBULANCE: Police, San Domingo 682-3000; Ambulance, San Domingo 682-4288; Fire, San Domingo 682-2000.
TELEPHONES: No connection to vessels.
SHORE LEAVE: Allowed.
GENERAL: No boats to be lowered without official permission.
DEVELOPMENTS: Santo Domingo's Sans Souci tourism wharf, phase 1, is now under construction on the Eastern side of Santo Domingo harbour.

Phase 1 of the project comprises the construction of a dock with a platform measuring 250 m. in length by 31.40 m. in width. Totally made out of precast prestressed concrete members, it is designed to accommodate simultaneously two 20,000 metric ton displacement passenger ships or one of 50,000 metric tons. Besides the dock itself, there is a 20,000 sq. ft. passenger terminal building to be built which will be equipped with all the services and facilities necessary to allow cruises to originate in the new port.

Also under construction is a 1,000 metric ton potable water reservoir with a 50,000 G.P.H. pumping station.

The site selected, the Eastern shore of Ozama River, is 15 minutes by car from Santo Domingo's Las Americas International Airport.

The entire harbour will be dredged to a minimum depth of 35 ft. below mean sea level; the dredging work for the tourism wharf is expected to be finished before the end of 1977.

Upon completion the Sans Souci tourism wharf will be exclusively dedicated to tourism traffic.

Phase 2 and Phase 3 consist of berthing facilities for one 20,000 metric ton displacement passenger ship each; construction of these additional berths has not yet been ordered by the Government.

AUTHORITY: Comandante de Puerto.

AGENT: Baez & Rannik S.A., Edificio La Cumbre, Centro Commercial NACO, Apartado 1221, Santo Domingo. Cables: "Tatem Santodomingord". Telex: ITT 3460364, RCA 326178. Tel. 565-6661.

NOTES

Please also advise Shipping Guides Ltd.

Ecuador

GENERAL

DOCUMENTS: The following documents will be required for vessels arriving at Ecuadorian ports with inbound cargo:

(a) *Consular Documents*

(To be forwarded by airmail/freight or to be delivered by Master on arrival).

1. From all loading ports:
   Cargo Manifests (usual ALALC forms).
   List of Personal Belongings of crew.
   Maritime Health Declaration.
   Mail Manifests.

Note: These documents must be legalized by the Ecuadorian Consul in the port of shipment, or if no Ecuadorian Consul available, in the nearest Ecuadorian Consulate.

2. From one port enroute or from last port of call before arriving in Ecuador:
   Crew List.
   Passenger List.
   Stores List.

Note: These documents must be legalized by the Ecuadorian Consul in the respective port of call, or if no Ecuadorian Consul available, in the nearest Ecuadorian Consulate.

(b) *Unlegalized Documents*

(To be forwarded by airmail/airfreight, in order to arrive here at least 5 days before arrival of the vessel):

12 Cargo Manifests, unfreighted, ALALC forms, with volumes and in Spanish.
2 Cargo Manifests, fully freighted.
1 Set of copy Bills of Lading, with volume of the cargo even if freight assessed on weight basis and description of goods in Spanish.
1 Full set copy Bills of Lading, with volume of cargo and fully freighted, and description of goods in Spanish.
4 Stowage Plans.
4 Hatch Lists.
2 Passenger Lists (if any).
2 Transit Passenger Lists (if any).
3 Dangerous Cargo Lists (Ecuador is signatory to IMCO).

Non-presentation or delayed delivery of these documents, especially of the cargo documentation specified under (b) will cause considerable fines by Port Authorities involved.

Wherever possible we would suggest to consolidate the ship's and cargo papers for forwarding by air-freight, confirming to Agent by telex the dispatch and advising flight number and airwaybill number.

Notice of Arrival, and intended sailing date must be given to the Port Authorities, via the Agent, at least 3 days prior to arrival.

PRATIQUE: Radio Pratique is not normally granted. Notice of arrival should be given at least 24 hours prior to arrival to Radio Naval Guayaquil, call sign HCG. Listens on 500 kc/s. 8,385 kc/s. 8,320 kc/s. Answers back on 8,472 kc/s. 8,475 kc/s.

The message should read as follows:–

CAPUERTO
MEDICO SANIDAD
ADMINISTRADOR ADUANA followed by name of port
IMMIGRATION

"vapor ...1... ...2... procedente ...3... no enfermos abordo, no explosivos no pasajeros para ...4... pasajeros en transito ...5... tons carga para descargar ...6... sacos correo para descargar eta boya ...7... agencia ...8... ...9... Capitan. or in translation (original must be sent in Spanish). SS ...1... ...2... from ...3... no sick on board, no explosives no passengers for Guayaquil (or name of port) ...4... passengers in transit ...5... tons cargo to discharge ...6... bags of mail to unload ETA sea buoy ...7... agency ...8... ...9... Captain.

1. being name of the vessel.
2. nationality of the vessel.
3. last port and port of call.
4. number of passengers in transit (logically, if there are passengers for the port call, instead of saying (no pasajeros para .. the correct number would be indicated).
5. number of weight tons of cargo for the port.
6. number of bags of mail.
7. estimated hour of arrival at sea buoy, or buoy No. 1 off Data.
8. Agent's name.
9. Master's name.

The same message should be sent to the ship's Agent.

When quoting arrival times use GMT or Ecuadorian Time (GMT minus 5 hours). Summer time is not kept.

The boarding party usually arrives on berthing.

The Vaccination Certificates should be ready in the same order as the Crew Lists.

FLAG: The national flag has yellow, blue and red horizontal stripes. The yellow is twice the width of the others. Government vessels show the national Arms in the centre of the flag.

All foreign vessels will fly the flag from the highest mast.

PILOTAGE: Pilotage is compulsory for all vessels over 500 tons gross. Vessels should await the Pilot off the sea buoy at all ports unless instructed to the contrary. The Pilot must be requested by the Agent at least 12 hours in advance. They are available 24 hours a day, every day of the year.

STEVEDORES: The stevedores are drawn from the 4 respective unions in rota. The foremen are generally selected by the Agent. The same gang will work the ship until completion, working around the clock if necessary. Gangs will start work at virtually any hour.

Opening and closing of ships hatches is undertaken by the stevedores and also the rigging of gear. Even though the stevedores receive payment for rigging anyway, it is advisable to use the ships crew.

Cold Fresh water and lavatories must be made available to t stevedores.

Tally clerks are selected in a similiar way to the stevedores.

WATCHMEN: 1 or 2 Customs guards will remain on duty, neverthele the use of watchmen is advised.

GARBAGE: Before docking all vessels should cover all dischar points to prevent material or water being deposited on the quayside. T dumping of any waste is strictly forbidden except in an emergency. oil may be dumped within 50 miles of the coast, and Ecuador stric enforces the Anti-Pollution laws.

RAT GUARDS: There must be placed on all mooring lines while t vessel is in port. This rule is strictly enforced.

FIRE DRILL: Periodical fire drills are held. The signal is 6 short blas Smoking on dock is prohibited, and cigarettes must not be thro through port holes.

CREW: Shore leave is permitted except at the Tanker berths. Each m must carry an identity card. It is difficult to sign on a foreign Cr member in Ecuador, unless he has been left behind by anoth company vessel. A visa is not required for replacements arriving fr abroad, but the Crew member must have a passport or seaman's bo together with a letter from the ship operator stating name of vessel to joined.

In declaring personal effects, all new purchases must be listed, as w as electrical devices, typewriters, sextants, etc.

The Master has the right to issue or annul boarding passes if he h the approval of the Port Authority.

As a rule visitors are not allowed entry to the Port Area, althou special permits are given to certain vendors. They may come on boa solely at the discretion of the Master.

BALAO TERMINAL (Esmeraldas): 01.02 N. 79.44 W.

OPERATORS: Texaco.

LOCATION: Sea terminal berth X (SBM-W) for vessels up to 100,0 d.w.t. is off the mouth of the Esmeraldas River in position Lat. 01° 0 03″ N. Long. 79° 42′ 57″ W. and has a minimum depth of 120 ft. at LW Berth Y (SBM-E), also for 100,000 d.w.t. vessels, is situated 3.3 mil from the shore and 1 mile distant on true bearing 081°. From berth X position Lat. 01° 02′ 12″ N. Long. 79° 41′ 51″ W. and has a minimu depth of 120 ft. at LWS.

Berth X (SBM-W): *Lights:* green – blue, flash 1.2 secs., eclipse 6 secs., range 5.3 miles, fitted with radar reflector.

Berth Y (SBM-E): *Lights:* green – blue, flash 0.3 secs., eclipse 0 secs., range 5.3 miles, fitted with radar reflector.

DOCUMENTS: The following documents are required for the P Officials who will board any time after arrival, usually during moori operations.

8 Crew Lists.
6 Passengers List.
4 Cargo Manifest (1 visaed).
2 Bills of Lading.
8 Stores Lists.
6 Copies of List of Personal Effects of Crew.
6 Copies of Voyage Memorandum.
1 Copy of Health Patient Certificate.
2 sets Consular Papers to be obtained at the Ecuadorian Consulate last port. If no Consul available or by other reason, this matter w be arranged and settled by Ship's Agency in Esmeraldas.

Consular papers may be obtained by the Agents of ship at last po however they MUST arrive at Esmeraldas no later than 4 days after t vessel has left Balao. Otherwise agency will arrange locally and p dues in Esmeraldas.

PILOTAGE: Pilotage is compulsory and Masters of vessels a reminded of their obligations to comply with statutory rules and a requested to comply with the following:

1. The Watchkeeping Officer of the ship must be responsible for t boarding and dispatching of the Harbour Pilot.
2. The ladder should be properly secured.
3. The pilot ladder and immediate areas must be adequate illuminated at night.
4. The upper part of the ladder should be safe and secure to enab the Pilot to pass to the ship's deck.
5. The ladder should be in good condition and its treads shou remain horizontal throughout the boarding or dispatching.
6. The length of the ladder should not exceed 30 ft. Whenever t distance from sea level to the point of access is more than 30 ft., combination accommodation ladder/pilot ladder, or other equa safe and convenient unit for boarding or dispatching should used.
7. The ladder should be rigged in such a manner that each step res firmly on the ship's side, and spreaders should be placed intervals of no more than 10 ft. to prevent the ladder twisting.
8. Nylon pilot ladders must not be used.

Pilotage zone: This zone must be considered within the followi co-ordinates:

01° 00′ N.
01° 04′ N.
79° 40′ W.
79° 46′ W.

In this zone are included the Pilot boarding, anchoring and moori areas.

Pilot boarding area: The Pilot boarding area is in a positi approximately 1.5 miles N.W. of berth Y (SBM-E) between the paralle of 1° 04′ and 1° 03′ N. and meridians of 79° 40′ W. and 79° 43′ W.

ANCHORAGE: Vessels required to anchor on arrival will anchor in a position approx. 1.5 miles S.W. of the berth X (SBM-W) in an area between the parallel of 1° 02′ N. and 1° 00′ 30″ N. and the meridians 79° 44′ W. and 79° 46′ W.

RADIO: Vessels bound for Balao must advise their ETA to Superintendencia Naval, Esmeraldas, 72 hours and 24 hours before arrival. Message must contain vessel's name, ETA, Master's name. A 24 hour watch is maintained on HF-SSB-2182 – 2136.3 kHz call frequency, and 4139-6210 kHz working frequency and VHF Channel 16. Vessels are usually able to make contact on this channel at a distance of 20-30 miles on the seaward side of the berth operation. Channel 14 will be used for contact between ships and the Superintendencia Naval before the port arrival. Channel 12 is used for internal traffic, loading, unloading and ships berthing operations.

TUGS: 3 line boats available, 560 h.p. each.

BERTHING: The mooring area is situated between the parallels of 01° 03′ N. and 01° 00′ N. and the meridian 79° 40′ W. and 79° 44′ W. Mooring operation will be undertaken by day under normal weather conditions (0500 – 1700 hrs.). Unmooring operation will be undertaken by day and night without restrictions.

In this area the traffic of small craft such as fishing vessels, coasting vessels engaged in cabotage is absolutely prohibited with the sole exception of small craft used in the reception and mooring of tankers.

Mooring Turn (Arrival): Arrival time is considered the time the vessel reaches the anchorage vicinities or the time the Pilot boards the vessel, whichever occurs first. In any case, the Terminal will give priority to the ship that arrived first.

Mooring information: When a vessel is within reasonable distance of the buoy, two ship's lines will be carried by the mooring tug to the floating buoy lines and secured to same. These lines will then be heaved aboard. As the buoy ropes come clear of the water, it will be noted that chains are attached to them. These chains are to be secured to the bitts in such a manner that the nylon is outside of the external length of the ship so the chains absorb any chafing if the buoy lines cross the bow. There are two buoy lines. Power must be available at all times on all deck winches and windlass while the vessel is at the berth.

A mooring line must be available aft, secured to the bitt and of sufficient length to enable a tug boat to pick up the eye and tow off if necessary.

Unmooring: The Mooring Master will advise to Texaco Control the estimated time for the completion of loading and will ask for Official Pilot. Then, hose disconnecting operation is undertaken aboard ship. After the unmooring takes place, the tug boat comes alongside the ship to transfer all material and personnel that have been used during the operation. Then the vessel will be ready to leave the Terminal after receiving the respective documents.

Average Operation Time: Subject to different characteristics of each ship, it can be considered as reference, the following rates:

(a) Approaching the SBM from Anchor Area, 50 minutes or	
(b) Approaching the SBM from Pilot Boarding Area	30 minutes
(c) Putting mooring and connection equipment aboard ship	30 minutes
(d) Mooring	30 minutes
(e) Hose lifting and hose connection	80 minutes
(f) Hose disconnecting	40 minutes
(g) Unmooring	10 minutes
(h) Removal of Personnel and Equipment	25 minutes
(i) Maximum flow rate	4,200 t.p.h.

HOSE HANDLING: *Buoys "X" and "Y".* Lifting, connecting, disconnecting, lowering and other operations will be performed by a special team from shore under the Loading Master's orders with assistance of the ship's deck Officer. Port derrick must be rigged and ready for use on arrival and vessels should be warned that the weight of each hose is at least of 5 tons under favourable conditions. Members of the ship's crew will be required to operate the winch or winches.

Particular care should be taken during the hose handling operation in order to avoid serious damage to the hoses, the plastic floats and buoys on the plate edges, rails, etc.

LOADING: Loading is through SBMs which are 49.5 ft. in diameter and held, each one in position by fixed chains secured to piles sunk into the sea bed. Buoy X is equipped with 810 ft. length and 24-inch self-float loading hose which is manifolded to two 105 ft. length and 12 in. tail hoses. Buoy Y is equipped with a 20 in. self-float loading hose manifolded to two 12 in. tail hoses. Each buoy is equipped with a 810 ft. length and 20 in. floating string reduced to 12 in. tail hoses for deballasting. Standard loading rate is about 30,000 b.p.h.

Potential Loading Rate:

Berth X 38,000 b.p.h.
Berth Y 36,000 b.p.h.

Max. Pressure allowed: 225 p.s.i.

Booster pump: none.

DEBALLASTING: The load on top system is accepted at this terminal and vessels are requested to arrive with slop tanks "settled out" as far as possible. At the present time the terminal is not able to handle slops and until such time as the terminal is able to receive slops, shore discharge is prohibited.

All clean ballast must be pumped ashore, with the exception of vessels especially equipped with clean segregated systems – which are reserved for ballast only. Vessels so equipped will be permitted to pump segregated ballast overboard after being accepted and approved by shore inspectors.

For the water processing of ballasted tankers, the Balao Terminal has an adequate system that starts in the hoses of the buoys and passes through a submarine pipe going to a preseparator, where it hits and separates: first the water of the hydrocarbons, then goes to a decantation pool, where it stays 48 hours and after goes to a final separator in which are collected the last traces of hydrocarbons and finally the clean water is drained to the sea.

Vessels going to Balao to load crude oil must arrive with sufficient ballast for safe manoeuvring, that is, should be 25 to 30% of the capacity of the ship (Deadweight tonnage) and 10 ft. trim or less.

After the ballast tanks have been inspected and found satisfactory, deballasting will commence on the advice of the Company representative. When the ballast has been discharged, the tanks will again be inspected and if ready for cargo, a Dry Certificate will be signed by the Company representative. In any case cargo will be loaded when both ship and shore are ready to commence operations.

Under no circumstances will the vessel be expected to load at a faster rate than that requested by the Master. It is the ship's responsibility to check that the requested loading rate is not being exceeded. The Company for their part, will make every effort to maintain the requested rate and will advise of any alteration in the loading rate immediately.

POLLUTION: The Ecuadorian Government have very strong views on pollution and vessels are warned that a very careful watch is kept at all times to ensure that pollution does not take place – or that if pollution does occur it is controlled as quickly as possible. Masters are advised that it is against the law to pollute the waters and coast of this Country and severe penalties are imposed for such offences.

During the hours of darkness it is requested that searchlights from bridge wings and approved floodlights are used to illuminate surrounding waters to facilitate detection of oil and assist generally in loading operations. Vessels are advised that failure to supply sufficient lighting could result in cargo operations not being allowed during the hours of darkness. Such delays would be for vessel's account.

SHIP'S OBLIGATIONS IN PORT:

(a) It is the obligation of the ship's Master or his representative to receive the official Pilot at the gangway and provide him with all information required.

(b) Ship's Master must delegate the First Officer or any other responsible officer as his representative for receiving Official Authorities at the gangway and provide them with documents and information while remaining on board.

(c) Ship's Master is obliged to present to the Superintendencia Balao Insurance Certificate against pollution issued by Tovalop, Ship's Register and all ship's documents that might be required.

(d) Accommodation and meals must be provided for Ecuadorian Guard personnel, such as naval personnel and others as required.

(e) Accommodation and meals must be provided for the Mooring Master on duty.

(f) Meals must be provided for official Pilots if they are on board at meal times.

(g) Facilities and personal assistance must be provided for Government officials representing the Natural Resources Ministry who will board the vessel to perform tank inspections and loading control.

WEATHER AND CURRENT: Wind and swell are mostly from S.W. direction. During the wet season (December to May approximately) wind and current are from a N.E. direction. The currents vary frequently, sometimes reverse direction from the wind causing the vessel to yaw heavily at the berth. Nevertheless, in general, the weather the whole year is good. Sometimes, however, during the dry season (June-November) mooring operations are limited to wind intensity.

DENSITY: 1025.

FRESH WATER: Available but limited.

MEDICAL: Hospital and clinic available, but limited.

FUEL: Available, supplied by barges.

TIME: GMT – minus 5 hours throughout the year.

PROVISIONS: Available.

REPAIRS: No facilities of any kind are available at this port.

DIRTY BALLAST: Ballast facilities are available except slops.

REPATRIATION: Only if the person concerned holds the necessary valid certificates and documents. For crew joining make Quito the disembarking airport.

CONSULS: Colombia and Panama, all other consuls in Quito.

SHORE LEAVE: Possible, two radio-equipped launches provide service day and night.

GENERAL INFORMATION: Yagua Shipping Agency has its installations on the Oceanfront side of Esmeraldas, Ecuador, and dedicated exclusively to attend to handling and protecting Agents on behalf of Owners, Charterers and Operators for crude oil tankers arriving at this port. They are also Agents of Texaco for their individual and chartered vessels as well as handling of documents and export policy of every particular crude shipment.

They are also attending the vessels which carry shipments of the Ecuadorian Government on behalf of the Operators.

AGENTS: *Main Office:* Yagua Ltd., Shipping Agency, P.O. Box No. 69, Quito, Ecuador. Victor Hugo 114e, Isla Pinzon, (Jipijapa), Quito, (Ecuador). Cable: Yagua Quito (Ecuador). Telex: 022220 Yagua Ed (Monday through Friday. See Operations Office for Saturdays and Sundays). Telephones: 245-055, 450-215.

Operations Office: Avenida Kennedy 1100 (Las Palmas). Cable: Yagua Esmeraldas (Ecuador). Telephone: 710-370, 711-180 (available 24 hours a day).

Also on VHF Channels 16, 6, 12 and 71.

ESMERALDAS: 01.00 N. 79.39 W. (See Plan Book)

SHIPMASTER'S REPORT: June 1979

NAVIGATION: Two orange coloured beacons on the land to the East side of the river, act as leading marks (bearing 166°T) from approx. 4 miles to seaward, right up to the entrance of the port. They are not lit. Depths along this line were not less than 100 m.

Off the entrance to the port, two orange coloured beacons on the West side near Coquitos Point Lighthouse, are the leading marks into the harbour. They are not lit. Entering the harbour, the deep water shoals rapidly to about 12 m., but at no time were echo soundings of less than 11.5 m. MLWS encountered either in the entrance, or in the manoeuvring area inside, or alongside. Beacons mark the extremities of the breakwaters but they are not lit.

Two buoys mark the East and West edges of the deep water Channel outside of the breakwater. They are lit. Further buoyage is planned to mark the deep water area.

PILOTS: 2 Pilots on board, 1 to communicate with each tug. Only 1 Pilot and 1 tug equipped with 'walkie-talkie' radios.

TUGS: 2 square bowed American type river-barge pusher tugs are available and they have adequate power to assist in manoeuvring on and off the berths. Unfortunately, the 2 vertical post on their bows, are likely to cause sharp indentations in vessels' bow and stern plating when the tugs are used for pushing. They should only push against the flat vertical surfaces of the hull.

BERTHING/FACILITIES: There are two berths and a ro/ro facility, but only 2 large vessels can be accommodated alongside at any one time. A large cargo shed is under construction opposite berth No. 2, and the container and open cargo areas have been surfaced. Both berths are to be supplied with bunkering and fresh water facilities, but these are not operative at present time. No actual assessment of cargo handling equipment could be made, but it was noted that there were 2×30 ton mobile cranes and 5×7.5 ton forklift vehicles in the parking area in the compound. The Agent reported that low-loaders and trailers were available for the movement of containers and that forklifts could be hired for use in the hatches.

The loading of bundles of balsawood was carried out directly from lorries which brought the cargo alongside and the rate of loading was about 165 bundles (20,600 board feet) per gang hour.

At present the harbour is somewhat obstructed by anchored fishing boats and small craft, but these are to be shifted to the new fishing port being constructed to the South of the main harbour.

AUTHORITY: Autoridad Portuaria de Esmeraldas.

GUAYAQUIL: 02.12 S. 79.52 W.

DOCUMENTS:

Port Doctor:

Derat Certificate.
Maritime Declaration of Health.
Crew Roll with dates of vaccination against smallpox for each member.
Same for each passenger.
Passenger List.
Passenger List in Transit.

Harbour Master's Office:

Voyage Report.
Clearance from last port.
Crew Roll with original visa from Ecuador Consul in first port of voyage (3 copies).
Passenger List with original visa from Ecuador Consul in embarking port, or declaration that they have no visa, signed by Captain (2 copies).
Passenger List in transit signed by Captain or declaration that they have no passengers in transit (2 copies).
Provisions List, Stock and Medicines on ship (3 copies).
Cargo Manifest in transit (1 copy).
Combustible or inflammable Cargo (1 copy).

Customs:

8 copies of Manifest.
Sealed envelope of Manifests, consular and commercial invoices and non negotiable vouchers.
Cargo index and copy of Cargo Manifest in direct transit (8 copies).
A Register (8 copies) of spare parts for vessel and provisions.
Crew Roll and detailed list (8 copies) of personal belongings of officers and crew.
Passenger List, with indication of their suitcases and list of suitcases that travel without their owners; in this case should be specified the port where they were put on board and personal declaration of each passenger (8 copies).
If the vessel with ballast, Master will be obliged to produce (besides the ballast certificate) documents already mentioned in each respect. Master or Maritime Agency will produce a written statement to Customs within 12 hours from arrival of vessel whether they decide to take any cargo for exporting. If not loading vessel must leave within the following 24 hours.

Immigration:

Crew List signed by Master.
Passenger List of those who disembark there or a declaration of none for this port, signed by Master.
Passenger List in transit, or a negative declaration signed by Master.
In case of having passengers to disembark in this port, Master should produce passports and visas.
Crew identification cards or similar documents.

Inspection of ship by Authorities will be done (compulsory) within 3 hours of arrival, usually as soon as ship berths, or in quarantine.

PILOTAGE: Vessels approaching port to notify their arrival by Naval Radio Station HCG, 24-hour service, frequency 8476 kc/s. and 500 kc/s. Traffic list broadcast every hour on 8476 kc/s.

Advance notice of not less than 12 hours required, addressed to Capuerto Aportuaria Agencia in either English or Spanish with the following details: date, and time of ETA, destination (whether Buoy No. 1 or Puna), maximum draft, cargo details, details of passengers or mail, and if Pilot required.

Pilot Station for Puerto Maritime: Situated in position 02° 43′ 18″ S. 80° 17′ 30″ W. Pilot boat needs 1 hour to go from Pilot station to Buoy No. 1. Contact by VHF Channel 16, 24-hour service. Pilot boat is wooden, 45 ft. long, black hull, white cabin, with letter "P" on sides. During day carries blue flag with letter "P" and by night has regulation pilot lights.

Pilot Station for River Guayas: Situated in village of Puna. Pilot boat requires a minimum of 30 minutes to move from Pilot station to vessel. Vessels requiring Pilot signal Morse letter "X" by lamp or sound.

Pilot boat has grey iron hull, white cabin with Lancha de Practicos written on both sides. By day carries blue flag with letter "P". By night regulation pilot lights.

ANCHORAGES: *Puerto Maritime:* 1 mile South and 2 miles West of sea buoy in position 2° 44′ 26″ S. 80° 24′ 44″ W. Min. depth in the area is 35 ft.

Guayas River: Inside area between bearings 180° and 135° from the lighthouse of Punta Mandinga at Puna, 1 mile from the lighthouse.

MAX. SIZE: Max. length for ships entering Puerto Maritime is 650 ft., with a max. draft of 33 ft. Vessels of deepest draft should begin to enter 1 hour before high tide. For Guayas River max. length 600 ft., max. draft 23 ft. 6 in.

HEALTH: Procedure to obtain free pratique is to produce health certificates to port doctor upon arrival. To get free pratique by radio, ship must radio to port doctor any changes in health situation on board since leaving last port.

TUGS: Normally join vessel beyond Buoy No. 80. Tugs are compulsory, also use of their lines is compulsory. Cost of both services is included in total cost of port duties.

BRIDGES: No bridges that restrict traffic either in Estero Salado nor in Guayas River, but ships that are to berth in village of Eloy Alfaro (Duran) should take into consideration height of telephone lines between Guayaquil and El Islote, min. height 48 ft.

STEVEDORES: Radio message to ship's Agent will give agency enough data to make all arrangements required for operations of loading/discharging. In Maritime Terminal an average discharge/loading rate of 25 metric t.p.h. per hook.

MEDICAL: If ship requires medical attention, a notice of 12 hours should be given to Agents. Guayaquil Hospital and clinics are available. Vaccination supplied by Health Authorities against smallpox.

TANKERS: Discharge asphalt in Guayas River at a special quay, max. draft 23 ft. 6 in. Discharge of petrol for aviation in Puerto Maritime is to lighters, max. draft permitted is 33 ft.

DENSITY: 1012.

FRESH WATER: Available. Three pipes at each berth delivering at a rate of about 20 metric t.p.h. each.

FUEL: None available.

GANGWAY/DECK WATCHMEN: Capitania del Puerto provides members of the Policia Maritima. Ships should supply watchmen with food.

OPENING/CLOSING HATCHES: Carried out by crew.

CERTIFICATES: All ship's certificates required.

CUSTOMS ALLOWANCE: Each member of crew allowed 600 cigarettes. Each Crew member or passenger allowed 1 litre of wine and 1 litre of spirits.

IDENTIFICATION CARDS: Not required.

CONSULS:

Western Germany
Argentina
Belgium
Bolivia
Brazil
Great Britain
Colombia
Costa Rica
Chile
Nationalist China
Denmark
Dominican Republic
Salvador
Spain
U.S.A.
Philippine Republic
Finland

Venezuela

REPAIRS: All types of deck and engine repairs are possible.

DRY DOCKS: Dry dock with capacity of 3,600 metric tons.

REPATRIATION: Facilities for effecting crew changes and arranging any necessary repatriation.

AIRPORT: Airport is 8 miles from Maritime Terminal and has scheduled flights to everywhere.

TIME: Local time is GMT minus 5 hours. There are no alterations during year.

HOLIDAYS: 1st January; Good Friday, 1st and 24th May; 24th and 25th July; 10th August; 9th and 12th October; 2nd and 3rd November; 25th December. But only on the 1st January and 25th December is there no working in port.

POLICE/AMBULANCE/FIRE: For any of these services call 211 (interno del Puerto).

TELEPHONES: Arrangements for placing telephone on board ships on request.

SHORE LEAVE: Allowed.

PURSER'S REPORT: (March 1975)
The government have now issued their own set of papers. These must be made out in sets of seven (7) ie:— Seven Crew Lists. Seven Passenger Lists, Seven Crew Customs Declaration Forms, Seven Cargo Manifests, Seven Dangerous Cargo Manifests (if carried), Seven Lists of Mail (if none – nil returns on sheet), Seven General Declarations. One (1) Maritime Health Form. Seven Stores List.

All Forms should be certified by Ecuadorian Consul or friendly Nation at Port of departure.

AUTHORITY: Capitan del Puerto de Guayaquil, Puerto Maritimo.

LA LIBERTAD: 02.12 S. 80.55 W. (See Plan Book)

DOCUMENTS: Port clearance is effected at La Libertad.
The following papers must be ready for presentation to the authorities on arrival:

1 Bill of Health signed by the Master and visaed by the Ecuadorian Consul at port of departure.
1 Ballast Certificate visaed by Ecuadorian Consul at port of departure.
6 copies of Cargo Manifest (if any cargo for the port).
6 copies Bills of Lading.
9 Crew Lists (original visaed by Ecuadorian Consul at port of departure).
9 Passenger Lists for the port (if no passengers state "without passengers"). If applicable, the list should show names, sex, age, nationality, port of embarkation, occupation and whether married or single. Passengers must make a declaration of their luggage on Ecuadorian Form No. 94.
9 Stores Lists.
5 Lists of Crew's personal effects (new articles only).
4 Lists of unaccompanied baggage (if none, state "without them").
4 Lists of Encomiendas (list of small private parcels to be landed in Ecuador – if none, state "without them").
4 Lists of Mail (if none, state "without them").

If there is no Ecuadorian Consul at the port of departure, the documents must be visaed by the Consul of a friendly nation.

PILOTAGE: Compulsory. Pilots boarding in position 2° 08′ S. – 2° 10′ S. and 80° 55′ W. – 80° 56′ W. ETA should be given to port 12 hours before arrival. Open roadstead.

ANCHORAGE: No limitations except depth 36 ft.

Vessels proceeding to oil terminal should anchor about 1 mile N.N.E. of the mooring buoys (which are about 15,000 ft. off-shore) where the Port Authorities and Mooring Master board. The anchorage is an open roadstead with sandy bottom.

RESTRICTIONS: *Tankers:* Daylight berthing only.

MAX. SIZE: *Tankers* – LOA 650 ft.
Beam 84 ft.
Loaded draft 34 ft. 6 in. max.
Depth MLWS at mooring is 43 ft.

HEALTH: Vessels arriving from foreign ports should fly appropriate International Code signals to advise state of health and request free pratique. Vessels put in quarantine required to fly signal QL all the time they are in port until Port Health Authority advises to the contrary.

RADIO: ETA messages may be sent by radio to Radio Naval, HCG Guayaquil Radio, 8476 kc/s., 500 kc/s. Radio Naval would then repeat the message to the Naval Station in Salinas, or to the Telegraph Office. Radio Naval has VHF/RT and Telex.

TUGS: Only tankers require tugs to berth at the buoys. Other vessels work cargo at anchor.

BERTHING: No wharves for large vessels, only for coasters.

STEVEDORES: Arranged by Agent; separate ETA not required.

MEDICAL: If urgent medical attention required, Master should radio details in advance. All facilities available.

TANKERS: The Anglo-Ecuadorian Oil Fields Terminal is located in Santa Elena Bay. Four small marker buoys indicate the seaward end of the submarine pipe-line. An Easterly current usually prevails, rate being from 0.5 to 1.5 knots. There is one 14 in. submarine pipe-line fitted with two 10 in. flexible hoses for connecting to ship. Max. loading rate is about 450 t.p.h, and max. pressure is about 150 p.s.i.

Mooring Master assists in berthing vessels. Vessels are moored port side to, using starboard anchor off the starboard bow and mooring buoys for lines to the port bow and astern. Vessels moored during daylight hours only; however, they may unmoor at any hour of the day or night. Recommended that at least 1 tank of clean ballast be retained on board vessels until mooring has been completed. Ballast will then be pumped overboard. Vessels should be equipped with three 9.5 in. or 10 in. (circ.) – 200 fathom hawsers for use in mooring to and 7 rope stoppers each at least 3 fathoms long. The following signals are used in connection with the loading of cargo.

By day: Start loading 2 long blasts of vessel's whistle or siren, 1 red flag hoisted; stop loading 4 long blasts of vessel's whistle or siren, flag hauled down.

By night: Start loading, 2 long blasts of vessel's whistle or siren, 1 red light hoisted; stop loading, 4 long blasts of vessel's whistle or siren, 1 red light hauled down.

To summon the launch, 3 long blasts are to be blown on the vessel's whistle.

DENSITY: 1028

FRESH WATER: Not available.

FUEL: Bunkers available, but have to be requested 72 hours prior to arrival in order to make transport arrangements.

CONSULS: There is no consular representation of any country at La Libertad. The nearest are at Guayaquil and include the U.K., U.S.A., Norway, Sweden, Denmark, Greece and Panama.

GANGWAY/DECK WATCHMEN: Available, but not compulsory.

OPENING/CLOSING HATCHES: Can be done by the crew or stevedores.

CUSTOMS ALLOWANCES: 200 cigarettes and 1 bottle wine/spirits per man.

IDENTIFICATION CARDS: Required.

REPAIRS: Anglo-Ecuadorian Oil Fields Company can effect small repairs.

REPATRIATION: Can be effected from port of Guayaquil.

AIRPORT: At Guayaquil, 130 km. away, served by regular airlines.

TIME: GMT minus 5 hours.

HOLIDAYS: January 1st; Carnival; Good Thursday; Good Friday; May 1st; May 24th; July 24th; August 10th; October 9th; October 12th; November 2nd; November 3rd; December 25th.

TELEPHONES: No connections to vessels possible, except at tanker moorings which is direct to loading installation only.

SHORE LEAVE: Permitted.

GENERAL: Dirty ballast or slops not admissible at La Libertad.

AUTHORITY: Terminal Superintendence La Libertad.

MANTA: 00.56 S. 80.43 W. (See Plan Book)

DOCUMENTS:

A. List of documents, 2 copies (Port Authority 1, the latter will sign a copy for Purser).
B. Sailing Permit from last port. 1 copy for Port Authority representative, who will copy the permit and give original to Captain of Port.
C. General Declaration, 5 copies – Health Department 1, Captain of Port 1, Immigration 1, Custom House 1, and Port Authority 1.
The document will contain (see Note No. 4 below):
  1. General data on ship, voyage, cargo and passengers.
  2. Health Declaration.
  3. Stores Declaration.
  4. Under remarks – any pertinent item.
Should be signed by Master and ship's Doctor or, if no doctor aboard, by Purser. For further details, see Note No. 3 at end of this Article.
D. List of passengers destination Manta, including list of their baggage, 4 copies – Customs 1, Immigration 2, Port Authority 1.
E. List of Passengers in transit, 3 copies – Immigration 2, Port Authority 1.
F. Crew List (including and indicating any members leaving vessel at Manta), 4 copies – Customs 1, Immigration 1, Captain of Port 1, Port Authority 1.
G. Manifest of Cargo for discharge at Manta including transhipment 4 copies – Customs original and copy, Port Authority 2.
H. Unaccompanied Baggage List including baggage for any member of the crew, who may disembark, 3 copies – Customs 2, Port Authority 1.
I. Mail Manifest, 2 copies – Post Office 1, Port Authority 1.
J. Checking Books, 5 copies, plus one copy for each point of possible discharge of cargo from vessels for Port Authority.
K. Bills of Lading, 1 complete set for Port Authority.
L. List of vessel supplies including liquors, cigars, cigarettes, other tobacco products, matches, lighters, clothes, novelties, and provisions will be maintained in Purser's office for review by Custom House.
M. Tissue Manifest, hatch list and cargo plan. 1 copy of each for Port Authority prior to arrival of vessels. These papers to be sent by air mail as per regulations.
N. Ballast Certificates will be used instead of manifests when vessels do not carry any cargo.
O. General Manifest. This manifest will include all cargo loaded during voyage which will include all cargo in transit – 1 copy. General manifest will be maintained in Purser's office for review by Custom House, and be accessible for customs at all times.

Note No. 1: All papers (items A to K) will be delivered to representative of Port Authority who will check them against list of documents to be receipted for Purser. Port Authority will subsequently distribute documents to interested parties as indicated above.

Note No. 2: Port Authority reserves the right to refuse berthing facilities until all documents received. Of course, this authority will be handled with discretion to avoid unnecessary or unwarranted delay to vessels, passengers, and cargo.

Note No. 3: All ship's papers will be filed in Port Authority office, and authorities noted herein are welcome to inspect them whenever they wish to do so.

Note No. 4: General Declaration should contain the following:

A. Name of vessel, length and registered tonnage.
B. Owners.
C. Voyage number and ports of call on voyage.
D. Total number of passengers aboard.
E. Total tonnage (of 1,000 kilos) of cargo aboard.
F. Total number of passengers for Manta.
G. Total tonnage (of 1,000 kilos) of cargo for Manta.
H. Health Declaration.
I. Stores Declaration that ship's consumable foodstuffs and consumable supplies are under lock and key; that the slop chest, bazaar, and store-rooms containing liquors, cigars, cigarettes, other tobaccos, matches, lighters, clothes, novelties, sports material, toilet articles, cosmetics, medicines, etc. have been locked and sealed with metallic non re-usable seals with . . . . serial numbers. The seals are identifiable by their non-repeat numbers.

All vessels should have these seals aboard and should equip doors and door frames with suitable secure hardware through which seals can be passed. (Model of the form for the above document may be obtained from the Port Authority).

Note No. 5: Baggage listed as cargo should not also be listed as baggage or vice versa.

PILOTAGE: Compulsory. Pilot boat by day will show blue flag at mast head; by night red light 2 ft. 6 in. below mast head light, both visible around the horizon.

Pilot will board at point located at distance of half a mile, 045 degrees from Manta lighthouse (Lat. 00° 56′ 20″ S. Long. 80° 43′ 02″ W.). He will immediately proceed to conduct ship to inner harbour and dock at assigned pier or anchor in assigned anchorage.

Vessels will not have to anchor, but will reduce speed to steerageway and stop propeller. Lower Jacob's ladder so Pilot may board safely. Pilot will act as Representative of Port Authority. Other officials and Representative of steamship Agency will embark once ship has tied up.

Pilotage compulsory for all foreign vessels over 500 tons, with following exceptions:

(1) Fishing craft, yachts, tugs, barges and other craft of less than 500 tons total displacement whose handlers are suitably licensed by Captain of the Port of Manta.

(2) Vessels of the Ecuadorian Navy.

Note: Masters of large vessels and handlers of small craft who do not follow all rules of safety, including Rules of the Road may lose their right to navigate within jurisdiction of the Port Authority and may be subject to additional sanctions.

ANCHORAGES: Free anchorage area located around a point 1 mile from Manta lighthouse (Lat. 00° 56′ 03″ S., Long. 80° 43′ 01″ W.). Depth 45 ft. Anchorage inside breakwater will be assigned by Pilot.

RESTRICTIONS: No restrictions upon entry. Vessels up to 32 ft. draft may enter at any time of day or night.

MAX. SIZE: Max. permissible length 600 ft.; breadth 60 ft. draft 32 ft.

HEALTH: Radio pratique granted all ships in accordance with International Sanitary Regulations. Health documents will be delivered to boarding officer of Port Authority. When pratique granted by radio, not necessary for port doctor to board vessel.

In request by radio for pratique, vessels should give following data 12 to 24 hours before arrival.

A. Date and hour of expected arrival.
B. Number of Ecuadorian passengers.
C. Number of alien passengers.
D. Statement regarding existence or non-existence of communicable diseases aboard.

RADIO: Manta HCM 8372 kc/s. Radio telephone 2182 kc/s. VHF Channels 5, 6, 12, 16, 24, 25 and 26.

TUGS: A 1,200 h.p. tug, joins vessel in vicinity of pier. Ship's lines usually used. Use of tug for docking and undocking is at discretion of Port Authority.

BERTHING: Berth will be assigned by Pilot at boarding time.

Berthing facilities:

2 Piers Length 200 m. for vessels with draft up to 10 m. Roll-on/Roll-off facility at one pier.

Marginal Quay, length 150 m., for vessels with draft up to 7.5 m.
Marginal Quay, length 150 m., for vessels with draft up to 5.7 m.
Marginal Quay, length 150 m., for vessels with draft up to 3.8 m.

Cranes: Mobiles cranes with capacity 12–35 tons.

Storage Area: 10,000 sq.m. of open storage available.

STEVEDORES: Arrangement for stevedores made by ship's Agent prior arrival.

FRESH WATER: Fresh water available in small quantities.

FUEL: Diesel oil available in small quantities by truck.

FIRE PRECAUTIONS: Regular fire precautions should be taken by all ships. Smoking should be prohibited in any section of the ship used for cargo. No smoking on the weather deck, cargo decks, and the ship's holds, whether cargo being worked or not. Smoking around hatches or at cargo winches must be prevented.

Smoking should be restricted to the passenger section of vessels, and to officers' and crew's quarters where suitable receptacles are available.

Persons including officials can be fined or refused entrance to terminal at discretion of Port Authority for careless or intentional disregard of reasonable fire prevention precautions.

Port Authority reserves right to inspect cargo working sections of vessel, to check precautions against fire, and to determine whether there are any undue accumulations of combustible materials.

Pumps and other fire fighting equipment aboard should be maintained in a state of readiness as long as vessels are in the terminal.

GANGWAY/DECK WATCHMEN: Custom police keep watch at the gangway.

OPENING/CLOSING HATCHES: Normally carried out by stevedores.

CUSTOMS ALLOWANCES: Tobacco, small amounts for personal use while in port. Wine and/or Spirits, wines and liquors by the glass for consumption on board while in port.

CARGO GEAR: Ship should have cargo nets, but Port Authority can provide cargo nets at extra cost.

IDENTIFICATION CARDS: Crew members should have identification cards while ashore at all times.

CONSULS:

Germany: Mr. Jorge Appenzauser, Tel. 611-169.
Colombia: Dr. Anibal Ramirez Angel, Tel 610-989.–Malecon.
Chile: Mr. Marino Concha Richards, Manuel J. Calle 200, Tel. 610-151.
Panama: Dagoberto Santana. Morona.
Italy: Romulo Massari P. P.O. Box 4847. Tel. 610-395.

REPAIRS: No repair facilities available.

REPATRIATION: Repatriation of crew members through Port of Guayaquil.

AIRPORT: Airport with 2,500 m. runway. Flights to Quito at 10.50 hrs. on Monday, Wednesday, Friday. From Portoviejo (36 kms.) flights to Quito on Tuesday, Thursday, and Saturday. Air taxis on request.

TIME: Local time GMT minus 5 hours.

HOLIDAYS: No movement of cargo within the terminal on 1st May, Christmas Day, or after 2000 hrs. on the 31st December, or on New Year's Day.

POLICE/AMBULANCE/FIRE: Police 610-900; Ambulance 612-014; Fire 610-100.

TELEPHONES: Telephone service can be obtained at Terminal Office, at same rate as public telephones.

SHORE LEAVE: Crew members are welcome ashore.

AUTHORITY: Autoridad Portuaria de Manta.

PUERTO BOLIVAR: 03.14 S. 80.01 W.

DOCUMENTS:

3 Voyage Memorandums.
2 Maritime Health Declarations.
1 Consular Despatch.
1 Port of Origin Certificate.
10 Crew Lists.
8 Stores Lists.
3 Individual Declaration List for each member of the crew.
8 Lists Passengers Disembarking at this port.
8 Lists Passengers in transit.
4 Luggage, Mail and Commissions Lists.
4 Manifest of Cargo Lists.

Documents for Port's Authority should be supplied by Agents:

1. General Cargo Manifest in complete sets (Importation in triplicate, Exportation one set).
2. Bill of Lading, complete sets: Importation (one set), Exportation (one set) at time of sailing.
3. Export Customs House Clearance Document (one set). This document is replaced by the Bill of Lading.
4. Certificate of Ballasting.
5. Request for Mooring Berth.
6. Stevedore's cargo plan per hatch.
7. Muster-roll of cargo.
8. Tally books: 15 copies in Spanish. These must be in accordance with the current Tally Law.

PILOTAGE: Send ETA through Radio Naval of Guayaquil 24 hours before arrival. Pilot will board vessel on the port side 1 mile from the sea buoy on arrival and disembark on the starboard side. In case Pilot not available it is recommended to anchor 1 mile from "Punta Jambeli" between the buoy and the lighthouse of Lambeli. Pilot boat is steel, black hull and white cabin, it carries pilot signals in accordance with International Regulations. Service available 24 hours a day. Pilotage is compulsory.

ANCHORAGES: Pilot will indicate recommended anchorage.

RESTRICTIONS: Depths 30 ft. at low water, from 0600 to 1800 hrs. draft allowable 30 ft. From 1800 to 0600 hrs. draft allowable 27 ft.

MAX. SIZE: At Espigon Quay depths alongside 30 ft. inner end to 36 ft. at quay head.

HEALTH: On the arrival of vessel the authorities come on board. If there are no illnesses aboard, the doctor gives free pratique. In case of any illness, Master should advise by radio and the vessel waits in quarantine for the visit of Port Health Doctor.

RADIO: Radio Naval of Guayaquil, Radio Naval of Puerto Bolivar VHF available call pilot station on Channel 16, effective reception 30 miles.

TUGS: 2 tugs available one at 1,200 h.p. and one of 500 h.p. Usually, ship's lines – are used. This service is free.

BERTHING: At Espigon Quay should be carried out within 1 hour before or after slack water. Tidal currents of 1–3 knots in dry season and 3–5 knots in Winter are at right angles to berthing face of the quay.

Wind: From 000° in the morning, speed 3 to 5 knots. From 210° in the afternoon and night, speed 3 to 5 knots.

STEVEDORES: Agents take charge of gangs.

MEDICAL: Hospitals, clinics and dental surgery in Machala, 6 km. from the port. There is also a medical service for vaccination.

DENSITY: Salt water.

FRESH WATER: Only available by tanker truck, capacity 7 tons.

FUEL: No fuel in this port. In case required one has to contact Guayaquil and they send it by small tankers.

GANGWAY/DECK WATCHMEN: The Agent names 1 or 2 watchmen for the vessel besides the maritime police and coast guard.

OPENING/CLOSING HATCHES: Carried out by shore gang supervised by someone on board.

CERTIFICATES: Vessel's Register and Tonnage Declaration required.

CUSTOMS ALLOWANCES: 100 cigarettes per person and 1 bottle wine or spirits per person.

IDENTIFICATION CARDS: Not necessary.

CONSULS: Consul of Peru, tel. 920608.

REPAIRS: There are no facilities in this port.

REPATRIATIONS: The Immigration Office can arrange.

AIRPORT: Distance to the airport is 6 km. It has 6 daily flights in connection with Guayaquil.

TIME: GMT minus 5 hours; there is no change.

HOLIDAYS: No work from 1700 hrs. on 24th December till 0800 hrs. on 26th December, and 1700 hrs. on 31st December till 0800 hrs. on 2nd January; Carnival; Maundy Thursday; Good Friday and Saturday; 1st May; 24th and 25th July; 9th October.

POLICE/AMBULANCE/FIRE: There are services.

TELEPHONES: Can be connected to the vessel.

DEVELOPMENTS: A marginal pier for general cargo is being built. Length of pier 360 m.

GENERAL: When the vessel is anchored, landing service is done by launches. They are called by one long whistle and two short ones. This service works 24 hours a day.

At night: A flashing light is to be used to call launches and not the whistle.

SHORE LEAVE: Passengers or crew do not need any special permit to land.

SHIPMASTER'S REPORT: 1978

Fresh Water: Water is available at anchorage by a barge of 48 ton capacity, at a cost of 120 Sucre (US $4.80) per ton. For ships berthed alongside, water is delivered by modern trucks of 7 or 8 ton capacity, at a cost of 70 Sucre (US $2.80) per ton.

Surveyor: A non-exclusive surveyor acting for Lloyds, Det Norske Veritas, and the Japanese Classification Society, is based at Guayaquil. Loadline survey and engine survey work done. He travels by air from Guayaquil (45 minutes).

Watchmen: One Customs and one Naval guard are obligatory, and should be fed and provided with room to sleep. Ship's crew should be employed day and night, one as accommodation watchman and one as deck watchman. Store-rooms should be locked up, and all loose equipment and lifeboat equipment stowed in lockers or accommodation. Only one accommodation door should be left unlocked, and a ship's watchman posted there, day and night.

Banana Cargoes: Loaded through side doors from the quay or from barges, or both together. No cranes, derricks or mechanised equipment used. About 400 men employed at one time. Very fast.

Casual Labour: This is freely available for painting hull, cleaning engine room, etc. The usual rate of $1 per hour with double for the foreman is now rising, some ships paying $1.50 during 1978. Overtime after 6 p.m., usually double. Possibly negotiable.

PURSER'S REPORT: See "Quayaquil".

AUTHORITY: Port Captain.

NOTES

Please also advise Shipping Guides Ltd.

Egypt, Arab Republic of

AIN SUKHNA: 29.35 N. 32.24 E. (See Plan Book)

DOCUMENTS: Free zone area, no entry documents to the offshore terminal are required.

PILOTAGE: SUMED's Mooring Master and his assistant board the tanker two miles Southeast of buoy S2.

Notifications: ETA messages should be sent by cable via Alexandria/Port Said Radio on leaving previous port. Cables should be prefixed "For urgent delivery send via Telex 54108 or 54033 SUMED UN" and be confirmed 72, 48 and 24 hours prior to arrival. (Day and Night berthing and operation). Arrival draft should be indicated.

LOCATION OF BUOYFIELD: (SBM's)

S1:	29° 35′ 16″ N.	32° 23′ 35″ E.
S2:	29° 34′ 12″ N.	32° 22′ 42″ E.
S3:	29° 35′ 17″ N.	32° 22′ 16″ E.

ANCHORAGE: Tankers can anchor to the S.E. of the buoyfield.

MAX. SIZE: The three berths are spaced one from the other so that each has:

Mooring Area Radius: 410 m. for S1 and S2 (accommodates vessels up to 285,000 d.w.t.); 320 m. for S3 (accommodates vessels up to 130,000 d.w.t.); Manoeuvring Area Radius: For S1 and S2, 1,220 m.; For S3, 915 m.

Water Depth and Draft Limitations:

For S1 and S2:	85 ft. minimum water depth
	75 ft. maximum draft
For S3:	65 ft. minimum water depth
	55 ft. maximum draft

RADIO: All messages to be sent via Alexandria/Port Said Radio. Ain Sukhna has a HF long range radio working on 2182 kHz and 4142.5 kHz.

VHF: Channels 16, 78 and 79.

TUGS: Tug "Sukhna" 3,200 h.p. with fire fighting and with anti-pollution equipment is available as required.

Mooring Launches: 500 h.p. mooring launches assist in mooring and hose operations.

BERTHING: *Ship's Derrick:* The ship's derrick should be capable of lifting 10 tons and rigged on the port side ready on arrival to take the gear on board for berthing the ship and connecting the hoses.

Hoses: Each berth has two cargo hoses with a 16 in. connection (ASA 150). Connection of hoses to be performed by the vessel under the supervision of SUMED's Mooring Master.

SUPPLIES: No bunkers or supplies are available or permitted.

MEDICAL: Private doctors available at Sukhna for emergency and hospitals are available in Suez.

SHORE LEAVE: There is no shore leave for personnel of vessels unloading at Ain Sukhna Terminal (disembarkment from vessels is strictly forbidden except in emergencies).

AGENCY SERVICES: Not required under normal circumstances.

TIME: GMT plus two hours.

SHIPMASTER'S REPORT: (1977)

Location: The Suez Terminal Ain Sukhna is located on the Western side of the Gulf of Suez, approximately 20 miles South of Suez Bay itself. It is the Southern Terminal of the Arab Petroleum Pipelines Company.

Some of the information to follow may prove to be of a temporary nature since from verbal information obtained, this vessel was part of the 1,000,000 tons of crude oil required by the Arab Petroleum Pipelines in conjunction with Builders Consortium for testing purposes and commissioning of the project.

The Ain Sukhna Terminal will then serve the newly completed Trans-Egypt pipe-line terminating in the Mediterranean to the West of Alexandria.

It is understood that both Terminals and the strip covering the pipe-lines is to become a Free Zone thus dispensing with Customs and a number of other formalities.

Approaches: The anchorage for Ain Sukhna is located approximately 4 miles South-east of the berths and anchorage area is bounded by the following co-ordinate positions:

A	29° 35′ North	32° 25.6′ East
B	29° 32.5′ North	32° 27.6′ East
C	29° 31′ North	32° 25.4′ East
D	29° 33.4′ North	32° 23.4′ East

with an average depth of 40 m. and a sandy bottom.

SBM Mooring Facilities: 3 SBM points are located in the following positions:

A	29° 35.3′ North	32° 23.6′ East
B	29° 34.2′ North	32° 22.7′ East
C	29° 35.3′ North	32° 22.3′ East

All SBM's are painted bright yellow and were originally planned to flash their respective identifications A-B-C in morse code. This is also part of the information received, but are in fact marked by an ordinary Flash every 16 to 18 seconds.

The Pilot and Berthing Masters, one acting in each capacity, are Italian and experienced tanker people. They are currently employed by the Builders of the terminal and are presently engaged in training their Egyptian substitutes who will take over all piloting and berthing duties at a later date.

It appears this vessel was the second unit to visit the terminal and all piloting and berthing operations were performed in a cool and efficient manner. Also while the commissioning of the terminal project is in progress an Egyptian Marine Superintendent, employed by Arab Petroleum Pipelines remains on board with the Pilot and Berthing Masters during the vessel's stay in the berth. This, together with the trainees, etc., may not always be convenient for vessels with limited accommodation. A total of 5 bunks in 4 cabins was required by the shore team.

A tug named *Fish* of 2,400 h.p. used as a workboat and for firefighting purposes, flying the French Flag and French manned remains in attendance during mooring operations, and can be called upon to push should this become necessary.

Operations: Since no information to the contrary was obtained it is envisaged that the terminal will operate round the clock, weather and other circumstances permitting.

Radio Facilities: During the voyage ships send their cables to SUMED CAIRO using Alexandria Radio and for the present ETAs and such were confirmed on a daily basis. It is envisaged that at some later date the normal 72, 48 and 24 hours confirmations prior to arrival will be maintained.

A 500 watt transmitter is to come into operation at Ain Sukhna in the very near future with a range of 500 km. and operating on the 2182 kc/s frequency. This will be the Pipelines own transmitter and manned on a 24 hour basis.

For the present Ain Sukhna Marine is to be called on VHF Channel 16 when vessels come within 50 miles radius from the terminal to confirm berthing information and procedures.

The Suez Agency MINSHIP is also contacted via Alexandria Radio. Sumed Cairo does not relay messages or copies to MINSHIP.

Port Papers; The documents and forms required are as for other Egyptian Ports but it is expected that these may be reduced upon the Pipeline becoming fully operational and in a Free Zone. Customs formalities might end but some sort of relationship with Suez might remain for Port Clearance purposes.

Agency: Agency work and formalities are covered by the EL MENIA Shipping Agency of the Canal Shipping Agencies Company at Suez. Cable address is MINSHIP SUEZ. Telephone numbers: Suez 2639, 2801 and 3085 which is the El Menia Offices.

According to information received, facilities for bunkers, water and most other requirements are not available at Ain Sukhna. The Agency however has given verbal assurances to the contrary, and claims the usual services are obtainable from Suez, such as repatriation, provisions and stores, doctor as well as bonded stores. A limited amount of fresh vegetables have been obtained which appear to be of good quality and reasonably priced. According to information from the chandler, *anything* can be obtained providing sufficient notice of the requirements is received, via the Agency. Repatriation for personnel sounds interesting since it would or could cut airflights and accommodation costs to the Persian Gulf for vessels employed on the Ain Sukhna run.

Requirements for Mooring – Cargo hose connections: The SBM moorings consist of 2 buoy lines. The vessel requires to have ready 2 normal good mooring ropes with sufficient good lashing. The vessels mooring lines are taken one at a time through the centre lead by mooring boat and are then attached by lashing to the buoy lines, and hove on board in the usual way. Good stoppers also are required.

The moorings are belayed on bitts on each side of the forecastle.

Each of the 3 berths is equipped with 2 × 24 in. floating hoses, similar to the Ju'aymah berths (Saudi Arabia), but are each fitted with a floating "Y" piece to which further 16 hoses are connected. The last 4 lengths are approximately 100 ft. long and are hove on board on the port side. This requires a derrick and fittings capable of lifting 10 tons. Ships personnel do all the connecting and provides all gear and equipment such as good strops (3 in.), gaskets, bolts and spanners for normal 16 in. ASA connections.

At this stage the similarity between Ju'aymah and Ain Sukhna connection of hoses ends. The Ain Sukhna connections do not have the short angled spool piece so that the ships manifold and the hose flanges are at an angle of about 15 to 20 degrees, and require to be brought parallel by brute force. Time required connecting hoses at Ain Sukhna – 5 hours and some minutes. This was a considerable improvement on the connecting time of the previous vessel which required in excess of 7 hours.

The hose connections problem has been discussed with the Terminal.

Cargo: At the present time all cargo tanks are gauged and checked for water on arrival and gauged again on completion of the discharge or ballasting of tanks, for 'Dry Certificate' purposes. It is understood that when operations become normal, the gauging, etc., by shore staff will be dispensed with, and ships figures for arrival will be accepted without check so that vessels can remain inerted during all phases of operations at the terminal.

Possible changes being evaluated:

1. Changing the 2 SBM mooring lines to 1 single line ending in a length of chain suitable for use, and making fast to the Smith Towing Bracket.
2. Dispensing with 2 of the 4 × 16 in. connections. During tests the difference in the discharge rate attained by using 2 hoses as compared to using the 4 appeared to be insignificant.

AUTHORITY: Arab Petroleum Pipeline Co., SUMED.

ALEXANDRIA: 31.09 N. 29.53 E. (See Plan Book)

DOCUMENTS:

- 4 copies of Crew List.
- Complete set of Manifests covering all cargo on board showing names of shippers and consignees.
- 4 copies List of passengers in transit.
- Landing cards for passengers landing finally in A.R.E. and for those landing in A.R.E. in transit.
- 4 copies List of passengers finally landing in A.R.E. (if any) together with their addresses in A.R.E.
- Deck log books showing date of last call at a A.R.E. port, completed up to the time of arrival.

For Quarantine: Quarantine Questionnaire in duplicate (Form No. 15 Q.A.) showing all ports of call, as well as dates of sailings for the last 30 days, nature of cargo on board, destination, as well as sickness among crew or passengers, if any, specially when it is presumed that the sick will be hospitalised. These forms can be filled on arrival if not available on board before arrival.

1 Crew List and 1 Passenger List.
Deratisation Certificate should be handy for inspection.
Clearance from Last Port.

For Immigration Officer:

Arrival Immigration form, duly completed.
1 Passenger List.
List of Passengers finally landing, in duplicate.
Crew List.

Valid passport with entry visa is required for landing in A.R.E. for passengers landing. Emergency visa can be granted on arrival if so required.

For Customs Use:

Bonded Store List, in duplicate.
Crew List and passengers' List in duplicate, showing rate of consumption of each.

PILOTAGE: Compulsory. Pilot boards off harbour entrance. International code signals used.

Vessels are not to proceed from the waiting area (31° 12.6′ N., 29° 44.5′ E. with radius of 1.5 miles) without a Pilot onboard.

RESTRICTIONS: Entrance channels 36 ft. depth, being dredged to 50 ft. Arriving vessels should keep 50 miles offshore between sunset and sunrise.

MAX. SIZE: Up to 35 ft. draft.

RADIO: Alexandria Radio, call sign SUH, operating 24 hours daily on 444, 500 and 8578 kHz and between 0600 to 1800 GMT on 12,974 kHz. Also harbour VHF Channel 16.

HEALTH: On entering, vessels must hoist the International Quarantine Signal for compulsory quarantine. Any sickness must be reported to the doctor. The Quarantine Doctor meets ships whilst entering the port and ships are boarded in turn.

In the event of a vessel arriving from a port that has been internationally declared infectious and the incubation period has not yet expired at the time of the ship's arrival at an A.R.E. port, the vessel is put under compulsory Quarantine, moored at an isolated berth and no shore contact is allowed. Nevertheless the ship can still carry out her normal operations on condition that all shore personnel are holding valid vaccination and/or inoculation certificates issued by the Quarantine Administration. The ship's personnel should also carry International Vaccination and/or Inoculation Certificates. Final landing passengers, not carrying such certificates, will be landed under Quarantine supervision and will be kept isolated at the lazarette until incubation period is over.

Pratique may be granted prior to ship's arrival provided the following conditions are adhered to:

(1) The vessel must be a regular liner known to the Quarantine Authorities and have a doctor on board.
(2) Details shown on the Quarantine Statement should be wirelessed to the Quarantine Authorities 24 hours prior to ship's arrival.
(3) Captains of vessels must declare before their arrival any accidents, which might have taken place on board prior to the arrival in port.
(4) The ship must not have called at any infected port.

TUGS: 5 tugs available up to 1,200 h.p.

BERTHING: Alongside quays in depths up to 35 ft.

TANKERS: Petroleum Basin: in West part of outer harbour, Berths 3 and 4, depth alongside 38 ft., max. length 700 ft., draft 35 ft. Berths 3 and 4: in East part of outer harbour. Stern to moorings.

It has been reported that tankers are required to take on ballast in excess of that deemed to be necessary by the Master, even in fine weather. One Master was ordered to bring his forward draft to 21 ft. Once the vessel was alongside a charge was made for deballasting the vessel.

FRESH WATER: Available by barge, and alongside most quays.

FUEL: Available by barge.

MEDICAL: All facilities available. International vaccination certificates required.

REPAIRS: *Ships Officers Report:*

Alexandria Shipyard: Builds vessels up to 40,000 tons. One drydock capacity 85,000 d.w.t., cranes with up to 30 tons capacity. One drydock capacity 20,000 d.w.t., cranes with capacity up to 30 tons. Fully equipped engineering workshops capable of carrying out extensive repairs alongside quays length 1,200 m. Depth alongside 11 m.

Alexandria Ship Repair Co: Ship repairs including engine repairs and boiler repair. Fully equipped workshops.

TIME: GMT plus 2 hours.

HOLIDAYS: The following are the public holidays in the A.R.E.:

1st and 2nd Day of Ramadan Bairam Courban Bairam Eve	changeable dates
1st and end day of Courban Bairam Mohammedan New Year's day Prophet's Birthday (Mewlid El-Nabi)	as based on Moslem Calendar

Eastern Monday (Sham El Nassim) (changeable); Evacuation Day (18th June); Revolution Day (23rd July); Victory Day (23rd December).

SHIPMASTER'S REPORT: 1976

Approaches: Ships making the passage from Port Said to Alexandria are obliged to keep to the route laid down by the Egyptian Authorities. The coastline is rather featureless and a good operational radar is invaluable. Radar conspicuous objects were found to be – Ras el Barr Lighthouse and fort, forts numbers 2 & 4, the forts and lighthouses at Brulos and at Rosetta Mouth and also Nelson Island.

The anchorage can be identified from a considerable distance by the number of ships at anchor off the port – often more than fifty. The prohibited area marked on Chart No. 243 to the East of Great Pass is ignored and ships anchor as convenient but as near to the Pilot ground as possible. Ras el Tin lighthouse, Great Pass beacon and the Minaret (248) were found to be good marks. There is a latticed beacon to the West of Great Pass Beacon which should not be confused with the latter. The new beacon is not marked on the chart and was stated by the Pilot to be for a new channel which is being constructed.

Arrival Procedure: It is important to register one's arrival with the Alexandria Port Control as soon as possible. This is done by means of VHF.

At 1100 hrs. (approx.) a traffic list is broadcast and ships mentioned should contact Port Control and obtain berthing instructions. They will probably be told to move in to the Pilot boarding ground 2 miles N.W. of Great Pass Beacon. When there, they should anchor again and await either further instructions or the unannounced arrival of the Pilot.

Berthage is decided at a meeting held around Noon so there may be a supplementary traffic list around 1400 hrs. In any case, it is a good idea to call Port Control at least once a day to remind them that you are still awaiting a berth.

A Pilot will take the ship into the anchorage in the Outer Harbour where Health, Immigration etc. officials board and clearance given. The Agent may also board. The main radio transmitter is sealed at this time. The ship will then await allocation of a berth.

Anchorages: At the anchorage outside the port depths vary from 20 to 30 fathoms but the holding ground seems to be good. This ship lay comfortably with seven shackles of cable out. Ships usually leave each other ample room in case of bad weather. There are good anchor bearings.

The anchorages inside the Outer and Inner Harbours are very congested and the holding ground (said to be sand) is not good. Time spent at anchor here can be a very anxious period.

The ship was anchored in the Inner Harbour just off the end of the Passenger Quay. When it was pointed out to the Pilot that, in the Master's opinion, she was too close to the 3 fathoms line at the old Aircraft Moorings, the Pilot stated that it would be all right because the ship wouldn't swing that way. If the vessel had swung the other way she would have gone aground.

At 0300 hrs. the following morning the ship began to swing onto the sand bank. Fortunately there was no wind and it was possible to turn her, weigh anchor and find another anchorage. A call to Port Control on VHF was made for a tug and Pilot but was not acknowledged.

The main engine should be kept at very short notice when at anchor inside the harbour.

The accommodation ladder should never be left down while at anchor but should be raised and lowered as required.

It is usually an easy matter to hail a passing boat and bargain for a trip either ashore or to another ship. However, all ship movements and boatwork are officially prohibited after dark.

Pilotage: The pilot launches are Fairmiles (ex H.D.M.L's.) painted light blue with white wheelhouses and the word 'Pilot' in black on the side of the bridge.

All the Pilots employed spoke good English and were competent. They board at any time during the day and often without the slightest warning. They order tugs as they think necessary.

The beacons and leading marks in the Great Pass were good but the fairway buoy at the outer end of the channel is no longer there. Most of the mooring buoys marked on chart number 3119 have either been removed or changed.

As a result of experience, the Pilots have considerable skill in handling ships in very congested situations and they are to be relied upon.

Arrival Formalities: These are carried out at the Outer Harbour Anchorage. A list of documents required follows.

Documents:

2 Health Declaration*
1 Crew Customs Manifest
1 Arrival Form†
1 Stores List
1 Bond Stores List
8 Crew Lists‡

* Supplied by Quarantine Officers
† Brought out by Agent.
‡ This is the minimum number required.

Notes:— Customs manifests, stores lists and crew lists should be typed out on plain paper – there does not appear to be any proper forms.

Immigration officers wish to see all Dis 'A' Books and will then issue Shore Passes which will have to be filled in by the ship. On departure, the officials ask for the passes but, if they have not been collected will only request that they be destroyed when the ship sails.

Berthage: Every foot of wharfage is used and space is at a premium. This ship lay at Berths 16 to 20 and in both cases had ships ahead and astern with very little room between.

Berth 16 has unequal but good fendering, Berth 20 has none at all. Both are concrete wharves. There are an adequate number of bollards.

Berths 16 and 20 are both at the Passenger Quay and the soundings obtained by hand lead are shown on the plan. In theory, telephones are available at both berths. Water is laid on but the pipe is of small bore and delivery is slow (about 8.5 t.p.h.). Arrangements should be made through the Agent.

Berthage is said to be under the sole control of the Harbour Master. Ships may be ordered to berth, shift or move out to anchor without any warning. It should be noted that the Pilots always insist that Agents are told of a move the day before. In no case did this ship receive official notice. It is wise to hand a written notice to the Agent informing him of the time required to prepare the main engine for a move. However, in our case, the Agent did not bother to forward the information to the Harbour Master.

Being at the Passenger Terminal means that a cargo vessel has to move out to anchor frequently to allow passenger ships to berth. Unfortunately there seems to be only one other berth with enough water alongside for a fully loaded ship such as our vessel.

Repairs: Repair firms are available. There is a shipbuilding yard and graving and floating docks. Radio and radar servicing as well as gyro are available. There is a Lloyds Register surveyor.

There is an abundance of small firms offering to do scaling and painting quite cheaply.

Medical: The Agent will arrange for a doctor to visit the ship if required. Unless special equipment and/or facilities are necessary, this is the best arrangement.

Repatriation: Apparently available via Cairo Airport.

Stores: Only small quantities of fresh fruit and vegetables were bought and these were good and cheap but the Catering Officer should be prepared to bargain.

Bunkers: The barges arrived alongside without any warning. There were separate barges for D.O. and I.F.O. The pumping rate for D.O. was 75 t.p.h. and for I.F.O., 143 t.p.h. It is reported that it is advisable to check the viscosity of fuel.

Communications: While at anchor outside the port, the ship's radio station is available and is by far the best means of communication.

Port Control, Pilots and launches all use Channel 16 both for calling and working. Making contact with Port Control to report arrival or request information is a matter of perseverance.

Agents: Memphis Shipping Agencies.

There is a main office in the city (Sesostris St.) to which the Master must go to draw money. Two hours will be needed for this plus an hour for travelling. In addition there are two offices in the Main Hall of the Passenger Terminal between Berths 16 and 20.

The Agents will arrange for doctor, waterman and watchmen. They will advance cash to the Master.

Garbage: Subject to negotiations with a private company. An old lighter will be moored alongside while the ship is in port. All garbage should be thrown into it. It is completely uncovered and after a while, in Summer time, would probably become highly offensive.

Fresh Water: Although there was no reason to suspect the water supply, Stabochlor was added as a precaution. As the ship may be sent out to anchor without notice for an unspecified time, it is wise to keep the water tank topped up.

Watchmen: The civilian watchmen employed were obtained through the Agent.

Two uniformed guards are put aboard by one or other of the authorities. Both the official and civilian guards will stop and search stevedores and take from them the cargo they have taken.

Tugs: These are arranged by the Pilot. There are several ranging from old coal burners to fairly modern diesels and they are well handled and efficient.

Cargo Work: It is supposed to be against the law to work frozen cargo during daylight hours. Therefore work was mainly carried on between 1700 and 0500 hrs. with a break about 2300 hrs., the same labour working through.

A gang consists of a total of 20 men. There is a foreman, two winchmen and eight stevedores in the hatch. The rest work ashore and on the lorries. The men in the hatch 'spell' each other and this is a major cause of lost time.

The butter and cheese was loaded onto pallets which were landed on the lorries and the cargo transferred. There are three pallets per gang but shortages often occur and the gear is not very good, two of the pallets breaking under load.

Crane and Velle derrick drivers were generally competent.

Lloyds Agency was asked to appoint a surveyor to witness the opening of the hatches and later to conduct a continuous survey during discharge. The surveyor was particularly helpful at the commencement of discharge. His firm asked for and received an advance of one hundred Egyptian pounds in cash from the ship because payment through the Agent was said to be slow.

Miscellaneous: Photography is forbidden within the port area and a permit must be obtained to take a camera ashore.

It is important to fit rat guards. A fine of £20 may be imposed for each one not fitted.

There is at least one floating crane with a SWL of 150 tons.

The Port Surveyor will ask to see the Suez Canal Certificate. If this has been retained by the Canal Authorities, he will require a signed statement to that effect.

Departure: The Agent will inform the various authorities of the expected time of departure.

Immigration officers will board to check any changes in the crew.

The Agent will put aboard the clearance and the sanitary clearance and the senior official guard will demand a written statement that all crew are aboard.

The sea Pilot will board with the harbour Pilot. The latter disembarks into a motor boat as soon as the ship is clear of the berth, the former when she is clear of the Great Pass. If the weather is rough, a pilot ladder will be required outside instead of the accommodation ladder.

SHIP'S OFFICER'S REPORT: September 1979.

Arrival: On arrival at waiting area (BA Chart 243), vessel is required to register with "Alexandria Port Control" on VHF Channel 16.

The following information is required:

Ship's name and country of registry.
Time (local) of anchoring in waiting area.
Length overall and max. draft.
Description and tonnage of cargo for discharge at port.
Bearing and distance from Ras el-Tin Lighthouse.
Last port of call.
Name of Agent in Alexandria.

It is also necessary to confirm arrival time by W/T, with the Harbourmaster and ship's Agent via Alexandria Radio on 454 kHz or 8578 kHz.

Traffic Lists, giving the names of vessels programmed for port entry that day, are generally broadcast on VHF Channel 16 at 0600 hrs. and 1400 hrs. daily. However, times may be altered without prior warning or list may be omitted altogether.

Fresh Water: Fresh water is unavailable in August at anchorage. Within port, fresh water is available from barge said to contain 150 tons, at an approx. rate of 40 t.p.h. No information on water supply at berths.

Also see "General" below.

Services: Doctor and hospital facilities are available on order via Agents or chandler.

Chandlers will approach vessel at anchorage – complete proof of identity should be obtained before trading commences. Also see "General" below.

Local labour is available for tank cleaning.

General:

(1) All telegrams via Alexandria Radio to addresses in Alexandria should contain a request for confirmation of receipt from addressee.

(2) Within the first 24 hrs. of anchoring the vessel is besieged by numerous persons, claiming to be chandlers, Agent's runners, watermen, receivers of the cargo etc. Their proof of identity should be most carefully checked.

(3) The fresh water situation during this vessel's anchorage was desperate. It appears that from late July to mid-September, no water is available for vessels outside the harbour. Rationing is required on board, even if a water barge is ordered for the next day. Several ships ran out of fresh water at the anchorage during our stay and had to lower their boats to obtain minimal supplies from nearby ships. A good supply can apparently be obtained at Cyprus. Stores will not be bought out to the anchorage and boats cannot be ordered through Alexandria Port Control for medical or personnel transport.

AUTHORITY: Alexandria Port Authority.

HAMRAWEIN: 26.15 N. 34.12 E.

APPROACHES: *Daytime Leading Marks:*

Front mark: 26° 15′ 05.984″ N. 34° 12′ 01.622″ E.
Rear mark: 26° 15′ 01.46″ N. 34° 11′ 54.95″ E.

BERTHING: Length of quay – 67 m. Max. draft 33 ft. Conveyor belt and mechanical apparatus available. Daily average loading rate 4,000 tons. In addition to mooring bollard on the quay there are four mooring buoys.

MARSA AL HAMRA (El Alamein): 30.59 N. 28.52 E.

WEPCO Terminal

The Mono Mooring Buoy is in an open and unsheltered roadstead. The mooring buoy is located at Lat. 30° 58.7′ N. Long. 28° 52.2′ E. It is 53 miles on a bearing of 255° from Ras-el-Tin lighthouse, Alexandria, and 3 miles off shore in approximately 66 ft. of water.

DOCUMENTS:

4 copies Crew List.

Deck log books showing date of last call at a A.R.E. port, completed up to the time of arrival.

Quarantine Questionnaire in duplicate (Form No. 15 Q.A.) showing all ports of call, as well as dates of sailings for the last 30 days, nature of cargo on board, destination, as well as sickness among crew or passengers, if any, specially when it is presumed that the sick will be hospitalised. These forms can be filled on arrival if not available on board before arrival.

Deratisation Certificate should be handy for inspection.

Clearance from Last Port.

Bonded Store List, in duplicate.

Crew List and Passengers' List in duplicate, showing rate of consumption of each.

PILOTAGE: The S.-S.W.-W. quandrant from the buoy is prohibited anchorage area, Gebisa Reef is at Lat. 30° 58′ 30″ N., Long. 28° 49′ 10″ E., at 2.7 miles on a bearing of 260° from the buoy.

The mooring buoy carries a light, flashing red 6 times per minute, and visible all round to a distance of 4.5—5 miles in clear tropical weather. It also has a fog horn, sounding "U" and a radar reflector.

Surface current sets East at 10 miles offshore at the rate of 1 knot. Maximum rise and fall of tide in the mooring area is 2 ft.

Vessel arriving should approach to within 2 miles North of the buoy, where they will be met by the Harbour Master or Pilot who will advise the ship's Master on approaches to the mooring buoy, mooring and unmooring.

RESTRICTIONS: Normally vessels are moored during daylight hours only, but permission can be obtained to sail at night.

HEALTH: Hoist International Code Quarantine signals when entering. Any sickness must be reported to local authorities.

RADIO: The commercial radio station at Alexandria will handle WEPCO radio traffic. Alexandria Coast Radio Station (call sign SUH) operates 24 hours a day on 444, 500 and 8,578 kHz, and between 0600 hrs. and 1800 hrs. GMT on 12,974 kHz.

Ships nearing Al Hamra Terminal may contact the terminal by FM/VHF radio on 156.70 mHz or 2182 kHz.

While at the mooring, ship-to-shore communication is by portable VHF radio-telephone units, under the direct charge of the Mooring Master. The terminal uses Channel 10 VHF for all communications.

TUGS: Not available and not required.

BERTHING: 2 good lines must be ready on the forecastle to be sent to the buoy plus a further 2 lines for use as messengers. Ship's lifting gear must be ready near the port manifold for lifting and connecting 2×12-in. hoses, with proper reducers if the manifold does not fit 12 in. hose with 150 ASA standard flanges. The total weight per hose assembly is approximately 5 tons. Maximum loading rate is 3,700 t.p.h.

A pilot ladder must be safely rigged for immediate use and long enough to reach the Mooring Master's launch. At night adequate lighting must be rigged overside to enable the Mooring Master to approach and board the ship safely, and searchlights should be rigged on both sides of the bridge to assist in running lines to the buoy.

BALLAST: No dirty ballast may be pumped overboard, and it is the ship's Master's responsibility to ensure that no oil – whether crude, diesel, bunker or bilge – is pumped or spilled into the waters of and surrounding the Terminal. Ballast can be pumped ashore through one or both of the floating hoses direct to disposal facilities on shore.

CUSTOMS ALLOWANCE: Present regulations at El Alamein allow each seaman to retain in his possession a maximum of 50 cigarettes or 1 ounce of tobacco or 5 cigars. All other smoking items must be collected and listed before arrival. The list will be checked by Customs before sealing the locker, and any discrepancies will be subject to fines.

FRESH WATER: Not available.

FUEL: Not available.

MEDICAL: Nearest hospital facilities are at Alexandria, at least 90 minutes drive from the terminal.

First Aid could be provided and if necessary, transportation to hospital in Alexandria.

TIME: GMT plus 2 hours.

AUTHORITY: Western Desert Operating Petroleum Company – (WEPCO).

RAS GHARIB: 28.21 N. 33.06 E.

A natural port at the Western side of Suez Gulf sheltered by the Cape and a chain of reefs.

DOCUMENTS:

4 copies Crew List.
Deck log books showing date of last call at an A.R.E. port, completed up to the time of arrival.
Deratisation Certificate should be handy for inspection.
Clearance from Last Port.
Bonded Store List, in duplicate.
Crew List and Passengers' List in duplicate, showing rate of consumption of each.

Quarantine Questionnaire in duplicate (Form No. 15 Q.A.) showing all ports of call, as well as dates of sailings for the last 30 days, nature of cargo on board, destination, as well as sickness among crew or passengers, if any, specially when it is presumed that the sick will be hospitalised. These forms can be filled on arrival if not available on board before arrival.

PILOTAGE: Compulsory. International Pilot flag must be hoisted and Pilot will board vessel on arrival. Vessels should approach the anchorage from South-eastward and wait Southward of the prohibited anchorage until boarded by the Harbour Master who will pilot them either to moorings or to an anchorage clear of the prohibited area of the pipe-lines.

2 pairs of leading beacons stand about 4 and 5.5 cables, beside 3 others that stand about 12 cables Southward of Ras Gharib light-structure. About 2 cables further Southward are 2 leading beacons. All the above beacons are difficult to identify until close inshore.

ANCHORAGE: Ras Gharib anchorage, South-westward of the cape, affords some shelter, but a moderate swell round the cape is experienced on most days. Vessels can obtain anchorage in depths of about 5 fathoms.

During most of the year there are Northerly winds, force 3–5, but in December and January there are occasionally calms. On very rare occasions, there are Southerly gales of short duration which make the anchorage untenable.

The Northerly wind causes some swell in the anchorage, but it is not normally severe enough to interfere with the working of lighters or boats of moderate size. It is, however, unpleasant for small boats, except alongside the piers, which are well protected.

Except in the vicinity of the piers, there is usually some swell on the beaches. There is practically no rainfall and sand storms occur only very occasionally and they do not interfere with work in the anchorage.

Anchorage is prohibited, owing to the existence of pipe-lines, within an area indicated by pecked lines on the chart.

HEALTH: On entering, vessels must hoist the International Quarantine Signal for compulsory quarantine. Any sickness must be reported to the doctor, specially when it is presumed that the sick will be hospitalised.

The vessel's personnel should carry international vaccination and/or inoculation certificates.

BERTHING: There is an ore pier where vessels may berth with max. draft of 11 ft. without any restrictions in length. Vessels with deeper draft may discharge whilst at anchorage on to supply boats.

Two cranes are available with capacities of 30 and 35 tons. Towage is also available.

TANKERS:

	Northern Pier No. 1	*Southern Pier No. 2*	*New pier No. 3*
Depth at the pier	27 ft.	36 ft.	78 ft.
Max. permissible draft	24 ft.	32 ft.	55 ft.
Max. length for tanker	450 ft.	600 ft.	980 ft.
Min. length for tanker	350 ft.	500 ft.	600 ft.
Diameter of crude hose	18 in.	18 in.	30 in.
Diameter of water hose	10 in.	12 in.	18 in.
Min. capacity of tanker's derrick	5 tons	5 tons	5 tons
Loading capacity (t.p.h.)	650	1,200	2,000
Max. permissible load (tons)	6,000	30,000	100,000

SUPPLIES: Transit and fresh provisions as well as deck and engine stores provided by the United Arab Contracting and Marine Supply Company.

FRESH WATER: Not available.

FUEL: Not available.

CUSTOMS ALLOWANCE: Present regulations allow each seaman to retain in his possession a max. of 50 cigarettes or 1 ounce of tobacco or 5 cigars. All other smoking items must be collected and listed before arrival. The list will be checked by Customs before sealing the locker, and any discrepancies will be subject to fines. There must be no items aboard of Israeli origin.

TIME: GMT plus 2 hours.

AGENCY: See "Suez Canal".

RAS SHUKHEIR: 28.08 N. 33.17 E. (See Plan Book)

ADVICE OF ARRIVAL: It is important that ships establish radio contact with "GUPCO" (Gulf of Suez Petroleum Co.) when 3 days distant from Terminal and maintain this contact until just previous to arrival at the Terminal. All ships should send a 72-hour ETA message to "Panintoil Cairo" giving the best estimate of ship's arrival time at the Terminal. This ETA message should also include a definite statement of the details of any equipment required from shore for connecting submarine hoses to ship's manifold. Further ETA messages should be sent to "Panintoil Cairo" when the vessel is 24 hours and 12 hours distant from Ras Shukheir and at any other time any appreciable change occurs in the original ETA or those subsequent thereto. The 12 hour ETA should include a positive statement regarding ship's readiness to load on arrival and the number of hours that will be required to discharge ballast after ship is berthed in mooring.

6 hours before arrival, tankers should call Ras Shukheir on VHF Channel 16 to be advised if berthing is available or not, also to be advised of the approximate time for berthing.

DOCUMENTS:

4 copies Crew List.
Deck log books showing date of last call at an A.R.E. port, completed up to the time of arrival.
Deratisation Certificate should be handy for inspection.
Clearance from Last Port.
Bonded Store List, in duplicate.
Crew List and Passengers' List in duplicate, showing rate of consumption of each.

Quarantine Questionnaire in duplicate (Form No. 15 Q.A.) showing all ports of call, as well as dates of sailings for the last 30 days, nature of cargo on board, destination, as well as sickness among crew or passengers, if any, specially when it is presumed that the sick will be hospitalised. These forms can be filled on arrival if not available on board before arrival.

PILOTAGE: Compulsory. International pilot flag must be hoisted and Pilot will board vessel on arrival. Ras Shukheir lighthouse is located in Lat. 28° 08′ 15″ North, and Long. 33° 16′ 20″ East. It is a white flashing light, flashing every 3 seconds and visible for 10 miles.

Gebal Gharib, situated about 18 miles South-westward, 5,742 ft. high. It makes a nearly perfect equilateral triangle with Ras Shukheir and Ras Gharib Lighthouse. Ras Gharib Lighthouse is an excellent landmark whether by day or night for vessels approaching from North, but caution should be exercised since this Light is obscured from 308° to the Westward. The sea-berth buoys are unlighted.

The company's Mooring Master will meet all incoming tankers about 2 miles from Ras Shukheir Terminal on a bearing of 290/300° from Ras Shukheir Lighthouse and will advise ship's personnel in mooring and unmooring, raising and lowering of hoses.

Vessels are requested to have a pilot ladder safely and securely rigged, ready for immediate use, and long enough to reach the Mooring Master's launch. If at night, adequate lighting must be rigged overside for the Mooring Master to approach the side and climb the ladder safely.

ANCHORAGE: There are a number of oil well installations, structures and submarine pipelines located in the Gulf of Suez opposite to Ras Shukheir Terminal and approaching vessels are warned of these obstacles in manoeuvring and anchoring. Vessels should approach from the Eastward and if necessary anchor S.E. of the sea berth. *Never anchor North of the sea berth.*

Tankers should only anchor in Ras Shukheir anchorage area which is located as follows:

Lat. 28° 02′ 00″ N.
Long. 33° 26′ 30″ E. (with radius of 0.5 m.)

RESTRICTIONS: The Ras Shukheir Terminal operates 24 hours per day, 7 days a week. Ships are loaded and unmoored at any hour, weather and other circumstances permitting. Vessels are moored during daylight hours only, however, an exception may be made at the discretion of the Terminal.

HEALTH: The vessel's personnel should carry international vaccination and/or inoculation certificates.

RADIO: The Alexandria or Port Said coast radio stations will handle GUPCO radio traffic. Ships may contact GUPCO through their cable address "Gupcoil Cairo". The message will be received on their Cairo Radio Telegraph Office local teleprinter circuit. Tape perforated and relayed to the Ras Shukheir Terminal.

Cables from Ras Shukheir Terminal to the ships would be handled in the same manner. The Alexandria or Port Said coast radio stations transmit traffic lists at regular intervals listing the call signs of all ships for which they have traffic on hand. Thus any ship hearing its call sign in the traffic list of the coast station would call the coast station immediately after the traffic list.

VHF: When ships are near Ras Shukheir Terminal, they may use their FM/VHF radios to contact the Terminal using 160.70 mc/s or 160.80 mc/s.

BERTHING: One pier where vessels with max. length of 76 m. are allowed to berth alongside with a max. draft of 15 ft. Vessels may discharge whilst at anchorage and propeller type lighters are available for such cargo operations.

Four cranes with capacities of 15, 30, 40 and 50 tons respectively are available together with floating crane with capacity up to 200 tons. Towage is also available.

TANKERS:

	Seaberth No. 1	*Seaberth No. 2*	*Seaberth No. 3*
Depth	75 ft.	95 ft.	90 ft.
Max. permissible draft	55 ft.	55 ft.	50 ft.
Max. length for Tankers	1,200 ft.	1,200 ft.	800 ft.
Min. length for Tankers	750 ft.	750 ft.	600 ft.
Numbers of Crude hoses	3	3	2
Diameter of Crude hoses	2×16″– 1×12″	1×16″– 2×12″	2×12″
Diameter of Ballast hose	12″	12″	12″
Min. capacity of Tanker's derrick	5 tons	5 tons	5 tons
Loading capacity (t.p.h.)	6,000	4,000	3,000
Max. permissible load (tons)	175,000	175,000	70,000

SUPPLIES: Transit and fresh provisions as well as deck and engine stores provided by United Arab Contracting and Marine Supply Co.

SUBMARINE HOSE LOADING BERTH: Tanker is loaded by means of submarine pipelines to which are attached 2 or 3 hoses for loading and 1 hose for discharging ballast. A 36 in. pipe-line transports the oil and a 24 in. line in No. 1 Seaberth, or 16 in. lines in Nos. 2, 3 Seaberths transports the dirty ballast to a ballast pit ashore. The loading berths are located approximately 3,580 ft. offshore in a water depth of approximately 80 ft. The loading and ballast lines are laid in the same trench and run in a direction N. 55° E. The mooring buoys are numbered 1, 2, 3, 4, 5 and 6, starting No. 1 North of the mooring and running consecutively in a clockwise direction.

LOADING READINESS AND ARRIVAL TIME: The company will make every effort to load vessels upon arrival or as promptly as berth is available, weather permitting. Notice of Readiness will not be accepted as at time of arrival unless the vessel is in all respects ready to load. Arrival time will be considered as the time the Mooring Master boards the vessel or the time that vessel anchors, whichever occurs first.

FRESH WATER: Not available.

FUEL: Not available.

REPATRIATION: Not recommended.

CUSTOMS ALLOWANCE: Present regulations allow each seaman to retain in his possession a max. of 50 cigarettes or 1 ounce of tobacco or 5 cigars. All other smoking items must be collected and listed before arrival. The list will be checked by Customs before sealing the locker, and any discrepancies will be subject to fines.

TIME: GMT plus 2 hours.

AGENCY: See "Suez Canal".

SAFAGA: 26.46 N. 34.00 E.

DOCUMENTS: The following documents are required on arrival Quarantine Questionnaire in duplicate (Form No. 15 Q.A.) showing all ports of call, as well as dates of sailings for the last 30 days nature of cargo on board, destination, as well as sickness among crew or passengers, if any, specially when it is presumed that the sick will be hospitalised. These forms can be filled on arrival if not available on board before arrival.

1 Crew List and 1 Passenger List.
Deratisation Certificate should be handy for inspection.
Clearance from Last Port.
Complete set of Manifests covering all cargo on board showing names of shippers and consignees.
4 copies List of Passengers in Transit.
4 copies Crew List.
Deck log books showing date of last call at an A.R.E. port, completed up to the time of arrival at Port Said or Suez.

PILOTAGE: Compulsory. International pilot flag must be hoisted and Pilot will board vessel on arrival. Masters should endeavour to arrive at the N. end of the island by sunrise, at Safaga Port by early morning; the light behind them will show up the reefs clearly. Wind, light in the morning, gains strength during the day, making tying up more difficult. A beacon (Morewood Beacon), visible a mile off, is erected on the Southern spit of the island. After rounding the spit, Masters keep 5 cables clear of visible reefs and enter the harbour keeping the 2 large beacons to the North of the pier in line. Anchorage is then indicated by a small red or white flag. The Manager or his representative, of the Safaga Phosphate Company will meet ships in launch with instructions on berthing.

MAX. SIZE: Safe draft in the fairway, over reefs and alongside pier: 27 ft. 6 in.

HEALTH: On entering, vessels must hoist the International Quarantine Signal for compulsory quarantine. Any sickness must be reported to the doctor especially when it is presumed that the sick will be hospitalised.

The vessel's personnel should carry international vaccination and/or inoculation certificates.

BERTHING: There are 2 mooring buoys marked B and C and 2 mooring posts marked A and D.

(1) The anchor position is marked by a small red or white flag. When mooring, manilla ropes only should be used, as wire ropes can be run out afterwards when ship is alongside.

(2) Due to rocky nature of sea bottom, it is very desirable that ship in coming into berth, does not override her anchor, as, if this happens, chain is apt to foul coral bottom and cause trouble later on.

(3) Endeavour to have all way off ship when anchor position is reached. Drop anchor as close to flag as convenient and go astern. If necessary check cable when 2 shackles have been paid out.

(4) Run rope to Buoy C, run rope to Buoy B, run rope to Post D, then run rope to Post A. Run Spring to S1, S2, S3, and pull alongside. Company's launches will run all ropes.

(5) If wind is blowing strongly off shore, a Spring to S3, may be run immediately a good rope to Buoy B is made fast.

(6) The best way to reach the anchor position is to steer straight for same, keeping Buoy C on port side. This will keep vessel clear of Buoy C and when anchor is dropped, the stern should swing clear of this Buoy. If it does not, a rope can be run to S3 and the stern pulled in before falling back on pier.

(7) With anchor dropped as shown, 6 shackles should see No. 1 hatch at the pier, but if chain is slackened carelessly, it may foul bottom and be insufficient to reach pier.

If visibility is very good, a course can be made between the Hyndman and Cannon Reefs, and altered to bring the beacons referred to into line.

Rock phosphate and ground phosphate are loaded at this port for shipment all over the world. The mines are situated some 30 km. away and are connected by company's own railway. Rock phosphate loaded (1,000 metric tons per day) from elevator and phosphate in bags by ship's gear.

Cargo vessels can berth alongside a new quay of 600 m. with a draft of 27 ft. Quay used for loading and discharging general cargo. It can accommodate 2 medium size vessels and one large vessel. Part of the quay is used by vessels discharging aluminium.

STEVEDORES: Canal Stevedoring Co.

SERVICES: Water, deck and engine stores and provisions provided by Egyptian Contracting and Marine Supply Co.

TIME: GMT plus 2 hours.

HOLIDAYS: The following are the public holidays in the A.R.E.:

1st and 2nd day of Ramadan Bairam } changeable dates
Courban Bairam Eve
1st and end day of Courban Bairam
Mohamedan New Year's day } as based on Moslem Calendar
Prophet's Birthday (Mewlid El-Nabi)

Eastern Monday (Sham El Nassim (changeable); Evacuation Day (18th June); Revolution Day (23rd July); Victory Day (23rd December). Friday is the Sabbath day.

AUTHORITY: Ports and Lights Administration.

AGENCY: See "Suez Canal".

SIDI KERIR: 31.06 N. 29.37 E. (See Plan Book)

DOCUMENTS: Free zone area, no entry documents to the offshore terminal are required.

PILOTAGE: SUMED's Mooring Master and his assistant board the tanker two miles North of buoy A1.

Notifications: ETA messages should be sent by cable via Alexandria/Port Said Radio on leaving previous port. Cables should be prefixed "For urgent delivery send via Telex 54108 or 54033 SUMED UN" and be confirmed 72, 48 and 24 hours prior to arrival. (Day and Night berthing and operation). Arrival draft should be indicated. Vessels should arrive with a trim of 8 ft. by the stern and appropriate ballast to ensure that propeller is completely submerged.

LOCATION OF BUOYFIELD: (SBM's)

A1:	31° 06′ 26″ N.	29° 36′ 46″ E.
A2:	31° 05′ 32″ N.	29° 35′ 38″ E.
A3:	31° 04′ 24″ N.	29° 35′ 37″ E.
A4:	31° 04′ 54″ N.	29° 37′ 39″ E.
A5:	31° 05′ 40″ N.	29° 38′ 24″ E.

ANCHORAGE: Tankers can anchor to the North and N.W. of the buoyfield.

MAX. SIZE: The five berths are spaced one from the other so that each has:

Mooring Area Radius: 410 m. for A1 and A2 (accommodate vessels up to 285,000 d.w.t.); 320 m. for A3, A4 and A5 (accommodate vessels up to 130,000 d.w.t.); Manoeuvring Area Radius: For A1 and A2, 1220 m.; For A3, A4 and A5, 915 m.

Water Depth and Draft Limitations:

For A1 and A2: 85 ft. minimum water depth
75 ft. maximum draft
For A3, A4 and A5: 60 ft. minimum water depth
52 ft. maximum draft

RADIO: All messages to be sent via Alexandria/Port Said Radio. Sidi Kerir has a HF long range radio working on 2182 kHz and 4142.5 kHz.

VHF: Channels 16, 78 and 79.

TUGS: Tug "Kerir" 3100 h.p. with fire fighting and anti-pollution equipment is available as required.

Mooring Launches: 500 h.p. mooring launches assist in mooring and hose operations.

BERTHING: *Ship's Derrick:* The ship's derrick should be capable of lifting 10 tons and rigged on the port side ready on arrival to take the gear on board for berthing the ship and connecting the hoses.

Hoses: Each berth has two cargo hoses with a 16 in. connection (ASA 150). There is a ballast unloading facility with 16 in. connection. Connection of hoses to be performed by the vessel under the supervision of SUMED's Mooring Master. Vessels are required to arrive with clean ballast until deballasting unit at Sidi Kerir is in operation which is expected to be during second half of 1978.

SUPPLIES: No bunkers or supplies are available or permitted.
MEDICAL: Private doctors and hospitals are available in Alexandria.
SHORE LEAVE: There is no shore leave for personnel of vessels loading at Sidi Kerir Terminal (disembarkment from vessels is strictly forbidden except in emergencies).
AGENCY SERVICES: Not required under normal circumstances.
TIME: GMT plus two hours.
SHIPMASTER'S REPORT: *General:* Sidi Kerir is the Northern end of the pipe-line from Sukhna in the Gulf of Suez. The pipe-line is owned by the Arab Petroleum Pipeline Co. and operated by SUMED Co. (Suez – Mediterranean).

The Sidi Kerir Terminal (Tankfarm) position is at 31° 03′ N., 29° 40′ E. There are at the moment 5 SBM's for loading vessels, more are planned for the future. The buoy field is marked by the following points: "A" 31° 08′ N. 29° 37′ E., "B" 31° 04′ N. 29° 31′ E., "C" 31° 01′ N. 29° 35′ E., "D" 31° 05′ N. 29° 41′ E.

The area within ABCD is a prohibited anchorage area and may not be entered without a pilot.

The position of the 5 SBM's is within the area:

1.	31° 06.7′ N.	29° 35.7′ E.	For loading Arabian Light & Kirkuk Crude
2.	31° 05.9′ N.	29° 36.9′ E.	For loading Arabian Light & Kirkuk Crude
3.	31° 04.6′ N.	29° 36.9′ E.	For loading Arabian Light & Kirkuk Crude
4.	31° 05.0′ N.	29° 37.9′ E.	For loading Arabian Light & Kirkuk Crude
5.	31° 05.1′ N.	29° 38.6′ E.	For loading Basrah Crude.

(a) The current sets usually from N.W. at about 0.5 knots but may increase during Summertime to 1 knot; there is no considerable tide.

(b) References: BA chart 3356; BA pilot book 49, 6th edition 1976.

Documents: One crew list, one ship's stores list and clearance from last port.

Pilotage: Pilot also acts as Loading Master and boards vessel at the anchorage. A pilot ladder/accommodation ladder combination is to be rigged on the starboard side. Vessels must give a lee for the pilot launch. Pilots work preferably during daylight hours.

Anchorage: The anchorage is one to two miles North of the buoyfield in 20 to 40 fathoms of water. There is good holding ground on sandy bottom; no shelter during Northerly winds or swell. The port closes during strong winds and swell. An open sea approach; no dangers on the way to the anchorage. The coastline is low desert and gives a poor echo, the best radar echo during the approach was the tankfarm and the pipe-line.

Max. Size: Max. draft 70 ft. No limit on size of vessel.

Radio: ETA information to be given preferably via Alexandria Radio to telex number 4108 attention "SUMED operations — Alexandria" at 72, 48, 24 hours prior to arrival. Initial message should give call sign; Summer deadweight; Summer draft; cargo requirements with name of crude and approximate quantity required in cubic metres and long tons, also maximum loading rate required in cubic metres; last port; whether vessel carries 2 × 16 in. reducers.

Health: Free pratique is given by the Pilot/Loading Master.

Tugs: One tugboat, 5000 h.p., is on standby at the buoyfield and will assist on request.

Berthing: The vessel moors to a SBM. the mooring equipment, 2 wire slings, 2 shackles and a toolbox, are taken from the launch.

SBM Loading Berth: The hoses are connected by the ship's crew under the supervision of the Loading Master. The (2 × 16 in.) hoses are of a floatable type with a Cramlock connection.

The maximum loading rate is given as 15.000 Cm/h or as requested by vessel. Before completion of cargo the pumps are stopped and the balance loaded by gravity. At the present time the dirty ballast facilities are under construction.

Repairs/Drydocks: At Alexandria about 12 miles to the East. No facilities at Sidi Kerir.

Time: GMT plus 2 hours.

Density: 1026.

Supplies/Services: None.

Authority: The Pilot/Mooring Master acts as Government Representative.

AUTHORITY: Arab Petroleum Pipeline Co. – SUMED.

SUEZ CANAL (including Port Said and Suez):
(See Plan Book)

DOCUMENTS:

Also see "Restrictions".

The following documents are required on arrival:

The last Classification Certificate issued.

Information concerning a vessels transitting the canal.

4 copies Crew List.

Ship's Register and Suez Canal Special Tonnage Certificate.

General arrangement and capacity plans of the vessel, if transitting the Suez Canal for the first time, or, undergone any alterations.

Suez Canal Authority's double bottom tanks capacity form.

Navigability form.

Complete set of Manifests covering all cargo on board showing names of shippers and consignees.

4 copies List of Passengers in Transit.

Landing cards for passengers landing finally in the A.R.E. and for those landing in the A.R.E. in transit.

4 copies List of passengers finally landing in the A.R.E. (if any) together with their addresses in the A.R.E.

Deck Log Books showing date of last call at an A.R.E. port, completed up to the time of arrival at Port Said or Suez.

Mail Waybills for ports beyond Suez Canal ports and alternatively, a document from the Master is required (cargo and passenger ships only).

Quantity of bunkers, water and cargo on board.

Free Pratique Certificates issued by the local Quarantine Doctor.

In case of a Northbound vessel loading or discharging alongside quay staying more than 24 hours in Suez, the following documents should also be presented.

(1) Load Line Certificate.
(2) Safety Equipment Certificate.
(3) Radio Safety Certificate.
(4) Documents covering names and ratings of ship's officers and their certificates.

For Pilot's Use:

(1) Arrival form of the Suez Canal Authority.
(2) Declaration "E" form for dangerous cargo on board in transit.
(3) Any other documents relating to shipments of dangerous cargo, radio-active or fissile.

N.B. Plain Suez Canal Forms are normally handed to Master by Pilots or ship's Agents, to be filled on arrival and also for use on consequent voyages.

Quarantine Authorities:

Quarantine Questionnaire in duplicate (Form No. 15 Q.A.) showing all ports of call, as well as dates of sailings for the last 30 days, nature of cargo on board, destination, as well as sickness among crew or passengers, if any, specially when it is presumed that the sick will be hospitalised. These forms can be filled on arrival if not available on board before arrival.

1 Crew List and 1 Passenger List.

Deratisation Certificate should be handy for inspection.

Clearance from last port.

Passports:

For Immigration Officer the following documents are required on arrival:

Arrival Immigration form, duly completed.

1 Passenger List.

List of Passengers finally landing, in duplicate.

Crew List.

Valid passport with entry visa is required for landing in A.R.E. for passengers landing. Emergency visa can be granted on arrival if so required.

For Customs Use:

(1) Bonded Store List, in duplicate.
(2) Crew List and Passengers' list in duplicate, showing rate of consumption of each.

PILOTAGE: *Port Said:* On arrival at the Pilot station at Port Said, vessels should contact the pilot boat announcing their arrival and to receive the necessary instructions for either: *(a)* to stop in order to receive a Pilot; *(b)* to anchor at the waiting area; *(c)* to proceed to the channel where the Pilot boards.

Vessels arriving from sea can contact the Canal Authority by wireless on the following frequencies:

Port Said: Port Office freq. 2182 kc/s. Calling Port Said 1; freq. 156.30 mc/s. Calling Port Said 6; VHF can also be used on Channel 16.

Pilot boat: freq. 156.3 mc/s. Calling Pilot boat at a range of 20 km. Call sign "Pilot Boat".

Vessels transitting canal can also contact S.U.Q. at Ismailia by wireless, on the following frequencies: freq. 454 kc/s., 425 kc/s., 468 kc/s.

Waiting area at Port Said:

The waiting area where vessels anchor waiting for Port Pilots, is situated to the West of a line joining the West buoy of the first pair of light buoys and the fairway buoy, and South of the parallel of latitude passing through the fairway buoys. All ships waiting to enter Port Said Channel, have to anchor at this area. It is of great importance that a vessel should announce its arrival immediately on reaching the Pilot station for 2 reasons:

(a) To avoid delay in entering the harbour, as vessels are piloted in accordance with their turn in contacting the pilot boat.
(b) The arrival of a vessel is immediately transmitted to the Suez Canal Authority's Office, thus enabling the Agent to declare the ship in time, even before she enters the harbour and ensure her transit with the appropriate convoy. Such registration cannot be done if the vessel does not adopt the above procedure. Passenger vessels are given priority in turn, in entering the harbour.

Notice is hereby given that the entrance channel to Port Said harbour is buoyed as follows:

(a) A Fairway light buoy painted with white vertical stripes showing a white flashing light every 5 seconds approx. fitted with radar reflector and surmounted by a top mark resembling St. Andrew's Cross.
(b) *Position of buoy:* 032° 40′ – 6.04 miles from Port Said lighthouse.
(c) The first pair of light buoys indicates the entrance of the channel. The West buoy is painted black and surmounted by a conical superstructure giving a flashing green light.
(d) *Position of buoys:* 037° 03′ at a distance of 5.13 miles from Port Said lighthouse.
(e) The East buoy is painted red and surmounted by a cylindrical superstructure giving a flashing red light.
(f) *Position of buoy:* 127° 40′ from the West buoy at a distance of 1,969 ft. from the West buoy.
(g) Several other pairs of lights indicate the limits of the channel to the East and West. The East buoys are painted red and show a fixed red light and the West buoys are painted black and show a fixed green light.

(*h*) A fixed red light on a pylon on the North quay of Abbas Basin in line with an occulting red light on a pylon West of the fuel oil tanks at Raswa, indicates the axis of the entrance channel to the harbour.

Pilotage is compulsory on entering or departing Port Said Harbour as well as in the Canal and it is free of charge for vessels transitting the Canal except when shifting or changing berth. Vessels not transitting the Canal are subject to the payment of these charges both at Port Said and Suez. Vessels under 300 tons Suez Canal net tonnage are allowed to transit the Canal from any direction with a *Patron* (instead of Pilot) without being compelled to attend to convoy timings and after authority had been granted by the Suez Canal Authority.

In view of the continuous expansion in the sizes of vessels, with the consequent increase in the height of the hull, it is becoming very difficult for the roads Pilot to board vessels by using the customary rope ladder without causing him considerable fatigue. Therefore, it is recommended that Owners and Masters of large size tankers instal on their vessels a mechanical hoist for Pilot, and that one of the ship's officers be present to ensure its correct use, for the safety of the Pilots and to avoid accidents.

It is also recommended that the Mechanical Hoist be installed at a convenient distance from the effect of the propeller and away from the vessel's stern.

Suez:

As regards Suez Bay, it is sheltered from all points except from South. Very occasionally during Southerly gales (period December to April) motor-launches and boats are unable to communicate with ships in the roads.

Newport Rock lighthouse (see Notice to Mariners No. 8 of 1977 below) marks the Southern extremity and ships usually anchor opposite the entrance to the Suez Canal. All ships entering the port of Suez have to anchor in the pilotage zone which is limited by the imaginary line which extends from Ras Adabiya to Eyoun Moussa and comprises the coastal zone North of this line up to the Suez Canal entrance.

Notice to Mariners No. 8/1977: *Red Sea – Gulf of Suez:* Notice is hereby given to mariners, navigation companies and Agents, that New Port Rock Lighthouse in position:

Latitude: 29° 53′ 12″ North. Longitude: 32° 33′ 6″ East

is no longer operative as, on 11/4/1977 at 0245 a ship struck the lighthouse and toppled it, and now only a small part of it appears above sea level. Navigational Warning No. 25 was broadcast on that same day.

A spherical black buoy with white superstructure has been placed 20 m. to the West of the wrecked lighthouse.

The night character of the buoy is green flashing light of 2 secs. duration, every 6 secs.

All ships approaching are to take safety measures when navigating in this area for their own safety until further notice. (Admiralty Charts Nos.: 2372 – 3214.)

The town stands on a spit of the desert projecting Eastward with the Bay of Suez on its Southern side, Lat. 29° 58′ N., Long. 32° 10′ E.

Port Tewfik Office freq. 2182 kc/s. Calling "Port Tewfik 1", freq. 156.3 mc/s. Calling "Port Tewfik 6", VHF can also be used on Channel 16.

Pilot boat freq. 156.3 mc/s. Calling sign "Pilot Boat".

Pilotage in the port of Suez is compulsory for all vessels entering, moving within or leaving the port.

Naval ships and vessels whose Suez Canal net tonnage is less than 300 tons are exempted from pilotage, but they have to contact the Pilot boat for orders prior to making any movement. Vessels exempted from pilotage may have a Pilot if so required.

Pilotage Waiting Area at Suez: As per Notice to Mariners No. 3/1977, the occulting light buoy No. 1, has been displaced temporarily to the following position:

Lat. 29° 50′ 44″ North. Long. 32° 33′ 24″ East.

Therefore, the Northern limit of the Waiting Area is reported to the South of the parallel of latitude passing through the buoy No. 1 to the East.

The Pilot boat is normally stationed at the proximity of green buoy No. 1 South of Newport Rock.

When entering the pilotage waiting area, the following signals should be hoisted: Pilot – Vessel's signal letters. Quarantine – Nature of dangerous cargo (if any).

Vessels have to contact the pilot boat for instructions, reduce speed and have the pilot ladder ready.

Vessels wishing to anchor in Suez roads on their exit from Canal for the purpose of carrying out repairs, cargo operations, replenishment of bunkers, water, etc., should when ready to sail hoist the pilot signal and send the following message to S.U.Q. *Ismailia:* "Vessel's Name in Suez Roads ready to sail Please send Pilot thanks". In case of rough weather, the pilot boat leaves its station.

ANCHORAGE: Anchorage in the Port of Suez:

RESTRICTIONS: We reproduce hereunder Suez Canal Authority Circular No. 1/3T1-425004 dated 1st October, 1976 and updated by Circular No. 4751/T76 dated 13th October, 1976.

FIRST: Convoy Times:

(1) **From North:**

First Convoy N 1 Starts at 0200 hrs. and ends at 0600 hrs., direct to Bitter Lakes.

Second Convoy N 2 Starts at 0930 hrs. and ends at 1130 hrs. This convoy is to be moored at El Ballah Western Cut.

Vessels permitted to Join the second convoy:
Vessels up to 15,000 tons
Maximum draft 8.85 m. (29 ft.)
Maximum breadth for ships and floating units 30 m. (98 ft.)
Slow or damaged ships are to join this convoy providing their dimensions are within the limit shown above.
Number of vessels in this convoy are limited to the number of mooring berths available in El Ballah.

(2) **From South:**

One convoy starts at 0600 hrs. and ends at 1000 hrs.

SECOND: Following details and documents are required to be submitted:

(1) Masters are requested to *wire* at least 48 hours before vessel's arrival giving the following details:
Gross and net tonnage with date of last Suez Canal Tonnage Certificate.
Gross and net tonnage and date of last Registry.
Nationality, Owner's name, previous name if any, and category of vessel according to its registry, i.e. Cargo, Containers Ship, Lash vessel, Ro/Ro.
Has the vessel transitted the Canal before.
Has there been any damages in the ship. If no alteration the following message is to be sent "PARTICULARS NO CHANGE"
Documents must be submitted in any case.

N.B. – Huge vessels which their transit necessitate the employment of tug escort, Suez Canal Authority must be advised at least 4 days before their arrival by telex, No. Sucan UN 92153.

(2) *Documents*
(a) Suez Canal Special tonnage Certificate.
(b) Ship's Registry.
(c) Statistical Declaration.
(d) Information concerning a ship extracted from its official documents and its load of containers or barges.
(e) Declaration of Double Bottom Tanks.
(f) Declaration concerning vessels in ballast.
(g) Declaration of Navigability.
(h) The last classification Certificate issued.
(i) Information concerning a vessel transitting canal.

THIRD: Conditions for vessels to join the convoys, times for registration and submission of documents:

(1) **From Port Said:**

First South Bound Convoy N1

(a) Vessel *in Port* and requires to transit the Canal must adhere to the following:—
Called the Pilot (by hoisting the Pilot Signal)
Having registered for transitting at the measurement office.
The required documents were submitted latest at:
2200 hrs. for vessels not previously transitted or have previously transitted, but due to alteration must be remeasured.
2300 hrs. for vessels previously transitted.

(b) Vessels entering the Canal directly from Sea must:
Arrive at the waiting area at Port Said anchorage not later than 2000 hrs. for New V/L's., 2200 hrs. for vessels which have previously transitted.
Have called the Pilot.
It is permitted for these vessels to be registered preliminary in the Measurement Office without submitting the documents from the time of her arrival at Port Said anchorage till 2100 hrs. for new vessels or in such condition.
2300 hrs. for vessels which have previously transitted, provided that these documents are submitted before the vessel passes in front of the Suez Canal Authority's building.

(c) Latest permissible time to hoist the Pilot Signal:
Whenever the vessel is berthing is 2300 hrs.

Second Southbound Convoy N2

(a) (1) Vessel *in Port* must:–
Have called the Pilot,
Have been registered in the Measurement Office,
Have submitted the documents latest:
At 0530 hrs. for new vessels or in such condition
At 0630 hrs. for vessels which have previously transitted.

(2) Vessels are considered in Port and can join the convoy:
Vessels arrived at the waiting area at Port Said anchorage.
Before 0330 hrs. vessels which have not transitted the Canal before or in such condition.
Before 0530 hrs. for vessels transitted before.
These vessels will enter the Port when traffic permits.
It is permitted to register these vessels preliminary at the Measurement Office, without submitting the documents from the time of her anchoring at Port Said anchorage till the latest permissible time:
0330 hrs. for new vessels or such vessels.
0530 hrs. for vessels transitted before, provided that documents are submitted within one hour and half from the official time the vessel entered the outer harbour limited by Hectometer 22, otherwise the application for transitting will be cancelled and the vessel will be delayed from the convoy.

(b) Vessels which are allowed to enter the Canal from Sea direct without stopping in Port must:
Arrive at the waiting area at Port Said anchorage not later than
0330 hrs. for new vessels or in such condition.
0530 hrs. for vessels which have previously transitted.
Application for transitting the Canal should be registered not later than:
0430 hrs. for new vessels or in such condition.
0630 hrs. for vessels which have previously transitted and documents submitted before the vessel passes in front of the Suez Canal Authority's building.

(c) Latest time permitted to hoist the Pilot Signal wherever the vessel is berthed is 0630 hrs.

(2) **From Suez:**

Conditions to join the Northbound Convoy:

(a) Latest time permitted to arrive at the waiting area at Suez anchorage:
Tankers group, and the following are considered as such:
(1) Car carriers
(2) Ro/Ro
(3) Containers
(4) Lash vessels
(5) Ordinary vessels with 35 ft. draft.
By 0000 hrs. for tankers not transitted before,
0100 hrs. for tankers transitted before.

Other Vessels:
0130 hrs. for vessels not transitted before, 0230 hrs. for vessels transitted before.

(b) Registering of application of transit at the Measurement Office:
Submitting the documents: Short time after anchoring of the tankers or other vessels.
Without submitting the documents: As stated above in Para *(a)*.

(c) Latest time permitted to hoist the Pilot Signal: As stated above in Para *(a)*.

MAX. SIZE: ALSO SEE NOTICE NO. 430335 on Page 294.

Maximum dimensions and conditions of ships authorized to transit the Canal:

General:

(a) Maximum length of ships authorized to transit 1100 ft. (by length of ship it is meant the underwater length including bulbous bow).
(b) Maximum breadth 160.5 ft.
(c) Tables indicating the maximum draft authorized relative to the breadth of ship, speed and direction of transit. (See below).
(d) Ships transitting the Canal according to the the terms of this circular are required to fulfill the following conditions:
  (1) The ship's loadline for tropical zones must be apparent and in compliance with the provisions of International Convention regarding loadlines.
  (2) The ship's draft marks fore, aft and amidships will be existent on port and starboard sides.
(e) All ships have to conform to the Suez Canal Rules of Navigation and its Appendix for dangerous cargo.

Escorting by Suez Canal tugs:

(a) Ships with length less than 1000 ft. and breadth less than 147 ft. can transit the Canal without escort tugs.
(b) Ships with a draft not exceeding 37 ft. fore, aft and amidships can transit the Canal without escort tugs.
(c) Ships with length less than 1000 ft. but breadth from 147 ft. to the maximum of 160.5 ft. are to be escorted by 1 tug during the first transit of Canal. If this transit proves successful the following transits will be without escort tugs.
(d) If draft exceeds 37 ft. and up to the limit draft of 38 ft. (fore, aft and amidships), the ship will be escorted by 1 tug for her first transit. If this transit proves successful the following transits will be without escort tugs.
(e) Ships with length of 1000 ft. and up to the maximum limit of 1100 ft. are to be escorted during the first transit by 2 tugs. If this transit proves successful the ship will be escorted by 1 tug only during the following transits.
(f) Sisterships are not to get benefit of authorisation granted to a particular ship of the group.
(g) Ships which are to be escorted by 1 or 2 tugs according this circular have to notify Suez Canal Authority at least 4 days prior to arrival to Canal zone.
(h) LPG/LNG Tankers whose Suez Canal gross tonnage exceeds 80,000 tons, either laden or in ballast must be accompanied by a Port Authority tug on every transit. It is also requested that a steering light, to be lighted by night, be fitted on the extreme of the tanker's bows.
(i) Vessels whose breadth ranges from 128 ft. – 134 ft. are exceptionally permitted to transit the Canal from South escorted by tug during their first transit of the Canal.

Draft for large ships in ballast:

The recommended draft for large ships in ballast is to be 25 ft. forward and 29 ft. aft. This draft may be amended to give the best view from the bridge, or better steering, but must not exceed the maximum authorized draft according to the attached tables, and transit will be effected in good weather conditions.

Tables indicating the maximum draft for different breadths and speeds for ships:

Speed not exceeding 14 Km./H (From North or South):

Breadth (ft.)	113	116	119	123	126	130	133	138	143	148	153
Draft (ft.)	38	37	36	35	34	33	32	31	30	29	28

Speed not exceeding 13 Km./h. (From North or South):

Breadth (ft.)	120	123	127	130	134	137	142	147	150	157	160.5
Draft (ft.)	38	37	36	35	34	33	32	31	30	29	28

Special Transit

Speed not exceeding 13 Km./H. (From South):

Breadth (ft.)	128	131	134
Draft (ft.)	38	37	36

Exceptional Transit

Speed not exceeding 12 Km./H.

Breadth (ft.)	160.5
Draft (ft.)	29

We reproduce hereunder Suez Canal Authority circular No. 2237/T76 dated 31st March, 1976.

Recommended drafts for tankers in ballast when transitting the Suez Canal are as shown below:—

Tonnage S.D.W.		Draft	
From	To	Forward (ft.)	Aft (ft.)
120,000	230,000	25	29
100,000	120,000	24	28
80,000	100,000	23	27
65,000	80,000	22	26
50,000	65,000	21	25
32,000	50,000	20	24
23,000	32,000	18	22
15,000	23,000	15	19

N.B. These drafts may be amended, when necessary, to give better steering.

NOTICE NO. 430335: Issued by the Directorate of Transit of the Suez Canal Authority (received 1st December, 1980).

We have pleasure to give you hereafter, information in respect of the dimensions and drafts of vessels allowed to transit the Suez Canal, after the completion of the first stage of canal development.

1. *Date of termination of the first stage:* The first stage of the canal development shall be completed during first half of December 1980. The exact date will be announced in due time.

2. *Dimensions of vessels authorized to transit:* These dimensions are given hereunder; they will be reached by the vessels gradually by steps.

Max. Length: No restrictions.

Max. Beam: 190 ft., to be reached by steps as follows: 170 ft., 180 ft., 190 ft. (see Section 4).

3. *Max. draft:* The following tables "A", "B" and "C" give the max. draft authorised in relation to the beam of vessel according to the following:

Table "A": For vessels in ballast transitting in either direction.

Table "B": For loaded vessels transitting Southbound. The speed of transit being 14 km/hr.

Table "C": For loaded vessels transitting Northward and includes two tables, "C–1" and "C–2".

Table "C–1" gives the drafts for vessels transitting at speed of 13 km/hr.

Table "C–2" gives the drafts for vessels transitting at speed of 14 km/hr.

4. *Progressive increase of beam and draft – Period of Transition:*

a. For large vessels in ballast: The max. beam allowed to transit the Canal will be increased in steps as indicated in table "D".

b. For loaded vessels: The max. draft for each vessel according to tables "B" and "C" or her tropical loadline, whichever is less is to be reached gradually by successive steps as shown in table "D".

c. The various steps of increase of beam and drafts will be carried out within a period – Said Period of Transition – reckoned from date of admission of vessels to the new increased beams or drafts.

Concerning draft and for each step of increase – as stated in table "D" – the vessel has to effectuate and experimental satisfactory transit before being admitted to the following step.

d. After the Period of Transition, vessels which did not transit the Canal during this period, have to make an experimental transit at the draft just before the max. draft indicated in table "D".

For example: Vessel of beam of:

— up to 140 ft.: experimental transit at draft 50 ft.

— up to 150 ft.: experimental transit at draft 46 ft.

5. *Speed:* Speed of convoys as the following:

Southbound: 14 km/hr.

Northbound: (a) 13 km/hr. for loaded tankers and bulk carriers group.

(b) 14 km/hr. for ordinary group.

Table "A"

Draft for Ships in Ballast (transitting North or Southbound)

Beam (ft.)	Up to 130	Up to 150	Over 150
Draft (ft.)	Maximum 25	25 Forward 29 Aft	28 Forward 32 Aft

Table "B"

Max. draft for different beams for loaded vessels transitting Southbound.

Speed 14 km/hr.

Beam (ft.)	*Max. Draft (ft. and in.)*		*Beam (ft.)*	*Max. Draft (ft. and in.)*	
Up to 156	42		174	37	6
158	41	6	176	37	
160	41		178	36	6
162	40	6	180	35	6
164	40		182	35	
166	39	6	184	34	
168	39		186	33	6
170	38	6	188	33	
172	38		190	32	

N.B. Max. draft allowed for the time being is 40 ft. which will be increased to the maximum according to this table by further notice.

Table "C"

Max. draft for different beams for loaded vessels transitting Northward

"C–1" – Speed 13 km/hr.

Beam (ft.)	*Draft (ft. and in.)*		*Beam (ft.)*	*Draft (ft. and in.)*	
Up to 140	53		166	44	9
142	52	6	168	44	1
144	51	11	170	43	5
146	51	3	172	42	10
148	50	7	174	42	2
150	49	11	176	41	6
152	49	4	178	40	10
154	48	8	180	40	2
156	48		182	39	7
158	47	4	184	38	11
160	46	8	186	38	3
162	46		188	37	7
164	45	6	190	36	11

"C–2" – Speed 14 km/hr.

Beam (ft.)	*Draft (ft. and in.)*		*Beam (ft.)*	*Draft (ft. and in.)*	
Up to 166	42		180	39	
168	41	6	182	38	6
170	41	4	184	38	
172	41		186	37	6
174	40	5	188	37	2
176	40		190	36	11
178	39	6			

Table "D"

Steps of Increase in Beam and Draft.

1. Increase of Beam for large vessels in ballast:

First Step: From the 20th of November 1980, vessels with max. beam around 170 ft. (i) will be allowed to transit Canal for a period of 2 months.

Second Step: Vessels with max. beam around 180 ft. (ii) will be allowed to transit for a period of 1.5 months. After this period the max. beam of 190 ft. will be allowed.

2. Increase of Draft for Loaded Vessels:

From the date of termination of the first stage of Canal Development Project which will be announced in due time as mentioned before, the gradual increase of draft for different beams will be in steps according to the following tables. A period of 2 months is fixed for each step of increase in draft.

Southbound Loaded Vessels (Steps and Drafts):

Steps	*Beam up to 120 ft.*	*Beam up to 150 ft.*	*Beam over 150 ft.*
First Step	40 ft.	36 ft.	32 ft.
Second Step	40 ft.	40 ft.	36 ft. (iii)

(i) Max. beam allowed not more than 170 ft. 6 in.

(ii) Max. beam allowed not more than 180 ft. 6 in.

(iii) Vessels with max. draft stated in table "B" more than 36 ft. can transit with this draft with max. limit of 40 ft. after finishing Second Step.

Northbound Loaded Vessels Transitting at 14 km/hr. (Steps and Drafts of transit):

Steps	*Beam up to 120 ft.*	*Beam up to 150 ft.*	*Beam over 150 ft.*
First Step	42 ft.	36 ft.	32 ft.
Second Step	42 ft.	40 ft.	36 ft.
Third Step	42 ft.	42 ft.	40 ft.
Fourth Step	42 ft.	42 ft.	42 ft.

Northbound Loaded vessels transitting at 13 km/hr. (Steps and Drafts)

Steps	*Beam up to 140 ft.*	*Beam up to 150 ft.*	*Beam over 150 ft.*
First Step	41 ft.	36 ft.	32 ft.
Second Step	46 ft.	41 ft.	36 ft.
Third Step	50 ft. (i)	46 ft.	41 ft.
Fourth Step		50 ft. (ii)	46 ft. (ii)

(i) After which the max. draft of 53 ft. is allowed or the tropical loadline whichever is less.

(ii) After which the max. draft is allowed or the tropical loadline whichever is less.

HEALTH: On entering, vessels must hoist the International Quarantine Signal for compulsory quarantine. Any sickness must be reported to the doctor specially when it is presumed that the sick will be hospitalised. The Quarantine doctor meets the ships whilst entering the port and the ships are boarded in turn. To get a quick clearance and not to be left for later attendance, Masters are requested to receive the doctors as soon as they board and to have the following documents ready:

Quarantine Forms in Duplicate: When inserting the ship's register net tonnage special care should be taken in indicating same on the 2 quarantine forms (Form No. 15 Q.A.) as the dues are calculated on that tonnage, as incorrect information may cause complications.

Deratisation Certificate should be handy for inspection.

Clearance from Last Port should also be handy.

All ports at which the vessel has called as well as dates of sailings for the last 30 days should be inserted in the form.

Quarantine Signals:

By day: "Q" flag (signifying vessel healthy). *"Q" Over first substituted (QQ).* (Vessels have cases of infectious diseases more than 5 days ago, and there have been unusual mortality among the ratings or crew on board.) *"Q" over L flag (QL)* signifying (vessel is infected and has cases of infectious diseases less than 5 days ago.)

By night: red light over white: The flags and lights must remain hoisted until free pratique is granted. Ships in transit under Quarantine through the Suez Canal will use the same signals until they clear the other end of the Canal.

Important: In the event of a vessel arriving from a port that has been internationally declared infectious and the incubation period has not yet expired at the time of the ship's arrival at an A.R.E. port the vessel is put under compulsory Quarantine, moored at an isolated berth and no shore contact is allowed. Nevertheless, the ship can still carry out her normal operations on condition that all shore personnel are holding valid vaccination and/or inoculation certificates issued by the Quarantine Administration. The ship's personnel should also carry International Vaccination and/or Inoculation Certificates. Final landing passengers, not carrying such certificates, will be landed under Quarantine supervision and will be kept isolated at the lazarette until incubation period is over.

Pratique granted by radio: Pratique may be granted prior to ship's arrival provided the following conditions are adhered to:

(1) The vessel must be a regular liner to the Quarantine Authorities and has a doctor on board.
(2) Details shown on the Quarantine Statement should be radioed to the Quarantine Authorities 24 hours prior to ship's arrival.
(3) Captains of vessels must declare before their arrival any accidents, which might have taken place on board prior to the arrival in port.
(4) The ship must not have called at any infected port.

RADIO: ETA messages can be transmitted to Agent and Suez Canal Authority through Port Said Radio and/or Alexandria Radio for vessels calling at Port Said. The same procedure can also be adopted for vessels calling at Suez through Kosseir Radio.

As a rule, Masters should send their ETA not less than 48 hours before ship's arrival. In addition to the ETA, all requirements should be included in the wireless message as well as detailed information regarding cargo operations, draft, number of passengers disembarking, details of their baggage and crew changes, if any. If the ship is operating a tour in the town and/or a quick trip to Cairo, numbers of participants must also be contained in the same wireless message. Number of bags of mail to be discharged, if any, should also be included.

This is to enable the ship's Agent to notify, in good time, the parties concerned, to prepare in advance the necessary custom permits, and to ensure all requirements to be supplied without delay.

Vessels transiting the Canal for the first time, should also include in the ETA message, whether fitted with a projector or not and if in the affirmative to state number electricians required, thus enabling the Agent to make the necessary arrangements and avoid any delay.

In accordance with the Suez Canal Authority's instructions and in order to avoid delaying vessels from joining the respective convoys, vessels transitting the Canal for the first time are required to include the following information in their ETA message:

Suez Canal gross and nett tonnages and date of last Suez Canal Special Tonnage Certificate.

Registered gross and net tonnages and date of last register. Ship's nationality and Owner's name.

If the ship has previously transitted the Canal, the following information should be included in the ETA message:

Whether there have been any constructional changes. If no changes have taken place, the following message should be sent: "Particulars no change navigable".

RADAR/VHF: There is no radar service at either Port Said or Suez, but VHF can be used with the Suez Canal Authority on Channel 16. Transit vessels can also contact S.U.Q. at Ismailia by wireless on the following frequencies: Freq. 454 kc/s., 425 kc/s., 468 kc/s.

Canal Shipping Agencies Co. Listen on Channel 16 (working Channel 62).

TUGS: Highly qualified crew are available on board several tugs owned by the Suez Canal Authority in Port Said, Suez and in all Suez Canal stations. These tugs assist vessels to berth in Port Said harbour as well as in Canal if a case arises. It is left solely to the Canal Authority to decide whether more than 1 tug is needed (free of charge) to assist any ship to moor in the Port Said harbour, but if a Master of a vessel finds it necessary to employ an extra tug for berthing or if he needs a tug for any other reason, such an operation will then be charged against the vessel.

Salvage tug boats:

(1) 3,200 h.p. *Mounir, Moawen 1, Moawen 2.*
(2) From 3,500 to 5,000 h.p. *Antar, Bassel, Barei, Fahd.*
(3) 6,400 h.p. *Mared, Shahm.*

Harbour tug boats:

1,600 h.p. *Bori, Wakar, Chadid, Hout, Kirsh, Morgan, Shabar.*

General conditions:

(1) Hire is reckoned from the time of starting to raise steam and ceases when the tug returns to its depot.
(2) Fractions of hour will be reckoned as full hour.
(3) Hire charges are increased by 10% when tug is used after official office hours, on Fridays or on public holidays.
(4) Hire charges are increased by 100% when tug is used outside Canal waters.
(5) Towing charges outside the territorial waters are agreed upon with the Authority.
(6) This tariff may be revised every 3 months without notice.
(7) *Note* – A special unified Canal trip rate is applied for each tug imposed for escorting operations. See "Max. Size" – "Escorting by Suez Canal Tugs", Paragraphs (c), (d) and (e).

BERTHING: *Port Said:*

**Note:* In good weather the length on buoys may be increased from 3 to 9 m. according to the length of the berth and height of the vessel.

Quays at Port Said: The Suez Canal Authority had built new quays to enable vessels to berth alongside at Cheriff and Abbas Basins. Length about 1300 m. Height about 2 m. from sea level. Also 14 cranes of 3 tons lifting capacity each, running on rails have been installed. Maximum draft allowed is 27 ft. The best part of these quays is ready and vessels with full cargo for discharge, are now berthing alongside. Vessels drawing more than 27 ft. have to lighten their cargo into lighters to that draft before berthing.

The distance between Bollards 23 and 24 South of deep Abbas Quay (30 m.) has been reserved for the berthing of one Ro/Ro vessel by the stern, within the present allowed draft (27 ft.).

Height of quay from sea level: 2 m.
Average tide all year: from 40 to 50 cms.
Thickness of fender: about 50 cms.
Breadth of quay edge: from 50 to 60 cms.

Suez:

Port Ibrahim: Port Ibrahim is the port of Suez. It consists of North and South basins.

North Quay: The North basin has, on the North side, a quay length of 2,415 ft. a total breadth of 975 ft. and depth of 26 ft. 06 in. at high tide. Quay is connected with the railway which runs the whole length of this quay and which can accommodate 4 large ships.

Berths 4 and 5 where stores are available are suitable for loading and discharging cement in big quantities.

Khedivial Quay: Berths Nos. 9, 10 and 11, length 119 ft., depth 24 ft. at high tide.

N.B. No cranes are allocated to these quays but mobile cranes (5-15 tons) only can be used.

Pilgrim's Quay: (Pontoon Berth) No. 6, 1 berth, length 500 ft., depth 24 ft. at high tide.

Adabiya Quay: This quay is situated on the Western shore of the Suez Bay, and is under the control of the Naval Authorities. The max. draft is 26 ft. 06 in. and can accommodate 4 large vessels. Quay is equipped with an electric crane, capacity 15 tons, max. length of vessel allowed to berth alongside quay 425 ft.

Marakib Quay: Situated at the entrance of the Canal depth 28 ft.; can accommodate passenger and cargo vessels.

Storage Capacity at Suez:

North Quay	40,150 sq. ft.
Pilgrims Quay	20,952 sq. ft.
Khedivial Quay	8,448 sq. ft.
	69,550 sq. ft.

While stacking spaces on the quays are: 332,050 sq. ft.

STEVEDORES: As stated in the ETA messages, Masters are advised to include in their messages details of cargo to be discharged in either Port Said or Suez, hatch by hatch and gangways required, if possible. All loading and discharging operations in Port Said harbour and Suez Roads are effected by lighters. There are steel lighters, wooden barges and self-propelled barges available for this purpose that will allow rapid work to be carried out. At Port Said several frozen cargo ships are provided with flat floating pontoons to facilitate discharge of cargo. At Port Said the draft of water does not allow ships to be berthed alongside quays to carry out cargo operations except in Cherif and Abbas Quays which accommodate vessels up to 27 ft. and consequently same are carried out also from and into lighters which are brought alongside the vessels whilst at anchor.

MEDICAL: It is very essential for Agent to receive advance notice of required medical attendance at least 24 hours prior to ship's arrival. All ordinary medical supplies are available and prescriptions are executed at any time at moderate prices and delivered during ship's stay in port. Medical assistance at Port Said and Suez is available. Consultations on board could be arranged through ship's Agent at any time by day or night. Reliable dentists are available at Port Said and could be consulted on board, if necessary, and during the following period at their clinics: From 0900 to 1300 hrs. and from 1600 to 1900 hrs.

Occulists are available for consultations at town clinics in Port Said during usual working hours. Opticians are also available at Port Said. The following hospitals are available with ample first, second and third class accommodation, accepting patients irrespective of nationality at reasonable charges:

At Port Said	*At Suez*
Al Mabarra Hospital	Al Helal Hospital
Notre Dame de la Deliverande Hospital	Abou El-Azayem Hospital
Two General Government Hospitals	General Government Hospital
T.B. Hospital	Isolation Hospital
Isolation Hospital	Ophthalmic Hospital
Ophthalmic Hospital	

Ship's personnel should carry international vaccination and/or inoculation certificates if a vessel is arriving from a port that has been internationally declared infectious and the incubation period has not yet expired at the time of arrival.

TANKERS: There is a bunkering station at Port Said harbour which can accommodate 4 tankers with not more than 38 ft. for the purpose of discharging their cargo of fuel or diesel oil to the different oil bunkering companies, but the petroleum basins for tankers at Port Said is as follows:

7 jetties can accommodate vessels with max. length of 555 ft., loaded with draft of 26 ft. 6 in.

If jetties 2 and 4 are occupied by large tankers, then No. 3 would have to be used by a small tanker.

Oil Storage: There is ample tank storage for bulk petroleum products.

New Suez Terminal: The terminal is situated in Suez Roads.

(1) Presently one berth has been reconstructed and is used by tankers chartered by EGPC.
(2) Minimum depth of water at L.W.O.S.T. in the approach Channel is 38 ft.
(3) Minimum depth of water at L.W.O.S.T. alongside each berth is 38 ft.
(4) Maximum safe length of tanker applicable 750 ft.
(5) has six pipe lines each berth:–
    4 lines × 20 ins.
    2 lines × 16 ins.
    1 line × 4 ins. (fresh water)
(6) All types of oil products can be handled at this berth.
(7) No facilities are available at present for reception of ballast.

FRESH WATER: Is available for supply ex self-propelled barges to any quantity required at all times with a min. supply of 50 tons.

FUEL: Different grades of fuel oil are available from different firms. It is customary that the Master should advise in his ETA message of the vessel's requirements, fuel or diesel oil, at least 24 hours prior to ship's arrival into port. Bunkering is by contract between the Owners and the different bunkering firms, and nominations should be arranged for each vessel separately between the Owners and Head Office of the bunkering firm abroad, and for which payment is also effected abroad. Only the Compagnie Orientale des Petroles accepts payment in cash out of Shipping Account No. 2 for supplies effected by them and in which case a nomination is not required. Vessels can be berthed in the oil installation and thus can effect their bunkering requirements through pipe-lines. Tankers which are not gas-free, cargo vessels carrying dangerous materials and passenger vessels, which are moored opposite the town, can be supplied with requirements of fuel and diesel oil ex self-propelled barges with max. capacity of 700 tons.

FIRE PRECAUTIONS: In accordance with the Suez Canal Authority's regulations, tankers and vessels carrying dangerous materials must comply with their requirements, concerning fire regulations.

GANGWAY/DECK WATCHMEN: In both basins Cherif and Abbas at Port Said, where cargo vessels are normally berthed, ships' gangways can be used for disembarkation and embarkation. Passenger vessels are moored in special berths, i.e. Red Buoys, opposite the town, and can be supplied with 1 or 2 floating bridges (snake pontoon) which can connect the ship with the shore to enable the transit passengers and members of crew to proceed ashore. Cargo ships and other vessels mooring at the different buoys must lower their gangway to facilitate disembarkation and embarkation of ship's personnel as well as different officials. As far as Suez is concerned, all vessels must lower their gangway for the same purpose stated above. A deck watchman is recommended.

OPENING/CLOSING HATCHES: In accordance with Charter Parties, the opening and closing of hatches are dealt with as instructed in this Agreement, but for vessels carrying out minor cargo operations, it is customary that stevedores open and close ships' hatches against ships' account. To expedite vessel's transit, it is always recommended that ship's crew, during vessel's entering into the harbour should open the hatches and rig ship's derricks in order that they may be ready for cargo operations immediately upon ship's arrival at either Port Said or Suez.

CERTIFICATES:
Ship's Register.
Suez Canal Special Tonnage Certificate.
General Arrangement and Capacity Plans.
Load Line Certificate.
Safety Equipment Certificate.
Radio Safety Certificate.
Documents covering names and ratings of ship's officer and their diplomas.

CUSTOMS ALLOWANCE: Every member of crew is entitled to have 1 carton of cigarettes, 8 ounces of tobacco, and 1 bottle of spirits for his own consumption during ship's stay in Port Said, Suez Canal transit, until vessel exits the Canal or vice-versa. Same applies to passengers, and a limited quantity of bonded stores can be permitted in public rooms and bars on passenger ships. Crew and passenger list, in duplicate, showing the amount in possession of each must be ready on vessel's arrival for submission to the Customs Representatives who normally proceed on board on arrival to seal up the Bonded Stores.

CARGO GEAR: These are normally supplied by the stevedores to comply with the nature of cargo discharged or loaded from cargo ships. Rope lengths and other cargo gear may be additionally required to expedite ship's discharge.

IDENTIFICATION CARDS: Every member of crew must have a seaman's book deposited with the Officer in charge for inspection, if so required by the Immigration Authorities. If a vessel is stopping in Port Said or Suez for a lengthy time, these seamen's books are normally taken off the ship by the said Authorities and kept in their departing office pending ship's sailing day when they are placed on board by the proper officer on a previous advice. Identity cards are also needed if a crew member wishes to proceed ashore for a short visit to the town or for proceeding to any excursion inland.

CONSULS: The following countries have Consulates or Consular Agencies in Port Said:

U.S.S.R.
U.S.A.
Italy
Greece
West Germany
Panama
Republic of China
Holland
Norway
Denmark
Finland
Sweden
Spain
U.K.
India

REPAIRS: Most types of repairs whether temporary or permanent can be carried out here by the Suez Canal Authority's shipyard or its subsidiary companies, under the supervision of the appropriate surveyors, if necessary. Suez workshops are well equipped for undertaking all kinds of marine repairs to hull, main and auxiliary engines, boilers, navigation aids, radar and cooling, and installations.

Vessels carrying explosives are not allowed to carry out repairs. Tankers loaded or in ballast but not gas free are not allowed to carry out repairs, except in cases of force majeure of which the Canal Authority is sole judge. Gas-free tankers must present Gas-free Certificate before they are allowed to carry out any repairs. If unavailable, a chemist approved by the Suez Canal Authority can be appointed for testing the tanks and issuing the Gas-free Certificate. The aforementioned restrictions are applicable at Port Said only and not at Suez where vessels anchor at roads and are of no danger.

Other Repairs Facilities: Exist at Port Said for air conditioning, wireless telegraphy, radar, course and rudder recorder, refrigerators, and refrigerating units.

All kinds of repairs to echo sounding devices are carried out at Port Said by experienced specialists at reasonable charge, for the different types and dealt with by the Port Said Engineering Works with the exception of Raytheon radar, B.T.H. radar and Cossor radar which are represented by the Eastern Electronics.

DRY DOCKS: A floating dock of 25,000 tons, capable of docking vessels up to 50,000 d.w.t., is available at Port Said as well as a dry dock at Suez. Sufficient notice is required to book the date for either the floating or the dry dock.

Repair facilities are available at Suez, where a dry dock is suitable to accommodate vessels up to 8,000 d.w.t.

Dimensions:

Extreme length to inner sill	464 ft.
Breadth at entrance	73 ft.
Height of water over keel blocks:	
at Spring tide	22 ft. fore, 26 ft. 3 in. aft
at Neap tide	19 ft. fore, 23 ft. 3 in. aft

The max. draft at which a vessel can use the dry dock is 17 ft. fore and 20 ft. aft. Deeper drafts may be arranged with the management.

The Suez Canal Authority's Floating Dock and Shipyard is situated at the Northern entrance of the Suez Canal, opposite to Port Said lighthouse.

Ships up to 50,000 d.w.t. may undergo all kind of repairs in the shortest possible time. Tankers, by gas-freeing during their voyage from their home harbour to Port Said, will save at least 4 days if they carry out their repairs in our dock.

REPATRIATION: It is quite common that crew changes can be effected without any hinderance. As regards "signing off" members of crew, necessary facilities are given by the Immigration Authorities for their landing by granting them emergency visas and thus their repatriation arrangement by sea or by air can be effected easily. The "signing on" of foreign seamen is subject to the following regulations:

(a) A seaman and/or officer (non-residents) must be of the same nationality of the ship when arriving from abroad for this purpose.
(b) If a ship requires any rating, priority to engage Egyptian crew is given, unless indicated otherwise by means of a telegram or a letter from the ship's Owners abroad.

AIRPORT: The distance between the international airport at Cairo and Port Said or Suez is normally 2.5 hours. International airlines serve this airport. Cairo Shipping Agency is on constant contact with Agent for the necessary instructions.

In the interest of all and in order not to lose any time and to avoid any restrictions when sending crew members by plane to join their respective vessels, it is essential that the Agent concerned should notify by cable in good time the flight number as well as the time and date of the arrival in Cairo, thus enabling the Agent to notify Cairo Shipping Agency for the necessary clearance and as to whether they should be sent to join their vessels.

TIME: GMT plus 2 hours.

HOLIDAYS: *Official Holidays:*

Following is a list of official holidays to be observed in Egypt during 1980:

Birthday of the Prophet	30th January
Revolution Day – Syria	8th March
Sham El Nessim – Easter Monday	7th April
Workers Day	1st May
Evacuation Day	18th June
Revolution Day – Egypt	23rd July
Ramadan Bairam	11th/14th August
Army Day	6th October
Courban Bairam	18th/22nd October
Suez Day	24th October
Moslem New Year	9th November

The Dates of the Islamic holidays are stated approximately. Working hours: 0600–1800 hrs. Overtime: 1800–0600 hrs. Friday is the weekly day of rest but it does not affect labour.

If a holiday falls on a Friday it is possible that the following working day will be decreed a holiday also.

Ramadan: Thirty days' fast and how it affects labour; Cargo operations can be carried out at night and on Fridays and General Holidays against payment of overtime rates. Arrangements should be made on the previous working day to enable Customs to delegate the necessary personnel in time.

Local Holiday

Port Said:

December 23rd — Port Said Day

Suez:

October 24th — Suez Day

POLICE/AMBULANCE/FIRE: Vessels which are moored in the harbour either in Port Said or Suez requiring assistance from the Port Police, should hoist the International Code Signal (Y.M.). There is always a police guard appointed by these Authorities on each ship in either Port Said or Suez harbour. First-aid assistance can provide ambulances at a request through the Agent. In case of fire on board when in port, the Captain must inform the Port Authorities (the Suez Canal Authority) immediately and at the same time give a general warning by means of a long blast of whistle or siren and be prepared to move his ship to another berth if so required. The Suez Canal Authority own 7 tugs and other craft distributed in various points of the Canal with individual output from 10 to 950 t.p.h. well equipped with fire-fighting appliances, ready for use at any moment.

TELEPHONES: There are no telephone facilities available in Port Said except at berth No. 4 Red where passenger ships are normally berthed, and this can be connected when snake pontoon is fixed with ship's gangway.

SERVICES: Port Said and Suez being situated at a middle point between the East and the West, have become an ideal centre for replenishing stores and provisions which can be obtained in bond or from town. The chandling firms attending to all ships calling at A.R.E. ports are:

(a) The United Arab Marine Contracting & Supply Co., (cable address: "Consup").

(b) The International Marine Services Co. (cable address: "Marinco").

Delivery of provisions and stores is effected 24 hours a day at Port Said and Suez.

It is recommended that Masters should order their requirements prior to their arrival with a view to avoiding any delay specially for ships joining the 0700 hours convoy Southbound.

Deck and engine stores are ample and are also available and sold at (in bond) prices.

Paints: All kinds (bottom, boot-top, topside, enamel, engine ready mixed, heat resisting, varnishes) are also available at "in bond" prices. Painting of ships or undertaking any maintenance work on board is permitted while ship is in port waiting to join the North or the Southbound convoys as well as while transitting the Suez Canal.

The following companies are represented here:

International Marine Paint	Represented by The United Arab Contracting Co. (cable address: "Consup")
Hemples Marine Paint	Represented by The International Marine Services Co. (cable address: "Marinco")
Campex Marine Paint	
Wiederhol Marine Paint	

Chemicals: The following chemical firms are represented in Port Said and Suez:

Gamlen & Co.	Represented by The United Arab Contracting Co. (cable address: "Consup")
Bird Archer/Norus (Tommons & Chartes) Chemicals.	Represented by The International Marine Services Co. (cable address: "Marinco")
Drew Chemicals Cameroid Products.	
Paroline Chemicals Cameroid Products.	
Walker Bow.	

Grease and lubrication oils. Available from:

Esso Petroleum Co.
Misr Petroleum Co. (ex Shell)
Mobil Oil Co.
Caltex Oil Co.
Ocean Oil Co.
Wisure Oil Co.
Fina Oil Co.
Gulf Oil Co.
Castrol Burma Oil.

An advance notice of 48 hours is necessary to arrange for lubricating oils and/or bunkers required.

Charts: Admiralty Charts are available at Port Said only from the United Arab Marine Contracting & Supply Co. If any order has to be supplied at Suez, arrangements can be made for the required charts to be sent there.

Cigarettes: American and British cigarettes are available "in bond".

Technical Gases: Technical gases are also available at Port Said and Suez, and empty containers can be exchanged.

Fish: Bream, prawns, crab, rock fish available throughout the year; Mullet available June/February; Slip soles available November/March.

Vegetables: Beans, beetroots, cauliflower, cabbages, carrots, eggplant, endive, garlic, herbs, lettuce, marrows, parsley, radishes, spinach, tomatoes, turnips, escarole, onions, potatoes: *available throughout the year.*

Green peas, celery, pumpkins: *available January/March.*
Artichokes: *available October/April.*
Parsnips, spring onions: *available November/May.*
Green pepper, mint, lady's finger: *available June/September.*
Capsicum: *available May/December.*
Cucumber: *available February/December.*
Lemons, limes: *available throughout the year.*
Fresh figs, fresh dates: *available August/October.*
Bananas: *available October/June.*
Grapefruits, oranges, tangerines, *available October/May.* (When out of season import citrus are available).
Apricots: available May/June.
Water melons, sweet melons: *available May/October.*
Grapes: *available June/October.*
Plums, peaches: *available June/October.*
Mangoes: *available August/September.*
Pears: *available August/October.*
Apples: *available November/February* (also imported the whole year).

Eggs: Eggs are available throughout the year.

Meat: Fresh meat is only supplied to vessels having a Mohammedan Crew after permission is obtained from the Customs. Other vessels are supplied with "frozen" in bond.

Laundry: Well equipped, reliable and fast services are available at Port Said, through the ship's contractor. Ship's laundry is usually delivered within 24 hours. For vessels remaining a few hours in Port Said and transitting the Canal, their laundry could be collected, washed and ironed and then transported to Suez by special car or lorry for delivery to them there.

Garbage: No refuse or ashes are allowed to be thrown whilst ships are moored in Port Said, transitting the Canal or in Suez Roads. Small barges are available in Port Said and Suez for disposal of garbage or ashes, which craft can be obtained at a reasonable hire.

Motor Launches and Tugs Hire: Motor launches and tugs required for extra service are charged for as under:

At Port Said:

Motor launches per hour at day time, pt. 60 each; night-time, pt. 75 each; motor launches per day, pt. 300 each; night, pt. 450 each.

At Suez:

Motor launches per hour, pt. 1,250 each; tugs per hour, pt. 5,000 each.

Divers: Suez Canal Authority's Divers as well as other Contractors' experienced divers are available, capable of carrying out any kind of underwater repairs including welding and fees are subject to the kind of job to be performed. Anchors and other articles left behind by any ship in Canal waters are retrieved on no cure no pay basis.

SHORE LEAVE: Crew members are allowed ashore provided that they obtain a shore leave pass issued by the Immigration Authorities through the local Agent. They can proceed ashore by means of motor launches or rowing boats at their own expense. For vessels mooring opposite the town and connected with the shore by snake pontoon. Crew, together with passengers, can proceed ashore free of charge.

REGULATIONS: As Port Said and Suez are considered the leading ports to the Suez Canal, the Suez Canal Authority has established a convoy system for vessels transitting the Suez Canal.

It is important that the timings indicated are to be complied with. However, it is recommended that Masters arrive half an hour earlier to eliminate the possibility of their vessels being delayed on account of alleged late arrival at the Pilot station or being considered as having anchored at an area away from the Pilot station.

Conditions of Transit: Each vessel must be provided with a projector, either its own which should be in compliance with the Canal Authority's regulations, or a hired one obtainable from the Suez Canal Light Company. Vessels with bulbous bow, L.P.G. and L.N.G. must be provided with their own projector. In all cases 2 shore electricians are to be provided to operate the projector (ship's own projector or hired) during the transit. The vessel is to supply the electricians with food and a sheltered place or accommodation.

2 or more mooring boats will be provided with a crew consisting of 3 men for each, to assist the vessel in mooring in the Canal when required. A sheltered place or accommodation, as well as food has to be provided by the ship.

Connecting links made fast to bitts or clinched on board should be hung over the vessel's side.

Wireless watch should be kept in accordance with the indication of the Pilot. The Authority's station S.U.Q. transmits on a frequency of 421 kc/s. (714 m.) Vessels communicating with S.U.Q. must transmit on a frequency of 425 kc/s., 454 kc/s. or 468 kc/s..

Canal Pilots will be supplied with a wireless telephone to facilitate the despatch or receipt of messages. Vessels not having a VHF set with Channels 8 (used by Northbound convoy) and 12 (used by Southbound convoys) will be provided by one with a battery, at the vessel's expense.

Each vessel should be equipped with: *(a)* Rudder Angle Indicator, *(b)* R.P.M. Indicator.

According to Article 9 para. 2a of the Suez Canal Rules of Navigation, the above appliances must be fitted on the bridge in such a position that the Pilot may read both, without having to move away from his situation.

Pilot Signals:

By Day: International Code Flag "G" under a black ball, (for entrance in Suez Basin, only "G" flag).

By Night: 3 white lights vertically hoisted, which must be clearly visible from the watch tower of the Suez Canal Authority's offices.

DEVELOPMENTS:

The Suez Canal Development Project: Following the reopening of the Canal, the Suez Canal Authority embarked on the execution of a giant project aiming at widening and deepening the navigable channel. This project has been thoroughly investigated during the closure of the Canal in the light of the nonstop studies conducted on the development of world tanker fleet and on the need for oil shown by countries to the North of the Canal especially Western Europe and America.

This project is scheduled to be executed in two stages:

First Stage: It aims at widening and deepening the Canal to step its wet cross-section to about 3,600 sq.m., the permissible draft to 53 ft., Northbound, maximum breadth 155 ft. Hereby tankers of 150,000 d.w.t. can transit fully loaded, tankers up to 250,000 d.w.t. partially loaded and larger units up to 330,000 d.w.t. in ballast.

Second Stage: It aims at deepening the Canal to step its wet cross-section to about 5,000 sq.m. and the permissible draft to 67 ft., thus allowing tankers up to 260,000 d.w.t. to transit fully loaded, tankers up to 300,000 d.w.t. partially loaded and tankers up to 700,000 d.w.t. in ballast.

Execution of the First Stage of the Project: The Suez Canal Authority embarked on the execution of the first stage of the project by the opening of the year 1976 and it is scheduled to be terminated by end 1980.

The second stage of the project is planned to be accomplished by mid 1983.

Auxiliary services extended to transiting vessels.: The Authority has acquired a powerful fleet of 9 tug boats each of more than 3,000 h.p. capacity comprising two units 6,400 h.p. each for salvage and manoeuvring in the Canal and its ports. This is in addition to tugs under construction and specially designed for facilitating traffic in the Canal and the manoeuvring and salvage of mammoth vessels including super tankers and container ships with a view to shortening time of transit.

The Authority has acquired a powerful fleet of 14 dredgers, five of which equipped to dredge to a depth of 30 m. with a 70,000,000 cu.m. capacity per year. These units are entrusted with the dredging of about 150,000,000 cu.m. involved in the first stage of the Canal development project.

S.C.A. shipyards in Port Said and Suez carry out all kinds of ship repairs and overhauls apart from offering all services to the S.C.A. floating craft and building auxiliary units.

S.C.A. has a research centre that envisages various sections for the study of ships manoeuvring, ports, waterways in addition to laboratories for soil mechanics and materials.

Transit of Giant Tankers: September 14, 1975: Transit of the first super tanker "King Alexander The Great", 231,000 d.w.t.

October 31, 1976: Transit of giant tanker "Esso Scandia", 254,000 d.w.t., biggest transit in Canal history.

Port Said and Suez Harbours: A plan has been staged to develop these two harbours, build new quays for container ships and ro-ro ships and to modernize the present quays with a view to making them cope with the expansion of traffic in the Canal and the Free Zone areas.

SHIPMASTER'S REPORT No. 1: *Suez Canal Transit (South/North) (1976)*

C. Guardafui light was clearly seen and identified at a range of 39 miles.

There was an oil rig operating Southwards of the Cape in approximate position 11° 44′ N.: 51° 21′ E.

The Straits of Bab El Mandeb were congested but the traffic separation scheme seems to be satisfactory. The passage of the Red Sea does not seem to be any different from the past.

When passing Aden, a preliminary message was sent to the Suez Agent. This was of doubtful value but it is advisable to send a message addressed to 'Port Authorities Suez', via station SUK, giving the following information:–

Ship's name and flag.
Whether transit of canal is desired.
Destination.
Where from.
Cargo aboard.
Whether any dangerous cargo carried.
Draft
ETA at – 23° North, Straits of Gubal, Suez.

All radio messages through the Egyptian radio stations must have a signature, i.e. 'Master'.

The ETA's can be updated as necessary. The message to the Port Authorities is mandatory.

Approaches: The Gulf of Suez is congested by oil rigs – particularly in the vicinity of Ras Shukheir and the Ramadan and July oil fields where there are many rigs and flares and supply vessels crossing the Gulf. One oil rig was working in the middle of the fairway East of Ras Dib. With poor visibility, if a Southbound convoy were to be met in this region, it might be wise to proceed at manoeuvring speed.

Most of the lights in the Gulf are extinguished but Newport Rock lighthouse, the buoys and other lights in Suez Bay are working and are efficient.

A pilot cutter operates just South of the waiting area but an approaching ship will be called by signal lamp from ashore, asking for the ship's name and making "VHF". Contact is then established on Channel 16, changing to 6 when the ship will be told whether to anchor in the waiting area or remain under weigh until the Pilot boards.

Pilotage: The Pilot boards from a launch by means of the accommodation ladder (which should be lowered to within 3 ft. of the water) and takes the ship to her designated anchorage in Suez Bay.

Arrival Formalities: Quarantine and Customs authorities (about 8 people) board the ship at the anchorage together with the Agent. The accommodation ladder is used for all boarding and disembarkation within the canal. It should be raised when not actually in use otherwise the ship will be boarded by numerous "Businessmen".

A list of forms required is listed below but there are others which the various authorities bring with them and some are presented for filling in more than once and by different officials. This ship's transit was delayed because the Agents had not received funds from London. Deck log books for the past six months have to be landed.

The Suez Canal Cargo Declaration Form (in duplicate) is handed to the Pilot who disembarks at Ismailia.

At Anchor: With 3 shackles out, this ship lay comfortably at A8 berth. Some difficulty, however, was found in reconciling the various anchor bearings with the chart.

A bumboatman will seek permission to set up shop aboard. Care should be taken to agree methods of payment beforehand.

A listening watch should be kept for Suez Control on Channel 6. Water can be ordered through the Control and will be delivered in a large water boat carrying about 300–400 tonnes. Rate of delivery is about 50 t.p.h.

Convoy lists are made out at about 0300 hrs. and ships can call Suez Control soon after that to learn their convoy number and time of Pilot boarding. Convoys can start as early as 0500 hrs. This vessel was number 10 and hove up at 0830 hrs. Our searchlight was brought out at 1700 hrs. and the boats at 0500 hrs. We were asked to carry 4 extra boats but Pilots advise against this as the time taken to unload 6 boats can cause delay at the other end of the canal.

Transit: There seems to be no change in the transit of the canal. The Pilots change at Ismailia. The convoys cross in the Great Bitter Lake, anchoring as necessary. There is now one convoy from each end every day.

A Harbour Pilot takes over on reaching Port Said and, as soon as the searchlight and boats have been off-loaded and the ship has entered the approach channel, he disembarks.

The Agent will board at Port Said with yet another form to be filled in and he will return the log books.

Documentation:

2 Health Forms (Egyptian)
1 Passport Form (Egyptian)
1 D.B. Tank Statement (Egyptian)
1 Radio Frequencies Form
2 Cargo Declarations
*4 Cargo Manifests
8 Crew Lists

Plus several others which will be produced by the various officials.

*It was explained that our company's vessels do not carry cargo manifests but the Agent said that a typed statement of the amount of cargo aboard, destination and where loaded would suffice.

SHIPMASTER'S REPORT No. 2: *Suez Canal Transit (South/North) – (1976)*

After clearing Aden a radio message was sent to the Port Authorities Suez via Port Said Radio advising them of the following:—

Ship's name and flag.
Whether desire transit.
Destination and last port.
Cargo aboard total tonnage and type of cargo.
Whether dangerous or explosive cargo carried.
Draft.
British tonnages gross and nett.
Date Suez Canal Certificate issued.
Tonnages gross and nett from Suez Canal Certificate.
Advice as to whether searchlight required.
ETA's 23° North Straits of Gubal Suez.

During the passage in the Red Sea both Port Authorities and Agents received up-dated ETA messages. When using SUK radio to give up-dated ETA this station advised that a cable was necessary to be sent to Port Authorities Port Safaga via SUK giving ETA Strait of Gubal.

Navigation in the Red Sea does not seem to be any different from the past. The Traffic separation scheme in the Straits of Bab El Mandeb seems satisfactory.

Straits of Gubal and passage in the Gulf of Suez was in daylight. Especially in the Straits of Gubal very few seem to adhere to any form of traffic separation scheme. There is no doubt that if it were night time or poor visibility then it would be advisable to be on 'Stand-by'. There is now an oil rig 27° 57′ N., 38° 41.2′ E., or 349°, 5.7 miles from Ashrafi Lt. Ho.

The Ramadan and July Oil Field area has many oil supply ships, most of the Southbound traffic was met in the Straits of Gubal thus further North it was very quiet.

The ship was anchored in the waiting area South of Newport Rock but alas this area shown as being to the East of the 2 green flash buoys is *now wrong!* The waiting area is to the S.E. of the most Southern Green flash buoy. About 1 mile South of the previous position. Evidently there is shoaling in the old area and ships have grounded.

On arrival at the waiting area the ship had to anchor as the Southbound convoy was clearing. A tug with Pilot Signal closed the ship to ask for information with regard to tonnages, cargo etc. After first vocal contact Channel 6 VHF was used. The ship was not called up by lamp nor did the Port Control answer any VHF requests etc. It would seem that if the Tug is on station advice is received from there. They did not, however, attempt to advise the ship that the waiting area had been altered.

As the ship anchored a boat came alongside with two watchmen but as I had not requested these and the visitors had not boarded they were sent ashore.

Later a Pilot boarded via the accommodation ladder to shift the ship from the waiting area to a designated anchorage, in our case '1B'. Ship was anchored in '1B' by 0030 hrs. on 12th, having arrived at the waiting area at 1947 hrs. on the 11th.

As the ship had some essential repairs to the main engine which would only take a short time, engines were immobilised. Pilot had advised that 0800 hrs. would be earliest time for transit. During the middle watch the area was hit by a fierce short lived blow from a Southerly direction. Although the vessel did not drag, ships close by did. It was necessary to pay out more cable to ensure a bulk carrier cleared us comfortably. During this time a ship called Port Control to say they had dragged some 3 to 5 cables.

As the weather for some 3 hours was considered bad for small boats the first of the visitors did not board until 0515 hrs.

The Canal Surveyor, who was the first to board was quite helpful and pleasant. He took the Suez Canal Tonnage Certificate for verification as the ship was making a first transit. This I have been informed will be returned to the Company in about 2 months.

Later other officials boarded about 0700 hrs. The Agent also came off with the mail. The 2 electricians for the searchlight insisted on being given a cabin or they would not remain on board. As there was no spare cabin, except one in the crew accommodation, I endeavoured to explain that a reasonable shelter had been built on the after end of No. 2 hatch. It transpired that in the end I moved a patient who had tonsilitis out of the hospital. Later the Canal Pilot informed me that the electricians cannot be so demanding provided a reasonable shelter is provided.

Documentation was found to be as advised in the report above. One small difference is that the Cargo Declaration form is only required as 1 copy and is now in English with one form for South to North ship's and another for North to South ships.

At the moment there is only the 1 convoy each way per day. Hours of commencing transit seem a little doubtful. I gather that first Southbound ship leaves Port Said at 0200 hrs. while the first Northbound ship now leaves Suez at 0800 hrs.

Searchlight and 2 boats were brought alongside and loaded in ample time prior to the Canal Pilot boarding at 0909 hrs. I gather that because of the 'bad' weather for those few hours the delivery of searchlights and boats was delayed. Also no advice was obtainable on the VHF after 0300 hrs. with regard to convoy number or time of proceeding. About 20 minutes notice was given over the VHF.

The Transit was quite straight forward. Ship was anchored in the North Anchorage, Bitter Lakes for 3.5 hours, the Southbound convoy passing. Transit was commenced at 0947 hrs. At Ismailia the Pilot changed. He took the Cargo Declaration with him.

Port Said was reached at 0033 hrs. on the 13th. The Sea Pilot boarded here as did the Agents who returned the Ship's Register and Log Books which had been landed at Suez. The ship had to keep moving while the boats and searchlight and personnel were either off-loaded or disembarked. At night this is not easy and the whole crew are required to ensure a safe and quick operation. Once these matters were completed the Sea Pilot left well within the breakwater. Accommodation ladder was used at all times for Pilots, Officials and Agents boarding and disembarking. Fairway Buoy was abeam at 0148 hrs. on the 13th.

On the Eastern Banks of the Canal there is much work being done with levelling ground and widening the canal. Also in the Little Bitter Lake. *According to the Pilot 2 convoys from North will be put into operation in about 1 month.*

SHIPMASTER'S REPORT: September 1979.

The Pilot advises that vessels anchoring further South than the 0.5 mile limit South of No. 1 buoy at Suez may not receive Pilot.

NOTICES: Issued by Canal Shipping Agencies Co. on behalf of The Suez Canal Authority.

No. 74/78: Kindly advise Shipowners, that we deem it necessary that vessels transiting the Canal keep their funnels floodlit to facilitate identifying and serving same. It is also necessary that they be equipped with flood lights on both sides of the bridge, so that both sides of the canal banks can be clearly seen during mooring.

No. 4/79: Please advise Shipowners and Masters that any vessel which enters or leaves or changes berth at Port Said or at the Authority's docks at Port Tewfik and changes berth at Bitter Lakes without using the Pilot's service, shall pay an additional due of £3,600. Likewise, an additional due of £15,000 – shall be paid by any vessel which enters the Canal from Port Said, Port Tewfik, Bitter Lakes or Lake Timsah, or makes any movement in the Canal without using the Pilot's service, with the exception of the case specified in the last paragraph of Article 17 of the Rules of Navigation, 1977 Edition.

The foregoing shall come into force as from the 1st January, 1979 without prejudice to the provisions of Article 11 of Law No. 161/59 regarding pilotage in the Port of Suez, and the dues in question shall be payable in the same kind of currency in which settlement is effected.

No. 6/79: Please advise owners of vessels consigned to your Agency to instruct Masters of ships arriving at Port Said or Port Tewfik to wire the meteorological information to the Harbour Office (Suez Canal Authority) of each of the said ports via VHF or (2182 – kHz).

No. 26/79: We append hereunder free translation of Circular No. 3/3A3-428467 received from the Suez Canal Authority, Traffic Department Ismailia, dated 25th March, 1979 which reads as follows:–

With reference to the second paragraph of our Circular Letter No. 3/3A-3/428231 dated 28.11.1978 kindly advise Owners that the meaning of *flood lights* is one *bridge wing projector (searchlight)* to be fitted to each of the 2 sides of the bridge so that both sides of canal banks can be clearly seen during mooring.

(Our Circular No. 74/78 above dated 23rd December, 1978 refers).

No. 31/79: Please advise Shipowners that the new mooring motor boats weight 3 (three) tons each, and it is therefore essential that vessels be equipped with derricks not less than 5 (five) tons capacity.

No. 44/79: Further to our Circular No. 4/79 above dated 8th January, 1979, we append hereunder free translation of a letter received from the Transit Section, Suez Canal Authority, Port Said, dated 9th September, 1979, which reads as follows:

"Please advise Shipowners and Masters that vessels are not allowed to move within the Suez Canal waters without using the Pilots' service to avoid imposing fine on them".

Kindly advise Masters of your fleet to be guided accordingly.

No. 47/79: It has come to our knowledge that some persons commit certain illegal or unrighteous actions on board vessels in our port.

It is, therefore, deemed necessary to invite the kind attention of Owners and Masters to the fact that every person authorised to deal with vessels, including members of our Company's staff, should bear the official Red Identification Card issued by the Port's Security Administration.

Masters of vessels are kindly requested to peruse these cards with a view to dealing only with authorised persons and avoiding outsiders who should not be allowed to board vessels as long as they do not hold the said card.

Adhering to the above procedure will, of course, serve all purposes and will prove to be for the interest of all concerned.

No. 48/79: "Further to our Circular No. 5/3A – 429131 dated 10.6.1979 (see No. 31/79 above) concerning the necessity of equipping vessels with derricks of a capacity not less than 5 tons each, and in reply to various enquiries received from the Owners in this respect, we shall be glad if you will kindly advise Shipowners that we came to an agreement with the mooring company as follows:–

In case the capacity of the vessel's derricks is less than 5 tons, Master should advise either the mooring company through his Agents, or the Suez Canal Authority, Harbour Office, upon his arrival at either of the Canal Ports in order to supply the ship with suitable mooring boats from the Canal Mooring Company.

These vessels are required to have their lifeboats in constant readiness for mooring and unmooring operations in case the Canal Mooring Company is unable to provide them with the required mooring boats. These lifeboats will be manned by shore crew from the mooring company in accordance with Remark (1) Article 9, Para 2 of the Canal Rules of Navigation.

The Canal Mooring Company have declared that the new mooring boats weigh 3 tons each in accordance with the specifications from Expert Bureau and needs derricks not less than 5 tons capacity".

Kindly be guided accordingly.

No. 53/79: With a view to facilitating rendering services required by vessels on arrival at either Port Said or Suez, Masters are kindly requested to include in their arrival cable advice to their Agents at the said ports, their requirements of provisions, water, repairs and any other marine service such as laundry, garbage boats, etc.

Complying with the above will no doubt accelerate the services required on arrival.

No. 52/79: We are informed by the Canal Mooring and Light Company that complaints have been received from mooring sailors that some ships use wire lashing ropes in mooring operations, which fact results in the delay of the vessel's departure due to the impossibility of releasing the ropes in question upon carrying out the unmooring operations.

Such procedure formulates a contravention under the provisions of Article 9, Para (2), of the Suez Canal Authority's Rules of Navigation, January 1977 Edition, which stipulates that at least 6 flexible floating mooring ropes (manilla, hemp, etc.) in good condition must be in readiness at suitable points on deck in case it should be necessary to make fast in the Canal, and all arrangements must be made for their quick handling. It also states that the use of synthetic mooring ropes, able to produce sparks by their manipulation is absolutely forbidden on board petroleum tankers and LPG or LNG or any vessel carrying inflammable substances.

Therefore, we shall be glad if you will kindly advise Shipowners and Masters of vessels that wire lashing ropes should not be used in mooring their vessels.

AUTHORITIES: The Suez Canal Authority is the Authority governing Port Said harbour as well as Suez Bay.

AGENCY: As far as reception of ships and their transit of the Suez Canal. The Suez Canal Shipping Agencies Company is responsible for shipping companies in Canal Zone, Suez Gulf and A.R.E. Red Sea ports, through 4 branches at Port Said for each of which there is a branch at Suez and 1 in Cairo. Their names are:

Canal Shipping Agencies Company, Port Said. 26 Palestine Street, P.O. Box 262. Telephones: 8164/65 – 8174–8602/4. Telegrams: CANASHIP. Telex: 92275 AGEN UN.

Branches:

Assut Shipping Agency, Port Said. 9 Mostafa Kamel Street, P.O. Box 128, Telegrams: ASSIUSHIP. Telex: 54262 ASUT UN. Telephones: 2722, 8070.

Asswan Shipping Agency, Port Said. 7 El Goumhouria Street, P.O. Bag. Telegrams: SWANA. Telex: 54261 SWAN UN. Telephones: 3194, 3195, 3196, 3521/23.

Damanhour Shipping Agency, Port Said, 40 El Goumhouria Street, P.O. Box 126. Telegrams: DAMANSHIP. Telex: 54264 DAMA UN. Telephones: 2951/53–3014, 3024, 3027.

Assiut Shipping Agency, Suez, 1 Abdel Khalek Street, Abou Ghabban Building. Telegrams: ASSIUSHIP.Telex: 54187 SUAG UN (Attention ASSIUSHIP). Telephones: 2790, 3025.

Asswan Shipping Agency, Port Tewfik (Suez), 1 El Gueish Street, P.O. Box 4. Telegrams: SWANA. Telex: 54187 SUAG UN (Attention SWANA). Telephones: 2074, 2149, 3216.

Damanhour Shipping Agency, Suez, 66 Adly Yakan Street, P.O.Box 4. Telegrams: DAMANSHIP. Telex: 54187 SUAG UN (Attention DAMANSHIP). Telephones: 2061, 3176, 3009.

El Menia Shipping Agency, Port Said, 31 El Goumhouria Street, P.O. Box 328 & 130. Telegrams: MINSHIP. Telex: 54263 MENI UN. Telephone: 8672/74.

El Menia Shipping Agency, Suez, 66 Adly Yakan Street, P.O. Box 4.

Telegrams: MINSHIP. Telex: 54187 SUAG UN (Attention MINSHIP). Telephones: 2639–3085.

Cairo Shipping Agency, Cairo. 7 Abdel Khalek Tharwat Street, P.O. Box 468. Telegrams: MARAGENT. Telex: 92673 MARG UN. Telephones: 977823, 977826, 932368.

Offices at Safaga, Kosseir and Ras Gharib:
Telegrams: CANASHIP. Telephones: Safaga 10, Kosseir 14, Ras Gharib 71.

N.B.: Safaga, Kosseir and Ras Gharib to be contacted via Kosseir Radio around the clock.

Port Said offices to be contacted via Alexandria or Port Said Radio around the clock.

Suez offices to be contacted via Alexandria or Port Said Radio around the clock.

WADI FIRAN: 28.44 N. 33.13 E.

An open anchorage on Sinai coast in the Gulf of Suez about 85 nautical miles South of Suez.

There are 6 large and conspicuous storage tanks in 2 parallel rows of 3 tanks each lined on shore near the pumping station and painted with aluminium.

PILOTAGE: Pilot boards each tanker at anchorage.

BERTHING: Tankers must approach berth from West, never from North, and must follow same track on their departure to be entirely clear of shallow water. Tankers at berth will be connected to shore pumping station by submarine telephone cable. Mooring and unmooring operations normally take place in daylight.

	Pier No. 1	*Pier No. 2*	*Pier No. 3*
LOA (ft.)	650	950	1,200
Beam (ft.)		No restrictions

Three tankers can moor simultaneously but only one may load.

AUTHORITY: Cie. Oriental des Petroles d'Egypt.

NOTES

Please also advise Shipping Guides Ltd.

El Salvador

ACAJUTLA: 13.35 N. 89.52 W. (See Plan Book)

DOCUMENTS:

1 Clearance from last port.
6 Voyage Memorandum.
6 Crew List.
6 Disembarking Passengers' List (local passengers list).
6 Transit Passenger List.
6 Store List.
1 L.P. International Health Certificate No. 1 and 2.
16 Copies of the Manifests.
2 Copies of Bill of Lading.
4 Cargo Distribution List.
16 Tally Books.
2 Mail List.

Agent distributes all papers. Agent also supplies list of papers for next port.

Bond sealed. Shop sealed.

PILOTAGE: Compulsory. *(a)* Vessels requiring Pilot use International Code Signals. *(b)* Pilot boards vessel at a distance between 1 and 2 km. from the port, where vessel should wait with engine running. *(c)* Pilot ladder required for boarding. *(d)* Gangway ladders should be raised and folded, derricks and cranes inside, anchors ready for berthing. Pilot is equipped with walkie-talkie for communicating with tugs.

ANCHORAGE: There is no specific anchorage area. Pilot meets vessel and immediately proceeds alongside. If there are no berths available, the vessel may anchor anywhere outside the dock.

MAX. SIZE:

Berth	*Max. Draft*	*Vessel Length*	*Depth at MLW*
A–1	9 m.	152 m.	10 m.
A–2	10 m.	183 m.	12 m.
B–3	9 m.	152 m.	10 m.
B–4	10 m.	198 m.	12 m.
B–5	9 m.	152 m.	10 m.
B–6	9 m.	152 m.	10 m.
C–7	12 m.	128 m.	13.7 m.
C–8	12 m.	128 m.	13.7 m.

Tankers: At the sea-line berth, max. draft 12 m. and max. length 213 m.

HEALTH: If there is any suspicion of illness aboard, Captain has to inform by radio 24 hours in advance, indicating nature of disease and all details. On arrival, vessel should anchor with yellow flag hoisted, to wait for the doctor of the port.

RADIO: There is no special key for calling. Port VHF service is open 24 hours a day. Contact through Channels 16 and 27.

Channel 27 receives on 157.35 mHz and transmits at 161.95 kHz. Business and operation.

Channel 16, 156.8 mHz ship calling and Safety. Channel 14, working.

TUGS: Tow lines not usually used; if necessary the tug lines will be used, and their charge included in the whole service.

Three tugs, available, one 800 h.p., one 1,200 h.p., one 1,800 h.p. Tugs meet the vessels off the dock.

BERTHING: Vessels can berth in safety at any time, day or night.

In the case of cargo vessels it should be stressed that the swell experienced alongside is sometimes a serious problem and Masters would be well advised to make use of the shore lines offered on hire to save undue wear and tear on their moorings.

There are 2 piers: the first one called "A" consists of a breakwater mole 763 m. long. The access mole runs for approximately 400 m. and has a free width of 7 m. The pierhead which is 37 m. wide and 310 m. long, includes a combined breakwater, a mooring dock (2 berth capacity) and a transit shed. This pier can handle general and liquid cargo.

At the end of this pier head is constructed a breakwater in a N.W. direction in line with the existing pier for a distance of 35 m., then direction is changed to the North with an angle of 30° and extend 270 m. with a width of 18 m. This breakwater offers 2 berths (C-7 & C-8) capable of handling liquid and general cargo.

The second pier called "B" (4 berth capacity) is 360 m. long and has a free width of 28 m. Products handled in this pier, general and bulk cargo.

MEDICAL: There are doctors in the port who attend normal cases and specialists and hospitals in Sonsonate City at 20 km. (by road) and in San Salvador, capital of the Republic, 85 km. from the port.

DEVELOPMENTS: CEPA intends to develop the port to provide adequate facilities for the handling of containers in order to attend the further increase in the country's foreign trade and particularly to make provisions for the development of containerised berths in Central America.

TANKERS: Moorings at RASA (Refineria de Acajutla Sociedad Anonima). This refinery is the property of Esso Standard Oil and Shell Petroleum Company.

Buoy Berth: Depth of water is about 15 m. Diameter of buoy lines, 2 of 25 cm. for clean products and one of 75 cm. for crude oil and fuel oil. There are no facilities for residue discharge.

STEVEDORES: Must be ordered 24 hours before arrival by Agent, confirmation by radio-telephone as to the number of gangs needed is always convenient.

A line handling gang is always standing by, this gang also attends gangway. No charge for this service.

Stevedores are available for nightwork.

DENSITY: Salt water.

FRESH WATER: Delivered by hoses. Rate approximately 40 t.p.h., cost US$1.60 per metric ton.

FUEL: Possible to supply diesel and Bunker "C" only in limited quantities, delivered by lorries. Viscosities: Bunker "C" 175 sec. Saybolt furol. Diesel 40 sec. Saybolt universal.

FIRE PRECAUTIONS: Inspection of hoses; no smoking; not allowed to solder or light any kind of fire; isolation of the place of loading and discharging operations; fire equipment to be ready.

GANGWAY/DECK WATCHMEN: This service is done by the port staff free of charge.

OPENING/CLOSING HATCHES: This work is carried out by stevedores.

SHIP CERTIFICATES:

Vessel has to carry the Ship's Register (showing the registered tonnage).

Derat. Certificate.

CUSTOMS ALLOWANCES: Customs allow to take out of the vessel only tobacco for personal use. Not allowed to take any wine or spirits out of the vessel.

CARGO GEAR: Ship's gear used, equipment has to be in good state with certificates showing capacity and safety.

IDENTIFICATION CARDS: Not required, but each member of crew has to be in possession of a valid passport.

CONSULS: British Consul. In Sonsonate City there is the Consul of Guatemala Republic, tel. 51-0739, and in San Salvador City are Consulates for most countries.

REPAIRS: Possible to do minor engine and deck repairs. Other repairs can be carried out in San Salvador City. Any repairs that will delay sailing of vessels cannot be done without previous and specific authorisation of the manager of the port.

REPATRIATION: There are facilities for repatriation.

AIRPORT: There is an airport served by regular airlines in Comalapa at 134 kms. from this port (by road).

TIME: No alterations in time during the year; local time is GMT minus 6 hours.

HOLIDAYS: 1st January, Maundy Thursday, Good Friday and Saturday, 1st May, 10th May, 6th August, 15th September, 2nd November, 25th December; the port stops working only on 1st January, Good Friday and 25th December.

POLICE/AMBULANCE/FIRE: National Police (Sonsonate) tel. 51-0838; Ambulance (Sonsonate) tel. 51-0589; Fire (CEPA, Acajutla) tel. 52-3000.

TELEPHONES: No possibilities to install telephones aboard.

GENERAL: Quarantine authorities pay strict attention to the meat on board and its residuum to prevent fever and it is forbidden to remove any kind of meat from the vessel. Berthed vessels need, in case of swell, special hawsers and wires provided by the port, and charged to vessel.

Hire of these lines is US$1.50 each one and for every 1,000 g.r.t.

SERVICES: No facilities to discharge tank-washings.

SHORE LEAVE: Members of the crew are allowed to go ashore.

DELAYS: There are no delays for mooring, loading and discharging. Refuelling bunkers operates slower than normal loading and discharging.

SHIPMASTER'S REPORT: November 1979.

Port Limits: No port limits stated.

Documents:

Clearance from last port.
5 Crew Lists.
4 Voyage Memorandums.
4 Store Lists.
4 Passenger Lists, (negative required).
1 Ship's Health Declaration.

Manifests prepared by the Agent:

2 Copies for the Customs.
1 Copy for the Port Captain.
1 Copy for Quarantine Inspector.
16 Copies for the Stevedores.

Customs seal the spirits and tobacco, but not the beer. No private declarations required.

Boarding party of about 8 persons board the vessel with the Agent who will attend to documents and other needs of Officials.

Pilotage: Pilotage is compulsory, Pilot boards vessel up to 3 miles from "A" Pier.

Restrictions: Vessels can berth any time day or night, main engines should always be on short notice, due to swell at berths, as moorings often part. Vessels are advised to make use of extra shore moorings provided, these can be requested via the Agent.

The least depth at the berths is 30 ft.

Max. Size: "C" Pier (outer berth) has 46 ft. of water alongside and can take vessels of up to 40,000 d.w.t., it is well fendered. General cargo and liquid cargo can be handled at this berth.

Health: Standard Health message to be sent to Agents who will make the necessary arrangements, every vessel coming in should fly the "Q" flag, this is to avoid fines.

Radio: Advise ETA to Agents at San Salvador 96, 48, 24 and 12 hours before arrival. For Telex messages use "WLO" Mobile. For W/T messages use "KSF" San Francisco.

For Port Control use VHF Channels 16 and 27. (Range 40 miles). Hours of operation 24 hours. Call sign: "Acajutla Tower" also R/T on 2182, 2163 and 2169 kHz. Tugs work on 2182, 2163, 2196, 2638 and 2738 kHz.

Radar: There is no Port Radar service.

Tugs: There are three tugs available with the following power: 800 h.p., 1,200 h.p. and 1,800 h.p. Tug's lines are used at no extra charge.

Stevedores: Arranged by the Agents, and based on information passed in ETA advise, vessels arriving from New Zealand may well be at the port before the cargo plans arrive. Stevedores work round the clock.

Medical: Doctor available but nearest hospital 13 miles away, Doctor will board the vessel, advise the Agents before arrival.

Density: Observed density 1025.

Fresh Water: Available at about 20 t.p.h.

Fuel: Only available in emergency.

Provisions: Limited quantity available, 24 hours notice required.

Berthing:

Pier	*Berth No.*	*Depth* (m.)	*Remarks*
"A"	1	10.0	General cargo, 2×3 ton cranes. Liquid cargo (Berth No. 1)
	2	12.0	
"B"	3	9.1	General cargo, bulk cargo. 25 ton crane on Pier "B".
	4	9.1	
	5	9.1	
	6	9.1	
"C"	7	14.0	General cargo, liquid cargo No cranes available.
	8	14.0	

Fire Precautions: Tugs have fire fighting equipment on board. As no phones on board, contact can be made on VHF with "Acajutla Tower".
Consuls: British Vice-Consul at Sansonate 14 miles away from the port.
Repairs: Minor repairs only possible.
Dry Dock: No dry dock available.
Surveyors: Arie Van-Helden (Lloyds Agents only), San Miguel, Cutuco, La Union.
Gangway/Deck Watchmen: Shore gangway available and recommended due to swell at the port, full deck patrol necessary during night time.
Hatches: For safety it is better to open and close the hatches with the ship's crew, which is allowed at this port.
Cargo Gear: Ship's gear and shore cranes used depending on which berth the vessel at.

There are no Reefer points ashore. There are no Tower Units ashore. Containers can be landed on Flats. Fork Lift trucks are well maintained.
Repatriation: Not advisable from this port.
Airport: Ilopango Airport is 8 miles from San Salvador, flights from this airport connect with international flights at Mexico City.

There are three flights a week from Mexico City to London.
Holidays: December 25th, January 1st, also Special Holiday for this region being August 5th and 6th. (From 1500 hrs. 5th to 1900 hrs. on the 6th).
Police/Ambulance/Fire: This is covered by the Agent who remains on board all the time the vessel is in port, the Agent will require a room to live in whilst he remains on board.
Services: No special services available.
Shore Leave: Permitted.
Identification Cards: Not required, but Crew Members are advised to carry some means of identification.
Regulations: No unusual regulations.
Delays: Vessels have to leave the berth due to swell, this decision is left to the Master of the ship.
General: Vessels alongside the berth, move quite a lot, but the shore fenders are well maintained. Stevedores will unpack containers on board the vessel.
AUTHORITY: Comision Ejecutiva Portuaria Autonoma (CEPA).

LA LIBERTAD: 13.29 N. 89.19 W.

CLOSED TO CARGO VESSELS SINCE MAY 1976

DOCUMENTS: Required:
By Port Captaincy
Clearance from last port called.
2 Crew Lists.
1 Store List.
1 Passengers List. In case passengers disembarking, passports to be countersigned by the migration delegate have to be shown.
1 Voyage Memorandum.
1 Manifest of Cargo from each port.
By doctor delegate of health
Health Certificate.
1 Voyage Memorandum.
By quarantine delegate
Voyage Memorandum.
Crew List.
Cargo Manifest, one for each port.
By CEPA delegate
Voyage Memorandum.
Crew List.
2 Store Lists.
Cargo Manifest (5 copies).
Tally Books for cargo.
Number of tons of diesel on board.
Number of tons of water.
By Customs delegate
Voyage Memorandum.
1 Crew List.
Passenger List.
Store List.
Cargo Manifests countersigned by the Consuls each port of origin and 7 more copies for each one.

PILOTAGE: Vessels requiring a Pilot use International Code signals. No official pilot service.
ANCHORAGE: Depths of 60 ft. available. Vessels can anchor at a minimum distance of 1 km. from the quay. All dry cargo vessels work cargo at the anchorage. No quay berths available.
HEALTH: On arrival vessel should anchor and wait visit of Port Authorities. Any suspected diseases should be notified 24 hours in advance.
RADIO: VHF Service with transmission and receiving frequency of 27.075 mHz. In the dock the set is 100 watts AM, transmitter/receiver by 3 Channels:
Channel 1, 2163 kHz calling the tugboats.
Channel 2, 2182 kHz calling and Safety.
Channel 3, 2196 kHz calling the ships.

In the tugs, the sets are 60 watts AM, transmitter/receiver by 5 Channels:
Channel 1, 2163 kHz calling the dock.
Channel 2, 2182 kHz calling and Safety.
Channel 3, 2196 kHz calling the ships.
Channel 4, 2638 kHz calling the ships.
Channel 5, 2738 kHz calling the ships.

The following set is a monitor to receive emergency calls: 2163 and 2196 kHz.
TUGS: No tugs required or available.
STEVEDORES: 24 hours notice required to arrange gangs and barges.
MEDICAL: Inform Agent as soon as possible to arrange a medical visit. The port has doctors to attend normal cases, and there are specialists and hospitals in San Salvador (capital of the Republic) at 35 km. by road from this port.
TANKERS: At Esso Standard Oil, S.A. terminal, vessels anchor and moor to 3 buoys about 900 yards S.E. of the shore and about 1,000 yards S.S.W. of the pier. Pipe-line extends from La Puntilla in a S.E. direction. Two pipe-lines for discharging products to Esso Standard Oil, S.A. The end of each pipe-line is marked by a metallic buoy, the cargo hoses for No. 1 and No. 2 pipe-lines are connected by separate chain to a "Spreader" which by single chain is attached to a metallic marker buoy. On the "Spreader" there is marked, by welding, 1 and 11 where the chains are attached, indicating what pipe-line they are connected to. Ship's crew is used in connecting and disconnecting cargo hoses.

Vessels should moor only on high water during daylight hours; however, they may unmoor day or night. Launch available for mooring and running lines. Approach is made from the Eastward on a true course 270°, a marker buoy is placed temporarily at a distance of 700 ft. seaward from end of pipe-lines to guide vessel in mooring operations. The marker buoy should be passed on the inside at a distance of 50 ft. Port anchor should be dropped first when the end of the pier is in true bearing 006°. When about 7 shots of chain have run out, the starboard anchor should be dropped. The stern of vessel will swing or may be worked to Northward (starboard). A mooring line should be run to the port stern buoy from port side assisting in swinging the vessel into position. Vessel should tie up securely with 3 lines to each buoy, and anchor spread 60° with 60/76 fathoms of chain on each. The eyes of all lines to buoys should be well protected to prevent chafing on the buoys. When in position, the pipe-line hose buoy is taken on board at the starboard side.
DENSITY: Salt water.
FRESH WATER: Not available.
FUEL: Not available.
GANGWAY/DECK WATCHMEN: There is a service of watchmen provided by Customs.
OPENING/CLOSING HATCHES: Carried out by stevedores.
SHIP CERTIFICATES:
Ship's Register.
Deratisation Certificate.
International Health Certificates required.

CUSTOMS ALLOWANCES: Only tobacco for personal consumption may be taken ashore. No wine or spirits to be taken ashore.
CARGO GEAR: Vessels' cargo gear to be in good condition with certificates of capacity and safety.
IDENTIFICATION CARDS: Not required if crew members possess passports.
CONSULS: In the capital, San Salvador, 35 km. from the port, there are consulates for most countries.
REPAIRS: It is not possible to have repairs.
REPATRIATION: Facilities available.
AIRPORT: There is an International airport served by regular airlines in San Salvador, distance approximately 46 kms. from the port.
TIME: GMT minus 6 hours. No alteration.
HOLIDAYS: Festivals: Saturday of the Holy week, 14th April, 10th May, 22nd June, Corpus Christi, 5th August, 12th October, 24th October, 5th November, 7th December, 24th December, 31st December. Legal holidays: 1st January, Maundy Thursday and Good Friday, 1st May, 6th August, 15th September, 2nd November, 8th December, 25th December. The port is only completely out of work on the following days: 1st January, Good Friday and 25th December.
POLICE/AMBULANCE/FIRE: National Police (La Libertad), 35-3175; Ambulance (San Salvador), 21-9406; Fire (San Salvador), 21-8661.
TELEPHONE: It is not possible to place telephones on board.
GENERAL: Quarantine Authorities prohibit removal of meat from the vessel.
SHORE LEAVE: Crew is allowed to go ashore.
AUTHORITY: Comision Ejecutiva Portuaria Autonoma (CEPA).

LA UNION (Cutuco): 13.20 N. 89.50 W.

(See Plan Book)

DOCUMENTS: See "Acajutla".
PILOTAGE: Obtained usually through Agent, can be cable-requested to Port Captain-La Union. Fenadesal has availability to dock and undock vessels any time required.
ANCHORAGE: La Union Bay – up to 34 ft. Approximately 14 Class II and a large number of Class III anchorage berths are available in the harbour. 5 Class II berths are in the vicinity of the pier in depths of 33 ft.

to 30 ft., and approximately 9 more, in depths of 70 to 30 ft., are just Westward of Isla Zacatillo. The first area has a mud bottom; the second is sandy and rocky. The large number of Class III berths are in an area Northward of the pier and in the area between the 2 anchorages providing Class II berths. The least depth in each of the areas is 25 ft. A large number of relatively unsheltered anchorage berths of all classes are available outside the harbour in the Gulf of Fonseca.

RESTRICTIONS: Enter any time – preferable on flood tide with draft over 24 ft.

MAX. SIZE: Largest vessel that can be accommodated in harbour would occupy an anchorage berth with a min. depth of 43 ft. and a diameter of 3,300 ft. Largest vessel that can be accommodated alongside wharf would occupy a berth with least depth of 25 ft.; length is not a limiting factor, although a max. 550 ft. is recommended due to strong currents, 3–4 knots, and pressure on part of any vessel extending for any greater distance beyond length of wharf.

HEALTH: Disease should be reported. Pratique necessary on each occasion.

RADIO: Direct to Agents or Fenadesal, Telex 20–194, Area 301, San Salvador.

TUGS: No tugs required.

BERTHING: Berthing usually carried out on slack tides due to cross currents, up to 3–4 knots. The estimated military port capacity is 1,800 tons of general cargo per day. Port can accommodate 2 standard-type ocean-going cargo vessels, and possibly one alternative class T/C (small ocean-type tanker under favourable conditions) alongside berths, and approximately 14 ocean-type cargo vessels, and a large number of Class III (coaster-type cargo vessels) at anchorage berths. Roll-on/roll-off pier, depth alongside 16 ft. LW.

STEVEDORES: Prior advice preferable. Stevedore force consists of 12 gangs of up to 16 men per gang for on-board work. Similar gangs are available on pier, and up to 300 labourers, crane and fork-lift operators comprise shore gangs.

MEDICAL: Services available – no special restrictions.

TANKERS: Drafts 25/34 ft. fore and aft. Tankers of up to 550 ft. in length can be accommodated at either side of pier, where adequate connections of 6–8 in. and 10 in. pipe-lines are located. Largest vessel that can be accommodated alongside would occupy a berth with a least depth of 25 ft.; length is not a limiting factor, except as noted previously.

FRESH WATER: Four 2 in. connections on each side; volume estimated at 10 t.p.h

FUEL: Bunkers and diesel – can be delivered when berthed.

GANGWAY/DECK WATCHMEN: Not required – National Marines on guard.

OPENING/CLOSING HATCHES: Carried out by stevedores.

CUSTOMS ALLOWANCE: Not controlled, but restricted ashore.

IDENTIFICATION CARDS: Passes for leaving ship to have Captain's signature.

CONSULS: Only Nicaragua is represented.

REPAIRS: No facilities.

REPATRIATION: Can be arranged.

AIRPORT: "El Salvador", 102 miles away in the "Comalapa's Valley".

TIME: GMT minus 6 hours. No alterations.

HOLIDAYS: Easter Thursday, Good Friday. Port not worked only on those dates.

POLICE/AMBULANCE/FIRE: In La Union – Close to the Port.

TELEPHONES: Available.

SHORE LEAVE: Allowed.

AUTHORITY: Ferrocarriles Nacionales de El Salvador (Fenadesal).

NOTES

Please also advise Shipping Guides Ltd.

Equatorial Guinea

BATA: 01.52 N. 09.46 E. (See Plan Book.)

SHIPMASTER'S REPORT

Roadstead with single point mooring buoy connected to the shore with 6 in. pipe-line, 6 in. hose: (everything in a deplorable state). No tugs or Pilots available. Master should have local knowledge when approaching berth in hours of darkness. Vessels are moored with 2 anchors forward and 2 ship's lines (plus two 8 in. shore lines) to the single point mooring buoy. 5 lengths of 15 m. hose available. Preferable stern discharge connection to be used. Max. pressure: 4 kg/sq.cm. All grades through this line. Linewash of water in between the different grades. There is rubber ball for cargo separation.

Advice: 1. In view of the deplorable state of buoy, lines and hose, Master should be very careful in mooring his vessel – which has to be done by himself – in order not to damage same.

2. Master should have ship's motorboat ready to run ship's lines to the buoy because motor launch, which is supposed to do this is very old and liable to breakdown at a crucial moment.

3. Anchors should be dropped in a position S.W. of the buoy in order to stay well clear of the unmarked wrecks, in good holding ground with 4 to 5 lengths of chain.

4. Tidal currents move the ship relative to the mooring buoy – so it is necessary to heave anchors tight – bearing in mind that the construction, etc. of the buoy is very weak.

5. The buoy carries a light but the light does not work. Anyway mooring after dark is not advisable.

Documents: Only a small customs post available here:
1 Cargo Manifest.
1 Store Manifest.
1 Crew List.

Custom allowance: No restrictions – no sealing of bonded stores.

Shore leave: Allowed by ship's boat.

Radio communication: None. Though there are officially coast radio stations in this country, they do not operate on schedule. Telegrams should be sent via coastal radio stations of other countries. No VHF.

PUERTO MACIAS (Puerto Nuevo): 01.49 N. 09.44 E.

Situated about 1 mile South of the mouth of the Rio Ekuku. This is quite a new jetty – developed in 1973 – shaped like the letter "L", where the long leg of this "L" is connected to the shore and 4 dry cargo vessels can moor alongside the short leg in about 14 m. of water. Every vessel has on her off-shore side 2 mooring buoys to assist in mooring and unmooring. No tugs available. Though it is stated that a Pilot is available, this information should be treated as unreliable. The pier is used for the discharge of general cargo and the loading of logs and sawn wood. According to information received this jetty will be made available to tankers for discharge of oil products.

Documents: See "Bata". This new jetty falls under the jurisdiction of Bata authorities.

Radio communication: See "Bata".

SHIPMASTER'S REPORT: October 1979.

List of Animals on Board	2 copies	(vessel's care)
Vaccination List	2 copies	(vessel's care)
Cargo Manifest for discharge cargo	6 copies	(vessel's and loading port Agent's care)

Authorities boarded the ship on the Roads.

Pilotage: Pilot is available, native, has knowledge of local currents and winds, otherwise is not skilled. Speaks only Spanish.

Anchorage: Half a mile West of the breakwater or further in depths from 12 to 25 m., sand, the holding ground is good but swell can be heavy.

Restrictions: Berthing possible only during daylight.

Berthing: The jetty can accommodate four ships, two on each side but at present all mooring buoys are removed, except buoy No. 8. For this reason only ships equipped with stern anchor could be moored outside, to keep herself (with anchor) clear from the breakwater owing to swell, current and wind from S.W. Also the inner berth is not protected against the swell, because the breakwater was constructed of concrete piles. According to information the mooring buoys will be replaced in near future.

Loading/discharging with ship's gear, no shore cranes available. Oil products can be discharged by pipe line connected with shore storage tanks.

Stevedores: Available, arranged through Agent of shippers/receivers.

Medical: Hospital facilities available, but there is total shortage of drugs.

Fresh Water: Available from quay.

Opening/Closing Hatches: Normally done by crew.

Customs Allowance: No limit. No sealing of bonded stores.

Shore Leave: No restrictions. Identification cards not needed.

Airport: There is an airport close to Bata with flights to the capital (Malabo) and Douala.

Time: GMT plus 1 hour.

Currency: Ekuela.

Stores: Not available.

REY MALABO, (formerly Santa Isabel): 03.46 N. 08.48 E.

Situated on the Island of Macias Ngueme Biyogo (formerly Fernando Poo) Capital of the Republic of Equatorial Guinea.

Documents:
9 Crew Lists.
3 Stores Manifests.
3 Crew declarations.
2 Lists of Arms and Ammunition.
4 Lists of Ports of Call.
2 Passenger lists or negative.

General: No tugs.

Pilots: Effectively none. Only a locally informed inhabitant of this port comes on board to inform the Master, he is equipped with a large scale Spanish chart of this bay, but he has no nautical knowledge and he does not know how to handle a ship.

Note: 1. Masters should bear in mind that they have to manoeuvre and moor the vessel themselves.

2. In view of the continuous breakdowns (and insufficient power) of the mooring-launch it is absolutely necessary to have the ship's motor boat at stand by to run the ship's mooring-lines ashore.

Mooring procedure: Tanker berth: old jetty (muelle viejo). The ship should be moored stern-to to this jetty. On entering the port with the lights in line starboard anchor is dropped in the middle of the bay and the ship has then to manoeuvre around with her own engines, till in line with the berth.

N.B. Because there is very seldom anybody present at the jetty to accept the mooring lines (on arrival as well as on departure) the vessel's crew should be kept on stand by to do this job.

Arrival/Departure: Between 0600 and 1800 hrs.

Tankers: Preferably stern discharge into a 6 in. line with 6 in. hose. All grades through one line – Linewash with water in between – pressure 4 kg/sq.cm. max.

Dry cargo vessels: Berth at a new jetty on the West side of the bay. No cranes available.

Advice: 1. Masters should be very careful when dropping their anchors as some vessels (Man of war) moor with their sterns to the dry cargo jetty and have their anchors in the middle of the bay. These anchors are very easily fouled by incoming vessels anchors. A useful suggestion might be to put anchor buoys on the anchors in order to show another incoming ship their position.

2. Because it is quite difficult to manoeuvre a tanker around in this bay without any tug assistance, it should be borne in mind that when the wind is over Force 2 manoeuvring with a sizeable vessel is apt to falter, and no assistance can be expected from any quarter.

Departure: Vessels are free to leave within mentioned hours without Pilot.

Radio communication: See "Bata".

Custom allowance: No limit – no sealing of bonded stores.

Shore leave: No restrictions, but with own motor boat.

Currency: Eq. Guinea Peseta = Spanish Peseta.

PURSER'S REPORT:

Documents:
9 Crew Lists.
9 Passenger Lists (Marked "none" if no passengers on board).
3 Customs Declarations.
3 Stores and Provisions.
4 Arms and Ammunition.
1 Vaccination List (Smallpox, Cholera and Yellow Fever).
9 Cargo Manifests.

Stores: No stores were purchased at this port, advise top up prior to calling at this port.

Mail: Advisable to send to next big port.

Bata: Same papers as above. No officials come out to the ship at this port, however, papers should be kept ready. Vessels moor to a buoy for discharge.

Ethiopia

ASSAB: 13.01 N. 42.44 E.

PORT LIMITS: A line drawn from Ras Gombo to the Northern point of Umm al Baher (Islands) to Southern point of Umm al Baher, then to Ras Marcanah.

DOCUMENTS:

5 Manifests for transit passengers and passports.
5 Manifests for landing passengers and passports.
5 Crew Lists.
1 Complete Crew Provisions List.
1 Crew Personal Effects List.
1 Store List.
6 Cargo Manifests.

PILOTAGE: Compulsory Pilots take tankers in and out of oil harbour only during daytime. Pilots embark about 1 mile N.N.E. from Northern extremity of breakwater. Commercial harbour gives 24 hour service. Vessels calling Assab must advise Agent through Assab Coastal Radio Station by call sign ETC. Assab Radio Signal Station is available.

ANCHORAGES: Assab Bay provides good anchorage in 42 to 48 ft. of sand and coral bottom, good holding ground. Generally weather in Assab can be divided into two: Summer time and Winter time weather, during Summer (May–September) Northerly wind blows with a maximum force of 3/4 BS. During Winter time (October-April) South-easterly local monsoon winds blow usually 5/6 BS but reaching force 7/8 BS during daytime and generally drop at night. This 7/8 BS force is mainly experienced about December to February.

RESTRICTIONS: There are 2 entrances, the North and the South entrance, the depth at the entrances is 38 ft. Least width 1,300 ft.

Vessels of any size enter or leave port during hours of darkness except tankers, and vessels carrying dangerous cargo. In these cases, where vessels are carrying explosives or other dangerous cargoes, Agents of calling vessels must notify the Port Office in advance of discharging and/or loading of explosives. Inflammable and other highly dangerous cargoes in commercial harbour are permitted from 0600 to 1800 hrs. local time.

MAX. SIZE: Largest vessels which can enter commercial harbour 200 m. LOA, 80 ft. beam, 34 ft. draft.

HEALTH: Quarantine and sanitation services available. Quarantine officer boards arriving vessels and necessary medical clearance given.

RADIO: Coastal radio station available *(a)* position Lat. 13° 01′ 24″ N. Long. 42° 44′ 38″ E.

(b) Coastal radio station in service for 13 hours per day 0700 to 2200 hrs. Call sign ETC. Transmits traffic lists on 489 kc/s after a preliminary announcement on 500 kc/s, 30 minutes past each odd hour starting at 0500 and ending 1700 hrs. (0530, 0730, 0930, hrs. etc.).

(c) Transmit traffic lists on 6509 at 0500, 0900 and 1300 hrs. and searches 6265.5–6280.5 between 0515–0600, 0915–1000, and 1315–1400 hrs.

(d) Transmit traffic lists on 8618 at 0700, 1100 and 1500 hrs. and searches 8354–8374 between 0715–0800, 1115–1200 and 1515–1600 hrs.

(e) Rates shall include station charges and charge of transmission over telecommunication network within Ethiopia.

(f) Accepts ship letter telegrams (SLT) from ships for delivery in Assab.

(g) For radio telephone service. Station keeps watch and replaces on 2182 for radio telephone service at 0615–0700, 0815–0900, 1015–1100, 1215–1300, 1415–1500, 1615–1700 hrs. and transmits traffic same hours on 4379.3. Service hours will be extended to 24 hours.

VHF: VHF system will be installed in the port in the near future.

TUGS: Tug service compulsory for ships over 300 n.r.t. 2 tugs of 600 h.p. each, attend ships during arrival and departure.

BERTHING:

(a) North Half Jetty 1,620 ft. length, 36 ft. depth.
(b) South Half Jetty.
    (i) 1115 ft. length and 33.8 ft. depth.
    (ii) 459 ft. length and 29.5 ft. depth.
    (iii) 164 ft. length and 19 ft. depth
(c) 2 coaster piers, each 260 ft. length 26 ft. depth. Temporarily out of use.

Fenders are excellent and protect ships from impact; harbour is modern and has modern breakwater 711 m. length. 7 big ships and 4 coasters can be accommodated at a time.

STEVEDORES: 14 stevedoring agencies, any kind of cargo can be discharged and loaded. Skilled labourers and loading/discharging capacity are respectively 30-15 per hour. Crane lift capacity 30 tons.

Normal working hours: 0700 to 1200 hrs., 1600 to 1800 hrs. Work can be performed 24 hours a day including holidays.

MEDICAL: 1 hospital in town and clinic in port. When sick person on board, hoist (by day) International code flag "W", (by night) 3 lights in vertical line upper one red, and middle and lower, white lights. Doctor may be called on board at any time to attend sick crew or passengers by arrangement with Agents.

TANKERS: Oil harbour about 1.5 miles S.E. of commercial harbour with draft 33 ft. Crude oil discharging terminal 500 m. from Southern end of breakwater open sea buoy berth – tankers of 800 ft. length, and 36 ft. draft can be accommodated. Diameter of pipe-line for loading and discharging black products – 12 in., white products 10 in.

Tankers at the Shell Berth are moored by dropping 2 anchors and tying up 2 ropes from each quarter to the buoys, and 1 rope from each quarter to the dolphins. All grades of oil in bulk discharged into shore storage tanks from this harbour, and fuel oil is discharged from the Commercial Harbour.

In Assab, the petroleum installations are of Shell Red Sea Co., and Mobil Oil East Africa Co.

SALT LOADING TERMINAL: Located 1.7 miles from the Commercial Harbour, salt loading ships drawing up to 33 ft. are berthed at this terminal using 2 anchors and mooring to buoys and dolphins.

DENSITY: At berths is 1.03 while the tides are negligible for all seasons; max. 1 ft.

FRESH WATER: Available. Supplied upon request by Agent and can be delivered at 60 t.p.h.

FUEL: All grades available, at commercial harbour. Advance notice necessary. Rate of 300 t.p.h.

FIRE PRECAUTIONS: Modern fire brigade.

GANGWAY/DECK WATCHMEN: Watchmen on deck necessary, and rate arranged as per agreement of employer and employee.

OPENING/CLOSING HATCHES: Normally carried out by stevedores.

CERTIFICATES: All ship's International Certificates should be on board.

CUSTOMS ALLOWANCES: Tobacco, 400 cigarettes. Wine and/or Spirits. 1 litre or bottle of spirit.

CARGO GEAR: Different types of certified cargo handling equipment available.

IDENTIFICATION CARDS: Needed.

CONSULS: Only Italian Consulate in Assab, others live in Asmara the capital city of Eritrea.

REPAIRS: Minor repairs can be carried out at Port Office workshop.

REPATRIATION: Possible.

AIRPORT: 15 km. from Assab. Ethiopian Airlines. 5 domestic flights per week.

TIME: GMT plus 3 hours.

HOLIDAYS: See "Massawa".

POLICE/AMBULANCE/FIRE: Port Police Tel. 60049; Hospital Tel. 60119; Port Office fire brigade Tel. 60102.

GENERAL: 1 modern hotel and 1 motel with full facilities available in town.

SHORE LEAVE: Crew allowed ashore, with boarding passes.

AUTHORITY: Ministry of Communication, Department of Marine.

MASSAWA: 15.37 N. 39.28 E.

PORT LIMITS: The coastline of Gurgussum Peninsula, at 15° 39′ N. to a point 15° 39′ N. 30° 30′ E. to 15° 35′ N. 39° 30′ E. to the coastline at 15° 35′ N. 39° 26′ 50″ E.

DOCUMENTS:

2 sets Manifests.
2 sets Bills of Lading.
5 Crew Lists.
5 Passenger Lists.
2 Stores Lists.

APPROACHES: Through North channel and South channel. In channel, in direction of leading lights 243°, max. depth 31 ft. (but alongside 30 ft.) Marking buoy showing a wreck in position approximately 200 m. S.E. of North breakwater.

PILOTAGE: Pilotage is compulsory for all vessels over 100 n.r.t. Pilot section headed by a Chief Pilot and 2 other Pilots.

There are 2 pilot boats. ETA should be given to Agent who will inform Pilot 72 hours prior to arrival. Signal tower located in port area contacts vessel on arrival informing Agent and Pilot, and receiving or transmitting by Morse lamp messages to and from vessel.

ANCHORAGES: 8 cables East of main lighthouse. Anchorage North of leading light not recommended.

Tides. Normally the range of tide varies between 1.5 and 2.0 m., but during spring tide season the range varies up to 3 m.

MAX. SIZE: Length 520 ft., draft 30 ft.

HEALTH: Doctor normally boards with Pilot, but can be asked to board together with Customs and Immigration while vessel on roads. All crew members must be vaccinated against smallpox and yellow fever, and possess necessary certificates. Deratisation and other health certificates required. Deratisation cannot be effected at Massawa, but exemption certificate can be obtained.

RADIO: Assab Radio, call sign ETC, Djibouti Radio, or Aden Radio may be used. Asmara Radio, call sign ETC 2, working hours 0500 to 1700 GMT. Radio-telegraphy and radio-telephone services.

TUGS: Compulsory. Join vessel in port.

3 tugboats are available, two of 350 h.p. and the third 1,000 h.p. The smaller motor tugboats used for assistance mainly within the port limits, and the deep-sea salvage motor tugboat, for salvage operations, but whenever conditions demand, is also employed for assistance within the port.

BERTHING: Vessels normally drop anchor before berthing.

Commercial Harbour: 6 berths, namely 1 to 6, and the overall distance from Berth No. 1 to Berth No. 6 is 907 m. These berths normally used by vessels handling general cargo, bagged cargo and livestocks. Depth of water at mean low water springs (MLWS) is shown below:

Berth No. 1 – 16 ft. 6 in.
Berth No. 2 – 24 ft. 6 in.
Berth No. 3 – 28 ft. 6 in.
Berth No. 4 – 28 ft. 0 in.
Berth No. 5 – 27 ft. 0 in.
Berth No. 6 – 30 ft. 0 in.

Salt Berth: This is a single berth where vessels load salt in bulk. The depth at the berth is 32 ft. Max. draft 29 ft. Loading with the help of conveyor belt at the rate of about 300 t.p.h.

Cement Berth: Depth 18 ft.

American Jetty: Depth 18 ft.

However, dredging will be carried out to accommodate vessels of a greater draft in the near future.

STEVEDORES: Radio 24 hours' notice of ETA stating number of gangs required. Loading discharging rates 5 t.p.h. on general, 10/15 t.p.h. on bagged cargo.

DENSITY: 1025.

MEDICAL: Notice should be given to Agent only when specialist needed. Hospital treatment available. Dental facilities available at Asmara, 110 km. away.

TANKERS: AGIP, Arkiko oil station terminal: max. draft for entering channel 29 ft.

Total Pier, depth alongside 36 ft., max. draft 30 ft.

FRESH WATER: Supplied alongside, Max. rate 600 tons per day or by barge of 50 tons on roads. Barge can be loaded/discharged in 8 hours.

FUEL: Can be obtained alongside oil terminals and at Berths 5 and 6 for heavy fuel only. Diesel can be supplied by lorries alongside. No bunker barge available.

GANGWAY/DECK WATCHMEN: Compulsory when alongside.

OPENING/CLOSING HATCHES: Normally by labourers, but can be done by crew.

CUSTOMS ALLOWANCES: Tobacco, 200 cigarettes per man. New allowance can be delivered after 1 week. Wine/Spirits: 1 bottle of wine/spirits (opened). Wine and beer quantity necessary for the stay in port allowed upon reasonable request on arrival.

IDENTIFICATION CARDS: Not needed. Immigration gives port entry card (without crew member's name) which must be given back prior to departure. In case of loss a fine is likely.

CONSULS: Italian Vice-consulate, Box 62. Tel. 52214. Other consulates at Asmara for Belgium, France, Gt. Britain, Italy, Sudan and U.S.A.

REPAIRS: Good workshops for minor engine repairs. Slipway for vessel up to 600 g.r.t.

REPATRIATION: Via Asmara. Daily flight Massawa-Asmara, then by international flights. Or Massawa-Asmara by road, 110 km., asphalt road.

AIRPORT: 7 km. from port with daily service to Asmara. International airport at Asmara 60 km. by air.

TIME: GMT plus 3 hours.

HOLIDAYS: January 7th (Christmas Day – Coptic); January 19th (Epiphany); March 2nd (Victory of the Battle of Adowa); March 13th (Prophet's Birthday); April 6th (Victory Day); April 23rd (Good Friday – Coptic); April 25th (Easter Sunday – Coptic); May 1st (Labour Day); September 11th (New Year's Day); September 12th (Abolition of Feudalism); September 27th (Finding of the True Cross); October 6–8th Id-al-Fatir; December 18th Id-al-Kebir and Sundays.

POLICE/AMBULANCE/FIRE: Police, tel. 52425; Ambulance, tel. 52234–5–6; Fire Brigade, tel. 52220.

TELEPHONES: Possible to place telephones on board. Arranged by Agent.

SERVICES: Radar and gyro compass technician available, but special spare parts not available.

SHORE LEAVE: Crew cannot leave vicinity of Massawa without special immigration permit.

AUTHORITY: Department of Marine.

NOTES

Please also advise Shipping Guides Ltd.

Faroe Islands

KLAKKSVIK: 62.14 N. 06.35. W. (See Plan Book)

DOCUMENTS:
One of each:
Crew List.
Passenger List.
Custom Documents (one list crew's quantity of tobacco and spirits).
Health Document.
Manifest.
Bill of lading.

PILOTAGE: Not compulsory but available. Give ETA via Torshavn radio, OXJ, 1 or 2 hours before arrival, and Pilot will meet vessel in Roads. International signals can always be used. VHF Channels 16, 12, and 6 in use.
ANCHORAGE: In Roads in 12 to 20 fathoms; good anchorage.
RESTRICTIONS: No restrictions upon entry.
MAX. SIZE: Up to 450 ft. length, but draft must not exceed 20 ft.
HEALTH: Pratique usually automatic.
RADIO: Torshavn radio, OXJ, is only coast station in Faroe Isles.
TUGS: No tugs available.
BERTHING: Ships will be berthed on arrival, if ETA announced 12 hours before arrival.
STEVEDORES: Ships Agent will arrange stevedores.
MEDICAL: Inform doctors before arrival. Hospital facilities available.
TANKERS: Only small tankers, up to 2,000–3,000 tons can be handled.
FRESH WATER: Available from quay. 30 t.p.h.
FUEL: Diesel oil available, usually without notice (or short notice).
DEVELOPMENTS: Berthing place will be widened about 600 ft. on each side of bay and permissible draft will be increased.
GANGWAY/DECK WATCHMEN: Watchmen usually unnecessary, but available if desired.
OPENING/CLOSING HATCHES: Normally done by crew.
CUSTOMS ALLOWANCE: Tobacco, 200 cigarettes. Wine and/or Spirits, 1 bottle of wine and 1 of spirits.
IDENTIFICATION CARDS: Not needed.
CONSULS: British, tel. 5109 and 5489; Norwegian, tel. 55018 and 55353.
REPAIRS: All types of deck and engine repairs possible. Slipways for ships up to 200 ft. length.
REPATRIATION: Small changes in crew can usually be arranged and, for example, sick seamen/fishermen are often sent home, when recovered.
AIRPORT: Nearest airport on Vagoy, about 6 hours travelling. Regular flights, 6 a week.
TIME: GMT. Permanent.
HOLIDAYS: Cargo work can be arranged on holidays.
POLICE/AMBULANCE/FIRE: Police 5348; Ambulance 5464; Fire 04.
TELEPHONES: Can be arranged on board at one berthing place, at about 50.00 kr plus dues for conversations.
SERVICES: Compass adjusting, day and night.
SHORE LEAVE: Crew members allowed ashore.
DELAYS: Normally there are none.
DEVELOPMENTS: Two new quays under construction, 1 with a depth of 7.0 m.
AUTHORITY: Harbour Master.

AGENT: Christen Joensen Stengavegur, P.O. Box 179, 3870 Klaksvik, Faroe Islands. Cables Christen Joensen. Tel. Klaksvik 55922.

SOERVAAG: 62.04 N. 07.18 W.

DOCUMENTS:
Bill of Lading.
Customs Documents (including Crew List).
Ship's Certificate (stating size of ship).

PILOTAGE: Ships can call Pilot via Torshavn Radio. Pilot has good knowledge of local conditions.
ANCHORAGES: Danish Chart No. 82 – on Soervaag fjord – can be recommended as good. Bottom gravel.
RESTRICTIONS: Difference between high and low water up to 2 m. on Spring tide and up to 1 m. on neap tide.
MAX. SIZE: Largest vessel reported in Soervaag was 12,000 d.w.t. tanker. Harbour about 150 m. long and formed with one long pier and another 1 stretching from it. Draft at pier 8 m. Pier runs N.E./S.W.
HEALTH: Ships coming from countries having epidemic-disease have to fly the flag "Q". No persons allowed connection with shore, before official doctor given free pratique. Doctor comes from Midvaag or Wesmannahavn and can be at Soervaag in half hour.
RADIO: Only civilian radio on Faroe Islands is Torshavn-Radio (Int. call sig.: OXJ) via this radio ships can call for medical assistance and weather forecast. These 2 services are free. All traffic to Faroe Islands via Torshavn-Radio.
TUGS: No actual tugs can be obtained, but many small vessels which can be used as tugs.
BERTHING: Captains should take care when berthing not to come on to East side of pier – owing to very low water.
STEVEDORES: Arranged through A/S NI. Niclasen, Soervaag, or Harbour Master.
MEDICAL: Hospital in Torshavn with all facilities.
TANKERS: Ordinary pier also used by tankers (draft 8 m.) size of load/discharge-lines: 3 in. and 6 in.
FRESH WATER: Ships can obtain fresh water direct from pier.
FUEL: Marine diesel fuel; turbo-jet A1–100; gasoline-petroleum.
GANGWAY/DECK WATCHMEN: Not required.
OPENING/CLOSING HATCHES: Captains have to make arrangements with stevedores, receivers or shippers.
CUSTOMS ALLOWANCE: Tobacco, each crew member is allowed to have 200 cigarettes or 250 gm. of tobacco. Wine and/or Spirit, crew members not allowed any wine or spirit. Captain allowed 2 bottles every second day.
IDENTIFICATION CARDS: Not required.
CONSULS: Belgium, Finland, Greece, Iceland, Norway, Spain, U.K., West Germany, Brazil, France, Holland, Italy, Portugal, Sweden.
REPAIRS: Small deck and engine repairs carried out.
DRY DOCKS: On Skaalefiord, dry dock up to 1,500 d.w.t.
REPATRIATION: Available.
AIRPORT: Faroe Island has 1 airport – only 3 km. from Soervaag. During Summertime daily services to Bergen, Norway and Copenhagen, and weekly services to Glasgow.

During Wintertime weekly services to above destinations.
TIME: GMT. Permanent.
HOLIDAYS: Same as Denmark.
POLICE/AMBULANCE/FIRE: Police 8; Ambulance 8; Fire 4 or 46.
TELEPHONE: Telephones can be placed on board.
SHORE LEAVE: Crew members are allowed ashore.
REGULATIONS: Per ordinary regulations in Danish Ports. Harbour dues to be paid before ship's departure.
DELAYS: Usually none.
AUTHORITY: Harbour Master.

TORSHAVN: 62.00 N. 06.45 W.

DOCUMENTS: See "Klakksvik".
PILOTAGE: Not compulsory. Can be obtained through Torshavn Radio 2182 kHz. or Channel 16 VHF (Harbour Office).
ANCHORAGES: Due South of breakwater in depths about 30 fathoms.
MAX. SIZE: Max. draft 25 ft. This is only restriction.
HEALTH: Pratique usually automatic.
RADIO: Torshavn Radio, OXJ.
TUGS: No tugs available.
STEVEDORES: Must be arranged with the Agent.
FRESH WATER: 100 t.p.h., by pipe-line.
FUEL: All kinds of fuel at 100 t.p.h.
GANGWAY/DECK WATCHMEN: Not necessary.
OPENING/CLOSING HATCHES: By crew.
CUSTOMS ALLOWANCES: Tobacco (half carton); wine/spirit (1 bottle).
IDENTIFICATION CARDS: Not required.
REPAIRS: All kinds are possible.
DRY DOCKS: Slipway for vessels up to 1,000 tons.
REPATRIATION: Can be arranged.
AIRPORT: Regular airlines, 2 hours by car from Airport.
TIME: GMT Permanent.
HOLIDAYS: Cargo work can be arranged on holidays.
POLICE/AMBULANCE/FIRE: Police, 1448; Ambulance, 3540; Fire, 04.
TELEPHONES: No facilities.
SERVICES: Compass adjusting only.
SHORE LEAVE: Allowed.
AUTHORITY: Torshavnar Havn.

TRANGISVAAG: 61.33 N. 06.50 W.

DOCUMENTS:
1 Crew List.
1 Passenger List.
1 Bill of Lading.
1 Bonded Store List.

PILOTAGE: When Pilot required pre-arrange with Agent by telegram or telephone, 2 hours notice ETA wanted. Pilot boat is local fishing-boat, usually boarding vessel at harbour entrance.
ANCHORAGE: Safe sheltered harbour up to 30 fathoms deep along the entrance transit bearing. Vessels anchor 1 cable offshore in 8 fathoms, clay bottom.
RESTRICTIONS: Vessels may enter harbour day and night.
MAX. SIZE: Vessels may berth with draft up to 7 m.
HEALTH: Pratique granted if no contagious illnesses aboard and all arrival formalities accomplished by the boarding officials.
RADIO: Torshavn Radio, call signal OXJ, 24 hours service, listens 2482 kHz, replies and transmits traffic on 1778 kHz, traffic lists on 1778 kHz 35 minutes past each even hour. VHF service: Channel 16 (156.80 mHz) Channel 26 (161.90 mHz). All ETA messages, etc. must be routed through Torshavn Radio.
TUGS: None; if required local fishing-boats are capable to act as tugs.
BERTHING: Tveraa at Northern side of fjord. Outer side of quay 280 m. length and 20/21 ft. alongside. Inner side length 170 m. and 15 ft. alongside. Quay is for general cargo, fish and salt.

Harbour basin length 58 m., depths 7 to 18 ft. alongside.

Drelnes on South side of fjord. Quay length 89 m. Depth alongside outer side 23 ft.; inner side length 43 m. depth 22 ft.
STEVEDORES: Enable Agent to arrange gang important obtain in good time accurate ETA from vessel. Work normally not carried out on Sundays.
MEDICAL: Advance notice to Agent preferable, good hospital facilities for both surgery and medicine.
DENSITY: 1024.
FRESH WATER: Water available at main quay, rate 50 t.p.h.
FUEL: Diesel gas oil available, 50 t.p.h., no advance notice required.
DEVELOPMENTS: New quay under construction in extension of existing quay.
GANGWAY/DECK WATCHMEN: Available, but not compulsory.

OPENING/CLOSING HATCHES: Crew allowed to open and close hatches.
CUSTOMS ALLOWANCES: Each crew member allowed 200 cigarettes or 200 grams tobacco out of Bond. Limited quantity wine and spirits.
IDENTIFICATION CARDS: Not needed.
CONSULS: Spanish Vice-Consul.
REPAIRS: Local marine repair companies can undertake all repairs of general nature to deck, engines, hull, electric and radio equipment, etc. Slipway available for small vessels.
REPATRIATION: May be arranged by sea or air.
AIRPORT: (Vagar) Served by regular airlines, located 50 miles from Trangisvaag.
TIME: GMT, no alterations during the year.
HOLIDAYS: New Year's Day; Good Friday; Easter Monday; Labour Day; Ascension Day; Whit Monday; Christmas Day; Second Christmas Day; work not carried out these days.
POLICE/AMBULANCE/FIRE: Police tel. 10 and 53; Ambulance 134; Fire 159.
TELEPHONES: Usually not placed aboard, but can be arranged.
SHORE LEAVE: Allowed.
AUTHORITY: Harbour Master.

Fiji Islands

LAUTOKA, (Vuda Point): 17.36 S. 177.26 E.

(See Plan Book)

DOCUMENTS/HEALTH: Refer to "Suva".
PILOTAGE: Not compulsory at present. However, most vessels avail themselves of a Pilot, who boards at Navula Passage, 20 miles South of Lautoka. Masters should telegraph to their Agents ship's ETA at Navula and indicate whether they require a Pilot or not at least 24 hours in advance.

Note: Radio communications with Fiji can be difficult and Masters are advised that telephone or telex messages worked via New Zealand or Australia direct to their Agents are far more reliable.

The Pilot normally boards from a 26 ft. wooden launch, blue hull with white superstructure, buff cabin top with orange liferaft on forward cabin. The pilot vessel can be contacted on VHF 16/6. Listening watch only when vessels are expected. Pilot normally boards 1 mile seaward of the passage on the leads. In heavy weather it may be necessary for a vessel to enter the passage to embark the Pilot. There is no anchorage outside the passage.

Vessels requiring pratique should anchor approximately 1 mile to the Westward of Vio Island in Lautoka Harbour. If prior arrangements have been made through Agent, Health Officers may board inside Navula (The Health Officers inspect vessels only from 1 hour after sunrise to 1 hour prior to sunset). The Pilot for those vessels not employing one from Navula but requiring a Pilot for berthing will board at the quarantine anchorage off Vio Island.

ANCHORAGES: The whole of the area enclosed by a circle of diameter approximately 1 mile between Vio Island and Pinder Reefs is an acceptable anchorage with depths ranging from 9 to 13 fathoms.

MAX. SIZE: Minimum depth in approaches to wharf 32 ft., depth alongside 36 ft. Generally speaking, any vessel not exceeding 32 ft. draft can be accommodated. Main wharf is only 457 ft. long but overhangs are allowable, ("Oriana" LOA 804 ft., berths at Main Wharf), dolphins for mooring lines being situated off each end of the wharf. Range of tide approximately 5.5 ft. at springs and 3 ft. at neaps, but state of tide does not affect the foregoing.

At Vuda Point, the tanker berth of Lautoka, tankers in the 18,000 to 24,000 d.w.t. class can be handled. This is a submarine pipe-line installation, the ship mooring to 4 buoys, available depth being about 36 ft.

TUGS: No tugs available. Can be obtained from Suva if reasonable notice is given.

BERTHING: Berthing and unberthing at Vuda Point only in daylight. Berthing at Lautoka is at discretion of Harbour Master or Pilot, but in normal conditions is effected at any hour of day or night.

Berthing in Lautoka is generally effected port side to.

Wharf	*Length*	*Depth*
Queens West	457 ft.	36 ft.
Queens North	257 ft.	24 ft.
Queens East	400 ft.	12 ft.
*SPSM	271 ft.	32 ft.

*Bulk sugar loading installation.

FUEL: Diesel fuel is available at the North and East berths on Queens Wharf.

FRESH WATER: Fresh water is available at all berths, there may be some restrictions in the dry season.

TANKERS: See "Max. Size". No slop discharge facilities. Discharge line 8 in. diameter.

DENSITY: 1025.

CONSULS: None.

REPAIRS: Only comparatively minor repairs can be effected such as welding jobs and repairs to pumps and other auxiliaries.

SURVEYORS: Not available.

REPATRIATION: Repatriations can be effected through vessel's Agents.

AIRPORT: Nandi International Airport is 16 miles from Lautoka. Frequent flights to all parts of the world by several major airlines operating through Nandi.

TIME: GMT plus 12 hours. No alterations to clocks.

HOLIDAYS: *Public holidays:*

New Year's Day	1st January
Prophet Mohammed's Birthday	4th February
Good Friday	4th April
Easter Saturday	5th April
Easter Monday	7th April
Queen's Birthday	16th June
Bank Holiday	4th August
Fiji Day	13th October
Deepawali	7th November
Prince Charles' Birthday	10th November
Christmas Day	25th December
Boxing Day	26th December

POLICE/AMBULANCE/FIRE: Dial 000 in emergency. Police, 60222; Ambulance, 60399; Fire, 60211.

SERVICES: Tank-cleaning labour and labour for painting, chipping, etc. can be provided, but no equipment. No facilities for discharge of slop tanks etc. Compass adjustments can be arranged.

Telephone connection on wharf (3 lines). Police post on wharf.

AUTHORITY: Wharf Manager, Ports Authority of Fiji, Lautoka.

LEVUKA: 17.41 S. 178.51 E. (See Plan Book)

DOCUMENTS:
Goods carried in unregistered space (C.E. 148) (1 only).
List of articles in possession of Crew, Officers and Master (1 only).
Crew List (8 only).
Passenger List (8 only).
Parcel List (2 only).
Primary Health Report (1 only).
Special Malaria Forms (1 only).
Vaccination Certificates (1 for each person).
Derating Certificates (1 only).

PILOTAGE: Pilots are arranged through Agents.

MAX. SIZE: Length 560 ft. Max. draft 25 ft.

HEALTH: Radio pratique may be granted when any vessel has not visited any malarious port and Master declares that crew and passengers are healthy and vessel has not come from any area where internationally quarantinable diseases are endemic or in epidemic. Vessel may then enter port by day or night. On berthing, Master must immediately deliver to Quarantine Officer fully completed Primary Health Report and Derating or Derating Exemption Certificate. If there is any suspected case of disease or fever on board, vessel must be anchored at quarantine anchorage until cleared by port Medical Authority. Pratique is automatic if a vessel has been granted pratique at another port in Fiji.

TUGS: No tug service available.

BERTHING: Only 1 vessel berthing at a time.

Berthing in Levuka is generally effected starboard side to, outside Queens Wharf. Both dry cargo ships and tankers use the one berth available for overseas shipping at Levuka. Berth length 575 ft. Depth 18 to 34 ft. dependent on tide.

STEVEDORES: Estimated time of arrival of any vessel and tonnage of cargo to be discharged should be received at least 24 hours from time of arrival.

MEDICAL: Normal hospital facilities are available. Specialist services not available but can be arranged for within 24 hours. Smallpox, cholera and yellow fever valid Vaccination Certificates are required to be held by ship's crew and passengers except those coming from New Zealand, Australia, Kiribati, Tuvalu, Tonga or Samoa.

TANKERS: Load and discharge lines 8 in. steel pipe. 1 berth only.

DENSITY: 1025.

FRESH WATER: Available only during normal working hours, which is from 0600 to 1600 from Monday to Thursday, and Friday up to 1500. Rate of delivery of water is about 15 t.p.h.

FUEL: Light marine diesel only – viscosity kin. at 100°F. = 3.4.

FIRE PRECAUTIONS: Bunkering only permitted during period between sunrise and sunset.

GANGWAY/DECK WATCHMEN: Services of watchman highly recommended to stop unauthorised persons from going on board.

OPENING/CLOSING HATCHES: Normally carried out by stevedores.

CUSTOMS ALLOWANCES: All crew and officers will be issued, with 25 cigarettes per day. A maximum of 4 days' allowance may be given at any one time. Cigars or tobacco may be taken in lieu of cigarettes. Masters and other officers may be allowed to keep in their possession small quantities of liquor.

Daily allowances: spirits, 1 reputed quart to Master; beer, 2 reputed quarts to other officers; spirits, 0.25 reputed quart to other officers; beer, 2 reputed quarts to Master.

IDENTIFICATION CARDS: Required.

CONSULS: None.

REPAIRS: Minor engine repairs are possible, but deck and major engine repairs could be carried out at Port of Suva, which is about 57 miles away.

REPATRIATION: Facilities exist for repatriation.

AIRPORT: Is situated on island of Viti Levu and the distance is about 200 miles. It is served by regular airlines (international). Connections twice daily from local airport, 12 miles from port.

TIME: 12 hours ahead of GMT.

HOLIDAYS: Working of cargo is not permitted on Sundays, Good Friday and Christmas Day. Application to work on Sundays to be made to the Ports Authority of Fiji at Levuka.

Public Holidays (1980):

New Year's Day	1st January
Prophet Mohammed's Birthday	4th February
Good Friday	4th April
Easter Saturday	5th April
Easter Monday	7th April
Queen's Birthday	16th June
Bank Holiday	4th August
Fiji Day	13th October
Deepawali	7th November
Prince Charles' Birthday	10th November
Christmas Day	25th December
Boxing Day	26th December

POLICE/AMBULANCE/FIRE: Police, 44033; Ambulance, 44015; Fire, 44041.

TELEPHONES: Arrangements may be made with Postmaster for installing telephone on board.

GENERAL: Rat guards must be affixed to all shore moorings or cables greased when alongside to prevent the advent of rats.

SHORE LEAVE: All crew members are allowed shore leave unless there is a special restriction from any Government authorities.

DELAYS: No berthing at night (lines cleared by quarantine authorities). Bunkering from sunrise to sunset. No loading or discharge during rain.

AUTHORITY: Port Authority of Fiji.

SUVA: 18.08 S. 178.26 E. (See Plan Book)

PORT LIMITS: A vessel is considered to be an "arrived vessel" having passed the W. Reef Beacon at the entrance to Suva Harbour.

DOCUMENTS:

1 Last Port of Clearance Certificate.
2 Declaration of Nett and Unregistered Tonnage form.
8 Passenger Lists.
8 Crew Lists.
6 Stores Lists (for high duty goods).
Passenger liners are required to submit Transit Passenger Lists and also a letter of Guarantee from Master.
Vaccination Certificates for Passengers and Crew.
Deratisation Certificates.

PILOTAGE: Arranged through vessel's Agents. 24 hours notice of ETA with confirmation 12 hours before arrival. Suva Harbour Control should be contacted on Channel 16 and 20 VHF when within VHF range. Pilot vessel is a white clipper bow launch with word "Pilot" in black on each side and will leave wharf 30 minutes before signalled ETA of vessel. Pilots board on leads 5 miles from front lead. Vessels may stand in on leads to meet pilot vessel. Vessels are advised to provide 2 manropes for pilot ladder which will usually be required on the port side. No anchorage for vessels awaiting a Pilot.

ANCHORAGES: Safe anchorage may be found in depths of 10 to 20 fathoms within the harbour. Holding is good, mud bottom.

RESTRICTIONS: Vessels may enter at any time of day or night.

MAX. SIZE: No length or draft limitation for conventional vessels entering port. Largest vessel regularly entering is 42,000 tons.

HEALTH: Health authorities require that vessels cable details of ports visited within 50 days of ETA. Radio pratique will be granted to vessels which are healthy and have not visited a port in a malarial area within 50 days. Health authorities board and inspect any vessel which has visited a malarial port within 50 days and will spray any vessel which has visited a malarial port. Authorities board from a launch as vessel enters harbour. Quarantine officer will sight Maritime Declaration of Health and Deratisation Certificate on boarding. No further pratique formalities are required in Fiji ports other than first port of entry.

RADIO: Suva Radio, call sign 3 DP. 500 Khz., 24 hours listening watch.

TUGS: One tug available – 1,125 h.p. Compulsory for vessels of 3,000 g.r.t. and upwards.

BERTHING: Vessels berth port or starboard side to King's Wharf or port or starboard side to Walu Bay Wharf as may be necessary. King's Wharf is 495.0 m. in length, having a least depth alongside of 11.0 m. at MLWS at the North end and 10.6 m. at the South end, whilst Walu Bay Wharf is 183.0 m. in length, having a least depth alongside of 9.5 m. MLWS.

Vegetable oil: Vessels loading vegetable oils berth at Walu Bay or North King's Wharf.

LPG carriers: Berth North King's Wharf or Walu Bay.

STEVEDORES: Arranged by ship's Agents.

Working Hours: First Shift: 0800–1900 hrs.
Second Shift: 1900–0600 hrs.

MEDICAL: Advance notice of medical assistance is desirable. Hospital facilities available. Current international vaccination certificates required.

TANKERS: Discharge lines 8 ins. diameter. Tankers discharge at King's Wharf, North and South berths. Depths alongside 42 ft. No residue discharge facilities.

DENSITY: Salt water, density 1025 approx. No tide effect on density.

FRESH WATER: Available at all berths. Delivery rate 30 t.p.h. per hose.

FUEL: Furnace fuel oil, diesel fuel oil, gas oil available by prior arrangement through oil company.

GANGWAY/DECK WATCHMEN: Employment of deck/gangway watchmen is recommended and normally provided by ship's Agents.

OPENING/CLOSING HATCHES: Normally opened and closed by stevedore labour but crew may be employed at Master's discretion.

CERTIFICATES:

Load Line.
Certificate of Registry.
Safety Equipment Certificate.
Radio Certificate.
Deratisation Certificate.
Maritime Declaration of Health.

CUSTOMS ALLOWANCES: 1 oz. tobacco per man per day. No alcohol.

IDENTIFICATION CARDS: Not compulsory.

CONSULS: *Diplomatic Heads of mission resident in Fiji:*

Mr. Raymond Greet	Australian High Commissioner
Viscount Dunrossil	British High Commissioner
Mr. Bernard Malandain	French Charge d'Affaires

Prince Charles' Birthday	10th November
Christmas Day	25th December
Boxing Day	26th December

Cargo is not worked on Public Holidays.

POLICE/AMBULANCE/FIRE: Police, 23811; Ambulance, 23071; Fire, 22688; Emergency, 000 for any of the above services.

TELEPHONES: Telephone connections to ships are provided.

SERVICES: Compass adjusting may be carried out.

SHORE LEAVE: Allowed.

DELAYS: Delays are not usual except for rain during hurricane season from November to April.

AUTHORITY: Ports Authority of Fiji.

OUT PORTS OF SUVA: Customs and Pilot are embarked at Suva or Lautoka.

Ellington: 17.20 S. 178.14 E. Private wharf for loading sugar and molasses from Raki Raki Mill.

Labasa: 16.26 S. 179.22 E. Open roadstead at mouth of Labasa River – Bulk loading facilities for F.S.C. sugar, length of jetty 150 m., depth 11.0 m.

Naikorokoro: North Coast of Kadavu. Anchorage for loading sawn timber.

Savu Savu: 16.47 S. 179.21 E. Government wharf for local coast trade and anchorage for cruise vessels.

Vatia Point: 17.25 S. 177.46 E. Private wharf for discharging explosives and fuel to gold mines.

Finland

EKENAS/TAMMISAARI: 59.58 N. 23.26 E.

DOCUMENTS:
International or Finnish Measurements Certificate.
1 Personal Effects List.
1 Ship's Provisions List.
2 Crew Lists (passengers to be included).
1 Customs Declaration (official forms supplied by the Customs Authorities).
4 Manifests.
2 Bills of Lading.

PILOTAGE: Pilots for Ekenas/Tammisaari applied for at Hango Pilot station by approaching Pilot station outside Hango/Hanko, where Pilot boat will meet vessel right outside Pilot station.

Telegram address: Hango Pilot.

MAX. SIZE: Max. draft 15.1 ft. (4.6 m.). No other restrictions. At Skogby, draft up to 24 ft. – No tide.

RADIO: Hanko Radio, Call sign OFI.

TUGS: Normally no tugs stationed at Ekenas but can be arranged from Koverhar or Hanko (12 nautical miles and 20 nautical miles from Ekenas respectively).

BERTHING: Two quays at Ekenas: "Trakajen", length about 160 ft.; "Stenkajen", length about 500 ft.

"Stenkajen" is equipped with one shore crane with a lifting capacity of 5,000 kg. The shore crane is equipped with grab for lifting bulk cargoes such as coal, coke, china-clay and ball-clay. 2 mobile cranes, capacities 27 and 36 tons.

Situated about 6 nautical miles from Ekenas is Skogby Sawmill Quay. Depth alongside 24 ft. Skogby Sawmill exports packed sawn goods and cupboard, mainly to U.K.

STEVEDORES: ETA to be given to Agent 1400 hours Finnish time on the day before arrival in order to prepare loading/discharging (Stevedore: J. A. Westerlund).

MEDICAL: Hospital treatment can be arranged when needed.

DENSITY: 1001.

FRESH WATER: Fresh water is delivered to the ship's side by means of hose. No possibility of fresh water at Skogby.

FUEL: Bunkering available at Ekenas by means of tank trucks.

OPENING/CLOSING HATCHES: Normally carried out by crew.

CUSTOMS ALLOWANCES: 200 cigarettes permitted for each Crew member. 1 open bottle of 1 litre wine or spirit is allowed for each Crew member over 18 years of age.

IDENTIFICATION CARDS: Not needed.

REPAIRS: Minor electrical and deck repairs may be carried out.

AIRPORT: Nearest Airport is Helsinki Airport, situated about 100 kms. from Ekenas.

HOLIDAYS: On Saturdays and days preceding Church holidays, the eve of Independence Day, the day preceding May Day, on Whitsun Eve and on New Year's Eve the working day consists of four working hours, starting from 0700 or 0800 and lasting to 1100, 1200 hrs. resp. without break for meals. May Day, Independence Day, (6th December), Easter Saturday, Midsummer Eve and Christmas Eve are considered as labour free days.

POLICE/AMBULANCE/FIRE: Police, tel. 002; Ambulance, tel. 14100; Fire, tel. 005.

TELEPHONES: There are no arrangements for placing telephones on board the vessel but telephone calls can be made from the Harbour Constable's Office.

SUPPLIES: Ship stores and provisions can be ordered from Hango through Agent.

SHORE LEAVE: Shore leave allowed for crew members.

AUTHORITY: Harbour Master.

HAMINA: 60.34 N. 27.11 E. (See Plan Book)

PORT LIMITS: A vessel is considered to be an "arrived vessel" subject to Charter Party Terms, when arrived at roads.

DOCUMENTS: Normally required:
1 Crew List.
1 Passenger List.
3 Manifests.
1 Bill of Lading of each consignment.

Customs documents:
1 Special List (personal effects).
1 Provision List (Ship's Articles).

Ship's papers required:
Safety Equipment Certificate.
Radio Safety Certificate.
Construction Certificate.
International Tonnage Certificate.
International Load Line Certificate.
Certificate of Registry.
Tonnage Dues and Ice Dues Certificates if vessel called earlier.

PILOTAGE: Sea Pilot boards at Orrengrund, 36 miles from Hamina. VHF radio telephone Channel 16; Pilot boat: hull red, superstructure yellow. Vessels coming from Eastward can take Pilot at Haapasaari (Aspo), but must order Pilot by radio via Coast Radio Station at least 6 hours before ETA Haapasaari.

Harbour Pilotage: Harbour Pilot takes over at Roads. Harbour Pilot boat: hull black, superstructure yellow, word "Pilot" painted with red letters. Harbour pilotage optional.

ANCHORAGE: 2 anchorages with good holding grounds at Roads.

RESTRICTIONS: Usually no restrictions. Draft 9.0 m. to oil harbour and 8.4 m. elsewhere. Port open throughout year.

MAX. SIZE: Draft is governing factor. No tide but prolonged Easterly winds can cause lower water level, which must be checked before entering berths.

HEALTH: Bill of Health not required. In case suspected disease or fever on board, doctor to be contacted, preferably via Agent by radio before arrival.

RADIO: Vessels in Baltic Sea usually contact Helsinki Radio/OHC, A1 and OHG, A3. VHF Channels 16 and 26. Vessels in Eastern part of Gulf of Finland contact Kotka Radio/OHF, A1 and OFU, A3. VHF Channels 16, 25 and 27.

RADAR/VHF: There is no land radar service. Harbour is equipped with VHF radio telephone, Channels 16 and 12.

TUGS: Join vessels at Roads. Ship's lines usually used.

BERTHING:

Quay	*No.*	*Normal Landing Draft (m.)*	*Length (m.)*
Tervasaari	T	3.9	100
Hailikari		3.9	62
Coalquay		7.0	345
Lakulahti (L)	1–6	7.9	567
L–Ro/Ro		7.9	
Enso-Gutzeit	1–2	7.9	240
Hiirenkari	1–2	7.9	158
	3–5	8.4	310
	Ro/Ro	7.4 & 8.4	
Roads		7.9	
Outer roads		9.0	
Oil harbour		9.0	

SPECIALISED CARGO HANDLING FACILITIES: Coal and bulk quay has a length of 345 m. and loading depth of 7 m.; 5 electric cranes, the lifting capacity from 5 to 6.5 tons.

Container crane 33 tons capacity. Sawn timber quays 3–6 m. draft. Roll-on/roll-off berths 7 m. draft.

CRANES:

	No.	*Capacity/Tons*	*Type*
Coal quay	3	5	
	2	6.5	
	10	5–30	mobile
Hiirenkari quay	1	33	container

STEVEDORES: ETA is expected in good time before arrival.

MEDICAL: Advance notice helpful but not compulsory. Hospital facilities available at town.

TANKERS: Ocean-going tankers effect discharging through stern pipe-line. Mooring with both anchors, and stern to quay. Tankers up to 2,000 d.w.t. can discharge through side lines. Heavy oil and light products discharged into 10 in. line through hose of 8 in.

There is a new oil pier under construction. Draft 9.0 m. for loading/discharging through side lines. If arrangements are made it is possible to discharge up to 10,000 cu.m. of oily water ballast.

DENSITY: 1003.

FRESH WATER: Available at majority of quays; elsewhere supplied by boat.

FUEL: Fuel and diesel oils available at short notice. Delivery by tank truck.

GANGWAY/DECK WATCHMEN: Shore watchmen available, Sundays and holidays 100% extra.

OPENING/CLOSING HATCHES: Crew close automatic hatch covers. Hatches to be covered manually are usually covered by stevedores.

CUSTOMS ALLOWANCES: Tobacco: Master 200 cigarettes or 200 grams tobacco. Others, 100 cigarettes or 100 grams tobacco. Wine and/or Spirit: Master, 3 bottles wine or spirits. Others, one bottle.

CONSULS: Great Britain, Denmark, Holland, Norway, Sweden.

REPAIRS: Minor repairs effected.

REPATRIATION: There are facilities for repatriation.

AIRPORT: Helsinki Airport, distance 145 km. Regular flights.

TIME: Local time is GMT plus 2 hours. No alterations during year.

HOLIDAYS: New Year's Day (Jan. 1); Epiphany (Jan. 6); Good Friday; Easter Monday; Labour Day (May 1); Ascension Day; Whit Monday; Midsummer Day; All Saints' Day; Independence Day (Dec. 6); Christmas (Dec. 25 and 26).

POLICE/AMBULANCE/FIRE: Police 002; Ambulance 006 and 43111; Fire 005.

TELEPHONES: None available for placing on board.

REGULATIONS: Regular terminal vessels have preference at certain berths.

AUTHORITY: Haminan Kaupungin Satamalaitos.

HANKO: 59.49 N. 22.58 E.

DOCUMENTS:
Ship's Register.
Crew List.
Manifests.
Bills of Lading.
Provisions List.
Health Certificate.

PILOTAGE: Compulsory, distance from sea to port is 6 miles. Pilot boat painted red, arriving outside Russaro called by radio via Hanko Radio or by flag, sound or Morse: "G".

ANCHORAGE: Inside Gustavsvarn.

RESTRICTIONS: Draft 26.5 ft., length/breadth no restriction; no tide.

RADIO: Cable Agents giving ETA via Hanko or Helsinki Radio.

RADAR: At Pilot station; service for ships entering port, contact by ship's radio.

TUGS: In Winter time harbour tug boat helps ships to and from the quay.

SUVA: 18.08 S. 178.26 E. (See Plan Book)

PORT LIMITS: A vessel is considered to be an "arrived vessel" having passed the W. Reef Beacon at the entrance to Suva Harbour.

DOCUMENTS:

1 Last Port of Clearance Certificate.
2 Declaration of Nett and Unregistered Tonnage form.
8 Passenger Lists.
8 Crew Lists.
6 Stores Lists (for high duty goods).
Passenger liners are required to submit Transit Passenger Lists and also a letter of Guarantee from Master.
Vaccination Certificates for Passengers and Crew.
Deratisation Certificates.

PILOTAGE: Arranged through vessel's Agents. 24 hours notice of ETA with confirmation 12 hours before arrival. Suva Harbour Control should be contacted on Channel 16 and 20 VHF when within VHF range. Pilot vessel is a white clipper bow launch with word "Pilot" in black on each side and will leave wharf 30 minutes before signalled ETA of vessel. Pilots board on leads 5 miles from front lead. Vessels may stand in on leads to meet pilot vessel. Vessels are advised to provide 2 manropes for pilot ladder which will usually be required on the port side. No anchorage for vessels awaiting a Pilot.

ANCHORAGES: Safe anchorage may be found in depths of 10 to 20 fathoms within the harbour. Holding is good, mud bottom.

RESTRICTIONS: Vessels may enter at any time of day or night.

MAX. SIZE: No length or draft limitation for conventional vessels entering port. Largest vessel regularly entering is 42,000 tons.

HEALTH: Health authorities require that vessels cable details of ports visited within 50 days of ETA. Radio pratique will be granted to vessels which are healthy and have not visited a port in a malarial area within 50 days. Health authorities board and inspect any vessel which has visited a malarial port within 50 days and will spray any vessel which has visited a malarial port. Authorities board from a launch as vessel enters harbour. Quarantine officer will sight Maritime Declaration of Health and Deratisation Certificate on boarding. No further pratique formalities are required in Fiji ports other than first port of entry.

RADIO: Suva Radio, call sign 3 DP. 500 Khz., 24 hours listening watch.

TUGS: One tug available – 1,125 h.p. Compulsory for vessels of 3,000 g.r.t. and upwards.

BERTHING: Vessels berth port or starboard side to King's Wharf or port or starboard side to Walu Bay Wharf as may be necessary. King's Wharf is 495.0 m. in length, having a least depth alongside of 11.0 m. at MLWS at the North end and 10.6 m. at the South end, whilst Walu Bay Wharf is 183.0 m. in length, having a least depth alongside of 9.5 m. MLWS.

Vegetable oil: Vessels loading vegetable oils berth at Walu Bay or North King's Wharf.

LPG carriers: Berth North King's Wharf or Walu Bay.

STEVEDORES: Arranged by ship's Agents.

Working Hours: First Shift: 0800–1900 hrs.
Second Shift: 1900–0600 hrs.

MEDICAL: Advance notice of medical assistance is desirable. Hospital facilities available. Current international vaccination certificates required.

TANKERS: Discharge lines 8 ins. diameter. Tankers discharge at King's Wharf, North and South berths. Depths alongside 42 ft. No residue discharge facilities.

DENSITY: Salt water, density 1025 approx. No tide effect on density.

FRESH WATER: Available at all berths. Delivery rate 30 t.p.h. per hose.

FUEL: Furnace fuel oil, diesel fuel oil, gas oil available by prior arrangement through oil company.

GANGWAY/DECK WATCHMEN: Employment of deck/gangway watchmen is recommended and normally provided by ship's Agents.

OPENING/CLOSING HATCHES: Normally opened and closed by stevedore labour but crew may be employed at Master's discretion.

CERTIFICATES:

Load Line.
Certificate of Registry.
Safety Equipment Certificate.
Radio Certificate.
Deratisation Certificate.
Maritime Declaration of Health.

CUSTOMS ALLOWANCES: 1 oz. tobacco per man per day. No alcohol.

IDENTIFICATION CARDS: Not compulsory.

Naikorokoro: North Coast of Kadavu. Anchorage for loading sawn timber.

Savu Savu: 16.47 S. 179.21 E. Government wharf for local coast trade and anchorage for cruise vessels.

Vatia Point: 17.25 S. 177.46 E. Private wharf for discharging explosives and fuel to gold mines.

Finland

EKENAS/TAMMISAARI: 59.58 N. 23.26 E.

DOCUMENTS:
International or Finnish Measurements Certificate.
1 Personal Effects List.
1 Ship's Provisions List.
2 Crew Lists (passengers to be included).
1 Customs Declaration (official forms supplied by the Customs Authorities).
4 Manifests.
2 Bills of Lading.

PILOTAGE: Pilots for Ekenas/Tammisaari applied for at Hango Pilot station by approaching Pilot station outside Hango/Hanko, where Pilot boat will meet vessel right outside Pilot station.

Telegram address: Hango Pilot.

MAX. SIZE: Max. draft 15.1 ft. (4.6 m.). No other restrictions. At Skogby, draft up to 24 ft. – No tide.

RADIO: Hanko Radio, Call sign OFI.

TUGS: Normally no tugs stationed at Ekenas but can be arranged from Koverhar or Hanko (12 nautical miles and 20 nautical miles from Ekenas respectively).

BERTHING: Two quays at Ekenas: "Trakajen", length about 160 ft.; "Stenkajen", length about 500 ft.

"Stenkajen" is equipped with one shore crane with a lifting capacity of 5,000 kg. The shore crane is equipped with grab for lifting bulk cargoes such as coal, coke, china-clay and ball-clay. 2 mobile cranes, capacities 27 and 36 tons.

Situated about 6 nautical miles from Ekenas is Skogby Sawmill Quay. Depth alongside 24 ft. Skogby Sawmill exports packed sawn goods and cupboard, mainly to U.K.

STEVEDORES: ETA to be given to Agent 1400 hours Finnish time on the day before arrival in order to prepare loading/discharging (Stevedore: J. A. Westerlund).

MEDICAL: Hospital treatment can be arranged when needed.

DENSITY: 1001.

FRESH WATER: Fresh water is delivered to the ship's side by means of hose. No possibility of fresh water at Skogby.

FUEL: Bunkering available at Ekenas by means of tank trucks.

OPENING/CLOSING HATCHES: Normally carried out by crew.

CUSTOMS ALLOWANCES: 200 cigarettes permitted for each Crew member. 1 open bottle of 1 litre wine or spirit is allowed for each Crew member over 18 years of age.

IDENTIFICATION CARDS: Not needed.

REPAIRS: Minor electrical and deck repairs may be carried out.

AIRPORT: Nearest Airport is Helsinki Airport, situated about 100 kms. from Ekenas.

HOLIDAYS: On Saturdays and days preceding Church holidays, the eve of Independence Day, the day preceding May Day, on Whitsun Eve and on New Year's Eve the working day consists of four working hours, starting from 0700 or 0800 and lasting to 1100, 1200 hrs. resp. without break for meals. May Day, Independence Day, (6th December), Easter Saturday, Midsummer Eve and Christmas Eve are considered as labour free days.

POLICE/AMBULANCE/FIRE: Police, tel. 002; Ambulance, tel. 14100; Fire, tel. 005.

TELEPHONES: There are no arrangements for placing telephones on board the vessel but telephone calls can be made from the Harbour Constable's Office.

SUPPLIES: Ship stores and provisions can be ordered from Hango through Agent.

SHORE LEAVE: Shore leave allowed for crew members.

AUTHORITY: Harbour Master.

HAMINA: 60.34 N. 27.11 E. (See Plan Book)

PORT LIMITS: A vessel is considered to be an "arrived vessel" subject to Charter Party Terms, when arrived at roads.

DOCUMENTS: Normally required:
1 Crew List.
1 Passenger List.
3 Manifests.
1 Bill of Lading of each consignment.

Customs documents:
1 Special List (personal effects).
1 Provision List (Ship's Articles).

Ship's papers required:
Safety Equipment Certificate.
Radio Safety Certificate.
Construction Certificate.
International Tonnage Certificate.
International Load Line Certificate.
Certificate of Registry.
Tonnage Dues and Ice Dues Certificates if vessel called earlier.

PILOTAGE: Sea Pilot boards at Orrengrund, 36 miles from Hamina. VHF radio telephone Channel 16; Pilot boat: hull red, superstructure yellow. Vessels coming from Eastward can take Pilot at Haapasaari (Aspo), but must order Pilot by radio via Coast Radio Station at least 6 hours before ETA Haapasaari.

Harbour Pilotage: Harbour Pilot takes over at Roads. Harbour Pilot boat: hull black, superstructure yellow, word "Pilot" painted with red letters. Harbour pilotage optional.

ANCHORAGE: 2 anchorages with good holding grounds at Roads.

RESTRICTIONS: Usually no restrictions. Draft 9.0 m. to oil harbour and 8.4 m. elsewhere. Port open throughout year.

MAX. SIZE: Draft is governing factor. No tide but prolonged Easterly winds can cause lower water level, which must be checked before entering berths.

HEALTH: Bill of Health not required. In case suspected disease or fever on board, doctor to be contacted, preferably via Agent by radio before arrival.

RADIO: Vessels in Baltic Sea usually contact Helsinki Radio/OHC, A1 and OHG, A3. VHF Channels 16 and 26. Vessels in Eastern part of Gulf of Finland contact Kotka Radio/OHF, A1 and OFU, A3. VHF Channels 16, 25 and 27.

RADAR/VHF: There is no land radar service. Harbour is equipped with VHF radio telephone, Channels 16 and 12.

TUGS: Join vessels at Roads. Ship's lines usually used.

BERTHING:

Quay	*No.*	*Normal Landing Draft (m.)*	*Length (m.)*
Tervasaari	T	3.9	100
Hailikari		3.9	62
Coalquay		7.0	345
Lakulahti (L)	1–6	7.9	567
L–Ro/Ro		7.9	
Enso-Gutzeit	1–2	7.9	240
Hiirenkari	1–2	7.9	158
	3–5	8.4	310
	Ro/Ro	7.4 & 8.4	
Roads		7.9	
Outer roads		9.0	
Oil harbour		9.0	

SPECIALISED CARGO HANDLING FACILITIES: Coal and bulk quay has a length of 345 m. and loading depth of 7 m.; 5 electric cranes, the lifting capacity from 5 to 6.5 tons.

Container crane 33 tons capacity. Sawn timber quays 3–6 m. draft.

Roll-on/roll-off berths 7 m. draft.

CRANES:

	No.	*Capacity/Tons*	*Type*
Coal quay	3	5	
	2	6.5	
	10	5–30	mobile
Hiirenkari quay	1	33	container

STEVEDORES: ETA is expected in good time before arrival.

MEDICAL: Advance notice helpful but not compulsory. Hospital facilities available at town.

TANKERS: Ocean-going tankers effect discharging through stern pipe-line. Mooring with both anchors, and stern to quay. Tankers up to 2,000 d.w.t. can discharge through side lines. Heavy oil and light products discharged into 10 in. line through hose of 8 in.

There is a new oil pier under construction. Draft 9.0 m. for loading/discharging through side lines. If arrangements are made it is possible to discharge up to 10,000 cu.m. of oily water ballast.

DENSITY: 1003.

FRESH WATER: Available at majority of quays; elsewhere supplied by boat.

FUEL: Fuel and diesel oils available at short notice. Delivery by tank truck.

GANGWAY/DECK WATCHMEN: Shore watchmen available, Sundays and holidays 100% extra.

OPENING/CLOSING HATCHES: Crew close automatic hatch covers. Hatches to be covered manually are usually covered by stevedores.

CUSTOMS ALLOWANCES: Tobacco: Master 200 cigarettes or 200 grams tobacco. Others, 100 cigarettes or 100 grams tobacco. Wine and/or Spirit: Master, 3 bottles wine or spirits. Others, one bottle.

CONSULS: Great Britain, Denmark, Holland, Norway, Sweden.

REPAIRS: Minor repairs effected.

REPATRIATION: There are facilities for repatriation.

AIRPORT: Helsinki Airport, distance 145 km. Regular flights.

TIME: Local time is GMT plus 2 hours. No alterations during year.

HOLIDAYS: New Year's Day (Jan. 1); Epiphany (Jan. 6); Good Friday; Easter Monday; Labour Day (May 1); Ascension Day; Whit Monday; Midsummer Day; All Saints' Day; Independence Day (Dec. 6); Christmas (Dec. 25 and 26).

POLICE/AMBULANCE/FIRE: Police 002; Ambulance 006 and 43111; Fire 005.

TELEPHONES: None available for placing on board.

REGULATIONS: Regular terminal vessels have preference at certain berths.

AUTHORITY: Haminan Kaupungin Satamalaitos.

HANKO: 59.49 N. 22.58 E.

DOCUMENTS:
Ship's Register.
Crew List.
Manifests.
Bills of Lading.
Provisions List.
Health Certificate.

PILOTAGE: Compulsory, distance from sea to port is 6 miles. Pilot boat painted red, arriving outside Russaro called by radio via Hanko Radio or by flag, sound or Morse: "G".

ANCHORAGE: Inside Gustavsvarn.

RESTRICTIONS: Draft 26.5 ft., length/breadth no restriction; no tide.

RADIO: Cable Agents giving ETA via Hanko or Helsinki Radio.

RADAR: At Pilot station; service for ships entering port, contact by ship's radio.

TUGS: In Winter time harbour tug boat helps ships to and from the quay.

BERTHING: Advise Pilot. Depths at piers 19-29 ft. Quay height about 6 ft. above sea level. Shore fenders keep vessel about 2 ft. off quay. Special quays for roll-on/roll-off traffic.

Quay	*Permitted draft in feet*	*Length of quays metres*
Germany	19	150
Great Mole	22 04 in.	704
Notholms	24	275
	26	150

Great Mole	1	6	Movable	
	2	3	,,	
Notholms quay	1	2.5	,,	
	2	5	,,	1 with grabs
	1	40	,,	

Free harbour: One mobile crane, lifting capacity 40 tons. 21 fork lift trucks available.
STEVEDORES; Ordered by Agents.
FRESH WATER: Delivered from shore installations at daytime. Rate of delivery about 20 t.p.h.
FUEL: Delivered by rail cars only.
DENSITY: 1005.
WATCHMEN: Available but not compulsory.
HATCHES: Crew allowed to open and close hatches.
CUSTOMS ALLOWANCES: No restrictions in the Free Port, outside about 200 cigarettes and limited amount spirits per man.
IDENTIFICATION CARDS: Not required.
CONSULS: Denmark, Iceland, Netherlands, Norway, Spain, Sweden.
REPAIRS: Small repairs possible.
TIME: Local time GMT plus 2 hours.
TELEPHONE: Police 003; Fire 005; Ambulance 82228.
AUTHORITY: Harbour Master.

HELSINKI: 60.10 N. 24.57 E. (See Plan Book)

DOCUMENTS: See "Oulu".
PILOTAGE: Compulsory. ETA required 24 hours prior arrival. At present there are 2 different channels available for vessels approaching Helsinki.

1. Helsinki Lighthouse–Harmaja Lighthouse–Helsinki. Waterway leading from sea via Helsinki Lighthouse, situated in Gulf of Finland off the islets and shoals South of the port of Helsinki at a distance of about 12 miles may be considered as main approach. Channel navigable by vessels with a draft up to 9.6 m. and 11.0 m. Obtain Pilot from Pilot station at Harmaja. Vessels using main channel from Helsinki Lighthouse should keep Harmaja Lighthouse in line with church tower of Suomelinna, bearing about 7°. The Islet of Harmaja not navigable without a Pilot further in than 2 miles.

2. Porkkala-Helsinki. Fairway runs by Porkkala Lighthouse along the Eastern coast of Porkkala peninsula. Navigable by vessels with a max. draft of 9 m. (29 ft.). Pilots obtained from Porkkala-Ronnskar.

Harmaja Sea-Pilot station: Tel. 668 122. Harbour Pilots at Harbour Office: Tel. 169-3777 or 634308.
ANCHORAGE: Good anchorage available outside harbour, depth 26-32 ft. clay bottom.
MAX. SIZE: Draft 31 ft., length no limit.
HEALTH: See "Oulu".
DIRECTION FINDING: Harmaja Radio Beacon (frequency 298.8 kc/s Signal "HA") transmits:

Non-directional radio signals, with a modulation frequency of 395 c/s. By listening to these signals with a direction finding receiver, equipped with frame aerial, a ship can determine her bearing to the beacon.

Harmaja lighthouse and Helsinki lighthouse fitted with "Racon" for 3cm. radar (X-area).
DEPTH OF CHANNELS:
From Helsinki to East 9 m.
From Helsinki Lighthouse to Helsinki 9.6 m. and 11.0 m.
From sea South via Porkkala 9.0 m.
Also see "Developments".
VHF: Harmaja Pilots and Porkkala Pilots call VHF Channel 16 or 13.
TUGS: Several available: charges based upon time when tug leaves station berth until moment of return to same station.
BERTHING: Port and equipment owned by Municipality of Helsinki. 5 principal parts of port are South and West Harbours, Sornainen Harbour, and Herttoniemi and Laajasalo Oil Harbours.

Foreign passenger traffic is concentrated on the South Harbour.

West Harbour handles main part of transoceanic traffic, heavy goods and container terminal in West harbour fitted with 1 container crane (lifting capacity 40 tons), also silos of 2 flour-milling plants (Vaasan Hoyrymylly Oy and State Granary), into which grain discharged by suction. On silo quay pneumatic grain unloader owned by State Granary travels along 71 m. long bridge alongside ship to be unloaded. Equipment is 30 m. above quay level and range of suction pipe 11 m. from edge of quay. Unloading equipment can handle 100 t.p.h. Mass export articles such as cellulose, paper and wood goods, loaded chiefly in this harbour. In West Harbour is free-zone warehouse, which offers same privileges as free port.

The Sornainen Harbour operates mainly as a North Sea general cargo harbour. The area contains a coal harbour.

Herttoniemi and Laajasalo form the oil harbour, where the leading oil companies have oil storage tanks and own piers.

See Tables on Pages 313 and 314.

BULK HANDLING FACILITIES: Specially equipped berths for handling bulk cargoes in Sornainen Harbour. Berths equipped for containers or roll-on/roll-off traffic in West Harbour (40-ton container crane) and Sornainen Harbour.
STEVEDORES: 24 hours ETA required. 2 companies available of which 2 specialise in discharging timber and coal.

Working hours; Weekdays, 0700–1600 hrs. and 1600–2230 hrs. Saturdays, 0700–1500 hrs. Lunch break weekdays and Saturdays 1100–1130 hrs.
MEDICAL: Agents to be informed by radio if fever suspected.
TANKERS: Max. draft 9.6 m.

Herttoniemi and Laajasalo form together the oil harbour of Helsinki, where the leading oil companies have oil tanks and their own piers.

Harbour	*Quay length (m.)*	*Depth alongside (m.)*	*Depth of channel (m.)*
Herttoniemi Oil Harbour:			8.0
Oil pier	2×96	8.6	
Oljynpuristamo Co's pier	100		
Elo Co's pier	24		
Laajasalo Oil Harbour:			9.6
Shell Co's pier	32	10.0	
Esso Co's pier	30	10.6	
Neste Co's pier	58	10.2	

DENSITY: Fresh water.
FRESH WATER: Unlimited amount available by hoses from Hydrants at quays.
FUEL: All grades available; any amount of short notice.
GANGWAY/DECK WATCHMEN: Recommended but not necessary.
OPENING/CLOSING HATCHES: Crew/Stevedores.
CUSTOMS ALLOWANCES: 200 cigarettes, 1 bottle wine or spirits each man.
IDENTIFICATION CARDS: Not needed.
CONSULS: All maritime countries are represented in Helsinki.
REPAIRS: All types available.
DRY DOCKS: *Valmet Oy Helsinki Shipyard:*

Dock	*Extreme length (m.)*	*Breadth at entrance (m.)*	*Depth on sill (m.)*	*Location*

Dry dock 2	208	34	9.5	Hietalahti

REPATRIATION: Available.
AIRPORT: Distance to airport 25 km. Flights every day all over Europe.
TIME: GMT plus 2 hours. No alterations.
HOLIDAYS: New Year's Day (1st January); Epiphany; Good Friday; Easter Monday; Workers' Holidays (1st May); Ascension; Whit Monday; Midsummer Day; All Saints' Day; Independence Day (6th December); Christmas Eve; Christmas Day (25th December); Boxing Day (26th December).
POLICE/AMBULANCE/FIRE: Police 002; Ambulance 006; Fire 005. General alarm 000.
TELEPHONES: Available.
SERVICES: Compasses are adjusted by competent adjusters approved by the Board of Navigation. For compass adjustment the port has constructed piles or buoys with direction markings. These appliances can be used also for radio direction-finders.

Vessels using the compass-adjustment facilities must have on board a Harbour Pilot, who is entitled to the same compensation as for harbour pilotage.
CLASSIFICATION SURVEYORS: Lloyd's Register of Shipping, Bureau Veritas, American Bureau of Shipping, Germanischer Lloyd, Det Norskey Veritas.
ICEBREAKERS: *Teuvo,* length 39.9 m., breadth 12.9 m., fitted with 2 combined water/foam cannons for firefighting purposes, total capacity of 300 cu.m.p.h. VHF-telephone: call OIEV.

During ice seasons one of the following Government icebreakers assigned to assist ships from open water to harbour area and vice versa:

	Length (m.)	*Breadth (m.)*
Varma	86.5	21.2
Apu	86.5	21.2
Tarmo	84.0	20.5
Voima	83.5	18.7
Sampo	74.1	16.7
Murtaja	74.1	16.7
Karhu	74.1	16.7
Hanse	74.1	16.7
Sisu	104.7	23.8
Urho	104.7	23.8

Masters should communicate with icebreakers between January and March.

Continued on page 314.

DEVELOPMENTS: *New fairway to the West harbour:* A new fairway of 11 m. leading to the West harbour has been opened. Pilot service is obtained from the Pilot station of Harmaja. The fairway will be kept open in Winter when necessary. It leads to a new ferry-berth (LP 4), which will be finished in 1981 and the draft of which is 12 m. The quay will be furnished with a 40 ton multipurpose crane.
AUTHORITY: Port of Helsinki Authority.

INKOO: 60.01 N. 23.55 E.

(1) OY LOHJA HARBOUR.
PILOTAGE: Pilot boards off Ronnskar Lighthouse (Tel. Helsinki 294112, telephone and VHF). Distance to Coal Harbour 18 miles, Oil Harbour 17 miles.
MAX. DRAFT: *Approaches:* Fairway to Coal Harbour 29 ft. 6 in. Fairway to Oil Harbour 32 ft. 10 in.
TUGS: Available any time. 1 tug stationed at Inkoo.
BERTHING: Coal Quay length 175 m.; depth alongside 25 ft. 6 in.
Paper Quay length 140 m.; depth alongside 25 ft. 6 in.
CRANES: On the Coal Quay, one crane, 10 tons and one crane, 6 tons, by hook and half of the capacity by grab. Mobile cranes to hire of several capacities on Paper Quay.
DENSITY: 1004.
FRESH WATER: Available.

(2) IMATRAN VOIMA OY, INKOO POWER PLANT.
PILOTAGE: Pilot boards off Ronnskar Lighthouse (Tel. Helsinki 294112, Telephone and VHF.) Distance to Coal Harbour 18.5 miles.
MAX. DRAFT: Approaches: Fairway to Harbour 32 ft. 10 in.
TUGS: Available any time, notice must be given 2 hours before.
BERTHING: Coal Quay length 230 m.
CRANES: On the Coal Quay, 3 cranes, each of 10 tons. Mobile cranes of several capacities.
FRESH WATER: Available.

DOCUMENTS:
International Measurement Certificate.
3 Manifests.
2 Bills of Lading of each consignment.
Customs Documents:
1 Crew List.
1 Special List (personal effects).
1 Provision List (ship's articles).
Important: If the vessel is calling at two or more Finnish ports, 2 of each of these lists are to be produced at the first port of call.
PILOTAGE: VHF Channel 16, MF 2182 kHz. Anchorage for vessel awaiting a Pilot: outside the lighthouse "Kallan". Pilot boat equipped with radar.
ANCHORAGES: On inner roads called "Ado Roads", depth of water 28/30 ft.
MAX. SIZE: Max. draft in the inner harbour 24 ft. 3 in. No tide.
HEALTH: See "Oulu".
RADIO: Vasa Radio Station. Gamlakarleby/Kokkola VHF Channel 28.
TUGS: Tugs are normally stationed in the harbour. Ship's lines to be used.
BERTHING: Laukko Pier. Length 2×100 m., depth 24 ft. 3 in.
New Quay. Length 200 m., depth 24 ft. 3 in.
Old Quay. Length 300 m., depth 17 ft. (inside) 19 ft. (outside).
Kantlax, Oilport. Depth 7 m.
Busko Quay (roll-on/roll-off) length 160 m., depth 24 ft. 3 in.
Cranes: 8 mobile cranes available.
STEVEDORES: Working time: 1st shift Monday-Saturday 0700–1600 hrs. (meal hours 1100–1200); 2nd shift Monday-Friday 1600–2400 hrs. To commence loading at 0700 hrs. notice must be given latest at 1600 hrs. the day before, or before 1200 hrs. if commencing at 1600 hrs.
MEDICAL: Advance notice not required. All facilities available.
TANKERS: Vessel's draft must not exceed 24 ft. 3 in.
DENSITY: Fresh water.
FRESH WATER: From pipe-line alongside quay.
FUEL: Only gas oil available.
GANGWAY/DECK WATCHMEN: Watchmen recommended.
OPENING/CLOSING HATCHES: Normally carried out by crew.
CERTIFICATES: Derat. Certificate to be kept on board.
CUSTOMS ALLOWANCES: Tobacco: 100 cigarettes per 3 days for each crew. Wine and/or Spirits: 1 bottle per 6 days for each man of 21 years age.
IDENTITY CARDS: Not needed.
CONSULS: Danish, Tel. 10144; Norwegian 10444; Swedish 10444.
REPAIRS: All types of repairs possible.
DRY DOCKS: Only a small slipway.
REPATRIATION: Crew changes can be effected.
AIRPORT: Kronoby Airport about 30 km. from Jakobstad. 2 flights daily.
TIME: The local time is 2 hours later than GMT.
HOLIDAYS: 1st and 6th January; Good Friday; Easter Eve; Easter Monday; Labour Day (1st May); Ascension Day; Midsummer Eve; Whit Monday; 6th December (Independence Day); 25/26th December All Saint's Day.
POLICE/AMBULANCE/FIRE: Police 10039; Ambulance and Fire 10055.
TELEPHONES: Connection for telephone on board available.
AUTHORITY: Harbour Master.

KASKO (KASKINEN): 62.23 N. 21.13 E.

DOCUMENTS:
2 Crew Lists.
2 Customs Lists.
2 Passenger Lists.
Manifest, Bill of Lading, etc.
Between 1st December/30th April Ice Class Certificate required (can be given in Kasko).
PILOTAGE: Pilot boards 4 miles outside pilot station. Pilot boat or station can be called by radio telephone 2182 or VHF Channel 16. Notice is not required. Pilot can be called, daytime flag "G" or "PT", night-time by Morse "PT".

ANCHORAGE: Safe areas of anchorages, 3 miles W.S.W. of pilot station Salgrund, depths 15–20 m.
MAX. SIZE: Max. draft 8 m.
HEALTH: Pratique automatic.
RADIO: Vasa Radio.
VHF: VHF Channel 16 (Salgrund Pilot).
TUGS: None.
BERTHING:

Deep Harbour Quay	Depth 27 ft.
Outer Harbour Quay	,, 22 ft.
Inner Harbour Quay	,, 23 ft.

Total length of quays 2,694 ft.

DENSITY: 1004.
STEVEDORES: Available; rates about 250-300 tons pulp per work gang.
MEDICAL: Hospital available.
FRESH WATER: Brought by truck Winter-time; Summer by pipe-line.
FUEL: Available by tank truck.
GANGWAY/DECK WATCHMEN: Not necessary.
OPENING/CLOSING HATCHES: Normally carried out by crew.
CUSTOMS ALLOWANCES: Tobacco: 200 cigarettes. Wine/Spirit: 1 bottle spirit.
CONSULS: None.
REPAIRS: Only small repairs.
AIRPORT: Distance to Vasa Airport 100 km. Served by regular airlines.
TIME: GMT plus 2 hours.
HOLIDAYS: See "Oulu".
POLICE/AMBULANCE/FIRE: Police 002; Ambulance 300; Fire 005.
TELEPHONE: Can be connected. No cost for connection.
GENERAL: Port is the most Northern in Finland which under reasonable conditions can be kept open throughout Winter.
AUTHORITY: Harbour Office.

KEMI: 65.44 N. 24.33 E. (See Plan Book)

PILOTAGE: Pilot boards from Lighthouse "Kemi I" or Lighthouse Nukkujanmatala. VHF and radio telephone watch maintained. Pilotage distance: Ajos 17 miles; Veitsiluoto 22 miles.
MAX. SIZE: Sea to Fairway at Ajos. Max. draft 10 m. Sea to Fairway at Veitsiluoto. Max. draft 7.3 m. Also see "Berthing".
TUGS: Icebreaker tugs of 3,500 h.p., 1,300 h.p. and 600 h.p.
BERTHING:

Quays:	*Length (metres)*	*Depth (metres)*	*Permitted draft (metres)*
Oil Quay	90	11.5	10
No. 1	420	7.8–8.8	6.8–7.8
No. 2	315	4.5–9.4	3.9–9.4
No. 3	185	5.9	5.3
No. 4	168	5.9	5.3

CRANES: Mobile cranes. 2×6 tons capacity; 2×55 tons capacity; 18×5–25 tons capacity.
FRESH WATER: Available at Quays Nos. 1 and 2.
FUEL: Available.
DENSITY: Fresh water.
AUTHORITY: Harbour Master and Assistant Harbour Master.

KOKKOLA (Yxpila): 63.50 N. 23.08 E.

DOCUMENTS:
2 Crew Lists
2 Customs Lists
2 Passenger Lists
Manifest. Bill of Lading
Ice Certificate (1st December – 30th April)
PILOTAGE: Pilot boards 2 miles North of Tankar pilot station. Pilot on VHF Channel 16. Distance to port 12 miles.
ANCHORAGE: 1 mile North of the breakwater.
MAX. SIZE: Draft 9.5 m.
TUGS: 2 tugs available, 350 h.p. and 1,500 h.p.
BERTHING:

	Length	*Max. draft*
Shore Quay (South side)	323 m.	9.5 m.
Shore Quay (North side)	100 m.	7.3 m.
Stone pier	137 m.	7.3 m.
Industrial Port	210 m.	9.5 m.
Packhouse Quay	126 m.	4.4 m.
Oil Quay	83 m.	9.5 m.

CRANES: Two 8-ton cranes at Shore Quay. One 10-ton crane at Industrial port: Eight mobile cranes 10–41 tons.
BULK CARGO FACILITIES: Discharging belt for zinc-concentrate at Industrial port. Loading and discharging facilities for fertilisers at Shore quay.
MEDICAL: 6 km. to hospital in Kokkola.
DENSITY: 1002.
FRESH WATER: Available at berths.
FUEL: Available.
AIRPORT: Kronoby 19 km.
DEVELOPMENTS: 150 m. long berth max. draft 9.5 m. to be built at Industrial port.
AUTHORITY: Harbour Master.

KOTKA: 60.28 N. 26.57 E. (See Plan Book)

Crew List.
Passenger List.
1 copy of Cargo Manifest.
1 copy of every Bill of Lading.
Ship's Register.
Ice Certificate.
Customs Manifest for Stores, for ship and individual.
PILOTAGE: On arrival off Orrengrund, contact Orrengrund Pilot by VHF. On arrival off Kotka, contact Harbour Pilot Kotka, VHF Channels 11, 13, 14, 16. Depth in approaches 32 ft. 10 in.
ANCHORAGES: Havouri roads, Kukouri roads and at the entry to the harbour. All 39 ft. 6 in. depths.
MAX. SIZE: Max. draft 32 ft. 10 in.
HEALTH: In case of sickness on board, contact the Agents before entering the port.
RADIO: Kotka Radio call sign OHF.
TUGS: Tugs normally join the vessel in the harbour entrance. Ship's lines are to be used. 3 tugs available, 1,650 h.p., 810 h.p. and 630 h.p.
BERTHING:

Quay	*Permitted Draft (ft.)*	*Length (Metres)*
Central Harbour	16-24	1,000
North Quay	21-33	226

SERVICES: Compass adjusting service available.
SHORE LEAVE: No restrictions.
AUTHORITY: Port Authority of Kotka.

KOVERHAR: 59.52 N. 23.13 E.

DOCUMENTS:

Ship's Register.
Crew List.
Manifests.
Bills of Lading.
Provisions List.
Health Certificate.

PILOTAGE: Compulsory. There are 2 approaches: (1) Via Ajax, max. draft in fairway 33 ft. Pilot arrives from Pilot station at Hanko. Distance to port 11 miles.

(2) Via Hanko, max. draft in fairway is 28 ft. Pilot arrives from Pilot station at Hanko, Tulludden (Tel. Hanko 82246, radio-telephone, VHF). Station has radar. Distance to port 23 miles.

MAX. SIZE: Max. draft alongside quay 30 ft. Max. LOA 190 m. Max. Breadth 23 m. No tide.

RADIO: Cable Agents giving ETA via Hanko and Helsinki Radio.

TUGS:

Kurt 450 h.p.	*Wilpas* 400 h.p.
Ingrid 700 h.p.	*Waija* 1,850 h.p.

BERTHING: Length 250 m., depth 30 ft. Quay 6 ft. above sea level.

New berth, length 120 m., depth 30 ft. Quay 6 ft. above sea level.

CRANES: Two of 13 tons and one of 12.5 tons capacity.

STEVEDORES: Ordered by Agent.

FRESH WATER: Available rate 20 cbm./hr.

OPENING/CLOSING HATCHES: By crew.

CUSTOMS ALLOWANCES: 200 cigarettes and 1 bottle of spirits per man.

IDENTIFICATION CARDS: Not required.

REPAIRS: Small repairs possible.

TIME: GMT plus 2 hours.

POLICE/AMBULANCE/FIRE: Police 002; Ambulance 12660; Fire 43100.

AUTHORITY: Harbour Master.

KRISTINESTAD: 62.16 N. 21.23 E.

DOCUMENTS:

Ship's Measurement Certificate.
2 Crew Lists.
Cargo Manifest.
Copy Bill of Lading
2 Provision Lists and Tobacco Lists for Customs.
Ice Certificate 1.12–3.4.

PILOTAGE: Pilot boards at Hojerstein light buoy. At least 2 hours ETA required. Pilot boat has red painted hull, white marking "L" on bow, and deck house yellow. Pilot station situated on Hoggklubb Island South of Kristinestad, International pilot call signals to be used, also radio telephone 2182 and VHF Channel 16.

ANCHORAGE: Good safe holding ground off Adgrund. Depth 10 m.

MAX. SIZE: For general cargo and timber, 20 ft. draft in old port. For tankers, 33 ft. in the oil port.

See also "Tanker".

RADIO: Messages through coastal stations. also Kristinestad VHF Channel 24.

TUGS: 1 tug available 240 h.p. Additional powerful tugs available with sufficient notice.

BERTHING: No special requirements. Pilot gives orders for berthing.

Inner Wooden Quay. Length 75 m., depth alongside 15 ft.

Outer Stone Quay. Length 250 m., depth alongside 20 ft.

There are 3 mobile cranes of 10 tons capacity.

SPECIALISED CARGO HANDLING FACILITIES: Bulk cargoes can be discharged at quay, 4 portable cranes available. There is one ramp for roll-on/roll-off ships in oil harbour at Bjorno.

STEVEDORES: Advise ETA and gangs required as stipulated in charter-party. Also when laytime will commence to count. Only timber cargoes loaded.

Normal working hours 0700-1600 hrs. all weekdays.

DENSITY: 1004.

MEDICAL: Hospital facilities available.

TANKERS: Oil harbour at Pohjolan Voima Oy, power station at Bjorno. Depth 33 ft. (10 m.) alongside the oil pier. One berth for tankers. Discharge capacity with two 10 in. pipe-lines 2,500 t.p.h. Fresh water supply to tankers available from shore installation rate 30 t.p.h.

FRESH WATER: Fresh water supply by shore installation. Any amount available.

FUEL: Fuel available by tank cars of about 20 tons capacity at short notice.

GANGWAY/DECK WATCHMEN: Not compulsory at Timber Pier. Compulsory in oil harbour, according to rules of Board of Navigation.

OPENING/CLOSING HATCHES: Normally carried out by crew, but on request may be handled by stevedores.

CUSTOMS ALLOWANCES: 200 cigarettes per 6 days, per man. Wine/Spirit allowance: One bottle per man.

CARGO GEAR: BOT Certificates. No additional requirements.

IDENTIFICATION CARDS: Not required.

CONSULS: Danish, tel. 962–12350.

REPAIRS: No shipyards, but welding pipe-line electric repairs possible.

AIRPORT: Nearest airports in Vaasa and Pori within 100 km., several flights per day.

TIME: Local time GMT plus 2 hours.

HOLIDAYS: See "Oulu".

POLICE/AMBULANCE/FIRE: Police Station of Kristinestad 12055 or 002; Ambulance 11626; Fire Brigade 005.

TELEPHONE: Public telephones on the pier.

GENERAL: Timber pier in Port of Kristinestad closed from the end of December to the middle of April owing to ice. Oil port will be kept open according to the general ice situation of Gulf of Bothnia.

SHORE LEAVE: Allowed.

AUTHORITY: Harbour Master.

MANTYLUOTO, Pori (including Reposaari and Tahkoluoto): 61.36 N. 21.29 E. **(See Plan Book)**

PORT LIMITS: The line between the lighthouses on Mantyluoto and Reposaari.

DOCUMENTS:

Ship's Register.
Crew List.
Passenger List.
Customs Documents.
Manifests.
Bills of Lading.

PILOTAGE: Pilot compulsory. Telegr. address: Luotsiasema, Mantyluoto (pilotstation Mantyluoto), VHF Channel 16 or frequency 2182. 24-hr. service by pilot boats from Mantyluoto pilot station, boats red-painted, international light or sound signals. Pilot to be taken 4 miles off Mantyluoto. In heavy fog, if required, pilot station able to navigate vessels into harbour by radar, provided vessel has corresponding equipment.

ANCHORAGES: Reposaari Roads and outside the breakwater.

RESTRICTIONS: Depth in the channel 8.6 m.

MAX. SIZE: No other restrictions, but max. draft 25 ft. (7.6 m.).

Tahkoluoto Oil Harbour: Max. draft: 10.0 m.

Tahkoluoto Bulk Harbour: Max. draft: 10.0 m. Length of the quay 145 m. For self-discharging bulkships only.

Reposaari: Max. draft: 3.9 m.

RADIO: Inform Agents giving ETA via Helsinki Radio, Hanko Radio, or Mariehamn Radio, or VHF Channel 26, Pori.

TUGS: 5 tugs available from 200 h.p. up to 3,520 h.p. Tugs normally join the vessel near the quays. Tugs use ship's lines.

BERTHING:

Quay	*Quay Section*	*Depth of water (at normal water) (m.)*	*(ft.)*

Reposaaren laituri	XII	—	—
Tahkoluodon laituri	XIII	—	—

CARGO HANDLING FACILITIES: Three Ro/Ro berths, 30-ton crane able to handle containers.

Tahkoluoto Bulk Harbour: Equipped with conveyor, rate 1,200 t.p.h.

STEVEDORES: The vessels receive workers in the order in which they enter the harbour. ETA advices appreciated in order to facilitate arranging gangs.

MEDICAL: No advance notice for medical attention required. Hospital facilities available.

DENSITY: 1004.5.

FRESH WATER: Supply by shore installation.

FUEL: All grades available.

GANGWAY/DECK WATCHMEN: Available but not compulsory.

OPENING/CLOSING HATCHES: This work normally carried out by crew.

CERTIFICATES: Load Line Certificate and during Winter season Ice Dues Certificate which issued by authorities for each season.

CONSULS: Vice-Consuls: Britain, tel. 939/443122; Denmark, tel. 939/443122; Netherlands, tel. 939/443222; Norway, tel. 939/443222; Sweden, tel. 939/11141.

REPAIRS: Most repairs possible.

AIRPORT: Distance from airport 22 kms. Served regularly by Finnair.

DEVELOPMENTS: Coal quay under construction at Tahkoluoto. Tahkoluoto may be dredged to 15 m.

TIME: Local time 2 hours ahead of GMT. No seasonal alterations.

GENERAL: Harbour icebreaker "Porin Karhu", 3,500 h.p. available.

AUTHORITY: Porin Kaupungin Satamalaitos, Pori.

MARIEHAMN: 60.06 N. 19.56 E. (See Plan Book)

PORT LIMITS: The Southern boundary of the port is on a line between 60° 03.5′ N., 19° 56.1′ E. and 60° 04.2′ N., 19° 55′ E.

DOCUMENTS:

1 Crew List.
1 Passenger List.
3 Provision Lists.
2 Special Lists (in possession each crew member – cigarettes, tobacco, spirit, radios, etc.).
2 Bills of Lading.
Registered Tonnage Certificate.

PILOTAGE: Pilot arrives from station at Lotsberget in Westerhamn harbour, and meet entering vessels about 2 nautical miles S.W. of Marhallan lighthouse. 3 hours notice of ETA is required. Pilot station and cutter are fitted with VHF-radio and keep watch on Channel 16, 24 hours a day. Working-Channel is 13. Pilot can also be ordered by cable via Mariehamn Radio.

Pilot can also be taken from Nyhamn pilot station 12 miles from the port. Nyhamn has VHF, Radio 2182 kc/s and Radar.

ANCHORAGES: Good anchorages North of Grano Island in 10 to 20 m. water.

MAX. SIZE: Ships of 160 m. length and 7 m. draft can enter the port, but require twin screw and bow thruster for safe manoeuvring.

RADIO: Mariehamn Radio, call/sign OHM on telegraphy and OFH for telephony. Connected to the public telegraph and telephone service.

VHF: Following stations keep watch on VHF Channel 16: Mariehamn Radio, Mariehamns Pilot, Mariehamns Hamn (Harbour Office), Sjobevakningen Mariehamn (The Coast Guard at Mariehamn).

TUGS: 1 tug of 320 h.p. available. The m/s *Gustaf Erikson* belonging to the Alands Lifeboat Society. Usually ships' lines are used.

BERTHING: *Quays for Passenger Vessels:*

Berth No.	*Length* (m.)	*Depth* (m.)	*Remarks*
1A	100	5.0	
1B	150	6.0	
2	120	3.5	
3	70	6.0	
4	120	6.5	Fitted for Ro/Ro traffic.
5	140	7.0	

Power Station Pier: Depth 5.0 m.

CRANES: 7 mobile cranes can be rented. Maximum lift, 2 cranes of 25 tons and 5 of 16 tons on the shortest radius.

SPECIALISED CARGO-HANDLING FACILITIES: 2 berths for roll-on roll-off traffic, used by car ferries.

STEVEDORES: Ordered by Agents. ETA in good time to obtain gangs.

DENSITY: 1005.

TANKERS: Max. LOA 100 m. Depth alongside 5.5 m.

MEDICAL: All services available.

FRESH WATER: Most berths supplied by shore installations about 15 t.p.h., otherwise by truck.

FUEL: Only diesel oil, no heavy products.

GANGWAY/DECK WATCHMEN: Available but not necessary.

OPENING/CLOSING HATCHES: Normally done by crew.

CERTIFICATES: International Tonnage Certificate or National Tonnage Certificate.

CUSTOMS ALLOWANCES: 200 cigarettes and limited amount spirits for each crew member.

CREW IDENTIFICATION CARDS: Not needed for Scandinavian citizens. Passports for all others.

CONSULS: Denmark 11 454, Holland 12 070, Iceland 21 849, Norway 12 050, Sweden 11 624, U.S.S.R. 11 524, West Germany 11 410.

REPAIRS: Most repairs possible.

DRY DOCKS: Slipway for small vessels, max. about 3-400 d.w.t.

SURVEYORS: No permanent surveyors at Mariehamn.

REPATRIATION: Mariehamn is a good place for repatriation, with many connections to Sweden and to the Finnish mainland every day, with car-ferries and aeroplanes. About 1 million tourists are visiting Aland Island every year.

AIRPORT: About 5 km. from town, daily traffic to Stockholm and Abo/Turku.

TIME: GMT plus 2 hours.

HOLIDAYS: See "Oulu".

POLICE/AMBULANCE/FIRE: Police 002 or 11 126; Ambulance 005, Fire 005 or 11 000.

TELEPHONES: Available at berths for passenger ships. Connection will cost 200 Fmk. year 1980.

AUTHORITY: Harbour Master, Port of Mariehamn.

NAANTALI: 60.28 N. 22.01 E. (See Plan Book)

DOCUMENTS:

Health Certificate.
Crew List.
Passenger List.
Dangerous Cargo List.
Ship's Register.

PILOTAGE: Pilot compulsory at Uto Pilot station. When approaching Uto communicate with VHF Channel 16. ETA, name of vessel, destination, draft. Change of Pilot takes place in Lohm. Harbour Pilots available at the port. Distance Uto-Lohm, 25 miles. Lohm-Naantali, 28 miles.

ANCHORAGE: Good safe anchorage in harbour area. Max. draft for vessels 10 m.

MAX. SIZE: Maximum permissible length for tankers 210 m., main quay – maximum length for any vessel 150 m.

HEALTH: International Quarantine flag required in case of suspected disease or fever including preliminary report by VHF, otherwise ask Agent.

RADIO: Hanko Radio; Mariehamn Radio; VHF Turku 26; VHF Mariehamn 27; VHF Korppoo 23.

VHF: Communication on Channel 16, own working Channel 11.

RADAR: When Radar Service needed, ask Agent.

TUGS: Harbour icebreaker tug *Naantali* 1,200 h.p., equipped with bow steering propeller. Use ship's lines. Additional tugs on application from Turku.

BERTHING: No special requirements. Harbour/Drafts: No tide. Main quay, length 275 m., draft 10 m. Timber quay, length 80 m., draft 6.7 m. 3 car-ferry piers, length 80 m./125 m./95 m., drafts 9 m./6.4 m./6.6 m. Lubricating Oil pier/Car Ferry pier, length 95 m., draft 6.6 m. Sugar quay, length 35 m., draft 4.5 m.

CRANES: 2 cranes owned by electric powerplant of 6 tons each and heavy-lift of 200 tons.

BULK CARGO FACILITIES: Grain handled by two pneumatic elevators and belt conveyor, Loading/Discharging 200 t.p.h., maximum reach for outlet/inlet 13 m. and 16 m., maximum height above quay level 8 m. and 9 m. when loading, discharging limits are 10 m. and 11 m., 135 m. of main quay intended to be for handling of grain, 120 m. for coal,, which is handled by 2 cranes of 6 tons each and belt conveyor, discharging rate about 300 t.p.h.

SPECIALISED CARGO-HANDLING FACILITIES: Roll-on/roll-off traffic possibility.

STEVEDORES: Available, ordered by Agent.

MEDICAL: Advise by radio prior arrival if medical attendance required aboard.

TANKERS: Oil Harbour, Neste Oy. Discharge lines ashore 10 in., 12 in., 18 in., Diameter of cargo hoses and respective draft of tanker berths:

Berth No. 1, 6 in., 5.7 m.
Berth No. 2, 10 in., 10.0 m.
Berth No. 3, 8 in., 10 in., 12 in., 11.5 m.

DENSITY: 1007.

FRESH WATER: Supplied by shore installations at most berths.

FUEL: All grades available.

FIRE PRECAUTIONS: Usual precautions.

GANGWAY/DECK WATCHMEN: Available. Tankers compulsory.

OPENING/CLOSING HATCHES: Normally carried out by crew.

CUSTOMS ALLOWANCE: 200 cigarettes/200 gm. tobacco and 1 bottle spirits/wine,

1B	150	6.0	
2	120	3.5	
3	70	6.0	
4	120	6.5	Fitted for Ro/Ro traffic.
5	140	7.0	

Power Station Pier: Depth 5.0 m.

CRANES: 7 mobile cranes can be rented. Maximum lift, 2 cranes of 25 tons and 5 of 16 tons on the shortest radius.

SPECIALISED CARGO-HANDLING FACILITIES: 2 berths for roll-on roll-off traffic, used by car ferries.

STEVEDORES: Ordered by Agents. ETA in good time to obtain gangs.

DENSITY: 1005.

TANKERS: Max. LOA 100 m. Depth alongside 5.5 m.

MEDICAL: All services available.

FRESH WATER: Most berths supplied by shore installations about 15 t.p.h., otherwise by truck.

FUEL: Only diesel oil, no heavy products.

GANGWAY/DECK WATCHMEN: Available but not necessary.

OPENING/CLOSING HATCHES: Normally done by crew.

CERTIFICATES: International Tonnage Certificate or National Tonnage Certificate.

CUSTOMS ALLOWANCES: 200 cigarettes and limited amount spirits for each crew member.

CREW IDENTIFICATION CARDS: Not needed for Scandinavian citizens. Passports for all others.

CONSULS: Denmark 11 454, Holland 12 070, Iceland 21 849, Norway 12 050, Sweden 11 624, U.S.S.R. 11 524, West Germany 11 410.

REPAIRS: Most repairs possible.

DRY DOCKS: Slipway for small vessels, max. about 3-400 d.w.t.

SURVEYORS: No permanent surveyors at Mariehamn.

REPATRIATION: Mariehamn is a good place for repatriation, with many connections to Sweden and to the Finnish mainland every day, with car-ferries and aeroplanes. About 1 million tourists are visiting Aland Island every year.

AIRPORT: About 5 km. from town, daily traffic to Stockholm and Abo/Turku.

TIME: GMT plus 2 hours.

HOLIDAYS: See "Oulu".

POLICE/AMBULANCE/FIRE: Police 002 or 11 126; Ambulance 005, Fire 005 or 11 000.

TELEPHONES: Available at berths for passenger ships. Connection will cost 200 Fmk. year 1980.

AUTHORITY: Harbour Master, Port of Mariehamn.

NAANTALI: 60.28 N. 22.01 E. (See Plan Book)

DOCUMENTS:

Health Certificate.
Crew List.
Passenger List.
Dangerous Cargo List.
Ship's Register.

PILOTAGE: Pilot compulsory at Uto Pilot station. When approaching Uto communicate with VHF Channel 16. ETA, name of vessel, destination, draft. Change of Pilot takes place in Lohm. Harbour Pilots available at the port. Distance Uto-Lohm, 25 miles. Lohm-Naantali, 28 miles.

ANCHORAGE: Good safe anchorage in harbour area. Max. draft for vessels 10 m.

MAX. SIZE: Maximum permissible length for tankers 210 m., main quay – maximum length for any vessel 150 m.

HEALTH: International Quarantine flag required in case of suspected disease or fever including preliminary report by VHF, otherwise ask Agent.

RADIO: Hanko Radio; Mariehamn Radio; VHF Turku 26; VHF Mariehamn 27; VHF Korppoo 23.

VHF: Communication on Channel 16, own working Channel 11.

RADAR: When Radar Service needed, ask Agent.

TUGS: Harbour icebreaker tug *Naantali* 1,200 h.p., equipped with bow steering propeller. Use ship's lines. Additional tugs on application from Turku.

BERTHING: No special requirements. Harbour/Drafts: No tide. Main quay, length 275 m., draft 10 m. Timber quay, length 80 m., draft 6.7 m. 3 car-ferry piers, length 80 m./125 m./95 m., drafts 9 m./6.4 m./6.6 m. Lubricating Oil pier/Car Ferry pier, length 95 m., draft 6.6 m. Sugar quay, length 35 m., draft 4.5 m.

CRANES: 2 cranes owned by electric powerplant of 6 tons each and heavy-lift of 200 tons.

BULK CARGO FACILITIES: Grain handled by two pneumatic elevators and belt conveyor, Loading/Discharging 200 t.p.h., maximum reach for outlet/inlet 13 m. and 16 m., maximum height above quay level 8 m. and 9 m. when loading, discharging limits are 10 m. and 11 m., 135 m. of main quay intended to be for handling of grain, 120 m. for coal,, which is handled by 2 cranes of 6 tons each and belt conveyor, discharging rate about 300 t.p.h.

SPECIALISED CARGO-HANDLING FACILITIES: Roll-on/roll-off traffic possibility.

STEVEDORES: Available, ordered by Agent.

MEDICAL: Advise by radio prior arrival if medical attendance required aboard.

TANKERS: Oil Harbour, Neste Oy. Discharge lines ashore 10 in., 12 in., 18 in., Diameter of cargo hoses and respective draft of tanker berths:

Berth No. 1, 6 in., 5.7 m.
Berth No. 2, 10 in., 10.0 m.
Berth No. 3, 8 in., 10 in., 12 in., 11.5 m.

DENSITY: 1007.

FRESH WATER: Supplied by shore installations at most berths.

FUEL: All grades available.

FIRE PRECAUTIONS: Usual precautions.

GANGWAY/DECK WATCHMEN: Available. Tankers compulsory.

OPENING/CLOSING HATCHES: Normally carried out by crew.

CUSTOMS ALLOWANCE: 200 cigarettes/200 gm. tobacco and 1 bottle spirits/wine,

IDENTIFICATION CARDS: Not required.

Tahkoluoto Bulk Harbour: Equipped with conveyor, rate 1,200 t.p.h.

STEVEDORES: The vessels receive workers in the order in which they enter the harbour. ETA advices appreciated in order to facilitate arranging gangs.

MEDICAL: No advance notice for medical attention required. Hospital facilities available.

DENSITY: 1004.5.

FRESH WATER: Supply by shore installation.

FUEL: All grades available.

GANGWAY/DECK WATCHMEN: Available but not compulsory.

OPENING/CLOSING HATCHES: This work normally carried out by crew.

CERTIFICATES: Load Line Certificate and during Winter season Ice Dues Certificate which issued by authorities for each season.

CONSULS: Vice-Consuls: Britain, tel. 939/443122; Denmark, tel. 939/443122; Netherlands, tel. 939/443222; Norway, tel. 939/443222; Sweden, tel. 939/11141.

REPAIRS: Most repairs possible.

AIRPORT: Distance from airport 22 kms. Served regularly by Finnair.

DEVELOPMENTS: Coal quay under construction at Tahkoluoto. Tahkoluoto may be dredged to 15 m.

TIME: Local time 2 hours ahead of GMT. No seasonal alterations.

GENERAL: Harbour icebreaker "Porin Karhu", 3,500 h.p. available.

AUTHORITY: Porin Kaupungin Satamalaitos, Pori.

MARIEHAMN: 60.06 N. 19.56 E. **(See Plan Book)**

PORT LIMITS: The Southern boundary of the port is on a line between 60° 03.5′ N., 19° 56.1′ E. and 60° 04.2′ N., 19° 55′ E.

DOCUMENTS:

1 Crew List.
1 Passenger List.
3 Provision Lists.
2 Special Lists (in possession each crew member – cigarettes, tobacco, spirit, radios, etc.).
2 Bills of Lading.
Registered Tonnage Certificate.

PILOTAGE: Pilot arrives from station at Lotsberget in Westerhamn harbour, and meet entering vessels about 2 nautical miles S.W. of Marhallan lighthouse. 3 hours notice of ETA is required. Pilot station and cutter are fitted with VHF-radio and keep watch on Channel 16, 24 hours a day. Working-Channel is 13. Pilot can also be ordered by cable via Mariehamn Radio.

Pilot can also be taken from Nyhamn pilot station 12 miles from the port. Nyhamn has VHF, Radio 2182 kc/s and Radar.

ANCHORAGES: Good anchorages North of Grano Island in 10 to 20 m. water.

MAX. SIZE: Ships of 160 m. length and 7 m. draft can enter the port, but require twin screw and bow thruster for safe manoeuvring.

RADIO: Mariehamn Radio, call/sign OHM on telegraphy and OFH for telephony. Connected to the public telegraph and telephone service.

VHF: Following stations keep watch on VHF Channel 16: Mariehamn Radio, Mariehamns Pilot, Mariehamns Hamn (Harbour Office), Sjobevakningen Mariehamn (The Coast Guard at Mariehamn).

TUGS: 1 tug of 320 h.p. available. The m/s *Gustaf Erikson* belonging to the Alands Lifeboat Society. Usually ships' lines are used.

BERTHING: *Quays for Passenger Vessels:*

Berth No.	*Length* (m.)	*Depth* (m.)	*Remarks*
1A	100	5.0	
1B	150	6.0	
2	120	3.5	
3	70	6.0	
4	120	6.5	Fitted for Ro/Ro traffic.
5	140	7.0	

Power Station Pier: Depth 5.0 m.

CRANES: 7 mobile cranes can be rented. Maximum lift, 2 cranes of 25 tons and 5 of 16 tons on the shortest radius.

SPECIALISED CARGO-HANDLING FACILITIES: 2 berths for roll-on roll-off traffic, used by car ferries.

STEVEDORES: Ordered by Agents. ETA in good time to obtain gangs.

DENSITY: 1005.

TANKERS: Max. LOA 100 m. Depth alongside 5.5 m.

MEDICAL: All services available.

FRESH WATER: Most berths supplied by shore installations about 15 t.p.h., otherwise by truck.

FUEL: Only diesel oil, no heavy products.

GANGWAY/DECK WATCHMEN: Available but not necessary.

OPENING/CLOSING HATCHES: Normally done by crew.

CERTIFICATES: International Tonnage Certificate or National Tonnage Certificate.

CUSTOMS ALLOWANCES: 200 cigarettes and limited amount spirits for each crew member.

CREW IDENTIFICATION CARDS: Not needed for Scandinavian citizens. Passports for all others.

CONSULS: Denmark 11 454, Holland 12 070, Iceland 21 849, Norway 12 050, Sweden 11 624, U.S.S.R. 11 524, West Germany 11 410.

REPAIRS: Most repairs possible.

DRY DOCKS: Slipway for small vessels, max. about 3-400 d.w.t.

SURVEYORS: No permanent surveyors at Mariehamn.

REPATRIATION: Mariehamn is a good place for repatriation, with many connections to Sweden and to the Finnish mainland every day, with car-ferries and aeroplanes. About 1 million tourists are visiting Aland Island every year.

AIRPORT: About 5 km. from town, daily traffic to Stockholm and Abo/Turku.

TIME: GMT plus 2 hours.

HOLIDAYS: See "Oulu".

POLICE/AMBULANCE/FIRE: Police 002 or 11 126; Ambulance 005, Fire 005 or 11 000.

TELEPHONES: Available at berths for passenger ships. Connection will cost 200 Fmk. year 1980.

AUTHORITY: Harbour Master, Port of Mariehamn.

NAANTALI: 60.28 N. 22.01 E. **(See Plan Book)**

DOCUMENTS:

Health Certificate.
Crew List.
Passenger List.
Dangerous Cargo List.
Ship's Register.

PILOTAGE: Pilot compulsory at Uto Pilot station. When approaching Uto communicate with VHF Channel 16. ETA, name of vessel, destination, draft. Change of Pilot takes place in Lohm. Harbour Pilots available at the port. Distance Uto-Lohm, 25 miles. Lohm-Naantali, 28 miles.

ANCHORAGE: Good safe anchorage in harbour area. Max. draft for vessels 10 m.

MAX. SIZE: Maximum permissible length for tankers 210 m., main quay – maximum length for any vessel 150 m.

HEALTH: International Quarantine flag required in case of suspected disease or fever including preliminary report by VHF, otherwise ask Agent.

RADIO: Hanko Radio; Mariehamn Radio; VHF Turku 26; VHF Mariehamn 27; VHF Korppoo 23.

VHF: Communication on Channel 16, own working Channel 11.

RADAR: When Radar Service needed, ask Agent.

TUGS: Harbour icebreaker tug *Naantali* 1,200 h.p., equipped with bow steering propeller. Use ship's lines. Additional tugs on application from Turku.

BERTHING: No special requirements. Harbour/Drafts: No tide. Main quay, length 275 m., draft 10 m. Timber quay, length 80 m., draft 6.7 m. 3 car-ferry piers, length 80 m./125 m./95 m., drafts 9 m./6.4 m./6.6 m. Lubricating Oil pier/Car Ferry pier, length 95 m., draft 6.6 m. Sugar quay, length 35 m., draft 4.5 m.

CRANES: 2 cranes owned by electric powerplant of 6 tons each and heavy-lift of 200 tons.

BULK CARGO FACILITIES: Grain handled by two pneumatic elevators and belt conveyor, Loading/Discharging 200 t.p.h., maximum reach for outlet/inlet 13 m. and 16 m., maximum height above quay level 8 m. and 9 m. when loading, discharging limits are 10 m. and 11 m., 135 m. of main quay intended to be for handling of grain, 120 m. for coal,, which is handled by 2 cranes of 6 tons each and belt conveyor, discharging rate about 300 t.p.h.

SPECIALISED CARGO-HANDLING FACILITIES: Roll-on/roll-off traffic possibility.

STEVEDORES: Available, ordered by Agent.

MEDICAL: Advise by radio prior arrival if medical attendance required aboard.

TANKERS: Oil Harbour, Neste Oy. Discharge lines ashore 10 in., 12 in., 18 in., Diameter of cargo hoses and respective draft of tanker berths:

Berth No. 1, 6 in., 5.7 m.
Berth No. 2, 10 in., 10.0 m.
Berth No. 3, 8 in., 10 in., 12 in., 11.5 m.

DENSITY: 1007.

FRESH WATER: Supplied by shore installations at most berths.

FUEL: All grades available.

FIRE PRECAUTIONS: Usual precautions.

GANGWAY/DECK WATCHMEN: Available. Tankers compulsory.

OPENING/CLOSING HATCHES: Normally carried out by crew.

CUSTOMS ALLOWANCE: 200 cigarettes/200 gm. tobacco and 1 bottle spirits/wine,

IDENTIFICATION CARDS: Not required.

CONSULS: In Turku 17 km. away.

REPAIRS: Small repairs can be carried out, ask Agent.

DRY DOCKS: None, See Turku. Naantali, Oy Navire Ab Navire yard, new buildings, main dimension of building dock 220 m. × 70 m., outfitting dock 180 m. × 125 m., sill depth 8.2 m.

SURVEYORS: Ask Agent.

CARGO GEAR: Heavy-lift crane of 200 tons, max. reach 9.1 m., max. lifting height 18 m. from quay level.

REPATRIATION: Good connections everywhere.

AIRPORTS: 20 km. distant. Regular service.

TIME: GMT plus 2 hours.

HOLIDAYS: New Year's Day, Epiphany, Good Friday, Easter Monday, Labour Day, Whit Monday, Midsummer, All Saints' Day, Independence Day, (6th December), Christmas.

TELEPHONES: A telephone connection available at Main quay.

SERVICES: Facilities for discharge of tank-washings, 10,000 cu. m. (Oil Harbour). Compass adjusting, ask Agent.

SHORE LEAVE: No restrictions for crew members.

IDENTIFICATION CARDS: Not required.

REGULATIONS: Oil pollution strictly prohibited, as well as all kind of dirt.

DELAYS: Usually no delays.

POLICE/AMBULANCE/FIRE: Police 751 133; Ambulance 751 123, Fire Brigade 005.

AUTHORITY: Harbour Manager, Naantalin Satamalaitos.

OULU: 65.02 N. 25.26 E. **(See Plan Book)**

PORT LIMITS: The seaward boundary of the port is drawn West of Oulu Roads. The arriving vessel passing the line Hermanni Island – Kyrokari Ice Buoy is inside the boundaries and if necessary to anchor on the roads, is considered to be an "arrived vessel".

Port consists of four separate parts Toppila, Nuottasaari, Oritkari and Vihreasaari harbours.

DOCUMENTS:

2 Crew Lists.
2 Passenger Lists.
Customs Documents.
2 Crew Bond Declarations.
2 Ships bond-store Lists.
Derating Certificate.
4 Manifests.
2 Bills of Lading.
Ship's Register, Certificate of tonnage.

PILOTAGE: Vessel requiring Pilot applies from Marjaniemi. Pilot station, Lat. 65° 02′ 4″ N., Long. 24° 34′ E., near West point of Hailuoto Island. Pilots require 12 hours notice of ETA to Peltinmatala lightbuoy (Pilots) or to alternative position 3 miles North of Kelmi lightbuoy. Pilot boat red coloured displaying usual international pilot signs. Pilot station equipped with HF (2182) and VHF, listening on Channels 16 and 13, radar and RC. Morse signalling by light. No specific requirements on part of Pilots boarding, only safe pilot ladder according to rules. Anchorage near lightbuoy Peltinmatala, when awaiting for Pilot in fine weather; in bad weather advisable to ride against weather and wind. Pilot for Oulu can also be obtained near the "Kemi 1" light-tower. Vessels with a draft more than 8.0 m. must use this fairway and apply for Pilot either from Marjaniemi or "Kemi 1" pilot station, wireless 2182 or VHF 16 and 13.

ANCHORAGE: Safe anchorage on Oulu roads. There are no safe anchorages West of Hailuoto Island.

RESTRICTIONS: Day and night service, no tides. Winter season, contact ice-breaker 24 hours in advance on HF (2182), or VHF Channel 16.

MAX. SIZE: *Marjaniemi Fairway:* 8.0 m. *Kemi Fairway:* 10.0 m.

Toppila Harbour: Toppila Quay depth 6.1 m., Hietasaari Quay, depth 6.1 m.

Oritkari Harbour: Main Quay, depth 9.0 m. Stern Door Quay, depth 7.0 m.

Nuottasaari Harbour: Main and Waiting Quay, depth 6.4 m.

Vihreasaari Harbour: Oil Quay, length 72 m., depth 10.0 m. Bulk Quay, length 150 m., depth 10.0 m.

Also see "Berthing".

HEALTH: No special rules existing in obtaining pratique. If disease or fever is suspected on board report to ship's Agent; will contact the Health Authority for necessary arrangements.

RADIO: Vaasa Radio (North Quarken). Close to Hailuoto Island call "Oulu Radio" VHF Channel 27 or Channel 24.

RADAR/VHF: At Marjaniemi Pilot station, radar range 30 miles. Contact with HF (2182) or VHF (Channel 16). All ice-breakers keep watch on frequency 2182 and VHF (16).

TUGS: Tug optional, but for vessels over 140 m. long use is advisable. Tug will meet on Oulu Roads according to agreement; customary to use ship's lines.

BERTHING: *Toppila Harbour:* Depth 5.0–6.1 m. Toppila Quay length 992 m. Hietasaari Quay length 600 m.

Nuottasaari Harbour: Main Quay, length 320 m. Waiting Quay, length 130 m.

Oritkari Harbour: Main Quay, length 270 m. Stern Door Quay, length 85 m.

Vihreasaari Harbour: Oil Quay, length 72 m. Bulk Quay, length 150 m.

CRANES:

	No.	*Capacity (tons)*	*Reach of arm (m.)*	*Type*
Nuottasaari Harbour	1	5	12	Movable
Toppila	1	5	12	,,
Toppila	1	3	12	,,
Vihreasaari	1	6	22	,,
Vihreasaari	1	8	26	,,

CARGO HANDLING FACILITIES: Toppila Harbour is equipped with 2 cranes, Vihreasaari Harbour with 2 cranes and Nuottasaari Harbour with 1 crane to load and discharge bulk cargoes and general cargoes with hook. 10 moveable mobile cranes available from stevedores in all ports.

Roll-on/roll-off berth is adjacent to the Oritkari Harbour.

Oritkari Harbour is built to mechanically handle paper cargoes.

Free zone warehouse in Toppila (700 sq.m.) and free zone area in Oritkari (18,000 sq.m.). Warehouses in Toppila and Oritkari of 31,500 sq.m. There is a large amount of open storage in all harbours.

BRIDGES: No bridges. Electric cable across Toppila fairway, 50 m. above water.

STEVEDORES: 24 hours' notice of ETA to be given to Agent who arranges necessary gangs.

MEDICAL: Medical attention arranged through Agent, 2–4 hours notice required. Good hospital facilities available.

TANKERS: One principal tanker berth in Vihreasaari Oil Harbour, depth 10.0 m. Discharge lines of 12, 14 and 18 in. Pressure 10 k./sq.cm.

DENSITY: Fresh water.

FRESH WATER: Available at main berths and Oil Harbour from pipe-line, cost about 9.00 mk/ton. Elsewhere water is delivered by boat, cost about 10.00 mk/ton.

FUEL: Small quantities of all grades available, deliveried by lorries.

DEVELOPMENTS: The second stage of the Oritkari Main Quay will be completed in 1983. The length of the new quay is 250 m. and allowed draft 10 m. The quay is specially designed for general cargo and there will be ro/ro and container facilities.

A new shelter for timber will be built in 1982.

GANGWAY/DECK WATCHMEN: Watchmen recommended.

OPENING/CLOSING HATCHES: Normally carried out by crew. Stevedores will do it by order of Master and will charge as shipwork.

CUSTOMS ALLOWANCES: Tobacco: 200 cigarettes or 200 gm. pipe tobacco or equal amount of cigars allowed to each member of crew. Wine and/or Spirit: One bottle wine or spirit allowed for each member of the crew.

CERTIFICATES:

Nationality Certificate.
Measuring Certificate.
Load-line Certificate.
Classification Certificate.
Safety Equipment Certificate.
Radio Safety Certificate.
Derating Certificate.

CARGO GEAR: Tested cargo gear to international safety regulations. Test certificates to be on board vessel.

IDENTIFICATION CARDS: Not needed.

CONSULS: Sweden, Norway, Denmark, Great Britain and Netherlands.

REPAIRS: Minor deck and engine repairs carried out. Docking only for small tug boats.

SERVICES: Compass adjusters and ship's cleaning.

DRY DOCKS: One small slipway. Max. vessels of 25 m. length and 8 ft. draft.

REPATRIATION: Good facilities for effecting crew changes and to arrange necessary repatriation.

AIRPORT: Oulu Airport 15 km. from harbour served by regular airlines. Six daily flights to Helsinki and six flights from Helsinki to Oulu with continuous connection to Kemi and Rovaniemi.

TIME: Local time GMT plus 2 hours.

HOLIDAYS: General holidays in Finland: New Year's Day (January 1st); Good Friday; Easter Monday; Labour Day (May 1st); Independence Day (December 6th); Christmas Day (December 25th); Boxing Day (December 26th).

POLICE/AMBULANCE/FIRE: Fire 005, Reserve 006; Ambulance 006, Reserve 005; Police 002, Reserve 003.

TELEPHONES: A telephone connection available in all harbours.

AUTHORITY: Port of Oulu Authority, Harbour Office of Oulu.

PARGAS: 60.18 N. 22.18 E. (See Plan Book)

DOCUMENTS:

3 Crew Lists.
1-2 Custom Provision Lists.
1-2 Custom Special Lists.
2 Passenger Lists.
2 Copies each Bill of Loading.
Tonnage Certificate and in special instances other regular documents.

PILOTAGE: On arrival at Pargas, from Gulf of Finland, from Baltic via Uto, from Gulf of Bothnia via Enskar, information of ETA to be given in good time to respective Pilot stations. VHF Channel 16 for calling, 13 for further communication. Charge for piloting in accordance with official Finnish tariff. Harbour Pilot available, but not compulsory, and can be ordered through Sea Pilot.

ANCHORAGES: Well sheltered and safe anchorage, immediately outside harbour area.

MAX. SIZE: Maximum depth both in channel and along quay 6.70 m. As regards length of quay and possibilities for a quick dispatch, it is desirable (though not an absolute stipulation) that discharging vessel be a bulk carrier with the engines aft.

HEALTH: Free pratique automatic for all vessels, but temporary exceptions in and according to regulations issued by W.H.O. and Authorities may occur.

RADIO: Radio-telephone contact with Agent and consignee/ shipper is obtained via Mariehamn, radio-call 2196 kHz, reply 1852 OHF; or via Hango, radio-call 1967 kHz, reply 2649 OFO. Contact with VHF is ordered via Abo, Channel 26.

TUGS: A small motor tug of 200 h.p. available.

BERTHING: Directions to berth via nearest Pilot station, Pargasport. Quay level above water 1-2 m., dependent on berth.

Length of quays, 800 m. 2 electric coal-discharging bucket cranes and one electric conveyor belt.

STEVEDORES: Arrangements will be made by Agent, who must be advised of ETA previous day to enable arrange men, trucks, etc.

MEDICAL: Medical officer available locally. Necessary examination and taking of tests usually done in Abo. Regular appointment with local physician can be arranged by telephone with Agent or doctor.

DENSITY: Brackish water 1002.

FRESH WATER: Delivery from installation on quay.

FUEL: No local supply. In case of need delivery by truck from Abo.

GANGWAY/DECK WATCHMEN: Available but not necessary.

OPENING/CLOSING HATCHES: Must always be performed by crew.

CERTIFICATES: Normally tonnage certificate only but in special instances other regular ship's documents may also be needed.

CUSTOMS ALLOWANCES: Tobacco, Wine and/or Spirits. In accordance with the decision of Customs authorities.

IDENTIFICATION CARDS: Not required.

CONSULS: See "Turku".

REPAIRS: Facilities for arranging small repairs on deck and engine in Pargas, but usually carried out by reliable companies in Abo.

DRY DOCKS: No local docking facilities. See "Turku".

AIRPORT: Nearest airport in Abo. Distance about 25 km.

TIME: Local time/GMT plus 2 hours.

HOLIDAYS: New Year's Day (1st January), Epiphany (6th January), Good Friday, Easter Monday, Labour Day (1st May), Ascension Day, Whit Monday, Midsummer (2 days), All Saints' Day, Independence Day (6th December), Christmas (25th December). Work in harbour carried out during these days only under very pressing circumstances.

POLICE/AMBULANCE/FIRE: Police 744048; Ambulance 744064; Fire 005; Life-saving Corps 356595.

TELEPHONE: No facilities for placing telephone on board. Telephone available on quayside.

SHORE LEAVE: No restrictions for crew members.

DELAYS: Vessels dispatched in order of arrival. Usually no delays occur as work has generally been carried out within the time limit stipulated in C/P. Port activity aimed at good dispatch of vessels, and consequently work in 2 shifts has been arranged.
AUTHORITY: Port owned by Oy Partek Ab.

PATENIEMI: 65.06 N. 25.23 E. (See Plan Book)

OPERATORS: Oulu Osakeyhtio Sawmill. Port used for export of timber only, about 160,000 cu.m. per year. 12 km. North of Oulu.
DOCUMENTS:
2 Crew Lists.
2 Passenger Lists.
Customs Documents.
2 Crew Bond Declarations.
2 Ship's Bond Store Lists.
Derating Certificate.
4 Manifests.
2 Bills of Lading.
Ship's Register, Certificate of Tonnage.
PILOTAGE: Pilot station at Marjaniemi. Marjaniemi – Oulu Roads 40 n. miles 23 ft. depth. Oulu Roads – Pateniemi 6.3 m. depth.
ANCHORAGES: Safe anchorage on Oulu roads. There are no safe anchorages West of the Hailuoto Island.
RESTRICTIONS: Day and night service, no tides. Winter season, contact ice-breaker 24 hours in advance on HF (2182), or VHF Channel 16.
MAX. SIZE: Only dry-cargo vessels use this terminal. Max. draft 6.3 m. For length no restriction. Ship of 15,400 d.w.t. has entered.
HEALTH: No special rules existing in obtaining pratique. If fever or disease suspected on board to be reported to ship's Agent, he will contact Health Authority for necessary arrangements.
RADIO: "Vaasa Radio" (North Quarken). Approaching Oulu contact Agent through "Vaasa Radio". Close to Hailuoto Island call "Oulu Radio" VHF Station, Channel 27.
RADAR/VHF: At Marjaniemi Pilot station, radar range 30 miles. Contact with HF (2182) or VHF (Channel 16). All ice-breakers keep watch on frequency 2182 and VHF (16).
TUGS: Tug optional, but for vessels over 140 m. length the use is advisable. Tug will meet on Oulu Roads, according to agreement. Customary to use ship's lines.
BERTHING: Pier extends for 612 m. enabling 8 vessels of medium size to load simultaneously at quay. Depth at quays is from 20 to 23 ft.
STEVEDORES: 24 hours notice of ETA to be given to Agent, who arranges necessary gangs.
MEDICAL: Medical attention arranged through Agent. 2–4 hours notice required. Good hospital facilities available.
DENSITY: Fresh water.
FRESH WATER: Available at main berths delivered by boat and from pipe-line.
FUEL: Small quantities of all grades available, delivered by lorries.
FIRE PRECAUTIONS: Smoking prohibited in timber yards.
GANGWAY/DECK WATCHMEN: Recommended.
OPENING/CLOSING HATCHES: Normally carried out by crew. Stevedores will do it by order of Master and will charge as ship work.
CERTIFICATES:
Nationality Certificate.
Measuring Certificate.
Load Line Certificate.
Classification Certificate.
Safety Equipment Certificate.
Radio Safety Equipment.
Derating Certificate.
CUSTOMS ALLOWANCES: Tobacco: 200 cigarettes or 200 gm. pipe tobacco or equal amount of cigars allowed to each member of crew. Wine and/or Spirit: 1 bottle wine or spirits is allowed for each member of the crew.
CARGO GEAR: Tested cargo gear to international safety regulations. Test certificates to be on board.
IDENTIFICATION CARDS: Not needed.
CONSULS: British (Consul), Danish, French, Dutch, Norwegian and Swedish Vice-Consuls at Oulu.
SERVICES: Compass adjusters and ship's cleaning (no tank-washing).
REPATRIATION: Good facilities for effecting crew changes and to arrange necessary repatriations.
AIRPORT: Oulu Airport 15 kms. from harbour served by regular airlines. 6 daily flights to Helsinki and 6 flights from Helsinki to Oulu with continuous connection to Kemi and Rovaniemi.
TIME: Local time GMT plus 2 hours.
HOLIDAYS: General Holidays in Finland: New Year's Day (January 1st); Epiphany (January 6th); Good Friday; Easter Monday; Labour Day (May 1st); Ascension Day (May 23rd); Whit Monday; Midsummer Day (June 22nd); All Saints' Day (November 2nd); Independence Day (December 6th); Christmas Day (December 25th); Boxing Day (December 26th).
POLICE/AMBULANCE/FIRE: Fire 005, Reserve 006; Ambulance 006, Reserve 005; Police tel. 002, Reserve 003.
REGULATIONS: Oil pollution strictly prohibited. Considerable timber lying in water and damages are ship's responsibility.
SHORE LEAVE: Crew members allowed ashore without restrictions.
AUTHORITY: Harbour Office of Oulu.

PORKKALA (Kantvik): 60.05 N. 24.23 E. (See Plan Book)

Documents and all general information, refer to "Helsinki".
PILOTAGE: A Pilot can be obtained from the Pilot Station of Porkkala, Tel. 90–2984 112 or VHF Channels 13 and 16. Distance to port about 14 miles. Pilotage in the harbour area may be carried out only by State-appointed Pilots. Pilotage in the harbour is not obligatory.
MAX. SIZE: Maximum draft 30 ft. 2 in. (9.2 m.).
APPROACHES: There are four official ship routes leading to the port of Porkkala (Kantvik) of Suomen Sokeri Osakeyhtio. The deepest one is 9.2 m. (30 ft.) and the shallowest one is 5.5 m. (18 ft.). The port does not have an ice-breaker of its own and the fairway is kept open by means of the State's ice-breakers.
CLEARANCE: The customs formalities of the port are attended to by the Custom House of Helsinki.
TUGS: A small motor tug of 200 h.p. available. Bigger tugboat, if needed can be ordered from Helsinki or from Inkoo.
BERTHING: The port of Porkkala (Kantvik) is owned by Suomen Sokeri and it is located at Kantvik. Directly in the vicinity of the port there is the factory of Suomen Sokeri Osakeyhtio (sugar mill). The port basin has 3 quays:
The outer quay is 110 m. long, draft 9.2 m. (30 ft. 2 in.).
The inner quay is 50 m. long, draft 5.3 m. (17 ft. 4 in.).
The fairway of the port basin is 120 m. wide, narrowing up at its end to 76.5 m. South quay (at the South bank of Kantvik Bay) is 60 m. long, draft 9.2 m. (30 ft. 2 in.).
DENSITY: 1004.
CRANES: Two cranes, capacity 8 tons. One crane is on the outer quay and one on the South quay. Also one 3-ton mobile crane.
FRESH WATER: Available at quays.
CONSULS: Nearest in Helsinki.
GANGWAY/DECK WATCHMEN: Not necessary.
OPENING/CLOSING HATCHES: Normally by the crew.
AIRPORT: Nearest Helsinki, distance 45 kms.
TIME: Local time is GMT plus 2 hrs.
HOLIDAYS: On Saturdays, Sundays and General Holidays in Finland no cargo work is done.
POLICE/AMBULANCE/FIRE: Contact the Gatehouse of Factory.
TELEPHONES: Can be arranged on board. Telephone calls can be made from the Harbour Office during day-time.
SHORE LEAVE: No restrictions.
IDENTIFICATION CARDS: Not needed.
SHIPMASTER'S REPORT: The sugar discharging berth for Porkkala is at Kantvik, situated in Lat. 60° 05′ N., Long. 24° 23.25′ E., about 21 miles West of Helsinki.

The Pilot for the port is embarked at the position indicated on British Admiralty Chart No. 2331, 115° 3.5 miles from Porkkala lighthouse. From there to the berth is 12 miles and the passage presents no difficulties. It is well lit, and there is ample water. The least depth recorded was 31 ft. and that was alongside the berth. There is a powerful tug for assisting in berthing and unberthing.

The discharging berth, alongside which vessels lie port side to, is modern and well fendered. It is sheltered from most directions. Unfortunately, the berth is short for a 500 ft. vessel, and additional moorings have to be placed from amidships.

There is only 1 crane on the berth and to work either of the end hatches a shift would be necessary. Work was continuous while the vessel discharged her part cargo at Kantvik, and an out-turn rate of 100 t.p.h. was achieved.

Fresh water is readily available from the Jetty, and presumably, fuel could be obtained by lighter from Helsinki. Telephones in the dock offices are available for official use.

There is a bus service to and from Helsinki, the journey taking about 40 minutes.
AUTHORITY: Suomen Sokeri Oy, Harbour Master.

PORVOO (Skoldvik): 60.18 N. 25.33 E. (See Plan Book)

The harbour is a private oil harbour owned and managed by Neste Oy.

The harbour is located at Skoldvik in the municipal area of Porvoo about 45 km. (28 miles) East of Helsinki, Lat. 60° 18′ N., Long. 25° 33′ E. The area is shown on Finnish marine charts Nos. 17 and 902.

The distance from the Kallbadagrund lighthouse to the harbour is 20.5 nautical miles (38 km.). The minimum width of the harbour channel is 270 m. (885 ft.) and the approved depth is 15.3 m. (50 ft.).

The water level varies between +1.5 m. and −0.75 m. (+5 ft. and −2.5 ft.) depending on the wind. There are no tides in the area.

The Winter period is from January to the end of April. During this time the channel from the open sea to the harbour is kept open by icebreakers owned by the State. The Finnish Board of Navigation determines the requirements for vessels allowed to enter various ports during this period.

Officially, the extra charges for the Winter period are collected from 1st December to 30th April.
DOCUMENTS: The following documents shall be handed over after berthing:

Ship's Register, Certificate of tonnage.

PILOTAGE: Vessel requiring Pilot applies from Marjaniemi. Pilot station, Lat. 65° 02′ 4″ N., Long. 24° 34′ E., near West point of Hailuoto Island. Pilots require 12 hours notice of ETA to Peltinmatala lightbuoy (Pilots) or to alternative position 3 miles North of Kelmi lightbuoy. Pilot boat red coloured displaying usual international pilot signs. Pilot station equipped with HF (2182) and VHF, listening on Channels 16 and 13, radar and RC. Morse signalling by light. No specific requirements on part of Pilots boarding, only safe pilot ladder according to rules. Anchorage near lightbuoy Peltinmatala, when awaiting for Pilot in fine weather; in bad weather advisable to ride against weather and wind. Pilot for Oulu can also be obtained near the "Kemi 1" light-tower. Vessels with a draft more than 8.0 m. must use this fairway and apply for Pilot either from Marjaniemi or "Kemi 1" pilot station, wireless 2182 or VHF 16 and 13.

ANCHORAGE: Safe anchorage on Oulu roads. There are no safe anchorages West of Hailuoto Island.

RESTRICTIONS: Day and night service, no tides. Winter season, contact ice-breaker 24 hours in advance on HF (2182), or VHF Channel 16.

MAX. SIZE: *Marjaniemi Fairway:* 8.0 m. *Kemi Fairway:* 10.0 m.

Toppila Harbour: Toppila Quay depth 6.1 m., Hietasaari Quay, depth 6.1 m.

Oritkari Harbour: Main Quay, depth 9.0 m. Stern Door Quay, depth 7.0 m.

Nuottasaari Harbour: Main and Waiting Quay, depth 6.4 m.

Vihreasaari Harbour: Oil Quay, length 72 m., depth 10.0 m. Bulk Quay, length 150 m., depth 10.0 m.

Also see "Berthing".

HEALTH: No special rules existing in obtaining pratique. If disease or fever is suspected on board report to ship's Agent; will contact the Health Authority for necessary arrangements.

RADIO: Vaasa Radio (North Quarken). Close to Hailuoto Island call "Oulu Radio" VHF Channel 27 or Channel 24.

RADAR/VHF: At Marjaniemi Pilot station, radar range 30 miles. Contact with HF (2182) or VHF (Channel 16). All ice-breakers keep watch on frequency 2182 and VHF (16).

TUGS: Tug optional, but for vessels over 140 m. long use is advisable. Tug will meet on Oulu Roads according to agreement; customary to use ship's lines.

BERTHING: *Toppila Harbour:* Depth 5.0–6.1 m. Toppila Quay length 992 m. Hietasaari Quay length 600 m.

Nuottasaari Harbour: Main Quay, length 320 m. Waiting Quay, length 130 m.

Oritkari Harbour: Main Quay, length 270 m. Stern Door Quay, length 85 m.

Vihreasaari Harbour: Oil Quay, length 72 m. Bulk Quay, length 150 m.

CRANES:

	No.	*Capacity (tons)*	*Reach of arm (m.)*	*Type*
Nuottasaari Harbour	1	5	12	Movable
Toppila	1	5	12	,,
Toppila	1	3	12	,,
Vihreasaari	1	6	22	,,
Vihreasaari	1	8	26	,,

CARGO HANDLING FACILITIES: Toppila Harbour is equipped with 2 cranes, Vihreasaari Harbour with 2 cranes and Nuottasaari Harbour with 1 crane to load and discharge bulk cargoes and general cargoes with hook. 10 moveable mobile cranes available from stevedores in all ports.

Roll-on/roll-off berth is adjacent to the Oritkari Harbour.

Oritkari Harbour is built to mechanically handle paper cargoes.

Free zone warehouse in Toppila (700 sq.m.) and free zone area in Oritkari (18,000 sq.m.). Warehouses in Toppila and Oritkari of 31,500 sq.m. There is a large amount of open storage in all harbours.

BRIDGES: No bridges. Electric cable across Toppila fairway, 50 m. above water.

STEVEDORES: 24 hours' notice of ETA to be given to Agent who arranges necessary gangs.

MEDICAL: Medical attention arranged through Agent, 2–4 hours notice required. Good hospital facilities available.

TANKERS: One principal tanker berth in Vihreasaari Oil Harbour, depth 10.0 m. Discharge lines of 12, 14 and 18 in. Pressure 10 k./sq.cm.

DENSITY: Fresh water.

FRESH WATER: Available at main berths and Oil Harbour from pipe-line, cost about 9.00 mk/ton. Elsewhere water is delivered by boat, cost about 10.00 mk/ton.

FUEL: Small quantities of all grades available, deliveried by lorries.

DEVELOPMENTS: The second stage of the Oritkari Main Quay will be completed in 1983. The length of the new quay is 250 m. and allowed draft 10 m. The quay is specially designed for general cargo and there will be ro/ro and container facilities.

A new shelter for timber will be built in 1982.

GANGWAY/DECK WATCHMEN: Watchmen recommended.

OPENING/CLOSING HATCHES: Normally carried out by crew. Stevedores will do it by order of Master and will charge as shipwork.

CUSTOMS ALLOWANCES: Tobacco: 200 cigarettes or 200 gm. pipe tobacco or equal amount of cigars allowed to each member of crew. Wine and/or Spirit: One bottle wine or spirit allowed for each member of the crew.

CERTIFICATES:

Nationality Certificate.
Measuring Certificate.
Load-line Certificate.
Classification Certificate.
Safety Equipment Certificate.
Radio Safety Certificate.
Derating Certificate.

CARGO GEAR: Tested cargo gear to international safety regulations. Test certificates to be on board vessel.

IDENTIFICATION CARDS: Not needed.

CONSULS: Sweden, Norway, Denmark, Great Britain and Netherlands.

REPAIRS: Minor deck and engine repairs carried out. Docking only for small tug boats.

SERVICES: Compass adjusters and ship's cleaning.

DRY DOCKS: One small slipway. Max. vessels of 25 m. length and 8 ft. draft.

REPATRIATION: Good facilities for effecting crew changes and to arrange necessary repatriation.

AIRPORT: Oulu Airport 15 km. from harbour served by regular airlines. Six daily flights to Helsinki and six flights from Helsinki to Oulu with continuous connection to Kemi and Rovaniemi.

TIME: Local time GMT plus 2 hours.

HOLIDAYS: General holidays in Finland: New Year's Day (January 1st); Good Friday; Easter Monday; Labour Day (May 1st); Independence Day (December 6th); Christmas Day (December 25th); Boxing Day (December 26th).

POLICE/AMBULANCE/FIRE: Fire 005, Reserve 006; Ambulance 006, Reserve 005; Police 002, Reserve 003.

TELEPHONES: A telephone connection available in all harbours.

AUTHORITY: Port of Oulu Authority, Harbour Office of Oulu.

PARGAS: 60.18 N. 22.18 E. (See Plan Book)

DOCUMENTS:

3 Crew Lists.
1-2 Custom Provision Lists.
1-2 Custom Special Lists.
2 Passenger Lists.
2 Copies each Bill of Loading.
Tonnage Certificate and in special instances other regular documents.

PILOTAGE: On arrival at Pargas, from Gulf of Finland, from Baltic via Uto, from Gulf of Bothnia via Enskar, information of ETA to be given in good time to respective Pilot stations. VHF Channel 16 for calling, 13 for further communication. Charge for piloting in accordance with official Finnish tariff. Harbour Pilot available, but not compulsory, and can be ordered through Sea Pilot.

ANCHORAGES: Well sheltered and safe anchorage, immediately outside harbour area.

MAX. SIZE: Maximum depth both in channel and along quay 6.70 m. As regards length of quay and possibilities for a quick dispatch, it is desirable (though not an absolute stipulation) that discharging vessel be a bulk carrier with the engines aft.

HEALTH: Free pratique automatic for all vessels, but temporary exceptions in and according to regulations issued by W.H.O. and Authorities may occur.

RADIO: Radio-telephone contact with Agent and consignee/ shipper is obtained via Mariehamn, radio-call 2196 kHz, reply 1852 OHF; or via Hango, radio-call 1967 kHz, reply 2649 OFO. Contact with VHF is ordered via Abo, Channel 26.

TUGS: A small motor tug of 200 h.p. available.

BERTHING: Directions to berth via nearest Pilot station, Pargasport. Quay level above water 1-2 m., dependent on berth.

Length of quays, 800 m. 2 electric coal-discharging bucket cranes and one electric conveyor belt.

STEVEDORES: Arrangements will be made by Agent, who must be advised of ETA previous day to enable arrange men, trucks, etc.

MEDICAL: Medical officer available locally. Necessary examination and taking of tests usually done in Abo. Regular appointment with local physician can be arranged by telephone with Agent or doctor.

DENSITY: Brackish water 1002.

FRESH WATER: Delivery from installation on quay.

FUEL: No local supply. In case of need delivery by truck from Abo.

GANGWAY/DECK WATCHMEN: Available but not necessary.

OPENING/CLOSING HATCHES: Must always be performed by crew.

CERTIFICATES: Normally tonnage certificate only but in special instances other regular ship's documents may also be needed.

CUSTOMS ALLOWANCES: Tobacco, Wine and/or Spirits. In accordance with the decision of Customs authorities.

IDENTIFICATION CARDS: Not required.

CONSULS: See "Turku".

REPAIRS: Facilities for arranging small repairs on deck and engine in Pargas, but usually carried out by reliable companies in Abo.

DRY DOCKS: No local docking facilities. See "Turku".

AIRPORT: Nearest airport in Abo. Distance about 25 km.

TIME: Local time/GMT plus 2 hours.

HOLIDAYS: New Year's Day (1st January), Epiphany (6th January), Good Friday, Easter Monday, Labour Day (1st May), Ascension Day, Whit Monday, Midsummer (2 days), All Saints' Day, Independence Day (6th December), Christmas (25th December). Work in harbour carried out during these days only under very pressing circumstances.

POLICE/AMBULANCE/FIRE: Police 744048; Ambulance 744064; Fire 005; Life-saving Corps 356595.

TELEPHONE: No facilities for placing telephone on board. Telephone available on quayside.

SHORE LEAVE: No restrictions for crew members.

DELAYS: Vessels dispatched in order of arrival. Usually no delays occur as work has generally been carried out within the time limit stipulated in C/P. Port activity aimed at good dispatch of vessels, and consequently work in 2 shifts has been arranged.
AUTHORITY: Port owned by Oy Partek Ab.

PATENIEMI: 65.06 N. 25.23 E. (See Plan Book)

OPERATORS: Oulu Osakeyhtio Sawmill. Port used for export of timber only, about 160,000 cu.m. per year. 12 km. North of Oulu.
DOCUMENTS:
2 Crew Lists.
2 Passenger Lists.
Customs Documents.
2 Crew Bond Declarations.
2 Ship's Bond Store Lists.
Derating Certificate.
4 Manifests.
2 Bills of Lading.
Ship's Register, Certificate of Tonnage.
PILOTAGE: Pilot station at Marjaniemi. Marjaniemi – Oulu Roads 40 n. miles 23 ft. depth. Oulu Roads – Pateniemi 6.3 m. depth.
ANCHORAGES: Safe anchorage on Oulu roads. There are no safe anchorages West of the Hailuoto Island.
RESTRICTIONS: Day and night service, no tides. Winter season, contact ice-breaker 24 hours in advance on HF (2182), or VHF Channel 16.
MAX. SIZE: Only dry-cargo vessels use this terminal. Max. draft 6.3 m. For length no restriction. Ship of 15,400 d.w.t. has entered.
HEALTH: No special rules existing in obtaining pratique. If fever or disease suspected on board to be reported to ship's Agent, he will contact Health Authority for necessary arrangements.
RADIO: "Vaasa Radio" (North Quarken). Approaching Oulu contact Agent through "Vaasa Radio". Close to Hailuoto Island call "Oulu Radio" VHF Station, Channel 27.
RADAR/VHF: At Marjaniemi Pilot station, radar range 30 miles. Contact with HF (2182) or VHF (Channel 16). All ice-breakers keep watch on frequency 2182 and VHF (16).
TUGS: Tug optional, but for vessels over 140 m. length the use is advisable. Tug will meet on Oulu Roads, according to agreement. Customary to use ship's lines.
BERTHING: Pier extends for 612 m. enabling 8 vessels of medium size to load simultaneously at quay. Depth at quays is from 20 to 23 ft.
STEVEDORES: 24 hours notice of ETA to be given to Agent, who arranges necessary gangs.
MEDICAL: Medical attention arranged through Agent. 2–4 hours notice required. Good hospital facilities available.
DENSITY: Fresh water.
FRESH WATER: Available at main berths delivered by boat and from pipe-line.
FUEL: Small quantities of all grades available, delivered by lorries.
FIRE PRECAUTIONS: Smoking prohibited in timber yards.
GANGWAY/DECK WATCHMEN: Recommended.
OPENING/CLOSING HATCHES: Normally carried out by crew. Stevedores will do it by order of Master and will charge as ship work.
CERTIFICATES:
Nationality Certificate.
Measuring Certificate.
Load Line Certificate.
Classification Certificate.
Safety Equipment Certificate.
Radio Safety Equipment.
Derating Certificate.
CUSTOMS ALLOWANCES: Tobacco: 200 cigarettes or 200 gm. pipe tobacco or equal amount of cigars allowed to each member of crew. Wine and/or Spirit: 1 bottle wine or spirits is allowed for each member of the crew.
CARGO GEAR: Tested cargo gear to international safety regulations. Test certificates to be on board.
IDENTIFICATION CARDS: Not needed.
CONSULS: British (Consul), Danish, French, Dutch, Norwegian and Swedish Vice-Consuls at Oulu.
SERVICES: Compass adjusters and ship's cleaning (no tank-washing).
REPATRIATION: Good facilities for effecting crew changes and to arrange necessary repatriations.
AIRPORT: Oulu Airport 15 kms. from harbour served by regular airlines. 6 daily flights to Helsinki and 6 flights from Helsinki to Oulu with continuous connection to Kemi and Rovaniemi.
TIME: Local time GMT plus 2 hours.
HOLIDAYS: General Holidays in Finland: New Year's Day (January 1st); Epiphany (January 6th); Good Friday; Easter Monday; Labour Day (May 1st); Ascension Day (May 23rd); Whit Monday; Midsummer Day (June 22nd); All Saints' Day (November 2nd); Independence Day (December 6th); Christmas Day (December 25th); Boxing Day (December 26th).
POLICE/AMBULANCE/FIRE: Fire 005, Reserve 006; Ambulance 006, Reserve 005; Police tel. 002, Reserve 003.
REGULATIONS: Oil pollution strictly prohibited. Considerable timber lying in water and damages are ship's responsibility.
SHORE LEAVE: Crew members allowed ashore without restrictions.
AUTHORITY: Harbour Office of Oulu.

PORKKALA (Kantvik): 60.05 N. 24.23 E. (See Plan Book)

Documents and all general information, refer to "Helsinki".
PILOTAGE: A Pilot can be obtained from the Pilot Station of Porkkala, Tel. 90–2984 112 or VHF Channels 13 and 16. Distance to port about 14 miles. Pilotage in the harbour area may be carried out only by State-appointed Pilots. Pilotage in the harbour is not obligatory.
MAX. SIZE: Maximum draft 30 ft. 2 in. (9.2 m.).
APPROACHES: There are four official ship routes leading to the port of Porkkala (Kantvik) of Suomen Sokeri Osakeyhtio. The deepest one is 9.2 m. (30 ft.) and the shallowest one is 5.5 m. (18 ft.). The port does not have an ice-breaker of its own and the fairway is kept open by means of the State's ice-breakers.
CLEARANCE: The customs formalities of the port are attended to by the Custom House of Helsinki.
TUGS: A small motor tug of 200 h.p. available. Bigger tugboat, if needed can be ordered from Helsinki or from Inkoo.
BERTHING: The port of Porkkala (Kantvik) is owned by Suomen Sokeri and it is located at Kantvik. Directly in the vicinity of the port there is the factory of Suomen Sokeri Osakeyhtio (sugar mill). The port basin has 3 quays:

The outer quay is 110 m. long, draft 9.2 m. (30 ft. 2 in.).

The inner quay is 50 m. long, draft 5.3 m. (17 ft. 4 in.).

The fairway of the port basin is 120 m. wide, narrowing up at its end to 76.5 m. South quay (at the South bank of Kantvik Bay) is 60 m. long, draft 9.2 m. (30 ft. 2 in.).
DENSITY: 1004.
CRANES: Two cranes, capacity 8 tons. One crane is on the outer quay and one on the South quay. Also one 3-ton mobile crane.
FRESH WATER: Available at quays.
CONSULS: Nearest in Helsinki.
GANGWAY/DECK WATCHMEN: Not necessary.
OPENING/CLOSING HATCHES: Normally by the crew.
AIRPORT: Nearest Helsinki, distance 45 kms.
TIME: Local time is GMT plus 2 hrs.
HOLIDAYS: On Saturdays, Sundays and General Holidays in Finland no cargo work is done.
POLICE/AMBULANCE/FIRE: Contact the Gatehouse of Factory.
TELEPHONES: Can be arranged on board. Telephone calls can be made from the Harbour Office during day-time.
SHORE LEAVE: No restrictions.
IDENTIFICATION CARDS: Not needed.
SHIPMASTER'S REPORT: The sugar discharging berth for Porkkala is at Kantvik, situated in Lat. 60° 05′ N., Long. 24° 23.25′ E., about 21 miles West of Helsinki.

The Pilot for the port is embarked at the position indicated on British Admiralty Chart No. 2331, 115° 3.5 miles from Porkkala lighthouse. From there to the berth is 12 miles and the passage presents no difficulties. It is well lit, and there is ample water. The least depth recorded was 31 ft. and that was alongside the berth. There is a powerful tug for assisting in berthing and unberthing.

The discharging berth, alongside which vessels lie port side to, is modern and well fendered. It is sheltered from most directions. Unfortunately, the berth is short for a 500 ft. vessel, and additional moorings have to be placed from amidships.

There is only 1 crane on the berth and to work either of the end hatches a shift would be necessary. Work was continuous while the vessel discharged her part cargo at Kantvik, and an out-turn rate of 100 t.p.h. was achieved.

Fresh water is readily available from the Jetty, and presumably, fuel could be obtained by lighter from Helsinki. Telephones in the dock offices are available for official use.

There is a bus service to and from Helsinki, the journey taking about 40 minutes.
AUTHORITY: Suomen Sokeri Oy, Harbour Master.

PORVOO (Skoldvik): 60.18 N. 25.33 E. (See Plan Book)

The harbour is a private oil harbour owned and managed by Neste Oy.

The harbour is located at Skoldvik in the municipal area of Porvoo about 45 km. (28 miles) East of Helsinki, Lat. 60° 18′ N., Long. 25° 33′ E. The area is shown on Finnish marine charts Nos. 17 and 902.

The distance from the Kallbadagrund lighthouse to the harbour is 20.5 nautical miles (38 km.). The minimum width of the harbour channel is 270 m. (885 ft.) and the approved depth is 15.3 m. (50 ft.).

The water level varies between +1.5 m. and −0.75 m. (+5 ft. and −2.5 ft.) depending on the wind. There are no tides in the area.

The Winter period is from January to the end of April. During this time the channel from the open sea to the harbour is kept open by icebreakers owned by the State. The Finnish Board of Navigation determines the requirements for vessels allowed to enter various ports during this period.

FUEL: No local supply. In case of need delivery by truck from Abo.

GANGWAY/DECK WATCHMEN: Available but not necessary.

OPENING/CLOSING HATCHES: Must always be performed by crew.

CERTIFICATES: Normally tonnage certificate only but in special instances other regular ship's documents may also be needed.

CUSTOMS ALLOWANCES: Tobacco, Wine and/or Spirits. In accordance with the decision of Customs authorities.

IDENTIFICATION CARDS: Not required.

CONSULS: See "Turku".

REPAIRS: Facilities for arranging small repairs on deck and engine in Pargas, but usually carried out by reliable companies in Abo.

DRY DOCKS: No local docking facilities. See "Turku".

AIRPORT: Nearest airport in Abo. Distance about 25 km.

TIME: Local time/GMT plus 2 hours.

HOLIDAYS: New Year's Day (1st January), Epiphany (6th January), Good Friday, Easter Monday, Labour Day (1st May), Ascension Day, Whit Monday, Midsummer (2 days), All Saints' Day, Independence Day (6th December), Christmas (25th December). Work in harbour carried out during these days only under very pressing circumstances.

POLICE/AMBULANCE/FIRE: Police 744048; Ambulance 744064; Fire 005; Life-saving Corps 356595.

TELEPHONE: No facilities for placing telephone on board. Telephone available on quayside.

SHORE LEAVE: No restrictions for crew members.

DELAYS: Vessels dispatched in order of arrival. Usually no delays occur as work has generally been carried out within the time limit stipulated in C/P. Port activity aimed at good dispatch of vessels, and consequently work in 2 shifts has been arranged.
AUTHORITY: Port owned by Oy Partek Ab.

PATENIEMI: 65.06 N. 25.23 E. (See Plan Book)

OPERATORS: Oulu Osakeyhtio Sawmill. Port used for export of timber only, about 160,000 cu.m. per year. 12 km. North of Oulu.
DOCUMENTS:
2 Crew Lists.
2 Passenger Lists.
Customs Documents.
2 Crew Bond Declarations.
2 Ship's Bond Store Lists.
Derating Certificate.
4 Manifests.
2 Bills of Lading.
Ship's Register, Certificate of Tonnage.
PILOTAGE: Pilot station at Marjaniemi. Marjaniemi – Oulu Roads 40 n. miles 23 ft. depth. Oulu Roads – Pateniemi 6.3 m. depth.
ANCHORAGES: Safe anchorage on Oulu roads. There are no safe anchorages West of the Hailuoto Island.
RESTRICTIONS: Day and night service, no tides. Winter season, contact ice-breaker 24 hours in advance on HF (2182), or VHF Channel 16.
MAX. SIZE: Only dry-cargo vessels use this terminal. Max. draft 6.3 m. For length no restriction. Ship of 15,400 d.w.t. has entered.
HEALTH: No special rules existing in obtaining pratique. If fever or disease suspected on board to be reported to ship's Agent, he will contact Health Authority for necessary arrangements.
RADIO: "Vaasa Radio" (North Quarken). Approaching Oulu contact Agent through "Vaasa Radio". Close to Hailuoto Island call "Oulu Radio" VHF Station, Channel 27.
RADAR/VHF: At Marjaniemi Pilot station, radar range 30 miles. Contact with HF (2182) or VHF (Channel 16). All ice-breakers keep watch on frequency 2182 and VHF (16).
TUGS: Tug optional, but for vessels over 140 m. length the use is advisable. Tug will meet on Oulu Roads, according to agreement. Customary to use ship's lines.
BERTHING: Pier extends for 612 m. enabling 8 vessels of medium size to load simultaneously at quay. Depth at quays is from 20 to 23 ft.
STEVEDORES: 24 hours notice of ETA to be given to Agent, who arranges necessary gangs.
MEDICAL: Medical attention arranged through Agent. 2–4 hours notice required. Good hospital facilities available.
DENSITY: Fresh water.
FRESH WATER: Available at main berths delivered by boat and from pipe-line.
FUEL: Small quantities of all grades available, delivered by lorries.
FIRE PRECAUTIONS: Smoking prohibited in timber yards.
GANGWAY/DECK WATCHMEN: Recommended.
OPENING/CLOSING HATCHES: Normally carried out by crew. Stevedores will do it by order of Master and will charge as ship work.
CERTIFICATES:
Nationality Certificate.
Measuring Certificate.
Load Line Certificate.
Classification Certificate.
Safety Equipment Certificate.
Radio Safety Equipment.
Derating Certificate.
CUSTOMS ALLOWANCES: Tobacco: 200 cigarettes or 200 gm. pipe tobacco or equal amount of cigars allowed to each member of crew. Wine and/or Spirit: 1 bottle wine or spirits is allowed for each member of the crew.
CARGO GEAR: Tested cargo gear to international safety regulations. Test certificates to be on board.
IDENTIFICATION CARDS: Not needed.
CONSULS: British (Consul), Danish, French, Dutch, Norwegian and Swedish Vice-Consuls at Oulu.
SERVICES: Compass adjusters and ship's cleaning (no tank-washing).
REPATRIATION: Good facilities for effecting crew changes and to arrange necessary repatriations.
AIRPORT: Oulu Airport 15 kms. from harbour served by regular airlines. 6 daily flights to Helsinki and 6 flights from Helsinki to Oulu with continuous connection to Kemi and Rovaniemi.
TIME: Local time GMT plus 2 hours.
HOLIDAYS: General Holidays in Finland: New Year's Day (January 1st); Epiphany (January 6th); Good Friday; Easter Monday; Labour Day (May 1st); Ascension Day (May 23rd); Whit Monday; Midsummer Day (June 22nd); All Saints' Day (November 2nd); Independence Day (December 6th); Christmas Day (December 25th); Boxing Day (December 26th).
POLICE/AMBULANCE/FIRE: Fire 005, Reserve 006; Ambulance 006, Reserve 005; Police tel. 002, Reserve 003.
REGULATIONS: Oil pollution strictly prohibited. Considerable timber lying in water and damages are ship's responsibility.
SHORE LEAVE: Crew members allowed ashore without restrictions.
AUTHORITY: Harbour Office of Oulu.

PORKKALA (Kantvik): 60.05 N. 24.23 E. (See Plan Book)

Documents and all general information, refer to "Helsinki".
PILOTAGE: A Pilot can be obtained from the Pilot Station of Porkkala, Tel. 90–2984 112 or VHF Channels 13 and 16. Distance to port about 14 miles. Pilotage in the harbour area may be carried out only by State-appointed Pilots. Pilotage in the harbour is not obligatory.
MAX. SIZE: Maximum draft 30 ft. 2 in. (9.2 m.).
APPROACHES: There are four official ship routes leading to the port of Porkkala (Kantvik) of Suomen Sokeri Osakeyhtio. The deepest one is 9.2 m. (30 ft.) and the shallowest one is 5.5 m. (18 ft.). The port does not have an ice-breaker of its own and the fairway is kept open by means of the State's ice-breakers.
CLEARANCE: The customs formalities of the port are attended to by the Custom House of Helsinki.
TUGS: A small motor tug of 200 h.p. available. Bigger tugboat, if needed can be ordered from Helsinki or from Inkoo.
BERTHING: The port of Porkkala (Kantvik) is owned by Suomen Sokeri and it is located at Kantvik. Directly in the vicinity of the port there is the factory of Suomen Sokeri Osakeyhtio (sugar mill). The port basin has 3 quays:
The outer quay is 110 m. long, draft 9.2 m. (30 ft. 2 in.).
The inner quay is 50 m. long, draft 5.3 m. (17 ft. 4 in.).
The fairway of the port basin is 120 m. wide, narrowing up at its end to 76.5 m. South quay (at the South bank of Kantvik Bay) is 60 m. long, draft 9.2 m. (30 ft. 2 in.).
DENSITY: 1004.
CRANES: Two cranes, capacity 8 tons. One crane is on the outer quay and one on the South quay. Also one 3-ton mobile crane.
FRESH WATER: Available at quays.
CONSULS: Nearest in Helsinki.
GANGWAY/DECK WATCHMEN: Not necessary.
OPENING/CLOSING HATCHES: Normally by the crew.
AIRPORT: Nearest Helsinki, distance 45 kms.
TIME: Local time is GMT plus 2 hrs.
HOLIDAYS: On Saturdays, Sundays and General Holidays in Finland no cargo work is done.
POLICE/AMBULANCE/FIRE: Contact the Gatehouse of Factory.
TELEPHONES: Can be arranged on board. Telephone calls can be made from the Harbour Office during day-time.
SHORE LEAVE: No restrictions.
IDENTIFICATION CARDS: Not needed.
SHIPMASTER'S REPORT: The sugar discharging berth for Porkkala is at Kantvik, situated in Lat. 60° 05′ N., Long. 24° 23.25′ E., about 21 miles West of Helsinki.

The Pilot for the port is embarked at the position indicated on British Admiralty Chart No. 2331, 115° 3.5 miles from Porkkala lighthouse. From there to the berth is 12 miles and the passage presents no difficulties. It is well lit, and there is ample water. The least depth recorded was 31 ft. and that was alongside the berth. There is a powerful tug for assisting in berthing and unberthing.

The discharging berth, alongside which vessels lie port side to, is modern and well fendered. It is sheltered from most directions. Unfortunately, the berth is short for a 500 ft. vessel, and additional moorings have to be placed from amidships.

There is only 1 crane on the berth and to work either of the end hatches a shift would be necessary. Work was continuous while the vessel discharged her part cargo at Kantvik, and an out-turn rate of 100 t.p.h. was achieved.

Fresh water is readily available from the Jetty, and presumably, fuel could be obtained by lighter from Helsinki. Telephones in the dock offices are available for official use.

There is a bus service to and from Helsinki, the journey taking about 40 minutes.
AUTHORITY: Suomen Sokeri Oy, Harbour Master.

PORVOO (Skoldvik): 60.18 N. 25.33 E. (See Plan Book)

The harbour is a private oil harbour owned and managed by Neste Oy.

The harbour is located at Skoldvik in the municipal area of Porvoo about 45 km. (28 miles) East of Helsinki, Lat. 60° 18′ N., Long. 25° 33′ E. The area is shown on Finnish marine charts Nos. 17 and 902.

The distance from the Kallbadagrund lighthouse to the harbour is 20.5 nautical miles (38 km.). The minimum width of the harbour channel is 270 m. (885 ft.) and the approved depth is 15.3 m. (50 ft.).

The water level varies between +1.5 m. and −0.75 m. (+5 ft. and −2.5 ft.) depending on the wind. There are no tides in the area.

The Winter period is from January to the end of April. During this time the channel from the open sea to the harbour is kept open by icebreakers owned by the State. The Finnish Board of Navigation determines the requirements for vessels allowed to enter various ports during this period.

Officially, the extra charges for the Winter period are collected from 1st December to 30th April.
DOCUMENTS: The following documents shall be handed over after berthing:
4 Crew Lists
2 Lists of Visitors
3 Passenger Lists
1 Provision List
1 Special List (Customs)
Ship's Register, Certificate of Tonnage
The usual Cargo Documents

DOCUMENTS:
2 Crew Lists.
2 Passenger Lists.
Customs Documents.
2 Crew Bond Declarations.
2 Ships bond-store Lists.
Derating Certificate.
4 Manifests.
2 Bills of Lading.
Ship's Register, Certificate of tonnage.

PILOTAGE: Vessel requiring Pilot applies from Marjaniemi. Pilot station, Lat. 65° 02′ 4″ N., Long. 24° 34′ E., near West point of Hailuoto Island. Pilots require 12 hours notice of ETA to Peltinmatala lightbuoy (Pilots) or to alternative position 3 miles North of Kelmi lightbuoy. Pilot boat red coloured displaying usual international pilot signs. Pilot station equipped with HF (2182) and VHF, listening on Channels 16 and 13, radar and RC. Morse signalling by light. No specific requirements on part of Pilots boarding, only safe pilot ladder according to rules. Anchorage near lightbuoy Peltinmatala, when awaiting for Pilot in fine weather; in bad weather advisable to ride against weather and wind. Pilot for Oulu can also be obtained near the "Kemi 1" light-tower. Vessels with a draft more than 8.0 m. must use this fairway and apply for Pilot either from Marjaniemi or "Kemi 1" pilot station, wireless 2182 or VHF 16 and 13.

ANCHORAGE: Safe anchorage on Oulu roads. There are no safe anchorages West of Hailuoto Island.

RESTRICTIONS: Day and night service, no tides. Winter season, contact ice-breaker 24 hours in advance on HF (2182), or VHF Channel 16.

MAX. SIZE: *Marjaniemi Fairway:* 8.0 m. *Kemi Fairway:* 10.0 m.

Toppila Harbour: Toppila Quay depth 6.1 m., Hietasaari Quay, depth 6.1 m.

Oritkari Harbour: Main Quay, depth 9.0 m. Stern Door Quay, depth 7.0 m.

Nuottasaari Harbour: Main and Waiting Quay, depth 6.4 m.

Vihreasaari Harbour: Oil Quay, length 72 m., depth 10.0 m. Bulk Quay, length 150 m., depth 10.0 m.

Also see "Berthing".

HEALTH: No special rules existing in obtaining pratique. If disease or fever is suspected on board report to ship's Agent; will contact the Health Authority for necessary arrangements.

RADIO: Vaasa Radio (North Quarken). Close to Hailuoto Island call "Oulu Radio" VHF Channel 27 or Channel 24.

RADAR/VHF: At Marjaniemi Pilot station, radar range 30 miles. Contact with HF (2182) or VHF (Channel 16). All ice-breakers keep watch on frequency 2182 and VHF (16).

TUGS: Tug optional, but for vessels over 140 m. long use is advisable. Tug will meet on Oulu Roads according to agreement; customary to use ship's lines.

BERTHING: *Toppila Harbour:* Depth 5.0–6.1 m. Toppila Quay length 992 m. Hietasaari Quay length 600 m.

Nuottasaari Harbour: Main Quay, length 320 m. Waiting Quay, length 130 m.

Oritkari Harbour: Main Quay, length 270 m. Stern Door Quay, length 85 m.

Vihreasaari Harbour: Oil Quay, length 72 m. Bulk Quay, length 150 m.

CRANES:

	No.	*Capacity (tons)*	*Reach of arm (m.)*	*Type*
Nuottasaari Harbour	1	5	12	Movable
Toppila	1	5	12	,,
Toppila	1	3	12	,,
Vihreasaari	1	6	22	,,
Vihreasaari	1	8	26	,,

CARGO HANDLING FACILITIES: Toppila Harbour is equipped with 2 cranes, Vihreasaari Harbour with 2 cranes and Nuottasaari Harbour with 1 crane to load and discharge bulk cargoes and general cargoes with hook. 10 moveable mobile cranes available from stevedores in all ports.

Roll-on/roll-off berth is adjacent to the Oritkari Harbour.

Oritkari Harbour is built to mechanically handle paper cargoes.

Free zone warehouse in Toppila (700 sq.m.) and free zone area in Oritkari (18,000 sq.m.). Warehouses in Toppila and Oritkari of 31,500 sq.m. There is a large amount of open storage in all harbours.

BRIDGES: No bridges. Electric cable across Toppila fairway, 50 m. above water.

STEVEDORES: 24 hours' notice of ETA to be given to Agent who arranges necessary gangs.

MEDICAL: Medical attention arranged through Agent, 2–4 hours notice required. Good hospital facilities available.

TANKERS: One principal tanker berth in Vihreasaari Oil Harbour, depth 10.0 m. Discharge lines of 12, 14 and 18 in. Pressure 10 k./sq.cm.

DENSITY: Fresh water.

FRESH WATER: Available at main berths and Oil Harbour from pipe-line, cost about 9.00 mk/ton. Elsewhere water is delivered by boat, cost about 10.00 mk/ton.

FUEL: Small quantities of all grades available, deliveried by lorries.

DEVELOPMENTS: The second stage of the Oritkari Main Quay will be completed in 1983. The length of the new quay is 250 m. and allowed draft 10 m. The quay is specially designed for general cargo and there will be ro/ro and container facilities.

A new shelter for timber will be built in 1982.

GANGWAY/DECK WATCHMEN: Watchmen recommended.

OPENING/CLOSING HATCHES: Normally carried out by crew. Stevedores will do it by order of Master and will charge as shipwork.

CUSTOMS ALLOWANCES: Tobacco: 200 cigarettes or 200 gm. pipe tobacco or equal amount of cigars allowed to each member of crew. Wine and/or Spirit: One bottle wine or spirit allowed for each member of the crew.

CERTIFICATES:
Nationality Certificate.
Measuring Certificate.
Load-line Certificate.
Classification Certificate.
Safety Equipment Certificate.
Radio Safety Certificate.
Derating Certificate.

CARGO GEAR: Tested cargo gear to international safety regulations. Test certificates to be on board vessel.

IDENTIFICATION CARDS: Not needed.

CONSULS: Sweden, Norway, Denmark, Great Britain and Netherlands.

REPAIRS: Minor deck and engine repairs carried out. Docking only for small tug boats.

SERVICES: Compass adjusters and ship's cleaning.

DRY DOCKS: One small slipway. Max. vessels of 25 m. length and 8 ft. draft.

REPATRIATION: Good facilities for effecting crew changes and to arrange necessary repatriation.

AIRPORT: Oulu Airport 15 km. from harbour served by regular airlines. Six daily flights to Helsinki and six flights from Helsinki to Oulu with continuous connection to Kemi and Rovaniemi.

TIME: Local time GMT plus 2 hours.

HOLIDAYS: General holidays in Finland: New Year's Day (January 1st); Good Friday; Easter Monday; Labour Day (May 1st); Independence Day (December 6th); Christmas Day (December 25th); Boxing Day (December 26th).

POLICE/AMBULANCE/FIRE: Fire 005, Reserve 006; Ambulance 006, Reserve 005; Police 002, Reserve 003.

TELEPHONES: A telephone connection available in all harbours.

AUTHORITY: Port of Oulu Authority, Harbour Office of Oulu.

PARGAS: 60.18 N. 22.18 E. (See Plan Book)

DOCUMENTS:
3 Crew Lists.
1-2 Custom Provision Lists.
1-2 Custom Special Lists.
2 Passenger Lists.
2 Copies each Bill of Loading.
Tonnage Certificate and in special instances other regular documents.

PILOTAGE: On arrival at Pargas, from Gulf of Finland, from Baltic via Uto, from Gulf of Bothnia via Enskar, information of ETA to be given in good time to respective Pilot stations. VHF Channel 16 for calling, 13 for further communication. Charge for piloting in accordance with official Finnish tariff. Harbour Pilot available, but not compulsory, and can be ordered through Sea Pilot.

ANCHORAGES: Well sheltered and safe anchorage, immediately outside harbour area.

MAX. SIZE: Maximum depth both in channel and along quay 6.70 m. As regards length of quay and possibilities for a quick dispatch, it is desirable (though not an absolute stipulation) that discharging vessel be a bulk carrier with the engines aft.

HEALTH: Free pratique automatic for all vessels, but temporary exceptions in and according to regulations issued by W.H.O. and Authorities may occur.

RADIO: Radio-telephone contact with Agent and consignee/ shipper is obtained via Mariehamn, radio-call 2196 kHz, reply 1852 OHF; or via Hango, radio-call 1967 kHz, reply 2649 OFO. Contact with VHF is ordered via Abo, Channel 26.

TUGS: A small motor tug of 200 h.p. available.

BERTHING: Directions to berth via nearest Pilot station, Pargasport. Quay level above water 1-2 m., dependent on berth.

Length of quays, 800 m. 2 electric coal-discharging bucket cranes and one electric conveyor belt.

STEVEDORES: Arrangements will be made by Agent, who must be advised of ETA previous day to enable arrange men, trucks, etc.

MEDICAL: Medical officer available locally. Necessary examination and taking of tests usually done in Abo. Regular appointment with local physician can be arranged by telephone with Agent or doctor.

DENSITY: Brackish water 1002.

FRESH WATER: Delivery from installation on quay.

FUEL: No local supply. In case of need delivery by truck from Abo.

GANGWAY/DECK WATCHMEN: Available but not necessary.

OPENING/CLOSING HATCHES: Must always be performed by crew.

CERTIFICATES: Normally tonnage certificate only but in special instances other regular ship's documents may also be needed.

CUSTOMS ALLOWANCES: Tobacco, Wine and/or Spirits. In accordance with the decision of Customs authorities.

IDENTIFICATION CARDS: Not required.

CONSULS: See "Turku".

REPAIRS: Facilities for arranging small repairs on deck and engine in Pargas, but usually carried out by reliable companies in Abo.

DRY DOCKS: No local docking facilities. See "Turku".

The harbour is located at Skoldvik in the municipal area of Porvoo about 45 km. (28 miles) East of Helsinki, Lat. 60° 18′ N., Long. 25° 33′ E. The area is shown on Finnish marine charts Nos. 17 and 902.

The distance from the Kallbadagrund lighthouse to the harbour is 20.5 nautical miles (38 km.). The minimum width of the harbour channel is 270 m. (885 ft.) and the approved depth is 15.3 m. (50 ft.).

The water level varies between +1.5 m. and −0.75 m. (+5 ft. and −2.5 ft.) depending on the wind. There are no tides in the area.

The Winter period is from January to the end of April. During this time the channel from the open sea to the harbour is kept open by icebreakers owned by the State. The Finnish Board of Navigation determines the requirements for vessels allowed to enter various ports during this period.

Officially, the extra charges for the Winter period are collected from 1st December to 30th April.
DOCUMENTS: The following documents shall be handed over after berthing:
4 Crew Lists
2 Lists of Visitors
3 Passenger Lists
1 Provision List
1 Special List (Customs)
Ship's Register, Certificate of Tonnage
The usual Cargo Documents

PILOTAGE: Pilotage is compulsory. The Pilots are Seapilots employed by the State. They also perform the pilotage inside the port area.

The Pilot station is at the outer end of Emsalo island. Vessels entering from the sea are boarded by the Pilot at Kallbadagrund, Lat. 59° 59.1′ N., Long. 25° 36.1′ E.

The Pilot shall be called by using the international code, VHF Channels are 13 and 16.

The Seapilots serve as Docking Masters berthing the vessel with or without the help of tugs.

RESTRICTIONS: Vessels can enter and leave the harbour 24 hours a day. However, vessels whose keel clearance is minimal are not allowed to berth in darkness or under unfavourable wind conditions.

In bad Winter, port may be closed by ice between January and April although normally kept open by ice-breakers.

MAX. SIZE: Up to about 150,000 d.w.t. Max. draft 45 ft. (13.5 m.).

HEALTH: Bill of Health not required. In case suspected disease or fever on board radio Agent full details before arrival to advise Port Health Officer in advance.

RADIO: Notice of arrival shall be given 12 hours before the calculated time of arrival by the ship's Agent (Helsinki Radio). Two hours before arrival at the boarding site for the Pilot, the same notice shall be sent, including

1) The name and the nationality of the vessel
2) Net registered tonnage
3) The time and date of the notice
4) The draft of the vessel
5) Time of arrival at the boarding site for the Pilot.

VHF: The harbour office is open 24 hours a day. It is provided with the VHF station "Neste". The following Channels are available: 9, 13, 16 and 21. Telex connection is 17-46 neste sf.

TUGS: The harbour icebreaker "Into" and tug "Esta", owned by Neste are available to handle vessels. Respective capacities are:

"Into"	2,150 kW	(2,920 hp)
"Esta"	1,000 kW	(1,330 hp)

Vessels over 80,000 d.w.t. need additional tugs, which the ship's Agent shall order from Helsinki.

An additional new tug will be ready in May 1981 with a further 2 new tugs being ready in September 1981.

The ship's own lines shall be used for towing.

BERTHING: There are five berths available for discharging crude oil and loading of oil products. An additional berth is available for handling of petrochemical products.

Loading and discharging is possible around the clock. During the icefree period all berths are surrounded by oil booms.

Berth 1: Face direction 023° 42′
Water depth 12.6 m. (41 ft.)
Maximum vessel size about 50,000 d.w.t.

Berth 2: Face direction 128° 42′
Water depth 17.6 m. (57 ft.)
Maximum vessel length 330 m. (1,082 ft.) without special permission
N.B.
Vessel to be moored starboard side alongside
Shore gangway
Maximum reach of loading arms
+21.5 m. (+70 ft.) from sea level

Berth 3: Face direction 128° 42′
Water depth 17.6 m. (57 ft.)
Maximum vessel length 280 m. (918 ft.)
N.B.
Vessel to be moored starboard side alongside
Shore gangway
Maximum reach of loading arms
+19.5 m. (+64 ft.) from sea level

Berth 4: Face direction 017° 56′
Water depth 15.3 m. (50 ft.)
Maximum vessel size about 150,000 d.w.t.

Berth 5: Face direction 002° 58′
Water depth 8 m. (26 ft.)
Maximum vessel size about 8,000 d.w.t.

Berth 8: Face direction 004° 42′
Water depth 13.5 m. (44 ft.)
Maximum vessel size about 40,000 d.w.t.

The water depths correspond to the normal water level.

All loading arm flanges are ANSI 150 lb. RF. For tugs and goods there are separate berths in the harbour.

DISCHARGING/LOADING: The usual methods are applied in discharging and loading. While discharging and loading the safety rules for Neste tank vessels and oil harbours shall be followed.

Crude oil can be discharged simultaneously at a maximum of three berths. However, at berths 2 and 3 only one ship at a time can be discharged because of a common pipe-line.

LPG is butane or propane. As there is one common pipe-line for LPG loading, only one ship at a time can be loaded.

Berth 8 is used for benzene loading, capacity 500 cu.m./h. and propylene loading, capacity 400 cu.m./h.

During cargo handling adequate crew shall be on board. A gangway watchman is not required.

Loading and Discharging Facilities:

Berth 1: Discharging rate 5,000 cu.m./h., shore line 24 in. diameter, arms No. 12 and No. 13, 2 × 12 in. diameter.

Loading rate for heavy fuel oil 3,500 cu.m./h., shore line 20 in. diameter, arms No. 12 and No. 13, 2 × 12 in. diameter.

Loading rate for diesel oil 2,000 cu.m./h., shore line 14 in. diameter, arm No. 14, 1 × 12 in. diameter.

Loading rate for gasoline 2,000 cu.m./h., arm No. 15, 1 × 12 in. diameter.

Loading rate for jet fuel 500 cu.m./h., arm No. 16, 1 × 8 in. diameter.

Deballasting 1,000 cu.m./h., arm No. 12, 1 × 12 in. diameter.

Bunkering rate 600 cu.m./h., arm No. 11, 1 × 8 in. diameter.

All flanges ANSI 150 lbs., RF.

LPG. Loading rate 80 cu.m./h., hose 1 × 4 in. diameter, flanges ANSI 300 lbs., RF.

Berth 2: Discharging rate 12,000 cu.m./h., main shore line 40 in. diameter, arms No. 22, No. 23 and No. 24, 3 × 16 in. diameter.

Loading rate for heavy fuel oil 5,000 cu.m./h., arm No. 22, 1 × 16 in. diameter.

Deballasting 1,000 cu.m./h., arm No. 22, 1 × 16 in. diameter.

Bunkering rate 600 cu.m./h., arm No. 21, 1 × 10 in. diameter.

All flanges ANSI 150 lbs., RF.

Berth 3: Discharging rate 6,000 cu.m./h., main shore line 40 in. diameter, arms No. 34 and No. 35, 2 × 12 in. diameter.

Loading rate for heavy fuel oil 5,000 cu.m./h., arms No. 34 and No. 35, 2 × 12 in. diameter.

Loading rate for diesel oil 2,500 cu.m./h., arm No. 33, 1 × 12 in. diameter.

Deballasting 1,000 cu.m./h., arm No. 35, 1 × 12 in. diameter.

Bunkering rate 600 cu.m./h., arm No. 37, 1 × 8 in. diameter.

All flanges ANSI 150 lbs., RF.

Berth 4: Discharging rate 6,000 cu.m./h., shore line 24 in. diameter, arms No. 42, No. 43 and No. 44, 3 × 12 in. diameter.

Loading rate for heavy fuel oil 4,000 cu.m./h., shore line 20 in. or 24 in. diameter, arms No. 42 and No. 43 or No. 43 and No. 44, 2 × 12 in. diameter.

Loading rate for diesel oil 2,000 cu.m./h., arm No. 40, 1 × 12 in. diameter.

Loading rate for gasoline 2,000 cu.m./h., arm No. 45, 1 × 12 in. diameter.

Loading rate for straight-run naphtha 1,500 cu.m./h., arm No. 40, 1 × 12 in. diameter.

Deballasting 1,000 cu.m./h., arm No. 42, 1 × 12 in. diameter.

Bunkering rate 600 cu.m./h., arm No. 41, 1 × 8 in. diameter.

All flanges ANSI 150 lbs., RF.

Berth 5: Discharging rate 1,000 cu.m./h., arm No. 51, 1 × 8 in. diameter.

Loading rate for heavy fuel oil 1,000 cu.m./h., arm No. 51, 1 × 8 in. diameter.

Loading rate for diesel oil 1,000 cu.m./h., arm No. 52, 1 × 8 in. diameter.

Loading rate for gasoline 1,000 cu.m./h., arm No. 53, 1 × 8 in. diameter.

Deballasting 1,000 cu.m./h., arm No. 51, 1 × 8 in. diameter.

Bunkering rate for heavy fuel oil 600 cu.m./h., arm No. 51, 1 × 8 in. diameter.

Bunkering rate for diesel oil 40 to 1,000 cu.m./h., arm No. 52, 1 × 8 in. diameter and hose 1 × 2 in. diameter.

All flanges ANSI 150 lbs., RF.

LPG. Loading rate 80 cu.m./h., hose 1 × 4 in. diameter, flanges ANSI 300 lbs., RF.

Berth 8: Loading rate for benzene 500 cu.m./h., arm No. 81, 1 × 8 in. diameter.

Loading rate for propylene 400 cu.m./h., hose 1 × 8 in. diameter.

Loading rate for oily water 100 cu.m./h., hose 1 × 4 in. diameter (in future).

Flanges for propylene loading ANSI 300 lbs., RF.

All other flanges ANSI 150 lbs., RF.

Phenol will be handled in future at this berth.

BALLAST: There are facilities for discharging ballast at oil berths. However, discharging can be effected simultaneously only from two berths.

The capacity of the ballast handling system of the refinery is 30,000 cu.m. and the maximum discharging rate at each berth is 1,000 cu.m./h. Ballast over 5,000 cu.m. must be reported 48 hours prior to arrival.

The harbour office collects a charge to cover treatment costs for receiving ballast.

No ballast can be discharged at berth 8. However, in near future, flushing water for the tanks can be discharged provided that the pollutants can be handled in the Neste waste water treatment system. In that case the capacity is 100 cu.m./h.

MEDICAL: In emergency a doctor can be called on board. To call ambulance, dial 147700/2222. The nearest hospitals are in Porvoo and in Helsinki. Ship's Agent helps in other medical problems, such as providing medicines.

DENSITY: 1006.

FRESH WATER: Drinking water can be supplied from:

Berths 1, 4 and 5	25 cu.m./h.
Berths 2 and 3	50 cu.m./h.(2 connections)
Berth 8 (in near future)	20 cu.m./h.

FUEL: Bunkering facilities are installed at oil berths. Two grades are available, marine fuel oil and marine diesel oil.

The bunkering capacities:

Marine fuel oil	600 cu.m./h.
Marine diesel oil	up to 1,000 cu.m./h.

The diesel oil can be delivered through product lines. Bunkers must be ordered with 72 hours' notice addressed to Neste Marine Product Sales, telex Hki 12-4641.

GANGWAY/DECK WATCHMAN: Not required.

CUSTOMS ALLOWANCES: 200 cigarettes and 1 bottle wine or spirits for each man.

REPAIRS: Only minor repairs can be effected following the safety rules and with the permission of the harbour office.

REPATRIATION: Disembarking is possible. A foreigner needs a passport. Distance to Porvoo is 20 km. (12.5 miles) and to Helsinki 45 km. (28 miles).

AIRPORT: There are daily flights from Helsinki – Vantaa airport with good connections all over the world. Distance to the airport is about 50 km. (30 miles).

TIME: GMT plus 2 hours. No alteration during the year.

TELEPHONE NUMBERS: After berthing a telephone connected to the local automatic exchange will be placed on board all vessels, the respective dial numbers being:

Berth 1	23333
Berth 2	23334
Berth 3	23335
Berth 4	23336
Berth 5	23337
Berth 8	23341

Important numbers:

Harbour office	23339 or 147700/2380 and 2381
Customs	23293
"Into"	23338
"Esta"	23350
Fire alarm/ ambulance	147700/2222

Bus connections, taxi:

Bus connection daily to Porvoo from 0700 to 2300 hrs.

Taxi 24 hours	tel. Nos.
Neste Oy taxi station	23245
Pekema Oy taxi station	23390
K-O Johansson	22252

GENERAL: *Inspections:*

To avoid oil accidents, an inspection based on the checking list is carried out before loading/discharging to find out the preparedness of the vessel to act in an emergency.

Vessels loading/discharging oil products are surrounded by oil booms.

Inspections are carried out and loading/discharging is supervised by the Loading Master, whose instructions must be followed. If he is not on board, he can be contacted by telephone, No. 23339 or 147700/2381.

REGULATIONS: In addition to the existing Finnish laws, statutes and other regulations the Port Regulations of Neste Oil Harbours must be followed.

Some excerpts:

Entering the Harbour: Vessels carrying explosives or flammable liquids or gases shall observe, what has been separately laid down concerning such cargo. The vessel shall show the prescribed caution sign in the harbour area.

Traffic in the Port Area: In the port area the speed of the vessel shall be according to the circumstances, so that no harm or danger shall be caused to anyone. Oil booms, underwater jobsites etc. shall be passed with special care. The maximum speed allowed in the port area is 6 (six) knots, unless otherwise stated by the Harbour Office.

Berthing of the Vessel: Without urgent need, anchorage is prohibited in the marked fairway, in the vicinity of the submarine pipe-lines or cables or in any place where the vessel may disturb the traffic.

The vessel shall be moored alongside the berth appointed by the harbour authorities and it shall not be removed without permission.

While berthing or unberthing or whilst moored at the berths the relevant safety precautions shall be taken to avoid any damage to the berths.

All ships' scuppers must be plugged or closed by mechanical means so that no water, steam or dirt comes into contact with the berth or its immediate vicinity.

A sufficient crew shall be maintained on board to ensure that the ship can be removed, if necessary.

Prevention of Shallowing and Contamination of the harbour:

In the port area it is prohibited to discharge oil or oil-emulsified water. In the Baltic Sea the existing restrictions must be observed.

The jettisoning of garbage and refuse is prohibited in the port area. The blowing of tubes and boilers of the ship while at the berth is prohibited.

AUTHORITY: Harbour Master.

RAAHE (LAPALUOTO): 64.41 N. 24.29 E.

(See Plan Book)

PORT LIMITS: Vessel is considered to be an "arrived vessel" subject to Charter Party Terms, when passing breakwaters if not ordered to anchor near Raahe Lighthouse by Port Authority.

DOCUMENTS:

Crew Lists.
Passenger List.
Ship's Register.
Custom List.
Provisions List.

PILOTAGE: Masters to contact Pilot station and pilot boat, VHF Channel 16. Pilots board and disembark by pilot cutter (red) near Raahe Lighthouse (Lat. 64° 39′ N., Long. 24° 13′ 5″ E.). Day and night service.

ANCHORAGE: Vessels can anchor outside Raahe Lighthouse, depth 15-20 m. No anchorages inside breakwaters.

RESTRICTIONS: No restrictions night entry.

MAX. SIZE: Lapaluoto Harbour, depth inside 5.4 m., outside 6.7 m. Length 140 m.

Rautaruukki Oy Harbour; depth 7.8 m., length 839 m. (370 m.+263 m.+206 m.).

Ore Harbour, depth 6.7 m.

RADIO: Helsinki Radio, 2182 kHz, call sign OHG, Mariehamn Radio, 2182 kHz, call sign OFH; Vaasa Radio 2182 kHz and VHF Channels 16, 24 and 27, call sign OFW.

RADAR/VHF: No port radar services. Pilot station. Radio, 2182 kHz, VHF Channel 16. Rautaruukki Oy Harbour Office, VHF, Channel 16 and tugboat "Rautalouto" VHF, Channel 16.

TUGS: Tug *Rautaluoto* 600 h.p.

STEVEDORES: Rautaruukki Oy, in Steelworks Harbour; other private firms.

SPECIALISED CARGO HANDLING FACILITIES: Lapaluoto Harbour, no shore cranes, Ore Harbour (Helmi), only conveyor. Rautaruukki Oy Harbour, import quay equipped with three 12.5-ton shore cranes and conveyor; export quay equipped with one 12.5-ton and one 40 ton shore crane, straddle carriers and equipment for handling steel and general goods.

LIFEBOAT STATION: Lifeboat cutter "Niilo Saarinen", 360 h.p., 10 kts. Radio 2182 kHz, VHF Channel 16, Radar, fire and drainage pump 4,000 lit/min. Alarm through National Lifeboat Service, Pilot or Police Stations.

DENSITY: Average density 1002.

FRESH WATER: Available from Rautaruukki harbour.

FUEL: Small quantities available, one day's notice required.

FIRE PRECAUTIONS: No special precautions in Lapaluoto Harbour.

GANGWAY/DECK WATCHMEN: Available but not compulsory.

OPENING/CLOSING HATCHES: Normally by the crew.

CUSTOMS ALLOWANCES: About 200 cigarettes and limited amount spirits per man.

IDENTIFICATION CARDS: Not required.

CONSULS:

Denmark 31146 – 37269
Norway 31146 – 37269
Sweden 37300 – 37007

REPAIRS: Raahe Oy, Mechanical Workshop. Slip for small ships.

DRY DOCKS: None.

AIRPORT: Oulunsalo Airport, about 60 kms. from Raahe.

TIME: Local time is GMT plus 2 hours.

HOLIDAYS: New Year's Day; Twelfth Night; Good Friday; Easter Monday; Labour Day (1st May) holiday when no work takes place; Ascension Day; Whitsun Monday; Midsummer Day; All Saints' Day; Independence Day (6th December); Christmas Day and Boxing Day.

POLICE/AMBULANCE/FIRE: Police 37911; Ambulance; Fire and First Aid 005.

GENERAL: Government ice-breaker assistance available when needed.

AUTHORITY: Port of Rautaruukki Oy, Port of Raahe (Lapaluoto).

RAUMA: 61.08 N. 21.30 E.

PORT LIMITS: Southern entrance port limit when passing Tankar, northern entrance port limit when passing Riskonpoella.

DOCUMENTS: 2 Crew Lists and 1 Passenger List. Ship's Register, Customs Documents, Ship's Papers etc. (Ship's Agent will give the necessary advice).

PILOTAGE: Pilot station at Kylmapihlaja-island, Lat. 61° 08′ 7″ N. Long. 21° 18′ 4″ E. International Pilot signals, VHF Channels 16 and 13. Fairways Santakari 17 ft.; Valkeakari 24 ft.; deep passage 28 ft.

ANCHORAGE: Ample area for anchorage in Archipelago.

RESTRICTIONS: Entrance channel for 24 ft. maximum draft usable in all conditions, the 28 ft. channel to be used in daylight only. Harbour open all year round.

MAX. SIZE: Draft limit only.

HEALTH: Event any suspect contagious disease ask for orders by wireless. Port Regulations do not allow such a ship to come alongside or even closer than 350 yards. Pilot must not leave ship before allowed by the Doctor. Pilot does not board an infected ship but ship piloted to safe anchorage by pilot boat.

RADIO: Helsinki Radio, Hanko Radio, Mariehamn Radio.

VHF: Rauma VHF Channels 26 and 28, Channel 16 used for calling Pilot, tug etc. Channels 13 and 12 for further operations.

RADAR: When required pilot station radar used for advising Pilot onboard.

TUGS: 1 port owned tug 1,260 h.p. Usually one extra tug of 1,160 h.p. or 600 h.p. available but not guaranteed. An early notice recommended if more than 1 tug needed.

BERTHING: Hakuni outer quay 270 m., depth 22 ft. used for loading forest products. Central quay 410 m., depth 22-24 ft. used for forest products loading and discharging bulk cargoes. Laitsaari quay 300 m. 28 ft. paper loading.

Inner harbour 300 m. 13-16.75 ft. timber loading.

Chemical quay No. 1: 16.75 ft. liquid produce load/discharge.

Chemical quay No. 2: 23 ft. liquid produce load/discharge.

Oil quay: One berth 24 ft. oil load/discharge.

CRANES: Central quay two 6 tons; one 5 tons; two 3 tons. Five mobile cranes 5-30 tons, available.

STEVEDORES: 24 hours notice to Agent recommended.

SPECIALISED CARGO HANDLING FACILITIES: 400 m. berth specially equipped for handling bulk cargoes, mainly china clay, sulphur, coal, etc.

No special equipment for containers, but smaller containers can be handled by harbour cranes.

Good berths for roll-on/roll-off traffic.

Different kinds of liquid chemicals can be handled in special berths.

MEDICAL: Advance notice recommended if possible. Hospital available (231 beds).

TANKERS: One berth, draft 24 ft. 15 in. cargoline 1,500 t.p.h. slop discharge facilities by tank-trucks.

DENSITY: 1004–1003.

FRESH WATER: Fresh water available on quay. Charges depending on amount taken.

FUEL: Fuel brought by tank-trucks.

GANGWAY/DECK WATCHMEN: Available if wanted. Watchmen supplied by private company.
OPENING/CLOSING HATCHES: Performed by ship's crew or by Stevedores at request of ship.
CUSTOMS ALLOWANCES: Tobacco: 6 day's ration (about 200 cigarettes or 200 gm. tobacco). Wine and/or Spirits: 1 opened bottle of wine or liquor, subject to Customs Regulations.
CARGO GEAR: Central quay shore gear available other quays mobile gear or ship's gear.
CONSULS: Denmark, Norway and Sweden.
REPAIRS: All types available.
DRY DOCKS: Rauma-Repola Oy: Dry dock 505 ft. 9 in. by 70 ft. 4 in. by 24 ft. 7 in. all sorts of repairs. Hollming Oy: Slipway for ships up to 600 d.w.t.
SURVEYORS: Ship's Agent will give advice.
REPATRIATION: Repatriation and signing on or off.
AIRPORT: Pori – airport 50 km. away. Regular connections.
TIME: Local time is 2 hours ahead of Greenwich (Long. 30° E.).
HOLIDAYS: See "Turku".
POLICE/AMBULANCE/FIRE: Police, 002 and 003; Ambulance, 006; Fire alarm, 005.
TELEPHONE: Oil quay, Laitsaari Quay connection Fmk 40.00.
SERVICES: Compass adjusting facilities and compass adjusters.
SHORE LEAVE: No restrictions.
IDENTIFICATION CARDS: Normally no identification card needed but passport or seaman's book preferable.
DEVELOPMENTS: New 29.5 ft. entrance channel under construction, new berths with equal depth under construction.
DELAYS: No delays in berthing, loading and discharging weather permitting.
AUTHORITY: Traffic Manager and Harbour Master.

SAIMAA CANAL AND PORTS IN LAKE AREA OF SAIMAA (See Plan Book)

APPROACH CHANNELS: The canal can be reached from the international waters of the Gulf of Finland through an approach channel South of Someri. The channel passes the Island of Vihrevoi and continues, at the Island of Malyj Vysotski, as the Vysotski-Viipuri Channel, from which the approach channel departs at a distance of 10 km. from Malyj Vysotski. The length of the approach channel from the point of departure to the Brusnitchnoe Lock is 14 km. The distance from the international water area to the Island of Vihrevoi is 94.5 km. and the length of the section Vihrevoi-Malyj Vysotski 12 km. The total length of the channel from the territorial waters of the Soviet Union to the Brusnitchnoe Lock is thus 131 km.

From the territorial waters of Finland the canal may be reached through the so-called coastal channel starting from the Finnish border at the island of Santio and joining the above sea channel at the Island of Vihrevoi. The length of the channel from the border to Vihrevoi is 49 km. and the overall length of the Brusnitchnoe Lock is 85.5 km. The channel and its refuge harbours have been marked on the Soviet sea charts. Nos. 1131 and 1132 and on Finnish charts Nos. 11 and 12. The coastal channel may only be used by Finnish vessels while vessels of other nationalities must use the sea channel, except for foreign tugs.

Canal: The length of the canal on the Finnish side of the border is 23.3 km. and that of the part on the Soviet side 19.6 km. The overall length of the Saimaa Canal is thus 42.9 km. The average difference in the height between Lake Saimaa and the Gulf of Finland is 75.6 m. The canal has 8 locks, the heights of fall of which range between 5.54 m. and 12.69 m. Earth transports will use the 7 moving bascule bridges and the 6 stationary bridges across the canal.

SEASON AND HOURS: The natural open-water season of the Saimaa Canal lasts an average of 211 days. In mild Spring and Autumn seasons the open-water period lasts 225 days. Since most vessels using the canal have been strengthened for navigation in ice, a season of navigation of almost 8 months will probably be normal every year. The season begins at the turn of April-May and ends in mid-December (From 1981 it is planned to keep the Canal open for 10 months of the year, beginning of April – end of January. The locks of the canal are provided with ice-melting equipment and they will not form an obstacle for lengthening the season of navigation. On the other hand traffic will be obstructed by freezing of the water system of Saimaa and by pack ice formations in the bottom of the Gulf of Finland. As to the water system, the farther North one goes the earlier will the waters of Lake Saimaa freeze in Autumn and the later will the ice melt in Spring.

The opening and closing of the season of navigation on the canal are decided each year by the Finnish and Soviet Canal Delegates. The closing date of the canal will be announced in the daily papers of Helsinki and Lappeenranta not later than 7 days before the day of closing, but for the opening day 1 day's notice is given.

During the season of navigation the Saimaa Canal is kept open throughout the day. The administration centre of the canal will be on continuous duty.

PILOTAGE: Pilotage in the Soviet area on the sea channels between Vihrevoi-Brusnitchnoe and on the coastal channel between the border and Brusnitchnoe is carried out by the Soviet Pilot Service. All vessels must use a Pilot on these channel sections.

Pilotage on section Brusnitchnoe – mouth of the Saimaa Canal on Lake Saimaa (or Lock of Malkia) is carried out by canal Pilots submitted to the Canal Office. Pilotage is normally carried out in two parts, on section Brusnitchnoe – the Lock of Palli and on section the Lock of Palli – the mouth of the canal on Lake Saimaa. All vessels, excluding Finnish small vessels and floating objects less than 25 m. in length, shall use a Pilot when proceeding through the canal. The Canal Office may grant upon application a Master of a vessel the right to navigate his vessel on the canal without a Pilot provided that the Master of the vessel has passed an examination of the Canal Office. In navigation from the Gulf of Finland the Pilot must be ordered from the Viipuri Section of Inflot 12 hours before the arrival at the point where the Pilot is taken on board. The order must be checked 2 hours before the start of pilotage. To avoid excessive work by the Pilot Service and to eliminate delays special attention is to be given to the accuracy of the time the pilotage is to be started, particularly in the last notifications.

In navigation from Lake Saimaa the Pilot must be ordered from the Canal Office 12 hours before entrance into the canal. The order must be checked 2 hours before pilotage is to be started. In navigation from the Gulf of Finland a canal Pilot need not be ordered separately. Similarly, a Soviet Pilot for the approach channel need not be ordered separately when the vessel proceeds from Lake Saimaa. These orders will be placed by the Finnish and Soviet authorities concerned.

Pilotage in the water system of Saimaa is carried out by Pilots of the National Board of Navigation in Finland. The order for Pilots shall be made in good time to the pilot station of Lauritsala.

MAX. SIZE: The canal can be used by vessels with dimensions not exceeding the following:

Length	82.0 m.
beam	11.8 m.
draft	4.35 m.
height of mast	24.5 m.

The draft of a vessel in tow, however, shall not exceed 4.5 m. For vessels larger than those mentioned above, a permit for navigation on the canal may be granted upon application by the Canal Office of the Saimaa Canal.

The permit may contain regulations concerning the structure or equipment of the vessel or special provisions pertaining to navigation of the vessel on the canal such as good manoeuvrability, liability to wait or speed restrictions.

The Canal Office of the Saimaa Canal may also grant a vessel or equipment with slightly larger dimensions, carrying exceptional cargo, a Trip Let Pass for one passage through the canal.

The Rules and Regulations for Traffic on the Saimaa Canal also contain more detailed directions – among others on the permissible dimensions of vessels in tow and timber rafts using the open canal sections.

NEW VESSELS: When designing new vessels, to be used also in traffic through the Saimaa Canal, the designers are advised to consult the main dimensions and the structure of the vessels with the canal authorities. The conditions of navigation in the canal depend, first of all, on manoeuvrability, though certain other factors are also important.

MAXIMUM PERMISSIBLE SPEED AND TIME OF PASSAGE: The highest permissible speed on the actual channel of the Saimaa Canal is 9 km./hr. for vessels with a draft greater than 3.9 m. For vessels navigating in lesser drafts the speed is graduated within the limits of 9–15 km./hr. depending on the draft. In the lake parts of the Canal the highest permissible speed varies between 15–18 km./hr. depending on the size of the vessel. Detailed regulations available from the Canal Office. The time of passage through the part of the Canal provided with locks (mouth of the Canal on Lake Saimaa–Lock of Brusnitchnoe) is 6–8 hours depending on waiting time at locks caused by heavy traffic volumes, and on size of vessels.

SIGNS AND SIGNAL LIGHTS: The sign system of the approach channel of the Saimaa Canal, the canal and the channels on Lake Saimaa is adequate to ensure safe navigation throughout the day, also at night and in poor visibility.

The approach channel is provided with beacons, light buoys and signs in accordance with the lateral system. The signs have been erected by Soviet authorities. The illumination and the signalisation systems of the Saimaa Canal are based on the same principles with beacons and signs, but in the signal system of the canal, sign lanterns, signboards, line markers, water traffic signs and radar reflectors have been used. The colour of sign lanterns is orange on the West bank and green on the East bank of the canal. In marking of the lake channels of Saimaa according to the cardinal system, leading and warning lights, light buoys, range beacons, landmarks and signs have been used. Information of the marking of the water system of Saimaa has been issued as a booklet by the National Board of Navigation in Finland: "Sisavesistojen loistot I 1971" – "Beacons of Inland Water Areas I 1971".

RADIO: There are two radiotelephone networks for marine use in the sphere of influence of the Saimaa Canal. On the frequency of 160 mHz reserved for actual marine radio communications there are also the Pilot radiotelephone and the public radiotelephone networks.

The Pilot radiotelephone network covers all stationary radiotelephone equipment at all locks, on the Kansola Bascule Bridge, at pilot stations and in the traffic office in the administrative building at Mustola as well as portable radiotelephone apparatus used by canal Pilots. The radiotelephone equipment of the canal Pilots operate on Channel 11 of the international marine radio. The telephone of the Brusnitchnoe Lock and the radio telephone in the Administrative Centre of the canal are also provided with a general calling and safety Channel 16.

When approaching from the sea the vessel makes a radio contact with the Brusnitchnoe Lock by using Channel 11. After this all radio communications required by navigation on the canal also use Channel 11. On Lake Saimaa, radio communications move over to Channel 13 on which the traffic office of the Saimaa Canal and the pilot station of Lauritsala are also able to operate.

The general radiotelephone network on Lake Saimaa (the so-called Saimaa Radio) uses Channels 23–28 of the international marine radio. The network covers the entire region of the water system of Saimaa extending from Lappeenranta to Iisalmi and Lake Pielinen. Channel 24 is the calling channel of the Saimaa Radio.

Two marine radio stations for general traffic have been built at Nuijamaa and Virolahti especially for navigation on the Saimaa Canal. Both radio stations are on duty and they are remote-controlled from the Coast Station of Kotka. The stations have the calling and safety Channel 16 and a calling Channel 24 for public traffic. The Nuijamaa Station operates on Channel 28 and the Virolahti Station on Channel 23. The range of the Nuijamaa Station extends from South of Viipuri to Southern Saimaa and the range of the Virolahti Station covers the entire Bay of Viipuri. The stations can be called either on Channel 16 or on the operating Channel. The Kotka Radio calls vessels either on Channel 16 or 24.

The principal purpose of both the Saimaa and the Kotka Radios is to ensure the communications of the safety service of navigation. These stations may also be used to transmit calls to the public telephone network – also to foreign countries – or vice versa, to receive calls from the public telephone network.

AUTHORITIES: Board of Management of the Saimaa Canal, Lappeenranta.

Viipuri section of Inflot. Vyborg, USSR.

National Board of Public Roads and Waterways in Finland. Waterways Department, Helsinki.

THE HARBOURS OF THE LAKE AREA OF SAIMAA:

Mustola Harbour: Situated between Mustola and Soskua locks in the Saimaa Canal:

4 quays, 80 m. each. Draft alongside 4.35 m. Roll-on/Roll-off facilities are provided. 1 Coles mobile diesel electric crane: arm 9.14 m., reach of arm 3.66 m., lifting capacity 35 tons. Arm 18.3 m., reach of arm 18.3 m., lifting capacity 4 tons. Grab of capacity 2,500 litres or 1,250 litres can be installed. Possibility to hire further mobile cranes.

Lappeenranta Passenger Harbour: Situated in Saimaa Lake at Lappeenranta town:

New concrete quay with passenger terminal. Draft alongside 4.35 m. Room for 2 ships with a draft of 4.35 m. and for 3 ships with a draft of 3.0 m. Pilotage distance from canal entrance 6 nautical miles.

Kaukas Oy Pulpmill Factory Discharging Place:

Draft alongside 4.35 m. (unofficial). Mobile crane for discharging wood into water. Pilotage distance from canal entrance 1.5 nautical miles.

Enso-Gutzeit Oy Paper Mill Quay: At Imatra Kaukopaa:

Length of quay 70 m., draft alongside 4.35 m. Pilotage distance from Canal entrance 25 nautical miles.

Joensuu Town Harbour (Ukonniemi):

Length of quay 140 m., draft alongside 4.35 m. Pilotage distance from canal entrance 38 nautical miles + 45 nautical miles + 60 nautical miles + 44 nautical miles.

Savonlinna Town Harbour (Haislahti):

Length of quay 80 m., draft 4.35 m. No cranes. Pilotage distance from canal entrance 38 nautical miles + 45 nautical miles.

Ristiina Harbour:

Quay can accommodate 1 ship. Permissible draft 4.2 m. Pilotage distance from Canal entrance is 47 miles.

Oy Wilh. Schauman Ab Paaskylahti Harbour at Savonlinna is planned. Quay will be built to accommodate 1 vessel.

Kuopio Oil Harbour:

Harbour located at Kelloniemi in Kuopio Town close to Oy Esso Ab storage in rock. Harbour is owned and built by Oy Esso Ab.

One of the two planned berths for ships is completed. The harbour is provided with oil discharge equipment. Permissible draft 4.2 m.

Kuopio Town Harbour (Kumpusaari):

Berth for 1 dry cargo vessel and 1 tanker. Permissible draft 4.2 m. Pilotage distance from Canal entrance 38 nautical miles + 45 nautical miles + 41 nautical miles + 42 nautical miles.

Varkaus (Akonniemi Oil Harbour):

Harbour is located on the East bank of the Southern entrance of Taipale Canal. Fairway about 6 km. from the centre of the town. There is room for 1 ship; permissible draft 4.35 m.

Varkaus:

Harbour located at the South end of Taipale canal at Westbank. The Harbour is not built for a harbour but as waiting berth for ships passing Taipale canal. 1 ship can be berthed and permissible draft is 4.35 m. There are no warehouse and loading equipment, but A. Ahlstrom Osakeyhtio is using the berth for shipping paper to England. Loading is effected by the factory's labour and machines. Goods are transported to the port by lorries.

A. Ahlstrom Oy. has own quay located at the North side of the Taipale Canal. Berthing space for 1 vessel, max. draft 4.2 m. Pilotage distance from canal entrance 38 nautical miles + 45 nautical miles + 41 nautical miles to Taipale.

Rapasaari Harbour:

Situated in Saimaa Lake at Lapeenranta town. One quay, length 80 m. Permissible draft 4.35 m. Railway to the quay. Possibility to hire mobile cranes. Pilotage distance from Canal entrance 6 nautical miles.

Vuoksi Harbour:

Situated in Saimaa Lake at Imatra town. One quay, length 80 m. Permissible draft 4.35 m. Possibility to hire mobile cranes. Pilotage distance from Canal entrance 24 nautical miles.

Siilinsarvi:

There are 2 quays, each with berthing space for 1 vessel, in Siilinsarvi community, situated about 30 km. from Kuopio Town to the North. Permissible draft 4.2 m. Pilotage distance from canal entrance 38 nautical miles + 45 nautical miles + 41 nautical miles + 40 nautical miles + 19 nautical miles.

TOLKKINEN (Tolkis): 60.20 N. 25.35 E.

PILOTAGE: Pilot arrives from port station at Emsalo (tel. 915-27710). Station equipped with VHF, radiotelephone and radar. Pilotage distance to port 22 miles.

APPROACHES: Max. draft of fairway from sea, 23 ft. 8 in.

TUGS: One tug available, 350 h.p.

BERTHING: Tolkis Cellulose Quay, depth 23 ft. Tolkis New Quay, depth 17 ft. Oil Harbour (see "Skoldvik").

CRANES: Tolkis New Quay equipped with 2 movable cranes. Lifting capacity 2.5 tons with grabs and 5 tons with hook.

DENSITY: 1004.

FRESH WATER: Available by lorry. Minimum quantity 5 tons.

TORNIO: 65.51 N. 24.09 E. (See Plan Book)

The outer harbour of Tornio is Roytta situated about 6 miles S.W. of Tornio.

DOCUMENTS:

2 Crew Lists.
2 Provisions Lists.
Passenger List.
One set of Bills of Lading, Ship's Papers, Health Documents.

PILOTAGE: AJOS pilot station VHF Channel 16. Pilot to be taken on board by lighthouse "Kemi 2" in position 65° 30.3′ N., 24° 22.5′ E., 10 miles from Ajos.

ANCHORAGE: In Roads, depth is 24 ft.

MAX. SIZE: At same time there can be 2 vessels of 100-120 m. length, draft 21 ft. 06 in.; 2 vessels of 50-60 m. length alongside Main Quay; and 2 vessels of 50-60 m. length, draft 14 ft. at Old Quay.

RADIO: Vaasa Radio/OHX or Harnosand Radio, Sweden/SAH.

TUGS: No tug available at Tornio. To be ordered from Kemi 12 hours before.

CRANES: Three 20 ton mobile cranes for general cargo and several cranes for discharging bulk cargo.

STEVEDORES: Ordered by Agent (Telex 35–12). Agent must be given 24 hours ETA. Normal working time 0700–1100, 1200–1600 and 1600–2400 hrs. (Two shifts).

DENSITY: 1000.

FRESH WATER: Fresh water can be delivered by tank lorry (8 tons).

FUEL: Ordinary fuel by lorries from Kemi.

OPENING/CLOSING HATCHES: By the ship's crew.

CUSTOMS ALLOWANCE: 100 cigarettes or 100 grams tobacco and 1 bottle spirits.

CONSULS: France tel. 40473; Sweden tel. 23651; Norway 14411.

REPAIRS: No docks but accommodation for small repairs.

AIRPORT: At Kemi, 20 km. from Tornio; served by Finnair.

TIME: GMT plus 2 hours.

POLICE/AMBULANCE/FIRE: Police 003; Fire 005; Ambulance 006; Salvage 47472.

AUTHORITY: Tornion Satamakonttori.

TURKU (Abo): 60.27 N. 22.15 E.

DOCUMENTS: See "Oulu".

PILOTAGE: Telegram to Agent with 24 hours ETA to Sea Pilot station (State Pilots) Uto, contact pilot station via Hango Radio or at shorter distance by VHF. Coastal Radar service available. When approaching port ETA by VHF to Port Information Centre, international Channel No. 12 for Harbour Pilot. Cutter whilst in action, same Channel, but takes orders from Information Centre only.

Pilot cutters painted red with white circular field marked "L" on the bows. Flying flag in daylight, showing red and white lights vertically at night. Coming out when required to pilot station 0.75 mile from Main Harbour. Call signals: International flag "G", at night 3 long blasts. No special boarding measures. All ships arriving from sea will get necessary information from Sea Pilot, whose service is compulsory. Harbour Pilot not compulsory.

ANCHORAGE: Outer anchorage at Bay of Airisto, 2 miles from Port, 15-18 m. In practice all ships taken into port without anchoring or waiting.

MAX. SIZE: Maximum draft in Commercial Harbour 30 ft. fresh water. In Oil Harbour 29 ft. 6 in. fresh water. Length and breadth of minor importance. No tides.

HEALTH: International Quarantine flag required in case of suspected disease or fever including preliminary report by VHF, otherwise, ask Agent.

RADIO: Hango (Hanko) Radio and Mariehamn Radio. In addition these have telephone and VHF service. Local telephone network on VHF Channel 26.

TUGS: Off Harbour Pilot station Pikisaari/Beckholmen, further out on application. Advisable apply for tugs in advance. 4 tugs available.

BERTHING: Priority given to arriving and departing passenger ships on regular lines. 6 hydraulic stern loading roll-on/roll-off berths and 3 without hydraulics..

Total length of quays 4,896 m.

Canal Bank quay	Depth 27 ft.
West quay	Depth 30 ft.
Coal quay	Depth 18 ft.
Oy Wartsila A/B	Depth 18 ft.
Linnanselka/Slottsfjarden quay	Depth 27 ft.

Container facilities available.

CRANES:

Quay	*No.*	*Capacity (tons)*	*Reach of arm (m.)*	*Type*
Canal bank	7	5.0	15	Movable
	1	7.0-5.0	5.5-12	,,
Linnanselka/ Slottsfjarden	7	5	20	,,
	2	60-40	20-24	,,
	9	6	20	,,
Oy Wartsila Ab Turku Shipyard (only for dock work)		100-40-10	17.5 35-36	Stationary
Valmet Oy Pansion Telakka	1	30-6	19-39	Floating for dockwork only

DENSITY: 1004.
STEVEDORES: Agent should be well informed about ETA and Master's Requirements. Normal working hours: 0700–2230 hrs.; Saturdays and days preceding public holidays 0700–1430 hrs. The Post Office: 0900–1600 hrs. Saturdays and days preceding public holidays 0900–1400 hrs.
MEDICAL: All medical and hospital facilities available. No special requirements regarding inoculations, etc.
TANKERS: No special requirements. Small slop discharge facilities. 1 berth, depth 29 ft. 6 in. for larger ships.
FRESH WATER: From pipe-lines along berths. Price approx. 5 fmk. per ton.
FUEL: Most grades available. No advance notice neccessary if ex. motor vehicles. In case of greater quantities: from Oil Harbour only. This requires advance notice to Agent.
DEVELOPMENTS: Entrance channel to Main Harbour is now dredged to 33 ft. Container Harbour being built. Outer Harbour planned. Recent acquirement: one 60-ton moveable electric quay crane. Draft alongside 30 ft.
GANGWAY/DECK WATCHMEN: Gangways to be rigged out so that they do not obstruct quay crane movements. Watchmen customary, but not necessarily hired.
OPENING/CLOSING HATCHES: Normally carried out by stevedores.
IDENTIFICATION CARDS: Not needed.
CONSULS: The following countries are represented by Consuls or vice-consuls in Turku: Austria, Belgium, Denmark, France, Great Britain, Greece, Honduras, Iceland, Italy, Norway, Portugal, USSR, Spain and Sweden.
REPAIRS: All types of repairs possible.
DRY DOCKS: Graving dock: length 600 ft. (183 m.), width of sluice gate 85 ft. (26 m.), depth on sill 26 ft. 3 in. (8.0 m.).

Floating dock: lifting capacity 4,000 tons, max. length of ship 358 ft. (109 m.), inner width 59 ft. (18 m.) max. draft 16 ft. 6 in. (5.0 m.). By agreement the shipyard's 80-ton crane can be used in port traffic if such is needed. Tel. 359 500, Telegrams "Wartsila". Telex 62-228.
REPATRIATION: Yes, good connections everywhere.
AIRPORT: 4 miles from port, regular lines.
TIME: GMT plus 2 hours. No alterations during the year.
HOLIDAYS: New Year's Day (January 1st); Twelfth Night (January 6th); Good Friday; Easter Bank Holiday; Midsummer Day; All Saints' Day; Independence Day (December 6th); Christmas Day; (December 25th); Boxing Day (December 26th).
POLICE/AMBULANCE/FIRE: Fire 005; Police 002; Ambulance 006.
GENERAL: Ice-breakers maintain Winter traffic. 2,000 and 800 h.p.
TELEPHONES: Ships' telephones available.
AUTHORITY: Kanavaniemi, Turko/Abo.

UUSIKAUPUNKI: 60.48 N. 21.24 E.

APPROACHES: 3 fairways lead to harbour through sheltering archipelago; Uto-Uusikaupunki, 78 miles; Isokari-Uusikaupunki, 13 miles; Kylmapihlaja-Uusikaupunki, 24 miles.

Good sheltered anchorage in the roads. Depth of fairways 9 m.
DOCUMENTS:

Agent will prepare during clearance:
2 Ship's Report.
1 Declaration List, arrival (Board of Navigation)
1 Declaration List, Departure (Board of Navigation)
To be prepared before Arrival:
2 Provision Lists (own provision of the ship)
2 Special Lists (must be signed by each member of the crew)
2 Crew Lists
Bill of Admeasurement
Certificate of Registry
Ice-class Certificate (during Winter months, 1st December-30th April, issued by hull surveyor)
Bill of Lights (issued by Customs).

PILOTAGE: Embark Pilot at Isokari or Uto Pilot stations. Distance through archipelago Isokari-Uusikaupunki 13 miles, Uto-Uusikaupunki 78 miles. Under normal circumstances first fairway recommended. During Winter months, if ice-situation difficult in Gulf of Bothnia, traffic goes via Uto.

Both pilot stations equipped with radio 2182 kHz, Channels 16 and 24, VHF duplex-Channels 18, 20 or 22 and radar. Pilot-boat red, with letter "L" and fitted with VHF Channels 13 and 16. Pilot boards usually between Sandback-Isokari, to where "Hauteri" light leads in line 134.5°–314.5° (T). Notice of ETA at least 4 hours prior reaching station.
ANCHORAGE: Many areas of safe anchorages in Archipelago. Pilot advises.
RESTRICTIONS: No entry restrictions. No tide. During North and East winds sea-level can fall about 40 cm. below normal, which may sometimes delay deep loaded vessels reaching port.
MAX. SIZE: Longest quay 340 m. depth alongside 10 m.
HEALTH: Pratique not necessary. In the event of any disease/fever on board or in last port of departure, vessel has to inform before arrival, hoist quarantine-flags, or in darkness 2 lights, red light above white, showing all round horizon.
RADIO: Mariehamn Radio OFH; Helsinki Radio OHG.
TUGS: 2 available; normally tugs join vessel at port, ship's lines used.
BERTHING: *Kemira Quay:* 340 m. long, owned by fertiliser factory Kemira Oy, has depth 10 m. alongside, two 8 ton cranes, two discharging pipes, one for discharging ammonia at minus 32° C. and one for sulphur acid. Discharging capacity depending material 140-170 tons/hour/crane and loading/discharging bags 45-50 tons/hour/crane.

Esso Quay: 40 m. long, owned by Oy Esso AB, depth in channel and alongside 5 m. Terminal is used for discharging LP gas.

Telakka Quay: 140 m. long, owned by Uudenkaupungin Telakka Oy, has depth alongside 5 m. Quay is only used for ship repairs, and fitting works for new buildings. There is also a floating dock with 5,000 ton capacity.

Hepokari Pier: 90 m. long and 18 m. breadth, owned by town. Channel and alongside depth 7 m. There is terminal on South side for Ro-Ro traffic.

Saunasilta Quay: 60 m. long and depth 3.5 m., owned by town. Used only by small coasters.
STEVEDORES: Available. Contact Agent.
MEDICAL: Hospital facilities, vaccination, certificates, etc., available. Contact Agent.
TANKERS: For discharging and loading liquid ammonia – Marine Loading arm "Luceat/Chiksan, Type RCMA" 8 in., ASA 300.
DENSITY: No tide, density 1004.
FRESH WATER: Water-hoses, about 20 t.p.h.
FUEL: Fuel available, contact Agent.
GANGWAY/DECK WATCHMEN: Not necessary.
OPENING/CLOSING HATCHES: Normally carried out by crew.
SHIP CERTIFICATES: All certificates according to International Convention for the Safety of Life at Sea, Class Certificate, etc.
CUSTOMS ALLOWANCES: Tobacco: 200 cigarettes per each member of the crew. Wine and/or Spirit: 1 bottle wine or spirit per each member of the crew.
CARGO GEAR: No additional requirements.
IDENTIFICATION CARDS: Not needed.
CONSULS: None.
REPAIRS: All types of deck and engine repairs possible.
DRY DOCKS: Uudenkaupungin Telakka Oy has a floating dock, lifting powers 5,000 tons, draft 6.1 m., breadth 19.6 m., and length 130 m.
REPATRIATION: Facilities exist for effecting crew changes and arranging any necessary repatriations.
AIRPORT: Distance to Turku Airport about 90 km. Airport is served by regular Airlines.
TIME: GMT plus 2 hours, no alterations during the year.
HOLIDAYS: Official Holidays are: New Year's Day (January 1st); May 1st; Midsummer Day (Saturday between June 20th and June 26th); Independence Day (December 6th). Usually no work on those days.
POLICE/AMBULANCE/FIRE: Police 002 or 3002; Ambulance 3005; Fire 005 or 3005.
TELEPHONES: Available.
SHORE LEAVE: Crew members are allowed ashore.
AUTHORITY: Uudenkaupungin Satamatoimisto.

VAASA: 63.06 N. 21.36 E. **(See Plan Book)**

DOCUMENT:
3 Crew Lists.
3 Passenger Lists.
2 Customs Documents.
2 Health Documents.
5 Manifests.
5 Bills of Lading.

PILOTAGE: Compulsory for ships arriving from abroad. 3 Pilot stations: From S. = Ronnskar Pilot for ships draft 18 ft. to 26 ft. From S.W.-W. & N.W., Norrskar Pilot = 26 ft. From N. Ritgrund Pilot = 16 ft.

Pilot signals: Letter "G" as flag – light or sound. Radio telephone call: Pilots watching 24 hours on 2182 kHz, also VHF.

Pilot vessel: 30 ft. motor yacht with wheelhouse and radar. Hull red all over with letter "L" painted on bow.

Pilot vessel not cruising in open sea. Meets ship well outside Archipelago indicated on charts.

Harbour Pilot available in port from Vasklot Pilot Station. Tel. 112 496.
ANCHORAGE: In the area of port – outside breakwater about 2 miles W. of port of Vasklot. Elsewhere according to Pilot's advice.
RESTRICTIONS: No locks. Fairway lighted all the way.

No tide, but water level may be reduced by up to 20 in. in Spring and early Summer, or increased by 10 to 25 in. in Autumn.
MAX. SIZE: Depth alongside piers up to 26 ft. 3 in. At the Oil Harbour, max. recommended LOA is 610 ft.
HEALTH: See "Documents" – no restrictions. Hospital and Doctor for any purpose available.
RADIO: Vaasa Radio – OFW 2803 kc/s.
RADAR/VHF: No radar service in port area. Pilot vessels at sea Pilot stations equipped with radar; also Ronnskar Pilot station on same island. VHF radios on Pilot stations, harbour tug-boat and harbour office Channels 16, 13 and 12.
TUGS: Harbour tug-boat and ice-breaker m/s *Vaasa* available 24 hours round. 650 h.p. Radio telephone/VHF – call signs OGWE. Charge according to size.
BERTHING: 2 piers of 180 m. length and the Reins Quay of 240 m. length. Depth 26 ft. 3 in. There are three 5-ton cranes on the South Pier.

The Ferry Pier, 106 m. and 118 m. length, depth alongside 5.7 m. with berths for Ro-Ro traffic.

The Oil Harbour is at Vasklot. Depth alongside 26 ft. 3 in. Tankers discharge through three arms of 500 m/m and 400 m/m diameter.
STEVEDORES: ETA as usual according to C/P to Agent, etc.
MEDICAL: If serious illness advance notice to Agent necessary. Coastguard has an aeroplane stationed at Vaasa; coast radio station will advise and arrange.
DENSITY: Nearly fresh water 1002-1004. No tide.
FRESH WATER: Available, no limit. Direct from quay-side, through pipes, rate about 25 t.p.h.
FUEL: All grades of bunker fuel available – direct from oil jetty or by lorries to berth.

FIRE PRECAUTIONS: Dry-cargo ships; no smoking in holds. Tankers: usual restrictions. Tankers with petrol cargo not allowed to berth at dry-cargo piers.
GANGWAY/DECK WATCHMEN: Not compulsory, ship's own crew can be used. Police watchmen available.
OPENING/CLOSING HATCHES: Normally carried out by crew.
CERTIFICATES:

- Safety Equipment Certificate.
- Stability Certificate.
- Load Line Certificate.
- Derrick and Hoisting Gear Test Certificate.
- Derating Certificate.
- Nationality Certificate.
- Measurement Certificate.
- Ice-class Bill.

CUSTOMS ALLOWANCES: Tobacco: Max. 200 cigarettes per man or 50 gm. of tobacco. Wine/Spirit: Maximum 1 bottle of each per man to be opened and used on board only.
CARGO GEAR: Cargo gear test book to be in order – all gear to be tested within a year otherwise risks for breaks in discharging/loading.
IDENTIFICATION CARDS: Not needed.
CONSULS:

- Belgium
- Denmark
- France
- Great Britain
- Netherlands
- Norway
- Sweden

REPAIRS: Shipyard in Vaasa owned by Wartsila Oy. All deck and engine work can be carried out; slip for ships up to 1,500 d.w.t. Nearest dry dock Rauma. Harbour tug acting as salvage vessel, diver on board, all kinds of underwater cutting and welding, pumps, etc.
REPATRIATION: Can be carried out easily.
AIRPORT: Vaasa Airport (about 8 miles from town) served by regular airlines, domestic and abroad, Stockholm, U.K., Continent, etc.
TIME: Local time GMT plus 2 hours.
HOLIDAYS: Working hours in port: 0800–1200, 1300–1700 Monday–Friday, Saturday: 0800–1200. Sunday free. Working days in port: Monday–Saturday. Working days ashore: Usually Monday–Friday. All banks closed on Saturday. Shops open all weekdays. Other holidays: 6th December – Independence Day – Christmas, etc., as usual.
TELEPHONES: Can be arranged on board.
POLICE/AMBULANCE/FIRE: Tel. numbers Vaasa: Police 112 034, 112 374; Ambulance 005 112 641; Fire 005. Ambulance, aeroplane, coast guard: Vaasa 113 751, 114 859.
GENERAL: Ships approaching port of Vaasa in Winter time (January-May) when sea area icebound, have to call any of Government ice-breakers operating in area or to inform harbour authorities of exact ETA – engine power, size and nationality, and whether strengthened for ice or not. Call signs, etc., for Government ice-breaker can be obtained from nearest coast radio station.
SERVICES: Compass adjusting available.
DELAYS: Only Winter time when Government ice-breaker is arranging, waiting or assisting in outbound convoys of ships.
AUTHORITY: Harbour Master.

VALKO (Walkom): 60.25 N. 26.17 E.

PILOTAGE: Pilot arrives from pilot station at Orrengrund (Tel. (915)–565334, radio telephone). Station equipped with radar. Distance to port 12 miles. Port Authority: Tel. 565163.
APPROACHES: Max. draft from sea to fairway 24 ft.
TUGS: 1 tug available, 1,250 h.p.
BERTHING: *Walkom Quay:*
New Quay, length 300 m., depth 24 ft. South Pier (outer side) length 140 m., depth 24 ft.
South Pier (inner side) length 105 m., depth 18 ft.
CRANES: 6 mobile cranes, lifting capacity 2–6 tons. 1 shore crane, lifting capacity 6 tons. 1 shore crane lifting capacity 5–25 tons.
DENSITY: 1003.

VEITSILUOTO: 65.42 N. 24.37 E. (See Plan Book)

DOCUMENTS: Usual documents for Finnish ports. In addition the Harbour Master requires a copy of the Crew List.
PILOTAGE: Inwards compulsory for vessel in foreign trade. Boarding about 8 miles before Ajos. Ajos Pilot Station may be contacted on VHF Channel 16.
ANCHORAGE: Good holding ground about 1 mile from Rautakallio and by Koivuhauta 2 mils from harbour entrance.
RESTRICTIONS: No tide. Entry by day or night.
MAX. SIZE: See "Berthing".
VHF: Make initial contact on Channel 16.
HEALTH: See "Oulu".
TUGS: Available when required, charges according to net tonnage. Use ship's lines.
BERTHING: Length of Quay 552 m.
Berths No. 1 & 2: Total length 95.5 m. Depth 4.9 m.
Berths No. 3, 4 & 5: Total length 235 m. Depth 7.3 m.
Berths No. 6, 7 & 8: Total length 222 m. Depth 7.3 m.
CRANES: No shore cranes available. Load/discharge by ship's gear or mobile cranes.
SPECIALISED CARGO HANDLING FACILITIES: One Ro/Ro berth, no special equipment.
STEVEDORES: Ordered by Agent.
MEDICAL: Hospital at Kemi. Masters to advise if medical attendance required aboard.
FRESH WATER: Available at short notice. Rate 7 t.p.h.
FUEL: Ordinary fuel, diesel and gas oil. Deliveries by lorries only.
FIRE PRECAUTIONS: No special precautions. Company's fire-fighting corps.
GANGWAY/DECK WATCHMEN: Available, ordered by Agent.
OPENING/CLOSING HATCHES: By crew.
IDENTIFICATION CARDS: Not required.
CONSULS: Norway, others at Kemi.
REPAIRS: Available at Kemi.
SERVICES: Radar repairs possible in Kemi.
AIRPORT: At Kemi, approx. 15 km. from port.
SHORE LEAVE: Crew members allowed ashore.
DELAYS: Not normally expected.
REGULATIONS: Port regulations delivered to ship on arrival.
AUTHORITY: Harbour Master.

NOTES

Please also advise Shipping Guides Ltd.

France

GENERAL

Notice to Mariners No. 207 "Approaches to French Coast".
Six hours before entering French Territorial Waters in the Mediterranean Sea, any tanker carrying oil must send to 'Marine Toulon' a signal giving name, nationality, destination, cargo, date, time and point of entry into or departure from French Territorial Waters and navigational and manoeuvring capabilities, either normal or reduced, and, if reduced, stating the damage causing the reduction.

Any oil carrying tanker, the overall length of which exceeds 90 m., must remain more than 7 miles away from French Mediterranean Coast, except in authorised passages and access channels that have been especially established. However, they may approach within 5 miles of the coast of Corsica and North of parallel 42° 30′ N.

Any vessel carrying oil cruising less than 50 miles from the French coast must signal to 'Marine Toulon' immediately it suffers any damage at sea. The Master on any ship joining a damaged vessel for salvage or towing must, on receiving the request for assistance, report to 'Marine Toulon' the position and type of damage of the ship, then report the progress of assistance operations.

Fines will be incurred if the above is not complied with.

Admiralty Notice to Mariners No. 2172/79. – FRANCE, N.W. Coast – Ouessant Approach – Traffic Separation; French regulations for use of the Inshore Traffic Zone and adjacent channels.

The following is only part of the notice.

Navigation in the Inshore Traffic Zone is subject to national regulations. The following regulations promulgated by the French authorities affect the Inshore Traffic Zone and certain channels off N.W. Bretagne:

(1) Navigation is prohibited in the Inshore Traffic Zone of the Ouessant Traffic Separation Scheme, in Chenal du Four, Chenal de la Helle, Passage du Fromveur and in Raz de Sein except to the following categories of ships:

(a) French Government ships and boats.
(b) Rescue and salvage ships.
(c) Passenger ships employed on local services between the mainland and the islands.
(d) Fishing vessels whose length is less than 90 m.
(e) Pleasure craft.

(2) However ships whose length does not exceed 90 m. may use the Inshore Traffic Zone in a South-Westerly direction only, keeping at least 1 nautical mile from the S.E. limit of the N.E.-bound traffic lane and may also use any of the passages and channels referred to in para. (1), provided:

(a) They are bound to or are coming from a French port on the Atlantic coast, in the Channel or in the North Sea.
(b) They are not tankers carrying oils mentioned in Appendix 1, Annexe 1, to the *International Convention for the Prevention of Pollution of the Sea by Ships (MARPOL), 1973:*
(c) They are not carrying in bulk substances classed in categories A and B mentioned in Appendixes 1 and 2, Annexe 2, to the *International Convention for the Prevention of Pollution of the Sea by Ships (MARPOL), 1973:*
(d) They are not carrying fissile or irradiated material.

(3) Any ship navigating the Ouessant Traffic Separation Scheme, the Inshore Zone or the passages and channels defined in para. (1) is required to keep continuous watch on Channel 16 VHF and to answer any calls from Ouessant control centre, any French coast radio station or any French government ship or aircraft.

Any ship in the categories in para. (2) must signal her identity by calling the appropriate signal station on Channel 16 VHF as indicated below:

(a) Ships using the Inshore Traffic Zone or Passage du Fromveur: Ouessant control centre.
(b) Ships using Chenal de la Helle or Chenal du Four; Saint-Mathieu signal station.
(c) Ships using the Raz de Sein; Pointe du Raz signal station.

Vessels must communicate their length, the exact nature of their cargo, their last port of call and their destination.

(4) Vessels contravening these regulations are liable to be diverted by the French maritime authorities; they are also liable to penalties laid down in various regulations.

For details of radio procedures see Admiralty List of Radio Signals.

AJACCIO: Corsica: 41.55 N. 08.44 E. (See Plan Book)

DOCUMENTS:
Cargo vessels:
1 Stores List.
1 Personal Effects List.
1 Crew List.
1 Passenger List.
2 Manifests.
Ship's Register.
Passenger Vessels:
1 Stores List.
1 Personal Effects List.
3 Crew Lists.
3 Passenger Lists.
Ship's Register.
2 Manifests.

PILOTAGE: No advance notice required for regular ships. Vessels call Pilot with 3 blasts on ship's siren. Pilot boat flies usual Pilot flag. Pilot joins approaching vessel at a line Isolella/Chapelle des Grecs. Available 24 hours a day. Pilot boat has VHF Channel 6.
ANCHORAGES: Several safe anchorages in harbour which can be indicated by Pilot.
MAX. SIZE: Length 200 m., draft 7 m. At anchor, no limit.
HEALTH: Health Officer boards on arrival. Pratique automatic unless suspected contagious disease on board, when it is necessary to notify Agent or Health authorities in advance by cable.
RADIO: ETA cables, etc., via Grasse Radio, Marseilles Radio or Ajaccio Radio. VHF Channel 24. Captain of the Port. Tel: (95) 21.68.34.
TUGS: None available.
BERTHING: Regular vessels have priority at all berths.
STEVEDORES: Advice should be sent 24 hours prior to arrival. French vessels have priority of labour.
MEDICAL: No advance notice required in respect of medical attention unless case is urgent. All hospital facilities available. Except in the case of an epidemic in any country from which the vessel has sailed, no inoculations or vaccinations are necessary.
TANKERS: Max. draft 10 m., length 200 m.
FRESH WATER: Available at all berths, except Gas Berth.
FUEL: All grades available, 48 hours notice required.
GANGWAY/DECK WATCHMEN: Not necessary.
OPENING/CLOSING HATCHES: Normally carried out by crew.
CERTIFICATES: Ship's Register.
CUSTOMS ALLOWANCE: Tobacco, 2 oz. or 200 cigarettes per member of crew. Wine, no restrictions. Spirits 1×20 oz. bottle.
IDENTIFICATION CARDS: Required.
CONSULS: Greek, Dutch, Monaco, Italian, Danish, Swedish, Finnish.
REPAIRS: Minor repairs can be carried out.
DRY DOCKS: None.
REPATRIATIONS: Can be arranged by Ship's Agents.
AIRPORT: 8 km. from port. Served daily by Air France regular lines.
TIME: GMT plus 1 hour in Winter. GMT plus 2 hours in Summer.
HOLIDAYS: 1st January; Easter Monday; Whit Monday; 1st May; 14th July; 15th August; 1st November; 11th November; 25th December. Cargo work can be arranged on all dates except 1st November.
POLICE/AMBULANCE/FIRE: Police 0.17; Ambulance 21.50.50 (SAMU); Fire 0.18.
TELEPHONES: Can be placed on board warships only.
GENERAL: Galley waste, etc., must not be discharged inside the bay.
AUTHORITY: Capitaine du Port.

ANTIBES: 43.35 N. 07.08 E. (See Plan Book)

DOCUMENTS:
(a) For Harbour Master:
Ships Papers.
Declaration of Exit and Entry.
Crew List.
Passenger List.
(b) For Customs:
Health Declaration.
Provision List.

PILOTAGE: Not obligatory for yachts. Port cannot receive pleasure boats longer than 40 m. Ensure pilotage authorities advised of ETA. VHF Channel 9 day and night.
ANCHORAGE: In winds of N.E. to S.E. anchorage in front of Antibes not advised. Recommended anchor in Bay de Golfe-Juan, in shelter of Cap d'Antibes, in direction of Juan-les-Pins. In winds from N.W. to S.W., good anchorages on East face of Cap d'Antibes, Bay of Garoupe, Bay of La Salis, Bay of Ilette.
RESTRICTIONS: Night entry not advised.
MAX. SIZE: For yachts in the old port, length 23 m., width 6 m., draft 3.5 m. For tankers, 1 berth only in tanker outer port. Max. length 110 m., draft 7 m.
VHF: Port Captain on VHF Channel 9 throughout 24 hours.
TUGS: None.
TANKERS: A berth against dolphins, in Outer Port and strictly reserved for unloading refined fuels. See "Max. Size".
FRESH WATER: Oil companies have water point on berth in Outer Port.
FUEL: For pleasure boats only.
CONSULATES: None.
REPAIRS: For pleasure boats only. 2 slipways for boats of max. length 30 m.
REPATRIATION: Must be arranged through Consulates at Nice.
AIRPORT: Nice, Cote d'Azur. 15 km.
TIME: GMT plus 1.
POLICE/AMBULANCE/FIRE: Tel. Police 33.58.58 and 17; Ambulance 18; Fire 18 and 33.65.00.
SERVICES: Water and electricity on each pier.
AUTHORITY: Capitainerie du Port d'Antibes.

BASTIA: Corsica: 42.41 N. 09.27 E.

DOCUMENTS: See "Ajaccio".
PILOTAGE: Address, Vieux Port 20, Bastia. Tel. 315095. VHF Channel 16. Pilot boats, 12 m. long, black and white with navigation and pilotage lights. Previous advice to Pilots necessary before arrival. Pilot boards in bay of Porto Vecchio, North of the citadel.
ANCHORAGE: Anchoring not recommended in Easterly winds. Depth 15 to 30 m. in Porto Vecchio Bay. Bastia harbour: up to 4.50 m. deep.
RESTRICTIONS: Ships may enter harbour any time.
MAX. SIZE: Max. length: 160 m.; draft 7 m.
TUGS: None available.
BERTHING: Ships berth in order of arrival. Accommodation for about 10 ships. General Cargo.
STEVEDORES: Mooring carried out by watermen. Same address as Pilots.

MEDICAL: Medical controls made by Customs officer. Doctor available.
FRESH WATER: Supplied ashore.
FUEL: Available in small amounts.
FIRE PRECUATIONS: General rules. One wharf reserved for tankers.
GANGWAY/DECK WATCHMEN: Night watchman supplied by Agent.
OPENING/CLOSING HATCHES: Carried out by stevedores.
CUSTOMS ALLOWANCES: None on entry, 10 packets cigarettes when leaving. Wine/spirits unlimited when leaving.
IDENTIFICATION CARDS: Required.
CONSULS: Nearest at Ajaccio.
REPATRIATION: No facilities exist.
AIRPORT: Bastia 20 km. from ports. Departures every day to continent.
TIME: GMT plus 1 hour.
POLICE/AMBULANCE/FIRE: Police, 1881; Ambulance, 2281 733–2686; Firemen, 018-088.
TELEPHONES: As a rule telephone is put only on naval ships.
SHORE LEAVE: Crew may go ashore.
AUTHORITY: Department of Civil Engineering.

BAYONNE: 43.30 N. 01.28 W. **(See Plan Book)**

DOCUMENTS:
3 Crew Lists.
3 Passenger Lists.
3 Lists of Provisions on Board.
3 Individual Lists of Tobacco and Spirits.
3 Manifests of Cargo.
1 Set Bills of Lading.

PILOTAGE: Station extends 3 miles between the parallel of Ondres to the North and the limit of French territorial waters to the South. When weather permits, the pilot boat comes out of l'Adour and comes alongside ships near the light buoy situated W.N.W. of the port entrance. Contact Pilot at least 12 hours before arrival relaying through Bordeaux Arcachon Radio and stay on radio watch in the pilot zone. VHF Channel 12.
ANCHORAGE: Ships must not anchor in the river.
RESTRICTIONS: In bad weather ships are led to take the Pilot at the pilot boat which is based on St. Jean-de-Luz and are led either towards l'Adour or to the anchorage of St. Jean-de-Luz.
MAX. SIZE: The Adour is accessible to ships of 160 m. length. Depth at the mouth varies with the seasons and are maintained by dredging. They are never less than 7 m. during Summer but during Winter can be reduced following Westerly storms. The height of the tide has to be added to these depths but the draft can never exceed 8.0 m.
HEALTH: A declaration of Health Form is lodged by the Customs Service on arrival; it must be completed by the Captain. In case of a suspect illness, advise Agent 24 hours in advance.
RADIO: Bordeaux – Arcachon Radio. The signal tower on the South side of the mouth, and the Harbour Master's Office, in the tower, has a VHF radio station, Channel 12.
TUGS: 1 tug available, 1,250 h.p., 10 tons bollard pull. Request for tug through the Agent. Tug waits at the entrance to the Adour.
BERTHING: When working berth is occupied, vessel is directed to a waiting berth. Large ships or those carrying dangerous cargo can be requested to wait outside the entrance.

Berth	*Max. Length Vessel*	*Recommended Draft*
Socadour	160 m.	25 ft.
Cement Wharf	160 m.	24 ft.
Satec Wharf	160 m.	24 ft.
Grain Silo	130 m.	23 ft.
SNPA Sulphur Quay	150 m.	25 ft.
Other berths	120 m.	22 ft.

STEVEDORES: Arrival must be notified to Agent 24 hours in advance.
MEDICAL: Medical attendance can be organised by the Agent without advance notice, Hospital and private clinic available. However, if medical attendance required as soon as the ship arrives, particularly at night, it is advisable to send a radio message 12–15 hours before the arrival of the ship.
TANKERS: No installation to receive residues. Two berths for unloading of refined products. Refinery de Midi: max. length 120 m., max. draft 6 m. Saint Gobain, length 150 m. max. draft. 24 ft.
FRESH WATER: Available at each berth, minimum supply 3 cu.m.
FUEL: Available by arrangements in advance through Agent or suppliers.
GANGWAY/DECK WATCHMEN: Not obligatory except for ships with dangerous merchandise on board.
OPENING/CLOSING HATCHES: Generally carried out by the crew.
CUSTOMS ALLOWANCES: 200 grammes or 250 grammes of tobacco for each crew member and for 8 days (must without fail be declared in the individual list of provisions). 1 bottle of wine or spirits (must without fail be declared in the individual list of provisions).
IDENTIFICATION CARDS: Not necessary – seaman's identity card sufficient.
CONSULS:
Belgium
Brazil
Chile
Spain
Finland
Great Britain
Norway
Peru
Portugal
Sweden
Uruguay

REPAIRS: Running repairs to hull, machinery, radio and radar can be effected.
DRY DOCK: Usable length 98 m. Length on stocks 94.1 m. Width of entry 15 m. Depth above sill, neap tides 4.5 m., spring tides 6 m.
REPATRIATION: Possible for all countries as well as crew changes.
AIRPORT: At Biarritz: 7 km. away. Regular service with Paris. Two services per week to and from London.
TIME: European Standard Time: GMT plus 1 hour and GMT plus 2 hours from 2nd April to 1st October.
HOLIDAYS: 1st January; Easter Sunday/Monday; May 1st; Ascension Day; Whit Sunday/Monday; 14th July; 15th August; 1st November; 25th December.
POLICE/AMBULANCE/FIRE: Police, telephone 17 or 55.84.09., Anglet: 17 or 03.76.10 Boucau: 17 or 55.29.53. St. Leon Hospital: 63.50.50. Fire Station: 18 or 59.21.84.
TELEPHONES: Telephones on board not possible.
SHORE LEAVE: Crew are authorised to go ashore.
AUTHORITY: Harbour Master.

BORDEAUX (inc. Verdon, Bassens, Ambes, Pauillac, Blaye): 44.50 N. 00.34 W. **(See Plan Book)**

DOCUMENTS:
Tonnage Certificate.
2 copies Provisions List.
2 copies Personal Effects List.
2 copies Crew List.
Customs Clearance.
Crew Manifests.
Check List.

PILOTAGE: No Vessel may enter the waters of the Gironde Mouth without permission of the Harbour Master's Office.

Vessels should announce their arrival at BXA Buoy at least 24 hours in advance to the Commandant du Port de Bordeaux through Coast Station Arcachon – Bordeaux Port Radio. In addition they should contact the pilot boat and confirm their ETA and speed 12 hours in advance The ship will be able to keep in touch with the pilot boat where radio watches are kept as follows.

1. On 500 kc/s (radio) and 2182 kc/s (radiotelephone): permanent watches from 0800 to 1000 hrs. GMT. 1200 to 1400 hrs. GMT. 1600 to 1800 hrs. GMT. 2000 to 2200 hrs. GMT.

2. On 2.182 kc/s, a general RT call (both in French and in English) at the end of each radio contact with the Pilots' station at Le Verdon.

These contacts are made on 1743 kc/s at the following hours (GMT) 0030 – 0300 – 0500 – 0630 – 0717 – 0915 – 1030 – 1230 – 1430 – 1600 – 1715 – 2000 – 2124.

Upon request a special radio contact can be obtained at any time.

Under normal weather conditions, the pilot boat remains near the landing buoy and the West channel entrance. In bad weather the Pilot is sent on board as soon as boarding becomes possible, usually around buoy No. 10.

Vessels less than 70 m. long, for which pilotage from the sea to Verdon is not compulsory, may embark river Pilot at Le Verdon providing Masters have advised the pilot station accordingly. Pilots can be contacted on VHF Channels 12 and 16.

ANCHORAGE: The normal waiting anchorage area is the roadstead of Le Verdon, depth 10 to 12 m. and sand silt bottom. The big tankers with more than 10 m. draft find a good anchoring area in the Saintonge roadstead with a depth of 15 to 20 m. (sand silt bottom).
MAX. SIZE: Verdon Petroleum Harbour. Tankers up to 350 m. length or approximately 330,000 d.w.t. can be accepted, with 50% load.
Bec d'Ambes: Tankers up to 32 ft. 6 in. draft, 210 m. length.
Pauillac: Tankers up to 32 ft. draft, 240 m. length.
Bassens: Vessels up to 34 ft. draft.
Blaye: Vessels up to 25 ft. draft.
RESTRICTIONS: The great entrance to the Gironde estuary (Western Entrance) is dredged to a depth of 12.50 m. under the zero of French sea charts. It permits the sailing in of ships with a draft of 15 m. (49 ft.) at practically all tides.
HEALTH: Vessel should ask for free pratique by radio at least 12 hours before arriving at port. Message should be addressed to Sanipor – Bordeaux routed via Bordeaux/Arcachon Radio. Otherwise, pratique given by Customs Officers who board on arrival. If any case of suspected disease on board or any reason why vessel should not receive free pratique, Master should radio Agent before arrival, advising full details.
RADAR/VHF: Port radar is in operation in the Gironde Estuary and approaches. Vessels may contact this station for navigation information by calling Verdon Port Radio on VHF Channel 14.
RADIO: Arcachon Bordeaux Port Radio: Radiotelephony 1,862 kc/s. Radiotelegraphy 421 kc/s.

Port Authority by VHF: Calling band 156.8 mHz Channel 16. Traffic band 156.6 mHz Channel 12 (port). Traffic band 156.7 mHz Channel 14 (radar).

Pilots: Telegraphy: watch on 500 kc/s at the prescribed hours. Telephony: continuous watch on 2,182 kc/s. VHF: continuous watch on Channel 6.

TUGS: Tug assistance is available as ordered by the Pilot. Tugs will join vessels at the following places: In Verdon Roads for vessels mooring at Verdon. In Pauiliac Roads for vessels mooring at Pauillac. At Buoy BA1 for vessels mooring at Ambes. Off the Harbour Basins for vessels mooring at Bordeaux Docks.

As a rule ship's tow-lines are used; when a tug line is required there will be an additional charge.

BERTHING: *Le Verdon Deep Water Terminal:* 2 containership berths depth alongside 13 m. at LW; slip for quarter ramp Ro/Ros. Floating Bridge berth for axle ramp vessels and combination. Ro/Ro/Lo-Lo vessels. (Handling operations carried out 24 hours a day 7 days a week). 100 power points for reefer containers. Two container gantry cranes of 36 tons and 44 tons hoisting capacity. Two 24 ton cranes.

Riverside Quays. 20 berths depth alongside 7.50 m.–9 m. at LW.

Enclosed Docks. 2 basins joined by a lock 25 m. wide. Entrance effected by two locks of the following dimensions: Large lock 146 m.

long 22 m. wide. Small lock 100 m. long 14 m. wide. Depth of water in the basins is maintained at 7.50 m.

Queyries. 493 m. long, depths offered are 7–8 m. alongside.

Bassens-Amont. 770 m. long, depth alongside at LW. up to 11.5 m. (4 berths).

Bassens-Aval. 11 berths, total length 1,475 m. Depth alongside more than 9.50 m. at LW.

Blaye: Private berth for coasters. Public berth 8 m. draft, 170 m. long.

Pauillac: Public berth for vessels drawing up to 10 m. Total quay length 290 m.

TANKERS: *Verdon Terminal:* Main berth. The ship is berthed on elastic dolphins (steel pipes) with an available depth of 17 m. Ship makes fast with own hawsers on four mooring dolphins, two up and two down on the wharf and set back about 35 m. from the face. This mooring is strengthened by very flexible steel warp hawsers of 55 and 60 mm. diam. Five hawsers of this type may be placed at each end of vessel according to needs and weather conditions. Ships must have strong chain or claw-stoppers for turning on bitts.

For crude oil, the berths have following equipment: one 30 in. line connecting the main berth to storage; one 16 in. line connecting the coaster berth to the foresaid lines; 2 lines for bunkering.

Arms for connecting pipe-lines to ship. Connecting of the crude oil pipe-lines is made by ASA type, 16 in. Mannesmann arms (4 at main berth – 1 at the coaster berth). The Port Authority has a number of connecting collars in various dimensions and types. Ships are requested to inform before arrival on the type and data of their own collars. Connecting to the bunkering line is made by flexible hoses (ships must use their own handling gear).

Fire wire must be rigged on forecastle and poop, the eye 1 m. (3 ft.) above the water (all the time) when ship is light. Each fire wire must have a 10 m. (30 ft.) coil laying between bitts and fair lead.

If no other request, the ship is assisted by 2 tugs (with Kortnozzle 23 ton thrust) one of which stays at disposal during the call.

Secondary berth. This berth is for the use of shuttle-service ships, lighters and coasters, depth of 6.50 m. alongside.

Fire-fighting line. A 12 in. line supplies the wharf and the 2 berths with sea water under pressure. At each berth there are fire-fighting hydrants. The first help material for fire-fighting is ready to use at each call. It includes spray nozzles, water and foam hoses, emulsion liquid containers, powder extinguisher systems (movable and portable).

Bunkering. Supply is made by lighters mooring at the coaster berth. Tying lighters alongside tankers is forbidden, except with special permission of the Port Authority.

Telephone. Telephone is connected to every ship on arrival. In that way the ship is regularly connected to the French telephone network (tel. No. 596243 – Le Verdon).

Pauillac: Oil installation operated by Shell, 33 ft. alongside.

Ambes: Terminal for tankers up to 210 m. length, 32 ft. 6 in. draft. Operated by Societe Elf and Esso.

DENSITY: Verdon 1023 to 1015. Pauillac 1026 to 1000. Ambes approximately 1000. Bordeaux approximately 1000.

MEDICAL: All facilities available. Smallpox, malaria, and cholera vaccinations can be performed at the Military Hospital or at the Port Vaccination Centre.

DRY DOCKS: There are 3 dry docks and 5 small covered docks. Dimensions of the largest graving dock are 247 m. length 34 m. width 13.40 m. depth.

CUSTOMS ALLOWANCES: 200 cigarettes and 1 bottle of alcohol per man.

IDENTIFICATION CARDS: Crew men going ashore should carry passport or identity card.

AIRPORT: Situated 10 km. from Bordeaux. Frequent and Daily flights to most parts of Europe and North Africa. Good internal service.

POLICE/FIRE/AMBULANCE: Police 17; Ambulance 17; Fire 18.

TELEPHONES: Can be connected on board vessels moored at quays in Bordeaux, Bassens, Ambes, Pauillac, and Verdon.

TIME: GMT plus 1 hour in Winter. GMT plus 2 hours in Summer.

HOLIDAYS: New Year (1st January, no labour available); Easter Sunday (possibility of labour with overtime); Easter Monday (no labour available); Labour Day (1st May, no labour available); Ascension Day (possibility of labour with overtime); Whit Sunday (possibility of labour with overtime); Whit Monday (no labour available); National Day (14th July, no labour available); Assumption Day (15th August, no labour available); All Saints' Day (1st November, no labour available); Armistice Day (11th November, possibility of labour with overtime); Christmas Day (25th December, no labour available). N.B. Every Sunday and day marked "possibility of labour with overtime" can be worked at the rate of 100%.

Le Verdon Container Terminal: Operational 24 hours per day, 365 days per year.

AUTHORITY: Port Autonome de Bordeaux.

AGENT: See "Paris".

BOULOGNE SUR MER: 50.43 N. 01.35 E. (See Plan Book)

DOCUMENTS: As for "Calais".

PILOTAGE: Compulsory for vessels over 60 m. length. Vessels can communicate with Pilot station, tel. 31.36.08, through Boulogne Radio. When pilot launch is at sea, contact by VHF Channel 12.

The most favourable boarding point is between the sea buoy and the wreck buoy situated 1.5 miles to the South, or slightly nearer the land if there are strong Westerly winds. In any event, the surf created by the Carnot breakwater must be avoided by keeping at least 1 mile off shore. If Pilot is not immediately available, vessel must wait in Outer Roads, if necessary at anchor, until further instructions received. On no account should vessel attempt to enter Carnot Roads without Pilot.

ANCHORAGE: The outer anchorage for large vessels is midway between Bassure de Baas and the Carnot breakwater. Anchorage prohibited in the main approach channel.

RESTRICTIONS: Entrance depends on tidal conditions. For larger vessels best to enter the breakwaters at slack water which occurs 2 hours before time of high tide. Arriving vessels are obliged to contact Harbour Master's office immediately by radio, or VHF Channel 12.

MAX. SIZE: For outer harbour: length, 240 m.; draft, 10.5 m. springs 11.00 m. neaps. Max. d.w.t., 35,000 (approx.). Bassin Loubet: length, 130 m.; draft, 7.5 m. springs, 7.75 m. neaps.

RADIO: Boulogne Radio, call sign FFB, also on VHF Channel 25.

HEALTH: Pratique given by Customs officers who board on arrival. In case of suspected disease on board, Master should radio Agents prior arrival advising details.

TUGS: Will meet vessel as requested by Master on Pilot's advice.

BERTHING:

Sarraz-Bournet Dock: Europe Quay, 775 m., depth 11 m.; Ore quay, 240 m., depth 11 m.

Carnot Basin: Mooring on dolphins for Ro-Ro vessels up to 148 m. long, depth 9 m. Connection to the open area by ramp capable of taking up to 175 tons.

Loubet Basin: (Closed by a lock, depth 5.50 m.) Huguet quay, 240 m.; Voisin quay, 208 m. (for refrigerated vessels).

Fore-port and tidal port: Cross-channel terminal with 2 ramps, capacity 40 tons. Can accept car ferries up to a length of 130 m. and a draft of 4.50 m.

Hoverport: Can receive 2 hovercraft type SRN4 or N500 at same time. The station can accommodate the transit of 10,000 passengers a day. Direct connection by railway with Paris.

The port offers 70,000 sq.m. of warehouses and 79,200 sq.m of open storage area.

A silo enables 42,500 tons of clinker to be stored for loading directly on to vessels at a rate of 1,000 t.p.h.

A wine vault of 52,000 hectalitres capacity is connected to the quay by a pipe-line.

CRANES: Floating cranes: 1×150 tons, 9 cranes 3–5 ton and 18 cranes 6–20 ton, 2×10 tons gantries for clinker and 1 gantry for clinker.

DEVELOPMENTS: To cope with the development of goods traffic on lorries between France and Great Britain, it is planned to extend the open storage areas of the cross-Channel terminal, and possibly construct a third ramp.

To the West of the mole of the Sarraz-Bournet dock, it is envisaged that a 400 m. quay for commercial traffic will be provided.

FRESH WATER: Supplied by pipe-line to all berths.

FUEL: SMCL quay can supply marine fuel. Quay is limited to vessels less than 100 m. length and 5 m. draft, otherwise fuel obtainable by tanker lorry from Dunkirk.

OPENING/CLOSING HATCHES: Performed by crew.

REPAIRS: Only quick repairs may be effected because of congestion at the quays. Slipway for vessels up to 2,500 tons.

TIME: GMT plus 1 or 2 hours according to the time of the year.

HOLIDAYS: No work Sundays and legal holidays.

POLICE/AMBULANCE/FIRE: Police, tel. 30.12.34; Ambulance/ Fire, tel. 18.

TELEPHONES: Can be connected on board vessels at Quay de L'Europe.

SHORE LEAVE: Permitted, no restrictions.

AUTHORITY: Direction du Port.

AGENT: See "Paris".

BREST: 48.24 N. 04.30 W. (See Plan Book)

DOCUMENTS: See "Dunkirk".

PILOTAGE: Pilots do not stay out at sea, but only go to meet ship at estimated time of arrival as sent by ship. Normally pilot boat positioned on the line Toulinguet lighthouse and Beuzec (or Charles Martel) buoy, about 2.5 miles N.W. Toulinguet lighthouse. If strong S.W. wind, pilot boat waits for ship at entrance of Camaret Bay, about 1.5 miles N.E. Toulinguet lighthouse. If sea too rough to allow pilot boat to sail out, boat waits for ship at entrance of Brest Roads, near Portzic lighthouse.

Ships proceeding Brest must send last message giving ETA Pilot station (stating if *local time or GMT*), about 5 hours before arrival. Message to be addressed *"Brest Pilot Office"* through Brest Le Conquet radio station (call sign FFU). Day and night watch at pilot office. Radio station phones message direct as soon as received. Any alteration in ETA should be passed pilot office immediately.

Pilot boat sails from Brest harbour about 1.5 hours before ship's ETA, and 0.5 hour later pilot boat takes radiotelephony watch on 2182 kc/s, calling ship from time to time on same frequency. Ships fitted with radiotelephony should listen and call on 2182 kc/s. Pilot boat also equipped VHF Channels 16, 9, 6, 12 and Pilot office Channel 9.

ANCHORAGE: At Pilot's discretion. Anchoring in main approaches restricted as indicated on charts.

RESTRICTIONS: Entry subject draft and height of tide on day in question. Two entrances to port, one dredged to 6 m. below zero of charts and the other 5.8 m. below zero. Depth at quays varies according berth from 6 m. to 11 m. below zero.

MAX. SIZE: Inside harbour, max. length 320 m. Draft up to 35 ft. subject to tide.

HEALTH: If from foreign port, cable Maritime Health Service 48 or 24 hours prior arrival requesting free pratique. If risk of contagious disease exists, vessel will be held in roads until cleared. If from another French port, free pratique automatic.

RADIO: Brest Le Conquet – FFU.

TUGS: Two port tugs of 1,250 h.p. Tugs join vessel at main entrance to port. Marine National places tugs at ship's disposal for all port movements. Generally, tow rope supplied by tug at additional charge.

One French salvage tug belonging to the Abeille Company is stationed at the port, but only gives assistance for vessels requiring aid outside the port area.

BERTHING: According to draft, ships may have to wait in roads before berthing, depending on height of tide in fairways. Also see "Restrictions".

Commercial Harbour Facilities:

Dock	*Quay*	*Specialisation*	*Length*	*Sea level Chart*	*Lifting Power Equipment*
1	West	Wine, Wood, Railway, Others	170 m. 560 ft.	–8 to –7 m. –26 to –23 ft.	Mobile cranes 4 t at 22 m.

6	South	Containers, Cereals, Wood, Railway,	230 m. 765 ft.	–12 m. –40 ft.	1 crane 28 t at 33 m. (40 t at 24 m) 1 crane 8 t at 30 m. (12 t at 20 m.)

STEVEDORES: Agent has responsibility of making all arrangements for unloading, and is in touch with stevedores who arrange necessary gangs.

MEDICAL: Hospitals and clinics available. In the case of ship needing medical assistance, request should be addressed to Maritime Health Service through Conquet Radio Station, advising ETA, where vessel coming from and state of patient.

TANKERS: One berth for receipt of refined products destined for local storage tanks. Berth length 142 m., dredged alongside to a depth of 10 m. below zero of charts over an area 250 m. long and 30 m. wide.

FRESH WATER: All berths have fresh water supply. Apply to Chamber of Commerce who make necessary arrangements. Loading rate 13-15 t.p.h.

FUEL: Bunkering station operated by Societe de Depots de Petrole Cotiers, on the South side of the East Mole. Loading rate up to 200 t.p.h.

TANK CLEANING: Station situated at the Southern extremity of the East Mole. Can operate 4 Victor Pyrate machines simultaneously. Equipped with 3 boilers to supply steam, 3 pumps, oily water separator and an extractor for solid residues.

The tank-cleaning station is connected by pipe-line to Repair Quays No. 1, 2 and 3 where tankers of 550,000 d.w.t. may be accommodated.

From April 1980:

A new tank-cleaning and bunkering station, situated behind the dry-docks No. 2 and 3 will be operational.

This station will be connected by pipe-lines to all repair quays and so to the 6 South for bunkering facilities.

It will include four sections:

A tanker cleaning section with oil-water separator (2,000 cu.m.p.h.);
An oil-treatment section to transform the recovered oil in commercializable products;
A bunkering section with tanks of 35,000 cu.m.;
A section that will be able to separate the solid residues of tankers.

DEVELOPMENTS: A new port industrial zone with an area of 100 hectares, and frontage of approx. 1,800 m. which will enable the construction of quays with depths of 10 – 12 m.

Furthermore, the Port is studying a vast plan to develop the commercial port, so that the latter may adapt itself to the requirements of modern maritime transport (1985-90).

WATCHMEN: Compulsory for ships carrying dangerous materials, non gas-free tankers, vessels with chemical products, munitions, etc.

CERTIFICATES:

Nationality.
Gross Tonnage.
Classification.
Deratisation.
Vaccination.

CUSTOMS ALLOWANCES: Tobacco, Wine/Spirit. Ship's provisions must be under seal.

CONSULS: The following countries are represented by Consuls at Brest:

Belgium
Chile
Denmark
Finland
German (Federal Republic)
Netherlands
Norway
Portugal
Spain
Sweden.

REPAIRS: Repair Quay No. 1 at the South of the dry dock No. 2. Length: 320 m.; Depth: 9 to 9.50 m.

Repair Quays Nos. 2 and 3. Length: 608 m.; Depth: 8.30 to 10.70 m. Can accommodate vessels up to 550,000 d.w.t. (Pierre Guillaumat, Bellamya, Batilus, Prairial).

Repair Quay No. 4. Length 400 m.; Depth 11 m.

Repair Quay No. 5. Length: 400 m.; Depth: 13 m.

These two quays are situated to the North and to the South of the dry dock No. 3.

DRY DOCKS: *No. 1:* Dimensions 225 m. by 26.77 m., entrance sill 4 m. below datum, situated at the Northeast angle of Basin No. 5. The entrance lock can receive 2 vessels simultaneously, 1 of 75 m. length and the other of 150 m. length, with some adjustments.

Max. draft, at Spring tides: 11.50 m.; at neap tides: 10 m.

No. 2: Dimensions 342 m. by 55 m. Can accept tankers of up to 250,000 d.w.t. Entrance sill 7.25 m. below datum. Dock situated in the Southeast of the Industrial Port Zone. Can accept vessels of the following dimensions.

At mean Spring tides: length 335 m.; beam 50 m.; draft 12.50 m.
At neap tides: length 335 m.; beam 50 m.; draft 10 m.

No. 3: Dimensions 420 m. by 80 m. Can accept all vessels actually in service in the world. Entrance sill: 9 m.

AIRPORT: At Guipavas, 7 km. from Brest – 3 daily services to Paris.

TIME: Local time GMT plus 1 hour.

POLICE/AMBULANCE/FIRE: Police 444850 and 445861; Police Secours 17; Ambulance and Fire Brigade 18 or 442766.

TELEPHONES: Can be placed aboard at certain berths.

SERVICES: Degassing station, tank-cleaning and slop discharge, adjustment of chronometers, chart and document department, weather forecasting, permanent daytime service for signing on crew, barometer adjustment. Also Compass and D/F adjusting.

Port Weather Service: Port Office, 30 Bis, Quai Commandant Malbert.
Health Service: Quai Commandant Malbert.

AUTHORITY: Arrondissement de Brest, Direction Departmentale de l'Equipement.

AGENT: See "Paris".

CAEN: 49.13 N. 00.21 W. (See Plan Book)

DOCUMENTS:

3 copies Crew List.
3 copies Provisions List.
3 copies Crew Personal Effects List.
Derat. Certificate or exemption.

PILOTAGE: Pilot boat is on station from 2.5 hours before high water until 3 hours after high water. Vessels can contact the Pilot by radio on 2182 kHz or by VHF Channels 12 and 16. The pilot boat is stationed in the outer port of Ouistreham and goes out to the roads on vessels approach. International code flag signals are used to call Pilot.

Caen Pilot boat has a black hull with white stripe. The words "Pilote Caen" are written in white letters on the hull. During the Summer months the pilot boat is replaced by a launch bearing the same markings. As soon as the Pilot boards he will hand the Master an Entry Declaration to be completed.

ANCHORAGE: While waiting the tide vessels may anchor in the vicinity of the light-buoy in Ouistreham roads. The position of this buoy is 49° 19′ 50″ N. 00° 14′ 18″ W. The buoy is positioned in depth of 10 m. Anchorage is open to winds from West through South to East; good holding ground. Currents do not exceed 2 knots at spring tides.

RESTRICTIONS: Dimensions of locks – East lock length 181 m., width 18 m. West lock length 225 m., width 28.45 m.

The locks are open to navigation from 2 hours before high water to 3 hours after high water. The locks can be used up to a maximum of 1 hour before/after these times by special permission of the Harbour Master and payment of additional dues.

Maritime Canal, length 14 km. The canal is dredged to 9.89 m. depth up to Herouville Dock. Vessels proceeding to the docks at Herouville and Calix must pass 2 bridges: Herouville 30 m. wide and Colombelles 30 m. wide.

Ships proceeding to new dock must also pass the bridge at Calix, 21.76 m. wide. Maximum speed authorised in the Maritime Canal is 7 knots.

Maximum air draft for New Dock and St. Pierre Dock, 33 m.

MAX. SIZE: *Daytime:* Length 205 m., beam 23 m., draft 28.8 ft. sea water.

Night-time:

Herouville	length 160 m.	Beam 20 m.	Draft 25.9 ft. SW.
Calix	length 150 m.	Beam 20 m.	Draft 25.9 ft. SW.
New Dock	length 135 m.	Beam 16 m.	Draft 21.4 ft. SW.

HEALTH: Free pratique is automatic for all ships. Health control is carried out by customs officers under the direction of the Havre Port

Health Office. For ships coming from ports in Africa, Asia, or Pacific Islands a Maritime Declaration of Health is required.

In case of suspected epidemic or fever on board Master must advise the port authorities who will instruct him to proceed to an appropriate anchorage to be boarded by the Port Health doctor.

RADIO: Nearest radio station Boulogne Radio, call sign FFB.

VHF: Vessels may communicate with the Harbour Master's Office by VHF Channels 12 and 68. This service only operates during the hours when the locks are operating.

TUGS: The use of 1 or 2 tugs is recommended for vessels over 16.50 m. beam.

BERTHING:

Dock	*Quay*	*Facilities*	*Length (m)*	*Draft (F.W.)*
Saint Pierre	Vendeuvre	1 crane 5 t	280	4.5
	Cafarelli	Cider storage of 3,200 hecti capacity	150	4.5
Nouveau Bassin	President	4 cranes 5 t	150	7.0

		Storage of Molasses: 13,500 t		
		Roll-on/Roll-off Berth	180	7.6
D'Herouville	President	2 cranes 5 t; 4 cranes 6 t	370	8.95
	Delaunay	Private berth, 3 cranes 8 t	200	
	Mole a charbon			
Blainville	Blainville	Cereals machinery rate 400 t.p.h.	140	8.95
	Blainville	1 crane 6 t; 3 cranes 20 t; 2 cranes 26 t	510	8.95

STEVEDORES: Arranged by Agent on basis of ETA provided by vessel before arrival.

MEDICAL: Doctors and hospital facilities available.

TANKERS: There is a tanker berth (D.P.C.) in Calix Dock, max. draft 8.60 m. Gas-freeing and discharge of residues is prohibited.

FRESH WATER: Available at all berths, rate about 5–10 t.p.h.

FUEL: Can only be supplied by tanker lorries.

WATCHMEN: Not compulsory during daylight hours from 0600 hrs. to 1800 hrs.

OPENING AND CLOSING HATCHES: This work is normally carried out by the crew.

CUSTOMS ALLOWANCES: Amount of tobacco and alcohol for crew consumption must be declared on the stores list. Quantities held out of bond are at Customs discretion.

IDENTIFICATION CARDS: Not required.

CONSULS: The following countries are represented locally:

Denmark tel. 83.81.81	Norway tel. 82.05.42
Finland tel. 97.33.27	Sweden tel. 82.21.76

REPAIRS: Deck and machinery repairs can be carried out by local workshops. Nearest dry docks at Havre or Cherbourg.

REPATRIATION: Can be arranged.

AIRPORT: Situated 12 km. from the port. There are no regular services, but an air taxi with 5 seats can arrange connections to International airports.

TIME: GMT plus 1 hour or GMT plus 2 hours.

HOLIDAYS: Work is carried out on legal holidays. No work on "Jours de Fetes".

POLICE/FIRE/AMBULANCE: Police tel. 17; Fire 18; Ambulance 18.

TELEPHONES: Can be connected on board ships. Quayside telephone situated in the Calix dock, Herouville and Blainville.

SHORE LEAVE: Allowed.

AUTHORITY: Ingenieur des Ponts et Chaussees, Chef de l'Exploitation, Direction Departmentale de l'Equipment.

AGENT: See "Paris".

CALAIS: 50.58 N. 01.50 E. (See Plan Book)

DOCUMENTS:

Ship Register.
Manifest of Cargo.
Bill of Lading
3 Lists of Provisions on board.
4 Lists of Articles held by Crew.
3 Lists of Crew.
List of open spaces.
Health Certificate, endorsed by Master on arrival.
Deratisation or Exemption.
For tankers, Certificate of Cargo Specification and Certificate of vessel's suitability to transport inflammable liquids in bulk.

PILOTAGE: Compulsory when entering or leaving harbour, except for ships less than 50 m. length. Pilotage area: 3 miles from piers. Ships required to give notice of their arrival 18 hours before, through Boulogne Radio. Pilot waits between buoys CA4 and CA6. Pilot boat: Black, white side stripe, bearing the inscription "Pilote Calais". She is equipped with VHF, Channel 6 and Channel 16.

ANCHORAGES: Between CA6 and CA8, 15 to 17 m. deep, sand and gravel. Good anchorage. When bad weather from North, ships are advised to stand out to sea or anchor in the roads of Les Dunes. Ship will receive instructions from Pilots or Harbour Captain's office when to enter roads of Calais.

RESTRICTIONS: Harbour channel 130 m. wide. In channel and outer harbour, depths are maintained at 8.40 m. MWL. Vessels should enter harbour preferably about 2.5 hours before high tide or half an hour after high tide. Because of the shape of sluice at the entrance larger vessels cannot have direct access to the Bassin Carnot at certain tides. These vessels may lighten in outer port, at "Quai Paul Devot", where depth is 9 m. LWOST.

MAX. SIZE: "Bassin Carnot", 150 m. max. length; "Bassin Ouest", (West Dock) 110 m. max. length; "Quai P. Devot", 175 m. max. length; "Bassin Carnot", 19 m. max. beam; "Bassin Ouest", 16 m. max. beam. Max. draft: 8.23 m. (27 ft.). Port accessible to vessels of 20,000 d.w.t.

HEALTH: Sanitation controls can arrange deratisations and exemptions. International Vaccination Certificates required for ships coming from an epidemic zone.

RADIO: Messages through Boulogne Radio. ETA must reach pilotage station or Harbour Captain's offices 18 hours before arrival. Near Calais, ships equipped with VHF can call Harbour Captain on Channel 12 or pilotage station on Channel 16.

TUGS: Generally join ships at end of the piers. Towing ropes are generally ships own but can be supplied by tug.

BERTHING: Max. height of tide 7.30 m. Depth on dock sills 2 m. LWOST.

At West dock, entrance between 1.5 hours before and half an hour after high tide. In Bassin Carnot, entrance between 3 hours before and 1 hour after high tide.

There are 2 berths equipped for handling roll-on/roll-off traffic, situated in Bassin Carnot.

CRANES:

Maritime Station Quay	Electric cranes – 6 tons	3
Paul Devot Quay	Electric crane – 6 tons with automatic scoop	1
	Electric crane – 12 tons with automatic scoop	1
	Electric cranes – 15 tons with automatic scoop	2
Transit Station	A block of 2 gantries able to handle a load of 40 tons (containers)	
West Basin		
South Quay of the West Basin	Electric cranes – 3 tons	3
	Electric cranes – 6 tons	2
Carnot Basin		
Vistule Quay	Electric cranes – 6 tons	2
Loire Quay	Electric cranes – 6 tons	3
	Electric cranes – 6 tons with automatic scoops	8
	Electric cranes – 12 tons with automatic scoop	2
	Electric gantries – 6 tons with raisable forepeak and equipped with weights and automatic scoops	2
Crespin Quay	Electric cranes – 6 tons with automatic scoops	3
Fournier Quay	Electric cranes – 6 tons	5
	Electric crane – 12 tons with automatic scoop	1
Volga Quay	Electric cranes – 6 tons	2
	Electric cranes – 6 tons with automatic scoops	2

Dry Dock: One electric crane – 15 tons. 2 mobile cranes of 1/9 tons complete the lifting machinery of the Public Equipment of the Port.

BRIDGES: Swing bridges (West Dock) and draw bridges (Bassin Carnot) are situated on sluices.

STEVEDORES: Informed by Shipbrokers of tonnage, nature and condition of cargo.

MEDICAL: All facilities available.

TANKERS: Two posts provided for tankers: "Quai Paul Devot" for medium-sized tankers. "Bassin Ouest" (West Dock) for small tankers. "White and black" products can be accepted at "Bassin Ouest". Only "black" products admitted at "Quai P. Devot". Tankers are allowed to enter harbour only by daytime. They must leave as soon as operations are finished. Hoses 10 in. and 12 in. in diameter. Barges discharged with a 10 in. hose.

DENSITY: Salt.

FRESH WATER: Supplied from hydrants on wharves.

FUEL: Any fuel can be supplied by tank lorry of large capacity.

GANGWAY/DECK WATCHMEN: Ships must be guarded.

OPENING/CLOSING HATCHES: As a rule hatches are manoeuvred by crew.

CUSTOMS ALLOWANCES: Tobacco: No limit for foreign ships, but the quantity must be declared on the lists of articles held by crew.

IDENTIFICATION CARDS: Identification cards and seamen's books are required.

CONSULS:

Consuls:
Netherlands, M. G. Dumont, 12 Bd. des Allies, Calais.
Denmark, M. J. Mulard Jr., Place de Suede.
Vice-Consuls:
Finland, M. H. Ravisse, 12 Bd. des Allies.
Greece; M. H. Ravisse, 12 Bd. des Allies.
Norway, M. Y. Lefebvre, 12 Bd. des Allies.
Sweden, M. T. Pagviez, 198 Rue des Quatre Coins.

REPAIRS: Deck and engine repairs possible.

DRY DOCKS: One, 153 m. long, 21 m. wide. Depth at sill, 7.45 m.

REPATRIATION: Pilot boats and tugs may trans-ship equipment or hands in outer roads.

AIRPORT: Calais, Dunkirk (International), 7 km. away.

TIME: GMT plus 1 hour. Spring and Summer GMT plus 2 hours.

HOLIDAYS: 1st January; Easter Monday; 1st May; Ascension Day; Whit Monday; Tuesday afternoon following 1st Sunday of July (local

feast); 14th July; 15th August; 1st November; 11th November; afternoon of 24th December; 25th December; Sundays.
POLICE/AMBULANCE/FIRE: Police 17; Ambulance 34.39.24; Fire 18.
SHORE LEAVE: Crew are allowed ashore.
AUTHORITY: Directeur des Ports de Boulogne-sur-Mer et Calais.
AGENT: See "Paris".

CALVI: Corsica: 42.34 N. 08.46 E.

DOCUMENTS:
- 3 Crew Lists.
- 3 Passenger Lists.
- 1 Provisions List
- 1 Cargo List.
- 1 List of Articles (new and customs-barred) in possession each crew member – cameras, binoculars, radios, cigarettes, spirits, etc.
- 1 Health Declaration.

PILOTAGE: Not compulsory.
ANCHORAGE: Outside port for cruise vessels.
MAX. SIZE: Draft 5 m.; length 160 m.
RADIO: Within 50 miles call Ajaccio Radio VHF Channel 16. Then connected over Channel 23 to telephone network.
TUGS: None available.
STEVEDORES: 24 hours accurate ETA necessary for ordering gangs. No work on Sundays and official holidays.
CARGO GEAR: Only a few nets and slings available; all other gear must be supplied by ship. Ship's derricks used.
FRESH WATER: Available at very slow pumping rate.
FUEL: Not available.
REPAIRS/CONSULS: None.
TIME: GMT plus 1 hour.

CANNES: 43.33 N. 07.01 E.

DOCUMENTS:
To be sent on departure from previous port.
- 3 copies of Passenger List.
- 1 copy of Crew List.

Required on arrival:
- 4 copies of List of Passengers, showing Christian name, surname, age, date and place of birth, nationality.
- 2 Crew Lists.
- 5 copies of a Special Arrival form (supplied on arrival).

PILOTAGE: No Pilot station at Cannes. A tender with Company's flag on top of its mast will meet the vessel: *(a)* If ship is proceeding to anchorage No. 1, in Golfe de la Napoule, about half a mile South of the lighthouse at end of Cannes port Pier (Quai Lauboeuf); *(b)* If ship is proceeding to either anchorage No. 2 or 3, in Golfe-Juan, half a mile North of Ile Ste Marguerite.

The tender will lead to anchorage and will give 1 blast of the siren when correct position has been reached. At night, tender has a fixed white light at top of its mast, which replaces the flag. Should it not be possible to advise by wireless before arrival at anchorage and weather conditions making it necessary for ship to anchor at either position No. 2 or 3, boat will meet ship in Golfe de la Napoule, 2 miles South of Cannes port lighthouse. In this event, ship must proceed to anchorage No. 2 or 3 as appropriate, steaming to South of Ile St. Honorat, whilst tender will proceed by channel between Ile Ste Marguerite and the mainland.
ANCHORAGE: Advice of anchorage is passed to Captain via Grasse Radio or Monaco Radio, VHF Channel 16 usually about 1 hour before arrival. There are 3 anchorages, any of which may be used according to the weather:

No. 1 off the port of Cannes, approximately half a mile South of end of breakwater, used by calm sea or by East or N.E. winds.

No. 2 is situated to North of Ile Ste Marguerite, used by S.E. or S.W. or South winds.

No. 3 to the East of Cap de la Croisette, used by West or N.W. winds.

It could happen during the call, winds may change direction and movement from anchorage No. 1 to No. 2 or No. 3 become necessary. Shift takes about 1 hour.
HEALTH: Port officials will embark immediately the ship anchors. Free pratique may be granted by wireless telephone 1 hour before arrival at ship's surgeon request stating: "no illness on board".
FRESH WATER: One water barge (capacity 65 tons) and 2 water barges (capacity 20 tons) available.

12 hours notice required for orders up to and including 100 tons. 24 hours notice required for amounts in excess of 100 tons. Pumping rate 30–40 cu.m.p.h. with one or two boats.
GANGWAY/DECK WATCHMEN: Watchmen for gangways should be provided by ship and passengers are requested to present their landing cards every time they use the gangways.
AUTHORITY: Capitainerie du Port.

CHERBOURG: 49.38 N. 01.38 W. (See Plan Book)

DOCUMENTS:
- Declaration of Health.
- Manifest of Provisions on Board.
- Manifest of Crew's Possessions.
- Manifest of Cargo – in certain cases.
- Manifest of Equipment.

DEEP SEA PILOTAGE: Pilots board off CH1. Buoy. Radio ETA to "HUTCHINSON GRAVESEND". (48 hours notice.) On approaching Cherbourg contact Cherbourg Signal Station on VHF Channel 16 confirming ETA.
PILOTAGE: Requests for pilotage must indicate arrival time at the buoy CH1. They may be addressed to Agent or direct to pilot station, telegraphic address "Pilotage Cherbourg" or through the Homet look-out station by means of the usual signals. To avoid delay it is well to warn the pilot station 4 hours in advance of arrival. As a general rule, the pilot boat always comes out, whatever the weather. In bad weather, it follows the vessel and Pilot boards as soon as shelter permits.
ANCHORAGE: Anchoring must be made strictly according to the instruments of the Pilot so as not to get in the way of movements and anchorage of steamers. Depths vary from 6 to 12 m. in safe anchorages.
RESTRICTIONS: In the wet dock, the bridge is opened 1 hour before until 1 hour after high water.
MAX. SIZE:

	Length (m.)	Breadth (m.)	Depth (m.) average tide Spring	Neap
In the Roads	No Limit	No Limit	11	12.50
Trans-Atlantic Dock	No Limit	No Limit	7.0–12.5	8.5–14.0
Mielles Dock	150		5.00	6.50
Oil berth at Querqueville	200	31	9.0	10.50
Berth Amiot	100		3.0	4.50
Ro/Ro No. 1	130	20	7.0	8.50
Ro/Ro No. 2	200	30	8.0	9.50

Ro/Ro No. 3: (Quai de France – South). Length: No limit. Width: 44 m. Depth: 12 m.
HEALTH: From French port to French port, no formalities. From foreign port to French port, request for free pratique (yellow flag). In case of sickness on board, warn the Agent in advance. No crew member may leave ship before consultation and agreement of Port Doctor.
RADIO: The stations which offer the best facilities are Boulogne Radio, Brest le Conquet Radio, and St. Lys for ships which are a long way off.
TUGS: Tugs generally join vessel in the main approaches. With regard to the tow rope, a charge is made.
BRIDGES: Only the swing bridge at the entrance to the wet dock, which is opened on request from 1 hour before until 1 hour after high tide for the entry and exit of ships.
STEVEDORES: Agent needs ETA, to arrange personnel and equipment to be used for handling cargo.
CRANES: 2 floating cranes, max. capacity 90 tons. 1 shore crane, max. capacity 25 tons. The French Navy have 2 floating cranes, 1 of 30 tons and 1 of 90 tons capacity.

Quai de France: 2×120 tonnes and 4×7.5 tonnes.
Quai de Normandie: 3×7.5 tonnes.

MEDICAL: Warn Agent of any requirements at the same time as ETA. There are 2 hospitals, civil and military, both very well equipped.
TANKERS: There is only one discharge berth, max. draft 9 m.
FRESH WATER: Water points on all quays.
FUEL: Available from local suppliers – Esso, Shell, etc.
WATCHMEN: Every ship in port must have a watchman, usually a crew member.
OPENING/CLOSING HATCHES: At the discretion of Master, crew may perform this.
CUSTOMS ALLOWANCES: Free allowance for each crew member – 200 cigarettes or 50 cigars, and 1 litre of alcohol. Common Market Countries – Crew: 300 cigarettes, 75 cigars and 1.5 litres of alcohol.
IDENTIFICATION CARDS: Each crew member must carry his seaman's card.
CONSULS:
Belgium
Portugal
Denmark
Finland and Norway
Haiti
Venezuela
Greece
Sweden
Great Britain

REPAIRS: All types of hull and engine repairs are possible.
DRY DOCK: Commercial Port's dock: length 75 m., width 14 m.

Dry Dock Nos.	Sill Length (m.)	Max. dim. of vessel able to enter Length (m.)	Breadth (m.)
N. Drydocks			
1	90.00	97.85	18.50

7	69.30	75.75	17.30
Homet	235.00	248.00	35.00

REPATRIATION: Can be arranged.
AIRPORT: At Moupertuis, 12 kms. from Cherbourg. There are no regular services in the immediate vicinity.
TIME: Local time throughout the year is the time zone 1 hour East., i.e. Central European Time.
HOLIDAYS: January 1st; Easter Sunday/Monday; May 1st; Ascension; Whitsun Sunday/Monday; July 14th; Assumption; 15th August; November 1st; Victory Day, November 11th; Christmas Day, December 25th.
POLICE/AMBULANCE/FIRE: Police: 44.20.22. Ambulance: 53.13.29. Fire: 53.01.23.
TELEPHONE: Generally, ships do not request the installation of a telephone line, unless for a prolonged stay. It is only possible on the steamer berth, price 15 F.
AUTHORITY: Ingenieur des Ponts et Chaussees, Department de la Manche.
AGENT: See "Paris".

Health Office. For ships coming from ports in Africa, Asia, or Pacific Islands a Maritime Declaration of Health is required.

In case of suspected epidemic or fever on board Master must advise the port authorities who will instruct him to proceed to an appropriate anchorage to be boarded by the Port Health doctor.

RADIO: Nearest radio station Boulogne Radio, call sign FFB.

VHF: Vessels may communicate with the Harbour Master's Office by VHF Channels 12 and 68. This service only operates during the hours when the locks are operating.

TUGS: The use of 1 or 2 tugs is recommended for vessels over 16.50 m. beam.

BERTHING:

Dock	*Quay*	*Facilities*	*Length (m)*	*Draft (F.W.)*
Saint Pierre	Vendeuvre	1 crane 5 t	280	4.5

	Blainville	1 crane 6 t; 3 cranes 20 t; 2 cranes 26 t	510	8.95

STEVEDORES: Arranged by Agent on basis of ETA provided by vessel before arrival.

MEDICAL: Doctors and hospital facilities available.

TANKERS: There is a tanker berth (D.P.C.) in Calix Dock, max. draft 8.60 m. Gas-freeing and discharge of residues is prohibited.

FRESH WATER: Available at all berths, rate about 5–10 t.p.h.

FUEL: Can only be supplied by tanker lorries.

WATCHMEN: Not compulsory during daylight hours from 0600 hrs. to 1800 hrs.

OPENING AND CLOSING HATCHES: This work is normally carried out by the crew.

CUSTOMS ALLOWANCES: Amount of tobacco and alcohol for crew consumption must be declared on the stores list. Quantities held out of bond are at Customs discretion.

IDENTIFICATION CARDS: Not required.

CONSULS: The following countries are represented locally:

Denmark tel. 83.81.81 — Norway tel. 82.05.42
Finland tel. 97.33.27 — Sweden tel. 82.21.76

REPAIRS: Deck and machinery repairs can be carried out by local workshops. Nearest dry docks at Havre or Cherbourg.

REPATRIATION: Can be arranged.

AIRPORT: Situated 12 km. from the port. There are no regular services, but an air taxi with 5 seats can arrange connections to International airports.

TIME: GMT plus 1 hour or GMT plus 2 hours.

HOLIDAYS: Work is carried out on legal holidays. No work on "Jours de Fetes".

POLICE/FIRE/AMBULANCE: Police tel. 17; Fire 18; Ambulance 18.

TELEPHONES: Can be connected on board ships. Quayside telephone situated in the Calix dock, Herouville and Blainville.

SHORE LEAVE: Allowed.

AUTHORITY: Ingenieur des Ponts et Chaussees, Chef de l'Exploitation, Direction Departmentale de l'Equipment.

AGENT: See "Paris".

CALAIS: 50.58 N. 01.50 E. (See Plan Book)

DOCUMENTS:

- Ship Register.
- Manifest of Cargo.
- Bill of Lading
- 3 Lists of Provisions on board.
- 4 Lists of Articles held by Crew.
- 3 Lists of Crew.
- List of open spaces.
- Health Certificate, endorsed by Master on arrival.
- Deratisation or Exemption.
- For tankers, Certificate of Cargo Specification and Certificate of vessel's suitability to transport inflammable liquids in bulk.

PILOTAGE: Compulsory when entering or leaving harbour, except for ships less than 50 m. length. Pilotage area: 3 miles from piers. Ships required to give notice of their arrival 18 hours before, through Boulogne Radio. Pilot waits between buoys CA4 and CA6. Pilot boat: Black, white side stripe, bearing the inscription "Pilote Calais". She is equipped with VHF, Channel 6 and Channel 16.

ANCHORAGES: Between CA6 and CA8, 15 to 17 m. deep, sand and gravel. Good anchorage. When bad weather from North, ships are advised to stand out to sea or anchor in the roads of Les Dunes. Ship will receive instructions from Pilots or Harbour Captain's office when to enter roads of Calais.

RESTRICTIONS: Harbour channel 130 m. wide. In channel and outer harbour, depths are maintained at 8.40 m. MWL. Vessels should enter harbour preferably about 2.5 hours before high tide or half an hour after high tide. Because of the shape of sluice at the entrance larger vessels cannot have direct access to the Bassin Carnot at certain tides. These vessels may lighten in outer port, at "Quai Paul Devot", where depth is 9 m. LWOST.

MAX. SIZE: "Bassin Carnot", 150 m. max. length; "Bassin Ouest", (West Dock) 110 m. max. length; "Quai P. Devot", 175 m. max. length; "Bassin Carnot", 19 m. max. beam; "Bassin Ouest", 16 m. max. beam. Max. draft: 8.23 m. (27 ft.). Port accessible to vessels of 20,000 d.w.t.

HEALTH: Sanitation controls can arrange deratisations and exemptions. International Vaccination Certificates required for ships coming from an epidemic zone.

RADIO: Messages through Boulogne Radio. ETA must reach pilotage station or Harbour Captain's offices 18 hours before arrival. Near Calais, ships equipped with VHF can call Harbour Captain on Channel 12 or pilotage station on Channel 16.

TUGS: Generally join ships at end of the piers. Towing ropes are generally ships own but can be supplied by tug.

BERTHING: Max. height of tide 7.30 m. Depth on dock sills 2 m. LWOST.

At West dock, entrance between 1.5 hours before and half an hour after high tide. In Bassin Carnot, entrance between 3 hours before and 1 hour after high tide.

There are 2 berths equipped for handling roll-on/roll-off traffic, situated in Bassin Carnot.

CRANES:

Maritime Station Quay	Electric cranes – 6 tons	3
Paul Devot Quay	Electric crane – 6 tons with automatic scoop	1
	Electric crane – 12 tons with automatic scoop	1
	Electric cranes – 15 tons with automatic scoop	2
Transit Station	A block of 2 gantries able to handle a load of 40 tons (containers)	
West Basin		
South Quay of the West Basin	Electric cranes – 3 tons	3
	Electric cranes – 6 tons	2
Carnot Basin		
Vistule Quay	Electric cranes – 6 tons	2
Loire Quay	Electric cranes – 6 tons	3
	Electric cranes – 6 tons with automatic scoops	8
	Electric cranes – 12 tons with automatic scoop	2
	Electric gantries – 6 tons with raisable forepeak and equipped with weights and automatic scoops	2
Crespin Quay	Electric cranes – 6 tons with automatic scoops	3
Fournier Quay	Electric cranes – 6 tons	5
	Electric crane – 12 tons with automatic scoop	1
Volga Quay	Electric cranes – 6 tons	2
	Electric cranes – 6 tons with automatic scoops	2

Dry Dock: One electric crane – 15 tons. 2 mobile cranes of 1/9 tons complete the lifting machinery of the Public Equipment of the Port.

BRIDGES: Swing bridges (West Dock) and draw bridges (Bassin Carnot) are situated on sluices.

STEVEDORES: Informed by Shipbrokers of tonnage, nature and condition of cargo.

MEDICAL: All facilities available.

TANKERS: Two posts provided for tankers: "Quai Paul Devot" for medium-sized tankers. "Bassin Ouest" (West Dock) for small tankers. "White and black" products can be accepted at "Bassin Ouest". Only "black" products admitted at "Quai P. Devot". Tankers are allowed to enter harbour only by daytime. They must leave as soon as operations are finished. Hoses 10 in. and 12 in. in diameter. Barges discharged with a 10 in. hose.

DENSITY: Salt.

FRESH WATER: Supplied from hydrants on wharves.

FUEL: Any fuel can be supplied by tank lorry of large capacity.

GANGWAY/DECK WATCHMEN: Ships must be guarded.

OPENING/CLOSING HATCHES: As a rule hatches are manoeuvred by crew.

CUSTOMS ALLOWANCES: Tobacco: No limit for foreign ships, but the quantity must be declared on the lists of articles held by crew.

IDENTIFICATION CARDS: Identification cards and seamen's books are required.

CONSULS:

Consuls:
Netherlands, M. G. Dumont, 12 Bd. des Allies, Calais.
Denmark, M. J. Mulard Jr., Place de Suede.

Vice-Consuls:
Finland, M. H. Ravisse, 12 Bd. des Allies.
Greece; M. H. Ravisse, 12 Bd. des Allies.
Norway, M. Y. Lefebvre, 12 Bd. des Allies.
Sweden, M. T. Pagviez, 198 Rue des Quatre Coins.

REPAIRS: Deck and engine repairs possible.

DRY DOCKS: One, 153 m. long, 21 m. wide. Depth at sill, 7.45 m.

REPATRIATION: Pilot boats and tugs may trans-ship equipment or hands in outer roads.

AIRPORT: Calais, Dunkirk (International), 7 km. away.

TIME: GMT plus 1 hour. Spring and Summer GMT plus 2 hours.

HOLIDAYS: 1st January; Easter Monday; 1st May; Ascension Day; Whit Monday; Tuesday afternoon following 1st Sunday of July (local

feast); 14th July; 15th August; 1st November; 11th November; afternoon of 24th December; 25th December; Sundays.
POLICE/AMBULANCE/FIRE: Police 17; Ambulance 34.39.24; Fire 18.
SHORE LEAVE: Crew are allowed ashore.
AUTHORITY: Directeur des Ports de Boulogne-sur-Mer et Calais.
AGENT: See "Paris".

CALVI: Corsica: 42.34 N. 08.46 E.

DOCUMENTS:
3 Crew Lists.
3 Passenger Lists.
1 Provisions List
1 Cargo List.
1 List of Articles (new and customs-barred) in possession each crew member – cameras, binoculars, radios, cigarettes, spirits, etc.
1 Health Declaration.
PILOTAGE: Not compulsory.
ANCHORAGE: Outside port for cruise vessels.
MAX. SIZE: Draft 5 m.; length 160 m.
RADIO: Within 50 miles call Ajaccio Radio VHF Channel 16. Then connected over Channel 23 to telephone network.
TUGS: None available.
STEVEDORES: 24 hours accurate ETA necessary for ordering gangs. No work on Sundays and official holidays.
CARGO GEAR: Only a few nets and slings available; all other gear must be supplied by ship. Ship's derricks used.
FRESH WATER: Available at very slow pumping rate.
FUEL: Not available.
REPAIRS/CONSULS: None.
TIME: GMT plus 1 hour.

CANNES: 43.33 N. 07.01 E.

DOCUMENTS:
To be sent on departure from previous port.
3 copies of Passenger List.
1 copy of Crew List.
Required on arrival:
4 copies of List of Passengers, showing Christian name, surname, age, date and place of birth, nationality.
2 Crew Lists.
5 copies of a Special Arrival form (supplied on arrival).

PILOTAGE: No Pilot station at Cannes. A tender with Company's flag on top of its mast will meet the vessel: *(a)* If ship is proceeding to anchorage No. 1, in Golfe de la Napoule, about half a mile South of the lighthouse at end of Cannes port Pier (Quai Lauboeuf); *(b)* If ship is proceeding to either anchorage No. 2 or 3, in Golfe-Juan, half a mile North of Ile Ste Marguerite.

The tender will lead to anchorage and will give 1 blast of the siren when correct position has been reached. At night, tender has a fixed white light at top of its mast, which replaces the flag. Should it not be possible to advise by wireless before arrival at anchorage and weather conditions making it necessary for ship to anchor at either position No. 2 or 3, boat will meet ship in Golfe de la Napoule, 2 miles South of Cannes port lighthouse. In this event, ship must proceed to anchorage No. 2 or 3 as appropriate, steaming to South of Ile St. Honorat, whilst tender will proceed by channel between Ile Ste Marguerite and the mainland.

ANCHORAGE: Advice of anchorage is passed to Captain via Grasse Radio or Monaco Radio, VHF Channel 16 usually about 1 hour before arrival. There are 3 anchorages, any of which may be used according to the weather:

No. 1 off the port of Cannes, approximately half a mile South of end of breakwater, used by calm sea or by East or N.E. winds.

No. 2 is situated to North of Ile Ste Marguerite, used by S.E. or S.W. or South winds.

No. 3 to the East of Cap de la Croisette, used by West or N.W. winds.

It could happen during the call, winds may change direction and movement from anchorage No. 1 to No. 2 or No. 3 become necessary. Shift takes about 1 hour.

HEALTH: Port officials will embark immediately the ship anchors. Free pratique may be granted by wireless telephone 1 hour before arrival at ship's surgeon request stating: "no illness on board".

FRESH WATER: One water barge (capacity 65 tons) and 2 water barges (capacity 20 tons) available.

12 hours notice required for orders up to and including 100 tons. 24 hours notice required for amounts in excess of 100 tons. Pumping rate 30–40 cu.m.p.h. with one or two boats.

GANGWAY/DECK WATCHMEN: Watchmen for gangways should be provided by ship and passengers are requested to present their landing cards every time they use the gangways.
AUTHORITY: Capitainerie du Port.

CHERBOURG: 49.38 N. 01.38 W. (See Plan Book)

DOCUMENTS:
Declaration of Health.
Manifest of Provisions on Board.
Manifest of Crew's Possessions.
Manifest of Cargo – in certain cases.
Manifest of Equipment.

DEEP SEA PILOTAGE: Pilots board off CH1. Buoy. Radio ETA to "HUTCHINSON GRAVESEND". (48 hours notice.) On approaching Cherbourg contact Cherbourg Signal Station on VHF Channel 16 confirming ETA.

PILOTAGE: Requests for pilotage must indicate arrival time at the buoy CH1. They may be addressed to Agent or direct to pilot station, telegraphic address "Pilotage Cherbourg" or through the Homet look-out station by means of the usual signals. To avoid delay it is well to warn the pilot station 4 hours in advance of arrival. As a general rule, the pilot boat always comes out, whatever the weather. In bad weather, it follows the vessel and Pilot boards as soon as shelter permits.

ANCHORAGE: Anchoring must be made strictly according to the instruments of the Pilot so as not to get in the way of movements and anchorage of steamers. Depths vary from 6 to 12 m. in safe anchorages.

RESTRICTIONS: In the wet dock, the bridge is opened 1 hour before until 1 hour after high water.

MAX. SIZE:

	Length (m.)	*Breadth (m.)*	*Depth (m.) average tide* Spring	Neap
In the Roads	No Limit	No Limit	11	12.50

DOCUMENTS:
Ship's Registration Certificate.
Cargo Manifest.
Stores List.
Crew Personal Effects List.
List of Crew and Passengers with dates of Vaccinations.

MAX. SIZE: *Tankers:* By day: 90 m. overall; by night: 80 m. overall. *Other vessels:* By day: 95 m. overall; by night: 90 m. overall.

RADIO: Contact Conquet Radio.

TUGS: Available on demand, meet vessels near Cochon Light.

CUSTOMS ALLOWANCES: *Tobacco:* Fixed at 30 grams per day, at sea, per person. *Alcohol:* The equivalent of 5 centilitres of rum at 42° per day, at sea, per person.

These allowances are free of tax for use on board, but may not be landed.

IDENTIFICATION CARDS: Any National Identity Documentation will suffice.

POLICE/AMBULANCE/FIRE: Police, tel. 970071; Ambulance, tel. 17; Fire Brigade, tel. 19.

FRESH WATER: Available.

DRY DOCKS: Synchrolift available. Max. capacity 2,000 tons; max. LOA 95 m.; max. keel length 77.5 m.; max. beam 14 m.; max. draft 5.50 m. Fresh water, electricity, compressed air and cranes available.

REPAIRS: There is a slipway which can accommodate 6 vessels of 350 metric tons.

AIRPORT: At Quimper – Pluguffan 30 km. from the town. Twice daily flights to Paris and flights to London during the Summer months.

AUTHORITY: Officier de Port.

DIEPPE: 49.55 N. 01.04 E. (See Plan Book)

DOCUMENTS:
4 Crew Lists.
2 Lists of Stores.
1 Loading Manifest.
1 Passenger List.
1 Declaration (furnished by Agent) stating that ship possesses up-to-date Safety Certificates.
1 Health Declaration.

PILOTAGE: Pilot boards 4 miles from breakwaters. Pilotage is compulsory in this area except for vessels less than 50 m. long equipped with VHF (Channel 12). Pilot boat is ready to put to sea from 2.5 hours before to 1 hour after high tide when a vessel is expected. During this period maintains radio telephone watch. VHF Channel 12.

All vessels must send ETA to the pilotage authority of the Seine/Rouen/Dieppe at least 5 hours prior to arrival in the Dieppe roads, any delay greater than 2 hours or where a tide is missed must be signalled at least 3 hours before the initially ETA. Vessels not obliged to take on a Pilot must indicate in their ETA whether or not a Pilot is needed.

Address: PILSEINE – 21 rue du Mont Diboudet – Rouen, Telephone (35) 71 68 50; Telex 770575.

APPROACHES: Coming from the West, immediate landfall is Cap d'Ailly which is passed at 3 miles distance and then vessels proceed to the landfall buoy of Dieppe marked D.1. with black and white stripes, with a flashing light every 6 seconds and a bell:

Location: 49° 57′ 15″ N., 1° 01′ 40″ E., or 2.5 miles to the N.W. of the port entrance.

The cliffs which surround Dieppe give very good radar echoes.

ANCHORAGE: It is recommended to anchor in zone bounded by following points: *(a)* 49° 56′ 55″ N. 01° 04′ E.; *(b)* 49° 58′ 40″ N. 01° 02′ 45″ E.; *(c)* 49° 57′ 42″ N. 00° 59′ 20″ E.; *(d)* 49° 55′ 50″ N. 01° 00′ 30″ E.

This anchorage area includes buoy D.I and depths are from 6 to 12 m. with sand and broken shell bottom. Larger vessels anchor approximately half a mile to North of buoy D.I in depths of 10 to 12 m.

Forbidden anchorage: It is forbidden to anchor in the area defined by the following points: 49° 56′ 55″ N. 01° 05′ 29″ E. – 49° 56′ 25″ N. 01° 03′ 03″ E. – 49° 56′ 05″ N. 01° 04′ 50″ E.

RESTRICTIONS: The lock gates of the commercial basins are only open from two hours before to one hour after high tide. Vessels remain at anchorage in the roads until the gates are opened. Large vessels enter preferably at the time of high tide to benefit to the maximum from the level of water under the keel and the best conditions of navigation.

Entry and leaving: Vessels entering must arrive in the roads at the latest 25 minutes after high tide, except for large vessels which must be in the roads at the latest at high tide. Vessels leaving must be ready at the latest 30 minutes after high tide.

Entry and leaving signals: Entry and leaving signals are exhibited on the signal post on the West jetty and on the repeater post of the fore port (signals in accordance with the Lisbon Convention of 23rd October, 1930.) At the Colbert Sluice and at the various locks the signals are simplified.

MAX. SIZE: Vessels LOA 155 m. and beam 21.5 m. can enter. In certain cases vessels of LOA 165 m. may be permitted to enter.

Colbert Lock (Dimensions of Lock): 230 m. length, 40 m. width, controls entrance to Inner harbour, where depth maintained about 7.50 m.

Canada Docks: length 154 m.; width, 21 m.; draft 8 m.
Paris Dock: length 154 m.; width 21 m.; draft 8 m.

Opening of Canada and Paris basins: 2 hours before to 1 hour after full tide, night or day. The port is accessible to vessels up to 10,000–12,000 d.w.t.

HEALTH: Pratique given by Customs officers who board on arrival. In case of suspected disease, Master required to radio details to Agent in advance.

RADIO: Boulogne Radio (FFB). *Arrival advice.* Masters of vessels must send to the Port Authority, 24 hours in advance, or at the latest when leaving the previous port where this is located less than 24 hours away, the expected time of arrival in the roads, indicating the name of the vessel, tonnage, length, beam, the date and time of arrival, maximum draft of the vessel on arrival, the nature and tonnage of various items of its cargo and hazardous cargo (in transit or to be landed), possible damage to the ship, its equipment or to the cargo. A rectifying message must be sent in the event of a change. Address: Port Captaincy: 1 Quai Guynemer – Dieppe. Telephone (35) 84 10 55 – Telex: MARDIEP 180414F.

VHF: Dieppe Radio maintains continuous watch on Channels 21 and 24 and calls vessels on Channel 16. The Port Authority (Call sign "Dieppe Port") maintains watch on Channel 12.

TUGS: 3 tugs available (1,400 h.p., 750 h.p., 600 h.p.). Requests for use must be made to the Port Captaincy. Two tugs in service at all times.

BERTHING:

Dock	*Quay*	*Facilities*	*Length* (m.)	*Sea level chart*
Paris	Norvege	5 cranes 3 t; 2 cranes 3/6 t; 1 roll-on/roll-off ramp (80 t.) 1 crane 20 t.	715	7.5/9
	Maroc	1 crane 5 t 5 gantry cranes 2.2 t. 6 noria conveyors for banana handling	600	7.5/9

	Quebec	4 cranes 3 t; grain silo (cap. 12,000 tons). Capacity 500 t.p.h.	160	7.5/9
Avant-Port	Henri IV	2 cranes 3 t; 2 cranes 3/8 t 1 Roll-on/roll-off ramp	380	4.5/5 minimum
Arriere-Port	Quai Guynemer	1 Roll-on/roll-off ramp (80 t.)		

Handling capacities:

	Loading:
Colza oil	200 t.p.h. (from the quay)
Colza grains	60 tons/man hour
Grain and wheat	500 t.p.h. (silo)
Rough timber	23 to 28 cu. m./man hour
	Unloading:
Colza oil	00 t.p.h. (taken from quay)
Colza grains	50 tons/man hour
Sand and gravel	100 to 150 tons/man hour
Bananas	about 3,000 cartons/man hour
Citrus fruit on pallets	55 to 65 pallets/man hour
Citrus fruits not palletised (cases, cartons, crates)	16 to 21 tons/man hour
Pre-slung timber	about 80 cu. m./man hour
Bulk timber	about 25 cu. m./man hour
Iron and steel	50 to 60 tons/man hour

CRANES: One 30-ton crane at Quay de Tonkin. Two 40-ton jib cranes.

BRIDGES: There are 3 bridges without vertical obstacles, and to request opening of the Colbert Bridge give 3 long blasts on the ship's whistle, to call for the opening of the Admiral Rolland Bridge give 3 long blasts on the whistle, and for the opening of the Jehan Ango Bridge give 2 long blasts on the whistle.

STEVEDORES: Normal hours are 0800–1200 and 1400–1800. Possible to work from 1800–2200 to complete operations. No work on Sundays or holidays.

MEDICAL: All medical facilities available.

FRESH WATER: Supplied by pipe-line. There are a great number of outlets on the quay.

FUEL: Available in small quantities; delivered by tanker lorry.

GANGWAY/DECK WATCHMEN: Available if required.

IDENTIFICATION CARDS: Embarkation card or passport is sufficient.

CONSULS:

Norway	Denmark
Sweden	Holland

REPAIRS: Good facilities exist, all types carried out.

DRY DOCKS: Dry dock in the inner harbour, dimensions 130×18 m. It can receive ships 129×17 m.

SURVEYORS: Bureau Veritas at Dieppe; Lloyds at Le Havre and Rouen; American Bureau of Shipping at Le Havre; Det Norske Veritas at Le Havre.

OPENING/CLOSING HATCHES: According to agreement, either by crew or stevedores.

CUSTOMS ALLOWANCES: EEC countries – 300 cigarettes 1.5 litres of spirits and an exemption of 600 francs. Antilles: 400 cigarettes, 1 litre of spirits of more than 22°; Africa: 400 cigarettes and 1 litre of spirits of more than 22° and an exemption of 140 francs per passenger.

REPATRIATION: Good facilities.

AIRPORT: Dieppe Saint Aubin (3 kms.) has two daily connections with Shoreham, England. The nearest main airport is Paris.

TIME: GMT plus 1 hour, but during the period from beginning April to end September (six months) the legal time is advanced by 1 hour (GMT +2).

HOLIDAYS: 1st January; Good Friday; Easter Monday; Ascension Day; Whit Monday; 1st May; 14th July; 15th August; 1st November; 11th November; 25th December.

POLICE/AMBULANCE/FIRE: Police (Duquesne Quay) 84-87-32 or 17. Fire and Ambulance 18 or 84-33-00.

TELEPHONES: No connections on the quays.

SERVICES: Compass adjusting, etc. available.

SHORE LEAVE: Allowed.

AUTHORITY: Commandant du Port.

AGENT: See "Paris".

DONGES: Refer to Nantes.

DUNKIRK: 51.03 N. 02.24 E. (See Plan Book)

PORT LIMITS: The seaward boundaries of the port within which a vessel is considered to be an "arrived ship" is the Dyck lightship or the roads if the ship comes from the East.

DOCUMENTS:

Entry Bill (all information about ship), given by Pilot to Captain, who fills it in and gives it to Harbour Officer.
To be given to Customs:
3 Crew Lists.
3 Passenger Lists.
Manifest or copy.
Form for increase of tonnage.
Declaration of open spaces.
3 Lists of objects held by crew.

PILOTAGE: Pilotage station limits – there are 2 pilotage zones.

1. The outer zone which is limited:
   To the West by the meridian of Calais lighthouse (01° 51′ East);
   To the East, by the meridian of 2° 27′ of Long. East;
   To the North, by the line situated 3 miles seawards of the low water mark;
   To the South, by the Calais pilotage zone, the coast and the inner zone defined below.
2. The inner zone limited:
   To the West by meridian 02° 08′ East;
   To the North, by a continuous broken line constituted by the parallel 51° 03′ N., the line of the coast, the meridian 02° 2′ E., the parallel 51° 04′ 30″ N.;
   To the East by the meridian of Dunkirk lighthouse;
   To the South by the end of the water levels of the autonomous port of Dunkirk.

Pilotage is compulsory in inner zone for ships over 150 n.r.t. or ships of max. length 50 m, or with dangerous cargo.

Pilotage compulsory in outer zone for ships not fitted with VHF, or over 1,000 nett tons or max. length 100 m.

Vessels coming from the West should call Pilots 12 hours before arrival. Vessels coming from the East should call Pilots 2 hours before arrival. ETA based on time of arrival at Dyck lightship, should be given through Boulogne Radio (telegraphy) or by radiophone (2182 kHz). ETA to state: ETA (at pilot station). Length of the ship. Draft. Place where the Pilot is requested: Dyck/Dunkirk Light Vessel; Dunkirk Roads; Zuydcoote Pass.

ETA will be considered null and void if vessel does not arrive within 2 hrs. of stated ETA.

In vicinity of pilot boat, vessels may communicate with Pilots by VHF Channel 16, or R/T 2,182 kcs or by Aldis lamp or flag signals when pilot boat is in sight. Telegraphic address of Pilot: Piloduk. Telex 820902.

Pilot boat is about 50 m. long, black hull with white horizontal stripe, "Pilot Dunkerque" written on hull. Black funnel with white anchors insignia.

Pilot boat is positioned between Dyck lightship and buoy CA.2. In bad weather, pilot boat may heave to on a parallel South of wreck buoy (*British Liberty*) and buoy DC, or put into port.

Ship's Departure: Sailings must be ordered at the Harbour Office, pilot station, towage office and linemen's office.

Pilots: For a sailing between 0800 and 2000 hrs. one and half hours notice is necessary to Pilot for the ships moored in Dunkirk-East (Mardyck Bassin excepted) a two-hours notice for ships moored in Mardyck Bassin and Dunkirk-West.

For a sailing between 2000 and 0800 hrs. vessels are required to give notice to the pilot office before 1600 hrs. and to order the Pilot before 1800 hrs.

ANCHORAGES: Large vessels waiting for entrance must anchor in the area West of Dyck Light vessel. In bad weather, ships may anchor off English coast, in the roads of Les Dunes, with good mooring ground of sand and mud 20 m. deep. On the Roads of Dunkirk, ships must anchor East of buoy E.11 so as not to disturb the entrance of ships.

RESTRICTIONS: Vessels more than 180 m. length, or of more than 10 m. of draft, normally enter only at slack water, i.e. between 3 hours before high water and 2 hours after high water.

Departure: Ships over 250 m. long may sail from 1 hour before sunrise to 1 hour before sunset (time for leaving the berth), except near the high water time during the Spring tides.

MAX. SIZE: The Charles De Gaulle Lock can receive ships with a draft of 12 m. at slack water before high tide and ships with draft of 14.20 m. at slack water after high tide. At night these permissible drafts are reduced to 12.00 m. and 12.5 m. and length to 250 m. In normal conditions of work, max. length of ship 270 m. (Turbine), or 280 m. (Motor), max. width 42 m. For entry of larger ships, Director of Harbour should be consulted beforehand.

Entrance through Watier Lock: max. length 235 m., max. beam 33 m., max. draft 11.50 m.

Maximum salt water draft at Charles de Gaulle Lock is 14.20 m., for vessels berthing at public wharf appontement No. 1 and 2 and at private Usinor berth No. 5 and 6.

Outer Port West: V.L.C.C.s up to 470,000 d.w.t. on a max. draft of 22 m. can use the new access channel to the Flanders Oil Berth in the outer harbour.

HEALTH: For ships coming from *(a) All European countries:* Declaration of health is not obligatory but general international certificates are controlled. *(b) Other Harbours:* Admission subject to declaration of health and usual controls of certificates. Admissions in free pratique only in daytime except special cases (intervention of a physician). Request for free pratique may be made to Sani-Port, Dunkirk, through Boulogne Radio. In case of necessity, health service can – on request – intervene at night.

RADIO: Dunkirk Harbour Station (FFF) for messages about port service through VHF Channel 12 and 11. Communications other than in VHF made through Boulogne Radio (FFB).

VHF: Dunkirk Port Station maintains continuous watch on VHF, Channel 12. Dunkirk Pilot Station maintains continuous watch, VHF Channel 16 and R/T 2182 kHz.

RADAR: There is radar at the control tower of harbour. It is not a guiding radar.

TUGS: Tugs normally join vessel between buoys DW.28 to DW.30. and DW.16. Smaller vessels are joined by tugs in the outer port.

On departure tugs must be ordered with a 2 hour notice for Dunkirk-East and a 4 hour notice for Dunkirk-West. Moreover, for manoeuvring between 1900 and 0700 hrs. tugs must be reserved before 1600 hrs. and ordered before 1800 hrs.

It is possible to cancel or delay any order for tugs, without indemnity, provided this request is done with a 1 hour (day-time) and 2 hours (night-time) notice for Dunkirk-East, with a 2 hours (day-time) and 4 hours (night-time) notice for Dunkirk-West.

BERTHING: Berthing priority is decided by Port Captain's office. Ship is informed by radio of the location and priority given to her.

Mobile Cranes: 1 at 6/10 tons and 2 at 17/36 tons.

BRIDGES: Bridges of locks and wet docks are closed to navigation to allow trains or work hands to go. The maritime traffic is practically never disturbed.

BULK HANDLING FACILITIES: Bulk Quay No. 1, formerly known as the ore quay. Equipped with 3 gantry cranes. Principally used for iron ore destined for Usinor Dunkirk and Usinor Valenciennes.

Bulk Quay No. 2, a common quay with 2 berths belonging to the Dunkirk port authorities. Equipped with 2 polyvalent iron ore/coal gantry cranes. A third gantry crane is under construction. This quay is accessible for largest ships able to enter the port. Used to discharge coal destined for the Usinor coke mill, also receives coal for other operators, manganese ore and all iron ores for receivers other than Usinor.

Bulk Quay No. 3, an extension of the Usinor Quay for iron ore cargo. Equipped with 1 gantry of 50 tons capacity. Permissible draft at present 13.50 m. planned to be increased to 14.50 m. in the future.

Phosphate Quay, situated West of Bulk Quay No. 2. Berth is 600 m. long with a min. depth alongside of 14 m. Bulk carriers of 80,000 d.w.t. with a draft up to 41 ft. can be accommodated.

Unloading equipment consists of 3 cranes with grabs, each with a max. discharge capacity of 565 t.p.h.

Cereal berth is accessible to 80,000 d.w.t. ships. Along its internal face, coasters, lighters and 3,000 ton pushed convoys can be tied up. Handling operations are secured by 2 pneumatic gantries at a max. rate of 600 t.p.h.

CONTAINER FACILITIES: *Dunkirk-West:* Quai de Lorraine and Quai de Flandre. Total length 1,200 m. equipped with 4 container gantry cranes capable of lifting 45 tons on spreaders for 20–40 ft. units.

ROLL-ON/ROLL-OFF FACILITIES: *Dunkirk-West:* Quai d'Alsace is equipped for direct transhipment of vehicles, trailers and wagons. Quai de Lorraine and Quai de Flandre are provided with movable steel ramps for direct transhipment of vehicles and trailers.

Dunkirk-East: Quay Freycinet VII, the berth South of Freycinet VI, has been provided with a fixed ramp for roll-on/roll-off for ships up to 8 m. draft and 22 m. beam.

TANKERS: The following tanker berths are available:

Flanders Oil Berth: max. draft 22 m. Discharge lines to Total Refinery, and to the B.P. Refinery. The access channel has been dredged to a depth of 22 m. at L.W. The turning circle at the entrance to the Outer Port West has a diameter of 1,400 m. Max. discharge rate 20,000 cu.m./hr.

North wharf, max. draft 12.50 m. Loading/discharging pipes 26 in. diameter, bunker line 10 in. diameter.

Middle wharf North, max. draft 12.50 m. Loading/discharging lines 2 of 22 in. and 3 of 16 in. lines, bunker line 16 in. diameter.

Middle wharf South, max. draft 12 m. Dimensions of lines as for Middle wharf North.

Coasters Wharf, max. draft 7.50 m. Diameter of loading/discharge lines 6 in.

Bassin de Mardyck Oil Port, Appt C.F.R. – Poste Est. Max draft 12.50 m., Poste Ouest draft 14.20 m.

Facilities for discharge of dirty ballast are available at all main tanker berths.

STEVEDORES: Each captain will contact his consignee.

MEDICAL: Hospitals and all medical facilities.

DENSITY: Salt.

FRESH WATER: Available in unlimited quantities. Numerous hydrants on all wharves. Price of a ton of water for ships, 2.50 Fr.

FUEL: Supplied by barges or tank lorries if no connection at wharf. Fuel, diesel and gas oil available. Requests for bunkers must be made 48 hours in advance to Agents.

FIRE PRECAUTIONS: The following preventive measures are taken for tankers: Steel rope hung fore and aft along the side (a quick tow in case of hauling out the ship). Deck scuppers plugged. Hoods open on tanks with anti-fire device. Earth connection. Rounds of the port officers. Fire hose connected. Ship's captain is given instructions of the harbour concerning tankers. In case of storm, the Harbour Officer can stop loading or discharging.

GANGWAY/DECK WATCHMEN: Guarding is strongly advised.

OPENING/CLOSING HATCHES: Carried out by crew.

CERTIFICATES:

Certificate of Nationality.
International Certificate of Tonnage.
Certificates from the Classification Office where ship is registered, especially:
Certificate of Freeboard.
Classification Certificate, engine and boiler.
Classification Certificate, hull.
Classification Certificate, electric equipment for tankers.
List of Hoisting Apparatus.
Deratisation Certificate.
TOVALOP Certificate or similar for tankers.

CUSTOMS ALLOWANCE: Tobacco: Amount allowed for each member of crew: 200 cigarettes or 200 gramme tobacco. Wine and/or Spirits: 1 bottle.

IDENTIFICATION CARDS: An official identity certificate is compulsory ashore (passport, identification card, sailor's book, etc.).

DEVELOPMENTS: The new outer harbour covers 1,400 acres and is designed for vessels with drafts of up to 73 ft.

Unloading for tankers at Total Pier at a rate of 20,000 cu.m.p.h.

The new commercial port, "Rapid Transit Port" operational. The port is tidal. Facilities include a 260 m. quay for Load on/Load off and Ro/Ro berth. A container vessel of 400 ft. length and a ro/ro vessel of similar size can operate simultaneously. Also berth for ferry with rail sidings, parking and all other services.

CONSULS:

IDENTIFICATION CARDS: Not required.

CONSULS:

Vice-Consulate of Norway	tel. 28.00.08.
Vice-Consulate of Denmark	tel. 28.08.62.

REPAIRS: Possible.

DRY DOCKS: 1 slipway for vessels of maximum 1,500 tons displacement.

REPATRIATION: Agents carry out these operations.

AIRPORT: Paris is the nearest.

TIME: Local time is GMT plus 1 hour, no alterations during year.

HOLIDAYS: Arrangements for working during holidays can be made if necessary.

POLICE/AMBULANCE/FIRE: Police, tel. 0.17 and 28.06.68; Ambulance, tel. 28.31.91 and 28.09.59; Fire, tel. 0.18.

TELEPHONES: No arrangements for placing telephone on board.

SERVICES: No possibilities for tank cleaning, etc. Compass adjusting available if necessary.

SHORE LEAVE: Always possible for crew members to go ashore.

AUTHORITY: Ingenieur des Ponts et Chaussees.

GRANVILLE: 48.50 N. 01.35 W. (See Plan Book)

DOCUMENTS: See "Calais".

PILOTAGE: Pilotage not compulsory for ships of less than 45 m. length, except for those carrying dangerous cargo. Pilots board from fishing boats carrying regulation marks of a pilot boat, and maintain position at Videcoq buoy when a vessel is expected.

Limits of Granville pilotage are: 1. On entering, towards the West, the line joining "la Pierre d'Herpin", and Chausey lighthouse. To the North, alignment of Chausey lighthouse and "le Pignon". 2. On leaving, alignment of Mont. St. Michel through Champeaux Point. Ships bound Granville required notify ETA 18 hours in advance.

Telegraphic address: Telex 170002 SCAC Granville – Ship's Agency – Handling. Telex 170088 Monsieur Gilbert, Marine Agent. Telex 170777 Monsieur LeFranc, Marine Broker.

1.5 hours before to 1.5 hours after high tide contact with Port Officer (tel. 50.12.45 Granville) can be established by relay through "Coastal" Stations. During same hours contact can be made with pilot boat and with Port Office by VHF Channel 12 (port wave band 156.6).

ANCHORAGE: At landfall buoy of Le Videcoq.

RESTRICTIONS: Draft restrictions apply at neap tides. Width of Lock – 20 m.

MAX. SIZE: Vessels 115 m. long, 18 m. wide and with a max. draft of 7 m. may enter the tidal basin during 6 days, twice a month with effect from a tidal coefficient of about 80.

For a vessel of this size, it is recommended to give advance notice of arrival as far ahead as possible at the commencement of tides with a coefficient of 80.

Entry of a deep draft vessel may make it necessary to close the tidal basin more quickly after high tide.

Speed in the channel, the fore port and the tidal basin is limited to 5 knots.

HEALTH: Pratique arranged by Customs.

RADIO: Boulogne Radio for ships coming from the North. Brest-Le Conquet Radio for ships coming from the South.

TUGS: Port not equipped with tugs. Pilot boats used as "pushers" for port manoeuvres, or for carrying hawsers to tying-up points.

BERTHING: Determined according to nature of cargo.

Tidal Basin: 3 electric cranes (2 × 7 tons and 1 × 6 tons for the South quay, and 1 × 10 tons for the North and East quays).

Open areas, warehouses and storage silo capable of receiving all goods in bulk, bags or packages.

Internal transport: rail and road.

Fore Port: Open area and mobile cradle capable of hauling up vessels up to 100 tons. 1 × 5 ton crane on cradle. Repair yards.

West Quay: Between tidal basin and fore-port – solely for fish discharge and auction.

STEVEDORES: Work hours 0800/1200, 1400/1800. Overtime possible.

HOLIDAYS: See "Calais". Local holiday, Mardi Gras afternoon.

MEDICAL: Hospital available. Tel. 50.11.37.

TANKERS: 2 berths for unloading domestic fuels through 8 in. pipes.

DENSITY: 1025.

FRESH WATER: Available at all quays, international connections.

FUEL: Available from tanker lorry to commercial vessels at 48 hours notice.

OPENING/CLOSING HATCHES: Carried out by crew.

GANGWAY/DECK WATCHMEN: Available on request.

CUSTOMS ALLOWANCES: Tobacco. 200 cigarettes. Wines and spirits. 1 bottle spirits.

CONSULS: None.

REPAIRS: Possible. Also radio repairs.

REPATRIATION: Paris, 3.5 hours by train.

AIRPORT: 10 km. from the port. Air-taxi and commercial fights.

TIME: Local Time GMT plus 1 hour in Winter and GMT plus 2 hours in Summer (1st April – 1st October).

POLICE/AMBULANCE/FIRE: Police Tel. 50.11.16; Fire Service 18; Ambulance 50.11.37.

AUTHORITY: Officer Du Port.

HONFLEUR: 49.25 N. 00.14 E. (See Plan Book)

DOCUMENTS: See "Rouen".

PILOTAGE: Served by "Pilotage de la Seine" (address: 9 Chaussee Kennedy, 76 le Havre). Ships bound for Honfleur are received on the Carosse Roads (Rade de la Carosse) where the following signals should be made for summoning a Pilot. By day – flag "G" of the international code of signals. By night – in Morse by signalling lamp.

Complementary signals which can be used on arriving on the roads. By day – globe or ship's national flag hoisted at masthead. By night – red light at main masthead. At all times, sound signal of 5 long blasts.

Advice of ETA and draft in salt water is to be given to Rouen Port at least 5 hours prior arrival roads, as well as to Agent.

Similarly, vessels anticipating a delay of more than 2 hours after their reported ETA should notify Rouen Port or the pilot boat of this at least 3 hours before the time originally reported.

Before arriving on the roads, ships should call pilot station "Rouen-Pilot" which keeps a permanent VHF watch on Channels 16 and 11.

A Pilot is obligatory for every ship of more than 55 m. length.

RESTRICTIONS: Access to port made through channel 100 m. wide, protected by 2 dykes about 500 m. long, which leads to outer harbour. A tidal port, Honfleur possesses 3 basins:

Dock	Length	Width	Sluice width
West Dock	128 m.	77 m.	10.50 m.
East Dock	295 m.	71 m.	16.50 m.
Carnot Dock	788 m.	108 m.	13.00 m.

East Dock joins outer harbour: ships of more than 70 m. long must anchor in Carnot Dock which spans from East.

MAX. SIZE: Port can receive ships 100 m. long and 15.50 m. wide berthing in East Dock; but with Carnot Dock, only ships less than 12.50 m. wide can enter. Drafts vary according to tides: 6.00 m. with average spring tide, 4.70 m. in average slack water, and subject to variations because of silting up of harbour which necessitates frequent dredging.

HEALTH: Bill of Health is under the jurisdiction of Customs office of Honfleur. Hospital nearby.

RADIO: Boulogne Radio, Brest Radio or St. Lys Radio. A permanent watch is maintained by Rouen Port on Channel 16 and 11. Disengagement frequency after call on Channel 16: Channel 71.

TUGS: If necessary are provided by "La Societe des Abeilles" of Le Havre.

BERTHING:

1 (Dravo)	90	13.10	5.20	30.00	Diesel	Dravo	1	90.7
	68.90	23.10	5.20	17.10	electr.		1	15
	15	30.10	7.70	41.4/20.6				

Mobile Cranes: 1 at 6/10 tons and 2 at 17/36 tons.

BRIDGES: Bridges of locks and wet docks are closed to navigation to allow trains or work hands to go. The maritime traffic is practically never disturbed.

BULK HANDLING FACILITIES: Bulk Quay No. 1, formerly known as the ore quay. Equipped with 3 gantry cranes. Principally used for iron ore destined for Usinor Dunkirk and Usinor Valenciennes.

Bulk Quay No. 2, a common quay with 2 berths belonging to the Dunkirk port authorities. Equipped with 2 polyvalent iron ore/coal gantry cranes. A third gantry crane is under construction. This quay is accessible for largest ships able to enter the port. Used to discharge coal destined for the Usinor coke mill, also receives coal for other operators, manganese ore and all iron ores for receivers other than Usinor.

Bulk Quay No. 3, an extension of the Usinor Quay for iron ore cargo. Equipped with 1 gantry of 50 tons capacity. Permissible draft at present 13.50 m. planned to be increased to 14.50 m. in the future.

Phosphate Quay, situated West of Bulk Quay No. 2. Berth is 600 m. long with a min. depth alongside of 14 m. Bulk carriers of 80,000 d.w.t. with a draft up to 41 ft. can be accommodated.

Unloading equipment consists of 3 cranes with grabs, each with a max. discharge capacity of 565 t.p.h.

Cereal berth is accessible to 80,000 d.w.t. ships. Along its internal face, coasters, lighters and 3,000 ton pushed convoys can be tied up. Handling operations are secured by 2 pneumatic gantries at a max. rate of 600 t.p.h.

CONTAINER FACILITIES: *Dunkirk-West:* Quai de Lorraine and Quai de Flandre. Total length 1,200 m. equipped with 4 container gantry cranes capable of lifting 45 tons on spreaders for 20–40 ft. units.

ROLL-ON/ROLL-OFF FACILITIES: *Dunkirk-West:* Quai d'Alsace is equipped for direct transhipment of vehicles, trailers and wagons. Quai de Lorraine and Quai de Flandre are provided with movable steel ramps for direct transhipment of vehicles and trailers.

Dunkirk-East: Quay Freycinet VII, the berth South of Freycinet VI, has been provided with a fixed ramp for roll-on/roll-off for ships up to 8 m. draft and 22 m. beam.

TANKERS: The following tanker berths are available:

Flanders Oil Berth: max. draft 22 m. Discharge lines to Total Refinery, and to the B.P. Refinery. The access channel has been dredged to a depth of 22 m. at L.W. The turning circle at the entrance to the Outer Port West has a diameter of 1,400 m. Max. discharge rate 20,000 cu.m./hr.

North wharf, max. draft 12.50 m. Loading/discharging pipes 26 in. diameter, bunker line 10 in. diameter.

Middle wharf North, max. draft 12.50 m. Loading/discharging lines 2 of 22 in. and 3 of 16 in. lines, bunker line 16 in. diameter.

Middle wharf South, max. draft 12 m. Dimensions of lines as for Middle wharf North.

Coasters Wharf, max. draft 7.50 m. Diameter of loading/discharge lines 6 in.

Bassin de Mardyck Oil Port, Appt C.F.R. – Poste Est. Max draft 12.50 m., Poste Ouest draft 14.20 m.

Facilities for discharge of dirty ballast are available at all main tanker berths.

STEVEDORES: Each captain will contact his consignee.

MEDICAL: Hospitals and all medical facilities.

DENSITY: Salt.

FRESH WATER: Available in unlimited quantities. Numerous hydrants on all wharves. Price of a ton of water for ships, 2.50 Fr.

FUEL: Supplied by barges or tank lorries if no connection at wharf. Fuel, diesel and gas oil available. Requests for bunkers must be made 48 hours in advance to Agents.

FIRE PRECAUTIONS: The following preventive measures are taken for tankers: Steel rope hung fore and aft along the side (a quick tow in case of hauling out the ship). Deck scuppers plugged. Hoods open on tanks with anti-fire device. Earth connection. Rounds of the port officers. Fire hose connected. Ship's captain is given instructions of the harbour concerning tankers. In case of storm, the Harbour Officer can stop loading or discharging.

GANGWAY/DECK WATCHMEN: Guarding is strongly advised.

OPENING/CLOSING HATCHES: Carried out by crew.

CERTIFICATES:

Certificate of Nationality.
International Certificate of Tonnage.
Certificates from the Classification Office where ship is registered, especially:
Certificate of Freeboard.
Classification Certificate, engine and boiler.
Classification Certificate, hull.
Classification Certificate, electric equipment for tankers.
List of Hoisting Apparatus.
Deratisation Certificate.
TOVALOP Certificate or similar for tankers.

CUSTOMS ALLOWANCE: Tobacco: Amount allowed for each member of crew: 200 cigarettes or 200 gramme tobacco. Wine and/or Spirits: 1 bottle.

IDENTIFICATION CARDS: An official identity certificate is compulsory ashore (passport, identification card, sailor's book, etc.).

DEVELOPMENTS: The new outer harbour covers 1,400 acres and is designed for vessels with drafts of up to 73 ft.

Unloading for tankers at Total Pier at a rate of 20,000 cu.m.p.h.

The new commercial port, "Rapid Transit Port" operational. The port is tidal. Facilities include a 260 m. quay for Load on/Load off and Ro/Ro berth. A container vessel of 400 ft. length and a ro/ro vessel of similar size can operate simultaneously. Also berth for ferry with rail sidings, parking and all other services.

Mobile Cranes: 1 at 6/10 tons and 2 at 17/36 tons.

BRIDGES: Bridges of locks and wet docks are closed to navigation to allow trains or work hands to go. The maritime traffic is practically never disturbed.

BULK HANDLING FACILITIES: Bulk Quay No. 1, formerly known as the ore quay. Equipped with 3 gantry cranes. Principally used for iron ore destined for Usinor Dunkirk and Usinor Valenciennes.

Bulk Quay No. 2, a common quay with 2 berths belonging to the Dunkirk port authorities. Equipped with 2 polyvalent iron ore/coal gantry cranes. A third gantry crane is under construction. This quay is accessible for largest ships able to enter the port. Used to discharge coal destined for the Usinor coke mill, also receives coal for other operators, manganese ore and all iron ores for receivers other than Usinor.

Bulk Quay No. 3, an extension of the Usinor Quay for iron ore cargo. Equipped with 1 gantry of 50 tons capacity. Permissible draft at present 13.50 m. planned to be increased to 14.50 m. in the future.

Phosphate Quay, situated West of Bulk Quay No. 2. Berth is 600 m. long with a min. depth alongside of 14 m. Bulk carriers of 80,000 d.w.t. with a draft up to 41 ft. can be accommodated.

Unloading equipment consists of 3 cranes with grabs, each with a max. discharge capacity of 565 t.p.h.

Cereal berth is accessible to 80,000 d.w.t. ships. Along its internal face, coasters, lighters and 3,000 ton pushed convoys can be tied up. Handling operations are secured by 2 pneumatic gantries at a max. rate of 600 t.p.h.

CONTAINER FACILITIES: *Dunkirk-West:* Quai de Lorraine and Quai de Flandre. Total length 1,200 m. equipped with 4 container gantry cranes capable of lifting 45 tons on spreaders for 20–40 ft. units.

ROLL-ON/ROLL-OFF FACILITIES: *Dunkirk-West:* Quai d'Alsace is equipped for direct transhipment of vehicles, trailers and wagons. Quai de Lorraine and Quai de Flandre are provided with movable steel ramps for direct transhipment of vehicles and trailers.

Dunkirk-East: Quay Freycinet VII, the berth South of Freycinet VI, has been provided with a fixed ramp for roll-on/roll-off for ships up to 8 m. draft and 22 m. beam.

TANKERS: The following tanker berths are available:

Flanders Oil Berth: max. draft 22 m. Discharge lines to Total Refinery, and to the B.P. Refinery. The access channel has been dredged to a depth of 22 m. at L.W. The turning circle at the entrance to the Outer Port West has a diameter of 1,400 m. Max. discharge rate 20,000 cu.m./hr.

North wharf, max. draft 12.50 m. Loading/discharging pipes 26 in. diameter, bunker line 10 in. diameter.

Middle wharf North, max. draft 12.50 m. Loading/discharging lines 2 of 22 in. and 3 of 16 in. lines, bunker line 16 in. diameter.

Middle wharf South, max. draft 12 m. Dimensions of lines as for Middle wharf North.

Coasters Wharf, max. draft 7.50 m. Diameter of loading/discharge lines 6 in.

Bassin de Mardyck Oil Port, Appt C.F.R. – Poste Est. Max draft 12.50 m., Poste Ouest draft 14.20 m.

Facilities for discharge of dirty ballast are available at all main tanker berths.

STEVEDORES: Each captain will contact his consignee.

MEDICAL: Hospitals and all medical facilities.

DENSITY: Salt.

FRESH WATER: Available in unlimited quantities. Numerous hydrants on all wharves. Price of a ton of water for ships, 2.50 Fr.

FUEL: Supplied by barges or tank lorries if no connection at wharf. Fuel, diesel and gas oil available. Requests for bunkers must be made 48 hours in advance to Agents.

FIRE PRECAUTIONS: The following preventive measures are taken for tankers: Steel rope hung fore and aft along the side (a quick tow in case of hauling out the ship). Deck scuppers plugged. Hoods open on tanks with anti-fire device. Earth connection. Rounds of the port officers. Fire hose connected. Ship's captain is given instructions of the harbour concerning tankers. In case of storm, the Harbour Officer can stop loading or discharging.

GANGWAY/DECK WATCHMEN: Guarding is strongly advised.

OPENING/CLOSING HATCHES: Carried out by crew.

CERTIFICATES:

Certificate of Nationality.
International Certificate of Tonnage.
Certificates from the Classification Office where ship is registered, especially:
Certificate of Freeboard.
Classification Certificate, engine and boiler.
Classification Certificate, hull.
Classification Certificate, electric equipment for tankers.
List of Hoisting Apparatus.
Deratisation Certificate.
TOVALOP Certificate or similar for tankers.

CUSTOMS ALLOWANCE: Tobacco: Amount allowed for each member of crew: 200 cigarettes or 200 gramme tobacco. Wine and/or Spirits: 1 bottle.

IDENTIFICATION CARDS: An official identity certificate is compulsory ashore (passport, identification card, sailor's book, etc.).

DEVELOPMENTS: The new outer harbour covers 1,400 acres and is designed for vessels with drafts of up to 73 ft.

Unloading for tankers at Total Pier at a rate of 20,000 cu.m.p.h.

The new commercial port, "Rapid Transit Port" operational. The port is tidal. Facilities include a 260 m. quay for Load on/Load off and Ro/Ro berth. A container vessel of 400 ft. length and a ro/ro vessel of similar size can operate simultaneously. Also berth for ferry with rail sidings, parking and all other services.

CONSULS:

Belgium
Brazil
Denmark
Finland
Germany
Gt. Britain
Greece
Italy
Luxembourg
Netherlands
Norway
Portugal
Spain
Sweden

REPAIRS: All repairs possible.

STEVEDORES: Informed by Agents (available).
CRANES:
Mobile Cranes: 1×180 tonnes, 3×40 tonnes, 4×1 tonne (for fish).
Electric Cranes: 2×6 tonnes, 6×3 tonnes, 1×500 tonnes (1981).
MEDICAL: Notice not required for medical attention. Doctors and hospital always ready.
FRESH WATER: Available from shore (pipes each 50 m. on quay).
FUEL: No fuel in port. Available only by lorries for bunkering.
GANGWAY/DECK WATCHMEN: Not required.
OPENING/CLOSING HATCHES: By crew.
CERTIFICATES: In accordance with international regulations:
Load Line.
Radio Equipment.
Safety Equipment.
Deratisation, etc.
CUSTOMS ALLOWANCES: About 200 cigarettes per man; wine/spirits at Customs Officer's discretion.
IDENTIFICATION CARDS: Not required.
CONSULS:

Vice-Consulate of Norway	tel. 28.00.08.
Vice-Consulate of Denmark	tel. 28.08.62.

REPAIRS: Possible.
DRY DOCKS: 1 slipway for vessels of maximum 1,500 tons displacement.
REPATRIATION: Agents carry out these operations.
AIRPORT: Paris is the nearest.
TIME: Local time is GMT plus 1 hour, no alterations during year.
HOLIDAYS: Arrangements for working during holidays can be made if necessary.
POLICE/AMBULANCE/FIRE: Police, tel. 0.17 and 28.06.68; Ambulance, tel. 28.31.91 and 28.09.59; Fire, tel. 0.18.
TELEPHONES: No arrangements for placing telephone on board.
SERVICES: No possibilities for tank cleaning, etc. Compass adjusting available if necessary.
SHORE LEAVE: Always possible for crew members to go ashore.
AUTHORITY: Ingenieur des Ponts et Chaussees.

GRANVILLE: 48.50 N. 01.35 W. (See Plan Book)

DOCUMENTS: See "Calais".
PILOTAGE: Pilotage not compulsory for ships of less than 45 m. length, except for those carrying dangerous cargo. Pilots board from fishing boats carrying regulation marks of a pilot boat, and maintain position at Videcoq buoy when a vessel is expected.

Limits of Granville pilotage are: 1. On entering, towards the West, the line joining "la Pierre d'Herpin", and Chausey lighthouse. To the North, alignment of Chausey lighthouse and "le Pignon". 2. On leaving, alignment of Mont. St. Michel through Champeaux Point. Ships bound Granville required notify ETA 18 hours in advance.

Telegraphic address: Telex 170002 SCAC Granville – Ship's Agency – Handling. Telex 170088 Monsieur Gilbert, Marine Agent. Telex 170777 Monsieur LeFranc, Marine Broker.

1.5 hours before to 1.5 hours after high tide contact with Port Officer (tel. 50.12.45 Granville) can be established by relay through "Coastal" Stations. During same hours contact can be made with pilot boat and with Port Office by VHF Channel 12 (port wave band 156.6).
ANCHORAGE: At landfall buoy of Le Videcoq.
RESTRICTIONS: Draft restrictions apply at neap tides. Width of Lock – 20 m.
MAX. SIZE: Vessels 115 m. long, 18 m. wide and with a max. draft of 7 m. may enter the tidal basin during 6 days, twice a month with effect from a tidal coefficient of about 80.

For a vessel of this size, it is recommended to give advance notice of arrival as far ahead as possible at the commencement of tides with a coefficient of 80.

Entry of a deep draft vessel may make it necessary to close the tidal basin more quickly after high tide.

Speed in the channel, the fore port and the tidal basin is limited to 5 knots.
HEALTH: Pratique arranged by Customs.
RADIO: Boulogne Radio for ships coming from the North. Brest-Le Conquet Radio for ships coming from the South.
TUGS: Port not equipped with tugs. Pilot boats used as "pushers" for port manoeuvres, or for carrying hawsers to tying-up points.
BERTHING: Determined according to nature of cargo.
Tidal Basin: 3 electric cranes (2 × 7 tons and 1 × 6 tons for the South quay, and 1 × 10 tons for the North and East quays).

Open areas, warehouses and storage silo capable of receiving all goods in bulk, bags or packages.

Internal transport: rail and road.
Fore Port: Open area and mobile cradle capable of hauling up vessels up to 100 tons. 1 × 5 ton crane on cradle. Repair yards.
West Quay: Between tidal basin and fore-port – solely for fish discharge and auction.
STEVEDORES: Work hours 0800/1200, 1400/1800. Overtime possible.
HOLIDAYS: See "Calais". Local holiday, Mardi Gras afternoon.
MEDICAL: Hospital available. Tel. 50.11.37.
TANKERS: 2 berths for unloading domestic fuels through 8 in. pipes.
DENSITY: 1025.
FRESH WATER: Available at all quays, international connections.
FUEL: Available from tanker lorry to commercial vessels at 48 hours notice.
OPENING/CLOSING HATCHES: Carried out by crew.
GANGWAY/DECK WATCHMEN: Available on request.
CUSTOMS ALLOWANCES: Tobacco. 200 cigarettes. Wines and spirits. 1 bottle spirits.
CONSULS: None.
REPAIRS: Possible. Also radio repairs.
REPATRIATION: Paris, 3.5 hours by train.
AIRPORT: 10 km. from the port. Air-taxi and commercial fights.
TIME: Local Time GMT plus 1 hour in Winter and GMT plus 2 hours in Summer (1st April – 1st October).
POLICE/AMBULANCE/FIRE: Police Tel. 50.11.16; Fire Service 18; Ambulance 50.11.37.
AUTHORITY: Officer Du Port.

HONFLEUR: 49.25 N. 00.14 E. (See Plan Book)

DOCUMENTS: See "Rouen".
PILOTAGE: Served by "Pilotage de la Seine" (address: 9 Chaussee Kennedy, 76 le Havre). Ships bound for Honfleur are received on the Carosse Roads (Rade de la Carosse) where the following signals should be made for summoning a Pilot. By day – flag "G" of the international code of signals. By night – in Morse by signalling lamp.

Complementary signals which can be used on arriving on the roads. By day – globe or ship's national flag hoisted at masthead. By night – red light at main masthead. At all times, sound signal of 5 long blasts.

Advice of ETA and draft in salt water is to be given to Rouen Port at least 5 hours prior arrival roads, as well as to Agent.

Similarly, vessels anticipating a delay of more than 2 hours after their reported ETA should notify Rouen Port or the pilot boat of this at least 3 hours before the time originally reported.

Before arriving on the roads, ships should call pilot station "Rouen-Pilot" which keeps a permanent VHF watch on Channels 16 and 11.

A Pilot is obligatory for every ship of more than 55 m. length.
RESTRICTIONS: Access to port made through channel 100 m. wide, protected by 2 dykes about 500 m. long, which leads to outer harbour. A tidal port, Honfleur possesses 3 basins:

Dock	Length	Width	Sluice width
West Dock	128 m.	77 m.	10.50 m.
East Dock	295 m.	71 m.	16.50 m.
Carnot Dock	788 m.	108 m.	13.00 m.

East Dock joins outer harbour: ships of more than 70 m. long must anchor in Carnot Dock which spans from East.
MAX. SIZE: Port can receive ships 100 m. long and 15.50 m. wide berthing in East Dock; but with Carnot Dock, only ships less than 12.50 m. wide can enter. Drafts vary according to tides: 6.00 m. with average spring tide, 4.70 m. in average slack water, and subject to variations because of silting up of harbour which necessitates frequent dredging.
HEALTH: Bill of Health is under the jurisdiction of Customs office of Honfleur. Hospital nearby.
RADIO: Boulogne Radio, Brest Radio or St. Lys Radio. A permanent watch is maintained by Rouen Port on Channel 16 and 11. Disengagement frequency after call on Channel 16: Channel 71.
TUGS: If necessary are provided by "La Societe des Abeilles" of Le Havre.
BERTHING:

Name	No. of Berths	Depth (m.) Neaps	Depth (m.) Springs	Equipment	Remarks
Bassin Republique Quai Nord	3	5.10	6.27	Rail track 1×6 ton crane on rails	2 Berths equipped with pipeline

Avant Port	1	5.10	6.27	2×15 ton cranes	
Quai en Seine	1				

1 "Richier" crane on tyred wheels available for use in the Port. Capacity: 30 tons at 3.50 m., 3.5 tons at 15 m.
TANKERS: Berth "Miroline" on dolphins in River Seine for tanker of 35,000 tons eventually after lightening according to the depth conditions.
FRESH WATER: Available. Supplies arranged through Agent.
FUEL: Supplies arranged through Agent.
AIRPORT: 12 km. from Port.
AUTHORITY: Directeur du Port.

ILE ROUSSE: Corsica: 42.39 N. 08.56 E.

DOCUMENTS:
- 3 Crew Lists.
- 3 Passenger Lists.
- 1 Provisions List.
- 1 Cargo List.
- 1 List of Articles (new and Customs-barred) in possession each crew member – cameras, binoculars, radios, cigarettes, spirits, etc.
- 1 Health Declaration.

PILOTAGE: Not compulsory.

ANCHORAGE: Outside of port for cruise vessels.
RESTRICTIONS: None.
MAX. SIZE: Draft 5 m; length 160 m.
RADIO: Within 50 miles call Ajaccio Radio VHF Channel 16. Then connected over Channel 23 to telephone network.
TUGS: None available.
STEVEDORES: 24 hours accurate ETA necessary for ordering gangs. No work on Sundays and official holidays.
CARGO GEAR: Only a few nets and slings available; all other gear must be supplied by ship. Ship's derricks used.
FRESH WATER: Available at very slow pumping rate.
FUEL: Not available.
REPAIRS/CONSULS: None.
TIME: GMT plus 1 hour.

LA NOUVELLE: 43.01 N. 03.04 E. (See Plan Book)

DOCUMENTS:
1 Passenger List.
4 Crew Lists.
2 Stores Lists.
1 Cargo Manifest.
Bill of Health.
Safety Certificates.
PILOTAGE: Vessels call Pilot on VHF Channels 15 and 16. 3 pilot boats available. International Code pilot signals used.
MAX. SIZE: For port entry: length 135 m., beam 25 m., draft 6.50 m. Tanker sea line: max. draft 18m.
HEALTH: Pratique is given by Customs officers who board vessel on arrival. In case of suspected disease on board, Master should radio Agents advising details before arrival.
TUGS: Not available. There are several launches to assist in mooring.
BERTHING: Is effected in the order in which ships arrive. Specialised berth for Roll-on/Roll-off available.
STEVEDORES: Arranged by consignees.
MEDICAL: Doctors available at La Nouvelle. Nearest hospital is at Narbonne, 27 km. away.
TANKERS: 1 sea line berth at buoys in depth of water greater than 18 m. 4 dolphin berths in the oil dock, max. draft 6.50 m. One of these berths is used for LPG cargoes. No slop disposal facilities.
DENSITY: 1025.
FRESH WATER: Supplied at all town berths.
FUEL: Available from several suppliers.
FIRE PRECAUTIONS: Usual safety regulations strictly applied. A barrage can be positioned across the channel to contain burning oil.
OPENING/CLOSING HATCHES: Optional, performed by stevedores or crew.
CUSTOMS ALLOWANCES: Each crewman allowed to retain only sufficient for his own consumption while in port. It is forbidden to take alcohol ashore.
IDENTIFICATION CARDS: Any person going ashore should carry a passport or identity card.
CONSULS: No local representation.
REPAIRS: Not possible ashore, except very minor ones.
REPATRIATION: No difficulties.
TIME: GMT plus 1 hour. No changes.
HOLIDAYS: In principal, no work done on legal holidays.
POLICE/FIRE/AMBULANCE: Police, tel. 480011; Fire, 480017; Ambulance, 480011.
TELEPHONES: No connections can be made on board.
SHORE LEAVE: No restrictions.
AUTHORITY: Ponts et Chaussees, Service Maritime.
AGENT: See "Marseilles".

LA ROCHELLE/LA PALLICE: 46.10 N. 01.14 W. (See Plan Book)

DOCUMENTS:
4 Cargo Manifests, or Manifest of Ballast.
Certificate of Cargo Space.
3 Bills of Lading.
Ship's Provisions List.
6 Crew Lists.
3 Passenger Lists.
Health Declaration.
Derat Certificate or Exemption.
Certificate of Crew Personal Effects.
PILOTAGE: Access from sea is through Pertuis d'Antioche, the strait between Isle of Re and Isle of Oleron. Pilotage compulsory for all vessels over 55 m. length. Pilot launch named *Armeria*, meets vessels at Chauveau Buoy in position 46° 06′ 05″ N. 01° 16′ W. Contact Pilot via VHF Channel 16, 2 hours before arrival. ETA should be given to Agent 12 hours before arrival.

Vessels which do not receive berthing instructions on arrival should wait in the vicinity and South of Chauveau Buoy, keeping watch on VHF Channel 16.

ANCHORAGE: Vessels which do not receive berthing instructions on arrival should wait at anchor in the vicinity and 0.5–1.0 miles South of Chauveau Buoy. Keeping watch on VHF Channel 16.
Tanker Anchorage: 46° 05′ N., 01° 15′ W.
RESTRICTIONS: Vessels in excess of 360 ft. length can enter Inner Basin only from 2 hours before to 1 hour after high water. Loaded tankers over 5,000 d.w.t. may enter tidal harbour in daylight hours only.
MAX. SIZE: Oil Pier: 120,000 d.w.t. Draft 53 ft. Outer pier mole, draft 30-40 ft. Tidal harbour, length 560 ft., draft 29 ft. Wet dock (inner basin), max. beam 69 ft., draft 25 ft. 6 in. neaps, 30 ft. springs.
HEALTH: Pratique given by Customs officers who board on arrival. In case suspected disease on board, radio Agent in advance advising details.
RADIO: Bordeaux-Arcachon Radio.
TUGS: Join vessels either in outer roads or inner roads of La Pallice. Normally tugs' lines are used.
STEVEDORES: Normal working hours for stevedoring are: 0800 to 1200 hrs. and 1400 to 1800 hrs. 2 hours overtime may be worked from 1800 to 2000 hrs. When a quick despatch must be given to a vessel, an 8-hour shift can be arranged, from 0500 to 1300 hrs. and 1400 to 2200 hrs. during the week, and 0500 to 1300 hrs. on Sundays and holidays.
MEDICAL: All facilities available. Advance notice should be given if assistance required on arrival.
TANKERS: Only refined products are discharged at La Pallice.
1. Oil berths situated at South of Outer Mole.
West Side: Metal loading arm. Petroles de L'Ouest – 12 in.
Picoty – 16 in.
East Side: Metal loading arm. Petroles de L'Ouest – 10 in.
Picoty – 12 in.
2. Oil berths at North quay in tidal harbour in depths of 26 ft.
Raffineries du Midi: Pipe-line of 250 mm. diameter, hoses 200 mm. diameter.
Petroles de L'Ouest: Pipe-line of 300 mm. diameter, hoses 250 mm. diameter.
Total: Pipe-line of 200 mm. diameter, hoses of 150 mm. diameter.
Essence Aux Armees: Pipe-line and hoses of 200 mm. diameter.
FRESH WATER: Available from all wharves. No barges available. Loading rate from the quay 60-75 t.p.h.
FUEL: Supplied by tank trucks only.
FIRE PRECAUTIONS: Tanker berths are enclosed. Smoking is prohibited on the tanker berths.
OPENING/CLOSING HATCHES: Performed by ship's crew.
GANGWAY/DECK WATCHMEN: Available from shore if required. Necessary for tankers loading/discharging cargo.
CUSTOMS ALLOWANCES: 200 cigarettes and bottle wine/spirits per man.
IDENTIFICATION CARDS: Crewmen going ashore should carry passports or identity cards.
CONSULS: No local representatives.
REPAIRS: All kinds of deck, hull and engine repairs can be carried out by Ateliers et Chantiers de La Rochelle-Pallice.

Vessels not exceeding 21 m. beam may be repaired in the inner basin. Larger vessels are repaired at berths outside the inner basin.

DRY DOCKS: 2 dry docks in Inner Basin: 577 ft.×72 ft. and 351 ft.×41 ft.
REPATRIATION: Can be arranged without difficulty.
TIME: 1 hour ahead of GMT. No change.
HOLIDAYS: New Year (1st January), no labour available; Easter Sunday, possibility of labour with overtime; Easter Monday, no labour available; Labour Day (1st May), no labour available; Ascension Day, possibility of labour with overtime; Whit Sunday, possibility of labour with overtime; Whit Monday, no labour available; National Day (14th July), no labour available; Assumption Day (15th August), no labour available; All Saints' Day (1st November), no labour available; Armistice Day (11th November), possibility of labour with overtime; Christmas Day (25th December), no labour available.

N.B. Every Sunday and day marked "possibility of labour with overtime" can be worked at the rate of 100% extra.

POLICE/AMBULANCE/FIRE: Police Secours 17; Commisariat Central 41.22.44; Ambulance 18; Fire Service 18.
TELEPHONES: Telephones are available at all berths at the mole, and are obligatory for vessels handling dangerous cargo.
SHORE LEAVE: Allowed, no restrictions.
GENERAL: Old harbour at La Rochelle is used only by fishing vessels and pleasure craft.
AUTHORITY: Capitainerie du Port de La Rochelle-Pallice.
AGENT: See "Paris".

LE HAVRE (Including Antifer): 49.30 N. 00.07 W. (See Plan Book)

DOCUMENTS: At arrival in-bound bill tendered by Pilot to be filled up and signed by Master specifying ship's data and more especially open spaces occupied (shelter) and dangerous cargo on board. After berthing:
For Custom's Officers
1 Crew List.
1 Crew Declaration List (personal effects, camera, radio set, cigarettes, cigars, tobacco, etc.).
1 Ship's Store List.
1 Passengers' Manifest (disembarking).
1 Passengers' Manifest (in transit).
For Health Officers
1 Crew List.
1 Health Declaration.
Deratisation Certificate.
1 Passengers' Manifest (disembarking).
1 Passengers' Manifest (in transit).
Individual International Certificates of Vaccination.

For Custom Broker
1 Crew List.
1 Crew Declaration List (personal effects, camera, radio set, cigarettes, cigars, tobacco, etc.).
1 Ship's Store List.
1 Certificate of open space occupied by cargo.
1 Passengers' Manifest (disembarking).
1 Baggage Manifest (non-accompanied).
Tonnage Certificate.

For Agents
1 Crew List.
2 Passengers' Manifests (disembarking).
2 Passengers' Manifests (in transit).
2 Baggage Manifests (accompanied).
2 Baggage Manifests (unaccompanied).
2 Dangerous Cargo Manifests and usual cargo documents.

For Immigration Office
1 Crew List.
1 Passengers' Manifest (disembarking).
1 Passengers' Manifest (in transit).

PILOTAGE: ETA to be sent to Harbour Master (see "Radio"). Advisable then to confirm directly either to Pilot boat *Havre de Grace* (call sign FPCJ) or to "Havreport" between 24 and 12 hours before arrival (see "Radio"). Pilot boats have black hull with "Pilote Havre" in white letters on both sides, white funnel with black top stripe, green flag with white anchor on fore-mast. Located off Le Havre channel entrance East of the intermediate landfall buoy (LH). Pilot boat on continuous service, a helicopter is also available.

Vessels may anchor near lighthouse South of entry alignment in good weather and further off in bad weather.

Light or sound signal to be made by vessels requiring a Pilot, letter "G" in morse code.

ANCHORAGES: Anchoring forbidden in the channel between both parallels 100 m. South and North of channel and in a zone 1 nautical mile long and 500 m. wide in prolongation of channel.

RESTRICTIONS: Depth in main channel 51 ft. LW. Depth in tidal basin 49 ft. LW.

Main lock entrance to enclosed basins, length 1,312 ft. width 220 ft., depth 49 ft.

Vessels berthing in tidal docks (Bassin Theophile Ducrocq) dependent on tide if draft in excess of 30 ft.

Quinette de Rochemont Lock open from 2 hours 20 minutes before high tide until 40 minutes after. During this period vessels of max. length 210 m. and max. breadth 26 m. may pass through. Otherwise max. length authorised is reduced to 180 m. In some circumstances some locks are completely closed around low tide.

CIM Berth No. 10 may receive tankers up to 300,000 d.w.t. with draft varying between 63 and 68 ft. depending upon tide. Such vessels enter only by daylight and must arrive at Lightvessel at least 3 hours before high water.

MAX. SIZE: Tankers: length 1,300 ft., draft (approx.) 65 ft. subject tide. Largest vessel recorded is a tanker, length 370 m., beam 64 m., draft 20.67 m. and deadweight 290,875 metric tons.
Bulk Carriers: Up to 90,000 tons.
Antifer: "See Tankers."

HEALTH: Free pratique automatic for vessels coming direct from Continent or Italy and "Q" flag not to be flown. From other countries including Spain and Portugual usual applies. Free pratique may be obtained by radio message to Sanipor Le Havre specifying name of vessel – where coming from – total number of Crew members, number of Crew members vaccinated (smallpox, yellow fever, cholera).

Tankers: For tankers it is advisable to ask free pratique by radio in order start operation as soon as vessel berths.

RADIO: Masters of ships are requested to send to Le Havre Harbour Master their expected time of arrival at Le Havre lightvessel.

The message will be sent through radio stations of: Boulogne-radio/FFB (working frequencies 1771 kHz and 2747 kHz) or Brest le-Conquet radio/FFU (1806/2726 kHz).

It will give the date and time GMT of ETA, and the maximum draft. It will be sent about 12 hours before arrival and corrected by another message if necessary. This service is free. Same stations of Boulogne and Brest to be used to contact Agent and in addition Saint Lys/FFL. This ETA must be confirmed to Le Havre Port by VHF, 3 hours before arrival in the roads.

Port operation radio service: The "Havreportradio" station keeps a permanent watch on the following frequencies: 156.6 mHz (Channel 12); 156.8 mHz (Channel 16); 157.0-161.6 mHz (Channel 20 duplex). This station sends and receives all messages for the port operations control.

Ships call "Havreportradio" directly on Channels 12 or 20. Ships arriving, leaving or moored on roads *must keep watch on Channel 16.*

Ships with Pilot on board must keep watch on Channels 12 or 20 from Pilot on board until arrival at berth, and from departure of berth until disembarking Pilot. Havreportradio/FFY keeps watch on 2182 kc/s. This frequency will be used only in a radius of 22 miles from Havre lightship and only when it is not possible to use VHF.

RADAR/VHF: Radar assistance may be obtained by calling Le-Havre-Radar on Channel 16 (156.80 mHz). Then working frequencies are Channels 14 and 22.

TUGS: 19 tugs available, from 650 to 4,000 h.p. Normally join vessel inside the jetties in outer harbour. Ship's lines or tug's lines used at ship's option. Extra charge for use of tug's line.

BERTHING: Agents generally inform Master by radio of berthing prospects, arrival time limits and any special requirements.

BULK HANDLING FACILITIES: *Ore Berth:* Situated South side of Mole Centrale. Accessible to 90,000 d.w.t. ore carriers. Equipment includes 4 unloading gantries, each with max. capacity 500 t.p.h.

A second ore berth (Mole Central 6) is in operation. It is accessible to ore carriers of 120,000 d.w.t. It is equipped with 2 gantries each with a maximum capacity of 1200 t.p.h.

Grain: Quai Hermann du Pasquier for ships up to 30,000 d.w.t. 3 elevators capacity each 280 t.p.h.

Quai Joannes-Coubert: for ships up to 60,000 d.w.t., 2 elevators each 600 t.p.h. capacity.

Containers: Quai de l'Atlantique: Length 800 m., 3 berths for large vessels, one of which is also equipped to handle roll-on/roll-off traffic.

4 gantry cranes of 40 ton capacity with 35 m. extension, at quay's edge. 2 French Railway's gantries for handling on to wagons. 1×7,000 sq. m. shed under construction near to terminal for container groupage and breaking bulk. 16 hectares open air areas. Extensive parking facilities.

Quai de l'Europe: Length 1,800 m. 4 berths for large vessels, 3 of which are equipped to handle roll-on/roll-off traffic.

4 gantry cranes of 40 tons with 40 m. extension, at quay's edge. 1 shed 10,108 sq. m., 1 shed of 7,023 sq. m., already used for groupage and break-bulk of containers and 1 shed of 10,000 sq. m. under construction.

2 S.N.C.F. gantry cranes for loading and unloading of wagons. 45 hectares of open air areas. Extensive parking facilities.

Quai de Bougainville: Actual length 1,280 m. – will be extended to 1,400 m. end 1981. Equipped with 4 gantries for containers of 40 tons.

Methane: The Gaz de France Methane Terminal situated at Western end of tidal basin with one berth for vessels up to 755 ft. length.

Roll-on/roll-off: Three berthing places in the tidal basin, five berths in the wet dock, eight berthing places in the non-tidal docks.

Liquid Chemicals: at the berths of "Societe Normandie de L'Azote", "Sogestrol", and "Petrochimie" along the "Ofrand – Canal du Havre".

BRIDGES: No special restrictions. Opened upon request. Master will be informed as above in case any bridge stopped for repairs.

STEVEDORES: 2 Normal shifts (0700-1500 hrs. and 1500-2300 hrs.) every week-day including Saturday. Night shift in overtime 2300-0700 hrs. For fruits and reefer cargo and passenger ships possible working 2 hours overtime before morning shift to start at 0500 hrs. subject ordering gang the previous day at 0600 hrs., with 23 hours notice to stevedores. Night gang ordered the same day at 1400 hrs. with 9 hours notice to stevedores (same consequently involves 36 and 12 hours notice to Agents for morning and night overtime respectively).

For vessel completing loading/discharging may order 2 hours overtime from 1500 to 1700 hrs. after morning shift or only 1 hour overtime from 2300 to 2400 hrs. after afternoon shift. No possibility of dividing the shift of 8 hours. Consequently time lost between completion of work and end of shift is charged to the vessel at the cost of about Frs. 560.00 per hour (depending upon type of cargo).

No work possible on Sunday and legal holidays nor during night between Sunday or holiday and next working day. Necessary to give Agent soonest possible accurate ETA and hatch partition in order to enable his arranging work at the best, keeping in mind that shift cannot be split.

Work done with shore crane. Ship's derricks used only exceptionally. No hatch tents available from shore.

It is compulsory to put a net under the gangway before starting work, for lack of which stevedores refuse to go on board.

MEDICAL: It is not necessary for Agent to receive advance notice of required medical attention except when Master requests a doctor on board. The Master must after berthing inform Agent of number of patients and nature of disease, name of patient, rank, in order Agent may arrange corresponding appointment with doctors, dentists, specialists, etc. Hospital facilities available provided admission ordered by local doctor.

Inoculation. Yellow fever – effected only at the hospital once per week on Thursdays 1400 to 1500 hrs. Other inoculations may be effected by local doctors (with appointment) but smallpox may also be effected at the Town Hall sanitary office on Tuesday and Saturday from 0900 to 1200 hrs.

TANKERS: Berth at C.I.M. piers No. 1 to 10. Depths 9.5 – 21.0 m. Diameter of connections at different berths of C.I.M.: No. 3, 4 and 5, 10 in.; 6 and 7, 12 in.; 8 and 10, 16 in.

Tankers calling first time at Le Havre recommended to inform Agents of position of manifold connection. Slop reception facilities available up to 1,000 t.p.h.

Antifer:

The port of Le Havre – Antifer, attached to the port of Le Havre which covers it administratively, is a port on the coast, located 4 km. South of Cape Antifer, at Saint-Jouin-Bruneval.

It is an oil terminal, designed to accommodate during a first stage vessels of 550,000 d.w.t. and of 28.5 m. draft.

The port comprises: A breakwater 3,500 m. long protecting the port in its Northern area and starting at Groin Point, 3 km. South of Cape Antifer. A manoeuvring zone. A dry-land area of 35 hectares at the foot of the cliffs intended for hydrocarbon storage and for port operation installations. A 8 hectare service port. A mooring installation with 2 positions for tankers. The oil discharged into storage tanks is pumped away to installations in Le Havre port, by means of a pipe-line of 42 in. dia. and 25 km. long.

Tides and Currents: At Antifer, the influence of the Seine estuary is much less than at Le Havre. The tidal curve is of the sinusoid type, without, however, being perfectly symmetrical. Slack water only lasts a short while (about 20 minutes). With winds from the North to East, there is a drop of about 0.25 m. to 0.50 m. increasing with the amplitude of the swell.

With winds from the South to N.W., passing through a Westerly point, there is either a slight drop (0.15 m.) or a rise corresponding to the extent of swell and sometimes reaching 0.75 m.

Tidal currents are alternating in their direction and generally parallel to the coastline. With Spring tides they reach a speed of 3 knots.

The breakwater protects the port from the action of ebb currents.

Access: Vessels coming into the Port of Le Havre-Antifer will find 35 miles from the coast landfall buoys "A0", "A1" at the limit of the 50 m. depths.

Access is as follows: *An Approach Route* of a width of 3 miles and extending from the landfall buoys "A0" and "A1" on a bearing of 118.5° for 22.7 miles.

A Waiting Area which has the approach route on its Southern edge. It has the form of a trapezium 2 miles in length. The Western commencement of the large base of this area is marked by buoy "A3". It incorporates 2 anchoring areas: the N.W. area for vessels of more than 25 m. draft, and the S.E. area for vessels of less than 25 m. draft. The 2 areas are separated by buoy "A5".

A Connecting Area trapezoidal in shape and 2.5 miles in length, connecting the approach route to the approach channel.

An Approach Channel, 1,000 m. wide, marked on its Northern edge by buoys "A8", "A12", "A14", "A16", "A18", and on its Southern edge by buoys "A7", "A9", "A17". This channel is orientated in the same direction as the approach route on a bearing of 118.5°. Buoys "A7", "A8" and "A9" form at the entry of the channel a triangle easily identifiable by radar.

An Access Channel 3.5 miles long, 700 and then 550 m. wide and on a bearing of 127.5°. It is marked by 4 pairs of buoys: "A19/A20", "A21/A22", "A23/A24", "A25/A26". Its depth is 25 m.

A Separation Area adjacent to and to the South of the access channel, allowing vessels on entering to make a half-turn to come out of the channel and then come if necessary to the waiting area. The centre of this area is marked by buoy "DA".

A Swinging Area sheltered by the main breakwater, marked to the South by buoy "A27", and to the East by buoy "A29". This area is dredged to a depth of 24.70 m.

The conditions of current (direction and force) and the height of the tide determine, in terms of the drafts of vessels, the periods during which the port may be entered, and which are somewhere between full and low tides.

Vessels must, therefore, on leaving the separation area, follow entry instructions given to Captains by the Pilots, with the agreement of the Port Captaincy of Havre-Antifer.

Pilotage: The Pilot is taken onboard in the waiting area in the disengagement area by means of a pilot boat, a launch or the helicopter allocated to the Le Havre pilotage service.

Port: To the North of the swinging area, is the mooring area dredged to 26 m. allowing access to 2 alongside berths which have depths of water of 29.80 m.

The service port is reserved for the mooring of tugs, pilot boats, anti-pollution equipment (booms) and servicing equipment.

Arrival Advice: Captains of vessels destined for Antifer, as well as those whose vessels may enter either Le Havre or Antifer, must send to the Harbour Master of Le Havre a message stating the date and time GMT of their arrival at the Antifer landfall buoys or at the Le Havre lightship and stating the draft of their vessel.

This message must be sent via a coastal station at least 12 hours in advance and confirmed by a VHF message 3 hours prior to arrival at the landfall buoys of Antifer or at the lightship. In return, the vessel will receive from the Havre Port station all information and necessary instructions.

Radio: The Antifer Port Control (call sign HAVRE-ANTIFER) listens out permanently on the following frequencies:

156.8 mHz. (Channel 16)
157.10 – 161.7 mHz. (Channel 22). VHF

If Channel 22 is not available on board the vessel, Channel 14 (156.7 mHz) can be used after having first called up on Channel 16.

Radio communications are used for: Port operations (movements of vessels) and guiding vessels during times of fog.

Radar Assistance: During times of fog, radar assistance is supplied to vessels by the radar located on La Heve lighthouse (guidance provided by the Semaphore Lookout of Le Havre) as well as by the radar of the Oil Terminal (guiding provided by the Captaincy of Antifer from the Buoy "A–16"). Vessels requiring radar guidance must start by requesting it on the call-up frequency (Channel 16). Only after an affirmative reply can they switch in to the connections affected by radar, taking necessary precautions (listening out in advance) not to disturb a guiding process already taking place. Assistance is given in strict rotation of requests. Information is supplied free of charge in French and in no way renders the Port Authority responsible. Such information covers the following: route clear or not, vessels anchored or under way in the vicinity, successive positions in relation to the landfall buoys, possible position of the pilot vessel, then guidance in the channel as far as the swinging area and mooring area.

Syledis: A system of aid to navigation and to manoeuvring, covering the receipt on board the vessels of parameters covering in particular the position, the speed, is in the course of being tried out. It requires the Pilot bringing on board a small transmitter/receiver.

Aids to Manoeuvring: In order to facilitate swinging manoeuvres and mooring of large tankers, the port of Antifer has 3 lights of different colours, the positions and characteristics of which are as follows:

Access guiding light (on the open storage area at the foot of the cliffs) – light with red, white, green sectors, regularly flashing (4 secs.) the red sector to the North the green to the South.

Guiding lights for coming alongside (on the breakwater).

West light (position 3) – light of red, white, green sectors, regularly flashing (4 secs.) – Red sector to the East, green to the West.

East light (position 2), light of red, white, green sectors, flashing twice (6 secs.), red sector to the West, green to the East.

Each quay berth is equipped with aids for mooring comprising luminated panels showing the distance to the berthing point of the bow and the stern of the vessel; the speed (in cm/sec.) of approach or pulling away of the bow and stern of the vessel in relation to the berthing point.

Fresh Water/Fuel: Supplied by pipe-lines on the berth (S.H.M.PP. depot).

Cranes: 2 cranes of 2.5 tons capacity on the berth (1 per position). Berth for heavy items in the service port – handling by mobile crane.

Floating Equipment: Pontoon for transporting heavy items.

Tugs: Stationed in the service port are 1 or 2 tugs of 4,000 h.p. Other tugs required for manoeuvring come from Le Havre.

Pollution: Barrages laid on pontoons in the service port can be very quickly placed into service.

General Information:

The Port Captaincy is situated on the open land area of the Service Port.

Telephone: 22.81.40 Extension 886 or 987.
Pilot's office: At Le Havre Pilot's Office.
Customs: In the C.I.M. operational building (1st floor).
Towing: The Les Abeilles Company on the pontoon in the service port.
Police: In the C.I.M. operational building (1st floor).
C.I.M. Depot: 27.21.10 – 21.21.77.
S.H.M.PP. Depot: 27.20.73.
Communications: By buses from Saint Jouin. The airport of Le Havre – Octeville is 16 kms. to the South of Antifer.
Control tower: Tel. 46.38.02.
Operating: Tel. 46.09.81.

DENSITY: In outer port and tidal docks: salt water. In inside docks brackish. Density depending upon season and amount of fresh water brought in by river Seine and Canal de Tancarville.

FRESH WATER: Most berths supplied by shore hydrants. Otherwise by barge minimum quantity invoiced then being 50 cu.m. Overtime charged in addition. Late cancellation of barge invoiced.

FUEL: All grades available, viscosities from 200 sec. to 3000 sec. Redwood. Minimum 48 hours advance notice required to prepare barges.

FIRE PRECAUTIONS: Dangerous cargo must be declared on "Inbound Bill" and in order not to delay vessel's entry it is highly recommended to inform Agent of quantity and exact nature of dangerous cargo on board 48 hours prior to arrival, thus enabling Agent to get in touch with Harbour Master and take necessary steps which may go from a single smoking prohibition up to a fire-picket on the quay during all the call.

Tankers: A "notice to Master's of ships loading/unloading hydrocarbons" is handed to Master upon arrival. This notice specifies *inter alia:* repairs, ventilation/cleaning of tanks, handling of goods subject to Harbour Master's authorisation. All naked lights and fires prohibited, boiler furnaces and galley ranges excepted, such exception cancellable on simple order of Harbour Master or Depot Manager.

DEVELOPMENTS: The new oil terminal of Havre-Antifer, built to the South of Cape Antifer has installations enabling vessels of 550,000 d.w.t. to be received at all states of the tide except at LW on neap tide. Shelter is created by a protective mole 3,520 m. in length. At the foot of the cliff, there will be a service port and open-air work areas. An access channel 550 m. wide to a depth of 25 m. will be dredged.

A second stage will see the provision of 2 further installations after further deepening of the sea to 30 m. in order to take vessels of 1,000,000 d.w.t.

GANGWAY/DECK WATCHMEN: Compulsory, by ships crew. Sworn watchmen in uniform and equipped with a VHF set may be obtained from the Port Authority per hour for day and night, working days and holidays. Some other companies may also supply watchmen (not sworn) at lower prices.

OPENING/CLOSING HATCHES: May be done by stevedores at the same price as shifting of cargo depending upon the type of cargo and consequent number of men included in the gang.

It is highly recommended to carry out opening by the crew before beginning of shift to avoid both loss of time and expensive charges and also risk of accident to stevedores who are sometimes not well aware of vessel's closing system.

It is emphasised that for reefer cargo stevedores wait for cold exhaust half an hour after opening hatches before getting down in the holds. Consequently it is strongly advised to stop ventilation and start opening hatches with crew about 1 hour before beginning of shift keeping in mind that for reefer cargo, the morning shift may commence at 0500 hrs.

CERTIFICATES:

Tonnage Certificate.
Safety Construction Certificate.
Loadline Certificate.
Safety Radio Certificate.
Safety Equipment Certificate.
Deratisation Certificate.
Cargo Gear Register.

(Fresh water analysis certificate may also be requested.)

CUSTOM'S ALLOWANCES: 200 cigarettes or 200 grammes tobacco plus 1 bottle spirit (must be mentioned on crew declaration list). Crew members may obtain extra allowance but only after 5–6 days' call.

CARGO GEAR: Cargo handling usually carried out by means of shore cranes. Hatch-tents to be supplied by vessel.

CREW IDENTIFICATION CARDS: Not required. Recommended to have passport or seaman book to go ashore.

CONSULS: The following countries have representatives at Le Havre:

Argentina
Belgium
Brazil
Chile
Colombia
Costa Rica
Denmark
Dominica
Ecuador
Finland
Germany
Great Britain
Greece
Guatemala
Haiti
Honduras
Italy
Ivory Coast
Japan
Liberia
Madagascar
Mexico
Netherlands
Norway
Panama
Peru
Portugal
Salvador
South Africa
Spain
Sweden
Switzerland
Uruguay
Venezuela

REPAIRS: Several companies including Ateliers et Chantiers du Havre available to handle all types of hull and engine repairs. 5 berths available for repairs afloat.

DRY DOCKS: 7 dry docks available, largest of which is 1,095 ft. working length and 125 ft. width for vessels up to 80,000 d.w.t.

REPATRIATION: Except if airplane chartered by Owners, all crew have to pass through Paris.

AIRPORT: Le Havre airport 7 km. from the centre of the town, with a runway of 1,800 m. × 40 m. may receive chartered planes up to 40 tons total weight (50 T. with special authorisation). Regular flights from and to Orly (Paris Airport) twice a day, holidays excepted.

TIME: GMT plus 1 hour from 26th September to 28th March and GMT plus 2 hours 28th March to 26th September.

HOLIDAYS: New Year's Day (January 1st); Easter Monday; Labour Day (May 1st); Ascension Day; Whit Monday; National Holiday (July 14th); Assumption B.V. Mary (August 15th); All Saint's Day (November 1st); Armistice Day (November 11th); Christmas Day (December 25th). No work possible except for passenger ships and tankers the latter being loaded/discharged round the clock every day.

POLICE/FIRE/AMBULANCE: Police 17 or 48.15.20; Fire Brigade 48.05.77 or 18; Ambulance 42.30.68 or 42.46.46; Hospital 42.77.83.

TELEPHONE ON BOARD: Possible at most berths.

SHORE LEAVE: Authorised within port and town area. Foreign seamen wishing to go further and more especially to Paris must obtain police authorisation and consequent pass.

REGULATIONS: Vessels carrying dangerous cargo must when on roads or in the entrance channel, show the red flag by daylight or 1 red light by night-time. When leaving the port they must keep their Pilot up to the end of the channel.

AUTHORITY: Port of Le Havre Authority.

AGENT: Jolasry (France), 45 rue Lord Kitchener, PO Box 846, 76060 – Le Havre. Telegraphic address "Jolasry". Tel. 42.18.32 and 42.12.05. Telex 19708.

LORIENT: 47.45 N. 03.21 W.

DOCUMENTS:

Cargo Manifest or Manifest of Ballast.
Certificate of Cargo Space.
Bills of Lading.
Ship's Register.
6 Crew Lists.
3 Passenger Lists.
Health Declaration.
Derat Certificate or Exemption.
Declaration of Crew Personal Effects.

PILOTAGE: Compulsory for all vessels over 60 m. length. Vessels must contact pilot station advising ETA at least 6 hours before arrival by radio to the pilot station. On arrival at the outer roads or Groix vessels should call Pilot by VHF Channel 16. The pilot launch will be standing by from 1 hour before to 1 hour after the ETA previously advised by the ship. The pilot station is manned 24 hours per day. Pilot station telephone number 210678.

ANCHORAGE: The outer roads of the port are open to winds from the Southeast to Southwest. Vessels waiting to enter the port may anchor in depths of 15–20 m., sand and shell bottom, good holding ground.

Mooring buoys are positioned off Port Tudy on the North coast of Ile de Groix. These buoys are reserved for the use of the French Navy. There are prohibited zones for anchoring due to presence of submarine cables, marked on chart.

RESTRICTIONS There are 2 entry channels to the port. The South channel, depth 3.6 m. is used exclusively by local fishing boats. The West channel is marked by the alignment of Kerbel Light and Lohic Light. The depth in this channel is 6.25 m. Both channels are very well marked.

Traffic signals are hoisted at Port Louis Citadel as follows: Red flag or red light – entry prohibited. Green flag or green light – exit prohibited. Red over green flags or lights – port closed.

HEALTH: Pratique given by Customs Officers who board on arrival. If any case of suspected disease on board or any reason why vessels should not receive free pratique, Master should radio Agent before arrival, advising full details.

RADIO: Use local station Radio Conquet or Radio Saint-Nazaire.

TUGS: 1 tug of 1,000 h.p., 2 tugs of 700 h.p., 3 tugs of 250 h.p. belonging to the French Navy.

1 tug of 700 h.p. at the fishing port (Morbihan Chamber of Commerce & Industry).

1 tug of 1,500 to 1,800 h.p. to be purchased.

BERTHING: Kergroise Quays, 568 m. Max. length of vessels 230 m.

1 berth 220 m. long, with 10 m. depth of water to the South of the quays.

1 berth 180 m. long, with 10 m. depth of water to the North of the quays.

Work is in hand to bring all quays to a depth of 10 m. (expected to be completed in 1980).

7 cranes in service including 16-ton crane.

TANKERS: The oil jetty is 112 m. long and can accommodate tankers up to 180 m. length, max. draft 10 m.

FRESH WATER: Can be supplied from the quays at Kergroise and at the Oil Jetty. Rate 10 t.p.h.

REPAIRS: Minor deck and engine repairs can be carried out. Slipways can accommodate 6 fishing boats at the same time. There are 3 dry docks the largest of which is 186.20 m. long×26.33 m. wide.

MEDICAL: All facilities available. Local maritime and civil hospitals.

IDENTIFICATION CARDS: Crewmen going ashore should carry passport or identity card.

CONSULS: Norway, Denmark, Netherlands and Sweden.

TIME: GMT plus 1 hour in Winter. GMT plus 2 hours in Summer.

HOLIDAYS: New Year (1st January, no labour available); Easter Sunday (possibility of labour with overtime); Easter Monday (no labour available); Labour Day (1st May no labour available); Ascension Day (possibility of labour with overtime); Whit Sunday (possibility of labour with overtime); Whit Monday (no labour available); National Day (14th July no labour available); Assumption Day (15th August no labour available); All Saints' Day (1st November, no labour available); Armistice Day (11th November, possibility of labour with overtime); Christmas Day (25th December, no labour available). N.B. Every Sunday and day marked "possibility of labour with overtime" can be worked at the rate of 100%.

POLICE/FIRE/AMBULANCE: Police 21 19 16; First Aid 17; Ambulance (97) 65.33.44; Fire 18.

AUTHORITY: Ingenieur des Ponts et Chaussees, Directeur du Port.

AGENT: See "Paris".

MARSEILLES: 43.18 N. 05.25 E. (See Plan Book)
(a) Old Port to Estaque *(b)* Port de Bouc/Lavera/Caronte/Etang-de-Berre/La Mede *(c)* Fos

(a) OLD PORT TO ESTAQUE

DOCUMENTS:
Ships Register.
Declaration of Health.
3 Crew Lists.
2 Provisions Lists.
2 Lists of Passengers in Transit.
2 Lists of Passengers disembarking.
1 List of Ports where cargo is loaded for Marseilles.
Cargo Manifests and Bills of lading.
1 List of Crew Personal Effects.

PILOTAGE: *Arrival:* Contact port authority by VHF on Channel 16, changing to Channel 12. M.W. Station, call on 2049 kHz. Station on 1933 kHz. ("Marseille Port") Compulsory. 21 pilot launches, mostly painted black, wooden hulls with white anchor insignia on the bow.

Contact pilot station and pilot boats by VHF Channel 8.

Southern Entrance: Pilot boards between "Le Frioul" and "Chateau d'If" island. Max. recommended draft 27 ft. in good weather.

Northern Entrance: Pilot boards at Estaque roads. In case of strong N.W. winds or for all deeper draft vessels the Northern entrance is preferred.

Vessels anchoring in roads without a Pilot will still incur full pilotage fee.

On departure, 15 to 30 minutes notice sufficient to order Pilot and tugs.

ANCHORAGE: Estaque Roads.

MAX. SIZE: Draft dependent on berth depth up to max. of 47 ft. 6 in.

HEALTH: Free pratique automatic vessels coming direct from continent or Italy and Q flag not to be flown. From other countries – including Spain and Portugal – usual procedure applies. Unless special arrangement for passenger liners free pratique not given by radio also practice issuing Health or Customs clearance on sailing now discontinued.

RADIO: Within 150 miles Marseilles Radio/FFM – otherwise St. Lys/FFL.

VHF: Port Authority on Channel 16, 6, 12 and 30.

TUGS: About 40 tugs available, from 250 to over 3,000 h.p. Ship's lines normally used.

BERTHING: When specific side alongside berth required. Agents radio Master prior arrival also advise Pilot. Otherwise side alongside at discretion Master after conferring with Pilot.

CRANES:
Public Quay Cranes: 16×3 tonnes; 103×3 – 6 tonnes; 2×20 tonnes.
Public Mobile Cranes: 8×6 –12 tonnes; 6×12 – 14 tonnes; 2 over 15 tonnes (lifting capacity of largest, 35 tonnes).
15 drydock cranes, largest has a lifting capacity of 150 tonnes.
2 floating cranes for public use, owned by the Port Authority, capacities 90 tonnes and 150 tonnes and one floating derrick owned by the Port Authority, capacity 500/600 tonnes. There are also 2 privately owned floating cranes, largest has a capacity of 60 tonnes.

BULK HANDLING FACILITIES: Cereals.
Pinede Dock: Berth No. 30. Storage: The Madrague Silo, owned by the Societe Fonciere et Commerciale du Silo de la Madrague, has a capacity of 30,000 tonnes in 143 cells. The Silo is connected to the berth by 420 m. (1,378 ft.) of covered conveyors. The silo is outside the port area. 2 suction units, rate 200 t.p.h.
Grande Joilette Dock: Berths No. 69 and 70. Storage: The silo, owned by the Marseilles Port Authority, is within the port area and has a capacity of 22,000 tonnes in 99 cells. it is equipped with 4 covered conveyors, 2 of which are reversible, thus allowing the export of cereals from the silo.

There is also a bulk warehouse here, within the port area and owned by the Port of Marseilles Authority, which has a total capacity of 14,000 tonnes, made up of 3 cells of 2,500 tonnes and 4 cells of 1,600 tonnes. The warehouse is connected to the silo at Arenc – which belongs to the port – by suction devices and conveyor belts.

Grain, Copra:
National Dock: Berth No. 43. Storage: Shed 6B has a capacity of between 12,000 and 18,000 tonnes for types of grain, on the first floor, and 6,000 tonnes on the ground floor. This shed is on the quayside. Oil seed handled. 4 cranes of 6 tons capacity.

Minerals in Bulk:
National Dock: Berths: No. 47 and 48. Specifically for bulk traffic, handled by bucket-cranes. Storage: 4,000 sq.m. (43,040 sq.ft.) in the open, beside the East Quay. 4 cranes, rate 300 t.p.h. or 150 t.p.h. per crane.
President Wilson Dock: Berth No. 14. Allocated specifically for alumina. Storage: 2 silos, with a total capacity of 11,000 tonnes, constructed by and belonging to Pechiney Cie. and Ugine Cie., to facilitate the import/export of dehydrated alumina in bulk.

There is an additional warehouse with 1,000 sq.m. on breakwater "D" which is used for hydrated alumina. Vessels are handled via Berth No. 47 (National Basin).
Leon-Gourret Dock: Berth No. 8. Allocated specifically for bulk traffic that can be handled by grab-bucket. Storage: An open area of 4,000 sq.m. (43,040 sq. ft.) at the quayside; suitable for import/export.

Liquids in Bulk:
Mourepiane Depot: Berth No. 156. For vegetable oils and chemicals. Storage: The private company, Marseille Vrac, which operates this depot, has 32 vats of 125 to 1,640 cu.m. (4,412 to 57,892 cu.ft.), with a total capacity of 24,500 cu.m. (864,850 cu.ft.). There are pipelines to the quay for discharging tankers.
Import and Export: The major import is vegetable oil; export is chemical products in bulk.

Sugar:
President Wilson Dock: Berths No. 19 and 20. Storage: The silo, which has a capacity of 30,000 cu.m. (1,059,000 cu.ft.) is within the port area and is owned by the Port of Marseilles Authority. Sugar is discharged by bucket-crane into hoppers which feed the conveyor belts to the silo. The total conveyor capacity is 250 tonnes per hour.

CONTAINER HANDLING FACILITIES: Various quays are devoted to container traffic: At the Leon Gourret mole (14.5 m. permitted draft, large open areas, railway tracks); at the Mourepiane quay, in the Mirabeau basin, where the installation of a new terminal is being effected:

Quay of 770 m. length, with permitted draft of 12 m.

Container handling equipment: 2 gantries of 40 tons capacity (made by Caillard); mobile straddle cranes, 30 tons × 30 m., 2 cranes 25 tons × 25 m.

Two warehouses: Warehouse 20, 11,000 sq.m.; warehouse 22, 15,000 sq.m.

Railed tracks: 2 railway tracks alongside the quay; 1 railway track behind warehouse 20; 2 railway tracks at the Eastern limit of the dense storage area behind warehouse 20.

Area alongside the quay 35 m. wide comprising: A working area 15 m. wide equipped with 2 railway tracks and a trailer movement area; a storage area for short periods, 17 m. wide (under the rear jib of the gantries).

Storage areas covering a total of 90,000 sq.m.

CARGO HANDLING EQUIPMENT: (For distribution – See various berths).
Public cranes: 5×6 tons at 22 m. (scoop and hook); 2×15 tons at 30 m. (scoop).
Private cranes: 2×50 tons at 26 m. (Solmer); 1×540 tons (semi-fixed for heavy-lifts).
Quay gantries: 2×20 tons (for minerals).; 5×40 tons (for containers).
Equipment for solid bulk cargoes: 1 loading gantry, rate 1,500 t.p.h. (Private. but can be made available for public use). 1 Private fixed gantry for loading slag at a rate of 300 t.p.h. (Solmer).
Container equipment: 3×40 tons transtainers (6 rank × 1 track × 4 high); 3×40 tons transtainers (2 rank × 1 track × 3 high); 3×30 tons straddle carriers; 6×40 tons front loaders; 1×35 tons front loader; 1×30 tons front loader; 2×22 – 25 tons front loader; 5×12 tons front loader (for empty containers); 32 tractors; 71 trailers; 2 railway gantries forloading containers onto rail trucks.

BRIDGES: Turning bridge near Southern end of port – Pont d'Arenc – opens on requests. Bridge further North – Pont de la Pinede – opens: 0600 to 2200 hrs. twice each hour between 5 minutes before the hour and 5 minutes afterwards, and between 5 minutes before half hour and 5 minutes afterwards. Open continuously 2200 to 0600 hrs.

STEVEDORES: Enable Agent order gangs important obtain in good time accurate ETA from vessels. Latest times to order gangs; normal and deferred shifts 0530 hrs. same morning – night shift 1600 hrs. same day – Saturday and Sunday, 1600 hrs. Friday. Failure to give precise ETA may result in ship losing 12/24 hours also cost gang waiting time includes waiting vessel's arrival – free pratique – opening/closing hatches – rain – shifting cargo or dunnage – crane or derrick break-downs – time lost between finishing and end of shift. Work can be arranged on following official holidays – New Year's Day, Easter and Easter Monday, Whitsun, 14th July, 15th August, 1st November, Christmas Day, 1st May holiday when no work takes place, Stevedoring hours (normal shift) Monday to Saturday, 0630–1310 hrs. and 1320–2000 hrs. (Two shifts). Sunday, 0630–1310 hrs., if required – one shift 0800–1130 hrs. and 1300–1620 hrs. Night work if required 2200–0400 hrs. One hour overtime may be worked before 0630 or after 0730 hrs. No work allowed Sunday night. All necessary gear supplied by stevedores except rain tents which vessel must supply.

MEDICAL: Yellow fever inoculations only in hospital. Tuesdays and Friday. Masters to advise by radio prior arrival if medical attendance required aboard.

TANKERS: See "Port de Bouc", and "Fos". Also see "Berthing" – Berths Nos. 143, 145, 146 and 147.

DENSITY: About 1028.

FRESH WATER: Can be obtained from hydrants or quays or from water-boats. When delivered by barge, minimum quantity invoiced is 50 tons. Preferable order prior arrival to avoid delays. Minimum pumping rate 50 t.p.h.

FUEL: Ordinary fuel, also fuel oil max. 1000 secs., Diesel and Gas oil. Deliveries by barge only.

FIRE PRECAUTIONS: Special harbour fire-fighting corps, with two fire-fighting vessels.

WATCHMEN: Available but not compulsory.

HATCHES: Crew allowed open and close.

SHIP CERTIFICATES: On first call Registered Tonnage Certificate; thereafter not required unless Gross/Net tonnages changed.

CUSTOMS ALLOWANCES: About 200 cigarettes and limited amount spirits per man.

CARGO GEAR: No additional requirements; all gear supplied by stevedores except rain tents.

IDENTIFICATION CARDS: Not required.

AIRPORT: Marseille–Marignane is the second largest airport in France with 18 air companies serving 60 national and international destinations.

The international airport of Nimes-Garons (50 kms. from Fos) serves the West region of the Marseilles district.

CONSULS: The following countries are represented in Marseilles:

Algeria
Argentina
Austria
Belgium
Bolivia
Brazil
Canada
Colombia
Costa Rica
Cuba
Cyprus
Denmark
Dominica
Ecuador
Egypt
Finland
Great Britain
Greece

Fresh water and power available at all berths.

One floating dock: Usable length 165 m., usable width 25 m. Depth 6 m. 2×7 tonne cranes. Fresh water and telephone available.

POLICE/FIRE/AMBULANCE: Police 91 90 40; Ambulance 17; Fire Brigade 18; Special Port Fire Brigade 50 36 70 and 62 36 58.

GAS FREEING STATION: Suitable for tankers up to 28 ft. draft.

The Station is equipped with:

Boilers able to supply 34 tons of steam per hour.

A pumping station supplying hot water for cleaning, fresh water for ballast, and which is also used for transfers.

A separator for the discharge of dirty ballast able to work at 1,200 cu.m. per hour.

Two receiving tanks of 2,000 cu.m.

One tank of 500 cu.m. for treatment and 1 for subsequent storage with a capacity of 2,000 cu.m.

One extractor for removal of all traces of oil including sludge.

The Station can supply all the necessary fluids for cleaning and gas freeing (salt water, hot and cold water, fresh water, compressed air and electric current.)

From the vessels the installation receives dirty ballast and water which goes through separators.

AUTHORITY: Le Port Autonome de Marseille.

AGENTS: Jolasry (France), 6 Boulevard de Dunkerque. Tel. 91.90.86. Telex. 440821. Cables: Jolasry.

(b) **PORT DE BOUC,** including Port de Lavera 43.23 N. 05.00 E., Port de Berre 43.27 N. 05.10 E., Port de la Mede 43.24 N. 05.07 E., Caronte 43.24 N. 05.02 E.

DOCUMENTS: On arrival:

- 1 Cargo Manifest or manifest in ballast.
- Certificate of open spaces occupied by cargo in cu. ft. or cu. m. or in registered form if shelter deck.
- Bill of Lading.
- Ship's Register (if required).
- 6 Crew Lists (8 if Spanish or U.S.S.R. ship or ship bound for these countries).
- 3 Passenger Lists.
- Health Declaration.
- Deratisation Certificate.
- Bunker's Supply (3 forms).
- 1 Crew Declaration of Personal effects – cameras, binoculars, radios, cigarettes, tobacco, etc. If on inspection articles or quantities not in conformity or in excess, Master held responsible, articles removed and heavy fines imposed.

PILOTAGE: Call "Port de Bouc Control" on Channel 16. Channel 12 for traffic. Pilot must be taken to enter Port de Bouc, Fos and Port St. Louis du Rhone. Contact by Marseilles Radio or pilot boat VHF (Channel 16 for calling, Channel 14 for traffic). Pilot boards in the Roads between 2 and 2.5 miles S.W. of Bouc Tower or further out if required, for entering Port de Bouc and Fos. Motor launch black hull, white cabin, white anchor on bow, "H" flag.

ANCHORAGE: It is recommended to ask for Pilot before anchoring in outer Roads to avoid forbidden places for ships bound for Port de Bouc and Fos.

RESTRICTIONS: No entry restrictions for Lavera. Night transit of Caronte Canal to Etang de Berre forbidden to tankers above 6,000 g.r.t. Transit of Caronte Canal to Etang de Berre is forbidden for vessels over 180 m. (598 ft.) overall and over 24 ft. draft.

MAX. SIZE: See "Berthing".

HEALTH: Pratique given by Customs officers who board on arrival. In case of suspected disease on board, notify Agents by radio before arrival.

RADIO: Within 150 miles traffic through Marseille Radio/FFM, otherwise St. Lys (FFL).

Port de Bouc Radio (Harbour Office) VHF used for navigation purposes only – Channel 16 for call, Channel 12 for traffic.

TUGS: Eleven tugs available from 90 to 1,800 h.p. Normally join vessel in entrance channel off Port de Bouc. Only ship's lines used.

BERTHING: Lavera: 19 berths (Total berthing length 3,140 m.) for public and private use. Permitted drafts: 3 berths of 2 m. to less than 3.6 m.; 4 berths of 3.6 m. to less than 5.5 m.; 1 berth of 5.5 m. to less than 6.1 m.; 5 berths of 10 m. to less than 11 m.; 3 berths of 11 m. to less than 12.5 m.; 3 berths of 9.9 m.

1×12 tonne privately owned mobile crane.

Lavera harbour has been specifically designed and equipped to handle refinery products and the discharge of oil tankers. Each berth has flexible pipe connections, with articulated metal arms, supported by special cranes. The type of pipework depends on the product handled (crude or refined) and is connected to the storage tanks of:—

C.F.R. and Shell
S.F.P. – B.P. Refinery at Lavera
The maritime terminal of S.P.L.S.E., which supplies the
Esso Refinery at Fos.

Berth H has been designed to handle the loading and unloading of propane and chemical products.

Crude: 8 multi-purpose public berths in 4 basins.

Name of Berth	*No. of Berth*	*Berthing Length (m.)*	*Max. Draft (m.)*
A2	712	210	9.90
A4	714	240	11.10
B	721	325	10.90
C	722	325	11.40
D	723	325	11.30
E	724	325	12.20
F	725	325	12.20
G	726	325	12.50

Refined Products: 13 multi-purpose public berths.

Name of Berth	*No. of Berth*	*Berthing Length (m.)*	*Max. Draft (m.)*
A1, A2, A3	711, 712, 713	210 each	09.90
A4	714	240	11.10
B	721	325	10.90
C	722	325	11.40
D	723	325	11.30
E	724	325	12.20
F	725	325	12.20
G	726	325	12.50
K1	701	100	6.10
K3	703	100	5.50
K4	704	100	5.00
K5	705	100	5.80
K6	706	100	5.10

Berth Nos. K2, K7 and K8 are not used.

Berth Nos. A1, A2 and A3 cannot be used simultaneously by ocean-going vessels.

Liquid Gas: 4 multi-purpose public berths.

Name of Berth	*No. of Berth*	*Berthing Length (m.)*	*Max. Draft (m.)*
A1	711	210	9.90
A4	714	240	11.10
H	727	240	11.20
K1	701	100	6.10

Annual capacity of loading or discharge: 6,000,000 tons based on the 4 multi-purpose berths being exclusively used for discharge of vessels bringing propane gas.

Average output per quay 600 cu.m./h. (300 t.p.h.)

Storage capacity: The storage capacity of propane gas of the Societe GEOGAZ is 120,000 cu.m (60,000 tons).

Berth K1 is also equipped to handle refined products. Berth H is also equipped for chemical product traffic.

Chemical products (exclusively): 2 multi-purpose public berths.

Name of Berth	*No. of Berth*	*Berthing Length (m.)*	*Permitted Draft (m.)*
A4	714	240	11.10
H	727	240	11.20

Berth A4 is also equipped for crude oil traffic, refined oil products and for the importation of liquid gas.

Berth H can also accept liquid gas.

Annual capacity of loading or discharge: 2,700,000 tonnes if these 2 berths are exclusively used for chemical product traffic.

Discharge rate using vessels' pumps: 150 t.p.h. Loading rate using land pumps 150 to 300 t.p.h.

Storage capacity: Societe NAPHTACHIMIE: factory. Societe MAVRAC: 53,000 cu.m.

Port de Bouc/Caronte: Quay berths reserved exclusively for commercial operation of sea-going vessels: Berth Nos. 780 to 787

Total length of quays: 943 m.; Usable berthing length: 920 m.; Permitted draft: 1 berth for barges of 4 m.; 5 berths of 8 m. to less than 9 m.

Berths reserved for repairs afloat (Agglomerate Quay): Total length of quays: 300 m.

Permitted draft: 1 berth (N) 4.50 m. – 5 m.; 1 berth (S): 4.50 m. – 6 m.

Equipment:

Quay cranes: 2 cranes of 3–6 tonnes
3 cranes of 6–12 tonnes
2 cranes of 12 tonnes

Seven cranes, private, forming part of the installations of the Etablissement Maritime de Caronte (E.M.C.).

Quay gantries: 2 gantries of 10–20 tonnes, private (E.M.C.) used for ores, stacking and removal from stock. Lifting capacity of the most powerful: 15 tonnes.

1 phosphate reloading gantry with a capacity of 400 t.p.h.

Cranes allocated to naval repairs afloat, at the Agglomerate Quay: 2 private cranes from 6 to less than 15 tonnes. Lifting capacity of the most powerful: 4–8 tonnes.

Floating cranes: 2 private cranes, with a lifting capacity of 100 tonnes.

Storage:

Quay-side sheds	8,200 sq.m.	(private)
Other sheds or warehouses	4,875 sq.m.	,,
Quay-side open areas	16,000 sq.m.	,,
Other open areas	8,000 sq.m.	,,

Bulk Liquids: Vegetable or animal oils and chemical products:

1 public quay under private use (Lesieur-Favat installation) (Berth No. 780): Verminck Quay. Useful berthing length: 140 m. Permitted draft: 7.50 m.

Discharge of oils is effected by shipboard pumps and the relay pump of the land installations – rate 200 t.p.h.

Storage capacity: 6,000 tonnes.

The Lesieur-Favat storage installations located outside the port area, on private property, have a total capacity of 10,000 cu.m. These installations are connected by a network of 3 pipelines of 200,150 and 100mm. to the discharge points at the quayside.

Chemical products exclusively: 1 private berth (Berth No. 786): Kuhlman Quay (Ets. Kuhlman). Useful berthing length: 130 m. Permitted draft: 7.50 m. Factory storage capacity: 2,500 tonnes.

Bulk Solids: Ores, coal, heavy minerals:

5 berths at the Caronte Quay (Berths Nos. 781–785) private use granted to Etablissement Maritime de Caronte (E.M.C.).

Usable berthing length: 650 m. Permitted draft: 8.84 m.

1 quay berth for loading phosphate barges, located between berth No. 785 and berth No. 780. Berthing length: 80 m. Permitted draft: 3.50 m.

The Caronte Quay has a specialised installation comprising:

3 transporting units and weighing hoppers with a unit output of 135 t.p.h.

1 transporting unit and specialist weighing hopper specialised in wagon loading: output 150 t.p.h.

2 weighing hopper towers – unit capacity: 1,200 tons per day.

2 weighbridges (40 and 80 tonnes).

The 7 scoop cranes are emptied into weighing hoppers which in turn discharge on to conveyor belts which terminate either above wagons to be loaded, into sheds or open storage areas. Hourly capacity per crane 120–150 t.p.h.

Storage capacity: 63,000 tonnes.

The E.M.C. storage installations include:

3 phosphate sheds of 6,800 sq.m.

1 ilmenite shed of 550 sq.m.

1 open area of 6,000 sq.m.

Oil seeds – oil cake: 2 berths (No. 784 and No. 785) at the Caronte Quay, private use granted to E.M.C.

Available berthing length: 136 m. each. Permitted draft: 8.84 m.

Storage capacity: 10,000 tonnes. These berths are also used for ores, coal and heavy minerals.

Installations and equipment: identical to those on the quays for ores, coal and heavy minerals.

Etang de Berre/La Mede:

Available berthing length: La Mede – 380 m. Berre – 510 m.

La Mede: 4 berths. Berre: 4 berths.

Access to these berths is limited by the depth of the Caronte Canal 7.93 m. Permitted draft 7.32 m.

Port of La Mede: Cie Francaise de Raffinage (C.F.R.). Berths No. 743 to 746.

Refined oil products: 4 private berths (C.F.R.).

Name of Berth	*Berth No.*	*Type of installation*	*Available berthing length (m.)*	*Permitted draft (m.)**
East Berth	745	50 m. mooring units	120	7.20
West Berth	746	set out in lake	120	7.20
3	743	Pier	70	3.30
4	744	Pier	70	5.18

*Access to these berths limited by depth of Caronte Canal 7.93 m.

The installations of the Compagnie Francaise de Raffinage permit loading or unloading of 100–600 cu.m./h. according to product.

The installations of the C.F.R. are connected to tanks by pipelines of varying sizes under the waters of the Berre Lake and Canal from Marseilles to the Rhone.

Storage capacity: Depot of the Refinery of C.F.R. – 1,684,000 tons of refined products to which may be added 346,500 tons of crude brought by pipeline from the berths at Lavera and Fos to the Refinery.

Port de La Pointe de Berre: Cie. de Raffinage Shell Francaise (Berths No. 751 to No. 754). Refined oil products. 4 private berths.

Access to these berths limited to 7.93 m. by the depth of the Caronte Canal.

Berth Name	*Berth No.*	*Berthing length (m.)*	*Permitted draft (m.)*
A	751	150	7.20
B	752	130	7.20
Salins Berth	754	150	7.20
South West (coasters)	753	80	3.60

The berthing installations of the Cie. de Raffinage Shell Francaise S.A. have connections to its tanks by specialised pipelines for the various products. They provide loading and discharge outputs from 120 to 2,500 cu.m./h. according to product.

Storage capacity: Depot of the Port de La Pointe de Berre 154,000 tons.

Storage area of the Shell Refinery 1,572,000 tons.

To the above capacities should be added 303,000 tons of crude oil brought by pipeline to the Shell Refinery from the Lavera and Fos berths.

BRIDGES: 1 railway bridge and 1 road bridge across Caronte Canal each having special times for opening. Ships of less than 21 m. height clearance may pass below the railway bridge. Motorway bridge over Caronte Canal with 44.60 m. clearance.

STEVEDORES: To enable Agent order gangs important obtain accurate ETA between 24 hours and 48 hours in advance. 2 shifts 0500 to 1300 hrs. and 1300 to 2100 hrs. normally 6 days a week. Confirmation to be made at 0900 hrs. for afternoon shift, and 1700 hrs. for next day morning.

MEDICAL: All hospital and medical facilities. Yellow fever inoculation made by appointed doctors. Masters to advise by radio prior arrival if medical attendance is required on board.

TANKERS: See "Berthing".

DENSITY: About 1028. Variable in Canal de Caronte and Etang de Berre owing to discharge of hydraulic plant of St. Chamas.

FRESH WATER: Available generally by pipes and hoses at the berths. Water barges available from Marseille.

FUEL: By barges for cargo ships and vessels in the Roads. Tankers at Lavera refuel by pipe-line at the berths. All grades available.

FIRE PRECAUTIONS: Oil Harbour is fitted with a system of 203 mm. (8 in.) or 254 mm. (10 in.) sea water pipes at 5 bars permanent pressure. It may be increased by pumping station up to 9 bars, and supply 500 cu. m./h. Each wharf has 5 fire hydrants with first-aid equipment: fire hoses and spray nozzle, foam nozzle with powder cans. If fire breaks out on a ship, the hose handling gantries are protected by a screen of sprayed water. All fire equipment and installations are painted red.

There is a special fire-fighting Corps with fire vessel. Call for firemen 06.21.29 or 26.28.37. In case of fire call Port de Bouc Control – phone 05.22.25 or 06.63.39 or VHF Channel 16.

GANGWAY/DECK WATCHMEN: Available but not essential.

OPENING/CLOSING HATCHES: Always by crew.

CUSTOMS ALLOWANCES: Tobacco: 200 cigarettes every 5 days; wine/spirit: limited amount per man.

IDENTIFICATION CARDS: Seamen going ashore should carry passport or identity card.

CONSULS: Norwegian, Swedish, Danish and Spanish consuls at Port de Bouc. Others at Marseille.

REPAIRS: Permission must be granted by Port de Bouc Harbour Master only.

DRY DOCKS: Nearest at Marseille.

REPATRIATION: All facilities for crew change and repatriation by railway or planes.

AIRPORT: Marignane Airport 40 km. and Nice Airport 230 km. (this last for SAS lines).

TIME: GMT plus 1 hour in Winter. GMT plus 2 hours in Summer.

HOLIDAYS: Same as "Marseille".

POLICE/AMBULANCE/FIRE: Police, 06.23.74 or 07.03.31; Fire, 06.21.29 or 06.28.37.

TELEPHONE: On application can be connected on board at Lavera. Telephone ashore in other places.

SHORE LEAVE: Allowed.

AUTHORITIES: Port Autonome de Marseille (Director General and Managers). Capitainerie de Port de Bouc (Harbour Master).

(c) **FOS:** 43.24 N. 04.53 E.

DOCUMENTS:

1 Cargo Manifest or Manifest in Ballast.

Certificate of open spaces occupied by cargo in cubic feet or cubic metres, or in registered form if shelter deck.

Bill of Lading.

Ship's Register (if required).

6 Crew Lists (8 if Spanish or U.S.S.R. ship or ship bound for these countries).

3 Passenger Lists.

Health Declaration.

Deratisation Certificate.

3 Bunker Supply Forms.

Declaration of crew personal effects, cameras, binoculars, radios, cigarettes, tobacco, etc.

If on inspection, articles or quantities not in conformity or in excess, Master held responsible, articles removed and heavy fines imposed.

PILOTAGE: Compulsory. Contact by Marseilles radio or direct to Pilot boat by VHF Channel 16 for calling, Channel 9 for traffic. Pilot boards in the roads between 2 and 2.5 miles S.W. of Bouc tower or farther out if required. Motor launch, black hull, white cabin, white anchor on bow, flying "H" flag.

Port de Bouc Port Control, call on Channel 16, Channel 12 for traffic. Pilot boat on Channel 16 for calling and Channel 14 for traffic.

ANCHORAGE: It is recommended to ask for Pilot before anchoring in outer roads to avoid prohibited anchorages.

RESTRICTIONS: When large tankers are proceeding in the Fos channel, other vessels' entrance may be delayed.

Access channel for very large vessels dredged to 22 m. over a width of 250 m.

HEALTH: Pratique given by customs officers who board on arrival. In case of suspected disease on board, notify Agent by radio before arrival.

RADIO: Within 150 miles, traffic should be routed through Marseilles radio, FFM, otherwise via St. Lys. FFL.

VHF: Channel 16 for calling. Channel 12 for traffic and Channel 14 for pilot.

TUGS: Tugs normally join vessel in the entrance channel. Ship's lines are used.

GENERAL CARGO FACILITIES: *Graveleau Sector:*

1 berth (No. 870) between dock 2 and dock 3, can take sea barges. Length: 100 m. Permitted draft: 6.50 m.

A berth, to the South of the Brule-Tabac Quay, in Gloria Basin, dredged to 12.00 m. under construction. Length: 220 m.

Gloria Basin:

Brule-Tabac Quay on the Eastern face of the basin:

A 650 m. quay, with to the South a Ro/Ro berth (220 m. long – fixed span) is under construction and will be in service at the end of 1979. In the second stage, it may be extended to the North by 300 m.

It will be equipped with a railway line at the quay edge for direct transhipment and 5 mobile cranes.

As soon as Brule-Tabac quay is completed construction of Gloria Quay, on the Western face of the basin, will commence.

Length: 800 m., and draft from −11 to −12 m. This quay will take vessels, with dimensions which cannot come alongside the quays of Port St. Louis du Rhone.

BULK HANDLING FACILITIES: Fuel, solid minerals, ores: 2 public berths and 2 private berths.

Public Berths: No. 851–852 Dock 1, Western Quay. Usable berthing length: 580 m. Permitted draft: South Berth: (No. 852) 14.93 m. North Berth: (No. 851) 13.00 m.

The South Berth (No. 852) enables:

Either the loading of solid bulk material coming from public or private installations. Societe Pechiney aluminium silo capacity 25,000 tons.

Or the discharge of solid bulk material onto conveyor belt or into storage.

The North berth (No. 851) enables:

Either the discharge of solid bulk material using gantries or cranes, and placing it into storage.

Or the loading from storage, using cranes.

Furthermore, mobile equipment (feeder unit, inclinable transporter) enables the loading of barges from vessels of 20,000 d.w.t. (approx.) at the rate of approx. 700 t.p.h. dependent upon the ore and bulk and the equipment used.

Equipment: These berths are equipped, from the South to the North, with:

1 loading gantry of 1,500 t.p.h. for vessels up to 50,000 d.w.t.
2 scoop discharge gantries of 1,400 t.p.h. each and 20 tons capacity.
5 scoop or hook cranes of 6 tons at 22 m.
2 cranes of 15 tons at 30 m. are on order.

Storage: 20 hectares (approx.) of open area crossed by railway tracks for loading, and served by quayside equipment (pre-storage), conveyor belts or lorries.

Two swing bridges enable trains to be made up and heavy loads to be removed.

The conveyor belt network comprises:

1 longitudinal belt at the quay edge, 850 m. in length.
1 transversal transporter of 350 m., equipped with a pouring truck, and reversible.

Mobile transports on tyred wheels and a stacker enabling heaps to be formed 200 m. in length, 8 m. high and around 70 m. wide at the base. This latter dimension corresponds to the spacing chosen for the arrangement of the loading rail tracks.

Pick-up is by means of the same transporters, together with a feeder and skip loaders.

Silo: Societe Pechiney has a reception installation for aluminium trains and a silo of 25,000 tons capacity connected to the quayside loading transporter and to the loading gantry. This equipment is the property of the company but can be used for public service.

Private Berths: Two private berths (Nos. 811–812) in Dock 1 – Eastern Quay. Ste. Solmer reception quay.

Available berthing length: 640 m. Permitted draft: 18.59 m.
Annual capacity of loading or discharge:
Solid minerals, fuels – Coal: 3,000,000 tons/year.
Ores: 4,000,000 tons/year.

The Societe Solmer Quay is equipped with 2×40 ton gantries, each having an hourly rate of discharge of 2,000 tons.

Storage Capacity: Fuel, solid minerals, Coal: 350,000 tons.
Ores: 1,000,000 tons.

Societe Solmer has a quayside open area of 360,000 sq.m. for the receipt and storage of coal and ores.

LNG FACILITIES:

At Dock No. 1. (Berth No. 830) (Owned by Gaz de France).

Length available for berthing 180 m. Max. draft 9.5 m.

2 storage tanks, for LNG in the liquid phase (−160° C.), each with a capacity of 35,000 cu. m. (1,235,500 cu. ft.).

The pumps on the LNG Carrier discharge through articulated pipes of 300 mm. diameter (11.8 in.), 3 are specifically for discharge; one is to return the methane, in the vapour phase to the carrier.

After warming up from the liquid phase, with the addition of nitrogen to conform with the value in the French Gas Grid, the gas, in the vapour phase, is despatched by pipe-line to the underground storage at Tersanne, 214 km. from Fos (134 miles), and to Marseilles and the Cote d'Azur.

CONTAINER HANDLING FACILITIES:

4 berths (Nos. 862–865) in Dock 2, Graveleau Quay.

Available berthing length: 930 m. Permitted draft: 13.00 m.

Annual loading or discharge capacity: 120,000 containers i.e. 1,500,000 tons (approx.) (20 ft. and 40 ft.), the quay being equipped with: 4×40 ton gantries (Paceco) permitting the unloading of 15 containers per hour (approx.) per gantry. A supplementary gantry is on option at Fos.

Private equipment (side loaders, carry-tainers, straddle carriers, etc.).

Storage capacity: 15,000 containers i.e. 225,000 tonnes (approx.) (20 ft. and 40 ft.). Users have at their disposal a storage area with a total surface of 28.5 hectares.

Annual capacity of output or input: 120,000 containers (20 ft. and 40 ft.) i.e.: 1,500,000 tonnes (approx.) by lorries or railway. The French Railways Transcontainers terminal has 2 gantries on open areas with lifting capacity of 40 tonnes.

The terminal also has: A control centre of 2,000 sq.m.; 2 service areas of 200 m.×70 m.; a stuffing and unstuffing area of 3,200 sq.m. comprising 2 sheds of 25 m.×20 m. each.

TANKERS: Chicksan loading/discharge arms fitted at all berths. Ballast discharge ashore through pipe-line. Tank cleaning slop or oil residue not accepted through shore line, but can be disposed of by barge from Marseilles. Possibility of crude cleaning for vessels with inert gas system if cleaning does not exceed time of discharging operations.

Crude: 6 public berths, of which 2 are multi-purpose 0 and 0 Bis (Nos. 800 and 807).

Designation	*Berth No.*	*Berthing Length* (m.)	*Max. Draft* (m.)
0	800	230	12.80
0 Bis	807	200	12.80
1	801	346	20.58
2	802	320	18.90
3	803	346	22.25
4	804	150	14.00

Berths 0 and 0 Bis (800 and 807) are equipped to handle either export or import of refined products, or the loading of crude oil from a tanker moored at one of the berths 1, 2 or 3 (Nos. 801, 802, 803).

Berths 1, 2 and 3 (Nos. 801, 802, 803) are for receiving crude oil only. Berth 2 (No. 802) is specially equipped to tranship, by using special pipe-lines, crude oil from a vessel alongside at Berth 1 (No. 801).

Specialised lines, dependent upon the nature of the products, connect these berths to the oil depot of Fos, to the CRAU depot (Shell-C.F.B.P.) to the Esso refinery and to the S.P.L.S.E. terminal, all located in Fos.

Storage Capacity:

S.P.L.S.E. Terminal	2,277,000 cu.m.
CRAU Depot	1,910,000 cu.m.
Esso Refinery	1,040,000 cu.m.
Total:	5,227,000 cu.m. (4,600,000 tons).

Berth 4 (No. 804): Located at Mole No. 2 of the oil terminal, offers in a primary stage (1978) a depth of water of 15 m. to be increased to 17 m. The berth is intended for berthing in ballast of vessels of 550,000 d.w.t. for washing out tanks prior to repair. Permitted draft 14.00 m.

It is connected to the new deballasting station by 20 in. pipe-line. This station only handles primarily mixtures with a poor oil content.

A crude oil pipe of 42 in. diameter enables also vessels of 80,000 d.w.t. to be discharged. 2×16 in. arms complete the installation.

No bunkering by pipe-line or tower for access on board available at present.

Refined Products: 4 berths of which 2 are multi-purpose – 0 and 0 Bis (Nos. 800 and 807).

Designation	*Berth No.*	*Berthing Length* (m.)	*Max. Draft* (m.)	*Remarks*
0	800	230	12.80	Public
0 Bis	807	230	12.80	Public
C.2	808	100	6.30	Public
Solmer	821A	100	5.50	Private

Independently of the receipt of crude oil, berths 0 and 0 Bis are equipped to handle either refined product import or export traffic, or the loading of crude oil from tankers berthed at berths 1, 2 and 3 (801, 802, 803).

Berth C.2 (No. 808) specialises in loading refined products on coastal vessels and the Solmer berth specialises in the receipt of fuel oil.

Storage capacity:

Fos Oil Depot	522,000 cu.m.
Esso Refinery	1,023,000 cu.m.
Total:	1,545,000 cu.m.

FIRE PRECAUTIONS: A special fire fighting corp. operates at Fos. Tel. 05 04 40.

FRESH WATER: Available by pipe-line at all berths.

FUEL: Available by barge only.

MEDICAL: All hospital and medical facilities. Yellow fever inoculation made by appointed doctors. Masters to advise by radio, prior arrival, if medical attendance required on board.

REPAIRS: Ore berth can be used as a repairs berth when not required for cargo operations. Permission must be obtained for tanker repairs. No tankers repairs if vessel is not gas free. Permission given by Harbour Master only.

CUSTOMS ALLOWANCES: Tobacco: 200 cigarettes every 5 days. Wine/Spirits: limited amount allowed per man.

CONSULS: Norwegian, Swedish, Danish and Spanish Consuls at Port de Bouc. Others at Marseilles.

AIRPORT: Marseilles/Marignane Airport about 60 km. distance.

TIME: GMT plus 1 hour in Winter. GMT plus 2 hours in Summer.

TELEPHONES: On application, telephones can be connected on board.

AUTHORITY: Le Port Autonome de Marseilles. Capitainerie de Port de Bouc (Harbour Master).

NANTES: 47.14 N. 01.34 W.
ST. NAZAIRE: 47.17 N. 02.12 W. inc. DONGES: 47.18 N. 02.04 W. and MONTOIR: 47.18 N. 02.08 W.

(See Plan Book)

DOCUMENTS:

Cargo Manifest or Manifest of Ballast.
Certificate of Cargo Space.
Bills of Lading.
Ship's Register.
6 Crew Lists.
3 Passenger Lists.
Health Declaration.
Derat Certificate or Exemption.
Declaration of Crew Personal Effects.

PILOTAGE: Compulsory for vessels longer than 225 ft. owning radar/-VHF. Starts about 4 miles North of lighthouse of Le Pilier, on lightbuoy "SN 3". Pilot boat on station day and night, if weather conditions permit, West of a line drawn between "SN 3" lightbuoy and lightbuoy of "La Couronnee" about 2 miles N.N.E. If Pilot unable to come aboard he may invite ship to follow his boat until they have reached better shelter. Ships heading for one of the Loire estuary ports should give ETA at least 24 hours before arrival to Port Captain of Saint-Nazaire. Approximate time of arrival at "SN 3" buoy, the onward destination and speed should be given. VHF contact can be made direct with St. Nazaire pilot boat or "Estuaire de la Loire" pilot station.

ANCHORAGE: When Pilot service withdrawn, anchor near "SN 3" lightbuoy or in "Rade des Charpentiers". In rough sea ships heave to off harbour. In case of doubt contact pilot boat by VHF or phone. Sometimes Pilot taken aboard on "SN 3" is relieved by another who will board near the outer port of Saint-Nazaire or bring ship upstream. Vessels are not allowed to anchor before Quay Emile Cormerais and Chevire Power Station Embankment (cables).

MAX. SIZE:

St. Nazaire: Entrance by L. Joubert lock: Length 350 m., breadth 50 m., draft 9.50 m.

Two other locks: Length 53 m. to 211 m.

Montoir: Length 270 m., max. draft 17 m., minimum 15.50 m.

Donges: Length 350 m., max. draft 17 m., minimum 15.50 m.

Nantes: Length 200 m., max. draft 10.05 m., minimum 8.55 m.

HEALTH: Pratique given by Customs Officers who board on arrival. If any case of suspected disease on board or any reason why vessel should not receive Free Pratique Master should radio Agent before arrival, advising full details.

RADIO: St. Nazaire Radio operates on 1687 mHz. It keeps a continuous watch on VHF Channel 16 and 2182 kc/s.

VHF: VHF Radiotelephone must be used for giving information and obtaining clearance to navigate from the Harbour Master.

The following Channels and frequencies are used:

Channel 16 Frequency: 156.8 mHz
Channel 12 Frequency: 156.6 mHz
Channel 6 Frequency: 156.3 mHz

The Pilots can be contacted on VHF Channels 16 and 12.

A continuous watch is maintained on Channel 16.

RADAR: The radar service can be contacted on VHF Channel 16.

TUGS: *Nantes:* 4 "Abeille" tugs 500 to 550 h.p.

Donges – Montoir – St. Nazaire: 7 tugs 1,250 to 3,200 h.p. They are provided by "Union des Remorqueurs de l'Ocean".

BERTHING:

St. Nazaire: Is a port with locks. Max. draft: 31 ft. (vessels up to 20 – 25,000 d.w.t. in the best conditions of tides).

Dock Water density: 1003 to 1025.

Length of quay: 2,700 m.

Number of berths: 15.

Numerous cranes up to 12 tons and a 400 ton derrick.

Traffic: Timber, heavy loads, metallurgical products, refined products, fertilizers, grain (capacity of the grain silo: 10,000 tons), oil seeds, phosphates, wine. Tanker berth – Deballasting station. Ro-Ro operations can be carried out.

Montoir: Port Authority use own steel cables to supplement ship's ropes.

Dock water density: 1000 to 1020.

Specialized facilities:

Ro-Ro berth – Warehousing and 36,960 sq. m. of back up land.

LNG: 2 privately managed berths can receive gas-carriers up to 125,000 cu. m. Also see "Shipmasters Report" dated "June 1980".

Dry bulk: Length of quay 431.20 m., cranage two 15 tons, three 15/30 tons average throughput per crane 500 t.p.h. Storage facilities.

Traffic: Oil seeds, oil cakes, timber, coal.

Liquid chemicals: Connections for acids and liquids, molasses average throughput: 600 t.p.h.

In 1982, a container berth will be operational length of quay: 160 m. Storage facilities.

In 1983 a coal berth will be operational able to receive ore carriers up to 120,000 d.w.t.

Donges: Mooring of vessels to the docks No. 0, 1, 2, 3 is performed with ship's ropes. On docks No. 4, 5 and 6, Port Authority use own steel cables to which ship is secured to supplement her own ropes.

Berths Nos. 5 and 6: To reduce the time of mooring a special mooring gang can be put at Master's disposal for arrival and departure. Arrangements must be made 48 hours in advance of this service. Permanent watch on VHF Channel 16 is recommended.

Tanker berths: Can receive fully loaded tankers of 120,000 – 140,000 d.w.t. or the 280,000 d.w.t. lightened. Number of berths 6.

4 berths are designed for handling refined products and LPG. Throughput: 1,500 to 5,000 cu. m./p.h.

2 berths are designed for discharging crude oil. Throughput: 10,000 cu. m./p.h.

Crude connections: No. 5 berth 4×12 in. Chicksan arms, 12 holes type 150 lbs. No. 6 berth 5×12 in. Chicksan arms. 12 holes type 150 lbs. Reducers available, notice required prior to arrival.

Bunkering lines: No. 5 berth 8 in. Chicksan arm with 6 in. connection. No. 6 berth, 6 in., 8 in., or 12 in.

Nantes: Vessels may be moored with bow facing up or downstream. During heavy flood periods, however, bow to face upstream.

Dock water density: 1000.

Quai Chevire: Traffic: Timber and containers. 3 berths. Cranes up to 25 tons. Two 15 to 25 ton cranes are able to operate together, providing a 25 to 45 ton lifting capacity. Spreader available for handling 20 ft. containers (about 20 containers per hour). Storage facilities.

Quai Wilson: Length 1,472 m., 13 berths. Traffic: Heavy loads and containers in the Eastern part.

Phosphates, coal, pyrites, sulphur, salt, sugar, fruits and vegetables. Storage facilities. Numerous cranes up to 60 tons capacity.

Quai Roche-Maurice: 6 berths. Cranes up to 6 tons capacity. Discharging: phosphates, grains, molasses, fertilizers. Storage capacity of the grain silo: 80,000 tons.

Additional facilities for discharging oil and coaltar, chemical products, wine and various cargoes, length of quays: 1,500 m.

BRIDGES: Vessels coming up the river to Montoir, Donges and upstream pass underneath the St. Nazaire bridge: Clearance 61 m.

STEVEDORES: Available.

MEDICAL: Facilities available at any time.

TANKERS: See "Berthing".

FRESH WATER: Available at docks.

FUEL: Available in any grade or viscosity. Advance notice of at least 2 days must be given if vessel has to bunker on Saturday or Sunday. Otherwise, delivery within 36 hours by barge.

FIRE PRECAUTIONS: Usual precautions for tankers in neighbourhood of refineries. No fire, no smoking, Ground wire for ship.

GANGWAY/DECK WATCHMEN: Not necessary.

OPENING/CLOSING HATCHES: Done by crew.

IDENTIFICATION CARDS: Not needed.

CONSULS:

Algeria	74.38.19	Holland	47.16.31
Belgium	71.57.10	Norway	71.33.35
Brazil	47.72.21	Portugal	73.05.04
	22.41.46	Spain	48.67.95
Denmark	71.89.13	Sweden	(46) 34.00.67
Finland	75.53.08	Switzerland	71.67.66
German (Fed. Rep.)	73.29.46	Tunisia	71.10.52
Greece	73.46.13	Great Britain	71.08.50

REPAIRS/DRYDOCKS: Very good facilities exist for all types of repair work.

St. Nazaire: "L. Joubert" graving dock. Dock can accommodate ships up to 240,000 d.w.t.

Repair pier: Dredged bed size: 720 m× 60 m; depth 8 m. Can accommodate ships up to 250,000 d.w.t. Waiting Station. Deballasting station.

Dry docks: No. 1 Ships up to 40,000 d.w.t. No. 2 Ships up to 1,500 d.w.t. No. 3 Ships up to 6,000 d.w.t.

Nantes: One 4,500 ton floating dock accommodating ships up to 130 m. long. One careening unit of 1,700 ton accommodating ships up to 100 m. long.

CUSTOMS ALLOWANCES: Tobacco: 300 cigarettes or 75 cigars. Wine; 7 pints. Spirits: up to 22° – 5.3 pints, beyond 22° – 2.7 pints. Coffee: 26 ozs. Tea: 5 ozs.

AIRPORT: *Nantes:* Good connections with French internal network (Air Inter) and also international, mainly with stop-over Paris. 5 daily flights to the capital. Direct flights to Bordeaux, Lorient, La Rochelle, Lyon, etc.

St. Nazaire: 2 daily flights to Paris.

TIME: GMT plus 1 hour, seasonal alteration.

HOLIDAYS: New Year (1st January no labour available); Easter Sunday (possibility of labour with overtime); Easter Monday (no labour available); Labour Day (1st May no labour available); Ascension Day (possibility of labour with overtime); Whit Sunday (possibility of labour with overtime); Whit Monday (no labour available); National Day (14th July, no labour available); Assumption Day (15th August, no labour available); All Saints' Day (1st November, no labour available); Armistice Day (11th November possibility of labour with overtime); Christmas Day (25th December, no labour available). N.B. Every Sunday and day marked "possibility of labour with overtime" can be worked at the rate of 100%.

POLICE/FIRE/AMBULANCE: Police 17; Fire 18; Ambulance 18.

TELEPHONE: Arrangements are possible.

SHORE LEAVE: No restrictions.

DEVELOPMENTS: See Berthing – "Montoir".

SHIPMASTERS REPORT: June 1980.

Montoir: (Discharging ammonia) – See Plan Book.

Approaches: BA. 3216, 2989 and 2647, outer coverage not very good. Arrived in good visibility so shore lights gave good positions. Ile de Yeu does not show up very well on the radar until only about 16 miles off. The light on Ile de Yeu is listed on different charts as having different characteristics and in fact agreed with that in the Light List. The mainland showed up for some considerable distance but no worthwhile details were identified until well up to "SN1" buoy.

The light on "SN2" was seen about the same time as "SN1" and is much brighter. Both buoys were seen on radar at ten miles. As there are many fishing vessels, identification of these buoys in poor visibility would require a great deal of care.

Once in the "tanker channel" proceed to the pilot station as indicated on the chart.

NOTE: Remember the standard message to "Surnav France" for a tanker carrying hydrocarbons.

Pilotage: Contact made on Channel 16, working Channel 12. Good communications.

Pilot cutter is a large vessel which will come close alongside and send away a small boat. Pilot ladder virtually to the water.

The cutter surprised us by steaming towards us at full speed and we eventually met some 3 miles West of the boarding area.

Vessel may only berth (and unberth) at slack water at Montoir. Being loaded means having to arrive at the top of the tide, although if in ballast one may sail at low slack water. Should any supertankers be moving at that time, presumably having booked their tide first, vessel will not be allowed to sail. The Pilot could not confirm whether incoming ships had priority.

NOTE: Unberthing tugs and Pilot to be booked by 1800 hrs. for the following morning. Cost if unable to meet that particular slack water after ordering, in excess of £1,000 (Sterling).

Three tugs used for berthing and unberthing; tugs lines, 1 forward, 1 aft and 1 pushing amidships. Backsprings sent away first.

When unberthing vessel moves upstream to turn.

Mooring boat to handle ropes.

NOTE: There were a lot of buoys which are not marked on the chart due, no doubt, to extensive dredging operations and spoil ground dumping.

Length of pilotage to first line ashore 1 hour 30 minutes.

Berth: Consists of a small "T" jetty with a line of dolphins standing proud of it by 1.5 m. These extend from just forward of the accommodation to No. 1 tank dome, 150 m. approx.

Mooring arrangements were adequate and the linesmen were reasonably adept.

Shore gangway must be used.

It is necessary to rig the low extension to the liquid manifold as the shore chicksan has insufficient upreach. Invariably berthing port side alongside.

Storing: Prior to this call the berth operators allowed vessels to take on provisions and foodstuffs but port regulations forbid the loading of machinery items or heavy lifts during discharge.

The derrick only plumbs the after corner of the "T" jetty and all items have to be manhandled from the gate to the derrick hook.

If any items of machinery are to be landed or loaded, it is necessary to do this either before discharge or after completion; the port authorities insist on the chicksan being disconnected, merely stopping discharge is not sufficient.

Similarly they will not allow a fork lift truck to operate on the berth during pumping operations.

Lube oils were taken at this call and we were able to continue this during discharge, simply because the lines were connected before the chicksan and the lorry was still parked outside the jetty access.

However, after discharge, protest was made against the very low discharge rate and frequent stoppages; the berth operators were most upset by this and have sworn that NO STORING will be allowed there in future. This situation will obviously have to be checked very thoroughly in the event of having a large storing/lube oil programme. Barges are not allowed alongside during discharge.

Discharge: As already noted the low load/discharge line must be rigged on the port side prior to arrival.

There is no vapour return line. Ship supplied 10 in. reducer.

Storage capacity ashore is about 25,000 tonnes.

On arrival there was only a reported 2,000 tonnes in the shore tanks and they were therefore warm with consequent problems for the initial discharge. Apparently these tanks are loaded from the top, the liquid being allowed to free fall to the bottom. In the first 24 hours the discharge rate was little more than 80 t.p.h. and there was a total of 5 hours 29 minutes stoppages at shore request. We could not discover whether this was usual or if it was due to some uncommon machinery defect.

On boarding, the receivers quoted a maximum rate of no more than 400 t.p.h. and probably no more than 300 t.p.h. In fact, once the shore problems were resolved we rapidly increased to 550 t.p.h. and then up to 800 t.p.h. at times. At all times ship discharged to shore requirements, shore personnel at the chicksan communicating with the officer of the watch, but only by coming on board. No telephone contact, no walkie-talkie.

A telephone was put on board by the Agents.

Port regulations require ship to maintain continuous VHF watch on Channel 16.

Receivers originally requested vessel to blow through lines on completion but this was not required.

Overall discharge rate 365 t.p.h.

Surveyor: Redwoods, figures taken on gauging of ship's tanks.

General: Fresh water available from quay, not costly.

Bunkers must come by barge, usual restrictions.

No film exchange possible unless with another vessel. If the depots at out ports have sufficient it may be possible to carry out an exchange if ample warning is given.

Chandler was quite good but closes over the weekend, plenty of warning should be given for unusual items.

Access to St. Nazaire by taxi, about 50 francs.

Papers: 2 Crew Declaration. 2 Stores and Bonded Stores Lists. Port Health Form; their own form, spares supplied. 1 Passenger Declaration, made up on board.

Applied for radio pratique but this was not granted prior to arrival.

Agents: Very good, very helpful with good representation on board. Local office in Donges, main office at Nantes.

Ballast: The river water is very dirty indeed, flood only being marginally less so than the ebb. High injection points only should be used.

If at all possible ballasting should only be carried out from about half flood to just beyond HW to minimise the amount of deposits within the ballast tanks. Even then an immediate programme of flushing tanks should be put into effect on clearing the river.

Density varied between 1025 and 1010.

AUTHORITY: Port Autonome de Nantes – St. Nazaire, Nantes.

AGENT: Jolasry (France), 44 Boulevard Paul-Leferme, Saint Nazaire. Telex: 71931. Tel.70-01-18.

NICE: 43.42 N. 07.17 E. (See Plan Book)

PORT LIMITS: The Port is situated in the N.E. part of the Baie des Anges (Bay of Angels) between the castle hill and the Boron Mount which form at the Nice Cape a rocky promontory towards the South.

DOCUMENTS: The Captain of a vessel, when he arrives, is required to fill out an entry declaration, a copy of which is handed to him by his Agent or by the Port Captaincy.

A Crew List and a List of Passengers intended for the Port Commissariat must be drawn up before arrival at the port.

All documents required by marine regulations, i.e. health declaration, manifest, vessel's safety plan etc., . . . are required by the port services.

PILOTAGE: The pilot station operates 24 hours a day and is attended by 3 licensed Pilots. Pilotage is obligatory for vessels of LOA 50 m. and over. Pilotage is exempt for vessels of less than 50 m., and if they are equipped with VHF, vessels of less than 70 m. The licence of Pilot is valid for vessels of a length equal to or greater than 120 m. equipped with a bow thruster and VHF. Specialised vessels carrying liquid oil, gas, and toxic products are subject to pilotage.

The pilotage area of Nice-Villefranche extends as far as 3 miles from the coast between the meridians of the left bank of the Var (07° 12′ E.) and of Cap Ferrat (07° 20′ E.). Vessels must, if possible, give warning of their arrival 24 hours in advance, particularly if they intend arriving during night-time hours.

Pilots may be called up by regulation signals during the day and night or by radiotelephone to Grasse Radio or Monaco Radio both stations on VHF Channel, telephone Nice station (85 52 41) or to the Port Captaincy (Tel. 89 50 85).

ANCHORAGE: The coast being very rocky, does not allow anchorage close to the port. The Villefranche Roads, on the other hand, offers a sheltered zone, giving very good anchorage facilities. In the Villefranche Roads, 2 buoys can be used with the permission of the Nice Captaincy, by vessels merely calling at the port or waiting for a place on the quay at the Port of Nice. There is access for vessels of all dimensions.

RESTRICTIONS: The transport and handling of dangerous or infected materials, within the limits of the Nice Port, are subjected to the requirements of decree of the 1st February 1951 which controls the transport and handling of dangerous materials in maritime ports. There is no operation in this respect at night.

All operations, prescriptions, order and stipulations as laid down in the general regulations and the local regulation covering "Port Services" are governed by the Port Commandant.

MAX. SIZE: The commercial port is accessible to vessels of 137 m. in length and 6.50 m. draft.

HEALTH: Health control at the frontiers is subject to the measures prescribed by the international health conventions; the functions of health police and health guard are entrusted to an Agent in the service of Customs and Excise. Urgent medical help can be obtained through the intermediary of the radio stations of Monaco and Grasse who establish contact directly with the department concerned.

VHF: The Port Captaincy listens out from 0600 to 2200 hrs. in Winter and from 0500 to 2400 hrs. in Summer on Channel 16 (for calling up and emergency). There are 2 Channels i.e. 9 and 12 for communication purposes. No communication of a private nature may be handled.

RADIO: None.

RADAR: None.

TUGS: None.

BERTHING: Length of usable quays 1,497 m. having a depth of 5.0–6.5 m. and 10 berths available.

CRANES: Quai Infernet: 2×5 tons cranes on rails (scoop and hook).

Ribotti: 1 crane on rails of 3 tons capacity (hook).

Commerce: (Commercial Quay) 2 cranes on rails of 6 tons capacity (scoop and hook).

Commerce: (Commercial Quay) 2 hoppers of 50 cu.m. capacity – on rails. 2 Nellen cranes on tyred wheels, capacity 4.2 tons at the end of the jib and 8 tons at 6 m. (with tackle block).

FRESH WATER: It is possible to take on fresh water at all quays by connection to the main supply. Average rate of supply 15 t.p.h. – price 3.57 Fr. per ton.

FUEL: All types available.

FIRE PRECAUTIONS: The town provides fire fighting facilities. The fire station is close to the Port.

CONSULS: Algeria, Germany (Federal), Austria, Belgium, Brazil, Colombia, Ivory Coast, Republic of Benin, Denmark, Dominican Republic, Spain, U.S.A., Finland, Gabon, Greece, Ireland, Iceland, Italy, Liberia, Luxembourg, Mauritania, Monaco, Niger, Norway, The Netherlands, Peru, Philippines, St. Marino, Sweden, Switzerland, Tunisia.

REPAIRS: All possible deck and engine repairs can be carried out. There is no dry dock. Hull careening is carried out by underwater procedure.

SURVEYORS: Lloyds of London, The Coasting Mediterranean Company, The Venturer Company, Weir (S.A.), Societe Azureenne de transports et d'affretements Maritimes, Societe Nationale Maritime Corse, Mediterranee, Pittaluga & Co., Martini & Co., Cie Charles le Borgne, Cie Fabre, Cie Fraissinet, Cie Messageries Maritimes, Nautilus Line, Barry Rogliano et Cie.

HATCHES: Hatches are opened and closed by crew.

CUSTOMS ALLOWANCES: 30 cigarettes per person per day; 1 litre of aperitif per 6 persons per day.

CARGO HANDLING FACILITIES:

Material Handling Equipment: All the handling equipment is supplied by the stevedores. 1 forklift of 4 tons capacity and 11 forklifts between 4 and 8 tons capacity.

Storage facilities: 45,000 sq. m. of open air areas. Specialised equipment for the discharge of bulk equipment (pyrite, clinker, mineral etc . . .)

1 specialised berth equipped with a vat-type storage system, for bulk liquids (oil or wine).

Unloading or loading capacity – cement 1,400 tons per day; various: 400 tons to 700 tons per day and per gang; ores in bulk: 1,200 tons per day with 2 hoppers, 2 cranes and 2 gangs. Bulk liquids 20 tons per day.

Facilities for Specialised Goods: 2 adjustable platforms for Ro–Ro traffic. Height of quays 1.23 m. and 3.06 m.

BRIDGES: None.

STEVEDORES: 87 professional dockers; 10 occasional dockers.

Employer – Bureau Central de la Main d'Oeuvre (B.C.M.O.) of the Port of Nice.

MEDICAL: Hospitals are situated in the town and give excellent treatment in the case of accidents or illnesses of any nature whatsoever.

Passengers coming from foreign countries are required to abide by the prescriptions of international agreements (vaccination certificates, health certificates, etc.).

TANKERS: No specialised installations. Only vessels carrying black products are accepted where the load does not exceed 2,000 tons. They may come alongside one of two quays specially designated for this purpose.

DENSITY: *Salinity:* varies between 34 gr. and 38 gr. per litre.

REPATRIATION: Airport and railway network in the town.

AIRPORT: International Airport 4 km. from the Port. Principal countries are served by international airlines.

TIME: GMT plus 1 hour (Winter). Summertime kept from April to October.

HOLIDAYS: These are staggered as far as dockers are concerned so that there is continuity of operation.
POLICE/AMBULANCE/FIRE: Police tel. 55 91 22 and 17; Ambulance tel. 89 70 70 and 18; Fire Brigade tel. 89 80 80 and 18.
TELEPHONES: Telephones can be installed on board at Papacino Quay, Entrecasteaux Quay, Quai du Commerce, Quai de la Traverse, and Quai Ribotti.
SHORE LEAVE: Crew members may disembark after checking with Police.
IDENTIFICATION CARDS: For foreign seamen a permit to come ashore is issued by the Port Police.
GENERAL: There is a bus and taxi service very close to the port also there are coastal trading entities within the Port precincts.
AUTHORITIES: Port Captain, Port Directorate.

PARIS

AGENTS: Enquiries relating to agency at French ports may be addressed to Jolasry (France) S.A., 26, Avenue de l'Opera, Paris, 1er. Tel. 296 14-15. Telex: 210905 Paris. Cables: "Jolasry Paris".

PORT-VENDRES: 42.31 N. 03.07 E.

DOCUMENTS:
3 Crew Lists.
5 Passenger Lists.
2 Store Lists.
1 Maritime Health Declaration.
4 Cargo Manifests.
2 Bills of Lading.
Ship's Papers: Nationality Act, International Tonnage Certificate.
PILOTAGE: Three long blasts. ETA required for Agent, Pilot usually taken on outside unless in very bad weather.
MAX. SIZE: Max. length 150 m. max. draft 25-26 ft.
HEALTH: Usually Customs give free pratique. In event of suspected disease or fever on board must advise naval doctor.
RADIO: Marseille Radio (or St. Lys Radio) or Perpignan Radio.
TUGS: None available.
CRANES: 1 shore crane available only of 20 tons.
SPECIALISED CARGO-HANDLING FACILITIES: 3 roll-on/roll-off berths, 1 refrigerated warehouse 11,000 cu.m., and 1 warehouse of 1,200 sq.m. with temperatures regulated at 10° centigrade.
STEVEDORES: ETA to be given to Agent in order to arrange gangs (usual rate per day. 8 normal working hours). 200 tonnes per gang.
MEDICAL: Perpignan Hospital (30 km. away).
TANKERS: Berth for wine tankers with pipe-line.
DENSITY: Salt water.
FRESH WATER: Supplied by Chambre de Commerce, Port-Vendres.
FUEL: For small craft only, otherwise delivery by trucks.
CONSULS: Sweden.
DRY DOCK: 1 travelift for craft up to 150 tons.
SURVEYORS: Lloyds Sub Agent and Vessel's and Cargo Surveyors.
OPENING/CLOSING HATCHES: Normally to be carried out by crew (or as per charter party if any).
CARGO GEAR: Load/discharge effected by ship's gear.
GANGWAY/DECK WATCHMEN: Recommended if loading dangerous cargo.
CERTIFICATES: Load Line Certificate.
International Tonnage Certificate.
Deratisation Certificate.
CUSTOMS ALLOWANCE: See "Calais".
IDENTIFICATION CARDS: Only seamans book required.
REPAIRS: Minor repairs only.
AIRPORT: Perpignan Rivesaltes (30 km.)
TIME: GMT plus 1 hour in Winter. GMT plus 2 hours in Summer.
HOLIDAYS: As for whole France – cargo work can be arranged on those days as overtime.
POLICE/AMBULANCE/FIRE: Tel. 82.00.60 or five long blasts. Officier du Port: 82.12.00.
SERVICES: Workshop for small repairs, radio/radar repairs available, ship chandler for bonded stores, laundry.
SHORE LEAVE: Crew members are allowed ashore.
AUTHORITY: Service Maritime-Capitainerie.

AGENT: See "Paris".

PROPRIANO: Corsica, 41.40 N. 08.54 E.

(See Plan Book)

DOCUMENTS:
3 Crew Lists.
3 Passenger Lists.
1 Provisions List.
1 Cargo List.
1 List of Articles (new and Customs-barred) in possession each crew member – cameras, binoculars, radios, cigarettes, spirits, etc.
1 Health Declaration.
PILOTAGE: Not compulsory.
ANCHORAGE: Outside port for cruise vessels.
MAX. SIZE: Draft 5 m.; length 160 m.
RADIO: Within 50 miles call Ajaccio Radio VHF Channel 16. Then connected over Channel 23 to telephone network.
TUGS: None available.
BERTHING: New Marina with 250 berths; additional 200 berths (1980). Facilities include fresh water, electricity, telephone. Crane available for lifting pleasure craft. Engine repairs also possible.
STEVEDORES: 24 hours accurate ETA necessary for ordering gangs. No work on Sundays and official holidays.
CARGO GEAR: Only a few nets and slings available; all other gear must be supplied by ship. Ship's derricks used.
FRESH WATER: Available at very slow pumping rate.
FUEL: Available.
REPAIRS/CONSULS: None.
TIME: GMT plus 1 hour.
AIRPORT: Propriano Tavaria 6 km. Direct flights to Marseilles, Nice and Lyons in Summer. Daily connections Airport Campo del Oro/Ajaccio.
POLICE/AMBULANCE/FIRE: Tel. Gendermarie Propriano 76.00.17.

QUIMPER-CORNIQUEL: 47.58 N. 04.07 W.

Stores on Board.
Ship's Papers.
PILOTAGE: Pilot Station, tel. 910640. Contact via Le Conquet Radio or St. Nazaire Radio.

If vessel's ETA changes, telephone either the Agent or the Pilot at least 3 hours before arrival.

The pilot boat is a small black launch, white bulwarks with anchor painted on bow of each side, white cabin at the stern, one mast.

Only one Pilot on duty, but will meet ship at the time given in their ETA. Pilot boards either on the bearing 346° with Lighthouse of Benodet and du Coq in alignment, or on the bearing 000° with Lighthouses of Benodet and Combrit in alignment. Vessel should come as near as possible to the entrance, Vessels are anchored at the port entrance, or in the river, and await the tide, or proceed directly to the port.

In case of bad weather, when the Pilot may not embark, vessel to follow the pilot launch on the bearing 346° up to Plage du Trez, where boarding is possible. Vessels at anchor awaiting Pilot should get under way to approach the pilot boat on the bearing 346° when they see the launch approaching.
ANCHORAGE: Depths of 11 m. in position with the Taro Tower, bearing 245°; distance 0.8 miles.

Depths of 6 m. in position with the Point of Combrit bearing 000°; distance half a mile.

Depth of 9 m., bottom sand and mud, in Du Trez anchorage at the mouth of the Odet.
RESTRICTIONS: Vessels arriving at night must anchor outside the port entrance. It is dangerous to enter the river at night as there are no lights, and the channel is restricted by yachts at anchor.
MAX. SIZE: At spring tides: length 78 m.; breadth 12 m.; draft 4.95 m. At neap tides: length 72 m.; breadth 12 m.; draft 3.40 m.
RADIO: The Port Superintendent requires 24 hours notice of arrival.
TUGS: No tugs available.
BERTHING: At one quay there is 226 m. length for coasters. One quay of 120 m. length for discharging sand. 3 cranes available.
TANKERS: There is a fuel/oil depot at Quimper-Corniquel supplied by coastal tankers from Donges. Max. draft for tankers at Quimper is 3.50 m. to 4.10 m.
FRESH WATER: 5 drinking-water hydrants situated on the quay, loading rate 12 t.p.h.
FUEL: Can be supplied by various companies from tanker lorries.
AIRPORT: Airport of Plugussan situated 5 km. from the port. 2 regular daily flights to Paris.
AUTHORITY: Ingenieur en Chef des Ponts Chaussees, Directeur Departemental de l'Equipement.

AGENT: See "Paris".

ROCHEFORT SUR MER: 45.56 N. 00.57 W.

For all general information refer to Tonnay-Charente.
MAX. SIZE: Max. permissible length: 115 m; breadth: 16 m. (ships must pass through a lock of 18 m. width).

Max. draft is 18 ft. at any tide, 21 ft. at Spring tides.
POLICE/AMBULANCE/FIRE: Police 17; Ambulance 99.30.69;
AUTHORITY: Bureau du Port.

ROUEN: 49.28 N. 01.04 E. (See Plan Book)

DOCUMENTS: Cargo Manifest or Manifest of Ballast, Certificate of Cargo Space. Bills of Lading. Ship's Register. 6 Crew Lists. 3 Passenger Lists. Health Declaration. Derat Certificate or Exemption. Declaration of Crew Personal Effects. Certificate of insurance for oil pollution damages (tankers over 2,000 tons).
PILOTAGE: Vessels proceeding to the ports of Rouen and Honfleur are met by pilot boat on La Carosse Roads (Rade de La Carosse). Pilotage is compulsory between the mouth of the Seine and Rouen. Vessels of 55 m. length and less can be exempt from the obligation for the lower

sector of the river, and vessels of 45 m. and less for the upper sector, on condition that such vessels be equipped with suitable radar, with VHF sets and able to speak French, and that they are not carrying dangerous goods. Each vessel taking a Pilot for the downriver stage between La Carosse Roads and Villequier, or vice-versa, and a Pilot for the upriver stage between Villequier and Rouen, or vice-versa.

The following signals should be made for summoning a Pilot on La Carosse Roads: By Day: flag "G" of the international code of signals. By Night; in morse by signalling lamp. Failing this, the vessel should hoist her national ensign at the foremasthead.

The following additional signal can be made when arriving on La Carosse Roads: 5 prolonged blasts (– – – – –) to call attention to pilot boat.

The radio station "Rouen-Pilot", located in the radar tower at Honfleur keeps a permanent watch day and night on VHF Channels 16 and 11. Masters are requested to call this station when arriving on the roads.

Vessels leaving harbour or shifting berth should apply for a Pilot to the Pilotage office, 21 Avenue du Mont-Riboudet, Rouen (tel: 71-68-50)

The Rouen pilot boat keeps a telephonic watch during the following period of all tides: from low water Le Havre until 4 hours after high water.

Since the pilot boat's watch is not permanent, Masters wishing to enter into direct contact with her are recommended to signal their position during the high water prior to that by which the vessel expects to enter the roads.

ANCHORAGE: In the outer roads at La Carosse and at several places in the river.

Two waiting berths on buoys at Villequier and one at Mesnil-sous-Jumieges.

RESTRICTIONS: The height of water above chart datum at Le Havre is broadcast on Channel 11 every 10 minutes by Honfleur VHF port radar station and on request.

MAX. SIZE: Vessels over 250 m. length have entered. Draft approximately 2.50 m. more than height of tide at Le Havre. Maximum about 34 ft. Port accessible to vessels of 35,000 d.w.t. fully laden and 75,000 d.w.t. partly laden.

HEALTH: Pratique given by Customs Officers who board on arrival. If any case of suspected disease on board or any reason why vessel should not receive free pratique, Master should radio Agent before arrival, advising full details.

RADIO: Vessels are obliged to give their ETA and draft in salt water at least 5 hours before arrival to Rouen Information Centre via Brest – Le Conquet Radio or Boulogne Radio. The Port of Rouen Authority has introduced a VHF network of frequency modulation for port needs working on the following frequencies: Channel 16 (156,800 mHz); international safety and watch frequency. A permanent watch is maintained on this frequency at the Information Centre of the Port of Rouen.

Channel 11 (156.550 mHz) compulsory frequency to be used by all ships, boats, ferries . . . . in movement between the pilot boat station and Rouen.

Channel 71 (156.575 mHz) secondary working frequency.

Special process for tankers: For oil tankers it is compulsory, before entering the 12 miles limit, to have a VHF contact with Rouen-Pilot or with Rouen-Port, and to keep permanent VHF watch till the ship is back out of this limit.

Tankers over 250 m. length or 12 m. draft must wait for Pilot 7 miles from shore, others can come to La Carosse roads, passing half mile South of lightship Le Havre and remaining always South of a line marked by the buoys LH and RN.

They have obligation to announce every fault in engines, anchors or windlass, steering gear, radar, mooring gear, and their Masters must sign an inquiry paper given by the Pilot when coming on board.

PORT RADAR: Two radar stations are located respectively at the East of Honfleur and on the right bank of the river.

Both stations are operated from Honfleur and work as navigational aids between the first buoys of the channel and Aizier, from 2 hours after until 8 hours after low water Le Havre.

To obtain information call on VHF Channel 16 (156.800 mHz) or 11 (156.550 mHz).

Information given by this radar, at ship's option, is considered as an aid only and implies no responsibility either to the port authority or its Agents in any subsequent recourse to such information, which is given free of charge.

TUGS: Permanently available in the Port of Rouen. Tug assistance in the River Seine is available on request.

BERTHING: The main Maritime Port of Rouen extends from the Guillaume le Conquerant Bridge as far as La Bouille over a distance of 11 miles. Quays and wharves cover the length of both banks of the Seine. There are also 5 basins in direct connection with the river without the interposition of any locks;

On the Right Bank: St-Gervais docks; on the Left Bank: the Timber dock, the Rouen-Quevilly dock, the Floating Docks tidal basin, and the "Bassin aux hydrocarbures" at Petit-Couronne.

The extent of quayage in the Maritime Port is about 38,000 ft., and in the river docks 5,900 ft.

Between the downstream limits of the Port of Rouen and the sea are a number of maritime establishments serving local requirements. The most important of these, all of them managed by the Port Authority of Rouen, being the petroleum terminal at Port Jerome and the quays of St. Wandrille (2,000 ft.) and Radicatel (1,380 ft.).

Containers: One berth at the Quai de l'Ouest (St.-Gervais dock) with two 25 ton cranes, two berths at Rouen Quevilly dock with two 25 ton cranes and two 35 ton gantry cranes.

One private berth at Radicatel quay with a gantry crane.

Another container terminal will be built at Petit-Couronne quay for 1982.

Roll-on/roll-off: Five berths in service of which two roll-on/roll-off berths at Petit Couronne and Quai de Rouen – Quevilly able to load or unload rolling heavy lifts up to 400 tons (max. draft: 10 m.)

Dock	*Quay*	*Facilities*	*Length* (m.)	*Depth at low water* (m.)
Charles Babin	SCAC	Storage include 1 hectare of storage space in water (logs)	101	9
	St.-Gervais	7 wine unloading points 1 ramp—load up to to 30 t (Vehicles and paper pulp)	—	7.8
Saint-Gervais	Quai de L'Ouest	5 unloading "norias" for bananas	411	8.8

	SCAC	4 moving gantry cranes 7.5 t	310	8.8
	M.R.M.	oilcake, coal, flour loading machinery for cereals 3 cranes at 400 t/h silo 40,000 t capacity		11.0
	SAMS	2 electric cranes 6 t; 4 cranes 5 t; 2 cranes 2 t 2 gantry cranes 8 t for woodpulp, paper wood, gypsum, bagged cereals	390	8.2
	SOGEMA	2 electric cranes 8 t; 2 cranes 6 t; 1 crane 3 t 1 gantry crane 7 t (fertilizer)	285	8.2/10
	Petit-Couronne	Refined products and Gas pipe-lines		7.5/9.5
	Appontement Jupiter	Crude oil; pipe-lines		11.1
Moulineaux	Moulineaux	1 ramp for ships—up to 30 t 1 ramp for barges (new cars)		7.5
St. Wandrille	St. Wandrille	To be fitted with 4 cranes and partly specialized for coal	645	9.5
Radicatel	Radicatel	20,000 d.w.t. ships	420	
Honfleur	Honfleur		122	

STEVEDORES: From Monday to Friday:

General working schedule; 0700–1100, 1300–1700, 1700–2300, with possible overtime.

Special working schedule for bulk vessels (excluding cereals) and roll-on/roll-off vessels carrying cars: 0700–1100, 1300–1700, 2000–0600 with possible overtime.

On Saturday: for all ships 0700–1300 and 1300–1800.

MEDICAL: All facilities available. Vaccination certificates required if vessels coming from a North African port. Yellow fever inoculations required if vessel coming from South of parallel 30° N.

TANKERS: Petit Couronne, Shell, 3 berths for vessels up to 11 m. draft.
Port Jerome, Esso and Mobil Oil, 2 berths for vessels up to 11 m. draft.
Honfleur, 1 berth for vessels up to 9 m. draft.
Deballasting facilities available at all berths.
DENSITY: Except at Honfleur, all berths are in fresh water.
FUEL: All grades available from berths or by barge.
CONSULS: The following countries are represented in Rouen: West Germany, Belgium, Denmark, Spain, Finland, Greece, Norway, Netherlands, Portugal, Algeria, Mauritania, Senegal, Sweden, Tunisia.
WATCHMEN: Recommended to employ watchmen on board tankers and vessels handling dangerous cargo.
HATCHES: Opening and closing hatches always performed by ship's crew.
REPAIRS: All deck, engine and radio repairs can be effected.
DRY DOCKS: Two floating docks, the largest of which is 180 m. long. 25 m. wide for vessels up to 14,000 tons.
SURVEYORS: Are represented: Bureau Veritas, Lloyd's Register.
AIRPORT: Nearest Rouen-Boos. Le Havre – Octeville, 80 km. away. Paris – Orly or Paris – Roissy, 120 km. away.
TIME: GMT plus 1 hour in Winter. GMT plus 2 hours in Summer.
POLICE/FIRE/AMBULANCE: Police 17; Fire 18; Ambulance 18 or by VHF via Rouen-Port on Channel 11 .
TELEPHONES Can be connected on board.
IDENTIFICATION CARDS: Crewmen going ashore should carry passport or identity card.
HOLIDAYS: No labour available on the following days; New Year (1st January); Easter Monday; Labour Day (1st May); Ascension Day; Whit Monday; National Day (14th July); Assumption Day (15th August); All Saints' Day (1st November); Armistice Day (11th November); Christmas Day (25th December).
DEVELOPMENTS:

Dredging and embankment operations in order to accommodate by 1980 vessels of 35,000 d.w.t. fully laden in Rouen and of 60,000 d.w.t. at Port Jerome and Honfleur.

Building of a 430 m. quay at the Rouen-Quevilly dock.

Building of a 200 m. quay at Moulineaux.

Building of a new dredger for the maintenance of the channel in the Seine estuary.

AUTHORITY: Port Autonome de Rouen.

AGENT: Jolasry (France), 52 Quai Gaston Boulet, Rouen. Telex 77588. Tel. 70-87-27.

ST. LOUIS DU RHONE: 43.23 N. 04.48 E.

(See Plan Book)

DOCUMENTS:
1 Cargo Manifest or Manifest in Ballast.
Ship's Register.
Bills of Lading.
6 Crew Lists (8 if Spanish or U.S.S.R. or ships bound to these countries).
3 Passenger Lists.
Health Declarations.
Deratisation Certificates.
3 Bunker Supply forms.
1 Declaration of Crew Personal Effects. If on inspection articles or quantities not in conformity or in excess, Master held responsible, articles removed and heavy fines imposed.

PILOTAGE: Compulsory for vessels exceeding 300 tons net. Contact Pilots by Marseilles Radio or by VHF Channel 16 for calling Port de Bouc Port Control, Channel 9 for traffic. Pilot boards 1 mile E.N.E. of the lighthouse on the jetty.

River Pilot required by vessels loading salt in the Rhone river, boards at the locks entrance to Port St. Louis basin.

ANCHORAGE: Suitable anchorage outside Port St. Louis keeping well clear of Fos channel.

RESTRICTIONS: The St. Louis Canal is 3,300 m. long and 63 m. wide, with a depth of 24 ft. 6 in. The lock has a length of 159 m., width 22 m., and depth 24 ft. 6 in.

No entrance allowed between 2100 and 0500 hrs. except in emergency, although entrance may be effected up to 2400 hrs. if ordered before 2100 hrs.

Entrance may be delayed when large tankers are proceeding in the Fos Channel.

HEALTH: Pratique given by Customs officers who board on arrival.
RADIO: Within 150 miles use Marseilles Radio FFM, otherwise St. Lys FFL.
TUGS: Four tugs available from 500 to 1,060 h.p. Ship's lines are normally used.
BERTHING:

Quays	*No. of Berths*	*Draft*
Quai Ouest	3	6.20 m.
„ Nord	2	6.50 m.
„ East	3	6.10 m.
„ Hardon	1	5.50 m.
„ de la Suisse	3	7.92 m.
„ Charles	1	7.92 m.

SPECIAL CARGO FACILITIES:

Company	*Berth No.*	*Length (m.)*	*Max. draft (m.)*	*Remarks*
C.R.E.A.	924	100	4.5	2 berths – Military, refined products.
Shell	925	80	4.6	Capacity 17,550 tons. Refined products.
S.A.G.A.	919	100	7.0	Natural Gas – Loading and discharging. Berth also used by Medistock.
Somerim	504	—	5.9	Public berth. Capacity 450 tons. (Bulk Wine).
Sedipa	921	100	5.5	Public berth, storage capacity 9,000 tonnes. (Chemicals, vegetable and animal oils).
Soterm	923	150	7.0	Private berth used by Soterm, Mazout and Deleup. Storage Capacity: Mazout 15,000 tons. Deleup and Soterm 30,000 tons.
Gedemer	916	100	7.0	Private berth. Storage Capacity: 5,000 tonnes. (Liquid tar).

Basin	*Berth No.*	*Length (m.)*	*Max. draft (m.)*	*Remarks*
Port St. Louis/Rhone	909	130	6.0	—
Tellines	941	130	7.92	Ro-ro.
„	942	147	7.92	—
„	944	147	7.92	Ro-ro, heavy lifts. (4 ton/sq.m. – 6 ton/sq.m.).
„	943	160	7.92	Heavy lifts (4 ton/sq.m.). Private crane, 544 tonnes capacity and Port Authority floating derrick 500/600 tonnes capacity, located at this berth.

STEVEDORES: Shifts are 0800–1200 hrs., 1300–1730 hrs. Saturday afternoon, Sunday and Holidays in overtime. Shifts of 0600–1200 hrs.and 1300–1900 hrs. count as a day each.
CRANES: *Also see "Berthing".*
Quay cranes: 6×3-6 tonnes. One private crane at heavy lift berth, capacity 540 tonnes.
Mobile cranes: 1×6 tonnes, 1×12 tonnes.
Floating crane: Marseilles Port Authority operate a floating derrick, capacity 500-600 tonnes.
Front Loaders: 1×30 tonnes for containers.
FRESH WATER: Available from hydrants on the quays at a rate of 100 t.p.h.
FUEL: Available only by barge or railcar.
AIRPORT: Marignane Airport distant 70 km.
AUTHORITIES: Port Autonome de Marseille. Capitainerie de Port du Bouc (Harbour Master).

ST. MALO: 48.38 N. 02.02 W.

(See Plan Book)

DOCUMENTS:
Ship's Register.
Store List in duplicate (ship's stores).
Crew Declaration of Bonded Stores.
Health Declaration.
Manifests and B/Ls.
Crew List (duplicate).
Passenger List (duplicate, if necessary).

PILOTAGE: Compulsory for vessels over 150 NRT. (1) During tidal hours, 2 hours before and after high water, vessels may enter into direct contact with the Pilots on VHF Channel 12. Call Sign "Pilot – St. Malo".

(2) Outside tidal hours and during working hours, vessels may call the Port Office on VHF Channel 12. Call sign "Port Control – St. Malo".

When waiting for the Pilot, vessels anchor near the "shore buoy" and report their arrival to the Port Office.

In good weather, the Pilot boards near the "Shore-buoy". In bad weather when the wind is from N.E. or N.W. the Pilot may guide the vessel as far as Dinard Roads, where the Pilot will come aboard.

Pilot Cutters: One cutter 42 ft. 6 in. fitted with radar, relief cutter 36 ft. both fitted with radio-telephone and VHF Channels 6, 12 14, 16, 24 and 25.

ANCHORAGE: Large vessels with draft greater than 13 m. anchor by the land-buoy. Smaller vessels may anchor in St. Malo Roads, there is sufficient swinging room for vessels with draft of 7 m. It is recommended to use a Pilot to come into this anchorage.

RESTRICTIONS: Vessels are allowed to enter from 2 hours before to 2 hours after high water. To be certain of mooring, vessels should arrive at the lock at least 1 hour after high water.

Depth available 20 to 22 ft. at spring tides.

No movements during foggy weather. Large vessels (length greater than 100 m.) approach the lock at high-tide. Tankers lock in by themselves (no other vessel allowed in the same lock). Movements are carried out day and night.

MAX. SIZE: The height of the tide, the length of the lock and width of the channel must be taken into account.

Cargo Vessels. Length 150 m. (492 ft.), beam 20 m. (65 ft. 6 in.), draft for vessels length 135–150 m., height of tide less 2.5 m. (To be suppressed end of 1981 when max. draft will be 9.0 m.). Less than 135 m. LOA: Rise of tide. 2 tugs required.

Tankers: Length 147.50 m. (443 ft.), beam 20 m. (65.6 ft.), draft see *"Cargo Vessels"*. 2 tugs required if vessel not fitted with bow-thruster.

HEALTH: Customs Officers are appointed as Health Officers and deliver pratique. In case of suspect disease, Masters must declare it at once by radio to their Agents who will contact authorities.

RADIO: Vessels coming from West use Brest le Conquest Radio, call letters FFU. Vessels coming from North should go through Boulogne Radio, call FFB.

VHF:

(a) Port Office – Channel 12; tidal hours and working days.
(b) Pilot – Channels 6, 12 and 16, when awaiting a vessel.
(c) Tugs – Channels 6, 12 and 16, at the time of high tide.

Vessels call Pilot and tugs on 12 or 16 and change to Channels 6 or 8 for working.

TUGS: Two tugs are available at St. Malo (650 and 600 h.p.). Usually joins vessel at the end of breakwater. Ship's lines are usually used.

BRIDGES: Can be passed during tide vacation, otherwise, notice required to open.

BERTHING: One berth outside lock for car ferries.

Basin Duguay Trouin, length 1,870 m. One outlet for molasses at Berth No. 1. Bassin Vauban, length 1,100 m. Bassin Bouvet, length 750 m. Duguay Trouin and Bouvet Docks: 140 m. long, 16.50 m. breadth.

1 new quay in Vauban Dock, (1) Quai Des Corsaires, length 315 m., general cargo. 2 cranes on rails. Capacity 12 tons at 14 m. One unit for continuous discharge of phosphate – rate 1,000 t.p.h., 2 outlets for discharge of molasses at the quay edge and one outlet for the discharge of phosphoric acid at the quay edge.

Grain silos: 1 of 6,000 tons capacity with loading possibilities of 130 t.p.h. and 2 of 6,500 tons capacity each with loading possibilities about 100 t.p.h. each are situated in Bassin "Duguay Trouin".

CRANES: 12 electric cranes, capacity 5–12 tons and 6 mobile cranes capacity 7–13 tons.

TANKERS: Tanker quay, extension of Quai Des Corsaires, length 130 m. Diameter of discharge pipe 200 mm., one mobile arm, vessels to supply reducers. Max. discharge rate, 650 cu.m./hour.

No deballasting facilities. Tankers wishing to effect repairs must leave port and wash out their tanks and obtain a gas-free certificate.

On completion of operations tankers must leave on the next tide. If a second tanker is waiting to berth she must wait in the roads.

Safety instructions are issued when the vessel passes through the locks.

BERTH ALLOCATION: Dependent upon goods to be discharged and characteristics of vessel. Bearing in mind the widths of the channels, their depth and dimensions at the foot of the quays, the height of the dock which varies on average between 11 m. and 12.5 m.

The largest vessels tie up at Quai Des Corsaires.

It is recommended that an advance notice be sent via Agents to the Port Office 15 days prior to arrival, so that the vessel may be received under the best possible conditions.

STEVEDORES: In order to have workers ready on arrival, Masters are kindly requested to give as accurate as possible ETA the day before arrival, especially if there are many ships discharging at same time.

Normal working hours 0800-1200 and 1400-1800 from Monday to Saturday, except holidays. There is no night overtime. Dispensations may be made to finish a vessel so that she may catch the tide.

Rate of discharge dependent on type of goods involved.

MEDICAL: Notice is required to obtain an appointment with doctors or dentists. Hospital service is available.

DENSITY: Average density is 1010.

FRESH WATER: Can be delivered from quay.

FUEL: Bunkers delivered at St. Malo (with notice varying, depending on the Company – Shell 2 days, Esso 1 week, etc.) come from Donges by road lorries and cost of haulage is supported by the ship (expensive). D.O. can be obtained from local suppliers but out of contract.

FIRE PRECAUTIONS: Usual non-smoking precautions (a watchman is compulsory for tankers).

DEVELOPMENTS: The fitting out of Jacques Cartier Basin commenced in 1980 and is expected to take 2 years.

GANGWAY/DECK WATCHMEN: Watchmen are not compulsory except for tankers.

OPENING/CLOSING HATCHES: This work is normally carried out by crew. Stevedores' cranes may help for the beams, but dockers will not touch them.

CERTIFICATES: As per International Conventions, all Safety Certificates, Load line, Radio, etc.

All vessels entering the port must be up to date with safety certificates as required by international conventions. An attestation must be handed in by the Captain when he passes through the lock.

CUSTOMS ALLOWANCES: 200 cigarettes, or 200 grams of tobacco, and 1 bottle of spirit per crew member.

IDENTIFICATION CARDS: Crew members must have an identification card on their sailor's book when going ashore.

CONSULS:

Netherlands		(99) 56.07.21.
Denmark	(Vice-consul)	(99) 56.07.21.
Norway		(99) 56.07.21.
Finland	(Vice-consul)	(99) 56.31.57.

REPAIRS: Deck and engine repairs can be carried out by shipyard or workshops. Electricians are also available. RAMAC Agency can repair radars and radios, also Radio-Ocean agency.

DRY DOCKS: One dry dock. Max. length admissible 120 m., breadth 15.5 m. and draft 8.0 m. One slipway, 500 tons. Length admissible 45 m., breadth 9 m. With sufficient notice.

REPATRIATION: Can be effected from St. Malo by train or plane.

AIRPORTS: 8 miles from port. Wintertime, services to Jersey (C.I.), with onward flights to England and Wales. Summertime, several times per day to Jersey, London, and to Paris except week-ends.

TIME: Local time is GMT plus 1 hour. From April till September GMT+2.

HOLIDAYS: French legal holidays. Cargo work may be carried out, but arrangements must be made with stevedores.

POLICE/AMBULANCE/FIRE: Police, 40.85.80 and 17; Ambulance and Fire, 18.

TELEPHONES: No telephones on the quays.

DELAYS: Berthing delay will only be due to tide. For loading or discharging, it depends what kind of cargo is handled.

SERVICES: Compass adjusting, radar or radio adjusting can be carried out.

SHORE LEAVE: Crew members are allowed ashore.

AUTHORITY: Commandant du Port.

AGENT: See "Paris".

SETE: 43.24 N. 03.42 E. (See Plan Book)

PORT LIMITS: The seaward boundaries of the Port within which a vessel is considered to be an "arrived vessel" are indicated as follows: To the South by a line with the red light of Eastward end of breakwater bearing 257°; to the East by a line with the church tower of Frontignan bearing 005°; to the North by coastline. Also see "Developments".

A second zone is a circle of 1 mile radius centered on a point located on the bearing 298° and at 3.2 nautical miles from Eastward end (Red Light) of breakwater. This zone is connected from a landing buoy by a channel 500 m. wide steering 326°. This area is only for big tankers from 100,000 tons up to 270,000 tons which operate at buoy IMODCO Single Point Mooring System.

DOCUMENTS:

Cargo Manifest or Manifest of Ballast.
Certificate of Cargo space.
Bills of Lading.
Ship's Register.
3 Crew Lists.
4 Passenger Lists.
Health Declaration, eventually vaccination list.
Derat Certificate or Exemption.
Declaration of Crew Personal Effects.
2 Provision Lists.

PILOTAGE: Request Pilot by international signals (sound, flags, light signals) or telephone through Marseilles Radio or VHF by Sete Radio Channel 25, tel. 74.34.06 (or pilot boat VHF Channel 12). Description of pilot boats; motor launch with black hull, white band, white anchor on hull at bow. Pilot embarks between 1 and 2 miles South of breakwater in good weather. In bad weather he embarks in the shelter of l'Epi Delon. In this case make prior contact by radio or VHF (Marseille or Sete Radio) or Port Office VHF Channel 12. Provide a ladder on each side.

ANCHORAGE: In roads from 0.5 mile to 1 mile to South of breakwater. (See "Port Limits" and "Tankers").

RESTRICTIONS: *Commercial Harbour:* In the Canal Maritime, length max. 145 m., breadth 20 m., draft 22 ft. 06 in.

In the Bassin a Petroles, max. length 140 m., draft 33 ft. except to the new petroleum pier for tankers up to 30,000 d.w.t., m. length 225 m., draft 11 m. (36 ft.) Also see "Developments".

MAX. SIZE: *Sea Line Frontignan:* South Berth: S.B.M. Tankers 270,000 d.w.t. draft 21 m. (69 ft.).

North Berth: C.B.M. Tankers up to 100,000 d.w.t. lightened draft 13.1 m. (43 ft.).

Bassin a Petrole: New Berth Tankers 30,000 d.w.t. draft 11 m. (36 ft.).
New dock for ore carriers 210 m. length; 10.4 m. draft (34 ft.)
Commercial Harbour up to 8.5 m. draft (28 ft.).

Commercial Harbour in the Canal Maritime: max. length 140 m; breadth 20 m., draft 6.85 m. (22 ft. 06 in.).

HEALTH: Pratique given by Health Officers or by Custom's officers who board on arrival. If any case of suspected disease on board or any reason why vessel should not receive Free Pratique, Master should radio Agent before arrival, advising full details.

RADIO: Marseille or Sete Radio VHF Channel 21 or 25, Port Office Channel 12. Port Authority Telex No. 480220.

TUGS: Tow line to be furnished by ships. Vessels taken in tow near the breakwaters on the North side.

BERTHING: Commercial Harbour Avant-Port, Nouveau Bassin, Bassin Orsetti maximum draft 8.50 m. Canal Maritime, Bassin du Midi, Canal Lateral: max. draft 6.85 m. Dock No. 1: East Quay: 3 berths max. draft in approach channel and alongside the South berth (E1): 11 m. Central and North berth: (E2 and E3): 10.40 m. West Quay: 2 berths. Central berth (G2) and North berth (G3) max. draft: 11 m.

CARGO HANDLING FACILITIES: Dock 1 – East Quay: Berth E1 (Southward) and E2 (Central) specialise in ore. Berth E3 (Northward) specialises in general cargo and timber, also roll-on/roll-off berth with movable ramps for big ships. West Quay: Berth G2 and G3 for general cargo, 4 cranes; 2 with grab, Berth G3 to the North with a fixed ramp for large roll-on/roll-off vessels. Berth G3 has connection for unloading molasses.

South Berth G1 on dolphins, for roll-on/roll-off vessels of length 120 m. (approx.) and draft of 7 m. Orsetti Dock South Quay (D) general cargo and a roll-on/roll-off berth for early fruit and general cargo (D3). North Quay (B) with Berth (B2) for passenger/car ferries to Algeria and the West Berth (B1) for general cargo.

TANKERS: Frontignan Sea Line Terminal North berth (C.B.M.) 1 berth for tankers up to 100,000 d.w.t. lightened draft 13.1 m. (43 ft.). Two 12-in. hoses for crude oil discharge. Submarine pipe-line 28 in. diameter. Commerial Port: 1 berth for tankers up to 30,000 d.w.t. draft 11 m. (36 ft.). 1 old berth for tankers up to 140 m. length or 10,000 d.w.t., draft 10.1 m. (33 ft.). Slop disposal facilities available up to 1,000 cu. m. per hour.

Frontignan Sea Line Terminal (South berth) Mobil SBM.

Operator: Mobil Oil Francaise.

Position: 43° 22′ 12″ N. 03° 46′ 49″ E.

Restrictions: Least depth of water 92.5 ft.

Max. Size: No limit on length and beam. Max. draft 69 ft.

Pipe-line: Length, 26,000 ft. Diameter 44 in.

Hoses: 2×16 in. Bow to manifold distance should not exceed 600 ft. Connections port-side.

Max. Pressure: 125 p.s.i. at rail.

Pumping Rates: 8,500 t.p.h.

Density: 1026.

Fresh water: Not available.

Fuel: Bunker "C" available by barge, capacity 900 tons. D.O. not available.

Ballast: No facilities for receiving dirty ballast.

Vessels up to 50,000 d.w.t. normally berth at spread mooring.

Regulations and Information: When scheduled to discharge at SBM Master will receive the following standard message from Mobiltrans Ny: "Your vessel will discharge at Frontignan SBM. located 43° 22′ 12″ N. 3° 46′ 49″ E. stop 4 days prior arrival radio your Agent your ETA SETE contact "Sete Port Office" on VHF Channel 12 approximately 30 miles range advising your ETA to entrance buoy located 43° 14′ 55″ N. 3° 53′ 40″ E. Only when authorisation is granted by "Sete Port Office" you may proceed to SBM on *compulsory* route on course 326° extending 500 m. each side of line joining approach buoy to SBM. When proceeding on compulsory route your vessel shall exhibit additional marks by day 3 black shapes in a vertical line the highest and lowest 1 ball the middle 1 diamond every one spaced by 1.5 m. stop by night 3 all-round lights in a vertical line the highest and lowest red the middle white every one spaced by 2 m. stop. Pilot will board approximately 3 miles seawards from SBM on compulsory route".

Your Agents will forward the following cable: "Advise ETA type size your manifold flanges whether suitable reducers available and Smit's Bracket fitted on forecastle stop Boom to lift 16 in. ID floating hose and two 16 in. 150 ANSI standard flanges ready on portside. On forecastle have 2 polypropylene 8 in. messengers 150 fathom ready. Accommodation ladder on starboard and boat ropes each side."

The "approach buoy" referred to in para 1, is located in 43° 14′ 55″ N. 3° 53′ 40″ E. having the following characteristics: 3 m. diameter – 7 m. height mast painted with vertical strip white and red with 2 crosswise shapes, with a white light 4 flashes every 12 seconds. Proceeding inshore of this buoy and inside the 12 mile line is not allowed without prior authorisation granted by "Sete Port Office" on VHF Channel 12.

An approach channel exists between the approach buoy and the SBM extending 500 m. each side of a line joining the approach buoy to SBM and must be used as a compulsory route on a course of 326°. Same compulsory route applies for outgoing tankers leaving the SBM.

When proceeding in the approach channel the vessel shall exhibit in addition to the normal navigation signals: *by day:* 3 black shapes in a vertical line the highest and lowest 1 ball, the middle one a diamond – every one spaced by 1.5 m. *By night:* 3 all-round lights in a vertical line, the highest and lowest red, the middle one white, every one spaced by 2 m.

The Pilot boards incoming tankers and leaves outgoing tankers approximately 3 miles seawards from SBM on the compulsory route. He will stay on board during the period the vessel remains secured to the SBM.

Every vessel proceeding to or departing from the SBM which requires to anchor should use the following anchorage areas:

Anchorage A – Vessels with less than 15 m. (49 ft.) draft should anchor in the area bounded in the North by a line 0.5 miles off the breakwater, and in the East and West by meridian passing through the extremities of the breakwater, and in the South by the 20 m. (65.7 ft.) contour.

Anchorage B – Vessels having a draft of greater than 15 m. (49 ft.) should anchor in the Southern semicircle around the SBM extending between 400 m. (1,310 ft.) and 1,850 m. (6,000 ft.) from the SBM.

When a vessel is proceeding to the SBM a Marine Superintendent and a mooring team will board. Then anchors should be secured and cable pawls in the down position, deck scuppers must be plugged tight and VHF on standby on Channel 12.

Throughout the period the vessel remains at the SBM the engine should be ready and power available on deck winches and windlass.

Adequate deck lighting must be available at night, and a constant fo'c'sle watch kept on the SBM.

Propeller r.p.m. must be kept to a minimum. Intermediate ballasting may be required in order to prevent excessive strain on moorings.

While weather operational limits will depend on circumstances port regulations specify the following criteria: Vessel must cease discharge when wind is 30 knots, significant wave height 8 ft. (assumed current 2 knots) vessel must leave berth when wind is 45 knots and significant wave height is 18 ft.

The Master of every oil tanker coming to Sete to load several refined products, some of which are heated, is required to give the Port Office, a cargo plan before loading.

Masters of oil tankers are invited to follow the terms of new French Law (Arrete Prefectoral No. 491 ADM du 24 Mai 1978) specially to send a message to the French Admiralty (Prefet Maritime de Toulon) six hours before entering the territorial waters and six hours before leaving the Port of Sete (even if leaving for another French port).

FRESH WATER: Available on most quays or by lighter of 140 tons capacity during working hours. Advance notice required for Saturdays and Sundays.

FUEL: All qualities available subject to advance notice given.

REPAIRS: Handled by Scotto et Repetto: 2 slipways for handling and repair of small vessels, Mechanical workshops, General repairs.

Claverie, Mechanical workshop for heavy repairs, and boiler repairs.

Di Biase, general repairs and Mechanical workshop.

Affre, General repairs.

CONSULS:

Denmark	tel. 74.30.20.	Norway	tel. 74.31.83.
Finland	tel. 74.25.72.	Sweden	tel. 74.25.72.
Netherlands	tel. 74.25.72.		

Others at Marseilles.

WATCHMEN: Service necessary for ships loading or unloading dangerous merchandise. Optional for other ships.

CUSTOMS ALLOWANCES: 40 grammes tobacco per day per man (calculated in accordance with the length of voyage undertaken by the ship). Amount of alcohol fixed by Customs in accordance with the crew, and length of ship's stay in port. It is a matter of tolerance and not of right.

REPATRIATION: Repatriation and crew changes are easily arranged.

IDENTIFICATION CARDS: Crew men going ashore should carry passport or identity card.

TIME: GMT plus 1 hour – alteration from end of March to end of September to GMT plus 2 hours.

HOLIDAYS: New Year (1st January, no labour available); Easter Sunday (possibility of labour with overtime); Easter Monday (no labour available); Labour Day (1st May, no labour available); Ascension Day (possibility of labour with overtime); Whit Sunday (possibility of labour with overtime); Whit Monday (no labour available); National Day (14th July, no labour available); Assumption Day (15th August, no labour available); St. Louis Day (Monday, no labour available); All Saints Day (1st November, no labour available); Armistice Day (11th November, possibility of labour with overtime); Christmas Day (25th December, no labour available).

N.B. Every Sunday and day marked "possibility of labour with overtime" can be worked at the rate of 100%.

DEVELOPMENTS: Works are in progress to lengthen the breakwater "Epi Delon" by 1,050 m. Eastward on its present alignment. A red buoy with red flashing light marks the Eastern limit of this work. It is strictly forbidden for vessels to proceed between the red buoy and the lighthouse on Epi Delon Breakwater.

AUTHORITY: Commandant du Port de Sete.

AGENT: See "Paris."

STRASBOURG: 48.34 N. 07.42 E. (See Plan Book)

PORT LIMITS: In Strasbourg (Lat. 48° 34′ N., Long. 7° 42′ E.), the Port Autonome extends from the Km. 285 to the Km. 297 upon the Rhine, occupying an area of 1093ha., of which 234ha. are water areas including 14 docks (6 have a constant level, 8 a variable level), and 2 fore-harbours.

Out of these limits, the Port Automome de Strasbourg includes 8 branches designed for the handling of building materials, and 2 ports, Marckolsheim (at Km. 242) and Lauterbourg (at Km. 349), all the branches and ports being on the left bank of the Rhine.

DOCUMENTS: The ships must hold some documents, which they have to keep at disposal of the administration or the inspection authority when required, as following:

Certificate of Survey.
Certificate of Tonnage.
Certificate of Registration.
Log-Book.
Booklet of Verification of the used oils.
Attestation for Equipments of liquified gases.
Customs Documents for the carriage of goods.
Fluvial Bill of Lading.
Rhine Manifest.
Certificate of Ability to steer the ship.
Police Regulation for the Navigation on Rhine.
A.D.N.R., regulation for carriage of dangerous goods.
the documents relating to the boilers and other tanks under pression.

PILOTAGE: The pilotage is not compulsory on the Rhine and usually the Masters do not ask for a Pilot except for Gebirge and the Haut-Rhin. A Pilot can be obtained in the port of Kehl by dialling the number 19 — 49.7851.20.70.

ANCHORAGE: The ships have at disposal an area of about 10ha. in the North and South fore-harbours to take anchorage. Depth of water: at least 5.20 m.

RESTRICTIONS: Restrictions to navigation are to be published in the Advices to the Nautical Corporation of the Inland Water Transport.

MAX. SIZE: The max. sizes of ships allowed on the Rhine are as follows: Length: 110 m., — breadth: 11.4 m. The ships of Rhine do not exceed a draft of 4.0 m.

Dimensions of the locks: — North lock: length 125 m., breadth: 13.5 m., South lock: length 125 m., breadth: 13.5 m.

In the constant level docks, the water depth is 3.5 m., but only along the North—South axis of the port; if not there, the water depth is 2.5 m.

In the variable level docks, which are the docks with a direct communication with the Rhine, the minimum depth is 4.30 m.

These depths are given, the Rhine being supposed at its lowest bench-mark: 135 m.

HEALTH: There is no Health Service for the Rhine.

RADIO: All communications on the Rhine are performed by radio-link and radiotelephony:

VHF Channels 10 and 13: used for ship to ship communications.

VHF Channels 20 and 22: used for transmitting of nautical advice in the way shore-ship and in the reverse order.

VHF Channels 24, 25, 26 and 27: used for public communications.

RADAR: There is no radar station on shore.

TUGS: The Port Autonome de Strasbourg put at disposal of customers four tugs and one 600 C.V. pusher according to their needs.

BERTHING: 10 km. of quays can be used for mooring. Some of these quays are situated in the constant level docks (max. draft

2.5 m.), some are in the docks that link with the Rhine (max. draft 4.30 m.). Tankers berth only in the Oil Dock Harbour.

BULK CARGO FACILITIES: – with grain elevators: 2 berths for loading, and 2 berths for discharging.

Loading of gravel on the Rhine by belt-conveyors (8 facilities).

Loading and unloading of hydrocarbons in the Oil Dock Harbour by 18 facilities operating each at the rate of 300 cu.m./hr.

SPECIALISED CARGO-HANDLING FACILITIES: Containers up to 40 metric tons; heavy packages up to 350 metric tons.

The two operations are carried out at the mooring berth named "Colis Lourds" (heavy packages) and utilise a length of 180 m. of quay.

BRIDGES: The head room under the bridges reach 8.8 m. in the constant level docks.

MEDICAL: Civil Hospital, I, place de l'Hospital, 67000 Strasbourg, tel. 36.71.11.

DENSITY: The density of water is about 1000.

FRESH WATER: Fresh water is supplied by Ets. Koejac, tel. 61.26.78.

FUEL: Bunkering can be arranged with the m/s *Robertsau*, G.P.S., tel. 61.68.32 or m/s *Jumbo*, Ets. Koejac, Tel 61.26.78.

CONSULATES:

West Germany	(88)32.61.86
Belgium	(88)35.43.63
Great Britain	(88)36.64.91
U.S.A.	(88)35.31.04
Netherlands	(88)61.93.67
Switzerland	(88)35.00.70
Austria	(88)35.13.94
Poland	(88)61.43.24

REPAIRS/SLIP: All the repairs can be carried out at: Forges de Strasbourg — Scar, tel. 39.65.11. 101, rue du Rhin Napoleon, 67100 Strasbourg.

Any vessel capable of using the port can use the Forge-de Strasbourg slip.

SURVEYORS: Surveyors of the Commission de Visite, named by the Commission Centrale pour la Navigation du Rhin, can be obtained by the Captain.

WATCHMEN: Ship's crew, if required.

OPENING/CLOSING OF HATCHES: Opening and closing of the hatches are performed by the crew or by the staff of the company freighting the ship, as any other handling. Dockers do not exist in the port of Strasbourg.

REPATRIATION: All the facilities exist for effecting crew changes and arranging any necessary repatriation.

AIRPORTS: Distances from Strasbourg: Strasbourg-Entzheim: 15 km. Strasbourg-Mulhouse: 130 km. (airport Mulhouse Bale). Strasbourg-Francfort: 220 km.

HOLIDAYS: Work is stopped during the weekends and the statutory holidays. Labour can be obtained on these days if necessary.

POLICE/AMBULANCE/FIRE: Police: 17 — Ambulance: 33.33.33 — Firemen: 18.

TELEPHONES: Office of the P et T, 5, rue du Port du Rhin, 67000 Strasbourg. In case of emergency: La Capitainerie du Port, 5, rue du Port du Rhin – North Lock of the Port, quai Jacoutot, can be contacted at any time. Tel. 32.49.15.

SERVICES: For the ship: Tank cleaning: SPIRSE, 14, rue de Rouen, 67000 Strasbourg, tel. 61.40.45

Supplying of material: Koejac, quai des Belges, 67000 Strasbourg, tel. 61.26.78.

Electronic repairs or supplies: Radio-Metzger, 17, rue de Dunkerque, 67000 Strasbourg, tel. 35.45.42.

For the crew and various formalities (customs): La Capitainerie du Port, 5 rue du Port-du-Rhin, 67000 Strasbourg, tel. 32.49.15.

SHORE LEAVE: The Master must introduce himself, within the 2 hours following his arrival, to the Commissariat Special du Port, 5 rue du Port du Rhin, 67000 Strasbourg, and produce the passports of the crew. The passenger ships have to comply with the regular supervision of authority. Each member of crew must be holder of an identification card or a passport when he is ashore.

REGULATION: The Reglement Particulier de Police du Port is very helpful to the Master and let him know the particulars of the Port of Strasbourg.

DELAYS: The commercial operations begin and finish at the dates and hours shown upon the fluvial bill of lading. Every delay is subject to the payment of penalties. Except for the passenger ships, ships do not give notice of their arrival to the authority, before they enter into the port.

AUTHORITY: Port Autonome de Strasbourg.

TONNAY CHARENTE: 45.57 N. 00.53 W.

(See Plan Book)

DOCUMENTS:

2 copies Crew List.
2 copies Ship's Stores Lists.
2 copies Crew Manifests (Tobacco List).
2 copies Passenger List (if any).
1 Declaration of Ballast.
Manifest form Last Port.
1 copy Bill of Lading (in case of any cargo to be landed).
Ship Register to be shown.
Deratisation Certificate or Exemption.

PILOTAGE/ANCHORAGE: Vessels have to proceed to about half a mile S.S.W. Isle of Aix Lighthouse and to drop anchor in the No. 115 alignment when safe anchorage is open (lowest tides; minimum depth of water 26 ft.).

River Pilot joins ships there, about 3 to 1 hour before high water, depending on draft and size of vessel concerned.

Pilot boat is equipped with VHF.

RESTRICTIONS: As the River Charente is unlighted, movements are not possible at night. However, vessels may leave anchorage in dark and come up river at daybreak (anchorage area is about 5.5 miles from the mouth of the river).

MAX. SIZE: Max. permissible LOA about 378 ft.; max. permissible draft about 17 ft. 6 in. at any tide; max. permissible draft 21 ft. 6 in. at spring tides.

HEALTH: Free pratique is to be obtained on arrival at port. Usual yellow flag signal to be raised.

RADIO: Ships coming from South: Bordeaux-Arcachon Radio Station. Ships coming from North: Saint-Nazaire or Brest le Conquet Radio Stations.

VHF: No continuous listening out at the port. Nevertheless, vessels coming into the Roads can call up a correspondent by phone through Bordeaux – Radio – Channel 26.

TUGS: No tug is available. In case of need, tug may be obtained from La Rochelle-Pallice (about 20 miles).

BERTHING: 1 private berth for grain loading, which can take vessels up to 100 m. length. 1 berth 200 m. long for handling general cargo. 3 waiting berths. The central waiting berth can be used for handling small cargoes from 500 to 1,000 tonnes. Depth of water along the quays is an average of 6 m.

CRANES: 2 × 5 tonne cranes. 2 × 3 tonne cranes. 1 mobile crane of 5 tonnes. All the cranes are capable of working with hooks or scoops.

BRIDGES: The Rochefort Bridge clearance over highest water is about 98 ft. (30 m.).

STEVEDORES: A 24-hour notice is required in order to arrange loading/unloading operations.

Discharge rates: Coal – about 1,200 tons per day of 8 hours' work.
Phosphates – about 1,500 tons per day
Zinc concentrates – about 1,400 tons per day.
Loading rates: Grain 2,000/2,500 tons per day.

OPENING/CLOSING HATCHES: This work is the responsibility of the crew.

MEDICAL: The nearest hospital is at Rochefort (about 4 miles).

FRESH WATER: Fresh water may be obtained alongside, from hydrants, at the rate of about 10 t.p.h.

FUEL: Must be obtained from La Pallice (about 20 miles) by lorries.

REPAIRS: Small repairs may be carried out by local workshops. Nearest shipyard is at La Pallice.

REPATRIATION: Changing crew and necessary repatriation formalities may be effected.

AIRPORT: The nearest airport is La Rochelle (about 30 miles). Possible to reach Paris airports in a few hours by train.

POLICE/AMBULANCE/FIRE: Police: Rochefort H.Q. – Tel. 17; Tonnay-Charente Gendarmerie: Tel. 88.20.38; Ambulance: Tel. 99.30.69; Fire: Tel. 18 or 88.20.38.

AUTHORITY: Harbour Master.

AGENT: See "Paris."

TOULON: 43.07 N. 05.55 E.

DOCUMENTS:

Cargo Manifest or Manifest of Ballast.
Certificate of Cargo Space.
Bills of Lading.
Ship's Register.
6 Crew Lists.
3 Passenger Lists.
Health Declaration.
Derat Certificate or Exemption.
Declaration of Crew Personal Effects.

PILOTAGE: Pilot station is situated on President Fournel Quay, telegraphic address; Capitainerie de Port de Commerce, Toulon. Pilotage compulsory for vessels over 150 g.r.t. Pilot boards 100 m. North of the semaphore station at Cap Cepet.

There are 3 mooring buoys in the Inner Harbour owned by the Navy. The buoys can be utilised by merchant ships on request and are able to accommodate vessels up to 30,000 tons displacement.

RESTRICTIONS: Entry can be made by day and night except for vessels loading with refined petroleum or dangerous cargoes which are not allowed to enter between sunset and sunrise.

MAX. SIZE: The port is approached by a channel 125 m. wide. The docks can accommodate without tug assistance ships up to 250 m. length and 8.80 m. draft.

Renovation and reconstruction work is being carried out, after which passenger vessels of over 300 m. length and cargo vessels of up to 11 m. draft will be accommodated.

HEALTH: Pratique given by Customs Officers who board on arrival. If any case of suspected disease on board or any reason why vessel should not receive free pratique, Master should radio Agent before arrival, advising full details.

TUGS: Naval Tugs. There are many harbour tugs up to 1,000 h.p. and several deep sea tugs up to 2,000 h.p. controlled by the French Navy which may be called on for assistance by the Harbour Master or Pilots.

Commercial Tugs. 2 tugs of 180 h.p. owned by the Port Authority are used to assist smaller vessels.

BERTHING: President Fournel Quay, 335 m. length, depth alongside 9 m.

East Quay, 193 m. length, depth alongside 8.50 m.

Minerve Quay, length 147 m., depth alongside 7 m.

TANKERS: Tankers discharge at naval installations at Milhaud and Lazaret.

Total Terminal. 1 jetty berth for tankers up to 6 m. draft, and a buoy berth for vessels up to 15,000 tons displacement.

Societe de la Raffinerie du Midi. 1 dolphin berth for white oil cargo only.

STEVEDORES: There is a permanent working force of 40 dockers which can be increased by casual labour to 120 men if required. Shifts are available for 4 hours, 8 hours or 9 hours with possibilities for overtime.
FUEL: Only available by tanker lorries.
REPAIRS: Forges et Chantiers de la Mediterranee, Shipyard specialising in naval construction. Total length of repair quays 835 m. Heavy-lifting facilities available.

All types of repairs can be carried out at the Naval Dockyard.
DRY DOCKS: Several dry docks available in the Naval Dockyard, of which 3 can accommodate vessels in excess of 250 m. length.
IDENTIFICATION CARDS: Crew men going ashore should carry passport or identity card.
TIME: GMT plus 1 hour in Winter. GMT plus 2 hours in Summer.
HOLIDAYS: New Year (1st January, no labour available); Easter Sunday (possibility of labour with overtime); Easter Monday (no labour available); Labour Day (1st May, no labour available); Ascension Day (possibility of labour with overtime); Whit Sunday (possibility of labour with overtime); Whit Monday (no labour available); National Day (14th July, no labour available); Assumption Day (15th August, no labour available); All Saints' Day (1st November, no labour available); Armistice Day (11th November, possibility of labour with overtime); Christmas Day (25th December, no labour available). N.B. Every Sunday and day marked "possibility of labour with overtime" can be worked at the rate of 100%.
AUTHORITY: Direction Departmentale de l'Equipment, Etablissement Maritime de Toulon.
AGENT: See "Paris".

TROUVILLE-DEAUVILLE: 49.23 N. 00.05 E.

(See Plan Book)

The port situated on mouth of River Touques, is composed of 2 parts: Trouville for small fishing vessels, and Deauville including 2 docks for cargo ships and pleasure boats.

DOCUMENTS:

1 Crew List.
1 Passenger List.
Tonnage Certificate.
2 Cargo Manifests.
Bills of Lading.
1 Crew Manifest.

PILOTAGE: Pilotage on entry and leaving is carried out by the Seine Pilots. Request for a Pilot must be made 12 hours in advance by radio or telephone, either to the Port Captaincy of Trouville-Deauville or to the Pilotage Office for the Seine at Le Havre or at Rouen. Vessels bound for Trouville/Deauville anchor in the "Rouen Waiting Area" roads at Carosse where they take on the Pilot.
It is recommended to anchor near the pilot boat of Rouen and contact her by VHF for instructions.
ANCHORAGE: The best one is Rade de la Carosse (49° 27′ 30″ N. 0° 01′ E.).
RESTRICTIONS: No restrictions at night time. Draft allowed 2.80 m. neap tides, 4.0 m. spring tides, Entrance is dangerous with wind from N.W. to N. over force 6.

Access channel has a depth of 2.80 m. and dries out (zero on French charts). Lock gates are opened about 2 hours before time of commencement of flood tide at Le Havre. Lock gates are closed 2.5 hours after time of commencement of flood tide at Le Havre. The fore port and river quays at Trouville are uncovered at low water. The Trouville fishing port is one where craft are beached.
MAX. SIZE: Length: 210 ft. (64 m. OA); breadth: 45 ft.
RADIO: Radio-Boulogne FFB.
TUGS: No tugs available.
STEVEDORES: Loading and discharge by shore crane.
MEDICAL: All hospital facilities available.
DENSITY: 1025.
FRESH WATER: Available from quay.
FUEL: Small quantity by tank-lorry on demand.
CONSULS: See "Caen" or "Le Havre".
REPAIRS: Small repairs only.
AIRPORT: Deauville St. Gaitien 3 miles away.
AUTHORITY: Commandant du Port.
AGENT: See "Paris."

NOTES

Please also advise Shipping Guides Ltd.

French Antilles

BASSE TERRE, Guadeloupe: 15.59 N. 61.44 W.

(See Plan Book)

SHIPMASTER'S REPORT: August 1978.

DOCUMENTS:

6 Crew Lists
6 Manifests
Health Declaration Form
6 Lists of stores on board
Passenger List
Clearance from last port

PILOTAGE: Not available.

ANCHORAGE: On an 18 fathom bank North of the pier 2 cables from the shore.

RESTRICTIONS: Vessel can berth and unberth at any stage of the tide, but if vessel's first call, recommend berthing during daylight only.

MAX. SIZE: Max. LOA 155 m. Max. beam 22 m. There is 32–36 ft. alongside but an allowance should be made for a 3 ft. swell, therefore would suggest max. draft approx. 29 ft.

HEALTH: Authorities require 24 hours notice of the vessel's arrival.

RADIO: Fort-de-France call sign "FFP" (high frequency) and Destrellan call sign "FFQ" for medium wave.

VHF: Port Authority on VHF Channel 16.

TUGS: Not available, however a small boat will assist in running lines if the Port Authority is advised in sufficient time on VHF Channel 16.

BERTHING: Length of banana wharf is about 132 m. it is a concrete wharf and well fendered. The banana elevator is only 4 ft. in from the quay. Vessels berth port side alongside. One berth only available which is used for loading bananas. Distance from sea to berth 2 miles. Least depth of water in channel from sea to berth 40 ft. Mean tidal range at berth 6 in.–1 ft. Nature of the bottom at berth – shingle. There are 5 elevators available for loading bananas through the hatches and conveyor bands for loading through the side doors. No cranes available, 1 fork-lift available, capacity 25 tons, loading rate for bananas 550 to 700 cartons per gang per hour.

During the hurricane season (July-November) the banana elevators are removed from the vessel each night when cargo operations cease.

There are 2 mooring buoys in line with the ends of the wharf, 200 m. offshore, to assist the vessel to leave the berth when strong onshore winds are blowing.

The 5 elevators run along a rail track and because they are only 4 ft. from the edge of the wharf, great care must be taken when berthing vessels with any sort of flare along the ship's side. Because of the swell and offshore winds make sure the vessel is made well fast with a good drift on all lines.

A shoal area exists ahead of the vessel when lying port side alongside, on leaving the wharf it is advisable to let go aft, heave away on the headlines, cant the bow in, and then move away from the wharf astern before attempting to steam ahead and to starboard away from the shoal area.

STEVEDORES: Each gang consists of 20 men.
Working hours: 0700-1100 hrs. and 1300-2100 hrs.

FRESH WATER: Available.

MEDICAL: Doctors and hospital available.

DENSITY: 1025.

CONSUL: None, nearest consuls at Pointe-a-Pitre.

SERVICES: Fresh provisions, groceries and meats available. The following are not available: repair facilities, dry dock, machine shop, airport, surveyors, laundry services, bunker fuel oil, diesel oil, lubricating oil and slop tanks.

WEATHER: The swell is between 3 and 4 ft. from a S.E. direction. The wind is mainly from an Easterly direction.

DEVELOPMENTS: Work is in progress to lengthen the wharf by 200 m.

POINTE-A-PITRE, Guadeloupe: 16.13 N. 61.32 W.

(See Plan Book)

DOCUMENTS:

6 Manifests. See (a).
6 Crew Lists.
3 Stores Lists.
3 Crew Declaration. See (b).
6 Passenger Lists.
4 Declaration of Health.
2 Bills of Lading.
1 Clearance from Last Port.
6 Entrance Declaration.

(a) In addition, 2 sets of Manifests must be airmailed to arrive 72 hours before arrival in Pointe-a-Pitre.

(b) This Declaration must indicate all new and used personal effects.

PILOTAGE: Pilot meets vessels at "Mouchoir carre" buoys. Advance notice of ETA to be passed 24 hours, and VHF Channel 16, 1 hour before arrival.

ANCHORAGE: Consult charts.

RESTRICTIONS: Max. length 210 m., max. tonnage 26,000 g.r.t. Max. draft 9 m.

MAX. SIZE: See "Restrictions".

HEALTH: Port Health board on arrival.

RADIO: Destrellan Radio, also on VHF.

TUGS: None available.

BERTHING: 9 berths available, 8 additional for petroleum, sugar, cement, flour mill, bananas and containers.

Quay No. 1	150 m.	Quay No. 5	150 m.
„ „ 2	180 m.	„ „ 6	170 m.
„ „ 3	145 m.	„ „ 7	150 m.
„ „ 4	145 m.	„ „ 8	150 m.

Industrial Area: The industrial area of Jarry offers 40 hectares of open storage at the water's edge.

CRANES: The container terminal (Quay No. 14) is equipped with 2 × 40 ton Paceco-ACB cranes.

STEVEDORES: 24 hours advance notice of ETA required (72 hours if vessel arrives on Monday). Working hours 0700–1100 and 1300–1700.

MEDICAL: Clinics and Hospital facilities available.

TANKERS: Only tankers having less than 9 m. draft can enter the harbour.

FRESH WATER: Available day and night if requested in advance.

FUEL: Available F.O. 350 seconds Redwood, D.O. for gas oil. Delivered by road tankers.

CONSULS:

Belgium
Denmark
Ecuador
Great Britain
Haiti
Italy
Lebanon
Netherlands
Norway
Spain
Sweden
Venezuela

REPAIRS: Workshops available.

GANGWAY/DECK WATCHMEN: Available on request.

HATCHES: Usually opened and closed by crew. Stevedores will at Master's request but at ship's expense.

CUSTOMS ALLOWANCES: 200 cigarettes and 1 bottle per man.

CARGO GEAR: Ship's gear used.

REPATRIATION: All facilities available.

AIRPORT: 3 miles from the harbour with daily flights to Paris, Miami and New York.

TIME: GMT minus 4 hours. No alterations during the year.

HOLIDAYS: New Year's Day; Shrove Tuesday; Ash Wednesday; Carnival; Good Friday; Easter Monday; Labour Day (1st May); Ascension Day; Whit Monday; National Day; (14th July); Souls' Day; Armistice; Christmas Day.

POLICE/AMBULANCE/FIRE: Police: 83.00.05 or 83.13.17; Ambulance: 83.03.96; Fire Department: 83.00.23.

SHORE LEAVE: Permitted.

IDENTIFICATION CARDS: I/D or passport required.

REGULATIONS: No particular regulations.

DEVELOPMENTS: 1 deep-water berth length 300 m. for container terminal, 1 berth length 160 m.

AUTHORITY: Guadeloupe Port Authority.

Gabon

CAPE LOPEZ: 00.38 S. 08.43 E. (See Plan Book)

DOCUMENTS:

3 Crew Lists.
3 Passenger Lists.
3 Lists of Ports of Call.
2 Manifest of Ship's Stores.
Clearance from Previous Port.

PILOTAGE: No official radio station. Pilotage not necessary to approach Port Gentil Roads.

For the private tanker ports at Pointe Clairette and Cape Lopez, pilotage is compulsory. On Cape Lopez Roads Pilot will board vessel 1.5 miles offshore on a line with Cape Lopez lighthouse bearing 255° True, distance 2.4 miles in a launch carrying proper Pilot signals. The Mooring Master will stay on board throughout the vessel's time in port to assist in mooring, hose handling and loading operations.

ANCHORAGE: The waiting anchorage position is 2 nautical miles in a 075° direction from Cape Lopez lighthouse. Depth of water 55 m.

It is necessary to guard against violent tornadoes occurring between December and May coming from the East or the North. These tornadoes occur very suddenly and are extremely strong.

MAX. SIZE: 250,000 d.w.t. and LOA 340 m. Max. draft 20.50 m. (67 ft.).

Minimum size of vessel: LOA: 215 m. (Approx. 35,000 d.w.t.).

If vessel arrives with a part cargo from another loading port the maximum arrival deadweight acceptable is 160,000 metric tons.

RESTRICTIONS: Berthing is effected day and night, however, certain vessels may be berthed in daylight only. Unberthing is effected by day or night. Vessels must arrive with sufficient ballast and correct trim in order to manoeuvre safely.

Ballast should not be less than 30% of deadweight. Fresh water and stores are not considered as ballast; draft on arrival should not be less than 50% of loaded draft. Elf Gabon reserve the right to leave vessels which do not comply with these regulations at anchor.

Berthing is not effected in rough weather. At the berth mooring lines must be in good condition and well tended. In case of storm or tornado loading operations must cease and vessel be prepared to leave the berth if so directed by the Terminal Superintendent or Pilot.

HEALTH: Formalities carried out on berthing. However, ships remaining at anchor may have customs and health formalities carried out through their Agent.

RADIO: *Libreville Radio:* Call sign: "TRA" keeps watch on 500 kc/s. and 2182 kc/s. from 0600–1800 hrs. GMT.

Elf Gabon Terminal: Permanent watch on R/T 2182 kc/s. (400 W).

When a ship is expected, a permanent watch on VHF Channel 16 is kept by the terminal for short distance communications.

All ships must contact the terminal in advance of their arrival. Elf Gabon will inform the vessel whether berthing will take place on arrival or whether it should anchor.

Arrival advice: Advise Agent 48 hours and 24 hours before arrival, also if any appreciable alteration thereafter.

VHF: Before vessel's arrival watch is kept on Channel 16. During loading and mooring watch is kept on Channel 6.

TUGS: Compulsory. Owned by Elf-Gabon can be contacted on 2182 kHz. or VHF Channel 16. Ship tow lines are not required, 4 tugs are available up to 1,800 h.p. There are 2 launches for handling mooring lines.

BERTHING: Anchors are not required for mooring operations but must be ready for emergency case. Vessel berths port side alongside on 6 dolphins, heading 044° True. Depth of water along the berth is 25 m. Mooring ropes used as follows: fore and aft 3 headlines, 2 breastlines, 2 springs. 2, 3, or 4 tugs are used for mooring operations, in accordance with the d.w.t. Vessel's engines must be ready for immediate operation all the time vessel is at the berth. 2 or 3 tugs will remain standing by. Ship's gangway is not required, an automatic one is supplied by Terminal.

Connecting Hoses: Connection and disconnection is carried out by Elf Gabon personnel with the assistance of the crew.

The vessel's cargo derricks are not used except in the case of absolute necessity or in the case of breakdown of the platform hoisting gear.

The 4 loading arms are 16 in. diameter, with hydraulic couplers for 16 in., 14 in. and 12 in. flanges. The arms are located on either side of the dolphins' centreline.

Reducers shall be provided by the ship for the other flange diameters.

Before connecting arms, the ship will be connected to the ship-shore bonding wire, and disconnected only after loading arm uncoupling.

Hose Handling: 5 arms. Crude: 4 × 16 in. arms. Loading rate: 12,000 cu.m.p.h. Finished products (Diesel and Naphtha) are loaded by means of a 5th loading arm; 2 loading arms can be used for the Fuel Oil.

Loading: Communication between ships and shore loading installations, in any case (loading, fire, etc.), will be effected on VHF Channel 6.

An Elf Gabon representative, responsible for loading and safety is on permanent watch at the berth. The Master must supply him with all relevant information and assistance required to ensure operations run smoothly.

The Master will be held entirely responsible for operating the valves and for safe loading on board his ship.

If necessary, pumping speed can be reduced.

At least 10 minutes before loading is finished, the terminal should be notified of the moment pumping should be stopped.

When loading is completed, the tank ullages will be taken by a ship's officer in the presence of an Elf Gabon representative.

Average samples taken from each tank from which the crude was pumped will be furnished to the ship by the terminal. These samples will be numbered, sealed and labelled showing the origin of the crude.

Notice of Readiness: To Elf Gabon.

BALLAST: Vessels must arrive with clean ballast only. There are no facilities for discharging dirty ballast at the terminal. In no circumstances should dirty ballast be pumped overboard.

MEDICAL: Doctors and hospital facilities available. All vaccinations can be arranged.

DENSITY: Varies between 1021 and 1025.

FRESH WATER: Fresh water supplies can be obtained within a few hours from a 120 ton barge. Apply to Port Gentil.

FUEL: 1,500 secs. and 3,500 secs. fuel can be supplied by barge or at berth whilst loading, subject to 48 hours notice.

CUSTOMS ALLOWANCES: No restrictions for quantities tobacco and spirits held on board the ship. It is prohibited to allow dutiable articles to leave the ship.

CONSULS: France, Germany and Great Britain.

REPAIRS: There are facilities for hull and engine repairs for barges and river craft. Slipway for vessels up to 300 tons.

AIRPORT: Can be reached in 15 minutes by road. Regular services to Europe every day.

TIME: GMT plus 1 hour all the year round.

HOLIDAYS: Holidays do not affect tanker working.

POLICE/FIRE/AMBULANCE: Police tel. 17; Fire tel. 18; Ambulance tel. 23-33.

REPATRIATION: Facilities available. Contact ship's Agent.

SHORE LEAVE: Crew members are allowed ashore. There is no regular immigration control but identification papers should be carried. Bathing alongside the ship and the berth is strictly prohibited.

DEVELOPMENTS: *New Port:* A new port is located between the Alcyon Bank and Clairette Point.The commercial quay, 375 m. long and with a depth of water alongside of 11 m., is extended to the South by the barge quay, 75 m. long and dredged to 2.5 m.

The fish quay, South side of a dock 250 m. wide, immediately to the North of the commercial quay and perpendicular to it, is 285 m. long with depths of water from 7 to 8 m.

1,200 m. to the N.N.W. of the Loaders is the UIAE private quay.

The anchorage for awaiting the Pilot before proceeding to the installations of the new port is located 1.8 miles to the N.E. of Clairette Point.

GENERAL: During the whole time the ship remains at the loading berth, the Master shall:

Maintain on board sufficient number of crew members to carry out any manoeuvre without difficulty, and to enable first fire fighting measures to be taken; maintain engines ready for manoeuvring; ensure that mooring is satisfactory without undue wear on mooring lines.

Fire Precautions: It is forbidden: To smoke, use naked flame or tools likely to create sparks outside the zones generally authorized for tankers; to carry out repairs or handling operations on deck; to turn the propellers; to use in danger areas any equipment or tools not of a type approved by a competent organization. Elf Gabon reserve the right to take any steps considered necessary in case of danger and, in particular, to suspend loading; loading of bunkers, supplies, water, etc., will be submitted for the approval of Elf Gabon.

During loading:

All hull valves should be shut, except for those required for water circulation; all scuppers of main deck should be sealed; two fire hoses will be connected and set up, one at the bow. the other at the stern of the ship. The fire main shall be maintained under pressure at all times; two long robust steel safety ropes should be placed on the starboard side of vessel, one at the bow and one at the stern. The eyes should be maintained at the right distance from the water so that tug boats can easily catch hold of them.

Movement Restrictions:

It is forbidden to enter the zone of Elf Gabon installations without due authorization. Smoking or use of lighters or matches are strictly prohibited.

In case of fire on board a ship moored to the loading berth, the Shipmaster shall give the alarm by sounding a series of short blasts on the siren. He is responsible for organising fire fighting and ensuring the stability and safety of his vessel, taking all the necessary steps in this respect.

Elf Gabon may order any safety measures to be taken in the general interest of everyone.

If considered necessary, during a storm, the loading operator may suspend loading and disconnect the loading arm.

Safety Look-out:

Elf Gabon have a permanent look-out on the loading platform under the orders of the chief loading operator.

Equipment at disposal of ship:

Stand-by tugs; mooring launches 140 h.p.; equipment permanently available at berth (water screen, hoses, etc.).

A Kleber anti-pollution barrier 500 m. in length can be launched within a few minutes.

A "Vortex" device can be used to re-pump the crude oil spilt in the sea. This crude oil is then collected in plastic tanks.

When a ship pollutes the sea, the above action and use of these devices will be charged to the vessel.

WEATHER:

Meteorology: From June to September the prevailing wind comes from S.S.E. and can reach force 6. From October to end of May, and especially during February, March and April there is a risk of tornadoes. They can come from any direction and are always very dangerous.

Tide: Mean amplitude of Spring tide is 2.20 m.

Swell: The terminal is protected from ocean swell. Wave height created by tornadoes can reach 2.50 m.

Current: Generally less than 0.5 knots but can reach 1 knot. Average direction 040° and 215°.

SHIPMASTER'S REPORT: 1977.
This vessel is an OBO carrier of 159,250 d.w.t. and called for a part cargo of 85,000 tons of Mandji Crude.

Mandji Crude has an API of between 30.0 and 30.4 and was on this occasion loaded at 97°F.

It appears to be wax free and has a slight suspended water content.

Vessel size: Accepts vessels from 35,000 d.w.t. to 250,000 d.w.t., max. sailing draft is 67 ft.

Berth: Berth face about 420 ft. long with connected mooring posts. "Floating" type fender piles. Pilots are cautious of impacts as berth is piled into very deep soft mud. Moorings on our visit were: Forward: 3 head lines, 2 breast ropes and 2 springs. Aft: 3 stern lines, 2 breast ropes, and 2 springs. (See Plan Book).

The springs were sent ashore first, fore and aft.

All lines are run, 1 at a time, by mooring boat, and there is no problem running wire rope moorings.

There is a shore gangway mounted on a tower.

Load Rate: Total max. rate of 12,000 t.p.h. using 4 chicksan loading arms. The connections are 16 in. and hydraulically coupled.

Berthing: Straight forward operation, no significant currents, vessels tie up bow out, port side to jetty.

Berthing Operations: From end of passage to all secure was accomplished in just over 3 hours, from Pilot aboard to secure took 2 hours.

Connection of the loading arms used by this vessel took 1 hour.

From commencement of singling up to Pilot away took 1.5 hours.

Tugs: There are 2 modern 3,000 h.p. Kort Nozzle tugs and 1 older tug of 2,000 h.p. stationed in the port. The larger tugs made fast fore and aft, and the smaller pushed midships. On sailing only one of the larger and the smaller tug were used. The tugs normally use their own lines and remain fast until mooring is completed.

Weather: Mild and pleasant apart from tornadoes which occur from October to May, but especially February, March and April.

These spring up without notice to very violent winds in minutes, and though it is understood loading may be suspended, the tugs are used to assist vessel to remain on the berth if required.

Bunkers: A bunker line is being installed on the jetty, a barge is used temporarily, but it is understood that delays can be expected in taking bunkers, and they must be ordered beforehand from Elf Paris.

Fresh Water: Said to be available by barge from Port Gentil.

Usage: According to the Pilot, about 12 ships a month use the berth.

Slop Reception: There are no facilities, vessels must arrive with clean pumps and clean lines.

Radio: Tugs and Pilot are on VHF 16 and Marine and Terminal Operations are on VHF 6.

Repairs: Doubtful if any repairs could be undertaken, possibly in emergency the refinery workshops would assist.

Communications: There are regular daily flights to Libreville, and connections from there worldwide with minimal delay. Flight time Cape Lopez to Paris is said to be 7 hours.

Crew Changes: Could be carried out easily from a point of transportation, but Port Gentil only has 1 hotel and 1 guest house and they are stated to be full to capacity at all times.

Medical Service: Could not be obtained because vessel berthed on Saturday. However, there is a hospital.

Chandler: The port has a chandler, but there is no local produce whatsoever, all vegetables, etc., being airlifted from France and prohibitively expensive.

Cargo: Mandji Crude at loading temperature 95° to 100°F., API 30.25, has slight percentage suspended water.

Shore Leave: Permitted, but walking through the installation is forbidden for security reasons, and transportation is apparently difficult to obtain.

General: I understood no clearing or formalities are completed until vessel is berthed.

Pilotage: Mooring Master now performs pilotage only and leaves after berthing.

Accommodation: No longer required to provide accommodation for shore people.

AUTHORITY: Elf Gabon, Port Gentil.

AGENT: Socopao-Gabon BP 560, Port Gentil. Tel. 52491. Cables: "Freight Portgentil". Telex: 8223.

GAMBA: 02.50 S. 09.59 E. (See Plan Book)

SEA TERMINAL: SBM.

DOCUMENTS:

Last Port Clearance.
3 lists of Last Ports (during last month).
3 Stores Lists.
5 Crew Lists.
3 Personnel Effects Lists (Not compulsory but advisable).
2 Lists of Vaccinations.
1 Notice of Readiness.

APPROACHES: The approaches to the terminal are open deep water. Gamba sea terminal fairway buoy is located in position 2° 50.1′ S. 9° 56.5′ E. Black buoy. Group Occ(2) 10 secs. Visibility 4 miles.

The single buoy mooring is located in position 2° 50.1′ S. 9° 58.9′ E. and exhibits a white flashing light, visible for 5 miles.

Gamba Lighthouse: Lattice tower. Red and white. Height 47 m. Green flash 2/10 secs. Visibility 21 miles. Position, Lat. 02° 47.0′ S. Long. 10° 01.4′ E.

READINESS: The notice of readiness will be received and accepted by the Berthing Master at the anchoring time if the ship is delayed on request of the Terminal (scheduled delays, awaiting cargo, awaiting orders, weather conditions, etc.) or at the time of mooring if the ship is berthed on arrival.

PILOTAGE: All tankers mooring at Gamba SBM must use the Shell Gabon Pilot who should also be used for unmooring.

Berthing Master boards tankers at the following position: Lat. 02° 50.0′ S., Long. 09° 57.0′ E.

The Berthing Master and his assistant will remain on board throughout loading. The Berthing Master also acts as ship's Agent and focal point for liaison with the shore; communications with the terminal by VHF (portable sets for ships not equipped with VHF are supplied).

The pilot boat/mooring launch which assist mooring/unmooring will stand by throughout loading. For this purpose a mooring rope will be provided aft, by the tanker.

ANCHORAGE: 1.5 miles N.W. from SBM in 60 ft. depth. Vessels anchor without assistance.

RESTRICTIONS: Heavy swell and tornadoes (October to May tornadoes can come from any direction and are always dangerous).

MAX. SIZE: Draft only factor, max. 44 ft.

HEALTH: When advising ETA include in message whether any sickness on board. In case of emergency vessels should call before or after loading at Port Gentil for medical attendance or for crew changes. For this purpose send separate message to "Marine Gamba" and to Agency.

RADIO: Established contact with Gamba Radio (call sign TRP 8) soon as possible. ETA should be sent at least 4 days before arrival in Gamba to "Marine Gamba" via Gamba Radio. Thereafter keep close contact on telephone with Gamba Radio MF (2182) and VHF Channel 16.

Gamba Radio (TRP 8) Service:

Telegraphy A1	500 W Watch on 0700 to 0900 hrs.
Telegraphy A1	2 kW
13070 kH	General call and TFC list at 0900 hrs. Listen on 12 mHz band from 0900 to 0930 hrs. and on 16 mHz band from 0930 to 1000 hrs. Range about 6,000 miles.
6510 kH	General call and TFC list at 1300 hrs. Listen on 6 mHz band from 1300 to 1330 hrs. and on 8 mHz band from 1330 to 1400 hrs. Range about 1,000 miles.
Telephony A3	2 kW
VHF 6 3	Maintains watch on 2182 kHz from 0800 to 0900 hrs. and from 1400 to 1500 hrs. Working frequencies 1877 kHz-2678 kHz. Range about 300 miles depending on atmospherics.
VHF F 3	50 W. Call sign "Marine Gamba". Watch on Channel 16. Working on Channel 16. Range about 50 miles.

24 hours service in French language. Watch in English language during office hours (0600 to 1100 hrs. and 1300 to 1515 hrs.).

Pilot Launch Service	
	20 W Watch on Channel 16 (when at sea). Range about 20 miles.
Terminal Gamba	
	20 W Watch on Channel 16. Working on Channel 11. Range about 20 miles, used only for loading operations.

Radio Beacon: Continuous airplane radio beacon call sign GZ, frequency 359 kHz. Position: Lat. 02° 46.8′ S. Long. 10° 02.3′ E.

N.B. All times in GMT.

BERTHING: Berthing takes place both by day and by night. If a Shipmaster refuses to berth by night, delays will be charged to his vessel.

Depth and draft: Depth at berth: 59 ft. From this figure must be deducted the height of the manifold which is 5 ft., thus leaving a controlling depth of 54 ft. A nominal underkeel clearance of 10 ft. is allowed to take account of ship movement caused by swell. This leaves an approved safe draft of 44 ft.

SBM Description: The buoy is 8 m. in diameter, 4 m. high. A double 16 in. manifold is provided on the turntable (one pipe is blanked) 90° clockwise from the tanker securing point. The SBM is moored by means of 8 chains which are secured to the seabed by 120 tons holding power anchors.

MOORING: Recommended that vessel should be trimmed max. 8 ft. by the stern on arrival.

Ships must have ready on the forecastle, and before approaching the SBM, four synthetic mooring lines lashed two by two each side. These mooring lines will be connected to the pickup wires by the mooring launch by means of shackles and heaved up until the triangular plates are on board and are in turn connected to the mooring wires by means of forelock shackles. If vessel is not fitted with central fairlead, the most forward fairleads on either side will be used.

Vessels moor with 2×10 in. nylon ropes (length 50 m.) from SBM secured on board ship by two 2.25 in. chain cables plus two 3.25 in. wires which provided by terminal. Berthing Master will advise in detail mooring procedure.

LOADING: A derrick should be rigged with double whip and topped on the port side for loading mooring equipment and hose lifting.

Shore Line System: SBM – 1×28 in. submarine pipe-line (total length to Terminal 7.3 km. (24,000 ft.)). Reduced to 16 in. for connection to ship's manifold (total length of floating hoses: 720 ft.).

Gamba Crude Characteristics:

Density at 15°C:	0.8663	Salinity:	20 to 35 Mg/Kg
API at 60°F:	31.75	Cloud point	39°C
BSW:	0.40%	Wax:	18%

Connection/Disconnection: Connection and disconnection are carried out by ship's crew with advice from Berthing Master. The hose is connected amidship on portside and is ended by a 16 in. reducer having A.S.A.B. 165 flanges.

If there are no suitable reducers available on board, Gamba Terminal should be advised by radio giving size of ship's manifold and pitch of bolt holes.

Loading: During the loading the Berthing Master remains on board and acts as Loading Master. He is in permanent contact with terminal by VHF.

If necessary the pumping rate can be reduced at any moment. The Loading Master will be advised at least one hour before the completion of the loading. The average loading rate is 2,700 cu.m. per hour.

Papers: The Loading Master receives by VHF shore figures from the Terminal about one hour after the completion of the loading. All documents are completed before the departure of the ship. Two sets of documents are delivered to the Master: one for his own purpose and one for the Consignee.

Engines: Engine immobilisation is forbidden at the SBM. Engines should be kept ready for use at any time at the Berthing Master's request.

MEDICAL: No medical or dental facilities at Gamba (See "Health").

DENSITY: 1025.

FRESH WATER/FUEL: Not available.

REPAIRS: No facilities available.

BALLAST: There are no facilities for discharging ballast ashore. Vessels must arrive at the loading terminal with clean ballast only, apart from contents of the slop tank.

GANGWAY/DECK WATCHMEN: Not required.

CUSTOMS ALLOWANCES: No restrictions on Tobacco/Wine.

IDENTIFICATION CARDS: Not required.

CONSULS: None, French consul in Port Gentil.

REPATRIATION: Facilities available.

AIRPORT: Gamba airport is local airstrip and is connected to Port Gentil by daily service (Except Sunday). Port Gentil airport is connected to Libreville International airport by daily services. Mail reaches any European country within seven days.

TIME: GMT plus 1 hour throughout the year.

GENERAL: The use of Channel VHF 9 is forbidden.

SHORE LEAVE: Not allowed.

AUTHORITY: Shell Gabon, Port Gentil (Gabon).

AGENT: See "Port Gentil".

LIBREVILLE: 00.23 N. 09.26 E.

PORT LIMITS: The seaward boundaries of the port within which a vessel is considered to be an "arrived ship" and (subject to C/P terms) laytime will commence is 2 miles off shore at Libreville harbour.

DOCUMENTS: See Port Gentil.

PILOTAGE: None available.

ANCHORAGES: Bottom of roads in Libreville slopes very gently down towards open sea. The greater the vessel's draft, the further out it must moor. E.g., ship of 7 to 8 m. draft will be moored approx. 1,500 m. from Harbour Pier. Ship 5-6 m. draft will be able to approach the Harbour Pier as near as 500 to 600 m. For reasons of safety, forbidden to come nearer, particularly during tornado season – February to May and September to December.

RESTRICTIONS: No restriction imposed on entering or leaving the Estuary. Channel marked by 5 buoys provided with radar reflectors and flashing lights. Sixth buoy, called a "landing buoy" moored in roads, where vessels moor.

MAX. SIZE: *Shipmaster's Report: March 1980.* Max. draft 7.4 m.

HEALTH: If there is sickness on board, Health Service warned by Consignor of vessels. Health Service can go on board to check state of crew's health. Immigration Service can also board to check crew list and condition of passengers, if any.

RADIO: *Libreville Radio:* Radio-telephony from 0600 to 1800 hrs. GMT on 2182 kc/s, Radio-telegraphy from 0600 to 1800 hrs. GMT on 500 kc/s, call sign TRA 22; from 0800 to 0830 hrs.on 13101 kc/s, call sign TRA 8; from 1630 to 1700 hrs. GMT on 8722 kc/s, call sign TRA 8.

TUGS: Tugs intended only for towing lighters, horse power 150 to 250, unsuitable for any harbour towing.

BERTHING: Only for lighters and small coasters with a draft of less than 3 m. Crews working unloading or loading of vessels in roads supplied by Consignor of the ship. Harbour Services have no radio apparatus. Shipping companies all have radio-telephone extensions, which allows them to be in permanent contact with vessel moored in roads. Unloading or loading operations of goods carried out by lighters which, towed by small tugs, ensure rotation between vessel in operation and quay. All this equipment belongs to shipping companies dealing with consignment of vessels in the roads. Every vessel arriving in roads must have its consignor.

STEVEDORES: Available.

MEDICAL: Hospital available, and in case of necessity, patient or patients will be admitted.

FRESH WATER: Water supply real problem, as there is no tanker to transport it. Therefore strongly recommended that any ship touching Douala coming from the North or Pointe-Noire coming from South, should fill up at one of these ports.

FUEL: There are fuel-tankers belonging to shipping companies. The ship-tanker which provisions Libreville 2 or 3 times a week is brought alongside buoys in roads, at 1,650 m. (position: Lat. 0° 23′ 51″ North, Long. 9° 25′ 42″ East); fuel is transhipped by sea-line to tank on shore.

FIRE PRECAUTIONS: No special precautions.

GANGWAY/DECK WATCHMEN: Carried out by crew.

OPENING/CLOSING HATCHES: This is done with the tacit agreement of the ship's Officer and the Consignor.

CARGO GEAR: Ship's own gear used.

IDENTIFICATION CARDS: Required.

CONSULS: None.

REPAIRS: Small repairs possible.

DRY DOCKS: None.

REPATRIATION: No facilities.

AIRPORT: 9 km. from the harbour. Links with French-speaking Africa, Switzerland, and France, also Johannesburg.

TIME: GMT plus 1 hour.

HOLIDAYS: 17th August, Independence of Gabon; 1st May, Labour Day – these are the only holidays in force.

SERVICES: None.

SHORE LEAVE: Allowed.

DELAYS: First come, first served method.

AUTHORITY: Capitainerie du Port.

AGENTS: Socopao-Gabon, B.P.4., Libreville. Tel. 72.21.40 and 72.21.53. Telex 5252. Cables "Freight Libreville".

LUCINA MARINE TERMINAL: 03.40 S. 10.46 E. (See Plan Book)

DOCUMENTS: See "Gamba".

APPROACHES: Navigation aids:

West buoy: Gp. Occ. (2) 10 secs. 03° 40.0′ S., 10° 44.3′ E. Black and white buoy showing West marker and radar reflector fitted.

North buoy: Gp. flashing (3) 10 secs. 03° 38.5′ S., 10° 45.7′ E. Black and white buoy showing North marker and radar reflector fitted.

East buoy: Gp. flashing red (3) 10 secs. 03° 40.0′ S., 10° 47.3′ E. Red and white buoy showing East marker and radar reflector fitted.

Platform LD 2: The beacon of this platform consist of two white Morse code lights: letter U.

Platform LD 1: One white Morse code light: letter U. The flare installed on the Production platform LP 1 is very conspicuous.

Platform LD 3: The beacon on this platform consists of two white Morse code lights: Letter "U".

SBM light: Position: Lat. 03° 39.6′ S., Long. 10° 46.2′ E. One flash 0.3 secs. each sec. Visibility 5 miles.

Storage tanker: The storage tanker is showing the lights of a ship at anchor. During the hours of darkness all deck lights are switched on.

NOTICE OF READINESS: See "Gamba".

PILOTAGE: Berthing Master boards vessel in position Lat. 03° 39′ S., Long. 10° 44′ E. Also see "Gamba".

ANCHORAGE: Vessels must anchor without assistance. Recommended anchorage: in 19 fathoms about 1.5 miles N.W. of storage tanker.

RESTRICTIONS: No draft restrictions. Depth of water can be assumed to be 114 ft.

HEALTH: See "Gamba".

RADIO: All messages sent to "Marine Gamba" through Gamba Radio TRP 8 (see Gamba).

ETA: Should be sent to "Marine Gamba" via Gamba Radio. First ETA should be sent at least 4 days before arrival.

VHF: Vessels should call Marine Gamba on Channel 16 during office hours when passing Gamba area. Permanent watch on Channel 12, on the storage tanker and the mooring launch.

BERTHING:

Description and Location: The development consists of six oil producing wells, which are protected by two single four-pile platforms, LD 1 (03° 41′ S., 10° 44.3′ E.) and LD 2 (03° 41.8′ S., 10° 45′ E.). Production facilities are located on four-pile platform LP 1 which is connected by a bridge to the adjacent platform LD 1. A 35,000 d.w.t. tanker, s/s "Volvula", which serves as floating unit of storage, is moored by means of ten anchors in position 03° 40′ S., 10° 45.8′ E. The tanker is connected with a SBM via a submarine line, length 1 km.

SBM description: The buoy is 8.5 m. in diameter and 4 m. high. Connections for submarine lines from the FUS are provided on the bottom of the centre swivel section which is free to rotate. (Other details same as Gamba).

Nylon moorings: Vessels moor with two 15 in. nylon ropes from the SBM and are secured on board ship by two 56 mm. dia. stud link chains plus two 3.25 in. wires which are provided by the terminal. Both nylons are 45 m. long.

Floating hose and submarine line: 1×20 in. submarine pipe-line, length 1,100 m. from the FUS. SBM connected to 1×16 in. floating line reduced to 12 in. for connection to ship's manifold. Total length of floating hoses: 860 ft.

Mooring: See "Gamba".

LOADING: *Lucina Crude Characteristics:* Density at 15° C.=0.8258; API at 60° F.=39.8; B.S.W.=Nil; Salinity=3 to 5 mg/kg; Cloud point=27° C.; Wax=14%.

Loading rate: Average loading rate 2,400 cu.m.p.h.

Connection/Disconnection: See "Gamba".

DEBALLASTING: See "Gamba".

FRESH WATER: Not available.

FUEL: Not available.

REPAIRS: No facilities. Engines not to be immobilised whilst at the SBM.

REPATRIATION: Not possible.

TIME: GMT plus 1 hr. throughout the year.

SHORE LEAVE: Not allowed.

AUTHORITY: Shell Gabon, Port Gentil.

OVENDO: 00.17 N. 09.30 E. (See Plan Book)

SHIPMASTER'S REPORT:

Vessel, length 156 m., breadth 22.0 m. Draft (at the time, 30 ft.).

APPROACHES: The channel buoys showed very well on radar on the 3 and 6 miles ranges, even during heavy rain, but the lights on the red buoys are poor and all buoys occasionally unlit.

ANCHORAGE: Depths in the channel and river were found to be as stated during low water with a depth of 33 ft. over all the anchorage. Maximum draft allowed at this time was 30 ft.

The holding ground is good, 4 shackles were used for a total ship weight of 19,000 tons plus a small coaster alongside.

The tides are regular with only a very short slack water period, and run at between 4 and 6 knots.

PILOTAGE: There are 2 French Pilots who may be contacted on VHF Channel 16 when in range, they are ordered by the Agent to berth vessels only, although they will pass on advice to vessels regarding anchoring.

TUGS: There is 1 tug of approximately 1,000 h.p. which assists in berthing, either towing or pushing.

BERTHING: Well fendered modern concrete quay, 450 m. in length, laid out as per plan in the Guide. The normal practice is for there to be 2 ships of around 150 m. and one smaller ship alongside at one time. The inshore side of this quay is for small craft only.

Depths alongside Berth No. 1, 23 ft.; No. 2, 18 ft. and No. 3, 22 ft.

FRESH WATER: This is obtainable while alongside the quay but only in a dire emergency at the anchorage from the tug which can supply up to 8 tons.

REPAIRS: Only very small repairs are possible and it is suggested that a receipt is obtained for any parts sent ashore.

REPATRIATION: There are 2 planes a week from Libreville to Paris and approximately 12 planes weekly to Abidjan.

SHIPCHANDLER: There is no chandler for any form of stores, the only possibility being self-purchase at the local (Libreville) supermarket. All goods are imported and therefore very expensive.

HOLIDAYS: 12th March, Gabonese independence.

MARINE CLUB: There is a marine club about 1 km. from Ovendo in the Libreville direction (swimming pool, etc.).

SHIPMASTER'S REPORT: February 1979.

DOCUMENTS: Ship's Papers (sighted), Crew Lists (5), Passenger Lists (5), Port of Call (4), Crew's Custom Declaration (1), Marine Health (1), Arms and Ammunition (1).

PILOTAGE: Pilot boards by tug which is compulsory for docking and undocking. Vessels berthed head out for sailing.

APPROACHES: Gambia Lighthouse range 20 miles is easy to pick up, channel is well marked by buoys with good radar reflectors. No Pilot is available for the channel. After last buoy proceed directly to anchorage.

Soundings taken throughout channel showed a least depth of 20 m.

ANCHORAGE: Waiting anchorage is 0.5 to 1 mile West of the wharf.

RADIO: Agent keeps watch on VHF Channel 16.

BERTHING: A new port has been built about 4 miles South of old lighter jetties at Libreville, consisting of 1 wharf at right angles to the shore in 15 m. of water, capable of docking 2 ocean-going vessels.

STEVEDORES: Slow but efficient, about 6 tons per gang man hour.

REPATRIATION: Airport 12 miles from port, 6 flights per week direct to Paris.

TRANSPORT: Available by bus or taxi to the town.

SHORE LEAVE: Allowed.

SEAMEN'S CLUB: Within 1 mile of port with bar and swimming pool.

SHIPMASTER'S REPORT: March 1980.

PILOTAGE: Pilot compulsory. Pilot boards one mile S.W. of Ovendo pier and requires 24 hours and 12 hours notice.

ANCHORAGE: One mile S.W. of the pier.

RESTRICTIONS: Pilot advises that vessels can only berth on slack water as a 5–6 knot (approx.) ebb tide runs. Vessels able to sail at any time, however, it is not advisable to manoeuvre during darkness as buoys are frequently unlit. Vessels are able to proceed from sea to anchorage at any time.

MAX. SIZE: Max. draft at Ovendo is 9.2 m. Mean tidal range 1.5 m.

TUGS: One tug available.

VHF: Pilot and Port Authority on Channel 16. Agent on Channel 9.

BERTHING: The berth at Ovendo is 20 miles from the entrance. There is one jetty 450 m. in length. The mean tidal range at the berth is 1.5 m. and the bottom in the vicinity of the berth is mud. Container vessels use the port and discharge using ship's gear. There is ample handling and storage space for containers. "Delmas" container vessels use the port frequently and they take preference over most other vessels.

SERVICES: The following are available:

Fresh water (rate 25 tonnes p.h.), airport, doctor and hospital.

The following are not available:

Fresh provisions, repair facilities, dry dock facilities, machine shop, surveyors, laundry service, fuel, lubricating oils, groceries, meats and slop facilities.

GENERAL: Arriving from a S.W. direction no difficulties were encountered, Point Gonbe was visible 18 miles on the radar and later the fairway buoy was visible at 10 miles. All the channel buoys showed up at 6 to 8 miles on radar.

The fairway buoy is very large, similar to the type used on the American coast. Chart used 1877 (Estuaire du Gabon).

Conspicuous wreck marked in position Lat. 0° 24.4′ N., Long. 9° 17.2′ E. is no longer visible.

On entering inward I checked the buoys positions against the land and found:

Fairway buoy Gp. Fl.(2) 6 secs. In position. Unlit.
(Course 090°×3.2 M) Fl. G. 4 secs. In position. Lit.
(Course 115°×2.1 M) Gp. Occ(2) G. 6 secs. In position. Unlit.
(Course 115°×2.1 M) Between { Occ. R. 4 secs. In position. Unlit.
Fl. G 4 secs. In position. Unlit.
(Course 137°×3.0 M) Fl. R. 4 secs. Out of position. Unlit.
(Course 137°×6.1 M) Occ. 6 secs. In position. Lit.

After passing the Fl. R. 4 sec. buoy, vessel was about to set a course to the anchorage off the port of Libreville but was told that vessels carrying cars were to proceed to the new port of "Ovendo" some 8.5 miles further up the river.

On arrival I was told to anchor 1 mile S.W. of the new pier.

Quite a modern port as described in the "Guide to Port Entry".

Laying alongside the berth is not very comfortable when the ebb tide starts to flow, anything up to 6 knots within half an hour of H.W., getting its force from three rivers, River Egoume, River Ikoy and the main river Komo.

Vessels always berth on slack water with the aid of a tug to push. Vessels can leave at any time. Port employs two French Pilots.

AGENT: See "Libreville".

PORT GENTIL: 00.43 S. 08.48 E.

On the coast of Lopez Island.

APPROACHES: Buoyed channel, lit at night. Min. depth 15 m.

DOCUMENTS:

Cargo Manifest.
Store List.
Crew's Personal Effects List.
Crew List.
List of Ports of Call (not compulsory).
Health Certificate.
Ship's Official Papers.

PILOTAGE: No Pilot necessary. However Port Authority will arrange Pilot if given 12 hours notice. Pilot boat is a tug. Pilot taken on board at bank buoy.

ROADS/ANCHORAGES: Ships having commercial operations carry them out at anchorage on a line with anchorage buoys (reserved for lighters and tugs) 1 mile S.E. of the Mole in depths 10 to 20 m. 1,500 acres (approx.) of safe shipping anchorage.

Anchorage for several ships of deep draft well sheltered from predominantly S.W. winds during months June, July, August and September. During season of tornadoes (January to end April) which blow from N.E. a fairly heavy sea quickly rises and vessels should anchor at least 600 m. from land.

Max. rise of tide 2 m. 2; average 1 m. 70; min. 0 m. 40.

RADIO: Libreville radio. R/T 2182 kc/s. – Harbour Master.

TUGS: Not required.

BERTHING: No berths. Loading and discharge at anchorage carried out by lighters and flat-bottomed boats. Boat Quay (Mole) has length of mooring quays (suitable only for flat-bottomed lighters and tugs) of 200 m. and depths of 2.50 m. at low tides. Total Mole area approx. 5 acres, comprises Customs Zone with warehouses, offices, wharves, etc.

MEDICAL: For attendance call Harbour Master R/T 2182 kc/s. Smallpox and yellow fever inoculations required.

TANKERS: To N.E. of Mole is petrol pipe-line unloading point for small tankers, tying up on buoys, max. length 70 m., 5 m. draft. Prince's Bay, loading point for unrefined petrol by sealine is available to North of Prince's Bay (see "Cape Lopez").

FRESH WATER: Delivery by lighters, capacity 200 tons. Loading time 2 hours.

FUEL: 3 days notice required. Fuel oil viscosity 1,500 and 3,500 seconds Redwood available. Delivery by 200-ton tankers, every 5 hours.

WATCHMEN: Not necessary.

HATCHES: Opened and closed by crew.

CUSTOMS ALLOWANCES: No limitations on tobacco, wine or spirits.

CONSULS:

Switzerland		Tel. 20–19
Holland	BP. 792	Tel. 28–09
France	BP. 511	Tel. 20.86
Sweden	BP. 518	Tel. 21.71

REPAIRS/DRY DOCKS: Not available.

REPATRIATION: Obtainable on medical grounds. No facilities for crew changes.

AIRPORT: 4 km. distant. Regular services.

TIME: GMT plus 1 hour. No alterations.

HOLIDAYS: No work on Independence Day 17th August.

SHORE LEAVE: Permitted.

AUTHORITY: Capitainerie du Port.

AGENT: Socopao–Gabon, B.P. 560. Tel. 524–91. Telex 8223. Cables "Freight".

Gambia, Republic of

BANJUL: 13.27 N. 16.34 W. (See Plan Book)

DOCUMENTS:

7 Crew Lists.
7 Passenger Lists.
7 Ports of Call Lists.
Health Documents.
Deratisation (or Exemption) Certificate.
Yellow Fever Innoculation Certificates.
Smallpox Vaccination Certificates, all valid.
Customs Crew Declaration.
2 signed copies of Manifest.
Bills of Lading (may be sent in advance of vessel).

PILOTAGE: ETA and draft to be communicated to "Harbour Master Banjul" 48 hours before ETA and confirmed 12 hours before. Vessel arriving Monday ETA preferably not later than Saturday morning.

Pilot station situated in Harbour Master's office has VHF station, calling Channel 16 (156.80 mHz) working Channels 12 (156.60 mHz) and 14 (156.70 mHz). Continuous listening watch kept 0800 – 1500 hrs. Monday – Thursday. 0800 – 1300 hrs. on Friday and Saturday. Listening watch at weekends if vessels are expected. Reception generally good within 100 nautical miles radius. Pilot boat has grey hull and buff superstructure, exhibiting usual signals.

Pilotage from any point inwards from Fairway Buoy by request, but compulsory from No. 5 Buoy inwards.

ANCHORAGES: Good and spacious anchorages to the East and S.E. of Government wharf in depths of 8 to 15 fathoms.

RESTRICTIONS: Vessels may enter and proceed to anchorage at all times and states of tides. Minimum depth in sea approach channel is 28 ft. LWOS. Average rise of spring tides 6 ft., neap tides 4 ft.

MAX. SIZE: Maximum length 600 ft. maximum draft 27 ft. (Banjul Wharf) 20 ft. (Government Wharf). For vessels anchoring only, length unlimited.

HEALTH: Vessels exhibit the appropriate International Code signals. Port Health Officer usually boards the vessel at the harbour anchorage or alongside between 0800 and 1700 hrs. daily, at all times in case of emergency.

RADIO: Banjul Radio call sign C5G. Radio Telephone 2182 kHz (calling) 2756.4 kHz. 1100 – 1200 hrs., 1400 – 1500 hrs. (weekdays) Sundays – on demand.

RADAR/VHF: No port radar station. Port VHF. See "Pilotage".

TUGS: One tug of 1,000 h.p.

BERTHING: Maximum permissible draft alongside; Banjul Wharf 27 ft. Government Wharf 20 ft. Government Wharf berthing face 294 ft. with 1 dolphin in line 100 ft. from North end. Mooring bollards on foreshore. Banjul Wharf berthing face 400 ft. mooring dolphin each end, set back from wharf face. Inner berth of length 335 ft. suitable for small vessels up to 17.5 ft. draft. Public Jetty berthing face 196 ft. maximum draft 11 ft.

BRIDGES: No bridges.

STEVEDORES: Normally 48 hours notice addressed to Agent. If arriving Monday preferable Agent notified requirements latest Friday. Normal working hours 0730 – 1900 hrs.

MEDICAL: Emergencies and cases requiring hospitalisation attended to at all times, giving as much advance notice and information as possible. Other cases attended to as convenient to ships after arrival. For certificates required see "Documents". Inoculation and vaccination yellow fever/smallpox given on request.

TANKERS: Tankers (discharging only) berth on Banjul Wharf. Maximum permissible draft 27 ft. Discharge of residue and bilge prohibited. Ballasting by permission of Harbour Master.

DENSITY: Normally salt water at Banjul, reducing to about 1020 ozs. per cu.ft. during River Gambia flood water period: August – February.

FRESH WATER: Fresh water available at both Government and Banjul wharves from hydrant. Notice of requirements should be sent with ETA. No water barge. D5.00 per 1,000 gallons.

FUEL: Bunkering facilities available at Banjul Wharf through pipe-line and road tankers for reasonable quantities. Also available at Public Jetty for small craft (11 ft. draft). Advance notification required for all bunkers.

FIRE PRECAUTIONS: For tankers and vessels carrying explosives Fire Brigade will be in attendance.

DEVELOPMENTS: This envisages the commencement of Phase II of the Banjul Port Project as trade develops and ultimate embarkation of Phase III.

GANGWAY/DECK WATCHMEN: Recommended. By arrangement with Agent.

OPENING/CLOSING HATCHES: Usually done by stevedores.

CERTIFICATES: Registry, Articles of Agreement, Load Line, Safety, Safety Equipment Radio Licence/Certificate.

CUSTOMS ALLOWANCE: Reasonable allowance of wine/spirits and tobacco/cigarettes out of bond, as per Master's request.

CARGO GEAR: In accordance with UK Factories Act. Ship's lifting gear for loading and discharging, also 4×6 ton and 1×30 ton mobile cranes available.

CREWS IDENTIFICATION CARDS: Needed.

CONSULS: In Banjul: Belgium, Denmark, France, Lebanon, Norway, Spain, Sweden. U.S.A. has resident charge d' Affairs and U.K. has High Commissioner. Senegal has resident Ambassador.

REPAIRS: Minor hull, deck and engine repairs and welding undertaken by G.P.A. dockyard.

DRYDOCK: A slipway of capacity of 500 tons displacement is included in the dockyard facilities.

REPATRIATION: Possible.

AIRPORT: Airport 14 miles from Banjul. Regular services.

TIME: GMT kept throughout the year.

HOLIDAYS: New Year's Day (1st January); Independence Day (18th February); Good Friday, Christmas Day, Boxing Day, Islamic Festivals of Eid-El-Fitr (Ramadan) and Eld-El-Kabir. No cargo work on Islamic Holidays.

TELEPHONE: Telephones installed on board at ships/Agent's request.

GENERAL: The Ports Authority operates 3 lighters each of 9,900 cu.ft. capacity. Lighters may be hired for discharging ship at anchor and transhipments up river.

A private company operates a large fleet of lighters, mainly for transporting groundnut from river ports to Banjul. Ships stores: fresh vegetables, beef and fish, fruit (in season) and bonded stores are available.

Other Ports: River Ports: Kaur and Kuntaur at 118 and 150 miles upriver respectively from Banjul. River Pilots available at Banjul. Max. loaded draft 17 ft. 06 in.

SHORE LEAVE: No restriction on normal shore leave.

AUTHORITY: Gambia Ports Authority.

NOTES

PILOTAGE: Compulsory. Contact by VHF Channel 16, working Channel 12. Pilot boards at Warnemunde light buoy. International code signals used.

ANCHORAGE: In Warnemunde Roads, off port entrance, in depths of 48 ft.

RESTRICTIONS: Entrance channel from Warnemunde light buoy to Overseas Port at mouth of River Warnow, depth 37 ft. LW.

MAX. SIZE: For Overseas Port: length 230 m., beam 32 m., draft 37 ft. For City Docks: 142 m. length, 21 ft. draft. Also see "Tankers".

HEALTH: Pratique given on arrival. In case suspected disease or fever on board, radio details to Agent before arrival. Complete declaration of health required.

RADIO: Rugen Radio, call sign "Y5M".

TUGS: Available. Use of at least 1 tug is compulsory for vessels berthing and unberthing.

Sufficient number of tugs available, ranging from 300 to 1,200 h.p. Tugs normally join vessel in front of the mole.

BERTHING: *Overseas Port:* Situated in Lower Warnow River about 3.8 miles from Warnemunde sea buoy.
Pier No. 1: 6 berths General goods depth 30 ft. to 33 ft.
Pier No. 2: 7 berths General goods depth 30 ft. to 33 ft.
Pier No. 3: 4 berths Bulk cargoes depth 30 ft. to 33 ft.
Pier No. 4: 4 berths Bulk, General, Ro-Ro depth 25 ft. to 37 ft.
Oil Pier: 3 tanker berths depth 31 ft. to 37 ft.

City Docks: In Warnow River, about 6 miles from sea. Total quay length 1,600 m. depths alongside 21 ft. and 18 ft. Grain elevators shooting capacity 42 t.p.h., suction capacity 33 t.p.h.

Warnemunde: Port for passenger service. Quay length 180 m. Depth alongside 27 ft. 04 in.

Port Control to be contacted through VHF Channel 14.

Roll-on/roll-off terminal with facilities for 20 ft. and 40 ft. containers. Max. draft 25 ft.

CRANES: *Overseas Port:* 64 cranes and crane-bridges with capacity from 3.2-20 tons. A self-propelled floating crane "Goliath", for heavy lifts not exceeding 100 tons is available.

City Docks: Crane capacities 2-10 tons.

BULK HANDLING FACILITIES: 3 berths, length of quay 720 m. Six bridges with 20 tons capacity and outreach of 40 m. Storage area 13,200 cu.m. for 90,000 tons of bulk cargo.

TANKERS: 3 berths available. Max. length 230 m., Max. draft 37 ft.
Berth No. 12, 33 ft. (max. LOA 215 m.)
Berth No. 13, 37 ft. (max. LOA 230 m.)
Berth No. 14, 31 ft. (max. LOA 215 m.)

Storage capacity of 120,000 cu.m. Max. discharge rate 2,900 cu.m. per hour.

MEDICAL: Doctors, hospitals available. Advance notice to Agent required if medical assistance necessary.

FRESH WATER: Available ex-shore hydrants.

FUEL: Available all grades fuel and gas oil by barge. Vessels calling for bunkers only, pay no harbour dues, and other fees are reduced.

REPAIRS: All repairs possible. Floating crane available. Neptun Shipyard and other repair shops situated at City Docks. Warnow Shipyard and floating dock situated in Overseas Port.

DEVELOPMENTS: Plans to build a floating island in depth of 21 m. off Rostock to accommodate tankers up to 100,000 tons. Estimated discharge rates up to 3,000 t.p.h. into smaller vessels for transfer to existing oil terminal.

REPATRIATION: Can be arranged if identification papers in order.

TIME: GMT plus 1 hour. Summertime, GMT plus 2 hours (6th April – 28th September).

HOLIDAYS: New Year (1st January); Good Friday; Easter Sunday; 1st May; Whit Sunday; Whit Monday; 7th October; Christmas Day; 26th December.

AIRPORT: Berlin – Schonefeld.

TELEPHONES: Ship-to-shore connections available.

POLICE/AMBULANCE/FIRE: Ambulance 366-3500; Police 366-3333; Fire 366-2222.

SHORE LEAVE: Crew members permitted ashore.

AGENT: VEB Schiffsmaklerei, Rostock, Strandstr 86. Telex: 31265 (Head office). Port office, City Telex: 31265, Tel: 37081 (ext. 2267). Agency Overseas Port, Telex: 31286, Tel: 366-3962/66.

PILOTAGE: Compulsory. Contact Pilot by VHF Channel 14. Pilot stations are at Barhoeft and Thiessow. Pilot boards vessel at Gellen (North-West entrance) and Landtief (Eastern entrance).

Entry only possible from one hour before sunrise to one hour after sunset. (North-west entrance only).

ANCHORAGE: In the roads clear of the fairway, depths 26 to 30 ft.

RESTRICTIONS: Northern entrance between breakwaters is 11 ft. 06 in. depth used by smaller vessels only. Eastern entrance, depth 17 ft. MLW passing railway bridge, which is opened about every 3 hours.

MAX. SIZE: Vessels up to 17 ft. draft.

RADIO: Rugen Radio, call sign "Y5M".

HEALTH: Pratique given on arrival. In case suspected disease or fever on board radio details to Agent before arrival.

TUGS: Available and compulsory for vessels of over 1,000 g.r.t. berthing and unberthing.

BERTHING: Depth alongside quays up to 17 ft. maximum. Length of quays 1,100 m.

CRANES:

2 cranes	10 tons capacity; reach 20 m.
2 cranes	2 tons capacity; reach 20 m.
1 crane	5 tons capacity; reach 22 m.
2 Elevators	capacity 25 t.p.h. each.

Also a conveyor system for handling of salt with a capacity of 60 t.p.h.

FRESH WATER: Available from shore ex pipe-line.

FUEL: Gas oil and lube oil available. By barge.

REPAIRS: All deck, hull and machinery repairs by local shipyards.

REPATRIATION: All facilities exist for changing crews.

AIRPORT: Berlin (Schonefeld).

MEDICAL: Doctors, hospitals available. Advance notice to Agent required if medical assistance necessary.

TIME: GMT plus 1 hour. Summertime, GMT plus 2 hours (6th April – 28th September).

HOLIDAYS: New Year (1st January); Good Friday; Easter Sunday; 1st May; Whit Sunday; Whit Monday; 7th October; Christmas Day; 26th December.

SHORE LEAVE: Crew members permitted ashore.

AGENT: VEB Schiffsmaklerei Rostock. Agentur Stralsund 23 Stralsund. Hafen – Ballastkiste. Tel. 692362. Telex 0 31 85 24.

WISMAR: 53.54 N. 11.27 E. (See Plan Book)

DOCUMENTS:
Health Declaration.
6 Crew Lists.
2 Passenger Lists.
2 Money Lists.
Stores List.
Cargo Documents.
Ship's Certificates.

PILOTAGE: Compulsory from outer roads to harbour quays. Pilot boards at Wismar sea buoy. International code signals used. Contact by VHF Channel 12.

ANCHORAGE: In outer roads between Hannibal Shoal and Poel Island in depths of up to 40 ft. Protected anchorage in inner roads, depths up to 30 ft.

RESTRICTIONS: Entrance to the port is through a buoyed channel 15 miles long, depth 27 ft. LW. Vessels over 125 m. LOA or 24 ft. draft. Enter in daylight only, turning basin 250 m. diameter.

MAX. SIZE: Length up to 170 m. Max. draft 27 ft. Vessels over 165 m. LOA, max. draft 26 ft.

HEALTH: Pratique given on arrival. In case suspected disease or fever on board radio details to Agent before arrival.

RADIO: Rugen Radio, call sign "Y5M".

TUGS: Available and compulsory for berthing and unberthing.

2 tugs of 800 h.p. Tugs join vessel according to the Pilot's instruction.

BERTHING:

Grain Quay: Max. draft 27 ft., quay length 160 m., 2 grain elevators, grain silos for 20,000 tons.

Potash Port: Max. draft 27 ft., mechanical potash loading plant, quay length 360 m., 3 loaders.

Oil Port: Max. draft 27 ft., max. length 200 m.

Timber Port: Max. draft 25 ft., quay length 400 m., 2 gantry cranes of 3.2 tons, 1 mobile crane (30 tons).

Old Port: Max. draft 16 ft., quay length 140 m., no handling operations, fishing port, waiting berths.

Seaport, Northern Quay: Max. draft 27 ft., quay length 420 m., 5 gantry cranes with a capacity from 3.2 to 12 tons. One mobile crane of 30 tons capacity and one floating crane of 100 tons capacity.

Seaport, Southern Quay: Max. draft 27 ft., quay length 500 m., 3 semi-gantry cranes with a capacity from 3.2 to 10 tons.

FRESH WATER: Available from shore hydrants at all berths.

FUEL: All grades fuel and gas oil obtainable. Vessels calling for bunkers only, pay no harbour dues, and are allowed a reduction in pilotage and clearance fees. 7 days notice required for bunkers.

REPAIRS: Repairs can be effected at Mathias-Thesen Shipyard. Floating crane available, capacity up to 100 tons.

MEDICAL: Doctors, hospitals available. Advance notice to Agent required if medical assistance necessary.

TIME: GMT plus 1 hour. Summertime GMT plus 2 hours. (6th April – 28th September).

HOLIDAYS: New Year (1st January); Good Friday; Easter Sunday; 1st May; Whit Sunday; Whit Monday; 7th October; Christmas Day; 26th December.

SHORE LEAVE: Crew members permitted ashore.

AIRPORT: Berlin, 270 km. from Wismar.

TELEPHONES: No ship to shore communications.

AGENT: VEB Schiffsmaklerei Rostock, Agentur Wismar, 24 Wismar, Kopenhagener Strasse. Tel. 4208, 45230-32 Telex 0318841.

Germany, Federal Republic of

GENERAL:

RIVER ELBE:

GENERAL INFORMATION ON ELBE PILOTAGE, DEEP SEA PILOTAGE, HELICOPTER AND RADAR SERVICE, ANCHORAGE ON THE RIVER ELBE.

Elbe Pilots for all ports on the River Elbe, Cuxhaven, Brunsbuttel, Butsfleth, Stadersand, HEW-Wedel and Hamburg.

Pilot Vessels: For inward bound vessels near Elbe 1 light-vessel, a 2-masted pilot vessel painted black with yellow funnel and "Lotse" in white letters on hull is stationed in approx. position 53° 59.5′ N., 08° 09.0′ E. In bad weather Pilot vessels shift to East of light buoy "9".

Pilot vessel can be contacted on VHF Channel 13 or 16, by flying flag "G", by sound or morse signals.

Land-based radar contact can be requested through radar station "Neuwerk Radar Radio 1", VHF Channel 20.

PILOTAGE: Vessels requiring Elbe Pilot must order same at least 12 hours prior to arrival at Elbe 1 light-vessel by cable to "Elbelotsen Brunsbuttel" (cable address Elblotse Brunsbuttel) via Norddeich Radio, call-sign DAN.

Message must include name of vessel, gross tonnage, ETA Elbe 1, date 2 figures, time of vessel's arrival 4 figures, draft, vessel's destination. (For example: Eleka 12854 ETA Elbe 1 02 1030 24 ft. 4 in. Kiel Canal). One hour before arrival at Elbe 1 light-vessel Masters are advised to contact the Pilot vessel by VHF Channel 13 or 16.

**Pilotage is compulsory* on the River Elbe to and from Elbe 1 light-vessel for all vessels over 1,000 g.r.t.

Obligatory pilotage on the River Elbe for all vessels exceeding 1,000 g.r.t. is under consideration and is expected to become effective in April 1981.

Pilotage is compulsory on the River Elbe to and from Elbe 1 light-vessel for oil, gas and chemical tankers over 300 g.r.t. in loaded and partially loaded conditions, including empty tank-vessels which have not been freed from gas or dangerous residues, as well as for nuclear-powered vessels and, in addition, for all such tank-vessels over 10,000 g.r.t. on their way to and from Deutsche Bucht light-vessel.

These tank-vessels and nuclear-powered vessels over 10,000 g.r.t. have to use the Western Approach Traffic Separation Scheme Deutsche Bucht. Pilots for these vessels will be embarked and disembarked only at the Deutsche Bucht light-vessel.

Furthermore, pilotage is compulsory also for vessels of more than 60,000 g.r.t. not carrying dangerous cargo on the River Elbe to and from Elbe 1 light-vessel and on their way to and from Deutsche Bucht light-vessel; these vessels can embark and disembark Pilots only at the Deutsche Bucht light-vessel; they have to use the Western Approach Traffic Separation Scheme Deusche Bucht.

Vessels exceeding 35,000 g.r.t. (except container, passenger and warships) have to take 2 Elbe Pilots, but in fog all vessels from 25,000 g.r.t. upwards.

Pilotage district divided into 3 areas: 1st district from Elbe 1 (Deutsche Bucht) light-vessel to Brunsbuttel (entrance of Kiel Canal) 40 miles – operated by Elbe Pilots; 2nd district from Brunsbuttel to Hamburg-Seemannshoft (entrance of Port of Hamburg) 40 miles – operated by Elbe Pilots; 3rd district covers the whole area of the Port of Hamburg – operated by Port Pilots.

Change of Pilot takes place at Brunsbuttel and Hamburg-Seemannshoft.

Vessels expecting Pilot may wait in vicinity of Elbe 1 light-vessel or Deutsche Bucht light-vessel.

No restriction imposed on night entry for any vessels on the River Elbe.

Current velocity 2-3 knots; mean tidal range at outer bar light-buoy "9" 9 ft. 6 in.; Brunsbuttel 8 ft. 10 in. and Hamburg 9 ft. 6 in. nature of bottom, sand and mud.

River pilotage dues (Lotsabgaben) have to be paid by all vessels exceeding 300 g.r.t., irrespective of whether they have used a river Pilot or not.

Pilotage fee (Lotsgeld) will only be charged if a Pilot is employed.

DEVELOPMENTS — RIVER ELBE: Continuous dredging is in process along the River Elbe with a view to providing a depth of 13.5 m. below mean low tide level.

As from completion of these works, the maximum permissible draft for vessels approaching the ports on the River Elbe will be increased from time to time in small increments.

HELICOPTERS: Helicopter Pilot service is available for vessels exceeding 10,000 g.r.t. at Deutsche Bucht light-vessel.

A twin-turbine powered Bell 212 S helicopter is available for this service. Only suitably equipped vessels may have Pilot transferred by helicopter.

There must be an officially approved landing area or a marked winching area available according to international rules. (See "Late Plans").

These vessels have to send aforementioned information together with the ETA.

(a) Pilots of the Elbe pilotage region are to be ordered 24 hours prior to arrival at the helicopter rendezvous position in the vicinity of Deutsche Bucht light-vessel by radiotelegram to "Elbelotsen Brunsbuttel".
Cable Address: "Elblotse Brunsbuttel" via Norddeich Radio, call-sign DAN. Message must include name of vessel, gross tonnage, ETA Deutsche Bucht, date 2 figures, time of vessel's arrival 4 figures, draft, vessel's destination and whether an officially approved landing area or a marked winching area is available. (For example: Terre 104468 ETA Deutsche Bucht 11 1530 41 ft. 3 in. Brunsbuttel Elbe-Terminal landing area available.

(b) A corrected ETA should be sent to "Elblotse Brunsbuttel" 6 hours prior to the transfer operation at Deutsche Bucht light-vessel.

(c) Send the exact time of arrival to "Elblotse Brunsbuttel" 2 hours before arrival at Deutsche Bucht light-vessel.

In addition to this, vessels should keep watch on Channel 16 VHF, 30 minutes before arrival so that the helicopter can contact the ship.

For homing purposes vessels should transmit their call-sign on 410 kHz. 20 minutes before the helicopter's arrival, folowed by a 30 seconds continuous dash and again the call-sign twice, the complete signal to be repeated until the *helicopter is hovering over the ship.*

When transferring the Pilot, vessels are restricted in their ability to manoeuvre and may exhibit the lights and shapes as under rule 27(b) of the International Regulations for Preventing Collisions at Sea. In addition, they may inform shipping of their manoeuvres by VHF.

In cases of defect of helicopter, poor visibility, icing conditions, inadequacy of construction of ships, or no marking of a landing or winching area, the Sea-Pilots have to be embarked or disembarked by the Pilot boat at the same position.

A sea-going Pilot boat is operating from Helgoland for embarking and disembarking the Pilots, if the helicopter is not available, or if the ship's construction is inadequate for helicopter transfer, or if the helicopter landing or winching area of the ship has no proper marking according to international rules.

GENERAL: If helicopter operation cannot take place, the ship will be informed of the fact by radio telegraph via Norddeich Radio (DAN). For that purpose a permanent radio watch should be kept on 500 kHz (512 kHz if distress traffic is in progress on 500 kHz) during the approach, starting 2 hours before reaching rendezvous position at Deutsche Bucht light-vessel.

The Master will receive further instructions by radio message how to proceed, if Pilot transfer is not possible.

RADAR: A continuous chain of radar stations has been established to cover the traffic flow along the estuary of the River Elbe from Elbe 1 light-vessel as far as well into the port of Hamburg. If visibility drops below 3,000 m. and/or if particular situations arise (bad weather, ice, etc.), the Elbe Pilot will be assisted by his fellow Pilots at the shore-based radar stations. Where vessels carry no or inadequate VHF equipment, a transceiver set with calibrated duplex frequencies can be hired for the trip and should be ordered together with the request for a Pilot.

Contact radar stations Neuwerk Radar Radio 1, VHF Channel 20; Neuwerk Radar Radio 2, VHF Channel 5; Cuxhaven Radar Radio, VHF Channel 21; Belum Radar Radio, VHF Channel 3; Brunsbuttel Radar Radio, VHF Channel 18; Freiburg Radar Radio 1, VHF Channel 22; Freiburg Radar Radio 2, VHF Channel 20; Steindeich Radar Radio, VHF Channel 5; Hetlingen Radar Radio, VHF Channel 21; Hamburg Radar Radio, VHF Channel 19, 20 and 18.

ANCHORAGE: A deep-water anchorage for deep-draft vessels, very large crude carriers (VLCC's), and ultra large crude carriers (ULCC's) lies South of the light-vessel "Deutsche Bucht", approx. position 54° 05′ N., 07° 27′ E.

In vicinity of Elbe 1 light-vessel (5 miles inside) for large and deep-draft vessels, North of red radarline, approx. position 54° 01′ N., 08° 15′ E., depth of water about 14-21 m. below chart zero.

Neuwerk Roads, approx. position 53° 58′ N., 08° 30′ E., depth of water about 8-16 m. below chart zero;

Medem Roads, approx. position 53° 51.5′ N., 08° 46.5′ E., depth of water about 6-12 m. below chart zero;

Neufeld Roads, approx. position 53° 51.7′ N., 09° 00′ E., depth of water about 9-10 m. below chart zero;

N.E. Roads, off Brunsbuttel, permission only for one tide, approx. position 53° 53′ N., 09° 12′ E., depth of water about 13-14 m. below chart zero;

Freiburg Roads, approx. position 53° 50.6′ N., 09° 19.5′ E., depth of water up to about 13 m. below chart zero;

There are further anchorages for small vessels at Sudreede (S. anchorage) off Brunsbuttel, Krautsand – and Twielenfleth Roads.

The bottom at these anchorages consists of sand and mud.

DEEP SEA PILOTAGE: Elbe Pilots hold foreign-going Master Mariner's Certificates and an additional government licence for North Sea and English Channel pilotage, they are on call to board vessels in all North Sea ports of the Continent and the United Kingdom and in ports, along the coastlines of the English Channel.

Vessels will be boarded on request by Elbe Pilots for approaching the River Elbe and nonstop onward upstream pilotage or by Elbe Pilots with additional North Sea licence for pilotage in the North Sea and English Channel.

Elbe Pilots are experienced in handling vessels of any type and size.

Advantages: No delay (by gales or fog) as may be caused by taking a Pilot at Elbe 1 or Deutsche Bucht light-vessel.

Assistance to nautical staff in heavily congested areas. Exact knowledge of local conditions.

Please observe these periods of notice:

North Sea ports (Continent) 24 hours prior to sailing;

North Sea ports (United Kingdom) English Channel 48 hours prior to sailing or prior to passing local Pilot stations.

Request for services to be directed to "Elbelotsen Brunsbuttel", Tel: 04852/87295, cable address "Elblotse Brunsbuttel".

BRAKE: 53.20 N. 08.29 E. (See Plan Book)

PORT LIMITS: The government-owned piers are the commercial area of the port. A vessel is considered to be an "arrived ship" when she is moored alongside such piers, and the customs formalities are complete. Laytime will commence according to referring charter parties.

Port Authorities distribute the free berthing places in following the "Benutzungsordnung fur den Hafen Brake" which says briefly that a vessel will get a rank position in actual arriving times:

(a) for ships coming from sea: arrival "Weser lightvessel" plus 5 hours.

(*b*) for ships coming from Bremerhaven North Roads and Blexen Roads: departure plus 2 hours.

(*c*) for ships coming from Bremen: departure plus 3 hours.

DOCUMENTS:

2 Lists Ship's Stores.
2 Crew Lists.
2 Passenger Lists.
Health Certificate (forms obtainable from Pilot).
Ship's Register.

DEEP SEA PILOTAGE: See "General" before first German port.

PILOTAGE: Carried out by Weser River Pilots. The river Pilots also act as docking Pilots. Also see "Bremen" and "Bremerhaven".

ANCHORAGE: No anchorage in vicinity of Harbour. Anchorage in "Blexen Roads". For further details see "Bremen".

RESTRICTIONS: Vessels proceeding to Brake with a draft in excess of 24 ft. will be restricted by the tide.

MAX. SIZE: Max. length 265 m. (869 ft.); no restriction on beam. Max. draft 37 ft. in fresh water.

PRATIQUE: Free pratique is given by health and immigration officer only. If a case of fever or disease is suspected on board radio the Agent with details before arrival.

RADIO: Cable Agent via Norddeich Radio (Call sign DAN) advising ETA and cash requirements.

RADAR/VHF: Stations from Weser lightvessel to Bremerhaven. Radar service between Bremerhaven and Bremen is planned. Radar stations have day and night service. If no fog every odd hour radar stations give on VHF or Pilot walkie-talkie report of visibility, defective buoys, anchoring ships, obstructions to navigation, and special occurrences. Direct contact between port and ship is possible on VHF.

TUGS: Available day and night in sufficient number. No extra charge for using tug's lines.

BERTHING:

New locks have been built at the inner harbour and are operating since August 1979. Dimensions: Length 95 m. (311 ft.), width 16 m. (52 ft.) Max. size of vessel to be handled will be a fully loaded vessel of 3,000 d.w.t. with a max. draft of 6.0 m.

Inner Harbour with tide-independent lock: Length of dock 1,070 m. (3,500 ft.), width 110 m. (360 ft.). Length of canal 228 m. (750 ft.), width of canal 46 m. (150 ft.), length of quay in canal 228 m. (750 ft.).

Riverside Berth: Total length 1,852 m. (6,075 ft.), depth at pier 37 ft. at normal low water, tidal amplitude 11 ft. 6 in. Max. draft 37 ft. Max. length of ships not more than 265 m. (869 ft.).

This government-owned pier is divided into 2 areas. The Northern part is the crane-area with a length of 4,510 ft., the Southern part, 1,565 ft. long, is the grain-handling area.

Private Pier of the Fettraffinerie/Unimills has a length of 245 m. (804 ft.) depth 36 ft.

SPECIALISED CARGO HANDLING FACILITIES:

Inner Harbour: crane area

2 electric cranes to lift 1 to 5 tons.	
2 bridge cranes, capacity 50 tons.	Riverside Berth.
2 bridge cranes, capacity 20 tons.	
1 bridge crane, capacity 15 tons.	
2 whipping cranes, capacity 25 tons.	
2 whipping cranes, capacity 15 tons.	

Grain handling area (Riverside Berth)

4 pneumatic grain elevators (capacity from 120 to 600 t.p.h.) with a total discharge capacity of 1,600 t.p.h.

Fettraffinerie Pier

Tank installations with pumping arrangements of a capacity of 700 t.p.h. to vessel and 2,000 t.p.h. from vessel.

The government-owned pier is equipped for containers, but not for roll-on/roll-off traffic. The berth does not handle liquid chemicals.

STEVEDORES: ETA has to be reported to the Agent to arrange gangs. Stevedores are working 3 shifts around the clock on working days (Monday to Saturday); on Sundays and holidays 4 shifts are worked around the clock.

MEDICAL: Two hospitals and several doctors available at Brake. Advance notice to Agent required if medical assistance necessary.

TANKERS: Fettraffinerie Pier: Max. draft 33 ft. Discharging lines: molasses 6 in., fuel oil 8 in., diesel 10 in. and vegetable oil from 4 to 8 in.

DENSITY: Brake Port, Freshwater: salinity = 1002–1004.

FRESH WATER: Available both at Riverside Berth and Inner Harbour. Pumping capacity from 18 to 20 t.p.h.

FUEL: All grades available by bunker barges.

FIRE PRECAUTIONS: No smoking on deck. For tankers at Fettraffinerie Pier smoking only in saloon and/or messroom.

CONSULS: No Consuls; consulates at Bremen.

REPAIRS: All normal ship and engine repairs can be carried out during laytime on board.

DRY DOCKS: One dry dock at Luehring Werft, Brake, for ships with a length not in excess of 85 m. (279 ft.), nor broader than 16 m. (52 ft. 6 in.), and a max. draft of 13 ft. 1 in.

SURVEYORS: Classification Socieities not represented but several surveyors available at Brake Port.

GANGWAY/DECK WATCHMEN: Crew's watchmen necessary – strong tides, current-speed 3 knots.

HATCHES: Depends on the different charter parties.

CUSTOMS ALLOWANCES: 200 cigarettes, 1 bottle of spirits and 2 bottles of wine.

CARGO GEAR: Load/discharge normally effected by shore-gear.

REPATRIATION: Any necessary repatriation and/or crew changes can be effected by Agents at Brake.

AIRPORT: International airport served by regular airlines at Bremen. Brake to Bremen, distance 57 km. (35 stat. miles).

TIME: Local time is GMT plus 1 hour. No alterations to clocks during the year.

HOLIDAYS: New Year, Good Friday, Easter Sunday and Monday; 1st May, Ascension Day; Whitsunday and Monday, Penitentiary Day, 2 Christmas Days. Cargo work can be arranged on those days, except on New Year, Easter Sunday (1st Easter day), 1st May, Whitsunday, 1st Christmas Day, and on the days before such days till 1200 and/or 1400 hours.

POLICE/AMBULANCE/FIRE: Police 110; Ambulance 4060; Fire 112.

TELEPHONES: No arrangements to place telephones on board.

SHORE LEAVE: Shore passes are required according to customs regulations.

IDENTIFICATION CARDS: Crew members to have valid identity cards.

DEVELOPMENTS: Weser fairway depth will be increased to 12 m. (39 ft. 6 in.).

SEAMAN'S HOSTEL: Weserstr. 1A, tel. 4490.

AUTHORITY: Niedersachsisches Hafenamt Brake.

BREMEN (Including Farge): 53.07 N. 08.45 E.

(See Plan Book)

DOCUMENTS:

3 Crew Lists.
3 Passenger Lists.
Provision and Store Lists incl. fuel oil.
Dangerous Cargo Lists.
Health Declaration.
Ship's Register.
No Customs Papers if vessel laying in Freeports at Bremen.

DEEP SEA PILOTAGES: See "Brixham" or "Cherbourg" and "General" before first German port.

PILOTAGE: Compulsory only for ships with dangerous goods in bulk according to a special list of the Wasser-und Schiffahrtsdirektion, tankers and nuclear ships. But a portion of pilotage dues is charged in any case. Most vessels take a Pilot.

Distance from Bremen lightvessel to Bremerhaven 36 miles. Distance from Bremerhaven to Bremen 32 miles.

At least 12 hours before arrival at Weser lightvessel, Masters should cable ETA messages to "Lotsenbruderschaft Weser zwei Bremerhaven" via Norddeich Radio. Message to include name and g.r.t. of vessel, place where Pilot required to board, day and hour of vessel's arrival, vessel's destination and fresh-water draft in metres. Sea Pilots board at Weser lightvessel to Bremerhaven. River Pilots board at Bremerhaven to pilot vessels as far as Bremen.

Pilot station near Weser lightvessel 53° 52′ 16″ N., 07° 50′ 00″ E., black-painted motor vessel, black-topped funnel, white lettering "Lotse" on hull. In rough weather, pilot boat may be found inside near Rotesand Lighthouse/buoy "14". Pilots may be contacted by Norddeich Radio, 2182 or 2614 kHz. Alternatively by VHF Channel 16.

River Pilots boarding at Bremerhaven also act as harbour Pilots to all ports above Bremerhaven.

ANCHORAGE:

1. About 1 mile S.W. of Weser lightvessel 53° 52′ 16″ N., 07° 50′ 00″ E.
2. Near Hoheweg lighthouse between buoys "12" and "25". Depth about 12 m.
3. Tegeler Plate between buoys "18" and "24".
4. Bremerhaven Northroads between buoys "49" and "53". For ships with dangerous cargo inside the red sector of Imsum F. Lt. Depth about 12 m. Blexen Roads (South Roads) depth about 10 m.

RESTRICTIONS: Vessels proceeding to Bremen, with a draft in excess of 22 ft. will be restricted by the tide.

MAX. SIZE: Bremen: length 230 m., draft 30 ft. 2 in., in fresh water. Longer ships with special permission.

Locks: At the entrance of the Industriehafen max. length 170.0 m., max. breadth 23 m., tidal docking up to 190 m., max. draft up to 30 ft. 3 in. according to tide.

New lock under construction, max. length 250 m., max. breadth 35 m., max. draft 30 ft. 2 in.

HEALTH: Master has to fill and sign Maritime Declaration of Health which is handed to health officer on arrival at Bremerhaven and Bremen. In case suspected disease or fever on board radio details to Port Health Bremerhaven via Norddeich Radio before arrival.

RADIO: Cable Agent via Norddeich Radio, call sign DAN, advising ETA and cash requirements.

Bremen Port Radio VHF station on Channels 3, 16, and 14 to be used for messages to all Port Authorities including Police and Fire Brigade and Port Health in case of emergency.

RADAR/VHF: Stations from Weser lightvessel to Bremerhaven. Radar service between Bremerhaven and Bremen is planned. Radar station has day and night service. If no fog, every odd hour radar station gives by VHF, or Pilot walkie-talkie, report of visibility, defective buoys, anchoring ships, obstructions to navigation and special occurrences. The new radar station at Bremen Port area is working day and night, call Bremen Radar Radio on Channel 12 or 16.

TUGS: Tugs available at all stations according to ships request. Tugs lines used (only) without charge.

BERTHING: Berthing at Bremen: The following harbours can be reached:

Harbour name:	*Depth (above chart datum)* (m.)
Europahafen	3.20 – 8.60
Uberseehafen	3.20 – 10.20
Holz–und Fabrikenhafen	4.20 – 8.50
Getreidehafen	4.00 – 11.50
Neustadter Hafen	4.00 – 11.50
Kap Horn Hafen	9.00
Industriehafen	3.20 – 6.20

Max. draft is dependent on the prevailing winds

SPECIAL CARGO HANDLING FACILITIES:
Container Handling Facilities: Neustadter Hafen Shed 24 is equipped with 2 container cranes, suitable for 40 ft. containers. Max. lifting capacity is 45 tons. The terminal has 116 connections for reefer containers.

Shed 21 is equipped with 1 container crane, suitable for 40 ft. containers. Max. lifting capacity is 80 tons.

Roll-on/roll-off terminal: At the head of the Europahafen, 1 berth. Max. carrying capacity 60 tons, width 8 m. Max. draft 28 ft.

At the end of shed 24 Neustadter Hafen, 1 berth. Max. carrying capacity 60 tons, width 30 m., draft 32 ft.

Lash Terminal: A lash terminal has been appointed at shed No. 2 Europahafen. Lash-lighter places: Lankenauer Hoft and shed No.19 Coolhouse.

Bulk handling facilities (Industriehafen)
Bulk cargoes such as coal, coke, ore, phosphate, oil, logs, and potash are handled in the Industriehafen. To enter the Industriehafen, vessels have to pass through a lock which is 171 m. long, 23 m. wide and allows a max. draft of 30 ft. 3 in. fresh water at normal high water.

New lock under construction, length 220 m., width 30 m. and draft 30 ft. 2 in.

Gebr. Rochling (Kohlenhafen)
At this facility coal, ore, phosphate, and logs are handled. There are no restrictions regarding the vessel's length, beam, height or draft other than those imposed by the lock to the Industriehafen. The quay has a length of 850 m. and is equipped with four 18-ton cranes, each having a capacity of 1,500/2,000 tons per shift. In addition there is 1 gantry crane lifting a 20-ton wagon and loading this quantity within 3 minutes, and 4 cranes (two of 8 tons and two of 5 tons) which are mainly used for handling logs.

Storage facilities amount to 75,000 sq.ft.

Anker-Schiffahrt (Kalihafen)
At this facility salt and potash cargoes are handled. The quay has a length of 400 m. and is equipped with 5 conveyerbelt loaders and 3 crane bridges each with a lifting capacity of 6 tons. It is possible to store about 150,000 tons of cargo. Restrictions as above.

Klocknerhutte (Huttenhafen)
This facility mainly handles coal, ore, scrap, stones and sand. Export of steel sheets pipes and coils of Klockner iron mill are handled via this quay.

Quay length:	550 m.
3 Gantry cranes:	12.5 tons, 10 tons, 40 tons.
Ore discharging capacity	8,000 tons per 24 hours.
Storage capacity	300,000 tons
Restrictions as above	

Kraftwerk-Hafen (Power Station) Kohlenhafen
At this berth only coal cargoes for use by the power station are handled. Discharging rate 2 cranes: 1,250 tons per shift.

Other bulk handling facilities:
Granary (Getreidehafen) *near the Uberseehafen*
No locks Max. draft 32 ft. Lighterage is possible.

Berth A	2 elevators with a capacity of 400 t.p.h. max. length 260 m. (853 ft.).
Berth B	6 elevators with a capacity of 170 t.p.h. max. length 176 m. (577 ft.).

Kraftwerk Farge (Power Station)
Location: 10 miles downstream from Bremen. Only coal cargoes for the power station are handled.

Max. draft	29 ft. 6 in.
Max. length	200 m. = 656 ft.
Max. beam	25 m. = 82 ft.

3 cranes, total discharging capacity 200 t.p.h.

Rolandmuhle: tidal basin Holz- und Fabrikenhafen. Grain facility with

Max. draft	20 ft. 4 in. at low water.
Max. length	180 m. (591 ft.).
2 stationary elevators	3,000 tons per day
1 conveyer for loading	bags only

J.H. Bachmann/J. Muller/Karl Gross (Holz- und Fabrikenhafen)
Facility for grain and occasionally, general cargo handling.

Max. draft	up to 23 ft. at normal low water.
Quay length	710 m. (2,330 ft.).
Cranes	13 Grain/General cargo
Elevators	4–250 t.p.h. each

Car and general cargo loading installations (Kap Horn) with two quays, one 320 m. long inside Industriehafen and the other 800 m. long (at the riverside). The storage area is 100,000 sq.m. and provides sufficient space for 7,000 cars. The loading of cars is done by ship's gear.

STEVEDORES: Ordered by Agent; no ETA advice to stevedores necessary.

Working hours:

Regular period: 0630–1430 resp.
0600–1400
Free Port
1st shift: 0600–1400
2nd shift: 1430–2230
3rd shift: 2300–0600 (overtime)

CRANES: All piers are fitted with cranes 3/7 tons. Floating cranes up to 250 tons available.

MEDICAL: All medical facilities available. Advance notice to Agent required if medical assistance necessary.

TANKERS: Draft in fresh water.

Holzhafen	one berth max. draft 28 ft. at LW
Osterott I	one berth max. draft 34 ft. 6 in. at LW
Osterott IV	four berths max. draft 37 ft. 8 in. at LW
Farge	two berths max. draft 29 ft. 11 in. at LW

For the following tanker berths see restrictions of the entrance lock Industriehafen

Oelhafen:	several berths max. draft 14 ft. to 23 ft.
Huttenhafen:	three berths max. draft 20 ft. to 24 ft.
Becken A	one berth max. 22 ft.
Kalihafen	one berth max. 30 ft. 3 in.

Fina Oil Einswarden. Max. draft 36 ft. 6 in. Discharging lines crude oil 12 in., fuel oil 10 in., diesel 8 in.

Frisia (Gulf Oil) Einswarden. Berth for tankers up to 250 m. length, max. draft 36 ft. fresh water.

DENSITY: Fresh water.

FRESH WATER: Available by hose and barge.

FUEL: All Grades available.

FIRE PRECAUTIONS: Smoking or use of open fire not allowed all over the Port area. No smoking on deck. Tankers, smoking in saloon or messroom only.

CONSULS: 39 countries represented.

REPAIRS: All repairs possible.

DRY DOCKS:

Vulkan-Gravity Dock	up to 240,000 d.w.t.
and one floating Dock	up to 8,500 d.w.t.
AG. "Weser" 2 Docks	up to 33,000 d.w.t.

SURVEYORS: Contact Schiffsbesichtiger: 38-52-84.

GANGWAY/DECK WATCHMEN: Not considered necessary. But available when ordered.

HATCHES: Opening and closing normally by crew with stevedores assisting.

CUSTOMS ALLOWANCE: Outside freeports: 200 cigarettes for 3 days or 50 grams tobacco and 1 bottle spirits. After 3 days further same quantities. Wine not restricted. Freeports in Bremen only Europahafen, Uberseehafen and Neustadter Hafen.

CARGO GEAR: No additional requirements. Preventers necessary.

REPATRIATION: Any time.

AIRPORT: Regular national and international flights.

HOLIDAYS: New Year's Day (no work performed); Good Friday; Easter Sunday (no work performed); Easter Monday; Labour Day (no work performed); Ascension Day; Whit Sunday (no work performed); Whit Monday; 17th June; Prayer Day; Christmas Day (no work performed); Boxing Day.

POLICE/AMBULANCE/FIRE: Police help 110; Fire, First aid 112. Pilot Station Bremerhaven: Sea Pilots 4–22–20; River Pilots 4–22–89.
Pilot Station Bremen: 38–52–08 or 38–13–26.
Port Administration Bremen: 397-1.
Waterway Police: 38–43-31.
Port Medical Services: 38–34–16.
Immigration: Call Water Police.
Foreign Calls: 0010.

TELEPHONES: It is possible to rent a telephone box from Mooring Company.

REGULATIONS: Usual Port Regulations. Special Regulations for dangerous goods and Tankers.

AUTHORITY: Hafenamt Bremen.

AGENT: Wm. H. Muller Co. (Bremen) GmbH. Birkenstrasse 37. Bremen 1.Tel.: (0421) 314910. Telex: 244704. Cables: "Batavier".

BREMERHAVEN: 53.33 N. 08.35 E. (See Plan Book)

DOCUMENTS:
6 Crew Lists.
6 Passenger Lists.
3 Provision and Store List incl. fuel oil.
3 Dangerous Cargo List.
Health Certificate (forms obtainable from Pilots).
Ship's Register.
No Customs Papers if vessel laying in Freeport at Bremerhaven.

DEEP SEA PILOTAGE: See Brixham or Cherbourg and "General" before first German Port.

PILOTAGE: See "Bremen".
Docking Pilots join vessels at Buoy "Z" if bound for Uberseehafen or near entrance of Geeste River if bound for Fischereihafen. Call sign is International Code flags PT with pennant below. Sound and flash signals are 3 long and 5 short.

ANCHORAGE: See "Bremen".

RESTRICTIONS: Vessels proceeding to Bremerhaven with draft in excess of 35 ft. will be restricted by tide.

MAX. SIZE: Length 340 m., draft 41 ft. in fresh water. Draft 42 ft. 8 in. in fresh water, special permission required.

HEALTH: See "Bremen".

RADIO: See "Bremen".

RADAR/VHF: See "Bremen".

TUGS: Tugs join vessel with docking Pilots. Tug's lines used at no extra charge.

BERTHING: There are two harbour-groups, Uberseehafen North of Geeste River and Fischereihafen South of it.

Uberseehafen:

Along Weser River:	*Depth at LW*
Columbus Quay	36 ft.
Stromkaje	46 ft.
Dock basins:	*Depth*
Neuer Hafen	21 ft.
Kaiserhafen I	28 ft.
Kaiserhafen II	36 ft.
Kaiserhafen III	36 ft.
Verbindungshafen	36 ft.
Nordhafen	46 ft.
Osthafen	46 ft.

The dock basins can be reached through 2 locks:

Kaiserschleuse: length 732 ft., gate width 88 ft.
depth 23 ft. at LW.

Nordschleuse: length 1220 ft., gate width 147 ft.
depth 36 ft. at LW. Max. size of vessel. length 265 m., beam 38 m. (124 ft. 07in.). Draft 42 ft. 08 in.

Fischereihafen:

Dock basins:	*Depth*
Fischereihafen I	24 ft.
Fischereihafen II	24 ft.
Handelshafen	22 ft.

Locks:

Fischereihafen-Doppelschleuse

Small lock: length 349 ft., gate width 39 ft.
depth 21 ft. at LW.

Large lock: length 328 ft., gate width 98 ft.
depth 21 ft. at LW.

SPECIAL CARGO HANDLING FACILITIES: All sheds are equipped with electric cranes.

With special permission of the port authorities the following maximum FW drafts are allowed.

42 ft. 8 in. = 13 m. – max. beam 40 m.
39 ft. 3 in. = 12 m. – max. beam 41 m.
35 ft. = 10.7 m. – max. beam 42 m.

The port is equipped with modern bulk, container, roll-on/roll-off and general cargo facilities.

3 floating cranes have lifting capacities of 100, 250 and 500 tons respectively.

Weserport (Osthafen) Ore transhipment installation, quay length 330 m.. Depth 14.6 m. 2 unloaders. Max. outreach 22.5 m. Total discharge capacity 2,000 t.p.h. Average rate 750 t.p.h.

Columbus Quay Passenger and general cargo facilities.

Quay length 1,020 m. Depth 30 – 36 ft.

9 cranes – 4 to 8 tons.

Terminal ferry service to Harwich.

Car loading installations

The car loading installation at Bremerhaven is situated in the Nordhafen. Quay length 750 m. Storage area 40,000 sq. m. for about 3,500 cars. The loading is done by ships' gear.

Container Terminals

2 container terminals, 1 at Stromkaje and 1 in the Nordhafen, are equipped with 10 container cranes. 7 cranes at 54 tons, 2 cranes at 45 tons and 1 crane at 52 tons.

Depth alongside in river 46 ft. at LW. Depth at Nordhafen 38 ft.

Kaiserhafen/Verbindungshafen offers 4 basins for general cargo handling. Quay length: 4.130 m. Storage capacity in modern sheds: 79,716 sq. m. 40 cranes with capacities from 3–8 tons. Various cranes for heavy lifts up to 30 tons. Shed B in the Kaiserhafen III is equipped with 2 conveyor belt loaders for bagged cargo, especially fertilizers. The installation is weather protected. A banana discharging installation, with 5 elevators, has a capacity of over 300,000 tons per year.

Lash Carriers: Special facilities are available.

MEDICAL: Hospital facilities at all Weserports. No vaccination normally required.

STEVEDORES: Ordered by Agent; no ETA advice to stevedores necessary.

Working hours:

1st shift: 0600–1400
2nd shift: 1400–2200
3rd shift: 2200–0500 (overtime)

on Saturdays:

1st shift: 0600–1400
2nd shift: 1400–2000 (overtime)
3rd shift: 2000–0200 (overtime)

on Sundays:

as Bremen Freeport.

TANKERS: *Esso Bremerhaven*, Columbus-Kaje. Max. draft 36 ft.

There are several tank-cleaning boats available to receive slops at Bremerhaven.

DENSITY: 1008 – 1010.

FRESH WATER: Available by pipe-line at all berths.

FUEL: All grades available.

FIRE PRECAUTIONS: No smoking on deck. Tankers smoking only saloon or messroom.

GANGWAY/DECK WATCHMEN: Not considered necessary.

OPENING/CLOSING HATCHES: Normally by crew with stevedores assistance.

CUSTOMS ALLOWANCE: Outside freeports: 200 cigarettes for 3 days or 50 grams tobacco and 1 bottle spirits. After 3 days, further same quantities. Wine not restricted. Freeports only at Bremen (Europa, and Uberseehafen), and at Bremerhaven (Kaiserhafen, Columbus Kaje and Weserport).

CARGO GEAR: No additional requirements. Preventers necessary.

IDENTIFICATION CARDS: Not required.

CONSULATES: At Bremen only.

REPAIRS: All repairs possible.

DRY DOCKS: There are 2 graving docks and 10 floating docks with max. capacity 75,000 tons.

REPATRIATION: Any time.

AIRPORT: About 4 miles from Bremen. Regular airlines.

HOLIDAYS: New Year's Day (no work performed); Good Friday, Easter Sunday (no work performed), Easter Monday; Labour Day (no work performed); Ascension Day; Whit Sunday (no work performed); Whit Monday; 17th June; Prayer Day; Christmas Day (no work performed); Boxing Day.

TELEPHONE: Accidents, Police 110; Fire 112; Harbour Master and Docking Pilots 481 263/4, Telex 238564 hba hk-d-; Sea Pilots 42220; River Pilots 42289; Waterway Police 47011; Port medical service 40031.

AUTHORITY: Hansestadt Bremisches Amt- Der Hafen kapitan.

AGENT: Wm. H. Muller Co. (Bremen) GmbH, Neue Fahrgastanlage 11, Kaiserhafen, D-2850 Bremerhaven. Telegrams: "Batavier-Bremen". Telex: 244704. Telephone: (0471) 46123.

BRUNSBUTTEL (Including Ostermoor):
53.43 N. 09.09 E. **(See Plan Book)**

DOCUMENTS:

Health Certificate forms obtainable from river Pilot.
3 Crew lists.
3 Personal Effects Lists.
3 Stores Lists.
Bill of Lading.
Ship's Register.

For ships entering locks of Brunsbuttel for transit traffic through Kiel Canal, only ship's register required.

DEEP SEA PILOTAGE: See "General" before first German port.

PILOTAGE: *Anchorage River Elbe:* See "General" before first German port.

Pilotage Kiel Canal: Pilotage generally compulsory, vessels over 2,500 g.r.t. must employ a wheelman.

Pilot station, tel. 04852/8088, VHF Channel 9, ETA 6 hours prior arrival Brunsbuttel Roads by cable to "Kanallotse Brunsbuttel" via Norddeich Radio (DAN), requiring Canal or Harbour Pilot at Brunsbuttel, (for example: Brigitte 1249 ETA Brunsbuttel 29 1800 3.5 m.). Pilot will board ships off the entrance to Kiel Canal.

Pilot boats are painted black with "LOTSE" in white letters on hull. Signal for Pilots is flag "G" over numeral pennant 1, sound or morse signal, VHF Channel 9.

ANCHORAGE: Vessels waiting for entrance to the Canal may anchor in N.E. anchorage, South anchorage, or Neufeld anchorage.

RESTRICTIONS: No restrictions imposed on night entry. If draft above 31 ft. 2 in. fresh water, vessels will be piloted to Brunsbuttel with flood-tide.

Dimensions of lock: length 310 m., beam 40 m.

The Canal can be navigated by vessels up to 235 m. LOA and 32.5 m. beam and draft in accordance with table below.

Length in (m.)	*Beam in metres* 20	21	22	23	24	25	26	27	28	29	30	31	32	32.50

Height above water-line transitting Canal must not exceed 40 m.

For Binnenhafen, as far as km. 6.00, vessels not requiring to transit Canal may enter with draft up to 10.40 m.

Elbe Terminal: Elbe Terminal situated outside of locks, quay length 1,100 m.

No restrictions imposed on night entry. Vessels may berth and unberth day or night.

MAX. SIZE:

Oil Harbour: Max. draft 34 ft. 2 in. fresh-water max. length 235 m.

Ships passing canal: See "Restrictions" above.

Elbe Terminal:

Pilotage Elbe Terminal: Elbe Pilots also act as docking pilots.

Inward bound: Vessels allowed draft to max. 42 ft. 06 in. in saltwater, on arrival Elbe 1 lightvessel, may enter only on rising tide under normal weather and tide conditions.

Tankers exceeding 15,000 g.r.t. and max. draft 35 ft. in saltwater, on arrival Elbe No. 1 lightvessel, may berth at any time against the ebb-tide.

Tankers and vessels up to 15,000 g.r.t. and 35 ft. draft in saltwater, on arrival Elbe No. 1 lightvessel, allowed to berth at any time.

Outward bound: Vessels exceeding 35 ft. draft in freshwater, on departure from Elbe Terminal, may leave 2 hours after low water.

Vessels up to 35 ft. draft in freshwater, on departure from Elbe Terminal, may unberth at any time.

Inward bound: Vessels exceeding 300 m. length or 45 m. breadth allowed draft to max. 41 ft. in saltwater, on arrival Elbe 1 lightvessel, may enter only on rising tide.

No restrictions as to length, beam, or height of vessel.

Outward bound: Vessels allowed draft to max. 35 ft. in freshwater, on departure from Elbe Terminal, may leave 2 hours after low water.

Keel clearance of 10% of draft required.

Ostermoor:

Max. draft	*Max. gross tonnage*	*Max. beam*
10.40 m. (34 ft. 02 in.)	20,000 g.r.t.	27.00 m. (88 ft. 07 in.)
9.50 m. (31 ft. 02 in.)	25,000 g.r.t.	29.00 m. (95 ft. 02 in.)
8.00 m. (26 ft. 03 in.)	35,000 g.r.t.	32.50 m. (106 ft. 08 in.)

Max. allowed length (LOA) 235.00 m. (771 ft. 00 in.)

HEALTH: Pratique automatic for vessels entering harbour for loading or discharging, and ships passing through Canal if required. Health Certificate form does not show any infectious diseases.

RADIO: All messages to Agents and Pilots etc., through Norddeich Radio, call sign "DAN". Closer to port Elbe-Weser Radio can be contacted by VHF Channel 16.

Ships reporting station is on permanent duty at Brunsbuttel, VHF Channel 14, safety and calling Channel 16.

RADAR: Radar Service from Elbe 1 to Hamburg see "General" before first German port, but no special Port Radar Service for Brunsbuttel. Radar Service in the area of Brunsbuttel available, can be contacted through VHF Channel 18, "Brunsbuttel Radar Radio".

TUGS: 6 tugs available at Brunsbuttel. Vessel's lines used. Tugs normally join vessels bound for the Elbe Harbour on river in vicinity of Canal locks.

From the approach limit up to entry into the lock, tug assistance is mandatory for vessels in Group 6 and also such vessels which manoeuvre only with difficulty. Tugs assisting ships entering locks join vessels on canal-roads.

BERTHING: Ships lying at terminals situated on Canal bank in Inner Harbour should take into consideration that vessels must moor safely, as suction of passing ships may cause breaking of lines.

Binnenhafen: Comprises the area between lock entrance and km. 5.27.

Also see "Tankers" and "Fuel" below.

BRIDGES: Ships transitting canal must have bridge clearance of 40 m. Otherwise no impediments.

STEVEDORES: Ordered by Agents, no ETA to stevedores necessary.

MEDICAL: Port Medical Service by Harbour Doctors. Day and night service. Inoculations have to be ordered 24 hours prior arrival. Hospital available at Brunsbuttel.

TANKERS: *Elbe Terminal:* Crude oil discharge berth situated outside of locks. One 30-in. pipe-line to DEA Tanker Storage. Two 12 in. hoses and 2×16 in. hoses available for discharge. Pumping rate 10,000 cu.m/h.

Oil Harbour. Situated on North side of Canal with entrance in location of km. 3.5. 5 berths suitable for tankers up to 10.40 m. (fresh water) draft. Hoses of 6 in., 8 in. and 10 in. for handling crude oil, diesel oil, gas oil, gasoline, tuluol, xylol and lube oil. No slop facilities available.

Ostermoor: *(See table below).*

Operator: Veba-Chemie A.G. (VC) Veba-Chemie (PO) Port Authority.

Immigration clearance: Will be carried out on board.

Customs clearance: No freeport. Customs clearance will be carried out on board.

Tug assistance: According to assignment of Port Authority.

Mooring: The use of constant tension winches is prohibited (berth 2 and 4 only). Port Authority will allocate berth where as the exact position alongside berth will be advised by VC. The Master is responsible for safe mooring. Additional mooring may be requested by Port Authority responsible VC. Stem of vessel at berth in direction Kiel Canal. Exception regulation by Port Authority.

Drinking water: Available at berth 1, 2 and 4 against payment (PO).

Steam and nitrogen: Not available from ashore.

Bunkers supply: By barges only. The Port safety regulation must be observed (Northern Basin).

Ship repairs: Permission of VC required.

Electricity supply: No connections available.

Garbage disposal: Available (PO).

Dirty ballast disposal: Not possible in the Port. Available only at Elbe – Port jetty and Kiel Canal (Inner harbour) by Elbe – Slop – Ex GmbH.

Navigating into the North Basin: (direction by VC) – only after stop of cargo operations at berth 4.

Gangways: At berth 2 and 4 gangways are at hand (VC). At berth 4 and at waiting place a lifeboat has to be ready at the accommodation ladder at the offside during cargo operations.

Stop of cargo operations in case of emergency: At the sound of the signal "stay away" (· —) and fire (— — —) by loudspeaker; at the instructions given by telephone or loudspeaker; when the flashing light is in operation; at the release of the disconnection couplings; in case of fire on board.

Fire on board: The Port Supervisor of VC has to be informed immediately. Cargo operations have to be stopped immediately. Ship has to give usual Thyphon – Fire signal ("F").

Cargo stop in case of bad weather: Berth 1: rainfall, windspeed 22 m/sec.; berth 2 and 4: windspeed 26 m./sec.

ETA messages: 72 hours prior to arrival to VC via Agent with the following informations: (1) Ship's name and call sign; (2) Arrival time; (3) Cargo (product and quantity); (4) Tankers: number and diameter of cargo manifold connections; (5) Any damage to hull, tanks or overboard valves. Vessels are dispatched according to accepted ETA. In any case ETA has to be repeated 48 and 24 hours before arrival.

Ships with dangerous cargoes or tankers which are not gas-free have to be reported to the Port Authority 48 hours before arrival.

Regulation covering the transport of ammonia through the North Sea – Baltic Canal:

In the North Sea – Baltic Canal, liquid ammonia (U.N.No. 1005) may be transported in such vehicles as fulfil the following maritime police stipulations:

1. For the vehicle, an IMCO suitability certificate for the transport of ammonia must be issued in accordance with the IMCO Code, Resolution 328-IX (new vessels), Resolution 329-IX or for existing vessels.
2. The loading system must be so dimensioned that at an outside air temperature of +5° Celsius and 20° Celsius for water the load can be maintained for an undetermined duration without ammonia vapour being blown out via the safety valves.

Further equipment at berths: Service limits of installed own gangways (Height refers to normal water level/top edge deck)	—	+1.0 to +12.5 m.	+1.5 to +14.5 m.
Public telephone connection against payment/number	compulsory/87211	compulsory/87212	compulsory/87213
Public telephone of harbour: 8066, 8067, 8068, 8069 (PO)	during loading/discharging at berth 4		
Branch line of VC telephone system (free of charge)/telephone number of ship. Telephone No. Portmaster 2171.	—	compulsory/2180	compulsory/2181
Delivery of goods from ashore	by ship's gear	by ship's gear	with jetty-crane against payment

Remarks: *reduced discharge rate at higher cargo temperature; †only possible in exceptional cases (discharge); ‡at following conditions: P min=3 bar, T min=+55° C. Viscosity max.=35° E/+55° C.

Also see "Fuel"

3. The re-liquification plant of the vehicle must have available a reserve capacity of at least 50 per cent of the power normally required for ship's operation, in the event that ammonia is being transported, so that in the event of an accident, including damage to the insulation, heavily vapourised contents of a tank can be safely re-liquefied.

4. On vessels with tank insulation which is not of the water repellant kind (e.g. glass or mineral wool), water tight lengthways bulkheads must be available at a distance of 760 mm. from the outer skin.

5. The loading tanks of available ships must have a clearance of at least 760 mm. from the outer skin side.

6. Vessels with a loading capacity of up to 12,000 cbm. must be equipped in addition to the requirements of section 1 with independent loading tanks of type B or C (spherical or cylindrical). The adjustment pressure of the safety valves (MARVS) must amount to at least 0.7 bars over pressure.

7. The fulfilment of the stipulations set out in section 1 numbers 2 to 5 and in Section 2, in so far as they are necessary, must be supported by a certificate issued by a recognised Classification Society.

8. The IMCO – suitability indication in accordance with section 1 and the certificate as per section 7 must be kept on board the vessel.

Oil tankers of more than 2,000 d.w.t. must be in possession of a valid Oil Liability Certificate.

Cargo handling at berth 2 and 4: Before starting cargo operations following measures are to be taken:

Confirmation of Checklist by vessel's command.
Tank-resp. cargo inspection by VC.
Referring to "Operation plan" by VC.
Connection of ground-wire.
Emergency towing wires (steel) must be provided at water level (berth 4 only).
Installation of telephones.
Gas detectors handed on board (berth 4 only).
Fire hoses must be laid out and connected to fireline, which has to be under pressure during all cargo operations (berth 4 only).

Connection and disconnection of loading arms will be done by VC personnel.

Watchmen: During cargo operations a watchman has to be on stand-by at manifold. In case of an emergency, vessel's pumps must be able to be shut down immediately.

Minimum cargo crew during cargo transfer operation at berth 4:

1 Deck Officer } fully qualified in cargo
1 Ass. Eng. Officer } transfer operations
2 deckhands
1 watch officer for duties other than cargo transfer.

DENSITY: Brackish at Elbe Harbour and inside locks. Average density 3% NaCL.

FRESH WATER: Most berths supply by shore installations.

FUEL: All grades available. Vessels in Elbe Harbour supplied by barge.

Bunker stations on South side of Canal are:
Shell – 2 berths, no gas oil.
BP – 3 berths.
Elf (See Ostermoor) 4 berths.
Elbe-Slop-Ex – 2 berths.
and on the North side of Canal:
Norddeutsche Bunkergesellschaft – 1 berth no gas oil.
Brunsbuttel Bunker Service. – 3 berths.

FIRE PRECAUTIONS: No specific precautions except in Oil Harbour where anchors may not be used. Fire safety-lines must be ready fore and aft.

GANGWAY/DECK WATCHMEN: Services of watchmen not necessary but available day and night if required.

OPENING/CLOSING HATCHES: Normally carried out by crew.

CERTIFICATES: Ships entering canal and using terminals mentioned under "Max. Size" must have international ship's register. All other certificates should be valid but are normally not used.

CUSTOMS ALLOWANCES: Tobacco, each Crew member 200 cigarettes or 50 cigars or 250 grams of tobacco. Surplus will be sealed up by customs. Wine and/or spirits 1 bottle of spirits and 1 bottle of wine permitted for each Crew member. Beer unlimited. Ships transitting canal are not affected.

IDENTIFICATION CARDS: Normally not needed. If necessary in special cases identification Cards will be issued by Immigration.

CONSULS: All consulates available at Hamburg. Swedish Vice-Consul at Brunsbuttel.

REPAIRS: Only minor repairs can be effected. Big yards and dry docks available at Hamburg.

REPATRIATION: Crew changes can be arranged in connection with local immigration Office.

AIRPORT: Nearest Airport Hamburg. 90 km. away.

TIME: GMT plus 1 hour. Permanent.

HOLIDAYS: Cargo work can be arranged on every day.

POLICE/AMBULANCE/FIRE: Police 110 and 3041; Waterway Guard Police 1012 and 8444; Passport Control 87.262; Customs 8555; Hospital 601; Fire 112.

TELEPHONES: No facilities for placing telephone on board.

AUTHORITY: Canal Authority – Wasser-und Schiffakrtsamt Brunsbuttel.

BUTZFLETH: 53.39 N. 09.32 E.

DOCUMENTS:

3 Crew Lists.
3 Bonded Stores Lists.
3 Crew Manifests.
Maritime Health Declaration.
Ship's Register.
Discharge Books.
Passports of Crew.

Butzfleth is not a free-port. Customs, Immigration and River Police board on arrival at berth.

DEEP SEA PILOTAGE: See "General" before first German Port.

PILOTAGE – ANCHORAGE RIVER ELBE: See "General" before first German Port.

Pilotage River Terminal: Elbe Pilots also act as docking Pilots.

ANCHORAGE: Freiburg Anchorage, approx. position Lat. 53° 50.6′ N., Long. 09° 19.5′ E., depth of water up to 13 m. below chart zero; there are further anchorages for small vessels at Krautsand – and Twielenfleth Roads. (see "General" before first German Port.)

MAX. SIZE: See "Berthing".

RADAR: River Radar Service from Elbe 1 to Hamburg, see "General" before first German port, but no special Port Radar Service for Butzfleth. Radar Service in the area of Butzfleth available, can be contacted through VHF Channel 21, "Hetlingen Radar Radio" and/or VHF Channel 5, "Steindeich Radar Radio".

RADIO: All messages to Agents and Pilots, etc., through Norddeich Radio, call sign DAN. Closer to port Elbe-Weser Radio can be contacted by VHF Channel 16.

Ships reporting station is on permanent duty at Stadersand, VHF Channel 11, safety and calling Channel 16.

TUGS: 4 tugs compulsory for mooring and unmooring. To be ordered from Hamburg and Brunsbuttel through Agent.

BERTHING: *Aluminium Oxid Stade GmbH. (AOS):* This bauxite/oxide plant, situated on the Westbank of the River Elbe, can be reached by vessels with max. drafts of 45 ft. FW.

Quay length		*Depth at normal Low water*
Quay outside in total	325 m.	15 m. (49 ft.)
Within reach of crane	205 m.	
Quay inside...........................	200 m.	7 m. (23 ft.)

When the dredging of the River Elbe has been completed, (end 1980), it is expected that larger vessels will be handled at this installation. (Max. draft approx. 46–47 ft.).

The oxide produced at this plant, apart from being exported, is used for the mills of V.A.W. Elbewerk GmbH., Stade-Butzfleth and of Hamburger Aluminium Werk GmbH., Hamburg Finkenwerder.

Average discharging/loading rate

West African bauxite	500 m. t.p.h.
Australian bauxite:	
from Gove	550–600 m. t.p.h.
from Weipa	750 m. t.p.h.
Oxide ("Spout" loading)	500 m. t.p.h.

Ship's telephone connection (4146-1453) at AOS pier.

Dow Chemicals GmbH: This industry, situated close to the AOS plant, offers 2 berths for gas and chemical tankers. The water depth at the outside quay is: 15 m. (49 ft.) and at the inside quay: 9 m. (29 ft. 6 in.), both at MLW.

Restrictions for ships	*Products*	
	Inflammable	*Non Inflammable*
Length at quay outside	270 m.	300 m.
Length at quay inside	125 m.	125 m.
Draft at quay outside (FW)	13.71 m. (45 ft.)	13.71 m. (45 ft.)
Draft at quay inside (FW)	8 m. (26 ft. 3 in.)	8 m. (26 ft. 3 in.)
Breadth at quay inside	18.75 m.	18.75 m.

No ships with IMCO Class 2 cargo allowed to berth at outside quay.
No bunkering permitted at the DOW-berths.

Discharging rate liquid gas	approx 200 t.p.h.
Loading rate chemical products	100–800 t.p.h.

MEDICAL: Hospital and doctor available.

FRESH WATER: Available.

FUEL: Supplied by barge from Brunsbuttel or Hamburg.

REPAIRS: Minor repairs can be carried out.

AGENT: Sartori Berger, PO Box 1140, 2212 Brunsbuttel, tel. (code 4852) 8091 (5 lines), telex 28324.

CUXHAVEN: 53.52 N. 08.42 E. **(See Plan Book)**

DOCUMENTS:

Stores List.
Crew List.
Customs Manifest.
Derat. Certificate.
Amerikahafen is a Customs free port.

DEEP SEA PILOTAGE: See "General" before first German Port.

PILOTAGE – ANCHORAGE RIVER ELBE: See "General" before first German Port.

PILOTAGE: Pilot station situated in Old Harbour (Alten Hafen). To obtain Pilot call "Cuxhaven Post", VHF Channel 12. Pilot signal is flag "G" of International Code, or sound signal – 2 long and 2 short blasts.

ANCHORAGE: Available off Cuxhan Medem Roads, approx. position Lat. 53° 51.5′ N., Long. 08° 46.5′ E., depth of water about 6 – 12 m. below chart zero; further anchorages see "General" before first German Port.

RESTRICTIONS: Vessels can enter by day or night. No tidal restrictions.

HEALTH: Quarantine clearance effected at Cuxhaven. Only vessels with suspected infectious disease on board are detained.
RADAR: River Radar Service from Elbe 1 to Hamburg see "General" before first German port, but no special Port Radar Service for Cuxhaven. Radar Service in the area of Cuxhaven available, can be contacted through VHF Channel 21, "Cuxhaven Radar Radio".
RADIO: For ETA, etc., use Norddeich Radio, call sign DAN. Closer to port Elbe–Weser Radio can be contacted by VHF Channel 16.

Ships reporting station is on permanent duty at Cuxhaven, VHF Channel 12, safety and calling Channel 16.
TUGS: Tugs available and used depending on ship size and weather conditions. Cost of tugs is Hamburg Tariff plus 20%.
MEDICAL: Doctors and hospitals obtainable day and night.
FRESH WATER: Available from shore pipe-line up to 50 t.p.h. Small quantities up to 15 tons may be obtained in Roads from bunker barge. There are no water barges.
FUEL: Bunker and gas oil available. Small quantities, up to 150 tons, may be obtained anytime. Otherwise according to conditions of supplying oil company.
FIRE PRECAUTIONS: No special restrictions. Ships with explosive cargo and liquid cargoes of danger class K1 and K2 not allowed in Cuxhaven Harbour.
CARGO HANDLING: A harbour for overseas ferries up to 150 m. length with roll-on/roll-off and container equipment.
GANGWAY/DECK WATCHMEN: Not obligatory, at Master's discretion.
OPENING/CLOSING HATCHES: Normally performed by crew. Stevedores must be paid if required to do this work.
CUSTOMS ALLOWANCES: 40 cigarettes, 1 bottle spirits and 2 bottles wine.
IDENTIFICATION CARDS: If no passport, shore pass required.
CONSULS:
Iceland, tel. 36036/37.
Sweden, tel. 36011/12.
Others at Hamburg/Bremen.
REPAIRS: All deck and engine repairs possible.
DRY DOCKS: Floating dock for vessels up to 110 m. length, and slipway for vessels up to 75 m. long and 13 m. beam.
REPATRIATION: All facilities available.
AIRPORT: Hamburg-Fuhlsbuttel, 130 km. away; Bremen, 110 km. away.
TIME: GMT plus 1 hour. Permanent.
HOLIDAYS: New Year's Day, Good Friday, Easter Sunday, Easter Monday, 1st May, Ascension Day, Whit Sunday, Whit Monday, 17th June, Atonement Day, Christmas Day, Boxing Day. Loading/unloading can be arranged on these holidays.
POLICE/FIRE/AMBULANCE: Police, tel. 110; Harbour Police, tel. 22072; Ambulance, tel 23125; Fire, tel. 112.
TELEPHONES: At Steubenhoft and in the ferry harbour, telephones can be put on board.
SERVICES: Compass adjusting and radio overhaul.
SHORE LEAVE: Allowed.
DEVELOPMENTS: A new Ferry Terminal with roll-on/roll-off and load-on/load-off facilities completed 1978.
AUTHORITY: Niedersachsisches Hafenamt Cuxhaven.
AGENT: See "Hamburg".

ECKERNFORDE: 54.29 N. 09.51 E.

DOCUMENTS:
Stores List.
Customs Documents.
Cargo Documents.
Crew List.
PILOTAGE: No Pilot station. No tide. In East winds, water level can increase to 1.50 m. above normal.
ANCHORAGE: Good anchorage in the Roads between N.W. to N.W. by W. bearing from the port, distance 1 to 1.5 miles. Depths 18–21 m. Anchorage not allowed in harbour area.
CLEARANCE: Customs clearance at any time subject prior notice given. If suspected diseases on board inform Health Authorities.
MAX. SIZE. In outer harbour, up to 5 m. draft; in inner harbour up to 3 m. draft.
RADIO: Radio Kiel, call sign DAO, tel. 39011.
TUGS: No tugs.
BRIDGES: Outer and Inner Harbours separated by bascule bridge, opening to 12 m. width.
MEDICAL: Doctors and hospitals available.
FRESH WATER: Available.
FUEL: Diesel oil available. No coal.
WATCHMEN: Not available.
OPENING/CLOSING HATCHES: By ship's crew.
IDENTIFICATION CARDS: Required, if no passport.
REPAIRS: Available for fishing boats or coasters. Slipway for vessels up to 200 tons.
TIME: GMT plus 1 hour. Permanent.
HOLIDAYS: Work allowed on Sundays and official holidays subject to Harbour Master's permission.
POLICE/FIRE/AMBULANCE: Police, tel. 110; Hospital, tel. 9011; Fire, tel. 112.
TELEPHONES: Public telephones in harbour area. No installation on board.
SERVICES: Other services available from Kiel.
SHORE LEAVE: Permitted.
AUTHORITY: Stadtwerke Eckernforde GmbH.

ELSFLETH: 53.14 N. 08.28 E.

PORT LIMITS: The seaward boundary of the port is the entrance of River Hunte, vessels are considered to be arrived when alongside the berth or waiting berth, and customs formalities are completed.
DOCUMENTS:
2 Crew Lists.
2 Passenger Lists.
1 Health Certificate.
2 Provision and Store Lists.
1 Ship's Certificate.
DEEP SEA PILOTAGE: See "General" before first German port.
PILOTAGE: Pilotage is carried out by Weser River Pilots, no harbour Pilot available.
ANCHORAGE: No anchorage in vicinity of the harbour, see Blexen Roads.
RESTRICTIONS: Max. draft in the entrance at low water is 3.20 m.
MAX. SIZE: Max. size in daytime, length 80 m. Max. size at night-time, length 60 m., draft depends on the tide.
PRATIQUE: Pratique is given on arrival by the health officer. If disease or fever is suspected on board it has to be reported to the Agent.
RADIO: Cable Norddeich (call sign DAN) advising ETA and cash requirements.
RADAR/VHF: No port radar service but river radar can be used for approaching port from Weser lightvessel to Bremerhaven. VHF Channel 6 from Bremerhaven to Elsfleth.
TUGS: Tugs have to be ordered from Bremen or Brake, they join the vessel at River Hunte estuary. If tug lines are used there are no extra charges.
BERTHING: 1 quay with a length of 260 m., depth alongside 150 m.=5 m., and 110 m.=4 m., 1 waiting berth for small vessel 2 m., 1 private berth (Omni-Pac).
SPECIALISED CARGO-HANDLING FACILITIES: 2 cranes with 5 tons and 1 crane with 3 tons. Bulk cargo can be handled with grabs, no other special facilities.
BRIDGES: No bridges to reach the port, but all ships bound for Oldenburg are waiting at Elsfleth for opening bridges.

A flood prevention barrier has to be passed to reach the harbour.
STEVEDORES: ETA has to be cabled to the Agents to arrange gangs. Port works 3 shifts around the clock, including Sunday and holidays.
MEDICAL: Medical service is available day and night. Hospital is available at Brake.
TANKERS: No tanker berth.
DENSITY: Fresh water.
FRESH WATER: Delivered from the quay by hose.
FUEL: Fuel is delivered by bunker-barges stationed in port.
FIRE PRECAUTIONS: No fire precautions.
CONSUL: No Consuls.
REPAIRS: 1 dockyard, all ship and engine repairs can be carried out.
DRY DOCKS: 2 slipways can be used.
SURVEYORS: Classification Societies have to be ordered from Bremen, surveyors available at Elsfleth.
GANGWAY/DECK WATCHMEN: A crews' watchman is necessary because of strong tidal streams, 2—3 knots.
HATCHES: Hatch-opening/closing to be carried out by crew.
CUSTOMS ALLOWANCES: Quantity permitted for each crew member: 100 cigarettes, 1 bottle of spirits.
CARGO GEAR: Loading/discharging is carried out by shore cranes.
REPATRIATION: Any time. Inform Agent.
AIRPORT: Airport at Bremen (50 km). Regular airlines.
TIME: Local time: GMT plus 1 hour.
HOLIDAYS: Cargo work can be arranged on those days.
POLICE/AMBULANCE/FIRE: Police: Station 2263, River 2377. Ambulance: Brake Hospital 04401–4060. Fire 2333.
TELEPHONES: No ship-to-shore communications.
SHORE LEAVE: Crew members are allowed ashore with valid passports.
IDENTIFICATION CARDS: No shore pass issued.
REGULATIONS: No unusual regulations for the port.
DEVELOPMENTS: A new private berth has been completed for the distillery "Pabst & Richards".
GENERAL: All ships bound for Oldenburg have to do clearance in port.
AUTHORITY: Niedersachsisches Hafenamt Brake.

EMDEN: 53.23 N. 07.13 E. **(See Plan Book)**

DOCUMENTS: Health Certificate: form obtainable from River Pilot and to be completed before arrival Emden locks, where it is collected by Port Health Authorities. Crew Lists. Ship's Register. Slop-chest List.
DEEP SEA PILOTAGE: See "General" before first German Port.
PILOTAGE: Compulsory. At least 12 hours prior arrival at Pilot station, vessel to radio "Emslotse Emden" indicating vessel's name, ETA, destination and draft. Contact pilot vessel on VHF Channel 16 or MW 500 kHz or LW 2023 kHz (daytime) and 2182 kHz (night-time).

Pilot vessel located near Wester Ems Light Buoy in approx. position 53° 37′ N. 06° 24′ E.
ANCHORAGE: Vessels may anchor in vicinity of pilot vessel 9.5 fathoms depth. Sandy bottom.
RESTRICTIONS: Vessels drawing in excess of 26 ft. salt water have to wait for high tide to proceed to Emden proper. Tide rise about 10 ft.
MAX. SIZE: Under normal tide conditions, vessels drawing 38 ft. can enter Emden directly. Vessels up to 47 ft. can be discharged at the berth "Fischerbalje" on the South of Isle of Borkum. Vessel drawing up to 45 ft. salt water can be lightened in river inside Isle of Borkum at the unloading berth "Moewensteert" by floating cranes until appropriate draft achieved. Capacity of floating crane 1,000 t.p.h., 2 cranes available.

Length and beam restrictions imposed by locks at Emden: max. 255 m. length and 35.50 m. width. Vessels exceeding these dimensions require prior permission.

HEALTH: Pratique granted immediately on arrival at locks by Doctor or Health official.

RADIO: Cables should be despatched via Norddeich Radio (DAN).

RADAR: Radar service on the river "Ems" from approx. position 53° 37.5′ N. 06° 23′ E. (Westerems) or 53° 35′ N. 06° 23′ E. (Hubertgat) up to port entrance. The other range (Borkumradar) works on VHF Channel 18. Further information on this Channel.

TUGS: Sufficient tugs available, stationed at Emden locks, ranging from 790 to 3,900 h.p.

BERTHING: *Outer Harbour* quay length 1,539 m. – tidal harbour.

New Inner Harbour accessible through sea lock and Nesserlander Sea lock only for vessels up to 111 m. in length and 14.50 m. width.

New Inner Harbour South quay 932 m. in length. New Inner Harbour North quay 485 m. length, depth about 46 ft. alongside. New Inner Harbour includes Industry Harbour, Quay length 380 m., depth about 25 ft. alongside. Roll on/roll off terminal depth about 20 ft. minimum.

STEVEDORES: Since main commodities consist of bulk cargoes, such as iron-ore, coal, coke, bauxite, no specific requirements.

MEDICAL: Advance notice only required in urgent cases; hospital available.

BULK HANDLING FACILITIES: *Outer Harbour.* Facilities on Western part of quay include 3 stationary grain elevators with capacities of up to 250 t.p.h. and 2 floating elevators each of 250 t.p.h. capacity.

New grain silo, with 11,500 tons capacity equipped with 2 telescopic loading pipes. Handling capacity – 400 t.p.h. seawards, 100 t.p.h.

Inner Harbour. South quay equipped with 8 transporters, 1 of 7 tons, 4 of 15 tons, 2 of 25 tons and 1 of 40 tons lifting capacity each and 2 conveyor belt systems handling about 4,000 t.p.h. each.

North quay equipped with 4 transporters each of 15 tons lifting capacity and an ore conveyor belt system handling 1,000 t.p.h., max. 1,400 t.p.h.

TANKERS: Olhafen situated in Inner Harbour. Tankers up to 36 ft. draft discharge to Frisia Refinery.

Berth No. 1 is equipped with two 12-in. Woodfield type loading arms used for receiving crudes and loading fuel oils. There is one 8-in. loading arm for bunkering. The average discharge rate is 3,000 t.p.h. Oil Harbour contains 3 further berthing places for smaller vessels.

Berth No. 1 is equipped with 1×8 in. loading arm for receiving liquefied petrol gas (LPG). The average rate is 120 cu.m.p.h at 0° Centigrade.

Slops may only be discharged at the Tank Cleaning installation of Thyssen Nordseewerke GmbH.

DENSITY: Average density in Port 1005–1010.

FRESH WATER: Available, supplied by barge, and alongside Outer Harbour Quay.

FUEL: All grades available.

GANGWAY/DECK WATCHMEN: Neither compulsory nor necessary.

OPENING/CLOSING HATCHES: To be performed by crew.

CUSTOMS ALLOWANCE: New Inner Harbour: Freeport. No restrictions on board vessels. Outer Harbour and Old Inner Harbour restrictions on bonded store. Some every 3rd day.

IDENTIFICATION CARDS: Not required.

CONSULS: Finnish (Vice-Consul), tel. 22084, Norwegian, tel. 20118, Swedish, tel. 21904, Netherlands, tel. 21404.

REPAIRS: All kinds of repairs possible.

DRY DOCKS: Thyssen Nordseewerke GmbH (floating dock) length 426 ft., width 51 ft. 8 in., lifting capacity 3,500 tons. (Floating dock) length 579 ft., width 88 ft. 7 in. lifting capacity 11,300 tons (Dry dock) length 715 ft., width 97 ft. 8 in.

Werftunion GmbH u. Co. Floating dock length 302 ft. = 92.04 m., width 48.44 ft. = 14.76 m., lifting capacity 1,788 tons. Floating dock length 302 ft. = 92.04 m., width 48.44 ft. = 14.76 m., lifting capacity 1,500 tons.

AIRPORT: Nearest airports Bremen and Hamburg, about 2–3 hours drive from Emden. World-wide connections. Flight Emden to Bremen or Hamburg possible by air-taxi.

TIME: GMT plus 1 hour in Winter. GMT plus 2 hours in Summer (6th April–29th September).

HOLIDAYS: New Year's Day; Good Friday; Easter Monday; Labour Day (May 1st); Ascension Day; Whit Monday (June 17th); Prayer Day; Christmas Day; Second Christmas Day (December 26th). No work on New Year's Day, Easter Sunday, Whit Sunday, May 1st and Christmas Day.

POLICE/AMBULANCE/FIRE: Police 110; Ambulance 23 311; Fire 112.

TELEPHONES: Telephones can be placed on board if vessel berthed Northquay, Southquay or Thyssen Nordseewerke shipyard.

AUTHORITY: Port Captain, Wasser und Schiffahrtamt, Emden.

AGENT: Fritzen Schiffsagentur und Bereederungs-GmbH, Neptunhaus, PO Box 15 52, Emden. Tel 04921 20011 (also after office hours).Telex 027821. Cables "Fritzenagent".

FLENSBURG: 54.48 N. 09.26 E.

PORT LIMITS: The seaward boundary is the line between two special boundary-stones on the West and East side of the port entrance.

DOCUMENTS: 2 crew lists, 2 passenger lists, 2 stores lists (bonded stores), EG cargo lists, bills of lading, general declaration, ship's certificates.

PILOTAGE: Pilot Station Flensburg, Schiffbrucke 12, D-2390 Flensburg, tel; (0461) 25150. Advance notice 5 hours before arriving Buoy 7 by Kiel Radio or agent (3 hours before leaving port). Pilot boards at Kalkgrund beacon near Buoy 7. Pilot will board in all weather if possible, otherwise pilot-boat will lead vessel to that position where pilot can board. Not necessary to anchor. Pilot-boat is a fishing-boat with "Lotse" written in white letters on both sides. Boat will show lights prescribed by international regulations and is fitted out with VHF Channel 6, 10, 16, 25, 26, 27.

ANCHORAGES: Just outside harbour entrance, N.E. of Mittelgrund and West of Kielseng leading lights. Depths of water between 12 and 19 m. muddy ground; same position for quarantine anchorage.

RESTRICTIONS: No specific restrictions; no tide, water-level variations depending only on the wind.

MAX. SIZE: Vessels up to 21 ft. draft can enter without hindrance, maximum draft 23 ft. Beam and length has to be in normal proportion to the draft of a seagoing vessel.

HEALTH: Generally free pratique for ships in the North Sea and Baltic Sea trade, ships coming from overseas ports pratique granted on arrival. Inform pilot if any suspected diseases on board. He will make necessary arrangements. A valid Deratting Exemption Certificate has to be on board.

RADIO: Kiel Radio, call sign DAO, tel. (0431) 39011, telex 02-0081.

VHF: None in Flensburg Port.

RADAR: There is no Port Radar Service.

TUGS: Harbour tugs are not available. If required, Flensburger Schiffsbau-Gesellschaft can supply one tug 470 hp, provided at least 3 hours notice given, ship's lines are used.

BERTHING: Powerstation-Quay length 170 m. depth of water 7.30 m. Harnis-Quay length 470 m. depth of water 6.00 m. Schiffbruck-Quay length 210 m. depth of water 6.50 m. Ballast-Quay length 140 m. depth of water 6.00 m. Depths of water refer to normal water-level.

CRANES: Powerstation-Quay 1 crane 5 tons and 1 crane 10 tons lifting capacity; Harnis-Quay 4 cranes 3–5 tons lifting capacity; all cranes are usable for general and bulk cargo.

BULK CARGO FACILITIES: No extra bulk cargo facilities available.

SPECIALISED CARGO-HANDLING FACILITIES: Not available.

BRIDGES: There are no bridges at Flensburg port.

STEVEDORES: Agents make all arrangements. Unloading rates depend on type of cargo. Bulk cargo discharge up to 160 t.p.h. per gang.

MEDICAL: Doctors, hospitals, ambulances available day and night.

TANKERS: 3 berths for tankers up to 1000 GRT with depths of water 5.70 m. and 5.00 m.; diameter of discharge lines are NW 200 and NW 80; average discharge of fuel and gasoil 300 cu. m. per hour.

DENSITY: Winter-time 1015; Summer-time 1012.

FRESH WATER: Available at all berths, delivery rate about 20 cbm/h from shore hydrants.

FUEL: Diesel available in any quantity. Fuel oil subject to 5 hours advance notice from 2 bunker stations and tank lorries.

FIRE PRECAUTIONS: No specific precautions.

CONSULS: Denmark, Nordergraben 19; others at Hamburg.

REPAIRS: Flensburger Schiffsbau-Gesellschaft carry out all ship repairs; outfit section equipped with one crane of 42 tons lifting capacity.

DRY DOCKS: Two floating docks with 7,500 and 1,500 tons lifting capacity.

SURVEYORS: All main Classification Societies are present at Hamburg.

GANGWAY/DECK WATCHMEN: No watchman service available.

HATCHES: Opening/closing normally done by crew. Stevedores will perform this for additional payment.

CUSTOMS ALLOWANCES: For consumption on board merchant vessels for each crew member and per day 40 cigarettes or 20 whiffs or 10 cigars or 50 grams tobacco *and* 0.25 litre spirits *and* 3 litres wine are duty-free. If the ship stays for 3 days or longer it is usual to allow three-fold of the mentioned quantity. For shore leave 20 cigarettes are permitted for each person only. If a crew member leaves the ship for at least 3 days the regulations for tourists are applicable.

CARGO GEAR: All loading and discharging done by shore cranes, except elevator-work.

REPATRIATION: Possible at any time without difficulties.

AIRPORT: Hamburg-Fuhlsbuttel, 175 km. distant; 2.5 hours by train.

TIME: Winter-time GMT plus 1 hour, Summer-time GMT plus 2 hours.

HOLIDAYS: See "Hamburg". No work on official holidays.

POLICE/AMBULANCE/FIRE: Police tel. 110, Fire/Ambulance tel. 112.

TELEPHONES: No installation on board ships.

SERVICES: No tank cleaning and slop disposal services. Compass adjusting possible, advance notice necessary.

SHORE LEAVE: Allowed.

IDENTIFICATION CARDS: Not required.

REGULATIONS: No particular or unusual regulations.

DELAYS: Normally no delays.

DEVELOPMENTS: One dredger is at work from time to time.

AUTHORITY: Stadtwerke Flensburg.

HAMBURG: 53.33 N. 09.59 E. (including Altona, Harburg and Wilhelmsburg) (See Plan Book)

DOCUMENTS:

6 Crew Lists
6 Passenger Lists.
2 Provisions and Stores Lists including Fuel Oil.
3 Dangerous Cargo Lists.
Health Certificates (forms obtainable from Pilot).
General Cargo Declaration.
Ship's Register.
Oil Liability Certificate for more than 2,000 tons of oil.

DEEP SEA PILOTAGE: See Brixham or Cherbourg and "General" before first German port.

PILOTAGE:

Pilotage–Anchorage River Elbe: See "General" before first German port.

Pilotage Port of Hamburg: Harbour Pilots board the ships close to the Seemannshoft station. Harbour Pilots can be called by VHF, Channel 9, morse or sound signal "G" (2 long and 1 short) or flag "G". Pilotage is not compulsory (except vessels with dangerous cargo), but advisable to use Pilots in port.

Inward and outward harbour pilotage free for vessels loading and/or unloading at Hamburg.

ANCHORAGE: Available at several places between Elbe 1 and Hamburg. See "General" before first German port.

RESTRICTIONS: No restrictions imposed on night entry for any vessels.

MAX. SIZE: *Inward bound:* Vessels allowed draft of max. 45 ft. in saltwater on arrival Elbe 1 lightvessel, may enter only on rising tide under normal weather and tide conditions.

Container ships exceeding 37 ft. draft in salt water on arrival Elbe 1 lightvessel may enter only on rising tide.

Outward bound: Vessels up to 35 ft. draft in fresh water on departure from Hamburg may leave at any time.

Vessels exceeding 35 ft. draft in fresh water and up to 38 ft. on departure from Hamburg-Finkerwerder port pilot station may leave 1 hour after low water until 2 hours before next following high water.

Container ships up to 38 ft. draft in fresh water on departure from Hamburg may leave at any time.

Container ships exceeding 38 ft. draft in fresh water and up to 41 ft. on departure from Hamburg-Finkerwerder port pilot station may leave 1 hour to 2 hours after low water, but required to anchor at Brunsbuttel N.E. anchorage depending on tide.

Inward bound: Vessels exceeding 300 m. length or 45 m. breadth allowed draft to max. 41 ft. in salt water on arrival Elbe 1 lightvessel, may enter only on rising tide.

Outward bound: Vessels allowed draft to max. 35 ft. in fresh water on departure from Hamburg-Finkerwerder port pilot station may leave 1 hour after low water until 2 hours before next following high water. Keel clearance of 10% of draft required.

Vessels demanding the rising tide will proceed according to tidal conditions in order to reach Finkerwerder pilot station 1–1.5 hours before high-water.

The following Harbours can be reached: Also see "Shipmaster's Report".

Harbour Name	*Max. draft subject to tide and berth (ft.)*	*At any time up to (ft.)*
Dradenau Hafen	40	32
Petroleum Hafen	35	24–28
Griesenwerder Hafen	31–36	27
Waltershofer Hafen	36–44	27–36
Kuhwerder Hafen	28–36	27–29
Obere Hafen	20–37	20–29
Rethe Neuhof HGL	43	37
Rethe Gaswerke	41	34
Kattwyk Hafen	43	34
Neuhofer Hafen	39	31
Rethe Hansamatex	35–39	27
Rethe Speicher	37–41	31
Schluisgrove Hafen	28–37	28–29
Hansaport	45	37
Harburg 4	27–37	22–29
Harburg 3	35	26
Harburg 2	25–39	25–30
Harburg 1	23–34	21–27
Kraftwerk Wedel	32–42.5	32
Rethe-Kruse	42	34
Blumensandhafen	43	34

The maximum draft is dependent on the prevailing Easterly or Westerly winds.

ETA: Master's telegrams via Norddeich Radio, call sign DAN, are passed on to Agent 24 hours a day, week-ends and holidays inclusive. For this reason it is advisable that Masters communicate with Agent via Norddeich Radio.

In order to avoid delay and extra charges Masters should cable their ETA at least 12 hours prior to arrival at pilot station Elbe I to "Elbelotse Brunsbutelkoog" via Norddeich Radio, stating the following details:

1. Name of vessel.
2. Gross register tons.
3. Date (2 figures).
4. Time (4 figures).
5. Place where Pilot is required.
6. Place of destination.
7. Draft in metres (4 figures).

For example:

Eta Fjordaas	41079	12	1600	Elbeone	Hamburg	1214
(1)	(2)	(3)	(4)	(5)	(6)	(7)

1 hour before arrival at Elbe I lightvessel Masters are advised to contact the pilot cutter by VHF Channel 13 or 16.

BRIDGES: To be passed by vessels bound for basins South of Kohlbrand.

	Situated	*Max. breadth (ft.)*	*Height above normal H.T. (ft.)*	*Depth at normal H.T. (ft.)*
Kohlbrand Brucke (a high-bridge)	across the Kohlbrand near Neuhof	558	175.5	48
Kattwyk Brucke (a drawbridge)	across the Suder Elbe, before Harburg	328	168	43.6
Rethe Brucke (a drawbridge)	across the Rethe, near Reiherstieg	164	130.3	41

HEALTH: Master required complete health certificate when Pilot boards. Only vessels with infectious diseases are subject to detention.

RADIO: All messages to Agents, etc., through Norddeich Radio, call sign "DAN". Closer to port Elbe-Weser Radio can be contacted by VHF Channel 16. Ships reporting stations are on permanent duty at Cuxhaven: VHF Channel 12, safety and calling Channel 16; Brunsbuttel: VHF Channel 14, safety and calling Channel 16; Stadersand: VHF Channel 11, safety and calling Channel 16; Hamburg: VHF Channel 12, safety and calling Channel 16.

Hamburg Port Radio: VHF Channel 14 and 16.

All stations are on duty 24 hours.

RADAR: River Radar Service from Elbe 1 to Hamburg, see "General" before first German port.

Hamburg Radar Service "Hamburg Radar Radio", VHF Channels 3 + 19 at the lower end of Seemannshoeft, VHF Channels 80 + 7 at the Western and Southern part of harbour, VHF Channels 18 + 5 at upper part East of Koehlbrand.

TUGS: Normally join incoming vessels at Harbour pilot station at Finkerwerder. Vessels' lines usually used. If tugs lines required, an extra charge is made.

BULK HANDLING FACILITIES:

Grain

	Maximum Draft	*Maximum Length*	*Number of elevators*	*Capacity total/hour*
Hamburg–Kuhwerder Hafen	36 ft.	656 ft.	5	800 tons
Hamburg–Rethe/Stroh	37 ft.	753 ft.	3	750 tons
Hamburg–Rethe/Kruse	42 ft.	820 ft.	3	900 tons
Hamburg–Rethe/Makprang	41 ft.	753 ft.	11	1,300 tons
Hamburg–Neuhof	43 ft.	902 ft.	4	1,300 tons

There are 15 floating elevators with a capacity of 350/450 t.p.h.

	Quay length (feet)	*Max. safe draft (F.W.)*	*Max. height discharging gear above high water level (feet)*
Coal and Minerals:			
Hamburg–Harburg II	1,720	40 ft.	66
Elbehafen Brunsbuttelkoog Gmbh	1,968	37 ft.	98
Coal:			
Hamburg–Kattwyk	1,200	41 ft.	50
Hamburg–Strandhafen	560	36 ft. 6 in.	No restriction
Hamburg–Wedel	1,050	42 ft. 6 in.	No restriction
Fertilisers:			
Neuhof–Kalikai	1,215	40 ft.	60
Minerals:			
Hamburger–Stahlwerke	1,340	40 ft.	82
Hansaport	1,850	45 ft.	No restriction
Petcoke/Oxide:			
Hamburger Aluminium Werk Gmbh	600 ft.	36 ft.	No restrictions
Bauxite/Oxide:			
Aluminium Oxid Stad Gmbh (AOS)	1,080 ft.	43 ft.	62

CONTAINER HANDLING FACILITIES:

Terminal	*Length (m.)*	*Depth (m.)*	*No. berths*
Burchard–Kai	2,235	8–13	9 (2 Ro-Ro)
Tollerort			
Container 508 m. total:	1,000	10–11	7 (2 cont.)

Euro-Kai KG aA			
Griesenw. Damm	735	12–13	5 (2 cont.)
Unikai Shed 73–74	1,675	10–11	11 (1 cont.)

CRANES:

Abbreviations: B (Bridges), C (Cranes), MC (Mobile Cranes), FC (Floating Cranes).

Burchard-Kai: 4 B at 53 t, 3 B at 42 t, 1 B at 38 t, 12 C up to 25 t, 2 MC at 30 t.

Tollerort: 2 B at 48 t, 2 Cargo-Tainer Twin-Cranes up to 50 t, 6 C at 15 t, 12 C at 3–5 t.

Africa: 7 C at 33 t, 1 C at 8 t, 10 C at 3 t, 1 MC at 20 t.

Euro-Kai: 4 B at 45–53 t, 4 C at 25 t, 5 C at 6 t, 1 MC at 12.5 t.

Shed 73: 2B at 50 t, 8 C at 3 t, 1 MC at 60 t, 2 FC at 25–30 t.

STEVEDORES: Ordered by Agents, no additional ETA's required.

Working hours

Monday to Friday	First shift 0650 to 1500 hrs.
	Second shift 1500 to 2310 hrs.
	Third shift 2310 to 0650 hrs.
Saturdays, Sundays and holidays	First shift 0700 to 1300 hrs.
	Second shift 1300 to 1900 hrs.
	Third shift 1900 to 0100 hrs.
	Fourth shift 0100 to 0700 hrs.

Work performed after 1500 hrs. Monday to Friday, on Saturdays after 1300 hrs., on Sundays and holidays is at overtime rates.

TANKERS:

	No. of berths	*Max. Draft (FW)*
Kohlfleethafen (Esso/B.P.)	2	43 ft.
Petroleumhafen	10	35 ft.
Kattwyk/Shell	2	43 ft.
Kattwyk/Petronord	1	43 ft.
Blumensandshafen	1	43 ft.
Neuhof/Hansamatex	4	35–39 ft.
Neuhof/Schindler	1	39 ft.
Harburg IV/Esso	2	35–37 ft.
Tankerlager Moorburg	1	40 ft.
Stadersand	1	35 ft.

Tanker cleaning and gas freeing facilities at Hansamatex, Shell-Kattwyk/Hog and some dolphin berths by boats.

DENSITY: Fresh water.

FRESH WATER: Available from shore at most berths. Also supplied by barge.

FUEL: All grades available from oil berths, or supplied by barge.

DEVELOPMENTS: Silo capacity for bulk cargo handled by pneumatic elevators is increased up to 500,000 tons at deep water. Capacity of further 500,000 tons is available. Maximum depth for bulk cargo vessels 40–44 ft. See "Max. Size".

Dredging of the Lower Elbe to 13.5 m. at mean low tide completed.

Port Extension Area. An industrial port area of 4,600 ha. with access for large sea-going vessels up to 120,000 d.w.t. is under development.

Hansaport: The new ore/coal terminal at Sandauhafen (operational from 1977) has a capacity of 15 millions tons p.a. Length of the two berths: 560 m; depth of water: 15 m. (MLW). Vessels up to 270,000 d.w.t. (partially lightened) will be able to berth.
WATCHMEN: Can be hired for all purposes. Normally arranged by Agent.
OPENING/CLOSING HATCHES: Normally by crew with the assistance of stevedores; otherwise, according to charter party.
CUSTOMS ALLOWANCES: No restrictions in the freeport area on board a ship. While not on board the ship in the freeport area or outside the freeport during shore leave or temporary leaving the ship up to 3 days, each Crew member allowed 20 cigarettes, 5 cigars and 50 grams tobacco. These quantities change when paying off.
CONSULS: All Maritime countries are represented by Consuls in Hamburg.
REPAIRS: All deck, hull and machinery repairs can be carried out by local shipyards at Hamburg. Underwater repairs and cleaning can be effected by divers with special equipment.
DRY DOCKS: *Blohm and Voss*, tel. 3061: 6 floating docks with lifting capacities up to 50,000 tons. Graving dock, capacity up to 320,000 d.w.t.

Howaldtswerke Deutsche Werft, tel. 7411: 9 floating docks, with lifting capacities up to 53,000 tons.

Norderweft, tel. 311471: 2 docks, for vessels up to 4,000 tons d.w.t. and slipway for vessels up to 60 m. length.

There are other slipyards providing floating docks with lifting capacities of up to 5,000 tons.
TIME: GMT plus 1 hour all year round.
HOLIDAYS: New Year's Day; Good Friday; Easter Monday; Labour Day (May 1st); Ascension Day; Whit Monday; National Day (June 17th); Prayer Day; Christmas Day; Boxing Day. No work on New Year's Day, Easter Sunday, May 1st, Whit Sunday and Christmas Day.
POLICE/FIRE/AMBULANCE: Police 110; Fire 112; Ambulance 110; Port Medical Service 321021.
SHIPMASTER'S REPORT: August 1978.

Recently vessel called at Hamburg to load a full load of steel beams for Iran under Time Charter. Originally charterers had asked me to calculate the full load with maximum S.W. draft of 38 ft. 00.875 in. with 10.5 in. F.W.A. and the weight came to more than 39,000 long tons. But later when we arrived at Hamburg, while checking with Port Authorities it was learnt that though vessels are allowed to come in with 42-43 ft. drafts fresh water, no vessels excepting, at times fast container vessels are allowed draft more than 36 ft. fresh water. This is generally not known to many operators even in Hamburg.
AUTHORITY: Hafendirektion.

AGENT: Wm. H. Muller & Co., Schiffahrts-Agentur G.m.b.H., Monckebergstrasse 31, D-2000 Hamburg 1. Tel. (040) 33.54.76. Telegrams "Batavier". Telex 2162926.

HOLTENAU, Kiel Canal: 54.22 N. 10.09 E. (See Plan Book)

For entrance from Baltic, refer to "Kiel".
For entrance from Elbe, refer to "Brunsbuttel".
LOCATION: Holtenau is a part of the town of Kiel, it is located on the Northern side of the entrance to the Kiel Canal.
BERTHING: The outer harbour of Kiel-Holtenau (Lat. 54° 22.2′ N. Long. 10° 09.2′ E.) in the N.E. part of the old lock fore port, with water depths of 3.5 to 4.5 m. and 280 m. long quay location serves vessels up to 3.5 m. draft, 85 m. long and 13 m. beam as a berthing point. At the quay not more than 3 ships with a total beam of 28 m. can lie next to each other. To the West of this, is a 125 m. long berthing pier, known as Kumobrucke, with 4.5 m. draft alongside for vessels up to 3 m. draft, 40 m. long and 8.5 m. beam. No more than 2 vessels may lie alongside each other.

Between this pier and the shore is a yacht harbour for pleasure craft.

The inner harbour, to the East of the Holtenau Road-bridge, can only be reached through the lock of the Kiel Canal. From the berths in the inner harbour, vessels may not enter the locks without a Pilot if they are obliged to take on a Pilot for the Kiel Canal.

The Gasworks quay, just to the West of the New Locks, has a length of approx. 210 m. and a nominal depth of 10.4 m. The quay has cranes with a lifting capacity up to 8.5 tons. Vessels up to 160 m. in length and up to 9.7 m. draft can tie up at the Gasworks quay. To the West of it, is an approx. 94 m. long quay with piers for Wik-Holtenau passenger ferries.

To the East of the Holtenau Road-bridge is an approx. 536 m. long quay belonging to Zerssen and Co. This location is used mainly for fitting out and bunkering of vessels. On the North side of the inner harbour ships with dimensions permissible for the Kiel Canal can tie up at the dolphins but only with special permission of the Kiel Canal Authority.
SERVICES: In Holtenau are a Service Station of the German Hydrographic Institute, a pilot station, a border police station, a water police station, Customs control, Port Doctor, Sailors' Central Control, Sailors' engagement office, and a sailors' hostel.

An office for marine charts and nautical publications is located at the lock; good facilities exist for the quick supply of ships' equipment, victuals and fuels. Repairs to machinery installations, radar and wireless apparatus, supply of spare parts, and also the exchange of crews can be arranged without long voyage delay virtually whilst a vessel is passing through the canal. Shipbrokers' services are available.

KIEL: 54.19 N. 10.10 E. (See Plan Book)

DOCUMENTS:
Stores List.
Bills of Lading.
Manifest.
Crew List.
Health Declaration.
Derat. Certificate.
If loading/unloading cargo, following also required:
Ship's Stores List.
Crew Possessions List.
Cargo Manifest.
Bills of Lading.
Customs Declaration.
Local Agents will advise Master on board regarding these Clearance Documents.
PILOTAGE: Not compulsory for Kiel Harbour. For Kiel Canal, vessels over 50 g.r.t. must take a Pilot, and vessels over 2,500 g.r.t. must employ a steersman. Pilot station, tel. 362858. ETA required in advance. Pilot boat can be found near Kiel Lighthouse and also off the entrance to Kiel Canal. Pilot boats are yellow with "Lotse" painted on both sides. Signal for Pilot is flag "G" over numeral pennant 1. Pilots for Kiel Harbour also available and recommended if port is not familiar. Also see "Shipmaster's Report".
ANCHORAGE: Safe anchorages at Kanalreede in 13 m. depth, and at Heikendorferbucht in 11 m. depth.
RESTRICTIONS: Non gas-free tankers must give advance notice of arrival and will require chemist's certificate before entering harbour area.

Speed limit 10 knots South of line Bulk/Ehrenmal Laboe. Also see "Shipmaster's Report".
MAX. SIZE: For Nordhafen and ships passing Canal, 315 m. length, 40 m. beam, 9.50 m. draft; fresh water. Depth at harbour quays: Binnenhafen, 10 m.; Scheerhafen, 10.50 m. A bulk carrier of 35,000 d.w.t., draft 35 ft. has discharged at Scheerhafen.
HEALTH: If suspected infectious disease on board, inform harbour authorities by radio in advance.
RADIO: Kiel Radio, call sign DAO. Tel. 39011.
TUGS: If required tugs normally join vessel just off berth. Can be ordered by Kiel Radio or through Agents.
BERTHING: No particular restrictions except for vessels in distress, or carrying explosives or tankers not gas-free. In these cases special permission of Harbour Authorities required for berthing.

Binnenhafen: Length of quay 2,500 m. Depths up to 10 m. 6 cranes with capacity up to 24 tons, also 2 mobile cranes.

There is a mobile roll-on/roll-off bridge, 18 m. wide. Max. axle pressure 70 tons.

At Sartori-Kai there is a silo with a capacity of 16,000 tons, and at mouth of the River Schwentine another with capacity of 17,000 tons and discharge rate of 80 t.p.h.

Oslo-Kai: The terminal is for the exclusive use of passenger and car ferries. Depth of water 7.5 m.

Scheerhafen: Length of quay 300 m. Depth 10.3 m. There are 2 modern high capacity cranes capable of lifting up to 10 tons. There is also a privately owned tanker unloading facility with storage capacity of about 70,000 cu. m. and facilities for receiving dirty ballast.

Nordhafen: Situated in the Kiel Canal. Length of quay 2,000 m. depth 11 m. Facilities available include a floating roll-on/roll-off bridge with permissible axle pressure of 60 tons, 6 cranes with capacities up to 25 tons, a 70,000 ton silo with drying capacity of 70 t.p.h. and 2 elevators each with capacity 125 t.p.h.
MEDICAL: Doctors, hospitals, ambulances available. Advance notice to Agents recommended if medical assistance required. Vessels coming from European ports need Derat Certificate. Vessels from other ports need in addition International Vaccination Certificates.

For all cases of poisoning needing special and urgent treatment telephone 597 3268, Medical University Clinic, Schittenhelmstrasse.
TANKERS: Unloading/Loading/Bunkering berths operated by private companies; slop discharge facilities available.
FRESH WATER: Available at all quays.
FUEL: All grades available. Preferable to order in advance through Agents.

FIRE PRECAUTIONS: Tankers should be prepared to leave port at any time. To be berthed with bow heading seaward. A valid Gas-free Certificate given by chemist in Kiel district is required before entering harbour area.

GANGWAY/DECK WATCHMEN: Not required.

OPENING/CLOSING HATCHES: Normally by ship's crew. Can be arranged by stevedores if required.

CUSTOMS ALLOWANCES: 20 cigarettes per man per day. No alcohol.

IDENTIFICATION CARDS: Not required.

CONSULS:

Belgium	tel. 75079	Netherlands	tel. 3017235
Chile	tel. 30932	Norway	tel. 706600
Finland	tel. 3011601	Panama	tel. 51296
Liberia	tel. 63060	Sweden	tel. 3017/235

REPAIRS: All types of repairs possible.

DRY DOCKS: *Floating Docks.* No. 1, 1,500 tons; No. 2, 22,500 tons; No. 3, 3,500 tons; No. 4, 6,000 tons; No. 20, 1,700 tons.

Dry Docks: No. 5, 794 ft. long, 95 ft. wide; No. 6, 661 ft. long, 95 ft. wide; No. 7, 1,018 ft. long, 164 ft. wide; No. 8, 951 ft. long, 144 ft. wide. No. 8A, 1,395 ft. long, 292 ft. wide.

REPATRIATION: No restrictions. Can also be arranged in the locks of Kiel Canal by local Agents. Valid passports required.

AIRPORT: At Kiel, local flights to Hamburg. Nearest international airport at Hamburg, about 100 km. away.

TIME: GMT plus 1 hour. Permanent.

HOLIDAYS: New Year's Day, Good Friday, Easter (2 days), Ascension Day, Whitsun (2 days), 17th June, Atonement Day, Christmas (2 days). Work can be arranged on above holidays except Good Friday and Christmas Eve.
POLICE/FIRE/AMBULANCE: Police, tel. 110, alternatively 51171; Ambulance, tel. 44112, alternatively 61036; Fire, tel. 112.
TELEPHONES: Installed on wharves and Oslo quay (ferries to Scandinavia). Public phones near quays.
SERVICES: All services available.
SHORE LEAVE: Allowed.
SHIPMASTER'S REPORT: September 1980.
"KIEL PILOTS" can be contacted on VHF Channel 16 and Channel 14, 2 hours before arriving at Kiel Lighthouse, for a Pilot for Kiel Harbour.

For vessels intending to transit the canal, send a message at least 3 hours in advance to "FÖRDE LOTSE" – KIEL by radio giving ETA, draft, g.r.t. and destination. Any request to arrange a Pilot at the other end of the canal may also be included in the message.

The maximum air draft allowed in the canal is 40 m. (from water line to highest point of the ship).
AUTHORITY: Hafenkapitan, Hafenamt der Stadt Kiel and Hafen unt Verkehrsbetriebe der Stadt Kiel.

KIEL CANAL: (See Plan Book)

For entrance from Baltic, refer to "Kiel".
For entrance from Elbe, refer to "Brunsbuttel".

LUBECK (including Travemunde): 53.52 N. 10.40 E. (See Plan Book)

DOCUMENTS:
2 Crew Lists.
1 Health Declaration.
2 Cargo Manifests.
2 Stores Lists.
1 Ship's Particulars form.
Crew Manifest.
Bills of Lading.
Customs Declaration.
Derat. Certificate.
PILOTAGE: Compulsory for vessels over 300 g.r.t. Pilot station situated at Travemunde, near foot of Nordermole. Pilots board vessels in anchorage area. International signals used by Pilots and by vessels requiring a Pilot. Contact by VHF Channel 13 and 20.
RESTRICTIONS: Channel from Lubeck "A" buoy to Stadthafen is well lit and navigable by vessels fitted with radar in all weathers.

Depths: from "A" buoy to Travemunde (Nordermole) 10.5 m.; from Nordermole to Siechenbucht, 10 m.; channel to NWK power station, 9.5 m.; channel to Stadthafen 9.5 m. The river Trave narrows from 130 m. at seaward end to 90 m. at Stadthafen.
MAX. SIZE: Dependent on berth depth and approaches. Vessels up to 15,000 d.w.t. can reach Stadthafen. Also see "Restrictions".
HEALTH: Radio pratique possible. Pilot will ask Master to complete Health Declaration.
RADIO: Lubeck Radio, VHF Channel 27. Harbour Radio service used by Pilots, tugs, and other vessels.
TUGS: At Stadhafen vessels over 1,600 B.R.T. require 1 tug and vessels over 2,500 B.R.T. require 2 tugs.
BRIDGE: Herrenbrucke is 56 m. wide and 22 m. above water level. Can be opened for vessels requiring higher clearance.
MEDICAL: All facilities available. Hospital near docks at Travemunde, and at Lubeck.
BERTHING:
Travemunde: Passenger ferry harbour. North side river berths I and II, 10 m. depth; Kaiserbrucke, 100 m. length, 10 m. depth; Ostpreussen, 190 m. length, 8 m. depth; Priwall (South side), 180 m. length, 5 m. depth. 6 berths for roll-on/roll-off and passenger traffic each 140–220 m. length, 7 m.–9.5 m. depth.
1 berth with railway connection. (Berth No. 6.)
Industriehafen: depth alongside, 7.8 m.
N.W.K. Power Station: depth alongside, 9.5 m.
Stadthafen: 27 km. from sea. Total length of quays 7.6 km. The harbour depth is 6 m.–9.5 m.
Elbe Lubeck Canal: navigable by barges up to 1,200 tons.
CRANES: 1 – 200 ton floating crane, 1 – 40 ton, 1 – 25 ton, 1 – 12 ton, also 3 ton cranes.
TANKERS: Two berths, length 150 m. Max. draft 8 m. and 8.5 m.
FRESH WATER: Available by barge at any location.
FUEL: Gas oil by barge, fuel at berth at Scandinavia Kaj in Travemunde.
CONSULS: Denmark, Norway, Austria, Sweden, Iceland and Finland.
REPAIRS: Several shipyards available for deck and engine repairs.
DRY DOCKS: Floating docks for vessels up to 7,500 tons.
SURVEYORS: German Lloyd, others at Hamburg.
OPENING/CLOSING HATCHES: By crew.
REPATRIATION: All facilities available.
AIRPORT: Hamburg, 1.5 hours by bus or train.
TIME: GMT plus 1 hour.
HOLIDAYS: 1st January, Good Friday, Easter Sunday, Easter Monday, 1st May, Ascension Day, Whit Sunday, Whit Monday, 17th June, Atonement Day, Christmas Day, Boxing Day.
POLICE: Lubeck River Police, tel. 3 34 40; Travemunde River Police, tel. 5025.
TELEPHONES: Ship telephone connections at ro/ro berths.
SHORE LEAVE: Allowed.
AUTHORITY: Port Captain Lubeck.

NORDENHAM: 53.29 N. 08.29 E. (see also Bremen and Bremerhaven) (See Plan Book)

DOCUMENTS:
Cargo Papers & Ship's Certificate.
3 Stores Lists.
3 Crew Lists.
2 Personal Manifests.
Derat Certificate.
DEEP SEA PILOTAGE: See "General" before first German port.
PILOTAGE: Pilot boards off the Weser Light Vessel. Docking Pilot will board off Bremerhaven.
ANCHORAGE: Sea anchorage off Weser lightvessel or the Hoheweg Light. Max. draft 30 ft. River anchorage for vessels with a draft of 20 ft. off Blexen, 1 mile above Bremerhaven.
RESTRICTIONS: No restriction on night entry except vessels with a draft exceeding 38 ft. Vessels with a draft exceeding 32 ft. will be controlled by tidal conditions. Controlling depth in channel 11 m. MLW. In the port 9 m. to 12 m. at MLW (Midgard Pier).
MAX. SIZE: (The max. drafts are estimated). *Midgard Pier: (a)* Bulk cargo berth, total length 1,068 ft. max. beam 120 ft., max. draft 42 ft. 08 in. (FW).
(b) Oil berth No. 1 (combined with Southern part of *'a'*), max. length 850 ft., beam 120 ft., draft 42 ft. 08 in.
(c) Oil berth No. 2, max. draft 42 ft. 08 in. (FW).
(d) Granary, max. length 690 ft., beam 80 ft., draft 38–40 ft. (FW) weather permitting.
Guanowerk, max. length 550 ft., max. draft 29 ft. 6 in. (FW) (approx.).
Preussag, max. length 550 ft., draft 27 ft.
Asbestos wharf: Max. length 820 ft. (250 m.) up to a draft of 38 ft. 06 in. (FW).
Also see "Tankers".
HEALTH: Pratique granted immediately on arrival in port by Health Official.
RADIO: Norddeich Radio Dan or Elbe Weser Radio (VHF Channel 16).
RADAR: No port radar available. Radar for entrance see Bremerhaven.
TUGS: Ample available from Bremerhaven. Tug's lines used.
BERTHING: The following industrial works and companies within the port area of Nordenham possess a berth each for sea-going vessels which serve only their private supplies and requirements. These berths are situated North of Midgard Pier.

1. Norddeutsche Seekabelwerke Aktiengesekkschaft, (production of cables).
2. Felten & Guilleaume Schsltanlagen GmbH (production of electric appliances, motors, etc.).
3. Preussag Boliden (production of lead, zinc). Length of quay 230 m., depth of water 32 ft. 10 in. (approx.) 2 cranes of 5 and 3 tons. Capacity 80 and 50 t.p.h. respectively. Storage capacity, 50,000 tons (coal or ore). 10,000 tons (Metal blocks), 5,000 cu.m. (Sulphuric acid).
4. Guano-Werke Aktiengesellschaft (s.a.) (phosphates and fertilisers). Length of quay 100.0 m. One gantry crane.
5. Erdolwerke Frisia Aktiengesellschaft (tanks for the storage of mineral oils).
6. Vereinigte Flugtechnische Werke GmbH (production of airplanes).
7. Asbestos Corporation GmbH (production of asbestos).
8. Weser Tanklager Gesellschaft mbH (storage of mineral oils, bunker oil station of BP).

Connections: Gas oil 2×8 in., fuel 1×8 in.

9. Titangesellschaft mbH (production of titandioxide).

Asbestos Wharf: Length 210 m. Extra mooring dolphins North and South of wharf 50 m. from each end of wharf. Depth alongside 12.5 m. at MLW. One mechanical unloader for discharge of asbestos minerals into conveyor system of factory.
SPECIAL CARGO HANDLING FACILITIES:
Midgard Pier:
No. 1. Bulk cargo berth for discharging and loading. Length of quay 710 m. Five bridges with a lifting capacity of 22 tons each. Max. outreach 26 m. Total capacity of ore per shift 10,000 tons.
No. 2. Oil berth. Length of quay 170 m. Three pipe-lines 10 to 12 in. diameter for fuel oil, diesel oil and gas oil. No shore steam or facilities for dirty ballast available.
No. 3. Granary. Length of quay 188 m. Two elevators with a total capacity of 700 t.p.h. Storage capacity of 46,000 tons.
STEVEDORES: 24 hours' notice required. Notice required Friday morning for week-end work.
1st shift: 0600–1400 hrs.
2nd shift: 1400–2200 hrs.
3rd shift: 2200–0600 hrs. (overtime).
on Saturdays: (grain and other bulk cargoes).
1st shift: 0600–1400 hrs. (overtime).
2nd shift: 1400–2200 hrs. (overtime).
3rd shift: 2200–0600 hrs. (overtime).
MEDICAL: Hospital available; advance notice only required if urgent cases.
TANKERS: Diameter of lines 8 in.
Shell Berth: Max. size 34 ft.
Weser Tankerlager: Max. size 200 m., length 32 ft. draft at L.W.
T-shaped mooring lines attached to pontoons fore and aft, middle lines are attached to the shore. Length of lines 100 m.
DENSITY: Average density of water 1005–1012.
FRESH WATER: Fresh water available at a rate of 15 t.p.h. per hose price 2 DM. per ton.
FUEL: All grades available; delivery by barge; 2 days' notice required.
FIRE PRECAUTIONS: Special regulations for vessels loading or discharging explosives.
CONSULS: See "Bremerhaven".
REPAIRS: Minor repairs can be carried out. Ample facilities for major repairs at Bremerhaven.
DRY DOCKS SURVEYORS: See "Bremerhaven" or "Bremen".

WATCHMEN: Not necessary but available if required by Master.
OPENING/CLOSING HATCHES: Normally by crew but if by stevedores extra charges will apply.
CUSTOMS ALLOWANCE: Each crew member 200 cigarettes or 30 cigars or 30 grammes of tobacco and 1 bottle of spirits for a running period of 3 days.
CARGO GEAR: In most cases loading and discharging is effected with shore gear. Special equipment can be ordered from Bremerhaven.
REPATRIATION: Possible by air via Bremen or Hamburg.
AIRPORT: Bremen, distance 70 km., 1 hour by car. Hamburg, 200 km., 3 hours by car.
POLICE/AMBULANCE/FIRE: Police 110; Ambulance 2052; Fire 112.
TELEPHONES: Available on request.
SHORE LEAVE: Permitted.
IDENTIFICATION CARDS: Are not issued.
REGULATIONS: Port regulations for the Midgard Pier including special regulations for handling of explosives.
DELAYS: None except waiting for high tide (see restrictions).
AUTHORITIES: Asbestos Corporation, GmbH., Nordenham, "Midgard" Deutsche Seeverkehrs-Aktiengesellschaft, Nordenham.
And others.

STADERSAND: 53.37 N. 09.32 E.

Oil Terminal in Elbe River operated by Hamburger Mineralolwerke.
DOCUMENTS:
3 Crew Lists.
3 Personal Effects Lists.
3 Stores Lists.
Cargo Documents.
Ship's Register.
DEEP SEA PILOTAGE: See "General" before first German port.
PILOTAGE: See "General" before first German Port.
RESTRICTIONS: Draft calculated by adding 31 ft. to height of tide and allowing 3 ft. keel clearance.
MAX. SIZE: Length up to 600 ft. Max. draft: 35 ft. (FW).
HEALTH: Health Certificate brought on board by River Pilot for Master to complete.
RADIO: All messages to Agents, etc., through Norddeich Radio, call sign DAN. Closer to port Elbe-Weser Radio can be contacted by VHF Channel 16.

Ships' reporting station is on permanent duty at Stadersand, VHF Channel 11, safety and calling Channel 16.
RADAR: River Radar Service from Elbe 1 to Hamburg see "General" before first German Port, but no special Port Radar Service for Stadersand. Radar Service in the area of Stadersand available, can be contacted through VHF Channel 21, "Hetlingen Radar Radio".
TUGS: Available. Meets vessel off the berth.
BERTHING: 1 tanker berth at T-head jetty.
DENSITY: Brackish.
FRESH WATER: Only obtainable by barge from Hamburg. Minimum quantity supplied is 200 tons.
FUEL: Only obtainable by barge.
CUSTOMS ALLOWANCES: 100 cigarettes and 1 bottle wine/spirits per man.
CONSULS AND GENERAL INFORMATION: Refer to "Hamburg".
AGENT: See "Hamburg".

WILHELMSHAVEN: 53.31 N. 08.10 E. (See Plan Book)

DOCUMENTS: Tanker check list with statement of vessel's deficiencies to be provided and delivered to the sea Pilot before commencing pilotage.

Oil Port	2 Crew Lists. 1 Health Declaration (Form supplied by Pilot). Derat Exemption Certificate. Passports/Seamen's Books. Vaccination List.
Harbour Docks	2 Crew Lists. 1 Health Declaration. 2 Cargo Manifests. 2 Stores Lists.

DEEP SEA PILOTAGE: See "General" before first German port.
PILOTAGE: Jade pilot boats are 2-masted and have yellow funnels with black tops; the black hull has white inscription "Lotse" on both sides. By day flag "1" below flag "G" of international code is flown; by night, signal is to be given by morse signals, in bad weather by whistle or morse signals.

Pilot vessel stationed at mouth of Weser. To call Pilot for Jade, in addition to International Code signals the signal "J" is hoisted by day or flashed by Morse lamp at night. The same signal can be made on whistle in bad visibility. In bad weather pilot vessel may retire to Roten Sand (Weser River), near the light-buoy "G".

ETA required 12 hours prior arrival at Pilot station at light vessel "Weser" and 24 hours prior arrival Pilot station at light vessel "Deutsche" Bucht. Pilot vessel transmits and receives on VHF Channel 16.

Pilotage compulsory for oil, gas and chemical tankers in loaded or partly loaded condition, including empty tank vessels which are not yet de-gased or cleaned from dangerous cargo remains and vessels with nuclear propulsion. Federal Navy ships are exempted. Vessels up to 60,000 d.w.t. take 1 Pilot at "Weser" lightvessel. Vessels with dangerous goods exceeding 10,000 gross tons have to take the Pilot at "Deutsche Bucht" light vessel. Vessels exceeding 60,000 d.w.t. take 2 Pilots at "Deutsche Bucht" lightvessel.

Helicopter pilot service is available for vessels above 50,000 g.r.t. at "Deutsche Bucht" lightvessel.
ANCHORAGE: A deep-water mooring for large tankers lies South of the lightvessel "Deutsche Bucht". Ships which are waiting for a Pilot may anchor for a short while by the "Weser" lightship.

2 further anchorages for large and deep-draft vessels, the "North" and "South roads", have been made available to the N.E. and the S.E. of the "Weser" lightship.

Quarantine anchorage, and tanker lightening at Schillig Roads. Vessels waiting for a berth and with max. draft not exceeding 41 ft., may anchor at Wilhelmshaven North Roads. Vessels with draft exceeding 41 ft. must anchor near the tanker anchorage Schillig where the depth is at least 45 ft.

Vessels must report at the beginning of the area-way Jade River at light buoy 3 and when passing Minsener Oog lighthouse breakwater (Buhne) A and buoy 35/Hooksiel 1 to radio station "Jade Revier Radio" on Channel 18 VHF. The area station will give information about movements. "Wilhelmshaven – Port Radio" on Channel 11, gives information about tugs, harbour Pilots and mooring/unmooring etc.
RESTRICTIONS: No restrictions on night entry. Vessels draft exceeding 55 ft., will be controlled by tidal conditions.

Vessels exceeding the following dimensions need an Official Permit of Navigation before entering the river:

Draft: 20 m. (65 ft. 07 ins.): Length 350 m.; Deadweight tonnage 260,000.

Permits will be issued by "Wasser-und Schiffahrtsamt", Wilhelmshaven.

Visibility restrictions:

Ships with dangerous goods may not enter the river Jade or leave a berth or road at the Jade with visibilities less than 1,000 m. Ships depending on navigation within the 300 m. wide dredged channel in consequence of their draft may not commence river passage at visibilities less than 2,500 m.

The lock opening times for No. 4 dock are announced in daily maritime bulletins. Coastal radio station "Wilhelmshaven Lock Radio" working on Channel 13 VHF during official service hours.

Dock No. 4, dimensions of lock: 390 m. long, 57 m. wide and depth of 11.47 m. MLW. However, only smaller vessels use dock harbour as bollards for mooring larger ships not yet available.
MAX. SIZE: Max. LOA, 1,150 ft. Max. draft 65 ft. 07 in. Keel clearance of at least 8.5% of draft required. Also see "Tankers".
HEALTH: Radio pratique possible. Sea Pilot will hand Health Declaration to Master. If one of the questions is answered "Yes", Pilot will advise Port Health Officer. A valid derat. exemption must be produced.
RADIO: Norddeich Radio, call sign DAN. Elbe-Weser Radio can be contacted by VHF Channel 16.
RADAR: Jade Radar Chain established, trial operations commenced. Shore based radar assistance available for all ships. Radar radio station "Jade Radar Radio" continuously in service, to be called on Channel 16/18 VHF.
TUGS: Compulsory. Tankers normally require at least 4 tugs of minimum 1,500 h.p. for berthing. Tugs meet tankers at anchorage near buoy "43". Only tug lines are used, charge inclusive. Tugs join vessels at buoy "35" when proceeding to Mobil Oil Terminal.

VLCC's meet the tugs at buoy "33" (Mobil Oil) or at buoy "39", when they are bound for NWO.
BERTHING: *Wilhelmshaven Dock Harbour:*

The following dock harbours can be reached:

Harbour Name	*Max. draft*		*Quay length*
Handelshafen	16 ft. 05 in.		600 m.
Grosser Hafen	20 ft. – 26 ft.	Bontekai about	500 m.
Verbindungshafen	18 ft.	Sudwestkai about	200 m.

SPECIAL CARGO HANDLING FACILITIES: There is no Container or Roll-on/Roll-off-traffic at Wilhelmshaven.
BULK HANDLING FACILITIES: The Rhenus-WTAG is the operator of cargo handling in the Handelshafen with its connection to railway, road and canal-system.
Equipment: Two modern gantry cranes of 8–15 tons and efficient mobile cranes. Storage facilities for bulk cargo to an amount of 70,000 tons, 1 silo with a capacity of 720 cu.m. and 2,000 sq.m. storage sheds for bulk and general cargo.

Also see "Tankers" – Niedersachsenbrucke.
CRANES: Bontekai and Sudwestkai without shore cranes, but mobile cranes available. One floating crane for heavy lifts up to 100 tons is also available.

TANKERS: *Nord-West Oelleitung Terminal:* Position 53° 33′ N, 08° 08′ E. Distance from Weser lightvessel, 24 miles. Type of Berth, Finger Pier "T" head. Density 1025. Current velocity, 3-4 knots. Mean tidal range, 11 ft. 09 in. Nature of bottom, sand and mud. Vessels may berth and unberth day or night. Vessels exceeding 55 ft. draft enter only on rising tide. Fresh water available, Diesel and Fuel "C" available. When discharging, full capacity of ship's pumps required. Normal residues and sediments are acceptable without any water. Shore gangway available. Vessels berth port or starboard side alongside. No limit on length or beam. Max. draft, Berth No. 1 and No. 2 – 61 ft. Berth No. 3 – 51 ft. and Berth No. 4 – 66 ft.

Berth Number	*Grades Handled*	*Pipe-lines No/Dia.*	*Length*	*Load – Discharge Rate Tons/Hour*	*Maximum Pressure*	*Hoses*

Mobil Oil Terminal: Berth No. 1 and 1A. Position 53° 37′ 28″ N, 08° 08′ 30″ E. Distance from Weser lightvessel, 20 miles. Type of berth, Sea Island. Density, 1025. Current Velocity, 3-4 knots. Mean tidal range 10 ft. 6 in. Nature of bottom, sand and mud. Least depth of water from port entrance to berth, 18.5 m. (60 ft. 09 in.) at MLW. Vessels may berth or unberth day or night. Vessels exceeding 55 ft. draft enter only on rising tide. Fresh water available by barge. Fuel "C" and Diesel available. Dirty ballast facilities available, capacity 29,000 cu. m. seawater, 17,900 cu. m. fresh/brackish water, discharge rate, 2,400 cu. m./h. Vessels berth port or starboard side alongside. All ballast, including clean ballast, to be discharged ashore.

Shore gangway available. An under keel clearance of 1 m. is required at Berth No. 1A at MLW.

Berth No. 1. Max. LOA, 1,150 ft. Min. length, 800 ft. Max. draft, 65 ft. Depth at MLW 68 ft. 11 in.

Berth No. 1A. Max. LOA, 650 ft. Min. length, 500 ft. Max. draft at HW, 48 ft. 2 in. Depth at MLW, 41 ft.

Berth Number	*Grades Handled*	*Pipe-lines No/Dia.*	*Length*	*Load – Discharge Rate cu.m/h*	*Hoses*
No. 1	Crude Oil	1×44″	5000 m.	17500	4×16″

Niedersachsenbrucke: (Lower Saxony Bridge) The "Niedersachsen Bridge" which belongs to the state of Lower Saxony is equipped with a fuel oil discharge unit for supplying a large nearby plant. Small ships can be discharged by a portal crane of 15–18 tons. The land-side berth of the loading pontoon running parallel to the Ufer is about 12 m. depth, so that loaded tankers up to a size of 35,000 d.w.t. can come alongside this pontoon. Furthermore, on this pontoon a loading installation for caustic soda is available. A bulk discharger unit with a hourly capacity of 1,200 tons serves coal to a large nearby plant. Vessels of 80,000 d.w.t. and a draft up to 13.5 m. can be accommodated.

Drinking water in adequate quantities is available at all shipment pontoons in the Jade.

Bunker and diesel oil is available in adequate quantities from Nord-West Ollleitung and Mobil Oil A.G. At the "Niedersachsen Bridge" it is necessary to order a bunker vessel in advance.

Also see "Developments".

DENSITY: Brackish water.

BRIDGES: 3 swing bridges affect entering dock harbour; these are opened to coincide with lock opening times.

STEVEDORES: 24 hours notice required. Bulk cargo discharge rate about 150 t.p.h.

MEDICAL: All medical facilities available.

FRESH WATER: Available by pipe-line.

FUEL: All grades available. 2 days notice required.

REPAIRS: Jadewerft Wilhelmshaven Dockyard (Handelshafen) for small repairs and a floating dock with a capacity of 1,100 tons.

GANGWAY/DECK WATCHMEN: Shore watchman recommended to attend telephone.

OPENING/CLOSING HATCHES: Usually by ship's crew.

CUSTOMS ALLOWANCES: Oil port is Customs free port. In dock harbour each man allowed 5 cigars or 40 cigarettes, or 50 grams tobacco and 50 pieces of cigarette paper; 1 unopened bottle wine/spirits.

DEVELOPMENTS: *Liquid gas berth:* To the North of Mobil Oil A.G.

The ICI/DFTG Terminal for loading and discharging of liquid chemicals, liquid petroleum, gas and fuel oil is under construction. The L.N.G. jetty will take gas tankers up to a capacity of 125,000 cu.m.

"Lower Saxony Bridge" (Niedersachsen Bridge): The "Niedersachsen Bridge" is to be extended. It is planned to provide facilities for the loading and discharge of large vessels up to 250,000 d.w.t. with dry and liquid bulk cargoes.

IDENTIFICATION CARDS: Required in oil port.

CONSULS: Denmark tel. 41061. Sweden tel. 26266. Finland tel. 8021.

REPAIRS: Facilities available for all deck and engine repairs. Repairs affecting main engine or steering gear intended to be carried out at the berths or at Wilhelmshaven anchorage, must be authorised by NWO, Mobil Oil A.G. and Port Authorities, when sufficient security tugs will be ordered to stand by. No additional charge for tugs if ordered before arrival. Permission for repairs depends on prevailing weather conditions and should be requested before arrival.

DRY DOCKS: Floating docks for vessels of 8,000 and 1,000 tons respectively. 1 small dry dock 50 m. by 10 m. by 2.8 m.

REPATRIATION: All facilities available.

AIRPORT: Local airport at Wilhelmshaven-Mariensiel, available for helicopters and small aircrafts. Nearest international airport at Bremen, distance 102 km.

TIME: GMT plus 1 hour. Permanent.

HOLIDAYS: Not observed in oil ports. 1st January; Good Friday; Easter Sunday; Easter Monday; 1st May; Ascension Day; Whit Sunday; Whit Monday; 17th June; Atonement Day; Christmas Day; Boxing Day. Work may be arranged on Easter Monday, Ascension Day, Whit Monday and Boxing Day.

POLICE/AMBULANCE/FIRE:
Police: 52400.
NWO Oil Port: Fire/ Ambulance 621.
Mobil Oil AG.: Fire/Ambulance 551328
Niedersachsen Bridge: Fire/Ambulance 50308 or 26121.
Dock Harbour: 112 or 26121.

TELEPHONES: May be placed on board all tankers in oil port. At some locations in dock harbour, installation by Post Office, who require 2 days notice.

SERVICES: All services available including tank-cleaning, diving, compass adjusting, etc.

SHORE LEAVE: Allowed.

SHIPMASTERS REPORT: Mobil Sea Island (Platform):

Position: Between Jade River buoys Nos. 18 and 19.

Pilotage: Sea Pilots (2) board/leave at Deutsch Bucht Light Vessel by helicopter.

Berthing Pilots (2) board/leave about 2 to 3 miles North of Sea Island by launch.

Pilotage straightforward to Weser Light Vessel where river passage begins.

Two bad bends here make strict attention to steering and helmsman necessary.

Passage Time:

Inward (VLCC – half cargo)		
	Sea Pilotage	3 hrs 50 mins
	Berth Pilotage	54 mins
	Mooring	57 mins
	Pilotage distance	41 miles
Outward (VLCC – Ballast)		
	Berthing Pilotage	39 mins
	Sea Pilotage (to 8 miles South of Light Vessel)	2 hrs 24 mins
	Pilotage distance	31 miles

Helicopters: Base for the 3 German rivers at Wilhelmshaven.

First contact one to two hours before arrival at Deutsch Light Vessel via Norddeich Radio Channel 16-27 when ETA confirmed and that vessel is familiar with helicopter procedures.

Thereafter continuous watch on Channel 16 VHF until helicopter contact will require continuous calling on 410 kcs and listening out on Channel 9 VHF until operation completed.

Berthing/Unberthing: Carried out at slack water only. Deep laden VLCCs on high water only. Ballast or half-loaded VLCCs on either slack water. Deep laden VLCCs can only proceed inward on flood tide.

Tugs: Six tugs used for any VLCC movement, 1 forward, 1 aft and 4 "pushers".

Moorings: Standard VLCC mooring arrangement. Springs run out first.

Cargo: 4×16 in. Chicksan booms available. Discharge rates compatible with modern VLCC facility. Official outturn figures average 1.5% less than ship figures.

Crude Oil Washing: Subject prior permission this is allowed.

Air Pollution: Monitoring of gas emission from tank venting system carried out during ballastings. If readings high, ballasting rate must be adjusted to keep readings within set parameters (parameters not known).

Documentation: As per "Guide". *Important that Certificate of Financial Responsibility is on board otherwise vessel fined (up to a maximum of D.M. 10,000).*

Shore Leave: Permitted. Ferry is on call when required from Island to mainland berth. Refinery jeep is then on call from Gate House. It is forbidden to walk in Refinery area. Taxis can be called from Gatehouse.

General: The Sea Island is in the "free port" area, therefore, no personal effects lists or other customs problems. Authorities inflexible if certification problems arise (Certificate of Financial Responsibility).

AUTHORITY: Wasser und Schiffahrtsamt Wilhelmshaven.

Ghana

GENERAL:

HEALTH: *Pratique procedure:*

1. The Port Health Officer or authorised officer shall grant to a ship as soon as the following conditions shall have been properly complied with:—

(a) The Master shall complete accurately to the best of his knowledge and belief a Maritime Declaration of Health Form.

The Declaration shall be countersigned by a ship's surgeon if one is carried and shall be delivered to the Port Health Officer or authorised officer.

(b) The answers to the questions in the Declaration shall clearly indicate the absence of any infectious disease on board during the voyage or on arrival of the ship, and that the ship has not called at any infected area or had direct contact during the voyage with any ship from any infected area or having on board any case of infectious disease, and shall satisfy that Port Health Officer or authorised officer that the granting of pratique shall not be attended by any danger.

(c) The Master or any other person on board including a ship's surgeon, if one is carried, shall accurately and, completely answer any other questions put to him by the Port Health Officer or authorised officer in regard to the sanitary condition of the ship, the health of the passengers and crew or of any ship with which there has been direct contact during the voyage, and shall furnish any such officer with all such information and assistance as he may reasonably require.

2. In the event of any suspected disease or fever on board a ship before arrival at the port and any other circumstances requiring the attention of the Port Health Officer, the Master shall:—

(a) If the ship is equipped with a suitable radio transmitting apparatus and is due to arrive at a radio receiving port, send before arrival, either directly to the Port Health Officer or through an Agent approved by him, a radio message to that effect.

(b) If the ship is not so equipped or is due to arrive elsewhere than at a radio receiving port, notify the Port Health Officer immediately on arrival of the presence on board of such infectious disease, or suspected conditions.

Any radio message sent shall:—

(a) embody such of the items of information as are applicable;

(b) be sent so as to reach the Port Health Officer not more than 12 hours, and not less than 4 hours, before the expected arrival of the ship;

(c) if it is in code, conform with the section relating to standard quarantine messages of the 1931 International Code of Signals.

3. Any ship arriving at its first port of call in Ghana from a foreign port shall be deemed to have come from an infected local area, and shall be required to comply with the provisions as to flags and signal lights as prescribed until granted free pratique by the Port Health Officer or authorised officer.

The following signals are to be shown on arrival within 3 miles of land, by vessels requiring or required to show their state of health:—

(a) in the daytime i.e. during the whole of the time between sunrise and sunset.

(i) "Q" flag signifying "my ship is 'healthy' and I request free pratique" or;

(ii) "Q" flag over first substitute ("QQ") signifying "my ship is 'suspect', i.e. I have had a case or cases of infectious disease more than 5 days ago, or there has been unusual mortality among the rodents on board my ship" or;

(iii) "Q" flag over 'L' flag ("QL") signifying "my ship is infected" i.e. I have had a case or cases of infectious disease less than 5 days ago!

(b) by night i.e. during the whole of the time between sunset and sunrise, a red light over a white light, the lights being not more than 6 ft. apart shown at the peak or where the signal can best be seen from the shore, and exhibited only when the ship is within the presence of a port signifying "I have not received free pratique".

(c) Any ship displaying the appropriate signal in accordance with the provisions of paragraph (3) above shall, as soon as practicable, be visited by the Port Health Officer or authorised officer, who shall grant pratique or take such other steps as may be necessary before granting pratique.

4. A ship which has been granted free pratique at its first port of call in Ghana which has not been declared an infected area shall not be required to obtain further pratique at another port in Ghana.

Vaccination requirements in respect of persons arriving in Ghana

All officers, crew and passengers of every ship arriving at any port in Ghana shall be in possession of valid Certificates of vaccinations against smallpox, yellow fever and cholera.

Where a person arrives at any port in Ghana and is unable to produce a valid Certificate as required, the Port Health Officer or the authorised officer shall require such person to be vaccinated on the spot or to present himself at a place or places for the purposes of being vaccinated.

Under no circumstances should any officer, crew or passenger disembark if he is not in possession of any valid Certificate against smallpox, yellow fever and cholera.

TAKORADI: 04.53 N. 01.45 W. (See Plan Book)

PORT LIMITS: Are shown on Admiralty Chart 3102 and covers an area of about 1.5 to 2 miles outside harbour entrance.

DOCUMENTS:

Customs:

2 Stores Lists.
2 Lists Crew Personal Effects.
1 Bill of Health.
6 Crew Lists with dates smallpox and yellow fever inoculations.
6 Passengers Lists or 'Negative'.
6 Vessel's Itinerary Lists.
1 Freighted Cargo List.
1 Unfreighted Cargo List.
1 Set Bills of Lading.
1 Clearance from last Port.

Immigration Officer:

1 Crew List.
1 List Port of Call.
1 List of Passengers, if any.
All crew and Passengers Passports.
Advice to Immigration of any stowaway.

PILOTAGE: Pilotage compulsory for ships berthing alongside or on the moorings. Pilot boards within port limits. International code signals used. Pilotage for entering vessels from 0600–1800 hrs. and for leaving vessels from 0600–2300 hrs.

ANCHORAGE: Vessels may anchor outside the harbour without Pilot. Depth at moorings 22 ft. to 35 ft.

RESTRICTIONS: Depth at harbour entrance 35 ft. MLW.

MAX. SIZE: Up to 28 ft. draft for berthing alongside. Up to 33 ft. at buoys. Also see "Tankers".

HEALTH: See "General" before first Ghana port.

RADIO: Radio Takoradi. The station is a Coast Station and only operates on H.F. and M.F. equipment. The call sign for this station is 9GA.

VHF: Signal station Channel 14. 24 hour service for all information with regard to Pilots, berthing, etc.

RADAR: No radar services available.

TUGS: Tugs normally join the vessel outside port entrance. Tugs assistance is compulsory to be ordered through Signal Station. 2 tugs of 1,350 h.p. and 1 of 850 h.p. available.

BERTHING: Additional coir springs from shore required at all berths.

Cargo discharging and/or loading at the buoy berths is by ships' own gear.

Berth	*Max. Length Vessel*	*Max. Draft*
Manganese	520 ft.	28 ft. 0 in.
2 Wharf	550 ft.	26 ft. 0 in.
3 Wharf	500 ft.	28 ft. 6 in.
4 Wharf	600 ft.	28 ft. 0 in.
5 Wharf	270 ft.	28 ft. 0 in.
6 Wharf	500 ft	29 ft. 0 in.
Bauxite	505 ft.	32 ft. 0 in.
Coal Wharf	250 ft.	14 ft. 0 in.
Oil Wharf	600 ft.	29 ft. 3 in.
1 Buoy	550/610 ft.	F.32 ft. 6 in. A.34 ft. 0 in. (If ship 610 ft. max. 27 ft. 6 in.)
2 Buoys	550 ft.	F.30 ft. 6 in. A.31 ft. 0 in.
3 Buoys	570 ft.	27 ft. 0 in.
4 Buoys	520 ft.	F.27 ft. 0 in. A.30 ft. 0 in.
5 Buoys	510 ft.	F.24 ft. 0 in. A.27 ft. 0 in.
6 Buoys	480 ft.	F.24 ft. 0 in. A.26 ft. 0 in.
7 Buoys	450 ft.	F.23 ft. 0 in. A.25 ft. 0 in.
8 Buoys	400 ft.	F.21 ft. 0 in. A.22 ft. 0 in.
9 Buoys	340 ft.	18 ft. 0 in.

CRANES: There are 35 Portal Cranes at the Port. Of these 15 cranes of 3 tons each and 1 crane of 15 tons lifting capacity are at the wharf berths for loading and discharging vessels. The remaining 19 cranes – 6 of 10 tons, 1 of 7 tons, 1 Butters crane of 15 tons and 9 of 3 tons are placed at the West Wharf to cater for the loading and discharging of logs and other commodities. Two of 5 tons are at the Cargo Platform to load and discharge other commodities. In addition there are 20 gantries for loading and discharging sawn timber.

There are no cranes at the buoy berths and ships are expected to use their own gear. Also, there are no floating cranes at this Port.

BULK CARGO FACILITIES: There are 2 berths for the loading of dry-bulk cargo – manganese ore and bauxite. In the case of grain, coal, fertilisers, sulphurs, copra, etc., discharge can be done at any of the wharf berths. The loading rate of manganese ore is approximately 333 long tons per hour; and the loading rate of bauxite is 330 long tons per hour.

SPECIALISED CARGO HANDLING FACILITIES: The port does not have container or ro/ro handling facilities.

BRIDGES: There are no bridges at the port.

STEVEDORES: Berthing meetings are held daily between the Port Authority and all Port Operators with the view to determining ETA and EDD of vessels to enable the stevedoring companies to arrange for gangs and determine the relevant rates and charges.

Normal working hours: weekdays 0700 hrs. to 1200 hrs. and 1400 hrs. to 1700 hrs. Saturdays 0700 hrs. to 1200 hrs.

Gangs required for Sunday work should be ordered before 1130 hrs. previous day. For weekday work, gangs should be ordered before 1500 hrs. previous day.

MEDICAL: It is absolutely necessary for the Agents to be notified in advance of the required medical attention so that necessary arrangements for medical exercise be carried out immediately on the vessel's arrival. Also see "General – Health".

TANKERS: Oil tankers moor on the North side of Lee breakwater. 1 berth suitable for ships of 600 ft. length, draft 29 ft.

Pipe-line: 805 m. long, pipe size 8 in. for all grades of petroleum and Bitumen.

Discharge Rate:

Petroleum –	Premium Mogas	150 t.p.h.
	Regular Mogas	150 t.p.h.
	A.G.O.	200 t.p.h.
	Kerosene	200 t.p.h.
Bitumen –	80/110–142 cu.m. per hour	
	60/70 –154 cu.m. per hour.	
	12/18 –337 cu.m. per hour.	

DENSITY: Salt water.

FRESH WATER: There is fresh water at all wharf berths and delivery is by means of water hydrant and/or water barge of 448,000 gallons capacity. Fresh water is also delivered at the buoy berths by 2 water barges (capacity 200 tons). The rate of delivery is as follows:–

By hydrant – 11,000 gallons per hour.
By barge – 11,000 gallons per hour.

FUEL: 2 grades available, Fuel and Gas Oil. Advance notice is necessary.

Fuel – 1,500 gallons per second through pipe-lines.
Gas Oil – 37.8 gallons per second through mobile tanker.

FIRE PRECAUTIONS: 6 firemen ordered to standby with fire engine. "No Smoking" notices are posted at considerable distances from the tankers.

CONSULS: There are no consuls in this Port. High Commissioners and Ambassadors are in Accra.

REPAIRS: Minor repairs can be effected, slipway for vessels up to 500 tons. Small drydock for vessels up to 100 ft. length.

DRY DOCK: There is no large drydock in this port but there is 1 small drydock capable of accommodating vessel of 100 ft. long, 25 ft. wide and 8.5 ft. draft.

SURVEYOR: Lloyds representation only operates in this Port.

GANGWAY/DECK WATCHMEN: Provision of Gangway, Deck and Hatch Watchmen is absolutely necessary to prevent stealing, pilferage and smuggling on board ships.

HATCHES: Hatches are normally opened and closed by the stevedoring gangs or, at times, by the ship's crew.

CUSTOMS ALLOWANCE: Quantity permitted for each member of the crew to be held Out of Bond is as follows: Tobacco 100 grammes; Spirit 0.75 litres; Wine 0.75 litres.

CARGO GEAR: Load/discharge is affected by the Port Authority's shore gear. There is 1 heavy lift crane of 15 tons capacity which is used for heavy lifts. Where the cargo exceeds the lifting capacity of the shore crane, the ship's jumbo derrick is sometimes used.

REPATRIATION: The Immigration Department is responsible for signing on and off on the advice of the shipping company.

AIRPORT: The distance of the airport from the Port is approximately 2 miles. It is served by regular airline to and from the capital city of Accra; and the number of flights is 2 per week.

TIME: The Greenwich Meridian Time is applied to this Port as the Greenwich Meridian passes through this country.

HOLIDAYS: The holidays at the Port are as follows; New Year's Day (1st January); Redemption Day (13th January); Independence Day (6th March); Good Friday (non-working day); Holy Saturday; Easter Monday; Republic Day (1st July); Christmas Day (25th December) (non-working day); Boxing Day (26th December).

POLICE/AMBULANCE/FIRE: Telephone 999 for all 3 services.

TELEPHONES: Presently no arrangements exist for installing telephone on board ships.

SERVICE: There is no special service for tank cleaning, tank-washing or compass adjustment.

SHORE LEAVE: Every member of the crew is free to go ashore at any time of the day or night after the Immigration Officer has issued shore passes to that effect on the ship's arrival.

IDENTIFICATION: Seamen's Book or Passport is sufficient to identify any seaman.

REGULATION: Ship's are not allowed to discharge on board explosives or petroleum without prior approval of the Port Manager. Ships are not allowed to berth after 1800 hrs.

DELAY: Delays in berthing a ship occur when all berths are occupied; delays also occur when repairs are being carried out on any of the berths.

AUTHORITY: Ghana Railway and Ports Authority.

AGENT: Scanship (Ghana) Limited, P.O. Box 329, Takoradi. Tel: 35.31. Telex: 2181 Accra. Cables: "Scanship Takoradi".

TEMA: 05.38 N. 00.01 E. (See Plan Book)

DOCUMENTS: *Arrival.*

2 copies List of Stores.
2 copies Crew Declaration Forms.
1 Bill of Health.
6 Crew Lists with vaccinations lists for smallpox and yellow fever.
6 copies of Passenger List (or "nil" pass. list).
Valid certificates for smallpox, cholera and yellow fever vaccinations.
6 lists of Ports of Call.
2 Freighted Cargo Manifest.
7 Unfreighted Cargo Manifest.
1 B/L's set.
Port clearance from Last Port.

Departure – Port clearance visaed by customs.

PILOTAGE: For Main Harbour pilotage for all vessels of more than 100 net tonnage, when arriving or leaving harbour, or shifting berth, but for both Fishing Harbours obtainable on request.

Time of pilotage as follows: for Main Harbour:

(a) Dry cargo vessels: arrivals 0600–1800 hrs.; departure 0600– 2300 hrs.
(b) Tankers: arrivals daylight only; sailings 0600 to 2300 hrs.
(c) Valco-carriers: all handling, during daylight only.

For fishing harbours: during daylight only.

Vessels arriving or wishing to enter harbour must await Pilot between E. and S.W. off outer water light, about 1 mile distance. Ships embarked by Pilots from 0600 hrs., according to time of arrival Quarantine Anchorage.

ANCHORAGES: Good anchorage, three-quarters to two miles from E.N.E. to S.W. off main entrance with depth 30 to 60 ft., with good holding ground. Eastern area of anchorage is more comfortable, without additional swell reflected from main breakwater.

RESTRICTIONS: Ships Arrival – 0600-1800 hrs. (on special request to 2000 hrs.). Ships Departure – 0600-2300 hrs.

MAX. SIZE: Ships up to 650 ft. and draft of 32 ft.

HEALTH: All crew require valid certificates of vaccination against smallpox and yellow fever which are inspected by Port Health Authorities. In case of any suspected disease or fever on board. Agent of the vessel should be notified in advance by radio. Also see "General" before first Ghana Port.

RADIO: All messages to Agents through their own VHF radio – Channels 6, 12 and 20.

VHF: The ports are equipped with VHF radio telephones, Channels 13, 14 and 16. Channel 16 is the international listening channel and Channel 14 is the port working channel. Channel 13 can be used if required, or if the other channels are not available. Signal station request LOA and draft in feet and last port of call.

TIDES: Maximal tides rise 6 ft. 2 in., minimal tides rise 3 ft.

PREVAILING WINDS: Light to fresh breeze from W. and S.W. during all year, except December to February when N.E. Harmathan is dominating with poor visibility. Dangerous winds are tornadoes from East, May to July, but occasionally isolated tornadoes are to be expected from January to December. There is a swell in harbour, especially after tornadoes, when lying alongside the berths.

HARBOUR: Harbour consists of 3 basins:

(a) The large basin of Main Harbour, formed by Main Breakwater 6,250 ft. long, and Lee Breakwater, 3,650 ft. long.
(b) Outer Fishing Harbour, East of Lee Breakwater.
(c) Inner Fishing Harbour on Northern side of former one.

Entrance to Main Harbour 800 ft. wide and together with the approaches has minimal depth of 35 ft. (Admiralty Chart Datum to which all depths refer).

Ships entering Harbour 2–3 cables before entrance roll heavily, up to 4–8° during some seasons. Ship's deeper than 30 ft. enter only during high tide with maximum possible draft limit 32 ft. during neap tide. Bottom of harbour consists of sand and mud, with frequent hard rocky ground. Depth increases in direction of Main Breakwater. Two pairs of mooring buoys in depth of 34–36 ft. Inside harbour, alongside Lee Breakwater is an Oil Wharf for tankers with depth of 34 ft.

TUGS: Use of 1 tug compulsory for all ships over 2,000 g.r.t. and 2 tugs over 5,000 g.r.t. (but at Pilot's option), and 2 tugs compulsory for tankers and Valco-carriers. 3 Diesel Tugs 1,380 h.p. in service. 2 tugs available for duty between 0600 and 2100 hrs., otherwise 1 tug. Tug's wires to be used.

BERTHING: Quay No. 1 – 4,300 ft.; Quay No. 2 – 2,900 ft.

Berths	*Length*	*Max. Draft*
1	600 ft.	31 ft. 6 in.
2	600 ft.	28 ft. 6 in.
3	480 ft.	25 ft. 0 in.
4	600 ft.	25 ft. 9 in.
5	600 ft.	25 ft. 6 in.
6	600 ft.	24 ft. 6 in.
7	600 ft.	26 ft. 0 in.
8	600 ft.	25 ft. 0 in.
9	600 ft.	25 ft. 0 in.
10	600 ft.	25 ft. 0 in.
11	600 ft.	25 ft. 0 in.
12	600 ft.	25 ft. 6 in.
Oil Berth	Ships up to 650 ft.	32 ft. 0 in.
Valco Berth	Ships up to 575 ft.	32 ft. 0 in.

Berths No. 6 and 7 for loading cocoa-beans, equipped with 4 high-speed conveyers, transporting bags directly to ship's hold, from 4 cocoa sheds (totalling 2,400,000 cu. ft.) situated at Westerly corner of harbour.

Usually ships moor starboard side to berths No. 1, 2, 6–9 and portside to berths No. 3, 4, 5, 10–12.

SPECIALISED CARGO HANDLING FACILITIES: 3 special berths for bulk cargoes only: Berth No. 10 for grain only. It is equipped with 1 elevator for sucking/discharging.

Valco Berth for handling bulk cargoes such as alumina, pitch/coke and alminium fluoride. It is also equipped with 2 elevators for sucking/discharging.

Berth No. 8 is partly meant for pumping/discharging of liquid/bulk chemicals such as tallow and alicane.

Cranes, Outloaders:

Quay No. 1	10 Portal Cranes	Cap.	(2) 5 ton	(2) 7.5 ton	(6) 3 ton
Quay No. 2	8 ,, ,,	,,	(2) 5 ton		(6) 3 ton
	3 Mobile Cranes	,,	(1) 5 ton	(1) 10 ton	(1) 25 ton

Cocoa Conveyor System: 4 Outloaders, each 30-35 t.p.h.
or : 2 Outloaders on high speed =70 t.p.h.

STEVEDORES: Available. Dry cargo is handled from 0730 hrs. to 1230 hrs. and from 1400 hrs. to 1700 hrs. on normal working hours, and overtime after 1700 hrs. to 2000 hrs. (for finishing ships 2030 hrs.) and on Saturdays p.m., Sundays and holidays. Oil Wharf and Valco Berth are working around the clock.

Gangs required for Sunday work should be arranged before 1130 hrs. previous day. For weekday work, gangs should be arranged before 1500 hrs. previous day.

Stevedores provided by Ghana Handling Company Ltd., Atlantic Port Services and Speedline Stevedoring Company Ltd.

TANKERS: Tankers always moored starboard side to dolphins, and ropes to breakwater and bow-buoys. Crude oil pumped to refinery, by ships pumps, a distance of 18,000 ft.

North of Oil Wharf about 2 cables on same breakwater is Valco Berth for discharging of bulk materials for "Valco" aluminium smelter (mostly alumina). Narrow channel 250 ft. wide leads to berth with depth 33 ft. 6 in.

FRESH WATER: Water pipes alongside all wharves, and under State's sanitary control.

FUEL: Fuel and diesel-oils available by tanker-trucks only. No coal-bunkers available.

DENSITY: About 1024.

FIRE PRECAUTIONS: Oil tankers when moored alongside must have "Fire Wires" hanging over the bow and stern on the outboard side of the vessel. These must be lowered to the water's edge and securely made fast on board so that they can be used to tow the ships away if necessary in an emergency. Two large fire fighting pumps and "snorkels" are mounted at the oil wharf. A floating boom to prevent the spread of oil spillage must be put in position around tankers loading and discharging. The Master of the ship should be warned to lower the guy ropes securing the boom to the ship, so that the boom is afloat at all times and not lifted up as the vessel's draft changes.

REPAIRS: Good marine-workshop.

DRY DOCKS: There are two (2) drydocks.

Drydock No. 1: Serviced by 60 tonnes and 20 tonnes travelling cranes. Capacity: 100,000 d.w.t. Length: 910 ft. (277.4 m.). Width (entrance): 149 ft. (45.4 m.) Width (inside wall): 155 ft. (47.2 m.). Draft (entrance): 22 ft. (6.7 m.) (to be deepened in future). Flooding time empty dock: 2 hrs. (approx.). Dewatering time: 4 hrs. (approx.).

Drydock No. 2: Serviced by 45 tonnes and 25 tonnes mobile cranes. Length: 350 ft. (106.7 m.). Width: 44 ft. (13.4 m.). Draft (entrance): 18 ft. (5.5 m.). Flooding time of empty dock: 4 hrs. (approx.). Dewatering time: 4 hrs. (approx.).

Also there is one slipway with length 127 ft. (38.7 m.); width: 41 ft. (12.5 m.) and hauling capacity: 150 tonnes.

Fitting out quay: 600 ft. (182.9 m.). Draft: 14 ft. (4.3 m.) to be deepened. Crane: 15 ton travelling crane.

SURVEYORS: Lloyds and Bureau Veritas are represented at the port.

GANGWAY/DECK: WATCHMEN: Services of watchmen necessary and compulsory.

HATCHES: Opening/closing of hatches is normally carried out by stevedores.

CUSTOMS ALLOWANCES: Per crew member: Tobacco: 100 grammes; wine: 0.75 litres; Others: 0.75 litres.

REPATRIATION: Facilities exist for effecting crew changes.

AIRPORT: Situated 18 miles from the port.

TIME: GMT. No alterations during the year.

HOLIDAYS: New Year's Day (January 1st); Independence Day (March 6th); Good Friday; Holy Saturday; Easter Monday; Labour Day (May 1st); Republic Day (September 24th); Christmas Day (December 25th); Boxing Day (December 26th). Cargo work can be arranged on those days on request.

SHORE LEAVE: Every member of the crew is free to go ashore at any time of the day or night after the Immigration Officer has issued shore passes to that effect after clearing inwards.

IDENTIFICATION CARDS: Shore passes issued are sufficient.

REGULATIONS: No unusual regulations for the port.

POLICE/AMBULANCE/FIRE: Telephone Nos: Police: 999 and 2936; Ambulance: 999; Fire: 999 and 2822.

DEVELOPMENTS: Provision of Container Depot.

Extensions to Quay No. 2. and construction of Quay No. 3. (These are under consideration).

GENERAL: Recommended to send ETA message at least 24 hours in advance. Essential that ETA message reaches Agent's office before 1430 hrs. Monday-Thursday or before 1000 hrs. Friday for weekends because of booking of gangs. Ships from Abidjan should also send 48 hours ETA message.

SHIPMASTER'S REPORT: (1976)

Good W/T. D.F. signals are obtained from Accra and Lome and with this vessel's equipment Marconi Type 758E will give a reliable position to within 2 miles. The 100 fathom contour line was accurate to within 1 mile where we crossed it. Within 20 miles the land definition is excellent on Radar. There is now an Oil Rig 137° 3.2 miles from the Eastern end of the main breakwater. This is an excellent seamark and is well lit at night. Native fishing craft are met with from about 10 miles offshore and show lights when fishing at night but reliability regarding these lights is doubtful.

VHF contact with the port Signal Station is good, although there was very heavy traffic during our stay outside waiting to berth 5.5 days, but I was allowed to use the main transmitter when berthed to inform Owners that we were alongside, at anchor no restrictions are placed on vessels using their wireless transmitters.

The pilotage is efficient although the tug was late in attending us when berthing this caused no difficulty.

The entrance to the Harbour is good, plenty of water all about if you have to wait for the Pilot, which we did. (He was moving a fishing vessel, and we had to cruise for about twenty minutes, after having come to the entrance on instructions that he would board there).

There were never less than 18 ships waiting for berthing.

W/T. contact with Portishead was good.

SHIPMASTER'S REPORT: (1977)

From Southwards – a strong Easterly set experienced 24 hours prior to arrival and along the coast to Cape Palmas after departure.

Radar (in our case) of the land poor until 15 miles off when ships at anchor off the port gave the first and the best targets. Breaksea Point light good and sighted at full range.

Ship really needs to be on "standby" with engines ready on approach to the 100 fathom line, when the first of the many mainly unlit and poor radar target fisherman are encountered, and really are in dense packs all along the coast in the shallower waters. There is no point in adjusting speed for a daylight arrival, the earlier the better as port operates on a mainly first-come basis. Equally of little point to try and pick a selected anchorage, ships are to be found anchored over quite a wide area – avoid as per pilot book the "prohibited anchorage" and the 10 fathom rocky shoulder that runs parallel with the coast. There are invariably 12 ships or more at anchor even some large ships completely unlit and possibly unmanned.

The port as other Masters have reported is well run, Pilots, tugs etc., well trained and competent under normal conditions. The port is overbusy and accommodating and handling far more tonnage than ever designed for and commonplace to have ships double-berthed. Essential to be well moored and precautions taken against the scend and surge that enters the harbour under certain conditions.

Communication: W/T HF poor and ship unable to make direct radio contact with Ghana until well within M/F range.

VHF: All port signals are given on Channel 14, and VHF discipline on this frequency poor when local ships are at anchor or in the near vicinity. Liner Agencies reputedly keep watch on Channel 16, but we were unable to raise them or make any contact before berthing.

Stevedores: Worked well throughout, though some delay initially experienced whilst fork-lift trucks small enough to work in our hatches and under the coamings were obtained, some pallets having to be broken down in stow to be discharged. Hours of work – actual – this is without the ship being consulted in any way, but seemingly common practice throughout the port, were 0730 hrs. non-stop through to 1930 hrs. Some pilferage – mainly of spilt milk powder, no visible signs of any security control as such. Discharge rate overall (crane and ships gear) milk powder 13 tons per gang per hour; frozen meat 8.64 tons per gang hour.

Stevedores toilets: Essential that ship arrives with overside latrines bow and stern ready and rigged.

Noting Protest: It might well be wise to include need to note protest in arrival message. We berthed late Friday to find Consulate in Accra closed as from midday for the weekend.

Stores: The point cannot be over emphasised (and all ships must be given prior warning to pre-store accordingly) that ordinary every day stores are virtually non-available and the fresh provisions (vegetables, salads, eggs and even much of the fruit) that are available are highly priced.

Shore leave: Ship was warned by other ships, the Agents, Mission Staff etc. not to go ashore at all with muggings and robberies commonplace even in daylight (wrist watches prime targets). The Agency lays on a minibus seemingly as a matter of course, to run ships' staff to and fro. We in fact with use of the above bus and local taxis did not experience any problems and found local people friendly and hard working.

AUTHORITY: Ghana Ports Authority, Tema.

AGENT: Scanship (Ghana) Ltd., PO Box 64 Tema. Tel. 26.51 and 25.71. Cables "Scanship Tema". Telex 2181 Accra.

NOTES

Please also advise Shipping Guides Ltd.

Gibraltar

GIBRALTAR: 36.08 N. 05.22 W.

DOCUMENTS:

3 Crew Lists.
4 Passenger Lists.
Arrival Report, to be completed when receiving Pratique.
International Maritime Declaration of Health.
Ship's Register.
Load Line Certificate.
Deratisation Certificate.
Ship's Articles.
Certificate of Insurance in respect of Civil Liability for Oil Pollution Damage.

PILOTAGE: Pilotage compulsory for all navigation (except direct *departure* from anchorage). Give notice of arrival through Agents 24 hours in advance furnishing maximum draft. Ships approach off Rosia Bay where Pilot (available day and night) boards vessel. Pilot boat painted black and flies international Pilot flag. To call Pilot: sound, and fly flag "G" or call Gibraltar Port on VHF Channel 16 and pass message on Channel 12.

ANCHORAGES: In open bay, good safe anchorage, depths vary from 5 to 40 fathoms. Vessels normally anchor in area West of Harbour Moles.

RESTRICTIONS: *Note:* British waters in the Bay of Gibraltar extend to the Median Line drawn in accordance with the 1958 Geneva Convention on the Territorial Sea and Contiguous Zone (see Admiralty Chart D 1448). However, part of those waters, lying North of 3 Qk. fl. buoys, are considered by the Spanish authorities to be within the limits of the Port of Algeciras/La Linea (Spanish Notice to Mariners 49/1563/67 of 9 December 1967), and the Spanish authorities have claimed Spanish port dues in respect of vessels anchoring between the Median Line and the line of buoys.

The waters in dispute form only a small part of the anchorages available to shipping calling at Gibraltar.

MAX. SIZE: If anchoring in bay, any size. Max. draft alongside, 31 ft. 6 in.

HEALTH: Vessels are usually boarded by Port Authorities off the Southern end of the detached Mole: if everything found satisfactory Pratique is granted immediately. Masters should advise Agents by radio before arrival of any illness on board so that Port Doctor may board vessel with Port Authorities.

RADIO: Gibraltar Radio, call sign ZDK.

VHF: Communicate with Port Authorities by VHF international calling Channel 16, pass message on Channel 12 (24 hour service).

TUGS: When required for berthing alongside, tugs meet vessels off Mole. Ship's ropes used.

BERTHING: Berths alongside are normally limited to 31 ft. 6 in. Deeper drafts may be accommodated for short durations of stay on a half-tide basis. Masters required to advise ship's draft when giving ETA. Cruise ships are only charged 25% of normal berthing charge.

Ships calling for bunkers and/or fresh water and not conducting operations involving passengers or cargo are only required to pay 12.5% of the normal berthing charges providing the stay alongside does not exceed 8 hours in addition to the bunkering/water period.

CARGO HANDLING: Container berth at No. 2 Jetty available for vessels up to 385 ft. in length, max. draft 28 ft. At other berths containers may be discharged by ship's equipment. 1 berth, for use by ships up to 28 ft. draft, has a fixed concrete stern landing ramp. Height of ramp above water level varies from 9 to 13 ft. according to tide. This is available for use in conjunction with ship's own stern ramp for roll-on/roll-off traffic.

Reclamation between No. 2 and 3 Jetties being carried out to provide space which will enable container handling to be expedited, completion expected December 1980.

STEVEDORES: Agents automatically advise stevedoring company on receipt of ETA from ship.

MEDICAL: Masters should advise Agents when giving ETA if medical attention is required on board. Adequate hospital treatment available.

TANKERS: Max. draft at discharging berths 31 ft. Diameter of discharging lines 14 in. fuel oil, 10 in. diesel oil and gas oil.

DENSITY: 1025.

FRESH WATER: Available at Mole from pipe-lines, delivery rate 60/80 t.p.h. Water can also be delivered at anchorage from barge, delivery rate 40/50 t.p.h.

FUEL: Fuel available any time day or night. All grades available.

GANGWAY/DECK WATCHMAN: Not necessary but available if required.

OPENING/CLOSING HATCHES: Normally effected by stevedores.

CUSTOMS ALLOWANCES: No restriction whilst on board. Crew members may bring ashore small quantity for their immediate personal use.

IDENTIFICATION CARDS: Not required.

CONSULS:

Belgium	Tel.	3288	Netherlands	Tel.	5968
Denmark	,,	2151	Norway	,,	4352
France	,,	4830	Portugal	,,	5330
Greece	,,	2956	Sweden	,,	2151
Italy	,,	3053	Venezuela	,,	3509
Israel	,,	5955	Finland	,,	3113
Liberia	,,	4312			

REPAIRS: Deck and engine repairs possible. Underwater operations including repairs and cleaning of vessel's hull.

DRY DOCKS: 4 dry docks (Admiralty) available subject Naval requirements. Largest 871 ft.×125 ft., smallest 260 ft.×46 ft.

REPATRIATION: Facilities exist for repatriating Crew members.

AIRPORT: Daily regular flights to London. Distance to airport about half mile.

TIME: GMT plus 1 hour all the year round.

HOLIDAYS: New Year's Day; Good Friday; Easter Monday; Commonwealth Day (24th May); Spring Bank Holiday; Summer Bank Holiday; Queen's Birthday; Christmas Day; Boxing Day. Cargo work can be effected at overtime rates on these holidays except on Good Friday and Christmas Day when no cargo work is carried out. Bunkering is effected on any of these holidays without any extra charge except on Good Friday and Christmas Day when a surcharge is made.

POLICE/AMBULANCE/FIRE: Police and Ambulance 2222; Fire 2000.

TELEPHONES: Telephone can be placed onboard at cruise ship berth. Telephones can also be placed on vessels under repair at the Detached Mole, through Admiralty Telephone Exchange, cost about £10.

GENERAL: Advisable that vessels calling for bunkers and only stopping in port for few hours should radio their requirements prior to arrival to ensure avoiding delay.

SHIPMASTER'S REPORT: October 1980: Offport Call.

VHF: Lloyds on Channels 16 and 14. Port and Pilots on Channels 16 and 12.

Pratique: Cable for free pratique 18 hours ahead. Standard message. Do not expect reply.

Pilot: Boards from small black hulled motor boat off Rosia Bay. Good lee required. Contact when South of Europa Point.

Anchoring: Not necessary for offport call with under 1 hours wait. One anchor required ready with forecastle party on stand-by.

Agent/Quarantine Officer: Board off South end of Detached Mole.

Procedure: Require 2 Crew Lists and 1 Health Declaration. They also look at Register and Derat Certificate.

For British crew joining and leaving ALC1 and ALC5 are required to be filled in, so joining members must sign on immediately.

Time: Depends on numbers and ranks joining and leaving, but in October 1980, 9 officers left and 6 joined, procedure took 30 minutes with total off hire of 1 hour and 32 minutes.

General: Money: Sterling easily available in all denominations but make sure you cable in for Agent to arrange during bank hours.

Films: Walport from 'Restano' films and Vidpak – 48 hours notice.

Agent: Very efficient, on prior request supplied British newspapers and up-to-date Lloyds Index.

Anchorage: (From Pilot). Northern limit of tanker anchorage – Line through North End Detached Mole (Qk. Fl. G.) with North Leading Light (F.G.) in position: 36° 08.9′ N. 5° 21.3′ W., good anchorage 3 cables off mole – single anchor good holding.

For ships awaiting repairs or orders, North limit – East to West line North End South Mole (Fl. 2 sec.).

Current: (From Pilot). Strong Southerly setting current up to 4 knots, with East wind, off moles.

Lloyds signal station: Approaching Gibraltar, will pass all messages to Pilots and Agent.

Port expenses: Agent quoted total off port (including Pilot) £400.

AUTHORITY: Captain of the Port.

AGENT: Lambert Brothers (Gibraltar) Ltd., 47 Irish Place. Tel. address "Lambert-Gibraltar". Tel. 4373; Telex 72685 2222. Ship's Agents, Insurance Agents, Travel Agents 72685.

Greece

AGHIOS NIKOLAOS (St. Nikolo-St. Nicholas), Crete: 35.12 N. 25.43 E.

DOCUMENTS:
4 Crew Lists.
2 Passenger Lists.
1 Cargo Manifest.
1 Spares List.
1 Stores List.
1 List Crew Personal Effects.
Maritime Health Declaration.
1 Provisions List.

PILOTAGE: Not compulsory. No Pilot station. Private Pilot who can be used if needed. However, not always available. Area of Pilot's boarding is N.E. or S.E. of Aghioi Pandes Islet, depending weather conditions. Anchorage waiting place in same area. Call Pilot with signal "G". Small fishing vessels (length 13.0 m.) fitted with VHF can indicate position of anchorage if advised by Agent.
ANCHORAGE: (a) Harbour of St. Nikolaos, depth 3 – 5 fathoms. (b) Usual anchorage for vessels over 500 tons gross, South or S.E. of Nikolo Islet (Admiralty Chart No. 2536 B) and at a distance of 0.5 – 1.0 m. from the mainland, depth 10 – 40 fathoms respectively. (c) Poros Bay for small and large vessels, only when North and N.W. fresh gales, depth 16 – 27 fathoms.
RESTRICTIONS: Care to be taken off North entrance to port owing to rocky shoals, depth 5 m. Entrance from the S.W. is free of obstructions.
MAX. SIZE: Vessels of up to 100 m. length and 9.0 m. draft can enter the port. At oil bunkering installation outside the port, vessels of any size can be accommodated.
HEALTH: If from another Greek port free pratique is automatic and access to and from vessel granted on permission of Port Authorities. Port doctor visits all other vessels.
RADIO: No local radio station. Cables to Agent or Port Authority through "Athinai Radio", "Heraklion Radio" or Rhodes Radio".
TUGS: One tug available.
BERTHING: Berthing position designated by Port Authority.
STEVEDORES: 10 permanent port stevedores available, but further 5 men can be engaged. Cargo worked by vessel's own gear.
MEDICAL: No advance notice of medical attendance required. Medical attention by town doctors available. Government hospital with all facilities.
TANKERS: No tanker berths. Vessels moor to buoys. Oil line 6 in. diameter.
DENSITY: 1025.
FRESH WATER: At new pier 3 hydrants, hose dia. 25 ins. for supplying water. At the bunkering installation at Katsini Bay there is water storage tank capacity 500 cu. m. for supply to deep-sea vessels. Loading rate about 49 t.p.h. Delivery by flexible hose connection from the mooring buoys. Fresh water not available at the present time at the bunkering installation as they have ceased operating.
FUEL: Small quantities transported by tank truck are available from the pier.
DEVELOPMENTS: During next 5 years *(a)* deepening of Port Basin, *(b)* Provision of 1 shore crane, *(c)* construction of breakwater — length 200 m.
HATCHES: Opened/closed by stevedores.
CUSTOMS ALLOWANCES: 2 packets cigarettes per crew member per day.
CARGO GEAR: No shore facilities. All cargo worked with ship's own gear.
CONSULS: None.
REPAIRS: Only minor repairs.
REPATRIATION: Crew replacement and repatriation available.
AIRPORT: At Iraklion distance 66 km. 2 or 3 flights per day to Athens.
TIME: GMT plus 2 hours, permanent.
HOLIDAYS: In addition to standard Greek holidays, local holidays are Ascension Day (date not fixed), and St. Nicholas Day (6th December).
POLICE/AMBULANCE/FIRE: St. Nicholas Police tel. 100. State Hospital, 22369. Fire tel. 22674 or 28905. Port Police 22312. Area code for St. Nicholas 0841.
TELEPHONES: Available for yachts only.
SERVICES: Tank cleaning and hold cleaning.
SHORE LEAVE: Permitted with Port Authority pass.
REGULATIONS: *(A)* Vessels are not allowed to approach Aghioi Pandes (goat reserve). *(b)* No refuse or other waste matter of any description allowed to be thrown overboard from vessel. *(c)* No visitors permitted without Port Authority permission.
AUTHORITY: Port Authority of Aghios Nikolaos.

AGIOI THEODOROI: 37.55 N. 23.05 E.

DOCUMENTS:
7 copies Crew Lists (European and Asian).
2 copies Dates of Vaccinations/Inoculations.
1 copy Cargo Manifest.
2 copies List of Provisions and Stores (these are supplied on forms issued by Agent printed in Greek/English).
2 copies Officers'/Crews' personal declaration, on forms supplied by Agent in Greek/English, covering all high duty items, radios cameras, etc.
1 copy declaration of ships' cash on board, form supplied by Agent in Greek but made out in front of Master.
2 copies of Masters' declaration that all high duty goods have not been put under seal, and that he is responsible for any loss or landing of same without proper authority.

All passports and/or Seamen's books to be produced *if* requested by Immigration.

On completion of loading, documentation takes about 2 hours.

PILOTAGE: Compulsory. Pilot boards S.S.E. of port, about 1 mile off the outer jetty. No pilot boat as such; uses either a tug or mooring boat. Pilot is arranged by Agents who are based in Piraeus (1 hour by car). No means of radio contact between vessel and Pilot station.
ANCHORAGE: A reasonably safe anchorage can be obtained in position 0.5 mile off the outer jetty in a depth of 20 to 25 fathoms with a sandy bottom.
TUGS: 2 tugs used for berthing, and 1 on sailing.
BERTHS: There are 3 main berths with 2 smaller berths for coastal vessels. The largest and outermost berth can accommodate vessels of 250,000 tons fully loaded, a max. discharge/loading rate at this berth being 5,000 t.p.h. The other berths can accommodate vessels of up to 50,000 tons fully loaded with a max. discharge/loading rate of 3,000 t.p.h. All berths are equipped with four 10 in. Chicksans. They are situated in an open position for winds from the South and West but provided ample moorings are put out, there should be no cause for concern.

Vessels can berth at any time day or night.

MOORINGS: Standard moorings on to dolphins which are well fended and hold the vessel about 4 feet clear of the manifold complex. Vessels require their gangway but no derricks are required. 1 or 2 anchors are used depending on the berth used.
FRESH WATER: Fresh water for other than drinking purposes is available from the jetty, but drinking water has to come by barge from Piraeus for which 2 days' notice is required.
FUEL: Bunkers can be obtained from one of the coastal tankers based here, capacity approx. 5,000 tons.
CUSTOMS: Bonded locker is sealed. Allowance 200 cigarettes or equivalent in tobacco or cigars per man (7 days) and a part bottle of wine and spirits is permitted per man (7 days). All Tobacco/cigars/cigarettes placed under seal. Crew excess must be declared on provision list in separate column for same.
SHORE LEAVE: Shore leave is allowed, passes being issued on arrival which must be handed in prior to sailing.
REPAIRS: No facilities. Nearest port for repairs is Piraeus.

ALEXANDROUPOULIS: 40.51 N. 25.54 E.

DOCUMENTS:
Port Authority:
2 Crew Lists.
1 Passenger List (if any).

If from abroad Maritime Declaration of Health. If Greek flag, articles and log book, and declaration of foreign exchange.
Customs:
3 Lists of Stores and Provisions.
1 Crew List.

Master's personal declaration that all stores not held in bond will remain on board.

PILOTAGE: No pilot service. If Master requires pilotage assistance an experienced local boatman is available, but Agent must be advised of ETA in advance order to arrange for this Pilot to await vessel about 1 mile outside port.
ANCHORAGES: Depth inside port 18 ft. 06 in., mud bottom. Depth increases outside port to about 10 m. at distance of 1 nautical mile.

Area around port subject to strong S.E./S. winds especially during Winter. During strong winds vessels can seek shelter off Samothraki Island. In strong winds port is considered safe but because of occasional large waves loading is stopped. Winds from other directions do not affect port work.

MAX. SIZE: Vessels with draft not exceeding 18 ft. 06 in. can enter safely.
HEALTH: Vessels from foreign countries can enter harbour and obtain free pratique during the period from sunrise until 2200 hrs. Vessels having suspected contagious disease on board should remain outside harbour until visit of medical officer, and await further instructions.
TUGS: None.
BERTHING: At least 24 hours notice of ETA to be passed to Agent in order to obtain allocation of berth from Port Authority.
STEVEDORES: Prior notice to be passed to Agent order arrange gangs. Rate of cargo working: General cargo about 100 tons per gang every 8 hours. Bagged cargo about 100 tons per gang every 8 hours. Coal about 80 tons per gang every 8 hours. Timber about 120 cu.m. per gang every 8 hours. Vessels must use own gear for loading/discharging.
MEDICAL: No advance notice required. 1 Government General Hospital, 3 clinics. Doctors' services readily available.
TANKERS: There is a floating pipe-line. Tankers with a draft of 17 ft. can discharge diesel oil only.
FRESH WATER: Hydrants on West side of breakwater. Delivery rate about 5 t.p.h. (each), but delivery rate reduced when 2 or more hydrants in use.
FUEL: No bunker C fuel available. Supplies of diesel oil possible from road tankers.
FIRE PRECAUTIONS: No port fire brigade. In emergency fire brigades must be called from Alexandroupolis.
DEVELOPMENTS:
(a) The Main Pier is finished, total length 450 m.
(b) The pier East of Main Pier is finished, total length 231 m.
(c) The Western Breakwater has recently been finished. It has been extended for 108 m. Work on extending the breakwater for a further 97 m. has already begun.

WATCHMEN: Not available, and if required must be supplied by vessel.
HATCHES: Opened and closed by crew.
CUSTOMS ALLOWANCES: One packet cigarettes allowed out of bond

for each crew member, for each day in port. Wine/beer no restrictions. Spirits, Master allowed one bottle.
CARGO GEAR: Load/discharge by ship's own gear.
IDENTIFICATION CARDS: Shore pass issued against crew list and seamen's book. Passes obtainable from Port Authorities.
CONSUL: Consul-Agent of France. Tel. 26–720.
REPAIRS: Only minor repairs available.
REPATRIATION: Facilities for crew changes and repatriation.
AIRPORT: 5 km. distant. Daily flights to Athens. Flights to Thessaloniki Tuesday, Thursday and Saturday.
TIME: GMT plus 2 hours. Summertime GMT plus 3 hours.
HOLIDAYS: 1st January; 6th January; Whit Monday; 25th March; Good Friday; Easter Monday; 1st May; 14th May (local); 15th August; 28th October; 6th December; 25th December; 26th December, and all Sundays. Cargo work can be arranged on these days, subject to payment of additional charges.
POLICE/AMBULANCE/FIRE: Police station. Tel. 26352; Security Police, 26220; Ambulance 25272; Fire 26222.
TELEPHONES: No facilities for telephones on board.
SHORE LEAVE: Permitted.
AUTHORITY: Port Authority of Alexandroupolis.

3 Passenger Lists.
Customs Clearance.
2 Cargo Manifests.
Bills of Lading (copy).
4 Ship's Stores List.
4 Lists of Crew's Personal Effects.
Ship's Papers.
Crew Vaccination List.

PILOTAGE: No Pilot station.
ANCHORAGE: Vessels anchor in roads 0.5 miles N.N.W. from Entrance light. Max. channel draft 19 ft.
MAX. SIZE: Up to 19 ft. draft.
HEALTH: Free pratique given by Port Health doctor.
RADIO: Patras Radio. No VHF.
TUGS: None available.
MEDICAL: Advance notice not required except in urgent cases. For vessels arriving from foreign countries crew require vaccination certificates.
TANKERS: Small tankers discharge at DEH Power Terminal.
FRESH WATER: Can be supplied from the pier using ship's hoses.
FUEL: Small quantities available, but only for yachts.
OPENING/CLOSING HATCHES: Performed by ship's crew.
CUSTOMS ALLOWANCE: 50 cigarettes allowed for each crew member.
CONSULS: No local representation.
REPAIRS: Only minor machinery repairs can be carried out.
REPATRIATION: By air to Athens (once daily) or by ferry-boat.
TIME: GMT plus 2 hours. GMT plus 3 hours in Summertime.
HOLIDAYS: Local holidays are 21st May, 16th August and 20th October, in addition to national holidays. Work may be arranged at double rates.
POLICE/FIRE/AMBULANCE: Police tel. 22200; Ambulance 22515; Fire service available.
TELEPHONES: Can be connected on board vessels without charge.
SHORE LEAVE: Allowed.
AUTHORITY: Cephalonia Harbour Office.

CHALKIS: 38.27 N. 23.36 E.

DOCUMENTS:
2 Crew Lists.
2 Passenger Lists.
2 Cargo Manifests.
2 Stores and Spares Lists.
2 Crew Personal Effects Lists.
Health Certificate.

PILOTAGE: Pilotage is compulsory.

Application for Pilot to be made by radio through Agent to Chalkis Port Authority. ETA required at least 8 hours before arrival.

Apply for Pilot through VHF Channel 12, or through radio/telephone on 2364 kc/s calling Harbour Master, Chalkis.

Pilot boards from black motor-boat with white horizontal stripes, about 10 m. length, in a position about 1-1.5 miles North of the light buoys of the Northern Port.

The pilotage area extends from 1 mile North of red and green light buoys, North of Evripos Bridge, and to the South of Euboea, 2.5 miles from Bourtzi Point.

The anchorage for vessels coming from the North of Euboea and awaiting Pilot is at the centre of the Euboean coast off Lighthouse Kakokefali, North of the 2 light buoys and outside the bearing 020°/200° which is the axis of vessels passing in and out of Evripos Strait.

Safe anchorage for vessels coming from South of Euboea and awaiting Pilot is 1 nautical mile South of Bourtzi Point.

ANCHORAGES: *(a)* In the basin of South Port clear of vessels passing in the Straits. Depths over 21 ft.

(b) In North Port between the light buoys and Kakokefalis lighthouse and outside the axis of course 020°/200°. In depths of 10–15 fathoms.

(c) Anchorage mentioned in "Pilotage" above, depths of 10 fathoms.

RESTRICTIONS: Entry restricted only by depth. Max. draft 21 ft. For vessels intending to pass Evripos Strait having draft 19 ft., passage possible only at slack tide or with following tide. Full details in Evripos Straits Operations Regulations.

There is also a restriction in Steno Straits where there is an overhead cable 38 m. above sea-level.

MAX. SIZE: Max. draft 21 ft. in daytime and 19 ft. at night for vessels entering port. For vessels navigating Evripos Strait max. length 110 m., max. draft 19 ft., breadth 20 m. and subject to local regulations.
HEALTH: Pratique not required if coming from another Greek port. Otherwise international pratique regulations are applied.
RADIO: No local radio, all messages should be passed through Athinai Radio.
TUGS: 1 tug available, joins vessel off the berth. Ship's tow lines used. Tug is compulsory for vessels over 1,000 g.r.t. Tug used only for berthing and unberthing.
BERTHING: Berthing in both the North Port and the South Port can only be effected at slack water subject to available tide.
BRIDGES: Passage above Evripos Bridge can only be effected at slack water or with following tide.
STEVEDORES: Loading, discharging, carried out with ship's gear. Notice must be given by Agent to stevedores not less than 6 hours before vessel's arrival.

Cargo working rates: General cargo 80–100 tons every 8 hours. Bagged cargo 100–150 tons every 8 hours. Timber 70 cu. m–90 cu. m. every 8 hours.

MEDICAL: Agent should be advised beforehand if medical assistance required on arrival. Clinic facilities available. Vaccination certificates required.
DENSITY: Average 1025.
FRESH WATER: Drinking water can only be supplied in small quantities by tanker lorry.
FUEL: Can be supplied in small quantities by tanker lorry.
DEVELOPMENT: A pier 240 m. is under construction at Vourkos in the South Port; depth alongside 26 ft.
WATCHMEN: Not required.
HATCHES: Opening and closing hatches can be effected by ships crew or by workers if requested.
CUSTOMS ALLOWANCES: Crew members each allowed 1 packet of cigarettes per day. Only the Master is allowed 1 or 2 bottles of alcohol while vessel in port.
IDENTIFICATION CARDS: Shore passes are issued by port authorities.
CONSUL: France, tel. 2574.
REPAIRS: Only minor repairs can be effected by technicians from Piraeus.
REPATRIATION: No difficulties as there are excellent communications with Piraeus.
AIRPORT: Nearest is Athens International Airport.
TIME: GMT plus 2 hours. GMT plus 3 hours in Summer.
HOLIDAYS: 1st January; 6th January; 25th March; 21st April; Good Friday; Easter Monday; Easter Sunday; 21st May; 15th August; 28th October; 6th December; 25th and 26th December. Local holiday 26th July.
POLICE/FIRE/AMBULANCE: Port police, tel. 22580; Fire 23333; Ambulance 22282.
TELEPHONES: Cannot be connected on board.
SHORE LEAVE: Allowed.
DELAYS: Only waiting for suitable tides.
AUTHORITY: Chalkis Port Authority.

CORFU (Kerkyra): 39.37 N. 19.56 E.
(Including Kalifoka and Kefalomandouko)

DOCUMENTS:
3 Crew Lists.
3 Passenger Lists.
Maritime Declaration of Health.
3 Stores Lists.
3 Spares Lists.

PILOTAGE: At least 24 hours before arrival ETA should be passed to Port Authority on 2182 kc/s, answering on 2830 kc/s. Vessels requiring Pilot during daytime should hoist letter "G" of international code, and sound letter "G" in the morse code on ships whistle at intervals. Whistle signal may also be used at night. Vessels should await Pilot in position 39° 38′ N., 19° 57′ E. nearest to the coast of Ptychia Island (Vido) and Corfu, depending on weather conditions.
ANCHORAGE: Safe anchorages in the area between Ptychia Island and coasts of Corfu, depth about 30 m. During strong N.W. winds there is safe anchorage in the roadstead at Goritsa Bay or at Kastrades at a distance of half mile from the shore where depth in excess of 20 m.
RESTRICTIONS: Only during unfavourable weather conditions or lack of berthing space.
MAX. SIZE: Draft 7.5 m.
HEALTH: Port Health Officer boards vessel on arrival and examines health declaration. In cases of suspected disease or fever on board the health officer will examine entire crew and passengers.
RADIO: Radio Kerkyra. 2182 and 2830 kc/s.
TUGS: None.
BERTHING: Vessels should prepare fenders prior going alongside berth.
STEVEDORES: At least 24 hours advance notice of ETA required order arrange gangs. There are 3 silos for the discharge of bulk grain at Kalifoka (Mandoukion). Discharge rate about 60 t.p.h.

MEDICAL: Agent should be advised in advance of any medical requirements. Medical clinics available.
DENSITY: 1025. Max. height of tide 0.6 m.
FRESH WATER: Available through 2 in. hoses. Cost 25 drachmas per ton (approx.).
FUEL: For yachts in the new harbour there is a diesel-oil tank, capacity 10 tons. Also available from road tanker for all vessels alongside. At Kefalomandouko there is a permanently anchored oil barge capacity 24 tons. There are plans to provide permanent shore facilities.
FIRE PRECAUTIONS: Loading/discharging of inflammable liquids and explosives generally forbidden at night. The anchorage for vessels carrying inflammable liquids or explosives is between Lazaretos Islet and N.W. of breakwater point.
WATCHMEN: Not required.
HATCHES: Opened and closed by stevedores. Hold cleaning service available.
CUSTOMS ALLOWANCES: Crew of Greek vessels are not allowed more than immediate requirements out of bond. Seamen signing off and passengers leaving the vessel are allowed 200 cigarettes.
IDENTIFICATION CARDS: Required.
CONSULS:
France: Botis George, 1, Romanou St. Tel. 30067.
W. Germany: Aspiotis Gerasimos, Isermeti St. Tel. 31755.

Sweden: Adam Bogdanos, 5 Donzelot St. Tel. 29469.
REPAIRS: Facilities for minor repairs only.
DRY DOCK: Largest dry dock 20 m. length 2 m. depth.
REPATRIATION: Facilities for crew changes and repatriation available.
AIRPORT: 2 km. from port. During winter 1 flight daily to Athens. During summer frequent daily flights to Athens.
TIME: GMT plus 2 hours. GMT plus 3 hours in Summer.
HOLIDAYS: Local holidays are 21st May, 11th August and 12th December. In addition Corfu observes standard Greek holidays.
POLICE/AMBULANCE/FIRE: Police, tel. 23661; Ambulance, tel. 30062; Fire, tel. 29255.
TELEPHONES: No facilities for placing on board.
GENERAL: Prevailing wind is from the N.W. Anchorage in the new harbour unsatisfactory due to mud bottom.
SHORE LEAVE: Allowed.
REGULATIONS: Forbidden to approach Lazaretos Islet.
AUTHORITY: Port Authority of Corfu.

ELEUSIS (including Skaramanga): 38.02 N. 23.33 E.

DOCUMENTS:
4 Crew Lists.
4 Passenger Lists.
Bill of Lading.
2 Lists of Stores and Provisions.
PILOTAGE: Piraeus Pilot station regulations are operative.
ANCHORAGE: Port offers safe anchorage. Bottom mud and sand.
RESTRICTIONS: After sunset and for vessels intending to enter Eleusis port through Salamis channel, it is imperative to give 6 hours notice of expected time of arrival to Port Authorities of Eleusis, in order to obtain special permission from the naval yard of Salamis.
MAX. SIZE: No limitations to length and breadth at the installations or at the main port. Max. permissible draft of vessel entering Eleusis Bay is 35 ft. Max. draft at berths is 33 ft. Also see "Tankers".
HEALTH: For vessels arriving from other Greek ports, pratique is automatic. Vessels arriving from foreign ports boarded by Health Officer who grants free pratique.
RADIO: Athinai, 2182 kc/s.
TUGS: Join vessel outside Piraeus Harbour and formalities much same as Piraeus.
BERTHING: Overall length of jetties and quay at Eleusis 715 m. Max. depth over 80 m. of jetty length is 33 ft. with depths of 26 ft. elsewhere.
SPECIALISED CARGO HANDLING: Loading/discharging of iron ore is carried out by *(a)* Holivourgiki Co., which owns a pier of 180 m. long and from 26 ft. to 36 ft. depth, equipped with 4 cranes, and *(b)* by Metallia Voxitou Elefsinos Co., which offer a special anchorage with buoys. Loading is effected by means of silo.

Loading/discharging of fluid chemicals or liquid gas are carried out by Petrogas Co. to their private pier of 35 m. long and 15 ft. depth.
MEDICAL: Advance notice not required. Clinic available in town of Eleusis if required.
TANKERS: Operating companies supply reducing pieces. No facilities for residue discharge. *(a)* Esso Pappas: length 160 m.; breadth 30 m.; depth at pier 30 ft. *(b)* Greek Refineries: length 93 m.; breadth 12.70 m.; depth 7 m. *(c)* Texaco: length 80 m.; breadth 6 m.; draft 4.50 m. *(d)* Mamidakis: length 40 m.; breadth 5 m.; draft 27 ft.
FRESH WATER: Barge delivery available.
FUEL: Available ex-wharf at tanker installations subject advance notice. Can be supplied by barge at other locations.
FIRE PRECAUTIONS: The usual precautions applicable to oil installations. During operations of white liquid (petrol, spirits, etc.) regulations require a tug to be standing by.
HATCHES: Usually opened and closed by crew and subject additional payment by stevedores.
DEVELOPMENTS: Hellenic shipyards, Skaramanga, plans to build a new graving dock for 300,000 d.w.t.

Eleusis Shipyards have built a third floating dock which takes vessels up to 115,000 d.w.t. At the building dock, a crane of 400 tons lifting capacity has been constructed.
CUSTOMS ALLOWANCE: 200 cigarettes and 1 bottle wine/spirits allowed per Crew member out of bond.
CONSULS: None.
REPAIRS: All grades of repairs can be carried out at Eleusis shipyard, and also at Skaramanga (see "Dry Docks").
DRY DOCKS: Skaramanga shipyard situated on the coast between the Port of Piraeus and Eleusis Bay. Shipyard is 8 miles by road from Athens and 7 miles from Piraeus; driving time 25 and 20 minutes respectively.

Mailing address: Hellenic Shipyards Co., PO Box, 480, Athens, Greece. Cables: Shipyard, Athens. Telex: 215293 HSYS GR, 215396 HSYS GR, 215567 HSYS GR. Telephones 8073.471, 8073.351, 8073.610. Office hours at Skaramanga: 0815 hrs. to 1715 hrs. (weekdays), 0815 hrs. to 1345 hrs. (Saturdays).

Floating Docks

Main Particulars	*Dock No. 1*	*Dock No. 2*	*Dock No. 3*
Lifting capacity	30,000 tons	22,000 tons	25,500 tons
Docking capacity (d.w.t.)	72,000 ,,	37,000 ,,	60,000 ,,
Length overall	826 ft.	673 ft.	760 ft.
Length on keel blocks	760 ,,	605 ,,	693 ,,
Breadth inside banks	121 ,,	105 ,,	111 ,,
Breadth outside banks	147 ,,	129 ,,	136 ,,
Ht. of WL above keel blocks	28 ,,	28 ,,	28 ,,
Pumping time (Minutes)	120	80	100

Skaramanga Yard's three floating docks have been designed in such a way as to eliminate delays of any kind in the raising of large vessels and to ensure that the work is carried out in minimum time and with the least possible inconvenience to the crew living on board.

The basic equipment of the docks is the following; Two 5-ton cranes, 2 fire extinguishing pumps 120 cu.m. per hour at 90 m. WC, DC current supply to ships 1200 A 220 V, AC current supply to ships 600 A 440 V 60 cycles, multipoint welding rectifier 2500 A, 2 oil pumps for supply of fuel oil from the dock to the vessel 60 cu.m. per hour at 50 m., 2 compressors 17 cu.m. per minute at 7 atu, emergency diesel generator set 200 KVA, foam fire extinguishing system, steam boiler and water distilling plants.
Shipmaster's Report: 1978.
Tankers may discharge residue at the deballasting station of Hellenic Shipyards, max. output 500 cu.m./hour.

Graving Dock

The Graving Dock is 327 m. (1,100 ft.) long, 53.6 m. (176 ft.) wide and 9.25 m. (30 ft.) deep at the entrance. It can take ships in the 240,000 ton range.

Ships are manoeuvred at the dock entrance with the assistance of two 5-ton capstans situated on each side of the entrance gate. They are then shifted inside the docks by two 15-ton auto-tensioning winches and hauling-in trolleys (mules) running on tracks on each side along the dock subway.

The dock floor is fitted with specially designed keel blocks for easy fitting and removal and with electrically, operated side blocks.

The Graving Dock is served by two 100-ton cranes, one 50-ton crane and a small 5-ton crane.

A fleet of 5 powerful tugs is on hand at Skaramanga Yard to assist docking and undocking operations of all vessels calling at the yard.

Eleusis Shipyards S.A. is located 27 km. outside Athens. The site was chosen on account of the several advantages it presents. The bay is well protected from strong winds, sources of raw materials are available in the vicinity of the ward, and adequate transportation, power, and telecommunication facilities can service the needs of yard.

Athens Office: 67 Athinas Street, Athens 112. Tel. 349 053. Cables "Helnafel Athinia". Telex 215215 ESC GR.

Yard: Eleusinia, Eleusis. Tel. 55351. Cables "Helnafel Eleusis". Telex 215684 YARD GR and 215690 YARD DR.

Floating Docks: Three floating docks are available with the following specifications:

	No. 1	*No. 2*	*No. 3*
Length	162 m.	227.5 m.	252 m.
Breadth at entrance	23 m.	33 m.	41 m.
Draft over keel blocks	6.30 m.	8 m.	9.40 m.
Lifting capacity	11,500 m. tons	20,000 m. tons	30,000 m. tons
Cranage	5 t at 15 m.	12 t at 20.6 m.	12 t at 20 m.

Quay Wall; The 640 m. long quay wall is equipped with 40 and 15 ton cranes; range 30 m. power 220 volts DC 100 amp. – 42 volts DC 25 amp. – 280 volts AC 630 amp. Floating crane, 50 tons capacity.
Tugs: Available for manoeuvring purposes at all times.
AIRPORT: Athens Airport. Regular international flights.
HOLIDAYS: Cargo operations can be effected during usual Greek holidays, following submission of application to Harbour Workers' Union and subject cost increase of 75% above normal.
POLICE/AMBULANCE/FIRE: Eleusis Police Station 46674 Ambulance 46503; Fire Brigade 0199.
SPECIAL PRECAUTIONS: See "Piraeus".
AUTHORITY: Eleusis Port Authority.

IRAKLION (Heraklion), Crete: 35.20 N. 25.10 E.

(See Plan Book)

DOCUMENTS:
4 Cargo Manifests.
4 Crew Lists.
4 Passenger Lists.
Declaration of Crew's Personal Effects.
List of Stores and Provisions.
Maritime Declaration of Health.
Vaccination Certificates.

PILOTAGE: Pilotage area extends 0.5 to 1 mile N.E. of breakwater. Advance notice of ETA should be passed to Agents order arrange Pilot. Contact may be made with Pilot station on VHF Channel 12 during daylight, also when within distance of 3–12 miles, and subject prior agreement of calling time, communication can be effected by radio–telephone via Radio Iraklion – Pilot station telephone 286133. International pilotage signals apply. Pilot boat is wooden boat 12 m. length, hull colour black, with white deckhouse, carrying black board with word "Pilot" in white letters. In bad weather vessels should proceed close to entrance of port for Pilots boarding.

A cement pillar has been installed on the end of the extension of the N. breakwater. Fl. Gr. every 3 seconds, visible 9 miles. The pilot boat is equipped with VHF. range 50 miles.

ANCHORAGE: Anchorage East of port entrance is forbidden owing to numerous underwater cables. In good weather conditions anchorage to be found 0.75 mile Northwards of N. breakwater with Enetic Castle bearing 180°. In bad weather conditions, best anchorage is at a distance of about 5 nautical miles to the W. of the North breakwater and at a distance of 3 miles from the coast (Ellinoperamaton Haven); depth of water requires a big scope of anchor chain.

MAX. SIZE: Max. length 250 m., draft 29 ft.–29ft. 6 in. Usual rise and fall of tide 1 ft. but increasing with South winds and decreasing with North winds.

HEALTH: International regulations apply for obtaining free pratique. In the event of suspected disease vessel will remain under quarantine until cleared. Pratique is automatic if arriving from another Greek port.

RADIO: Radio Iraklion – SUH 2128 kc/s.

TUGS: One private tug available.

BERTHING: Pilot will advise Master of berthing position.

STEVEDORES: Port authority owns 3 cranes but they are seldom used. Cargo operations usually conducted by use of ship's own gear. Discharge rates per gang in 8 hours: bulk cargo 100 tons, bagged cargo 140 tons, liquid cargo subject ship's equipment – transportation by barges, timber 100 cu. m.

MEDICAL: Advance notice should be passed to Agents if requiring medical attention. Clinics and medical treatment available.

TANKERS: Only very small tankers discharge in Iraklion Port and Ellinoperamaton Haven. At Iraklion, tankers discharging liquid fuel are required to berth at East breakwater (fuel pier). Attendance of fire brigade and 1 tug standing by is compulsory.

DENSITY: 1020.

FRESH WATER: Available ex-berth or ex-barge. Rate of delivery ex-berth about 500 tons per 24 hours.

HATCHES: Opened and closed by crew.

CUSTOMS: 2 packets of cigarettes per day per crew member allowed out of bond, and one 500 gr. bottle wine/spirits for whole time of vessel's stay in port.

IDENTIFICATION CARDS: Shore passes issued by Port Authorities.

CONSULS:

Finland	tel. 284860 and 283860
Norway	tel. 282667
Netherlands	tel. 282615
Belgium	tel. 282520 and 282296
Sweden	tel. 282476 and 285859
Denmark	tel. 282253
France	tel. 282347
Germany	tel. 282266 and 285400

REPAIRS: Minor repairs available by machine shops in town of Iraklion. No facilities for deck repairs.

AIRPORT: Distance 5 km. Now an international airport with numerous flights.

TIME: GMT plus 2 hours, permanent.

HOLIDAYS: Usual Greek holidays plus local holidays of 25th August and 11th November. Cargo work can be arranged on holidays subject additional costs.

POLICE/AMBULANCE/FIRE: Police, tel. 282241, 282430, 282316; Ambulance, tel, 282894, 282638; Fire, tel. 283555, 282333.

AUTHORITY: Port Fund of Iraklion.

ISTHMIA, Corinth Canal (incl. Sousakion): 37.55 N. 23.00 E.

DOCUMENTS:

Port Authorities

Crew List.
Passenger List.
Ship's Certificates.
Health Certificates.
Certificate of Anchorage Dues.

Customs

Customs papers and declarations.
Cargo Papers.
List of Stores and Provisions.
List of Crew's Personal Effects.

PILOTAGE: There are 16 Pilots for the Corinth Canal. Telegraphic address of Canal is "Corinth Canal", tel. 0741-24452, telex: 232164 DICO GR. Master of vessel must give at least 4 hours notice of ETA in order to avoid delay. For Pilot signals, etc., see article 7 of the New Company of the Corinth Canal "Regulation of Navigation and Tonnage".

ANCHORAGES: Open anchorage in Isthmia Bay.

RESTRICTIONS: Corinth Canal closed every Tuesday from 0600 hrs. to 2000 hrs. in order for maintenance work to be effected.

MAX. SIZE: The max. draft of ships negotiating the Canal, in relation to their width, is defined as below, assuming normal water level and normal weather conditions.

Width	*Maximum draft*
16.0 to 16.5 m.	6.2 m.
15.5 to 16.0 m.	6.2 m.
15.0 to 15.5 m.	6.6 m.
14.5 to 15.0 m.	6.8 m.
14.0 to 14.5 m.	7.0 m.

The max. draft for vessels of less than 14.0 m. width is 7.2 m. The max. width must not anyhow exceed 18.3 m. (60 ft.).

Special instances will be examined by the Master and the Canal Service in collaboration.

HEALTH: Pratique effected by health department of the Port Authority assisted by temporarily engaged doctor. In cases of suspected contagious disease vessel will be held under quarantine and if necessary fumigation will be conducted at Piraeus.

VHF: Corinth Canal Pilots on VHF Channel 11.

TUGS: Join vessel near Canal entrance at Isthmia and Possidonia. Ship's lines always used.

BERTHING: In Sousakion at private factory pier. No berths at Isthmia.

MEDICAL: Agent should be advised in advance of number of crew needing medical assistance, also information of any vaccination required.

FRESH WATER: Not available either at Sousakion or in the Canal.

FUEL: No fuel available at Corinth.

CUSTOMS ALLOWANCES: Each crew member allowed 200 cigarettes out bond and 1 bottle wine/spirits.

CARGO GEAR: Loading/discharging by ship's gear.

AIRPORT: 100 km. distance.

TIME: GMT plus 2 hours, permanent.

POLICE/FIRE/AMBULANCE: Police, tel. 22129.

DELAYS: Possible delay up to 1.5 hours in transitting Canal if another vessel already transitting canal from opposite direction.

SHIPMASTER'S REPORT: 1977

Vessel: 5,700 g.r.t., 9,200 d.w.t., Summer draft 24 ft. 07 in., LOA 409 ft. 05 in.

Documents: No special entry papers required and if anchoring to await the berth Customs and Immigration will usually board at anchorage.

Port of Corinth: The port has no VHF communications but messages can be passed through the Corinth Canal Pilot Station on Channel 11. Pilot will then telephone Agents.

Anchoring off the port in the case of delay is possible but cannot be described as safe due to the close proximity of land or shoal water. Holding ground, however, is good. This vessel anchored with Corinth Breakwater light bearing 248° in about 16 fathoms of water using 6 shackles of cable. Vessel rode out a force 7/8 gale from the North without dragging but with the cable fully stretched the bridge was only 2.3 cables from the breakwater and too close for comfort. A second anchorage was used with the breakwater light bearing 232° and the ship's bridge 5.6 cables from the breakwater in about 18 fathoms of water. Again with the cable fully stretched this gave a clearance off the nearest shoal water of 3 cables, 6 shackles of cable being used. This is a slightly more comfortable position and again gale force winds were experienced without dragging. The vessel did drag in this position but not until winds were gusting to force 9 as a prelude to very severe storm conditions in which no anchorage of this nature would have been satisfactory. The bottom is stiff grey mud and care must be taken when anchoring not to impede the traffic approaching the canal entrance. Anchoring further to the Westward in order to increase the clearance from shoal water, etc., is not recommended as in addition to the much greater depth of water the holding ground deteriorates, becoming crumbly mud.

A boat can be provided by the Agents for use as a liberty boat when at anchor and there is no objection on the part of the Authorities to using the ship's boats for runs ashore.

A first examination of the chart (B.A. Chart No. 1600) will not indicate anywhere to berth a vessel of this size. However, dredging work has been carried out and the berth is on the S.E. side of the breakwater where there is room for a vessel of this size and for one small coaster in addition. The breakwater itself is slightly different in shape from that shown on the chart and building and dredging work are still in progress at its seaward end. The green flashing buoy shown on the chart is no longer in position but a light of similar characteristics is now shown from a structure on the breakwater end.

Maximum draft for berthing is 6.7 m. (22 ft.) and on this vessel's first call soundings between ship and quay when alongside indicated depths of between 24 and 26 ft., depths outside the ship being some 5 ft. greater.

A Pilot is available, and is of great assistance. He is an experienced shipmaster and has very good local knowledge. A small tug is presently employed shifting barges and cranes employed in harbour works and it is sometimes possible to use his services. This is dependent upon the tugmaster. He is particularly useful when undocking to hold the stern off the quay.

Initial approach to the berth is bow on until the starboard anchor has been let go which should be done at such a distance from the berth so as to allow 4 shackles of cable in the water when the vessel is alongside. Vessel is gradually swung on the anchor, long head and stern ropes are run by boat, and vessel is so brought alongside port side to.

The undocking operation is straightforward, the bow being pulled off the quay by means of the anchor. The only danger is that of the propeller coming into contact with the quay and here the services of the tug are valuable.

Docking and undocking in strong winds from any direction would be hazardous and in many cases impossible. Docking is always done in daylight and I do not recommend undocking at night either although this would be possible under calm conditions. An added disadvantage of undocking in evening time would be that the vessel would arrive at the Narrows ferry crossing in dark hours.

The Pilot agrees with this appraisal of the situation.

The quay itself is smooth concrete usually well fendered with rubber tyres and with good mooring posts. Vessel should be well secured as strong winds from a Northerly direction are experienced particularly in Winter.

There is a concrete apron some 3 metres wide alongside the ship and clear of this a considerable unsurfaced area on to which cargo is discharged. This area is very wet and dirty during rain.

Fresh water is available but 7 lengths of ship's hose are necessary to reach the outlet. A permanent water main is in the process of being laid alongside the ship.

Cargo operation: This is controlled by the 'Carton Pack' plant manager, there being no stevedore as such. Ship's gear is used and normally 3 gangs of stevedores.

The working day is from 0800 to 1700 hrs., evening overtime being unusual. Seven day working is possible but all overtime is subject to the plant working to receive the cargo.

Stevedores can discharge rapidly from the ship lifting 2 rolls of linerboard at a time but there are frequent stoppages due to congestion on the quay which reduces the overall discharge rate to about 25–27 rolls per gang hour. Although head and end clamps are provided by Charterers (carried on board) stevedores refuse to use these and all discharge is by rope sling. Rolls are landed on wooden platforms (timber supplied by Charterers) and then rolled by hand clear of the concrete apron. Two or possibly 3 fork lifts are used to load rolls from here onto lorries for transportation to the plant a short distance away.

Damage rate is high due to rolls becoming wet and dirty on the unsurfaced quay with bands being broken and outer layers torn. Further damage is caused by the fork lifts when loading the lorries.

No improvement in discharging conditions can be seen unless the quay is surfaced with proper drainage and unless Charterers are prepared to provide clamp machines for handling the rolls on the quay. Care should be taken when signing final outturn report as of course damages are written up to make it appear that they took place before discharge.

Weyerhaeuser are fully conversant with the situation.

Agents: Situated in Piraeus which is some 90 kms. away. They use sub-Agents in Corinth.

The sub-Agents are not geared for handling a foreign-going ship. To obtain action on major items it is best to telephone Agent in Piraeus direct.

Bunkers: Basically not available but diesel oil has been taken, having been brought from Piraeus by road tanker and with ten days ordering notice.

Repairs: These cannot be carried out except by bringing repairers from Piraeus at very high cost.

Lloyds' surveyor is obtainable from Piraeus, this being best arranged directly by the ship.

Provisions: These can be obtained locally and are of acceptable quality. There is no ship chandler as such and the system is for the Catering Officer to visit various suppliers with the Agents, pick his purchases and then leave Agents to collect and deliver to the ship.

Shore Leave: Passes are required and are renewed each visit. They should be available for return to Immigration on departure.

Corinth Canal: This vessel passed through the canal on the 4th November, 1977 on a draft of 3.6 m. forward and 4.74 m. aft.

Application should be made in advance to the Canal Authority quoting the minimum draft obtainable.

The transit presented no difficulties.

AUTHORITY: Port Authority of Isthmia.

ITEA: 38.26 N. 22.25 E.

DOCUMENTS:

6 Crew Lists.
4 Passenger Lists.
Cargo Manifest.
Bills of Lading.
2 Lists of Ship's Stores and Spares.
Health Declaration.
Ship's Certificates.

PILOTAGE: Vessel should advise ETA at least 24 hours before arrival through the telegraphic office of Itea. Pilots are called with the assistance of the Port Authority on VHF Channel 12.

Pilot boards 1 mile S.E. jetty lighthouse. Pilot boat painted black with white deckhouse, the word "Pilot" is painted in white letters on both sides. On the bow is painted "PY21".

In bad weather vessel should enter harbour without Pilot and anchor using both anchors.

ANCHORAGE: Available inside the harbour and in Aggolis Gulf. Safe anchorage in the vicinity of the jetty head in depths of 8–10 m.

RESTRICTIONS: Vessel may enter harbour day or night. Harbour anchorage suitable for vessels up to 60 ft. draft.

MAX. SIZE: Max. LOA 130 m., Max. draft 6.0 m. Also see "Berthing."

HEALTH: Pratique is given on arrival by the port medical officer.

RADIO: Contact possible through Hellas coastal radio.

VHF: Contact with Port Authority and Pilot made on Channel 12.

TUGS: None available.

BERTHING: One pier. East side can accommodate one vessel with max. LOA 83 m. and draft 6.0 m. West side can accommodate one vessel max. LOA 130 m. and draft 6.0 m.

Parnassos: Bauxite loading facility. Max. size 30,000 d.w.t. Loading by conveyor.

Elefsinos: Bauxite loading facility. Max. size 10,000 d.w.t. with tide of 25–60 cm. Loading by conveyor.

STEVEDORES: Gangs should be ordered in advance by Agents on basis of Masters ETA. Loading and discharging is effected by ship's gear.

MEDICAL: 24 hours notice preferred if any medical requirements. Vaccination can be arranged within 24 hours. Hospital in Amfissa, 13 km. from the port.

TANKERS: There are no special installations for loading/discharging tankers.

FIRE PRECAUTIONS: There are no specific precautions.

GANGWAY/DECK WATCHMEN: Required, Master to appoint crew member.

CARGO GEAR: Loading/unloading by ship's gear.

AIRPORT: Nearest airport at Athens, distance approximately 210 km.

DENSITY: 1025.

FRESH WATER: Not available.

FUEL: Not available.

DEVELOPMENTS: Extension and widening of the existing breakwater and the construction of a second breakwater.

HATCHES: Hatches are opened and closed by ship's crew.

CUSTOMS ALLOWANCES: 200 cigarettes and 1 opened bottle of alcohol is allowed each man.

IDENTIFICATION CARDS: Needed for crew men going ashore.

CONSULS: No local representation.

REPAIRS: No facilities for repairs.

REPATRIATION: Can be arranged.

TIME: GMT plus 2 hours (November–April). GMT plus 3 hours (May–October). The Greek government defines the date of time change every year.

HOLIDAYS: Cargo work can be effected on all holidays on payment of overtime.

Official Holidays: January 1st; January 6th; Holy Monday; First Monday of Lent; Good Friday; Easter Sunday; Monday after Easter; 1st May; Ascension Day; 6th August; (Local Holy Day); 15th August; 28th October; 25th December; 26th December; 25th March; 6th December.

POLICE/AMBULANCE/FIRE: Police: Tel. 32222; Ambulance: Tel. 28400; Fire: Tel. 28199.

TELEPHONES: Not available.

REGULATIONS: There are general and specific regulations for the Port of Itea.

DELAYS: Delays in loading can seldom be expected.

AUTHORITY: Port Authority of Itea.

KALAMATA: 37.02 N. 22.07 E. (See Plan Book)

PORT LIMITS: The seaward boundaries of the port within which a vessel is considered to be an "arrived vessel" and (subject to Charter-Party Terms) laytime commences to count are 0.5 mile from the breakwater red light, where Pilot boards.

DOCUMENTS:

3 Crew Lists, plus 3 additional for passenger vessels.
3 Crew personal effects lists, plus 3 additional for passenger vessels.
3 Deck, Engine and Steward department store lists.
1 Cargo Manifest.
All ship's official documents.
2 Crew vaccination lists plus, 2 additional for passenger vessels.
1 Health declaration.

The above are not necessary for incoming vessels from Greek ports.

PILOTAGE: Notice of ETA required 48 hours before arrival. There is VHF listening and transmitting on Channel 12 on continuous basis. Range 30 miles.

Pilot boards 0.5 miles East of the breakwater red light, weather permitting.

ANCHORAGE: Vessels awaiting Pilot may anchor 0.75 miles East of the breakwater red light.

MAX. SIZE: Vessels up to 29 ft. draft may enter harbour, for berthing alongside.

HEALTH: Port Health doctor boards vessel on arrival or alongside the berth. Master required to produce Fumigation Certificate, vaccination list and Declaration of Health. Health visit not necessary for vessels coming from a Greek port or West European ports.

RADIO: Athens Radio, call sign SVA, on R/T which covers the Kalamata region also R/T stations of Patra Kerkyra and Hiraklion.

TUGS: No tugs available.

BERTHING: Agents require details of vessel's draft in advance to get berthing permission from Harbour Authorities. Total length of piers - 1,200 m. Covered storage: 3,500 sq.m. Open storage: 22,000 sq.m.

SPECIALISED CARGO HANDLING FACILITIES: There is a silo for grain. 2 electric pumps for liquids; 1 mobile crane, lifting capacity 40 tons; 2 forklifts.

STEVEDORES: Number of gangs required to be advised Agent in good time.

MEDICAL: Doctors and medical assistance available. Also private and public hospitals.

FRESH WATER: Available in any quantity at berths. No barges.

FUEL: Can only be supplied by road tankers – subject to advance notice.

DENSITY: 1018.

WATCHMEN: If required can be arranged from shore.

HATCHES: Can be opened and closed either by crew or by stevedores subject to regulation payments for this work.

CUSTOMS ALLOWANCES: 200 cigarettes and 1 bottle of spirits per man.

CONSULS: France, Finland and Sweden.

REPAIRS: Minor repairs can be effected in shore machine shops. No dry docks.

REPATRIATION: Can be arranged by car, train or air.

AIRPORT: Situated 6 miles away. Flights to Athens 1/2 times a day.

TIME: GMT plus 2 hours in Winter. GMT plus 3 hours in Summer (1st March–30th September).
HOLIDAYS: Additional local holidays are Ascension Day and St. Dionysio's Day.
POLICE/FIRE/AMBULANCE: Police tel. 22218; Fire tel. 28273/4; Ambulance tel. 25555/27420; Tourist Police tel. 23187. District Initial Number 0721.
SHORE LEAVE: Allowed. Shore passes issued by Harbour Authorities.
DEVELOPMENTS: In the near future a Free Zone will exist. A mobile crane with sufficient capacity to handle loading/unloading of containers is to be purchased. Additional open storage to be available.
AUTHORITY: Kalamata Harbour Master's Office.

KALI LIMENES, Crete: 34.56 N. 24.50 E.

DOCUMENTS: Vessels may arrive for bunkering without obtaining free pratique. However, if pratique is effected, vessels should have ship's papers ready for inspection, also 4 Crew Lists, 4 Passenger Lists, Cargo Manifest and a List of Stores and Provisions.
PILOTAGE: 1 private Pilot employed by the bunkering company SEKA who undertakes pilotage for vessels calling for bunkers. Pilot boat is a small boat equipped with signal lamp. Pilot boards about 5 miles East of Aghios Pavlos (St. Paul) Islet. Vessels awaiting Pilot may anchor 15 miles East of Aghios Pavlos Islet.
ANCHORAGES: (See "Pilotage") Vessels may anchor in area between Aghios Pavlos Islet and Mavronissi, which is a safe anchorage.
MAX. SIZE: Vessels in ballast of up to 80,000 d.w.t. and max. draft 14 m. can enter port.
HEALTH: Vessels arriving from foreign ports wishing to obtain free pratique should cable Agents to arrange for boarding of Health Inspector. Free pratique automatic if arriving from another Greek port.
TUGS: There is 1 tug, but it is seldom used.
MEDICAL: Agent should be advised well in advance if medical assistance required. There are no hospitals or other local facilities and doctor has to be called from nearest town.
TANKERS: 3 berths North of Aghios Pavlos Islet, max. draft 14 m.
FRESH WATER: Unlimited supplies available.
FUEL: Unlimited supplies available subject adequate advance notice. Supplied by Mobil only.
FIRE PRECAUTIONS: Portable foam-fire extinguishers.
CUSTOMS ALLOWANCES: 200 cigarettes permitted to each crew member to be held out of bond, and 1 bottle of wine/spirits.
CONSULS: None.
REPAIRS: None.
AIRPORT: At Iraklion, 75 km. distant.
TIME: GMT plus 2 hours. GMT plus 3 hours in Summer.
SHORE LEAVE: Permitted if free pratique requested and granted.
SHIPMASTER'S REPORT: 1976

Pilotage: Pilot boards about 1 mile South of Aghios Pavlos.

Anchorage: Half a mile E.N.E. of Mavronissi, depth of water 30 ft.

Max. Size: According to Pilot; 100,000 d.w.t. in ballast and max. draft 44 ft.

Pumping Rate: Fuel – 1,000 t.p.h., diesel – 200 t.p.h.

ETA: Send ETA 48 hours in advance through Radio Athens. The bunker station can be reached direct on 2320 kHz.

AUTHORITY: Port Authority Station.

KATAKOLON: 37.39 N. 21.20 E. (See Plan Book)

DOCUMENTS:
Maritime Health Declaration.
Usual Ship's Certificates.
3 Crew Lists.
3 Passenger Lists.
2 Lists of Stores and Provisions.
2 Lists of Crew's Personal Effects.
PILOTAGE: Not compulsory. Port has 1 private Pilot whom vessel may use provided sufficient advance notice passed through Agent.
ANCHORAGES: Vessels can anchor at a distance of 2 cables from the head of the breakwater (bearing 300°). Safe anchorage for vessels of up to 30 ft. draft between positions 37° 40′ N. 21° 19′ E. and 37° 40′ N. 21° 20′ E.
MAX. SIZE: Max. safe draft 24 ft. Depth inside port 8 m. Length of pier 204 m.
STEVEDORES: No advance notice required. No shore facilities. Vessels load/discharge with own gear.
MEDICAL: No medical assistance in Katakolon, but facilities exist at the town of Pyrgos 13 kms. distant.
FUEL: Not available ex-berth, but can be delivered by tank truck from Patras or Kalamata.
FRESH WATER: Available. Capacity 20 cu. m. per hour.
HATCHES: Usually opened and closed by crew but this work can be carried out by stevedores subject consent of Port Authority. Cost as agreed between Master and stevedores.
IDENTIFICATION CARDS: Passes issued by Port Authority.
CONSULS: None.
REPAIRS: Not available in Katakolon. Small quantities of engine spares available in Pyrgos.
AIRPORT: Andravis Airport 26 kms. distant. Flights to Athens twice weekly.
TIME: GMT plus 2 hours. GMT plus 3 hours in Summer.
HOLIDAYS: Usual Greek holidays plus local holidays of 6th December and 17th December.
POLICE/AMBULANCE/FIRE: Police and Immigration, tel. 41202; Fire brigade (Pyrgos), tel. 22633; Ambulance (Pyrgos), tel. 22344.
TELEPHONES: No facilities for placing on board.
SHORE LEAVE: Permitted.
AUTHORITY: Port Authority of Katakolon.

KAVALLA: 40.55 N. 24.25 E.

DOCUMENTS:
5 Crew Lists.
2 Lists of Foreign Exchange.
4 Passenger Lists.
2 Cargo Manifests.
2 Lists of Crew Personal Effects.
Copies of Bills of Lading and usual Ship's Certificates.
PILOTAGE: 24 hours notice of ETA to be passed to Agents or direct to Port Authorities. Vessels requiring Pilot should indicate with light and sound signals code letter "G" on arrival 5 miles from Kavalla lighthouse. Pilot boat is a tug 9 m. length. Pilot usually boards about 0.5 mile from breakwater light. In event bad weather, Pilot does not board, and vessel may take refuge N.W. of Cape Prinos at the head of Thasos Island. If strong South or S.W. winds prevailing, vessels recommended take refuge Eleftheron Bay. Vessels awaiting a Pilot may anchor 0.5 mile South of Kavalla lighthouse.
ANCHORAGE: 0.5 to 2 miles South of Kavalla lighthouse, depth 30 to 40 m. Bottom sand and mud.
MAX. SIZE: Max. length 150 m. with proportionate breadth. Max. draft 27 ft. Tidal range 2 ft.
HEALTH: Doctor boards vessel with Port Officer. Maritime Declaration of Health and Deratisation Certificate required. In case suspected disease or fever on board, Master should radio Port Authorities in advance. Pratique is automatic if arriving from another Greek port.
RADIO: No local radio station. Cables may be routed through Athinai Radio.
MEDICAL: Advance notice of medical requirements necessary. General hospital in Kavalla and numerous private clinics.
DENSITY: 1025.
FRESH WATER: Available at berth.
FUEL: None.
HATCHES: Opened and closed by crew.
CARGO GEAR: Vessel should have cargo gear ready on arrival in order to avoid delay.
CONSULS:

France	Tel. 3163	Netherlands	Tel. 3265
Finland	Tel. 3467	Sweden	Tel. 3669

REPAIRS: Minor repairs available.
AIRPORT: Distance 7 km. One flight daily to Athens.
TIME: GMT plus 2 hours. GMT plus 3 hours in Summer.
HOLIDAYS: Standard Greek holidays. Local holiday 29th June.
POLICE/AMBULANCE/FIRE: Police, Tel. 3291; Fire, Tel. 1999.
AUTHORITY: Kavalla Port Authority.

KYMASSI: 38.49 N. 23.30 E. (See Plan Book)

SHIPMASTER'S REPORT: March 1979.

The port is on the Island of Nissos Evvoia. Vessel loaded a cargo of bulk magnesite ore (deadburned).
DOCUMENTS: Crew List. Usual documents for Greece. However, as the ship had already cleared into Greece at Corinth, the Bond had to remain sealed from that port to Kymassi. Leaving Corinth a photo-stat copy of all papers handed in at that port was placed on board duly stamped by Customs for production at Kymassi. Register and usual certificates were taken by Agent to authorities and returned with Pilot plus clearance before sailing.
PILOTAGE: Pilot boards about 5 cables off the berth. He gave advance advice about the time the other ship was to sail and when he expected to board.
APPROACHES: Although no large scale British Admiralty Chart of the area or port on board, the approach was made without any difficulty. The 100 fathom line runs approximately 1 to 1.5 miles off the land. The ore loading berth is on the South side of the Bay with fairly steep to land on the Northern side. As ship has to swing to lie head out to sea, it is better according to the Pilot to approach keeping towards the North side of the Bay. Anchoring is not advised unless very good weather due to depth of water and poor holding ground. The Pilot, via VHF, advised us to lie off as the berth was occupied when we arrived. The ship berthed was due to sail around 1200 hrs., we arriving at 0900 hrs.
RADIO: ETA and other relevant information was sent by radio to the Sub-Charterer's Agents, Financial Mining & Industrial Corp. in Athens. Cable address 'EPICHIRIS – ATHENS'. There were no problems clearing messages.

Approaching Kymassi there was no response on VHF until the ship was within 4 miles of the port, when the Pilot answered on Channel 16 and we worked on Channel 12.

BERTHING: Ship heads towards the loading jetty, a high concrete structure of "Y" shape with the ship berthing against the two arms. Both these are well fendered with numerous rubber tyres. On approach the port anchor is let go and as the ship snubs round to port an off-shore mooring line is run by the boat aft to the off-shore mooring buoy. This buoy has a slip toggle arrangement to which the ship's line is made fast. The next line run is the inshore after line which is taken to a mooring buoy inside the line of the berth. A head rope was then run to the pier and to a strong bollard.

The anchor cable was slacked and ship hove alongside by the head and stern ropes, the offshore stern rope being slacked as required. Back-spring was led to a bollard on the jetty as was the spring from aft. A further headrope was run to the bollard on the pier and aft a second rope to the inshore buoy plus a bight to a bollard on the pier.

LOADING: Carried out via a sophisticated conveyor system, the main tower of which is on a curved track, thus allowing flexibility in loading either forward of aft in a hatch. It is necessary to shift ship to load each hatch.

Two grades of magnesite were loaded. One grade in No. 2 hatch, (first loaded), then the other grade between No. 1 and No. 3 hatches. When No. 2 was completed it was necessary to warp the ship astern to load No. 1 and later warp ahead to load No. 3 hatch.

Loading commenced at 1540 hrs. on the 17th and was completed at 0650 hrs. on the 18th. Allowing for shift ship plus change of gangs ashore it averaged out at a loading rate of 556 tonnes per hour.

The loader has an adjustable spout which ensures that the cargo can be readily trimmed to ensure a good flat stow on completion of space without any need for trimmers. The loader is operated with regard to the spout and slewing from a control box situated on the draw-bridge section of the loader. A very dusty cargo.

GENERAL: Whilst the vessel was alongside a small ship berthed using a Mediterranean moor, two anchors down and stern moored to a buoy. This berth is further inside the Bay. The vessel loaded her cargo from lighters.

Agents: The Agent from the Financial, Mining and Industrial Corp. was most helpful and attentive to his duties. He appears to work long hours as he also supervises the loading and works continuously. He also attends to advising when it is necessary to shift ship.

LAVRION: 37.42 N. 24.04 E.

DOCUMENTS:
Maritime Declaration of Health with Crew's Vaccination Cards.
Cargo Manifests.
4 Crew Lists.

PILOTAGE: Address of Pilot station, Port Authority of Lavrion. Pilot boat is a motor launch 8 m. long, black hull with white stripe flying code flag "H". Vessels requiring Pilot should flash or sound letter "G". Pilot boards about half a mile from Green Light (AK. Ergastiria). In event of bad weather, boarding position is inside the buoy. Vessels awaiting Pilot should anchor close to the Green Light depending on vessel's size.
ANCHORAGE: See "Pilotage".
MAX. SIZE: Max. length 130 m. (approx.), max. draft 21 ft.
HEALTH: Health Officer and Port Officer board vessel on arrival. Maritime Declaration of Health should be submitted to Health Officer who examines any sick crew. Free pratique is not automatic.
BERTHING: Harbour open to S.E. winds, but otherwise sheltered and safe. There are two quays: one 330 ft. length, depth alongside 20 ft., and one of 260 ft. length, depth alongside 13 ft.

Mining company owns bridge elevator with capacity of 700 tons per day.
STEVEDORES: Advance notice required in order to arrange gangs. No shore cargo equipment, and cargo operations effected by ship's gear.
MEDICAL: Medical assistance available.
FRESH WATER: Can be supplied to vessels alongside berth from tanker trucks.
FUEL: Only small quantities available as existing fuel tank only 10 tons capacity. Can be supplied by tank trucks from Piraeus.
HATCHES: Opened and closed by crew.
CUSTOMS ALLOWANCES: 200 cigarettes per crew member allowed out of bond.
REPAIRS: Minor repairs only.
AIRPORT: Athens Airport, distance 45 km.
TIME: GMT plus 2 hours. GMT plus 3 hours in Summer.
POLICE/AMBULANCE/FIRE: Police, tel. 25218; Ambulance, tel. 25340; Fire, tel. 25249.
HOLIDAYS: Local holiday 26th July.
AUTHORITY: Port Authority of Lavrion.

MEGARA: 38.00 N. 23.20 E. (See Plan Book)

Pier owned by Hellenic Refinery. Berth depth 42 ft. 6 in. at S.W. end, 44 ft. at N.E. end. 46–50 ft. available 1 m. from the berth. With suitable fendering berth can accommodate vessels up to 85,000 d.w.t. 3 tugs required for berthing/unberthing. Tide about 1 ft. plus or minus depending wind direction.
Also see "Piraeus".

SHIPMASTER'S REPORT: Vessel 255,090 d.w.t. Discharged part cargo of approximately 115,000 tons. (See Shipmaster's Plan).
Pilot boarded from a tug in position 1 mile South of Pakhi Island. Forward moorings consisted of 2 "first line ashore" 9 in. nylons in a long drift to the shore. This distance was estimated at about 300 m. 3×10 in. synthetic hawsers to buoys (2 to 1st buoy and 1 to 2nd buoy) with drifts of only 100 to 150 ft., the Pilot did not appear to have a lot of faith in the holding ability of the buoys. 3 × 5 in. wires led to the concrete jetty, and the 2 which were true backsprings, were very good with normal drift, but the wire from the after end of the foc's'le head to the stem of the jetty was very long and required a tug boat to carry it out as the boatmen could not handle it at the length. The starboard anchor, which was used for berthing was left out at 4 shackles.

Aft, the mooring consisted of 2 "first line ashore" 9 in. nylons in a long drift, exactly the same as forward. Then 2 × 10 in. synthetics to a buoy just clear of the quarter and 4 × 5 in. wires to the jetty. The 3 shown to the stem of the jetty all had to be carried out by a tug boat as forward.

My distrust of this berth is because of the lack of any wire breast lines and the main reliance being placed on the 4 nylons (two each end) which can stretch considerably if the breeze were to blow strongly offshore. There was only about 44 ft. of water alongside giving us a high freeboard.

At this berth it is necessary to use ship's gear to hold discharge hoses, 3 × 8 in. hoses being used.

According to the Pilot, it is preferable to use only ropes for mooring as they can be easily doubled up for length. His suggestion was that we should carry about 14 mooring ropes, with which I disagreed. He also advised that large tankers always berthed port side to, and I presume this is for V.L.C.C.'s as the next ship on berth came in starboard side alongside. She was about 50,000 tons.

With this ship there were 7 tugs in attendance berthing and 8 unberthing; at the most, 3 of them have sufficient power, the others were very weak when assisting us.

MILOS ISLAND: (Adamas, Voudia Bay) (See Plan Book)

DOCUMENTS:
4 Crew Lists.
3 Passenger Lists.
2 Provisions Lists.
2 Personal Effects Lists.
Vaccination Certificates.
Deratisation Certificate.
Manifest (in duplicate)
Certificate of Registry.
Load-line Certificate.
Safety Equipment Certificate.
Radio-telegraphy Certificate.
Certificate of Measurement.

PILOTAGE: No Pilot station. Vessels requiring a Pilot should sound 3 blasts on ship's siren. Pilot boards from small motor-boat. Agents may contact Pilot in advance of requirement by telephone.
ANCHORAGE: Safe anchorage in all parts of Milos Bay, where Adamas port is situated. Main anchorage in Milos Bay is on East side of Bombardos Cape, which has a lighthouse showing a fixed green light.
MAX. SIZE: Any size vessel may enter Adamas Port but berthing alongside is restricted to vessels of 16 ft. draft.

Ore loading berth at Voudia Bay (Privately owned by Messrs. Silver and Baryte Ore Mining Co.). No facilities for tankers. Ore loading Berth at Kanaba (Privately owned by Micobar Ore Mining Co.).
HEALTH: Authorities require 24 hours notice of arrival in order to grant free pratique to vessels arriving from a non-infectious country. Free pratique cannot be granted at Milos to vessels having disease on board nor to those arriving from an infected area. Such vessels are required to proceed to a main Greek port (Piraeus, Syros, etc.) to obtain health clearance.
RADIO: Athens Radio and Heraklion Radio.
TUGS: Not available.
STEVEDORES: Loading/discharging at Adamas is by means of ship's gear. Bagged cargo loading rate is 250 t.p.h. At Voudia Bay and Kanaba, bulk ore is loaded at a rate of 500 to 800 t.p.h. (Conveyor Belt).
MEDICAL: No hospitals, nor private clinics available. There are 3 doctors and 1 dentist resident on the Island. There is an airport on the Island with regular services to Athens. Also in case of illness, the possibility of an emergency service.
FRESH WATER: Available to vessels alongside using ship's hoses. Delivery alongside up to 30 cu. m. in 12 hours.
FUEL: Small quantities lubricants available.
DEVELOPMENTS: Intentions to extend existing wharf up to 70 m. with depth increases up to 30 ft. (This development has been delayed for economic reasons).
OPENING/CLOSING HATCHES: Opened and closed by crew.
CUSTOMS ALLOWANCES: 200 cigarettes and 1 opened bottle of spirits per person.
REPAIRS: Minor oxy-acetylene repairs available.
TIME: GMT plus 2 hours. GMT plus 3 hours in Summer.
HOLIDAYS: Sundays and customary holidays. Cargo work can be arranged on these days at 75% increase on tariff rates.
TELEPHONES: Police 21-204; Port Authority 41-607.
SHORE LEAVE: Permitted.
DELAYS: Strong Southerly winds may delay berthing, or force vessel to leave loading berth at Voudia Bay.

SHIPMASTER'S REPORT No. 1: *Voudia Bay:* Fresh water is available using vessels own hoses. Limited quantity of provisions are available. Hire of polypropylene ropes of 150 m. length is possible.

It is advisable to close ventilators before loading due to excessive dust.

Pilot remains on board during loading.
Cargo: Perlite.
Loading rate for bulk: 250 t.p.h.
Loading rate for bags: 18–20 t.p.h.

SHIPMASTERS REPORT No. 2: *Voudia Bay and Milos Island:* Situated on the N.E. corner of the island of Milos. When approaching from the S.E. the most prominent features are the scarred terrain, the factory building and the silo which is situated just above the berth. The loading gantry has both fixed red and white lights on it and is conspicuous.

Anchorage: The vessel anchored in a position with the loader bearing 302° T. distance 7.5 cables in 48.5 m. of water using 5 shackles of cable the holding appeared to be good. The recommended anchorage is in a position with the loader bearing 328° distance 5 cables where holding is reported to be good. There was another vessel in that position at the time.

Caution: This anchorage is not recommended in strong South to S.E. winds due to the seas that build up in the Bay. Vessels are recommended to go to the North of Pilonisi Island and anchor in a position N.W. of the North West point, a distance of not less than cables. This island is now joined to the main island by rubble from the factory, this is not shown on the Chart (1832).

Method of Berthing: (See Plans). Approach to the berth is made heading in a N.W.'ly direction, keeping the Northern most buoy (A) close to the starboard side and when the bow is passed about a third of the ship's length, the starboard anchor is let go and let run until about 4 shackles on deck, then it is checked, in the meantime a boat will take a breastrope from for'd, run from the port shoulder lead (1). Once this is ashore and the vessel begins to cant to starboard, the bow is worked into position by heaving on the breastrope and slacking the cable until there is about 6 shackles on the latter. Meanwhile, a line is run from the starboard quarter (2) to buoy (B). A word of caution here, the berth is designed to take vessels up to 23,000 tons, so for a small vessel it will be necessary to have 2 ropes joined together for moorings (2), (4) and (5). The next line sent away is one from the Port Quarter to ashore as a breastrope (3), the stern is then brought into position in a similar manner to the bow. As the prevailing wind is from ahead usually, the next rope sent away is the head line (4) and finally the stern line (5). The latter two are used for shifting the vessel under the loader. Directly under the loading gantry, there is a dolphin arrangement to keep the vessel off the cliff, but on completion of mooring, the vessel should end up about 6 to 10 ft. off this.

Caution: In strong South to S.E. winds, the berth becomes dangerous and vessels have to leave and go to anchor and it is often necessary to leave the ropes on the buoys etc. as it is not possible to let them go. It is also advisable to retain some ballast on board for berthing.

There are 2 Pilots, both speaking English, the younger, an ex-Chief Officer has the better command of English and was the source of a lot of this information.

On leaving the berth, the last rope to be let go is (2) and with a smaller vessel, this can safely let go while weighing anchor. Vessel will then proceed to another anchorage close to, to secure, obtain clearance and clean up.

Loading Procedure: Loading is done by a chute and at an approximate rate of 300 tonnes per hour. The cargo is very dusty and everything should be securely battened down and it is strongly advisable to wear goggles and protective masks on deck as the dust is choking and if it gets in the eyes, they should not be rubbed as it is abrasive and can cause permanent damage. Eyes should be washed out. The ship will advise what weight she can take, and as the weighing procedure ashore is liable to break down after the first 500 tonnes, vessel is loaded according to draft, which has to be carefully checked, as when stipulating amounts required per hatch, they will not necessarily keep to this unless told. A boat is available for checking the draft, 1 blast on the whistle will summon it. Only method of getting ashore is by boat, so it is necessary to have the starboard gangway down. Both foreman and boatman have a fair knowledge of English, but foreman does not come aboard but stays on the loader, so it is necessary to shout instructions etc. The foreman will advise on shifting for position required, this is done with the aid of frequent blasts on a pocket whistle. Only one man comes aboard and that is to tend the chute.

There appears to be a continual short swell which makes draft reading a little difficult.

Entry and Clearance: Agent, Doctor, Customs and Harbour Master boarded the vessel at anchor and entered her there. Forms on board were not acceptable, but they transferred them to their own. I understand that the only acceptable forms are the standard IMCO forms, and if there are any of these on board they should be used.

Forms required:
2 Crew Declarations.
3 Crew Lists.
2 Bonded Stores List.
2 Stores Lists.
1 Vaccination list (Including Cholera).

There are various other forms to sign, but these are prepared by the Agent. The Health Declaration is made out by the doctor in his book. The Agent, who is from the Mining Company, spoke very good English.

Weather: Northerly winds predominate during the Summer and can become quite strong during September, mainly from midnight to noon.
AUTHORITY: Port Authority of Milos.

MITYLENE (incl. Geras Bay and Pamfyllon): 39.06 N. 26.35 E.

DOCUMENTS:
4 Crew Lists.
2 Cargo Manifests.
2 Passenger Lists.
2 Stores Lists.
PILOTAGE: No official Pilot, but if required the services of 2 experienced Mercantile Marine officers having knowledge of the port may be used.
ANCHORAGE: Before town of Mitylene, in depths of about 18 m., extreme East of Kastro Peninsula or Fokiotrypa light, bearing due North.
MAX. SIZE: Length 120 m. draft 17 ft. at Inner Port. Length 160 m., draft 28 ft. at Outer Port.
HEALTH: On arrival from foreign port, Port Officer, Customs Officer and Medical Officer board vessel for pratique. Pratique automatic if arriving from another Greek port.
BERTHING: At least 24 hours notice of ETA required for berthing allocation.
STEVEDORES: At least 8 hours notice of number of stevedores required to be given.
MEDICAL: In event of illness on board, Master should cable details prior arrival. Medical clinics and hospital available.
TANKERS: Geras Bay (Mamidakis) and Pamfila (Purfina).
FRESH WATER: Available. Supply rate 40/50 tons per vessel every 24 hours.
FUEL: Available at Purfina and Mamidakis installations. Supplies to Mitylene port by tanker trucks only, and advance notice required.
DEVELOPMENTS: A pier to be constructed in the Outer port, with depth of 15 ft. alongside.
HATCHES: Opened and closed by crew.
CUSTOMS ALLOWANCES: 200 cigarettes allowed per crew member out of bond.
CONSULS:

Sweden	Tel. 28494	Belgium	Tel. 28494
Netherlands	,, 28760	France	,, 28151

REPAIRS: Two local machine shops undertake very minor repairs.
AIRPORT: 8 km/s from the port. 2 daily flights to Athens.
TIME: GMT plus 2 hours, permanent. From 15th April until 10th October there is Summertime.
HOLIDAYS: In addition to usual Greek holidays, local holiday on 6th December. Cargo work can be arranged subject additional charge.
POLICE/AMBULANCE/FIRE: Police, Tel. 100 and 22021; Fire Brigade, Tel. 199; Hospital, Tel. 28412 and 22005.
AUTHORITY: Mitylene Port Authority.

MYKONOS: 37.27 N. 25.20 E.

Vessels in excess of 22,000 d.w.t. have been accommodated. Loading of Barytes ore at rates up to 5,000 tons per day. In Winter when North winds prevail conditions are satisfactory for loading: however, loading position considered unsafe when S.W. or West winds prevailing. When sufficient cargo is available vessels can load in 2 days.

PATRAS (including Rio): 38.14 N. 21.45 E.

(See Plan Book)

DOCUMENTS: Port Authorities: 2 Crew Lists, Customs: Declaration of Cargo and Passengers.
PILOTAGES: Advance notice of ETA to be passed to Agents who arrange Pilot. Vessels without Agents should advise authority of ETA through Athens Radio, or on arrival outside harbour make International Code sounds and signals for vessels requiring a Pilot. Pilot boat is small boat carrying pilot flag. Pilot usually boards less than 1 mile outside harbour entrance. VHF contact possible with Port Authority and Pilot on Channel 12.
ANCHORAGES: Patras Roads are safe enough, when very strong W/NW winds blow, vessels may anchor at Nafpaktos Roads.
RESTRICTIONS: Port entrance has depth of 32 ft. At main harbour vessels having draft in excess of 28 ft. cannot berth. The limit at the new berth is 32 ft. draft. There is 1 red and 1 green light buoy in position of the intended line of extension to Northern part of breakwater (extension of 250 m.) where work is in progress. Buoys are about 600 m. from permanent lights marking North entrance to the harbour, and indicate shallow water.
MAX. SIZE: Vessels of less than 34 ft. draft. No restrictions on length or breadth. Height of tide, max. 0.55 m., does not affect size of vessel.
HEALTH: Pratique in accordance with International Regulations.
RADIO: Athens Radio.
TUGS: Two tugs, 1,000 h.p. and 1,120 h.p. Use of tug compulsory for all vessels over 1,000 tons gross. Joins vessel at entrance to harbour. Ship's lines used.
BERTHING: In accordance with allocation given by Port Authority.
STEVEDORES: Advance notice of ETA required in order to arrange berth and order number of gangs to commence work immediately. General cargo rate about 80–100 t.p.h./gang, and bulk cargoes 75–90 tons. 7 shore cranes, capacity up to 25 tons available. One shore crane capacity 118 tonnes with container handling facilities.
TANKERS: No facilities at Patras, but Texaco-Restis berth at Rio for vessels up to 18 ft. and 2,500 tons alongside. No residue discharge facilities.
FRESH WATER: Supply line connected to all berths.
FUEL: Deliveries by tank trucks at Patras. Available at Texaco-Restis berth at Rio.
FIRE PRECAUTIONS: Vessels refuelling or discharging explosives or inflammable materials must apply to Port Fire Brigade to stand by.
DEVELOPMENTS: *(a)* Outer breakwater to be extended 600 m. in total.

(b) 4.7 m. is the depth along the newly constructed quay between Custom's House and fish steps.

(c) St. Nicolas Pier – length: 200 m. – is now available for berthing ships on both sides. Depths alongside are equal to those in North and South basins.

(d) Astingos Pier is reconstructed now having a 160 m. length on the South side and a 180 m. length on the North side. Depths alongside are same as in the basins.

WATCHMEN: Advisable to employ night-watchmen on large vessels.
HATCHES: Usually opened and closed by crew.
CUSTOMS ALLOWANCES: 200 cigarettes and 1 bottle wine/spirits allowed out of bond for each Crew member.
IDENTIFICATION CARDS: Crew are supplied with passes by Port Authority.
CONSULS:
Belgium
Germany
Denmark
Italy
Netherlands
Sweden
Finland
France
Switzerland
REPAIRS: Very minor repairs only.

REPATRIATION: All facilities for crew changes and repatriation.
AIRPORT: None.
TIME: Summertime – GMT plus 3 hours – from April 10 to end of September.
HOLIDAYS: In addition to general Greek holidays and Sundays, local holidays are 8th September, 30th November. Work can be arranged on these days subject to payment of additional charges.
POLICE/AMBULANCE/FIRE: Port Police, tel. 277–622; Patras Police Station, tel. 277–261; Ambulance, tel. 274–444; Fire Brigade, tel. 199. The port has a fireboat.
TELEPHONES: Facilities for connecting on board.
SHORE LEAVE: Permitted.
AUTHORITY: Central Port Authority of Patras.

PIRAEUS: 37.57 N. 23.36 E. (See Plan Book)

Incl. AGHIOS GEORGIOS 37.57 N. 23.36 E.; KERATSINI: DRAPETZONA 37.56 N. 23.37 E.; and PERAMA 37.58 N. 23.35 E.)

DOCUMENTS: All usual certificates including Registry, Measurement, Inspection, Load-line, Fumigation, Passenger Safety, Cargo Gear, and Radio.
9 Crew Lists.
2 Vaccination Certificates.
Cargo Manifest.
List of Provisions and Stores.
List of Spares.
Maritime Declaration of Health.
1 List Vaccination Dates.
1 Crew Effects Declaration.
Customs:
2 Special Forms in Triplicate.
1 Stores List.
Master's Declaration of typewriters and adding machines, etc.
Crew Passports, or Seamen's Books.
Passenger Passports.
PILOTAGE: Cable Agent well in advance advising ETA. Agent informs pilot office of vessel's arrival time.

Pilots can be contacted on VHF Channel 16 for calling, Channels 7 and 12 for communication. Pilot boat is a wooden vessel about 10 m. length with black-painted hull, word "Pilot" painted in white.

Vessels requiring Pilot should signal letter "G" by morse light or by ships whistle. Pilot boards vessel about 1.5 miles off entrance to harbour, except when very strong South winds prevailing, in which case vessel advised by VHF or by signal light that conditions impossible for Pilot boarding, and whether vessel permitted enter harbour at Master's risk.

If awaiting Pilot, anchorage is possible inside pilotage area of Piraeus – Aghios Kosmos – Piraeus Anchorage – Perama Anchorage – Megara Anchorage (Pachi).
ANCHORAGES: As above. Depths between 9 and 35 fathoms.
RESTRICTIONS: No restrictions for Aghios Georgios Harbour or Drapetzona excepting draft. Harbours open throughout 24 hours for entry and departure subject prevailing weather conditions. No tidal restrictions.
MAX. SIZE: (also see "Tankers") Aghios Georgios max. draft 32 ft. Drapetzona max. draft 38 ft. Piraeus max. draft 36 ft.
RADIO: Athinai Radio – SVA.
TUGS: Usually join vessel outside harbour, always using ship's lines. Over 30 tugs available. 10 of less than 1,000 h.p. and remainder over 1,000 h.p.
BERTHING: Agent must advise Piraeus Harbour Authorities in order to secure berth allocation.
CRANES: One gantry crane lifting capacity 10 tons, used for coal and bulk cargoes installed at Hercules Port. Hourly output of 160 tons.
1 container crane, lifting capacity 41 tons.
60 electric wharf cranes with capacities of 2 to 27 tons installed along the wharf of the main port and at the dry and floating docks.
67 mobile cranes with capacities of 3 to 20 tons.
9 Straddle-carriers for containers, capacity 30 tons each.
4 floating cranes with capacities of 15, 30 and 100 tons.
BULK HANDLING FACILITIES: Silo suction-duct installations capable of moving grain at up to 150 t.p.h. and storage facility for 40,800 tons, as well as 2 mobile suction-duct units for bulk grain-cargoes.
STEVEDORES: Agent must submit letter of application to Piraeus Port Authorities for number of gangs required also time required to commence cargo work. Discharge usually effected with ship's own gear.

Normal work on loading/discharge of goods in the port is carried out by 2 regular shifts, the morning shift (0800 hrs. to 1400 hrs.) and the afternoon shift (1500 hrs. to 2100 hrs.). Likewise, upon application of the interested parties (ship-owners, Agents, consignees, shippers, etc.), and provided approval of the competent P.P.A. Service is obtained, a third, night shift can be assigned to the job if the necessary workers and operators are available. This shift is again of 7-hour duration, from 2100 hrs. to 0330 hrs. or can be extended to the morning hours if necessary. Exceptionally in the case of work on refrigerator vessels, on which work during the Summer period is limited to the afternoon hours, the Service can assign workers and operators of loading/discharge machinery, starting from 1630 hrs., for a 7-hour period which can be extended, if conditions warrant, to the morning of the next day. Loading/discharge work may also be undertaken on Sundays and other non-working days (holidays) such work being considered as totally extra, being burdened with extra charges accordingly.
MEDICAL: All medical and hospital facilities available. No advance notice required except in special cases.

TANKERS: Discharging effected at private installations.

Shell	max. draft 32 ft.	Petrolles	max. draft 29 ft.
B.P.	max. draft 36 ft.	Purfina	max. draft 28 ft.
Elvyn	max. draft 26 ft.	Mobil	max. draft 48 ft.

D.E.H. max. draft 36 ft. (outside steam generator factory, no facilities for going alongside).
DENSITY: 1025.
FRESH WATER: Available alongside berths. For vessels at anchor, water can be delivered by barges (capacity 150–240 tons) belonging to Piraeus Harbour authority at 50% additional cost.
FUEL: Gas oil, fuel oil and mixtures of both to a certain viscosity available. Advance notice of requirements should be sent to Agent order complete customer's requirements.
WATCHMEN: Required.
HATCHES: Opened and closed by stevedores.
CUSTOMS ALLOWANCES: Tobacco, 200 cigarettes per crew member allowed out of bond. Wine/spirits, one bottle.
CARGO GEAR: Before commencement of loading or discharge, cargo gear is examined by Piraeus Harbour Authorities.
IDENTIFICATION CARDS: Passes required for seamen going ashore.
CONSULS:
Belgium
Costa Rica
Cyprus
Denmark
Ecuador
Finland
Iceland
Italy
Liberia
Netherlands
Norway
Panama
Philippines
Spain
Sweden
REPAIRS: Facilities available for all kinds of deck and engine repairs.
DRY DOCKS: (A) Two permanent drydocks at Piraeus (a) Length 134.4 m., depth 9.27 m.; (b) Length 93.3 m., depth 8.0 m. (B) Two floating docks at Perama. *(a)* Length 202 m., depth 40 m., capacity 15,000 tons. *(b)* Length 113.6 m., depth 27.4 m., capacity 3,000 tons. Also see Eleusis and Syros.
REPATRIATION: All facilities for crew changes and repatriation.
AIRPORT: Athens Airport 10 km. distant from main harbour. Regular international flights.
TIME: GMT plus 2 hours. Permanent.
HOLIDAYS: In addition to Sundays, local holidays are: 1st January; Epiphany; Whit Monday; 25th March; Good Friday; Easter Monday; 1st May; Holy Trinity; 15th August; 28th October; 12th December; 25th December; Boxing Day.

Cargo work can be arranged on these days subject extra payment of 75%.
POLICE/AMBULANCE/FIRE: In emergency telephone Harbour office 188 or 4511–183. Subsidiary Harbour Department tel. 4612–876. Harbour Guard Aghios Georgios tel. 4612–876. Harbour Guard Drapetzona tel. 4511–183. Police tel. 100. Fire service tel. 199.
TELEPHONES: Telephone connection on board can be made.
SERVICES: Compass adjusting, tank cleaning. No facilities for discharge of tank residues.
SHORE LEAVE: Permitted.
SPECIAL PRECAUTIONS: *Ship's Speed in Port:* Incoming or outgoing vessels must keep speed steady, provided weather conditions and vessel's manoeuvrability allow to do so, but never to exceed 5 knots.

Pollution in the Harbour: Throwing overboard of ballast, objects of any kind, oil, food rejects, and dirt in general is strictly prohibited. All such rejects can be jettisoned after ship's exit from the harbour and at a distance not less than 16 miles from the nearest coast. Alternatively, all such rubbish can be thrown in a special rubbish-collecting vessel in the port.

Sea Pollution by bunker oil or sediments: The jettisoning of oil products generally in any port or roadsteads less than 50 miles from the coast is strictly prohibited. Similarly prohibited is the pollution of the sea by jettisoning of oil-sediments during dry-docking or repairs of vessels.

Pollution of the Air: Strictly forbidden is the de-sooting of boilers of all vessels at Greek ports. Similarly prohibited is the exit of gases in the form of smoke, which poisons the atmosphere and endangers public health.

Overloading: If upon arrival or sailing the port authorities ascertain overloading of the vessel, heavy fines are imposed.
AUTHORITY: Central Piraeus Harbour Office, Second Harbour Department.

PYLOS: 36.5 N. 21.42 E.

(Including Sfaktiria and Navarino Bay)

DOCUMENTS:
For Port Authorities.
1. For ships under the Greek flag and foreign flag vessels of Greek ownership.
   Inspection of all Ship's Papers.
   7 Crew Lists with full details of crew members' home addresses.
   For passenger vessels – 6 Passenger Lists including passport details, that is, number, date of issue and nationality.
2. Foreign Flag Vessels.
   Inspection of all Ship's Papers.
   3 Crew Lists.

For Customs
Crew Personal Effects List.
1 Crew List.
Passenger List.
Lists of goods or effects to be sent ashore.
3 Lists of Stores and Spares.
Bills of Lading.
Cargo Manifest.

PILOTAGE: No Pilot station. There is a private Pilot employed by the bunkering company named G. Mamidakis Limited. Agent and/or bunkering company should be advised in advance of vessel's ETA order arrange Pilot to meet vessel at entrance of Navarino Bay and take vessel to oil installations at Sfaktiria Bay.

ETA should be passed by radio telephone at least 48 hours before arrival and thereafter confirming ETA within 24 hours of arrival. If ETA has not been passed by radio, vessel should wait at entrance to Navarino Bay, and request Pilot by signalling letter "G" by flashing light or ship's whistle.

ANCHORAGES: Safe anchorage may be made in all areas of Navarino Bay except within red sector of Helonaki Islet light.

MAX. SIZE: Any size vessel can enter and anchor in Navarino Bay. The small harbour of Pylos is only suitable for small vessels.

HEALTH: Doctor visits vessels that require free pratique, and those coming from infected ports. Master and Health Officer together sign Maritime Declaration of Health. Free pratique continues when vessel arrives from another Greek port. A vessel in transit must have free pratique if remaining in port more than 24 hours. Infected vessels or suspected vessels remain under quarantine in accordance with existing health regulations.

RADIO: Athinai Radio – OTE.

TUGS: No tugs available.

STEVEDORES: Labour requirements passed by radio at least 24 hours prior arrival. No shore loading/discharging facilities and this work effected by ship's gear. Average rate load/discharge 100 tons per gang every 8 hours.

MEDICAL: Agent should be advised by cable prior arrival of medical and medicant requirements. There are two chemists and a Red Cross hospital. Yellow-fever, cholera and smallpox vaccination certificates required.

TANKERS: Sfaktiria Island Installation (ESAPP. G. Mamidakis Limited). 2 flexible hoses diameter 6 in. and 1 gas oil hose diameter 2.5 in. No facilities for residue discharge. At Pylos small harbour there is jetty 100 m. length, the head of which is reserved for small tankers carrying wine and spirits, which moor stern to quay. At head of pier, depth of water about 4 m., but within short distance from pier, depth increases to 10 m. Only 1 vessel of 12 ft. to 15 ft., draft can moor stern to quay at any time. Loading/discharging is effected through flexible and portable pipe-lines belonging to Gialovi Wine Factory at Pylos, and cargo is transported by special tank trucks.

DENSITY: 1023 in harbour basin and whole of Navarino Bay.

FRESH WATER: Master or Agent must apply in writing to Customs Authority, and application is to include notice from water supplier giving quantity to be supplied and cost of supply. Water barge capacity 200 tons. Rate of supply 160 t.p.h. by canvas hoses. Barge belongs to Maritime Agency I. Vrettakos, Pylos. Water also available alongside Pylos harbour quay.

FUEL: Mamidakis Fuel Installations at Sfaktiria Island. Vessels should give 48 hours notice to Mamidakis (Athens Office, address: Eleftheriou Venizelou 56; Tel. 622543 Tel. 284) Pylos Tel. 22282.

FIRE PRECAUTIONS: No unusual fire precautions at Sfaktiria Installations, but at main port of Pylos authorities do not allow loading/discharging of 2 vessels at same time, as the only 2 berths available are very close to each other.

DEVELOPMENTS: Work in progress to extend existing Pylos harbour pier to 215 m. length, 20 m. width, and 15 m. depth at head of pier. Depth inside pier to be 10 m.

WATCHMEN: Usually not necessary to employ watchmen, but if required, available.

HATCHES: Usually opened and closed by crew.

CUSTOMS ALLOWANCES: 2 packets of cigarettes per crew member/day allowed out of bond according to duration in port and this quantity to be declared on Stores List. Store orders for supply of additional quantities are allowed on the basis of the number of crew and the length of voyage, basis 2 packets per day per crew member. 1 opened bottle wine/spirits allowed out of bond.

IDENTIFICATION CARDS: Shore passes issued against submission of seamen's books.

REPAIRS: 3 workshops for minor repairs.

REPATRIATION: Crew changes and repatriation facilities available.

AIRPORT: Kalamata Airport, 40 km. from Pylos. Kalamata/Athens flights every day at 17.50 hrs. Athens/Kalamata every day flights at 19.10 hrs.

TIME: GMT plus 2 hrs. GMT plus 3 hrs. in Summer.

HOLIDAYS: *(a)* Standard Government Holidays; *(b)* Local holidays: 9th May (St. Nicholas) holiday for port workers; 24th September; 20th October (Anniversary of Battle of Navarino). During these holidays, cargo work can be arranged subject overtime payment.

POLICE/AMBULANCE/FIRE: Police (Pylos) 223-16; Greek Red Cross Hospital Pylos 223-15; Kalamata Fire Brigade 28373.

TELEPHONES: No facilities for placing on board.

GENERAL: Very severe fines imposed on oil pollution.

SHORE LEAVE: Allowed.

AUTHORITY: Port Authority of Pylos.

RHODES (including Akantias): 36.25 N. 28.17 E.

DOCUMENTS:

3 Crew Lists.
3 Passenger Lists.
1 Cargo Manifest.
1 Stores and Provisions List.
Usual Ship's Documents.

PILOTAGE: 24 hours notice required by Rhodes Port Authority. Pilot boards 1 mile from port.

ANCHORAGE: Suitable anchorage up to a distance of 300 m. from the port East of the pier extension.

RESTRICTIONS: Port entry can be difficult and sometimes impossible with strong North or N.E. winds.

MAX. SIZE: Up to 24 ft. draft.

RADIO: Rodos Radio, 2182 kc/s.

BERTHING: Pilot will advise Master of berthing place in accordance with Port Authority instructions.

2 diesel motor-driven cranes capacity 2 and 3 tons available for discharging. No facilities for containers.

STEVEDORES: 24 hours advance notice required in order to arrange gangs.

MEDICAL: General hospital and private clinics available.

FRESH WATER: Available – supplied by canvas hoses.

FUEL: Deliveries only by tank trucks.

DEVELOPMENTS: Extension of the Merchant Port Pier by 110 m. to North and 140 m. to S.E. Also an extension of the new harbour (Akantias) pier, to the East of the Marine Harbour. Length to be 480 m. with a depth of 6.5 m. alongside.

HATCHES: Opened and closed by crew.

CUSTOMS ALLOWANCES: 60 cigarettes per day per crew member and 1 bottle wine/spirits per crew member allowed out of bond.

CONSULS:

Germany	Tel. 7479	France	Tel. 2318
Italy	,, 7432	Turkey	,, 3362
Sweden	,, 3379		

REPAIRS: Minor repairs only.

AIRPORT: Distance 15 km. During Winter, flights twice daily to Athens, and during Summer, flights 5 times daily.

TIME: GMT plus 2 hours. GMT plus 3 hours in Summer.

HOLIDAYS: 1st January, 6th January, 7th March, 25th March, Good Friday, Easter Monday, 21st May, 15th August, 28th October, 8th November, Christmas Day, Boxing Day.

POLICE/AMBULANCE/FIRE: Police, tel. 7690 or 2220; Ambulance, tel. 2555; Fire Brigade, tel. 3333.

DELAYS: Sometimes necessary to remain outside harbour up to 3 hours to allow coastal passenger vessels to berth if other berths are full.

AUTHORITY: Central Port Authority of Rhodes.

SUDA BAY, Crete: 35.29 N. 24.09 E.

PILOTAGE: Compulsory. Naval Pilot boards West of N. Soudha Island.

ANCHORAGE: Good anchorage for any size vessels.

TANKERS: Marathe POL Depot has wooden-faced concrete jetty. 10 in. discharge lines. No bunkers. No slop discharge facilities.

FRESH WATER: Available by barge.

GENERAL: Cargo pier depth up to 32 ft. alongside, also grain silo with similar depth alongside.

SYROS: 37.26 N. 24.56 E.

DOCUMENTS: *Ships under the Greek flag* – documents required are:

Ship's Register.
Seaworthiness Certificate.
Log Books and Ship's Papers.
Load-line Certificate.
Radio Station Licence.
Fumigation Certificate.
4 Crew Lists.
2 Passenger Lists.

Ships under foreign flag, Greek owned – documents required are:

Ship's Articles.
Load-line Certificate.
Seaworthiness Certificate.
Ship's Papers.
Radio Station Licence.
Fumigation Certificate.
4 Crew Lists.
1 Passenger List.

Ships under foreign flag – documents required are:

Seaworthiness Certificate.
Fumigation Certificate.
Load-line Certificate.
Radio Station Licence.
2 Crew Lists.
1 Passenger List.

PILOTAGE: Pilot to be ordered by ship's Agent at least 24 hours before arrival notifying approximate ETA. Pilot boards from private motor launch, about 0.5 miles off the port, weather permitting. In bad weather Pilot boards in harbour entrance.

ANCHORAGE: Vessels awaiting Pilot anchor outside the harbour South of a line between the green breakwater light and the North end of Gaidaros Island. Anchorage in the Southern part of the harbour in depths of 20–30 m.

MAX. SIZE: Length 200 m. Vessels of small draft may go alongside the Neorion Pier or moor stern to the pier. Deeper-draft vessels remain at anchor in the harbour.

HEALTH: Free pratique is given when ship's declaration of health has been endorsed by a Health Officer.

RADIO: Loutsa Radio.

TUGS: 2 tugs available. Tugs usually join vessel 1 mile from harbour entrance. Payment for use of tug's line is obligatory.

STEVEDORES: At least 1 day's notice required to arrange gangs.

MEDICAL: No advance notice required if medical assistance needed. Hospital and general clinic available.
TANKERS: Discharge alongside terminal of A. E. Seica at Lazareta, near the entrance to the harbour.
DENSITY: 1026.
FRESH WATER: Limited quantity can be supplied by private company. Delivered by barge.
FUEL: Can be supplied by A. E. Seica, by barge or pipe-line.
WATCHMEN: Not required.
HATCHES: Opened and closed by ship's crew.
CUSTOMS ALLOWANCE: Each man allowed 40 cigarettes per day for period not exceeding 5 days. Each man allowed 1 opened bottle of spirits. No restrictions for wine.
IDENTIFICATION CARDS: Shore passes are issued on production of seamens books or passports.
CONSULS: France – tel. 3–62. Netherlands – tel. 7–20.
REPAIRS: Neorion Syros Shipyards can undertake any kind of engine and hull repairs and alterations. Holds LTC licence for piston reconditioning.
DRY DOCKS: Two floating docks, one for ships up to 20,000 d.w.t., and one for vessels up to 75,000 d.w.t.
Dimensions of larger dock; 210 m. length over keel blocks; 36.20 m. inner width; 17.40 m. moulded depth.
DEVELOPMENTS: Port being dredged to permit entry of larger vessels. Shipyard installing facilities for building vessels up to 15,000 tons.
REPATRIATION: Can be arranged.
TIME: GMT plus 2 hours. GMT plus 3 hours in Summer.
REGULATIONS: Port Captain should be contacted for any queries not covered by lists of regulations provided on arrival.
HOLIDAYS: Work may be arranged on all holidays on payment of 75% additional to tariff.
POLICE/FIRE/AMBULANCE: Police tel. 6–10; Fire 3–33; Ambulance 5–55.
TELEPHONES: Cannot be connected on board.
SHORE LEAVE: Crew may go ashore after pratique is given, carrying shore leave passes issued by Port Authority.
AUTHORITY: The Harbour Office of Syros.

THESSALONIKI (Salonica); 40.38 N. 22.56 E. (See Plan Book)

PORT LIMITS: A vessel is considered as an "arrived vessel", when she has passed the line connecting the Small Kara Point and Paliomanna light buoy.
DOCUMENTS: For Greek flag and Greek-owned vessels:
List of Foreign Exchange.
Crew list (additional for Port Authority).
All vessels:
4 Crew Lists (Port Authority, Customs, Immigration and Health).
1 List of Stores.
1 List of Personal Effects.
Copies of Bills of Lading and Cargo Manifest.
PILOTAGE: Apply for Pilot through VHF Channel 12 or by international code signals. Pilot meets vessel about 1,000 m. S.E. of breakwater light (white). Pilot boat is small motor-boat carrying pilot flag.
ANCHORAGES: Area from 500 to 1,000 m. S.E. of port offers safe anchorage.
MAX. SIZE: Average safe depth of water 9.50 m. Two berths with depth 11.50 m.
HEALTH: Health Officer boards vessels from foreign ports to grant free pratique.
RADIO: Radio Thessalonika. 24 hours notice of ETA required to obtain berth and stevedores.
VHF: Operative throughout 24 hours on Channel 12, Central Port Authority.
TUGS: Available from private company.
MEDICAL: Advance notice not required – all facilities available.
SPECIALISED CARGO HANDLING FACILITIES: The port has silos of capacity 20,000 tons, a cold storage of 2,110 cu. m. of which 470 cu. m. is deep-freeze chambers and 1,640 cu. m. refrigerated chambers.
AGET Installation: 1 berth for discharging cement in bulk by special constructed ships equipped with automatic discharging gear. Max. draft 30 ft.
CRANES: 36 electrically driven berth cranes of 3–27 tons capacity. 19 mobile cranes of 3.5–30 tons capacity. 1 floating crane of 70 tons capacity.
TANKERS: 1. *Esso-Pappas installation. (a)* Sea Island berth capable of accommodating 2 vessels of 24,000 tons and 14,000 tons respectively. Max. draft 32 ft. 8 lines, diameter 16 in. (1). 10 in. (3), 4 in. (3), 6 in. (1). *(b)* 7 buoy mooring for vessel of up to 80,000 tons. Max. Draft 44 ft. Submarine 34 in. pipe-line for crude oil discharge. 2 flexible discharge lines 10 in. diameter.
2. *Mamidakis Installation.* Stern discharge berth. Max. draft 32 ft. 2 submarine lines enable 2 grades of cargo to be discharged through 8 in. line at 200 t.p.h. and 6 in. line at 160 t.p.h.
3. *Ethyl Oil Berth,* length 320 m., depth alongside 10m.
DIRTY BALLAST: 2 tanks of 600 tons each and 1 of 6,000 tons are available for the reception of dirty ballast at Esso-Pappas installation.
The discharge overboard of any oil or oil contaminated water is strictly forbidden and every precaution must be taken to avoid pollution.
DENSITY: 1025.
FRESH WATER: Unlimited supplies available.
FUEL: Unlimited quantities available. Usual notices required. Suppliers B.P., Shell, Esso-Pappas, Mamidakis.
FIRE PRECAUTIONS: One firefighting launch of 2 × 480 hp. and one fire fighting station.
DEVELOPMENTS: 6th Pier under construction. Length 660 m., width 600 m. and depth 11.5 m. One section will be used as a container terminal. Completion expected in 1983.
WATCHMEN: If required, cost by private negotiation.
HATCHES: Opened/closed by crew.
CUSTOMS ALLOWANCES: 200 cigarettes and 1 bottle spirits allowed out of bond for each crew member.
CARGO GEAR: Adequate shore gear available.
IDENTIFICATION CARDS: Passes issued to crew members of foreign vessels.
CONSULS:
U.S.A.
France
Denmark
Italy
S. Africa
Turkey
Austria
Germany
Switzerland
U.K.
Netherlands
Finland
Belgium
Yugoslavia
Japan
Norway
Sweden
REPAIRS: Only minor repairs.
REPATRIATION: Facilities for crew changes and repatriation available.
AIRPORT: Distant 12 km/s. S.E. of town. 6 flights daily to Athens.
TIME: GMT plus 2 hours. GMT plus 3 hours in Summer.
HOLIDAYS: (National): 1st January, 6th January, 25th March, Good Friday, Easter Monday, 21st April, 1st May, 15th August, 28th October, Christmas Day, Boxing Day. (Local): 26th October. Work may be arranged on holidays at double costs.
POLICE/AMBULANCE/FIRE: Port Police, tel. 531-502; Ambulance, tel. 531-531; Fire, tel. 199.
TELEPHONES: Facilities available for placing on board.
SHORE LEAVE: Permitted without restriction. For tankers, the Master should arrange transport with Agent for seamen to the landing pier in Thessaloniki Harbour. Seamen will not be permitted to pass through refinery area.
AUTHORITY: Port Authority of Thessaloniki.

VOLOS: 39.21 N. 22.56 E. (See Plan Book)

DOCUMENTS: See "Piraeus".
PILOTAGE: Pilot boards about 1 mile outside port. Pilot boat is small launch coloured grey and black.
ANCHORAGE: Suitable anchorage situated 1–2 miles outside harbour in depths of 14 to 20 m.
RESTRICTIONS: Vessels in excess of 10,000 tons unable enter at night.
MAX. SIZE: Max. draft 36 ft., no limitation on length or breadth.
HEALTH: Port Officer acts as Health Officer and pratique effected on doctor's advice. If arriving from another Greek port, pratique automatic.
TUGS: Join vessel at entrance to harbour. 3 tugs, 150 h.p., 240 h.p. and 1,080 h.p.
BERTHING:

Dock	*Length*	*Depth*
K	600 m.	8.0 m.
1	1,000 m.	11.0 m.
11	980 m.	11.0 m. (under construction)
R	270 m.	7.0 m. (under construction)

CRANES:
1 Mobile crane — Capacity 35 tons
3 Mobile cranes — Capacity 10 tons
3 Crawler cranes — Capacity 4 tons
1 Rail mounted crane at Dock 1 — Capacity 27 tons at 17 m. and 16 tons at 30 m.
Cranes under construction:
Dock 1 4 cranes — Capacity 8 tons at 20 m. and 6 tons at 25 m.
Dock 11 2 cranes — Same capacity as Dock 1
BULK HANDLING FACILITIES: 2 silos, capacity 15,000 tons, loading ability 370 t.p.h. Discharging ability 250 t.p.h.
STEVEDORES: Advance notice required order arrange gangs. No shore gear and all cargo operations handled with ship's gear.
MEDICAL: Advance notice of required medical attention is necessary. Hospital and medical facilities available.
TANKERS: One berth, depth alongside 27 ft.
FRESH WATER: Only available at main pier and silos pier.
DEVELOPMENTS: New piers under construction.
HATCHES: Usually opened and closed by crew, but if by stevedores, additional costs apply.
CUSTOMS ALLOWANCES: 1 to 2 packets cigarettes allowed per crew member per day. 1 bottle wine/spirits allowed out of bond.
CONSULS: Germany, tel. 25379, France, tel. 25870, Sweden, tel. 27662.
REPAIRS: Minor repairs can be effected.
AIRPORT: Situated at Anchialou. 2 weekly flights to Athens.
TIME: GMT plus 2 hours, Winter. GMT plus 3 hrs. in Summer.
HOLIDAYS: Usual Greek holidays. Local holiday 6th December; cargo work can be arranged subject to additional cost with the exception of 6th December.
POLICE/AMBULANCE/FIRE: Police, tel. 24500; Ambulance, tel. 27531; Fire, tel. 5000.
SHIPMASTER'S REPORT: 1977.
Restrictions: Draft restrictions on new quays subject to maximum depth of water of 32 ft. and on the original town quays a maximum depth of water of 28 ft. East side, 26 ft. West side, 24 ft. Head. (Thus draft will have to be about 2 ft. less than depth.)
Stevedores: Working hours 0730 – 1400 hrs. and 1400 – 2100 hrs. on overtime.
Berths: Town quay with approx. 750 ft. frontage on each side and cross berth approx. 385 ft. on end. New 'L' shaped berths with base to the shore with approx. 1,525 ft. East, 1,230 ft. West, 500 ft. End of frontage on South side, 500 ft. on end, two of approx. 500 ft. on inside of L.
Pollution: Port regulations prohibit the scraping and scaling of ships side and the pollution of sea or port area by painting.
AUTHORITY: Port Authority of Volos.

YALI ISLAND: 36.38 N. 27.07 E. (See Plan Book)

DOCUMENTS:

2 Crew Lists.
2 Passenger Lists.
Cargo Manifest.
Bills of Lading.
List of Ship's stores and Spares.
Health Declaration.
Ship's Certificates.

PILOTAGE: A Mooring Master is available from Piraeus. Mooring Master boards at the anchorage.

ANCHORAGE: Safe anchorage in the roads except in strong Southerly winds.

MAX. SIZE: Length 250 m., draft 33 ft.

HEALTH: Port authorities will board by launch from Nissyros to arrange free pratique. Any sick crew members will be disembarked to Nissyros by the same launch.

TUGS: Not available.

BERTHING: The vessel is moored at loading berth on 8 buoys in addition to port anchor. During loading operations the vessels have to be shifted from hatch to hatch.

The facilities of loading consist of a cement pylon holding a horizontal chute-conveyor belt of about 50 ft. length. This chute-conveyor belt is fed from ashore by rotating buckets of 1.3 tons each. The vessel has to be at a distance of about 40 to 50 ft. from the cement pylon in order to load the holds.

STEVEDORES: Workers are employed by private loading company.

MEDICAL: Nearest medical and hospital facilities are at the island of Kos, 7 miles north of Yali.

FRESH WATER: None available.

FUEL: Not available.

HATCHES: Opened and closed by ship's crew.

CUSTOMS ALLOWANCES: 200 cigarettes and 1 opened bottle of spirits are allowed each man.

CONSULS: No local representation.

REPAIRS: No facilities exist.

AIRPORT: Nearest at Kos with daily flights to Athens during the Summer. 4 flights a week during the Winter.

HOLIDAYS: Do not affect vessels loading.

SHORE LEAVE: Allowed.

AUTHORITY: Clerk of Mandraki, Port of Nissyros. Yali Quarry Manager.

NOTES

Please also advise Shipping Guides Ltd.

Greenland

GENERAL:

CUSTOMS: The Master is not allowed to distribute tax-free cigarettes or other tax-free tobacco in a Greenland port.
DOCUMENTS: Following documents must be on board:
Speed Certificate.
Crew List.
Radio Station Certificate.
Safety Equipment Certificate.
Clearance Certificate.
Health Declaration.
Tonnage Certificate.
Certificate of Registry.
Deratisation Certificate.
Sailing Orders.
RESTRICTIONS: Foreign-flag vessels do not normally have access to Greenland ports unless they have special permission. If such vessels have this permission, the crew may go ashore subject approval of Port Authorities and following presentation of Health Certificate or a medical check on board.
ICE INFORMATION: Ice Centre Narssarssuaq is transmitting daily at 1200 hrs. GMT and 2200 hrs. GMT the latest information of the ice in Southern Greenland Waters. Information is transmitted in Faximile (Mufax) on frequency 2780 and 6970 kc/s drum speed 120. Ships can, free of charge, request telegraphic ice information from following coastal radio stations:
OZL—Angmagssalik
OZN—Prins Christian Sound
OXF—Julianehab
OZA—Frederikshab.
WATCHMEN: Ship is required to appoint a crew member as ship's guard on board.
TIME: GMT minus 3 hours. Permanent.
HOLIDAYS: As applicable to Denmark.
CONSULS: None.
WORKING HOURS: Normally from 0600 hrs. to 1800 hrs. with 2 meal breaks.
RADIO: In ports where there is a local radio station, vessels are prohibited from using ship's station for sending messages.
HEALTH: Before commencing voyage to Greenland, at the port of departure, Master is required to obtain a Health Certificate from an authorised medical practitioner, stating that there are no dangerous or contagious diseases on board, such as pest, cholera, yellow-fever, smallpox, or typhus. The crew list is to be included in this certificate stating that there are no venereal or other contagious diseases amongst the crew members. The Health Certificate is only valid if it has the stamp and signature of the Royal Danish Consul or Vice-Consul of the district in which the port of departure is situated. On arrival at the first Greenlandic port, the Master is to present the Health Certificate to the Port Authorities. Health Certificate may also be issued by a doctor in the first Greenland port of call.
REPORT: Immediately upon arrival of a vessel in Greenland, the Master must report to the Port Authorities.
WASTE DISPOSAL: It is forbidden to throw waste material of any description overboard into port waters.

EGEDESMINDE: 68.43 N. 52.53 W.

(Also see "General Information" at beginning of Greenland Section)
DESCRIPTION: Roadstead, Inner Port (inside Bay), Anchorage, Boat Port, and Atlantic quay.
DAYLIGHT: Polar darkness from 2nd December to 11th January, and midnight sun from 22nd May to 23rd July.
CONDITIONS: *(a)* Current: flows Eastwards between the islands at Egedesminde from 3 hours before, to 3 hours after high water, following which, current flows Westwards for 6 hours. *(b)* Ice: Winter ice normally occurs from mid-December to early May, but can occur earlier, in November. New ice in the port can be up to 60 cm thick; 1st January covering ice up to 30 cm and by 1st February about 45 cm. Icebergs sometimes enter port area and stop all shipping movement. *(c)* Tide: high tide height 2.6 m. (max. 3.1 m.). Low tide height 1.5 m. Direct West wind causes 0.3 m. rise above tidal height, and South or S.E. wind about 0.5 m. below.
PILOTAGE: No official port Pilot, but assistance arriving and sailing may be obtained from a local seafarer having good knowledge of the area. This local assistance should be ordered if required in ETA cable to Port Authority at least 24 hours prior arrival. The Port Manager usually acts as local expert as part of his normal duties.

There is VHF radio installation in office of Port Authority and it is usually possible to obtain VHF contact within 30 miles of Egedesminde.

Local area expert will board vessel from port boat at meeting place usually arranged just outside entrance to port.

No special pilotage regulations and no Outer Anchorage where Pilot may be taken on board. However, in waters North and N.E. of port entrance vessels may stop or proceed at very slow speed in order to embark local expert.
ANCHORAGES: No special anchorages, and vessel is only allowed to anchor for a short period at the entrance to port subject permission of Port Authority.
MAX. SIZE: Largest vessel to berth alongside Atlantic quay was length 136 m., breadth 20 m., draft 6.2 m.
ENTRY: Day or night.
TUGS: None. 2 port boats to take lines and assist mooring.
RADIO: Local radio station "OYR". RDF station beacon East of the town. Radio link between Egedesminde and Transitoen, and between Transitoen and Roeveo.
BERTHING: Atlantic quay. Length 70m., depth alongside 8.1 m., at medium low tide and 10.7 m., at medium high tide. Height of quay at medium tide about 1.5 m., above w/l. One 5-ton mobile crane and some fork-lift trucks used in discharging.
MEDICAL: Hospital, doctor and dentist available.
FRESH WATER: Available at Atlantic quay and at tank-station.
FUEL: Only gas-oil available for local fishing vessels from the tank-station.
REPAIRS: Minor repairs possible. Slip for small vessels (250 tons).
AIRPORT: Heliport.
SALVAGE: Salvage-station in the area.
SERVICES: Radar and radio technicians available.
AUTHORITY: Director of Commerce.

FAERINGEHAVN: 63.41 N. 51.34 W.

(Also see "General Information" at beginning of Greenland Section).
DOCUMENTS: Bill of Health: Doctor's certificate mentioning each member of crew by name to be free of contagious diseases. This document to be signed by Consulate in the port of delivery to be prepared by competent authority, passengers excluded. One Manifest with Bill of Lading. Ordinary Ship's Papers.
PILOTAGE: As a rule Pilot can be ordered in the months May–October, notice 12 hours before arrival is required.
ANCHORAGE: Inside fjord area.
RESTRICTIONS: None.
MAX. SIZE: Oil-carriers about 26,000 d.w.t., draft 40 ft. Ordinary cargo-ships 20 ft.
HEALTH: Captain to apply with documents at harbour office for free pratique.
RADIO: Godthab Radio: OXI, connected Faeringehavn by Telex and Telephone.
VHF: Oil company and fishing company are listening on VHF during working hours.
TUGS: Salvage tug stationed on West coast of Greenland. Stationed at Faeringehavn May–October, no fixed rates.
BERTHING: Natural port, anchorage for the largest vessels. Wharf, 225 m. with 5 m. at L.W.
STEVEDORES: None, but fishing and service company "Nordafar" may act as stevedores.
MEDICAL: Local sick room and nurse available in Summer. For medical service, apply Godthab.
TANKERS: Load/discharge lines 6 and 8 in. Smaller diameters for bunkering when necessary.
FRESH WATER: Only available May to November.
FUEL: Available. Light fuel, gas oil, aviation turbine fuel A1, gas oil, oct. 97.
GANGWAY/DECK WATCHMEN: Not required (ship's crew).
OPENING/CLOSING HATCHES: Must be carried out by ship's crew.
IDENTIFICATION CARDS: Not required.
CONSULS: None.
REPAIRS: Small repairs only. Workshop available May to November.
REPATRIATION: Available, via Godthab by air to Copenhagen.
AIRPORT: Nearest airport is Godthab, distance 35 miles regular airlines.
TIME: GMT minus 3 hours.
HOLIDAYS: Danish holidays.
POLICE/AMBULANCE/FIRE: Police tel. Faeringehavn 34; Ambulance Faeringehavn 25.
TELEPHONES: Not available on board.
GENERAL: Bunker station open all year; during Winter-time sometimes difficulties caused by ice.
SHORE LEAVE: Allowed.
DELAYS: Bunker station closes for arrivals between 2200 hrs. and 0600 hrs. local time.
AUTHORITY: Kontrolloren, (Harbour Master).

FREDERIKSHAB: 61.59.7 N. 49.40.8 W.

(Also see "General Information" at beginning of Greenland Section)
LOCATION: The port is in the inner part of a small bay.
DESCRIPTION: Atlantic quay; fishing quay; anchorage.
CONDITIONS: *(a)* Current: none. *(b)* Ice: big ice reaches to the North of the port; smaller ice reaches the port especially to the North, but South of the port it is usually ice-free. The best period of finding the port ice-free is between March and April, and from the end of August. *(c)* Tide: height of average high water is 3.8 m., low water 2.0 m. (max. 2.4 m).
PILOTAGE: Pilot should be requested in ETA cable via Frederikshab radio. Pilot will meet vessel at Satuarssugssuaq (Fyroen).
ANCHORAGE: S.E. of Skarvo. Holding ground is not good and anchoring should be carried out at very slow speed.
MAX. SIZE: Length 100 m., draft about 6 m.
ENTRY: Day or night.
TUGS: None. Port boats assist in mooring.
RADIO: Radio station "OXI". RDF station beacon East of the town.
BERTHING: Atlantic quay. Length 90 m., depth alongside at average low tide, 7 m., depth in harbour about 10 m. Cranes up to 5 tons capacity and fork-lifts trucks used in discharging.
MEDICAL: Hospital, doctor and dentist available.
FRESH WATER: Available alongside Atlantic quay.
FUEL: Refuelling quay, depth about 5 m., Gas-oil and diesel oil available.
AIRPORT: Heliport.
REPAIRS: Workshop for minor repairs available. Slip for small vessels (250 tons).
GENERAL: Police Station, Fire Brigade, radar and radio technicians, and service for IFD rubber dinghies: Cable address "Fladeservice FRH".
AUTHORITY: Director of Commerce.

GODHAVN: 66.56 N. 53.40 W.

(Also see "General Information" at beginning of Greenland Section)
DESCRIPTION: Port consists of a mooring inside a bay.
DAYLIGHT: Polar darkness from 25th November to 15th January, and midnight sun between 19th May and 26th July.
CONDITIONS: Ice: Winter ice is fast from November–December until end May or beginning of June. Thickest observed Winter ice is about 100 cm.
ENTRY: Day or night. Port is open from May to November. Between mid-April until May the port can only be used by specialised tonnage.
PILOTAGE: Boarding point arranged with Port Authority in ETA advices.
ANCHORAGE: Good anchorage in the bay – outer port.
MAX. SIZE: Largest vessel to date length 100 m., draft 6.5 m.
TUGS: None. Port boats assist with mooring.
RADIO: Extended from Egesminde "OYR". RDF Station beacon.
BERTHING: Quay length 12 m. depth alongside 4.0 m. at MLWS. Vessel moors to 2 anchors and stern-lines to the shore. Mobile cranes on shore capacity up to 5 tons. Depths in bay about 6.82 m.
MEDICAL: Hospital. Doctors and dentist available.
GENERAL: Arctic Scientific Station, Fire Brigade, Cable Office.
AUTHORITY: Director of Commerce.

GODTHAB: 64.10 N. 51.44 W.

(Also see "General Information" at beginning of Greenland Section)
DESCRIPTION: Narrow entry to port, but well protected, with good modern berths and anchorages.
CONDITIONS: *(a)* Current: sometimes strong between anchorage and the berths. *(b)* Ice: only very occasional large quantities of ice reach the port and into the fjord. If ice in area South of Godthab, S.W. storms force drift ice into the fjord. In recent years the port has begun to freeze over in Winter, and small vessels have at times become icebound. *(c)* Wind: S. and S.W. storms spring up suddenly but only last for brief periods. *(d)* Tide: height of high water 4.4 m. (max. 5.1 m.); low water 2.1 m.
ENTRY: Port open day and night all year round.
DAYLIGHT: Godthab situated South of the border for midnight sun and Polar darkness.
PILOTAGE: Port Manager normally acts as Pilot for ships, but is not an authorised Pilot. Pilotage may be arranged by VHF contact with Authority during normal working hours.
ANCHORAGES: Good anchorages available inside fjord. Larger vessels should anchor close to Rypeo and in Malene Bugt.
MAX. SIZE: Largest vessel to berth at Atlantic quay was length 135 m., breadth 17 m., and draft 7 m.
TUGS: None. 2 port boats to take lines and assist mooring.
RADIO: Local radio station "OXI". 24 hours notice of ETA should be passed to Authority, cable address "Handelschefen Gothab". Radio beacon at Kookoerne.
BERTHING: Larger vessels should contact Port Authority before approaching port at night-time. Atlantic quay, length 170 m., has a depth alongside 7 m., approx. for the most Northerly 120 m., and between 4.5 – 5 m. at MLWS for the most Southerly 50 m.

Vessels normally berth starboard side alongside, unless fitted with bow thrusters, when a port side berthing is feasible. Mobile cranes capacity 5 tons.

Schooner Quay is 52 m. long, with a depth of 4.7 m., approx. Vessels normally berth bow Westward.

On the Coastal Passenger Quay length 30 m., depth 5.4 m., vessels usually berth with bow to the North.

There are several other small quays for the use of trawlers, and cutters, and a sand discharging berth length 30 m., depth 5 m.
TANKERS: Tankers can anchor and stern moor out from the gas installations, using an oil pipe-line connection. A mooring arrangement has been established for tankers of 25,000 – 30,000 d.w.t. below the tank and gas farm on the hillside.
MEDICAL: Hospital, doctors and dentists available.
FRESH WATER: Available at Atlantic quay.
FUEL: Small quantities gas-oil available at Atlantic quay.
REPAIRS: Slip for small vessels (40 tons) and minor repairs. Slip for vessels up to 1,860 tons, repairs possible.
AIRPORT: Heliport.
GENERAL: Police, Fire Brigade, radar and radio technicians, radio station post, and cable office.
AUTHORITY: Director of Commerce who also acts as Port Manager.

HOLSTEINSBORG: 66.56 N. 53.40 W.

(Also see "General Information" at beginning of Greenland Section)
LOCATION: Harbour is situated on Northern side of Tommermandsoen.
CONDITIONS: *(a)* Tide: average height of high tide 3.5 m. (max. 4.4 m). low tide 2 m. *(b)* Ice: Winter ice up to 1 m. thick. Ice normally occurs from December to March or April.
ENTRY: Port open day and night, and normally all year round.
PILOTAGE: Arrange with Authority through Holsteinsborg's radio, cable address "Director of Commerce Holsteinsborg". Pilot meets vessel at Jakobs Skaer, 2 miles S.W. of Mollersoe.
ANCHORAGE: Large vessels can anchor outside port and discharge into barges.
MAX. SIZE: Largest vessel that can berth alongside Atlantic quay, length 136 m., breadth 20 m., draft 6.2 m.
TUGS: None. Port boats take lines and assist mooring.
RADIO: Radio station extended from Egesminde "OYR". VHF connection in Port Director's office. Radio technicians available, cable address "Polar Radio".
BERTHING: Atlantic quay, length 60 m., depth alongside 6 m., at average low water. Height of quay 2 m., above w/l. If berth occupied, loading/discharging of larger vessels at anchorage with barges. At Atlantic quay there is a mobile crane with capacity of 3 tons and fork-lift trucks. Belt conveyor for coal.

Offshore Quay: Length 20 m. with depth of 6 m. at LW.
MEDICAL: Hospital, doctors and dentists available.
FRESH WATER: Obtainable at Atlantic quay.
REPAIRS: Slip for small vessels (250 tons) and minor repairs.
AIRPORT: Heliport.
GENERAL: Post and cable offices. Telephones not normally available for connection on board, but vessels at anchor can call Port Director's office on VHF during daytime.
AUTHORITY: Director of Commerce who acts as Port Master and Harbour Master.

IVIGTUT: 61.12 N. 48.10 W.

(Also see "General Information" at beginning of Greenland Section)
OPERATORS: A/S Kryolitselskabet Oresund.
CONDITIONS: *(a)* Current: strongest about 3 hours before and 3 hours after high water, and vessels arriving and sailing should take this into consideration. *(b)* Tide: height of average high tide 3 m. (max. 3.4 m.), low tide 1.6 m. *(c)* Wind: calm for about half the year otherwise winds are usually from South or S.E. The dangerous winds for moored ships are the infrequent storms from North or N.E.; these storms seldom occur but if they do occur they do so in the Autumn. *(d)* Ice: Winter ice usually occurs from December onwards in the fjord outside Ivigtut and disappears in the beginning of April. Outside Ivigtut Winter ice always occurs, sometimes reaching a thickness of about 1 m. Information concerning ice conditions always obtainable on telegraphic request to GLK.
ENTRY: Day and night and usually all year round.
PILOTAGE: No official Pilot but an acting Pilot can be arranged through connection with Port Authority, cable address "Manager Ivigtut", at least 24 hours prior arrival.
MAX. SIZE: Largest vessel to have berthed at Kryolit pier was length 102 m., breadth 14 m., draft 6.2 m.
TUGS: None. Motor-boat will assist mooring.
BERTHING: Kryolit quay, depth alongside about 7 m. height of pier about 2 m. above w/l. Berthing during daylight only. Kryolit not exported from mid-December to end March. Crane capacity 3 tons.
RADIO: Julianehaab Radio "OXF" or Gronnedal Radio "OVC".
VHF: Gronnedal Radio listens on VHF 24 hours.
FRESH WATER: Available.
FUEL: Deliveries of small quantities of gas-oil.
REPAIRS: Machine tool workshop. Diver assistance obtainable.
MEDICAL: Hospital in Ivigtut, but doctors and dentists are in Gronnedal.
AUTHORITY: Ivigtut Cryolite Mines.

JAKOBSHAVN: 69.13 N. 51.06 W.

(Also see "General Information" at beginning of Greenland Section)
DESCRIPTION: Port is a narrow open bay, entrance to the N.W., having outer port and inner port. In outer port is Atlantic quay and bunkering station, and inner port has another quay and a fishing harbour.
CONDITIONS: *(a)* Tide: height of average high tide 2.8 m. (max. 3.3 m.) low tide 1.6 m. *(b)* Wind: usually East to N.E. In Autumn winds are strong especially in the morning. *(c)* Ice: impression can be gained when approaching port that port is closed due to icebergs. On closer approach channels between icebergs will be found but if these openings appear too narrow a wider passage should always be found to the North. *(d)* "Kanele": a natural phenomenon that occurs at this port causing regular and heavy swell, height up to 2 m. Wave characteristic, long and flat, frequency about 6 minutes. Pilot should be consulted for full information.
ENTRY: Port usually open day and night, from mid May to end November.
DAYLIGHT: Polar darkness between 1st December and 12th January and midnight sun between 21st May and 24th July.
PILOTAGE: A Pilot should always be used by larger vessels and request made to Port Authority in ETA cable. Pilot boarding place to be agreed with Authority.
MAX. SIZE: Largest vessel to berth at Atlantic quay was length 93 m., draft 6.8 m.
RADIO: Egesminde Radio.
TUGS: None. Port boats take lines and assist mooring.
BERTHING: Outer port depth 6.5/7 m., inner port 5.5/6 m. Atlantic quay length 40 m. Depth alongside Atlantic quay 7 m. at average low tide. Height of quay about 1.1 m. above w/l. Permission to enter port should be obtained prior arrival from Port Authority. Mobile crane capacity 5 tons, also fork-lift trucks.
MEDICAL: Hospital, doctors and dentists available.
FRESH WATER: Obtainable alongside Atlantic quay.
AIRPORT: Heliport.
REPAIRS: Machine workshop. Crane for lifting small vessels, capacity 50 tons.
GENERAL: Police, Fire Brigade, Port and cable office.
AUTHORITY: Director of Commerce who acts as Port Manager.

JULIANEHAB: 60.43 N. 46.02 W.

(Also see "General Information" at beginning of Greenland Section)
DESCRIPTION: Port is an open bay, facing South with Atlantic quay.
CONDITIONS: *(a)* Current: flows N.W., but in Southern part of port from little current effect. *(b)* Tide: average height of high tide 2.8 m. (max. 3.2 m.); low tide 1.4 m. *(c)* Ice: drift ice between January and July occasionally fills whole port. *(d)* Wind: the most frequent wind is from East or N.E., normally occurring as storms during Winter months and as strong winds in Summer. Winds can be violent and cause rapid rise in temperature. Very secure moorings are advisable.
PILOTAGE: Port office is equipped with VHF which should always be used to contact Port Authorities before arrival, and to arrange Pilot's boarding position.
MAX. SIZE: Largest vessel to berth at Atlantic quay was length 100 m. and draft 6 m.
ENTRY: Port open day and night normally throughout year, but from 1st January to 1st August, only available to specially constructed tonnage.
TUGS: None. Port boats take lines and assist mooring.
RADIO: Local radio station. Radio beacon station at Simiutaq about 10 miles West of entrance to Julianehab Fjord.
BERTHING: Atlantic quay – length 60 m., depth alongside between 7/9 m. on average high tide and 1 quay, length 60 m., depth alongside 4.8–7.2 m. for small vessels. Height of quay is 1.3 m. above w/l. Mobile cranes, lifting capacity up to 5 tons.
MEDICAL: Hospital, doctor and dentist available.
FRESH WATER: Available from Atlantic pier during Summer months.
FUEL: Gas-oil available at Atlantic pier.
REPAIRS: At repair quay there is a stationary crane lifting capacity 35 tons. Slip for small vessels (250 tons) and minor repairs.
AIRPORT: Heliport.
AUTHORITY: Director of Commerce – acting as Port Manager.

MARMORILIK: 71.07 N. 51.17 W. (See Plan Book)

DOCUMENTS:

International Load Line Certificate.
Safety Raid Certificate.

PILOTAGE: Optional for coastal vessels entering Davis Strait. Agents are to make arrangements if Pilot required.
GENERAL DESCRIPTION: The berth is located at the North end of the West side of Agfardlikavsa Fjord.

Agfardlikavsa Fjord, West Greenland, (entrance approximately 51° 18′ W. and 71° 08′ N.) is located at the end of the larger Qaumarujuk Fjord.

Qaumarujuk Fjord, the Northeastern arm of Ingnerit, has its entrance between Qegertanguit and the Western extremity of Akuliarusikavsak, a mainland projection about 2.5 nautical miles S.E. Ingnerit is one of the largest of the branch fjords and flows into Umanak Fjord. It is entered between Tuperssuatsiait, the S.E. extremity of the Alfred Wegener Peninsula, and Akuliaruseq, a point about 4 miles S.S.E. The waters of the Umanak Fjord flow into the Nordost Bay.

The Agfardlikavsa Fjord is separated from the Qaumarujuk Fjord by a shallow, narrow bar. Depth at the centre of the sill is approximately 30 m.

There is a considerable surface water run-off along the Fjord walls including occasional rock slides. The bottom of the Fjord is filled with 6 to 8ft. of fine silty materal.

Marmorilik (71° 08′ N., 51° 18′ W.) lies on the S.E. side of the Qaumarujuk Fjord at the Western entrance point of the Agfardlikavsa Fjord.

The larger fjords and Nordost Bay are encumbered with islets and rocks requiring extreme care in navigation. In particular, a shoal is known to exist some 350 m. N.W. of Marmorilik Point and extra care is required in this vicinity.
ANCHORAGE: There is an anchorage at Agfordlikowsa in depths of 20 to 35 m. Tankers can anchor near the berth in depths of 24 to 50 m., but must be aware of an unmarked 6m. shoal about 300°True, and 375 m. (approx.) from the discharge point.
MAX. SIZE: Max. d.w.t. 36,500. Min. depth alongside ore terminal is 12.5 m. at LW.
RADIO: Ship-to-shore communications will be maintained using the following frequencies: 2182 kHz, 2210 kHz and 2738 kHz.

Information on ice conditions in the fjord can be obtained from shore personnel. During loading operations, Greenex will supply the vessel with 2 portable radio transceivers for communications between the carrier and the loading control station.
TUGS: 1 tug available, 720 h.p. The tug will assist with berthing and unberthing if required, and will break up any thin ice in the vicinity of the berth and entrance to the fjord.
BERTHING: The Marine Terminal isused for loading ore carriers up to 36,500 d.w.t. The berth consists of 4 breasting dolphins with bollards for springs and breast-lines. On the shore are 7 bollards for head and stern lines spread over a distance of 366 m. The min. depth of water alongside is 12.5 m. at LW.

Vessels normally berth port-side alongside and use the starboard anchor to assist in berthing. No. 1 hatch is lined up under the loader as it is the first hatch to be loaded.

Initially the headlines go to the Northernmost dolphin and stern lines to the Southernmost bollard on the shore.

Loading: Zinc and lead are loaded with a luffing and slewing ship-loader. The ship-loader is fitted with a 20 ft. conveyor to distribute the cargo in the hold. Communication is maintained between the vessel and control room by portable radios. The average loading rate is 500 metric t.p.h.

Notice of readiness will not be accepted at time of arrival at the dock unless the vessel is in all respects ready to load.

General Cargo: Unloaded into barges with vessel's gear and towed ashore to a separate lightering dock located about 500 m. N.E. of the ore terminal.
MEDICAL: Emergency medical and dental treatment can be arranged and should, when possible, be requested by the vessel's Master in his ETA message to the mine site office.
TANKERS: Diesel fuel oil and turbo-fuel are stored in a tank farm located on-shore about 500 m. West of the point at Marmorilik on Qaumarujuk Fjord, at an elevation of 50 m.

Vessels usually berth using both anchors, 5 shackles on the port anchor, and about 4.5 shackles on the starboard anchor, using a heavy chain from the stern to the S.E. point of the oil installation. The chain is available from the shore. Tankers can also moor to the N.N.W. of the oil installation, but must remain outside the 6 m. line.

The tanker hoses are connected to an 8-inch flange connection for diesel oil or a 4-inch hose adaptor with dust-cap for turbo-fuel. The static head on the lines is about 70 m when the tanks are full. An anti-static cable is provided.

On the shore, there are two 50-ton bollards and one 20-ton stock. No breasting or mooring dolphins are provided.
FRESH WATER: Not available.
FUEL: Not available.
REPAIRS: No facilities.
TIME: Standard time is GMT minus 3 hours.
GENERAL: *Repairs:* While alongside the dock, no repairs are to be undertaken that will prevent the main propulsion machinery from being activated at very short notice.

Vessel's Whistle: The vessel's whistle shall be operational during operations. One long blast on the whistle means "Emergency – stop operations".
AUTHORITY: Greenex A/S.

NARSSARSSUAQ (Isrecognosceringsstation): 61.08 N. 45.26 W.

(Also see "General Information" at beginning of Greenland Section)
DESCRIPTION: Ice outlook station, with quay.
CONDITIONS: *(a)* Current: occasional strong N.W. current. *(b)* Tide: average height of high water 3 m. (max. 3.6 m.) low water 1.6 m. *(c)* Wind: S.E. wind sometimes reaches typhoon strength. *(d)* Ice: in Winter ice thickness sometimes reaches 1 m. Ice breaker not available.
PILOTAGE: Not available. Base representative should be advised of ETA well in advance of arrival.
TUGS: None. Port boats assist mooring.
MAX. SIZE: Largest vessel to berth at quay was length 130 m., draft 8 m.
ENTRY: Open season from mid-May to mid-October. During season, port open day and night.
BERTHING: Quay length 140 m., depth alongside (West) 6–11 m. (East) 5–8 m. Height of pier 2 m. above w/l. 2 vessels may berth, 1 on either side of quay. Heavy mooring equipment on the quay, and should be used by larger vessels. Mobile cranes capacity up to 4 tons, and fork-lift trucks.
WATER: Obtainable at quay, about 80 tons per single off-take.
AIRPORT: Landing-strip for aircraft. Ice station usually uses Twin Otter aircraft and S61 Helicopter.
RADIO: Julianehab Radio "OXF".
VHF: Extended from Julianehab.
AUTHORITY: Representative of Ministry for Greenland.

NORTH STAR BUGT (Thule Air Force Base): 76.36 N. 68.52 W.

(Also see "General Information" at beginning of Greenland Section)
DESCRIPTION: Supply port for the Thule Air Force Base. Port is operated by and belongs to the U.S. Air Force.
DAYLIGHT: Polar darkness from 1st November to 10th February and midnight sun from 23rd April to 20th August.
CONDITIONS: *(a)* Ice: port is frozen over from end October to beginning July. From beginning of November, large areas of compact ice appear, and these can sometimes be up to 20 miles wide. During May, compact ice areas commence breaking up; however, large quantities of drift ice remain along the coast until end July. Winter ice is normally about 180 cm. thick. *(b)* Temperature: in January and February average temperature is 29° below zero. In July, June and August, average temperature is usually above freezing-point, but for the rest of the year it is below freezing. *(c)* Tide: mean Spring tide is 3 m. (max. 3.4 m.). Mean neaptide 1.7 m.
ENTRY: Normally, port is open early July depending upon ice situation.
PILOTAGE: No authorised Pilot, but American Port Authority assists in mooring and should be advised of ETA well in advance.
TUGS: None. Port boats assist mooring.
ANCHORAGE: Good holding ground in depth between 20 and 40 m., but anchoring should only be carried out following advice of Port Authority.
MAX. SIZE: Largest vessel to berth alongside quay was length 130 m., and draft 7 m.
BERTHING: 2 vessels may berth at the quay. Depth alongside about 7 m. Height of pier about 2 m. above MHW. Mobile cranes and fork-lift trucks; however, equipment varies from year to year and Port Authorities should be contacted well in advance. 3 amphibious craft for vessels discharging in the roadstead.
FRESH WATER: Available alongside quay.
AIRPORT: Two rescue helicopters stationed at this base.
REGULATIONS: The area is a Military Defence area and special permission is necessary to enter the port. Shore leave is prohibited.
MEDICAL: Hospital, doctor and dentist available.
AUTHORITY: U.S. Air Force.

SONDRE STROMFJORD (Camp Lloyd): 66.00 N. 53.35 W.

(Also see "General Information" at beginning of Greenland Section)

DESCRIPTION: Port is used for the supply of an American base, transit port for passenger carriage, and for air communication to Copenhagen. Port has a quay and a sea terminal for tankers.

DAYLIGHT: Camp Lloyd is situated South of the border for polar darkness but has a midnight sun from 15th June to 1st July.

CONDITIONS: *(a)* Current: the current at entrance and at the West of Sondre Stromfjord is N.E. at flood tide, and S.W. at ebb tide, and can reach a speed of 7 knots. *(b)* Tide: high water at Camp Lloyd is about 3 hours later than at the entrance of Sondre Stromfjord. Height of average high tide 3 m. (max. 3.6 m.). Low tide 1.6 m. *(c)* Ice: Sondre Stromfjord is frozen during winter throughout whole of inner harbour, but about 55 miles from Camp Lloyd, ice thickness varies from 5 cm to 90 cm. *(d)* Winds: strong winds can occur from East and S.E.

ENTRY: On account of ice, the fjord is closed from beginning of January to end-June, but can be used day or night from beginning of July to end-October.

PILOTAGE: No authorised Pilot, but Harbour Master will assist berthing.

ANCHORAGES: Good anchorages about 2 miles S.E. of Emmons Pynt in depth of about 40 m. Great care should be taken in anchoring, since sea bottom is shelving.

BERTHING: *(a)* A quay which is located North of Emmons Pynt, depth alongside only 3 m. *(b)* Tanker sea terminal about 700 m. S.S.E. of Emmons Pynt where there is mooring with discharge lines. Depth of water 24–26 m. on the South side of the mooring position; 15 m. at the mooring, and 10 m. on Northern side of mooring with rapid shelving to the North.

The Port Authorities should be contacted before mooring at the sea terminal. There are mobile cranes with lifting capacity up to 5 tons, and fork-lift trucks.

RADIO: ETA should be given well in advance of arrival to the Royal Greenlandic Commercial Representative and also to the Port Authority. The arrival should be reported at least 24 hours in advance through GLK. The Harbour Master can be contacted on 2716 kc/s. and this contact should be established at least 1 hour before vessels arrival.

MEDICAL: Hospital, doctor and dentist available.

REGULATIONS: Camp Lloyd is an American Defence Area and is restricted. American supply ships have preference in mooring at all installations.

AIRPORT: Heliport.

AUTHORITY: The Royal Greenlandic Commercial Representative – Harbour Master.

SUKKERTOPPEN: 65.25 N. 52.54 W.

(Also see "General Information" at beginning of Greenland Section)

LOCATION: Harbour situated on S.E. side of Manitsoq island, and has Atlantic quay.

CONDITIONS: *(a)* Tide: height of average high water 4.2 m. (max. 4.8 m.), low water 2 m. *(b)* Ice: Winter ice occurs from December to April. *(c)* Wind: advisable not to enter harbour area if winds are strong. Most obstructive winds are storms from South or S.W.

ENTRY: Port open day and night, normally all year round.

PILOTAGE: Pilot is arranged by cable to Sukkertoppen radio when giving ETA, which should be sent well in advance. Pilot will meet vessel as arranged outside the harbour, or at Faltings Skoer.

RADIO: Extended from Godthab "OXI".

TUGS: None. Port motor-boats assist mooring.

MAX. SIZE: Largest vessel that can berth at Atlantic quay is length 100 m., draft 6 m. Vessels up to 4,000 tons have used the port.

BERTHING: Depth in harbour is about 27 m. and alongside Atlantic quay. Length 60 m. with depth of about 6.2 m. Height of quay is about 2 m. above w/l. Cranes up to 5 tons capacity and fork-lift trucks.

WATER: Available at quay.

REPAIRS: Repair workshop for minor repairs. Slip for small vessels (250 tons) and minor repairs.

MEDICAL: Hospitals, doctors and dentist available.

AIRPORT: Heliport.

GENERAL: Telex, telephones, Police, Fire Brigade.

AUTHORITY: Director of Commerce.

NOTES

Please also advise Shipping Guides Ltd.

Guatemala

CHAMPERICO: 91.55 W. 14.17 N.

DOCUMENTS:
- Clearance from Last Port.
- Travel Memorandum (original and 4 copies).
- Declaration of Maritime Health.
- Exemption Certificate of Deratisation.
- 5 Crew Lists.
- 5 Passenger Lists or "no passengers" Declaration.
- 5 Provision Lists.
- 5 Dangerous Cargo, inflammable or explosives, declaration,
- 5 Mail Lists or "no Mail" Declaration.
- Manifests of Cargo from each port (original and 11 copies).
- Bills of Lading from each port.
- Vaccination Certificates for whole crew.
- 12 Ballast Manifests, if no cargo on board.

PILOTAGE: None.

ANCHORAGES: Without limit but recommended *not to anchor* less than 1 km. from beach.

MAX. SIZE: Vessels work cargo at anchorage in depth consistent with vessel's draft.

HEALTH: Give notice of any suspicious illness or fever on board when the doctor comes for official visit.

RADIO: ETA cables through Cristobal (Panama).

TUGS: No tugs required.

STEVEDORES: No advance notice necessary. Possible to arrange gangs within an hour.

MEDICAL: Adequate advance notice required depending on gravity of case. Hospital half an hour away and possible to arrange transport for patient, also to arrange for doctor on board. Crew must have current International Vaccination Certificates.

TANKERS: No facilities for tankers.

DENSITY: Changes from 1.0226 gr./cu.cm. in October to 1.0270 gr./cu.cm. in April. Percentage of salt: Changes from 30.5 parts per thousand in October to 36.4 parts per thousand in April. Temperatures: an annual average of 28.5° C.

FRESH WATER: Free within port limits.

FUEL: No facilities.

DEVELOPMENTS: Project to build a modern port with an entrance channel, artificial bay and capacity for 8 merchant vessels and facilities for fishing ships and tourist ships.

GANGWAY/DECK WATCHMEN: When requested cost 5 dollars per person per day.

OPENING/CLOSING HATCHES: Either by crew or by stevedores.

CUSTOMS ALLOWANCES: Without limit on board. Prohibited to take tobacco, wine or spirits ashore.

CARGO GEAR: Ship's gear used for loading/discharging.

IDENTIFICATION CARDS: Not needed.

CONSULS: None.

REPAIRS: Minor repairs only.

REPATRIATION: All facilities available.

AIRPORT: International airport 3 hours distant with regular airlines all over world.

TIME: GMT minus 6 hours. No alterations to clock during year.

HOLIDAYS: No work on 1st January, Maundy Thursday and Good Friday, 1st May and 25th December. The rest of the year work day and night.

POLICE/AMBULANCE/FIRE: All available.

TELEPHONES: Cannot be placed on the vessels.

GENERAL: Possible to supply provisions, especially vegetables and shell-fish at good prices.

SHORE LEAVE: No restrictions.

DELAYS: Some days in April and October the surge is very strong and work has to be suspended.

AUTHORITY: Capitan del Puerto.

PUERTO BARRIOS: 15.44 N. 88.36 W.

DOCUMENTS:
- Clearance from Last Port.
- Crew List, 1 legalised and 9 copies.
- Passenger List 1 legalised and 7 copies or negatives.
- Cargo Manifest, 1 legalised and 21 copies.
- Stores/Provisions List 3 copies.
- Voyage Memorandum 4 copies.
- Bills of Lading, 2 sets.
- Declaration of Health.

PILOTAGE: Pilot boards 2 miles off Puerto Barrios, from small unmarked launch. If awaiting Pilot, vessel may anchor about three miles North of Puerto Barrios, keeping port entrance clear. No VHF.

ANCHORAGE: In Santo Tomas Bay, depths up to 6 fathoms.

MAX. SIZE: Length 600 ft., draft 30 ft.

HEALTH: Advise Agent in advance if any fever or contagious disease suspected on board. Otherwise pratique granted on arrival. Officials board only between 0600 hrs. and 1800 hrs.

RADIO: Coastal radio in Costa Rica, call sign TIM operating on 8485 kc/s.

TUGS: No tugs available.

BERTHING: One pier owned by International Railway used to discharge fuel oil. 1,000 ft. berthing length on each side. A flag is shown on the pier to indicate where vessel will berth. Berthing recommended during daylight hours only. Tankers discharge on South side of the pier.

See "Shipmaster's Report" for Santo Tomas de Castilla.

FRESH WATER: Available at the pier.

FUEL: Not available.

MEDICAL: Doctor available. All crew require International Vaccination Certificates.

CUSTOMS ALLOWANCES: Normal daily consumption on board. No tobacco, wine or spirits to be taken ashore.

IDENTIFICATION CARDS: Required.

TIME: GMT minus 6 hours; no alterations during the year.

SHORE LEAVE: Allowed.

AUTHORITY: Commandante del Puerto.

SAN JOSE: 13.55 N. 90.50 W.

DOCUMENTS:
- Clearance from Last Port.
- Crew List, 1 legalised and 4 copies.
- Passenger List, 1 legalised and 7 copies.
- Passengers in Transit List, 4 copies.
- Cargo manifest, 1 legalised and 19 copies.
- Stores/Provisions List, 3 copies.
- Voyage Memorandum, 4 copies.
- Cargo Check Lists, 18 copies.
- Mail List, 7 copies.
- Bills of Lading, 2 sets.
- Baggage Declaration, per passenger, 4 copies.
- Declaration of Health.

PILOTAGE: Not required and no resident Pilots available, except for Tankers where services of a Pilot could be made available upon request.

ANCHORAGE: San Jose is a lighter port (open roadstead). Vessels anchor about 0.25 mile from pierhead in 8–9 fathoms of water.

RESTRICTIONS: Normally no pratique granted after 1900 hrs., although in some instances and if prior arrangements made, vessels could be received by Port Authorities up to 2300 hrs. Tankers moor in daylight only.

MAX. SIZE: Size immaterial since no docking facilities. Cargo transported from vessel to pier and vice-versa by means of steel lighters or barges of 35 tons capacity each. This applies to dry cargo only. Bulk, liquid cargo at respective terminals (oil and oil by-products, imports, and molasses export), where vessels proceed after pratique.

HEALTH: Pratique automatic (0700 hrs. to 1900 hrs.), irrespective of previous port of call. Master's obligation to notify Authorities on arrival of any suspected disease and/or fever on board, in order that adequate precautions taken.

RADIO: Messages should be routed via Guatel.

TUGS: None available or required for manoeuvring vessels.

STEVEDORES: No gangs available after 2100 hrs., unless another vessel is working in port. Rate of discharge/loading: dry cargo: 15–20 tons per gang hour. Max. gangs available: 3. Bulk cargo handled ten times faster.

MEDICAL: Hospital available. No vaccination/fever certificates required.

TANKERS: 2 buoy berths for tankers. Discharging lines 8 in. diameter. ESSO Terminal: Mooring Master assists berthing. IRCA Terminal: Stern discharge.

FRESH WATER: None available.

FUEL: None available.

GANGWAY/DECK WATCHMEN: None required or necessary.

OPENING/CLOSING HATCHES: By stevedores.

CUSTOMS ALLOWANCES: On board, no restrictions, but no crew member allowed to bring ashore more than amount required for personal use.

CARGO GEAR: Ship's gear used for loading and discharging dry cargo. Vessels must bring own lines to tie lighters alongside.

IDENTIFICATION CARDS: Necessary for those on shore leave.

CONSULS: All Consulates located in Guatemala City, where vessels' Agents, when and if required, have special documents legalised. Normally, however, Agents can take care of regular certifications required, through port officials, who are authorised to certify documents in absence of a consul of a particular nation.

REPAIRS: No facilities available.

REPATRIATION: Possible. Usually arranged by Agents in cooperation with vessel's Agent in Guatemala City.

AIRPORT: Nearest airport Guatemala City, 108 km. due North of San Jose. Daily flights to and from all parts of world.

TIME: Central Standard Time, GMT minus 6 hours. No changes during year.

HOLIDAYS: January 1st; Holy Thursday; Good Friday; Easter Saturday; March 19th; May 1st; June 30th; July 25th; September 15th; October 20th; November 1st; December 24th; December 25th; December 31st.

POLICE/AMBULANCE/FIRE: These can be contacted through Agent at San Jose and/or Guatemala City.

TELEPHONES: No facilities for placing telephones on board.

SHORE LEAVE: Allowed.

DELAYS: Only 2 dry-cargo vessels can work simultaneously. A third vessel must await departure of 1 of the first 2. Only 1 tanker can work at each bulk liquid cargo terminal.

SHIPMASTER'S REPORT: September, 1978.

Approach was direct from the Pacific. A good landfall was made. San Jose main Light was observed to be Isophase, rather than Occulting, every 20 seconds.

Anchorage: Vessel anchored in a position with the head of the Iron Wharf bearing 011°(T) – 8 cables. We lay to 4 shackles of cable on the starboard anchor, in 13 fathoms of water. Despite a considerable swell at times, the vessel did not drag her anchor. If anchoring, vessels do not take a Pilot.

Berthing: Ocean-going vessels and at times, due to the swell, almost any vessel, cannot berth alongside the wharf. While we were at San Jose a tanker of about 20,000 d.w.t. berthed stern-on with both anchors down, to load molasses.

I understand that, if no tanker is expected, general cargo ships are sometimes berthed in this manner. The tanker employed a Pilot.

Communications; If at anchor, it is best to keep radio watches and maintain long-range communications in this way. When working cargo, the Supervisor is in VHF communication with the Agents, but this facility is not available outside of working days.

Charterer's Agents: Transmares S.A., of Guatemala City, who send a representative to San Jose while a ship is there. They are efficient and helpful.

Documents: As per "Guide to Port Entry". It was not possible to get any documents legalised prior to arrival, but this was arranged by Agents, as also was legalisation of documents for subsequent Central American ports.

Cargo Work: Continuous, weather and the supply of lighters permitting. There are only 3 general cargo gangs in the port and only 2 ships can be worked at a time. The first ship gets 2 gangs, the second ship 1 gang. Many delays were experienced waiting for lighters, and 2 full days discharging time were lost due to the size of the swell.

This is not a very serious problem alongside the ship, but makes discharge of the lighters at the wharf impossible.

Rate of discharge of coiled steel rods was 55 tons per gang-hour, net of delays awaiting barges.

Pratique: Granted on arrival.

Provisions: Not purchased.

Fresh Water: Unobtainable at the anchorage.

Shore Leave: Permitted, but one has to take one's chances of getting a ride to and fro on the lighters. Not many people went ashore and fortunately none were stranded when work was suspended.

SANTO TOMAS DE CASTILLA: 15.42 N. 88.37 W.

DOCUMENTS:

Clearance from Last Port.
Crew List, 1 legalised and 9 copies.
Passenger List, 1 legalised and 7 copies.
Passengers in Transit List, 4 copies.
Cargo Manifest, 1 legalised and 21 copies.
Stores/Provisions List, 3 copies.
Voyage Memorandum, 4 copies.
Cargo Check List, 18 copies.
Mail List, 7 copies.
Bills of Lading, 2 sets.
Baggage Declaration, per passenger 4 copies.
Declaration of Health.

PILOTAGE: Pilot can be taken on board at 2 stations on ship's request, 1 at Manabique Point and the other 1 mile distant from the Villedo lighthouse.

The pilot station and the Control Office of Maritime Traffic of the Navy maintains listening on R.T. frequencies 2738 k/cs., and 156.8 mHz.

ANCHORAGE: Outside of access channel to Santo Tomas de Castilla the whole N.W. side, approximately area of 2 miles with depth between 4 and 5.5 fathoms.

MAX. SIZE: Max. length 600 ft. Currently the port entrance channel is dredged to enable passage of vessel up to a max. draft of 32 ft.

HEALTH: In case of any contagious illness or fever on board the Sanitary Authority will be informed through respective Agent and vessel will moor to be examined by doctor in charge whether to subject vessel to quarantine or not. No automatic pratique.

RADIO: ETA cables to Agent and Receiver made through Coastal Station in Costa Rica; Signal: TIM on 8485 kc/s. or 8/12 mc/s.

TUGS: Tugs' service not compulsory. Use of tug lines, charge is included in tug service.

BERTHING: Possible to arrive at any time. Vessels work cargo alongside quay 2980 ft. berthing length available.

STEVEDORES: Arrangements made between Agent and ship owner. Agent requests services.

MEDICAL: No advance notice necessary. Hospital facilities available. International vaccination certificate required.

TANKERS: Diameter of pipe-lines 16 in. and load/discharge lines 14 in. No slop discharge facilities. Only 1 mooring berth for tankers and max. draft permitted 30 ft. Also see "Shipmasters Report".

DENSITY: 1015.

FRESH WATER: Pipe-lines alongside quay. Delivered by hoses belonging to port, Rate 15 t.p.h.

FUEL: Available, no advance notice required. (Bunker: 60°, and diesel: 38°).

FIRE PRECAUTIONS: No specific precautions for tankers. Hydrants available to combat fires, besides tug's services and Coast Guard ships of Navy.

GANGWAY/DECK WATCHMEN: Not essential. If necessary provided free by port.

OPENING/CLOSING HATCHES: Carried out by crew.

CUSTOMS ALLOWANCES: Tobacco, Wine and/or Spirits: No definite quantity and usually regulated by Captain.

IDENTIFICATION CARDS: Necessary.

CONSULS:

Italy
Holland
Sweden
Germany
Mexico
Honduras
El Salvador

REPAIRS: Only minor deck and engine repairs.

REPATRIATION: Possible.

AIRPORT: 10 km. distance. Aviateca has daily flights to the capital and to Flores Peten.

TIME: GMT minus 6 hours.

HOLIDAYS: 1st January; 7th March; Maundy Thursday and Good Friday; 1st May; 30th June; 15th September; 1st November; 25th December.

TELEPHONES: No facilities for placing telephones on board.

SHORE LEAVE: Possible.

SHIPMASTER'S REPORT: 1976

Approaches: No difficulty once position is ascertained approaching the Gulf of Honduras. The Pilot boarded 3 miles North of the Villedo Shoal Beacon. Pilots have VHF Channel 16 call Porto Barrios Pilots. Only 1 pilot speaks English so if he is on duty there is no difficulty in communications.

The lights on the approach beacons are said to be unreliable but all were found to be good radar targets.

At the present time a dredger is working on a new approach channel to give a 32 ft. buoyed channel past Puerto Barrios up to Santo Tomas de Castilla.

General: There is no tug supplied by the Port Authorities but there is a tug working with the dredger which can be hired on request through the Port Authorities. The Pilot advised that this vessel has the tug for berthing as the ship has a 220 degree turn to make in a restricted turning basin off the berth. The same case applied at unberthing where the Pilot considered it necessary to have the tug to swing the vessel out into the departure channel.

The area is still recovering from the severe earthquake some 8 months ago in which the finger pier at Puerto Barrios was destroyed. This now constitutes a submerged hazard while in the channel on the approaches to Santo Tomas de Castilla. The channel is poorly marked and at present there are numerous survey buoys which can be confusing.

The berth is stern to at the Eastern end of the cargo jetty at Santo Tomas using 2 anchors and backing up to 10 ft. off the jetty from where the hose is passed up to the stern line by a mobile crane. The connection is made by the ship's crew. There is a 1 × 8 in. hose for all grades into a 10 in. shore line which is approximately 5 km. long. The requested back pressure of 8.5 kg. was easily maintained using 2 pumps.

AUTHORITY: Port Commander.

NOTES

Please also advise Shipping Guides Ltd.

Guinea, Republic of

CONAKRY: 09.30 N. 13.44 W.

DOCUMENTS:
7 Crew Lists – Crew list with vaccination date for health service.
5 Passenger Lists.
5 Lists Port of Call (the last ports).
3 Stores Lists.
3 Lists Crew Declaration (personal effects).
5 Manifests of Cargo (if any).
2 Copies of Bills of Lading.

PILOTAGE: Telegraphic address Pilot station: "Harbour Master's Office, Conakry". Pilot meets vessels N.E. of sea buoy Tonnelier.

ANCHORAGE: Safe deep anchorage.

RESTRICTIONS: No entry at night. Channel depth 8 m. MLW.

MAX. SIZE: 600 ft. long. Max. draft for tankers 31–32 ft. HW.

HEALTH: Valid yellow fever and smallpox inoculation Certificates.

RADIO: Conakry Radio 2182-2586 kc/s.

TUGS: Tugs normally connect to starboard side. Ship's lines used.

BERTHING: All tankers berth according to HW. No berthing at night. Berthing 0700 hrs. to 1900 hrs. 10 berths, max. depth 11.5 m.

STEVEDORES: ETA to "Navalguinee" in order arrange gangs.

MEDICAL: Advance notice required for medical service, hospital facilities available.

TANKERS: Pipe-line 5,280 ft. long, 10 in. diameter. 2 tanker berths, 31/32 ft. high-water max. draft at these berths.

DENSITY: 1016 in the port with particular relation to state of tide.

FRESH WATER: Available by connection from pier. Rate of delivery with good pressure 30 t.p.h.

FUEL: Not available.

FIRE PRECAUTIONS: Special fire service for tankers.

GANGWAY/DECK WATCHMEN: Compulsory, particularly for tankers.

OPENING/CLOSING HATCHES: Normally by crew. Stevedores if requested by Master.

CERTIFICATES: Certificate of Deratisation, Log Book.

CUSTOMS ALLOWANCE: Tobacco, 200 cigarettes out of bond. Wine and/or Spirit, 1 litre of spirit and 1 litre of wine per day out of bond.

IDENTIFICATION CARDS: Necessary.

CONSULS: All major maritime nations.

REPAIRS: None available.

REPATRIATION: All facilities exist for effecting crew changes and arranging repatriation to Europe.

AIRPORT: International airport distant 15 km. served by regular airlines.

TIME: GMT plus 1 hour.

HOLIDAYS: New Year's Day (1st January); Women's National Day (9th February); Labour Day (1st May); 1958 Referendum Day (28th September); Independence Day (2nd October); All Saint's Day and Guinea Army's Day (1st November); Anniversary of the Basic Law of 8th November 1964 (8th November); Assumption (15th August); Anniversary of Youth's Creation (J.R.D.A.) (26th March); Christmas (25th December).

Varying holidays which depend on the position of moon: Ramadan – End of fasting; Tabaski – Pilgrimage day at Mecca; Mahouloud – Day after Prophet Mahomed's Birthday.

Work available during holidays, except Labour Day, Independence Day, Ramadan and Tabaski.

POLICE/AMBULANCE/FIRE: Police 17; Ambulance 16; Fire 18.

TELEPHONES: Not possible to place telephones on board.

SERVICES: None.

SHORE LEAVE: Crew allowed ashore.

SHIPMASTER'S REPORT: 1974.

There are no shore or harbour lights in operation. The Tonnelier Buoy is off station together with all channel buoys other than Nos. 3, 6 and 9 all of which are unlit. There is no plan to replace or re-light these navigation marks.

Only 1 tug is available.

Fresh water can only be obtained by Fire Brigade Tanker truck of 4 tonnes capacity at a cost of £1.60 per tonne. This water if received needs chlorination and boiling before use.

Consuls – There is no British Consular Officer resident in this port. The nearest is located at Dakar in Senegal.

Repatriation of crew members by air is possible but difficult. Procedure is as follows;

Air ticket must be purchased outside Guinea. Airline then advises their office at Conakry that purchase has been made. Airline office at Conakry in turn advise ship's Agents when ticket and flight are available. Only then can Immigration formalities be commenced. Entry and exit visas are required and the overall operation may take up to one week.

Time – GMT is kept.

In the rainy season vessels should be prepared for the African Tornado. This usually occurs at night and produces winds reaching 90/100 knots from calm in a matter of minutes. It is as quickly over. The best indication of approach of this weather is a steep rise in the barometer, the highest winds usually Northerly being experienced during the rise.

Vessels berthed at the banana berth should be well fendered as they are subject to considerable movement due to invisible ground swell. A slight starboard list when alongside is an advantage.

SHIPMASTER'S REPORT: 1975.

Radio: Conakry Radio not working on radio telephony as stated, although same information given in List of Coast Stations. (Freetown Radio helped me with the relaying of my messages to Conakry and Europe).

Fresh Water: Only available by truck loads and after written application to Harbour Master, stating exact amount required. (Water is very expensive).

Identification Cards: Seamen's Books or passports used. (No landing permits issued).

Time: GMT.

AUTHORITY: Harbour Master.

PORT KAMSAR: 10.39 N. 14.37 W. (See Plan Book)

DOCUMENTS:
1 Vaccination List.
5 Crew Lists.
5 Passenger Lists.
1 Crew Declaration (Personal effects) List.
1 Stores List.
5 Last Ports of Call Lists.
7 Manifests of Cargo.
5 Copies Bills of Lading.

To ensure the best possible turn-round for general cargo vessels complete sets of the required cargo documents should be made available to the authorities by hand of the Master. Delays have been occasioned by the late arrival of documents sent by post. It would be of help for the Master to send hatch distribution and the amount of refrigerated cargo, if any, at the same time as ETA.

Quarantine, Immigration and Customs: Representatives of the departments board after the vessel has been made fast alongside. The Quarantine Flag "Q" should be flown by arriving vessels.

ARRIVAL ADVICE: Masters are required to send ships ETA, addressed to Harbour Master and/or Shipping Superintendent C.B.G., through Port Kamsar Radio Station, 7 days, 5 days, 3 days and 1 day before arrival at Port Kamsar.

APPROACHES:

Approaches to Rio Nunez: Port Kamsar formerly known as Kakande is located on the East bank of the Rio Nunez river and is approximately 17 km. from the sea.

Vessels bound for Port Kamsar will find there are few natural features to aid a landfall. The most prominent feature is Cape Verga situated to the Eastward of the Rio Nunez entrance. This cape can be observed by radar at a distance of approximately thirty miles. At present the light on Cape Verga is extinguished.

To the Westward of the Rio Nunez entrance are the Compony shoals and Conflict reef. These are screened by a series of light buoys and vessels approaching from the West should keep them well on the port hand. (See "Buoyage System" below).

Another prominent feature is Gonzales Rock on the starboard side close to the entrance to Rio Nunez. During daylight the hull and superstructure of a wreck stranded 765 ft. bearing 049.75° from the old Gonzales light structure is visible and may be picked up by radar at a distance of between ten and fifteen miles. A light buoy is positioned screening the rocks and is identified as buoy No. VII. The true position of the wreck is: 10° 24′ 24″ N., 14° 41′ 18″ W.

Vessels proceeding to Port Kamsar should anchor and await the arrival of the Pilot in the area bounded by Latitudes 10° 26′ N and 10° 28′ N. and Longitudes 14° 44′ W. and 14° 46′ W.

Kamsar Buoyage System: Approaches to Rio Nunez – Sea Buoys

No.	*Shape–Colour*	*Position N.*	*Position W.*	*Characteristic*	*Visibility (miles)*

VIII	Red cylindrical	10° 29.5′	14° 43.9′	FL. 10 secs	5

Charts of the area are as follows:
British Admiralty:
600 Cacheo River to Iles de los.
1562 Rio Nunez and Riviere Compony.
United States Naval Oceanic Office:
51580 Ponta Caio to Cap Verga.
Service Hydrographique de la Marine (These charts are recommended by the Port Captain):
6148 Embouchure du Rio Nunez.
6228 Acces au Rio Nunez.
6288 Abords du Port Kakande.

Rio Nunez Transit: The channel from the mouth of Rio Nunez to the bauxite loading wharf at Port Kamsar is 17 km. in length and 120 m. wide and is well marked by 21 light buoys. The channel is subdivided into an inner and outer channel. The bottom of which consists of mud and sand.

The inner channel extends from the bauxite wharf to point "F" and is dredged to between 8.25 and 8.50 m. below Reference Datum Level (R.D.L.) which is defined at +0.15 m. above the lowest water registered (British Admiralty Tide Tables L.L.W.S. = 0.00).

The outer channel extending from point "F" seaward is dredged to a depth of 9.00 m. below R.D.L. increasing to a depth of – 12.00 m. from km. 15.3 to the sea.

The turning, waiting basin for inbound vessels is dredged to −7.75 m. below R.D.L. the bottom of which is mainly mud and it is good holding ground.

PILOTAGE: Pilotage service is compulsory for all vessels over 150 ft. LOA. Vessels under 150 ft. LOA will also be required to have a Pilot aboard on their first calls, but may be exempt thereafter by consent of the Harbour Master and approval of the Port Director.

Pilots are supplied from the Director's Office. Pilots board vessels in the designated waiting area. When conditions are too unfavourable for a Pilot to board the vessel at the designated area the Pilot will pass instructions by VHF radio, Aldis lamp or loud hailer from the pilot boat, and the vessel will follow the pilot boat in until conditions are suitable for boarding.

Pilot boats are fitted with VHF radio can be contacted on Channel 16 or 12.

ANCHORAGE: See "Approaches".

RESTRICTIONS: Pilots are now berthing ore carriers of any size (up to 225 m. LOA, which is the largest size of ship calling at Port Kamsar) at any stage of tide, including with the half ebbing current of Spring tides during the dry season. However, this performance can be limited during Spring tides in the rainy season.

MAX. SIZE: Max. LOA 225 m. Shipmaster reported max. draft at LW 42 ft. 8 in.

HEALTH: Authorities board when vessel is alongside the berth. Smallpox, yellow fever and Cholera vaccination certificates required.

RADIO: The Port Radio Station is operated by the Post, Telegraph and Telecommunications Department. The equipment includes a 5 kW. transmitter (both voice and telegraph) with the following frequencies.

A.

Frequency	*Power*	*Mode*	*Call Letters*
6383 kHz	5,000 Watts	A 1	3X0 27
8702 kHz	5,000 Watts	A 3	3X0 28
12885 kHz	5,000 Watts	A 3	3X0 29
484 kHz	1,000 Watts	A 1	3X0 30
500 kHz	1,000 Watts	A 1	3X0

NOTE: *Watchhours are at the GMT times shown below:*

0800 – 0850	500 kc/s.
0850 – 0950	6383 kc/s.
0950 – 1100	500 kc/s.
1100 – 1200	6383 kc/s.
1600 – 1700	500 kc/s.
1700 – 1800	6383 kc/s.
2000 – 2100	500 kc/s.
2100 – 2200	6383 kc/s.

B. *Port Operations:*

(1) A new SSB radio telephone set will shortly be installed and be operated on the following frequencies and watchkeeping hours:

Frequency	*Power*	*Mode*	*Call Letters*	*Watch Hours*
2182 kHz	150 Watts	A3H	3X04	8000–1200,
8702 kHz	150 Watts	A3J	3X028	1330–1730
12885 kHz	150 Watts	A3J	3X029	and as required

(2) VHF Channels 16 and 12. Watchkeeping hours: 0800–1200; 1330–1730 and as required.

C. A Radio Direction Finder has been installed and is operating with the following characteristics:

Position: 10° 39′ 41″ North
14° 36′ 25″ West

Frequency:	308 kHz
Signal:	KAM —·—·— — —
Power:	100 Watts
Range:	150 miles (approx.)
Operating Time:	Continuous

It is also planned to install before the end of 1980 a Radio Beacon with a minimum range of 10 miles, on the Sea Buoy No. 111.

D. A further means of communication is through Port Kamsar Post Office through which international connections may be made.

Telegraphic address: BCTR KAMSAR.
Telex : 817 Kamsar.

TUGS: Two tugs in service (1×825 h.p., 1×2,800 h.p.).

BERTHING: Located 17 km. from the channel entrance is the bauxite wharf.

The area alongside the wharf has been dredged to a depth of 13.5 m. below R.D.L. Fendering is separate from the wharf proper, and consists of 12 flexible steel dolphins spaced 21.6 m. apart and protruding 4 m. from the face of the wharf.

A vessel proceeding to the bauxite wharf will normally swing off the berth and make fast port side to, heading seaward, during the flood tide. If the berth is occupied the vessel will be anchored in the turning basin to await the berth.

There is a single loading berth at the wharf. The longest vessel berthed had a LOA of 225 m., which is considered to be the maximum length permissible.

The mobile shiploader has a travel of 165 m., and an outreach of 21 m. from the outside face of the fendering. It is rated at about 4,000 tonnes/hour.

A vessel's air draft, i.e. distance from the waterline to the top of the hatch coaming, must not exceed 13.72 m. (45 ft.) at Highest High Water.

Weight of bauxite loaded is determined by a formula using deadweight survey and weightometer. The weightometer is used for loading runs.

Stowage factor of the dried bauxite is 28 cu.ft./long ton.

Bauxite vessels sail from Port Kamsar during the flood tide. Maximum departure draft is regulated according to tidal conditions.

Facilities for the discharge of petroleum products are also available on the bauxite wharf. Attached to the shiploader is a chicksan arm with an eight inch connection. This feeds 2 main lines, one 16 in. line for Bunker "C", and one 8 in. line for Diesel. Discharge rates average about 450 tonnes/hour at 100 lbs. per sq. in. back pressure at the ships pumps.

Storage facilities are three 10,000 tons Bunker "C" tanks, and two 3,000 tons diesel tanks.

At the same wharf there is a 6 inch line for the discharge of petrol (gasoline) by the same tankers bringing diesel oil. Discharge rates average 60 cu.m.p.h. The storage facilities are two 1,400 cu.m. tanks.

There are 2 small general cargo wharves located at the entrance to the Dougoufissa Creek, where vessels of up to 100 m. LOA with a maximum draft of 6 m., may berth. As there is only 3.5 m. at Lowest Low Water, these vessels will be aground at low water periods.

One of these wharves is equipped with a heavy lift crane – derrick with a maximum S.W.L. of 110 tons. Safe Working Loads are as follows:–

Radius of derrick (metres)	*Lifting capacity (tons)*	*Height under hook (metres)*
16.5	110	29
26	75	23
32 (max.)	45	11

The derrick is also equipped with a secondary hook with a capacity of 20 tons.

Two 400 tons and two 200 tons barges are available for loading and discharging midstream.

WIND/WEATHER/TIDE: In the Rio Nunez approach area waves up to 4 m. can be encountered. At the entrance to the fairway or channel they are generally less than 1 m. high during the rainy season, and less than 0.5 m. high in the dry season. Waves and swell in the inner channel and harbour area are generally very moderate.

The tide, in the the proximity of the buoyed channel, runs N.N.E. and S.S.W. at 2.5 knots under normal conditions, but can reach 4.5 knots during Spring tides in the rainy season.

The flood tide runs parallel with the line of the bauxite loading wharf at a speed of up to 4 knots. The ebb tide, augmented by water coming out of the Dougoufissa Creek, runs through the bauxite wharf at an angle of approximately 20° at a speed of up to 4.5 knots on spring tides in the rainy season, tending to set the vessel off the wharf. It is therefore absolutely essential to tend moorings continuously, particularly on the stern of a loading vessel.

The density of the Rio Nunez at the bauxite loading wharf varies between 1013 (rainy season) and 1028 (dry season) at high water.

Port Kamsar has a typical tropical climate, which is characterised by two separate seasons.

Rainy season from June to October

Maximum rainfall	is during July and August mainly at night.
Relative humidity	is 70 to 80% during the day and 90 to 95% at night.
Temperatures	range from 17 to 38° C, with an average of between 22 to 28° C.
Wind conditions	Variable from between South and West, Force 3 to 6 Beaufort Scale. Possible tornados from between North and N.E. with wind reaching force 10 Beaufort Scale for short periods.

Dry season from November to May

Little rainfall.

Relative humidity	is 30 to 50% during the day, and 80 to 90% at night. There is often coastal fog in the mornings.
Temperatures	range from 15 to 42° C, with an average of between 20 to 35° C.
Wind conditions	Light breezes from the Southwest to West, force 1 to 3 Beaufort Scale.

MEDICAL: Hospital facilities at Port Kamsar are available only on an emergency basis.

TANKERS: See "Berthing".

FRESH WATER: Available in limited quantity on an emergency basis.

TIME: GMT.

HOLIDAYS: New Year's Day (1st January); Labour Day (1st May); Anniversary P.D.G. (14th May); Independence Day (2nd October); Victory Day (22nd November); Christmas Day (25th December); Tabaski (Variable date); Ramadan (Id il Fitri) (Variable date).

All Sundays are also declared Public Holidays. The President may also, at his discretion, declare any other day to be a Public Holiday.

The loading of bauxite is generally continued without stoppage for Public Holidays.

General cargo will not, except in special circumstances, be worked on Victory Day, Tabaski and Ramadan (Id il Fitri). All other Public Holidays are normally worked.

SHORE LEAVE: Crew members are not granted shore leave at present.

GENERAL: *Stores:* Provisions are scarce and therefore not available to calling vessels.

Gangways: Vessels must provide and attend their own gangways. A vessel berthing at the bauxite wharf should have its gangway swung out and ready to lower.

Normal practice of the port is for the foot of the gangway to be heaved out and landed on the wharf after the vessel is fast alongside.

Port Directors Office: The office of the Port Director is solely responsible for the operation of Port Kamsar, which includes the provision of Pilotage, tugs and launches.

The Office acts as sole Agent for all vessels calling at Port Kamsar, including the normal ships business functions performed by ships Agents.

SHIPMASTER'S REPORT: (1974)

Density: Varies from 1013–1028 according to season.

Fresh Water: Available, rate 20 t.p.h. Not recommended as drinking water.

Repairs: Small repairs can be carried out in an emergency.

Airport: Nearest airport is Conakry which is 8 hours away by car.

AUTHORITY: Port Director, Direction du Port.

Guinea Bissau, Republic of

BISSAU: 11.51 N. 15.34 W.

DOCUMENTS:

Entrance Declaration.
Clearance from the last Port of Call.
List of all Passengers on Board, either in transit or disembarking in Bissau.
Provisions List.
List of the Crew Members Effects.
2 Lists of Passengers Baggage.
List of Cargo to disembark in Bissau, Baldeade (Bolama) or otherwise in transit to be disembarked in another port.
List of Cargo (inside sealed envelope).

PILOTAGE: Pilot's base and radio beacon located at Caio Point, (small island at the entrance of Geba's channel). To call the Pilots and/or the radio beacon, send telegram to Servicosmarguine, informing of the ETA at Caio; pilotage is compulsory.

ANCHORAGE: Between Bissau and the Ilheu do Rei.

MAX. SIZE: Draft, 24 ft.

HEALTH: Visit of port doctor compulsory if ship has no doctor, or if permission for exemption has not been required; permission can be requested by radio. When needed, the health services in Bissau can be used by passengers or crew members. Yellow fever and smallpox vaccinations required.

RADIO: Station call sign CQF weekdays on at 0900, 1300, 1600, 1800 hrs. GMT. Sundays 0900 and 1100 hrs. GMT. Frequency 500 kHz, CW.

TUGS: 1 tug of 320 h.p. and 1 of 800 h.p. available.

BERTHING: Ponte, Cais de Bissau, length 131 m., width 25 m., depth 8 m. 1 lifting crane with a max. lifting capacity of 25 metric tons. 1 lifting crane with a max. lifting capacity of 15 metric tons. 7 lifting cranes with a max. lifting capacity of 1.5 metric tons.

STEVEDORES: 1,500 stevedores available for loading and unloading cargo.

FRESH WATER: Available; pumping rate, 10 t.p.h.

FUEL: Diesel available; pumping rate, 6 t.p.h.

CONSULS: Belgium, tel. 3737; France, tel. 2470; Lebanon, tel. 2737.

REPAIRS: Small repairing work can be done on machinery or ship's hull.

AIRPORT: 7 kms. from Bissau; 3 flights to Lisbon per week.

TIME: GMT minus 1 hour all year round.

HOLIDAYS: 1st January; 10th June; 5th October; 1st November; 1st, 8th and 25th of December.

POLICE/AMBULANCE/FIRE: Police, tel. 3925; Ambulance and Fire, tel. 2222.

TELEPHONES: Line connection land-ship, if requested to the Post Office authorities.

SHIPMASTERS REPORT: November 1979.

Vessel from Dakar; bound for Bissau. Speed 14 knots, draft 6.10 m.

Report on the River Entrance to Bissau:

The vessel was proceeding on course 172° (T) and positions taken at various intervals as follows:

0920 hrs.: Cabo Roxo Lt. Ho. Brg. 054° (T) × 20.5 miles
0930 hrs.: Cabo Roxo Lt. Ho. Brg. 047° (T) × 22.0 miles

At 0920 hrs. minimum sounding was taken at 4.0 m. under the keel and Westerly set was applied.

At 0930 hrs. the vessel altered course to 137° (T).

1025 hrs.: Pta. Cabaceira Pt. Brg. 081° (T) × 31 miles
1145 hrs.: Pta. Cabaceira Pt. Brg. 057° (T) × 26.1 miles
1210 hrs.: Pta. Cabaceira Pt. Brg. 048° (T) × 21.5 miles

From 0930 hrs. onwards, poor fixes due to poor radar targets of land points.

From 1020 hrs. the vessel steered various courses to the Fairway Buoy at Lat. 11° 47.3′ N., Long. 16° 41.8′ W., due to strong currents.

At 1145 hrs. Fairway Buoy was found not in position and the vessel altered course and steered heading for pilot station at Caio Island. Caio Island Western Point was picked up on radar at about 16 nautical miles.

Visibility throughout was hazy and poor, about 3-4 nautical miles due to sand dust. Radio beacon at Caio Island was not working. Aero Radio Beacon at Bissau appeared to be unreliable.

1345 hrs.: Vessel anchored South of Caio Island awaiting Pilot.
1415 hrs.: Pilot onboard.

Pilot station at Caio Island had no VHF or other possible means for communication with the vessel. Vessel had to anchor and await Pilot. The Pilot boat is small with a weak engine and at times not working. The Pilot may have to be picked up by own lifeboat. The River Pilot did not speak any English, only Portuguese and was unable to give proper orders to the helmsman. Navigation in River Geba to Bissau was mostly done by the vessel's Officers. Entrance and departure from Bissau cannot be done during the night, as most lights and buoys are unlit. On arrival at Bissau the vessel has to anchor 4 cables N.E. of the jetty and await Harbour Pilot.

1808 hrs.: Vessel anchored at Bissau, 4 cables N.E. of jetty.
1900 hrs.: Vessel berthed at Bissau, starboard side alongside the jetty.

The Harbour Pilot was able to communicate in English. Berthing and unberthing is preferred on flood tide. Current alongside berth up to 3.5 knots. Maximum depth alongside at low water was 20 ft. 3 soundings were taken at low water alongside the wharf: West end: 7.40 m., middle: 6.10 m., East end: 9.30 m., length of wharf 131 m.

Discharging was slow. The vessel stayed 4 days in port to discharge 1,364 m/tons flour in bags of 50 kgs. Cargo worked from 0800 hrs. to 2300 hrs. daily. No cargo work at night due to heavy pilferage from the cargoes, ship's watchmen were kept in all hatches during discharging.

Day of Departure:

0715 hrs.: Vessel left berth.
1210 hrs.: Vessel anchored at Caio Island.
1220 hrs.: Pilot disembarked by ship's lifeboat.
1305 hrs.: Vessel continued voyage.

On departure the pilot boat at Caio Island was not working and the vessel had to use her own lifeboat to disembark the Pilot.

Max. Size: LOA 131 m.

Anchorage: Good anchorage 4 cables N.E. of the wharf. Depth 6-7 fathoms, holding ground was good.

Pilotage: Pilot station on Caio Island which is 50 nautical miles West of Bissau. Request for pilotage is compulsory, via Agent.

Restrictions: Entry by night is difficult as most lights are unlit and the current rises at up to 3.5 knots on the flood and ebb tides, also the navigation aids are poor.

Tugs: Not available.

Berthing: Length of wharf 131 m., depth alongside at low water 20 ft. (FW).

Cargo Handling Facilities: General cargo only handled, there are no lighters, container or ro-ro facilities.

Cranes: 2 mobile cranes, maximum capacity 15 tonnes.

Repairs: Not possible.

Fuel: Not available.

Fresh Water: Supply to the wharf is unreliable.

General: Provisions not available.

Medical: No services available.

Consuls: U.S.S.R., China, Sweden, Portugal, Belgium, Netherlands, Germany, U.S.A., Great Britain and Cuba.

Airport: There is a twice weekly air service from Bissau to Europe. Distance to airport 7 km.

AUTHORITY: Port Director.

NOTES

Please also advise Shipping Guides Ltd.

Guyana

ESSEQUIBO RIVER (Bartica): 06.24 N. 58.37 W.

DOCUMENTS: See "Georgetown".

PILOTAGE: Pilots are stationed at Georgetown. ETA to be given 24 hours in advance to Pilot station. Pilotage compulsory. Pilot boards from black cutter 5 cables N.W. of the Outer Georgetown Light.

Essequibo light (steel framework tower with red and white horizontal bands) marks seaward end of Essequibo main ship channel. Vessels in vicinity of Demerara Pilot station should listen for pilot boat on VHF Channel 16.

RESTRICTIONS: The Essequibo Bar is composed of hard mud and sand. The least depth of water is 3 ft. less than for Demerara Bar. Vessels should not attempt to cross the Essequibo Bar drawing more than 3 ft. less than that predicted for the Demerara Bar.

MAX. SIZE: Controlled by Bar draft predictions.

HEALTH: Pratique given at Georgetown when Pilot boards. If vessel is suspect or infected, Master to advise Harbour Authority by radio before arrival.

RADIO: Demerara Radio call sign 8RB operating on 2182 kc/s. Georgetown Lighthouse operates VHF on Channel 16 and HF on 2738 kc/s. 24 hours a day. Also SSB 8281.2 kHz.

TUGS: Not available.

MEDICAL: Hospital at Georgetown and Bartica. All crew members need valid smallpox vaccination certificates.

DENSITY: 1000, fresh water.

FRESH WATER: Not available.

FUEL: Not available.

OPENING/CLOSING HATCHES: By ship's crew.

CUSTOMS ALLOWANCES: Up to 200 cigarettes and 1 bottle wine or spirits per man. Only 40 cigarettes may be taken ashore at any time.

CONSULS: At Georgetown.

REPAIRS: Government dry dock situated at Mazaruni, approximately 40 miles up river at junction of Essequibo and Mazaruni rivers. Extreme dimensions; 160 ft. by 35 ft.

AUTHORITY: Transport and Harbours Department.

GEORGETOWN: 06.49 N. 58.10 W. (See Plan Book)

PORT LIMITS: Seaward by an arc of a circle with radius 1 nautical mile, with the Georgetown lighthouse as centre.

DOCUMENTS:

Certificate of Registry.
8 Crew Lists.
8 Provisions and Stores Lists.
4 Passenger Lists.

Customs Documents:

2 Reports of Ships Stores (Form C1).
2 Lists of Crew Personal Effects (Form C2).
1 List of Unmanifested Cargo (Form C3).
12 Health Declaration Forms (W.H.O.2)
Health Documents for Crew (1 copy for each crew member).
5 Cargo Manifests.
5 Bills of Lading

PILOTAGE: Vessels apply for Pilots through local Agents or direct to Chief Pilot, Georgetown, through "Demerara Radio, 8 Romeo Bravo", 12 hours in advance of ETA at pilot station when vessel is proceeding in to Georgetown Harbour. Pilot boarding ground is in North-Western quadrant of circle with radius 5 cables and centre the Outer Georgetown Light. Normal international day or night signals for "I require a Pilot" are used. All pilot cutters are painted black (hull) and white (superstructure) with the word "Pilot" painted in white on black ground. Cutters are approximately 60 ft. in length.

ANCHORAGE: There are 5 with a least depth of approximately 20 ft. MLWS named A to E from North to South. Vessels are safely anchored at any of the above anchorages 1.5 to 2 cables from Georgetown park line. Bottom is soft mud and provides good holding ground.

RESTRICTIONS: No entry restrictions except those on draft imposed by the bar at estuaries.

MAX. SIZE: Draft 20 ft. 6 in.

HEALTH: Radio Pratique is not given, and pratique is only given at Georgetown. This normally involves a visit from the Health Authorities if the vessel is clear. If a vessel is "suspect" or "infected" Master should advise Harbour Authority by special message through Demerara Radio or Georgetown Lighthouse and await advice of Port Health Officers; meanwhile, if in the vicinity of Georgetown, vessel may anchor at the specified quarantine anchorage near the Outer Georgetown Buoy as entry into the limits of the port without the authority of the Ministry of Health is prohibited if the vessel is suspect or infected.

RADIO: Name of radio station "Demerara Radio", call sign "8RB", always standing by on 2182 kc/s., will give latest weather report or RDF bearings on request. Georgetown Lighthouse operates VHF on Channel 16, HF 2738 and SSB 8281.21 kHz.

RADAR: No service available.

TUGS: At present, vessels dock stem on to the tide without aid of tugs. However, tugs could be provided if urgently required.

BERTHING: There are 6 main wharves privately and government owned, situated along the river frontage at Georgetown and varying in length from 210 ft. to 730 ft. Depths alongside range from 16 to 20 ft. at low water springs, but as the bottom is soft mud vessels may safely lie aground alongside. Ships work cargo with their own appliances.

BULK HANDLING FACILITIES: The sugar berth is 416 ft. in length with least depth alongside of 18 ft. MLWS and can accommodate vessels up to 530 ft. in length. Loading rate is 500 t.p.h. using 2 chutes. Vessels should not be more than 63 ft. beam.

CRANES: No heavy lift cranes available. Ships gear has to be used. No floating cranes.

BRIDGES: Demerara Harbour Bridge: Floating bridge with retractor span situated 4.2 miles from mouth of river. Arrangements for passing are made by Agents. Bridge operators keep radio watch on VHF Channel 16.

STEVEDORES: Ship's Agent normally arranges for gangs in accordance with cargo plans or Master's cable advice. Gangs are unionised. Stevedores work around the clock every day of the week though they are paid overtime between hours of 1600 and 1900 and they earn time-and-a-half or double time on public holidays according to which one of the 12 public holidays they work.

MEDICAL: No special advance notice of required medical attention is necessary, and hospital facilities are always available. All crew members need to have valid smallpox vaccinations certificates on entry.

TANKERS: There are no residue discharge facilities at this port. There are 4 tanker berths in the Georgetown area.

Rome Terminal (Shell) – depth alongside is 8.5 ft.
Ramsburg Terminal (Esso) – depth alongside 16 ft.
Ramsburg Terminal (Texaco) – depth alongside 8.5 ft.
Providence (Guyoil) – depth alongside 8.5 ft.
Size of pipe-lines: 6 ins.

DENSITY: Average density in port is 1015, though during the rainy season (March-May; October-December) density of water may be as low as 1000 at low water in the harbour.

FRESH WATER: Fresh water is available, and is delivered alongside. The ship is required to pay for labour, overtime, etc., involved in the delivery.

FUEL: In case of emergency, providing advance notice is given by Master, vessels may be partially bunkered at any of Shell, Texaco or Esso installations. Vessels may be required to go alongside 2 hours before high water and leave not later than 1 hour after high water at the above-mentioned installations. Grades of fuel available are "Bunker C" and diesel fuel.

CONSULS: (and Embassies)

Belgium
Brazil
Canada
Colombia
Costa Rica
Cuba
Denmark
Egypt
France
Germany (G.D.R.)
India
Italy
Jamaica
Japan
Korea
Libya
Mexico
Netherlands
Norway
Panama
China (People's Republic)
Sweden
Trinidad & Tobago
United Kingdom
U.S.A.
Venezuela
Yugoslavia

FIRE PRECAUTIONS: There are no stated precautions other than regulations against pumping out residual heavy oil (e.g. "Bunker C"). Ships having cargoes of ammunition, high explosives, dynamite, etc., are required by Harbour Regulations to anchor North of Georgetown Lighthouse prior to proceeding alongside wharf to unload and/or proceeding up river.

GANGWAY/DECK WATCHMEN: Services of watchmen are necessary and can be obtained through a watchman's pool by ships' Agent.

OPENING/CLOSING HATCHES: Normally carried out by ship's crew.

CUSTOMS ALLOWANCES: Each crew member is permitted up to 200 cigarettes aboard held out of bond, but is only allowed to take ashore 40 at any time. Only on a *final discharge* would a member of crew be permitted a tobacco allowance of half-a-pound. Each crew member is allowed to keep out of Bond, 1 (one) bottle of wine or spirits, but is prohibited from taking any of it ashore. Each member of crew is allowed tax-free only one-sixth gallon wine and one-sixth gallon spirits *when he is finally discharged.*

CARGO GEAR: Ships gear.

IDENTIFICATION CARDS: Not required.

REPAIRS: Every type of deck or engine repair is undertaken at Guyana National Engineering Corporation (GNEC) dry dock. Above waterline and engine-room repairs of any type are undertaken on vessels exceeding the dimensions mentioned below while vessel is anchored in the stream.

SURVEYORS: Lloyds. A.B.S. and N.V. in Trinidad.

DRY DOCKS: GNEC Dry dock: A graving dock 210 ft. × 37 ft. 9 in. at entrance situated South of GNEC No. 2 Wharf, which is State owned and operated on normal commercial lines. 198 ft. length of dry dock is on blocks. Breadth: top 46 ft. 4 in., bottom 40 ft. 9 in., depth on sill at HWOST 92 ft.

Government Dry dock: Situated at Mazaruni approx. 40 miles upriver at junction of Essequibo and Mazaruni rivers is a graving dock and has extreme dimensions of approx. 160 ft.×35 ft.

REPATRIATION: Arrangements normally made through ships Agents.

AIRPORT: Timehri International Airport is situated approx. 30 miles South of Georgetown with highway connection and is served by many intercontinental airlines.

TIME: 3 hours behind GMT. No alterations made to clocks during the year.

HOLIDAYS: New Year (January 1st); *Eid-ul-Ahza; *Phagwah; Republic Day (February 23rd); Good Friday (April 12th); Easter Monday (April 15th); Labour Day (May 1st); *Youman Naubi; Caribbean Day (July 5th); Commonwealth Day (First Monday in August); *Deepavali; Christmas Day (December 25th); Boxing Day (December 26th). *Religious holidays are variable.

POLICE/AMBULANCE/FIRE: Tel. 999. There are Police/Ambulance/Fire Stations on the waterfront.

TELEPHONES: Could be arranged through Coast Station 8RB.

SHORE LEAVE: Granted by Immigration Boarding Officer.

DELAYS: Only when berths are occupied.

AUTHORITY: Transport and Harbours Department.

LINDEN: 06.00 N. 58.17 W.

DOCUMENTS: See "Georgetown".
PILOTAGE: Pilots are stationed at Georgetown. ETA to be given 12 hours in advance to pilot station. Pilotage compulsory. Pilot boards from black cutter 5 cables N.W. of the Outer Georgetown Light.

From Georgetown to Linden and Linden to Georgetown, pilotage not compulsory, but advisable to use G.N.E.C. pilots.
RESTRICTIONS: Governed by depth of water at Demerara River Bar. Entrance normally at HW. Max. speed limit on the river is 10 knots.
ANCHORAGE: Vessels proceeding to Linden in ballast and drawing less than 15 ft. may anchor beyond Southern limit of Georgetown. Depths – 16–18 ft. MLWS.
MAX. SIZE: Draft 21 ft. 6 in.
HEALTH: Pratique given at Georgetown by Health Authorities. If vessel is suspect or infected, Master to advise Harbour Authority by radio before arrival.
RADIO: Demerara Radio call sign 8RB operating on 2182 kc/s. Georgetown Lighthouse operates VHF on Channel 16 and HF on 2738 kc/s., 24 hours a day. Also SSB 8281.2 kHz.
TUGS: Not available.
BERTHING: There are 2 bauxite berths accommodating vessels of up to 570 ft. One loader for metal grades has an airdraft of 29 ft. 8 in. and a loading rate of 800 t.p.h. The second loader for calcined bauxite has an airdraft of 34 ft. and a loading rate of 350 t.p.h.

The Alumina berth has a travelling tower with an airdraft of 64 ft. and a loading rate of 400 t.p.h. Max. beam of vessel 85 ft.
MEDICAL: Hospital at Georgetown. At Linden all crew members need valid smallpox vaccination certificates.
DENSITY: 1000, fresh water.
FRESH WATER: Can be supplied.
FUEL: Can be supplied.
OPENING/CLOSING HATCHES: By ship's crew.
CUSTOMS ALLOWANCES: Up to 200 cigarettes and 1 bottle wine or spirits per man. Only 40 cigarettes may be taken ashore at any time.
CONSULS/REPAIRS: At Georgetown.
AUTHORITY: Transport and Harbours Department.

NEW AMSTERDAM (Everton, Berbice): 06.14 N. 57.31 W.

DOCUMENTS: See "Georgetown".
PILOTAGE: Pilots are stationed at Georgetown. ETA to be given 24 hours in advance to pilot station. Pilotage compulsory. Pilot boards from black cutter 5 cables N.W. of the Outer Georgetown Light.
RESTRICTIONS: The Berbice Bar is composed of fairly hard mud. Vessels may cross the Berbice Bar on even keel loaded to 4 ft. less than the Demerara Bar predictions.
MAX. SIZE: Controlled by Bar draft predictions.
HEALTH: Pratique given at Berbice by Health Authorities. If vessel is suspect or infected, Master to advise Harbour Authority by radio before arrival.
RADIO: Demerara Radio call sign 8RB operating on 2182 kc/s. Georgetown Lighthouse operates VHF on Channel 16 and HF on 2738 kc/s., 24 hours a day. Also SSB 8281.2 kHz.
TUGS: Not available.
BERTHING: The Bauxite berth is about 1,500 ft. long, and has a fixed loading arm with an average loading rate of 500 t.p.h. The airdraft is 36 ft.

There is a strong ebb current of about 4–5 knots, although the flood runs at about 3 knots.
MEDICAL: Hospital at Georgetown. All crew members need valid smallpox vaccination certificates at New Amsterdam – Berbice.
DENSITY: 1000, freshwater.
FRESH WATER: Can be supplied.
FUEL: Can be supplied.
OPENING/CLOSING HATCHES: By ship's crew.
CUSTOMS ALLOWANCES: Up to 200 cigarettes and 1 bottle wine or spirits per man. Only 40 cigarettes may be taken ashore at any time.
CONSULS/REPAIRS: At Georgetown.
AUTHORITY: Transport and Harbours Department.

NOTES

Please also advise Shipping Guides Ltd.

Haiti

CAP HAITIEN: 19.46 N. 72.12 W.

GENERAL: For all general information refer to "Port-au-Prince".
APPROACHES: The current is about 3 knots in the entrance to the port when the river is in flood.
ANCHORAGE: Vessels which are unable to moor alongside because of deeper draft are anchored off the wharf.
BERTHING: The wharf at Cap Haitien was constructed by the Compania Industrial Maritima. The construction is in reinforced concrete. It extends for a length of 900 ft. in an Easterly direction and comprises 3 sections. The most important section is 600 ft. long and has berths for deep sea vessels on the South side in depths of 30 ft. The Western section, nearest the shore, is 300 ft. long with variable depths of 7 to 9 ft. alongside, with berths for motor vessels of small tonnage and sailing ships. The central section accommodates the customs offices. 2 metal warehouses border the East and West ends of the wharf. Between the warehouses is 1 fixed crane of 30 tons capacity.
FRESH WATER: Fresh water is available at Cap Haitien.
FUEL: Available, only in drums.

MIRAGOANE: 18.25 N. 73.04 W.

GENERAL: For all general information refer to "Port-au-Prince".
BERTHING: The facilities at Miragoane are 1 small jetty for loading and discharging general cargo with a depth alongside of 18 ft. max.

There is a wharf for loading bauxite, belonging to the Reynolds Company, with a depth alongside of 34 ft. Total annual export about 350,000 tons.

PORT-AU-PRINCE: 18.33 N. 72.21 W.

APPROACHES: The port of Port-au-Prince is situated at the extreme S.E. of the bay. It can be approached from the North and from the South by 2 channels.

One may approach from the N.E. by the Saint-Marc channel or from the West by the Gonave channel, between Trou-Forban Point and the village of Ca-Ira. The bay extends between Trou-Forban Point in the North and the village of Ca-Ira about 20 miles to the South. The position of Ca-Ira is 18° 32′ N. 72° 39′ W. From Ca-Ira the South coast of the bay extends about 2 miles N.E. and about 12 miles East to Pointe Lamentin.
PILOTAGE: Pilotage is compulsory for all movements of ships in the port. The Pilot boards to the West of the fairway buoy and is accompanied by port officials, i.e. Port Doctor and Representatives of Immigration, Police and Customs. These officials insist on using the accommodation ladder to board the vessel. Masters must arrange with their respective Agents the time which they will require a Pilot to leave the port. If they are ready to depart before the hour arranged they may call the Pilot by 3 blasts of the ship's whistle.
ANCHORAGE: Vessels must anchor to the West of the large red buoy number 29 or at the quarantine buoy, situated about 0.5 mile N.N.W. of buoy number 29. A bottom of sand over coral is to be found all over this region in depths of 10 to 18 fathoms.

Vessels may anchor or depart at any hour of the day or night.

In order to facilitate the rapid movement of vessels, these are normally anchored in order of arrival.
WEATHER: The Bay of Port-au-Prince is nearly always calm except at certain times of the year; for example, during the months from May to November, occasional strong winds may interrupt normal loading and discharging movements.

A light breeze from the East or N.E. blows after dawn, but in the afternoon a breeze 3 times stronger blows in the opposite direction.

The height of the tide is only 1.5 ft. Currents in the port are almost negligible, except that, when mooring or unmooring a vessel, one should pay attention to a Northerly current of about a quarter of a knot.
RADIO: All deep-sea vessels which enter the territorial waters of Haiti are obliged to advise the Port Radio Station.

The radio station is situated at the Bureau de Port. It is in operation 24 hours a day.

Visual light signalling may also be carried out as far as it is possible to do this.

The following apparatus is used at the radio station:

1. VHF calls to be on Channel 16. Channel 12 is also monitored continuously. Channel 6 and 18 are also available on request to the radio operator (Channel 16) Power 50 watts, range 40 miles.
2. Medium frequency, SSB compatible frequencies 2182 kHz, 2738 kHz. Power 150 watts, range about 250 miles.

In addition to the VHF Channels, the Pilots may use radio-telephone on the following frequencies: 2182 and 2738 kHz.

The general call and distress frequency 2182 kHz is monitored continuously.

All messages addressed to the Port Authorities and messages concerning pilotage must be handled at this radio station.

Masters are particularly required to give the radio station, as soon as they arrive, the following information:

Vessel's draft and net tonnage, amount of cargo for discharge, number of gangs required.

The telephone number of the radio station is 24773.
TUGS: The port has at present a tug of 2,000 h.p. available at all times. The tug is compulsory for ship from 990 tons gross and upwards. At all times 2 wooden mooring launches, each 32 ft. long, are available for Pilot's use.
BERTHING: For passenger cruise liners there is a concrete finger pier, length 888 ft., with berths on both sides, with depth alongside of 30 ft.

The New Port facilities are presently in service, located 600 ft. North of and parallel to the existing pier.

Prime features of new facilities are:
Length of berthing space: 1,400 ft.
Width of apron 93 ft.
Container crane on rails on the apron with 30 tons capacity.
Depth alongside 33 ft.

1 additional ro/ro platform. 2 metal and concrete, clear span transit sheds, each 6,000 sq. ft. Paved open storage and roadways approximately 25 acres.

There is an angular portion of 100 ft. between Quays No. 1 and 2 which may not be used for mooring, but which the bow of the ship may overhang. Vessels must be secured by at least 2 mooring cables at the bow and at the stern.

The Port Authorities require for vessels manoeuvring in the port a minimum of 2 ft. of water under the keel. This regulation may be modified by special authorisation of the Chef de Port.

In addition to the public pier, there are 5 jetties belonging to private companies used for handling products in bulk. These jetties belong to the following companies:

A. La Hasco, sugar refinery established at Port-au-Prince.
B. La Minoterie, flour mill situated at Laffiteau.
C. Le Ciment d'Haiti SA, cement factory situated at Fonds Mombin.
D. Jean Ackmed, fuel installation situated at Simonette.

The above jetties are established on the North side of the bay.

E. Installations of Shell Company and Tropigas on the South side of the bay, equipped with their own mooring buoys for tankers.

CARGO HANDLING: For vessels loading and discharging at the public pier, cargo is transported on railway trucks of 25 tons max. capacity.

1 quay is equipped for container ships. 1 quay is equipped to handle roll-on/roll-off traffic.
STEVEDORES: Loading and discharging of ships is carried out by gangs of private workers who are engaged by the ship's Agents under the supervision of a chief stevedore. The working gangs use the ship's own equipment for loading and discharge.

Handling rates are normally about 15 t.p.h. for general cargo, or about 25 t.p.h. for heavy articles, such as drums, planks, bundles of steel rods, etc.

Normal working hours in the port are from 0700 hrs. to 1900 hrs. from Monday through Saturday. Overtime is payable for work required at other than these hours and also for work required on Sundays and holidays.
FRESH WATER: Drinking water is available in the port; however, the ship must provide its own connections. Rate of loading varies from 4 to 10 t.p.h.
FUEL: There is no service for coal bunkers. Fuel oil may be supplied by tanker truck.
REPAIRS: There are no proper facilities for ship's repairs although minor repairs may be effected by small private workshops ashore. There is a small dry dock at Bizoton about 1 mile from the port, with a capacity of about 1,000 tons and able to receive vessels up to 175 ft. in length. This yard is managed by the Haitian Army Coast Guard.
MEDICAL: There are adequate medical facilities, pharmacies and hospitals.
AIRPORT: An international airport for jet planes connects Haiti with Principle U.S. and Carribean points. A local air service connects Port-au-Prince with principal towns of the Republic.
FIRE-FIGHTING EQUIPMENT: The Port Authority does not own any equipment for fire-fighting or assisting vessels in need. However, there is a town fire service organised by the Army.
HOLIDAYS: *Legal Holidays:*

Independence Day (1st and 2nd January); Labour Day (1st May); Flag Day (18th May); Ascension Day; Assumption (15th August); All Saints (1st November); Commemoration Day (13th November); Discovery of Haiti (5th December).

Authorised Holidays:

Lundi-Gras (half-day); Mardi-Gras; Good Thursday; Good Friday; Pan-American Day (14th April); President's Day (22nd June); Dessaline's Anniversary (17th October); United Nations Day (24th October); Fete des Morts (2nd November).
SERVICES: Fresh provisions are obtainable locally.

There are no facilities for refuse collection, but nevertheless it is forbidden to throw refuse, cinders or any other polluting material overboard.

Launches used for the transport of tourists are available at Port-au-Prince and these are operated by private companies. The Port Authority does not take an active part in the traffic of tourist passengers. Those who disembark on the wharf from cargo vessels or cruising liners must make their way on foot to the taxi station to take part in excursion tours. However, the majority of tourists coming on passenger liners anchored in the roads disembark by launches belonging to the Department of Tourism. They disembark at the Quai Colomb, which is under the authority of the Department of Tourism.
DEVELOPMENTS: New port facilities are presently under construction, located 800 ft. North of and parallel to the existing pier.

SHIPMASTER'S REPORT: (1975).
Documents:

Clearance from last port.
4 Crew Lists.
4 Passenger Lists
2 Cargo Manifests
18 Cargo Check lists
International Declaration of Health
Vaccination/Inoculation List (1) with valid dates.
International Vaccination Cards, these may be examined by Port Health.

Pilotage: Compulsory, 24 hour service arriving/departing. Require ETA to Agent 24 hours in advance. Pilot Station may be contacted on voice radio 2182 kHz, 2738 kHz and VHF Channels 16 and 12. Pilots board at quarantine anchorage buoy. Pilot boat has yellow hull and superstructure, 2 ft. freeboard. "Pilot" clearly painted on hull.

Anchorages: The harbour affords good anchorage in depths of 5 to 14 fathoms, clear of the entrance ranges southward. The Quarantine Anchorage is located about 2.5 miles East-northeastward of Pointe Lamintin.
Restrictions: See Sailing Directions for Prohibited Anchorages.
Max. Size: This ship is 495 ft. in length, with 69 ft. beam, we were accommodated easily. Passengers ships of 620 ft. in length are regular callers at the port. Maximum depths at the pier is 30 ft. Mean High Water Interval at the port is 08 hours 23 minutes. Spring tides rise 1.5 ft. Currents in the approach set East in the Canal de la Gonave, and Northwest in the Canal de Saint Marc. All buoys, lights, and navigation aids are unreliable.
Health: Pratique is now granted at the dock. Ship displays "Q" flag until cleared.
Radio: ETAs to Agents/receivers are best sent through WNU (Tropical Radio) at New Orleans, Louisiana or ITT station at Lantana, Florida, these stations then telex direct. Port Pilots will relay messages to Agents on voice radio 2738 kHz. Short range reception on voice radio has been experienced.
Berthing: Main pier, has 1,700 ft. of berthing space on its Southern side with depths of 18 to 29.5 ft. Ship's always berth port side to, using the starboard anchor to assist in docking and undocking. A T-head pier with a pipe-line is located 2 miles Westward of the city. Mooring buoys lie off the end of this pier. It has been reported, (unverified) that this pier accommodated a tanker 560 ft. long, with a draft of 31.5 ft. in 1957.
Stevedores: Advise Agent tons per hatch at least 24 hours prior to arrival. Maximum amount of labour is available. Rate of discharging/loading is approximately 18 to 30 tons per gang hour on sacks, bales, cases, general cargo. Work after midnight is overtime with charges quite high.
Medical: Give Agent prior notice for any required medical attention. 3 hospitals available. Minor dental work can be accomplished. International Certificates with Cholera and Smallpox are required.
Density: 1025 as per this ship's test.
Fresh Water: None available at this time.
Fuel: None available at this time.
Developments: A 25 million dollar port expansion and construction project commenced October 1975. This new area is located 800 ft. North of the general cargo pier. From the shore in a Westerly direction the new pier shall extend 1,685 ft. in length, 469 ft. in width, with a working apron on the South side 81 ft. from the end of the ship's side. The pier will contain 2 warehouses; one 207 by 1,101 ft., and the other 180 by 447 ft. The Eastern end shall have 2 separate roll-on/roll-off sections. A container crane on rails shall traverse the entire South side working apron, capable of loads not to exceed 30 long tons. Dredging and filling has commenced and they are working towards a 30 ft. maximum depth at completion.
Gangway/Deck Watchmen: Cost unknown, supplied by Agent. Gangway watchman is recommended. If transit cargo is pilferable, I recommend using crew members for cargo hold security.
Hatches: (Automatic hatches) opening/closing normally carried out by stevedores with crew member supervision.
Customs Allowances: Bonded stores were not sealed, store lists were not required. Ship allowed each crew member 200 cigarettes. Local Customs Officials make no special requirements.
Cargo Gear: All loading/discharging by ship's gear. Fork lifts are available. There is a shortage of pallets and railroad flat cars which are used to accept cargo direct from the ship's gear on the dock. Warehouse space is limited.
Identification Cards: Shore passes not required, none issued by local authorities.
Consuls: United States of America; Panama; Lebanon; Republic of China, France.
Repairs: No facilities available.
Dry Docks: None available.
Repatriation: Possible.
Airport: 1 major airport. Located 40 minutes from the port area. Daily flights to North America. (Miami and New York)
Time: GMT plus 5 hours. No alterations to clocks during the year.
Holidays: December 5th Columbus Exploration Day; Christmas, New Year's Eve, New Year's Day. Cargo work can be arranged on most holidays at overtime rates.
Police/Ambulance/Fire: Utilise Agent for emergencies of this type, or have watchman make use of telephone from dock. "Fire". There are no international hose fittings on the dock, and limited means of handling shipboard fires from ashore.
Telephones: None available for placement on board the ship.
Services: Special services non-existent.
Shore Leave: Crew members are allowed ashore. No curfews, no passes required.
Port Regulations: Nothing unusual or out of the ordinary.
Delays: Possible berthing delays exist due to ship congestion. Delays in discharging may occur due to lack of warehouse space, pallets, or rail cars.
Agents: Agents and most officials including watchmen and stevedore supervisors speak English. All official documents and ship's clearance papers are written in French. The language spoken is predominately French (patois) with inflections that are easy on the ears, but difficult to utilise operationally.
AUTHORITY: Administration Portuaire de Port-au-Prince.

NOTES

Please also advise Shipping Guides Ltd.

Honduras

AMAPALA: 13.18 N. 87.39 W.

OPERATIONS AT THIS PORT HAVE BEEN SUPERSEDED BY THE NEW PORT SAN LORENZO (HENECAN)

DOCUMENTS:

Maritime Declaration of Health.
Crew List, 3 legalised and 7 copies.
Provisions List, 3 legalised and 7 copies.
Passengers Disembarking List, 3 legalised and 7 copies.
Passengers in Transit List, 3 legalised and 7 copies.
Voyage Memorandum, 6 copies.
Cargo Manifest, 2 legalised and 14 copies.
Cargo Tally Books, 15 copies.
Mail List, 4 copies.

Documents are legalised at loading port by Honduran Consul or consul of friendly nation. If no consul, then by the Port Captain. 2 copies of Cargo Manifest, Freight List, Bills of Lading, and Stowage Plan should be airmailed to Agent in advance.

If documents legalised by the Port Captain, 1 copy of each manifest should be sent by airmail to "Secretaria Economia y Hacienda Tegucigalpa", and "Custom House, Amapala".

Shipmaster's Report: Papers required for entering as follows:

10 Spanish Crew Lists with I.D. Nos.
10 Passenger Lists.
10 Store Lists.
3 Memorandum of Voyage.
1 Maritime Declaration of Health.
5 Mail Reports (only if carrying mail).

I.D. books asked for and checked with crew list. Bond not sealed. Shop not sealed.

PILOTAGE: Pilot available, to be ordered by Agent in advance.

ANCHORAGE: Open anchorage area in depths up to 32 ft.

RESTRICTIONS: Vessels enter and leave at high water only, max. recommended draft 28 ft.

MAX. SIZE: Vessels up to 10,000 g.r.t. have entered, with 30 ft. draft.

HEALTH: Vessels are cleared by Health Inspector on arrival. International Health regulations apply.

RADIO: Contact via "Tropical Radio".

TUGS: None available.

VHF: Agents on Channel 10.

STEVEDORES: Arranged by Agent. Working hours 0700–1200 hrs. and 1300–0700 hrs.

MEDICAL: No hospital facilities. Only minor cases can be dealt with locally.

FRESH WATER: Not available.

FUEL: Not available.

IDENTIFICATION CARDS: Not required.

CONSULS: Nicaragua, represented locally.

REPAIRS: Not possible.

TIME: GMT minus 6 hours, no alterations during year.

SHORE LEAVE: Allowed, no restrictions.

SHIPMASTER'S REPORT:

(1) I found that the safest approach is through the passage between Isla Conchaguita and Isla Jeanguera. It is also the best place to anchor and wait for a Pilot.

(2) The Charts covering this port do not appear accurate, and no further approach towards Amapala should be made without the guidance of a Pilot or a boat.

(3) There are no buoys.

(4) The passage from anchorage towards Amapala along the West Coast of Isla Del Tigre is very narrow and water depth recorded by ship's soundings gave only 24 ft. in places, with a maximum of 30 ft. There is room only to swing the ship on her axis.

(5) Pilot is available, or otherwise there is a boat guiding vessel into Amapala.

(6) Cargo operations are performed at anchorage about 3 cables from Amapala. Cargo is discharged into barges. Stevedores are not very professional and cargo damage may be expected. Many stevedores work in bare feet and thus accidents on board may be expected.

AUTHORITY: Port Commander.

LA CEIBA: 15.46 N., 86.50 W.

SHIPMASTER'S REPORT: February 1979

DOCUMENTS:

10 copies of Crew List
6 copies of Store List
6 copies of Bonded Stores List
4 copies of Vaccination List
Mail Report
Passenger Report

PILOTAGE: Compulsory. Pilot boards 0.5 miles from the pier. Two hours notice required.

ANCHORAGE: Good anchorage 5 cables, 129° from pier, depth of water 40 ft.

RESTRICTIONS: Vessels able to berth and unberth at any stage of the tide day or night. Limiting factors are length and forward draft of vessel.

MAX. SIZE: Max. LOA 600 ft. However, the after end of the vessel would overhang end of berth (This vessel loaded to 23 ft. draft).

HEALTH: Quarantine officials operate between 0600 hrs. and 1800 hrs. Two hours notice of arrival required.

RADIO: HRW – Standard Fruit operate from their own radio station. They handle vessels traffic on 6350.5, 8560 and 12750 kc/s. They also listen on 500 kc/s. and 8 mc/s.

Hours of operation: (GMT) 1355–1410, 1455–1510, 1555–1610, 1955–2010, 2055–2110 and 2355–0010.

VHF: The Agent is on Channel 16.

TUGS: Not available. Vessel is able to dock and undock with assistance of tugs.

BERTHING: One berth only available which is a finger type pier at right angles to the shore. Nature of the bottom at the berth is sand. Vessels normally berth port side to, and load through the side doors.

Mooring gang (6 men) come aboard with the Pilot to assist. The bananas are loaded direct from the rail cars using spiral elevators. It is usual to load all decks at the same time.

There are no facilities for handling bulk cargoes or Ro/Ro vessels. There are no shore cranes or floating cranes. There is no storage space for breakbulk cargo or palletised cargo.

Fendering: Pier fendered with the usual Standard Fruit type fendering, vertical uprights on a horizontal "V" bellows on horizontal girders.

CHARTS: B.A. Chart No. 513 (Isla Roatan to Puerto Cortes) and U.S.G. 5393 (positions on this chart are 2.5 miles West South West of British Admiralty chart).

CONSULS: None.

SERVICES: Fresh water, fresh provisions, airport, telex, doctor, hospital, groceries and meats all available.

Labour: Shore labour is available for contract work such as scavenge cleaning, hull painting, etc. The work carried out during our stay was satisfactory and the rate for the foreman was US $1.50 per hour and workmen US $1.00 per hour.

PUERTO CORTES: 15.50 N. 87.55 W. **(See Plan Book)**

DOCUMENTS:

Health Declaration. 2 copies.
Zarpe or Clearance Permit from the Last Port.
General Cargo Manifest (in ballast if that is the case) of all the cargo to be discharged in Puerto Cortes, and 14 copies.
Crew List and 10 copies.
Passengers in transit, or no passenger declaration and 10 copies.
Deratisation Certificate, only in first call.
Stores List and 8 copies.
Mail Sacks declaration (negative or positive).
Bills of Ladings (if some cargo is coming) 3 complete sets.
Hatch list and 5 copies.

All the original documents must be signed and stamped by the Honduran Consul at the port before calling Honduras and should be made in Spanish.

If no consul of Honduras available, documents to be legalised by consul of a friendly nation or by the Chamber of Commerce, stating the facts.

PILOTAGE: Compulsory for vessels over 300 g.r.t. ETA to the Agent, 72, 48 and 24 hours ahead of arrival required. Pilot on VHF Channels 16 and 6.

ANCHORAGES: Once the ship enters the bay, *if no berth space has been notified to the Master,* she should anchor at a distance beyond 0.5 miles from the nearest pier, and wait for the boarding of the official party to be granted free pratique.

RESTRICTIONS: Vessels may enter the port day or night but not visited by Port Authorities between 2000 hrs. to 0600 hrs., only in special cases.

MAX. SIZE: Dry cargo vessels up to 30 ft. draft. Tankers up to 43 ft. draft.

HEALTH: Pratique granted after Port Authorities (including doctor) board vessel between 0600–2000 hrs. Pratique granted if no contagious illnesses aboard, otherwise quarantine restrictions imposed. No automatic free pratique when arriving from another port of Honduras.

RADIO: Lantana Radio WOE. New Orleans Radio WNU. Limon TIM. Balboa Radio NBA. Miami Radio WAX. Messages routed via Tropical Radio.

Port Authority operates a station HQSU, monitoring 2738 kHz, but by appointment can reply in any other position. Telegrams to be routed via Tropical Radio. Lantana WOE. New Orleans WNU. Limon TIM. Balbao BNA. Miami WAX.

Ship's radio not to be used in port except for communication with the port authority. Vessel is fined if there is a violation. Also see "VHF".

VHF: Puerto Cortes Radio: Call sign "Cortes Radio". Channel 16.

Hours: Weekdays 0600–2200; Saturdays 0800–1200 and Sundays Nil.

BERTHING: The Agent to supply information as to berth, and time of docking. Pilot will board the vessel and berth it, assisted by a launch to hold ropes. Departure should be effected when the despatch documents are on board and operations finished.

Pier No. 1 (Texaco Pier), for tankers or ships loading diesel or lub-oil; depth 45 ft.

Pier No. 2 (Banana Pier) length is 810 ft., depth 24 ft.

Pier No. 3 (General Cargo and Ro/Ro Pier) 630 ft., depth 30 ft.

Pier No. 4 (General Cargo and Ro/Ro Pier) Length 1,112 ft., depth 30 ft.

Pier No. 5 (Container Terminal, it also handles dry bulk cargo) length 1,127 ft., depth 33 ft.

CRANES: One P & H. 300 ton capacity crane, one Paceco Container Crane 45 ton capacity and eight cranes of varying capacities.

BULK CARGO FACILITIES: Pier No. 5 (Container Terminal) is used as a multi-function pier, it is used to handle grain, ores, fertilizers and bulk sugar. It is large enough to be able to handle both operations simultaneously.

STEVEDORES: Vessels must give accurate ETA at least 24 hours in advance to enable Agents order necessary gangs. Gangs ordered 0700 and 2100 hrs. working 12 hours (daytime) and 9 hours (night-time) excluding the meal hours (0600–0700; 1200–1300; 1700–1800 and 2300–2330). No work on Holy Friday, May 1st (Labour Day), on other holidays work is possible with double payment.

MEDICAL: No advance notice necessary for medical attention, except

in very urgent cases. At San Pedro Sula (35 miles by road) you can obtain very good medical service but several medical clinics are serving this Port. No inoculations required but Master should possess International Health Cards for each member of crew.
TANKERS: Discharge at Texaco Oil Refinery, cable address "Reftexa".
DENSITY: 1028/1030.
FRESH WATER: Water available at wharf face at 100 ft. intervals. Rate, approx. 8–10 t.p.h. However, it is advisable to arrive with sufficient water as there is a shortage due to a recent earthquake.
FUEL: All grades available. 24 hours notice is required for good service.
GANGWAY/DECK WATCHMEN: Shore watchmen not usually required and this service left to discretion of the Master.
OPENING/CLOSING HATCHES: On liners normally by crew with assistance of stevedores, otherwise according Charter Party.
CERTIFICATES: On first call, Registered Tonnage Certificate; thereafter not required unless gross/net tonnage be changed.
CUSTOMS ALLOWANCE: No restrictions, free use on board. Customs officials check no sales shore without special permit.
IDENTIFICATION CARDS: Identification card must be shown to gate watchman when crew members come back aboard.
CONSULS: None in the port. American Consulate at Tegucigalpa, 200 miles by road.
REPAIRS: Local marine repair companies can undertake limited repairs of general nature; pre-advice recommended.
REPATRIATION: All facilities available for effecting crew change and repatriation by sea or air.
AIRPORT: International Airport Ramon Villeda Morales served by regular airlines. 35 miles by road.
TIME: GMT minus 6 hours, no changes during year.
HOLIDAYS: January 1st; April 14th; May 1st; Thursday, Friday and Saturday in Easter week; August 15th; September 15th; October 3rd, 12th and 21st; and December 25th. Cargo work can be arranged on those days, except on Good Friday, and May 1st (Labour Day).
TELEPHONES: Not customary except in United Fruit Co. pier (Tela Railroad Company, concessionary of banana pier) where telephones connected on board. Overseas calls may be arranged by Agent.
SHORE LEAVE: Permitted without restrictions.
SHIPMASTER'S REPORT: September 1978.
Pilotage: Pilotage compulsory. Pilot boards 2–4 cables off the berth, advance notice of 72, 48, and 24 hours required.
Restrictions: Vessels can enter and leave at any stage of the tide day and night. Vessels are able to leave the berth in an emergency without use of Pilot if the Ro-Ro berth is vacant and a tug available. Least depth of water in channel from sea to berth about 50 ft.
Max. Size: LOA 600 ft. Depth of water at banana berth is 33 ft. forward and 38 ft. aft. Max. draft 30 ft. There is a shoal patch about 150 ft. ahead of the berth.
Health: Authorities require 72, 48 and 24 hours notice of arrival.
Radio: Radio stations used when approaching the port were "WNU" and "TIM".
VHF: Port Authority, Pilot and Agent on Channel 16. Channel 14 also available.
Tugs: There are 2 tugs available, each 1,250 h.p. Vessels are able to dock and undock without the use of tugs.
Berthing: Banana Pier – position 15° 50.05′ N., 87° 57.35′ W. Distance from berth to entrance 2 miles. The nature of bottom at the berth is coral, mud and sand. Prior to arrival it is an advantage to have all derricks up as various equipment has to be brought on board.

Always starboard side alongside, starboard side banana lids can be opened on all decks prior to arrival.

The banana elevators are extremely close to the quay side and usually moved to the East end of the berth for docking purposes, but as vessel is making fast they are moved into position. Leave starboard gangway turned in until alongside and elevators moved. It is a good idea to turn in overside light fittings and on no account have a starboard list. The bollards are situated on the edge of the quay. The quay is concrete with wooden face, only about 1.5 ft. above the water.

Fresh water was limited due to recent hurricane and repairs to the water line, however 100 tons was obtained.

Four elevators used for loading. Work carried out around the clock, best hatch rate 48 t.p,h,

Ro-Ro facilities available, vessel moors with 2 anchors and stern to the quay. There are facilities for handling containers. Presently the container area is being expanded.
Currency: Lempiras. Two to the U.S. Dollar. If cable sent in advance U.S. Dollars can be obtained.
Diversion: Agents request, if diverted to a Honduran port, a diversion cable must be sent to the Agents of that port giving time/date/nationality/port of departure/and ETA. (This helps Agents with the documentation).
Medical: Doctor and hospital available.
Tankers: The Texaco Pier accepts tankers with a draft of 43 ft.
Fresh Water: Available.
Fuel: Bunker fuel, diesel oil and lubrication oils available.
Density: 1025.
Repairs: Facilities available for small repairs.
Surveyors: Available.
Services: Fresh provisions, groceries, meats and laundry services available. Contract work such as deck and engine room cleaning and painting can be undertaken, however, prices of contractors should be compared.
AUTHORITY: Empresa Nacional Portuaria.

SAN LORENZO (HENECAN): 13.25 N. 87.27 W.

LOCATION: On the mainland of the Pacific Coast of Honduras at a distance of about 20 nautical miles from Amapala and at a distance of about 3 nautical miles from San Lorenzo.
DOCUMENTS: List of documents requested on arrival of vessels at the port of San Lorenzo (all documents must be written in Spanish and without these documents serious delay of starting operations on board vessel are foreseen).

If there is no consul of any friendly nation, by Port Captain, BUT in this case one copy of each manifest should be sent to: Secretaria de Economia y Hacienda Tegucigalpa DC Honduras CA and to Custom House San Lorenzo Honduras CA by airmail and certified.
PILOTAGE: Compulsory. Distance from sea buoy to berth – 16 nautical miles.
Report: 1980.
Pilot station at San Lorenzo is last buoys painted black/white in position 13° 12′ 03″ N., 87° 35′ 15″ W. One hour before arrival pilot station vessel must call Agent's office at San Lorenzo via VHF Channel 10 in order to send Pilot.
ANCHORAGE: Buoy in position 13° 12′ 03″ N., 87° 35′ 15″ W.
RESTRICTIONS: The access channel to the port of San Lorenzo is marked by buoys. However, they are unlit so vessel's can only enter port in daylight. Lights may be installed by March/April 1980. The seaward buoy is the pilot station. Depth of access channel at LW is 30 ft. Width 122 m. and length 30 km.
VHF: Servicios Portuarios (Agent) on VHF Channel 10.
TUGS: Available.
BERTHING: "T" shaped pier. Outer berth: length 295.85 m. depth 30 ft.
Inner Berths: Lengths 137.50 m. and 122.30 m., depth 22 ft.
Equipment: 3 cranes, capacity 30 tonnes, 10 tonnes and 8 tonnes. 2 additional cranes 15 tonnes and 200 tonnes planned. 10 fork lifts, 6×6,000 lbs., 1×15,000 lbs. and 3×3,000 lbs. (6 additional at 8,000 lbs. planned).

One open warehouse of 1,200 sq.m. for lumber. One open warehouse of 1,800 sq.m. for cotton. 1 closed warehouse of 2,305 sq.m. for general cargo. Additional open storage of 28,000 sq.m.
STEVEDORES: Arranged by Agents, working around the clock with breaks for meals.
MEDICAL: No hospitals available, minor cases attended by doctor.
FRESH WATER: Available in reduced quantities, tank capacity 50,000 gallons.
FUEL: Not available.
REPAIRS: Not available.
CONSULS: None available.
SHORE LEAVE: Allowed. No restrictions.
TIME: GMT minus 6 hours, no alteration during year.

1 ,, 9 ,, Passenger List.
1 ,, Baggage.
1 ,, Voyage Memorandum.
All documents must be in Spanish; Cargo Book should be in alphabetical order.
PILOTAGE: Pilot available if requested. There is a small boat that assists docking by handling mooring lines from vessel to wharf. 48 hours advance notice of ETA required.
ANCHORAGES: 1 mile out from wharf, 100 ft. or more; no boundaries.
MAX. SIZE: Max. permissible length 485 ft., breadth no restrictions, draft 30 ft.
HEALTH: Agents arrange pratique; in case of disease or fever aboard, the vessel will be placed in quarantine for a minimum of 5 days.
RADIO: WNU New Orleans and TIM Puerto Limon via Tropical Radio.
TUG: No tug available.
BERTHING: Time for berthing is from 0600 to 2000 hrs.
General Cargo Berth: East side of pier, starboard side alongside.
Banana Berth: West side of pier, port or starboard side alongside depending on which side elevator space is required (See "Shipmaster's

Report"). 4 elevators available, type camel back. Rate per elevator 3,500 boxes per hour.

STEVEDORES: ETA advice should be given 48 hours prior to arrival in order to arrange gangs. Labour rates are subject to surcharge of 25%, 50%, 75% and 100% to cover overtime, depending on hour or day worked.

Gangs: For bananas: 180 men, 3 gangs. General cargo: No restrictions.

MEDICAL: Hospital facilities available, also inoculation, vaccination and certificates.

TANKERS: Discharging lines only, crude 12 in., diesel 6 in., spray oil 6 in. Berth available for 1 tanker, max. permitted draft 30 ft.

DENSITY: Average density in port is 1029.

FRESH WATER: Delivered by hoses at rate of 100 gallons per minute.

FUEL: Available, rate 250 t.p.h.

FIRE PRECAUTIONS: Extinguishers and water hoses available.

GANGWAY/DECK WATCHMEN: Watchmen can be obtained at day-time rates plus 25%, 50%, 75% and 100% to cover overtime, depending on the hour or day worked.

OPENING/CLOSING HATCHES: Work done by stevedores.

CERTIFICATES: Health and deratisation certificates needed.

CUSTOMS ALLOWANCES: 1 carton cigarettes and 1 bottle wine or spirits for each man.

CARGO GEAR: Must have current valid certificate for ship's gear.

IDENTIFICATION CARDS: Cards needed.

CONSULS: None.

REPAIRS: Only minor repairs.

REPATRIATION: Repatriation can be made on request by Master.

AIRPORT: Distance from wharf to airport is about 80 km. served by regular airlines; 4 flights per day which connect with Panamerican every day.

TIME: GMT minus 6 hours.

HOLIDAYS: January 1st, work possible; April 14th, work possible; May 1st, work possible; September 15th, work possible; October 3rd, work possible; October 12th, work possible; October 21st, work possible; December 25th, work possible. Thursday, Friday and Saturday of Holy Week – work possible except Friday.

POLICE/AMBULANCE/FIRE: Contact telephone operator.

TELEPHONES: No facilities for placing telephones on board.

GENERAL: Ships must have Honduran flag on board.

SHORE LEAVE: Crew members allowed ashore, providing they do not have any diseases.

DELAYS: Delays can be expected any time there are 2 ships docked.

SHIPMASTERS' REPORT: February 1979.

Contrary to the previous information on this Port, "Vessel" berthed starboard side alongside.

Pilots: None available at present.

Berthing: Used Port anchor, head out. The mooring boat meets vessel at the end of the jetty. It is a white painted boat with a small cabin. Very helpful in assisting with the lines, going from forward to aft as required. It is of great advantage to have a mooring rope on the fore deck starboard side, ready to lead forward as due to the Northerly wind and swell, vessel soon drops astern. The bollard normally used for the back spring aft has recently be "torn off".

The beach shelves fairly fast, and with a ship of this length (575 ft.) a good guide is not to let the bow pass the end of the jetty. A depth of 24 ft. was recorded when sounding round when alongside, only 30 ft. astern of the ship.

The jetty itself has a sprung centre of about 350 ft. long with rubber tyres along same, unfortunately secured by chains which ruins the overside paintwork when the ship surges in the swell.

Additional moorings: The Tela Rail Co. is at present renewing the coir springs on the berth. The shore labour assisted at all times with the moorings as the ship was loaded, also when shifting ship at midnight.

Cargo Gear: The shore side derricks have to be "Doubled up". The existing runners doubled back and shackled to the preventer lug and a snatch block used. It is one straight lift and pulled on board by the single runner on the off-side derrick. The "Hallen" was used at No. 4 hatch but the preference was to use "Double Gear" at No. 3. The "Lift aboard" elevators are 3.7 tonnes, but at the jetty end they run on a steel roller, which is placed on a large steel plate.

Loading: Vessel loaded all hatches, No. 5 being through the side doors and later when No. 1 had finished vessel shifted ahead to give more depth of water aft. Due to a labour shortage we only loaded any three hatches at one time.

Cargo is brought onto the pier by train with several small shunts a shift, very little time lost during shunts.

Fresh Water: Available at slightly differing pressures, rate varies between 5 and 7 tonnes per hour.

Labour: All key personnel speak very good English and are extremely helpful. It is not necessary to keep crew on "Captive Time" for shifting ship during the night, Foreman and labour are only to pleased to assist.

AUTHORITY: Port Commandant – Chief of Customs.

NOTES

Please also advise Shipping Guides Ltd.

Hong Kong

HONG KONG: 22.18 N. 114.10 E. (See Plan Book)

HARBOUR LIMITS (Approximately): Western Entrance – the N.S. line between S.E. extremity of Tsing Yi Rock and the flashing light at S.W. corner of Green Island. Eastern Entrance – the N.E./S.W. line between the on-shore FL.W and the FL.R lights either side of the Lei Yue Mun Pass.

DOCUMENTS:

Marine Department (arrival)

Marine Department Shipping Report (Form MO. 144).
Certificate of Registry.
Passenger ship: Safety Certificate.
Passenger or cargo ship: Load Line Certificate.
Cargo ship: Radio Certificate.
Cargo ship: Safety Equipment Certificate.
Cargo ship: Safety Construction Certificate.
Ship's Articles of Agreement with the crew (if the ship is British, or is a foreign ship belonging to a nation not represented by a consul in Hong Kong).
Derating Certificate or Derating Exemption Certificate.
1 copy of the ship's Passenger List (if specifically requested).
Clearance Certificate from the Last Port.
1 copy of the Import Cargo Manifest (if specifically requested).
5 copies of the Dangerous Goods Manifest (if applicable).
Compulsory Insurance Certificate (Tankers).

Note: All the above documents/forms must be submitted to the Ocean Shipping Control Section of the Marine Department within 24 hours of a ship's arrival with the exception of the Dangerous Goods Manifest which should be submitted at least 48 hours prior to the vessel's arrival.

Marine Department (departure)

Application for Port Clearance (Form MO. 7).
5 copies of the ship's export Dangerous Goods Manifest (if specifically requested).
1 copy of the ship's Export Cargo Manifest (if specifically requested).

Port Health Officer (arrival only)

Maritime Declaration of Health.
1 copy of the ship's Passenger List.
1 copy of the Crew List.
Derating Certificate or Derating Exemption Certificate (whichever is applicable).
International Vaccination Certificate against smallpox for each passenger and Crew member on board who has, within the preceding 14 days visited a smallpox infected country.

Note: The above documents/forms must be produced for the inspection of the Port Health Officer on boarding at the quarantine anchorage.

Department of Trade, Industry and Customs (arrival and departure)

2 copies of the ship's Import/Export Cargo Manifest. 1 copy for Manifest Check Section, Trade Licensing Branch, 14th Floor, Ocean Centre and the other 1 copy for Manifest Section, Industry and Economic Division, Census and Statistics Department, 20th Floor, Kai Tak Commercial Building.
1 copy of Import/Export Statement in respect of dutiable goods (Forms TIC 309 and TIC 309A).
2 copies of the declaration in respect of dutiable stores required during a vessel's stay in port (Form TIC 303).

Immigration Officer (arrival)

2 Transit-Passenger Lists.
2 Landing-Passenger Lists.
3 Crew Lists.

Note: The above forms must be produced for the inspection of the Immigration Officer on boarding after the ship has been 'cleared' by the Port Health Officer.

(departure)

2 Lists Passengers boarding.
2 Lists Transit Passengers.
2 Crew Lists.

Post Office (arrival only)

1 copy of the Ship's Mail Manifest.

Hong Kong Police

1 copy of The List of Arms and Ammunition on board (Nil return required) to be handed in at the Entry and Clearance Office with Marine Department papers.

ARRIVAL ADVICE: It is mandatory for Shipmasters to cable MARDEP Hong Kong 24 hours before arrival requesting permission to enter Hong Kong waters and advising ship's name, nationality, gross tonnage, total number of persons on board, ETA abeam of Waglan Island and reason for call. It is not permitted to enter Hong Kong waters until permission has been granted. It is mandatory for all vessels over 300 tons gross to carry VHF radiotelephone capable of operating on Hague Plan frequencies and to make contact with the Port Communications Centre on Channel 12 before entering Hong Kong waters and thereafter at specified calling points. They should report their position, ETA at pilot station, final berth, and intended route inwards, East or West. If entering from the East then the vessels mast height above the water should also be reported. (This is needed for information to the airport where the runway extends close North of the Hung Hom fairway). Shipmasters are also asked to report any other relevant information such as dangerous goods on board. If the vessel is taking a Pilot, reference should be made to the 'Sailing Directions' in the China Sea Pilot Vol. I, with regard to the positions of the pilot stations, and Pilots should only be embarked or disembarked at these points. Additional radio reports to MARDEP during the vessels inward or outward passage aid in the safe movement of all vessels in the port and approaches.

APPROACHES: A. (Dry-cargo vessels): The approaches are reasonably free from hazards and are well marked by day and night. Vessels working at buoys with drafts up to 36 ft. are requested to enter port via the Western Entrance. Other vessels with drafts up to 36 ft. by Lei Yue Mun entrance.

B. (Tankers): The tankers which berth at the Esso Company installation at Tsing Yi, and at the Mobil installation, also at Tsing Yi enter the harbour, but with the exception of the approaches to the Esso Terminal which was specially dredged for the purposes of accommodating vessels at 42 ft. draft, there is no limitation on depth save that at the individual berth.

C. Buoyage. Between April and October 1980 the system of buoyage used in Hong Kong harbour will be changed from the Uniform to the IALA System A. Detailed Notices to Mariners will be issued prior to each change of buoys or groups of buoys.

Compulsory traffic separation lanes are in force for both the East and West approaches. Up-to-date Admiralty charts should be consulted for details.

PILOTAGE: Although pilotage is not compulsory in the port, Pilots licensed by the Pilotage Board are available to board ships at either entrance on request. The Hong Kong Pilotage Association, provide pilotage services. Pilots generally board in-bound ships using the Eastern entrance in the vicinity of the Lei Yue Mun turning buoy (Lat. 22° 16.4′ N. Long. 114° 16.3′ E.) and disembark at the same point from outward-bound ships. At the Western entrance, Pilots embark and disembark to the West of Green Island. It is a contravention of Regulation 21(1) of the Shipping and Port Control Regulations, 1978, for any vessel to pick up or discharge a Pilot within a distance of one nautical mile from the centre of either the Lei Yue Mun Pass or Sulphur Channel. Maximum speed inside harbour, 8 knots.

ANCHORAGES: Examination anchorages (quarantine and immigration) for clearance inwards are situated within the harbour limits to cover the entry of shipping from East and West. The principal dangerous goods anchorages are situated at the Western end of the harbour and at Pun Shan Sek (tankers), whilst there are others at Junk Bay, Tsuen Wan and Rocky Harbour.

An anchorage for the discharge of logs has been designated. This was necessary because logs, which were being discharged and stored within harbour limits were endangering small craft, waterside installations and navigation.

The Western examination anchorage works 24 hours a day whereas the Eastern examination anchorage works from 0700–1800 hrs.

MAX. SIZE: Largest vessels calling regularly have been, dry-cargo: container vessels, length 965 ft., with drafts up to 40 ft.; tankers length 776 ft., draft 42 ft. Maximum size governed by draft of vessel. No limit as to length and beam. Draft in harbour: "A" class buoys 22 ft. to 37 ft. "B" class buoys 19 ft. to 28 ft.

PRATIQUE: *Conditions under which a vessel may be granted radio pratique:*

(a) The vessel must not have called at a smallpox and/or plague infected port within 14 days prior to arrival at Hong Kong.

(b) If the vessel has called at a cholera-infected port within 5 days prior to arrival at Hong Kong, the Chief Port Health Officer or his delegated officer has full discretion in the granting of radio pratique.

(c) There are not more than 24 passengers on board at the time of arrival.

(d) A vessel carrying more than 24 passengers may be granted radio pratique if there is a ship's surgeon on board.

(e) The Master must furnish, through his shipping company or Agent, the following cabled information to the Port Health Office not more than 30 hours and not less than 8 hours before his expected time of arrival at Hong Kong:

(i) ports of call with dates of departures during the 14 days prior to arrival;
(ii) numbers of passengers and crew members on board;
(iii) a statement that all persons on board are healthy and in possession of valid International Certificates of Vaccination against smallpox for those who, within the preceding 14 days have visited a smallpox infected country;
(iv) a statement indicating whether any case of infectious disease has occurred on board during the voyage;
(v) whether any person on board is sick;
(vi) the date of issue of the Deratting or Deratting Exemption Certificate;
(vii) whether the ship is an oil tanker, a cargo ship, a container ship or a LASH ship; and
(viii) whether foodstuffs are carried as cargo on board ship.

Notes:

1. Applications for radio pratique must be made by shipping companies or Agents. Application forms should be sent to Port Health Office, Li Po Chun Chambers, First Floor, Des Voeux Road, Central, during normal office hours (0900 to 1700 hrs. on Mondays to Fridays and 0900 to 1300 hrs. on Saturdays).

2. For urgent cases outside normal office hours, shipping companies or Agents may apply for radio pratique by telephone to the Port Health Office, Hong Kong Airport (Tel. 3–829284) during the following hours:

Mondays to Fridays	1700 to 2300 hrs.
Saturdays	1300 to 2300 hrs.
Sundays and Public Holidays	0900 to 2300 hrs.

All necessary information together with supporting documents must be submitted later in writing to Port Health Office, Li Po Chun Chambers.

3. No radio pratique will be granted between 2300 and 0900 hrs.

4. When radio pratique is granted, shipping companies or Agents will be responsible for notifying the Master concerned.

5. The granted radio pratique will automatically expire 24 hours after the stated expected time of arrival at Hong Kong.

6. The granted radio pratique will no longer be valid if there is any change in the health status on board the vessel concerned during the period from the submission of the application to the actual time of arrival of the vessel at Hong Kong. This means that the Master of the vessel concerned will have either to re-apply through his shipping company o

Agent, giving the additional information, or to display the appropriate signal when approaching the Quarantine Anchorages:

Day: International Code flag "Q"

Night: A red light over a white light in a vertical line, 6 ft. apart.

7. Ships granted radio pratique will be required to display the following signal when entering Hong Kong waters:

Day: International Code flag "T.O."

Night: 3 white lights in a vertical line, 6 ft. apart.

8. Maritime Declaration of Health and Passengers and Crew list will have to be collected by the shipping companies or Agents and delivered during office hours to the Port Health Office, Li Po Chun Chambers within 24 hours of the ship's arrival.

IMMIGRATION: Immigration formalities take place at the Eastern or Western Examination Anchorages after clearance by the Port Health Authorities. Immigration launches are on duty 24 hours a day in the Western anchorage and from 0630 to 1800 hrs. in the Eastern anchorage throughout the year.

RADIO: Cable Agent via Radio Hong Kong call sign "VPS".

Signal Stations. 4 signal stations operated by the Marine Department are situated in the Eastern and Western approaches to, or within, the harbour limits as follows:

Eastern approaches: Waglan Island, (Lat. 22° 11′ N., Long. 114° 18.1′ E.). Western approaches: Green Island (Lat. 22° 17.2′ N., Long. 114° 06.6′ E.).

Marine Department Port Communications Centre, Lat. 22° 17.4′ N. Long. 114° 9.0′ E. North Point Signal Station, Lat. 22° 17.7′ N., Long. 114° 11.9′ E.

These stations are manned 24 hours a day throughout the year and contact can be made by means of international code flags or by signal lamp. In addition, the Marine Department Headquarters Signals Station can be contacted by VHF radio-telephone on Hague Plan Channel 12. Communication between the stations is provided by radio, land-line telephone and a teleprinter circuit. Telex: Marine Department Port Communication Centre is equipped with telex No. 63607. Answerback MADEP HX.

It is mandatory for the Master of every ship arriving within signalling distance of any of the above signal stations to hoist the national colours and (if one shall exist) the house flag and the signal letters of the ship, and to identify the vessel to the signal station by visual signals if requested. On recognition of a ship in the approaches to Hong Kong, the name is immediately relayed to the Port Control Office of the Marine Department, and the ship's owners or Agents can be notified on request.

Wireless Telegraphy: Radio communication apparatus on board a merchant vessel is not permitted to be used while the vessel is within Hong Kong territorial waters except in the following circumstances:

When a vessel is proceeding through Hong Kong territorial waters such apparatus may be used to communicate on minimum power with the nearest coast station or, if communication with the nearest coast station is impracticable and the safe navigation of the vessel so requires, with a more distant coast station or another vessel;

For the purpose of summoning assistance on an occasion of danger to the life of any person or to the vessel;

For the purpose of carrying out experimental tests for which permission in writing must first be obtained.

During the period when tropical cyclone signals 8, 9 or 10 are in force, radio and television stations will extend their hours of operation around the clock, and will undertake broadcasting of tropical cyclone warnings in English and Chinese, at two minutes to the hour and half past the hour. Should the expected local conditions so warrant, warnings will be broadcast at quarter to and quarter past the hour. Warnings in English will be broadcast by individual announcers at each station. Radio Television Hong Kong and Commercial Radio will provide a Chinese announcer to broadcast warnings in Chinese from the broadcasting studio at the Royal Observatory.

If conditions are expected to worsen, tropical cyclone warnings may continue after the normal close down time of the stations, or commence before the usual starting time in the morning even though only the No. 1 signal is in force at that time. After consulting the Director, Royal Observatory, the Director of Broadcasting will decide whether or not to adopt either of these courses. He will inform Commercial Radio, HK-TVB, RTV of his intentions as early as possible.

Frequencies: Radio Television Hong Kong – Radio 1 (Chinese) 640 kHz: Radio 2 (Chinese) 94 mHz, 103.5 mHz, 103.1 mHz; Radio 3 (English) 545 kHz; Radio 4 (English) 91 mHz, 100.5 mHz, 100.9 mHz; Radio 5 (English) 96 mHz, 105.5 mHz. Commercial Radio – English Service 1050 kHz; Chinese Services Channel 1, 850 kHz, Channel 2, 610 kHz.

VHF: Control Station, Hong Kong Port Radio call sign "Mardep" Channel 12, 24 hours listening watch. Range up to 35 miles.

Maritime VHF Radio-telephone Service (Hague Plan): This service operates in Hong Kong on 2 international channels, Nos. 16 and 26. Channel 16 (156.8 mc/s) is the simplex distress and calling frequency on which contact is made between shore and ship before changing over to the public correspondence channel, No. 26. The latter is a duplex channel and Hong Kong transmits on 161.9 mc/s and receives from ships on 157.3 mc/s.

Local connection to the service is *via* the Hong Kong Telephone Company and is made in the same way as for overseas radio-telephone calls by dialling "100". The local operator should then be informed that a telephone call is required on "the Maritime VHF Hague Plan Service". The operator will ask for details of the call, such as the name of the ship and the person required, and will then connect the call *via* Cable Wireless. Calls can also be sent from ship to shore. The range is about 50 miles and the service is available at all times of the day and night.

Harbour phones: If requested the Hong Kong Telephone Company will install and maintain VHF radio telephones on ships at buoys in the harbour for the duration of the ships stay in port. Calls may be made between any two ships so equipped and between a ship and any telephone number on the Hong Kong Telephone Company network.

Ship to shore service: Hong Kong Telephone Company will also provide ship to shore telephone service by means of land lines at selected wharf locations. The Container Port is included.

Shipmaster's Report: VHF Channel 6 is used for maritime disaster.

TUGS: Available for berthing and unberthing. Advance booking is required. See Table B.

WHARVES: *China Merchants S.N. Co. Limited* – berths suitable for coastal shipping:

		Length (ft.)	Depth (ft.)
West Point	Berth No. (1) E.	320	35
	Berth No. (2) W.	320	35
H. K. and Kowloon Wharf Co.			
	Ocean Terminal	1,250	35
	Pier No. (3) S.	600	32
	Pier No. (3) N.	600	34
	Pier No. (4) S.	700	32
	Pier No. (4) N.	700	33
	Pier No. (5) S.	800	34
	Pier No. (5) N.	800	36
North Point Wharves			
	No. (1) E.	700	30
	No. (2) W.	530	30
Kwai Chung Container Terminal			
	6 berths	1,000	40

BERTHING: Berthing of dry-cargo vessels alongside wharf can be performed any time during day and night. Berthing at tanker wharf not permissible after sunset. Ships carrying explosives must obtain permission from the Marine Department before berthing is allotted.

When berthing at Kowloon Wharf signals will be exhibited on the signal station on top of the Kowloon Star Ferry pier. Code flag "Y" by day and 1 red light over green light at night indicates anchor and await instructions. Crossed bamboo poles on which are displayed code flags N and B, when sited at the end of a pier denotes that the vessel is required to berth stern to the praya wall.

Boatmen. Labour to handle ships' moorings lines when berthing and unberthing at any of the wharves in Hong Kong waters is supplied by the owners of the wharf concerned, the cost being included in the berthing fee. For berthing at a Marine Department mooring buoy it is usual for the ship's Agent to arrange for boatmen to handle the ship's slip wire and anchor cable, unless the ship's crew undertake this task. The services of boatmen are generally obtained through the Hong Kong Pilotage Association. For night berthing 2 boats are normally required – one to handle the wire and cable and the other to provide a lighted marker for the mooring buoy.

Mooring Buoys. See "Max. size" All ships are required to secure to Marine Department mooring buoys by their chain cable (vessel to supply shackle). The maximum length of a ship permitted to berth at an "A" class mooring is 600 ft., the swing circle encompassing each buoy having a radius of 700 ft. The maximum length of a ship permitted to berth at a "B" class mooring is 450 ft., the radius of swing circle around such buoys being 550 ft. It is therefore within the limits of safety for a vessel, when secured to a Marine Department mooring, to slack out to "1 shackle on the windlass" and still clear ships berthed at adjacent buoys, except in exceptional circumstances. As all Marine Department moorings are of the 1-legged type, it is permissible, should circumstances make it necessary, for a ship, when attempting to secure to a mooring, to drop an anchor at not less than 50 feet from the buoy without fouling the mooring chain. It should be noted, however, that moorings sited within the man-of-war anchorage and the Hong Kong United Dockyard private mooring H.U.D. No. 1 in Hung Hom Bay are either of the 2 or 3-legged type, and it is therefore not permissible to use an anchor when berthing.

43 "A" class mooring buoys and 28 "B" class mooring buoys for ocean going vessels. Additionally 2 "B" class mooring buoys available at Yam O Bay, Lantan Island, for vessels with cargoes of logs.

STEVEDORES: The following table shows the average handling rates per gang hour:

Cargo	*Place*	*Loads tons per gang hour*	*Discharge tons per gang hour*
General	Wharf	12	15
General	Stream	10	12
Bale or bag	Wharf	20	25
Bale or bag	Stream	15	20

Stevedores work 24 hours per day except Mid-Autumn Festival and Chinese New Year Holidays.

TANKERS: Any leaking of oil to water will be subjected to heavy fines. If not gas-freed, not allowed through harbour. Max. draft for berthing 42 ft. See Table A.

DENSITY: 1017.

FRESH WATER: Available but the supply is sometimes limited, depending on the storage levels in Hong Kong's reservoirs. The supply to ships is made at commercial wharves and from water boats. See Table C.

FUEL: Excellent facilities exist for bunkering vessels with fuel oil and coal. Fuel oil can be obtained either at the wharves adjacent to the oil installation, or from harbour oilers owned and operated by the oil companies. Fuel oil from these vessels can be pumped on board without impeding cargo operations. Adequate stocks of good quality bunker coal suitable for coal-fired marine boilers are maintained in the port. Fuel oil available with viscosity up to 1,000 sec. Redwood. 24 hours notice for supply is required. Also gas oil and marine diesel available. See Table D.

FIRE PRECAUTIONS: The Fire Services Department operates six fire boats, the largest being the 350 ton "Alexander Grantham". It has an output capacity of 45,000 litres of water and 32,850 litres of foam a minute through a battery of monitors. This vessel is equipped to deal with any type of fire on any size vessel, and is designed to operate both in port and at sea.

Table A. OIL INSTALLATIONS

Company	*Location*	*Length of berth*	*Depth alongside (Chart Datum)*	*Grade of oil*	*Capacity (water tons)*	*Delivery rate*	*Hose connection*
(i) Shell Co. (H.K.) Ltd.	Kwun Tong	670′	34′	Boiler fuel	4,500	120	6″
				Marine diesel fuel	4,200	140	6″
	Tai Kok Tsui	180′	10′	Boiler fuel	610	20	2″
				Marine diesel fuel	220	25	2″
	North Point	140′	10′	Gas oil	1,740	27	2″
	Ap Lei Chau	900′	60′	Boiler fuel	143,000	400	10″
				Marine diesel	18,000	400	10″
				Gas oil	25,600	450	8″
(ii) Caltex Oil Hong Kong Ltd.	Tsuen Wan	700′	35′	Boiler fuel	47,820	350	10″
				Gas oil	13,600	200	6″–8″
(iii) Mobil Oil Hong Kong Ltd.	Tsing Yi	700′	38′	Boiler fuel	39,000	500	10″
				Marine diesel	26,000	300	8″
				Kerosene	17,000	300	8″
(iv) H.K. Oil Co. (Gulf Products)	Tsuen Wan	292′	28′	Boiler fuel	22,589	300	8″
				Marine diesel fuel	2,794	200	6″
	Tsing Yi	700′	40′	Boiler fuel	39,000	500	10″
				Marine diesel fuel	26,000	300	8″

Tankers use the Mobil Oil Terminal under a joint users agreement with Mobil Oil Hong Kong Ltd.

Company	*Location*	*Length of berth*	*Depth alongside (Chart Datum)*	*Grade of oil*	*Capacity (water tons)*	*Delivery rate*	*Hose connection*
(v) Esso Standard Oil (H.K.) Ltd.	Tsing Yi	920′	52′	Boiler fuel, Marine diesel and white oil	342,000	500	10″

GANGWAY/DECK WATCHMEN: Not compulsory but recommended.
OPENING/CLOSING HATCHES: Usually performed by ship's crew.
CERTIFICATES: Following certificates to be presented to the Marine Department Entry and Clearance Office before clearance could be granted:

Ship's Register and/or Tonnage Certificate.
Load Line Certificate.
Radio Certificate.
Safety Construction Certificate.
Safety Equipment Certificate.
Derating Certificate or Derat Exempt Certificate.
Last Port Clearance.

CARGO GEAR: Normal routine gear, wire and rope slings, nets, grabs, boardtrays and floating cranes up to 100 tons available.

Vessel's cargo gear must be used for working cargo at all alongside berths.

IDENTIFICATION CARDS: No identification card is required for crew or passengers going ashore. When the vessel has exceeded a stay of 14 days in port, all crew members must deliver to the Harbour Control Office, Immigration Department through the agents a signed copy of the "Immigration Arrival Card."

CONSULS: The following countries maintain consular offices in Hong Kong:

Argentina
Australia
Austria
Bangladesh
Belgium
Bolivia
Brazil
Burma
Canada
Chile
Colombia
Costa Rica
Cuba
Denmark
Dominican Republic
Ecuador
Egypt
El Salvador
Finland
France
Gabon
Germany
Great Britain
Greece
Guatemala
Honduras
Iceland
India
Indonesia

New Zealand
Nicaragua
Nigeria
Norway
Pakistan
Panama
Paraguay
Peru
Phillipines
Portugal
Seychelles
Singapore
South Africa
Spain
Sri Lanka
Sweden
Switzerland
Thailand
Turkey
U.S.A.
Uruguay
Venezuela

REPAIRS: In addition to ship and engine maintenance and repair work, the dockyards have facilities for many miscellaneous services such as are provided by modern dockyards. These include physical tests on materials such as anchors and cables, for which test certificates can be supplied, chemical analysis, drawing office requirements, chemical cleaning of engines and boilers, shot and sand blasting, zinc spraying to name but a few.

DRY DOCKS:

Hong Kong United Dockyards Ltd. (Kowloon Yard): 3 drydocks of which the largest has a length of 700 ft., width of 87 ft.

Hong Kong United Dockyards Ltd. (New yard at Tsing Yi): Two floating docks, the largest of which has a lifting capacity of 20,000 tonnes.

Euro Asia Dockyards Ltd. (new yard at Tsing Yi): One floating dock, the lifting capacity of which is 100,000 tonnes.

REPATRIATION: All formalities connected with engagement and discharge on board British ships, and on foreign ships whose flag is not represented by a consular officer resident in Hong Kong, are required by law to be conducted at the Crew Division Office. Hong Kong continues to be one of the main recruitment centres of Asian seamen and a Seamen's Registry Office, which is an adjunct to the Seaman's Recruiting Office, under the same division, maintains records of all Hong Kong seamen. The Seamen's Recruiting Office controls the recruitment, selection and supply of Chinese seamen to ships requiring them, and is situated at the Rumsey Street Reclamation, adjacent to the Headquarters.

Seamen's Travel Documents. The Hong Kong Government Seaman's Service Record Book (Seaman's Discharge Book) is issued by the Marine Department and is a record of employment. The Hong Kong Government Seaman's Identity Book is issued by the Immigration Department and enables the holder to return to Hong Kong without a visa during the validity of the book (initially 3 years, with 3-year renewals), and also within 12 months after the expiry of the validity of the book.

A Seaman's Certificate of Nationality and Identity is issued at the Immigration Department only to seamen of British nationality, whereas the Seaman's Discharge Book and the Seaman's Identity Book may also be issued to alien seamen. It is the equivalent of a British passport and no visa is required for return to Hong Kong.

All Crew members signing-off for repatriation must first obtain permission from the Director of Immigration. All crew arriving to join vessel must produce a guarantee letter through the Agents responsible for all maintenances and other eventual expenses.

AIRPORT: Regular International flights. Airstrip capable of any size of jet planes. Transportation from port to airport terminal about 40 minutes bus drive.

TELEPHONES: Are available at all alongside berths for connection on board ship.
TIME: Standard time kept in the colony is 8 hours in advance of GMT. Summer Time, which is 1 hour in advance of Standard Time, is kept from 0330 hrs. on the first Sunday after 15th April to 0330 hrs. on the first Sunday after 15th October, each year.
HOLIDAYS: Public holidays in Hong Kong occur mainly on festivals whose date is governed by the lunar calendar.
Every Sunday; First week-day in January; Chinese New Year's Day; Second day of Chinese New Year; Third day of Chinese New Year; General holiday in lieu of that for the Ching Ming Festival; Good Friday; Day following Good Friday (Ching Ming Festival); Easter Monday; Birthday of Her Majesty the Queen; Tuen Ng Festival; First week-day in July; First Monday in August; Last Monday in August, which shall be Liberation Day; Day following Chinese Mid-Autumn Festival Day; Day following Chung Yeung Festival: Christmas Day; First week-day after Christmas Day.
POLICE/AMBULANCE/FIRE: When the services of the fire brigade, immigration, port health or police are required, appropriate signals should be made in accordance with the list of "Hong Kong Port Signals". The Marine Division of the Police is responsible for internal port security. Its fleet of launches maintain constant patrols in Hong Kong's territorial waters.
GENERAL: No waste to be disposed into harbour. A free refuse disposal service is available for domestic refuse. Ships agents can arrange this through Marine Department. Chain required for mooring to buoy. Unnecessary use of ship's sirens prohibited.
SERVICES: Services available including tank cleaning, painting, washing, compass adjusting, calibration of direction finder, radar repairs, 24 hours service laundry, supply of stores and provisions, motor-boats service between ship and shore.
SHORE LEAVE: Crew members are usually allowed ashore.
CLASSIFICATION SOCIETIES: The following Classification Societies with British technical committees are represented by their own exclusive officers in Hong Kong: Lloyds Register of Shipping, 1908-09, Hutchinson House, 10, Harcourt Road, Hong Kong; The American Bureau of Shipping, 1203-4 Wah Kwong Building, 48-66 Hennessy Road, 12/F., Wanchai, Hong Kong; Bureau Veritas, 2107 International Building, Des Voeux Road, Central, Hong Kong; Det Norske Veritas, 3407, Gammon House, 12, Harcourt Road, Hong Kong; Germanischer Lloyds, c/o Carmichael & Clarke Ltd., 828-831, Swire House, Hong Kong.
WEATHER: 1st May to 31st October usually considered as typhoon season. No operation of cargo when typhoon signal No. 3 or upward is hoisted. Also see "Radio".
DEVELOPMENT: The central fairway has been dredged to – 36 ft. Reclamation continues in various areas within the harbour. Additional 'Public Cargo Working Areas' are near completion and others planned.
AUTHORITY: Director of Marine.

AGENT: Shipping & Transport Services Ltd., Room 704 Hang Chong Bldg., 5 Queen's Rd. Central HK, Hong Kong. Telephone: 249069-74. Cables: Mainstay HX. Telex: 83173 Mstay HX.

REPAIRS: All types of repairs possible.
DRY DOCKS: 1 small dry dock available.
REPATRIATION: No facilities exist.
AIRPORT: Distance from port 2 miles, regular flights.
TIME: GMT. No change.
HOLIDAYS: Work carried out every day.
POLICE/AMBULANCE/FIRE: Police, Ambulance, Fire, tel. 3258.
TELEPHONES: None available.
SERVICES: Compass adjusting, radar, echomaster, specialists.
SHORE LEAVE: Allowed.
AUTHORITY: Captain of the Port.

KEFLAVIK-NJAROVIK: 64.00 N. 22.33 W.

DOCUMENTS: As for "Reykjavik".
PILOTAGE: Pilotage is compulsory for vessels over 100 tons net. Pilot is available for all vessels 24 hours per day and is reached via Reykjavik Radio. Pilot boards vessel 1 mile outside Vatnsnes.
ANCHORAGE: Outside the harbour in depths of 27 m. with good holding ground.
TUGS: Use of tug is not necessary.
BERTHING: Port has concrete pier which will be extended for a length of 110 m., and a wooden quay 45 m. in length. Depth of water in harbour and alongside wharves is 20 to 45 ft. Entrance is easy for access.
STEVEDORES: Working hours: 8 hours per day 0800 to 1700 hrs.
FRESH WATER: Available through hose connection on the quay.
FUEL: Available.
REPAIRS: 2 shipyards available.
AIRPORT: Keflavik International Airport is only 4 km. away.
TIME: GMT. No change.
POLICE/AMBULANCE/FIRE: All Tel. 2222.
TELEPHONES: None available on board.
SHORE LEAVE: Allowed.
AUTHORITY: Harbour Master.

NESKAUPSTADUR, Nordfjordur: 65.09 N. 13.41 W.

DOCUMENTS:
Crew List.
Passenger List.
Customs Documents.
Provision List.
Manifests and Ship's Papers.
PILOTAGE: No Pilots. Road clear, keep in middle of fjord.
ANCHORAGES: Depending wind. With North or N.W. winds anchor towards South coast and well in the fjord. When N.E. off town towards North coast, but keep clear of small boat moorings.
MAX. SIZE: Length/breadth no restriction. Main quay is 70 m. long and it is built right out to the steep bank at the coast. Depth close to jetty 7 m. but increases quickly.
HEALTH: Free pratique automatic from Customs Officer. Radio for doctor if illness on board.
RADIO: Neskaupstadur Radio 2182 kc/s. (TFM) 24 hour watch. VHF, Channels 16 and 26. Range approximately 40 miles.
TUGS: No tugs but large motor-boats are normally obtainable if necessary.
BERTHING: No specific requirements unless over 7 m. draft, when fendering required.
STEVEDORES: If possible 24 hours ETA. Preferably before 1600 hrs. for commencing next morning. Load or discharge rates according to goods.
MEDICAL: Always send advance notice of required medical attention. Hospital available, also 3 doctors and dentist.
TANKERS: Diameters of lines 4 in. and 6 in. Oil companies BP and Shell have their own small quays. The third company Esso uses BP jetty.
DENSITY: Normal.
FRESH WATER: Shore line on jetty. No barge.
FUEL: Diesel oil only.
DEVELOPMENTS: No expected draft increases. New berths are under construction but will take unforeseen time.
GANGWAY/DECK WATCHMEN: Available but not compulsory.
OPENING/CLOSING HATCHES: Normally carried out by crew.
CERTIFICATES: Ship's Register.
CUSTOMS ALLOWANCE: 200 cigarettes a week while in Iceland. Only 1 allowance of spirit, i.e. on arrival 1 to 3 bottles according to occupation.
IDENTIFICATION CARDS: Not required.
CONSULS: Denmark tel. 199 or 330. France tel. 14 and 19.
REPAIRS: Limited repairs to engines, hull and deck. Good repairs to radars, sounders, tiller pilots, etc.
DRY DOCKS: None. 1 slipway, 450 tons.
REPATRIATION: Winter flights twice a week or more. Summer every day.
AIRPORT: Distance 3 km.
TIME: GMT, no alterations.
HOLIDAYS: Last Thursday April; 17th June; 1st May; 25th and 26th Dec.; New Year, etc. If work is carried out 31st Dec., 24th Dec., Saturday before Easter and Whitsun double pay is claimed.
POLICE/AMBULANCE/FIRE: Telephone office at shore end jetty.
TELEPHONES: No arrangement to place telephones on board.
SERVICES: No tank-cleaning equipment. No discharge of tank-washings. Compass adjusting available.
SHORE LEAVE: Allowed.
DELAYS: None except if berth not available.

PATREKSFJORDUR: 65.35 N. 23.59 W.

DOCUMENTS: 8 Crew Lists, Passenger Lists, Custom Documents, Health Documents, Manifests, Bills of Lading, Ship's Papers.
PILOTAGE: Pilotage not compulsory, but if needed then contact Radio Patreksfjordur on 2182 M/F.
ANCHORAGE: Anchorage is sheltered by the peninsula.
MAX. SIZE: See "Berthing".
RADIO: Radio Patreksfjordur on 2182 M/F.
TUGS: Available.
BERTHING: The entrance has a depth of 4.7 m. to 4.9 m. (15.5 to 16 ft.) at LLWST. The harbour has a depth of 6.4 m. (21 ft.) at LW, and 10 m. (33 ft.) at HW. 320 m. of quayage with depths from 5.5 m. to 5.8 m. (18 to 19 ft.) alongside. The harbour can be entered by day and night.
STEVEDORES: Working hours 0800 to 1900 hrs.
MEDICAL: Hospital available, contact through radio.
FRESH WATER: Available. No notice required.
FUEL: Available. No advance notice required.
REPAIRS: Machine-shop. General repairs can be effected. Diver obtainable.
AIRPORT: About 26 km. distance from harbour. Regular service, by airlines.
TIME: GMT. No change.
SHORE LEAVE: Allowed.
AUTHORITY: Patrekshofn, Patreksfiroi.

REYKJAVIK: 64.09 N. 21.56 W. **(See Plan Book)**

DOCUMENTS:
For the Immigration Office
1 Crew List.
1 Passenger List.
For Customs Authority
Master's Report on vessel's arrival from abroad.
Master's Certificate with Manifests of all goods.
Master's Certificate with Manifests of goods to each port of discharge.
Health Declaration.
List of Provisions and other Stores in ship.
Ordinary procedure at least 5 copies of each manifest (3 for customs).
PILOTAGE: Pilotage compulsory. Telegraphic address: Harbour Master, Harbour Office, Reykjavik. Desirable advance notice of ETA 24 hours and again notice 3 hours before expected time of arrival. VHF working Channels 12 and 14 at Pilot station and pilot boats. 24 hour watch maintained.

Pilot boat: Grey hull with red and white deckhouse. International signals used if necessary. Pilot boat leaves harbour on request and meets vessel up to 1 naut. mile off Grotta (East of buoy 6): Most frequent boarding place is buoy 7 Kollafjordur.

ANCHORAGE: Good anchorage at Kollafjordur in 30 to 35 m. water 1.5 miles North of Engey lighthouse. Anchorage prohibited in neighbourhood of harbour entrance.
RESTRICTIONS: All day service. Draft in old harbour restricted at MLWST to 18 ft. In Sundahofn to 26 ft. No other restriction.
MAX. SIZE: Longest straight quay 280 m. Breadth unrestricted. Depth 26 ft. at MLWST (29 ft. at MLWNT). At present 3 installations for oil carriers to discharge through submerged pipe-lines. Moorings for about 20,000 d.w.t. ships and draft restriction to 21 ft. in the approach to one of these installations.
HEALTH: Pratique obtained through customs authorities. In case of suspected disease notify port office or Agent in advance.
RADIO: Reykjavik Radio TFA.
RADAR/VHF: No harbour radar. Pilot office can be contacted by VHF Channel 16. Working Channels 12 and 14.
TUGS: Tugs meet vessels on roadstead. Ship's lines used. One ocean-going tug 1,000 h.p. and 2 smaller tugs available.
BERTHING: Larger vessels preferably handled at high water.
Old Harbour: The Old Harbour is protected by two moles leaving a 100 m. wide entrance. It is divided into the Fishing Harbour (West Harbour) and General Cargo Harbour (East Harbour) where coastal passenger traffic is also served.

In the Old Harbour there are several areas for ship maintenance, the main slipways and a great number of firms specialised in services for the fleet.

Quayage is about 3,300 m. of which there are 600 m. only for smaller fishing craft. Draft at the entrance is 7.0 m. (23 ft.) at MLWST, and depth at quays 5.5 to 6.5 m. (18 ft. to 21 ft.). bottom is sand and mud.

Sunda Harbour – Vioeyjarsund: The new harbour area in Vioeyjarsund was opened in 1968. Since then a growing part of the general cargo has been moved through this area with a special quay for grain. The entrance to the area is not restricted and water depth is more than 8.0 m. (26 ft.) at MLWST. Length of quays is 460 m. with a water depth of 8.0 m. (26 ft.) at MLWST. Bottom is sand and mud.

Sunda Harbour – Kleppsvik: A new harbour area for general cargo is under development in Kleppsvik. The schedule is to open the first berth in 1980. The entrance will be a 50 m. wide channel dredged to 7.0 m. (23 ft.) at MLWST. The water depth at the quay will also be 7.0 m. (23 ft.).

Sunda Harbour – Grafarvogur: The harbour area in Grafarvogur was opened in 1968. This area is used for discharging and storing of cement, gravel and asphalt for industries in the vicinity. Further development is planned for industries with special requirements. An approach channel has been dredged to 4.0 m. (13 ft.) at MLWST and water depth at the quay is 4.5 m. (14 ft.).

Eiosvik: In Eiosvik there is a quay for the State Fertiliser Plant. The entrance is unrestricted with deep water to the quay. Eiosvik offers the best natural site for large ships in the Port of Reykjavik.

STEVEDORES: Stevedoring must be arranged in advance preferably by Agent. Working Hours: 0800–1700 hrs. With labour unions permission, work may be carried out until 2200 hrs. and on Saturdays.

MEDICAL: Medical attention available without notice. For hospital stay or surgical operation advance notice desirable, either through Agent or port office.

TANKERS: Submarine pipe-lines diameter for discharging are 8 in. 3 terminals handling vessels of 7,000–15,000 g.r.t. Vessels moor to buoys.

DENSITY: Salinity varies from 33.6% to 35.0% giving sea water density about 1027 in average.

FRESH WATER: Water delivered from taps at quay at rate of 20–30 t.p.h, on the roadstead delivered by tug with 50 cu. m. water-tank.

FUEL: Grade of fuel oil 200–400 per second. Supplied by oil-pipe or by barge. If supplied by barge then 1 day's notice required.

FIRE PRECAUTIONS: Ordinary precautions for handling of dangerous goods applied.

DEVELOPMENTS: In a new harbour area – Sundahofn – quay construction, dredging and reclamation is completed. Length of quay 680 m. and 70 acres storage area under development. Discussion is taking place on new terminal for coastal traffic. Ro/Ro facilities at Sundahofn being prepared.

GANGWAY/DECK WATCHMEN: Ship's gangway to be used. Watchmen services from ashore not necessary but can be arranged if asked for.

OPENING/CLOSING HATCHES: Carried out by stevedores.

CERTIFICATES:

1. Certificate of Nationality.
2. International Tonnage Certificate.
3. Certificate of Seaworthiness.
4. Cargo Ship Safety Construction Certificate.
5. Cargo Ship Safety Equipment Certificate.
6. Cargo Ship Safety Radiotelegraphy Certificate or Cargo Ship Safety Radiotelephony Certificate.
7. International Load Line Certificate.

Passenger ships must have certificates No. 1, 2, 3, 7 and in addition Passenger Ship Safety Certificate.

CUSTOMS ALLOWANCES: 200 cigarettes or equivalent. 0.75 litre beverage, 24 bottles beer.

IDENTIFICATION CARDS: Identification card must be carried.

SURVEYORS: Lloyd's Register, Norske Veritas, Germanischer Lloyd and Bureau Veritas.

REPAIRS: All kinds of ship repair possible.

DRY DOCKS: Only slipways available up to 2,000 metric tons weight. Dimensions: Length 85 m., breadth 13.6 m.

REPATRIATION: Can be arranged.

AIRPORTS: Reykjavik Airport within 10 minutes drive. Mostly for local routes. Keflavik Airport 50 km. distance, served regularly by airlines both to Europe and America.

TIME: Icelandic summertime used all year round and is same as GMT.

HOLIDAYS: January 1 (New Year's Day); Maundy Thursday; Good Friday; Easter Monday; May 1; Ascension Day; Whit Monday; June 17 (National Day); First Monday in August (Bank Holiday); Christmas Day and Second Christmas Day. On Christmas Eve and New Year's Eve work stops at noon. Dock work goes on on Bank Holiday and by Labour Union permission work may be carried out on Saturday against overtime payment and exceptionally at night until 2200 hrs.

POLICE/AMBULANCE/FIRE: Police (Main station) 11166; Police (Harbour station) 10145; Ambulance 11100; Fire 11100.

TELEPHONES: Telephone connection can be arranged at some berths in the old harbour and in Sundahofn telephone connections will be at the quay.

GENERAL: Engines may not be run while ship is berthed.

SERVICES: Compass adjusting carried out by private firm as well as tank cleaning.

SHORE LEAVE: Crew members are allowed ashore.

DELAYS: Normally no delay is to be expected beyond that caused by normal customs clearance.

AUTHORITY: Reykjavik Port Authority.

SIGLUFJORD: 66.10 N. 18.50 W.

DOCUMENTS: As for "Reykjavik".

PILOTAGE: Compulsory. Pilot meets vessel about 200 m. from harbour entrance.

ANCHORAGE: East of harbour in depths according to draft 25 m. to 30 m. good holding ground. Gales from North set heavy sea, vessels then seek anchorage in small bay S.W. of Siglunes.

RADIO: Siglufjordur Radio TFX.

TUGS: None available.

BERTHING: There are several piers and wharves inside the North Mole, 3 quays used by larger vessels have depths up to 23 ft. at LW.

Quays: Hafnagardur, on the South side of North Mole, has a length of about 125 m., with a depth of 6.5 m. (21.3 ft.) alongside. Londunarbryggja has a length of 100 m., with a depth of 7 m. (23 ft.) alongside. Baejarbryggjan (Town Quay) has a length of about 100 m. with a depth of 6 m. (19.7 ft.) alongside.

STEVEDORES: Available. Working hours 0700 to 1200 hrs. and 1300 to 1700 hrs; overtime can be arranged.

MEDICAL: All facilities available.

FRESH WATER: Available.

FUEL: Available in general grades only.

GANGWAY/DECK WATCHMEN: Necessary.

OPENING/CLOSING HATCHES: Stevedores normally perform this work.

CARGO GEAR: Ship's gear (no cranes).

IDENTIFICATION CARDS: Not required.

CONSULS:

Denmark	Tel. 71232	Norway	Tel. 71160	Sweden	Tel. 71421

REPAIRS: For moderate size vessels can be obtained. Diver available.

TIME: GMT. No change.

POLICE/AMBULANCE/FIRE: All tel. 71170.

SHORE LEAVE: Allowed.

AUTHORITY: Captain of the Port.

SKAGASTROND: 65.50 N. 20.20 W.

DOCUMENTS: As for "Reykjavik".

PILOTAGE: Pilots are available. When approaching port, order Pilot through Agent if required.

MAX. SIZE: Draft max. 19 ft.

MEDICAL: Doctor available but located in Blonduos 20 km. away, doctor visits Skagastrond 3 days a week.

FRESH WATER: Available.

FUEL: Available.

GANGWAY/DECK WATCHMEN: Not necessary.

OPENING/CLOSING HATCHES: Normally carried out by stevedores.

REPAIRS: Small repairs available.

AIRPORT: Nearest 20 km. away in Blonduos.

TIME: GMT. No change.

POLICE/AMBULANCE/FIRE: Police Station and Firemen in the port.

TELEPHONES: Available.

SHORE LEAVE: Allowed.

AUTHORITY: Captain of the Port.

VESTMANNAEYJAR: 63.30 N. 20.14 W.

(See Plan Book)

DOCUMENTS:

- Health Certificate.
- Crew List.
- Passenger List.
- Manifest.
- Ship's Register.

PILOTAGE: Pilotage compulsory, day and night service. Ship to advise over Vestmannaeyjar Radio ETA. Pilot always available but 1 hour's advance ETA is required.

ANCHORAGE: There are anchorages with depths from 24 m. to 34 m., good holding ground about 0.5 miles North of harbour and on North side of peninsula in depths of 28 m. to 34 m.; this anchorage is exposed to winds between West and North.

RESTRICTIONS: No restrictions except for largest vessels. They must enter at high tide.

MAX. SIZE: 5,000 g.r.t.

RADIO: Vestmannaeyjar Radio. VHF available.

TUGS: Normally join in-coming vessels at anchorage. The use of tug is optional. 1 Tug, 500 h.p.

STEVEDORES: Available. Ordered by Agent. Working hours: 0800-1700 hrs., Monday–Friday.
CRANES: 2 mobile cranes, capacity up to 15 tons.
MEDICAL: Not necessary to receive advance notice. Hospital facilities and doctors available.
TANKERS: Discharge lines, 7 in. No deballasting facilities available.
FRESH WATER: Shore installations on every berth.
FUEL: All grades available.
GANGWAY/DECK WATCHMEN: Available.
OPENING/CLOSING HATCHES: Stevedores.
CUSTOMS ALLOWANCES: For each crew member; 100 cigarettes or 20 cigars or 100 grm. tobacco, and 1 bottle spirits.
IDENTIFICATION CARDS: Not required.
CONSULS: Denmark, Germany, Great Britain, Norway, Sweden. To be called through Vestmannaeyjar Radio.
REPAIRS: All repairs possible.
AIRPORT: Local airport. Daily connection to Reykjavik.
TIME: Local time GMT.
HOLIDAYS: New Year's Day; Good Friday; Easter Monday; Labour Day (1 May); Ascension Day; Whit Monday; National Festival Day (17 June); Prayer Day; Christmas Day (25 December). No work on New Year's Day, Good Friday, Easter Sunday, Whit Sunday, 17 June, Christmas Day.
POLICE/AMBULANCE/FIRE: All tel. 1666.
SERVICES: Radio, radar services etc. Divers available.
SHORE LEAVE: Allowed.
DEVELOPMENTS: Depth of entrance to harbour to be increased to 6.5 m. New Quays on North Side of harbour to be built in the near future.
AUTHORITY: Harbour Master.

NOTES

Please also advise Shipping Guides Ltd.

India

COURTESY FLAG: Correct flag to be flown by foreign ships visiting Indian ports is Indian Merchant Navy Ensign (a red flag with a length of one and one half times the width and with National Flag of India superimposed in top quarter next to staff) and not Indian National flag.

SHIP'S OFFICER'S REPORT: Apart from the various forms and Crew Lists, etc., the Customs Boarding Officer also requires a List of Private Property in the possession of the Master, officers and crew on Form No. IV in duplicate and the local Agents need 2 more copies of the same for clearing the vessel inward. This procedure is followed when a vessel arrives from abroad or even when she is arriving from an Indian Port. It is common in both the cases.

ALLEPPEY: 09.29 N. 76.23 E.

PORT LIMITS: On the North by a line drawn from the North boundary pillar (white masonry structure) to 7 fathoms of water. On the South by a line drawn from the South boundary pillar, S. W. to 5 fathoms of water and thereon West to 7 fathoms of water. On the West by a line running North to South joining the Northern and Southern boundary lines. On the East by the beach road from the North boundary pillar to a stone on the beach road 220 ft. East of South boundary pillar.

DOCUMENTS:

(a) For Port Office:

Last port clearance (original for verification and return). Ships' Registry (original for verification and return). Load Line Certificate (for perusal and return). Safety Radio Telegraphy Certificate (for perusal and return). Safety Equipment Certificate (for perusal and return). Passenger List (1). Crew List (1). Deck Cargo Certificate (1).

(b) For Customs:

Application for entry inwards. Last Port clearance. Port Office Entry Certificate. Arrival report. Particulars required by customs in approved form. Favour Parcel Certificate. Gift Parcel Certificate. Health Report. Opium Certificate. Arms and Ammunition Certificate. Import manifest. Passengers list. Storelist, crew list, and private property declaration. Ship's currency declaration. ILH receipt.

PILOTAGE: None. Open roadstead port.

ANCHORAGES: Approach to port free from navigational dangers. Anchorage provides good holding ground.

MAX. SIZE: Being open roadstead, vessels of any size can anchor according to draft.

HEALTH: Port Health Officer may be contacted by telegram addressed CYCLONE ALLEPPEY for issue of pratique certificate. Procedure to be followed in Indian Port Health Rules.

RADIO: Morse system of signalling by light and signalling by International Code flags alone are available. Steamers code can be used as call sign.

TUGS: 2 tugs owned by Port Department render services per requisitions from Agents. Tugs usually approach vessels after anchoring.

BERTHING: No Berths.

MEDICAL: Government hospitals available.

DENSITY: 1025.

FRESH WATER: Only available in very small quantities.

FUEL: None available.

GANGWAY/DECK WATCHMEN: Available.

OPENING/CLOSING HATCHES: By stevedores.

IDENTIFICATION CARDS: Necessary only when crew land ashore.

CONSULS: Nil.

REPAIRS/DRY DOCKS: None.

REPATRIATION: Crew changes are effected subject undertaking by Owners through Agents.

AIRPORT: Cochin, 62 km. North of Alleppey.

TIME: GMT plus 5.5 hours.

HOLIDAYS: For work on approved closed port holidays and national holidays labourers have to be paid extra in addition to wages.

POLICE/AMBULANCE/FIRE: Emergency (Fire and Police) 100 Alleppey Exchange.

SHORE LEAVE: Crew allowed to land. Foreigners required obtain prior permission of Police authority through Agents.

AUTHORITY: Senior Port Conservator.

BEDI BUNDER: 22.31 N. 70.02 E.

DOCUMENTS:

1 Maritime Declaration of Health.
1 Last Port Clearance.
6 Crew Lists.
6 Passengers' Lists.
4 Stores Lists.
4 Private Property List of crew and officers.
4 Certificates of Currency, Arms and Ammunition and Deck Cargo.
1 Same Bottom cargo list.
1 Hazardous Cargo List with categories.

PILOTAGE: Vessels anchor at roads as pilotage not compulsory; however, if requested in advance by Master to PORTAL BEDI, ship may be piloted from Pirotan Lighthouse to Rozi Anchorage about 7 miles from port by local Pilot Guide. Pilot boards vessel off Pirotan Island Light (Lat. 22° 36′ N. Long. 69° 57′ E.).

ANCHORAGE: Lighterage port. Steamers anchor at Rozi anchorage about 7 miles from port, where good anchorage up to 7 fathoms at low water.

HEALTH: Pratique granted on delivering Maritime Declaration of Health to Customs officer on boarding. Vessels having touched yellow fever area prior to arrival granted free pratique by Mosquito Party to be deputed from Kandla, which can only be arranged by prior notice failing which vessel has to proceed either Kandla or Bombay for Free Pratique.

RADIO: Call sign VUK5. Working hours:

0930–1130 hrs. 1730–1930 hrs.
1330–1530 hrs. 2130–2330 hrs.

Frequency 600 m. or 500 kc/s., working at 429 m. and calling at 500 m.

TUGS: Port tug available for use at anchorage.

BERTHING: No berths.

STEVEDORES: Agents and stevedores require advance ETA of 24 hours for preparing labour gangs. Daily loading is 400/500 tons for bagged cargo.

MEDICAL: 24 hours notice required for medical service. Government hospital at Jamnagar where vaccination/fever injection services available.

DENSITY: 1025.

FRESH WATER: Supplies by barge capacity 50 tons. Possible supply about 50 tons every alternate tide subject adequate supply of water in port area.

FUEL: None.

GANGWAY/DECK WATCHMEN: The services of watchmen are recommended.

OPENING/CLOSING HATCHES: By ship's crew.

CERTIFICATES:

Ship's Register.
Load Line Certificate.
Safety Radio Certificate.
Safety Equipment Certificate.
Derat. Exemption Certificate.
Gear Certificate.

CONSULS: None.

REPAIRS: No facilities for repairs to ships.

DRY DOCKS: None.

AIRPORT: Jamnagar – 7 miles from city. Daily flight Jamnagar-Bombay.

TIME: GMT plus 5.5 hours.

HOLIDAYS: Non-working days and work not permitted even on payment of overtime charges: Indian Republic Day; Bakri-Id; Holi; Muharram; Gokulastami; Dasehra; Diwali; Ramzan-Id.

POLICE/AMBULANCE/FIRE: District Superintendent of Police 100 and 3795; Ambulance/Casualty Department 4444; Fire 101.

GENERAL: Tidal port and barges loaded and sent out to ship during tide time only. Loading of barges carried out manually.

SHORE LEAVE: Crew members allowed ashore in emergency or for medical treatment. Necessary police permits take 48 hours.

REGULATIONS: No launch services available for crew. Only 5 ships allowed to work at time at anchorage. Further arrivals wait turn.

DELAYS: Delay expected for loading and discharging in monsoon due to limited number of barges available.

DEVELOPMENTS: The scheme of creating additional facilities, road connection, transit godowns, electrification and water supply and cranes, etc. near mouth of creek. This newly developed area is completed and connected by good all weather road with city of Jamnagar.

AUTHORITY: Port Officer.

BELEKERI: 14.43 N. 74.15 E. (See Plan Book)

PORT LIMITS: *North.* A line drawn due West from Kawada Guda peak into the sea up to 7 fathoms of water starting from a point 50 yards above high-water mark of the shore.

East. Seashore of Belekeri Bay 50 yards above high-water mark from North Boundary Mark to rocky promontory in Lat. 14° 40′ N. including the Belekeri creek and all branches thereof, as far as navigable and the shores and banks within 50 yards of high-water mark Spring tides including Islands. All patta lands and other private sites excluded.

South. A line drawn due West from a point 50 yards above high-water mark of rocky promontory in Lat. 14° 40′ N. into the sea up to 7 fathoms of water.

West. A line joining the two 7 fathoms points in the sea.

DOCUMENTS:

8 Crew Lists.
2 Manifests of Stores.
2 Private Property Declarations.
2 Currency Lists.
1 Maritime Declaration of Health.
3 Passenger Lists.
4 Import Manifests.
Last Port Clearance.

PILOTAGE: Not necessary. Vessels anchor in stream and in open sea. Ships can be manoeuvred under guidance of Port Officer.

ANCHORAGE: The anchorage for shallow draft steamers in open roadstead is with Kukra Island bearing 080° (T) distance about 1.5 miles in depth of 27 to 29 ft. Anchorage for deep drafted vessels is with Kukra Island bearing 080° (T) distance about 2.5 miles in depth 34 to 37 ft.

HEALTH: Medical Officer, Ankola acts as Port Health Officer. Free pratique to incoming vessels granted by radio. All vessels calling from foreign destination must send radio message addressed "Medical Officer, Ankola", at least 48 hours before entering, giving last port of call, number of crew, health conditions, ETA and requesting pratique; same message must be repeated to Agents also, on which pratique granted on shore. Anchoring time is pratique time. For vessels from Indian ports pratique not required. Vessels which have taken on board passengers or crew from yellow fever areas within 30 days of departure from such ports will be under quarantine. Free pratique will not be granted until Mosquito Search Party, from nearest major port (i.e. Cochin, Goa or Bombay) has inspected, disinfected and certified that ship fit for granting pratique. Master to inform Agent well in advance if arriving from yellow fever area to enable arrange Mosquito Search Party for quick pratique.

RADIO: Recommended to give ETA or pratique messages via Goa or Bombay Radio.
BERTHING: No berths.
STEVEDORES: ETA required at least 48 hours prior arrival order Agents advise Shippers and stevedores.
MEDICAL: No hospital but good medical aid given at Karwar, 20 miles distant. In case of inoculations and vaccination at least 2 days advance notice to be given for vaccines to be brought from Hubli or Belgaum distance 100 and 150 miles respectively.
DENSITY: 1025.
FRESH WATER: Can be supplied from Karwar by water barge.
FUEL: None.
GANGWAY/DECK WATCHMEN: Not required.
OPENING/CLOSING HATCHES: Generally done by ship's crew.
CERTIFICATES:

Ship's Register.
Load Line Certificate.
Safety Radio Certificate.
Safety Equipment Certificate.
Derating Certificate.
Vaccination and Inoculation Certificates.

CUSTOMS ALLOWANCES: 200 cigarettes allowed per crew member. Wine and/or Spirit: 1 bottle of light spirit and 1 bottle of hard spirit per crew member.
CARGO GEAR: Valid International cargo gear certificate not more than 12 months old. Validity shall cover whole period of loading and discharging.
IDENTIFICATION CARDS: Not required.
CONSULS/REPAIRS/DRY DOCKS: None.
REPATRIATION: Arranged from Goa or Bombay.
AIRPORT: Nearest airports Goa or Belgaumi Bombay.
TIME: GMT plus 5.5 hours.
HOLIDAYS: Observed as declared by Port Authorities. Non-working days when work not permitted even on payment of overtime: Republic Day (26th January) and Gandhi Jayanti (2nd October).
POLICE: Tel. 49.
SHORE LEAVE: Permission may be obtained (Chinese personnel not allowed to land on shore).
AUTHORITY: Port Officer, Karwar.

BHAVNAGAR: 21.47 N. 72.08 E.

DOCUMENTS:

Ship's Register.
Load Line Certificate.
Safety Equipment Certificate.
Safety Radio Certificate.
Last Port Certificate.
Manifest on prescribed form (3 copies).
Declaration of private and personal property.
Crew List.
Customs circulation copy issued by Boarding Officer of last Indian Port of call.
Place and date of deratisation certificate.

PILOTAGE: Pilotage should be arranged in advance through ship's local Agent who may be contacted via the port radio, call-sign VUJ-9. An ETA should be sent at least 48 hours in advance in order to arrange Pilot. Pilotage is compulsory. Pilot boat does not have VHF, but may be contacted by light or flag signals. Pilot station is 4.5 miles N.N.E. of Piram Island Lighthouse and Pilot boat will only be on station when the vessel is scheduled to arrive. Vessels should arrive at Pilot station about 2 hours prior to time of high-water and are advised not to anchor awaiting a Pilot but to make a reciprocal course until arrival of the pilot boat.
ANCHORAGE: Vessels up to 31 ft. draft are advised at anchorage Eastward of perigee light vessel. Maximum limit of draft for vessels working at anchorage is 32 ft. at present. If, however, at future date it becomes necessary to find suitable anchorages for vessels more than 32 ft., this area is likely to be farther Eastward (about 3 to 4 miles) from present anchorage area and this is likely to raise fresh problem of operation of lighters due to increase in distance involved. At present the issue has not arisen as the maximum limit of draft of 32 ft. is fixed for vessels at anchorage. All vessels at anchorage are loaded and discharged by means of lighters.
MAX. SIZE: Up to 500 ft. length, and up to 65 ft. breadth may berth alongside.

Permissible draft for a particular tide is arrived at by subtracting 13 ft. from predicted height of high-water for that particular tide.
HEALTH: Healthy ships are granted pratique by the Pilot. International health regulations are applicable to vessels arriving from yellow-fever areas.
RADIO: Bhavnagar Port Radio, call sign VUJ-9 should be used for routing ETA messages, and is also used by Agents in cables to shipping.
TUGS: Tug assistance is available for berthing and unberthing vessels in inner harbour. Position where tugs join the vessel is dependent upon prevailing weather conditions. Usually ship's lines are used in connections to tug.
BERTHING: Berthings are as per tides and according to permissible drafts.
STEVEDORES: The stevedoring gangs are arranged directly by Agents through approved stevedores.
MEDICAL: Medical facilities can be arranged by Master through Agent. Hospital facilities available in city of Bhavnagar which is 13 km. from port.
TANKERS: No facility for oil tankers.
DENSITY: 1025.
FRESH WATER: Fresh water supplied alongside jetty as well as at anchorage.

Shipmasters Report: Water is often in short supply, and ships may be unable to obtain any at all at the anchorage. Ships should not rely upon an evaporator to make water at the anchorage, due to the high mud content of the sea water.
FUEL: Oil bunkering available in limited quantity.
FIRE PRECAUTIONS: Alongside jetty fire-fighting facilities available. At anchorage fire-fighting facility is provided by the tug.

Usual fire precautions applicable.
DEVELOPMENTS: Intensified dredging operations are proposed to be undertaken for increase in drafts of the steamers berthing.
GANGWAY/DECK WATCHMAN: Gangway and deck watchman are recommended.
OPENING/CLOSING HATCHES: As arranged between the Master and stevedores.
SHIP'S CERTIFICATES: Registration; Safety equipment; Safety Radio and Telegraphy; International Load Line.
CUSTOMS ALLOWANCES: As per Customs regulations in force from time to time at Indian ports.
CARGO GEAR: Ships should possess valid Cargo Gear Certificate.
CREW IDENTIFICATION CARD: Valid international passport or identification card necessary.
CONSULS: No consulates at port. Nearest consulates are at Bombay.
REPAIRS: No repair facilities exist for the ship except repairs of minor nature which could be undertaken by private repair firms.
DRY DOCKS: Small dry dock available for repairs of vessel of up to 200 ft. length.
REPATRIATION: Possible.
AIRPORT: Bhavnagar city is served by an airport situated about 7 km. from the Port. Regular flights to Bombay are available daily.
TIME: GMT plus 5.5 hours.
HOLIDAYS: Holidays in all 8 in a year declared by Port Authorities on which working of the ship can be attended at the option of the port.
POLICE/AMBULANCE/FIRE: Police force and ambulance and fire facility available from Bhavnagar city. Limited fire-fighting facility available at port.
TELEPHONES: No facility is available for providing telephones on board the ships.
GENERAL: Port equipped with 3 berths having 6 cranes with 3-ton capacity. Cranes available for loading or discharging ship's cargo.
SHORE LEAVE: Citizens of The Peoples Republic of China and Pakistan not allowed ashore. All other nationals are allowed to go to Bhavnagar city which is 13 km. from port for which shore passes are issued by Customs Dept.
REGULATIONS: Photography in port prohibited. No crew member allowed to take liquor ashore.
DELAYS: Delays in berthing depend upon number of ships working on berth and awaiting if any. At anchorage generally not more than 2 ships are worked at a time.
AUTHORITY: Port Officer.

BOMBAY: 18.56 N. 72.49 E. (See Plan Book)

PORT LIMITS: Vessel is considered to have "arrived" when Pilot is embarked and/or when vessel is required to anchor outside pilotage area awaiting a suitable tide, as in the case of large tankers.
DOCUMENTS: See "Calcutta".
PILOTAGE: Motor pilot vessel *"Venu"* stationed 18° 51′ N. 72° 49.5′ E. White, buff-coloured funnel, "Pilot" painted black capitals, exhibiting International Signals by day/night. Call sign "ATDZ".

Minimum advance notice 24 hours to Agents and Harbour Master through Bombay Radio (VWB) and 12 hours to pilot vessel on WT. Pilot vessel contacted VHF Channels 12, 14 and 16. In case pilot vessel not on station, vessels advised anchor at Pilot station, draft permitting, and wait instructions.
ANCHORAGES: More than 60 anchorage berths radius 1,000 ft. with depths from 38 ft. to 14 ft.; of these two 38 ft.; 30 between 30 ft. and 35 ft.; 22 between 20 and 30 ft.; remainder below 20 ft. All anchorages safe.
RESTRICTIONS: According to state of tide and draft.
MAX. SIZE: For Butcher Island Marine Oil Terminal: Normally max. length 700 ft. However, tankers 800 ft. length can be berthed provided adjacent berth occupied by medium-size tanker. Draft restrictions as follows: (depth of water at low tide.)

No. 1 BI	37 ft. 09 in.	Subject variation.
No. 2 BI	36 ft. 06 in.	
No. 3 BI	38 ft. 05 in.	

Pir Pau Oil Berth: max. length 525 ft. Depth at low tide 28 ft. (subject variation). Buoy fixed for berthing 560 ft. tankers.

Docks	*Max. length*	*Max. width*	*Max. draft (subject to tide)*
Indira	666 ft.	95 ft.	34 ft.
Victoria	460 ft. by day and 400 ft. by night	77 ft.	23 ft.
Prince's	500 ft.	61 ft. 3 in.	22 ft.

PRATIQUE: The Master of every vessel calling Bombay from a foreign port must send the following particulars by cable to "Quarantine Bombay" 24 hours prior to arrival and request for radio pratique:

AAA ports of loading BBB last port of call CCC date of departure DDD ETA discharging port EEE vessel's maritime Declaration of Health is negative and total number of crew on board all healthy FFF vessel has not called at any port in East Africa between Northernmost point of Eritrea and Southernmost point of Tanzania including Zanzibar or any other yellow fever infected area within last 30 days GGG no unusual mortality of rats on board HHH no monkeys III no persons embarked at Aden or Djibouti.

If the vessel is coming from a yellow fever area, then the Port Health Officer boards the vessel for inspection before granting free pratique.
RADIO: Bombay Coastal Station, call sign VWB.

Information regarding weather will be broadcast at 0630 and 1030 hrs. local time on 2,000 metres.

RADAR/VHF: No port radar service. Shipmaster contacts pilot vessel by ship's radio or VHF on international frequencies. Channels No. 12 and 14 also available on VHF.

TUGS: Tugs join vessel when close dock entrance and assist undocking. Ship's and tug's lines used.

BERTHING: *Indira Dock:* 21 berths, able to handle cargo vessels up to 20,000 d.w.t. Average length of berth 150 m. Most berths are equipped with one 6-ton crane and four 3-ton cranes.

Victoria Dock: 15 berths, able to handle vessels up to 5,000 d.w.t. Average length of berth 110 m. Most berths are equipped with 1.75 ton and 1.5 ton cranes.

Prince's Dock: Length 1,560 m. of which 1,200 m. is available for handling cargo. There are 8 berths able to handle vessels up to 5,000 d.w.t.

Ballard Pier: Length 244 m., width 110 m., when converted will handle passenger vessels up to 30,000 g.r.t. and cargo vessels up to 22,000 d.w.t.

The extension at Ballard Pier will be the new passenger terminal and will receive passenger vessels up to 30,000 g.r.t. at any stage of the tide.

CONTAINER HANDLING FACILITIES: New container terminal at Indira Dock No. 12B. Total area 12 acres. In the first phase the facility will have a Coles Colossus 200 ton mobile crane, Stothart & Pitt semi-automatic spreaders and various mobile container equipment.

A gantry crane will be installed at a later date.

CRANES: *Quay side:* Electric and Hydraulic cranes available at Indira, Prince's and Victoria Docks.

Mobile Cranes: 56 mobile cranes with capacities up to 43 tons available.

Heavy lift: Electric crane of 60 tons and steam crane of 20 ton capacity.

Floating cranes: 2 available, 60 ton and 125 ton capacity.

STEVEDORES: Supplied by Dock Labour Board. Port Trust supplies shore labour for handling cargo including stacking in sheds.

MEDICAL: Hospital facilities available. Notice in sufficient time, depending on seriousness of case, to arrange for transport, hospitalisation, etc.

TANKERS: Reducing pipe connections available at jetty. Dirty ballast tank available at Marine Oil Terminal. 3 berths at Butcher Island and 1 berth at Pir Pau exclusive to tankers. For draft details see "Max. size".

Pir Pau can handle tankers up to 16,000 d.w.t. and the Marine Oil Terminal at Butcher Island can handle tankers up to 54,000 d.w.t. at 2 berths and 36,000 d.w.t. at the other berth.

DENSITY: The Port of Bombay is essentially a salt water port and major fluctuations in the density occur on account of tide. Density varies mostly in monsoon period June to September.

FRESH WATER: Available all berths. By water-boat in stream, by water-mains in docks.

Ship Officer's Report: Vessel berthed at Ballard Pier, East side. Fresh water availability on pier dependent on capacity of storage tank at the time of call. The water was not available continuously and we had to wait for the tank to be refilled.

FUEL: Arranged by oil companies through Agents. Facilities at berths in docks and Butcher Island berths. No bunker facilities for vessels at anchor.

FIRE PRECAUTIONS: All regulations of Petroleum Rules (chapter 1/50 of BPT Port Rules). Port maintains fire stations, 24 hours per day, both at docks and at Butcher Island Oil Terminal. Special precautions taken for tankers at Marine Oil Terminal at Butcher Island.

DEVELOPMENTS: Satellite port in Nhava/Shewa area proposed also new harbour near Sassoon dock for trawlers drawing 5.5 m.

GANGWAY/DECK WATCHMEN: No deck watchman supplied. BPT gangways generally available all berths except Butcher Island and Pir Pau.

CERTIFICATES:

International Safety Equipment Certificate.
International Safety Radio Telegraphy Certificate.
International Safety Radio Telephony Certificate.
International Exemption Certificate (Deratisation).
International Load Line Certificate.

CARGO GEAR: Compliance BPT Port Rules and Docks By-laws essential. Hydraulic Quay Cranes, Electric and Heavy Lift Cranes, Floating, Mobile and Crawler Cranes all available.

IDENTIFICATION CARDS: Necessary for Police/Customs authorities.

REPAIRS: All repairs possible.

DRY DOCKS: Two: "Merewether" 525 ft. long, 65 ft. 6 in. wide. "Hughes" 1,000 ft. long, 100 ft. wide.

REPATRIATION: Can be arranged, also crew changes.

AIRPORT: International Airport Santacruz, 15 miles from Bombay Harbour.

TIME: Indian standard time ahead of GMT by 5 hours and 30 minutes. No alterations to clocks are made any time.

HOLIDAYS: Holidays for the docks (when cargo handling is closed) are fixed every year. Republic Day (January); Bakri-Id (February); Holi (2nd day) (March); Muharram (March); Maharashtra Day (May Day); Buddha Jayanti (follows May Day); Independence Day (August); Ganesh Chaturthi (September); Mahatma Gandhi Jayanti (October); Dasara (October); Diwali (November); Ramzan-Id (December); Christmas Day.

POLICE/AMBULANCE/FIRE: Police 100; Ambulance 102; Fire 101.

TELEPHONES: Arrangements for placing a telephone on board ship exist at all transit sheds in Docks.

SERVICES: Tank cleaning equipment is not available. Dirty ballast accepted in tank at jetty at Marine Oil Terminal.

REGULATIONS: Stringent Port Rules and Docks By-laws detailed in "Bombay Port Rules".

SHIPMASTER'S REPORT: September, 1979.

Anchorage: If inner anchorage berths occupied then pilot station will inform of same and vessels to anchor in Anchorage "A" or "B" West of Prongs Reef Lighthouse. The prohibited anchorage area between the zones is due to pipes and cables of the Bombay High Oilfield. Patrol vessels "Sagarika I" and "Sagarika II" inform vessels if they are beyond anchorage limits and vessels should adhere to their instructions.

Radio: Call sign "VWB". 24 hours watch. HF & MF. Vessels with good transmitter can contact Bombay directly from Port Said or Cape Town or Singapore.

Radar/VHF: VHF Channel 16 for contact with Pilots and listening watch. Call Bombay Pilots or Bombay Harbour Control. Channel 12 is port frequency for berthing or shifting.

Hatches: Opening and closing of hatches, beams, hatch covers by Stevedores. All mechanically operated hatches opened and closed by ship's crew. Rigging gangs at Owners expense may be employed for these jobs.

Stevedores: 1st shift (0800–1700 hrs.), 2nd shift (1700–2300 hrs.), 3rd shift (2300–0500 hrs.).

Consuls: U.S.A., Australia, Belgium, A.R.E., France, Greece, W. Germany, Japan, Liberia, Norway, Sweden, U.K., U.S.S.R. and others.

Medical: Excellent medical facilities and hospitals.

Customs: Weekly allowance of 1 bottle spirit (700 ml.) and 200 cigarettes.

Specialised Cargo Handling Facilities: Ballard Pier Berth specially reserved for container and roll-on/roll-off vessels. Another container berth and container yard being formed at Berth No. 23 I.D. As Bombay Port not full geared for mechanical handling of cargo, advance information and notice will aid Agents in arranging for specialised services and fork-lifts. Good facilities for LASH system of cargo.

Surveyors: All surveyors available. Standard marine and general surveyors.

AUTHORITY: The Chairman, Bombay Port Trust.

CALCUTTA: 22.32 N. 88.22 E. (See Plan Book)

DOCUMENTS:

Ship's Register.
Load Line Certificate.
Safety Radio Certificate.
Safety Equipment Certificate.
Deratisation Certificate.
Port Clearance from Last Port.
Indian Coast Light Dues Receipt (if any).
4 copies of Crew List.
4 copies of Passenger List.
1 copy of Through Cargo Manifest.
4 copies of Stores List.
1 copy of Cargo Manifest with B/Lading for the same.
4 copies of Opium and Dangerous Drugs Certificate.
Cargo Plan.
Cargo on Deck declaration.
4 copies of Certificate of Foreign Currency.
4 copies of Certificate of Arms and Ammunition.
Letter to Assistant Collector of Customs regarding Local Agency.
Letter to Assistant Collector of Customs regarding duty on ships stores.
Application to the Inspector of Police.
3 copies of Arrival Report.
4 copies of Watches and Clock List possessed by each member of the crew.

PILOTAGE: Telegraphic address of Pilot station: VWST "Pilots Sandshead". Radio message should be sent 48 hours prior arrival giving (a) ETA Eastern Channel Lt. Vs.; (b) from . . . to . . . (either Haldia, Budge Budge, or Calcutta); (c) deepest *fresh* water draft; (d) length overall; (e) g.r.t.; (f) whether VHF is or is not on board.

Pilot boards vessel Sandheads from pilot vessel fitted with W/T, DF, radar, echo sounder and other navigational equipment, maintains continuous watch on 500 kc/s. (600 m.) and receives ETA messages of incoming vessels.

As an aid to navigation, navigable channel in river is marked with lights and channel buoys. There is a lighthouse at Sagar and downstream from this point, 2 unattended Light Vessels are stationed at Upper Gasper and Lower Gasper and 2 attended Light Vessels at Intermediate and Eastern Channel Stations. Navigable channel leading to Haldia Port from sea is 63 nautical miles and to Calcutta about 123 nautical miles. There are 15 bars in different reaches of the river, 4 of these are downstream of Haldia and the remaining 11 between Haldia and Calcutta. Since these bars are subject to fluctuations, the river is regularly surveyed and dredged as required. Owing to sharp bends, narrow channel and difficult tidal conditions the navigation of ships between ports and sea requires service of trained Pilots employed by The Port Trust. River Pilots take charge of vessels at Sandheads, navigate to Haldia/Garden Reach as the case may be and then hand over to Harbour Pilots who manoeuvre vessels to Haldia Dock or riverside jetties, moorings, or dock entrance lock at Calcutta. Movement of ships inside docks is guided by Berthing Master.

ANCHORAGES: Anchorage in River Hooghly at Saugor Roads, Halida Kalpi, Diamond Harbour, Royapur, Ulubaria and Garden Reach of which Royapur, Ulubaria and Garden Reach utilised only by ships on passage to and from the port in emergency. Depths of anchorages vary on day to day basis according to River Draft Forecast but on average 30 ft. deep.

RESTRICTIONS: Navigation on River Hooghly is carried out only with Pilot on board and according to tide. Speed of vessel important factor and must be declared to Pilot on board, preferably telegraphed 48 hours in advance to Pilot vessel.

MAX. SIZE: Maximum LOA 565 ft. with beam of 80 ft. for Nataji Subhas Docks and 515 ft. LOA with beam of 70 ft. for Kidderpore Docks. A vessel of 535 ft. and over can sail out as "Tide Time Sailing" only and this restricts her draft from Calcutta.

Maximum LOA of tankers for tanker terminal at Budge Budge is 620 ft. Restriction of beam for vessels berthed at Baj Baj is 85 ft. Deepest draft alongside dock berths in Nataji Subhas and Kidderpore Docks 8.70 m

At Budge Budge deepest draft at any berth 9.00 m. Berthing of vessels, depends on prevailing draft of day published in Draft Forecast for month.

PRATIQUE: Procedure for obtaining pratique: To obtain Radio Praitque incoming vessels communicate by wireless to Port Health Officer, Calcutta, Cable address: "Quarantine Calcutta":

(a) No sickness or death from sickness on board within last 15 days.
(b) No sand, earth, pig, poultry, crew or passenger taken aboard from E. Coast of Africa between Port Sudan and Durban, both ports included.
(c) Ship not touched within last 30 days any port in E. Africa between Northernmost point of Eritrea and Southernmost point of Tanzania, including Island of Zanzibar or any other yellow fever infected area.
(d) No abnormal mortality of rats or mice on board.
(e) No monkey on board.

(Item *(a)* to be sent in code under usual standard quarantine messages required by ships; rest in plain language through local wireless station.)

In case of any suspected disease or fever on board, local Agents may be contacted by cable who arrange for doctor to be sent or for removal of a patient if necessary. Vessels calling at another port in same country are exempted from obtaining pratique.

RADIO: Calcutta Radio, call sign VWC. R/T. and VHF.

Information regarding weather distributed at 1030 and 0630 hrs. local time on 2000 m.

TUGS: Tugs used for vessels after passing lock entrances at Nataji Subhas and Kidderpore Docks. Tugs used for vessels to turn. Vessels own lines. At Garden Reach sailing on ebb tide.

BERTHING: Vessels brought in for berthing according to tide. Movements from one berth to another inside dock not dependent on tide, but according to convenience of port. Vessels berthed at riverside jetties or river moorings required to have starboard anchor unshackled in order that starboard chain could be tied to buoy on arrival. After first chain is shackled on, port anchor is unshackled and 2 pieces of chain, each 30 fathoms long are removed from port cable and sent aft by boat and made fast to buoys etc, and tied to stern of ship. The remaining port cable is tied up to another buoy forward. Vessels at river jetties and river moorings if left during Bore Tide are to comply with following:

Half an hour before low water:

(a) Gangway to be hoisted up, if ashore.
(b) Pipe-lines disconnected and triced up (for vessels at Budge Budge Jetty).
(c) Heave tight on forward chains to keep vessel about 6 ft. off jetty or pontoon. Make sure weight is on bore springs and not on chains aft.
(d) Tighten all buoy ropes.
(e) When bores expected, all vessels in stream shall have steam on main engines, windlasses and winches and a sufficient number of officers and crew on board to tend vessel in case of emergency.

After bore made, and vessel stopped ranging, slack forward chains to old mark. Bore springs could be had through Agents from local suppliers.

Baj Baj (oil terminal) on banks of River Hooghly has river jetties, hence above instructions also apply to vessels berthed at Baj Baj Jetties.

At Baj Baj two lengths of chain provided by Port Trust for stern moorings.

Kidderpore Dock: Lock entrance: 580 ft.×80 ft. 19 general cargo berths. 2 coal berths, of which one is fully mechanised. Peak loading rate 400 m.t.p.h.

Netaji Subhas Dock: Lock entrance: 700 ft.×90 ft. 8 general cargo berths, No. 1 berth equipped with 200 ton heavy lift crane. One oil berth, Berth "C", used for unloading petroleum products. 6 additional berths available.

Garden Island Jetties: 3 alongside berths.

Budge Budge: Also see "Tankers". 6 jetties which can accommodate vessels up to 625 ft. (190.50 m.) LOA.

Jetties were previously used mainly for petroleum products for which large storage tanks are available. With the commissioning of the Indian Oil Refinery at Haldia, movement of products by large tankers has been transferred.

These jetties are presently available for handling bulk liquids like edible oil, vegetable oil, soya bean oil, etc., for which separate storage of 59,000 m.t. capacity is under control of the State Trading Corporation.

BRIDGES: 2 bridges, 1 collapsible, 1 swing, situated inside Kidderpore Dock are open for navigation to suit convenience of port.

STEVEDORES: 48 hours notice of arrival at pilot station required by Agent.

MEDICAL: Masters in need of medical services required cable Agents. Hospital facilities. Ships leaving for foreign port or minor Indian port (where no Port Health Officer) required to ensure officers and crew have valid health certificates (for cholera, smallpox and yellow fever if proceeding to a yellow fever area).

TANKERS: Not permitted discharge residue into dock (at C berth Netaji Subhas Dock).

S.G.	A.P.I. of local types of oil
0.91 and 0.94	0.9430 varying to 0.9550.

Tanker terminal at Baj Baj 13 nautical miles from Calcutta by river.

BB Jetty No. 1 for accommodating vessels of OAL 620 ft.
„ No. 2 „ „ „ 430 ft.
„ No. 3 „ „ „ 230 ft.
„ No. 4 out of commission
„ No. 5 „ „ „ 620 ft.
„ No. 6 out of commission
„ No. 7 „ „ „ 510 ft.
„ No. 8 „ „ „ 620 ft.

Deepest draft alongside jetty berths 9.0 m., but vessels brought up according to prevailing draft as per forecast.

DENSITY: Average density in port is about 1000.

FRESH WATER: Fresh water on application from Masters or Agents and preferable if at least 48 hours notice given. Supplies through barges and direct from quayline.

FUEL: Redwood 600/700 sec. supplied at Calcutta and require at least week's notice for supplying vessels lying inside dock. Fuel also supplied at Budge Budge terminal, 3 days notice to suppliers and Port Authorities.

FIRE PRECAUTIONS: Usual non-smoking precautions and Master, Owners, Charterers or their Agents of vessels carrying import cargo or intending to load export cargo of hazardous or inflammable nature, furnish 6 copies of list of cargo involved to Traffic Manager in prescribed form, at least 10 days before vessels intend to land or ship cargo. Traffic Manager on receipt of list, categorise items enumerated in list and landing delivery and storage of such cargo be done strictly in accordance with instructions.

DEVELOPMENTS: Refer to "Haldia".

GANGWAY/DECK WATCHMEN: Necessary and recommended by Agents at rate of 3 watchmen per shift of 8 hours.

OPENING/CLOSING HATCHES: Normally undertaken by stevedores, unless specifically mentioned that same will be attended to by crew.

CUSTOMS ALLOWANCES: 0.25 lb. tobacco and 200 cigarettes. Wine and/or Spirit: 1 bottle of wine or spirit per head for consumption on board.

CONTRABAND: Regulations provide that a vessel shall be liable to confiscation which is or has been in Indian Customs' waters where constructed, adapted, altered or fitted in any manner for the purpose of concealing goods.

The act also provides for a fine in lieu of confiscation which could in theory be up to the value of the vessel.

Indian Customs Authorities regard vessels as subject to the regulations if they have any alterations to the normal structure of the vessel or its fittings which is not of operational value, e.g. holes cut in panelling (over bulkheads) which are frequently found concealed from view behind cabin furniture such as settees, bunks desks, wardrobes, etc. Customs invariably impose fines for such cavities even though empty of about Rs. 5,000/- for 1 or 2 cavities and increasing if more cavities are found. Fines would be substantially higher if cavities in fact contained contraband.

To minimise fines it is essential that Shipowners should instruct their Masters to organise periodic anti-smuggling searches of all accommodation and other places in the vessel by ship's officers with a view to locating any cavities or contraband and such searches, and results thereof, should be logged. Furthermore, the Customs Authorities invariably obtain a statement from the occupant of the cabin whether instructions had been issued by the Owners or Master for each officer crew member to search his own cabin for cavities or hiding places or other unusual or irregular tampering with the normal structure of the cabin and to report to the Master any such cavities, hiding-places or such other unusual tampering found at any time whilst serving on the vessel.

If no such instructions have been issued, the Customs generally regard the Owners/Master as failing to take proper anti-smuggling precautions and the risk of increased Customs fines arises.

It is suggested that appropriate instructions should accordingly be issued without delay by all Masters to their officers and crews and that each officer or crew member should acknowledge receipt in writing of such instructions. It is also emphasised that such instructions should also be notified to any officer or crew member who joins the vessel after first issue of the instructions to the existing officers and crew.

CARGO GEAR: Proof of cargo gear tested by a competent authority required.

IDENTIFICATION CARDS: Not necessary if holding seamen's books or passport.

CONSULS: (Telephone Numbers)

REPAIRS: All types of deck and engine repairs undertaken.

DRY DOCKS: 5 dry docks owned by Port Trust available. 3 in Kidderpore Docks and 2 in Nataji Subhas Docks, dimensions as follows:

Dry Dock (Kidderpore) (1) 547 ft.×69 ft.×25 ft. (2) 497 ft.×69 ft.×27 ft. (3) 350 ft.×60 ft.×23 ft. (max. length/beam of vessel allowed. No. 1: 515 ft.×64 ft. No. 2: 500 ft.×64 ft. No. 3: 335 ft.×48 ft.)

Dry Dock (Netaji Subhas) (1) 581 ft.×80 ft.×22 ft. (2) 596 ft.×80 ft.×22 ft. (max. length/beam of vessel allowed. No. 1: 565 ft×75 ft. No. 2: 565 ft.×75 ft.)

Netaji Subhas Dry Docks arranged in tandem and used as one dock. Power supply, compressed air and fresh and unfiltered water supply, hydraulic capstans for propeller work and cranage service including heavy-lift available all dry docks. Each dock provided with automatic telephones for use on board ships.

REPATRIATION: Facilities exist for effecting crew changes and arranging any necessary repatriation.

AIRPORT: 12 miles; served by regular international airlines with minimum 1 flight per day.
TIME: GMT plus 5.5 hours.
HOLIDAYS: Closed Holidays (when no work is permissible): Independence Day, Republic Day, Gandhi's Birthday, Vijaya Dashami and Kali Puja.

Holidays when double wages payable: Saraswathi Puja, Netaji's Birthday; Idul Fitr, Dholjatra, Muharram, Bengali New Year, May Day, Fateh Duaz Dahan, Durgapuja, Guru Nanak's Birthday, Id and Christmas Day.
POLICE/AMBULANCE/FIRE: Police (port) tel. 45–1701 and ask Port Police or dial 100; Ambulance dial 102 or 45–4163; Fire dial 101 or 45–1701 and ask Fire Fighting Service.
TELEPHONES: No arrangements for installing telephones on board, but use of telephones from Port Trust's/Superintendent's Office on each dock.
GENERAL: *Important:* Masters of vessels in port should ensure that vessel's engines are not immobilised without prior permission of the Harbour Master.
SERVICES: Tank-cleaning equipment with minimum notice of at least 7 days. Discharge of tank-washings not permitted while vessels lying in dock. Compass and radar technicians available.
SHORE LEAVE: Seamen permitted to go ashore after cleared by Immigration Officer boarding vessel on arrival. In case of Chinese, special permission to be obtained from Immigration Authorities, through vessel's Agents.
REGULATIONS: Booklet "Dock and Jetty Handbook" supplied free by Port Trust to incoming vessels.
DELAYS: Delays occur during monsoon.
SHIPMASTER'S REPORT: September,1979.
Approaches: When approaching Calcutta from South Sri Lanka it would be advisable to pick up False Point Light and then proceed to Eastern Channel Light Float at Sandheads for Pilot. During the S.W. monsoon vessels encounter long spells of overcast skies and rain hence vessels should pick up Dolphin Nose Light at Vishakhapatnam then coast up to False Point Light before branching off to Eastern Channel light vessel.
Pilotage: Pilots board at the Sandheads. For picking up Pilots from the pilot vessel, vessels will have to approach close to the Pilot, stern to stern. Separate accommodation has to be provided for Pilot.
Restrictions: None for vessels below 22 ft. draft. Those between 22 ft. and 24 ft. 6 in. may have to wait for Spring tide for entrance and departure. However, Hooghly River Authority publishes a booklet every month stating the draft restrictions for entry into Calcutta.
Berthing: Whilst entering locks, passing through cuttings and berthing, vessels should have good fenders rigged 2 ft. above the water to prevent dents and scrapes to the hull. The Port is not equipped with fenders. The coal berths at Kidderpore Docks are old. Masters should exercise caution when coming alongside these berths for waiting or loading. For tying up to riverside moorings both anchors have to be unshackled. Starboard cable lead to port buoy and port cable to starboard buoy in a cross fashion. At the stern vessels with stern cables will have to follow the same as forward. Over and above, ropes and tackles will have to be rigged for taking the initial stress of the bores before strain comes on the cable.

Tying up the vessel to the buoys at the riverside moorings can be aided by experienced shore mooring gangs at Owner's expense.
Radar/VHF: No Radar. VHF Channel 16 for contact with pilot boat or by W/T.
Customs: Very stringent about cargo particulars.
Cranes: One heavy lift quay side crane of 200 tonnes. Berths 2–5 at NS Docks fitted with electric 5 tonne cranes. Berths A & B of NS Dock and Berths 2–11 of Kidderpore Dock fitted with 3–5 tonne electric cranes of 90 ft. radius for overside discharge/loading.
Hatches: Wooden hatch boards and beams by stevedores. Mechanically operated or other hatches by ship's crew. Rigging gangs may be employed at Owners' expense.
Stevedores: 1st shift (0630–1530 hrs.) 2nd shift (1530–2230 hrs.) 3rd shift (2230–0530 hrs.).
Medical: Very good hospitals and nursing homes.
Specialised Cargo Handling Facilities: Containers can be loaded and stuffed aboard. No Roll-on/Roll-off facility.
Surveyors: A.B.S., I.R.S., L.R.S., G.L., N.V. and others. Standard marine, cargo surveyors and general surveyors also available.
General: Vessels navigating the Hooghly River should be very careful about river thieves who will board the vessel whether stopped or at anchor or making way at full speed.
AUTHORITY: Calcutta Port Trust.

CALICUT: 11.15 N. 75.46 E.

DOCUMENTS:
Register.
Articles of agreement in the case of foreign-going vessels staying in port for more than 48 hours.
Nominal list of crew and passengers and the A & B Certificates.
Bill of Health in the case of a vessel arriving from an infected port.
Clearance from last port.
Port and Light dues receipts.
Vessel's manifest and any other document, which may be necessary.
PILOTAGE: No pilotage available.
ANCHORAGE: With Lighthouse bearing 074° in 5 to 5.5 fathoms. Mud – good holding ground.
HEALTH: In the case of all infected vessels Health Officer proceeds aboard, and in the case of all other vessels Health Officer may proceed on board and examine vessel. Master shall give every facility for examination of passengers, crew, personal effects, cargo, provisions, water-supply and any part of vessel Health Officer considers necessary to examine. Health Officer may require written declaration from medical officer (if any) of vessel or from Master (or from both) stating whether any death or sickness from an unknown or suspicious cause or any case of any disease occurred on board either during voyage or before departure, and whether any unusual mortality has been observed among rats on vessel. If Health Officer satisfied that such deaths or cases of sickness as may have occurred were not due to any of diseases specified he shall permit vessel to proceed to usual place of anchorage or berth in harbour and to discharge passengers and cargo without further restriction. Inspection by Health Officer not between sunset and sunrise except in unusual circumstances.
RADIO: Messages through Cochin Radio or Mangalore Radio.
SIGNALLING: The signal station is situated close North of the lighthouse. The station is manned 24 hours a day.

VHF is likely to be installed 1979.
TUGS: 3 motor tugs for towing lighters.
BERTHING: No berths.
STEVEDORES: Arranged through Agents and stevedore contractors.
MEDICAL: General Hospital and Medical College Hospital situated about 1 mile and 5 miles away respectively.
DENSITY: Sea water – 1025.
FRESH WATER: Available, water barge capacity 200 tons. 12 hours notice required.
FUEL: Available. Small quantity of 30 tons can be provided, 48 hours notice required.
DEVELOPMENTS: Dredging commenced at Beypore and expected to be completed within a year or two and then ships of 18 ft. draft can be berthed alongside.
CERTIFICATES:
Registry.
Radio Telegraphy.
Safety Equipment.
Load Line Certificate.
Certificates of Competency of Captain and other officers.
IDENTIFICATION CARDS: Necessary.
CONSULS: Nil.
REPAIRS: Minor repairs possible.
DRY DOCKS: Small slipway at Beypore.
AIRPORT: Construction of airport at Calicut is under consideration by the Government.
TIME: GMT plus 5.5 hours.
HOLIDAYS: Holidays declared by the State Government are holidays for the port. Cargo work can be arranged on holidays.
FIRE/AMBULANCE/POLICE: Police 100; Ambulance 100; Fire 100.
GENERAL: Ship-to-shore signalling is normally by morse light.
SHORE LEAVE: Permitted.
AUTHORITY: Port Officer.

COCHIN: 09.58 N. 76.15 E.

DOCUMENTS:
7 Crew Lists.
7 Passenger Lists.
1 Last Port Clearance.
4 Store Lists, including List of arms and ammunition.
5 Passengers' and Crew Personal Effects Declarations.
4 Cargo Manifests.
3 Cargo Certificates.
3 Deck Cargo Certificates.
3 Opium Certificates.
3 Currency Declarations.
PILOTAGE: Berthing arrangements, booking of Pilot, etc., normally done by Agent. Advisable send ETA messages at least 48 hours in advance to Agent. Amendments to ETA messages must be sent at least 12 hours in advance. ETA messages may also be sent to Harbour Master, Cochin Port Trust. Messages should contain time and date of arrival at outer roads in IST and also draft fore and aft (in fresh water). On arrival, information must be sent to Signal Station by aldis and sharp watch maintained for further instructions.

No Pilot vessel on station in outer roads. A Pilot boat with red hull and white superstructure exhibiting the normal international Pilot signal comes out to outer roads for embarking and disembarking Pilots. No special light or sound signal need be made for Pilots. All ships awaiting Pilot in outer roads must have engines ready at all times to enter harbour (unless instructed otherwise). Masters should ensure that a good pilot ladder with 2 manropes is lowered about 2 ft. above water for embarking Pilots. Also while embarking Pilot, lifebuoy must be kept handy, and a good lee given. Pilots must be escorted from and to the bridge, to the embarkation deck. Also see "Restrictions".
ANCHORAGE: Cochin roads is open anchorage with good holding ground of oily mud. Masters are required to anchor vessels in Westerly area from North to South of fairway buoy within radius of 0.5 mile. Deep-drafted vessels may anchor in a Westerly direction from fairway buoy within a distance of 0.5 to 1 mile. To facilitate entry and departure of deep-drafted ships, Masters not to anchor in line with direction of main channel, Westward of fairway buoy.
RESTRICTIONS: Unless otherwise *specifically* instructed, vessels not to enter main channel at any time without Pilot on board. Pilotage compulsory for all vessels over 100 tons gross. No night entry for crude oil tankers.
MAX. SIZE: Maximum size of general cargo ships presently handled is 700 ft. length OA with max. draft 30 ft. *salt water.* Such ships taken in only during slack ebb. Tidal Conditions: In Cochin Port ebb and flood run 2 to 2.5 hours before, to 2 to 2.5 hours after high and low water times. During monsoons, freshets are encountered and there may not be any flood for several days.
PRATIQUE: When a ship arrives at an Indian port, the Pilot who boards to bring vessel into harbour is authorised to give Free Pratique to healthy ships. The only exception to this procedure is if a vessel is arriving in

India within 30 days of calling at 'Yellow Fever port' the vessel is put in quarantine and she is granted Free Pratique *only* after the Port Health Officer has boarded and satisfied himself that all persons on board are in possession of valid certificates against Yellow Fever and after conducting Mosquito Survey.

Once a ship has been granted Free Pratique at an Indian port, it is not necessary to apply for pratique at any subsequent Indian port she may proceed to which is automatic pratique.

Part I. The complete message comprises two parts. The first part embodying the code group on page 126 (Radio Quarantine Reports) from ships at sea e.g. ZS, ZT, ZU, ZV, etc.

Part II. The second part is in plain language and the following information must be given:

A. (i) Expected time and date of arrival in the port.

(ii) List of ports of call with dates of departure within 30 days period prior to arrival at the Indian port.

OR

'Called at' 'not called at' any port in West Coast of Africa from Senegal to Angola and Ethiopia, Somalia, Kenya or Tanzania, Brazil, Peru and any other countries North of these in South America including Trinidad, Tobago, Venezuala, Panama, Panama Canal, Surinam, French Guinea, Guatemala, Bolivia, Belize, Colombia, Costa Rica, Ecuador, Guinea, Nicaragua, etc. within 30 days.

(iii) Whether any monkeys on board.

(iv) Whether any person/crew taken aboard at Djibouti or Aden (if the ship has touched either of these ports).

(v) Number of crew and vaccination status.

(vi) Maritime Declaration of Health Questions. Whether negative 'ZT' or positive (indicated by compliments – 'ZU') as the case may be.

(vii) The message must finally embody the phrase 'Request Radio Pratique'.

B. Additional information: Name of Agent. Request for 'Radio Pratique' must also include the name of the ship's Agent in the quarantine message. The message should be sent when the vessel is not more than 12 hours and not less than 4 hours from the Indian port. If the expression 'Request Radio Pratique' is not used but the complete message outlined above has been sent in that specific form Free Pratique will be granted by the Pilot provided that 'all is well' aboard. The message should be complete, timely and specific otherwise Radio Pratique cannot be granted.

In addition to the quarantine message the Maritime Declaration of Health must always be completed and presented to the Pilot, Port Health Officer or other authorised person immediately on arrival. On verification of Maritime Declaration of Health if it is found that quarantine message sent by the Master of ship is defective then Port Health Officer has the right to cancel the radio pratique granted earlier.

Port Health Officer usually inspects all incoming ships coming from foreign ports to Indian ports and also carries out health and sanitary inspection and if satisfied gives free pratique on board the ship and certificate of clearance to sail out from Cochin port.

Note: Masters are requested to check this information with the Agents in individual Indian ports and advise us without delay, if these instructions are at variance with local requirements.

Special Reservations for India:

1. Ships having other infectious diseases besides diseases subject to the regulations, e.g., Chickenpox, Measles, Mumps (Epidemic Pariotitis), Cerebrospinal Meningitis, Whooping Cough, Malaria, Paralytic Poliomyelitis, Influenzal Pneumonia or any crew/passenger having temperature of 100°F or more for more than 2 days which is accompanied by rash, jaundice, glandular swelling or diarrhoea severe enough to interfere with normal activities should inform 'Quarantine' Cochin by message and to be brought in under QQ flag in day time and red and white light at night. Port Health Officer will board such ships and grant Free Pratique after observing health formalities.

2. Ships having passenger/crew originating from or embarking at ports of Djibouti, Massawa, Aden or Yemen and arriving within 14 days of departure from the said ports should inform 'Quarantine' Cochin and the ship to be brought in under QQ flag. Port Health Officer will board such ships and grant free pratique after observing all health formalities.

3. Healthy ships touching Aden or Djibouti and coming to Indian ports within 6 days without any passenger or crew embarking at Aden or Djibouti, should hoist 'Q' flag on approaching the port limit. The boarding Pilot in such cases shall grant Free Pratique to the ship.

If passengers or crew embarked on a ship either at Aden or Djibouti and the ship arrives at Indian ports within 6 days, such ship is required to hoist 'QQ' flag and Port Health Officer is to board the ship to eliminate the risk of Yellow Fever and grant the ship Free Pratique.

Master of such ships should send quarantine message to the Port Health Officer before arrival at the port. This message should be sent not more than 12 hours and less than 4 hours before arrival.

4. Ships carrying monkeys from Yellow Fever area and coming to Indian ports within 31 days to be brought in under 'QQ' flag and Master should send quarantine message positively. Port Health Officer will board such ships and grant pratique after observing health formalities.

5. Any ship carrying dead body, Master should send cable. Port Health Officer will board the ship to investigate the cause of death whether due to any diseases subject to the Regulations.

RADIO: Cochin radio operates 24 hours daily, call sign VWN, however its range is limited to about 300 miles only. ETA messages may be routed through Bombay or Madras radio which stations are directly linked with Cochin telegraphically.

VHF: VHF sets are installed in all port pilot launches, tugs, dredgers and at the Port Control Station in Harbourmaster's Office. Channel 16 is used for calling and Channels 14, 12 and 10 are available for communication. All instructions regarding navigation of vessels will be given by Port Control or by Pilots from pilot boat. Cochin Radio maintains a VHF service which can be linked to shore telephones anywhere in India. This facility is available only between 0200 and 1400 hrs. G.M.T. Contact made on Channel 16 and then Channel 26 for conversation.

TUGS: Presently 3 tugs; one of 1,500 h.p., one of 1,400 h.p. and one of 1,000 h.p. Normally tugs join off Vypeen and tug's wire used as necessary.

BERTHING: If particular ship required arrive at certain time, Agent informed in advance.

CARGO HANDLING: Modern systems of cargo handling such as pre-slinging, palletisation and containerisation are commonly used. The port has at present 28 wharf cranes with capacity varying from 3 to 10 tonnes, 8 mobile cranes of 2 to 32 tonnes capacity, 44 forklift trucks of 2 to 2.7 tonnes capacity and 1 floating crane of 120 tonnes capacity for cargo handling operations.

There are 8 general cargo wharf berths, 2 coal berths, 1 boat train pier jetty, 2 tanker berths, 1 open berth and 2 low wharves and 11 stream moorings. Interim facilities are also provided for handling fertiliser raw materials. Ro-ro ships and container ships are also handled. Quay 9 open berth is being converted into a full-fledged container berth with sufficient back up area, power plug points for reefer containers, freight station etc. At present container ships use their own derricks. Plans are under way for acquiring sophisticated container handling equipment. Tractors, trailers, forklift trucks etc. are provided for handling containers.

STEVEDORES: Booking of gangs undertaken by Agent on receipt of ETA message.

MEDICAL: Medical attention easily available in Cochin. If medical attention required immediately on arrival, Agent to be informed when sending ETA. Valid inoculation and vaccination certificates against Cholera, Yellow Fever and Smallpox are essential.

Medical advices if required on high seas to be communicated to 'Quarantine' Cochin. Harbour Master/Deputy Conservator/Agents of shipping company usually arrange evacuation of serious cases for hospitalisation from anchorage.

TANKERS: Only 2 tanker berths at Cochin at present. Maximum permissible draft 30 ft. *salt water.*

Length limited to 700 ft. OA at North tanker berth and 560 ft. OA at South tanker berth.

Deep draft tankers berth only on ebb tide and during daylight hours. Ballasted or loaded tankers can sail any time.

DENSITY: Varies from 1000 to 1020 depending on tidal and weather conditions.

FRESH WATER: Supplied by barge (200 tonnes capacity) and through shore hydrants. Rs. 25/– and Rs. 40/– per 1,000 litres by barges for coasting and foreign vessels respectively. Rs. 15/– and Rs. 24/– respectively by shore hydrants.

FUEL: All grades fuel oils normally available. Essential give advance notice to Agent to make necessary arrangements.

FIRE PRECAUTIONS: Fire wire to be fast and ready on quarter facing channel.

DEVELOPMENTS: One of the existing berths (Q-9) is being converted into a full-fledged container berth. Necessary infrastructure facilities like hard-surfaced area, lighting, power plug points, etc. have been provided. The construction of a container freight station has been completed and commissioned. Forklifts, tractor-chassis, trailers, etc. to handle 40 ft. and 20 ft. containers have been provided. Sophisticated equipment like transtainer crane and portainer crane will be installed in the near future in order to provide fully fledged container terminal facilities for handling cellular container ships at the port in view of the rapid increase of container traffic.

Worldwide tenders have been invited for procurement of the two top lifts with spreaders.

Proposals are also under consideration of the port to construct a fertiliser berth and an oil berth in the Ernakulam channel. Plans have also been drawn up to acquire a new dredger, pilot launch, tug, etc. It is also intended to extend the length of the Mattancherry Wharf by 100 ft. on either side. All these development schemes are expected to be completed during the Sixth Plan period (1978-79 to 1982-83).

GANGWAY/DECK WATCHMEN: Watchmen available at nominal cost. Recommended employ watchmen at gangway, on deck and in holds.

OPENING/CLOSING HATCHES: Opening hatches normally done by stevedores. Topping derricks and removing locking arrangements on hatches must be done by ship's personnel.

CARGO GEAR: All cargo gear must have valid test certificates and all other factory act requirements must be complied with.

IDENTIFICATION CARDS: Shore passes (temporary landing permits) are being issued. Seamens books cannot be used by foreigners unless with Immigration stamp.

CONSULS: United Kingdom, Norway, Italy and France have consuls at Cochin.

REPAIRS: Minor repair facilities available.

DRY DOCKS: Port dry dock can handle ships of up to 217 ft. in length OA. However, not normally available for foreign craft.

REPATRIATION: Crew changes are carried out in this port. The Agents execute a bond before the Shipping Master before disembarkation. Repatriation undertaken by the Agents as mentioned in the said bond as well as general bond executed by them in Port Registration Office. Permission to enter India, travelling within India to the International airport through which they are leaving India and permission to leave India through Cochin port are being given by the Port Registration Office.

AIRPORT: Airport about 2 miles from harbour area. Cochin airport handles internal flights only.

TIME: GMT plus 5.5 hours.

HOLIDAYS: Closed holidays: Republic Day (26th January); Independence Day (15th August); Gandhi Jayanti (2nd October); 1st May and 25th December.

FIRE/AMBULANCE/POLICE: 6555 Willingdon Island Fire Station; 6005 Willingdon Island Police.

TELEPHONES: Arrangements can be made for telephone connections on board ships on wharf berths only.

GENERAL: Floating crane 120 tons, fire float.
SHORE LEAVE: Temporary landing permits are issued to foreign crew, subject to restrictions as per Government orders, if any.
SHIPMASTER'S REPORT: August 1979.
Hatches: Beams and hatchboards by stevedores and the remainder by ship's crew.
Stevedores: 1st shift 0800–1700 hrs., 2nd shift 1800–0300 hrs.
Repairs: With Cochin Shipyard nearing completion major repair facilities will be available shortly.
Radars/Radio: No radar service. Radio works M/F only. Range approximately 400 miles.
Cranes: All berths have at least 3 electric cranes of 3 tonne SWL.
AUTHORITY: Cochin Port Trust.

CUDDALORE: 11.43 N. 79.46 E.

DOCUMENTS:
- 8 Crew Lists.
- 8 Passengers Lists.
- 3 Forms of Import Manifest of Stores.
- 3 Lists of articles in slop chest.
- 3 Private Property declaration of Crew.
- 3 Manifests.
- 3 Bills of Lading.

PILOTAGE: No pilotage. Open roadstead port.
ANCHORAGE: Vessels anchor in 5 to 7 fathoms with Cuddalore Lighthouse bearing 295° to 315°, which is most convenient anchorage for communicating with shore at all seasons of year. Nature of bottom, sand.
RESTRICTIONS: No restrictions regarding entry of vessels during day or night.
MAX. SIZE: Any size of vessel handled.
HEALTH: On arrival, Master to signal Port Health Officer stating all crew well and requesting free pratique. In event of any crew member suffering from suspected infectious disease, Master to advise Agents sufficiently in advance to enable Port Health Officer to board vessel on arrrival. No free pratique necessary whenever vessels call from another Indian port.
RADIO: No radio station. Cables routed through Madras Radio (call sign VWM).
TUGS: None.
BERTHING: No berths.
STEVEDORES: ETA advice required 72 hours in advance to enable stevedores to make adequate arrangements for handling cargo. Average rate of discharging bagged fertiliser 750 tons, and for loading iron ore 2,000 tons per day, expected to increase to 3,000 tons per day.
MEDICAL: No advance notice required unless vessel arrives with crew member requiring immediate medical attention. Seamen can be treated at Municipal Dispensary at Old Town near port and also at Government headquarters hospital in charge of District Medical Officer at New Town about 6.5 km. from port.
DENSITY: Density of water 1024. State of tide does not affect density.
FRESH WATER: Boat with 16.5 tons capacity which goes alongside steamer and this quantity of water supplied. If one steamer at anchorage boat makes 2 trips a day and about 33 tons of water supplied.
FUEL: None.
GANGWAY/DECK WATCHMEN: Services of watchmen recommended in interest of ship to avoid pilferage. 3 watchmen night and day per shift of 8 hours.
OPENING/CLOSING HATCHES: By stevedores.
CERTIFICATES:
- Ship's Register.
- Load Line Certificate.
- Safety Equipment Certificate.
- Safety Radio Certificate.
- Deratisation Certificate.
- Last Port Bill of Health Authority.
- Last Port Clearance.

CUSTOMS ALLOWANCES: Tobacco, 200 cigarettes permitted for each crew member to be held out of bond. Wine/Spirit, 1 open quart bottle per crew member permitted to be held out of bond.
CARGO GEAR: Register of cargo gear and machinery to be maintained up to date and to be attested by competent authority.
IDENTIFICATION CARDS: Needed.
CONSULS: None.
REPAIRS: Minor repair facilities available.
REPATRIATION: Facilities exist for effecting crew changes and arranging necessary repatriations.
AIRPORT: Nearest airport at Madras, distance 118 miles.
TIME: GMT plus 5.5 hours.
HOLIDAYS: Cargo work arranged on all holidays except Republic Day, Gandhi's Birthday, Pongal Karinal, Masimagam, Pennayar Festival, Independence Day and Deepavali, on payment of overtime.
POLICE/AMBULANCE/FIRE: Tel. Police 24; Fire and Ambulance 99.
GENERAL: Private launches arranged for purposes of crew going ashore. Such launches ply between 0600 and 1700 hrs. Laundry, provisions, etc., can be arranged.
SERVICES: Cleaning of hatches after discharging cargo available.
SHORE LEAVE: Crew members permitted to go ashore within municipal limits.
DELAYS: No delay of anchoring of vessels. Cargo work carried out during day. No night work.
AUTHORITY: Port Officer, Cuddalore.

HALDIA: 22.00 N. 88.05 E. **(See Plan Book)**

Subsidiary deep water modern dock of Calcutta, situated on West bank of Hooghly River and 56 miles downstream of Calcutta.
DOCUMENTS, PRATIQUE: All general information; refer to "Calcutta".
RESTRICTIONS: The lock entrance lead-in jetty – 1,010 ft. (307.84 m.).
Lock: 985.5 ft. (300.38 m.) long and 130 ft. (39.62 m.) wide. Ships up to lengths of 885 ft. (269.75 m.) can be safely accommodated at Haldia Dock.
MAX. SIZE: Capital dredging in shipping channel is in progress and the results being constantly reviewed. Currently actual drafts as per draft of the day. Draft forecasts are issued six weeks in advance.
BERTHING:
1. An Oil Jetty – to provide berthing accommodation for super-tankers with LOA of approximately 780 ft. and draft up to 35 ft. Operational.
2. A Finger Jetty – equipped with grab-bridge crane capable of transferring salt, rock phosphate and other bulk cargo from ship to barge, or vice versa at an average rate 5,000 tons per day.
3. A Coal Berth – capable of loading bulk carriers of the 60,000 d.w.t. class. Mechanical plant capable of loading conventional ships and bulk carriers at a designed rate of 2,000 tonnes per hour. 2 wagon tipplers, capacity 1,500 m.t.p.h.; 1 conveyor belt; 2 stacker-cum-reclaimers – stacking capacity 1,500 m.t.p.h. Reclaiming capacity 1,000 tonnes; 2 Shiploaders, capacity 1,500 m.t.p.h. per loader.
4. An Ore Berth – rate of loading 5,000 t.p.h. and with provision for increasing to 8,000 t.p.h. Accommodation for carriers up to 80,000 d.w.t. 2 × 1,500 ton wagon tipplers, 4 stacker-reclaimers with capacity 1,500 m.t.p.h.; 2 shiploaders, capacity 3,000 m.t.p.h.
5. A Fertiliser Berth – for ships up to 50,000 d.w.t. class to be completed in 1980.
Mechanical plant for rapid mechanical discharge of finished fertiliser, rock phosphate, sulphur, etc., from bulk carriers and conventional ships at a designed rate of 1,400 t.p.h.; 1 conveyor belt, capacity 1,300 m.t.p.h. Can be extended up to the Fertiliser Factory; 2 ship unloaders, capacity 700 m.t.p.h.; covered storage for 30,000 tonnes (with provision for increase to 60,000 tonnes in future) and open storage for 15,000 tonnes, (with provision for increase to 30,000 tonnes in future).
6. Two general Cargo Berths – each with a quay of 720 ft. and 120 ft. wide and back-up area of 18 acres. Both will have adequate cranage, latest in cargo handling machinery and direct rail-road facilities. One berth will have a modern 100,000 sq. ft. transit shed and a 30-ton payload Portainer Crane for handling containers.
7. Container Terminal: The first fully-fledged Container Terminal in India with Portainer Crane for handling containers into or from ships. Back-up area 180,000 sq.ft. (16,722 sq.m.) providing storage space for over 1,000 containers at a time. Equipped with one high-speed Transtainer Crane capable of serving both rail and road vehicles.

AUTHORITY: Calcutta Port Trust.

HONAVAR: 14.16 N. 74.27 E.

DOCUMENTS:
- Crew Lists.
- Passenger Lists.
- Customs Documents.
- Health Documents.
- Manifests.
- Bills of Lading.
- Ship's Papers.

PILOTAGE: Open roadstead port. No system of pilotage. Pilot is, however available, on requisition by Master or Agent.
ANCHORAGE: Distance off 3 miles, depth of 5.5 fathoms.
MAX. SIZE: No restrictions on length and breadth. Generally up to 34 ft. draft vessels can anchor within 2 to 3 miles from entrance.
HEALTH: Port Health Officer grants pratique as and when necessary, on requisition.
RADIO: Wireless station at Karwar.
BERTHING: No berthing facilities. Ships anchor on open roadstead.
MEDICAL: Proper hospital facilities available only at Karwar about 60 miles North. At least 24 hours advance notice ETA to be communicated to Agents.
DENSITY: Varies 1020/1025.
FRESH WATER: Very small quantities available. No arrangements for delivery to ships.
FUEL: None.
OPENING/CLOSING HATCHES: By crew.
CERTIFICATES: All ship's papers such as Certificate of Registry, WT Certificate, Safety Equipment Load Line, etc., to be on board for verification.
CARGO GEAR: Cargo gear Test Certificates, etc., to be produced.
IDENTIFICATION CARDS: Needed, if going ashore.
CONSULS: Nil.
REPAIRS: Nearest workshops undertaking major repairs available at Mormugao. Minor repairs may be carried out at Karwar.
DRY DOCKS: None.
REPATRIATION: Facilities available.
AIRPORT: Belgaum, about 178 miles.
TIME: GMT plus 5.5 hours.
HOLIDAYS: Charter Party Holidays observed. Cargo work can be arranged on holidays. Dates of holidays vary from year to year.
POLICE/AMBULANCE/FIRE: Police 48; Ambulance 32; Fire Kumta 20.
SHORE LEAVE: Crew members are allowed ashore.
DELAYS: Generally no delays are expected.
AUTHORITY: Port Officer.

JAKHAU: 23.15 N. 68.37 E.

LOCATION: In Gulf of Kutch, on Godia Creek about 5 miles inside Arabian Sea. Port is about 7 miles West of Jakhau. Small sub-port exporting salt utilised by foreign-going and coastal traffic. Vessels calling Jakhau anchor in open roadstead about 6 miles off shore. Highest tidal range 14 ft. Current parallel to coast running about 4 knots.
AUTHORITY: Assistant Conservator Jakhau–Kutch.

KAKINADA: 16.56 N. 82.15 E.

DOCUMENTS: *(a)* To be supplied by Master on arrival:
Ship's Register.
Safety Equipment Certificate.
International Load Line Certificate.
Deratisation Certificate.
Last Port clearance.
ILH Dues Receipt, if coming from an Indian Port.
Crew List: 6 copies to Agents, 2 copies to Immigration Dept., 2 copies to Customs.
Customs Circulating Copy, if coming from another Indian Port.
Import Manifest of Stores (Store List).
Private Property Statement of crew and officers.

(b) Master to sign following certificates, in prescribed forms, presented by Agents, on arrival:
Port Entry.
Port Clearance.
Customs Entry.
Customs Clearance.
Departure.
Health.

PILOTAGE: No pilotage.
ANCHORAGE: *Allotment of Anchor Berths:*
Masters of vessels calling at the Port of Kakinada should cable the following information to the Port Officer directly, 24 hours before their arrival off the Port:—
(a) ETA (Indian Standard Time)
(b) Total cargo for loading/discharging at Kakinada and nature of cargo.
(c) Hatchwise distribution.
(d) Declaration of hazardous, inflammable and explosive cargo.
(e) Declaration of vessels winches in good working condition.
(f) Draft Fore and Aft.

A specimen cable covering the above is quoted below:

> "Port Officer Kakinada STOP Vessel XXX ETA Kakinada 22/10 0900 Local Time quantity loading 9,500 tonnes rice bran extractions hatch one 1,000 hatch two 2,000 hatch three 3,000 hatch four 3,000 hatch five 500 no hazardous inflammable explosives STOP All winches derricks good working condition draft fore 8 m. aft 9 m."

The above cable sent to the Port Officer (in addition to the cable sent to their Agents as per normal practice) will facilitate proper anchoring instructions from Port authorities to the Master and avoid difficulties in Port operations.

Masters should also keep watch on VHF Channel 16 to receive instructions from Port control and contact Port control on arrival at the approaches to the Port.

Specific instructions will be given by the Port Officer on VHF through Port control in respect of anchorage positions. When once anchored as above, Masters should not shift their position without specific reanchorage position given by the Port Officer, unless in case of emergency in regard to the safety of the vessel.

Masters of vessels calling at this port are advised to be in possession of the latest navigation chart corrected up to-date. The Indian edition available is 3009 "Approaches to Kakinada Port" with an inset of Kakinada Bay.

Main engines should not be immobilised without specific permission from Port authorities.

The Godavari Point (sand spit) is extending Northwestwards at a rate of about 170 ft. per annum and a port hand buoy (flashing red) 5 secs. is installed at the tip.

The holding ground anywhere in the anchorage is considered excellent (soft mud and sand).
MAX. SIZE: No restriction. Vessels any size can enter the port.
HEALTH: Masters have to send standard quarantine message not more than 12 hours and not less than 4 hours before arrival. Pratique will be granted by Port Health Officer basing on the quarantine message, which will be instructed to the Agents. Health inspection of the vessel will be carried out by the Port Health Officer at the earliest convenience. Vessels that have touched ports in the yellow fever endemic area within the last 30 days, should send the quarantine message at least 48 hours before the expected time of arrival.
RADIO: Radio stations are Visakhapatnam and Madras.
VHF: VHF radio station is in the Port Office (Port Control) on International frequency, Channels 16 and 12, communication from ship/Port control and vice versa. If ship requires communication on Channel 12, it should be advised in advance to prepare machine accordingly.

The Port control VHF functions round the clock at the following specified times:–
0045 to 0100 hrs.
0345 to 0415 hrs.
0545 to 0615 hrs.
0745 to 0815 hrs.
1045 to 1115 hrs.
1245 to 1315 hrs.
1445 to 1515 hrs.
1745 to 1815 hrs.
1945 to 2015 hrs.
2245 to 2315 hrs.
all times Indian Standard Time.

TUGS: There are 5 small tugs and 6 Pablo Boats for towing cargo lighters.
CARGO LIGHTERS: There are 110 cargo boats with total capacity of 9,600 d.w.t. In addition 5 self-propelled mechanised barges each of 250 d.w.t. owned by the Port Authorities.

There are also available 6 mechanised barges each 240 d.w.t. owned by Central Island Water Transport Corporation Ltd., Calcutta.
STEVEDORES: Gangs engaged by party doing stevedoring work. In case of liners, Agents attend. In case of chartered vessels, consignees/shippers attend. Master to give ETA with number of hatches to be worked on arrival. Revised ETA to be sent whenever there is change.
MEDICAL: Government general hospital available with specialists. Private nursing homes also available with efficient physicians and surgeons. Agents arrange medical aid on advance intimation. Being roadstead port, launches have to be arranged, hence advance intimation of 6 hours necessary through signal station while in port.
DENSITY: Ranging from 1010 to 1025.
FRESH WATER: Of the 5 mechanised barges owned by the Port Authorities, 1 mechanised barge is used for supply of fresh water up to 200 tons. Privately owned self-propelled barge is also available for supply up to 100 tons. Prior arrangements to be made through Agents of vessels 24 hours in advance.
FUEL: No fuel suppliers. In case of emergency small quantities of 10/15 tons, in 205 litre drums, can be arranged from Visakhapatnam, duty paid.
DEVELOPMENTS: Development programmes include canal protection, transport facilities, navigational aids, power supply to loading/discharging points and stacking yards at shore and providing breakwater of 880 m. in length (sea wall) and mooring circle on the West side of the sand-spit known as Hope Island. The breakwater can be extended a further 3.2 km. Eastward for direct berthing of ships to serve long term needs of the port.

Port is to purchase a 50 ton floating crane for handling heavy machinery and container traffic.
GANGWAY/DECK WATCHMEN: Arranged by stevedores.
OPENING/CLOSING HATCHES: By ship's crew only.
CUSTOMS ALLOWANCES: Tobacco: 200 cigarettes per head per week. Wine and Spirits: 16 oz. per head per week for those who are eligible for supply by ship.
IDENTIFICATION CARDS: Required.
CONSULS: None.
REPAIRS: No facilities. Only minor repairs to winches, welding work, casting and repairing spare parts.
REPATRIATION: Can be arranged.
AIRPORT: Visakhapatnam 105 miles, Madras 350 miles.
TIME: GMT plus 5.5 hours = IST.
HOLIDAYS: Charter Party holidays are observed. Work is done day and night. Port and Customs also work on holidays and out of office hours on payment of overtime. No work even on overtime payment on following days: Bhogi, Pongal, Kanumu. Optional holidays to labour on Chollangi Amavasya, in January.
POLICE/AMBULANCE/FIRE: Police 3052; Fire 101; Ambulance 3311.
SHORE LEAVE: Shore permits given by Port Registration Officer (Immigration).
SERVICES: Fresh and dry provisions available.
NOTARY: Available for noting protest.
AUTHORITY: Port Officer.

KANDLA: 23.00 N. 70.12 E.

DOCUMENTS: To be submitted by Masters on arrival:
Customs: Crew List (3 copies).
Crew Private Property List – this should indicate all items they possess (3 copies).
Ship's Stores List (3 copies).
All valid documents of ship in English for verification of customs boarding officer.
Port Health: { Maritime declaration in duplicate.
Valid crew health cards and Deratisation Certificate.
Agents: Stowage Plan, Cargo Manifest and Bills of Lading.

PILOTAGE: Pilot station situated 22° 49.5′ N. 70° 07′ E. Loaded vessels can cross bar only during high water. Vessel to report at Pilot station 2·5 hours before high water. Masters to keep Agents closely advised of ETA and anchoring time. 12 hours advance notice to be given by Agents for Pilot. No pilot ship or telegraphic address for Pilot station (Outer Tuna buoy). Vessels can contact Kandla Tower through VHF Channel 16. Pilot station 16 miles away from port. During all weathers vessels have to anchor at above position and await Pilot.

Shipmaster's Report: On calling at Kandla, the Pilot advised that anchorage outside a 2 mile range from the Outer Tuna buoy and the Pilot having to board there, increases the pilotage dues by 100 per cent.
ANCHORAGE: Vessels can anchor 1 mile S.W. of above anchoring position. Inside harbour, anchorages allotted by Port Authorities, and Pilots anchor vessels at suitable positions.
RESTRICTIONS: Being a tidal port, entering and leaving of loading vessels depends on tide, and loaded vessels can cross bar at entrance of channel only during high water.

Ships having speed of less than 9 knots through the water will not be moved in and out of the port of Kandla during hours of darkness.

Berthing and unberthing of ships at the moorings will be restricted to daylight only. Daily draft forecast for crossing Kandla Bar published at intervals by the Kandla Port Trust.

Night time navigation suspended at present (July 1980).
MAX. SIZE: Max. overall length 740 ft. No breadth restrictions.
For oil tankers max. permissible overall length is 700 ft.
Draft according to water on the bar varies between 28 and 34 ft.
Shipmaster's Report: Max. draft, chart datum (=14 ft.)+rise of tide.
PRATIQUE: The Masters of all ships arriving at Kandla are required to send the Port Health Officer, Kandla (cable address "Sandgrodh") a wireless message embodying all applicable terms of information set out

in the Standard Quarantine message of the International Code of Signals. In addition to the International Code message, Masters are also required to give the following information in plain language:

(a) Whether there is any abnormal mortality of rats or mice.
(b) Whether there is any monkey on board.
(c) Whether touched or embarked at Aden or Djibouti any person.
(d) Names of all ports touched en-route within preceding 30 days, with dates of departure.
(e) Request for radio pratique.

Upon anchoring Pilot station, cable again Sandgrodh stating time anchored and requesting radio pratique.

In cases where the vessels have touched any yellow fever area within preceding 30 days it is necessary for Master, for good order sake, to certify that all officers and crew/passengers on board possess valid yellow-fever certificates.

The Pilot Officer boarding is authorised to grant free pratique on completion of the Maritime Declaration of Health signed by the Master in cases where vessels have failed to obtain radio pratique for any reason. If the Maritime Declaration is not in order, the Pilot refers the Master to the Port Health Officer who then boards the vessel and grants free pratique after his inspection of the vessel.

RADIO: Within a range of 35 hours off Kandla, vessels can contact Kandla Radio on call sign VWK. Before 35 hours off, Kandla can be contacted through Bombay Radio only.

TUGS: Port tugs join ships inside harbour off berth. Ship's wires used.

BERTHING: The cargo jetty provides 5 alongside-berths with total quayage of 3,825 ft. which can accommodate ships drawing up to 30 ft. loaded draft. The cargo jetty is served with 21 electric level luffing cranes, 16 of 3 tonnes, 4 of 6 tonnes and 1 of 10 tonnes capacity for handling cargo from ships.

3 mooring berths are available near the cargo jetty. In addition, there are separate moorings for *(a)* ships loading salt, *(b)* deep draft mooring for ships up to 37 ft. draft.

The Bunder basin has 3 wharves, two wharves with transit sheds. The South wharf is served with 4 quay electric level-luffing cranes of 3 to 10 tons capacity for handling cargo from lighters. The North Wharf is for country craft. The West wharf is provided with a 60 tons capacity electric gantry crane.

Marine unloader with rated capacity of 500 tonnes per hour for discharging bulk fertiliser and its raw materials has been commissioned.

There is a back-up storage area of 30,000 tonnes. Automatic bagging and stitching machines are also available.

STEVEDORES: Minimum 24 hours notice required for arranging stevedoring labour and gangs. Bulk fertiliser and grain average 800 tons and 850 tons respectively. General cargo 250 tons per hook, subject congestion prevailing in sheds, wharves, warehouses and clearance, and on number of vessels working at particular period.

MEDICAL: Private Doctors' services available for vessels at berth. For vessels at Pilot station or inner anchorages minimum advance notice of 12 hours and 6 hours respectively required. Very limited facilities of private practitioners. No hospital facilities. Inoculation and vaccination carried out by Port Health Officer (a Government body) – minimum 48 hours notice required.

TANKERS: Tankers with max. overall length of 700 ft., 40,000 tons displacement and 34 ft. draft permitted to berth. 3 main pipe-lines connected to tanks situated about 10 km. from berth, 2 generally used for white oils and one for black oil. White-oil pipe-lines diameter 12 in. and black-oil pipe-line diameter of 16 in. In addition, one 8 in. diameter pipe-line for soyabean oil, one 3 in. diameter pipe-line for acetone and one 4 in. diameter pipe-line for formaldehyde and one 12 in. diameter pipe-line for Phosphoric Acid imported by Indian Farmers Fertiliser Co-operative Ltd.

Shipmaster's Report: Tankers will sometimes be brought in to the port even though a berth may not be available at that time. Such vessel will then be moored to a mooring buoy close to the jetty, awaiting her berth at the tanker pier. Mooring to this buoy is effected by use of the vessel's starboard anchor chain, so that the anchor has to be disconnected from the chain before entering.

In securing alongside the oil-pier, tankers are required to utilise 1 insurance wire fore and aft as supplied from shore. In addition vessel is required to use all her available ropes and wires owing to strong currents – 4 head-ropes, 2 breast-ropes, 2 springs.

DENSITY: Varies from 1020–1030.

FRESH WATER: Can be supplied through shore pipe connection and barges.

Shipmaster's Report: Water is very scarce and should be ordered at least 3 days prior arrival.

FUEL: Furnace oil (heavy oil) and light diesel oil can be supplied. Usually 12 hours advance notice required for bunkering. In event of oil tanker discharging at berth, bunker supply can only be commenced 18 hours after completion of discharge by tanker. Quantities up to 500 tons supplied by tank trucks, above 500 tons supplied through pipe-lines if berth vacant. However, any quantity can be supplied by tank trucks.

FIRE PRECAUTIONS: 3 sea water fire fighting pumps installed at oil jetty. These pumps are under charge of fire brigade officers and have adequate fire fighting equipment. A tug fully manned with fire fighting arrangements also available at short notice.

DEVELOPMENTS: Berths and bar continuously under dredging and drafts will increase in future.

GANGWAY/DECK WATCHMEN: All ships engage 2 watchmen round the clock at gangway. To look after mooring lines, 8 mooring men (4 each at fore and aft) are engaged round the clock.

OPENING/CLOSING HATCHES: Unless specified in relative Charter Party to contrary, ship's crew to accomplish this work.

SHIP CERTIFICATES:

Registration.
Safety Equipment.
Safety Radio and Telegraphy.
International Load Line.

CUSTOMS ALLOWANCES: 200 cigarettes per week per person. Wine and/or Spirit: 2 pegs of spirit per person per day or 4 pints beer.

Shipmaster's Report: Very strict Customs supervision, particularly in regard to declaration of foreign currency.

CARGO GEAR: Ships should possess valid Cargo Gear Certificates.

IDENTIFICATION CARDS: Required. See "Shore Leave".

CONSULS: Nil.

REPAIRS: Minor repairs carried out. Chipping and painting work also carried out.

DRY DOCKS: A floating dry dock to accommodate small craft up to 70 m. (230 ft.) in length, 10.7 m. (35 ft.) beam and 3.1 m. (10 ft.) draft of max. weight 500 m./tons for repairs, available.

REPATRIATION: Though adequate facilities not available, this can be done in case of necessity.

AIRPORT: Situated about 70 km. from port.

TIME: GMT plus 5.5 hours.

HOLIDAYS: Holidays for each year declared by Port Authorities, are Republic Day, Idu'l Zuha, Muharram, Holi (2nd day), Chetichand, Ramnavami, Good Friday, May Day, Raksha Bandhan, Independence Day, Janmashtami, Mahatma Gandhi's Birthday, Dussehra, Diwali (New Year Day), Idu'l Fitr, Guru Nank's Birthday, and Christmas.

TELEPHONES: Available on board, only for oil tankers.

GENERAL: Port equipped with 21 electric level luffing shore cranes of 3 to 10 ton capacity used for discharging all ships alongside cargo jetty. For discharging tankers with bulk grain port's vacuvators belonging to Food Corporation of India used.

Kandla port is a prohibited area where entry and exit are restricted to those persons having bona fide work only. Masters are requested to exercise a strict check at the gangway in order to ensure that only those persons with bona fide business to transact are allowed aboard. In the event that any unauthorised person is found to be aboard the vessel, the matter should be reported to port officials and the police on duty.

Masters are requested to advise their crew in advance of arrival at Kandla that photography within the port area is strictly prohibited, and it is suggested that all cameras should be left in the safe custody of the Master in order that crew members may not violate this regulation inadvertently and become involved in legal proceedings.

SERVICES: Tank cleaning by shore labourers. Tank washings and residue not allowed to be discharged in port area.

REGULATIONS: Photography in port area prohibited. No Crew members allowed to take with them liquor of any kind ashore and not permitted to drink liquor outside port limit.

AUTHORITY: Kandla Port Trust.

KARWAR: 14.48 N. 74.06 E. (See Plan Book)

PORT LIMITS: *North:* A line drawn from Dayamada Point to Parker Rock.

East: Seashore of Karwar bay from Dayamada Point to Badchidar Point 50 yards above high-water mark including Baithkiol Cove, Kalinady and all branches thereof as far as navigable and the shores and banks within 50 yards of high-water mark Spring tides including all islands and thence to Mogera Guda Island (including Mogera Guda Island). All patta lands and other private sites excluded.

South West: A line drawn from Mogera Guda Island through Gudsav Sunv, Westernmost point of Mandal Island to Parker Rock.

DOCUMENTS:

8 Crew Lists.
2 Manifests of Stores.
2 Private Property Declarations.
2 Currency Lists.
1 Maritime Declaration of Health.
3 Passenger Lists (if any).
4 Import Manifests.
1 Last Port Clearance.

PILOTAGE: The approach from Northward is between Oyster Rock Lighthouse and 2 front and rear leading lights on Simshigudda and Kurmagad Islands, respectively, in positions Lat. 14° 50′ 11″ N. Long. 74° 05′ 43″ E. and Lat. 14° 50′ 33″ N. Long. 74° 05′ 59″ E. Vessels approaching from Southward may enter between Oyster Rock Light and Karwar Head. Currents in bay are negligible. Ocean-going steamers are piloted by Departmental Port Officer who is a licensed Pilot. No pilotage charges at present.

ANCHORAGE: Anchorage for shallow draft steamers is with the Port Signal Station, bearing 120° (T), distance 1 to 2 miles, or Oyster Rock Lighthouse, bearing 278° (T), distance 2.5 miles in about 24 to 28 ft. of water. Anchorage for deep drafted ships is with the signal station, bearing 099° (T), distance 3 to 3.5 miles in depths of 38 to 42 ft.

RESTRICTIONS: No entry restrictions. Karwar Bay may be entered on either side of Sunghiri Island, according to draft and anchorage taken as required. A vessel can enter Karwar either by day or night after having made lighthouse on Devghad Island.

MAX. SIZE: Any size of vessel can be worked as loading and unloading operation done in open sea. Depth at Outer Roads over 7 fathoms increasing accordance distance from land.

HEALTH: District Civil Surgeon acts as Port Health Officer. Free pratique to incoming vessels from foreign ports granted by radio. All vessels calling from foreign destination must give radio message addressed "Civil Surgeon Karwar" at least 48 hours prior entering port giving last port of call, number of crew, health conditions, approximate time of arrival and requesting pratique, same message must be repeated to Agents who obtain pratique on shore. Anchoring time is pratique time. For vessels calling from an Indian port, pratique not required.

Vessels which have taken on board passengers or crew from yellow fever areas, within 30 days of departure from such ports will be under quarantine. Free pratique will not be granted until such time as a mosquito search party, from nearest major port (e.g. Cochin, Goa or

Bombay) has inspected, disinfected and certified that ship is fit for granting pratique.

Necessary for Owners or Masters to inform Agents well in advance in case of vessel arriving from yellow fever area to enable arrange mosquito search party and quick pratique.

RADIO: ETA and pratique messages should be sent via Goa or Bombay Radio as Karwar Radio has been shut down.

TUGS: No tugs necessary as vessels work in stream.

BERTHING: No berth, vessels work in open sea. Baithkol Cove is safe berthing place for lighters. Alongside wharves 10 to 12 smaller vessels can obtain safe berth with depth of 6 to 8 ft.

STEVEDORES: 48 hours notice ETA required order enable Agents advise shippers and stevedores to keep cargo and labourers ready. Main commodity export of ore. Mechanised barge loading operations in port. Ore loading rate up to 4,000 tons per day. General cargo 1,000/1,300 tons per day.

MEDICAL: Good hospital facilities exist. 2 hospitals about 1.5 miles from port. In case of inoculations and vaccination at least 2 days advance notice to be given enabling bring vaccine from nearby town (Hubli or Belgaum) distance 100 and 150 miles respectively.

TANKERS: No facilities for tankers.

DENSITY: 1025.

FRESH WATER: Dumb Water Barge for supply to steamers anchored in open Roadstead.

FUEL: No bunkering facilities for ocean-going vessels. Diesel and petrol storage depots within port for supply to small vessels.

DEVELOPMENTS: Proposed to develop port of Karwar into all-weather intermediate port, with 2 berths and 1 mechanical berth, an approach channel and turning basin. Intended arrangements include ability accommodate up to 60,000 d.w.t. ore carriers, loading up to 8 million tons ore and 1.25 million tons other cargo per year. Also intended develop fishing harbour with facilities accommodate large-scale deep-sea fishing industry for 1 million tons fish per year.

Provision of Channel Marks:

1 Fairway buoy.
10 channel marking buoys.
Provision of a mooring boat with equipment for maintenance of buoys.
Experimental dredging.
Dredging approach channel and turning basin.
Land acquisition for future expansion.
Diversion of present main road alongside port wharf.
Improvement of Binga/Karwar Road.
Provision of 2 berths and 1 mechanical berth for ocean-going steamers.

OPENING/CLOSING HATCHES: Generally carried out by ship's crew.

CERTIFICATES:

Ship's Register.
Cargo Gear Certificates.
Load Line Certificate.
Safety Radio Certificate.
Safety Equipment Certificate.
Derating Certificate.
Vaccination and Inoculation Certificates.

CUSTOMS ALLOWANCE: 200 cigarettes and 1 bottle spirits.

CARGO GEAR: Before commencement of loading, Master to present shippers or their Agents with valid international cargo gear certificate, which shall not be more than 12 months old. Validity of said certificate to cover whole period for loading and discharging. Fourth five-year plan includes proposals for mechanical front-end loaders, tipping trucks, mobile cranes and forklift trucks.

A 10 ton mobile crane is available.

CONSULS: None.

REPAIRS: Moderate-sized workshop in town able carry out minor deck and engine repairs.

REPATRIATION: Shipping Master arranges crew changes and necessary repatriation. Crew signing off repatriated via Goa or Bombay.

AIRPORT: No airport, or rail connections. Nearest airports Goa or Belgaum, 60 and 150 miles distant respectively. 2 flights per day to Bombay from Goa.

TIME: GMT plus 5.5 hours. Permanent.

HOLIDAYS: Charter party holidays declared and published every year by Honorary Secretary of the Karnatak Chamber of Commerce and Industry, Jaya Chamaraj Nagar, Hubli-20.

Non-working days when work not permitted even on payment of overtime: Republic Day (26th January) and Gandhi Jayanti (2nd October).

POLICE/AMBULANCE/FIRE: Circle Police Inspector 116; City Police Station 33; District Superintendent of Police 7; Reserve Police Headquarters 18; Ambulance 19.

GENERAL: Port functions normally from 16th September to 15th May. Port closed from 16th May to 15th September due S.W. monsoon.

SHORE LEAVE: Crew members are allowed ashore provided not of Chinese nationality.

AUTHORITY: Office of the Port Officer.

MADRAS: 13.06 N. 80.18 E. (See Plan Book)

PORT LIMITS: The seaward boundaries of the Port:

To the North: A line "NP" running from a point in position "N" Lat. 13° 27.2′ N. Long. 80° 17.95′ E. to a position "P" in Lat. 13° 12′ N. Long. 80° 25′ E.

To the South: A line "SQ" running from a point in position "S" Lat. 13° 4.1′ N. Long. 80° 17.25′ E. to a position "Q" in Lat. 13° 2′ N. Long. 80° 25′ E.

To the East: A line "PQ" connecting the Eastern extremities of the above described North and South boundaries, that is from point "P" in Lat. 13° 12′ N. Long. 80° 25′ E. to point "Q" Lat. 13° 2′ N. Long. 80° 25′ E.

DOCUMENTS:

3 Private Property Lists.
3 Stores Lists (Bonded Stores).
3 Crew Lists.
1 Last Port Clearance.
1 Valid Derat Exemption Certificate.
1 Bill of Health (only if vessel has touched yellow fever areas).
3 Slop Chest Declarations.
3 Currency Declaration.
Passenger List (if applicable).

Ship's Papers.

Ship's Register.
Load Line Certificate.
Safety Equipment Certificate.
Safety Radio Certificate.
Ship's articles (if vessel is Indian or Commonwealth flag).

Ship's papers to be handed over to Agent's Representative for final entry of vessel in Customs House. Same returned to Master.

PILOTAGE: Pilotage compulsory, both inward and outward, also for purpose of shifting inside harbour. Master required to advise ETA at least 48 hours before arrival, when local Agents contact Port Authorities for arranging berthing. If any berthing delay vessel has to anchor at Outer Anchorage – anchoring point below 10 fathoms line from breakwater light. Vessels requiring Pilot fly "G" flag by day and 1 white light exhibited on a conspicuous point on ship by night.

ANCHORAGE: Good anchorage found with breakwater light bearing between 240° and 300° – distance 1 to 3 miles.

RESTRICTIONS: No restrictions of entry, both day and night navigation. In Bharathi Dock restriction of movement (inward/outward/shifting) during night time from 2200 hrs. to 0600 hrs. Tankers of 50,000 d.w.t. and over are berthed during daylight only. Tankers of less than 50,000 d.w.t. are berthed and unberthed at Bharathi Dock from 0600 hrs.–2200 hrs.

MAX. SIZE: Max. length South Quay III is 518 ft. (157.88 m.). Max. length Jawahar Dock is 750 ft. (228.59 m.) and breadth 100 ft. (30.48 m.). Max. length of 900 ft. (274.31 m.) for oil tankers using the "Bharathi Dock" is in force for the outer oil dock jetty during the fair weather season from January to October. During the period from October to January in the North-East monsoon period maximum size of vessel is restricted to 750 ft. (228.59 m.) with 42 ft. (12.8 m.) draft.

Draft in the enclosed harbour varies from 26 ft. (7.92 m.) to 35 ft. (10.67 m.). Draft at the outer oil berth during fair weather season is 46 ft.

Details may be obtained from the Deputy Port Conservator, Madras Port Trust, Madras – 600001.

Bharathi Dock: Vessels up to 46 ft. (14.02 m.) draft.

HEALTH: All vessels arriving from foreign ports have to apply for pratique through their radio – not earlier than 12 hours and not later than 4 hours before arrival. Pratique message to be addressed "Quarantine Madras" and worded as required by Port Authorities on receipt of which Port Health Officer cables ship granting pratique. In case of any infectious disease on board, Port Health Officer boards vessel and after due inspection grants pratique.

Telegram should take the following form: Name of vessel. ETA, in hours and date. No monkeys on board, last port (ports touched in last 30 days with departure dates). Request radio pratique.

Port health require to sight derat and vaccination certificates when vessel due to leave before issuing clearance for Pilot and Customs who then issue port clearance.

RADIO: Coast Station Madras Radio, call sign VWM. Information regarding weather distributed twice daily. VHF communication available on Channel 16. Pilot station on Channels 10, 12 and 14, open round the clock to transmit and receive berthing and other operational messages.

Radar is installed on the fourth floor of M.P.T. Administrative Office Annexe Buildings.

RADAR/VHF: VHF communication available, see "Radio".

TUGS: Join vessel just inside breakwater. Vessels use own lines and no tugs' lines used/supplied. Tugs' lines are also used if required by Pilot.

BERTHING: Vessels berth at all times.

There are in all 18 general cargo/bulk cargo berths and 3 moorings. Drafts of these berths/moorings vary from 26 ft. (7.92 m.) to 35 ft. (10.67 m.).

There is an exclusive oil berth in the Outer Harbour with a draft of 46 ft.

An iron ore berth with modern mechanical loading facilities is in operation at Bharathi Dock.

The Bharathi Dock has the potential for accommodating 3 more berths one of which can be converted into a container berth.

Outer Harbour present draft is 46 ft. (14.02 m.) and it is likely to be increased.

BRIDGES: There are 2 bridges for pedestrian traffic only. 1 swing bridge at the entrance of Jawahar Dock and another Bascule bridge at the entrance of boat basin.

CRANES: Heavy duty floating crane capacity 120 tons available.

STEVEDORES: A copy of Manifest for stevedores' on board required.

Working hours: 1st shift, 0600–1400 (Recess 1100–1200); 2nd shift, 1400–2200 (Recess 1900–1930); 3rd shift, 2200–0600 (Recess 0200–0230).

MEDICAL: Advance notice for medical aid useful if vessel anchored/anchoring outside and not coming alongside, as it takes time to arrange for launch, etc. Medical assistance arranged easily if vessel alongside. Various hospitals and private nursing homes with modern equipment available. All crew members to be in possession of valid health cards in respect of inoculations/vaccinations against smallpox, cholera, etc. Facilities for renewal available.

TANKERS: There is an oil berth with 46 ft. (14.02 m.) draft at the Outer Harbour with 5 unloading/loading arms, 3 for unloading crude and 2 for handling refined products at a rated capacity of 1,500 tonnes per hour per arm. There are 2 moorings with 30 ft. (9.14 m.) draft in the inner harbour for non-dangerous petroleum products.

Manifold is equipped with 300 mm. Quick fixing cam lock coupling.

Facilities for deballasting the oil tanker are provided.

BULK HANDLING FACILITIES: There are 4 berths, 3 in the Jawahar Dock and 1 in South Quay. Handling of iron ore has been discontinued due to the operation of mechanised iron ore plant at the Bharathi Dock. Instead bulk cargo like barytes is handled.

RATE OF DISCHARGE/LOADING: Grains, by hooks/derricks:
Bulk: 300 tons per day per hook.
Bagged: 300 tons per day per hook.
By Vacs: 250 tons per Vac. per day.
Fertiliser. By hooks/derricks.
Bulk: 200 tons per day per hook.
Bagged: 300 tons per day per hook.
General Cargo: 150 tons per day per hook.
Liquid Cargo: About 150 t.p.h.

CRANES: Three 13-tonne cranes available, 3 similar will be available shortly.

DENSITY: Varies from 1019 to 1025 according to season. No variation due to state of tide.

FRESH WATER: Available and can be supplied to vessels either through shore connections or by water barges. During Summer months due to scarcity of water, full requirements of vessel may not be possible.

FUEL: Bunkers available, but supply dependent on stock position. At least 48 hours advance notice required. Suppliers should receive nomination from their Head Office. Companies supplying bunkers are:
The Indian Oil Corporation Limited.
Caltex (India) Limited.
Esso Standard Eastern Inc.
Burmah-Shell Oil Storage and Distributing Company of India Ltd.

Usual rate of bunkering is about 40 to 80 t.p.h. Grades of fuel available:
Fuel oil, 700 Secs. Redwood No. 1 at 100° F.
L.D.O., 70 Secs. Redwood No. 1 at 100° F.
Gas oil, 30/30 Secs. Redwood No. 1 at 100° F.

GANGWAY/DECK WATCHMEN: Services of watchmen are compulsory and they can be engaged from Dock Labour Board.

OPENING/CLOSING OF HATCHES: Work of opening/closing of hatches usually depends on what Charter Party says and also type of hatches of vessel. Liner Term Vessels:- "McGregor Type" – These types of hatches are opened/closed by the crew; but, if Owners/Master desires, rigging gangs may be hired for this work at Owner's expense. Ordinary – Beams & Hatch Boards or Pontoon Type-Opening/closing of this type of hatches is done by stevedores.

CUSTOMS ALLOWANCES: Tobacco. 200 cigarettes and half-ounce tobacco per week can be held by each crew member. Wine/Spirit. 1 open bottle of spirit or wine per week can be held by each crew member.

CARGO GEAR: Vessel should be in possession of valid cargo gear certificate issued by competent authority. Port Dock Safety Inspector may inspect cargo gear before or during loading/discharging in spite of vessel being in possession of a valid certificate.

IDENTIFICATION CARDS: All crew members should be in possession of their respective CDC's/Z. Cards/Passports.

CONSULS:

U.S.A.	Tel.	83041	Japan	Tel.	88677
Australia	,,	811393	Netherlands	,,	86411
Britain	,,	86311 and 811376	France	,,	444203
			Belgium	,,	645495
Denmark	,,	22088	U.S.S.R.	,,	73077
Germany	,,	82125	Ceylon	,,	85316

REPAIRS: All types of deck/engine repairs possible. Experienced and established marine workshops available.

DRY DOCKS: None.

REPATRIATION: All facilities for effecting crew changes and arranging repatriation exist.

AIRPORT: The Madras Airport (Meenambakkam) about 15 miles from harbour and served by regular airlines.

TIME: GMT plus 5.5 hours.

HOLIDAYS: Declared by authorities are observed, but work completely closed on: Pongul, Republic Day, May Day, Independence Day, Mahatma Gandhi's Birthday and Deepavli.

POLICE/AMBULANCE/FIRE: Police 100; Ambulance 101; Fire 101.

TELEPHONES: Can be placed on board, but only on vessels at certain berths. All berths on West Quay, i.e. WQ 1, WQ 2, Centre Berth, WQ 3 and WQ 4, North Quay berth and berths on Jawahar docks (West) only, i.e. JD 1, JD 3 and JD 5.

SERVICES: All special services available.

SHORE LEAVE: Crew members allowed ashore after securing shore passes issued by port security officer. However, they must restrict themselves to city limits.

PORT REGULATIONS: Normal Port Regulations. No photography allowed in harbour except with Chairman of Port Trust's permission.

DELAYS: When there is heavy arrival of bulk grain and fertiliser, vessels may expect a delay of about a week or so. General cargo vessels may expect a delay of about 2/3 days during congestion.

SHIPMASTERS REPORT: September 1979.

Pilotage: For departure from berth, vessel should call pilot station one hour before readiness to sail.

Radio: "VWM" 24 hours. Vessel with powerful transmitter can contact "VWM" on HF from Singapore, Mauritius or Aden.

Specialised Cargo Handling Facilities: Though a few containers are handled by port with help of ships gear, no other facility exists. Facilities for LASH System available.

Cranes: 14 cranes × 3 tonnes along West Quay. 2 Floating cranes, one of 60 tonnes and one of 120 tonnes.

Fresh Water: Scarce.

Surveyors: LRS, IRS and ABS. Standard Cargo and Marine Survey-services available.

AUTHORITY: Madras Port Trust.

MANDVI: 22.49 N. 69.21 E.

DOCUMENTS: Arrival: Arrival Report with ship's details, Voyage Memorandum, Crew Lists, Stores Lists.

Departure: Departure Report with ship's details, Export General Manifest, Certificate of Cargo Tonnage Loaded.

PILOTAGE: None. All vessels anchor in stream.

RESTRICTIONS: Vessels anchor in open roadstead in 3–5 fathoms, 2–2.5 miles from shore. Vessels of 9 ft. draft can reach wharves at high water and vessels drawing 12 ft. can reach Albert Edward breakwater. Vessels having 60–70 tons cargo only can enter port during high tide. Highest tidal range 14 ft., average range 10 ft. Current 2 knots during fair season.

HEALTH: Government Medical Officer attends as health officer.

RADIO: No radio. All messages delivered through Kandla.

TUGS: Services optional 3 tugs and 1 launch. Charges basis time and BHP.

STEVEDORING: Arranged by Agent with Port Authority.

MEDICAL: 24 hours notice required of any medical requirements.

FIRE PRECAUTIONS: Fire extinguishers are available at the port. Fire fighter is available at the Port workshops. Smoking strictly prohibited in port area.

WATCHMEN: Arranged through Agents.

HATCHES: Opened and closed by crew.

CERTIFICATES: Non-carriage of dangerous cargo, Cargo Gear Certificates, Statement that no passengers carried.

CUSTOMS ALLOWANCES: No restrictions for crew of coastal vessels. Stocks of tobacco, wine and spirits to be declared to Customs. Wines and spirits prohibited in Gujarat States but Master permitted daily quota by Customs Authorities.

REPATRIATION: No facilities.

TIME: GMT plus 5.5 hours.

HOLIDAYS: Usually possible to arrange work on holidays.

POLICE/AMBULANCE/FIRE: Police 8; Ambulance 32; Fire 10.

GENERAL: Gulf of Kutch Ports, viz. Mandvi, Mundra, Jakhau and Koteswar administered by Director of Ports, Gujarat States, Ahmedabad. Mandvi located on Southern coast Gulf of Kutch at mouth of river Bukmavati, seasonable, tidal and intermediate ports.

SHORE LEAVE: Crew of coastal vessels only allowed ashore subject prior permission from Captain of the Port.

DELAYS: Delays to be expected in supply of cargo at times of lowest water.

AUTHORITY: Deputy Engineer & Port Officer.

MANGALORE (Minor Port): 12.55 N. 74.52 E.

PORT LIMITS:
North: A line drawn due West from the Northern boundary pillar on the seashore about 740 yards from Sultan's Battery to 9 fathoms of water.
South: The line drawn due West from the Southern boundary pillar to the seashore, about 1,000 yards below the marine yard to 9 fathoms of water.
West: The 9 fathom line between its intersections with the lines above defined as the Northern and Southern limits.

DOCUMENTS:
Crew Lists (6 copies).
Crew's declarations for Customs (4 copies).
Store Lists (4 copies).
Currency declaration (2 copies).
Import Manifest inclusive of Deck Cargo and bottom cargo (3 copies).
Bill of Lading (1 copy).
Ships particulars inclusive of service stand (2 copies).
Declaration of opium, dangerous drugs, gold, arms, ammunitions and explosives, monkeys on board, last and next port of call (2 copies).
Arrival report and Port and Light dues receipts (2 copies).

PILOTAGE: No pilotage. Open anchorage port. When shifting to nearest safe anchorage, free pilotage assistance rendered by Port Officer.

ANCHORAGES: Vessels anchor in depths of 4.5 to 6 fathoms with Mangalore Lighthouse (12° 50.8′ N., 74° 50.3′ E.) bearing between 250° and 270° (T).

HEALTH: Vessel arriving from foreign country sends radio message in code or otherwise to respective Agents who contact Port Health Officer accordingly. If vessel from yellow fever area Master should give prior notice to Agent to arrange for Mosquito Party from Cochin to come to Mangalore and board ship on arrival. If suspected or infected, vessel should anchor not less than half a mile from all other vessels and notify Port Authorities of situation either by radio or through signal station.

RADIO: Call sign VWL on 500 kc/s and 438 kc/s working frequency.

STEVEDORES: Stevedores available. Average loading/ discharging rates per day:
(a) Iron ore 400 tons per hook (weather permitting).
(b) Fertiliser or wheat bags 200 tons per hook (weather permitting).
(c) General cargo bagged 200 tons per hook (weather permitting).

TUGS: 1 Port Trust tug and one launch and 2 private tugs capable of towing over 600 tons each are available.

MEDICAL: 24 hours notice necessary to arrange for a doctor on board. Government Hospital and Nursing Homes available.

DENSITY: Density of 1022/3 throughout year except in September (immediately after Monsoon at beginning of shipping season) when density about 1016.

FRESH WATER: Supplied by water barge at rate of 110 tons per trip with 48 hours prior notice. Cost of supply inclusive of all charges except crew overtime on holidays. Minimum order 35 tons.

FUEL: Small quantities not exceeding 40 tons of diesel oil can be supplied by oil barge.

GANGWAY/DECK WATCHMEN: Available.

OPENING/CLOSING HATCHES: As per terms and conditions of Charter-Party.

CERTIFICATES:
Ship's Registry.
Deratisation Certificate.
Articles of Agreement.
Dock Safety Register (cargo gear).
Radio Telegraphy Certificate.
Load Line Certificate.
Port Clearance from last port.
Bill of Health.
Safety Equipment Certificate.

CUSTOMS ALLOWANCES: Tobacco. 200 cigarettes per week. Wine and spirits, 1 open bottle of spirits per week.

CARGO GEAR: Derricks and boat devices to be hoisted in when not required to prevent contact with masts and sailyards of lighters alongside. Advisable that lifeboats be lowered only on non-working side.

IDENTIFICATION CARDS: Passport or identification cards to be carried by crew plus letter of permission from Master for shore leave.

CONSULS: None.

REPAIRS: Minor repairs to engines and gear carried out by auto-workshops.

DRY DOCKS: Small dry dock, maximum capacity 450 d.w.t. Dimensions, 110 ft.×30 ft. Depth on sill 8 ft. at MHWS. For repairs only.

REPATRIATION: Can be arranged by ship's agents or at shipping office.

AIRPORT: Airport situated 12 miles away. Daily flights to Bombay and Bangalore. Services by Indian Airlines Corporation.

TIME: GMT plus 5.5 hours.

HOLIDAYS: Observed as declared by Port Authorities. Work can be arranged on all holidays except principal Muslim festival days.

POLICE/AMBULANCE/FIRE: Port Police Station 25196. Fire service on lighter wharf only (no fire-floats available), tel. 3333.

TELEPHONE: No arrangement for placing telephone on board.

GENERAL: Port open only in fair season from 15th September to 15th May. However, ships may call at port and work between 15th May and 15th September (weather permitting) with prior permission of Port Officer.

SHORE LEAVE: Permitted, except for Pakistan and Communist-Chinese crew.

DELAYS: Adverse bar conditions necessitate stopping work for bad weather.

AUTHORITY: Mangalore Port Trust Board.

MORMUGAO: 15.25 N. 73.47 E. (See Plan Book)

PORT LIMITS: Roughly up to 10 fathom line running North and South from Cabo to Grand Island. Vessel is considered "arrived vessel" when she comes under direction of Signal Station.

DOCUMENTS:
10 Crew Lists.
10 Passenger Lists, if any.
3 Copies of Manifest.
1 Last Port Clearance.
1 Bill of Lading in case of imports.
3 Stores Lists.
3 Personal Property Lists.
1 Letter of Authority to Agents addressed to Asst. Collector of Customs (prepared on arrival).
1 Arrival Report to Immigration Officer.
1 Customs Declaration.
1 Inward Clearance Certificate.
1 List of Particulars.
1 Deck Cargo Certificate.
1 Arrival Report.

Last 7 items to be signed by Master in port after arrival.

Ship's papers: Documents placed at disposal of port:
Ship's Registry.
Deratisation Classification.
Safety Equipment.
Load Line.
Radio Telegraphy.
Indian Light Dues.
Annual Cargo Gear Certificate.
Safety Construction Certificate.

PILOTAGE: Compulsory. ETA required at least 24 hours before arrival to order Pilot. Call Pilot by international code signals on arrival at signal station or contact by VHF Channel 16.

Pilot launch is white launch showing Pilot flag. In fair weather Pilots board West of fairway buoys. In bad weather, Pilots guide vessel from launch until boarding possible. Pilot launch leaves from inner harbour with Pilot and is not stationed at any particular position. International regulations for Pilots' ladders applicable. Vessels awaiting Pilot may anchor 2 miles West of fairway buoy 6.

RESTRICTIONS/MAX. SIZE: Pilotage only during daylight hours. Draft restricted. Deep-laden vessels await high tide. Max. draft permissible 12.0 m. Draft particulars for incoming ships to berths as detailed below.

Berth No.	*Max. Draft* (m.)	*Max. Length* (m.)
3	7.00	168
4	8.23	
5	8.23	
6	8.23	220
8	10.40	228
9	12.00	260

Vessels loading West of breakwater in fair weather: no restriction on size or draft. Tankers: Max. length 228 m.

HEALTH: International Regulations apply. Pratique automatic when calling from another Indian port. Pratique granted by Pilot Officer who boards vessel on arrival. Telegraphic pratique can also be obtained from Port Health Officer cable address "Quarantine Mormugao".

Master should send quarantine message not less than 4 and not more than 12 hours prior arrival indicating:
(1) Name of ship.
(2) Expected date and time of arrival.
(3) My Maritime Declaration of Health has negative answers to all 6 Health Questions or ZT or My Maritime Declaration of Health has a positive answer to question (indicated by complements) or ZU (indicated by complements 1–6).
(4) List of ports of call with dates of departure during last 30 days.
(5) Have or have not monkey on board.
(6) Have or have not any person on board embarking at Aden, Djibouti or Yemen.

Request radio pratique.

RADIO: Goa Radio, call sign VWG. Operating continuously on 500 kHz, 417 kHz, and 2182 kHz. Communication range 100 miles.

VHF radio telephone station at signal station headland, call sign Goa Port, calling Channel 16, working Channel 12.

Ships desiring to contact port on VHF should establish contact by means of *(a)* light signals, *(b)* hoisting "Z" flag, *(c)* blowing "Z" on whistle or siren.

Port VHF station attracts attention of desired ship by hoisting "Z" flag with call letters of ship or by light signalling.

VHF service restricted for port operation, ship's emergencies and movements. All messages to be addressed to Harbour Master. Third party communication not allowed.

TUGS: Tugs usually used inside breakwater. Normally push, but when towing, use ship's lines.

BERTHING: Deep loaded incoming vessels berthed 2 hours before high water. Vessel also use anchor and quarter line to mooring buoy to keep off berth.

BULK HANDLING FACILITIES: *Ore Berth (Berth No. 9):* Commissioned in 1979, provided with a mechanical loading plant of a rated capacity of 8,000 tonnes per hour. The facility, presently capable of fully loading 60,000 d.w.t. vessels is designed to cater for 100,000 d.w.t. vessels after further dredging of entrance channel, turning circle and berth. The channel is presently dredged to −13.7 m. and berthing basin to −13.1 m.

Berth No. 6: Equipped for mechanical handling of iron ore. Loading rate about 750 t.p.h. At present vessels of 30,000 d.w.t. with a draft of 8.23 m. can be accommodated.

STEVEDORES: Original ETA of 48 hours and a definite ETA of 24 hours required and Master should indicate stowage and gangs required before arrival, also how derrick booms must be arranged so as to enable stevedores to arrange same on arrival.

MEDICAL: No hospital facilities for any serious sickness but facilities available for first aid, which should be informed 24 hours in advance. Port Ambulance can be obtained during day-time only.

TANKERS: Discharge line 35 cm. No loading facilities. Permissible draft 10.40 m. at Oil Berth No. 8. In addition, discharge facilities are available at Berth Nos. 4, 5 and 6 with 8.23 m. draft.

DENSITY: Salt water 1025 – slightly fresh during monsoon season.

FRESH WATER: Available alongside berths also from 180 tons capacity barge. Pumped by hose at 20 t.p.h. at berth, and 30 t.p.h. from barge. Sometimes restricted to 50 tons maximum if supply is limited.

FUEL:

Grades	*Viscosities*
High speed diesel oil	Less than 45 Redwood
Light diesel oil	41 ,,
Furnace oil (also known as light fuel oil)	of 623 ,,

48 hours advance notice required.

FIRE PRECAUTIONS: During discharge of oil tanker, great care taken that no naked lights are visible nearby. Movements of unauthorised persons at point of discharge strictly restricted. Ships alongside or up to a distance of 100 ft. are advised not to emit smoke through funnel. Round the clock standby duty carried out by Fire Service, around tanker, till completion of cargo discharge.

DEVELOPMENTS: Following port development schemes are proposed:
(i) Dredging entrance channel to −16.25 m. with alongside depths of −16 m. at ore and oil berths.
(ii) Construction of a new multi-purpose general cargo berth with a depth of −11 m.

GANGWAY/DECK WATCHMEN: Necessary to have watchmen in case of loading general cargo to protect goods. In case of loading iron ore no watchman required.

OPENING/CLOSING HATCHES: Usually by crew, unless contrary to Charter Party.

CUSTOMS ALLOWANCES: Tobacco: 200 cigarettes per crew member per week. Wine and/or Spirit: 4/5ths of bottle per week for each member of European crew. 2/5ths of bottle per week for each member of Asian crew as per practice.

IDENTIFICATION CARDS: Not essential but according to Immigration Rule temporary Police landing pass issued to each Crew member going on shore, valid for municipal area of Vasco town; if valid passport is possessed.

REPAIRS: No major repairs. Minor repairs only and no underwater welding facilities.

DRY DOCKS: None.

REPATRIATION: Facilities exist for changing and repatriating crew.

AIRPORT: Approx. 7 kms. from harbour. One local flight daily to Bombay. No international flights from Goa and all outgoing foreign passengers have to be repatriated via Bombay.

CARGO GEAR: Certificates to be valid.

TIME: GMT plus 5.5 hours.

HOLIDAYS: New Year's Day, Republic Day, Gudi Padva, Good Friday, May Day, Id-Ul-Fitr, Independence Day, Ganesh Chaturthi, Mahatma

Gandhi's Birthday, Idu's Zuha, Diwali, Muharram, Feast of St. Francis Xavier, Goa Liberation Day and Christmas Day.
POLICE/AMBULANCE/FIRE: Police 2234 through Postal Exchange; Ambulance (Health Centre) 2454 through Postal Exchange; Fire 222 or 223 through Port Exchange and 2300 through Postal Exchange.
TELEPHONES: No arrangements for installation of telephones on board.
SHORE LEAVE: Crew members allowed to go on shore with Police landing pass.
AUTHORITY: Mormugao Port Trust.

MUNDRA: 22.54 N. 69.42 E.

LOCATION: In Gulf of Kutch near Navimal Lighthouse, about 2 miles inside Bocha Creek. Port is about 6 miles West of Mundra town. Salt exporting port open for deep sea and coastal traffic. Vessels calling Mundra anchor in open roadstead 2 miles from shore. Vessels of 8 ft. draft can berth alongside jetty. Highest tidal range 17 ft. Current parallel to coastline running about 3 knots.
AUTHORITY: Assistant Conservator.

NAGAPATTINAM: 10.45 N. 79.50 E. (See Plan Book)

DOCUMENTS: To be completed by Masters of vessels on arrival:
8 Crew Lists.
8 Passenger Lists.
3 Form of Import Manifests of Stores.
3 Lists of articles in slop chest.
3 Private Property. Declaration of the Crew.
3 Manifests.
3 Bills of Lading.
To be handed to Agents:
Ship's Register.
Load Line Certificate.
Safety Equipment Certificate.
Safety Construction Certificate.
Safety Radio Certificate.
Last Port Bill of Health.
Last Port Clearance.
PILOTAGE: No pilot station, being open roadstead port. Vessels not piloted to anchorage.
ANCHORAGE: Vessels anchor according draft and prevailing weather conditions. In fine weather, good anchorage in depths of 3.75 to 6 fathoms with lighthouse bearing 281° to 255°. Holding ground, sand and mud, good. Agents, in consultation with Port Authorities, signal Master on arrival of vessel, anchorage position for guidance.
MAX. SIZE: No restrictions. Vessels choose anchorage according to draft.
HEALTH: On arrival Master to signal local signal station, addressed Port Health Officer stating vessel arrived and no sick person on board. Agents then obtain free pratique from Port Health Authorities. In event any person having chicken-pox or smallpox on board, advisable that Master informs Agents sufficiently in advance to enable them make necessary arrangements for Port Health Officer to board vessel on arrival and obtain free pratique after Port Health Officer is satisfied that isolation arrangement on board adequate.
RADIO: Madras Radio or Colombo Radio. No radio station locally.
TUGS: 2 tugs of 45 h.p. each and a motor launch of 30 h.p. are available for towing lighters.
BERTHING: Open roadstead port. No berths. A mobile crane of 4 tons capacity is available in the port for handling heavy cargoes.
STEVEDORES: Port usually handles fertiliser imported on Government of India account and rate of discharge per day about 750 to 1,200 tons. Advisable that ETA of vessel is passed to Agents at least 2 days in advance to enable them to advise receivers to arrange necessary gangs.
MEDICAL: No advance notice required unless sickness of serious nature when Medical Officer boards vessel on arrival. In case of sickness to officers or crew, Medical Officer boards vessel or if in condition to go ashore, necessary arrangements made to take sick crew to Doctor. District Headquarters Hospital with all medical facilities available. Special wards available for sick members of crew. Vaccination, inoculation against yellow fever, cholera, plague, etc., can be arranged.
DENSITY: 1025.
FRESH WATER: Available in limited quantities and dependent upon port getting continuous supply from municipality. 2 tanks of 14.5 tons capacity placed in lighter are sent alongside vessel and a petrol-driven pump is used to pump up water from tanks into vessel.
FUEL: Diesel oil available in a limited quantity.
GANGWAY/DECK WATCHMEN: In the interest of vessel, 2 gangway and deck watchmen daytime and at night to be employed to avoid pilferage.
OPENING/CLOSING HATCHES: Opening and closing of hatches on arrival of vessel before commencement of discharge and on completion carried out by stevedores. Time used for opening and closing of hatches not counted.
CUSTOMS ALLOWANCES: Tobacco, 1 carton per week per crew member. Wine and Spirit, Whisky or brandy 1 quart each member for a week. No restriction for beer as the issue is based on weather, etc. This rule relaxed if necessary.
IDENTIFICATION CARDS: Needed.
CONSULS: None.
REPAIRS: Minor repairs in engine room and on deck can be effected. Chipping and painting can also be arranged.
DRY DOCKS: None.
REPATRIATION: Facilities available for effecting crew changes and arrangements can be made for repatriation.
AIRPORT: Nearest airport Madras, served by regular airlines.
TIME: GMT plus 5.5 hours.
HOLIDAYS: Observed as declared by Authorities. Vessels work on Charter Party and Government holidays but time not counted. No closed holidays but overtime charged for any work done on Government holidays and on Sundays.
POLICE/AMBULANCE/FIRE: Police 267; Ambulance 299; Fire 299. The Police and Customs Departments maintain their own W/T stations which can be contacted or utilized at times of emergency.
GENERAL: No regular launch service between ship and shore. Agents hire out private launch and obtain permission from port office to ply launch between ship and shore, to facilitate officers and crew to go ashore and for Doctor, Agent and Port Health Officer. Port Authorities do not permit plying of launch after 1800 hrs. 3 trips arranged for launch to go to vessel and back from 0600 to 1800 hrs. every day weather permitting.
SERVICES: Hatch cleaning after discharge of cargo can be carried out.
SHORE LEAVE: Officers and members of crew allowed to go ashore and necessary passes obtained by Agents.
DELAYS: Usually no delay in anchoring vessels and generally all formalities including survey carried out on vessel's arrival. If vessel arrives between 0600 and 1400 hrs., she commences discharge same day.
AUTHORITY: Port Officer.

NAVLAKHI: 22.57 N. 70.27 E.

DOCUMENTS: Arrival:
Last Port Clearance.
Bill of Health/Maritime Declaration of Health.
Customs Arrival Report.
Port Arrival Report.
Agent's Arrival Report.
List of Same Bottom Cargo.
Crew List (6 copies).
Import General Manifest.
Lighthouse Dues Receipt (in case the last port of call being Indian port).
Store List & Private Property List (8 copies each).
Misc. Declaration.
Departure:
Port Clearance (handed over by Customs).
Bill of Health.
Port Departure Report.
Agent's Departure Report.
Income Tax Clearance Certificate (in case of export cargo).
PILOTAGE: Not compulsory. If required an experienced local guide provided by Port Authorities. In such cases Pilot meets vessel at Tuna Buoy station about 19.5 miles from port.
ANCHORAGE: Open roadstead port. Vessels work in stream. 2 vessels can be brought to inner anchorage and work conveniently in good weather. In case a third vessel arrives, it has to anchor at Buoy No. 5 until 1 of the vessels sails from inner anchorage. During non-monsoon times vessels can be moored at Buoy (Navlakhi) No. 5. Chart of the approaches is No. 2017.
RESTRICTIONS: Night navigation not provided. Generally vessels' movements during daytime high water period. Vessels should arrive Tuna Buoy 3 hours before high water in daytime.
HEALTH: Port Health Officer available at Mahendrasinghji.
RADIO: Radio messages intended for this port should be addressed either through Kandla or Bombay Radio Stations.
TUGS: Four tugs available, 150 h.p., 370 h.p., 350 h.p., and 240 h.p.
CARGO HANDLING: Ships lie at anchor in the stream about 2.0 km. from shore and cargo is shipped/landed through lighters. There are 17 barges of 100 tons capacity each. There are godowns of 231,000 sq. ft. floor area to store the cargo passing through ports. There are four 3 tonnes capacity cranes and two of 5 tonnes capacity.
STEVEDORES: At least 24 hours notice to arrange gangs. Rate of loading and discharging for grain and fertiliser about 1,000 tons a day if 1 ship working; in case 2 vessels working simultaneously, combined average of about 1,600 tons can be maintained in fair weather days.
MEDICAL: Small dispensary exists under control of Medical Officer. Qualified extensive medical facilities available at Morvi which is 30 miles away or Rajkot about 60 miles. Health Officer comes from Morvi to attend vessels, if required.
DENSITY: 1025.
FRESH WATER: Supplied only in small quantities. 1 barge with carrying capacity of about 43 tons a trip. Due to very low pressure in pipe-lines, minimum 12 hours to fill barge.
FUEL: None available.
DEVELOPMENTS: A new lighter-wharf in Sui-Side creek is under consideration so as to work lighters all round the clock.
GANGWAY/DECK WATCHMEN: Necessary to appoint watchmen on board to avoid possible thefts.
OPENING/CLOSING HATCHES: Depends upon terms of working. Local stevedores generally attend to this operation but charge to vessel (Owners) in case these operations are vessel's account.
CERTIFICATES:
Load Line Certificate.
Safety Equipment Certificate.
Safety Radio Certificate.
Ship's Register.
Derating Certificate.
IDENTIFICATION CARDS: Customs examine and issue pass to land. But if crew go to suburbs (beyond Morvi which is 30 miles away), identity cards should be carried.

CONSULS: None.
REPAIRS: Workshop for repairs to port equipment and urgent repairs of minor nature can be carried out.
DRY DOCKS: None.
REPATRIATION: Crew being repatriated from this port would be sent to Kandla (after Customs examination) where facilities are available.
AIRPORT: Navlakhi not connected by air. In case of emergency, Kandla or Rajkot nearest airports.
TIME: GMT plus 5.5 hours.
HOLIDAYS: The port holidays are taken as office holidays and non-working days as Charter Party Holidays. Except for non-working days, overtime work will be carried out on payment of overtime.
POLICE/AMBULANCE/FIRE: Checkpost Police Station without telephone.
TELEPHONES: Few important offices are connected with telephones, and no telephone service can be provided on board vessel.
SHORE LEAVE: The crew members are allowed ashore on showing Identification Cards to Customs.
AUTHORITY: Port Officer.

NEW MANGALORE: 12.57 N. 74.48 E. **(See Plan Book)**

LOCATION: New Mangalore port is situated at 9 km. North of the existing minor port of Mangalore.
PILOTAGE: Compulsory.
ANCHORAGE: Vessels are advised to anchor in a depth of 10 m. (33 ft.) in a position with Surathkal lighthouse, flashing 10 seconds, bearing 011° (T) distance from lighthouse 4.3 miles. Entry into the channel with Pilot is made with 2 transit towers.
NAVIGATION AIDS: Include fairway buoy, front and rear leading lights and channel marking buoys.
APPROACHES: The port has been created by carving out of the mainland a 200-acre lagoon 10.1 m. deep. The lagoon is connected to the sea by an approach channel, 3,200 m. long protected by 2 breakwaters each 570 m. long, constructed one on either side of the channel and extends to the 5 m. contour.
BERTHING: New Mangalore port provides for three alongside berths to cater to (1) general cargo, (2) iron ore and manganese ore, (3) raw materials import for fertiliser factory, (4) one shallow draft berth for export of finished fertilisers and, (5) an oil jetty for handling of naphtha and petroleum products. The dredged depth available at the alongside berths including oil jetty is 9.75 m., the shallow draft berth has a draft of 6.15 m.

The port has been well provided with storage facilities and cargo handling equipment such as floating crane, electric level luffing cranes, mobile cranes, pay loaders, tractor trailer unit etc., all of varying capacities.
TANKERS: The oil jetty is located in the S.W. portion of the lagoon very near to the approach channel. The dredged depth at the oil jetty site during the first phase of construction will be R.L.-9.75 m. During high tide, the depth will be R.L.-10.65 m. affording berthing facilities for 30,000 d.w.t. tankers.
FRESH WATER: Available.
FUEL: Available.
REPAIRS: Well equipped workshop.
COMMUNICATIONS: Port is connected by a broad gauge railway line to Madras via Shornur and a metre gauge line connects the port with Bangalore via Hassan and National Highway 17, connecting Bombay to Cape Comorin passes by the side of the new port.
DEVELOPMENTS: Provision for procurement of 22.5 ton bollard pull tug and construction of a slipway have been made in the 5th Five Year Plan. The second stage development of the port for providing port facilities to export iron ore concentrates from Kudremukh region through New Mangalore port has been taken up for execution and is in progress.

The Kudremukh Iron Ore Project envisages transporting of the beneficiated ore in slurry form from the mine head to the filtration plant near the harbour, converting the same into filter cakes and stacking in a covered stock pile in the port area. The concentrates are then loaded into the bulk carriers by means of mechanical loading comprising of ship loaders, reclaimers and stackers. After completion of the project the port will be exporting annually about 7.5 million tonnes of iron ore concentrates to Iran for a period of 20 years.

In order to develop the existing New Mangalore port to cater to the needs of receiving 60,000 d.w.t. ore carriers for export of these iron ore concentrates, the following developmental works have been taken up and are nearing completion.

1. Construction of an iron ore berth.
2. Deepening the lagoon, inner and outer approach channel −13.0 m. and −13.5 m. respectively.
3. Additional navigational aids including aids for night navigation.
4. Additional harbour crafts for berthing and unberthing of bulk ore carriers.
5. Bunkering facilities for ore carriers.
6. Electrical installations, water supply connections, etc., etc. and
7. Extension of roads, drainage and other facilities to the ore berth.

SHIPMASTERS REPORT: 1979.
Documents: Same as "Mangalore".
Pilotage: Pilot boards in vicinity of fairway buoy. Pilot boat has pilot flag atop its mast.
Restrictions: At present pilotage during daylight hours only.
Anchorage: North of fairway buoy as South of buoy being used as dumping ground for dredgers.
VHF: Channel 16 for calling and listening to Pilots.
Radar: None.
Tugs: MOT Tug No. 1 presently being used to assist in berthing.
Cranes: 1 floating crane up to 60 tonnes capacity. On other berths no quayside cranes.
Hospital: Hospital facilities good.
Fuel: No fuel available except for very small quantities of diesel oil.
Hatches: Opening/closing by ships crew.
Drydocks: None.
Repairs: Minor repairs can be effected.
Specialised Cargo Handling Facilities: None. New Ore loading terminal to be completed in the near future.
AUTHORITY: The Chairman, New Mangalore Port Trust.

OKHA: 22.28 N. 69.05 E.

DOCUMENTS: 5 copies each of Import Manifest, Crew List. Passenger List, Ship's Stores Manifest, Crew Property List.
PILOTAGE: Compulsory. Pilot station Lat. 22° 30.5′ N.; Long. 69° 04.6′ E.; 1.35 miles N.W. of Samiani Light Tower.
ANCHORAGE: Roadstead anchorage near Pilot station.
MAX. SIZE: 525 ft. LOA during N.E. monsoon and 540 ft. LOA during S.W. monsoon. Max. draft variable, 22 ft. – 27 ft. depending on daily tide.
PRATIQUE: The Master should cable the Port Health Officer (Quarantine Okha) in International Health Code, requesting free pratique. If radio pratique is not effected, then Masters should present Maritime Declaration to the Customs Boarding Officer who is authorised to grant free pratique. If the vessel is arriving from yellow-fever area, the mosquito control team is arranged from Kandla, where the cable address of the Port Health Officer is "Sangrodh Kandla".
RADIO: Post and Telegraph Department Wireless station call sign VWO can be contacted from 0800 to 2000 hrs. I.S.T. for communication to and from Local Agents.
TUGS: Port-owned tugs join vessel while entering port channel and/or vacating it at time of berthing and/or unberthing.
BERTHING: Only daylight hours. Vessels should be ready in all respects to move berth 1.5 hours before high water at Pilot station.
Sayaji Pier – East side 27 ft. draft; West side 20 ft. draft.
Dry cargo berth – 25 ft. draft.
CRANES: Vessels use own derricks for heavy lifts. There are 2 electric cranes at the Dry cargo berth each 1.5 – 2.0 tons capacity.
BRIDGES: None.
STEVEDORES: Firm ETA including requirements order avoid delay. *(a) Exports:* Mainly cement, bauxite and chemicals and general merchandise, rate 100/125 tons per shift per hook. *(b) Imports:* Mineral oils average rate about 300 to 500 t.p.h. according to ship's pumping capacity; general cargo same rate as export.
MEDICAL: Port Health Officer always available. Well-equipped hospital at Mithapur under Tata Chemicals at a distance of about 7 miles from port. Medical aid available throughout day and night.
TANKERS: All dry cargo vessels regulations apply for tankers, particularly size, etc. 1 berth, draft 27 ft. No slop facilities.
DENSITY: 1025.
FRESH WATER: Limited. Port supplying water by barge and shore pipe-line. In normal cases 25 tons water supplied per day. In cases of emergency 40 tons water can be supplied per day.
FUEL: Available but arrangement should be made through Indian Oil Corporation; head offices at Bombay.
FIRE PRECAUTIONS: Port Department maintains a small fire station.
GANGWAY/DECK WATCHMEN: Vessel to provide own gangway watchmen. Shore-watchman available for employment on shift basis (8 hour shifts).
OPENING/CLOSING HATCHES: To be attended to by ship's crew, if not contracted with stevedores which may cost extra.
CERTIFICATES: Ship's Register, Load Line Certificate, Safety Equipment, Safety Gear, Radio.
CUSTOMS ALLOWANCES: At Customs Preventive Squad's discretion.
CARGO GEAR: Normal gear supplied by stevedores for hire.
IDENTIFICATION CARDS: Necessary.
CONSULS: None.
REPAIRS: Only minor repairs.
DRY DOCKS: None.
REPATRIATION: Necessary formalities to be completed at District Headquarters situated at Jamnagar, a distance of about 110 miles: such as Police, Health (whereas Customs formality can be completed locally).
AIRPORT: Nearest airport Jamnagar about 110 miles connected with Okha by rail and road. Only local service to Bombay daily operated.
TIME: GMT plus 5.5 hours. (I.S.T.)
HOLIDAYS: As declared by Port Authorities, cargo work can be arranged by paying usual scheduled overtime but labour's observed holidays (about 8 days in a year) completely closed.
TELEPHONES: Only for tankers by respective oil installation.
GENERAL: Port governed by Gujarat State and all rules and regulations laid down by them in addition to Central Government rules applicable to this port. Port connected with hinterland by rail, motor transport, 300 miles by sea from Bombay, 2 tides in 24 hours, mean high water spring rise about 11.5 ft. and mean low water neap rise 9.5 ft.; current in neap tide is 2 to 3.5 knots. Wind force/direction during April/September S.W. 3/5 and in October/March N.W. to N.E. from 2/4.
SERVICE: Tank cleaning by manual labour.
SHORE LEAVE: Crew allowed ashore after vessel cleared by immigration officer who boards vessel on arrival.
DELAYS: Delay only encountered if berth or moorings are occupied.
AUTHORITY: Port Officer – Okha Port and Superintendent of Customs, Okha (Ahmedabad Collectorate).

PARADIP: 20.14 N. 86.42 E. (See Plan Book)

PORT LIMITS: 10-fathom line in Bay of Bengal.

DOCUMENTS:

"No opium" Certificate.
Deck Cargo Certificate.
Arrival and departure reports.
Anchorage Certificate.
6 copies of Crew Lists.
Manifest or Bills of Lading.

PILOTAGE: Pilotage available during daytime only. Last pilotage 1630 hrs. Give ETA to Agents at least 24 hours in advance. Agents book Pilot and arrange for inward pilotage after arrival.

ANCHORAGE: Anchorage particulars given in chart published as "Paradip Anchorage". Vessel can anchor depending on draft, 4 cables from Fairway Buoy, positioned Lat. 20° 14.51′ N. and Long. 86° 42.19′ E. Pilot boards during daytime with help of Pilot launch.

RESTRICTIONS: Vessels not berthed/sailed during night-time after 1630 hrs. Vessels to have maximum ballast for entering.

MAX. SIZE: LOA 850 ft. and max. draft 39 ft. Also see "Berthing".

Subject to weather conditions longer vessels may be berthed. A vessel of 840 ft. has been berthed, also vessels with 39 ft. draft.

HEALTH: Send usual quarantine message to "Quarantine Paradipport" 24 hours before arrival for radio pratique. Pilot gives free pratique on boarding vessel subject to no sick person on board. In case of suspected disease or fever on board, Port Medical Officer visits ship at anchorage/berth and cases of contagious disease are isolated and sent to nursing home.

RADIO: VHF radio installed at signal station in the Harbour Office. Calling Channel 16. Working Channel 9.

Working Hours: every even hour for 10 minutes from 0600 hrs. to 2200 hrs. and when ships are making or leaving the port.

VHF: Vessels are requested to establish contact with the control station when within VHF range (approx. 40 to 60 miles) and before entering, moving in or sailing from the port.

When within VHF range, ships are requested to give the following information:

(1) Name of ship.
(2) Ports of departure, call and destination.
(3) ETA.
(4) Vessels gross tonnage, LOA, breadth, draft and speed.
(5) Number of cases of dangerous contagious diseases on board.
(6) Type and quantity of cargo.
(7) Name of Agents and requirements.

TUGS: Tugs join vessel just inside approach channel. Ship's lines only used.

BERTHING: 1 iron ore berth, 1 general cargo berth and 1 mooring berth.
Iron-ore Berth: Overall length 320.5 m., draft 11.89 m., beam unrestricted. Accepts vessels up to 80,000 d.w.t.
General Cargo Berth: Length 290 m., draft 10.69 m.
Mooring Buoy Berth: Vessels up to 850 ft. with draft 39 ft. can be moored.

CRANES:

Types of crane	*Nos.*	*Capacity*
E.L. wharf cranes	3	13 T
Mobile cranes	8	7 to 20 tonnes each
Cargo Handling Equipment:		
Fork lift trucks	10	3 T
Front end loaders	2	2.3 cu.m.
Rear dumpers	7	4.5 cu.m.
Tractor trailers	4	5 T
Tractor trailers	1	10 T
Tractor trailers	1	20 T

BULK HANDLING FACILITIES: 1 iron ore berth with mechanical loading plants of rated capacity 2,500 t.p.h.

SPECIALISED CARGO HANDLING FACILITIES: At present no facilities available for container, roll-on/roll-off traffic or liquid chemicals.

STEVEDORES: Stevedores required for loading/unloading at General Cargo Berth and Mooring Berth and at Iron Ore Berth when there is no Iron-ore vessel at the Port. Average loading rates achieved for different cargoes as follows:

Cargo	*Tons per day*
Chrome-ore	1,200
Pig-iron	1,500
Coal	3,000
Iron & Steel	1,000
Foodgrains	1,500
Fertilisers	750
Other General Cargo	750

TANKERS: No facilities available at present.

MEDICAL: After arrival, Doctor can board vessel to attend to any urgent case. No hospital facilities. Sick crew sent to Cuttack/Bhubaneshwar about 90/120 km. from Paradip.

DENSITY: Varies from 1018 to 1024 with average of 1021.

FRESH WATER: Water supplied both at iron ore berth, Quay berth and also at moorings but not at roads. Water supplied at an average of 100 tons per day.

FUEL: HSD and furnace oil can only be procured from Cuttack on duty paid oils only. Arrangements will have to be made well in advance and the port will only provide berthing facilities for taking bunkers.

FIRE PRECAUTIONS: Fire extinguishers available.

GANGWAY/DECK WATCHMEN: Necessary.

OPENING/CLOSING HATCHES: Undertaken by crew only.

CERTIFICATES:

Ship's Register.
Load Line Certificate.
Safety Radio Certificate.
Safety Equipment Certificate.
Last Port of Clearance.
Deratisation Certificate.

CUSTOMS ALLOWANCES: Tobacco: 200 cigarettes per head per week. Wine and/or Spirit: 1 bottle of 24 ounces per head per week.

CARGO GEAR: Valid cargo gear certificate required.

IDENTIFICATION CARDS: Authorities issue landing pass.

CONSULS: None.

REPAIRS: Minor repair facilities exist.

DRY DOCKS: A 500-ton slipway available.

REPATRIATION: Repatriation of foreign personnel is strictly not allowed as Paradip has not been declared a port of embarkation and disembarkation. Only emergency cases considered provided sufficient time is given, for permission from the Home Secretary of local Government from Bhubaneshwar and other immigration authorities.

AIRPORT: Nearest airport at Bhubaneshwar 120 km. Only local flights available. Flight timings to Visakhapatnam 1100 hrs. and Calcutta at 1500 hrs. and 1925 hrs. daily.

TIME: Local time GMT plus 5.5 hours.

HOLIDAYS: Charter Party holidays. Normally work carried out on all days.

POLICE/AMBULANCE/FIRE: Police 227; Ambulance 241. No fire service station at present.

TELEPHONE: No facilities for telephones on board.

SERVICES: None available.

SHORE LEAVE: Port Immigration issue shore passes to all foreign nationals excepting Chinese and Pakistanis and with shore passes crew allowed ashore.

DELAYS: Vessels generally get berth on "First Come First Served" basis.

DEVELOPMENTS: Turning Basin enlarged to 520 m. Second cargo berth under construction. Transit sheds and warehouses have been constructed.

SHIPMASTERS REPORT No. 1: (1975). Suggest vessels follow the normal procedure for Calcutta re-arrival documents.

Customs officials require the personal attention of the Purser to a greater extent than in any other Indian port.

Stores: Fresh stores about average quality for Indian ports. One is not advised to try to buy meat or fish as these commodites come from Cuttack, a good distance away, and frozen imported meat is not available.

SHIPMASTERS REPORT No. 2: (1976).

Berths: Apart from 1 iron ore berth and 1 mooring berth there is now a general cargo berth. The long arm has a length of 290.65 m. and a short arm 118.40 m. The depth alongside is 36 ft. 2 ships are normally berthed at the long arm but the ship at the Southern end normally overhangs slightly (when 2 average size ships are berthed).

Stevedores: There are a number of stevedores available at the port. No notice is required.

Services: Fresh provisions are available but 24 hours notice is required for most items. Laundry can also be arranged by Agent.

AUTHORITY: Chairman, Paradip Port Trust.

PONDICHERRY: 11.56 N. 79.50 E.

DOCUMENTS:

Ship's Register.
Load Line Certificate.
Safety Equipment Certificate.
Safety Radio Certificate.
Last Port Bill of Health.
Last Port Clearance.
Store List with Private Property Declaration in Triplicate.
Crew List (8 copies).
Light Dues Receipt.
Manifest (Import or Export).
Bill of Lading.

PILOTAGE: Not necessary as open roadstead anchorage.

ANCHORAGES: Proper anchorage in line with New Pier. 2 chimneys in line (276°) will provide good transit in day time and at night green/red light in transit with red pier light can be taken.

MAX. SIZE: Anchorage is 7 fathoms within 1 mile from New Pier.

HEALTH: Free pratique obtained on arrival and Master expected to address message to Port Health Officer, advising that all are well on board. Free pratique automatic for vessels calling from any Indian ports.

RADIO: Cables routed through Madras Radio (call sign VWM).

TUGS: Tug kept ready at New Pier for towing barges.

BERTHING: No berths.

STEVEDORES: 48 hours notice prior to arrival. Rate of discharge of bagged cargo 800 to 1,000 tons per day.

MEDICAL: No advance notice necessary. General Hospital and Jipmer Hospital available.

TANKERS: Transfer operations are carried out at anchorage 1.5–2.5 miles off shore.

DENSITY: 1025.

FRESH WATER: Not available.

FUEL: Not available.

GANGWAY/DECK WATCHMEN: Services not compulsory, but recommended to avoid pilferage. 3 watchmen day/night.

OPENING/CLOSING HATCHES: Normally carried out by crew.

CUSTOMS ALLOWANCES: Tobacco, 200 cigarettes permitted for each Crew member to be held out of bond. Wine and/or Spirit, 1 open quart bottle per Crew member permitted to be held out of bond.

IDENTIFICATION CARDS: Not needed if furnished with Crew List.

CONSULS: Only French Consulate General. Tel. 58.

REPAIRS: Deck and Engine repairs not attended. Special arrangements can be made from Madras. Minor repairs carried out privately.

DRY DOCKS: None.
REPATRIATION: Facilities exist for effecting crew changes and arranging necessary repatriation.
AIRPORT: Nearest airport is Meenambakam Airport, Madras, distant 160 km.
TIME: GMT plus 5.5 hours.
HOLIDAYS: Observed as declared by Authorities but cargo work arranged on all holidays on payment of overtime, except on Republic day, Gandhi's Birthday, May Day and Independence Day.
POLICE/AMBULANCE/FIRE: Police 100; Fire 101; Ambulance arranged through hospital doctor on duty, tel. 198.
TELEPHONES: No facilities to place on board.
GENERAL: For purposes of crew going ashore, launches arranged between 0600 hrs. and 1800 hrs. weather permitting, hired from private parties. Laundry facilities, supply of fresh vegetables and provisions arranged.
SERVICES: None.
SHORE LEAVE: Crew members permitted ashore but have to remain within town limit.
DELAYS: Delays occur only under unavoidable circumstances such as Surf Declaration, Cyclone, etc. Vessels arriving at night, commence discharge operations next morning.
AUTHORITY: Port Officer.

PORBANDAR: 21.38 N. 69.36 E.

DOCUMENTS:
Crew Lists (6 copies).
